AND SUBSIDIARIES

Notes to Consolidated Financial Statements

June 30, 2010

(Unaudited)

Note 1 - Basis of Presentation and Significant Accounting Policies

Reference should be made to the "Notes to Consolidated Financial Statements" of Investors Title Company's ("the Company") Annual Report on Form 10-K for the year ended December 31, 2009 for a complete description of the Company's significant accounting policies.

Principles of Consolidation – The accompanying unaudited consolidated financial statements include the accounts and operations of Investors Title Company and its subsidiaries (Investors Title Insurance Company, National Investors Title Insurance Company, Investors Title Exchange Corporation, Investors Title Accommodation Corporation, Investors Title Management Services, Inc., Investors Title Commercial Agency, LLC, Investors Capital Management Company, and Investors Trust Company), and have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted. All intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, all adjustments considered necessary for a fair presentation of the financial position, results of operations and cash flows in the accompanying unaudited consolidated financial statements have been included. All such adjustments are of a normal recurring nature. Operating results for the quarter ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

Use of Estimates and Assumptions – The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions used.

Reclassification - Certain 2009 amounts have been reclassified to conform to the 2010 classifications. These reclassifications had no effect on net income or stockholders' equity as previously reported.

Subsequent Events - The Company has evaluated and concluded that there were no material subsequent events requiring adjustment to or disclosure in its consolidated financial statements.

Recently Issued Accounting Standards – In February 2010, the Financial Accounting Standards Board ("FASB") updated the reporting requirements for subsequent events to no longer include a date through which events have been evaluated. This update was effective immediately and did not have an impact on the Company's financial condition or results of operations.

In January 2010, the FASB updated the requirements for fair value measurements and disclosures to provide for additional disclosure related to transfers in and out of securities valuation hierarchy Levels 1 and 2, and to require companies to present Level 3 securities purchases, sales, issuances and settlement on a gross rather than net basis. Refer to Note 7 for a discussion of valuation hierarchy levels. The new disclosures are clarifications of existing disclosures and are effective for interim and annual reporting periods beginning after December 15, 2009, except that the disclosures requiring the presentation of Level 3 securities trading activity on a gross basis are effective for fiscal years beginning after December 15, 2010. This update did not have an impact on the Company's financial condition or results of operations.

In June 2009, the FASB changed the methodology used to determine whether or not an entity is a primary beneficiary with respect to a variable interest entity and introduced a requirement to reassess on an ongoing basis whether an entity is the primary beneficiary of a variable interest entity. This update was implemented January 1, 2010, and did not have an impact on the Company's financial condition or results of operations. As a result of this update, the Company evaluated its investments in entities in which it has an equity ownership, and determined that the Company is not the primary beneficiary in any of these entities. Accordingly, these entities have not been consolidated because the Company does not have a controlling ownership in any of the companies, there are no disproportionate voting rights, it is not the responsibility of the Company to ensure the entities operate as intended and there are no requirements to provide for additional funding in the event of losses.

#### Note 2 - Reserves for Claims

Transactions in the reserves for claims for the six months ended June 30, 2010 and the year ended December 31, 2009 are summarized as follows:

	June 30, 2010	December 31, 2009
Balance, beginning of period	\$ 39,490,000	\$ 39,238,000
Provision, charged to operations	1,424,819	8,465,123
Payments of claims, net of recoveries	(3,162,819 )	(8,213,123 )
Ending balance	\$ 37,752,000	\$ 39,490,000

The total reserve for all reported and unreported losses the Company incurred through June 30, 2010 is represented by the reserves for claims. The Company's reserves for unpaid losses and loss adjustment expenses are established using estimated amounts required to settle claims for which notice has been received (reported) and the amount estimated to be required to satisfy incurred claims of policyholders which may be reported in the future. Despite the variability of such estimates, management believes that the reserves are adequate to cover claim losses which might result from pending and future claims under policies issued through June 30, 2010. The Company continually reviews and adjusts its reserve estimates to reflect its loss experience and any new information that becomes available. Adjustments resulting from such reviews may be significant.

The decrease in the loss provision for 2010 year-to-date is due to the recovery of \$942,000 under the Company's fidelity bond related to a defalcation that occurred in 2008, as well as a decrease in premium volume, a favorable adjustment to the current year loss provision rate and favorable experience development in several prior policy years.

A summary of the Company's loss reserves, broken down into its components of known title claims and incurred but not reported claims ("IBNR"), follows:

	June 30, 2010	%	December 31, 2009	%
Known title claims	\$ 6,070,489	16.1	\$ 6,398,623	16.2
IBNR	31,681,511	83.9	33,091,377	83.8
Total loss reserves	\$ 37,752,000	100.0	\$ 39,490,000	100.0

Claims and losses paid are charged to the reserves for claims. Although claims losses are typically paid in cash, occasionally claims are settled by purchasing the interest of the insured or the claimant in the real property. When this event occurs, the acquiring company carries assets at the lower of cost or estimated realizable value, net of any indebtedness on the property.

#### Note 3 - Comprehensive Income

Total comprehensive income for the three months ended June 30, 2010 and 2009 was \$2,141,933 and \$2,732,732, respectively. Comprehensive income for the six months ended June 30, 2010 and 2009 was \$2,398,925 and \$4,384,626, respectively. Other comprehensive income is comprised of unrealized gains or losses on the Company's available-for-sale securities, net of tax and amortization of prior service cost and unrealized gains and losses in net periodic benefit costs related to postretirement liabilities, net of tax.

#### Note 4 - Earnings Per Common Share and Share Awards

Basic earnings per common share is computed by dividing net income by the weighted-average number of common shares outstanding during the reporting period. Diluted earnings per common share is computed by dividing net income by the combination of dilutive potential common stock, comprised of shares issuable under the Company's share-based compensation plans and the weighted-average number of common shares outstanding during the reporting period. Dilutive common share equivalents includes the dilutive effect of in-the-money share-based awards, which are calculated based on the average share price for each period using the treasury stock method. Under the treasury stock method, the exercise price of a share-based award, the amount of compensation cost, if any, for future service that the Company has not yet recognized, and the amount of estimated tax benefits that would be recorded in additional paid-in capital, if any, when the share-based awards are exercised are assumed to be used to repurchase shares in the current period. The incremental dilutive potential common shares, calculated using the treasury stock method, were 7,546 and 0 for the three months ended June 30, 2010 and 2009, respectively, and 7,840 and 4,719 for the six months ended June 30, 2010, and 2009, respectively.

The following table sets forth the computation of basic and diluted earnings per share for the three and six month periods ended June 30:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Net income	\$2,537,560	\$2,115,473	\$2,554,975	\$3,550,436
Weighted average common shares outstanding - Basic	2,285,653	2,296,644	2,285,392	2,295,298
Incremental shares outstanding assuming the exercise of dilutive stock options and SARs (share settled)	7,546	-	7,840	4,719
Weighted average common shares outstanding - Diluted	2,293,199	2,296,644	2,293,232	2,300,017
Basic earnings per common share	\$1.11	\$0.92	\$1.12	\$1.55
Diluted earnings per common share	\$1.11	\$0.92	\$1.11	\$1.54

There were 13,500 and 17,200 shares excluded from the computation of diluted earnings per share for the three months ended June 30, 2010 and 2009, respectively, because these shares were anti-dilutive. There were 10,500 and 17,200 shares excluded from the computation of diluted earnings per share for the six months ended June 30, 2010 and 2009, respectively, because these shares were anti-dilutive.

The Company has adopted employee stock award plans (the "Plans") under which (i) restricted stock, and (ii) options or stock appreciation rights ("SARs") to purchase shares (not to exceed 500,000 shares) of the Company's stock may be granted to key employees or directors of the Company at a price not less than the market value on the date of grant. SARs and options (which have predominantly been incentive stock options) awarded under the Plans thus far are exercisable and vest immediately or within one year or at 10% to 20% per year beginning on the date of grant and generally expire in five to ten years. All SARs issued to date have been share settled only. There have not been any SARs exercised in 2010 or 2009.
