Company Press Release

NOVA ANNOUNCES 2013 SECOND QUARTER RESULTS

Rehovot, Israel – July 30, 2013 - Nova Measuring Instruments Ltd. (Nasdaq: NVMI), provider of leading edge stand alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, today reported its 2013 second quarter results.

Highlights for the Second Quarter of 2013

- Quarterly revenues of \$28.1 million
- Blended gross margin of 55%
- GAAP Net income of \$2.8 million, or \$0.10 per diluted share
- Non-GAAP Net income of \$3.8 million, or \$0.14 per diluted share
- Positive cash flow from operations of \$3.5 million

Management Comments

“We are pleased to report revenues for the second quarter near the high end of our guidance range,” said Gabi Seligsohn, President and CEO of Nova. “This strong performance, combined with a slightly more favorable revenue mix than we expected, also enabled us to exceed the high end of our earnings guidance.”

“Our strong position in the foundry segment continues to be reflected in our results, as several customers ramp up 28nm capacity, continuing the demand for both stand-alone and integrated metrology tools for this process node. In turn, we are able to continue to invest in breakthrough technology such as the new NovaMARS 6.0 modeling engine which we introduced during the second quarter, while also generating positive operating cash flow. During the second quarter, we increased our cash position to \$98 million.”

Addressing the business outlook, Mr. Eitan Oppenheim, President and CEO-elect said, “We expect demand for both stand-alone and integrated systems from our broad base of foundry customers to continue during the second half of 2013, mainly for production in 28nm, and possibly 20nm late in the year. We also expect to ship systems for 20nm pilot lines and 16/14nm R&D lines. In addition, we will continue to take advantage of upgrade opportunities, while also collaborating on advanced process control development with leading customers and OEMs. During the second half of 2013, our focus will be on preparing for the 20nm ramp up and the next expansion phase in memory, increasing the adoption of our stand-alone metrology tools for advanced 3D processes, and continuing our strategic software development and expansion initiatives. We will also be leveraging our initial success to further penetrate the 3D interconnect market.”

Nova will discuss the results, along with its outlook and guidance for the third quarter of 2013, on a conference call today, July 30, 2013, beginning at 5:00pm ET. The call will be webcast live from a link on Nova’s website at <http://ir.novameasuring.com>.

Nova will also conduct a conference call in Hebrew on Wednesday, July 31, 2013 at 11:00am Israel Time.

2013 Second Quarter Results

Total revenues for the second quarter of 2013 were \$28.1 million, an increase of 4% relative to the second quarter of 2012, and an increase of 3% relative to the first quarter of 2013.

Gross margin for the second quarter of 2013 was 55%, compared with 54% in the second quarter of 2012 and 54% in the first quarter of 2013.

Operating expenses in the second quarter of 2013 were \$12.0 million, compared with \$9.9 million in the second quarter of 2012 and \$11.8 million in the first quarter of 2013.

On a GAAP basis, the company reported net income of \$2.8 million, or \$0.10 per diluted share, in the second quarter of 2013. This compares to a net income of \$3.7 million, or \$0.14 per diluted share, in the second quarter of 2012, and a net income of \$2.4 million, or \$0.09 per diluted share, in the first quarter of 2013.

On a Non-GAAP basis, which excludes deferred income tax adjustments, stock based compensation expenses and loss or income related to equipment and inventory damage, the company reported net income of \$3.8 million, or \$0.14 per diluted share, in the second quarter of 2013. This compares to a net income of \$5.4 million, or \$0.20 per diluted share, in the second quarter of 2012, and a net income of \$3.6 million, or \$0.13 per diluted share, in the first quarter of 2013.

Total cash reserves at the end of the second quarter of 2013 were \$97.6 million.

Conference call details

To attend the conference call today, July 30, 2013, at 5:00pm ET, please dial in the US: 1 877 280 1254; or internationally +972 3 763 0145 or +1 646 254 3361.

To attend the conference call in Hebrew, on July 31, 2013, at 11:00am Israel Time, please dial +972 3 918 0609.

Nova's financial results conference call on July 30, 2013 will be webcast live from a link on Nova's website at <http://ir.novameasuring.com>, together with a presentation to accompany the conference call.

Replays of both the English and Hebrew conference calls will be available from the same link.

About Nova: Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company's website is: www.novameasuring.com.

This press release provides financial measures that exclude non-cash charges for stock-based compensation, loss or income related to equipment and inventory damage as well as deferred income taxes adjustments and are therefore not calculated in accordance with generally accepted accounting principles (GAAP). Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Nova's performance because they reflect our operational results and enhances management's and investors' ability to evaluate Nova's performance before charges or benefits considered by management to be outside Nova's ongoing operating results.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management believes that it is in the best interest of its investors to provide financial information that will facilitate comparison of both historical and future results and allows greater transparency to supplemental information used by management in its financial and operational decision making. A reconciliation of each GAAP to non-GAAP financial measure discussed in this press release is contained in the accompanying financial tables.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward looking statements. These risks and other factors include but are not limited to: our dependency on two product lines; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; our dependency on PEM; risks related to exclusivity obligations and non-limited liability that may be included in our commercial agreements and arrangements; cyber security risks; risks related to open source technologies; our ability to retain our competitive position despite the ongoing consolidation in our industry; risks related to our dependence on a single manufacturing facility; risks related to our lease agreements; our ability to expand our manufacturing capacity or marketing efforts to support our future growth; risks related to quarterly fluctuations in our operating results; risks related to the extremely competitive market we are operation in; our dependency on a small number of large customers and small number of suppliers; our dependency on our key employees; risks related to changes in our order backlog; risks related to the financial, political and environmental instabilities in Asia; risks related to our intellectual property; changes in customer demands for our products; new product offerings from our competitors; changes in or an inability to execute our business strategy; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading "Risk Factors" in Nova's Annual Report on Form 20-F for the year ended December 31, 2012 filed with the Securities and Exchange

Commission on March 11, 2013. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
