## Edgar Filing: FOOTHILLS RESOURCES INC - Form 8-K

### Section 1 - Registrant's Business and Operations

#### Item 1.01. Entry into a Material Definitive Agreement.

As previously reported, as of February 15, 2006, Foothills Resources, Inc. (the "Registrant") entered into a Term Sheet (the "Term Sheet") with Brasada Resources, LLC (together with its corporate successor in interest, Brasada California, Inc., "Brasada"). Brasada is engaged in oil and gas exploration and development. As contemplated by the Term Sheet, on or before May 31, 2006 a newly-formed, wholly-owned subsidiary of the Registrant will merge with and into the corporate successor in interest to Brasada (the "Merger"), as a result of which Registrant will acquire all of the issued and outstanding capital stock of Brasada and Brasada will become a wholly-owned subsidiary of the Registrant.

As a condition to the closing of the Merger, the Registrant will have closed a private placement offering (a "PPO"), to be conducted pursuant to the exemption from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), provided by Rule 506 of Regulation D and Section 4(2) of the Securities Act, whereby the Registrant will offer and sell up to 10,000,000 units ("Units") of the Registrant's securities at a price of \$0.70 per Unit, or an aggregate offering price of \$7,000,000. Each Unit will consist of one share of common stock, par value \$0.001 per share ("Common Stock") and Common Stock purchase warrants ("Warrant"). Each Warrant will be exercisable for five years and will entitle its holder to purchase three shares of Common Stock at \$1.00 per share for every four Units purchased in the PPO. As of the date of this report, the PPO has not closed.

In addition, effective March 17, 2006 the Registrant closed on the offer and sale of \$997,500 principal amount of its debentures ("Foothills Debentures") to a limited number of accredited investors pursuant to Regulation D. There may be additional closings on the Foothills Debentures, up to a principal amount of \$3,000,000. The Foothills Debentures are unsecured, bear interest at the rate of 9% per annum, which interest begins to accrue commencing 120 days from issuance, and are for a term of three years. The Foothills Debentures are payable in consecutive monthly installments of principal and interest, commencing 120 days from the date of their issuance. The Foothills Debentures will become convertible and will automatically convert, as to their outstanding principal amount, into Units upon the simultaneous closing of the Merger and the PPO (and the principal amount of the Foothills Debentures so converted shall be a part of the \$7,000,000 proceeds of the PPO). In addition, the Foothills Debentures will become convertible, at the option of the holder, 70 days after the earlier of (i) termination of the exclusivity period provided for in the Term Sheet, if the Merger has not closed by such date, or (ii) the date of termination or abandonment of the Merger prior to the end of the exclusivity period. The Foothills Debentures will convert into Units at a conversion price of \$0.70 per Unit, equal to the price per Unit in the PPO.

2

If the Registrant defaults under the Foothills Debentures, the full principal amount of the Foothills Debentures, together with interest, will, at the holder's option, become immediately due and payable in cash. In addition, commencing five days after the occurrence of any default that results in the eventual acceleration of the Foothills Debenture, the interest rate will increase to 18% per annum, or such lower maximum amount of interest permitted to be charged under applicable law.

The Registrant used the \$997,500 derived from its issuance of the

## Edgar Filing: FOOTHILLS RESOURCES INC - Form 8-K

initial Foothills Debentures to provide bridge financing ("Bridge Financing") to Brasada to enable Brasada to meet its working capital requirements. The proceeds derived from any additional closings of Foothills Debentures will be used to provide additional Bridge Financing. The Bridge Financing is evidenced by a Bridge Note ("Bridge Note") and related documents (collectively, the "Bridge Loan Documents"). The Bridge Note is for a term of 120 days from the initial closing of the Bridge Financing (July 20, 2006) (the "Due Date"), and bears interest at the rate of nine percent per annum. The Bridge Note is secured by a perfected security interest and first lien on all of the assets of Brasada, as well as by the deposit into escrow of such number of shares (the "Escrowed Bridge Loan Shares") as shall equal 51% of the issued and outstanding capital stock of Brasada. The security for the Bridge Loan will be released upon the repayment in full of the Bridge Note. Closing of the Merger will be deemed to constitute such repayment in full.

Brasada will begin making consecutive monthly interest only payments on the Bridge Note of accrued interest commencing 30 days from the closing of the Bridge Financing through the Due Date, at which time Brasada will be required to repay the unpaid principal amount of the Bridge Note, together with accrued and unpaid interest.

A default by Brasada under the Bridge Note, including but not limited to the failure to close the Merger prior to the Due Date, will cause an increase to the interest rate from 9% to 15% per annum, which increased interest rate will continue until all defaults are cured. In addition, if such default is not cured, the Registrant will be entitled to foreclose on its security interest in the collateral provided for under the Bridge Loan Documents and to obtain delivery of the Escrowed Bridge Loan Shares.

### Section 2 - Financial Information

#### Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant

Please see the discussion under Item 1.01 of this Report regarding the Foothills Debentures issued by the Registrant, which discussion is incorporated by reference into this Item 2.03.
