CITIZENS & NORTHERN CORPORATION – FORM 10-Q**Notes to Unaudited Consolidated Financial Statements****1. BASIS OF INTERIM PRESENTATION**

The consolidated financial information included herein, with the exception of the consolidated balance sheet dated December 31, 2014, is unaudited. Such information reflects all adjustments (consisting solely of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations, comprehensive income, cash flows and changes in stockholders' equity for the interim periods; however, the information does not include all disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for a complete set of financial statements.

Operating results reported for the three-month and nine-month periods ended September 30, 2015 might not be indicative of the results for the year ending December 31, 2015. The Corporation evaluates subsequent events through the date of filing with the Securities and Exchange Commission.

2. PER SHARE DATA

Net income per share is based on the weighted-average number of shares of common stock outstanding. The following data show the amounts used in computing basic and diluted net income per share. As shown in the table that follows, diluted earnings per share is computed using weighted average common shares outstanding, plus weighted-average common shares available from the exercise of all dilutive stock options, less the number of shares that could be repurchased with the proceeds of stock option exercises based on the average share price of the Corporation's common stock during the period.

	Net Income	Weighted- Average Common Shares	Earnings Per Share
Nine Months Ended September 30, 2015			
Earnings per share – basic	\$12,406,000	12,222,557	\$1.02
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		213,511	

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

Hypothetical share repurchase at \$19.94		(192,322)	
Earnings per share – diluted	\$12,406,000	12,243,746	\$1.01
Nine Months Ended September 30, 2014			
Earnings per share – basic	\$12,718,000	12,419,538	\$1.02
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		233,579	
Hypothetical share repurchase at \$19.28		(212,200)	
Earnings per share – diluted	\$12,718,000	12,440,917	\$1.02

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

	Net Income	Weighted- Average Common Shares	Earnings Per Share
Three Months Ended September 30, 2015			
Earnings per share – basic	\$4,234,000	12,200,129	\$0.35
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		204,449	
Hypothetical share repurchase at \$19.90		(184,248)	
Earnings per share – diluted	\$4,234,000	12,220,330	\$0.35
Three Months Ended September 30, 2014			
Earnings per share – basic	\$4,267,000	12,399,482	\$0.34
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		222,344	
Hypothetical share repurchase at \$19.33		(201,826)	
Earnings per share – diluted	\$4,267,000	12,420,000	\$0.34

Stock options that were anti-dilutive were excluded from net income per share calculations. Weighted-average common shares available from anti-dilutive instruments totaled 66,351 shares in the nine-month period ended September 30, 2015, 169,728 shares in the nine-month period ended September 30, 2014, 47,974 shares in the third quarter 2015 and 137,873 shares in the third quarter 2014.

3. COMPREHENSIVE INCOME

Comprehensive income is the total of (1) net income, and (2) all other changes in equity from non-stockholder sources, which are referred to as other comprehensive income. The components of other comprehensive income, and the related tax effects, are as follows:

(In Thousands)	Before- Tax Amount	Income Tax Effect	Net-of- Tax Amount
Nine Months Ended September 30, 2015:			
Unrealized gains on available-for-sale securities:			
Unrealized holding gains on available-for-sale securities	\$2,369	(\$829)	\$1,540
Reclassification adjustment for (gains) realized in income	(1,085)	380	(705)
Other comprehensive income on available-for-sale securities	1,284	(449)	835

Unfunded pension and postretirement obligations:

Changes from plan amendments and actuarial gains and losses included in other comprehensive income	(100)	35	(65)
Amortization of net transition obligation, prior service cost and net actuarial loss included in net periodic benefit cost	(11)	3	(8)
Other comprehensive loss on unfunded retirement obligations	(111)	38	(73)
Total other comprehensive income	\$1,173	(\$411)	\$762

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

4. CASH AND DUE FROM BANKS

Cash and due from banks at September 30, 2015 and December 31, 2014 include the following:

(In thousands)	Sept. 30, 2015	Dec. 31, 2014
Cash and cash equivalents	\$27,793	\$31,619
Certificates of deposit	4,428	4,428
Total cash and due from banks	\$32,221	\$36,047

Certificates of deposit are issued by U.S. banks with original maturities greater than three months. Each certificate of deposit is fully FDIC-insured. The Corporation maintains cash and cash equivalents with certain financial institutions in excess of the FDIC insurance limit.

The Corporation is required to maintain reserves against deposit liabilities in the form of cash and balances with the Federal Reserve Bank of Philadelphia. The reserves are based on deposit levels, account activity, and other services provided by the Federal Reserve Bank. Required reserves were \$15,226,000 at September 30, 2015 and \$16,853,000 at December 31, 2014.

5. FAIR VALUE MEASUREMENTS AND FAIR VALUES OF FINANCIAL INSTRUMENTS

The Corporation measures certain assets at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. FASB ASC topic 820, “Fair Value Measurements and Disclosures” establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Corporation for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever

available.

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets and other observable inputs.

Level 3 – Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows and other similar techniques.

The Corporation monitors and evaluates available data relating to fair value measurements on an ongoing basis and recognizes transfers among the levels of the fair value hierarchy as of the date of an event or change in circumstances that affects the valuation method chosen. Examples of such changes may include the market for a particular asset becoming active or inactive, changes in the availability of quoted prices, or changes in the availability of other market data.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

At September 30, 2015 and December 31, 2014, assets measured at fair value and the valuation methods used are as follows:

(In Thousands)	September 30, 2015			Total Fair Value

Total nonrecurring fair value measurements	\$0	\$0	\$3,661	\$3,661

Management's evaluation and selection of valuation techniques and the unobservable inputs used in determining the fair values of assets valued using Level 3 methodologies include sensitive assumptions. Other market participants might use substantially different assumptions, which could result in calculations of fair values that would be substantially different than the amount calculated by management.

At September 30, 2015 and December 31, 2014, quantitative information regarding significant techniques and inputs used for assets measured on a recurring basis using unobservable inputs (Level 3 methodologies) are as follows:

Fair Value at 9/30/15	Valuation	Unobservable	Method or Value As of
--------------------------	-----------	--------------	-----------------------

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

Asset	(In Thousands)	Technique	Input(s)	9/30/15
Servicing rights	\$1,279	Discounted cash flow	Discount rate	10.00% Rate used through modeling period
			Loan prepayment speeds	155.00% Weighted-average PSA
			Servicing fees	0.25% of loan balances
				4.00% of payments are late
				5.00% late fees assessed
				\$1.94 Miscellaneous fees per account per month
			Servicing costs	\$6.00 Monthly servicing cost per account
				\$24.00 Additional monthly servicing cost per loan on loans more than 30 days delinquent
				1.50% of loans more than 30 days delinquent
				3.00% annual increase in servicing costs

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

Asset	Fair Value at 12/31/14 (In Thousands)	Valuation Technique	Unobservable Input(s)	Method or Value As of 12/31/14	
Servicing rights	\$1,281	Discounted cash flow	Discount rate	12.00%	Rate used through modeling period
			Loan prepayment speeds	156.00%	Weighted-average PSA
			Servicing fees	0.25%	of loan balances
				4.00%	of payments are late
				5.00%	late fees assessed
			Servicing costs	\$1.94	Miscellaneous fees per account per month
				\$6.00	Monthly servicing cost per account
	\$24.00	Additional monthly servicing cost per loan on loans more than 30 days delinquent			
	1.50%	of loans more than 30 days delinquent			
	3.00%	annual increase in servicing costs			

The fair value of servicing rights is affected by expected future interest rates. Increases (decreases) in future expected interest rates tend to increase (decrease) the fair value of the Corporation's servicing rights because of changes in expected prepayment behavior by the borrowers on the underlying loans.

Following is a reconciliation of activity for Level 3 assets measured at fair value on a recurring basis:

(In Thousands)	Three Months Ended		Nine Months Ended	
	Sept. 30, 2015	Sept. 30, 2014	Sept. 30, 2015	Sept. 30, 2014
Servicing rights balance, beginning of period	\$1,209	\$1,281	\$1,281	\$1,123
Issuances of servicing rights	57	32	135	138
Unrealized gains (losses) included in earnings	13	(17)	(137)	35
Servicing rights balance, end of period	\$1,279	\$1,296	\$1,279	\$1,296

Loans are classified as impaired when, based on current information and events, it is probable that the Corporation will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Foreclosed assets held for sale consist of real estate acquired by foreclosure. For impaired commercial loans secured by real estate and foreclosed assets held for sale, estimated fair values are determined primarily using values from third-party appraisals. Appraised values are discounted to arrive at the estimated selling price of the collateral, which is considered to be the estimated fair value. The discounts also include estimated costs to sell the property.

At September 30, 2015 and December 31, 2014, quantitative information regarding significant techniques and inputs used for nonrecurring fair value measurements using unobservable inputs (Level 3 methodologies) are as follows:

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**(In Thousands, Except Percentages)**

Asset	Valuation			Valuation Technique	Unobservable Inputs
	Balance at 9/30/15	Allowance at 9/30/15	Fair Value at 9/30/15		
Impaired loans:

Total foreclosed assets held for sale	\$1,189	\$0	\$1,189		

Certain of the Corporation's financial instruments are not measured at fair value in the consolidated financial statements. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Certain financial instruments and all nonfinancial instruments are excluded from disclosure requirements. Therefore, the aggregate fair value amounts presented may not represent the underlying

fair value of the Corporation.

The Corporation used the following methods and assumptions in estimating fair value disclosures for financial instruments:

CASH AND CASH EQUIVALENTS - The carrying amounts of cash and short-term instruments approximate fair values.

CERTIFICATES OF DEPOSIT - Fair values for certificates of deposit, included in cash and due from banks in the consolidated balance sheet, are based on quoted market prices for certificates of similar remaining maturities.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

SECURITIES - Fair values for securities, excluding restricted equity securities, are based on quoted market prices or other methods as described above. The carrying value of restricted equity securities approximates fair value based on applicable redemption provisions.

LOANS HELD FOR SALE - Fair values of loans held for sale are determined based on applicable sale prices available under the Federal Home Loan Banks' MPF Xtra and MPF Original programs.

LOANS - Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial, commercial real estate, residential mortgage and other consumer. Each loan category is further segmented into fixed and adjustable rate interest terms and by performing and nonperforming categories. The fair value of performing loans is calculated by discounting contractual cash flows, adjusted for estimated prepayments based on historical experience, using estimated market discount rates that reflect the credit and interest rate risk inherent in the loans. Fair value of nonperforming loans is based on recent appraisals or estimates prepared by the Corporation's lending officers.

SERVICING RIGHTS - The fair value of servicing rights, included in other assets in the consolidated balance sheet, is determined through a discounted cash flow valuation. Significant inputs include expected net servicing income, the discount rate and the expected prepayment speeds of the underlying loans.

DEPOSITS - The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings, money market and interest checking accounts, is (by definition) equal to the amount payable on demand at September 30, 2015 and December 31, 2014. The fair value of time deposits, such as certificates of deposit and Individual Retirement Accounts, is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities. The fair value estimates of deposits do not include the benefit that results from the low-cost funding provided by the deposit liabilities compared to the cost of borrowing funds in the market, commonly referred to as the core deposit intangible.

BORROWED FUNDS - The fair value of borrowings is estimated using discounted cash flow analyses based on rates currently available to the Corporation for similar types of borrowing arrangements.

ACCRUED INTEREST - The carrying amounts of accrued interest receivable and payable approximate fair values.

OFF-BALANCE SHEET COMMITMENTS - The Corporation has commitments to extend credit and has issued standby letters of credit. Standby letters of credit are conditional guarantees of performance by a customer to a third party. Estimates of the fair value of these off-balance sheet items were not made because of the short-term nature of these arrangements and the credit standing of the counterparties.

The estimated fair values, and related carrying amounts, of the Corporation's financial instruments are as follows:

(In Thousands)	Valuation Method(s) Used	September 30, 2015		December 31, 2014

Subtotal	158,277	163,175
Mortgage-backed securities	71,681	72,697
Collateralized mortgage obligations, Issued by U.S. Government agencies	216,981	218,052
Total	\$446,939	\$453,924

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The Corporation's mortgage-backed securities and collateralized mortgage obligations have stated maturities that may differ from actual maturities due to borrowers' ability to prepay obligations. Cash flows from such investments are dependent upon the performance of the underlying mortgage loans and are generally influenced by the level of interest rates. In the table above, mortgage-backed securities and collateralized mortgage obligations are shown in one period.

Investment securities carried at \$333,847,000 at September 30, 2015 and \$369,945,000 at December 31, 2014 were pledged as collateral for public deposits, trusts and certain other deposits as provided by law. See Note 8 for information concerning securities pledged to secure borrowing arrangements.

Management evaluates securities for other-than-temporary impairment (OTTI) at least on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) whether the Corporation intends to sell the security or more likely than not will be required to sell the security before its anticipated recovery.

A summary of information management considered in evaluating debt and equity securities for OTTI at September 30, 2015 is provided below.

Debt Securities

At September 30, 2015, management performed an assessment for possible OTTI of the Corporation's debt securities on an issue-by-issue basis, relying on information obtained from various sources, including publicly available financial data, ratings by external agencies, brokers and other sources. The extent of individual analysis applied to each security depended on the size of the Corporation's investment, as well as management's perception of the credit risk associated with each security. Based on the results of the assessment, management believes impairment of debt securities at September 30, 2015 to be temporary.

Equity Securities

The Corporation's marketable equity securities at September 30, 2015 and December 31, 2014 consisted exclusively of stocks of banking companies. At September 30, 2015, the Corporation held one stock with an unrealized loss of \$5,000 for which management determined an OTTI charge was not required.

In the third quarter 2015, the Corporation had no realized gains or losses from the sale of bank stocks. For the nine months ended September 30, 2015, the Corporation had gains from the sale of bank stocks totaling \$476,000. The Corporation realized gains from sales of bank stocks totaling \$289,000 in the three-month period ended September 30, 2014 and \$363,000 in the nine-month period ended September 30, 2014.

C&N Bank is a member of the Federal Home Loan Bank of Pittsburgh (FHLB-Pittsburgh), which is one of 11 regional Federal Home Loan Banks. As a member, C&N Bank is required to purchase and maintain stock in FHLB-Pittsburgh. There is no active market for FHLB-Pittsburgh stock, and it must ordinarily be redeemed by FHLB-Pittsburgh in order to be liquidated. C&N Bank's investment in FHLB-Pittsburgh stock, included in Other Assets in the consolidated balance sheet, was \$2,337,000 at September 30, 2015 and \$1,454,000 at December 31, 2014. The Corporation evaluated its holding of FHLB-Pittsburgh stock for impairment and deemed the stock to not be impaired at September 30, 2015 and December 31, 2014. In making this determination, management concluded that recovery of total outstanding par value, which equals the carrying value, is expected. The decision was based on review of financial information that FHLB-Pittsburgh has made publicly available.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**7. LOANS**

The loans receivable portfolio is segmented into residential mortgage, commercial and consumer loans. Loans outstanding at September 30, 2015 and December 31, 2014 are summarized by segment, and by classes within each segment, as follows:

Summary of Loans by Type (In Thousands)	Sept. 30, 2015	Dec. 31, 2014
Residential mortgage:		
Residential mortgage loans - first liens	\$298,096	\$291,882
Residential mortgage loans - junior liens	20,601	21,166
Home equity lines of credit	38,585	36,629
1-4 Family residential construction	23,633	16,739
Total residential mortgage	380,915	366,416
Commercial:		
Commercial loans secured by real estate	135,760	145,878
Commercial and industrial	72,011	50,157
Political subdivisions	40,186	17,534
Commercial construction and land	6,852	6,938
Loans secured by farmland	7,521	7,916
Multi-family (5 or more) residential	9,181	8,917
Agricultural loans	4,588	3,221
Other commercial loans	12,691	13,334
Total commercial	288,790	253,895
Consumer	10,160	10,234
Total	679,865	630,545
Less: allowance for loan losses	(7,416)	(7,336)
Loans, net	\$672,449	\$623,209

The Corporation grants loans to individuals as well as commercial and tax-exempt entities. Commercial, residential and personal loans are made to customers geographically concentrated in the Pennsylvania and New York counties that comprise the market serviced by Citizens & Northern Bank. Although the Corporation has a diversified loan portfolio, a significant portion of its debtors' ability to honor their contracts is dependent on the local economic conditions within the region. There is no concentration of loans to borrowers engaged in similar businesses or activities that exceed 10% of total loans at either September 30, 2015 or December 31, 2014.

The Corporation maintains an allowance for loan losses that represents management's estimate of the losses inherent in the loan portfolio as of the balance sheet date and recorded as a reduction of the investment in loans. The allowance for loan losses is maintained at a level considered adequate to provide for losses that can be reasonably anticipated. Management performs a quarterly evaluation of the adequacy of the allowance. The allowance is based on the Corporation's past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, composition of the loan portfolio, current economic conditions and other relevant factors. This evaluation is inherently subjective as it requires material estimates that may be susceptible to significant revision as more information becomes available. In the process of evaluating the loan portfolio, management also considers the Corporation's exposure to losses from unfunded loan commitments. As of September 30, 2015 and December 31, 2014, management determined that no allowance for credit losses related to unfunded loan commitments was required.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

Transactions within the allowance for loan losses, summarized by segment and class, for the three-month and nine-month periods ended September 30, 2015 and 2014 were as follows:

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

In the evaluation of the loan portfolio, management determines two major components for the allowance for loan losses – (1) a specific component based on an assessment of certain larger relationships, mainly commercial purpose loans, on a loan-by-loan basis; and (2) a general component for the remainder of the portfolio based on a collective evaluation of pools of loans with similar risk characteristics. The general component is assigned to each pool of loans based on both historical net charge-off experience, and an evaluation of certain qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management’s estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the above methodologies for estimating specific and general losses in the portfolio.

In determining the larger loan relationships for detailed assessment under the specific allowance component, the Corporation uses an internal risk rating system. Under the risk rating system, the Corporation classifies problem or potential problem loans as “Special Mention,” “Substandard,” or “Doubtful” on the basis of currently existing facts, conditions and values. Substandard loans include those characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected. Loans classified as Doubtful have all the weaknesses inherent in those classified as Substandard with the added characteristic that the weaknesses present make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. Loans that do not currently expose the Corporation to sufficient risk to warrant classification as Substandard or Doubtful, but possess weaknesses that deserve management’s close attention, are deemed to be Special Mention. Risk ratings are updated any time that conditions or the situation warrants. Loans not classified are included in the “Pass” column in the table below.

The following tables summarize the aggregate credit quality classification of outstanding loans by risk rating as of September 30, 2015 and December 31, 2014:

The general component of the allowance for loan losses covers pools of loans including commercial loans not considered individually impaired, as well as smaller balance homogeneous classes of loans, such as residential real estate, home equity lines of credit and other consumer loans. Accordingly, the Corporation generally does not separately identify individual consumer and residential loans for impairment disclosures, unless such loans are subject to a restructuring agreement. The pools of loans are evaluated for loss exposure based upon three-year average historical net charge-off rates for each loan class, adjusted for qualitative factors. Qualitative risk factors (described in the following paragraph) are evaluated for the impact on each of the three segments (residential mortgage, commercial and consumer) within the loan portfolio. Each qualitative factor is assigned a value to reflect improving, stable or declining conditions based on management's judgment using relevant information available at the time of the evaluation. The adjustment for qualitative factors is applied as an increase or decrease to the three-year average net charge-off rate to each loan class within each segment.

The qualitative factors used in the general component calculations are designed to address credit risk characteristics associated with each segment. The Corporation's credit risk associated with all of the segments is significantly impacted by these factors, which include economic conditions within its market area, the Corporation's lending policies, changes or trends in the portfolio, risk profile, competition, regulatory requirements and other factors. Further, the residential mortgage segment is significantly affected by the values of residential real estate that provide collateral for the loans. The majority of the Corporation's commercial segment loans (approximately 55% at

September 30, 2015) is secured by real estate, and accordingly, the Corporation's risk for the commercial segment is significantly affected by commercial real estate values. The consumer segment includes a wide mix of loans for different purposes, primarily secured loans, including loans secured by motor vehicles, manufactured housing and other types of collateral.

Loans are classified as impaired, when, based on current information and events, it is probable that the Corporation will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial loans, by the fair value of the collateral (if the loan is collateral dependent), by future cash flows discounted at the loan's effective rate or by the loan's observable market price.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The scope of loans evaluated individually for impairment include all loan relationships greater than \$200,000 for which there is at least one extension of credit graded Special Mention, Substandard or Doubtful. Also, all loans classified as troubled debt restructurings (discussed in more detail below) and all loan relationships less than \$200,000 in the aggregate, but with an estimated loss of \$100,000 or more, are individually evaluated for impairment. Loans that are

individually evaluated for impairment, but which are not determined to be impaired, are combined with all remaining loans that are not reviewed on a specific basis, and such loans are included within larger pools of loans based on similar risk and loss characteristics for purposes of determining the general component of the allowance. The loans that have been individually evaluated, but which have not been determined to be impaired, are included in the “Collectively Evaluated” column in the tables summarizing the allowance and associated loan balances as of September 30, 2015 and December 31, 2014.

The following tables present a summary of loan balances and the related allowance for loan losses summarized by portfolio segment and class for each impairment method used as of September 30, 2015 and December 31, 2014:

Loans are placed on nonaccrual status for all classes of loans when, in the opinion of management, collection of interest is doubtful. Any unpaid interest previously accrued on those loans is reversed from income. Interest income is not recognized on specific impaired loans unless the likelihood of further loss is remote. Interest payments received on loans for which the risk of further loss is greater than remote are applied as a reduction of the loan principal balance. Interest income on other nonaccrual loans, including impaired loans, is recognized only to the extent of interest payments received. Generally, loans are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time (generally six months) and the ultimate collectability of the total contractual principal and interest is no longer in doubt. The past due status of all classes of loans receivable is determined based on contractual due dates for loan payments. Also, the amortization of deferred loan fees is discontinued when a loan is placed on nonaccrual status.

The breakdown by portfolio segment and class of nonaccrual loans and loans past due ninety days or more and still accruing is as follows:

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

(In Thousands)	September 30, 2015		December 31, 2014

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

Nonaccrual loans are included in the contractual aging in the immediately preceding table. A summary of the contractual aging of nonaccrual loans at September 30, 2015 and December 31, 2014 is as follows:

(In Thousands)	Current &			Total
	Past Due Less than 30 Days	Past Due 30-89 Days	Past Due 90+ Days	
September 30, 2015 Nonaccrual Totals	\$7,236	\$387	\$4,009	\$11,632
December 31, 2014 Nonaccrual Totals	\$6,959	\$369	\$5,282	\$12,610

Loans whose terms are modified are classified as Troubled Debt Restructurings (TDRs) if the Corporation grants such borrowers concessions, and it is deemed that those borrowers are experiencing financial difficulty. Loans classified as TDRs are designated as impaired. The outstanding balance of loans subject to TDRs, as well as contractual aging information at September 30, 2015 and December 31, 2014 is as follows:

(In Thousands)	Current &			Nonaccrual	Total
	Past Due Less than 30 Days	Past Due 30-89 Days	Past Due 90+ Days		
September 30, 2015 Totals	\$962	\$81	\$0	\$5,182	\$6,225
December 31, 2014 Totals	\$1,725	\$82	\$0	\$5,388	\$7,195

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

There were no TDRs that occurred during the three-month periods ended September 30, 2015 and 2014. TDRs that occurred during the nine-month periods ended September 30, 2015 and 2014 were as follows:

Nine Months Ended September 30, 2015 (Balances in Thousands)	Number of Contracts	Pre-	Post-
		Modification Outstanding Recorded Investment	Modification Outstanding Recorded Investment
Residential mortgage:			
Residential mortgage loans - first liens	1	\$56	\$56
Residential mortgage loans - junior liens	1	32	32
Consumer	1	30	30
Nine Months Ended September 30, 2014	Number of Contracts	Pre-	Post-
		Modification Outstanding Recorded Investment	Modification Outstanding Recorded Investment
Residential mortgage:			
Residential mortgage loans - first liens	3	\$150	\$150
Commercial:			
Commercial loans secured by real estate	5	6,679	5,193
Commercial and industrial	1	80	80

The TDRs in the nine-month period ended September 30, 2015 included an extended maturity date and a reduction in interest rate on a residential mortgage – first lien, a lowered interest rate and reduced payment amount on a residential mortgage – junior lien loan and a lowered interest rate and reduced payment amount on the consumer loan. There was no allowance for loan losses on these loans at September 30, 2015, and no change in the allowance for loan losses resulting from these TDRs.

The TDRs related to residential mortgage loans in the nine-month period ended September 30, 2014 included a reduction in payment amount on one contract, an interest only period allowed on one contract and a reduction in interest rate and payment on one contract. The TDRs related to the commercial loans in the nine-month period ended September 30, 2014 relate to six contracts associated with one relationship. The Corporation entered into a forbearance agreement with this commercial borrower which includes a reduction in monthly payment amounts over a fifteen-month period. At the end of the fifteen-month period, the monthly payment amounts would revert to the original amounts, unless the forbearance agreement is extended or the payment requirements are otherwise modified. In July 2015, the forbearance agreement was extended for twelve months. The Corporation recorded a charge-off of

\$1,486,000 in the second quarter 2014 as a result of these modifications, as the payment amounts based on the forbearance agreement are not sufficient to fully amortize the contractual amount of principal outstanding on the loans. The amount of charge-off was determined based on the excess of the contractual principal due over the present value of the payment amounts provided for in the forbearance agreement, assuming the revised payment amounts would continue until maturity, at the contractual interest rates. After the effect of the charge-off, the total recorded investment in loans to this borrower amounted to \$5,273,000, with no related allowance for loan losses on these loans at September 30, 2014, while the allowance on the loans amounted to \$1,552,000 at December 31, 2013. There were no changes in the allowance for loan losses related to TDRs that occurred in the third quarter 2014.

In the three-month period ended September 30, 2015, defaults on loans for which modifications considered to be TDRs were entered into within the previous 12 months were as follows:

	Number of Contracts	Recorded Investment
Three Months Ended September 30, 2015 (Balances in Thousands)		
Residential mortgage:		
Residential mortgage loans - first liens	1	\$32

In the third quarter 2015, the event of default in the table listed above resulted from a borrower's failure to make regular payments after reduced payment amount period of six months ended on a first lien residential mortgage. There was no allowance for loan losses recorded on this loan at September 30, 2015. In the third quarter 2014, there were no defaults on loans for which modifications considered to be TDRs were entered into within the previous 12 months.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

In the nine-month periods ended September 30, 2015 and 2014, defaults on loans for which modifications considered to be TDRs were entered into within the previous 12 months were as follows:

	Number of Contracts	Recorded Investment
Nine Months Ended September 30, 2015 (Balances in Thousands)		
Residential mortgage,		
Residential mortgage loans - first liens	2	\$65
Commercial,		
Commercial construction and land	1	25

	Number of Contracts	Recorded Investment
Nine Months Ended September 30, 2014 (Balances in Thousands)		
Residential mortgage:		
Residential mortgage loans - first liens	2	\$223
Residential mortgage loans - junior liens	1	62
Commercial:		
Commercial loans secured by real estate	1	429
Loans secured by farmland	4	490
Agricultural	1	13

In the nine-month period ended September 30, 2015, the events of default in the table listed above resulted from the borrowers' failure to make timely payments under the following circumstances: (1) for one customer relationship included in the Residential first lien mortgage class, payment was missed after reduced payment amount for a period of six months; (2) for a second customer relationship included in the Residential first lien mortgage class, payment was missed after reduction to interest only payment requirements for a period of a year; and (3) for the Commercial construction and land loan, monthly payments were missed after extending the term of maturity. There were no allowances for loan losses recorded on these loans at September 30, 2015.

In the nine-month period ended September 30, 2014, the events of default in the table listed above included a borrower's failure to make reduced payments provided for at a reduced interest rate on a first lien residential mortgage. The other events of default listed above in the nine-month period ended September 30, 2014 resulted from the borrowers' failure to make interest only monthly payments. There were no allowances for loan losses recorded on these

loans at September 30, 2014.

At September 30, 2015, the carrying amount of foreclosed residential real estate properties held as a result of obtaining physical possession (included in Foreclosed assets held for sale in the unaudited consolidated balance sheet) was \$654,000.

At September 30, 2015, the recorded investment of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process was \$1,485,000.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**8. BORROWED FUNDS****SHORT-TERM BORROWINGS**

Short-term borrowings include the following:

(In Thousands)	Sept. 30, 2015	Dec. 31 2014
FHLB-Pittsburgh borrowings	\$4,500	\$0
Customer repurchase agreements	5,744	5,537
Total short-term borrowings	\$10,244	\$5,537

The FHLB-Pittsburgh loan facilities are collateralized by qualifying loans secured by real estate with a book value totaling \$444,285,000 at September 30, 2015 and \$446,780,000 at December 31, 2014. Also, the FHLB-Pittsburgh loan facilities require the Corporation to invest in established amounts of FHLB-Pittsburgh stock. The carrying values of the Corporation's holdings of FHLB-Pittsburgh stock (included in Other Assets) were \$2,337,000 at September 30, 2015 and \$1,454,000 at December 31, 2014.

The short-term borrowing from the FHLB-Pittsburgh is an overnight borrowing and has an interest rate of 0.34%.

The Corporation engages in repurchase agreements with certain commercial customers. These agreements provide that the Corporation sells specified investment securities to the customers on an overnight basis and repurchases them on the following business day. The weighted average rate paid by the Corporation on customer repurchase agreements was 0.10% at September 30, 2015 and December 31, 2014. The carrying value of the underlying securities was \$5,800,000 at September 30, 2015 and \$5,590,000 at December 31, 2014.

LONG-TERM BORROWINGS

Long-term borrowings are as follows:

(In Thousands)	Sept. 30,	Dec. 31
----------------	-----------	---------

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

	2015	2014
FHLB-Pittsburgh borrowings	\$11,842	\$12,060
Repurchase agreements	51,000	61,000
Total long-term borrowings	\$62,842	\$73,060

Long-term borrowings from FHLB - Pittsburgh are as follows:

(In Thousands)	Sept. 30, 2015	Dec. 31 2014
Loan maturing in 2016 with a rate of 6.86%	\$70	\$107
Loan maturing in 2017 with a rate of 6.83%	12	16
Loan maturing in 2017 with a rate of 3.81%	10,000	10,000
Loan maturing in 2020 with a rate of 4.79%	863	987
Loan maturing in 2025 with a rate of 4.91%	897	950
Total long-term FHLB-Pittsburgh borrowings	\$11,842	\$12,060

Repurchase agreements included in long-term borrowings are as follows:

(In Thousands)	Sept. 30, 2015	Dec. 31 2014
Agreement maturing in 2017 with a rate of 3.595%	\$27,000	\$27,000
Agreement maturing in 2017 with a rate of 4.265%	24,000	34,000
Total long-term repurchase agreements	\$51,000	\$61,000

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The Corporation incurred a loss of \$910,000 in the second quarter of 2015 on prepayment of \$10,000,000 of the agreement with an interest rate of 4.265%.

“Repurchase Dates,” as defined in the Master Repurchase Agreement between the Corporation and the broker-dealer, occur quarterly on or about the 20th of each March, June, September and December until the “Final Repurchase Date” (as defined) on December 20, 2017. The Corporation pays interest, and each of the borrowings is putable by the issuer, on each Repurchase Date. The Final Repurchase Date is the effective maturity date of the borrowings.

Securities sold under repurchase agreements were delivered to the broker-dealer who is the counter-party to the transactions. The broker-dealer may have sold, loaned or otherwise disposed of such securities to other parties in the normal course of their operations, and has agreed to resell to the Corporation substantially identical securities at the maturities of the agreements. The Master Repurchase Agreement provides that the Agreement constitutes a “netting contract,” as defined; however, the Corporation and the broker-dealer have no other obligations to one another and accordingly, no netting has occurred.

The carrying value of the underlying securities was \$62,453,000 at September 30, 2015 and \$70,982,000 at December 31, 2014, detailed in the following table:

(In Thousands)	September 30, 2015	December 31, 2014
Mortgage-backed securities	\$19,181	\$24,114
Collateralized mortgage obligations, Issued by U.S. Government agencies	43,272	46,868
Total	\$62,453	\$70,982

Two of the more significant risks associated with the repurchase agreements are as follows:

The borrowings are putable at quarterly intervals by the issuer. Accordingly, if interest rates were to rise to a sufficient level, the issuer would be expected to require the Corporation to pay off the borrowings. In this circumstance, the Corporation would be required to obtain new borrowings at a higher interest rate than the existing repurchase agreements or utilize cash from other sources to pay off the borrowings. If sales of available-for-sale securities were used to generate cash to pay off the borrowings, the value of such securities would be expected to have fallen, which could result in the Corporation recognizing a loss.

As principal pay-downs of mortgage backed securities and CMOs occur, the Corporation must have available, unencumbered assets or purchase a sufficient amount of assets with credit quality suitable to the broker-dealer to replace the amounts being paid off. Since pre-payments of mortgages typically increase as interest rates fall, the Corporation may be required to purchase additional assets at times when market rates are lower than the rates paid on the borrowings.

The Corporation manages these risks by maintaining sufficient available assets of acceptable credit quality, as well as maintaining other borrowing facilities, to meet ongoing collateral maintenance requirements or pay off the borrowings if required. In particular, the Corporation had unused borrowing capacity available from the FHLB-Pittsburgh of \$305,431,000 at September 30, 2015.

9. DEFINED BENEFIT PLANS

The Corporation sponsors a defined benefit health care plan that provides postretirement medical benefits and life insurance to employees who meet certain age and length of service requirements. Full-time employees no longer accrue service time toward the Corporation-subsidized portion of the medical benefits. This plan contains a cost-sharing feature, which causes participants to pay for all future increases in costs related to benefit coverage. Accordingly, actuarial assumptions related to health care cost trend rates do not significantly affect the liability balance at September 30, 2015 and December 31, 2014, and are not expected to significantly affect the Corporation's future expenses. The Corporation uses a December 31 measurement date for the postretirement plan.

In an acquisition in 2007, the Corporation assumed the Citizens Trust Company Retirement Plan, a defined benefit pension plan. This plan covers certain employees who were employed by Citizens Trust Company on December 31, 2002, when the plan was amended to discontinue admittance of any future participant and to freeze benefit accruals. Information related to the Citizens Trust Company Retirement Plan has been included in the tables that follow. The Corporation uses a December 31 measurement date for this plan.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The components of net periodic benefit costs from these defined benefit plans are as follows:

(In Thousands)	Pension		Postretirement	
	Nine Months Ended		Nine Months Ended	
	Sept. 30,		Sept. 30,	
	2015	2014	2015	2014
Service cost	\$0	\$0	\$29	\$26
Interest cost	27	55	42	43
Expected return on plan assets	(34)	(66)	0	0
Amortization of prior service cost	0	0	(22)	(23)
Recognized net actuarial loss	11	11	0	0
Net periodic benefit cost	\$4	\$0	\$49	\$46

(In Thousands)	Pension		Postretirement	
	Three Months Ended		Three Months Ended	
	Sept. 30,		Sept. 30,	
	2015	2014	2015	2014
Service cost	\$0	\$0	\$10	\$9
Interest cost	9	18	14	14
Expected return on plan assets	(11)	(22)	0	0
Amortization of prior service cost	0	0	(7)	(7)
Recognized net actuarial loss	4	3	0	0
Net periodic benefit cost	\$2	(\$1)	\$17	\$16

In the first nine months of 2015, the Corporation funded postretirement contributions totaling \$47,000, with estimated annual postretirement contributions of \$65,000 expected in 2015 for the full year. Based upon the related actuarial reports, no defined benefit pension contributions are required in 2015, though the Corporation may make discretionary contributions.

10. STOCK-BASED COMPENSATION PLANS

The Corporation has a Stock Incentive Plan for a selected group of officers. Also, the Corporation has an Independent Directors Stock Incentive Plan. In the first quarter 2015, the Corporation issued restricted stock under each of the Plans. In the first quarter 2014, the Corporation issued stock options and restricted stock under each of the Plans.

In the first quarter 2015, the Corporation awarded a total of 34,800 shares of restricted stock under the Stock Incentive and Independent Directors Stock Incentive Plans. In the first quarter 2014, a total of 16,711 shares of restricted stock were awarded under the Plans. Restricted stock awards in the first quarter 2015 included the following: (1) a total of 20,298 shares to employees, vesting over a four-year term, with vesting contingent upon the Corporation meeting an annual return on average equity ("ROAE") performance ratio, as defined; (2) a total of 2,198 shares to employees, vesting over a four-year term, with vesting dependent on satisfactory performance; (3) an award to the Chief Executive Officer of 5,174 shares, vesting over a three-year term, with vesting dependent on satisfactory performance; and (4) a total of 7,130 shares under the Independent Directors Incentive Plan, vesting over a term of one year.

Compensation cost related to restricted stock is recognized based on the market price of the stock at the grant date over the vesting period. Management has estimated restricted stock expense in the first nine months of 2015 based on an assumption that the ROAE target for 2015 will be met.

In January 2014, the Corporation granted options to purchase a total of 39,027 shares of common stock. The exercise price for the 2014 awards is \$20.45 per share, based on the market price as of the date of grant. Stock option expense is recognized over the vesting period of each option.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The Corporation records stock option expense based on estimated fair value calculated using an option valuation model. In calculating the 2014 fair value, the Corporation utilized the Black-Scholes-Merton option-pricing model. The calculated fair value of each option granted, and significant assumptions used in the calculations, were as follows:

	2014
Fair value of each option granted	\$5.50
Volatility	39%
Expected option lives	8 Years
Risk-free interest rate	2.85%
Dividend yield	4.33%

In calculating the estimated fair value of stock option awards, management based its estimates of volatility and dividend yield on the Corporation's experience over the immediately prior period of time consistent with the estimated lives of the options. The risk-free interest rate was based on the published yield of zero-coupon U.S. Treasury strips with an applicable maturity as of the grant dates. The expected option lives were based on management's estimates of the average term for all options issued under both plans. In 2014, management assumed a 34% forfeiture rate for options granted under the Stock Incentive Plan, and a 3% forfeiture rate for the Directors Stock Incentive Plan. These estimated forfeiture rates were determined based on the Corporation's historical experience.

Total stock-based compensation expense is as follows:

(In Thousands)	3 Months Ended		9 Months Ended	
	Sept. 30, 2015	Sept. 30, 2014	Sept. 30, 2015	Sept. 30, 2014
Stock options	\$0	\$0	\$0	\$154
Restricted stock	152	79	459	309
Total	\$152	\$79	\$459	\$463

11. INCOME TAXES

The net deferred tax asset at September 30, 2015 and December 31, 2014 represents the following temporary difference components:

(In Thousands)	Sept. 30, 2015	Dec. 31, 2014
Deferred tax assets:		
Net realized losses on securities	\$136	\$144
Allowance for loan losses	2,596	2,568
Credit for alternative minimum tax paid	0	537
Other deferred tax assets	2,380	2,595
Total deferred tax assets	5,112	5,844
Deferred tax liabilities:		
Unrealized holding gains on securities	3,293	2,844
Defined benefit plans - ASC 835	5	43
Bank premises and equipment	921	1,134
Core deposit intangibles	12	18
Other deferred tax liabilities	119	137
Total deferred tax liabilities	4,350	4,176
Deferred tax asset, net	\$762	\$1,668

The provision for income tax for the three-month and nine-month periods ended September 30, 2015 and 2014 is based on the Corporation's estimate of the effective tax rate expected to be applicable for the full year. The effective tax rates for the Corporation are as follows:

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

(In thousands)	Three Months		Nine Months	
	Ended		Ended	
	Sept. 30,		Sept. 30,	
	2015	2014	2015	2014
Income before income tax provision	\$5,629	\$5,678	\$16,482	\$16,928
Income tax provision	1,395	1,411	4,076	4,210
Effective tax rate	24.78%	24.85%	24.73%	24.87%

The effective tax rate for each period presented differs from the statutory rate of 35% principally because of the effects of tax-exempt interest income.

The Corporation has investments in three limited partnerships that manage affordable housing projects that have qualified for the federal low-income housing tax credit. The Corporation's expected return from these investments is based on the receipt of tax credits and tax benefits from deductions of operating losses. The Corporation uses the effective yield method to account for these investments, with the benefits recognized as a reduction of the provision for income taxes. For two of the three limited partnership investments, the tax credits have been received in full in prior years, and the Corporation has fully realized the benefits of the credits and amortized its initial investments in the partnerships. The most recent affordable housing project was completed in 2013, and the Corporation received tax credits in 2013 and 2014 and expects to continue to receive tax credits annually through 2022. The carrying amount of the Corporation's investment is \$839,000 at September 30, 2015 and \$906,000 at December 31, 2014 (included in Other Assets in the consolidated balance sheets). For the year ending December 31, 2015, the estimated amount of tax credits and other tax benefits to be received is \$158,000 and the estimated amount to be recognized as a reduction of the provision for income taxes is \$80,000. For the year ended December 31, 2014, tax credits and other tax benefits totaled \$159,000 and the amount recognized as a reduction of the provision for income taxes for 2014 was \$83,000. The reduction in the provision for income taxes resulting from this investment totaled \$22,000 in the third quarter 2015 and \$62,000 for the nine months ended September 30, 2015, and \$21,000 in the third quarter 2014 and \$62,000 for the nine months ended September 30, 2014.

The Corporation has no unrecognized tax benefits, nor pending examination issues related to tax positions taken in preparation of its income tax returns. With limited exceptions, the Corporation is no longer subject to examination by the Internal Revenue Service for years prior to 2011.

12. CONTINGENCIES

In the normal course of business, the Corporation may be subject to pending and threatened lawsuits in which claims for monetary damages could be asserted. In management's opinion, the Corporation's financial position and results of operations would not be materially affected by the outcome of such pending legal proceedings.

13. RECENT ACCOUNTING PRONOUNCEMENTS

The FASB issues Accounting Standards Updates (ASUs) to the FASB ASC. This section provides a summary description of recent ASUs that have significant implications (elected or required) within the consolidated financial statements, or that management expects may have a significant impact on financial statements issued in the near future.

In January 2014, the FASB issued ASU 2014-01, Accounting for Investments in Qualified Affordable Housing Projects. This Update provides guidance on accounting for investments in flow-through limited liability entities that qualify for the federal low-income housing tax credit. Prior to ASU 2014-01, under U.S. GAAP, a reporting entity that invests in a qualified affordable housing project could elect to account for that investment using the effective yield method if certain conditions are met, or alternatively, the investment would be accounted for under either the equity method or the cost method. Generally, investors in qualified affordable housing project investments expect to receive all of their return through the receipt of tax credits and tax deductions from operating losses, and use of the effective yield method results in recognition of the return as a reduction of income tax expense over the period of the investment. The amendments in this Update modify the conditions that a reporting entity must meet to be eligible to use a method other than the equity or cost methods to account for investments in qualified affordable housing projects. Additionally, the amendments introduce new recurring disclosure requirements about investments in qualified affordable housing projects. The amendments in this Update became effective for the Corporation for annual and interim periods beginning in the first quarter 2015, and are to be applied retrospectively. Information concerning the Corporation's investments in qualified affordable housing projects is provided in Note 11 to these unaudited consolidated financial statements.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

In January 2014, the FASB issued ASU 2014-04, Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The objective of the amendments in this Update is to reduce diversity among reporting entities by clarifying when an in substance foreclosure occurs. The amendments in this Update clarify that an in substance foreclosure occurs, and a creditor is considered to have received physical possession of residential real property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendments require interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to the requirements of the applicable jurisdiction. An entity can elect to adopt the amendments in this Update using either a modified retrospective transition method or a prospective transition method. Under the modified retrospective transition method, an entity would record a cumulative-effect adjustment to residential consumer mortgage loans and foreclosed residential real estate properties existing as of the beginning of the annual period for which the amendments are effective. For prospective transition, an entity would apply the amendments to all instances of an entity receiving physical possession of residential real estate property collateralizing consumer mortgage loans that occur after the date of adoption. Early adoption is permitted. The amendments in this Update became effective for the Corporation for annual and interim periods beginning in the first quarter 2015. The Corporation has applied the amendments to its accounting and reporting practices prospectively in the first quarter 2015. Disclosures required by the Update are provided in Note 7 to these unaudited consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides a principles-based framework for revenue recognition that supersedes virtually all previously issued revenue recognition guidance under U.S. GAAP. Additionally, the ASU requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. The core principle of the five-step revenue recognition framework is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In August 2015 the FASB issued ASU 2015-14, which deferred the effective date of the revenue recognition standard by a year, making it applicable for the Corporation in the first quarter 2018 and for the annual period ending December 31, 2018. The amendments should be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying the amendments recognized at the date of initial application. The Corporation is in the process of evaluating the potential impact of adopting the amendments, including determining which transition method to apply.

In June 2014, the FASB issued ASU 2014-11, Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures. In addition to various other amendments that will affect accounting and disclosures for transactions in which the Corporation has not engaged to date, this Update requires expanded disclosures for repurchase agreements that are accounted for as secured borrowings, including: (1) a disaggregation of the gross obligation by the class of collateral pledged, (2) the remaining contractual tenor of the agreements and (3) a discussion of the potential risks

associated with the agreements and the related collateral pledged, including obligations arising from a decline in the fair value of the collateral pledged and how those risks are managed. The expanded disclosure requirements associated with repurchase agreements are effective for the Corporation for annual and interim periods beginning in the second quarter 2015. Information concerning the Corporation's repurchase agreements is provided in Note 8 to these consolidated financial statements.

In August 2014, the FASB issued ASU 2014-14, Receivables – Troubled Debt Restructuring by Creditors, which requires that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if the following conditions are met: (1) the loan has a government guarantee that is not separable from the loan before foreclosure, (2) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and the creditor has the ability to recover under the claim and (3) at the time of foreclosure, any amount of the claim that is determined on the basis of the fair value of the real estate is fixed. The amendments in this Update became effective for the Corporation for annual and interim periods beginning in the first quarter 2015, and the impact of the amendment was not significant to the Corporation

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements in this section and elsewhere in this quarterly report on Form 10-Q are forward-looking statements. Citizens & Northern Corporation and its wholly-owned subsidiaries (collectively, the Corporation) intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Reform Act of 1995. Forward-looking statements, which are not historical facts, are based on certain assumptions and describe future plans, business objectives and expectations, and are generally identifiable by the use of words such as, "should", "likely", "expect", "plan", "anticipate", "target", "forecast", and "goal". These forward-looking statements are subject to risks and uncertainties that are difficult to predict, may be beyond management’s control and could cause results to differ materially from those expressed or implied by such forward-looking statements. Factors which could have a material, adverse impact on the operations and future prospects of the Corporation include, but are not limited to, the following:

- changes in monetary and fiscal policies of the Federal Reserve Board and the U. S. Government, particularly related to changes in interest rates
- changes in general economic conditions
- legislative or regulatory changes
- downturn in demand for loan, deposit and other financial services in the Corporation’s market area
- increased competition from other banks and non-bank providers of financial services
- technological changes and increased technology-related costs
- changes in accounting principles, or the application of generally accepted accounting principles.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

EARNINGS OVERVIEW

Third quarter 2015 net income was \$0.35 per basic and diluted share, as compared to \$0.36 in the second quarter 2015 and \$0.34 in the third quarter 2014. For the nine months ended September 30, 2015, net income per basic share was \$1.02, and net income per diluted share was \$1.01, as compared to \$1.02 per basic and diluted share for the first nine months of 2014. The return on average assets for the first nine months of 2015 was 1.32%, and the return on average equity was 8.78%.

Some of the more significant fluctuations in revenues and expenses between the three-month and nine-month periods ended September 30, 2015 and the corresponding periods in 2014 were as follows:

Net interest income was \$10,008,000 in the third quarter 2015, flat as compared to \$10,010,000 in the second quarter 2015 and down \$277,000 (2.7%) from the third quarter 2014 amount. For the first nine months of 2015, net interest income of \$29,968,000 was down \$708,000 (2.3%) from the first nine months of 2014. The net interest margin was 3.66% in the third quarter 2015 as compared to 3.69% in the second quarter 2015 and 3.75% in the third quarter 2014, and the net interest margin of 3.69% for the first nine months of 2015 was down from 3.82% in the first nine months of 2014. The decrease in margin in 2015 has resulted from reductions in yields on earning assets, mainly loans and available-for-sale securities, accompanied by a smaller decrease in average rates paid on deposits and borrowed funds.

The provision for loan losses was \$302,000 in the third quarter 2015, up from \$221,000 in the second quarter 2015 and \$218,000 in the third quarter 2014. For the first nine months of 2015, the provision for loan losses totaled \$526,000, up from \$353,000 for the first nine months of 2014. The higher provision for loan losses in the third quarter and first nine months of 2015 reflects an increase in loans outstanding, which resulted in an increase in the collectively determined portion of the allowance for loan losses.

Noninterest revenue was \$3,961,000 in the third quarter 2015, flat as compared to \$3,962,000 in the second quarter 2015 and up 1.9% from the third quarter 2014 amount. Noninterest revenue totaled \$11,410,000 for the first nine months of 2015, down \$208,000 (1.8%) from the corresponding period in 2014. Fluctuations in noninterest revenue in the third quarter 2015 as compared to the second quarter included an increase in gains from sales of residential mortgage loans of \$60,000, a comparative increase of \$46,000 as the fair value of servicing rights increased \$13,000 in the third quarter 2015 while the fair value had decreased \$33,000 in the prior quarter, and a net reduction in revenue from Trust and brokerage services of \$109,000, reflecting the effects of timing as well as a reduction in fair value of assets under management in the most recent quarter due mainly to overall declines in values of U.S. equities. The most significant changes in components of noninterest revenue for the first nine months of 2015 as compared to the corresponding period in 2014 included the following: (1) decrease of \$183,000 (4.8%) in service charges on deposit accounts, primarily as a result of lower overdraft fees; (2) reduction of \$172,000 as the fair value of servicing rights declined \$137,000 in the first nine months of 2015 as compared to an increase in fair value of \$35,000 in the first nine months of 2014; (3) net increase in revenues from Trust and brokerage services of \$111,000 (2.8%); and (4) an increase in other operating income of \$79,000, including an increase of \$39,000 in dividends from Federal Home Loan Bank of Pittsburgh stock and an increase of \$30,000 in revenue from merchant services.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

Realized gains from securities totaled \$79,000 in the third quarter 2015. In comparison, second quarter 2015 results included gains from sales of securities totaling \$932,000 and a loss from prepayment of borrowings totaling \$910,000. In the third quarter 2014, realized gains from securities totaled \$760,000. There were no losses from prepayment of borrowings in the third quarter 2015 or 2014. For the nine months ended September 30, 2015, realized gains from available-for-sale securities totaled \$1,085,000 as compared to \$894,000 in the first nine months of 2014, and the loss from prepayment of borrowings was \$910,000 in the first nine months of 2015 with no such loss in 2014.

Noninterest expenses, excluding loss on prepayment of borrowings, totaled \$8,117,000 in the third quarter 2015, up from \$7,964,000 in the second quarter 2015 and lower than the total of \$9,036,000 in the third quarter 2014. For the first nine months of 2015, noninterest expenses, excluding loss on prepayment of borrowings, totaled \$24,545,000, down \$1,362,000 (5.3%) from the first nine months of 2014. Salaries and wages expense increased \$141,000, and pensions and other employee benefits expense increased \$81,000, in the third quarter 2015 as compared to the second quarter 2015 amounts. The increase in the most recent quarter in salaries and wages reflected a few recent personnel additions, including lending and operations staff. The increase in the most recent quarter in employee benefits expense included an increase in health insurance expense resulting from higher claims on the Corporation's partially self-insured plan. The reduction in noninterest expenses in the third quarter 2015 as compared to the third quarter 2014 included a decrease in salaries and wages of \$604,000 resulting from severance expenses in 2014, and a reduction in other operating expense of \$225,000, including a reduction in net collection expenses of \$79,000 and the effects of a \$69,000 sales tax refund that reduced expenses in 2015. The reduction in noninterest expenses for the first nine months of 2015 as compared to the corresponding period in 2014 included the following: (1) a reduction in salaries and wages expenses of \$725,000, mainly due to severance expenses in 2014; (2) a reduction in employee benefit-related expenses of \$227,000 due to lower employee health insurance expense as a result of lower claims; (3) a reduction in Pennsylvania shares tax expense of \$137,000, mainly as a result of an increase in tax credits associated with charitable contributions; and (4) a reduction in other expenses of \$310,000, including reductions in expenses from loan collection of \$157,000, other real estate properties of \$86,000 and attorneys' fees of \$86,000.

More detailed information concerning fluctuations in the Corporation's earnings results and other financial information are provided in other sections of Management's Discussion and Analysis.

TABLE I - QUARTERLY FINANCIAL DATA

(In Thousands) (Unaudited)	For the Three Months Ended:

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

CRITICAL ACCOUNTING POLICIES

The presentation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect many of the reported amounts and disclosures. Actual results could differ from these estimates.

A material estimate that is particularly susceptible to significant change is the determination of the allowance for loan losses. Management believes the allowance for loan losses is adequate and reasonable. Analytical information related to the Corporation's aggregate loans and the related allowance for loan losses is summarized by loan segment and classes of loans in Note 7 to the unaudited consolidated financial statements. Additional discussion of the Corporation's allowance for loan losses is provided in a separate section later in Management's Discussion and Analysis. Given the very subjective nature of identifying and valuing loan losses, it is likely that well-informed individuals could make materially different assumptions, and could, therefore calculate a materially different allowance value. While management uses available information to recognize losses on loans, changes in economic conditions may necessitate revisions in future years. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's allowance for loan losses. Such agencies may require the Corporation to recognize adjustments to the allowance based on their judgments of information available to them at the time of their examination.

Another material estimate is the calculation of fair values of the Corporation's debt securities. For most of the Corporation's debt securities, the Corporation receives estimated fair values of debt securities from an independent valuation service, or from brokers. In developing fair values, the valuation service and the brokers use estimates of cash flows, based on historical performance of similar instruments in similar interest rate environments. Based on experience, management is aware that estimated fair values of debt securities tend to vary among brokers and other valuation services.

As described in Note 6 to the unaudited consolidated financial statements, management evaluates securities for other-than-temporary impairment (OTTI). In making that evaluation, consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) whether the Corporation intends to sell the security or more likely than not will be required to sell the security before its anticipated recovery. Management's assessments of the likelihood and potential for recovery in value of securities are subjective and based on sensitive assumptions.

NET INTEREST INCOME

The Corporation's primary source of operating income is net interest income, which is equal to the difference between the amounts of interest income and interest expense. Tables II, III and IV include information regarding the Corporation's net interest income for the three-month and nine-month periods ended September 30, 2015 and September 30, 2014. In each of these tables, the amounts of interest income earned on tax-exempt securities and loans have been adjusted to a fully taxable-equivalent basis. Accordingly, the net interest income amounts reflected in these tables exceed the amounts presented in the consolidated financial statements. The discussion that follows is based on amounts in the related Tables.

Nine-Month Periods Ended September 30, 2015 and 2014

For the nine-month periods, fully taxable equivalent net interest income was \$32,172,000 in 2015, \$774,000 (2.3%) lower than in 2014. As shown in Table IV, interest rate changes had the effect of decreasing net interest income \$1,537,000 and changes in volume had the effect of increasing net interest income \$763,000 in 2015 compared to 2014. The most significant components of the rate-related change in net interest income in 2015 were a decrease in interest income of \$1,302,000 attributable to lower rates earned on loans receivable and a decrease in interest income of \$363,000 attributable to lower rates earned on available-for-sale securities, partially offset by a decrease in interest expense of \$118,000 due mainly to lower rates paid on interest-bearing deposits. The most significant components of the volume-related change in net interest income in 2015 were an increase in interest income of \$727,000 attributable to an increase in the balance of loans receivable, a decrease in interest expense of \$144,000 attributable to a reduction in the balance of borrowed funds and a decrease in interest expense of \$88,000 attributable to a reduction in the balance of interest-bearing deposits (primarily certificates of deposit), partially offset by a decrease in interest income of \$161,000 on available-for-sale securities. As presented in Table III, the "Interest Rate Spread" (excess of average rate of return on earning assets over average cost of funds on interest-bearing liabilities) was 3.54% in 2015, as compared to 3.66% in 2014.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

INTEREST INCOME AND EARNING ASSETS

Interest income totaled \$35,687,000 in 2015, a decrease of 3.1% from 2014. Interest and fees on loans receivable decreased \$575,000, or 2.2%. The Corporation's annualized average rate of return on loans receivable declined to 5.20% in 2015 from 5.48% in 2014 as rates on new loans have decreased. The average balance of gross loans receivable increased \$18,828,000, or 3.0%, to \$646,638,000 in 2015 from \$627,810,000 in 2014. The largest increase was in tax-exempt municipal loans, for which the average balance was up \$13,265,000 in the first nine months of 2015 as compared to the first nine months of 2014. The average balance of taxable commercial loans was higher in 2015 as compared to 2014, including an increase in the average balances of participation loans of \$7,877,000. Participation loans represent portions of larger transactions for which other institutions are the "lead banks".

As indicated in Table III, average available-for-sale securities (at amortized cost) totaled \$494,921,000 in 2015, an increase of \$3,560,000 (0.7%) from 2014. The net increase in the Corporation's available-for-sale securities portfolio was primarily made up of collateralized mortgage obligations issued or guaranteed by U.S. Government agencies. The Corporation's yield on securities was lower in 2015 than in 2014, primarily because of lower market interest rates. The average rate of return on available-for-sale securities was 2.82% in 2015 and 2.98% in 2014.

INTEREST EXPENSE AND INTEREST-BEARING LIABILITIES

Interest expense fell \$350,000, or 9.1%, to \$3,515,000 in 2015 from \$3,865,000 in 2014. Table III shows that the overall cost of funds on interest-bearing liabilities fell to 0.56% in 2015 from 0.61% in 2014.

Total average deposits (interest-bearing and noninterest-bearing) increased 1.2%, to \$974,873,000 in 2015 from \$963,212,000 in 2014. Increases in the average balances of demand deposits, interest checking and savings accounts were partially offset by decreases in average balances of certificates of deposit, Individual Retirement Accounts, and money market accounts. Consistent with continuing low short-term market interest rates, the average rates incurred on certificates of deposit have decreased in 2015 as compared to 2014.

Total average borrowed funds decreased \$2,178,000 to \$77,749,000 in 2015 from \$79,927,000 in 2014. The average rate on borrowed funds dropped to 3.55% in 2015 from 3.71% in 2014, reflecting a \$4,899,000 reduction in the average balance of higher-rate, long-term borrowings resulting from the pre-payment of a portion of a long-term

repurchase agreement borrowing with a book value of \$10 million and an interest rate of 4.265% in the second quarter 2015. (The pre-payment of long-term borrowings is described in the Earnings Overview section.)

Three-Month Periods Ended September 30, 2015 and 2014

For the three-month periods, fully taxable equivalent net interest income was \$10,755,000 in 2015, which was \$276,000 (2.5%) lower than in 2014. As shown in Table IV, interest rate changes had the effect of decreasing net interest income \$734,000 and net changes in volume had the effect of increasing net interest income \$458,000 in 2015 compared to 2014. As presented in Table III, the “Interest Rate Spread” was 3.51% in 2015, as compared to 3.59% in 2014.

Interest income totaled \$11,881,000 in 2015, a decrease of \$437,000 (3.5%) from 2014. Interest and fees from loans receivable remained flat in 2015 as compared to 2014 at \$8,568,000, while income from available-for-sale securities decreased \$422,000 (11.4%). As indicated in Table III, for the three-month periods, the average balance of gross loans receivable increased 7.6% to \$673,735,000 in 2015 from \$626,336,000 in 2014. The average rate of return on loans was 5.05% in 2015, down from 5.43% in 2014. Total average available-for-sale securities (at amortized cost) in 2015 decreased to \$473,216,000 from \$505,782,000 in 2014. The average rate of return on available-for-sale securities was 2.75% for 2015, down from 2.91% in 2014.

For the three-month periods, interest expense fell \$161,000, or 12.5%, to \$1,126,000 in 2015 from \$1,287,000 in 2014. Total average deposits (interest-bearing and noninterest-bearing) amounted to \$977,317,000 in the third quarter 2015, a decrease of \$2,213,000 (0.2%) from the second quarter 2014 total. Total average borrowed funds decreased to \$75,848,000 in the third quarter 2015 from \$78,487,000 in the third quarter 2014, while the average rate on borrowed funds fell to 3.34% in the third quarter 2015 from 3.76% in the third quarter 2014. The net change in average borrowed funds included a decrease of \$10,286,000 in long-term borrowings, partially offset by an increase of \$7,647,000 in short-term borrowings. The increase in average short-term borrowings reflected an increase in average overnight borrowings, while the decrease in average long-term borrowings included the effect of pre-payment of a portion of a long-term repurchase agreement borrowing with a book value of \$10 million and an interest rate of 4.265% in the second quarter 2015. (The pre-payment of long-term borrowings is described in the Earnings Overview section.) In total, the average interest rate on interest-bearing liabilities was 0.53% in the third quarter 2015 as compared to 0.60% in the third quarter 2014.

Total other operating income before realized gains on available-for-sale securities, net	\$11,410	\$11,618	(\$208)	(1.8)

Table V excludes realized gains on available-for-sale securities, which are discussed in the “Earnings Overview” section of Management’s Discussion and Analysis. Total noninterest income shown in Table V decreased \$208,000 or 1.8%, in the nine months of 2015 as compared to the same period in 2014. The most significant variances include the following:

- Service charges on deposit accounts decreased \$183,000 or 4.8%, primarily due to lower overdraft fees.

Fair value of mortgage servicing rights declined \$137,000 in the nine months ended September 30, 2015 compared to a \$35,000 increase in fair value during the same period in 2014. The decrease in fair value in 2015 resulted mainly from faster prepayment assumptions driven by market assumptions of lower interest rates.

- Brokerage revenue decreased \$42,000, or 6.2%, as a result of lower annuity sales

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

Trust and financial management revenue increased \$153,000, or 4.6%, including an increase in revenue from retirement services of \$74,000 and growth in the average value of assets under management resulting from market appreciation as well as new business.

Other noninterest revenue increases included a \$39,000 increase in dividends on Federal Home Loan Bank of Pittsburgh stock as well as a \$30,000 increase in revenue from merchant services.

Other operating income	328	335	(7)	(2.1)
Total other operating income before realized gains on available-for-sale securities, net	\$3,961	\$3,887	\$74	1.9

Table VI excludes realized gains on available-for-sale securities, which are discussed in the “Earnings Overview” section of Management’s Discussion and Analysis. Total noninterest income shown in Table VI increased \$74,000 or 1.9%, in the three months ended September 30, 2015 as compared to the three months ended September 30, 2014. The most significant variances include the following:

Net gains from sales of loans increased \$102,000, or 72.3%, reflecting an increase of \$3,017,000 in volume of loans sold, based on origination cost, in the third quarter 2015 as compared to the third quarter 2014.

Fair value of mortgage servicing rights increased \$13,000 in the three months ended September 30, 2015 compared to a \$17,000 decrease in fair value during the same period in 2014. The increase in fair value in 2015 resulted mainly from slightly slower prepayment assumptions driven by market assumptions of higher interest rates.

TABLE VII- COMPARISON OF NONINTEREST EXPENSE

Loss on prepayment of debt	910	0	910	100.0
Other operating expense	3,946	4,256	(310)	(7.3)
Total Other Expense	\$25,455	\$25,907	(\$452)	(1.7)

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

As shown in Table VII, total noninterest expense decreased \$452,000 or 1.7% in the nine months ended September 30, 2015 as compared to the nine months ended September 30, 2014. The 2015 expenses included the loss on prepayment of debt of \$910,000 in 2015 compared to no loss in 2014. Excluding the loss on prepayment of debt in 2015, total noninterest expense decreased \$1,362,000, or 5.3%. Other significant variances include the following:

- Salaries and wages decreased \$725,000, or 6.3%, primarily due to severance pay in 2014.

Pensions and other employee benefits decreased \$227,000, or 6.4%. Health care expense decreased \$328,000, as the amount of claims incurred during the nine months ended September 30, 2015 was lower than in the same period in 2014. The Corporation is self-insured for health insurance, up to a cap for catastrophic levels of losses, which are insured by a third party. This decrease was partially offset by an increase in retirement expenses.

Other operating expense decreased \$310,000, including a reduction in net collection expenses of \$157,000, an \$86,000 decrease in attorney fees as a result of nonrecurring legal matters in 2014 and an \$86,000 reduction in net expenses and gains or losses from foreclosed assets (real estate).

Pennsylvania shares tax expense decreased \$137,000, mainly as a result of an increase in tax credits associated with charitable contributions.

Professional fees decreased \$64,000, or 15.0%, in the nine months ended September 30, 2015 as compared to the same period in 2014. This decrease was primarily in recruiting expenses.

Automated teller machine and interchange expenses increased \$67,000, or 10.0%, reflecting rate increases for ATM and interchange processing services.

Pennsylvania shares tax	311	336	(25)	(7.4)
Professional fees	128	135	(7)	(5.2)
Automated teller machine and interchange expense	234	239	(5)	(2.1)
Software subscriptions	209	184	25	13.6
Other operating expense	1,220	1,445	(225)	(15.6)
Total Other Expense	\$8,117	\$9,036	(\$919)	(10.2)

As shown in Table VIII, total noninterest expense decreased \$919,000 or 10.2% in the three months ended September 30, 2015 as compared to the same period of 2014. Significant variances include the following:\

- Salaries and wages decreased \$604,000, or 6.3%, primarily due to severance pay in 2014.

Pensions and other employee benefits decreased \$75,000, or 6.9%. Health care expense decreased \$143,000, as the amount of claims incurred during the three months ended September 30, 2015 was lower than in the same period in 2014. The Corporation is self-insured for health insurance, up to a cap for catastrophic levels of losses, which are insured by a third party. This was partially offset by increased retirement expenses.

Other operating expense decreased \$225,000, Within this category, net collection expense decreased \$79,000, attorney fees decreased \$69,000 as a result of nonrecurring legal matters in 2014 and a sales tax refund in the amount of \$69,000 was received in 2015 and credited against other expenses.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

FINANCIAL CONDITION

Gross loans outstanding (excluding mortgage loans held for sale) were \$679,865,000 at September 30, 2015, up 7.8% from \$630,545,000 at December 31, 2014. The outstanding balance of tax-exempt municipal loans totaled \$40,186,000 at September 30, 2015, an increase of \$22,652,000 from December 31, 2014, and total participation loans outstanding amounted to \$20,796,000 at September 30, 2015, an increase of \$15,850,000 from December 31, 2014. The increase in municipal loans in 2015 includes loans to two school districts in the Corporation's market area with outstanding balances totaling \$15,947,000 at September 30, 2015. Participation loans represent portions of larger commercial transactions for which other institutions are the "lead banks". Although not the lead bank, the Corporation conducts detailed underwriting and monitoring of participation loan opportunities. Participation loans are included in the "Commercial and industrial" and "Commercial loans secured by real estate" classes in the loan tables presented in this Form 10-Q. At September 30, 2015, the balance of participation loans outstanding includes \$9,503,000 to a business based in the Corporation's market area and \$7,043,000 from participations in loans originated through the Corporation's membership in a network that originates loans throughout the U.S. The Corporation's participation loans originated through the network consist of loans to businesses that are larger than the Corporation's typical commercial customer base. The loans originated through the network are considered "leveraged loans," meaning the businesses typically have minimal tangible book equity and the extent of collateral available is limited, though the businesses have demonstrated strong cash flow performance in their recent histories.

The balance of available-for-sale securities fell \$55,094,000 to \$461,713,000 at September 30, 2015 from \$516,807,000 at December 31, 2014. As discussed in the Earnings Overview section, the reduction included sales of securities for which the proceeds were used to pre-pay long-term debt with a book value of \$10 million prior to the pay-down. The reduction also included use of proceeds from calls and maturities of securities to fund the increase in loans receivable in the second and third quarters. The average balance of available-for-sale securities, at amortized cost, was \$494,921,000 for the first nine months of 2015, or \$3.6 million (0.7%) higher than the average balance for the first nine months of 2014, as the reduction in available-for-sale securities outstanding occurred in the second and third quarters.

Other significant changes in the average balances of the Corporation's earning assets and interest-bearing liabilities are described in the "Net Interest Income" section of Management's Discussion and Analysis. Other significant balance sheet items, including the allowance for loan losses and stockholders' equity, are discussed in separate sections of Management's Discussion and Analysis.

Management does not expect capital expenditures to have a material, detrimental effect on the Corporation's financial condition in 2015.

Since 2009, the Corporation has originated and sold residential mortgage loans to the secondary market through the MPF Xtra program administered by the Federal Home Loan Banks of Pittsburgh and Chicago. Residential mortgages originated and sold through the MPF Xtra program consist primarily of conforming, prime loans sold to the Federal National Mortgage Association (Fannie Mae), a government agency. In 2014, the Corporation began to originate and sell residential mortgage loans to the secondary market through the MPF Original program, which is also administered by the Federal Home Loan Banks of Pittsburgh and Chicago. Residential mortgages originated and sold through the MPF Original program consist primarily of conforming, prime loans sold to the Federal Home Loan Bank of Pittsburgh. For loans sold under the Original program, the Corporation provides a credit enhancement whereby the Corporation would assume credit losses in excess of a defined First Loss Account (“FLA”) balance, up to specified amounts. The FLA is funded by the Federal Home Loan Bank of Pittsburgh based on a percentage of the outstanding balance of loans sold. The Corporation does not provide a credit enhancement for loans sold through the Xtra program.

For loan sales originated under the MPF Xtra and Original programs, the Corporation provides customary representations and warranties to investors that specify, among other things, that the loans have been underwritten to the standards established by the investor. The Corporation may be required to repurchase a loan and reimburse a portion of fees received, or reimburse the investor for a credit loss incurred on a loan, if it is determined that the representations and warranties have not been met. Such repurchases or reimbursements generally result from an underwriting or documentation deficiency. At September 30, 2015, the total outstanding balance of loans the Corporation has repurchased as a result of identified instances of noncompliance amounted to \$1,985,000, and the corresponding total outstanding balance repurchased at December 31, 2014 was \$1,802,000.

At September 30, 2015, outstanding balances of loans sold and serviced through the two programs totaled \$152,275,000, including loans sold through the MPF Xtra program of \$130,274,000 and loans sold through the Original program of \$22,001,000. At December 31, 2014, outstanding balances of loans sold and serviced through the two programs totaled \$152,505,000, including loans sold through the MPF Xtra program of \$144,743,000 and loans sold through the Original program of \$7,762,000. Based on the fairly limited volume of required repurchases to date, and of sales through the Original program with credit enhancement, no allowance had been established for representation and warranty exposures, or for credit losses on loan sales through the Original program as of September 30, 2015 and December 31, 2014.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**PROVISION AND ALLOWANCE FOR LOAN LOSSES**

The Corporation maintains an allowance for loan losses that represents management's estimate of the losses inherent in the loan portfolio as of the balance sheet date and is recorded as a reduction of the investment in loans. Note 7 to the unaudited consolidated financial statements provides an overview of the process management uses for evaluating and determining the allowance for loan losses.

While management uses available information to recognize losses on loans, changes in economic conditions may necessitate revisions in future years. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's allowance for loan losses. Such agencies may require the Corporation to

recognize adjustments to the allowance based on their judgments of information available to them at the time of their examination.

The allowance for loan losses was \$7,416,000 at September 30, 2015, up slightly from \$7,336,000 at December 31, 2014. As shown in Table X, the specific allowance on impaired loans totaled \$462,000 at September 30, 2015, which was \$307,000 lower than the total specific allowance at December 31, 2014. Table X also shows the collectively determined component of the allowance for residential loans was \$217,000 higher at September 30, 2015 than at December 31, 2014, reflecting a slightly higher allocation because average net charge-offs were higher for the previous three-year period and there was an increase in loans outstanding at September 30, 2015 as compared to December 31, 2014.

The provision (credit) for loan losses by segment in the three-month and nine-month periods ended September 30, 2015 and 2014 is as follows:

(In Thousands)	3 Months Ended		9 Months Ended	
	Sept. 30, 2015	Sept. 30, 2014	Sept. 30, 2015	Sept. 30, 2014
Residential mortgage	(\$17)	\$62	\$52	\$111
Commercial	282	161	443	295
Consumer	6	(5)	(1)	(50)
Unallocated	31	0	32	(3)

Total	\$302	\$218	\$526	\$353
-------	-------	-------	-------	-------

In the third quarter 2015, the total provision for loan losses was \$302,000 compared to the third quarter 2014 total of \$218,000. The provision for loan losses on commercial loans in the third quarter 2015 included a \$131,000 increased allowance on one impaired loan.

The provision for loan losses in the first nine months of 2015 of \$526,000 exceeded the total for the first nine months of 2014 by \$173,000. The overall increase in the provision included an increase in the collectively determined portion of the allowance of \$355,000 at September 30, 2015 from the December 31, 2014 total, as compared to a \$156,000 increase in the collectively determined portion of the allowance in the first nine months of 2014. The increase in the collectively determined portion of the allowance in the first nine months of 2015 included the effect of an increase in commercial and residential mortgage loans outstanding. In the nine months ended September 30, 2015, the provision related to commercial loans included the effects of establishing an allowance of \$233,000 on one multi-family residential loan with an outstanding balance of \$987,000 at September 30, 2015. The lower provision for the residential mortgage segment in the first nine months of 2015 as compared to the corresponding period in 2014 reflected 2015 charge-offs that were \$203,000 lower than the corresponding allowances established on those loans at December 31, 2014. The \$50,000 credit for loan losses for the consumer segment in the first nine months of 2014 included a reduction in net charge-offs experience that resulted in a reduction in the collectively determined portion of the allowance.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

Table XI presents information related to past due and impaired loans, and loans that have been modified under terms that are considered troubled debt restructurings (TDRs). Table XI shows total impaired loans of \$9,775,000 at September 30, 2015, down \$2,541,000 from the corresponding amount at December 31, 2014 of \$12,316,000. Table XI shows that total impaired loans at December 31, 2013 was significantly higher than the corresponding amounts from 2010-2012, and that the amount of impaired loans (as well as nonperforming loans as reflected in the table) decreased in 2014 and the first nine months of 2015. The increase in impaired and nonaccrual loans outstanding in 2013, and the subsequent decrease in 2014 and 2015, included the effects of changes in the outstanding balance of large loans to two commercial entities. For one of the credits for which there was a loan balance of \$1,815,000 and an allowance of \$211,000 at December 31, 2014 and \$72,000 at December 31, 2013, the Corporation acquired the commercial property that had collateralized the loan through foreclosure and sold the property, resulting in no remaining loan balance and a charge-off of \$115,000 in 2015. For the other large commercial relationship, as described in the following paragraph, during the second quarter 2014, the Corporation recorded a charge-off of \$1,486,000 related to a restructuring, which has reduced the outstanding balance of loans to this commercial entity to \$5,054,000 at September 30, 2015.

As shown in Table XI, loans classified as TDRs totaled \$6,225,000 at September 30, 2015 down from \$7,195,000 at December 31, 2014. The reduction in outstanding TDRs in 2015 includes the effect of pay-offs received on loans secured by farmland. The balance of TDRs at December 31, 2014 had increased from \$4,175,000 at December 31, 2013, mainly due to a restructuring agreement with one commercial borrower. The Corporation entered into a forbearance agreement with this commercial borrower which includes a reduction in monthly payment amounts over a fifteen-month period. At the end of the fifteen-month period, the monthly payment amounts would revert to the original amounts, unless the forbearance agreement is extended or the payment requirements are otherwise modified. In July 2015, the forbearance agreement was extended for twelve months. The Corporation recorded a charge-off of \$1,486,000 in the second quarter 2014 as a result of these modifications, as the payment amounts based on the forbearance agreement are not sufficient to fully amortize the contractual amount of principal outstanding on the loans. The amount of the charge-off was determined based on the excess of the contractual principal due over the present value of the payment amounts provided for in the forbearance agreement, assuming the revised payment amounts would continue until maturity, at the contractual interest rates.

Table XI reflects a lower amount of total loans past due 30-89 days and still accruing interest at September 30, 2015 of \$4,780,000 as compared to the December 31, 2014 total of \$7,121,000, mainly due to a lower amount of past due residential mortgage loans. Each period presented in Table XI includes a few large commercial relationships that have required significant monitoring and workout efforts. As a result, a limited number of relationships may significantly impact the total amount of allowance required on impaired loans, and may significantly impact the amount of total charge-offs reported in any one period.

Management believes it has been conservative in its decisions concerning identification of impaired loans, estimates of loss, and nonaccrual status; however, the actual losses realized from these relationships could vary materially from the allowances calculated as of September 30, 2015. Management continues to closely monitor its commercial loan relationships for possible credit losses, and will adjust its estimates of loss and decisions concerning nonaccrual status, if appropriate.

Tables IX through XII present historical data related to loans and the allowance for loan losses.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**TABLE IX - ANALYSIS OF THE ALLOWANCE FOR LOAN LOSSES****(In Thousands)**

	9 Months Ended

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**LIQUIDITY**

Liquidity is the ability to quickly raise cash at a reasonable cost. An adequate liquidity position permits the Corporation to pay creditors, compensate for unforeseen deposit fluctuations and fund unexpected loan demand. At September 30, 2015, the Corporation maintained overnight interest-bearing deposits with the Federal Reserve Bank of Philadelphia and other correspondent banks totaling \$13,012,000.

The Corporation maintains overnight borrowing facilities with several correspondent banks that provide a source of day-to-day liquidity. Also, the Corporation maintains borrowing facilities with the Federal Home Loan Bank of Pittsburgh, secured by various mortgage loans.

The Corporation has a line of credit with the Federal Reserve Bank of Philadelphia's Discount Window. Management intends to use this line of credit as a contingency funding source. As collateral for the line, the Corporation has pledged available-for-sale securities with a carrying value of \$21,065,000 at September 30, 2015.

The Corporation's outstanding, available, and total credit facilities at September 30, 2015 and December 31, 2014 are as follows:

(In Thousands)	Outstanding		Available		Total Credit	
	Sept. 30,	Dec. 31,	Sept. 30,	Dec. 31,	Sept. 30,	Dec. 31,
	2015	2014	2015	2014	2015	2014
Federal Home Loan Bank of Pittsburgh	\$16,342	\$12,060	\$305,431	\$311,007	\$321,773	\$323,067
Federal Reserve Bank Discount Window	0	0	19,560	25,367	19,560	25,367
Other correspondent banks	0	0	45,000	45,000	45,000	45,000
Total credit facilities	\$16,342	\$12,060	\$369,991	\$381,374	\$386,333	\$393,434

At September 30, 2015, the Corporation's outstanding credit facilities with the Federal Home Loan Bank of Pittsburgh consisted of long-term borrowings with a total amount of \$11,842,000 and an overnight borrowing of \$4,500,000. At December 31, 2014, the Corporation's outstanding credit facilities with the Federal Home Loan Bank of Pittsburgh consisted of long-term borrowings with a total amount of \$12,060,000. Additional information regarding borrowed funds is included in Note 8 of the unaudited consolidated financial statements.

Additionally, the Corporation uses repurchase agreements placed with brokers to borrow funds secured by investment assets and “RepoSweep” arrangements to borrow funds from commercial banking customers on an overnight basis. If required to raise cash in an emergency situation, the Corporation could sell available-for-sale securities to meet its obligations. At September 30, 2015, the carrying value of available-for-sale securities in excess of amounts required to meet pledging or repurchase agreement obligations was \$232,375,000.

Management believes the Corporation is well-positioned to meet its short-term and long-term obligations.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**STOCKHOLDERS' EQUITY AND CAPITAL ADEQUACY**

The Corporation and C&N Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Details concerning capital ratios at September 30, 2015 and December 31, 2014 are presented below. Management believes, as of September 30, 2015 and December 31, 2014, that the Corporation and C&N Bank meet all capital adequacy requirements to which they are subject.

(Dollars in Thousands)	Actual		Minimum Capital Requirement		Minimum To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
September 30, 2015:

Management expects the Corporation and C&N Bank to maintain capital levels that exceed the regulatory standards for well-capitalized institutions for the next 12 months and for the foreseeable future. Planned capital expenditures are not expected to have a significantly detrimental effect on capital ratios.

Future dividend payments will depend upon maintenance of a strong financial condition, future earnings and capital and regulatory requirements. As described in more detail in the section below titled "New Capital Rule," the Corporation and C&N Bank are subject to restrictions on the amount of dividends that may be paid without approval of banking regulatory authorities.

The Corporation's total stockholders' equity is affected by fluctuations in the fair values of available-for-sale securities. The difference between amortized cost and fair value of available-for-sale securities, net of deferred income tax, is included in Accumulated Other Comprehensive Income within stockholders' equity. The balance in Accumulated Other Comprehensive Income related to unrealized gains on available-for-sale securities, net of deferred income tax, amounted to \$6,116,000 at September 30, 2015 and \$5,281,000 at December 31, 2014. Changes in accumulated other comprehensive income are excluded from earnings and directly increase or decrease stockholders' equity. If available-for-sale securities are deemed to be other-than-temporarily impaired, unrealized losses are recorded as a charge against earnings, and amortized cost for the affected securities is reduced. Note 6 to the unaudited consolidated financial statements provides additional information concerning management's evaluation of available-for-sale securities for other-than-temporary impairment at September 30, 2015.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

Stockholders' equity is also affected by the underfunded or overfunded status of defined benefit pension and postretirement plans. The balance in Accumulated Other Comprehensive Income related to defined benefit plans, net of deferred income tax, was \$6,000 at September 30, 2015 and \$79,000 at December 31, 2014.

NEW CAPITAL RULE

In July 2013, the federal regulatory authorities issued a new capital rule based, in part, on revisions developed by the Basel Committee on Banking Supervision to the Basel capital framework (Basel III). The Corporation and C&N Bank became subject to the new rule effective January 1, 2015. Generally, the new rule implements higher minimum capital requirements, revises the definition of regulatory capital components and related calculations, adds a new common equity tier 1 capital ratio, implements a new capital conservation buffer, increases the risk weighting for past due loans and provides a transition period for several aspects of the new rule.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

A summarized comparison of the prior capital requirements with requirements under the current (new) rule is as follows:

	Prior General Risk-Based Capital Rule	Current (New) Capital Rule
Minimum regulatory capital ratios:		
Common equity tier 1 capital/ risk-weighted assets (RWA)	N/A	4.5%
Tier 1 capital / RWA	4%	6%
Total capital / RWA	8%	8%
Tier 1 capital / Average assets (Leverage ratio)	4%	4%
Capital buffers:		
Capital conservation buffer	N/A	2.5% of RWA; composed of common equity tier 1 capital
Prompt correction action levels - Common equity tier 1 capital ratio:		
Well capitalized	N/A	³ 6.5%
Adequately capitalized	N/A	³ 4.5%
Undercapitalized	N/A	<4.5%
Significantly undercapitalized	N/A	<3%
Prompt correction action levels - Tier 1 capital ratio:		
Well capitalized	³ 6%	³ 8%
Adequately capitalized	³ 4%	³ 6%
Undercapitalized	<4%	<6%
Significantly undercapitalized	<3%	<4%
Prompt correction action levels - Total capital ratio:		
Well capitalized	³ 10%	³ 10%
Adequately capitalized	³ 8%	³ 8%
Undercapitalized	<8%	<8%
Significantly undercapitalized	<6%	<6%
Prompt correction action levels - Leverage ratio:		
Well capitalized	³ 5%	³ 5%

Edgar Filing: CITIZENS & NORTHERN CORP - Form 10-Q

Adequately capitalized	34%	34%
Undercapitalized	<4%	<4%
Significantly undercapitalized	<3%	<3%
Prompt correction action levels -		
Critically undercapitalized:		
Tangible equity to total assets	≤2%	≤2%

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

The current (new) capital rule provides that, in order to avoid limitations on capital distributions, including dividend payments and certain discretionary bonus payments to executive officers, a banking organization must hold a capital conservation buffer composed of common equity tier 1 capital above its minimum risk-based capital requirements. The buffer is measured relative to risk-weighted assets. Phase-in of the capital conservation buffer requirements will begin January 1, 2016. The transition schedule for new ratios, including the capital conservation buffer, is as follows:

	As of January 1:				
	2015	2016	2017	2018	2019
Minimum common equity tier 1 capital ratio	4.5%	4.5%	4.5%	4.5%	4.5%
Common equity tier 1 capital conservation buffer	N/A	0.625%	1.25%	1.875%	2.5%
Minimum common equity tier 1 capital ratio plus capital conservation buffer	4.5%	5.125%	5.75%	6.375%	7.0%
Phase-in of most deductions from common equity tier 1 capital	40%	60%	80%	100%	100%
Minimum tier 1 capital ratio	6.0%	6.0%	6.0%	6.0%	6.0%
Minimum tier 1 capital ratio plus capital conservation buffer	N/A	6.625%	7.25%	7.875%	8.5%
Minimum total capital ratio	8.0%	8.0%	8.0%	8.0%	8.0%
Minimum total capital ratio plus capital conservation buffer	N/A	8.625%	9.25%	9.875%	10.5%

As fully phased in, a banking organization with a buffer greater than 2.5% would not be subject to additional limits on dividend payments or discretionary bonus payments; however, a banking organization with a buffer less than 2.5% would be subject to increasingly stringent limitations as the buffer approaches zero. The new rule also prohibits a banking organization from making dividend payments or discretionary bonus payments if its eligible retained income is negative in that quarter and its capital conservation buffer ratio was less than 2.5% as of the beginning of that quarter. Eligible net income is defined as net income for the four calendar quarters preceding the current calendar quarter, net of any distributions and associated tax effects not already reflected in net income. A summary of payout restrictions based on the capital conservation buffer is as follows:

Capital Conservation Buffer (as a % of risk-weighted assets)	Maximum Payout (as a % of eligible retained income)
Greater than 2.5%	No payout limitation applies
≤2.5% and >1.875%	60%
≤1.875% and >1.25%	40%
≤1.25% and >0.625%	20%
≤0.625%	0%

COMPREHENSIVE INCOME

Comprehensive Income is the total of (1) net income, and (2) all other changes in equity from non-stockholder sources, which are referred to as Other Comprehensive Income. Changes in the components of Accumulated Other Comprehensive Income (Loss) are included in Other Comprehensive Income, and for the Corporation, consist of changes in unrealized gains or losses on available-for-sale securities and changes in underfunded or overfunded defined benefit plans.

Fluctuations in interest rates significantly affect fair values of available-for-sale securities, and accordingly have an effect on Other Comprehensive Income (Loss) in each period. Comprehensive Income totaled \$6,270,000 for the three months ended September 30, 2015 as compared to \$2,888,000 in the third quarter 2014. For the three months ended September 30, 2015, Comprehensive Income included: (1) Net Income of \$4,234,000, which was \$33,000 lower than in the third quarter 2014; (2) Other Comprehensive Income from an increase in net unrealized gains on available-for-sale securities of \$2,039,000 as compared to Other Comprehensive Loss of \$1,376,000 from a decrease in net unrealized gains on available-for-sale securities in the third quarter 2014; and (3) Other Comprehensive Loss from defined benefit plans of \$3,000, which was the same as the Other Comprehensive Loss from defined benefit plans in the third quarter 2014. For the nine months ended September 30, 2015, Comprehensive Income totaled \$13,168,000 as compared to \$17,748,000 for the nine months ended September 30, 2014. In the nine months ended September 30, 2015, Comprehensive Income included: (1) Net Income of \$12,406,000, which was \$312,000 lower than in the first nine months of 2014; (2) Other Comprehensive Income from an increase in net unrealized gains on available-for-sale securities of \$835,000 as compared to Other Comprehensive Income of \$4,944,000 in the first nine months of 2014; and (3) Other Comprehensive Loss from defined benefit plans of \$73,000 as compared to Other Comprehensive Income of \$86,000 in the first nine months of 2014.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

INCOME TAXES

The effective income tax rate was approximately 25% of pre-tax income for the three-month and nine-month periods ended September 30, 2015 and 2014. The provision for income tax for interim periods is based on the Corporation's estimate of the effective tax rate expected to be applicable for the full year. The Corporation's effective tax rates differ from the statutory rate of 35% principally because of the effects of tax-exempt interest income.

The Corporation recognizes deferred tax assets and liabilities based on differences between the financial statement carrying amounts and the tax basis of assets and liabilities. At September 30, 2015, the net deferred tax asset was \$762,000, down from \$1,668,000 at December 31, 2014. The most significant changes in temporary difference components were a \$537,000 reduction in the deferred tax asset related to the credit for alternative minimum tax paid and an increase of \$449,000 in the deferred tax liability associated with unrealized gains on available-for-sale securities.

The Corporation regularly reviews deferred tax assets for recoverability based on history of earnings, expectations for future earnings and expected timing of reversals of temporary differences. Realization of deferred tax assets ultimately depends on the existence of sufficient taxable income, including taxable income in prior carryback years, as well as future taxable income. Management believes the recorded net deferred tax asset at September 30, 2015 is fully realizable; however, if management determines the Corporation will be unable to realize all or part of the net deferred tax asset, the Corporation would adjust the deferred tax asset, which would negatively impact earnings.

Additional information related to income taxes is presented in Note 11 to the unaudited, consolidated financial statements.

INFLATION

The Corporation is significantly affected by the Federal Reserve Board's efforts to control inflation through changes in short-term interest rates. Beginning in September 2007, in response to concerns about weakness in the U.S. economy, the Federal Reserve lowered the fed funds target rate numerous times; in December 2008, it established a target range of 0% to 0.25%, which it has maintained through September 30, 2015. Also, the Federal Reserve has injected massive amounts of liquidity into the nation's monetary system through a variety of programs. The Federal Reserve has purchased large amounts of securities in an effort to keep interest rates low and stimulate economic growth. Beginning

in late 2013, the Federal Reserve began reducing the amount of securities purchased under its asset purchase program and then ended the program in October 2014, though still reinvesting principal payments from its holdings of agency debt and agency mortgage-backed securities in agency mortgage-backed securities and continuing to roll over maturing Treasury securities at auction. The Federal Reserve is expected to continue its highly accommodative monetary policy in the form of low short-term interest rates for the foreseeable future, though some observers believe the fed funds target rate may be raised above its current level in the fourth quarter 2015.

Despite the current low short-term rate environment, inflation statistics indicate that the overall rate of inflation is unlikely to significantly affect the Corporation's operations within the near future. Although management cannot predict future changes in the rates of inflation, management monitors the impact of economic trends, including any indicators of inflationary pressures, in managing interest rate and other financial risks.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices of the Corporation's financial instruments. In addition to the effects of interest rates, the market prices of the Corporation's debt securities within the available-for-sale securities portfolio are affected by fluctuations in the risk premiums (amounts of spread over risk-free rates) demanded by investors. Management attempts to limit the risk that economic conditions would force the Corporation to sell securities for realized losses by maintaining a strong capital position (discussed in the "Stockholders' Equity and Capital Adequacy" section of Management's Discussion and Analysis) and ample sources of liquidity (discussed in the "Liquidity" section of Management's Discussion and Analysis).

The Corporation's two major categories of market risk are interest rate risk and equity securities risk, which are discussed in the following sections.

INTEREST RATE RISK

Business risk arising from changes in interest rates is an inherent factor in operating a bank. The Corporation's assets are predominantly long-term, fixed-rate loans and debt securities. Funding for these assets comes principally from shorter-term deposits and borrowed funds. Accordingly, there is an inherent risk of lower future earnings or decline in fair value of the Corporation's financial instruments when interest rates change.

The Corporation uses a simulation model to calculate the potential effects of interest rate fluctuations on net interest income and the market value of portfolio equity. For purposes of these calculations, the market value of portfolio equity includes the fair values of financial instruments, such as securities, loans, deposits and borrowed funds, and the book values of nonfinancial assets and liabilities, such as premises and equipment and accrued expenses. The model measures and projects the amount of potential changes in net interest income, and calculates the discounted present value of anticipated cash flows of financial instruments, assuming an immediate increase or decrease in interest rates. Management ordinarily runs a variety of scenarios within a range of plus or minus 100-400 basis points of current rates.

The model makes estimates, at each level of interest rate change, regarding cash flows from principal repayments on loans and mortgage-backed securities and call activity on other investment securities. Actual results could vary significantly from these estimates, which could result in significant differences in the calculations of projected changes in net interest income and market value of portfolio equity. Also, the model does not make estimates related to changes in the composition of the deposit portfolio that could occur due to rate competition, and the table does not necessarily reflect changes that management would make to realign the portfolio as a result of changes in interest rates.

The Corporation's Board of Directors has established policy guidelines for acceptable levels of interest rate risk, based on an immediate increase or decrease in interest rates. The policy limits acceptable fluctuations in net interest income from the baseline (flat rates) one-year scenario and variances in the market value of portfolio equity from the baseline values based on current rates.

Table XIII, which follows this discussion, is based on the results of calculations performed using the simulation model as of July 31, 2015 and October 31, 2014. The table shows that as of the respective dates, the changes in net interest income and changes in market value were within the policy limits in all scenarios.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q**EQUITY SECURITIES RISK**

The Corporation's equity securities portfolio consists of investments in stocks of banks and bank holding companies. Investments in bank stocks are subject to risk factors that affect the banking industry in general, including credit risk, competition from non-bank entities, interest rate risk and other factors, which could result in a decline in market prices. Also, losses could occur in individual stocks held by the Corporation because of specific circumstances related to each bank.

Equity securities held as of September 30, 2015 and December 31, 2014 are presented in Table XIV. Table XIV presents quantitative data concerning the effects of a decline in fair value of the Corporation's equity securities of 10% or 20%. The data in Table XIV does not reflect the effects of any appreciation in value that may occur, nor does it present the Corporation's maximum exposure to loss on equity securities, which would be 100% of their fair value as of September 30, 2015.

TABLE XIV - EQUITY SECURITIES RISK
(In Thousands)

	Sept 30,	Dec. 31,
	2015	2014
Cost	\$5,365	\$5,605

Hypothetical 10% Decline In Market Value	(779)	(865)
Hypothetical 20% Decline In Market Value	(1,558)	(1,731)

ITEM 4. CONTROLS AND PROCEDURES

The Corporation's management, under the supervision of and with the participation of the Corporation's Chief Executive Officer and Chief Financial Officer, has carried out an evaluation of the design and effectiveness of the Corporation's disclosure controls and procedures as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Securities Exchange Act of 1934 as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Corporation's disclosure controls and procedures are effective to ensure that all material information required to be disclosed in reports the Corporation files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes in the Corporation's internal control over financial reporting that occurred during the period covered by this report that have materially affected, or that are reasonably likely to affect, our internal control over financial reporting.

CITIZENS & NORTHERN CORPORATION – FORM 10-Q

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Corporation and C&N Bank are involved in various legal proceedings incidental to their business. Management believes the aggregate liability, if any, resulting from such pending and threatened legal proceedings will not have a material, adverse effect on the Corporation's financial condition or results of operations.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in Item 1A of the Corporation's Form 10-K filed February 26, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Effective July 17, 2014, the Corporation terminated its existing treasury stock repurchase programs and approved a new treasury stock repurchase program. Under the new program, the Corporation is authorized to repurchase up to 622,500 shares of the Corporation's common stock, or approximately 5% of the Corporation's issued and outstanding shares at July 16, 2014. As permitted by securities laws and other legal requirements and subject to market conditions and other factors, purchases under the new program may be made from time to time in the open market at prevailing prices, or through privately negotiated transactions. As of September 30, 2015, the maximum number of additional shares the Corporation may repurchase under this program is 211,100.

Consistent with previous programs, the Board of Directors' July 17, 2014 authorization provides that: (1) the new treasury stock repurchase program shall be effective when publicly announced and shall continue thereafter until suspended or terminated by the Board of Directors, in its sole discretion; and (2) all shares of common stock repurchased pursuant to the new program shall be held as treasury shares and be available for use and reissuance for purposes as and when determined by the Board of Directors including, without limitation, pursuant to the Corporation's Dividend Reinvestment and Stock Purchase Plan and its equity compensation program. Through September 30, 2015, 411,400 shares had been repurchased for a total cost of \$7,946,000.

The following table sets forth a summary of the purchases by the Corporation, on the open market, of its equity securities during the third quarter 2015:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs
July 1 - 31, 2015	0	0	384,300	238,200
August 1 - 31, 2015	7,000	\$19.50	391,300	231,200
September 1 - 30, 2015	20,100	\$19.52	411,400	211,100
