**AMARC'S FINANCING INCREASED TO \$4.4 MILLION**

**December 29, 2003, Vancouver, BC** - Ronald W. Thiessen, President and CEO of Amarc Resources Ltd. (TSX Venture: AHR) is pleased to announce that, further to the Company's announcement on December 10, 2003 to raise \$4.0 million through the private placement of Units at \$0.55 each, that the Company has reached agreements in principle to increase the financing to \$4.4 million on the same terms. The agreements are with a number of accredited investors, including approximately 22% participation from Company insiders, with a portion designated as flow-through units. The offering is subject to execution of definitive agreements and TSX Venture Exchange acceptance, which is expected in the ordinary course. Brokers' fees on the financing are to be paid at 7%, in cash, excluding those sold to Company insiders.

Proceeds from the placement will be used for Canadian exploration expenses, general corporate and working capital purposes. In particular, the Company has assembled a capable and focused exploration team to develop new plays directed toward the discovery of major new mineral deposits in British Columbia. Guided by the experienced management and technical staff at Hunter Dickinson, which has successfully found and developed a number of deposits in BC, Amarc's exploration team has already begun to assemble a portfolio of key projects for surveys in 2004, with the objective of defining targets for drilling.
