The Company will be unable to complete all aspects of its Form 10-K for the fiscal year ended January 1, 2006 on or prior to the required filing date of March 17, 2006. The Company has just recently resolved the open issues with the Staff and is now in the process of preparing its 2005 financial statements in accordance with the Staff's comments, including (i) a restatement of its previously issued financial statements for the years ended December 28, 2003 and January 2, 2005 and for the quarterly period ended October 2, 2005, and (ii) an adjustment of how the Company aggregates operating segments into reportable segments.

The Company expects to file its 10-K within the 15 calendar-day extension period.

Attachment I

As previously disclosed in Forms 8-K filed as of March 3, 2006 and March 6, 2006, Rogers Corporation (the "Company") had received a standard review letter from the Securities and Exchange Commission ("SEC") as part of its periodic examination of public company disclosures. The comments related to the SEC's review of certain recent public filings.

One of the two open issues, as previously disclosed, was the Company's treatment of the 2004 fourth quarter positive tax adjustment of \$5.0 million, as reported and explained in the Company's 2004 Form 10-K and March 3, 2005, press release, and the net tax charge of \$0.8 million recorded in the results for 2005. These one-time, non-cash adjustments to earnings were required to properly state certain deferred income tax accounts for temporary tax differences that most likely accumulated over many years. The SEC had questioned the Company's treatment of including these amounts in earnings in 2004 and 2005 in lieu of restating prior periods by recording an increase to beginning retained earnings.

As previously disclosed, the accounting issue was first identified while the Company was completing the 2004 Form 10-K filing. At the time of the 2004 Form 10-K filing and subsequent filings, through extensive efforts undertaken in completing the filings, it was determined that the adjustments related substantially to financial periods prior to 2002. However, the exact amounts could not be definitively attributed to specific periods with absolute certainty. Therefore, the Company felt the prudent approach was to recognize the adjustments in the Company's results in the periods identified, hence the adjustment in the fourth quarter of 2004 and the subsequent adjustments in the third and fourth quarters of 2005, and to disclose the adjustments with complete transparency. The effect of these recorded adjustments is consistent with what was recently disclosed and reconciled in the Company's preliminary fourth quarter and year-end earnings press release, which was included in the Company's Form 8-K filed as of March 3, 2006.

Following further discussions with the SEC, on March 3, 2006, Rogers management

Edgar Filing: ROGERS CORP - Form NT 10-K

concluded that the Company will restate its previously issued financial statements for the years ended December 28, 2003 and January 2, 2005 and for the quarterly period ended October 2, 2005 and that those financial statements should not be relied upon to the extent they are affected by the deferred tax issue described above. The Company will therefore restate such financial statements in its Form 10-K filing for the 2005 fiscal year ended January 1, 2006.

The Company is currently in the process of finalizing the quantitative impact of this restatement on prior periods; therefore, a meaningful quantitative analysis of the restatement cannot be made at this time as the Company is still working through several material items related to this restatement to determine the appropriate periods to which it relates.
