**Item 8.01. Other Events**

On June 27, 2018, the Hawaii Public Utilities Commission (“HPUC”) issued an Interim Decision and Order providing the regulated utility operations of Hawaii Gas with interim rate relief. Hawaii Gas is a wholly owned subsidiary of Macquarie Infrastructure Corporation (“MIC”). New rates reflecting the decision went into effect on July 1, 2018.

The Interim Decision and Order approves an increase in regulated revenue over present rates of \$8.9 million, or 8.4%, annually. The Interim Decision and Order infers a return on the equity invested in the utility of 9.75%.

The HPUC is expected to issue a Final Decision and Order subject to, among other things, the completion by Hawaii Gas of the Honouliuli Waste Water Treatment Plant Biogas Project. The project is currently estimated to be completed in the fourth quarter of 2018.

The rate increase is the first sought by Hawaii Gas since 2009. The increase in revenue reflects, in part, a return on investments made to diversify its fuel supply including its investments in renewable natural gas projects.

Hawaii Gas is the largest of several businesses owned and operated by MIC in Hawaii. The business consists of regulated gas production and distribution operations, primarily on Oahu, and unregulated gas distribution operations on each of Hawaii’s six major islands.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
