Item 12. Results of Operations and Financial Condition.

The information in this Form 8-K, including the accompanying exhibit, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended (the Securities Act), or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

On August 27, 2003, Pumatech, Inc. issued a press release of its financial results for the fiscal quarter ended July 31, 2003 and the full fiscal year ended July 31, 2003. A copy of the press release is furnished as Exhibit 99.1 to this report.

The press release contains references to pro forma income or loss on a total and per share basis. A pro forma income or loss represents a non-GAAP financial measure. A non-GAAP financial measure is defined as a numerical measure of a company's financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in the company's financial statements. Pro forma income or loss is used by investors and analysts as an alternative to GAAP measures when evaluating the Company's performance in comparison to other companies. The Company's management believes that the presentation of pro forma income or loss, excluding amortization of intangible assets, non-cash stock compensation and non-recurring charges, provides useful information regarding the Company's financial performance and earnings potential by calculating and quantifying the effect of certain charges on income or loss per share calculated in accordance with GAAP and gives investors and analysts insight into the profitability of the Company's operating business. Management also believes that the presentation of the non-GAAP financial measure is consistent with its past practice, as well as industry practice in general, and will enable investors and analysts to compare current non-GAAP measures with non-GAAP measures presented in prior periods.

The attached press release contains a condensed consolidated statements of operations reconciling pro forma income or loss used by the Company to the comparable GAAP measure. The pro forma information and other non-GAAP financial measures used by the Company in the attached press release may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
