This report on Form 6-K shall be deemed to be incorporated by reference in the prospectuses included in Registration Statements on Form F-3 (File Nos. 333-91034 and 333-99073) filed with the Securities and Exchange Commission and to be a part thereof from the date on which this report is filed, to the extent not superseded by documents or reports subsequently filed or furnished.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF

## Edgar Filing: SK TELECOM CO LTD - Form 6-K

### FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2002

In this report on Form 6-K, unless the context indicates or otherwise requires, references to "we", "us", "our" or the "Company" shall mean SK Telecom Co., Ltd. and its consolidated subsidiaries, and references to "SK Telecom" shall mean SK Telecom Co., Ltd., but shall not include its consolidated subsidiaries. Unless otherwise indicated, references to our number of subscribers shall include Shinsegi Telecomm, Inc.'s subscribers from April 1, 2000. All references to "Korea" contained in this report shall mean The Republic of Korea and all references to the "Government" shall mean the government of The Republic of Korea.

The financial information appearing in this report and in our accompanying non-consolidated financial statements is stated in Korean won. All references to "Won" or "W" in this report are to the currency of Korea. Any discrepancies in any table between totals and the sums of the amounts listed are due to rounding.

This report contains "forward-looking statements", as defined in Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934, as amended, that are based on our current expectations, assumptions, estimates and projections about our company and our industry. The forward-looking statements are subject to various risks and uncertainties. Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "anticipate", "believe", "estimate", "expect", "intend", "project", "should", and similar expressions. Those statements include, among other things, the discussions of our liquidity and capital resources. We caution you that reliance on any forward-looking statement involves risks and uncertainties, and that although we believe that the assumptions on which our forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and, as a result, the forward-looking statements based on those assumptions could be incorrect. In light of these and other uncertainties, you should not conclude that we will necessarily achieve any plans and objectives or projected financial results referred to in any of the forward-looking statements. We do not undertake to release the results of any revisions of these forward-looking statements to reflect future events or circumstances.

#### NON-CONSOLIDATED FINANCIAL INFORMATION AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2001 AND 2002

We must file quarterly reports with the Financial Supervisory Commission of Korea and the Korea Stock Exchange. The audited and non-consolidated financial information as of and for the year ended December 31, 2001 and 2002 shown below were prepared pursuant to generally accepted accounting principles in Korea ("Korean GAAP").

The financial information below is non-consolidated and includes the results of operations of our subsidiaries using the equity method of accounting. Therefore, our operating revenue, total assets and total liabilities, if prepared on a consolidated basis, could be significantly different from those in our non-consolidated financial statements, even though net income in our consolidated financial statements may be similar to that in our non-consolidated financial statements. Under Korean GAAP, our non-consolidated revenues accounted for approximately 74% to 97% of our consolidated revenues in the years 1999 to 2001. Since we have not yet completed the preparation of our consolidated account for 2002, we can give no assurance as to what the actual ratios were for 2002.

We merged Shinsegi into SK Telecom with effect from January 12, 2002. As a result, our results of operations from that date include the results of operations of the business that was previously operated by Shinsegi and

## Edgar Filing: SK TELECOM CO LTD - Form 6-K

accounted for using the equity method of accounting in our non-consolidated financial information. Consequently, it may be difficult to compare our non-consolidated financial information as of and for the year ended December 31, 2001 to that as of and for the year ended December 31, 2002.

	FOR THE YEAR ENDED DECEMBER 31,	
	2001	2002
	(IN BILLIONS OF WON)	
NON-CONSOLIDATED INCOME STATEMENT DATA		
Operating Revenue	W6,227.1	W8,634.0
Operating Expenses	4,023.0	5,950.4
Operating Income	2,204.2	2,683.7
Other Income	112.6	272.5
Other Expenses	555.3	776.1
Income Taxes	621.1	669.2
	-----	-----
Net Income	W1,140.3	W1,511.3
	=====	=====

4

	AS OF DECEMBER 31,	
	2001	2002
	(IN BILLIONS OF WON)	
NON-CONSOLIDATED BALANCE SHEET DATA		
Total Current Assets	W 2,589.7	W 2,676.7
Total Non-Current Assets	8,038.3	10,044.5
Total Assets	10,627.9	12,721.2
Total Current Liabilities	2,484.4	4,015.9
Total Long-Term Liabilities	2,403.9	3,168.4
	-----	-----
Total Shareholders' Equity	W 5,739.6	W 5,536.9
	=====	=====

Non-Consolidated Operating Revenue. SK Telecom's operating revenue increased by 38.7% to Won 8,634.0 billion for the year ended December 31, 2002 from Won 6,227.1 billion for the year ended December 31, 2001, principally reflecting a 49.2% increase in cellular revenue to Won 7,542.5 billion for the year ended December 31, 2002 from Won 5,056.1 billion for the year ended December 31, 2001, which was partially offset by a 6.7% decrease in interconnection revenue.

The increase in SK Telecom's cellular revenue was principally due to an increase in the number of SK Telecom's wireless subscribers, which more than offset a decrease in the average monthly revenue per subscriber. The number of SK Telecom's subscribers increased to approximately 17.2 million as of December 31, 2002 from approximately 11.9 million as of December 31, 2001, reflecting the Shinsegi merger and the continuing growth of our subscriber base. Wireless Internet sales increased by 182.7% to Won 731.3 billion for the year ended

## Edgar Filing: SK TELECOM CO LTD - Form 6-K

December 31, 2002 from Won 258.7 billion for the year ended December 31, 2001, representing 9.7% of SK Telecom's cellular revenue, primarily due to the increased number of wireless Internet-enabled handset holders.

SK Telecom's non-consolidated average monthly revenue per subscriber (including interconnection revenue) decreased by 6.4% to Won 43,916 for the year ended December 31, 2002 from Won 46,937 for the year ended December 31, 2001. The decrease was principally due to the reduction in tariffs by 8.3% (based on the reduction in a standard tariff plan) from January 2002, the decrease in interconnection rates and the inclusion from January 12, 2002 of Shinsegi's subscribers, who produced lower average monthly revenue per subscriber. However, the decrease was partially offset by increases in wireless Internet average monthly revenue per subscriber and average monthly revenue per subscriber from value-added service.

On an aggregate basis, interconnection revenue decreased by 6.8% to Won 1,091.5 billion for the year ended December 31, 2002 from Won 1,171.1 billion for the year ended December 31, 2001. The decrease was the result of lower interconnection rates in 2002.

Non-Consolidated Operating Income. SK Telecom's operating income increased by 21.3% to Won 2,683.7 billion for the year ended December 31, 2002 from Won

5

2,204.2 billion for the year ended December 31, 2001. SK Telecom's operating income increased at a lower rate than operating revenue because SK Telecom's operating expenses for the year ended December 31, 2002 increased by 47.9% to Won 5,950.4 billion compared to Won 4,023.0 billion for the year ended December 31, 2001. The increase in SK Telecom's operating expenses was primarily due to the Shinsegi merger and the increases in commissions, depreciation expenses, interconnection expenses, advertising expenses, labor costs, leased line expenses and miscellaneous operating expenses.

Commissions paid to SK Telecom's authorized dealers increased by 94.2% to Won 800.0 billion for the year ended December 31, 2002 compared to Won 411.9 billion for the year ended December 31, 2001. The increase was primarily due to the increase in new subscribers by 49.2% and in average subscribers by 17.6% during the period. In addition, commissions paid to SK Telecom's authorized dealers increased by 42.5 % to Won 253.4 billion for the fourth quarter of 2002 compared to Won 177.8 billion for the third quarter of 2002 as a result of higher levels of payment to SK Telecom's authorized dealers in respect of retention of our existing customers during the 30-day business suspension period (from November 21, 2002 to December 20, 2002) imposed on the Company by the Ministry of Information and Communication of Korea for violating its handset subsidy regulation and to maintain our market leadership in 2G & 2.5G service as well as 3G service going forward.

Depreciation and amortization expenses increased by 28.8% to Won 1,414.6 billion for the year ended December 31, 2002 compared to 1,098.0 billion for the year ended December 31, 2001. The increase in depreciation expenses was primarily due to the expansion of SK Telecom's CDMA 1xRTT network.

Interconnection expenses increased by 22.4% to Won 738.0 billion for the year ended December 31, 2002 compared to Won 603.1 billion for the year ended December 30, 2001. The increase was primarily due to the higher subscriber numbers (including as a result of the Shinsegi merger) and an increase of the mandated contributions to universal service obligation fund in the amount of Won 87.5 billion, which were only partially offset by a decrease in the level of interconnection fees that SK Telecom must pay to other operators for calls using their networks.

## Edgar Filing: SK TELECOM CO LTD - Form 6-K

Advertising expenses increased by 59.4% to Won 440.0 billion for the year ended December 31, 2002 compared to Won 276.2 billion for the year ended December 31, 2001, primarily due to the promotion of new services and the marketing activities related to the World Cup events in Korea. Advertising expenses for the first half of 2001 also were unusually low as a result of our efforts to satisfy the FTC's condition to our acquisition of Shinsegi that our wireless market share be less than 50.0% as of June 30, 2001. In addition, advertising expenses for the fourth quarter of 2002 were higher as a result of our aggressive marketing activities to retain our existing customers during the 30-day business suspension period and to maintain our market leadership in 2G & 2.5G service as well as 3G service going forward.

6

Labor cost increased by 38.6% to Won 304.6 billion for the year ended December 31, 2002 compared to Won 219.8 billion for the year ended December 31, 2001. The increase was primarily due to the inclusion of Shinsegi's labor expense from January 13, 2002 and higher wage levels.

Leased line expenses increased by 23.7% to Won 266.8 billion for the year ended December 31, 2002 compared to Won 215.6 billion for the year ended December 31, 2001, primarily due to the Shinsegi merger and an increase in wireless traffic.

Non-Consolidated Other Income. Other income, consisting primarily of commission income, interest income, foreign exchange and translation gains and miscellaneous income, increased by 154.0% to Won 272.5 billion for the year ended December 31, 2002 compared to Won 112.6 billion for the year ended December 31, 2001. Other income increased primarily due to significant increases in commission income, foreign exchange translation gains, interest income, foreign exchange gains and miscellaneous other income.

Non-Consolidated Other Expenses. Other expenses, consisting primarily of interest expense, donations, foreign exchange and translation losses and miscellaneous expenses, increased by 39.9% to Won 776.1 billion for the year ended December 31, 2002 compared to Won 555.3 billion for the year ended December 31, 2001. Other expenses increased primarily as a result of a significant increase in miscellaneous other expenses due to the loss on disposal of fixed assets consisting of Shinsegi's unused equipment as well as the loss on disposal of marketable securities and the loss on investment securities impairment due to the share exchange transaction with KT Corporation. Other expenses also increased as a result of a significant increase in interest expenses, the absence of equity in losses of affiliates (we recorded a gain in the year ended December 31, 2002) and an increase in foreign exchange losses, which were partially offset by decreases in donations and foreign exchange translation losses. As a percentage of operating revenue, other expenses increased slightly to 9.0% for the year ended December 31, 2002 from 8.9% for the year ended December 31, 2001.

Non-Consolidated Income Tax. Provision for income taxes increased by 7.9% to Won 669.2 billion for the year ended December 31, 2002 from Won 621.1 billion for the year ended December 31, 2001.

Non-Consolidated Net Income. Principally as a result of the factors discussed above, SK Telecom's net income increased by 32.6% to 1,511.3 billion for the year ended December 31, 2002 from Won 1,140.3 billion for the year ended December 31, 2001.
