**Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**

On October 27, 2005, MGE Energy, Inc., through its wholly owned subsidiary MGE Power West Campus, LLC, issued \$20.0 million of 5.19% senior secured notes due September 25, 2033. The proceeds of the note issuance will be used to repay affiliate payables incurred by MGE Power West Campus in connection with the construction of a natural gas-fired cogeneration facility on the west campus of the University of Wisconsin at Madison. The cogeneration facility is jointly owned by MGE Power West Campus, which owns a controlling interest in the electric generation plant portion of the facility, and the University of Wisconsin, which owns a controlling interest in the chilled-water and steam plant portion of the facility.

The 5.19% senior secured notes provide for payments of interest only during the first eight years, followed by monthly payments of principal and interest until maturity. The issuance of those notes was effected pursuant to an existing note purchase agreement and related indenture under which MGE Power West Campus had previously issued \$30 million of 5.68% senior secured notes due September 25, 2033. Both series of notes are secured by a lease agreement relating to the electric generation plant portion of the cogeneration facility between Madison Gas and Electric Company and MGE Power West Campus. The 5.19% senior secured notes require that MGE Power West

Campus maintain a projected debt service coverage ratio of not less than 1.25 to 1.00 and debt to total capitalization ratio of not more than 0.65 to 1.00.
