Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Amounts in millions, except per-share data and as indicated)

1. Description of Business and Basis of Presentation

Acuity Brands, Inc. ("Acuity Brands") is the parent company of Acuity Brands Lighting, Inc. ("ABL") and other subsidiaries (Acuity Brands, ABL, and such other subsidiaries are collectively referred to herein as the "Company"). The Company designs, produces, and distributes a broad array of lighting solutions and services for commercial, institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets. The Company's lighting solutions include devices such as luminaires, lighting controls, power supplies, prismatic skylights, light-emitting diode ("LED") lamps and drivers, and integrated lighting systems for indoor and outdoor applications utilizing a combination of light sources, including daylight, and other devices controlled by software that monitors and manages light levels while optimizing energy consumption (collectively referred to herein as "lighting solutions"). The Company has one operating segment serving the North American lighting market and select international markets.

The Consolidated Financial Statements have been prepared by the Company in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") and present the financial position, results of operations, and cash flows of Acuity Brands and its wholly-owned subsidiaries. References made to years are for fiscal year periods.

These unaudited interim consolidated financial statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the Company's consolidated financial position as of May 31, 2015, the consolidated statements of comprehensive income for the three and nine months ended May 31, 2015 and 2014, and the consolidated cash flows for the nine months ended May 31, 2015 and 2014. Certain information and footnote disclosures normally included in the Company's annual financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. However, the Company believes that the disclosures included herein are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the audited consolidated financial statements of the Company as of and for the three years ended August 31, 2014 and notes thereto included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on October 29, 2014 (File No. 001-16583) ("Form 10-K").

The results of operations for the three and nine months ended May 31, 2015 and 2014 are not necessarily indicative of the results to be expected for the full fiscal year because the net sales and net income of the Company historically have been higher in the second half of its fiscal year and because, among other reasons, the continued uncertainty of general economic conditions that may impact the key end markets of the Company for the remainder of fiscal 2015.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain prior-period amounts have been reclassified to conform to the current year presentation. No material reclassifications occurred during the current period.

3. Acquisitions and Investments

Distech Acquisition

On March 9, 2015, the Company announced that it had entered into an agreement to acquire all of the outstanding capital stock of Distech Controls Inc. ("Distech"), a provider of building automation and energy management solutions that allow for the integration of lighting, HVAC, access control, closed circuit television, and related

systems. Distech is headquartered in Quebec, Canada. The terms of the agreement reflect a cash purchase price totaling \$318.0 Canadian dollars, or approximately \$255.0 U.S. dollars, which will be funded using cash on hand. Subsequent to the announcement, Distech discovered shipments by it and its

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

subsidiaries during the past five years of standard commercial building control products directly or indirectly to customers in a country that may constitute violations of U.S. and Canadian sanctions or export regulations, including those administered by the U.S. Office of Foreign Asset Control (“OFAC”) and the Export Controls Division (“TIE”) of Foreign Affairs, Trade and Development Canada. Distech estimates that it received total revenue of approximately \$0.3 from these shipments. Distech has voluntarily self-reported the potential violations to OFAC and TIE and retained outside counsel that is conducting an investigation of the matter and preparing a full voluntary disclosure to be filed with these agencies.

The Company intends to fully cooperate with respect to any investigations by governmental agencies of the potential violations following its acquisition of Distech. Distech has represented to the Company that Distech has substantially completed its investigation into the potential violations and that it has provided the Company with all relevant facts identified to date that are material to this matter. The shareholders of Distech have also jointly agreed to indemnify the Company for damages, if any, in respect of, connected with or arising out of the potential violations or any inaccuracy or breach of the representations made by Distech to the Company related thereto, up to a specified aggregate amount, which is not material to the Company's consolidated financial statements. These indemnity obligations will be supported by an escrow account containing proceeds from the transaction equal to the specified aggregate amount. The Company currently believes that this indemnity will be sufficient to cover any damages related to the potential violations and the costs and expenses related to the investigation thereof and any related remedial actions. The Company therefore does not expect this matter to have a material adverse effect on the business, financial condition, cash flow, or results of operations of the Company. There can be no assurance, however, that actual damages, costs and expenses will not be in excess of the indemnity or that the Company and its affiliates will not be subject to other damages, including but not limited to damage to the Company's reputation or monetary or non-monetary penalties as permitted under applicable trade laws, that may not be fully covered by the indemnity.

The closing of this pending transaction is subject to approval by certain Distech shareholders and other closing conditions. If these remaining conditions are successfully concluded, the Company would expect to complete the acquisition of Distech in September 2015.

During March 2015, the Company entered into a foreign currency forward contract in an effort to mitigate nearly all of the foreign currency exposure associated with the Canadian dollar purchase price. In accordance with U.S. GAAP, a firm commitment to enter into a business combination shall not be designated as a hedged item. As such, the gain of approximately \$14.4 realized on the ultimate settlement of the forward contract, which was based on market exchange rates at the settlement date of the forward contract, was recognized in Miscellaneous (Income) Expense, net within the Consolidated Statements of Comprehensive Income. Immediately following the settlement of the forward contract, the Company purchased, for approximately \$4.1, a currency hedge option to purchase substantially all of the Distech Canadian dollar purchase price on June 30, 2015. The decrease in the fair value of the option (approximately \$3.9) was recognized in Miscellaneous (Income) Expense, net within the Consolidated Statements of Comprehensive Income. On June 30, 2015, the Company entered into another foreign currency forward contract.

Other Acquisitions and Investments

During the quarter ended May 31, 2015, using cash on hand, the Company acquired substantially all of the assets and assumed certain liabilities of ByteLight, Inc. (“ByteLight”), a provider of indoor location software for LED lighting, and made a strategic, non-controlling investment in a company specializing in light sensory networks. ByteLight is headquartered in Boston, Massachusetts. The operating results of ByteLight have been included in the Company's consolidated financial statements since the date of acquisition. The non-controlling investment which is reflected in Other long term assets on the Consolidated Balance Sheets was accounted for using the cost method.

4. New Accounting Pronouncements

Accounting Standards Adopted in Fiscal 2015

In March 2013, the FASB issued ASU No. 2013-05, Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (a consensus of the FASB Emerging Issues Task Force) ("ASU 2013-05"), which applies to the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity. ASU 2013-05 is effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The provisions of ASU 2013-05 did not have a material effect on the Company's financial condition, results of operations, or cash flows.

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In July 2013, the FASB issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Task Force) (“ASU 2013-11”), which applies to the presentation of unrecognized tax benefits as a liability on the balance sheet when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose. ASU 2013-11 is effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013. The provisions of ASU 2013-11 did not have a material effect on the Company's financial condition, results of operations, or cash flows.

Accounting Standards Yet to Be Adopted

In May 2014, the FASB issued ASU No. 2014-09, Revenue From Contracts With Customers (“ASU 2014-09”), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. ASU 2014-09 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2016. The Company is currently evaluating the impact of the provisions of ASU 2014-09.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying The Presentation Of Debt Issuance Costs (“ASU 2015-03”), which changes the presentation of debt issuance costs in financial statements. ASU 2015-03 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2015. The provisions of ASU 2015-03 are not expected to have a material effect on the Company's financial condition.

In April 2015, the FASB issued ASU No. 2015-05, Customer's Accounting For Fees Paid In A Cloud Computing Arrangement (“ASU 2015-05”), which provides guidance for a customer's accounting for cloud computing costs. ASU 2015-05 is effective for fiscal years (and interim reporting periods within those years) beginning after December 15, 2015. The provisions of ASU 2015-05 are not expected to have a material effect on the Company's financial condition, results of operations, or cash flows.

5. Fair Value Measurements

The Company determines fair value measurements based on the assumptions a market participant would use in pricing the asset or liability. ASC Topic 820, Fair Value Measurements and Disclosures (“ASC 820”), establishes a three level hierarchy making a distinction between market participant assumptions based on (i) unadjusted quoted prices for identical assets or liabilities in an active market (Level 1), (ii) quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability (Level 2), and (iii) prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (Level 3).

The following table presents information about assets and liabilities required to be carried at fair value and measured on a recurring basis as of May 31, 2015 and August 31, 2014:

	Fair Value Measurements as of:							
	May 31, 2015			Total	August 31, 2014			Total
	Level 1	Level 2	Level 3	Fair Value	Level 1	Level 2	Level 3	Fair Value
Assets:								
Cash and cash equivalents	\$652.1	\$—	\$—	\$652.1	\$552.5	\$—	\$—	\$552.5
Other	0.8	—	—	0.8	0.6	—	—	0.6
Liabilities:								
Other	\$0.6	\$—	\$0.3	\$0.9	\$0.6	\$—	\$11.6	\$12.2

The Company utilizes valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of “exit price” and the fair value hierarchy as prescribed in ASC 820. All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during the current period.

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The Company used the following valuation methods and assumptions in estimating the fair value of the following assets and liabilities:

The fair value of Level 1 assets and liabilities is determined based on quoted market prices.

The fair value of Level 3 liabilities is estimated using a discounted cash flow technique with significant inputs that are not observable in the market, appropriately discounted considering the uncertainties associated with the obligation.

Changes in these inputs, including probability assessments or the discount rate, could result in a higher or lower fair value measurement. Any reasonably likely change in the assumptions used in the analysis would not result in a material change to the fair value of these liabilities.

No transfers between the levels of the fair value hierarchy occurred during the current fiscal period. In the event of a transfer in or out of a level within the fair value hierarchy, the transfers would be recognized on the date of occurrence.

The Company's Level 3 liabilities consist of certain acquisition-related liabilities. The change in these liabilities during fiscal 2015 was due to a \$2.0 increase in the estimated fair value, a \$11.6 decrease due to payments, and a \$1.7 decrease due to currency rate fluctuations in the period. The expense associated with the change in the estimated fair value was included in Selling, Distribution, and Administrative Expenses within the Consolidated Statements of Comprehensive Income.

Disclosures of fair value information about financial instruments (whether or not recognized in the balance sheet), for which it is practicable to estimate that value, are required each reporting period in addition to any financial instruments carried at fair value on a recurring basis as prescribed by ASC Topic 825, Financial Instruments ("ASC 825"). In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows.

The carrying values and estimated fair values of certain of the Company's financial instruments were as follows at May 31, 2015 and August 31, 2014:

	May 31, 2015		August 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Investment in noncontrolling affiliate	\$8.0	\$8.0	\$—	\$—
Liabilities:				
Senior unsecured public notes, net of unamortized discount	\$349.7	\$387.6	\$349.6	\$391.2
Industrial revenue bond	4.0	4.0	4.0	4.0

Investment in noncontrolling affiliate represents a strategic investment accounted for using the cost method. The Company estimates that the historical cost of the acquired shares represents the fair value of the investment (Level 3). The senior unsecured public notes are carried at the outstanding balance, net of bond discounts, as of the end of the reporting period. Fair value is estimated based on discounted future cash flows using rates currently available for debt of similar terms and maturity (Level 2).

The tax-exempt industrial revenue bond is carried at the outstanding balance as of the end of the reporting period. The industrial revenue bond is a variable-rate instrument that resets on a weekly basis; therefore, the Company estimates that the face amount of the bond approximates fair value as of May 31, 2015 based on bonds of similar terms and maturity (Level 2).

ASC 825 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value to the Company. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of liquidity and other risks, the fair values of all assets and liabilities should be taken into consideration, not only those

presented above.

6. Goodwill and Intangible Assets

Through multiple acquisitions, the Company acquired intangible assets consisting primarily of trademarks and trade names associated with specific products with finite lives, definite-lived distribution networks, patented technology, non-compete

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

agreements, and customer relationships, which are amortized over their estimated useful lives. Indefinite-lived intangible assets consist of trade names that are expected to generate cash flows indefinitely.

The Company recorded amortization expense of \$2.7 and \$2.8 related to intangible assets with finite lives during the three months ended May 31, 2015 and 2014, respectively, and \$8.3 and \$8.4 during the nine months ended May 31, 2015 and 2014, respectively. Amortization expense is generally recorded on a straight-line basis and is expected to be approximately \$11.0 in fiscal 2015, \$10.7 in fiscal 2016, \$10.3 in fiscal 2017, \$10.3 in fiscal 2018, and \$10.3 in fiscal 2019. Since the Distech acquisition has not yet closed, these projections exclude any impact to amortization expense related to potential intangible assets associated with that transaction.

The change in the carrying amount of goodwill during the nine months ended May 31, 2015 is due to foreign currency translation adjustments. Further discussion of the Company's goodwill and other intangible assets is included within the Significant Accounting Policies footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

7. Inventories

Inventories include materials, labor, in-bound freight, and related manufacturing overhead, are stated at the lower of cost (on a first-in, first-out or average cost basis) or market, and consist of the following:

	May 31, 2015	August 31, 2014
Raw materials, supplies, and work in process ⁽¹⁾	\$135.4	\$125.7
Finished goods	134.2	97.6
	269.6	223.3
Less: Reserves	(13.2)	(11.3)
Total Inventory	\$256.4	\$212.0

Due to the immaterial amount of estimated work in process and the short lead times for the conversion of raw materials to finished goods, the Company does not believe the segregation of raw materials and work in process to be meaningful information.

8. Earnings Per Share

Basic earnings per share is computed by dividing net earnings available to common stockholders by the weighted average number of common shares outstanding, which has been modified to include the effects of all participating securities (unvested share-based payment awards with a right to receive nonforfeitable dividends) as prescribed by the two-class method under ASC Topic 260, Earnings Per Share ("ASC 260"), during the period. The equity plan approved by stockholders in January 2013 changed the dividend provisions causing share-based payment awards to lose the right to receive nonforfeitable dividends. Due to this change, any shares granted after January 2013 are not participating securities as prescribed by the two-class method under ASC 260 and are accounted for in the diluted earnings per share calculation described below.

Diluted earnings per share is computed similarly but reflects the potential dilution that would occur if dilutive options were exercised, restricted stock awards (unvested share-based payment awards without a right to receive nonforfeitable dividends) were vested, and other distributions related to deferred stock agreements were incurred. Stock options of approximately 52,143 and 47,847 for the three months ended May 31, 2015 and 2014, respectively, and 62,175 and 57,845 for the nine months ended May 31, 2015 and 2014, respectively, were excluded from the diluted earnings per share calculation as the effect of inclusion would have been antidilutive. Restricted stock shares of 2,238 and 4,714 were excluded from the diluted earnings per share calculation for the nine months ended May 31, 2015, and 2014, respectively, as the effect of inclusion would have been antidilutive. There were no shares of restricted stock excluded from the diluted earnings per share calculation for the three months ended May 31, 2015 and

2014. Further discussion of the Company's stock options and restricted stock awards is included within the Common Stock and Related Matters and Share-Based Payments footnotes of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The following table calculates basic earnings per common share and diluted earnings per common share for the three and nine months ended May 31, 2015 and 2014:

	Three Months Ended		Nine Months Ended	
	May 31, 2015	May 31, 2014	May 31, 2015	May 31, 2014
Basic Earnings per Share:				
Net income	\$64.5	\$43.8	\$162.0	\$121.0
Less: Income attributable to participating securities	(0.2)) (0.4) (0.7) (1.2
Net income available to common shareholders	\$64.3	\$43.4	\$161.3	\$119.8
Basic weighted average shares outstanding	43.2	42.8	43.1	42.7
Basic earnings per share	\$1.49	\$1.01	\$3.74	\$2.81
Diluted Earnings per Share:				
Net income	\$64.5	\$43.8	\$162.0	\$121.0
Less: Income attributable to participating securities	(0.2)) (0.4) (0.7) (1.2
Net income available to common shareholders	\$64.3	\$43.4	\$161.3	\$119.8
Basic weighted average shares outstanding	43.2	42.8	43.1	42.7
Common stock equivalents	0.3	0.3	0.3	0.3
Diluted weighted average shares outstanding	43.5	43.1	43.4	43.0
Diluted earnings per share	\$1.48	\$1.01	\$3.72	\$2.79

9. Comprehensive Income

Comprehensive income represents a measure of all changes in equity that result from recognized transactions and other economic events other than transactions with owners in their capacity as owners. Other comprehensive income for the Company includes foreign currency translation and pension adjustments.

The following table presents the changes in each component of accumulated other comprehensive loss:

	Foreign Currency Items	Defined Benefit Pension Plans	Accumulated Other Comprehensive Loss Items
Balance at August 31, 2014	\$(18.1) \$(53.8) \$(71.9
Other Comprehensive Income (Expense) before reclassifications	(18.5) —	(18.5
Amounts reclassified from accumulated other comprehensive income	—	1.6	1.6
Net current-period Other Comprehensive Income (Expense)	(18.5) 1.6	(16.9
Balance at May 31, 2015	\$(36.6) \$(52.2) \$(88.8

These accumulated other comprehensive income components are included in net periodic pension cost. See

⁽¹⁾ Pension and Profit Sharing Plans footnote within the Notes to Consolidated Financial Statements for additional details.

10. Debt

Lines of Credit

On August 27, 2014, the Company executed a new \$250.0 revolving credit facility (the “Revolving Credit Facility”). The Revolving Credit Facility replaced the Company’s prior \$250.0 revolving credit facility, which was scheduled to mature on January 31, 2017. The Revolving Credit Facility will mature and all amounts outstanding will be due and payable on August 27, 2019.

The Revolving Credit Facility contains financial covenants, including a minimum interest coverage ratio (“Minimum Interest Coverage Ratio”) and a leverage ratio (“Maximum Leverage Ratio”) of total indebtedness to EBITDA (earnings

before interest, taxes, depreciation, and amortization expense), as such terms are defined in the Revolving Credit Facility agreement. These ratios are computed at the end of each fiscal quarter for the most recent 12-month period. The Revolving Credit Facility allows for a Maximum Leverage Ratio of 3.50 and a Minimum Interest Coverage Ratio of 2.50, subject to certain conditions defined in the financing agreement. As of May 31, 2015, the Company was in compliance with all financial covenants under the Revolving Credit Facility. At May 31, 2015, the Company had additional borrowing capacity under the Revolving Credit Facility of \$243.9 under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$6.1 issued under the Revolving Credit Facility. As of May 31, 2015, the Company had outstanding letters of credit totaling \$10.3, primarily for securing collateral requirements under the casualty insurance programs for Acuity

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Brands and providing credit support for the Company's industrial revenue bond, including \$6.1 issued under the Revolving Credit Facility.

Generally, amounts outstanding under the Revolving Credit Facility bear interest at a "Eurocurrency Rate."

Eurocurrency Rate advances can be denominated in a variety of currencies, including U.S. Dollars, and amounts outstanding bear interest at a periodic fixed rate equal to the London Inter Bank Offered Rate ("LIBOR") for the applicable currency plus a margin as determined by the Company's leverage ratio ("Applicable Margin"). The Applicable Margin is based on the Company's leverage ratio, as defined in the Revolving Credit Facility, with such margin ranging from 1.000% to 1.575%.

The Company is required to pay certain fees in connection with the Revolving Credit Facility, including administrative service fees and an annual facility fee. The annual facility fee is payable quarterly, in arrears, and is determined by the Company's leverage ratio as defined in the Revolving Credit Facility. This facility fee ranges from 0.125% to 0.300% of the aggregate \$250.0 commitment of the lenders under the Revolving Credit Facility.

Notes

At May 31, 2015, the Company had \$350.0 of publicly-traded, senior unsecured notes outstanding at a 6% interest rate that are scheduled to mature in December 2019 (the "Notes") and \$4.0 of tax-exempt industrial revenue bonds that are scheduled to mature in 2021. Further discussion of the Company's debt is included within the Debt and Lines of Credit footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

Interest Expense

Interest expense, net, is comprised primarily of interest expense on long-term debt, obligations in connection with non-qualified retirement benefits, and Revolving Credit Facility borrowings partially offset by interest income on cash and cash equivalents.

The following table summarizes the components of interest expense, net:

	Three Months Ended		Nine Months Ended	
	May 31, 2015	May 31, 2014	May 31, 2015	May 31, 2014
Interest expense	\$8.2	\$8.2	\$24.5	\$24.4
Interest income	(0.3)	(0.1)	(0.7)	(0.3)
Interest expense, net	\$7.9	\$8.1	\$23.8	\$24.1

11. Commitments and Contingencies

In the normal course of business, the Company is subject to the effects of certain contractual stipulations, events, transactions, and laws and regulations that may, at times, require the recognition of liabilities, such as those related to self-insurance reserves and claims, legal and contractual issues, environmental laws and regulations, guarantees, and indemnities. The Company establishes reserves when the associated costs related to uncertainties or guarantees become probable and can be reasonably estimated. For the period ended May 31, 2015, no material changes have occurred in the Company's reserves for self-insurance, litigation, environmental matters, guarantees and indemnities, or relevant events and circumstances, from those disclosed in the Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

Product Warranty and Recall Costs

Acuity Brands records an allowance for the estimated amount of future warranty costs when the related revenue is recognized. Estimated costs related to product recalls based on a formal campaign soliciting repair or return of that product are accrued when they are deemed to be probable and can be reasonably estimated. Estimated future warranty and recall costs are primarily based on historical experience of identified warranty and recall claims. However, there can be no assurance that future warranty or recall costs will not exceed historical amounts or new technology products, which may include extended warranties, may not generate unexpected costs. If actual future warranty or recall costs exceed historical amounts, additional allowances may be required, which could have a material adverse impact on the Company's results of operations and cash flows.

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Reserves for product warranty and recall costs are included in Other accrued liabilities and Other long-term liabilities on the Consolidated Balance Sheets. The changes in the reserves for product warranty and recall costs during the nine months ended May 31, 2015 and 2014 are summarized as follows:

	Nine Months Ended May 31	
	2015	2014
Beginning of period	\$8.5	\$5.9
Warranty and recall costs	15.6	17.6
Payments and other deductions	(13.0)	(13.1)
End of period	\$11.1	\$10.4

Amounts included in the table above for fiscal 2014 were adjusted to include certain warranty and recall costs as well as payments and other deductions primarily for products or components shipped to customers at no charge and labor costs to satisfy the product warranty and recall obligations of the Company.

Litigation

The Company is subject to various legal claims arising in the normal course of business, including patent infringement and product recall claims. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the financial condition, results of operations, or cash flows of the Company. However, in the event of unexpected future developments, it is possible that the ultimate resolution of any such matters, if unfavorable, could have a material adverse effect on the financial condition, results of operations, or cash flows of the Company in future periods. The Company establishes reserves for legal claims when associated costs become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved.

12. Share-Based Payments

The Company accounts for share-based payments through the measurement and recognition of compensation expense for share-based payment awards made to employees and directors of the Company, including stock options and restricted shares (all part of the Company's equity incentive plan), and share units representing certain deferrals into the Company's director deferred compensation plan or the Company's supplemental deferred savings plan. Each of these award programs is more fully discussed within the Company's Form 10-K. The Company recorded \$4.4 and \$4.5 of share-based expense for the three months ended May 31, 2015 and 2014, respectively, and \$12.8 and \$13.2 for the nine months ended May 31, 2015 and 2014, respectively. Benefits of tax deductions in excess of recognized share-based compensation cost are reported as a financing cash flow and were \$12.6 and \$10.5 for the nine months ended May 31, 2015 and 2014, respectively. New shares issued upon exercise of stock options were 6,933 for the three months ended May 31, 2014 and 187,766 and 198,618 for the nine months ended May 31, 2015 and 2014, respectively. There were no new shares issued upon exercise of stock options during the three months ended May 31, 2015.

Further details regarding the Company's share-based payments are included within the Share-Based Payments footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K.

13. Pension and Profit Sharing Plans

The Company has several pension plans, both qualified and non-qualified, covering certain hourly and salaried employees. Benefits paid under these plans are based generally on employees' years of service and/or compensation

during the final years of employment. Plan assets are invested primarily in equity and fixed income securities.

Table of Contents

ACUITY BRANDS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Net periodic pension cost for the Company's defined benefit pension plans during the three and nine months ended May 31, 2015 and 2014 included the following components before tax:

	Three Months Ended		Nine Months Ended	
	May 31, 2015	May 31, 2014	May 31, 2015	May 31, 2014
Service cost	\$0.8	\$0.6	\$2.3	\$1.9
Interest cost	2.1	2.1	6.3	6.6
Expected return on plan assets	(2.8) (2.5) (8.2) (7.5
Amortization of prior service cost	0.2	0.2	0.6	0.6
Recognized actuarial loss	1.1	0.8	3.3	2.3
Net periodic pension cost	\$1.4	\$1.2	\$4.3	\$3.9

14. Special Charge

Fiscal 2013 Actions

During fiscal 2013, the Company continued efforts to streamline the organization through the planned closure of certain production facilities as well as the realignment of responsibilities primarily within various selling, distribution, and administrative departments. These actions allowed the Company to reduce costs and enhance customer service capabilities, while permitting continued investment in future growth initiatives, such as new products, expanded market presence, and technology and innovation.

During fiscal 2013, the Company recorded a pre-tax special charge of \$7.8 consisting of severance and employee-related costs of \$7.6 and lease termination costs of \$0.2, which were included in Special Charge in the Consolidated Statements of Comprehensive Income. During fiscal 2014, the Company recognized a reversal of pre-tax special charges of \$0.2 due primarily to lower-than-anticipated costs related to severance and employee-related expenses of \$0.6 partially offset by production transfer costs of \$0.4. During fiscal 2015, the Company recognized a reversal of pre-tax special charges of \$0.4 due primarily to lower-than-anticipated costs related to severance and employee-related expenses.

Fiscal 2015 Actions

During fiscal 2015, the Company continued efforts to streamline the organization by realigning certain responsibilities primarily within various selling, distribution, and administrative departments and the consolidation of certain production activities. The Company expects that these actions to streamline its business activities, in addition to those taken in previous fiscal years, will allow it to reduce spending in certain areas while permitting continued investment in future growth initiatives, such as new products, expanded market presence, and technology and innovation. During fiscal 2015, the Company recorded a pre-tax special charge of \$10.2, consisting primarily of severance and employee-related costs of \$9.8 as well as production transfer costs of \$0.4.

As of May 31, 2015, remaining severance reserves were \$4.0 and are included in Accrued Compensation on the Consolidated Balance Sheets. The changes in the reserves related to these programs during the nine months ended May 31, 2015 are summarized as follows:

	Fiscal 2013 Actions	Fiscal 2015 Actions	Total
Balance at August 31, 2014	\$0.8	\$—	\$0.8
Special charge	(0.4) 9.8	9.4
Payments made during the period	(0.2) (6.0) (6.2
Balance at May 31, 2015	\$0.2	\$3.8	\$4.0

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

15. Supplemental Guarantor Condensed Consolidating Financial Statements

In December 2009, ABL, the wholly-owned and principal operating subsidiary of the Company, refinanced the then current outstanding debt through the issuance of the Notes. See Debt and Lines of Credit footnote of the Notes to Consolidated Financial Statements within the Company's Form 10-K for further information.

In accordance with the registration rights agreement by and between ABL and the guarantors to the Notes and the initial purchasers of the Notes, ABL and the guarantors to the Notes filed a registration statement with the SEC for an offer to exchange the Notes for an issue of SEC-registered notes with identical terms. Due to the filing of the registration statement and offer to exchange, the Company determined the need for compliance with Rule 3-10 of SEC Regulation S-X ("Rule 3-10"). In lieu of providing separate audited financial statements for ABL and ABL IP Holding, the Company has included the accompanying Condensed Consolidating Financial Statements in accordance with Rule 3-10(d) of SEC Regulation S-X since the Notes are fully and unconditionally guaranteed by Acuity Brands and ABL IP Holding. The column marked "Parent" represents the financial condition, results of operations, and cash flows of Acuity Brands. The column marked "Subsidiary Issuer" represents the financial condition, results of operations, and cash flows of ABL. The column entitled "Subsidiary Guarantor" represents the financial condition, results of operations, and cash flows of ABL IP Holding. Lastly, the column listed as "Non-Guarantors" includes the financial condition, results of operations, and cash flows of the non-guarantor direct and indirect subsidiaries of Acuity Brands, which consist primarily of foreign subsidiaries. Eliminations were necessary in order to arrive at consolidated amounts. In addition, the equity method of accounting was used to calculate investments in subsidiaries. Accordingly, this basis of presentation is not intended to present our financial condition, results of operations, or cash flows for any purpose other than to comply with the specific requirements for parent-subsidiary guarantor reporting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(\$ in millions, except per-share data and as indicated)

The following discussion should be read in conjunction with the Consolidated Financial Statements and related notes included within this report. References made to years are for fiscal year periods.

The purpose of this discussion and analysis is to enhance the understanding and evaluation of the results of operations, financial position, cash flows, indebtedness, and other key financial information of Acuity Brands, Inc. and its subsidiaries as of May 31, 2015 and for the three and nine months ended May 31, 2015 and 2014. For a more complete understanding of this discussion, please read the Notes to Consolidated Financial Statements included in this report. Also, please refer to the Company's Annual Report on Form 10-K for the fiscal year ended August 31, 2014, filed with the Securities and Exchange Commission (the "SEC") on October 29, 2014 ("Form 10-K").

Overview

Company

Acuity Brands, Inc. ("Acuity Brands") is the parent company of Acuity Brands Lighting, Inc. ("ABL") and other subsidiaries (Acuity Brands, ABL, and such other subsidiaries are collectively referred to herein as the "Company"). The Company, with its principal office in Atlanta, Georgia, employs approximately 7,000 people worldwide. The Company designs, produces, and distributes a broad array of lighting solutions, components, and services for commercial, institutional, industrial, infrastructure, and residential applications for various markets throughout North America and select international markets. The Company's lighting solutions include devices such as luminaires, lighting controls, power supplies, prismatic skylights, light-emitting diode ("LED") lamps and drivers, and integrated lighting systems for indoor and outdoor applications utilizing a combination of light sources, including daylight, and other devices controlled by software that monitors and manages light levels while optimizing energy consumption (collectively referred to herein as "lighting solutions"). The Company is one of the world's leading producers and distributors of lighting solutions, with a broad, highly configurable product offering, consisting of a diversified portfolio of lighting, controls, and daylighting brands. The Company integrates conventional and advanced solid-state lighting fixtures with digital controls and daylighting products to create greater energy efficiencies and higher quality of light for a broad and diverse customer base. As of May 31, 2015, the Company operates 16 manufacturing facilities and seven distribution facilities along with three warehouses to serve its extensive customer base.

The Company continues to expand and enhance its portfolio of lighting solutions, including the following transaction: On April 15, 2015, the Company acquired for cash substantially all of the assets and assumed certain liabilities of ByteLight, Inc. ("ByteLight"), a provider of indoor location software for LED lighting. ByteLight is headquartered in Boston, Massachusetts.

Please refer to the Description of Business and Basis of Presentation footnote of the Notes to Consolidated Financial Statements for more information.

Liquidity and Capital Resources

The Company's principal sources of liquidity are operating cash flows generated primarily from its business operations, cash on hand, and various sources of borrowings. The ability of the Company to generate sufficient cash flow from operations or to access certain capital markets, including banks, is necessary to fund its operations and capital expenditures, pay dividends, meet its obligations as they become due, and maintain compliance with covenants contained in its financing agreements.

Based on its cash on hand, availability under existing financing arrangements and current projections of cash flow from operations, the Company believes that it will be able to meet its liquidity needs over the next 12 months. Short-term needs are expected to include funding operations as currently planned, making anticipated capital investments, paying quarterly stockholder dividends as currently anticipated, paying principal and interest on borrowings as currently scheduled, making required contributions to its employee benefit plans, funding potential acquisitions, and potentially repurchasing shares of its outstanding common stock as authorized by the Board of Directors (the "Board"). Two million shares of the Company's common stock are currently authorized and available for repurchase under an existing repurchase program. The Company expects to repurchase these shares on an opportunistic basis. The Company intends to use approximately \$255.0 of cash on hand to fund the Distech Controls, Inc. ("Distech") acquisition which is expected to be completed in September 2015 subject to formal approval of

certain shareholders of Distech and other customary closing conditions (see the Subsequent Event footnote of the Notes to Consolidated Financial Statements for additional information). The Company currently expects to invest approximately two and a half percent of net sales during fiscal 2015, of which \$42.3 had been invested as of May 31, 2015, primarily for equipment, tooling, facility enhancements, as well as new and enhanced information technology capabilities. Additionally, management believes that the Company's cash flows from operations and sources of funding, including, but not limited to, borrowing capacity, will sufficiently support the long-term liquidity needs of the Company.

Table of Contents

The Company operates five manufacturing facilities in Mexico, which are authorized to operate as Maquiladoras by the Ministry of Economy of Mexico. Maquiladora status allows the Company to import certain items from the United States into Mexico duty-free, provided that such items, after processing, are exported from Mexico within a stipulated time frame. Maquiladora status, which is renewed periodically, is subject to various restrictions and requirements, including compliance with the terms of the Maquiladora program and other local regulations, which have become stricter in recent years.

Certain new regulations related to the Maquiladora program became effective in January 2015. Despite recent improvements in the Company's trade compliance business processes, the Company may not be able to comply with certain of the new regulations within the stipulated time frames. Failure to comply with these new regulations could have a material adverse effect on the Company's financial position, results of operations, and cash flows primarily because the Company would in such event be required to pay value-added tax on material imported into Mexico and then seek a refund of those amounts months later after the material is exported from Mexico.

Cash Flow

The Company uses available cash and cash flow from operations, as well as proceeds from the exercise of stock options, to fund operations and capital expenditures, repurchase common stock of the Company, fund acquisitions, and pay dividends.

The Company's cash position at May 31, 2015 was \$652.1, an increase of \$99.6 from August 31, 2014. During the first nine months of fiscal 2015, cash flow generated from operations and cash generated from stock issued under employee and director compensation plans were partially used to make capital expenditures of \$42.3 and pay dividends to stockholders of \$17.0.

The Company generated \$158.2 of cash flow from operating activities during the nine months ended May 31, 2015 compared with \$128.8 in the prior-year period, an increase of \$29.4, due primarily to higher net income partially offset by higher operating working capital requirements. Operating working capital (calculated by adding accounts receivable plus inventories, and subtracting accounts payable-net of acquisitions and the impact of foreign exchange rate changes) increased by approximately \$55.2 during the first nine months of fiscal 2015 compared to an increase of approximately \$37.8 during the first nine months of fiscal 2014 due primarily to increased inventory attributable to typical seasonal increases as well as higher volumes of purchased finished goods following the resolution of the West Coast port work slowdowns.

Management believes that investing in assets and programs that will over time increase the overall return on its invested capital is a key factor in driving stockholder value. The Company invested \$42.3 and \$24.8 in the first nine months of fiscal 2015 and 2014, respectively, primarily related to investments in new equipment, tooling, facility enhancements, and information technology. As noted above, the Company expects to invest approximately two and a half percent of net sales primarily for equipment, tooling, facility enhancements, and new and enhanced information technology capabilities during fiscal 2015.

Capitalization

The current capital structure of the Company is comprised principally of senior unsecured notes and equity of its stockholders. As of May 31, 2015, total debt outstanding of \$353.7 remained substantially unchanged from August 31, 2014 and consisted primarily of fixed-rate obligations.

On August 27, 2014, the Company executed the Revolving Credit Facility with a borrowing capacity of \$250.0. The Revolving Credit Facility replaced the Company's prior \$250.0 revolving credit facility, which was scheduled to mature on January 31, 2017. The Revolving Credit Facility will mature and all amounts outstanding thereunder will be due and payable on August 27, 2019.

The Company was in compliance with all financial covenants under the Revolving Credit Facility as of May 31, 2015. At May 31, 2015, the Company had additional borrowing capacity under the Revolving Credit Facility of \$243.9 under the most restrictive covenant in effect at the time, which represents the full amount of the Revolving Credit Facility less outstanding letters of credit of \$6.1 issued under the Revolving Credit Facility. As of May 31, 2015, the Company had outstanding letters of credit totaling \$10.3, primarily for securing collateral requirements under the casualty insurance programs for Acuity Brands and providing credit support for the Company's industrial revenue bond, including \$6.1 issued under the Revolving Credit Facility. See the Debt footnote of the Notes to Consolidated

Financial Statements.

During the first nine months of fiscal 2015, the Company's consolidated stockholders' equity increased \$150.2 to \$1,313.7 at May 31, 2015 from \$1,163.5 at August 31, 2014. The increase was due primarily to net income earned in the period, as well as amortization of stock-based compensation, stock issuances resulting primarily from the exercise of stock options, and amortization of pension plan prior service costs and actuarial losses partially offset by dividend payments and foreign currency translation adjustments. The Company's debt to total capitalization ratio (calculated by dividing total debt by the sum of total debt and total stockholders' equity) was 21.2% and 23.3% at May 31, 2015 and August 31, 2014, respectively. The ratio of debt, net of cash, to total capitalization, net of cash, was (29.4)% at May 31, 2015 and (20.6)% at August 31, 2014.

Table of Contents

Dividends

Acuity Brands paid dividends on its common stock of \$17.0 and \$16.9 (\$0.39 per share) during the nine months ended May 31, 2015 and 2014, respectively. All decisions regarding the declaration and payment of dividends by Acuity Brands are at the discretion of the Board and are evaluated regularly in light of the Company's financial condition, earnings, growth prospects, funding requirements, applicable law, and any other factors the Board deems relevant.

Results of Operations

Third Quarter of Fiscal 2015 Compared with Third Quarter of Fiscal 2014

The following table sets forth information comparing the components of net income for the three months ended May 31, 2015 and 2014:

	Three Months Ended		Increase (Decrease)	Percent Change	
	May 31, 2015	May 31, 2014			
Net Sales	\$683.7	\$603.9	\$79.8	13.2	%

NM - not meaningful

Net sales were \$683.7 for the three months ended May 31, 2015 compared with \$603.9 reported for the three months ended May 31, 2014, an increase of \$79.8, or 13.2%. For the three months ended May 31, 2015, the Company reported net income of \$64.5, an increase of \$20.7, or 47.3%, compared with \$43.8 for the three months ended May 31, 2014. For the third quarter of fiscal 2015, diluted earnings per share increased 46.5% to \$1.48 compared with \$1.01 reported in the year-ago period.

The following table reconciles certain U.S. GAAP financial measures to the corresponding non-U.S. GAAP measures referred to in the discussion of the Company's results of operations, which exclude acquisition-related professional fees, incremental recoveries related to a fraud at a freight service provider, restructuring charges associated primarily with continued efforts to streamline the organization, and net gains associated with financial instruments. Although special charges related to efforts to improve overall Company efficiency have been recognized in prior periods and could recur in future periods, management typically excludes the impact of special charges during internal reviews of performance and uses these non-U.S. GAAP measures for baseline comparative operational analysis, decision making, and other activities. These non-U.S. GAAP financial measures, including adjusted selling, distribution, and administrative expenses, adjusted operating profit and margin, adjusted other income/expense, adjusted net income, and adjusted diluted earnings per share, are provided to enhance the user's overall understanding of the Company's current financial performance. Specifically, the Company believes these non-U.S. GAAP measures provide greater comparability and enhanced visibility into the results of operations. The non-U.S. GAAP financial measures should be considered in addition to, and not as a substitute for or superior to, results prepared in accordance with U.S. GAAP.

NM - not meaningful

Net Sales

Net sales for the three months ended May 31, 2015 increased 13.2% compared with the prior-year period due primarily to a 14% increase in sales volume partially offset by unfavorable foreign currency rate changes of approximately 1%. The impact of changes in product prices and the mix of products sold ("price/mix") during the three months ended May 31, 2015 was insignificant compared to the prior-year period. Sales volume was higher across most product categories and key sales channels. Sales of LED-based products increased approximately 55% compared to the year-ago period and represented more than 45% of total net sales. Due to the changing dynamics of the Company's product portfolio, including the increase of integrated lighting solutions as well as the proliferation of new products due to the adoption of solid-state lighting, it is not possible to precisely quantify volume or differentiate the individual components of price/mix.

Gross Profit

Gross profit for the third quarter of fiscal 2015 increased \$52.2, or 21.4%, to \$295.6 compared with \$243.4 in the prior-year period. Gross profit margin increased 290 basis points to 43.2% for the three months ended May 31, 2015 compared with 40.3% in the prior-year period. Gross profit was higher than the prior-year period due primarily to additional contribution on higher net sales, a richer mix of products sold, lower material and component costs, and improved manufacturing productivity. These benefits were partially offset by an unfavorable impact from foreign currency exchange rate changes.

Table of Contents

Operating Profit

Selling, Distribution, and Administrative (“SD&A”) expenses for the three months ended May 31, 2015 were \$196.0 compared with \$170.8 in the prior-year period, an increase of \$25.2, or 14.8%. The increase in SD&A expenses was due primarily to higher costs to support the greater sales volume, including commissions, and higher employee-related costs, including variable incentive compensation costs, partially offset by savings from recent streamlining efforts. SD&A expenses for the third quarter of fiscal 2015 were 28.7% of net sales compared with 28.3% for the prior-year period. Adjusted SD&A expenses for the three months ended May 31, 2015 were \$194.7 (28.5% of net sales) compared with \$171.6 (28.4% of net sales) in the prior-year period.

During the three months ended May 31, 2015, the Company recognized pre-tax special charges of \$0.4 consisting primarily of relocation costs incurred to move production as part of previously-initiated streamlining efforts. Further details regarding the Company's special charges are included in the Special Charge footnote of the Notes to Consolidated Financial Statements.

Operating profit for the third quarter of fiscal 2015 was \$99.2 compared with \$72.6 for the prior-year period, an increase of \$26.6, or 36.6%. The increase in operating profit was due primarily to higher gross profit, partially offset by increases in costs to support greater sales volume and higher employee-related costs, including variable incentive compensation.

Adjusted operating profit increased by \$29.1, or 40.5%, to \$100.9 for the third quarter of fiscal 2015 compared with \$71.8 for the third quarter of fiscal 2014. Adjusted operating profit margin increased 290 basis points to 14.8% for the third quarter of fiscal 2015 compared with 11.9% in the year-ago period.

Other Expense (Income)

Other expense (income) consists principally of net interest expense and net miscellaneous income/expense, which is comprised primarily of gains and losses associated with foreign currency-related transactions. Interest expense, net, was \$7.9 and \$8.1 for the three months ended May 31, 2015 and 2014, respectively. The Company reported net miscellaneous income of \$9.5 and \$0.1 for the three months ended May 31, 2015 and 2014, respectively. Net miscellaneous income for the three months ended May 31, 2015 included a \$10.5 net gain associated with investments in two financial instruments intended to mitigate the foreign currency exposure associated with the Distech Canadian-dollar acquisition. Further details regarding this net gain are included in the Acquisitions and Investments footnote of the Notes to Consolidated Financial Statements.

Adjusted other expense (income) was \$8.9 for the three months ended May 31, 2015 compared to \$8.0 in the prior-year period.

Provision for Income Taxes and Net Income

The Company's effective income tax rate was 36.0% and 32.2% for the three months ended May 31, 2015 and 2014, respectively. The prior-year effective tax rate benefited from a reduction in certain income tax reserves which did not recur in the current year. The Company estimates that the effective tax rate for fiscal 2015 will be approximately 35.5% before any discrete items and if the rates in its taxing jurisdictions remain generally consistent throughout the year.

Net income for the third quarter of fiscal 2015 increased \$20.7 to \$64.5 from \$43.8 reported for the prior-year period. The increase in net income resulted primarily from higher operating profit and other income partially offset by a higher provision for income taxes. Diluted earnings per share for the three months ended May 31, 2015 increased \$0.47 to \$1.48 compared with diluted earnings per share of \$1.01 for the prior-year period.

Adjusted net income for the third quarter of fiscal 2015 was \$59.5 compared with \$43.3 in the prior-year period, which represented an increase of \$16.2, or 37.4%. Adjusted diluted earnings per share for the three months ended May 31, 2015 increased \$0.37, or 37.0%, to \$1.37 compared with \$1.00 for the prior-year period.

Table of Contents

First Nine Months of Fiscal 2015 Compared with First Nine Months of Fiscal 2014

The following table sets forth information comparing the components of net income for the nine months ended May 31, 2015 and 2014:

	Nine Months Ended		Increase (Decrease)	Percent Change	
	May 31, 2015	May 31, 2014			
Net Sales	\$1,947.2	\$1,724.8	\$222.4	12.9	%

NM - not meaningful					

Net sales were \$1,947.2 for the nine months ended May 31, 2015 compared with \$1,724.8 reported for the nine months ended May 31, 2014, an increase of \$222.4, or 12.9%. For the nine months ended May 31, 2015, the Company reported net income of \$162.0, an increase of \$41.0, or 33.9%, compared with \$121.0 for the nine months ended May 31, 2014. For the first nine months of fiscal 2015, diluted earnings per share increased 33.3% to \$3.72 compared with \$2.79 reported in the year-ago period.

Table of Contents

The table below reconciles certain U.S. GAAP financial measures to the corresponding non-U.S. GAAP measures referred to in the discussion of the Company's results of operations, which exclude incremental recoveries related to a fraud at a freight service provider, acquisition-related professional fees, special charges associated primarily with continued efforts to streamline the organization, and net gains associated with financial instruments.

	Nine Months Ended		Increase (Decrease)	Percent Change	
	May 31, 2015	May 31, 2014

Net Sales

Net sales for the nine months ended May 31, 2015 increased \$222.4, or 12.9%, compared with the prior-year period due primarily to an increase in sales volume of approximately 15%, which was partially offset by the impact of an unfavorable change in price/mix of approximately 1% and unfavorable foreign currency rate changes of 1%. Sales volume was higher across most product categories and key sales channels as the Company realized greater demand for LED-based luminaires. Sales of LED-based luminaires during the first nine months of fiscal 2015 increased more than 60% compared to the year-ago period and represented more than 40% of total net sales. The change in price/mix was due primarily to unfavorable pricing on LED luminaires, reflecting the decline in certain LED component costs. Due to the changing dynamics of the Company's product portfolio, including the increase of integrated lighting solutions as well as the proliferation of new products due to the adoption of solid-state lighting, it is not possible to precisely quantify volume or differentiate the individual components of price/mix.

Table of Contents

Gross Profit

Gross profit for the first nine months of fiscal 2015 increased \$128.6, or 18.5%, to \$824.3 compared with \$695.7 in the prior-year period. Gross profit margin increased to 42.3% for the nine months ended May 31, 2015 compared with 40.3% in the prior-year period. The increase in gross profit margin was due primarily to additional contribution on higher net sales, lower material and component costs, and improved manufacturing productivity. These items were partially offset by unfavorable price/mix and the unfavorable impact of foreign currency rate changes.

Operating Profit

SD&A expenses for the nine months ended May 31, 2015 were \$550.0 compared with \$487.5 in the prior-year period, an increase of \$62.5, or 12.8%. The increase in SD&A expenses was due primarily to higher costs to support the greater sales volume, including freight and commissions, and higher employee-related costs, including variable incentive compensation costs, partially offset by savings from recent streamlining efforts. SD&A expenses for the first nine months of fiscal 2015 were 28.2% of net sales compared with 28.3% for the prior-year period. Adjusted SD&A expenses for the nine months ended May 31, 2015 were \$548.0 (28.1% of net sales) compared with \$493.3 (28.6% of net sales) in the prior-year period.

The Company recognized pre-tax special charges of \$9.8 during the first nine months of fiscal 2015, related primarily to the Company's continued efforts to streamline the organization by realigning certain responsibilities primarily within various selling, distribution, and administrative departments and the consolidation of certain production activities. Further details regarding the Company's special charges are included in the Special Charge footnote of the Notes to Consolidated Financial Statements. During the first nine months of fiscal 2014, the Company recorded a reversal of pre-tax special charges of \$0.2 due primarily to lower-than-anticipated costs related to previously-initiated streamlining efforts of \$0.6 partially offset by production transfer costs of \$0.4.

Operating profit for the first nine months of fiscal 2015 was \$264.5 compared with \$208.4 for the prior-year period, an increase of \$56.1, or 26.9%. The increase in operating profit for the first nine months of fiscal 2015 compared with the first nine months of fiscal 2014 was due primarily to higher gross profit, partially offset by increases in costs to support greater sales volume, special charges, and higher employee-related costs, including variable incentive compensation.

Adjusted operating profit increased by \$73.9, or 36.5%, to \$276.3 for the first nine months of fiscal 2015 compared with \$202.4 for the first nine months of fiscal 2014. Adjusted operating profit margin for the first nine months of fiscal 2015 increased 250 basis points to 14.2% compared with 11.7% in the year-ago period.

Other Expense (Income)

Other expense (income) consists principally of net interest expense and net miscellaneous expense (income), which is comprised primarily of gains and losses associated with foreign currency-related transactions. Interest expense, net, was \$23.8 for the nine months ended May 31, 2015 compared with \$24.1 for the nine months ended May 31, 2014. The Company reported net miscellaneous income of \$10.5 in the first nine months of fiscal 2015 compared with net miscellaneous expense of \$0.6 in the prior-year period. The Company recognized a \$10.5 net gain associated with investments in two financial instruments intended to mitigate nearly all of the foreign currency exposure associated with the Distech Canadian-dollar acquisition. Further details regarding this net gain are included in the Acquisitions and Investments footnote of the Notes to Consolidated Financial Statements.

Adjusted other expense (income) was \$23.8 for the nine months ended May 31, 2015 compared to \$24.7 in the prior-year period.

Provision for Income Taxes and Net Income

The Company's effective income tax rate was 35.5% and 34.1% for the nine months ended May 31, 2015 and 2014, respectively.

Net income for the first nine months of fiscal 2015 increased \$41.0 to \$162.0 from \$121.0 reported for the prior-year period. The increase in net income resulted primarily from higher operating profit and lower other expense partially offset by a higher provision for income taxes. Diluted earnings per share for the nine months ended May 31, 2015 increased \$0.93 to \$3.72 compared with diluted earnings per share of \$2.79 for the prior-year period.

Adjusted net income for the first nine months of fiscal 2015 was \$163.6 compared with \$117.3 in the prior-year period, which represented an increase of \$46.3, or 39.5%. Adjusted diluted earnings per share for the nine months

ended May 31, 2015 increased \$1.05, or 38.7%, to \$3.76 compared with \$2.71 for the prior-year period.

Table of Contents

Outlook

Management believes that the execution of the Company's strategy will provide opportunities for continued profitable growth. The Company's strategy is to capitalize on market growth opportunities by continuing to expand and leverage its industry-leading lighting product and solutions portfolio combined with its extensive market presence and financial strength. Management continues to position the Company to optimize short-term performance while investing in and deploying resources for long-term profitable growth opportunities.

During the first nine months of fiscal 2015, the Company continued efforts to streamline the organization by realigning certain responsibilities primarily within various selling, distribution, and administrative departments and the consolidation of certain production activities. The Company recorded a pre-tax special charge of \$10.2 during the nine months ended May 31, 2015 for streamlining actions initiated in the current fiscal year. The special charge consisted primarily of severance and employee-related costs as well as production transfer expenses. Management expects to incur production transfer expenses and additional costs associated with these streamlining actions totaling approximately \$1.3 during the fourth quarter of fiscal 2015. While management expects to achieve annual savings in fiscal 2015 in excess of these costs, management plans to reinvest a portion of these savings over the next twelve months in additional growth initiatives which require resources for further innovation, including talent with different skill sets. The Company has realized savings, net of investments, through the nine months ended May 31, 2015, approximately equal to the amount of the total fiscal 2015 special charge.

On March 9, 2015, the Company announced that it entered into an agreement to acquire all of the outstanding capital stock of Distech Controls Inc. ("Distech"), a provider of building automation and energy management solutions. The acquisition is expected to be completed in September 2015 subject to formal approval of certain shareholders of Distech and other customary closing conditions. Distech generated net sales in excess of \$70 Canadian dollars during calendar year 2014 and significantly outpaced the rate of growth of its core markets with a five-year annualized growth rate of over 25%. The operating profit margin of the business is similar to that of the Company. The growth rate for the North American lighting market, which typically benefits from new construction as well as renovation and retrofit activity, is projected to be in the mid-to-upper single digit range for fiscal 2015 with expectations that overall demand in the Company's end markets will continue to experience solid growth over the next several years. Management currently believes that the Company will benefit from continued renovation and tenant improvement projects, further expansion in underpenetrated geographies and channels, and growth from the introduction of new lighting products and solutions.

Additionally, the lighting industry continues to experience some volatility with respect to input costs. While some commodity costs have waned recently, others continue to rise. As the economy improves, management believes there is the potential for rising input costs. While management expects employee-related costs will continue to rise due to wage inflation and rising health care costs, management will continue to be vigilant in its pricing posture and productivity efforts to help offset rising costs. Management remains optimistic about the opportunities for solid profitable growth for fiscal 2015 and the foreseeable future and expects that the Company will be able to outperform the markets it serves.

From a longer term perspective, management expects that its addressable markets will experience solid growth over the next decade, particularly as energy and environmental concerns come to the forefront. Management remains positive about the future prospects of the Company and its ability to continue to outperform the markets it serves.

Critical Accounting Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations addresses the financial condition and results of operations as reflected in the Company's Consolidated Financial Statements, which have been prepared in accordance with U.S. GAAP. As discussed in the Description of Business and Basis of Presentation footnote of the Notes to Consolidated Financial Statements, the preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported

amounts of revenue and expense during the reporting period. On an ongoing basis, management evaluates its estimates and judgments, including those related to revenue recognition; accounts receivable; inventory valuation; depreciation, amortization and the recoverability of long-lived assets, including goodwill and intangible assets; share-based compensation expense; medical, product warranty and recall, and other reserves; income taxes; retirement benefits; litigation; and environmental matters. Management bases its estimates and judgments on its substantial historical experience and other relevant factors, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates. Management discusses the development of accounting estimates with the Company's Audit Committee of the Board.

Table of Contents

There have been no material changes in the Company's critical accounting estimates during the current period. For a detailed discussion of significant accounting policies that may involve a higher degree of judgment, please refer to the Company's Form 10-K.

Cautionary Statement Regarding Forward-Looking Information

This filing contains forward-looking statements within the meaning of the federal securities laws. Statements made herein that may be considered forward-looking include statements incorporating terms such as "expects", "believes", "intends", "anticipates" and similar terms that relate to future events, performance, or results of the Company. In addition, the Company, or the executive officers on the Company's behalf, may from time to time make forward-looking statements in reports and other documents the Company files with the SEC or in connection with oral statements made to the press, current and potential investors, or others. Forward-looking statements include, without limitation: (a) the Company's projections regarding financial performance, liquidity, capital structure, capital expenditures, and dividends; (b) expectations about the impact of volatility and uncertainty in general economic conditions; (c) external forecasts projecting the North American lighting market growth rate; (d) expectations about the impact of volatility and uncertainty in component and commodity costs and availability, and the Company's ability to manage those challenges, as well as the Company's response with pricing of its products; (e) the Company's ability to execute and realize benefits from initiatives related to streamlining its operations, capitalizing on growth opportunities, expanding in key markets, enhancing service to the customer, and investing in product innovation; (f) the Company's estimate of its fiscal 2015 annual tax rate; (g) the Company's future amortization expense; (h) the Company's ability to achieve its long-term financial goals and measures; and (i) the Company's expectations about the Distech Controls, Inc. acquisition. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date of this report. Except as required by law, the Company undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect any events or circumstances after the date of this annual report or to reflect the occurrence of unanticipated events. The Company's forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the historical experience of the Company and management's present expectations or projections. These risks and uncertainties include, but are not limited to, customer and supplier relationships and prices; competition; ability to realize anticipated benefits from initiatives taken and timing of benefits; market demand; litigation and other contingent liabilities; and economic, political, governmental, and technological factors affecting the Company. Also, additional risks that could cause the Company's actual results to differ materially from those expressed in the Company's forward-looking statements are discussed in Part I, "Item 1a. Risk Factors" of the Company's Form 10-K, and are specifically incorporated herein by reference.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

General. The Company is exposed to market risks that may impact its Consolidated Balance Sheets, Consolidated Statements of Comprehensive Income, and Consolidated Statements of Cash Flows due primarily to fluctuations in interest rates, foreign exchange rates, and commodity prices. There have been no material changes to the Company's exposure from market risks from those disclosed in Part II, Item 7a of the Company's Form 10-K.

Item 4. Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to reasonably ensure that information required to be disclosed in the reports filed or submitted by the Company under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to reasonably ensure that information required to be disclosed by the Company in the reports filed under the Exchange Act is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

As required by SEC rules, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of May 31, 2015. This evaluation was carried out under the supervision and with the participation of management, including the principal executive officer and principal financial officer. Based on this

evaluation, these officers have concluded that the design and operation of the Company's disclosure controls and procedures are effective at a reasonable assurance level as of May 31, 2015. However, because all disclosure procedures must rely to a significant degree on actions or decisions made by employees throughout the organization, such as reporting of material events, the Company and its reporting officers believe that they cannot provide absolute assurance that all control issues and instances of fraud or errors and omissions, if any, within the Company will be detected. Limitations within any control system, including the Company's control system, include faulty judgments in decision-making or simple errors or mistakes. In addition, controls can be circumvented by an individual, by collusion between two or more people, or by management override of the control. Because of these limitations, misstatements due to error or fraud may occur and may not be detected.

Table of Contents

There have been no changes in the Company's internal control over financial reporting that occurred during the Company's most recent completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Acuity Brands is subject to various legal claims arising in the normal course of business, including, but not limited to, patent infringement, product liability claims, and employment matters. Acuity Brands is self-insured up to specified limits for certain types of claims, including product liability, and is fully self-insured for certain other types of claims, including environmental, product recall, and patent infringement. Based on information currently available, it is the opinion of management that the ultimate resolution of pending and threatened legal proceedings will not have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands. However, in the event of unexpected future developments, it is possible that the ultimate resolution of any such matters, if unfavorable, could have a material adverse effect on the financial condition, results of operations, or cash flows of Acuity Brands in future periods. Acuity Brands establishes reserves for legal claims when the costs associated with the claims become probable and can be reasonably estimated. The actual costs of resolving legal claims may be substantially higher than the amounts reserved for such claims. However, the Company cannot make a meaningful estimate of actual costs to be incurred that could possibly be higher or lower than the amounts reserved. Information regarding reportable legal proceedings is contained in Part I, "Item 3. Legal Proceedings" in the Company's Form 10-K. Information set forth in this report's Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements describes any legal proceedings that became reportable during the quarter ended May 31, 2015, and updates any descriptions of previously reported legal proceedings in which there have been material developments during such quarter. The discussion of legal proceedings included within the Commitments and Contingencies footnote of the Notes to Consolidated Financial Statements is incorporated into this Item 1 by reference.

Item 1a. Risk Factors

There have been no material changes in the Company's risk factors from those disclosed in Part I, "Item 1a. Risk Factors" of the Company's Form 10-K.

Item 5. Other Information

Compensatory Arrangements of Certain Officers.

On June 26, 2015, the Board of Directors of the Company, following a competitive assessment of executive retirement benefits and with an objective to ensure such company benefits are sufficient to retain and attract executive talent, approved certain amendments to the Acuity Brands, Inc. 2002 Supplemental Executive Retirement Plan ("SERP") maintained for the benefit of the executive officers of the Company.

The SERP was amended and restated, effective as of June 26, 2015, in the following significant respects:

- An incremental benefit was added for participants who were actively employed by the Company on June 26, 2015 (or who first become a participant on or after June 26, 2015). The incremental benefit provides a monthly benefit (i) for 180 months commencing at age 60 equal to 1.4% of the participant's "average annual compensation" multiplied by his years of credited service not to exceed 10 years, divided by 12. Participants may elect to receive the actuarial equivalent of the incremental benefit in the form of a lump sum cash payment.
- The definition of actuarial equivalent (with respect to accrued benefits other than the participant's vested accrued benefit as of December 31, 2004) was changed. Prior to the amendment, the definition of actuarial equivalent used (ii) an interest rate equal to the lesser of 7% per annum or the yield on 10-Year U.S. Treasury Bonds plus 1.50%; after the amendment, an interest rate equal to the lesser of 2.5% per annum or the yield on 10-Year U.S. Treasury Bonds will be used.
- (iii) Upon the occurrence of a Section 409A change in control event (as defined in the SERP), the SERP shall be terminated consistent with the requirements of Treasury Regulation section 1.409A-3(j)(4)(ix)(B), and the Company shall, within five (5) days of such an event, pay to each participant a lump sum cash payment equal to

the lump sum actuarial equivalent of the participant's accrued benefit as of such date.

If any action at law or in equity is necessary for a participant to enforce or interpret the terms of the SERP, the (iv) Company shall promptly pay the participant's reasonable attorneys' fees and other reasonable expenses incurred with respect to such action.

This is a summary of the amendments to the SERP, and is qualified in its entirety by reference to the full text of the Acuity Brands, Inc. 2002 Supplemental Executive Retirement Plan, Effective As of January 1, 2003, As Amended and Restated Effective As of June 26, 2015, except where otherwise noted, which is set forth in Exhibit 10(iii)A(1) to this Quarterly Report filed on Form 10-Q.
