FOR IMMEDIATE RELEASE

EARNINGS RELEASE

SILICOM REPORTS Q1 FINANCIAL RESULTS

– \$6.4M Sales Yield \$1.0M Operating Income, \$0.13 EPS –

KFAR SAVA, Israel - April 26, 2010--Silicom Ltd. (NASDAQ and TASE: SILC) today reported financial results for the first quarter ended March 31, 2010.

Revenues for the first quarter of 2009 were \$6.4 million, a 28% increase compared with \$5.0 million for the first quarter of 2009.

Operating income for the quarter was \$1,007,000, an increase of 55% compared with \$649,000 in the first quarter of 2009. Net income for the quarter was \$938,000, or \$0.13 per diluted share (\$0.14 per basic share), an 8% increase compared with \$867,000, or \$0.13 per share (basic and diluted), for the first quarter of 2009.

As of March 31, 2010, the Company's cash, cash equivalents, bank deposits and marketable securities totaled \$43.8 million, up \$0.6 million compared with the end of 2009.

Commenting on the results, Shaikhe Orbach, President and CEO, said, "The first quarter was another period of strong revenues and operating income together with significant strategic progress towards our long-term objectives. Our continued success confirms the trends we reported in the fourth quarter of 2009: early signs of recovering markets, a strong underlying need for our traditional product lines, and growing interest and sales of our latest product innovations."

Mr. Orbach continued, "We are especially encouraged by a number of positive factors, each of which is representing an important potential growth engine for the company:

We are seeing a ramp-up in the orders flowing from recent design wins with large customers.

Several of our customers have integrated our products into more of their product lines, and therefore are increasing their business with us.

We are seeing increased revenues from many of the 70+ customers in our customer base, many of whom are market leaders in various networking and security market segments.

We are starting to see initial sales of our new products, as demonstrated by the significant win that we achieved during the quarter for our 10 Gbps external Intelligent Bypass Switch. This innovative new product extends our positioning as the industry's trusted 'one-stop shop' for top-performing Bypass solutions.

Market traction for our SETAC (SErver To Appliance Converter) is beginning to build, as illustrated by the selection of SETAC by a leading Chinese network appliance manufacture, which is the third SETAC marketing success we have announced since our recent launch of the product.

Mr. Orbach concluded, “All of these achievements reflect the success of our continuous investment in innovative R&D, sales and marketing. We believe the combination of an expanding product portfolio, a satisfied customer base, recovering markets, and a reputation for technology innovation position us to continue delivering strong sales growth as we move into 2010.”
