merger on January 13, 2002

2) Net sales reflecting sales discounts

1) SIGN-UP FEES & MONTHLY FEES

- SIGN-UP FEES: Mainly due to the decrease in new adds, sign-up fees decreased 3% QoQ and 37% YoY.
- MONTHLY FEES: Despite a cut in standard monthly fees by 6.7%, monthly fees revenue decreased only 2% QoQ, and increased 11% YoY due to increased subscribers.

2) VOICE REVENUE

- USAGE CHARGES: Despite 1) a cut in standard usage charges of 4.8%, 2) an increase in free minutes (from 7 to 10 minutes), and 3) a decrease in MOU from seasonal effect from Lunar New Year Holiday and fewer days in February, usage charges revenue decreased 10% QoQ. But owing to increase in subscribers and MOU, usage charges revenue increased 12% YoY.
- VAS AND OTHERS: Due to 1) the accounting method change (to net sales excluding commissions to contents providers) in voice information services (ARS service, 114 , etc) and 2) seasonal effect, revenue from VAS and others decreased 6% QoQ. Under the previous method, including commissions to contents providers in revenue, VAS and others would have increased 1% QoQ to KRW 112.2b. Because of a gradual increase in VAS subscribers, VAS and others revenue increased 70% YoY.

3) WIRELESS INTERNET SALES

- WIRELESS INTERNET SALES: In spite of 1) the accounting method change (to post net sales excluding sourcing cost of contents such as e-lottery and tickets) and 2) seasonal effect, wireless Internet sales increased 5% QoQ. With the old accounting method of realizing e-lottery sales, wireless Internet sales would have increased 8% QoQ to KRW 272.3b. Owing to the increase in Internet-enabled handsets and high-end handsets which generate higher wireless Internet ARPU(June, EV-DO, Color, 1X), wireless Internet sales increased 108% YoY.
- PORTION IN CELLULAR REVENUE: Wireless Internet sales portion in total revenue excluding interconnection revenue was 13%, a sustained increase from 8% in the 1st quarter, and 12% in the 4th quarter in 2002.

-

4) INTERCONNECTION REVENUE

- L-M: Despite a 10.3% reduction in interconnection rate, L-M revenue decreased only 6% QoQ due to the adjustments of difference between the estimates and final settlement.
- M-M: Due to the interconnection rate adjustment, M-M revenue decreased 11% QoQ.
