NOTICE OF ACTION BY WRITTEN CONSENT

WE ARE NOT ASKING YOU FOR A PROXY AND

YOU ARE REQUESTED NOT TO SEND US A PROXY.

To the Shareholders of e-Smart Technologies, Inc.:

The enclosed Information Statement is furnished to the holders of shares of common stock, \$0.001 par value of E-Smart Technologies, Inc. to provide a comprehensive overview of actions previously taken, approved by and reported to shareholders, describe recent actions relating to the financing and Recapitalization of the Company, report approval of a reverse split of the Company's outstanding stock at a ratio of one share for every twenty shares outstanding, and report the election of directors to serve until the Annual Meeting of Shareholders in 2009.

The Information Statement is being sent to our shareholders to comply with the requirements of Section 14(c) of the Securities Exchange Act of 1934, as amended, or Exchange Act, and Section 78.320 of the Nevada Revised Statutes, or NRS. Except as otherwise noted, all references in this information statement to the company, we, us, or our refers to e-Smart Technologies, Inc.

On December 31, 2008, the holders of all outstanding shares of our Series A Convertible Preferred Stock, representing approximately 61 % of the total number of shares outstanding considered, approved and ratified each of the actions described in items 1 through 4 above and voted for each of the nominees for director named in this Information Statement. This consent of shareholders is sufficient to approve each of the actions described in items 1 through 4 and to elect the nominees named in this Information Statement. Accordingly, the actions and election of directors will not be submitted to the other shareholders of the company for a vote.

Under Section 78.320 of the NRS, we are required to provide prompt notice of the taking of any corporate action without a meeting to those shareholders who have not consented in writing and who, if the action had been taken at a meeting, would have been entitled to notice of the meeting if the record date for such meeting had been the date that written consents signed by a sufficient number of shareholders to take the actions were delivered to us. As of December 31, 2008, there were 715,503,509 (without the common equivalent attributable to the Series A preferred) shares of our common stock outstanding, each of which would have been entitled to one vote at a meeting called to approve the items described in this Information Statement and for the election of directors.

The enclosed Information Statement describes items 1 through 4 above and the election of directors in more detail. You are encouraged to read the entire document carefully.

THIS INFORMATION STATEMENT IS DATED DECEMBER 31, 2008 AND IS FIRST BEING SENT TO SHAREHOLDERS ON OR ABOUT JULY 7, 2009.

Very truly yours,

/s/ Mary A. Grace
Mary A. Grace
President and Chief Executive Officer

E-SMART TECHNOLOGIES, INC.

INFORMATION STATEMENT

AND NOTICE OF ACTIONS TAKEN

BY WRITTEN CONSENT OF THE MAJORITY SHAREHOLDERS

NO VOTE OR OTHER ACTION OF THE COMPANY'S SHAREHOLDERS IS REQUIRED IN CONNECTION WITH THIS INFORMATION STATEMENT.

WE ARE NOT ASKING YOU FOR A PROXY AND YOU ARE REQUESTED NOT TO SEND US A PROXY.

We are distributing this Information Statement to our shareholders in satisfaction of any notice requirements we may have under the Securities Exchange Act of 1934, as amended, and applicable Nevada law. No additional action will be undertaken by us with respect to the receipt of written consents, and no dissenters' rights under applicable Nevada law are afforded to our shareholders as a result of the adoption of these resolutions.

The expenses in connection with the distribution of this Information Statement, which are anticipated to be approximately \$25,000, will be paid by the company.

Background

On May 15, 2008, the holders of the Series A Preferred Shares, which possesses a vote equal to 61% of the total number of outstanding shares, ratified and approved the actions previously taken in relation to the Recapitalization of the Company and approved the reverse stock split and the election to our Board of Directors from the nominees described in this Information Statement.

Interest of Certain Persons In or Opposition to Matters Acted Upon

Except as otherwise described below, no director, officer, nominee for election as a director, associate of any director, officer or nominee or any other person has any substantial interest, direct or indirect, by security holdings or otherwise, resulting from the matters described herein which is not shared by all other shareholders pro rata in accordance with their respective interests.

Forward Looking Statements

This Information Statement may contain certain forward-looking statements (as that term is defined in the Private Securities Litigation Reform Act of 1995 or by the Securities and Exchange Commission in its rules, regulations and releases) representing our expectations or beliefs regarding the company. These forward-looking statements include, but are not limited to, statements concerning our operations, economic performance, financial condition, and prospects and opportunities. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as may, will, believe, anticipate, intend, could, estimate, might, or continue or the negative or other variations thereof or comparable terminology are used to identify forward-looking statements. These statements, by their nature, involve substantial risks and uncertainties, certain of which are beyond our control, and actual results may differ materially, depending on a variety of important factors, including factors discussed in this and other of our filings with the Securities and Exchange Commission.

Additional Information

We are subject to the information reporting requirements of the Exchange Act and file reports, proxy statements and other information required under the Exchange Act with the SEC. Such reports, proxy statements and other information may be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, NE, Room 1580, Washington, DC 20549. Copies of such materials and information from the SEC can be obtained at existing published rates from the Public Reference Section of the SEC at 100 F Street, NE, Room 1580, Washington, DC 20549. The SEC also maintains a site on the Internet at <http://www.sec.gov> that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC, which may be downloaded free of charge.

Incorporation of Financial Information

We incorporate by reference into this Information Statement the information in certain documents we file with the SEC, which means that we can disclose important information to you by referring you to those documents. We incorporate by reference into this Information Statement the following documents, we have previously filed with the SEC: [2005 filings, Annual Report on Form 10-KSB for the year ended December 31, 2006, our quarterly reports on Form 10-QSB for the quarterly periods ended March 30, 2007, June 30, 2007 and September 30, 2007, our 8K filed on May 4, 2007, and [our Annual Report on Form 10-KSB for the year ended December 31, 2007, filed on May 27, 2009.] We will be distributing a copy of these reports with this Information Statement. You may request an additional copy of these filings at no cost, by writing or telephoning us at the following address:

E-Smart Technologies, Inc.

526 West 26th Street, Suite 710

New York, NY 10001

Conclusion

As a matter of regulatory compliance, we are sending you this Information Statement which describes the purposes and effect of the actions and election of directors described herein. Your consent to these actions is not required and is not being solicited in connection with these actions and the election of directors. This Information Statement is intended to provide our shareholders with information required by the rules and regulations of the Securities Exchange Act of 1934, as amended, and applicable Nevada law.

ITEM 1 - ISSUANCE OF 17,500,000 SHARES OF THE COMPANY S SERIES A PREFERRED STOCK

As part of the original Plan of Reorganization, the Board of Directors of the company adopted a resolution unanimously approving and recommending to the company s shareholders the issuance of 17,500,000 of the total of 20,000,000 shares of what is commonly known as blank check preferred stock. The term blank check preferred stock refers to stock for which the designations, preferences, conversion rights, and cumulative, relative, participating, optional or other rights, including voting rights, qualifications, limitations or restrictions thereof, are determined by the Board of Directors of a company.

The Board of Directors and management approved the issuance of the Series A Preferred as part of a broader agreement with the Company s principal shareholder, IVI Smart Technologies. As of the date of the approval of the issuance of the Series A Preferred in October 2005, IVI owned 68% of the common stock of the Company and was the owner of biometric technology licensed to and used by the company in its biometric smart card products. As of the date of the agreement, IVI was owed a substantial quantity of stock from the Company including stock in relation to financing provided to the Company from IVI, and additional stock owed in relation to licenses of the technology owned by IVI and employed by e-Smart in its biometric products. The amount of stock owed to IVI under those prior agreements and understandings was greater than 100% of the entire amount of issued and outstanding stock.

As of that date, the Company was also in need of additional financing as it continued its effort to finalize its long term financing. IVI as the principal shareholder of the Company, had a substantial interest in the successful commercialization of the technology by the Company and the ability of the Company to continue to attract investors in the future.

Based on those circumstances, IVI and e-Smart agreed that IVI would receive 17,500,000 Series A Preferred Shares, which Series A Preferred Shares would possess the same percentage of voting control as was held by IVI at that point in time. In exchange, IVI committed to continue to provide financing for the Company, and agreed to surrender its current shareholdings and shareholdings owed to it for the grant of the Series A Preferred Shares and the continuing ongoing 70% voting control until and after the Preferred Shares are issued.

This agreement with respect to issuance of the Preferred Shares was approved by the majority of shareholders in October 2005. It was also discussed in subsequent periodic filings including the Annual Report on Form 10-KSB for the periods ended December 31, 2005 and 2006.

In May 2007, the Company began the implementation of the Plan of Reorganization, and issued an 8K reporting that the Company had issued to IVI a total of 17,500,000 of the Series A Preferred Shares which possessed 70% voting control. The Company also reported that designation of additional rights and preferences of the Series A Preferred was subject to finalization of the terms of long term financing still under negotiation.

As of April 2008, IVI sought to finalize the additional rights and preferences of the Series A Preferred, and it was the determination of the Board and management of the Company that the designations of rights and preferences should proceed. Since the initial Plan of Reorganization, IVI had also provided substantial additional financing to the Company, had received the grant of the core patent for the Company's technology, and IVI had granted six additional technologies for which IVI had filed for patents, relating to enhancements of or developments in the biometric technology (for a total of nine technologies granted under the Exclusive Use and Distribution Agreements as amended pursuant to the Amended License Agreement of December 8, 2007). Under the terms of prior agreements between the Company and IVI, the Company would have owed substantial quantities of additional stock to IVI substantially in excess of 70% of the Company for both financing activities and technology licenses essential to the incorporation of new technology in the Company's products.

Based on these circumstances, management and the Board have approved rights and designations for the Series A Preferred Shares. Under the terms of the Certificate of Rights and Designations approved by the Board, the Series A Preferred Stock are convertible into shares of common stock at a conversion ratio of 65.19189 shares of common stock for each share of Series A Preferred. Holders of Series A Preferred shares are entitled to vote their shares on an "as converted" basis with the outstanding common stock and as a result will, upon issuance, represent approximately 61% of the total number of shares outstanding. The Series A Preferred conversion ratio is subject to adjustment as a result of stock splits or combinations involving the common stock, reclassifications, exchanges, substitutions or reorganizations. Shares of Series A Preferred are entitled to receive any dividend or other distribution made on the common stock on an "as converted" basis.

The preferred stock may have priority over the Common Stock upon liquidation and priority rights as to dividends, voting and other features. Accordingly, the issuance of preferred stock could decrease the amount of earnings and assets allocable to or available for

distribution to holders of Common Stock and adversely affect the rights and powers, including voting rights, of the Common Stock as is normal and usual for Preferred Stock in other companies.

These and all other rights and preferences of the Series A Preferred Stock are set forth in the form of amended Articles of Incorporation attached to this Information Statement.

ITEM 2 - INCREASES IN AUTHORIZED SHARES

The Board of Directors and shareholders holding a majority of the outstanding shares have previously approved and ratified two amendments to our Articles of Incorporation increasing the number of authorized shares of our common stock from 200,000,000 to 500,000,000, and then to 730,000,000. The Board of Directors believes that the increases in the authorized shares are necessary (i) to reserve sufficient shares for issuance upon the conversion or exercise of Series A Preferred Stock and in relation to convertible debt, warrants and stock options and (ii) to provide us with the flexibility to act in the future with respect to financings, acquisitions, stock splits, stock option plans and other corporate purposes, without the delay and expense of obtaining shareholder approval each time an opportunity requiring the issuance of shares may arise.

Nevada Anti-Takeover Provisions

The anti-takeover provisions of Sections 78.411 through 78.445 of the Nevada Corporation Law apply to us. Section 78.438 of the Nevada law prohibits the company from merging with or selling more than 5% of our assets or stock to any shareholder who owns or owned more than 10% of our stock or any entity related to a 10% shareholder for three years after the date on which the shareholder acquired our shares, unless the transaction is approved by our Board of Directors. The provisions prohibit us from completing any of the transactions described in the preceding sentence with a 10% shareholder who has held the shares for less than three years and its related entities unless the transaction is approved by our Board of Directors or holders of a majority of our outstanding shares, other than shares owned by that 10% shareholder or any related entity. These provisions could delay, defer or prevent a change in control of the company.

No Dissenter s Rights

Under Nevada law, our dissenting shareholders are not entitled to appraisal rights with respect to the amendments to our Articles of Incorporation, and we will not independently provide our shareholders with any such right.

ITEM 3 - REVERSE STOCK SPLIT

As part of the initial Plan of Reorganization, the Board approved a reverse stock split of the Company s outstanding common stock.

On February 29, 2008, the Board of Directors approved an amendment to our Articles of Incorporation effectuating a reverse stock split of the company s outstanding common stock at a ratio of one share for every twenty shares of common stock outstanding. The Board of Directors will have the authority, but not the obligation, in its sole discretion, and without further action on the part of the shareholders, to effect the reverse stock split by filing of an amendment to our Articles of Incorporation substantially in the form attached to this Information Statement. This reverse stock split will take effect no sooner than July 15, 2009, for shareholders of record of the company as of the close of business on the effective date of the reverse stock split. Under Nevada law and our Articles of Incorporation and Bylaws, no shareholder has any right to dissent to the proposed reverse stock split and is not entitled to appraisal of or payment for their shares of our stock.

Purpose

The Board of Directors approved an amendment to the company s Articles of Incorporation to effect the reverse stock split in order to reduce the number of outstanding shares of our common stock to a level more consistent with other public companies with a similar anticipated market capitalization. The Board of Directors anticipates that the company will also issue additional authorized but unissued shares to raise capital to fund the company s operations, but there is no agreement or understanding with any person regarding any such issuance.

The Board of Directors believes that the reverse stock split is in the best interest of the company and the shareholders, but can give no assurances, however, that the reverse stock split will have the desired benefits.

Effect on Authorized and Outstanding Shares

At December 31, 2008, the company has 715,503,509 common shares outstanding of 730,000,000 authorized, plus 17,500,000 of the 20,000,000 preferred shares authorized which converted (@65.19189 per share) equal to a number of shares equal to 61% additional

shares, for a total of 1,856,361,584 common shares. The reverse stock split, if effectuated, would reduce the number of issued and outstanding shares of common stock, but would not change the number of authorized shares, the par value or the voting rights of the common stock and, except for the impact of fractional shares, each shareholder's proportionate ownership in the company would be the same immediately before and after the reverse stock split. Immediately following the effectiveness of the one-to-twenty reverse stock split, there will be an equivalent of approximately 92,818,000 shares of our converted preferred stock and common stock issued and outstanding, and 637,182,000 common shares and 2,500,000 preferred shares authorized, but unissued.

With the exception of the number of shares of common stock outstanding, the rights and preferences of shares of our common and preferred stock or proportionate number of converted preferred stock prior and subsequent to the reverse stock split will remain the same. Other than the conversion ratio, which will be automatically adjusted based up on the reverse stock split, the rights and preferences of shares of the Series A Preferred Stock prior to and subsequent to the reverse stock split will remain the same. The Board of Directors does not anticipate that the financial condition, the percentage of the stock owned by management, the number of shareholders, or any aspect of the current business would materially change as a result of the reverse stock split.

The reverse stock split will affect all of the shareholders uniformly and will not affect any shareholder's percentage ownership interests in the company, except to the extent that the reverse stock split results in any of the shareholders owning a fractional share. The common stock issued and outstanding after the reverse stock split will remain fully paid and non-assessable.

Our common stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934, and as a result the company is subject to periodic reporting and other requirements. The proposed reverse stock split would not affect the registration of our common stock under the Securities Exchange Act of 1934.

Effect on Market Price

The reverse stock split may cause an increase in the market price of our common stock, but it cannot be predicted what the actual effect of the reverse stock split will have on the market price. If the market price of our common stock does increase, it may not increase in proportion to the reduction in the number of shares outstanding as a result of the reverse stock split. Furthermore, the

reverse stock split may not lead to a sustained increase in the market price of our common stock. The market price of our common stock may also change as a result of other unrelated factors, including our operating performance and other factors related to our business, as well as general market conditions.

Accounting Matters

The reverse stock split will not affect the per share par value of our common stock. As a result of reducing the number of shares outstanding, however, on the effective date of the reverse stock split, the aggregate stated par value capital on our balance sheet attributable to our common stock outstanding would be reduced and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value per share of our common stock will be increased because there would be fewer shares of our common stock outstanding.

The company presents earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share, and will comply with the requirements of SFAS No. 128 with respect to reverse stock splits. In pertinent part, SFAS No. 128 says as follows: If the number of common shares outstanding decreases as a result of a reverse stock split, the computations of basic and diluted EPS shall be adjusted retroactively for all periods presented to reflect that change in capital structure. If changes in common stock resulting from reverse stock splits occurs after the close of the period but before issuance of the financial statements, the per-share computations for those and any prior-period financial statements presented shall be based on the new number of shares. If any per-share computations reflect such changes in the number of shares, that fact shall be disclosed.

Exchange of Certificate and Elimination of Fractional Share Interests

On the date of the reverse stock split, each lot of twenty shares of our common stock will automatically be changed into one share of common stock. No additional action on the part of any shareholder will be required in order to effect the reverse stock split. Shareholders will not be required to exchange their certificates representing shares of common stock held prior to the reverse stock split for new certificates representing shares of common stock. **Please do not send the company your stock certificates.**

In the reverse stock split, no certificate representing any fractional share interest in the post-split shares will be issued. Instead, all fractional shares will be rounded up, so that a holder of pre-split shares will receive, in lieu of any fraction of a post-split share to which the holder would otherwise be entitled, an entire post-split share. No cash payment will be made to reduce or eliminate any fractional share interest. The result of this rounding-up process would increase slightly the holdings of those shareholders who currently hold a number of pre-split shares that would otherwise result in a fractional share after consummating the reverse stock split.

Federal Income Tax Consequences

The following description of federal income tax consequences of the reverse stock split is based on the Internal Revenue Code of 1986, as amended, the applicable Treasury Regulations promulgated there under, judicial authority, and current administrative rulings and practices as in effect on the date of this information statement. The discussion is for general information only and does not cover any consequences that apply for special classes of taxpayers (e.g., non-resident aliens, broker-dealers or insurance companies). We urge all shareholders to consult their own tax advisers to determine the particular consequences to each of them of the reverse stock split.

We have not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service regarding the federal income tax consequences of the reverse stock split. We believe, however, that because the reverse stock split is not part of a plan to periodically increase or decrease any shareholder's proportionate interest in the assets or earnings and profits of the company, the reverse stock split will have the federal income tax effects described below:

The exchange of pre-split shares for post-split shares should not result in recognition of gain or loss for federal income tax purposes. In the aggregate, a shareholder's basis in the post-split shares should equal that shareholder's basis in the pre-split shares. A shareholder's holding period for the post-split shares should be the same as the holding period for the pre-split shares exchanged therefor. Provided that a shareholder held the pre-split shares as a capital asset, the post-split shares received in exchange therefor should also be held as a capital asset.

As shareholders are not receiving cash in lieu of any fractional share interest, but instead fractional shares are being rounded up to the next whole share, it is unlikely that shareholders would be treated as if the company had redeemed any fractional share interest. It is therefore unlikely that rounding up fractional shares will result in any gain or loss recognition by shareholders.

The company should not recognize gain or loss as a result of the reverse stock split.

Potential Anti-Takeover Effect

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our Board of Directors or contemplating a tender offer or other transaction for the combination of the company with another company), we are not proposing the reverse stock split in response to any effort of which we are aware to accumulate any of our shares or obtain control of the company. Our Board of Directors does not currently contemplate recommending the adoption of any other proposals that could be construed to affect the ability of anyone to take over or change the control of the company.

Vote Required for Approval of Reverse Stock Split

The reverse stock split required the approval of a majority of the total number of shares of common stock and Preferred Stock, voting together as a class with the Preferred Stock voting on an as converted basis.

ITEM 4 - ELECTION OF DIRECTORS

The Board of Directors currently consists of four members serving one year terms, who are Mary Grace, Charles Black, Elliot Cole and Thomas Volpe. The Board agrees with management and the vote of majority shareholders of the company that Mary Grace and Elliot Cole, be nominated and elected to continue to serve as directors, and that Alan D. Liker, Esq, be nominated and elected as an outside director and one additional outside director, who is to be named by IVI, as a term of an investment agreement being negotiated, as to which we make no assurance as to the outcome or conclusion of the agreement, to serve as directors until the annual meeting of shareholders in 2009: currently planned to be held in October, 2009, and to the shareholder vote nominating Charles R. Black with Thomas J. Volpe, as Chairman, to the Advisory Board of the Company.

Vote Required for Election of Directors

The election of the nominated slate of directors required the affirmative vote of a majority of the total number of shares of common stock and Preferred Stock, voting together as a class with the Preferred Stock voting on an as converted basis. On June 21, 2009, all outstanding shares of Preferred Stock, representing approximately 61% of the total number of shares outstanding, voted in favor of each of the nominees by written consent. As a result, each of the nominees was elected and no further vote of shareholders is required.

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT**Directors and Executive Officers**

The following table sets forth: (1) names and ages of persons who were appointed directors through the end of June 2009 and the persons who have been selected as our directors for the term until the Shareholder's Meeting in 2009; (2) all positions and offices with us held by each such person; (3) the term or office of each person named as a director; and (4) any period during which he or she has served as such:

Name	Duration and Date of Expiration of Present Term	Position and Office	
		with our Company	Age and Director Since
Mary A. Grace	One year 06/30/09	President, Chief Executive Officer, Chief Financial Officer and Director	59 - March 2001
Charles R. Black	One year 06/30/09	Director	55 - July 2006
Thomas J. Volpe	One year 06/30/09	Director	73 - April 2005
Elliot H. Cole	One year 06/30/09	Director	74 - April 2005

Nominee Directors to serve until Shareholder s Meeting -Planned to be held in October, 2009

Name	Duration and Date of Expiration of Present Term	Position and Office	
		with our Company	Age and Director Since
Mary A. Grace	Thru 10/31/09	President, Chief Executive Officer, Chief Financial Officer and Director	59 - March 2001
Elliot H. Cole	Thru 10/31/09	Director	74 - April 2005
Alan D. Liker, Esq.	Thru 10/31/09	Director	65

Outside Director

Director to be named by IVI

There is no understanding or arrangement between any directors or any other person or persons pursuant to which such individual, was or is to be, selected as one of our directors or as a nominee.

Employment Agreements

During the period covered by this Report, the Company entered into employment agreements with the following officers: None.

Business Experience

The following is a brief account of the experience of each of our current directors appointed for the new term and executive officers:

Mary A. Grace has been one of our directors since March 2001, and has also served as our President, Chief Executive Officer and Chief Financial Officer since that date. Between April 2001 and October 2000, Ms. Grace has served in the same capacities for IVI -Smart Technologies, Inc., a privately owned Delaware corporation and our parent. Between December 1997 and the current date,

Ms. Grace served as Chairman, President and Chief Executive Officer of Intermarket Ventures, Inc., a publicly owned Utah corporation and parent of IVI-Smart Technologies, Inc. In 1966 Ms. Grace was founder and served as a director of China Hi Tech American Telecommunications Ltd., a corporation engaged in international telecommunications. Between 1995 and 1996, Ms. Grace was one of the founders and an executive officer of Asia American Tele-Communications Corporation, a corporation engaged in telephony infrastructure development in Sichuan Province of the Peoples Republic of China. This company was sold to Metromedia Asia Corporation, a subsidiary of Metromedia International Group, Inc. Between 1993 and 1995, Ms. Grace was a founding partner and director of Asian Infrastructure Development Co., Ltd. and Solution Technologies, Ltd., corporations that became engaged in infrastructure development in the Peoples Republic of China.

Tamio Saito. Mr. Saito served as a director and currently serves as the Company's Chief Technical Officer and Executive Vice President. Mr. Saito is also the Chief Technical Officer of e-Smart[®]parent, IVI Smart Technologies, Inc. which has been renamed e-Smart[®] International, Inc and serves as Executive Vice President of Intermarket Ventures, Inc. Mr. Saito had served at Toshiba in various positions, including Marketing Manager in the Semiconductor Division, Group Leader and Senior Research Scientist in the R&D Center, as well as Manager of Technology for the Computer Division. At Toshiba, Mr. Saito was involved on the development of more than 400 inventions and in addition on 50 US patents. Mr. Saito has a degree in Physics from Tohoku University in Japan.

Charles R. Black serves as a Director of the Company. Mr. Black is best known as one of America's leading Republican political strategists and has served as senior advisor to Presidents Reagan and Bush. He also served as a principal public spokesman for President Bush in the 1992 presidential campaign. During 1990, Mr. Black served on President George W. Bush's campaign as a volunteer political advisor and surrogate spokesman and currently serves as Senior Advisor for Senator John McCain's Presidential campaign. An attorney with more than twenty-five years of experience in government, public affairs and politics, Mr. Black has managed the successful elections of more than ten members of the U.S. Senate and more than a dozen members of Congress. Mr. Black serves as the principal legislative and public affairs advisor to several Fortune 500 companies and trade associations. He served as Co-Chairman of the Civitas Group, LLC., a unique multi-disciplinary security consulting firm. The leadership team at

Civitas is an impressive gathering of top security experts, including Robert H. Swindell, who spent nearly two decades with Lehman Brothers as head of its U.S. Technology Banking; David Howe, a former Special Assistant to President George W. Bush and the Senior Director for Emergency Preparedness and Response at the Homeland Security Council at the White House; Penrose Parney Albright, former Secretary of Homeland Security for Science and Technology; Richard A. Falkenrath is the former Deputy Assistant to the President and Deputy Homeland Security Advisor and also served as Special Assistant to the President and Senior Director for Policy and Plans within the Office of Homeland Security and Warren Rudman, former U.S. Senator from New Hampshire who served as Chairman of the President's Foreign Intelligence Advisory Board under President Clinton and was Co-Chair of the U.S. Commission on National Security. The Civitas Group serves as a Consultant to the Company.

Elliot H. Cole serves as a Director of the Company. Mr. Cole was elected to our Board of Directors on April 7, 2005, having previously served as a member of our Advisory Board. Mr. Cole is senior counsel with the firm of Patton Boggs, LLP (Washington, DC) and has practiced corporate law in the nation's capitol for more than 40 years, more than 30 of those years as a partner at Patton Boggs. Patton Boggs, through nearly four decades of practice, has established a reputation for cutting-edge advocacy by working closely with the US Congress and regulatory agencies in Washington. Patton Boggs, for example, has participated in the formation of every major multilateral trade agreement considered by Congress. The firm is a leader in merging public policy expertise getting results in both Washington and throughout the world. The firm is led by partners with extensive backgrounds in government service and with strong ties to both major political parties in order to be effective on Capitol Hill. In addition, Mr. Cole's expertise includes the representation of early-stage companies. As a counselor of start-ups through mezzanine and later-stage financing, he assists with bringing along to maturity companies in a wide range of businesses. His broad-based contacts with financiers and investors have provided capital and management assistance to a number of firm's clients over the years. Mr. Cole serves on the boards of numerous business, community and social organizations, and has been a trustee of his alma mater, Boston University, for more than 20 years.

Thomas J. Volpe serves as a Director of the Company. Mr. Volpe was elected to the Board of Directors on April 7, 2005 having previously served and continues as the Company's Advisory Board Chairman. Mr. Volpe until recently was Senior Vice President, Financial Operations, of The Interpublic Group of Companies, Inc., Vice President and Treasurer of Colgate-Palmolive Company and a Principal of Deloitte, Haskins & Sells. At Interpublic, Mr. Volpe was responsible for the worldwide treasury management of this \$7 billion company, including financial analysis, budgeting, approval of all investments, and the financing of mergers and acquisitions worldwide. He performed corporate controller functions, and conducted comprehensive strategic analyses and plans for the successful integration of acquired companies into the parent company. Mr. Volpe was in charge of Interpublic's global enterprise Y2K security risk analysis, as well as the implementation and coordination of the Y2K security protection needed throughout the company's operations in 160 countries. During his tenure at Colgate, Mr. Volpe maintained domestic and international banking relationships, negotiated unique global credit and financing arrangements, supervised an investment portfolio of \$500 million, restructured \$750 million of pension assets, and designed an international risk program constituting captive insurance operations including safety, security and loss prevention.

Each of the Company's directors has indicated to us that he is not presently a director in any other company with a class of securities registered pursuant to Section 12 of the Exchange Act or subject to the requirements of Section 15(d) of such act or any investment company registered under the Investment Company Act of 1940.

Advisory Board

The Company has formed an Advisory Board to aid, assist and advise its Board of Directors. The Chairman of the Advisory Board is Thomas J. Volpe. Charles R. Black has agreed to join the Advisory Board upon his retirement as Director at the end of June 2009. The committee is currently made up of four members including Mr. Volpe. No member of the Advisory Board is presently receiving any monetary compensation from the Company. However, and as indicated herein under Executive Compensation, we The Company has granted stock and options to members of the Advisory Board. The following is a brief summary of the experience of the members of the Advisory Board.

Advisory Board Members

Thomas J. Volpe, Chairman (Bio Above)

Eugene P. Beard is a member of our Advisory Board and recently retired as Vice Chairman, Finance and Operations of The Interpublic Group of Companies, Inc., a worldwide advertising and marketing communications group with 400 offices in 120 countries, with more than 50,000 employees and revenues of more than \$6 billion. Mr. Beard is a former Interpublic Group board member, and Chairman of its Finance Committee. Mr. Beard also serves on the boards of directors of Brown Brothers Harriman; Bessemer Trust Company; Mattel & Company and the Mattel Foundation; as well as MARC USA. As a member of the Advisory Council for Ethics and the Professions at Harvard's John F. Kennedy School of Government, Mr. Beard established the Beard Graduate and Faculty Fellowship programs for Ethics in the Professions. He also founded the Beard Center for Leadership and Ethics in Business at Pittsburgh's Duquesne University. Mr. Beard has been featured as an expert commentator and profiled in a number of media outlets, including Global Finance's CFO Superstars, Investor Relations, Treasury Magazine, Forbes, Corporate Finance, Institutional Investor and Business Week. He has also appeared on CNBC News and PBS's Nightly Business Report.

Charles R. Black (Bio above)

John J. DeLucca is a Member of our Advisory Board and is currently Executive Vice President and CFO of the REL Consultancy Group, a private international consulting company. Previously, he served as Executive Vice President, Finance and Administration, and CFO of Coty Inc., where he was responsible for all global finance and administration operations, including accounting, strategic planning, corporate development, all treasury, audit and control functions, legal information technology systems, tax and administration. Prior to that he served as RJR Nabisco, Inc.'s Senior Vice President and Treasurer where he was responsible for all corporate finance and treasury activities, including capital markets, banking, derivatives/swaps, foreign exchange, risk management, pension fund management and cash management. He served as Managing Director and CFO of Hascoe & Associates, President and CFO of the Lexington Group and Sr. VP, Finance and Managing Director of The Trump Group. Mr. DeLucca is a member of the boards of directors and serves as Chairman of the Audit Committees of the Elliott Company, Horizon Natural Resources and ITC

Deltacom. He is also currently on the board of directors of Enzo Biochem, Inc., and formerly a member of the boards of directors and Chairman of the Audit Committee of Edison Controls Corporation. Former directorships include Kash n Karry (sold to Food Lion); Nature's Food Centers (sold to General Nutrition Centers); Emperor Clock Company; and RKO Century Warner Theaters (sold to Cinema Odeon). Mr. DeLuca is active as a guest speaker/lecturer for many financial institutions, including Merrill Lynch, Bank of America, Deutsche Bank, Sumitomo Bank, Ltd., Banque Paribas, Canadian Imperial Bank of Commerce, Pace University, Standard & Poor's and NYU Stern School of Business.

Gary S. Messina served as director of the Company through June 2007 after which he has served as a member of the Advisory Board. Currently, Mr. Messina is Director of Global Strategies for Raytheon Corporation. He is responsible for developing new strategies for homeland security and defense as well as expanding existing markets in those areas for the corporation worldwide. Prior to joining Raytheon, he was a Corporate Director for L-3 Communications Headquarters Operations and was responsible for homeland security and defense operations domestically and internationally. Before joining L-3, Gary was the Strategic Development Executive for Titan Corporation prior to its being acquired by L-3 Communications in September 2005. His position, at the vice-president level, was created to develop holistic business concepts and long-term strategies for Titan both nationally and internationally. He participated in mergers, acquisitions and senior management matters. Gary was responsible for systems and approaches supporting the Department of Homeland Security and other large-scale government agencies and programs.

Previous to entering the private sector, he was the first Chief Information Officer for the Bureau of Citizenship and Immigration Services and a plank-holder within the newly formed Department of Homeland Security from where he retired in June 2004. During his tenure in the Federal Government he was a key player in the integration of the former Immigration and Naturalization Service operations into the DHS environment. Mr. Messina has served under five U.S. Presidents, and six INS Commissioners. He was instrumental in leading change during his 27-year career with the Immigration and Naturalization Service. His expertise within the Agency spanned numerous programs, organizational changes, and administrations. He demonstrated a unique combination of management and policy experience in immigration affairs, counter-terrorism, information technology and organizational analysis. In his tenure with the legacy INS, and prior to his retirement, he served as Acting, Executive Associate Commissioner, Deputy Associate

Commissioner, Assistant Commissioner, and Director of Research & Development, where he developed innovative technologies for counter-terrorism and counter intrusion programs within the agency.

Prior to joining INS, Gary served in the private sector as vice-president for international affairs for Tech-Mod Corporation. He has written or contributed to numerous articles, testified on policy matters before Congressional committee hearings and addressed professional meetings and academic forums on a wide variety of immigration and technical issues. His career in Washington D.C., began in 1969 as a staff assistant on Capitol Hill where, during those years, he worked for three U.S. Senators. In 1972, he joined Tech-Mod Corporation (a subsidiary of LTV Aerospace, at that time) as director of their Small Business Investment Corporation. In 1979, he began his career within the U.S. Department of Justice. He was educated at the University of Maryland and at the Rutgers Graduate School of Business. He holds several advanced Federal Aviation Administration licenses, jet type-ratings and certificates. As well he is a member of MENSA, the Explorers Club, and a Fellow at the Washington Academy of Sciences.

Family Relationships

No family relationship exists between any of our directors or executive offices.

Involvement in Certain Legal Proceedings

Except as indicated herein, no event has occurred with respect to any of our present executive officers or directors or any nominee for director during the past five years which is material to an evaluation of the ability or integrity of such director or officer.

Except as set forth below and herein, we are not a party to any pending legal proceedings or aware of any pending legal proceedings against us that, individually or in the aggregate, would have a material adverse affect on our business, results of operations or financial condition. However, we do encounter frequent claims, threats, demands and litigation from third parties not included herein which management does not believe materially affect our current business operations. Some of the proceedings indicated herein are events which have occurred subsequent to the date of this report but are considered material and as such have been included with this report.

SEC Investigation.

We have received an Order Directing Private Investigation and Designating Officers to Take Testimony from the Securities and Exchange Commission (the Commission), dated September 10, 2007. Our directors and officers and certain other employees and former employees and attorneys have also received subpoenas from the Commission. We cannot predict the outcome of the investigation. If the Commission brings an enforcement and/or administrative action against us, it could result in, among other items, a civil injunctive order or an administrative cease-and-desist order being entered against us, in addition to the imposition of a significant civil, or potentially criminal, penalties. Moreover, the Commission investigation and/or any subsequent action could affect adversely our ability to have our common stock listed on a stock exchange and/or quoted over the counter, our ability to sell our securities and/or have our securities registered with the Commission and/or in various states, any or all of which could jeopardize our financial viability. The Company has cooperated with the Commission and has produced documents in response to various subpoenas. As of the date of filing, the investigation continues and is likely to continue to result in additional significant legal costs and expenses as well as other resources, including the management time and attention. This investigation and any subsequent action could provide a basis for additional lawsuits which may result in substantial legal costs and expenses to us, which, in turn, could adversely impact results of operations.

e-Smart Technologies, Inc., et al. v. ID Smart, et al. and related matters.

On or about September 11, 2006, the Company and IVI filed a civil action in the United States District Court for the Northern District of California against certain former consultants and a former Company executive for misappropriation of trade secrets and related claims. A similar action was filed on or about June 13, 2007 in Hawaii state court, with some additional claims and additional defendants and the Hawaii matter is currently inactive. The defendants have filed counter-claims which the Company believes are without merit. On or about January 5, 2009 Company was granted its motion for partial summary judgment on the Company's claims in the Northern District of California action. Various delays have ensued primarily due to the Defendants' need to obtain new counsel. A status conference with the court was held on June 22, 2009. Although the Company believes its claims are meritorious, as with any litigation, no assurances can be given as to the outcome.

ID Smart, et al. adv. IVI Smart Technologies, Inc., et al.

On or about October 4, 2007, certain of the Defendants in the Northern District of California action filed a separate lawsuit in the United States District Court for the Southern District of California, challenging the validity of Patent #7,278,025 B2, issued to IVI and licensed to the Company for Asia, China and the United States. On September 2, 2008, the District Court dismissed the case without prejudice due to a lack of case or controversy. No appeal was taken.

Occupational Safety and Health Administration Claim.

On or about January 23, 2008 a claim was filed by Richard Barrett, a former employee, with the Occupational Safety and Health Administration (OSHA) in San Francisco, California against the Company. The Company believes that such a claim is without merit and intends to vigorously defend the subject claim.

Legal Malpractice Lawsuit Settlement.

On June 10, 2008, the Company and related parties filed a Complaint against Thelen Reid Brown Raysman & Steiner LLP, and certain attorneys associated with such law firm (collectively Thelen) in the Supreme Court of New York, New York County. In March 2009 the parties agreed to a confidential settlement of the case. The Parties, jointly and severally, acknowledged and agreed that the settlement terms, including but not limited to the amount of the settlement, the Settlement Agreements, and any and all negotiations and records related thereto remain confidential.

Shareholders Derivative Action.

On or about October 27, 2008, a Shareholder Derivative suit was filed by Douglas Borwick in the United States District Court for the Southern District of New York. On March 16, 2009, the Judge Ordered the case dismissed without prejudice.

Involuntary Bankruptcy Petitions.

On October 30, 2008, certain individuals claiming to be creditors of the Company filed a petition for Involuntary Bankruptcy in the U.S. Bankruptcy Court, Southern District of New York (Bankruptcy Court) requesting relief from the Bankruptcy Court under Chapter 7 of the U.S. Bankruptcy Code as against the Company, IVI Smart Technologies, Inc. and Intermarket Ventures, Inc. (collectively the Petitions).

On April 29, 2009, a hearing was held before the Honorable Robert D. Drain in the Bankruptcy Court and the Court ordered that the Petitions, and each of them, be withdrawn with prejudice.

Taxes

Federal and California taxes are past due. The Company is in touch with two IRS agents, one for e-Smart and one for IVI. Both agents are collection agents assigned to collect the balance due for payroll taxes based on the quarterly tax returns which are being filed timely. The Company has and is continuing to make payments to them. The payments for e-Smart are greater than the increase in liability being incurred on a monthly basis. In the case of IVI the quarterly liability is greater than the payments made so far. The IVI agent has set the date of June 12, 2009, for IVI to get current on ongoing payroll, and either pay off the outstanding balance or obtain an approved payout agreement. The California agent has consolidated both company cases and payments have been made.

The Company cannot predict the possible damage to the Company from any of the above ongoing or future cases.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act, as amended, requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities, to file with the SEC initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership, of common stock and other of our equity securities on Forms 3, 4, and 5, respectively. Executive officers, directors and greater than 10% shareholders are required by SEC regulations to furnish us with copies of all Section 16(a) reports they file. To the best of our knowledge, none of the executive officers or directors of the company have filed any documents under Section 16(a).

Code of Ethics

We have a Code of Ethics that applies to our principal executive officer, principal financial officer, principal technology officer, controller and/or persons performing similar functions.

Independent Directors

After a review of all relevant transactions and relationships of each director (and his family relationships), our board of directors has determined that Charles R. Black and Thomas J. Volpe would be considered independent directors.

EXECUTIVE COMPENSATION**Aggregate Compensation Covered**

During fiscal years 2005, 2006 and 2007, the aggregate compensation paid to, accrued or set aside for any of our executive officers or directors was \$250,000, \$2,106,000, and \$3,326,166, respectively.

- (1) Represents the grant, pursuant to approval of the board, of 8,950,000 common shares on October 31, 2007 and 20,000,000 common shares on December 4, 2007, at 100% of market value.
- (2) Represents the grant, pursuant to approval of the board, of 12,500,000 common shares on May 9, 2007, at 100% of market value,
- (3) Includes the grant on July 13, 2006, of 2,500,000 common shares to each of the outside directors at 100% of market value, which grants were ratified by the board during July 2007.
- (4) Includes the grant, pursuant to approval of the board, of 2,500,000 common shares to each of the outside directors on November 5, 2007, at 100% of market value.
- (5) Includes accrued and deferred salary of \$250,000 per year due to Mary A. Grace, the Company's President and CEO for 2005, 2006 and 2007. Does not include, Mary Grace's accrued and deferred annual salaries of \$250,000 as President and CEO of IVI Smart Technologies, Inc., for 2005, 2006, 2007

and earlier and \$250,000 as President and CEO of Intermarket Ventures, Inc. for 2005, 2006, 2007 and earlier the aggregate amount of which deferred salaries has accumulated to \$1,750,000 and \$2,500,000, respectively. During the periods of accrual and deferment of salary, the respective companies have agreed to pay all of Ms. Grace's expenses, including all lodgings, food, clothing dental, medical, and preventative and alternative medical, travel, entertainment, public relations and any and all other expenses, at any time and place where Ms. Grace is engaged in conducting company business. Any expenses deemed strictly personal and unrelated to business by the companies' auditors are deducted from the total deferred compensation owed Ms. Grace. This does not include loans from Ms. Grace to Intermarket of approximately \$2 million.

Option/SAR Grant Table

During the fiscal year ended December 31, 2007, the company's board or directors approved options for the company's officers, directors, advisory board members, inventors, engineers and consultants. Such options may not be formerly granted until the adoption the company's options plan, which is anticipated to be submitted for shareholder approval in 2008. All such options will be subject to the terms of such stock options plan.

Aggregate Option/SAR Exercises and Fiscal Year-End Option/SAR Value Table

During the fiscal year ended December 31, 2007, no stock options or freestanding SARs were exercised.

Long-Term Incentive Plans Awards in Last Two Fiscal Years

During the fiscal year ended December 31, 2007, the company's board or directors approved options for the company's officers, directors, advisory board members, inventors, engineers and consultants. Such options may not be formerly granted until the adoption the company's options plan in 2008. All such options will be subject to the terms of such stock options plan.

Warrants

During the fiscal year ended December 31, 2007, no warrants to purchase shares of our common stock were issued or exercised.

Compensation of Directors and Advisors

During the fiscal year ended December 31, 2007, each of the Company's four outside directors and two members of its advisory board received 2,500,000 and 500,000 common shares, respectively, for their services. The aggregate market value of the foregoing shares, based upon their date of issue, was \$330,000. The share issuances were approved by the board in July 2007. The Company has agreed to implement a share compensation plan during 2008, which share compensation plan will be subject to shareholder approval.

Employment Contracts and Termination of Employment, and Change in Control Arrangements

The Company's President & CEO Mary A. Grace, and Tamio Saito as our executive officers are employed pursuant to the terms of employment agreements and Richard Kim and our e-Smart Korea Employees previously entered into Employment Agreements with the Company. Management of the Company's business and operations has been outsourced to the management executives and officers of e-Smart Korea headed by Managing Director Richard Kim.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Pursuant to the Plan of Recapitalization, IVI received 17,500,000 shares of the Series A Preferred in exchange for their forgiveness of amounts owed by the Company, the surrender of their common stock interest. Shares of the Series A Preferred are convertible into shares of common stock at a conversion ratio of 65.191890 shares of common stock for each share of Series A Preferred. Holders of Series A Preferred are entitled to vote their shares on an as converted basis with the outstanding common stock and as a result represented approximately 61% of the total number of shares outstanding on May 27, 2009. IVI is a principal shareholder of the Company. Intermarket Ventures, Inc. is the principal shareholder of IVI. Mary A. Grace, our President, CEO and CFO, is a director, CEO and a principal stockholder of IVI, and its shareholder Intermarket. Tamio Saito, our Senior VP and CTO, is also an executive officer and a principal stockholder of IVI and Intermarket. The company licenses all of its technology from IVI.

Mary Grace, the Company's President and CEO, accrues and defers her annual salary of \$250,000. Ms. Grace is also entitled to a salary of \$250,000 as President and CEO of IVI Smart Technologies, Inc. and \$250,000 as President and CEO of Intermarket Ventures, Inc., both of which have been accrued and deferred. The aggregate amount of such deferred compensation due by all three entities has accumulated to \$4,250,000 as a loan entitled to priority rights. During the period of accrual and deferment of salary by Ms. Grace, the Companies have agreed to pay all of Ms. Grace's expenses, including lodgings, food, clothing dental, medical, and preventative and alternative medical, travel, entertainment, public relations marketing, and any and all other expenses, at any time and place where Ms. Grace is conducting company business. Any expenses deemed to be strictly personal and unrelated to business by the companies' auditors are deducted from the total deferred compensation owed Ms. Grace by the respective companies.

- (1) These values include the application of the participation rate.
- (2) The annualized rates of return specified in the preceding table are calculated on a semiannual bond equivalent basis.
- (3) This rate of return is solely based on the price return of the Index, does not include any dividends paid and assumes:
 - (a) a percentage change in the aggregate price of the stocks that equals the percentage change in the level of the Index from the hypothetical Index starting level to the applicable hypothetical Index ending level;
 - (b) no transaction fees or expenses; and
 - (c) an investment term from February , 2004 to August , 2009.
- (4) This is the hypothetical Index starting level.

License Agreement

Standard & Poor's does not guarantee the accuracy and/or the completeness of the Index or any data included in the Index. S&P makes no warranty, express or implied, as to results to be obtained by the calculation agent, holders of the notes, or any other person or entity from the use of the Index or any data included in the Index in connection with the rights licensed under the license agreement described in this prospectus supplement or for any other use. S&P makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to the Index or any data included in the Index. Without limiting any of the above information, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages, including lost profits, even if notified of the possibility of these damages.

S&P and WBNA have entered into a non-exclusive license agreement providing for the license to WBNA, its subsidiaries and affiliates, in exchange for a fee, of the right to use indices owned and published by S&P in connection with some securities, including the notes.

The notes are not sponsored, endorsed, sold or promoted by S&P. S&P makes no representation or warranty, express or implied, to the holders of the notes or any member of the public regarding the advisability of investing in securities generally or in the notes particularly or the ability of the Index to track general stock market performance. S&P's only relationship to WBNA (other than transactions entered into in the ordinary course of business) is the licensing of certain servicemarks and trade names of S&P and of the Index which is determined, composed and calculated by S&P without regard to WBNA or the notes. S&P has no obligation to take the needs of WBNA or the holders of the notes into consideration in determining, composing or calculating the Index. S&P is not responsible for and has not participated in the determination of the timing of the sale of the notes, prices at which the notes are to initially be sold, or quantities of the notes to be issued or in the determination or calculation of the equation by which the notes are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the notes.

Standard & Poor[®]'s, S&P 500, Standard & Poor's 500 and 500 are trademarks of The McGraw-Hill Companies, Inc. and have been licensed by WBNA, its subsidiaries and affiliates. The notes are not sponsored, endorsed, sold or promoted by Standard & Poor's and Standard & Poor's makes no representation regarding the advisability of investing in the notes.

SUPPLEMENTAL TAX CONSIDERATIONS

The following is a general description of certain United States federal tax considerations relating to the notes. It does not purport to be a complete analysis of all tax considerations relating to the notes. Prospective purchasers of the notes should consult their tax advisers as to the consequences under the tax laws of the country of which they are resident for tax purposes and the tax laws of the United States of acquiring, holding and disposing of the notes and receiving payments of interest, principal and/or other amounts under the notes. This summary is based on the law as in effect on the date of this prospectus supplement and is subject to any change in law that may take effect after such date. This summary does not address all aspects of United States federal income taxation of the notes that may be relevant to you in light of your particular circumstances, nor does it address all of your tax consequences if you are a holder of notes who is subject to special treatment under the United States federal income tax laws.

Supplemental U.S. Tax Considerations

The discussion below supplements the discussion under United States Taxation in the accompanying prospectus and is subject to the limitations and exceptions set forth therein. Except as otherwise noted under

S-18

Table of Contents

United States Alien Holders below, this discussion is only applicable to you if you are a United States holder (as defined in the accompanying prospectus).

In the opinion of Sullivan & Cromwell LLP, the notes will be treated as debt instruments subject to special rules governing contingent payment obligations for United States federal income tax purposes. Under those rules, the amount of interest you are required to take into account for each accrual period will be determined by constructing a projected payment schedule for the notes, and applying the rules similar to those for accruing original issue discount on a hypothetical noncontingent debt instrument with that projected payment schedule. This method is applied by first determining the yield at which we would issue a noncontingent fixed rate debt instrument with terms and conditions similar to the notes (the comparable yield) and then determining a payment schedule as of the issue date that would produce the comparable yield. These rules will generally have the effect of requiring you to include amounts in respect of the notes prior to your receipt of cash attributable to that income.

You may obtain the comparable yield and projected payment schedule from us by contacting Structured Equity Products at 1-888-215-4145 or 1-212-909-0038.

You are required to use the comparable yield and projected payment schedule that may be obtained from us at the above telephone number in determining your interest accruals in respect of the notes, unless you timely disclose and justify on your federal income tax return the use of a different comparable yield and projected payment schedule.

The comparable yield and projected payment schedule are not provided to you for any purpose other than the determination of your interest accruals in respect of the notes, and we make no representations regarding the amount of contingent payments with respect to the notes.

If you purchase the notes for an amount that differs from the notes' adjusted issue price at the time of the purchase, you must determine the extent to which the difference between the price you paid for your notes and their adjusted issue price is attributable to a change in expectations as to the projected payment schedule, a change in interest rates, or both, and allocate the difference accordingly. Since the notes will be listed on the American Stock Exchange, you may (but are not required to) allocate the difference pro rata to interest accruals over the remaining term of the notes to the extent that the yield on the notes, determined after taking into account amounts allocated to interest, is not less than the U.S. federal short-term rate. This rate is determined monthly by the U.S. Secretary of Treasury and is intended to approximate the average yield on short-term U.S. government obligations. The adjusted issue price of the notes will equal the notes' original public offering price plus any interest deemed to be accrued on the notes (under the rules governing contingent payment obligations) as of the time you purchased the notes.

If you purchase the notes for an amount that is less than the adjusted issue price of the notes, you must (a) make positive adjustments increasing the amount of interest that you would otherwise accrue and include in income each year to the extent of amounts allocated to a change in interest rates under the preceding paragraph and (b) make positive adjustments increasing the amount of ordinary income (or decreasing the amount of ordinary loss) that you would otherwise recognize on the maturity of the notes to the extent of amounts allocated to a change in expectations as to the projected payment schedule under the preceding paragraph. If you purchase the notes for an amount that is greater than the adjusted issue price of the notes, you must (a) make negative adjustments decreasing the amount of interest that you would otherwise accrue and include in income each year to the extent of amounts allocated to a change in interest rates under the preceding paragraph and (b) make negative adjustments decreasing the amount of ordinary income (or increasing the amount of ordinary loss) that you would otherwise recognize on the maturity of the notes to the extent of amounts allocated to a change in expectations as to the projected payment schedule under the preceding paragraph. Adjustments allocated to the interest amount are not made until the date the daily portion of interest accrues.

Table of Contents

Because any Form 1099-OID that you receive will not reflect the effects of positive or negative adjustments resulting from your purchase of the notes at a price other than the adjusted issue price determined for tax purposes, you are urged to consult with your tax adviser as to whether and how adjustments should be made to the amounts reported on any Form 1099-OID.

You will recognize gain or loss on the sale or maturity of the notes in an amount equal to the difference, if any, between the amount of cash you receive at such time and your adjusted basis in the notes. In general, your adjusted basis in the notes will equal the amount you paid for the notes, increased by the amount of interest you previously accrued with respect to the notes (in accordance with the comparable yield for the notes) and increased or decreased by the amount of any positive or negative adjustment that you are required to make with respect to your notes under the rules set forth above.

Any gain you recognize on the sale or maturity of the notes will be ordinary interest income. Any loss you recognize at such time will be ordinary loss to the extent of interest you included as income in the current or previous taxable years in respect of the notes, and thereafter, capital loss.

United States Alien Holders. If you are a United States alien holder, you will not be subject to United States withholding tax with respect to payments on your notes but you will be subject to generally applicable information reporting and backup withholding requirements with respect to payments on your notes unless you comply with certain certification and identification requirements as to your foreign status.

EMPLOYEE RETIREMENT INCOME SECURITY ACT

A fiduciary of a pension, profit-sharing or other employee benefit plan (a *plan*) subject to the Employee Retirement Income Security Act of 1974, as amended (*ERISA*), should consider the fiduciary standards of ERISA in the context of the plan's particular circumstances before authorizing an investment in the notes. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code (the *Code*).

Section 406 of ERISA and Section 4975 of the Code prohibit plans, as well as individual retirement accounts and Keogh plans subject to Section 4975 of the Internal Revenue Code (also *plans*), from engaging in certain transactions involving *plan assets* with persons who are *parties in interest* under ERISA or *disqualified persons* under the Code (*parties in interest*) with respect to the plan or account. A violation of these prohibited transaction rules may result in civil penalties or other liabilities under ERISA and/or an excise tax under Section 4975 of the Code for those persons, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Certain employee benefit plans and arrangements including those that are governmental plans (as defined in section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and foreign plans (as described in Section 4(b)(4) of ERISA) (*non-ERISA arrangements*) are not subject to the requirements of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, foreign or other regulations, rules or laws (*similar laws*).

The acquisition of the notes by a plan with respect to which Wachovia, Wachovia Securities or certain of our affiliates is or becomes a party in interest may constitute or result in a prohibited transaction under ERISA or Section 4975 of the Code, unless those notes are acquired pursuant to and in accordance with an applicable exemption. The U.S. Department of Labor has issued five prohibited transaction class exemptions, or *PTCEs*, that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase or holding of the notes. These exemptions are:

PTCE 84-14, an exemption for certain transactions determined or effected by independent qualified professional asset managers;

S-20

Table of Contents

PTCE 90-1, an exemption for certain transactions involving insurance company pooled separate accounts;

PTCE 91-38, an exemption for certain transactions involving bank collective investment funds;

PTCE 95-60, an exemption for transactions involving certain insurance company general accounts; and

PTCE 96-23, an exemption for plan asset transactions managed by in-house asset managers.

The notes may not be purchased or held by (1) any plan, (2) any entity whose underlying assets include plan assets by reason of any plan's investment in the entity (a plan asset entity) or (3) any person investing plan assets of any plan, unless in each case the purchaser or holder is eligible for the exemptive relief available under one or more of the PTCEs listed above or another applicable similar exemption. Any purchaser or holder of the notes or any interest in the notes will be deemed to have represented by its purchase and holding of the notes that it either (1) is not a plan or a plan asset entity and is not purchasing those notes on behalf of or with plan assets of any plan or plan asset entity or (2) with respect to the purchase or holding, is eligible for the exemptive relief available under any of the PTCEs listed above or another applicable exemption. In addition, any purchaser or holder of the notes or any interest in the notes which is a non-ERISA arrangement will be deemed to have represented by its purchase and holding of the notes that its purchase and holding will not violate the provisions of any similar law.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing the notes on behalf of or with plan assets of any plan, plan asset entity or non-ERISA arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above or any other applicable exemption, or the potential consequences of any purchase or holding under similar laws, as applicable.

If you are an insurance company or the fiduciary of a pension plan or an employee benefit plan, and propose to invest in the notes, you should consult your legal counsel.

USE OF PROCEEDS AND HEDGING

The net proceeds from the sale of the notes will be used as described under Use of Proceeds in the accompanying prospectus and to hedge market risks of Wachovia associated with its obligation to pay the maturity payment amount of the notes.

The hedging activity discussed above may adversely affect the market value of the notes from time to time and the maturity payment amount you will receive on the notes at maturity. See Risk Factors Purchases and sales by us or our affiliates may affect your return and Potential conflicts of interest could arise for a discussion of these adverse effects.

SUPPLEMENTAL PLAN OF DISTRIBUTION

Wachovia Securities, an agent under the distribution agreement, has agreed, subject to the terms and conditions of the distribution agreement and a terms agreement, to purchase from Wachovia as principal \$• aggregate principal amount of notes. On June 1, 2003, Wachovia Securities, Inc.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

became Wachovia Securities, LLC. In addition, on July 1, 2003, pursuant to the terms of the Retail Brokerage Combination Transaction Agreement between Wachovia and Prudential Financial Incorporated, a new entity called Wachovia/Prudential Financial Advisors, LLC was created. Wachovia owns 62% of Wachovia/Prudential Financial Advisors, LLC and Prudential Financial Incorporated owns 38%. As a result of the transaction, Wachovia/

S-21

Table of Contents

Prudential Financial Advisors, LLC owns 100% of Wachovia Securities and Prudential Securities, Inc., the broker-dealer subsidiary of Prudential Financial Incorporated, contributed its retail securities brokerage business into Wachovia Securities.

The distribution agreement provides that the obligations of Wachovia Securities are subject to certain conditions and that Wachovia Securities is obligated to purchase these notes. Wachovia Securities has advised Wachovia that it proposes initially to offer all or part of these notes directly to the public at the offering price set forth on the cover page of this prospectus supplement and that it may offer a part of the notes to certain dealers at a price that represents a concession not in excess of 5% of the original public offering price of the notes. After the initial public offering, the public offering price and concession may be changed. Wachovia Securities is offering the notes subject to receipt and acceptance and subject to its right to reject any order in whole or in part.

Proceeds to be received by Wachovia in this offering will be net of the underwriting discount, commission and expenses payable by Wachovia.

Wachovia Securities may use this prospectus supplement and the accompanying prospectus for offers and sales related to market-making transactions in the notes. Wachovia Securities may act as principal or agent in these transactions, and the sales will be made at prices related to prevailing market prices at the time of sale.

The participation of Wachovia Securities in the offer and sale of the notes must comply with the requirements of Rule 2720 of the National Association of Securities Dealers, Inc. regarding underwriting securities of an affiliate. Wachovia Securities will not execute a transaction in the notes in a discretionary account without the prior specific written approval of such member's customer.

No action has been or will be taken by Wachovia or Wachovia Securities that would permit a public offering of the notes or possession or distribution of this prospectus supplement or the accompanying prospectus in any jurisdiction, other than the United States, where action for that purpose is required. No offers, sales or deliveries of the notes, or distribution of this prospectus supplement or the accompanying prospectus, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on Wachovia or Wachovia Securities. In respect of specific jurisdictions, please note the following:

The notes will not be offered or sold to any persons who are Residents of the Bahamas within the meaning of the Exchange Control Regulations of 1956 issued by the Central Bank of the Bahamas.

The notes may not be offered or sold to the public in Brazil. Accordingly, the notes have not been submitted to the Comissao de Valores Mobiliarios for approval. Documents relating to this offering may not be supplied to the public as a public offering in Brazil or be used in connection with any offer for subscription or sale to the public in Brazil.

Neither the notes nor Wachovia Corporation are registered in the Securities Registry of the Superintendency of Securities and Insurance in Chile.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

The notes have not been registered with the National Registry of Securities maintained by the Mexican National Banking and Securities Commission and may not be offered or sold publicly in Mexico. This prospectus supplement and the accompanying prospectus may not be publicly distributed in Mexico.

ABOUT THIS PROSPECTUS

General

This document is called a prospectus and is part of a registration statement that we filed with the SEC using a shelf registration or continuous offering process. Under this shelf registration, we may from time to time sell any combination of the securities described in this prospectus in one or more offerings up to a total dollar amount of \$4,000,000,000.

This prospectus provides you with a general description of the securities we may offer. Each time we sell securities we will provide a pricing supplement containing specific information about the terms of the securities being offered. That pricing supplement may include a discussion of any risk factors or other special considerations that apply to those securities. The pricing supplement may also add, update or change the information in this prospectus. If there is any inconsistency between the information in this prospectus and any pricing supplement, you should rely on the information in that pricing supplement. You should read both this prospectus and any pricing supplement together with additional information described under the heading **Where You Can Find More Information**.

The registration statement containing this prospectus, including exhibits to the registration statement, provides additional information about us and the securities offered under this prospectus. The registration statement can be read at the SEC web site or at the SEC offices mentioned under the heading **Where You Can Find More Information**.

When acquiring any securities discussed in this prospectus, you should rely only on the information provided in this prospectus and in any pricing supplement, including the information incorporated by reference. Neither we nor any underwriters or agents have authorized anyone to provide you with different information. We are not offering the securities in any state where the offer is prohibited. You should not assume that the information in this prospectus, any pricing supplement or any document incorporated by reference is truthful or complete at any date other than the date mentioned on the cover page of these documents.

We may sell securities to underwriters who will sell the securities to the public on terms fixed at the time of sale. In addition, the securities may be sold by us directly or through dealers or agents designated from time to time, which agents may be our affiliates. If we, directly or through agents, solicit offers to purchase the securities, we reserve the sole right to accept and, together with our agents, to reject, in whole or in part, any of those offers.

The pricing supplement will contain the names of the underwriters, dealers or agents, if any, together with the terms of offering, the compensation of those underwriters and the net proceeds to us. Any underwriters, dealers or agents participating in the offering may be deemed underwriters within the meaning of the Securities Act of 1933 (the **Securities Act**).

One or more of our subsidiaries, including First Union Securities, Inc., may buy and sell any of the securities after the securities are issued as part of their business as a broker-dealer. Those subsidiaries may use this prospectus and the related pricing supplement in those transactions. Any sale by a subsidiary will be made at the prevailing market price at the time of sale. Unless otherwise mentioned or unless the context requires otherwise, any reference in this prospectus to **Wachovia Securities** means First Union Securities, Inc. and does not mean Wachovia Securities, Inc., a broker-dealer subsidiary of Wachovia which is not participating in this offering.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus to Wachovia , we , us , our or similar references mean Wachovia Corporation and its subsidiaries.

Table of Contents

Selling Restrictions Outside the United States

Offers and sales of the notes are subject to restrictions in the United Kingdom. The distribution of this prospectus and the offering of the notes in certain other jurisdictions may also be restricted by law. This prospectus does not constitute an offer of, or an invitation on Wachovia's behalf or on behalf of the agents or any of them to subscribe to or purchase, any of the notes. This prospectus may not be used for or in connection with an offer or solicitation by anyone in any jurisdiction in which such an offer or solicitation is not authorized or to any person to whom it is unlawful to make such an offer or solicitation. Please refer to the section entitled "Plan of Distribution".

As long as the notes are listed on the Luxembourg Stock Exchange, a supplemental prospectus will be prepared and filed with the Luxembourg Stock Exchange in the event of a material change in the financial condition of Wachovia that is not reflected in this prospectus, for the use in connection with any subsequent issue of debt securities to be listed on the Luxembourg Stock Exchange. As long as the notes are listed on the Luxembourg Stock Exchange, if the terms and conditions of the notes are modified or amended in a manner which would make this prospectus materially inaccurate or misleading, a new prospectus or supplemental prospectus will be prepared.

Wachovia accepts responsibility for the information contained in this prospectus. The Luxembourg Stock Exchange takes no responsibility for the contents of this document, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss no matter how arising from or in reliance upon the whole or any part of the contents of this prospectus.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy any document we file at the SEC's public reference room in Washington, D.C. Please call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. In addition, our SEC filings are available to the public at the SEC's web site at <http://www.sec.gov>. You can also inspect reports, proxy statements and other information about us at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York.

The SEC allows us to incorporate by reference into this prospectus the information in documents we file with it. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be a part of this prospectus and should be read with the same care. When we update the information contained in documents that have been incorporated by reference by making future filings with the SEC the information incorporated by reference in this prospectus is considered to be automatically updated and superseded. In other words, in the case of a conflict or inconsistency between information contained in this prospectus and information incorporated by reference into this prospectus, you should rely on the information contained in the document that was filed later. We incorporate by reference the documents listed below and any documents we file with the SEC in the future under Section 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934 (the Exchange Act) until our offering is completed:

Annual Report on Form 10-K for the year ended December 31, 2001;

Quarterly Report on Form 10-Q for the quarter ended March 31, 2002; and

Current Reports on Form 8-K dated August 30, 2001, September 6, 2001, January 23, 2002 and April 18, 2002.

You may request a copy of these filings, other than an exhibit to a filing unless that exhibit is specifically incorporated by reference into that filing, at no cost, by writing to or telephoning us at the following address:

Corporate Relations

Wachovia Corporation

One Wachovia Center

301 South College Street

Charlotte, North Carolina 28288-0206

FORWARD-LOOKING STATEMENTS

This prospectus and applicable pricing supplements contain or incorporate statements that are forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These statements can be identified by the use of forward-looking language such as will likely result, may, are expected to, is anticipated, estimate, projected, intends to, or other similar words. Our actual performance or achievements could be significantly different from the results expressed in or implied by these forward-looking statements. These statements are subject to certain risks and uncertainties, including but not limited to certain risks described in the pricing supplement or the documents incorporated by reference. When considering these forward-looking statements, you should keep in mind these risks, uncertainties and other cautionary statements made in this prospectus and the pricing supplements. You should not place undue reliance on any forward-looking statement, which speaks only as of the date made. You should refer to our periodic and current reports filed with the SEC for specific risks which could cause actual results to be significantly different from those expressed or implied by these forward-looking statements.

WACHOVIA CORPORATION

Wachovia was incorporated under the laws of North Carolina in 1967. We are registered as a financial holding company and a bank holding company under the Bank Holding Company Act of 1956, as amended, and are supervised and regulated by the Board of Governors of the Federal Reserve System. Our banking and securities subsidiaries are supervised and regulated by various federal and state banking and securities regulatory authorities. On September 1, 2001, the former Wachovia Corporation merged with and into First Union Corporation, and First Union Corporation changed its name to Wachovia Corporation.

In addition to North Carolina, Wachovia's full-service banking subsidiaries operate in Connecticut, Delaware, Florida, Georgia, Maryland, New Jersey, New York, Pennsylvania, South Carolina, Virginia and Washington, D.C. These full-service banking subsidiaries provide a wide range of commercial and retail banking and trust services. Wachovia also provides various other financial services, including mortgage banking, home equity lending, leasing, investment banking, insurance and securities brokerage services through other subsidiaries.

In 1985, the Supreme Court upheld regional interstate banking legislation. Since then, Wachovia has concentrated its efforts on building a large regional banking organization in what it perceives to be some of the better banking markets in the eastern United States. Since November 1985, Wachovia has completed over 90 banking-related acquisitions.

Wachovia continually evaluates its business operations and organizational structures to ensure they are aligned closely with its goal of maximizing performance in its core business lines, Capital Management, Wealth Management, the General Bank and Corporate and Investment Banking. When consistent with our overall business strategy, we may consider the disposition of certain of our assets, branches, subsidiaries or lines of business. We continue to routinely explore acquisition opportunities, particularly in areas that would complement our core business lines, and frequently conduct due diligence activities in connection with possible acquisitions. As a result, acquisition discussions and, in some cases, negotiations frequently take place, and future acquisitions involving cash, debt or equity securities can be expected.

Wachovia is a separate and distinct legal entity from its banking and other subsidiaries. Dividends received from our subsidiaries are our principal source of funds to pay dividends on our common and preferred stock and debt service on our debt. Various federal and state statutes and regulations limit the amount of dividends that our banking and other subsidiaries may pay to us without regulatory approval.

Table of Contents

RISK FACTORS

Our Credit Ratings May Not Reflect All Risks of An Investment in the Notes

The credit ratings of our medium-term note program may not reflect the potential impact of all risks related to structure and other factors on any trading market for, or trading value of, your notes. In addition, real or anticipated changes in our credit ratings will generally effect any trading market for, or trading value of, your notes.

Risks Relating to Indexed Notes

We use the term *indexed notes* to mean notes whose value is linked to an underlying property or index. Indexed notes may present a high level of risk, and those who invest in indexed notes may lose their entire investment. In addition, the treatment of indexed notes for U.S. federal income tax purposes is often unclear due to the absence of any authority specifically addressing the issues presented by any particular indexed note. Thus, if you propose to invest in indexed notes, you should independently evaluate the federal income tax consequences of purchasing an indexed note that apply in your particular circumstances. You should also read *United States Taxation* for a discussion of U.S. tax matters.

Investors in Indexed Notes Could Lose Their Investment

The amount of principal and/or interest payable on an indexed note and the cash value or physical settlement value of a physically settled note will be determined by reference to the price, value or level of one or more securities, currencies, commodities or other properties, any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance, and/or one or more indices or baskets of any of these items. We refer to each of these as an *index*. The direction and magnitude of the change in the price, value or level of the relevant index will determine the amount of principal and/or interest payable on the indexed note, and the cash value or physical settlement value of a physically settled note. The terms of a particular indexed note may or may not include a guaranteed return of a percentage of the face amount at maturity or a minimum interest rate. Thus, if you purchase an indexed note, you may lose all or a portion of the principal or other amount you invest and may receive no interest on your investment.

The Issuer of a Security or Currency That Serves as an Index Could Take Actions That May Adversely Affect an Indexed Note

The issuer of a security that serves as an index or part of an index for an indexed note will have no involvement in the offer and sale of the indexed note and no obligations to the holder of the indexed note. The issuer may take actions, such as a merger or sale of assets, without regard to the interests of the holder. Any of these actions could adversely affect the value of a note indexed to that security or to an index of which that security is a component.

If the index for an indexed note includes a non-U.S. dollar currency or other asset denominated in a non-U.S. dollar currency, the government that issues that currency will also have no involvement in the offer and sale of the indexed note and no obligations to the holder of the indexed note. That government may take actions that could adversely affect the value of the note. See *Risks Relating to Notes Denominated or Payable*

in or Linked to a Non-U.S. Dollar Currency below for more information about these kinds of government actions.

An Indexed Note May Be Linked to a Volatile Index, Which Could Hurt Your Investment

Some indices are highly volatile, which means that their value may change significantly, up or down, over a short period of time. The amount of principal or interest that can be expected to become payable on an

Table of Contents

indexed note may vary substantially from time to time. Because the amounts payable with respect to an indexed note are generally calculated based on the value or level of the relevant index on a specified date or over a limited period of time, volatility in the index increases the risk that the return on the indexed note may be adversely affected by a fluctuation in the level of the relevant index.

The volatility of an index may be affected by political or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of an indexed note.

An Index to Which a Note Is Linked Could Be Changed or Become Unavailable

Some indices compiled by us or our affiliates or third parties may consist of or refer to several or many different securities, commodities or currencies or other instruments or measures. The compiler of such an index typically reserves the right to alter the composition of the index and the manner in which the value or level of the index is calculated. An alteration may result in a decrease in the value of or return on an indexed note that is linked to the index. The indices for our indexed notes may include published indices of this kind or customized indices developed by us or our affiliates in connection with particular issues of indexed notes.

A published index may become unavailable, or a customized index may become impossible to calculate in the normal manner, due to events such as war, natural disasters, cessation of publication of the index or a suspension or disruption of trading in one or more securities, commodities or currencies or other instruments or measures on which the index is based. If an index becomes unavailable or impossible to calculate in the normal manner, the terms of a particular indexed note may allow us to delay determining the amount payable as principal or interest on an indexed note, or we may use an alternative method to determine the value of the unavailable index. Alternative methods of valuation are generally intended to produce a value similar to the value resulting from reference to the relevant index. However, it is unlikely that any alternative method of valuation we use will produce a value identical to the value that the actual index would produce. If we use an alternative method of valuation for a note linked to an index of this kind, the value of the note, or the rate of return on it, may be lower than it otherwise would be.

Some indexed notes are linked to indices that are not commonly used or that have been developed only recently. The lack of a trading history may make it difficult to anticipate the volatility or other risks associated with an indexed note of this kind. In addition, trading in these indices or their underlying stocks, commodities or currencies or other instruments or measures, or options or futures contracts on these stocks, commodities or currencies or other instruments or measures, may be limited, which could increase their volatility and decrease the value of the related indexed notes or the rates of return on them.

We May Engage in Hedging Activities that Could Adversely Affect an Indexed Note

In order to hedge an exposure on a particular indexed note, we may, directly or through our affiliates, enter into transactions involving the securities, commodities or currencies or other instruments or measures that underlie the index for the note, or involving derivative instruments, such as swaps, options or futures, on the index or any of its component items. By engaging in transactions of this kind, we could adversely affect the value of an indexed note. It is possible that we could achieve substantial returns from our hedging transactions while the value of the indexed note may decline.

Information About Indices May Not Be Indicative of Future Performance

If we issue an indexed note, we may include historical information about the relevant index in the relevant pricing supplement. Any information about indices that we may provide will be furnished as a matter of information only, and you should not regard the information as indicative of the range of, or trends in, fluctuations in the relevant index that may occur in the future.

Table of Contents

We May Have Conflicts of Interest Regarding an Indexed Note

First Union Securities, Inc. and our other affiliates may have conflicts of interest with respect to some indexed notes. First Union Securities, Inc. and our other affiliates may engage in trading, including trading for hedging purposes, for their proprietary accounts or for other accounts under their management, in indexed notes and in the securities, commodities or currencies or other instruments or measures on which the index is based or in other derivative instruments related to the index or its component items. These trading activities could adversely affect the value of indexed notes. We and our affiliates may also issue or underwrite securities or derivative instruments that are linked to the same index as one or more indexed notes. By introducing competing products into the marketplace in this manner, we could adversely affect the value of an indexed note.

Wachovia Bank, N.A. (formerly named First Union National Bank) or another of our affiliates may serve as calculation agent for the indexed notes and may have considerable discretion in calculating the amounts payable in respect of the notes. To the extent that Wachovia Bank, N.A. or another of our affiliates calculates or compiles a particular index, it may also have considerable discretion in performing the calculation or compilation of the index. Exercising discretion in this manner could adversely affect the value of an indexed note based on the index or the rate of return on the security.

Risks Relating to Notes Denominated or Payable in or Linked to a Non-U.S. Dollar Currency

If you intend to invest in a non-U.S. dollar note e.g., a note whose principal and/or interest is payable in a currency other than U.S. dollars or that may be settled by delivery of or reference to a non-U.S. dollar currency or property denominated in or otherwise linked to a non-U.S. dollar currency you should consult your own financial and legal advisors as to the currency risks entailed by your investment. Notes of this kind may not be an appropriate investment for investors who are unsophisticated with respect to non-U.S. dollar currency transactions.

An Investment in a Non-U.S. Dollar Note Involves Currency-Related Risks

An investment in a non-U.S. dollar note entails significant risks that are not associated with a similar investment in a note that is payable solely in U.S. dollars and where settlement value is not otherwise based on a non-U.S. dollar currency. These risks include the possibility of significant changes in rates of exchange between the U.S. dollar and the various non-U.S. dollar currencies or composite currencies and the possibility of the imposition or modification of foreign exchange controls or other conditions by either the United States or non-U.S. governments. These risks generally depend on factors over which we have no control, such as economic and political events and the supply of and demand for the relevant currencies in the global markets.

Changes in Currency Exchange Rates Can Be Volatile and Unpredictable

Rates of exchange between the U.S. dollar and many other currencies have been highly volatile, and this volatility may continue and perhaps spread to other currencies in the future. Fluctuations in currency exchange rates could adversely affect an investment in a note denominated in, or where value is otherwise linked to, a specified currency other than U.S. dollars. Depreciation of the specified currency against the U.S. dollar could result in a decrease in the U.S. dollar-equivalent value of payments on the note, including the principal payable at maturity. That in turn could cause the market value of the note to fall. Depreciation of the specified currency against the U.S. dollar could result in a loss to the investor on a U.S. dollar basis.

In courts outside of New York, investors may not be able to obtain judgment in a specified currency other than U.S. dollars. For example, a judgment for money in an action based on a non-U.S. dollar note in many other U.S. federal or state courts ordinarily would be enforced in the United States only in U.S. dollars.

Table of Contents

The date used to determine the rate of conversion of the currency in which any particular note is denominated into U.S. dollars will depend upon various factors, including which court renders the judgment.

Information About Exchange Rates May Not Be Indicative of Future Performance

If we issue a non-U.S. dollar note, we may include in the relevant pricing supplement a currency supplement that provides information about historical exchange rates for the relevant non-U.S. dollar currency or currencies. Any information about exchange rates that we may provide will be furnished as a matter of information only, and you should not regard the information as indicative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future. That rate will likely differ from the exchange rate used under the terms that apply to a particular note.

Table of Contents

USE OF PROCEEDS

Wachovia currently intends to use the net proceeds from the sale of any notes for general corporate purposes, which may include:

reducing debt;

investments at the holding company level;

investing in, or extending credit to, our operating subsidiaries;

acquisitions;

stock repurchases; and

other purposes as mentioned in any pricing supplement.

Pending such use, we may temporarily invest the net proceeds. The precise amounts and timing of the application of proceeds will depend upon our funding requirements and the availability of other funds. Except as mentioned in any pricing supplement, specific allocations of the proceeds to such purposes will not have been made at the date of that pricing supplement.

Based upon our historical and anticipated future growth and our financial needs, we may engage in additional financings of a character and amount that we determine as the need arises.

CONSOLIDATED EARNINGS RATIOS

The following table provides Wachovia's consolidated ratios of earnings to fixed charges and preferred stock dividends:

	Three Months Ended March 31,	Years Ended December 31,				
	2002	2001	2000	1999	1998	1997
Consolidated Ratios of Earnings to Fixed Charges and Preferred Stock Dividends						
Excluding interest on deposits	3.20x	1.61	1.13	2.29	2.13	2.50
Including interest on deposits	1.88x	1.27	1.06	1.62	1.51	1.57

For purposes of computing these ratios

earnings represent income from continuing operations before extraordinary items and cumulative effect of a change in accounting principles, plus income taxes and fixed charges (excluding capitalized interest);

fixed charges, excluding interest on deposits, represent interest (including capitalized interest), one-third of rents and all amortization of debt issuance costs; and

fixed charges, including interest on deposits, represent all interest (including capitalized interest), one-third of rents and all amortization of debt issuance costs.

One-third of rents is used because it is the proportion deemed representative of the interest factor.

Table of Contents**SELECTED CONSOLIDATED CONDENSED FINANCIAL DATA**

The following is selected unaudited consolidated condensed financial information for Wachovia for the three months ended March 31, 2002, and for the year ended December 31, 2001. The summary below should be read in conjunction with the consolidated financial statements of Wachovia, and the related notes thereto, and the other detailed information contained in Wachovia's March 31, 2002 Quarterly Report on Form 10-Q and 2001 Annual Report on Form 10-K.

	Three Months Ended March 31, 2002	Year Ended December 31, 2001(a)
(In millions, except per share data)

(a) The merger of the former Wachovia Corporation and First Union Corporation closed on September 1, 2001, and was accounted for under the purchase method of accounting.

Table of Contents**CAPITALIZATION**

The following table sets forth the unaudited capitalization of Wachovia at March 31, 2002.

<i>(In millions)</i>	March 31, 2002
Long-term Debt	
Total long-term debt	\$ 39,936
Stockholders Equity	
Dividend Equalization Preferred shares, issued 97 million shares	11
Common stock, authorized 3 billion shares, issued 1.368 billion shares	4,559
Paid-in capital	17,989
Retained earnings	6,136
Accumulated other comprehensive income, net	90
Total stockholders equity	28,785
Total long-term debt and stockholders equity	\$ 68,721

As of the date of this prospectus, there has been no material change in the capitalization of Wachovia since March 31, 2002.

REGULATORY CONSIDERATIONS

As a financial holding company and a bank holding company under the Bank Holding Company Act, the Federal Reserve Board regulates, supervises and examines Wachovia. For a discussion of the material elements of the regulatory framework applicable to financial holding companies, bank holding companies and their subsidiaries and specific information relevant to Wachovia, please refer to Wachovia's annual report on Form 10-K for the fiscal year ended December 31, 2001, and any subsequent reports we file with the SEC, which are incorporated by reference in this prospectus. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders. As a result of this regulatory framework, Wachovia's earnings are affected by actions of the Federal Reserve Board, the Office of Comptroller of the Currency, that regulates our banking subsidiaries, the Federal Deposit Insurance Corporation, that insures the deposits of our banking subsidiaries within certain limits, and the SEC, that regulates the activities of certain subsidiaries engaged in the securities business.

Wachovia's earnings are also affected by general economic conditions, our management policies and legislative action.

In addition, there are numerous governmental requirements and regulations that affect our business activities. A change in applicable statutes, regulations or regulatory policy may have a material effect on Wachovia's business.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Depository institutions, like Wachovia's bank subsidiaries, are also affected by various federal laws, including those relating to consumer protection and similar matters. Wachovia also has other financial services subsidiaries regulated, supervised and examined by the Federal Reserve Board, as well as other relevant state and federal regulatory agencies and self-regulatory organizations. Wachovia's non-bank subsidiaries may be subject to other laws and regulations of the federal government or the various states in which they are authorized to do business.

Table of Contents**DESCRIPTION OF THE NOTES WE MAY OFFER**

The following information outlines some of the provisions of the indentures and the notes. This information may not be complete in all respects, and is qualified entirely by reference to the indenture under which the notes are issued. These indentures are incorporated by reference as exhibits to the registration statement of which this prospectus is a part. This information relates to certain terms and conditions that generally apply to the notes. The specific terms of any series of notes will be described in the relevant pricing supplement. As you read this section, please remember that the specific terms of your note as described in your pricing supplement will supplement and, if applicable, may modify or replace the general terms described in this section. If your pricing supplement is inconsistent with this prospectus, your pricing supplement will control with regard to your note. Thus, the statements we make in this section may not apply to your note.

General

Senior notes will be issued under an indenture, dated as of April 1, 1983, as amended and supplemented, between Wachovia and JPMorgan Chase Bank, (formerly known as The Chase Manhattan Bank) as trustee. Subordinated notes will be issued under an indenture, dated as of March 15, 1986, as amended and supplemented, between Wachovia and Bank One Trust Company, N.A., as trustee. Each of the senior and the subordinated notes constitutes a single series of debt securities of Wachovia issued under the senior and the subordinated indenture, respectively. The term debt securities, as used in this prospectus, refers to all debt securities, including the notes, issued and issuable from time to time under the relevant indenture. The indentures are subject to, and governed by, the Trust Indenture Act of 1939, as amended. These indentures are more fully described below in this section. Whenever we refer to specific provisions or defined terms in one or both of the indentures, those provisions or defined terms are incorporated in this prospectus by reference. Section references used in this discussion are references to the relevant indenture. Capitalized terms which are not otherwise defined shall have the meaning given to them in the relevant indenture. As long as the notes are listed on the Luxembourg Stock Exchange, the indentures will be available for inspection at the offices of the Luxembourg Listing Agent and Luxembourg Paying Agent and Transfer Agent.

The notes will be limited to an aggregate initial offering price of \$4,000,000,000, or at Wachovia's option if so specified in the relevant pricing supplement, the equivalent of this amount in any other currency or currency unit, and will be Wachovia's direct, unsecured obligations. The notes will not be deposits or other bank obligations and will not be FDIC insured.

The notes are being offered on a continuous basis by Wachovia through one or more agents listed under Plan of Distribution. The indentures do not limit the aggregate principal amount of senior or subordinated notes that we may issue. We may, from time to time, without the consent of the holders of the notes, provide for the issuance of notes or other debt securities under the indentures in addition to the \$4,000,000,000 aggregate initial offering price of notes noted on the cover of this prospectus. Each note issued under this prospectus will mature nine months or more from its date of issue, as selected by the purchaser and agreed to by Wachovia and may be subject to redemption or repayment before its stated maturity. Notes may be issued at significant discounts from their principal amount due on the stated maturity (or on any prior date on which the principal or an installment of principal of a note becomes due and payable, whether by the declaration of acceleration, call for redemption at the option of Wachovia, repayment at the option of the holder or otherwise), and some notes may not bear interest. Wachovia may from time to time, without the consent of the existing holders of the relevant notes, create and issue further notes having the same terms and conditions as such notes in all respects, except for the issue date, issue price and, if applicable, the first payment of interest thereon. Additional notes issued in this manner will be consolidated with, and will form a single series with, the previously outstanding notes.

Unless we specify otherwise in the relevant pricing supplement, currency amounts in this prospectus are expressed in United States dollars. Unless we specify otherwise in any note and pricing supplement, the notes

Table of Contents

will be denominated in U.S. dollars and payments of principal, premium, if any, and any interest on the notes will be made in U.S. dollars. If any note is to be denominated other than exclusively in U.S. dollars, or if the principal of, premium, if any, or any interest on the note is to be paid in one or more currencies (or currency units or in amounts determined by reference to an index or indices) other than that in which that note is denominated, additional information (including authorized denominations and related exchange rate information) will be provided in the relevant pricing supplement. Unless we specify otherwise in any pricing supplement, notes denominated in U.S. dollars will be issued in denominations of \$1,000 or any integral multiple of \$1,000.

Interest rates that we offer on the notes may differ depending upon, among other factors, the aggregate principal amount of notes purchased in any single transaction. Notes with different variable terms other than interest rates may also be offered concurrently to different investors. We may change interest rates or formulas and other terms of notes from time to time, but no change of terms will affect any note we have previously issued or as to which we have accepted an offer to purchase.

Each note will be issued as a book-entry note in fully registered form without coupons. Each note issued in book-entry form will be represented by a global note that we deposit with and register in the name of a financial institution or its nominee, that we select. The financial institution that we select for this purpose is called the depository. Unless we specify otherwise in the applicable pricing supplement, The Depository Trust Company, New York, New York, will be the depository for all notes in global form. Except as discussed below under "Global Notes", owners of beneficial interests in book-entry notes will not be entitled to physical delivery of notes in certificated form. We will make payments of principal of, and premium, if any and interest, if any, on the notes through the applicable trustee to the depository for the notes. See "Global Notes".

The indentures do not limit the aggregate principal amount of debt securities or of any particular series of debt securities which may be issued under the indentures and provide that these debt securities may be issued at various times in one or more series, in each case with the same or various maturities, at par or at a discount. (*Section 301*) The indentures provide that there may be more than one trustee under the indentures with respect to different series of debt securities. As of March 31, 2002, \$12.5 billion aggregate principal amount of senior debt securities was outstanding under the senior indenture. The senior trustee is trustee for such series. As of March 31, 2002, \$27.5 billion aggregate principal amount of subordinated debt securities was outstanding under the subordinated indenture. The subordinated trustee is trustee for such series.

The indentures do not limit the amount of other debt that Wachovia may issue and do not contain financial or similar restrictive covenants. As of March 31, 2002, Wachovia had an aggregate of \$4.1 billion of short-term senior indebtedness outstanding which consisted primarily of commercial paper. Wachovia expects from time to time to incur additional senior indebtedness and Other Financial Obligations (as defined below). The indentures do not prohibit or limit additional senior indebtedness or Other Financial Obligations.

Because Wachovia is a holding company and a legal entity separate and distinct from its subsidiaries, Wachovia's rights to participate in any distribution of assets of any subsidiary upon its liquidation, reorganization or otherwise, and the holders of notes' ability to benefit indirectly from such distribution, would be subject to prior creditor's claims, except to the extent that Wachovia itself may be a creditor of that subsidiary with recognized claims. Claims on Wachovia's subsidiary banks by creditors other than Wachovia include long-term debt and substantial obligations with respect to deposit liabilities and federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations. The indentures do not contain any covenants designed to afford holders of notes protection in the event of a highly leveraged transaction involving Wachovia.

Legal Ownership

Street Name and Other Indirect Holders

Investors who hold their notes in accounts at banks or brokers will generally not be recognized by us as legal holders of notes. This is called holding in street name. Instead, we would recognize only the bank or

Table of Contents

broker, or the financial institution the bank or broker uses to hold its notes. These intermediary banks, brokers and other financial institutions pass along principal, interest and other payments on the notes, either because they agree to do so in their customer agreements or because they are legally required to do so. If you hold your notes in street name, you should check with your own institution to find out:

how it handles note payments and notices;

whether it imposes fees or charges;

how it would handle voting if it were ever required;

whether and how you can instruct it to send you notes registered in your own name so you can be a direct holder as described below; and

how it would pursue rights under the notes if there were a default or other event triggering the need for holders to act to protect their interests.

Direct Holders

Our obligations, as well as the obligations of the trustee and those of any third parties employed by us or the trustee, under the notes run only to persons who are registered as holders of notes. As noted above, we do not have obligations to you if you hold in street name or other indirect means, either because you choose to hold your notes in that manner or because the notes are issued in the form of global securities as described below. For example, once we make payment to the registered holder we have no further responsibility for the payment even if that holder is legally required to pass the payment along to you as a street name customer but does not do so.

Global Notes

A global note is a special type of indirectly held security, as described above under [Street Name and Other Indirect Holders](#) . If we choose to issue notes in the form of global notes, the ultimate beneficial owners of global notes can only be indirect holders. We require that the global note be registered in the name of a financial institution we select.

We also require that the notes included in the global note not be transferred to the name of any other direct holder except in the special circumstances described in the section [Global Notes](#) . The financial institution that acts as the sole direct holder of the global note is called the depositary. Any person wishing to own a global note must do so indirectly by virtue of an account with a broker, bank or other financial institution that in turn has an account with the depositary. The pricing supplement indicates whether your series of notes will be issued only in the form of global notes.

Further details of legal ownership are discussed in the section [Global Notes](#) below.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

In the remainder of this description you or holder means direct holders and not street name or other indirect holders of notes. Indirect holders should read the previous subsection titled Street Name and Other Indirect Holders .

Types of Notes

We may issue the following four types of notes:

Fixed Rate Notes. A note of this type will bear interest at a fixed rate described in the applicable pricing supplement. This type includes zero-coupon notes, which bear no interest and are instead issued at a price lower than the principal amount.

Table of Contents

Floating Rate Notes. A note of this type will bear interest at rates that are determined by reference to an interest rate formula. In some cases, the rates may also be adjusted by adding or subtracting a spread or multiplying by a spread multiplier and may be subject to a minimum rate or a maximum rate. The various interest rate formulas and these other features are described below in Interest Rates Floating Rate Notes . If your note is a floating rate note, the formula and any adjustments that apply to the interest rate will be specified in your pricing supplement.

Indexed Notes. A note of this type provides that the principal amount payable at its maturity, and/or the amount of interest payable on an interest payment date, will be determined by reference to:

one or more securities;

one or more currencies;

one or more commodities;

any other financial, economic or other measures or instruments, including the occurrence or non-occurrence of any event or circumstance; and/or

indices or baskets of any of these items.

If you are a holder of an indexed note, you may receive a principal amount at maturity that is greater than or less than the face amount of your note depending upon the value of the applicable index at maturity. That value may fluctuate over time. If you purchase an indexed note your pricing supplement will include information about the relevant index and about how amounts that are to become payable will be determined by reference to that index. Before you purchase any indexed note, you should read carefully the section entitled Risk Factors Risks Relating to Indexed Notes above.

Exchangeable Notes. We may issue notes, which we refer to as exchangeable notes, that are exchangeable, at our option or the option of the holder, into securities of an issuer other than Wachovia or into other property. The exchangeable notes may or may not bear interest or be issued with original issue discount or at a premium. The general terms of the exchangeable notes are described below.

Optionally Exchangeable Notes. The holder of an optionally exchangeable note may, during a period, or at specific times, exchange the note for the underlying property at a specified rate of exchange. If specified in your pricing supplement, we will have the option to redeem the optionally exchangeable note prior to maturity. If the holder of an optionally exchangeable note does not elect to exchange the note prior to maturity or any redemption date, the holder will receive the principal amount of the note plus any accrued interest at maturity or upon redemption.

Mandatorily Exchangeable Notes. At maturity, the holder of a mandatorily exchangeable note must exchange the note for the underlying property at a specified rate of exchange, and, therefore, depending upon the value of the underlying property at maturity, the holder of a mandatorily exchangeable note may receive less than the principal amount of the note at maturity. If so indicated in your pricing supplement, the specified rate at which a mandatorily exchangeable note may be exchanged may vary depending on the value of the underlying property so that, upon exchange, the holder participates in a percentage, which may be less than, equal to, or greater than 100% of the change in value of the underlying property. Mandatorily exchangeable notes may include notes where we have the right, but not the obligation, to require holders of notes to exchange their notes for the underlying property.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Payments upon Exchange. Your pricing supplement will specify if upon exchange, at maturity or otherwise, the holder of an exchangeable note may receive, at the specified exchange rate, either the underlying property or the cash value of the underlying property. The underlying property may be the securities of either U.S. or foreign entities or both. The exchangeable notes may or may not provide for

Table of Contents

protection against fluctuations in the exchange rate between the currency in which that note is denominated and the currency or currencies in which the market prices of the underlying security or securities are quoted. Exchangeable notes may have other terms, which will be specified in your pricing supplement.

Special Requirements for Exchange of Global Securities. If an optionally exchangeable note is represented by a global security, the depositary's nominee will be the holder of that note and therefore will be the only entity that can exercise a right to exchange. In order to ensure that the depositary's nominee will timely exercise a right to exchange a particular note or any portion of a particular note, the beneficial owner of the note must instruct the broker or other direct or indirect participant through which it holds an interest in that note to notify the depositary of its desire to exercise a right to exchange. Different firms have different deadlines for accepting instructions from their customers. Each beneficial owner should consult the broker or other participant through which it holds an interest in a note in order to ascertain the deadline for ensuring that timely notice will be delivered to the depositary.

Payments upon Acceleration of Maturity or upon Tax Redemption. If the principal amount payable at maturity of any exchangeable note is declared due and payable prior to maturity, the amount payable on:

an optionally exchangeable note will equal the face amount of the note plus accrued interest, if any, to but excluding the date of payment, except that if a holder has exchanged an optionally exchangeable note prior to the date of declaration or tax redemption without having received the amount due upon exchange, the amount payable will be an amount of cash equal to the amount due upon exchange and will not include any accrued but unpaid interest; and

a mandatorily exchangeable note will equal an amount determined as if the date of declaration or tax redemption were the maturity date plus accrued interest, if any, to but excluding the date of payment.

Original Issue Discount Notes

A fixed rate note, a floating rate note or an indexed note may be an original issue discount note. A note of this type is issued at a price lower than its principal amount and provides that, upon redemption or acceleration of its maturity, an amount less than its principal amount will be payable. An original issue discount note may be a zero coupon note. A note issued at a discount to its principal may, for U.S. federal income tax purposes, be considered an original issue discount note, regardless of the amount payable upon redemption or acceleration of maturity. See United States Taxation below for a brief description of the U.S. federal income tax consequences of owning an original issue discount note.

Information in the Pricing Supplement

Your pricing supplement will describe one or more of the following terms of your note:

the stated maturity;

the specified currency or currencies for principal and interest, if not U.S. dollars;

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

the price at which we originally issue your note, expressed as a percentage of the principal amount, and the original issue date;

whether your note is a fixed rate note, a floating rate note, an indexed note or an exchangeable note;

if your note is a fixed rate note, the yearly rate at which your note will bear interest, if any, and the interest payment dates;

if your note is a floating rate note, the interest rate basis, which may be one of the eight interest rate bases described in [Interest Rates - Floating Rate Notes](#) below; any applicable index currency or maturity, spread or spread multiplier or initial, maximum or minimum rate; and the

Table of Contents

interest reset, determination, calculation and payment dates, all of which we describe under Interest Rates Floating Rate Notes below;

if your note is an indexed note, the principal amount, if any, we will pay you at maturity, the amount of interest, if any, we will pay you on an interest payment date or the formula we will use to calculate these amounts, if any, and whether your note will be exchangeable for or payable in cash, securities of an issuer other than Wachovia or other property;
if your note is an exchangeable note, the securities or property for which the notes may be exchanged, whether the notes are exchangeable at your option or at Wachovia's option, and the other items described in Exchangeable Notes above;

if your note is an original issue discount note, the yield to maturity;

if applicable, the circumstances under which your note may be redeemed at our option before the stated maturity, including any redemption commencement date, redemption price(s) and redemption period(s);

if applicable, the circumstances under which you may demand repayment of your note before the stated maturity, including any repayment commencement date, repayment price(s) and repayment period(s);

any special United States federal income tax consequences of the purchase, ownership or disposition of a particular issuance of notes;

the use of proceeds, if materially different than those discussed in this prospectus; and

any other terms of your note, which could be different from those described in this prospectus.

Market-Making Transactions. If you purchase your note in a market-making transaction, you will receive information about the price you pay and your trade and settlement dates in a separate confirmation of sale. A market-making transaction is one in which Wachovia Securities or another of our affiliates resells a note that it has previously acquired from another holder. A market-making transaction in a particular note occurs after the original sale of the note.

Redemption at the Option of Wachovia; No Sinking Fund

If an initial redemption date is specified in the applicable pricing supplement, we may redeem the particular notes prior to their stated maturity date at our option on any date on or after that initial redemption date in whole or from time to time in part in increments of \$1,000 or any other integral multiple of an authorized denomination specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or other minimum authorized denomination applicable thereto), at the applicable redemption price (as defined below), together with unpaid interest accrued thereon to the date of redemption. We must give written notice to registered holders of the particular notes to be redeemed at our option not more than 60 nor less than 30 calendar days prior to the date of redemption. Redemption price, with respect to a note, means an amount equal to the initial redemption percentage specified in the applicable pricing supplement (as adjusted by the annual redemption percentage reduction, if applicable) multiplied by the unpaid principal amount thereof to be redeemed. The initial redemption percentage, if any, applicable to a note shall decline at each anniversary of the initial redemption date by an amount equal to the applicable annual redemption percentage reduction, if any, until the redemption price is equal to 100% of the unpaid principal amount thereof to be redeemed.

The notes will not be subject to, or entitled to the benefit of, any sinking fund.

Table of Contents

Repayment at the Option of the Holder

If one or more optional repayment dates are specified in the applicable pricing supplement, registered holders of the particular notes may require us to repay those notes prior to their stated maturity date on any optional repayment date in whole or from time to time in part in increments of \$1,000 or any other integral multiple of an authorized denomination specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or other minimum authorized denomination applicable thereto), at a repayment price equal to 100% of the unpaid principal amount thereof to be repaid, together with unpaid interest accrued thereon to the date of repayment. A registered holder's exercise of the repayment option will be irrevocable.

For any note to be repaid, the applicable trustee must receive, at its corporate trust office in the Borough of Manhattan, The City of New York, not more than 60 nor less than 30 calendar days prior to the date of repayment, the particular notes to be repaid and, in the case of a book-entry note, repayment instructions from the applicable beneficial owner (as defined below) to the depositary and forwarded by the depositary.

Only the depositary may exercise the repayment option in respect of global notes representing book-entry notes. Accordingly, beneficial owners of global notes that desire to have all or any portion of the book-entry notes represented thereby repaid must instruct the participant (as defined below) through which they own their interest to direct the depositary to exercise the repayment option on their behalf by forwarding the repayment instructions to the applicable trustee as aforesaid. In order to ensure that these instructions are received by the applicable trustee on a particular day, the applicable beneficial owner must so instruct the participant through which it owns its interest before that participant's deadline for accepting instructions for that day. Different firms may have different deadlines for accepting instructions from their customers. Accordingly, beneficial owners should consult their participants for the respective deadlines. All instructions given to participants from beneficial owners of global notes relating to the option to elect repayment shall be irrevocable. In addition, at the time repayment instructions are given, each beneficial owner shall cause the participant through which it owns its interest to transfer the beneficial owner's interest in the global note representing the related book-entry notes, on the depositary's records, to the applicable trustee. See Global Notes.

If applicable, we will comply with the requirements of Section 14(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the rules promulgated thereunder, and any other securities laws or regulations in connection with any repayment of notes at the option of the registered holders thereof.

We may at any time purchase notes at any price or prices in the open market or otherwise. Notes so purchased by us may, at our discretion, be held, resold or surrendered to the applicable trustee for cancellation.

Interest

Each interest-bearing note will bear interest from its date of issue at the rate per annum, in the case of a fixed rate note, or pursuant to the interest rate formula, in the case of a floating rate note, in each case as specified in the applicable pricing supplement, until the principal thereof is paid. We will make interest payments in respect of fixed rate notes and floating rate notes in an amount equal to the interest accrued from and including the immediately preceding interest payment date in respect of which interest has been paid or from and including the date of issue, if no interest has been paid, to but excluding the applicable interest payment date or the maturity date, as the case may be (each, an interest period).

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Interest on fixed rate notes and floating rate notes will be payable in arrears on each interest payment date and on the maturity date. The first payment of interest on any note originally issued between a regular record date and the related interest payment date will be made on the interest payment date immediately following the next succeeding record date to the registered holder on the next succeeding record date. The

Table of Contents

regular record date shall be the fifteenth calendar day, whether or not a business day, immediately preceding the related interest payment date. Business Day is defined below under Interest Rates Special Rate Calculation Terms. For the purpose of determining the holder at the close of business on a regular record date when business is not being conducted, the close of business will mean 5:00 P.M., New York City time, on that day.

Interest Rates

This subsection describes the different kinds of interest rates that may apply to your note, if it bears interest.

Fixed Rate Notes

The relevant pricing supplement will specify the interest payment dates for a fixed rate note as well as the maturity date. Interest on fixed rate notes will be computed on the basis of a 360-day year of twelve 30-day months or such other day count fraction set forth in the pricing supplement.

If any interest payment date or the maturity date of a fixed rate note falls on a day that is not a business day, we will make the required payment of principal, premium, if any, and/or interest on the next succeeding business day, and no additional interest will accrue in respect of the payment made on that next succeeding business day.

Floating Rate Notes

*In this subsection, we use several specialized terms relating to the manner in which floating interest rates are calculated. These terms appear in **bold, italicized** type the first time they appear, and we define these terms in Special Rate Calculation Terms at the end of this subsection.*

The following will apply to floating rate notes.

Interest Rate Basis. We currently expect to issue floating rate notes that bear interest at rates based on one or more of the following interest rate bases:

commercial paper rate;

prime rate;

LIBOR;

EURIBOR;

treasury rate;

CMT rate;

CD rate; and/or

federal funds rate.

We describe each of the interest rate bases in further detail below in this subsection. If you purchase a floating rate note, your pricing supplement will specify the interest rate basis that applies to your note.

Calculation of Interest. Calculations relating to floating rate notes will be made by the calculation agent, an institution that we appoint as our agent for this purpose. That institution may include any affiliate of ours, such as Wachovia Securities or Wachovia Bank, N.A. (formerly named First Union National Bank). If

Table of Contents

other than Wachovia Securities or Wachovia Bank, N.A., the pricing supplement for a particular floating rate note will name the institution that we have appointed to act as the calculation agent for that note as of its original issue date. We may appoint a different institution to serve as calculation agent from time to time after the original issue date of the note without your consent and without notifying you of the change.

For each floating rate note, the calculation agent will determine, on no later than the corresponding interest calculation date or on the interest determination date, as described below, the interest rate that takes effect on each interest reset date. In addition, the calculation agent will calculate the amount of interest that has accrued during each interest period i.e., the period from and including the original issue date, or the last date to which interest has been paid or made available for payment, to but excluding the payment date. For each interest period, the calculation agent will calculate the amount of accrued interest by multiplying the face or other specified amount of the floating rate note by an accrued interest factor for the interest period. This factor will equal the sum of the interest factors calculated for each day during the interest period. The interest factor for each day will be expressed as a decimal and will be calculated by dividing the interest rate, also expressed as a decimal, applicable to that day by 360 or by the actual number of days in the year, as specified in the relevant pricing supplement.

Upon the request of the holder of any floating rate note, the calculation agent will provide for that note the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date. The calculation agent's determination of any interest rate, and its calculation of the amount of interest for any interest period, will be final and binding in the absence of manifest error.

All percentages resulting from any calculation relating to a note will be rounded upward or downward, as appropriate, to the next higher or lower one hundred-thousandth of a percentage point, e.g., 9.876541% (or .09876541) being rounded down to 9.87654% (or .0987654) and 9.876545% (or .09876545) being rounded up to 9.87655% (or .0987655). All amounts used in or resulting from any calculation relating to a floating rate note will be rounded upward or downward, as appropriate, to the nearest cent, in the case of U.S. dollars, or to the nearest corresponding hundredth of a unit, in the case of a currency other than U.S. dollars, with one-half cent or one-half of a corresponding hundredth of a unit or more being rounded upward.

In determining the interest rate basis that applies to a floating rate note during a particular interest period, the calculation agent may obtain rate quotes from various banks or dealers active in the relevant market, as discussed below. Those reference banks and dealers may include the calculation agent itself and its affiliates, as well as any agent participating in the distribution of the relevant floating rate notes and its affiliates, and they may include affiliates of Wachovia.

Initial Interest Rate. For any floating rate note, the interest rate in effect from the original issue date to the first interest reset date will be the initial interest rate. We will specify the initial interest rate or the manner in which it is determined in the relevant pricing supplement.

Spread or Spread Multiplier. In some cases, the interest rate basis for a floating rate note may be adjusted:

by adding or subtracting a specified number of basis points, called the spread, with one basis point being 0.01%; or

by multiplying the interest rate basis by a specified percentage, called the spread multiplier.

If you purchase a floating rate note, your pricing supplement will indicate whether a spread or spread multiplier will apply to your note and, if so, the amount of the spread or spread multiplier.

Table of Contents

Maximum and Minimum Rates. The actual interest rate, after being adjusted by the spread or spread multiplier, may also be subject to either or both of the following limits:

a maximum rate i.e., a specified upper limit that the actual interest rate in effect at any time may not exceed; and/or

a minimum rate i.e., a specified lower limit that the actual interest rate in effect at any time may not fall below.

If you purchase a floating rate note, your pricing supplement will indicate whether a maximum rate and/or minimum rate will apply to your note and, if so, what those rates are.

Whether or not a maximum rate applies, the interest rate on a floating rate note will in no event be higher than the maximum rate permitted by New York law, as it may be modified by U.S. law of general application. Under current New York law, the maximum rate of interest, with some exceptions, for any loan in an amount less than \$250,000 is 16% and for any loan in the amount of \$250,000 or more but less than \$2,500,000 is 25% per year on a simple interest basis. These limits do not apply to loans of \$2,500,000 or more.

The rest of this subsection describes how the interest rate and the interest payment dates will be determined, and how interest will be calculated, on a floating rate note.

Interest Reset Dates. The rate of interest on a floating rate note will be reset, by the calculation agent described below, daily, weekly, monthly, quarterly, semi-annually or annually. The date on which the interest rate resets and the reset rate becomes effective is called the interest reset date. Except as otherwise specified in the applicable pricing supplement, the interest reset date will be as follows:

for floating rate notes that reset daily, each *business day*;

for floating rate notes that reset weekly and are not treasury rate notes, the Wednesday of each week;

for treasury rate notes that reset weekly, the Tuesday of each week;

for floating rate notes that reset monthly, the third Wednesday of each month;

for floating rate notes that reset quarterly, the third Wednesday of March, June, September and December of each year;

for floating rate notes that reset semi-annually, the third Wednesday of each of two months of each year as indicated in the relevant pricing supplement; and

for floating rate notes that reset annually, the third Wednesday of one month of each year as indicated in the relevant pricing supplement.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

For a floating rate note, the interest rate in effect on any particular day will be the interest rate determined with respect to the latest interest reset date that occurs on or before that day. There are several exceptions, however, to the reset provisions described above.

The interest rate in effect from the original issue date to the first interest reset date will be the initial interest rate.

If any interest reset date for a floating rate note would otherwise be a day that is not a business day, the interest reset date will be postponed to the next day that is a business day. For a LIBOR or EURIBOR note, however, if that business day is in the next succeeding calendar month, the interest reset date will be the immediately preceding business day.

Table of Contents

Interest Determination Dates. The interest rate that takes effect on an interest reset date will be determined by the calculation agent by reference to a particular date called an interest determination date. Except as otherwise indicated in the relevant pricing supplement:

for commercial paper rate, federal funds rate and prime rate notes, the interest determination date relating to a particular interest reset date will be the business day preceding the interest reset date;

for CD rate and CMT rate notes, the interest determination date relating to a particular interest reset date will be the second business day preceding the interest reset date;

for LIBOR notes, the interest determination date relating to a particular interest reset date will be the second ***London business day*** preceding the interest reset date, unless the ***index currency*** is pounds sterling, in which case the interest determination date will be the interest reset date. We refer to an interest determination date for a LIBOR note as a LIBOR interest determination date;

for EURIBOR notes, the interest determination date relating to a particular interest reset date will be the second ***euro business day*** preceding the interest reset date. We refer to an interest determination date for a EURIBOR note as a EURIBOR interest determination date; and

for treasury rate notes, the interest determination date relating to a particular interest reset date, which we refer to as a treasury interest determination date, will be the day of the week in which the interest reset date falls on which treasury bills i.e., direct obligations of the U.S. government would normally be auctioned. Treasury bills are usually sold at auction on the Monday of each week, unless that day is a legal holiday, in which case the auction is usually held on the following Tuesday, except that the auction may be held on the preceding Friday. If as the result of a legal holiday an auction is held on the preceding Friday, that Friday will be the treasury interest determination date relating to the interest reset date occurring in the next succeeding week.

The interest determination date pertaining to a floating rate note the interest rate of which is determined with reference to two or more interest rate bases will be the latest business day which is at least two business days before the related interest reset date for the applicable floating rate note on which each interest rate basis is determinable.

Interest Calculation Dates. As described above, the interest rate that takes effect on a particular interest reset date will be determined by reference to the corresponding interest determination date. Except for LIBOR notes and EURIBOR notes, however, the determination of the rate will actually be made on a day no later than the corresponding interest calculation date. The interest calculation date will be the earlier of the following:

the tenth calendar day after the interest determination date or, if that tenth calendar day is not a business day, the next succeeding business day; and

the business day immediately preceding the interest payment date or the maturity, whichever is the day on which the next payment of interest will be due.

The calculation agent need not wait until the relevant interest calculation date to determine the interest rate if the rate information it needs to make the determination is available from the relevant sources sooner.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Interest Payment Dates. The interest payment dates for a floating rate note will depend on when the interest rate is reset and, unless we specify otherwise in the relevant pricing supplement, will be as follows:

for floating rate notes that reset daily, weekly or monthly, the third Wednesday of each month or the third Wednesday of March, June, September and December of each year, as specified in the relevant pricing supplement;

for floating rate notes that reset quarterly, the third Wednesday of March, June, September and December of each year;

Table of Contents

for floating rate notes that reset semi-annually, the third Wednesday of the two months of each year specified in the relevant pricing supplement; or

for floating rate notes that reset annually, the third Wednesday of the month specified in the relevant pricing supplement.

Regardless of these rules, if a note is originally issued after the regular record date and before the date that would otherwise be the first interest payment date, the first interest payment date will be the date that would otherwise be the second interest payment date.

In addition, the following special provision will apply to a floating rate note with regard to any interest payment date other than one that falls on the maturity. If the interest payment date would otherwise fall on a day that is not a business day, then the interest payment date will be the next day that is a business day. However, if the floating rate note is a LIBOR note or a EURIBOR note and the next business day falls in the next calendar month, then the interest payment date will be advanced to the next preceding day that is a business day. If the maturity date of a floating rate note falls on a day that is not a business day, we will make the required payment of principal, premium, if any, and interest on the next succeeding business day, and no additional interest will accrue in respect of the payment made on that next succeeding business day.

Calculation Agent. We have initially appointed First Union Securities, Inc. as our calculation agent for the notes. See Calculation of Interest above for details regarding the role of the calculation agent.

Commercial Paper Rate Notes

If you purchase a commercial paper rate note, your note will bear interest at an interest rate equal to the commercial paper rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

The commercial paper rate will be the *money market yield* of the rate, for the relevant interest determination date, for commercial paper having the *index maturity* indicated in your pricing supplement, as published in **H.15(519)** under the heading Commercial Paper Nonfinancial . If the commercial paper rate cannot be determined as described above, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the commercial paper rate will be the rate, for the relevant interest determination date, for commercial paper having the index maturity specified in your pricing supplement, as published in **H.15 daily update** or any other recognized electronic source used for displaying that rate, under the heading Commercial Paper Nonfinancial .

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the commercial paper rate will be the money market yield of the arithmetic mean of the following offered rates for U.S. dollar commercial paper that has the relevant index maturity and is placed for an industrial issuer whose bond rating is AA , or the equivalent, from a nationally recognized rating agency: the rates offered as of 11:00 A.M., New York City time, on the relevant interest determination date, by three leading U.S. dollar commercial paper dealers in New York City selected by the calculation agent.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

If fewer than three dealers selected by the calculation agent are quoting as described above, the commercial paper rate for the new interest period will be the commercial paper rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

Table of Contents

Prime Rate Notes

If you purchase a prime rate note, your note will bear interest at an interest rate equal to the prime rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

The prime rate will be the rate, for the relevant interest determination date, published in H.15(519) under the heading **Bank Prime Loan**. If the prime rate cannot be determined as described above, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the prime rate will be the rate, for the relevant interest determination date, as published in H.15 daily update or another recognized electronic source used for the purpose of displaying that rate, under the heading **Bank Prime Loan**.

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the prime rate will be the arithmetic mean of the following rates as they appear on the **Reuters screen US PRIME 1 page**: the rate of interest publicly announced by each bank appearing on that page as that bank's prime rate or base lending rate, as of 11:00 A.M., New York City time, on the relevant interest determination date.

If fewer than four of these rates appear on the Reuters screen US PRIME 1 page, the prime rate will be the arithmetic mean of the prime rates or base lending rates, as of the close of business on the relevant interest determination date, of three major banks in New York City selected by the calculation agent. For this purpose, the calculation agent will use rates quoted on the basis of the actual number of days in the year divided by a 360-day year.

If fewer than three banks selected by the calculation agent are quoting as described above, the prime rate for the new interest period will be the prime rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

LIBOR Notes

If you purchase a LIBOR note, your note will bear interest at an interest rate equal to LIBOR, which will be the London interbank offered rate for deposits in U.S. dollars or any other index currency, as noted in your pricing supplement. In addition, when LIBOR is the interest rate basis the applicable LIBOR rate will be adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement. LIBOR will be determined in the following manner:

LIBOR will be either:

the offered rate appearing on the **Telerate LIBOR page**; or

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

the arithmetic mean of the offered rates appearing on the *Reuters screen LIBOR page* unless that page by its terms cites only one rate, in which case that rate;

in either case, as of 11:00 A.M., London time, on the relevant LIBOR interest determination date, for deposits of the relevant index currency having the relevant index maturity beginning on the relevant interest reset date. Your pricing supplement will indicate the index currency, the index maturity and the reference page that apply to your LIBOR note. If no reference page is mentioned in your pricing supplement, Telerate LIBOR page will apply to your LIBOR note.

If Telerate LIBOR page applies and the rate described above does not appear on that page, or if Reuters screen LIBOR page applies and fewer than two of the rates described above appears on that page or no rate appears on any page on which only one rate normally appears, then LIBOR

Table of Contents

will be determined on the basis of the rates, at approximately 11:00 A.M., London time, on the relevant LIBOR interest determination date, at which deposits of the following kind are offered to prime banks in the London interbank market by four major banks in that market selected by the calculation agent: deposits of the index currency having the relevant index maturity, beginning on the relevant interest reset date, and in a *representative amount*. The calculation agent will request the principal London office of each of these banks to provide a quotation of its rate. If at least two quotations are provided, LIBOR for the relevant LIBOR interest determination date will be the arithmetic mean of the quotations.

If fewer than two quotations are provided as described above, LIBOR for the relevant LIBOR interest determination date will be the arithmetic mean of the rates for loans of the following kind to leading European banks quoted, at approximately 11:00 A.M., in the principal financial center for the country of the index currency, on that LIBOR interest determination date, by three major banks in that financial center selected by the calculation agent: loans of the index currency having the relevant index maturity, beginning on the relevant interest reset date, and in a representative amount.

If fewer than three banks selected by the calculation agent are quoting as described above, LIBOR for the new interest period will be LIBOR in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

EURIBOR Notes

If you purchase a EURIBOR note, your note will bear interest at an interest rate equal to the interest rate for deposits in euro, designated as EURIBOR and sponsored jointly by the European Banking Federation and ACI the Financial Market Association, or any company established by the joint sponsors for purposes of compiling and publishing that rate. In addition, when EURIBOR is the interest rate basis the EURIBOR base rate will be adjusted by the spread or spread multiplier, if any, specified in your pricing supplement. EURIBOR will be determined in the following manner:

EURIBOR will be the offered rate for deposits in euros having the index maturity specified in your pricing supplement, beginning on the second *euro business day* after the relevant EURIBOR interest determination date, as that rate appears on *Telerate page* 248 as of 11:00 A.M., Brussels time, on the relevant EURIBOR interest determination date.

If the rate described above does not appear on Telerate page 248, EURIBOR will be determined on the basis of the rates, at approximately 11:00 A.M., Brussels time, on the relevant EURIBOR interest determination date, at which deposits of the following kind are offered to prime banks in the *euro-zone* interbank market by the principal euro-zone office of each of four major banks in that market selected by the calculation agent: euro deposits having the relevant index maturity, beginning on the relevant interest reset date, and in a representative amount. The calculation agent will request the principal euro-zone office of each of these banks to provide a quotation of its rate. If at least two quotations are provided, EURIBOR for the relevant EURIBOR interest determination date will be the arithmetic mean of the quotations.

If fewer than two quotations are provided as described above, EURIBOR for the relevant EURIBOR interest determination date will be the arithmetic mean of the rates for loans of the following kind to leading euro-zone banks quoted, at approximately 11:00 A.M., Brussels time on that EURIBOR interest determination date, by three major banks in the euro-zone selected by the calculation agent: loans of euros having the relevant index maturity, beginning on the relevant interest reset date, and in a representative amount.

If fewer than three banks selected by the calculation agent are quoting as described above, EURIBOR for the new interest period will be EURIBOR in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

Table of Contents

Treasury Rate Notes

If you purchase a treasury rate note, your note will bear interest at an interest rate equal to the treasury rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

The treasury rate will be the rate for the auction, on the relevant treasury interest determination date, of treasury bills having the index maturity specified in your pricing supplement, as that rate appears on Telerate page 56 or 57 under the heading *Investment Rate* . If the treasury rate cannot be determined in this manner, the following procedures will apply.

If the rate described above does not appear on either page at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, the treasury rate will be the ***bond equivalent yield*** of the rate, for the relevant interest determination date, for the type of treasury bill described above, as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading *U.S. Government Securities/Treasury Bills/Auction High* .

If the rate described in the prior paragraph does not appear in H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the treasury rate will be the bond equivalent yield of the auction rate, for the relevant treasury interest determination date and for treasury bills of the kind described above, as announced by the U.S. Department of the Treasury.

If the auction rate described in the prior paragraph is not so announced by 3:00 P.M., New York City time, on the relevant interest calculation date, or if no such auction is held for the relevant week, then the treasury rate will be the bond equivalent yield of the rate, for the relevant treasury interest determination date and for treasury bills having a remaining maturity closest to the specified index maturity, as published in H.15(519) under the heading *U.S. Government Securities /Treasury Bills/Secondary Market* .

If the rate described in the prior paragraph does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the treasury rate will be the rate, for the relevant treasury interest determination date and for treasury bills having a remaining maturity closest to the specified index maturity, as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading *U.S. Government Securities/Treasury Bills/Secondary Market* .

If the rate described in the prior paragraph does not appear in H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the treasury rate will be the bond equivalent yield of the arithmetic mean of the following secondary market bid rates for the issue of treasury bills with a remaining maturity closest to the specified index maturity: the rates bid as of approximately 3:30 P.M., New York City time, on the relevant treasury interest determination date, by three primary U.S. government securities dealers in New York City selected by the calculation agent.

If fewer than three dealers selected by the calculation agent are quoting as described in the prior paragraph, the treasury rate in effect for the new interest period will be the treasury rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

CD Rate Notes

If you purchase a CD rate note, your note will bear interest at an interest rate equal to the CD rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

Table of Contents

The CD rate will be the rate, on the relevant interest determination date, for negotiable U.S. dollar certificates of deposit having the index maturity specified in your pricing supplement, as published in H.15(519) under the heading CDs (Secondary Market) . If the CD rate cannot be determined in this manner, the following procedures will apply.

If the rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the CD rate will be the rate, for the relevant interest determination date, described above as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading CDs (Secondary Market).

If the rate described above does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the CD rate will be the arithmetic mean of the following secondary market offered rates for negotiable U.S. dollar certificates of deposit of major U.S. money market banks with a remaining maturity closest to the specified index maturity, and in a representative amount: the rates offered as of 10:00 A.M., New York City time, on the relevant interest determination date, by three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in New York City, as selected by the calculation agent.

If fewer than three dealers selected by the calculation agent are quoting as described above, the CD rate in effect for the new interest period will be the CD rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

CMT Rate Notes

If you purchase a CMT rate note, your note will bear interest at an interest rate equal to the CMT rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

The CMT rate will be the following rate displayed on the designated ***CMT Moneyline Telerate page*** under the heading . . . Treasury Constant Maturities . . . Federal Reserve Board Release H.15 Mondays Approximately 3:45 P.M., under the column for the ***designated CMT index maturity***:

if the designated CMT Moneyline Telerate page is Telerate page 7051, the rate for the relevant interest determination date; or

if the designated CMT Moneyline Telerate page is Telerate page 7052, the weekly or monthly average, as specified in your pricing supplement, for the week that ends immediately before the week in which the relevant interest determination date falls, or for the month that ends immediately before the month in which the relevant interest determination date falls, as applicable.

If the CMT rate cannot be determined in this manner, the following procedures will apply.

If the applicable rate described above is not displayed on the relevant designated CMT Moneyline Telerate page at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

that source at that time, then the CMT rate will be the applicable treasury constant maturity rate described above i.e., for the designated CMT index maturity and for either the relevant interest determination date or the weekly or monthly average, as applicable as published in H.15(519).

If the applicable rate described above does not appear in H.15(519) at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the CMT rate will be the treasury constant

Table of Contents

maturity rate, or other U.S. treasury rate, for the designated CMT index maturity and with reference to the relevant interest determination date, that:

is published by the Board of Governors of the Federal Reserve System, or the U.S. Department of the Treasury; *and*

is determined by the calculation agent to be comparable to the applicable rate formerly displayed on the designated CMT Moneyline Telerate page and published in H.15(519).

If the rate described in the prior paragraph does not appear at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the CMT rate will be the yield to maturity of the arithmetic mean of the following secondary market bid rates for the most recently issued treasury notes having an original maturity of approximately the designated CMT index maturity and a remaining term to maturity of not less than the designated CMT index maturity *minus* one year, and in a representative amount: the bid rates, as of approximately 3:30 P.M., New York City time, on the relevant interest determination date, of three primary U.S. government securities dealers in New York City selected by the calculation agent. In selecting these bid rates, the calculation agent will request quotations from five of these primary dealers and will disregard the highest quotation or, if there is equality, one of the highest and the lowest quotation or, if there is equality, one of the lowest. Treasury notes are direct, non-callable, fixed rate obligations of the U.S. government.

If the calculation agent is unable to obtain three quotations of the kind described in the prior paragraph, the CMT rate will be the yield to maturity of the arithmetic mean of the following secondary market bid rates for treasury notes with an original maturity longer than the designated CMT index maturity, with a remaining term to maturity closest to the designated CMT index maturity and in a representative amount: the bid rates, as of approximately 3:30 P.M., New York City time, on the relevant interest determination date, of three primary U.S. government securities dealers in New York City selected by the calculation agent. In selecting these bid rates, the calculation agent will request quotations from five of these primary dealers and will disregard the highest quotation or, if there is equality, one of the highest and the lowest quotation or, if there is equality, one of the lowest. If two treasury notes with an original maturity longer than the designated CMT index maturity have remaining terms to maturity that are equally close to the designated CMT index maturity, the calculation agent will obtain quotations for the treasury note with the shorter remaining term to maturity.

If fewer than five but more than two of these primary dealers are quoting as described in the prior paragraph, then the CMT rate for the relevant interest determination date will be based on the arithmetic mean of the bid rates so obtained, and neither the highest nor the lowest of those quotations will be disregarded.

If two or fewer primary dealers selected by the calculation agent are quoting as described above, the CMT rate in effect for the new interest period will be the CMT rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

Federal Funds Rate Notes

If you purchase a federal funds rate note, your note will bear interest at an interest rate equal to the federal funds rate and adjusted by the spread or spread multiplier, if any, indicated in your pricing supplement.

The federal funds rate will be the rate for U.S. dollar federal funds on the relevant interest determination date, as published in H.15 (519) under the heading Federal Funds (Effective) , as that rate is

Table of Contents

displayed on Telerate page 120. If the federal funds rate cannot be determined in this manner, the following procedures will apply.

If the rate described above is not displayed on Telerate page 120 at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from that source at that time, then the federal funds rate, for the relevant interest determination date, will be the rate described above as published in H.15 daily update, or another recognized electronic source used for displaying that rate, under the heading Federal Funds (Effective) .

If the rate described above is not displayed on Telerate page 120 and does not appear in H.15(519), H.15 daily update or another recognized electronic source at 3:00 P.M., New York City time, on the relevant interest calculation date, unless the calculation is made earlier and the rate is available from one of those sources at that time, the federal funds rate will be the arithmetic mean of the rates for the last transaction in overnight, U.S. dollar federal funds arranged, before 9:00 A.M., New York City time, on the relevant interest determination date, by three leading brokers of U.S. dollar federal funds transactions in New York City selected by the calculation agent.

If fewer than three brokers selected by the calculation agent are quoting as described above, the federal funds rate in effect for the new interest period will be the federal funds rate in effect for the prior interest period. If the initial interest rate has been in effect for the prior interest period, however, it will remain in effect for the new interest period.

If fewer than five but more than two of these primary dealers are quoting as described in the prior paragraph, then the CMT rate for the relevant interest determination date will be based on the arithmetic mean of the offered rates so obtained, and neither the highest nor the lowest of those quotations will be disregarded.

Special Rate Calculation Terms

In this subsection entitled Interest Rates , we use several terms that have special meanings relevant to calculating floating interest rates. We define these terms as follows:

The term ***bond equivalent yield*** means a yield expressed as a percentage and calculated in accordance with the following formula:

$$\text{bond equivalent yield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

where

D means the annual rate for treasury bills quoted on a bank discount basis and expressed as a decimal;

N means 365 or 366, as the case may be; and

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

M means the actual number of days in the applicable interest reset period.

The term **business day** means, for any note, a day that meets all the following applicable requirements:

for all notes, is a Monday, Tuesday, Wednesday, Thursday or Friday that is not a day on which banking institutions in New York City generally are authorized or obligated by law, regulation or executive order to close;

if the note is a LIBOR note, is also a London business day;

if the note has a specified currency other than U.S. dollars or euros, is also a day on which banking institutions are not authorized or obligated by law, regulation or executive order to close in the principal financial center of the country issuing the specified currency; and

Table of Contents

if the note is a EURIBOR note or has a specified currency of euros, or is a LIBOR note for which the index currency is euros, is also a TARGET business day.

The term ***designated CMT index maturity*** means the index maturity for a CMT rate note and will be the original period to maturity of a U.S. treasury security either 1, 2, 3, 5, 7, 10, 20 or 30 years specified in the applicable pricing supplement.

The term ***designated CMT Moneyline Telerate page*** means the Telerate page mentioned in the relevant pricing supplement that displays treasury constant maturities as reported in H.15(519). If no Telerate page is so specified, then the applicable page will be Telerate page 7052. If Telerate page 7052 applies but the relevant pricing supplement does not specify whether the weekly or monthly average applies, the weekly average will apply.

The term ***euro business day*** means any day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System, or any successor system, is open for business.

The term ***euro-zone*** means, at any time, the region comprised of the member states of the European Economic and Monetary Union that, as of that time, have adopted a single currency in accordance with the Treaty on European Union of February 1992.

H.15(519) means the weekly statistical release entitled Statistical Release H.15 (519) , or any successor publication, published by the Board of Governors of the Federal Reserve System.

H.15 daily update means the daily update of H.15(519) available through the worldwide website of the Board of Governors of the Federal Reserve System, at <http://www.federalreserve.gov/releases/h15/update>, or any successor site or publication.

The term ***index currency*** means, with respect to a LIBOR note, the currency specified as such in the relevant pricing supplement. The index currency may be U.S. dollars or any other currency, and will be U.S. dollars unless another currency is specified in the relevant pricing supplement.

The term ***index maturity*** means, with respect to a floating rate note, the period to maturity of the instrument or obligation on which the interest rate formula is based, as specified in the applicable pricing supplement.

London business day means any day on which dealings in the relevant index currency are transacted in the London interbank market.

The term ***money market yield*** means a yield expressed as a percentage and calculated in accordance with the following formula:

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

$$\text{money market yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

where

D means the annual rate for commercial paper quoted on a bank discount basis and expressed as a decimal; and

M means the actual number of days in the relevant interest reset period.

The term *representative amount* means an amount that, in the calculation agent's judgment, is representative of a single transaction in the relevant market at the relevant time.

Table of Contents

Reuters screen LIBOR page means the display on the Reuters Monitor Money Rates Service, or any successor service, on the page designated as LIBO or any replacement page or pages on which London interbank rates of major banks for the relevant index currency are displayed.

Reuters screen US PRIME 1 page means the display on the US PRIME 1 page on the Reuters Monitor Money Rates Service, or any successor service, or any replacement page or pages on that service, for the purpose of displaying prime rates or base lending rates of major U.S. banks.

Telerate LIBOR page means Telerate page 3750 or any replacement page or pages on which London interbank rates of major banks for the relevant index currency are displayed.

Telerate page means the display on Moneyline Telerate, or any successor service, on the page or pages specified in this prospectus or the relevant pricing supplement, or any replacement page or pages on that service.

If, when we use the terms designated CMT Moneyline Telerate page, H.15(519), H.15 daily update, Reuters screen LIBOR page, Reuters screen US PRIME 1 page, Telerate LIBOR page or Telerate page, we refer to a particular heading or headings on any of those pages, those references include any successor or replacement heading or headings as determined by the calculation agent.

Payment of Additional Amounts to United States Aliens

Wachovia will, subject to certain exceptions and limitations listed below (unless otherwise specified in any pricing supplement), pay to the holder of any note who is a United States Alien (as defined below), as additional interest, certain amounts (Additional Amounts) as may be necessary so that every net payment on that note (including payment of the principal of and interest on that note) by Wachovia or a paying agent, after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon or as a result of such payment by the United States (or any political subdivision or taxing authority of or in the United States), will not be less than the amount provided in that note to be then due and payable; this obligation to pay Additional Amounts, however, will not apply to:

(a) any tax, assessment or other governmental charge that would not have been so imposed but for (i) the existence of any present or former connection between the holder or beneficial owner of that note (or between a fiduciary, settlor or beneficiary of, or a person holding a power over, that holder, if that holder is an estate or a trust, or a member or shareholder of that holder, if that holder is a partnership or corporation) and the United States or any political subdivision or taxing authority, including but not limited to that holder (or the fiduciary, settlor, beneficiary, person holding a power, member or shareholder) being or having been a citizen or resident of the United States or treated as a resident of the United States or being or having been engaged in a trade or business in the United States or present in the United States or having or having had a permanent establishment in the United States or (ii) that holder's or beneficial owner's past or present status as a personal holding company, foreign personal holding company, foreign private foundation or other foreign tax-exempt organization relating to the United States, controlled foreign corporation for United States tax purposes or corporation that accumulates earnings to avoid United States Federal income tax;

(b) any estate, inheritance, gift, excise, sales, transfer, wealth or personal property tax or any similar tax, assessment or other governmental charge;

(c) any tax, assessment or other governmental charge that would not have been imposed but for the presentation by the holder of a note for payment more than 30 days after the date on which that payment became due and payable or the date on which payment on that note was duly provided for, whichever occurred later;

(d) any tax, assessment or other governmental charge that is payable otherwise than by withholding from a payment on a note;

Table of Contents

(e) any tax, assessment or other governmental charge required to be withheld by any paying agent from a payment on a note, if that payment can be made without that withholding by any other paying agent;

(f) any tax, assessment or other governmental charge that would not have been imposed but for a failure to comply with applicable certification, information, documentation, identification or other reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of a note if that compliance is required by statute or regulation of the United States or by an applicable tax treaty to which the United States is a party as a precondition to relief or exemption from that tax, assessment or other governmental charge;

(g) any tax, assessment or other governmental charge imposed on a holder that actually or constructively owns 10 percent or more of the combined voting power of all classes of Wachovia's stock;

(h) any withholding or deduction imposed pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 or any law or regulation implementing such directive; or

(i) any combination of items (a), (b), (c), (d), (e), (f), (g) and (h);

nor shall Additional Amounts be paid in relation to a payment on a note to a holder that is a fiduciary or partnership or other than the sole beneficial owner of that payment to the extent a beneficiary or settlor with respect to that fiduciary or a member of that partnership or a beneficial owner would not have been entitled to Additional Amounts (or payment of Additional Amounts would not have been necessary) had that beneficiary, settlor, member or beneficial owner been the holder of that note.

For the purposes of this discussion, a United States Alien means any person who, for United States Federal income tax purposes, is a foreign corporation, a non-resident alien individual, a non-resident alien fiduciary of a foreign estate or trust, or a foreign partnership one or more of the members of which is, for United States Federal income tax purposes, a foreign corporation, a non-resident alien individual or a non-resident alien fiduciary, of a foreign estate or trust. United States means the United States of America (including the States and the District of Columbia) and its territories, its possessions and other areas that come under its jurisdiction.

Redemption for Tax Purposes

If (a) as a result of any change in the laws, regulations or rulings of the United States (or any political subdivision or taxing authority of or in the United States), or any change in the official application (including a ruling by a court of competent jurisdiction in the United States) or interpretation of those laws, regulations or rulings, which change or amendment is announced or becomes effective on or after the consummation of any offering of the notes, Wachovia is obligated to pay Additional Amounts as described above or (b) any act is taken by a taxing authority of the United States on or after the consummation of any offering of the notes, whether or not this act is taken in relation to Wachovia or any affiliate, that results in a substantial likelihood that Wachovia will or may be required to pay these Additional Amounts, then Wachovia may, at its option, redeem, as a whole, but not in part, the notes on not less than 30 nor more than 60 days prior notice, at a redemption price equal to 100% of their principal amount, together with accrued interest to the date fixed for redemption; provided that Wachovia determines, in its business judgment, that the obligation to pay these Additional Amounts cannot be avoided by the use of reasonable measures available to it, not including substitution of the obligor under the notes or any action that would entail a material cost to Wachovia. No redemption under (b) above

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

may be made unless Wachovia shall have received an opinion of independent counsel to the effect that an act taken by a taxing authority of the United States results in a substantial likelihood that it will or may be required to pay Additional Amounts described above and Wachovia shall have delivered to the Trustee a certificate, signed by a duly authorized officer, saying that based on this opinion Wachovia is entitled to redeem the notes according to their terms.

Table of Contents

Other Provisions; Addenda

Any provisions relating to the notes, including the determination of the interest rate basis, calculation of the interest rate applicable to a floating rate note, its interest payment dates, any redemption or repayment provisions, or any other term relating thereto, may be modified and/or supplemented by the terms as specified under **Other Provisions** on the face of the applicable notes or in an Addendum relating to the applicable notes, if so specified on the face of the applicable notes, and, in each case, in the relevant pricing supplement.

Subordination of the Subordinated Notes

Wachovia's obligations to make any payment of the principal and interest on any subordinated notes will, to the extent the subordinated indenture specifies, be subordinate and junior in right of payment to all of Wachovia's senior indebtedness. Unless otherwise specified in the pricing supplement relating to a specific series of subordinated notes, Wachovia's senior indebtedness is defined in the subordinated indenture to mean the principal of, premium and interest, if any, on

all Wachovia indebtedness for money borrowed, including indebtedness Wachovia guarantees, other than the subordinated notes, whether outstanding on the date of execution of the indenture or incurred afterward, except

any obligations on account of Existing Subordinated Indebtedness and

indebtedness as is by its terms expressly stated to be not superior in payment right to the subordinated notes or to rank equal to the subordinated notes and

any deferrals, renewals or extensions of any such senior indebtedness. (*Section 101* of the subordinated indenture)

The payment of the principal and interest on the subordinated notes will, to the extent described in the subordinated indenture, be subordinated in payment right to the prior payment of all senior indebtedness. Unless otherwise described in the pricing supplement relating to the specific series of subordinated notes, in certain events of insolvency, the payment of the principal and interest on the subordinated notes, other than subordinated notes that are also Existing Subordinated Indebtedness, will, to the extent described in the subordinated indenture, also be effectively subordinated in payment right to the prior payment of all Other Financial Obligations. Upon any payment or distribution of assets to creditors under Wachovia's liquidation, dissolution, winding up, reorganization, assignment for the benefit of creditors, or any bankruptcy, insolvency or similar proceedings, all senior indebtedness holders will be entitled to receive payment in full of all amounts due before the subordinated note holders will be entitled to receive any payment in respect of the principal or interest on their securities. If upon any such payment or asset distribution to creditors, there remains, after giving effect to those subordination provisions in favor of senior indebtedness holders, any amount of cash, property or securities available for payment or distribution in respect of subordinated notes (defined in the subordinated indenture as **Excess Proceeds**) and if, at that time, any Entitled Persons (as defined below) in respect of Other Financial Obligations have not received payment of all amounts due on such Other Financial Obligations, then such Excess Proceeds shall first be applied to pay these Other Financial Obligations before any payment may be applied to the subordinated notes which are not Existing Subordinated Indebtedness. In the event of the acceleration of the maturity of any subordinated notes, all senior indebtedness holders will be entitled to receive payment of all amounts due before the subordinated note holders will be entitled to receive any payment upon the principal of or interest on their subordinated notes. (*Sections 1403, 1404 and 1413* of the subordinated indenture)

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

By reason of such subordination in favor of senior indebtedness holders, in the event of insolvency, Wachovia's creditors who are not senior indebtedness holders or subordinated note holders may recover less, ratably, than senior indebtedness holders and may recover more, ratably, than subordinated note holders. By

Table of Contents

reason of subordinated note holders (other than Existing Subordinated Indebtedness) to pay over any Excess Proceeds to Entitled Persons in respect to Other Financial Obligations, in the event of insolvency, Existing Subordinated Indebtedness holders may recover less, ratably, than Entitled Persons in respect of Other Financial Obligations and may recover more, ratably, than the subordinated note holders (other than Existing Subordinated Indebtedness).

Unless otherwise specified in the pricing supplement relating to the particular subordinated notes series offered by it, Existing Subordinated Indebtedness means subordinated notes issued under the subordinated indenture prior to November 15, 1992. (*Section 101* of the subordinated indenture)

Unless otherwise specified in the pricing supplement relating to the particular subordinated notes series offered by it, Other Financial Obligations means all obligations of Wachovia to make payment under the terms of financial instruments, such as

securities contracts and foreign currency exchange contracts;

derivative instruments such as

swap agreements (including interest rate and foreign exchange rate swap agreements);

cap agreements;

floor agreements;

collar agreements;

interest rate agreements;

foreign exchange rate agreements;

options;

commodity futures contracts;

commodity option contracts; and

similar financial instruments other than

obligations on account of senior indebtedness; and

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

obligations on account of indebtedness for money borrowed ranking equal or subordinate to the subordinated notes.
(*Section 101* of the subordinated indenture)

Unless otherwise described in the pricing supplement relating to a specific series of subordinated notes, *Entitled Persons* means any person who is entitled to payment under the terms of Other Financial Obligations. (*Section 101* of the subordinated indenture)

Wachovia's obligations under the subordinated notes shall rank equal in right of payment with each other and with the Existing Subordinated Indebtedness, subject, unless otherwise described in the pricing supplement relating to a specific series of subordinated notes, to the obligations of subordinated note holders (other than Existing Subordinated Indebtedness) to pay over any Excess Proceeds to Entitled Persons in respect of Other Financial Obligations as provided in the subordinated indenture. (*Section 1413* of the subordinated indenture)

The relevant pricing supplement may further describe the provisions, if any, applicable to the subordination of the subordinated notes of a particular series.

Table of Contents

Defaults

The Senior Indenture

The senior indenture defines an event of default as

default in any principal or premium payment on any senior note of that series at maturity;

default for 30 days in interest payment of any senior note of that series;

failure to deposit any sinking fund payment when due in respect of that series;

Wachovia's failure for 60 days after notice in performing any other covenants or warranties in the senior indenture (other than a covenant or warranty solely for the benefit of other senior notes series);

failure to pay when due any Wachovia indebtedness or Wachovia Bank, N.A. indebtedness in excess of \$5,000,000, or maturity acceleration of any indebtedness exceeding that amount if acceleration results from a default under the instrument giving rise to that indebtedness and is not annulled within 30 days after due notice;

Wachovia's or Wachovia Bank, N.A.'s bankruptcy, insolvency or reorganization; and

any other event of default provided for senior notes of that series. (*Section 501*)

The senior indenture provides that, if any event of default for senior notes of any series outstanding occurs and is continuing, either the senior trustee or the holders of not less than 25% in principal amount of the outstanding senior notes of that series may declare the principal amount (or, if the notes of that series are original issue discount notes, such principal amount portion as the terms of that series specify) of all senior notes of that series to be due and payable immediately. However, no such declaration is required upon certain bankruptcy events. In addition, upon fulfillment of certain conditions, this declaration may be annulled and past defaults waived by the holders of a majority in principal amount of the outstanding senior notes of that series on behalf of all senior note holders of that series. (*Sections 502 and 513*) In the event of Wachovia's bankruptcy, insolvency or reorganization, senior note holders' claims would fall under the broad equity power of a federal bankruptcy court, and to that court's determination of the nature of those holders' rights.

The senior indenture contains a provision entitling the senior trustee, acting under the required standard of care, to be indemnified by the holders of any outstanding senior note series before proceeding to exercise any right or power under the senior indenture at the holders' request. (*Section 603*) The holders of a majority in principal amount of outstanding senior notes of any series may direct the time, method and place of conducting any proceeding for any remedy available to the senior trustee, or exercising any trust or other power conferred on the senior trustee, with respect to the senior notes of such series. The senior trustee, however, may decline to act if that direction is contrary to law or the senior indenture or would involve the senior trustee in personal liability. (*Section 512*)

Wachovia will file annually with the senior trustee a compliance certificate as to all conditions and covenants in the senior indenture. (*Section 1007*)

The Subordinated Indenture

Subordinated notes principal payment may be accelerated only upon an event of default. There is no acceleration right in the case of a default in the payment of interest or principal prior to the maturity date or a default in Wachovia performing any covenants in the subordinated indenture, unless a specific series of subordinated notes provide otherwise, which will be described in the relevant pricing supplement.

Table of Contents

The subordinated indenture defines an event of default as certain events involving Wachovia's bankruptcy, insolvency or reorganization and any other event of default provided for the subordinated notes of that series. (*Section 501*) The subordinated indenture defines a default to include

any event of default;

a default in any principal or premium payment of any subordinated debt security of that series at maturity;

default in any interest payment when due and continued for 30 days;

a default in any required designation of funds as available funds ; or

default in the performance, or breach, of Wachovia's covenants in the subordinated indenture or in the subordinated notes of that series and continued for 90 days after written notice to

Wachovia by the subordinated trustee; or

Wachovia and the subordinated trustee by the holders of not less than 25% in aggregate principal amount of the outstanding subordinated notes of that series. (*Section 503*)

If an event of default for subordinated notes of any series occurs and is continuing, either the subordinated trustee or the holders of not less than 25% in aggregate principal amount of the outstanding subordinated notes of that series may accelerate the maturity of all outstanding subordinated notes of such series. The holders of a majority in aggregate principal amount of the outstanding subordinated notes of that series may waive an event of default resulting in acceleration of the subordinated notes of such series, but only if all events of default have been remedied and all payments due on the subordinated notes of that series (other than those due as a result of acceleration) have been made and certain other conditions have been met. (*Section 502*) Subject to subordinated indenture provisions relating to the subordinated trustee's duties, in case a default shall occur and be continuing, the subordinated trustee will be under no obligation to exercise any of its rights or powers under the subordinated indenture at the holders' request or direction, unless such holders shall have offered to the subordinated trustee reasonable indemnity. (*Section 603*) Subject to such indemnification provisions, the holders of a majority in aggregate principal amount of the outstanding subordinated notes of that series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the subordinated trustee or exercising any trust or power conferred on the subordinated trustee. (*Section 512*) The holders of a majority in aggregate principal amount of the outstanding subordinated notes of that series may waive any past default under the subordinated indenture with respect to such series, except a default in principal or interest payment or a default of a subordinated indenture covenant which cannot be modified without the consent of each outstanding subordinated note holder of the series affected. (*Section 513*) In the event of Wachovia's bankruptcy, insolvency or reorganization, subordinated note holders' claims would fall under the broad equity power of a federal bankruptcy court, and to that court's determination of the nature of those holders' rights.

Wachovia will file annually with the subordinated trustee a compliance certificate as to all conditions and covenants in the subordinated indenture. (*Section 1007*)

Modification and Waiver

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Each indenture may be modified and amended by Wachovia and the relevant trustee. Certain modifications and amendments require the consent of the holders of at least a majority in aggregate principal amount of the outstanding notes of each series issued under that indenture and affected by the modification or amendment. No such modification or amendment may, without the consent of the holder of each outstanding note issued under such indenture and affected by it

change the stated maturity of the principal, or any installment of principal or interest, on any outstanding note;

Table of Contents

reduce any principal amount, premium or interest, on any outstanding note, including in the case of an original issue discount note the amount payable upon acceleration of the maturity of that note;

change the place of payment where, or the coin or currency or currency unit in which, any principal, premium or interest, on any outstanding note is payable;

impair the right to institute suit for the enforcement of any payment on or after the stated maturity, or in the case of redemption, on or after the redemption date;

reduce the above-stated percentage of outstanding notes necessary to modify or amend the applicable indenture; or

modify the above requirements or reduce the percentage of aggregate principal amount of outstanding notes of any series required to be held by holders seeking to waive compliance with certain provisions of the relevant indenture or seeking to waive certain defaults. (*Section 902*)

The holders of at least a majority in aggregate principal amount of the outstanding notes of any series may on behalf of all outstanding note holders of that series waive, insofar as that series is concerned, Wachovia's compliance with certain restrictive provisions of the relevant indenture. (*Section 1008*) The holders of at least a majority in aggregate principal amount of the outstanding notes of any series may on behalf of all outstanding note holders of that series waive any past default under the relevant indenture with respect to that series, except a default in the payment of the principal, or premium, if any, or interest on any outstanding note of that series or in respect of an indenture covenant which cannot be modified or amended without each outstanding note holder consenting. (*Section 513*)

Certain modifications and amendments of each indenture may be made by Wachovia and the relevant trustee without the outstanding note holders consenting. (*Section 901*)

Each indenture provides that in determining whether the holders of the requisite principal amount of the outstanding notes have given any request, demand, authorization, direction, notice, consent or waiver under that indenture or are present at a meeting of holders of outstanding notes for quorum purposes

the principal amount of an original issue discount note that shall be deemed to be outstanding shall be the amount of the principal that would be due and payable as of the date of such determination upon acceleration of its maturity; and

the principal amount of outstanding notes denominated in a foreign currency or currency unit shall be the U.S. dollar equivalent, determined on the date of original issuance of that outstanding note, of the principal amount of that outstanding note or, in the case of an original issue discount note, the U.S. dollar equivalent, determined on the date of original issuance of such outstanding note, of the amount determined as provided in the above bullet-point. (*Section 101*)

Consolidation, Merger and Sale of Assets

The indentures each provide that Wachovia may not consolidate with or merge into any other corporation or transfer its properties and assets substantially as an entirety to any person unless

the corporation formed by the consolidation or into which Wachovia is merged, or the person to which Wachovia's properties and assets are so transferred, shall be a corporation organized and existing under the laws of the U.S., any state or Washington, D.C. and shall expressly assume by supplemental indenture the payment of any principal, premium or interest on the notes, and the performance of Wachovia's other covenants under the relevant indenture;

Table of Contents

immediately after giving effect to this transaction, no event of default or default, as applicable, and no event which, after notice or lapse of time or both, would become an event of default or default, as applicable, shall have occurred and be continuing; and

certain other conditions are met. (Section 801)

Limitation on Disposition of Wachovia Bank, N.A. Stock

The indentures each contain Wachovia's covenant that, so long as any of the debt securities issued under that indenture before August 1, 1990 are outstanding, but subject to Wachovia's rights in connection with its consolidation with or merger into another corporation or a sale of Wachovia's assets, it will not sell, assign, transfer, grant a security interest in or otherwise dispose of any shares of, securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, Wachovia Bank, N.A. voting stock, nor will it permit Wachovia Bank, N.A. to issue any shares of, or securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, Wachovia Bank, N.A. voting stock, unless

any such sale, assignment, transfer, issuance, grant of a security interest or other disposition is made for fair market value, as determined by Wachovia's board; and

Wachovia will own at least 80% of the issued and outstanding Wachovia Bank, N.A. voting stock free and clear of any security interest after giving effect to such transaction. (Section 1006)

The above covenant is not a covenant for the benefit of any series of notes issued on or after August 1, 1990.

Restriction on Sale or Issuance of Voting Stock of Major Subsidiary Bank

With respect to the senior notes, the senior indenture contains Wachovia's covenant that it will not, and will not permit any subsidiary to, sell, assign, transfer, grant a security interest in, or otherwise dispose of, any shares of voting stock, or any securities convertible into shares of voting stock, of any Major Subsidiary Bank (as defined below) or any subsidiary owning, directly or indirectly, any shares of voting stock of any Major Subsidiary Bank and that it will not permit any Major Subsidiary Bank or any subsidiary owning, directly or indirectly, any shares of voting stock of a Major Subsidiary Bank to issue any shares of its voting stock or any securities convertible into shares of its voting stock, except for sales, assignments, transfers or other dispositions which

are for the purpose of qualifying a person to serve as a director;

are for fair market value, as determined by Wachovia's board, and, after giving effect to such dispositions and to any potential dilution, Wachovia will own not less than 80% of the shares of voting stock of such Major Subsidiary Bank or any such subsidiary owning any shares of voting stock of such Major Subsidiary Bank;

are made

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

in compliance with court or regulatory authority order; or

in compliance with a condition imposed by any such court or authority permitting Wachovia's acquisition of any other bank or entity; or

in compliance with an undertaking made to such authority in connection with such an acquisition; provided, in the case of the two preceding bullet-points, the assets of the bank or entity being acquired and its consolidated subsidiaries equal or exceed 75% of the assets of such Major Subsidiary Bank or such subsidiary owning, directly or indirectly, any shares of voting stock of a Major Subsidiary Bank and its respective consolidated subsidiaries on the date of acquisition; or

to Wachovia or any wholly-owned subsidiary.

Table of Contents

Despite the above requirements, any Major Subsidiary Bank may be merged into or consolidated with another banking institution organized under U.S. or state law, if after giving effect to that merger or consolidation Wachovia or any wholly-owned subsidiary owns at least 80% of the voting stock of the other banking institution free and clear of any security interest and if, immediately after the merger or consolidation, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have happened and be continuing. (Section 1007) A Major Subsidiary Bank is defined in each indenture to mean any subsidiary which is a bank and has total assets equal to 25% or more of Wachovia's consolidated assets determined on the date of the most recent audited financial statements of these entities. At present, the Major Subsidiary Bank is Wachovia Bank, N.A.

The above covenant is not a covenant for the benefit of any series of debt securities issued before August 1, 1990, or, in the case of subordinated debt securities including the subordinated notes, issued after November 15, 1992.

Form, Exchange and Transfer

If the notes cease to be issued in global form, they will be issued:

only in fully registered form;

without interest coupons; and

unless we indicate otherwise in your pricing supplement, in denominations of \$1,000 and that are multiples of \$1,000.

Holders may exchange their notes for notes of smaller denominations or combined into fewer notes of larger denominations, as long as the total principal amount is not changed.

Holders may exchange or transfer their notes at the office of the relevant trustee, or in the event definitive notes are issued and so long as the notes are listed on the Luxembourg Stock Exchange, at the offices of the paying agent. We have appointed the respective trustees to act as our agents for registering notes in the names of holders and transferring notes. We may appoint another entity to perform these functions or perform them ourselves.

Holders will not be required to pay a service charge to transfer or exchange their notes, but they may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The transfer or exchange will be made only if our transfer agent is satisfied with the holder's proof of legal ownership.

If we have designated additional transfer agents for your note, they will be named in your pricing supplement. We may appoint additional transfer agents or cancel the appointment of any particular transfer agent. We may also approve a change in the office through which any transfer agent acts.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

If any notes are redeemable and we redeem less than all those notes, we may block the transfer or exchange of those notes during the period beginning 15 days before the day we mail the notice of redemption and ending on the day of that mailing, in order to freeze the list of holders to prepare the mailing. We may also refuse to register transfers of or exchange any note selected for redemption, except that we will continue to permit transfers and exchanges of the unredeemed portion of any note being partially redeemed.

If a note is issued as a global note, only the depository (e.g., DTC, Euroclear and Clearstream) will be entitled to transfer and exchange the note as described in this subsection, since it will be the sole holder of the note.

Table of Contents

Payment Mechanics

Who Receives Payment?

If interest is due on a note on an interest payment date, we will pay the interest to the person or entity in whose name the note is registered at the close of business on the regular record date relating to the interest payment date. If interest is due at maturity but on a day that is not an interest payment date, we will pay the interest to the person or entity entitled to receive the principal of the note. If principal or another amount besides interest is due on a note at maturity, we will pay the amount to the holder of the note against surrender of the note at a proper place of payment (or, in the case of a global note, in accordance with the applicable policies of the depositary).

How We Will Make Payments Due in U.S. Dollars

We will follow the practice described in this subsection when paying amounts due in U.S. dollars. Payments of amounts due in other currencies will be made as described in the next subsection.

Payments on Global Notes. We will make payments on a global note in accordance with the applicable policies of the depositary as in effect from time to time. Under those policies, we will pay directly to the depositary, or its nominee, and not to any indirect holders who own beneficial interests in the global note. An indirect holder's right to receive those payments will be governed by the rules and practices of the depositary and its participants, as described under Global Notes and Global Notes .

Payments on Non-Global Notes. We will make payments on a note in non-global form as follows. We will pay interest that is due on an interest payment date by check mailed on the interest payment date to the holder at his or her address shown on the trustee's records as of the close of business on the regular record date. We will make all other payments by check at the paying agent described below, against surrender of the note. All payments by check will be made in next-day funds i.e., funds that become available on the day after the check is cashed.

Alternatively, if a non-global note has a face amount of at least \$1,000,000 and the holder asks us to do so, we will pay any amount that becomes due on the note by wire transfer of immediately available funds to an account at a bank in New York City, on the due date. To request wire payment, the holder must give the paying agent appropriate wire transfer instructions at least five business days before the requested wire payment is due. In the case of any interest payment due on an interest payment date, the instructions must be given by the person or entity who is the holder on the relevant regular record date. In the case of any other payment, payment will be made only after the note is surrendered to the paying agent. Any wire instructions, once properly given, will remain in effect unless and until new instructions are given in the manner described above.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive payments on their notes.

How We Will Make Payments Due In Other Currencies

We will follow the practice described in this subsection when paying amounts that are due in a specified currency other than U.S. dollars.

Payments on Global Notes. We will make payments on a global note in accordance with the applicable policies as in effect from time to time of the depositary, which will be DTC, Euroclear or Clearstream. Unless

Table of Contents

we specify otherwise in the applicable pricing supplement, DTC will be the depository for all notes in global form. We understand that DTC's policies, as currently in effect, are as follows.

Unless otherwise indicated in your pricing supplement, if you are an indirect holder of global notes denominated in a specified currency other than U.S. dollars and if you elect to receive payments in that other currency, you must notify the participant through which your interest in the global note is held of your election:

on or before the applicable regular record date, in the case of a payment of interest, or

on or before the 16th day prior to stated maturity, or any redemption or repayment date, in the case of payment of principal or any premium.

You may elect to receive all or only a portion of any interest, principal or premium payment in a specified currency other than U.S. dollars.

Your participant must, in turn, notify DTC of your election on or before the third DTC business day after that regular record date, in the case of a payment of interest, and on or before the 12th DTC business day prior to stated maturity, or on the redemption or repayment date if your note is redeemed or repaid earlier, in the case of a payment of principal or any premium.

DTC, in turn, will notify the paying agent of your election in accordance with DTC's procedures.

If complete instructions are received by the participant and forwarded by the participant to DTC, and by DTC to the paying agent, on or before the dates noted above, the paying agent, in accordance with DTC's instructions will make the payments to you or your participant by wire transfer of immediately available funds to an account maintained by the payee with a bank located in the country issuing the specified currency or in another jurisdiction acceptable to us and the paying agent.

If the foregoing steps are not properly completed, we expect DTC to inform the paying agent that payment is to be made in U.S. dollars. In that case, we or our agent will convert the payment to U.S. dollars in the manner described below under "Conversion to U.S. Dollars". We expect that we or our agent will then make the payment in U.S. dollars to DTC, and that DTC in turn will pass it along to its participants.

Indirect holders of a global note denominated in a currency other than U.S. dollars should consult their banks or brokers for information on how to request payment in the specified currency.

Payments on Non-Global Notes. Except as described in the last paragraph under this heading, we will make payments on notes in non-global form in the applicable specified currency. We will make these payments by wire transfer of immediately available funds to any account that is maintained in the applicable specified currency at a bank designated by the holder and is acceptable to us and the trustee. To designate an account for wire payment, the holder must give the paying agent appropriate wire instructions at least five business days before the requested wire payment is due. In the case of any interest payment due on an interest payment date, the instructions must be given by the person or entity who is the holder on the regular record date. In the case of any other payment, the payment will be made only after the note is surrendered to the

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

paying agent. Any instructions, once properly given, will remain in effect unless and until new instructions are properly given in the manner described above.

If a holder fails to give instructions as described above, we will notify the holder at the address in the trustee's records and will make the payment within five business days after the holder provides appropriate

Table of Contents

instructions. Any late payment made in these circumstances will be treated under the indenture as if made on the due date, and no interest will accrue on the late payment from the due date to the date paid.

Although a payment on a note in non-global form may be due in a specified currency other than U.S. dollars, we will make the payment in U.S. dollars if the holder asks us to do so. To request U.S. dollar payment, the holder must provide appropriate written notice to the trustee at least five business days before the next due date for which payment in U.S. dollars is requested. In the case of any interest payment due on an interest payment date, the request must be made by the person or entity who is the holder on the regular record date. Any request, once properly made, will remain in effect unless and until revoked by notice properly given in the manner described above.

Book-entry and other indirect holders of a note with a specified currency other than U.S. dollars should contact their banks or brokers for information about how to receive payments in the specified currency or in U.S. dollars.

Conversion to U.S. Dollars. When we are asked by a holder to make payments in U.S. dollars of an amount due in another currency, either on a global note or a non-global note as described above, the exchange rate agent described below will calculate the U.S. dollar amount the holder receives in the exchange rate agent's discretion.

A holder that requests payment in U.S. dollars will bear all associated currency exchange costs, which will be deducted from the payment.

When the Specified Currency is Not Available. If we are obligated to make any payment in a specified currency other than U.S. dollars, and the specified currency or any successor currency is not available to us due to circumstances beyond our control such as the imposition of exchange controls or a disruption in the currency markets we will be entitled to satisfy our obligation to make the payment in that specified currency by making the payment in U.S. dollars, on the basis of the exchange rate determined by the exchange rate agent described below, in its discretion.

The foregoing will apply to any note, whether in global or non-global form, and to any payment, including a payment at maturity. Any payment made under the circumstances and in a manner described above will not result in a default under any note or the relevant indenture.

Exchange Rate Agent. If we issue a note in a specified currency other than U.S. dollars, we will appoint a financial institution to act as the exchange rate agent and will name the institution initially appointed when the note is originally issued in the applicable pricing supplement. We may select Wachovia Bank, N.A. or another of our affiliates to perform this role. We may change the exchange rate agent from time to time after the original issue date of the note without your consent and without notifying you of the change.

All determinations made by the exchange rate agent will be at its sole discretion unless we state in the applicable pricing supplement that any determination requires our approval. In the absence of manifest error, those determinations will be conclusive for all purposes and binding on you and us, without any liability on the part of the exchange rate agent.

Payment When Offices Are Closed

If any payment is due on a note on a day that is not a business day, we will make the payment on the next day that is a business day. Payments postponed to the next business day in this situation will be treated under the relevant indenture as if they were made on the original due date. Postponement of this kind will not result in a default under any note or the indenture, and no interest will accrue on the postponed amount

Table of Contents

from the original due date to the next day that is a business day. The term business day has a special meaning, which we describe above under Interest Rates Special Rate Calculation Terms .

Paying Agent

We may appoint one or more financial institutions to act as our paying agents, at whose designated offices notes in non-global entry form may be surrendered for payment at their maturity. We call each of those offices a paying agent. We may add, replace or terminate paying agents from time to time. We may also choose to act as our own paying agent. Initially, we have appointed Wachovia Bank, N.A., at its corporate trust office in New York City or its headquarters in Charlotte, North Carolina, as the paying agent. We must notify you of changes in the paying agents.

Citibank, N.A., acting through its London office (or such other agent appointed in accordance with the Senior Indenture or the Subordinated Indenture, as the case may be), will act as London paying agent and London issuing agent.

In the event definitive notes are issued as described in this prospectus and as long as the notes are listed on the Luxembourg Stock Exchange, the holders of those notes will be able to receive payments and effect transfers at the offices of Dexia Banque Internationale à Luxembourg, Luxembourg or its successor as paying agent in Luxembourg relating to the notes. Each indenture provides for the replacement of a mutilated, lost, stolen or destroyed definitive note, so long as the applicant furnishes to Wachovia and the relevant trustee the security or indemnity required by them to save each of them harmless and any evidence of ownership of the note as they may require.

Dexia Banque Internationale à Luxembourg will act as a paying agent and transfer agent in Luxembourg in relation to the notes, and as long as the notes are listed on the Luxembourg Stock Exchange, Wachovia will maintain a paying agent and transfer agent in Luxembourg and any change in the Luxembourg paying agent and transfer agent will be published in Luxembourg in accordance with the second paragraph below under Notices .

Unclaimed Payments

Regardless of who acts as paying agent, all money paid by us to a paying agent that remains unclaimed at the end of two years after the amount is due to a holder will be repaid to us. After that two-year period, the holder may look only to us for payment and not to the relevant trustee, any other paying agent or anyone else.

Notices

Notices to be given to holders of a global note will be given only to the depositary, in accordance with its applicable policies as in effect from time to time. Notices to be given to holders of notes not in global form will be sent by mail to the respective addresses of the holders as they appear in the relevant trustee's records, and will be deemed given when mailed.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

As long as the notes are listed on the Luxembourg Stock Exchange and its rules require, we will also give notices to holders by publication in a daily newspaper of general circulation in Luxembourg. We expect that newspaper to be, but it need not be, the *Luxemburger Wort*. If publication in Luxembourg is not practical, we will make the publication elsewhere in Western Europe. By "daily newspaper" we mean a newspaper that is published on each day, other than a Saturday, Sunday or holiday, in Luxembourg or, when applicable, elsewhere in Western Europe. You will be presumed to have received these notices on the date we first publish them. If we are unable to give notice as described in this paragraph because the publication of any newspaper is suspended or it is otherwise impracticable for us to publish the notice, then we or the relevant trustee, acting on our instructions, will give holders notice in another form. That alternate form of notice will be sufficient notice to you.

Table of Contents

Neither the failure to give any notice to a particular holder, nor any defect in a notice given to a particular holder, will affect the sufficiency of any notice given to another holder.

Book-entry and other indirect holders should consult their banks or brokers for information on how they will receive notices.

Trustees

Either or both of the trustees may resign or be removed with respect to one or more series of notes and a successor trustee may be appointed to act with respect to that series. (*Section 610*) In the event that two or more persons are acting as trustee with respect to different series of notes, each such trustee shall be a trustee of a trust under the relevant indenture separate and apart from the trust administered by any other such trustee (*Section 611*), and any action to be taken by the trustee may then be taken by each such trustee with respect to, and only with respect to, the one or more series of notes for which it is trustee.

In the normal course of business, Wachovia and its subsidiaries conduct banking transactions with the trustees and their affiliates, and the trustees and their affiliates conduct banking transactions with Wachovia and its subsidiaries.

Title

Wachovia, the trustees and any of their agents may treat the registered owner of any note as the absolute owner of that security, whether or not that note is overdue and despite any notice to the contrary, for any purpose. See Global Notes .

Governing Law

The indentures and the notes will be governed by New York law.

Table of Contents

GLOBAL NOTES

We will issue each note in book-entry form only. Each note issued in book-entry form will be represented by a global note that we deposit with and register in the name of one or more financial institutions or clearing systems, or their nominees, which we select. A financial institution or clearing system that we select for this purpose is called the depository for that note. A note will usually have only one depository but it may have more.

Each series of notes will have one or more of the following as the depositories.

The Depository Trust Company, New York, New York, which is known as DTC ;

JPMorgan Chase Bank holding the notes on behalf of Euroclear Bank S.A./N.V., as operator of the Euroclear system, which is known as Euroclear ;

Citibank, N.A. holding the notes on behalf of Clearstream Banking, société anonyme, Luxembourg, which is known as Clearstream ; and

any other clearing system or financial institution named in the applicable pricing supplement.

The depositories named above may also be participants in one another's system. Thus, for example, if DTC is the depository for a global note, investors may hold beneficial interests in that note through Euroclear or Clearstream, as DTC participants. The depository or depositories for your notes will be named in your pricing supplement; if none is named, the depository will be DTC.

A global note may not be transferred to or registered in the name of anyone other than the depository or its nominee, unless special termination situations arise. We describe those situations below under Holder's Option to Obtain a Non-Global Note; Special Situations When a Global Note Will Be Terminated . As a result of these arrangements, the depository, or its nominee, will be the sole registered owner and holder of all notes represented by a global note, and investors will be permitted to own only indirect interests in a global note. Indirect interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depository or with another institution that does. Thus, an investor whose note is represented by a global note will not be a holder of the note, but only an indirect owner of an interest in the global note.

If the pricing supplement for a particular note indicates that the note will be issued in global form only, then the note will be represented by a global note at all times unless and until the global note is terminated. We describe the situations in which this can occur below under Holder's Option to Obtain a Non-Global Note; Special Situations When a Global Note Will Be Terminated . If termination occurs, we may issue the notes through another book-entry clearing system or decide that the notes may no longer be held through any book-entry clearing system.

DTC has informed Wachovia that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC participants deposit with DTC. DTC also facilitates the settlement among DTC participants of securities transactions,

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in DTC participants' accounts, thereby eliminating the need for physical movement of certificates. DTC participants include securities brokers and dealers, banks, trust companies and clearing corporations, and may include other organizations. DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, LLC and the National Association of Securities Dealers, Inc. Indirect access to the DTC system also is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and DTC participants are on file with the Commission.

Table of Contents

Special Considerations for Global Notes

As an indirect owner, an investor's rights relating to a global note will be governed by the account rules of the depositary and those of the investor's financial institution or other intermediary through which it holds its interest (e.g., Euroclear or Clearstream, if DTC is the depositary), as well as general laws relating to note transfers. We do not recognize this type of investor or any intermediary as a holder of notes and instead deal only with the depositary that holds the global note.

If notes are issued only in the form of a global note, an investor should be aware of the following:

An investor cannot cause the notes to be registered in his or her own name, and cannot obtain non-global certificates for his or her interest in the notes, except in the special situations we describe below;

An investor will be an indirect holder and must look to his or her own bank or broker for payments on the notes and protection of his or her legal rights relating to the note, as we describe above under "Description of the Notes We May Offer—Legal Ownership";

An investor may not be able to sell interests in the notes to some insurance companies and other institutions that are required by law to own their notes in non-book-entry form;

An investor may not be able to pledge his or her interest in a global note in circumstances where certificates representing the notes must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;

The depositary's policies will govern payments, deliveries, transfers, exchanges, notices and other matters relating to an investor's interest in a global note, and those policies may change from time to time. We and the relevant trustee will have no responsibility for any aspect of the depositary's policies, actions or records or ownership interests in a global note. We and the trustees also do not supervise the depositary in any way;

The depositary will require that those who purchase and sell interests in a global note within its book-entry system use immediately available funds and your broker or bank may require you to do so as well; and

Financial institutions that participate in the depositary's book-entry system and through which an investor holds its interest in the global notes, directly or indirectly, may also have their own policies affecting payments, deliveries, transfers, exchanges, notices and other matters relating to the notes, and those policies may change from time to time. For example, if you hold an interest in a global note through Euroclear or Clearstream, when DTC is the depositary, Euroclear or Clearstream, as applicable, will require those who purchase and sell interests in that note through them to use immediately available funds and comply with other policies and procedures, including deadlines for giving instructions as to transactions that are to be effected on a particular day. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the policies or actions or records of ownership interests of any of those intermediaries.

Holder's Option to Obtain a Non-Global Note; Special Situations When a Global Note Will Be Terminated

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

If we issue any series of notes in book-entry form but we choose to give the beneficial owners of that series the right to obtain non-global notes, any beneficial owner entitled to obtain non-global notes may do so by following the applicable procedures of the depositary for that series and that owner's bank, broker or other financial institution through which that owner holds its beneficial interest in the notes. If you are entitled to request a non-global certificate and wish to do so, you will need to allow sufficient lead time to enable us or our agent to prepare the requested certificate.

Table of Contents

In addition, in a few special situations described below, a global note will be terminated and interests in it will be exchanged for certificates in non-global form representing the notes it represented. After that exchange, the choice of whether to hold the notes directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in a global note transferred on termination to their own names, so that they will be holders. We have described the rights of holders and street name investors above under Description of the Notes We May Offer Legal Ownership .

Unless otherwise mentioned in the relevant pricing supplement, the special situations for termination of a global note are as follows:

if the depositary notifies Wachovia that it is unwilling, unable or no longer qualified to continue as depositary for that global note;

if Wachovia executes and delivers to the relevant trustee an order complying with the requirements of the relevant indenture that this global note shall be so exchangeable; or

if there has occurred and is continuing a default in the payment of any amount due in respect of the notes or an event of default or an event that, with the giving of notice or lapse of time, or both, would constitute an event of default with respect to these notes.

If a global note is terminated, only the depositary, and not we or the relevant trustee, is responsible for deciding the names of the institutions in whose names the notes represented by the global note will be registered and, therefore, who will be the holders of those notes.

Considerations Relating to Clearstream and Euroclear

Clearstream and Euroclear are securities clearance systems in Europe. Clearstream and Euroclear have informed Wachovia that Clearstream and Euroclear each hold securities for their customers and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. Clearstream and Euroclear provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream and Euroclear also deal with domestic securities markets in several countries through established depositary and custodial relationships. Clearstream and Euroclear have established an electronic bridge between their two systems across which their respective participants may settle trades with each other. Clearstream and Euroclear customers are world-wide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Clearstream and Euroclear is available to other institutions which clear through or maintain a custodial relationship with an account holder of either system.

Euroclear and Clearstream may be depositaries for a global note. In addition, if DTC is the depositary for a global note, Euroclear and Clearstream may hold interests in the global note as participants in DTC.

As long as any global note is held by Euroclear or Clearstream, as depositary, you may hold an interest in the global note only through an organization that participates, directly or indirectly, in Euroclear or Clearstream. If Euroclear or Clearstream is the depositary for a global note and there is no depositary in the United States, you will not be able to hold interests in that global note through any securities clearance system in the United States.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Payments, deliveries, transfers, exchanges, notices and other matters relating to the notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on one hand, and participants in DTC, on the other hand, when DTC is the depositary, would also be subject to DTC's rules and procedures.

Table of Contents

Special Timing Considerations for Transactions in Euroclear and Clearstream

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any notes held through those systems only on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the notes through these systems and wish to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, on a particular day may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interest between the U.S. and European clearing systems, and those transactions may settle later than would be the case for transactions within one clearing system.

Table of Contents

UNITED STATES TAXATION

This section describes the material United States federal income tax consequences of owning the notes we are offering. It is the opinion of Sullivan & Cromwell, counsel to Wachovia. It applies to you only if you hold your notes as capital assets for tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

a dealer in securities or currencies,

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings,

a bank,

a life insurance company,

a tax-exempt organization,

a person that owns notes that are a hedge or that are hedged against interest rate or currency risks,

a person that owns notes as part of a straddle or conversion transaction for tax purposes, or

a person whose functional currency for tax purposes is not the U.S. dollar.

This section deals only with notes that are due to mature 30 years or less from the date on which they are issued. The United States federal income tax consequences of owning notes that are due to mature more than 30 years from their date of issue will be discussed in an applicable pricing supplement. This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

Please consult your own tax advisor concerning the consequences of owning these notes in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

United States Holders

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of a note and you are:

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

a citizen or resident of the United States,

a domestic corporation,

an estate whose income is subject to United States federal income tax regardless of its source, or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If you are not a United States holder, this subsection does not apply to you and you should refer to [United States Alien Holders](#) below.

Payments of Interest

Except as described below in the case of interest on a discount note that is not qualified stated interest each as defined below under [Original Issue Discount - General](#), you will be taxed on any interest on your note, whether payable in U.S. dollars or a foreign currency, including a composite currency or basket of currencies other than U.S. dollars, as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for tax purposes.

Table of Contents

Cash Basis Taxpayers. If you are a taxpayer that uses the cash receipts and disbursements method of accounting for tax purposes and you receive an interest payment that is denominated in, or determined by reference to, a foreign currency, you must recognize income equal to the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether you actually convert the payment into U.S. dollars.

Accrual Basis Taxpayers. If you are a taxpayer that uses an accrual method of accounting for tax purposes, you may determine the amount of income that you recognize with respect to an interest payment denominated in, or determined by reference to, a foreign currency by using one of two methods. Under the first method, you will determine the amount of income accrued based on the average exchange rate in effect during the interest accrual period or, with respect to an accrual period that spans two taxable years, that part of the period within the taxable year.

If you elect the second method, you would determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period, or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year. Additionally, under this second method, if you receive a payment of interest within five business days of the last day of your accrual period or taxable year, you may instead translate the interest accrued into U.S. dollars at the exchange rate in effect on the day that you actually receive the interest payment. If you elect the second method it will apply to all debt instruments that you hold at the beginning of the first taxable year to which the election applies and to all debt instruments that you subsequently acquire. You may not revoke this election without the consent of the Internal Revenue Service.

When you actually receive an interest payment, including a payment attributable to accrued but unpaid interest upon the sale or retirement of your note, denominated in, or determined by reference to, a foreign currency for which you accrued an amount of income, you will recognize ordinary income or loss measured by the difference, if any, between the exchange rate that you used to accrue interest income and the exchange rate in effect on the date of receipt, regardless of whether you actually convert the payment into U.S. dollars.

Original Issue Discount

General. If you own a note, other than a short-term note with a term of one year or less, it will be treated as a discount note issued at an original issue discount if the amount by which the note's stated redemption price at maturity exceeds its issue price is more than a *de minimis* amount. Generally, a note's issue price will be the first price at which a substantial amount of notes included in the issue of which the note is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. A note's stated redemption price at maturity is the total of all payments provided by the note that are not payments of qualified stated interest. Generally, an interest payment on a note is qualified stated interest if it is one of a series of stated interest payments on a note that are unconditionally payable at least annually at a single fixed rate, with certain exceptions for lower rates paid during some periods, applied to the outstanding principal amount of the note. There are special rules for variable rate notes that are discussed under Variable Rate Notes.

In general, your note is not a discount note if the amount by which its stated redemption price at maturity exceeds its issue price is less than the *de minimis* amount of $\frac{1}{4}$ of 1 percent of its stated redemption price at maturity multiplied by the number of complete years to its maturity. Your note will have *de minimis* original issue discount if the amount of the excess is less than the *de minimis* amount. If your note has *de minimis* original issue discount, you must include the *de minimis* amount in income as stated principal payments are made on the note, unless you make the election described below under Election to Treat All Interest as Original Issue Discount. You can determine the includible amount with respect to each such payment by multiplying the total amount of your note's *de minimis* original issue discount by a fraction equal to:

the amount of the principal payment made

Table of Contents

divided by:

the stated principal amount of the note.

Generally, if your discount note matures more than one year from its date of issue, you must include original issue discount in income before you receive cash attributable to that income. The amount of OID that you must include in income is calculated using a constant-yield method, and generally you will include increasingly greater amounts of OID in income over the life of your note. More specifically, you can calculate the amount of OID that you must include in income by adding the daily portions of OID with respect to your discount note for each day during the taxable year or portion of the taxable year that you hold your discount note. You can determine the daily portion by allocating to each day in any accrual period a pro rata portion of the OID allocable to that accrual period. You may select an accrual period of any length with respect to your discount note and you may vary the length of each accrual period over the term of your discount note. However, no accrual period may be longer than one year and each scheduled payment of interest or principal on the discount note must occur on either the first or final day of an accrual period.

You can determine the amount of OID allocable to an accrual period by:

multiplying your discount note's adjusted issue price at the beginning of the accrual period by your note's yield to maturity, and then

subtracting from this figure the sum of the payments of qualified stated interest on your note allocable to the accrual period.

You must determine the discount note's yield to maturity on the basis of compounding at the close of each accrual period and adjusting for the length of each accrual period. Further, you determine your discount note's adjusted issue price at the beginning of any accrual period by:

adding your discount note's issue price and any accrued OID for each prior accrual period, and then

subtracting any payments previously made on your discount note that were not qualified stated interest payments.

If an interval between payments of qualified stated interest on your discount note contains more than one accrual period, then, when you determine the amount of OID allocable to an accrual period, you must allocate the amount of qualified stated interest payable at the end of the interval, including any qualified stated interest that is payable on the first day of the accrual period immediately following the interval, pro rata to each accrual period in the interval based on their relative lengths. In addition, you must increase the adjusted issue price at the beginning of each accrual period in the interval by the amount of any qualified stated interest that has accrued prior to the first day of the accrual period but that is not payable until the end of the interval. You may compute the amount of OID allocable to an initial short accrual period by using any reasonable method if all other accrual periods, other than a final short accrual period, are of equal length.

The amount of OID allocable to the final accrual period is equal to the difference between:

the amount payable at the maturity of your note, other than any payment of qualified stated interest, and

your note's adjusted issue price as of the beginning of the final accrual period.

Acquisition Premium. If you purchase your note for an amount that is less than or equal to the sum of all amounts, other than qualified stated interest, payable on your note after the purchase date but is greater than the amount of your note's adjusted issue price, as determined above under General , the excess is

Table of Contents

acquisition premium. If you do not make the election described below under Election to Treat All Interest as Original Issue Discount , then you must reduce the daily portions of OID by a fraction equal to:

the excess of your adjusted basis in the note immediately after purchase over the adjusted issue price of the note

divided by:

the excess of the sum of all amounts payable, other than qualified stated interest, on the note after the purchase date over the note's adjusted issue price.

Pre-Issuance Accrued Interest. An election may be made to decrease the issue price of your note by the amount of pre-issuance accrued interest if:

a portion of the initial purchase price of your note is attributable to pre-issuance accrued interest,

the first stated interest payment on your note is to be made within one year of your note's issue date, and

the payment will equal or exceed the amount of pre-issuance accrued interest.

If this election is made, a portion of the first stated interest payment will be treated as a return of the excluded pre-issuance accrued interest and not as an amount payable on your note.

Notes Subject to Contingencies Including Optional Redemption. Your note is subject to a contingency if it provides for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies, other than a remote or incidental contingency, whether such contingency relates to payments of interest or of principal. In such a case, you must determine the yield and maturity of your note by assuming that the payments will be made according to the payment schedule most likely to occur if:

the timing and amounts of the payments that comprise each payment schedule are known as of the issue date and

one of such schedules is significantly more likely than not to occur.

If there is no single payment schedule that is significantly more likely than not to occur, other than because of a mandatory sinking fund, you must include income on your note in accordance with the general rules that govern contingent payment obligations. These rules will be discussed in the applicable pricing supplement.

Notwithstanding the general rules for determining yield and maturity, if your note is subject to contingencies, and either you or we have an unconditional option or options that, if exercised, would require payments to be made on the note under an alternative payment schedule or

schedules, then:

in the case of an option or options that we may exercise, we will be deemed to exercise or not exercise an option or combination of options in the manner that minimizes the yield on your note and

in the case of an option or options that you may exercise, you will be deemed to exercise or not exercise an option or combination of options in the manner that maximizes the yield on your note.

If both you and we hold options described in the preceding sentence, those rules will apply to each option in the order in which they may be exercised. You may determine the yield on your note for the purposes of those calculations by using any date on which your note may be redeemed or repurchased as the maturity date and the amount payable on the date that you chose in accordance with the terms of your note as the principal amount payable at maturity.

Table of Contents

If a contingency, including the exercise of an option, actually occurs or does not occur contrary to an assumption made according to the above rules then, except to the extent that a portion of your note is repaid as a result of this change in circumstances and solely to determine the amount and accrual of OID, you must redetermine the yield and maturity of your note by treating your note as having been retired and reissued on the date of the change in circumstances for an amount equal to your note's adjusted issue price on that date.

Election to Treat All Interest as Original Issue Discount. You may elect to include in gross income all interest that accrues on your note using the constant-yield method described above under **General**, with the modifications described below. For purposes of this election, interest will include stated interest, OID, de minimis original issue discount, market discount, de minimis market discount and unstated interest, as adjusted by any amortizable bond premium, described below under **Notes Purchased at a Premium**, or acquisition premium.

If you make this election for your note, then, when you apply the constant-yield method:

the issue price of your note will equal your cost,

the issue date of your note will be the date you acquired it, and

no payments on your note will be treated as payments of qualified stated interest.

Generally, this election will apply only to the note for which you make it; however, if the note has amortizable bond premium, you will be deemed to have made an election to apply amortizable bond premium against interest for all debt instruments with amortizable bond premium, other than debt instruments the interest on which is excludible from gross income, that you hold as of the beginning of the taxable year to which the election applies or any taxable year thereafter. Additionally, if you make this election for a market discount note, you will be treated as having made the election discussed below under **Notes Purchased with Market Discount** to include market discount in income currently over the life of all debt instruments that you currently own or later acquire. You may not revoke any election to apply the constant-yield method to all interest on a note or the deemed elections with respect to amortizable bond premium or market discount notes without the consent of the Internal Revenue Service.

Variable Rate Notes. Your note will be a variable rate note if:

your note's issue price does not exceed the total noncontingent principal payments by more than the lesser of:

1. .015 multiplied by the product of the total noncontingent principal payments and the number of complete years to maturity from the issue date, or
2. 15 percent of the total noncontingent principal payments; and

your note provides for stated interest, compounded or paid at least annually, only at:

1. one or more qualified floating rates,

2. a single fixed rate and one or more qualified floating rates,
3. a single objective rate, or
4. a single fixed rate and a single objective rate that is a qualified inverse floating rate.

Your note will have a variable rate that is a qualified floating rate if:

variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which your note is denominated; or

the rate is equal to such a rate multiplied by either:

Table of Contents

1. a fixed multiple that is greater than 0.65 but not more than 1.35, or
2. a fixed multiple greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate; and

the value of the rate on any date during the term of your note is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

If your note provides for two or more qualified floating rates that are within 0.25 percentage points of each other on the issue date or can reasonably be expected to have approximately the same values throughout the term of the note, the qualified floating rates together constitute a single qualified floating rate.

Your note will not have a qualified floating rate, however, if the rate is subject to certain restrictions (including caps, floors, governors, or other similar restrictions) unless such restrictions are fixed throughout the term of the note or are not reasonably expected to significantly affect the yield on the note.

Your note will have a variable rate that is a single objective rate if:

the rate is not a qualified floating rate,

the rate is determined using a single, fixed formula that is based on objective financial or economic information that is not within the control of or unique to the circumstances of the issuer or a related party, and

the value of the rate on any date during the term of your note is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

Your note will not have a variable rate that is an objective rate, however, if it is reasonably expected that the average value of the rate during the first half of your note's term will be either significantly less than or significantly greater than the average value of the rate during the final half of your note's term.

An objective rate as described above is a qualified inverse floating rate if:

the rate is equal to a fixed rate minus a qualified floating rate, and

the variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the cost of newly borrowed funds.

Your note will also have a single qualified floating rate or an objective rate if interest on your note is stated at a fixed rate for an initial period of one year or less followed by either a qualified floating rate or an objective rate for a subsequent period, and either:

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

the fixed rate and the qualified floating rate or objective rate have values on the issue date of the note that do not differ by more than 0.25 percentage points, or

the value of the qualified floating rate or objective rate is intended to approximate the fixed rate.

Commercial paper rate notes, prime rate notes, LIBOR notes, EURIBOR rate notes, treasury rate notes, CMT rate notes, CD rate notes, and federal funds rate notes generally will be treated as variable rate notes under these rules.

In general, if your variable rate note provides for stated interest at a single qualified floating rate or objective rate, or one of those rates after a single fixed rate for an initial period, all stated interest on your note is qualified stated interest. In this case, the amount of OID, if any, is determined by using, in the case of a qualified floating rate or qualified inverse floating rate, the value as of the issue date of the qualified floating

Table of Contents

rate or qualified inverse floating rate, or, for any other objective rate, a fixed rate that reflects the yield reasonably expected for your note.

If your variable rate note does not provide for stated interest at a single qualified floating rate or a single objective rate, and also does not provide for interest payable at a fixed rate other than a single fixed rate for an initial period, you generally must determine the interest and OID accruals on your note by:

determining a fixed rate substitute for each variable rate provided under your variable rate note,

constructing the equivalent fixed rate debt instrument, using the fixed rate substitute described above,

determining the amount of qualified stated interest and OID with respect to the equivalent fixed rate debt instrument, and

adjusting for actual variable rates during the applicable accrual period.

When you determine the fixed rate substitute for each variable rate provided under the variable rate note, you generally will use the value of each variable rate as of the issue date or, for an objective rate that is not a qualified inverse floating rate, a rate that reflects the reasonably expected yield on your note.

If your variable rate note provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate, and also provides for stated interest at a single fixed rate other than at a single fixed rate for an initial period, you generally must determine interest and OID accruals by using the method described in the previous paragraph. However, your variable rate note will be treated, for purposes of the first three steps of the determination, as if your note had provided for a qualified floating rate, or a qualified inverse floating rate, rather than the fixed rate. The qualified floating rate, or qualified inverse floating rate, that replaces the fixed rate must be such that the fair market value of your variable rate note as of the issue date approximates the fair market value of an otherwise identical debt instrument that provides for the qualified floating rate, or qualified inverse floating rate, rather than the fixed rate.

Short-Term Notes. In general, if you are an individual or other cash basis United States holder of a short-term note, you are not required to accrue OID, as specially defined below for the purposes of this paragraph, for United States federal income tax purposes unless you elect to do so (although it is possible that you may be required to include any stated interest in income as you receive it). If you are an accrual basis taxpayer, a taxpayer in a special class, including, but not limited to, a regulated investment company, common trust fund, or a certain type of pass-through entity, or a cash basis taxpayer who so elects, you will be required to accrue OID on short-term notes on either a straight-line basis or under the constant-yield method, based on daily compounding. If you are not required and do not elect to include OID in income currently, any gain you realize on the sale or retirement of your short-term note will be ordinary income to the extent of the accrued OID, which will be determined on a straight-line basis unless you make an election to accrue the OID under the constant-yield method, through the date of sale or retirement. However, if you are not required and do not elect to accrue OID on your short-term notes, you will be required to defer deductions for interest on borrowings allocable to your short-term notes in an amount not exceeding the deferred income until the deferred income is realized.

When you determine the amount of OID subject to these rules, you must include all interest payments on your short-term note, including stated interest, in your short-term note's stated redemption price at maturity.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Foreign Currency Discount Notes. If your discount note is denominated in, or determined by reference to, a foreign currency, you must determine OID for any accrual period on your discount note in the foreign currency and then translate the amount of OID into U.S. dollars in the same manner as stated interest accrued by an accrual basis United States holder, as described under United States Holders Payments of

Table of Contents

Interest . You may recognize ordinary income or loss when you receive an amount attributable to OID in connection with a payment of interest or the sale or retirement of your note.

Notes Purchased at a Premium

If you purchase your note for an amount in excess of its principal amount, you may elect to treat the excess as amortizable bond premium. If you make this election, you will reduce the amount required to be included in your income each year with respect to interest on your note by the amount of amortizable bond premium allocable to that year, based on your note's yield to maturity. If your note is denominated in, or determined by reference to, a foreign currency, you will compute your amortizable bond premium in units of the foreign currency and your amortizable bond premium will reduce your interest income in units of the foreign currency. Gain or loss recognized that is attributable to changes in exchange rates between the time your amortized bond premium offsets interest income and the time of the acquisition of your note is generally taxable as ordinary income or loss. If you make an election to amortize bond premium, it will apply to all debt instruments, other than debt instruments the interest on which is excludible from gross income, that you hold at the beginning of the first taxable year to which the election applies or that you thereafter acquire, and you may not revoke it without the consent of the Internal Revenue Service. See also Original Issue Discount Election to Treat All Interest as Original Issue Discount .

Notes Purchased with Market Discount

You will be treated as if you purchased your note, other than a short-term note, at a market discount, and your note will be a market discount note if:

in the case of an initial purchaser, you purchase your note for less than its issue price as determined above under Original Issue Discount General , and

the difference between the note's stated redemption price at maturity or, in the case of a discount note, the note's revised issue price, and the price you paid for your note is equal to or greater than $\frac{1}{4}$ of 1 percent of your note's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the note's maturity.

To determine the revised issue price of your note for these purposes, you generally add any OID that has accrued on your note to its issue price.

If your note's stated redemption price at maturity or, in the case of a discount note, its revised issue price, exceeds the price you paid for the note by less than $\frac{1}{4}$ of 1 percent multiplied by the number of complete years to the note's maturity, the excess constitutes de minimis market discount, and the rules discussed below are not applicable to you.

You must treat any gain you recognize on the maturity or disposition of your market discount note as ordinary income to the extent of the accrued market discount on your note. Alternatively, you may elect to include market discount in income currently over the life of your note. If you make this election, it will apply to all debt instruments with market discount that you acquire on or after the first day of the first taxable year to which the election applies. You may not revoke this election without the consent of the Internal Revenue Service. If you own a market discount note and do not make this election, you will generally be required to defer deductions for interest on borrowings allocable to your note in an amount not exceeding the accrued market discount on your note until the maturity or disposition of your note.

You will accrue market discount on your market discount note on a straight-line basis unless you elect to accrue market discount using a constant-yield method. If you make this election, it will apply only to the note with respect to which it is made and you may not revoke it.

Table of Contents

Purchase, Sale and Retirement of the Notes

Your tax basis in your note will generally be the U.S. dollar cost, as defined below, of your note, adjusted by:

adding any OID or market discount, de minimis original issue discount and de minimis market discount previously included in income with respect to your note, and then

subtracting any payments on your note that are not qualified stated interest payments and any amortizable bond premium applied to reduce interest on your note.

If you purchase your note with foreign currency, the U.S. dollar cost of your note will generally be the U.S. dollar value of the purchase price on the date of purchase. However, if you are a cash basis taxpayer, or an accrual basis taxpayer if you so elect, and your note is traded on an established securities market, as defined in the applicable Treasury regulations, the U.S. dollar cost of your note will be the U.S. dollar value of the purchase price on the settlement date of your purchase.

You will generally recognize gain or loss on the sale or retirement of your note equal to the difference between the amount you realize on the sale or retirement and your tax basis in your note. If your note is sold or retired for an amount in foreign currency, the amount you realize will be the U.S. dollar value of such amount on:

the date payment is received, if you are a cash basis taxpayer and the notes are not traded on an established securities market, as defined in the applicable Treasury regulations,

the date of disposition, if you are an accrual basis taxpayer, or

the settlement date for the sale, if you are a cash basis taxpayer, or an accrual basis taxpayer that so elects, and the notes are traded on an established securities market, as defined in the applicable Treasury regulations.

You will recognize capital gain or loss when you sell or retire your note, except to the extent:

described above under Original Issue Discount Short-Term Notes or Notes Purchased with Market Discount ,

attributable to accrued but unpaid interest,

the rules governing contingent payment obligations apply, or

attributable to changes in exchange rates as described below.

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

Capital gain of a noncorporate United States holder is generally taxed at a maximum rate of 20% where the property is held more than one year, and 18% where the property is held for more than five years.

You must treat any portion of the gain or loss that you recognize on the sale or retirement of a note as ordinary income or loss to the extent attributable to changes in exchange rates. However, you take exchange gain or loss into account only to the extent of the total gain or loss you realize on the transaction.

Exchange of Amounts in Other Than U.S. Dollars

If you receive foreign currency as interest on your note or on the sale or retirement of your note, your tax basis in the foreign currency will equal its U.S. dollar value when the interest is received or at the time of the sale or retirement. If you purchase foreign currency, you generally will have a tax basis equal to the U.S. dollar value of the foreign currency on the date of your purchase. If you sell or dispose of a foreign currency, including if you use it to purchase notes or exchange it for U.S. dollars, any gain or loss recognized generally will be ordinary income or loss.

Table of Contents

Indexed Notes, Exchangeable Notes, and Contingent Payment Notes

The applicable pricing supplement will discuss any special United States federal income tax rules with respect to notes the payments on which are determined by reference to any index, notes that are exchangeable at our option or the option of the holder into securities of an issuer other than Wachovia or into other property, and other notes that are subject to the rules governing contingent payment obligations which are not subject to the rules governing variable rate notes.

United States Alien Holders

This subsection describes the tax consequences to a United States alien holder. You are a United States alien holder if you are the beneficial owner of a note and are, for United States federal income tax purposes:

a nonresident alien individual,

a foreign corporation,

a foreign partnership, or

an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from a note.

If you are a United States holder, this subsection does not apply to you.

This discussion assumes that the note is not subject to the rules of Section 871(h)(4)(A) of the Internal Revenue Code, relating to interest payments that are determined by reference to the income, profits, changes in the value of property or other attributes of the debtor or a related party.

Under United States federal income and estate tax law, and subject to the discussion of backup withholding below, if you are a United States alien holder of a note:

we and other U.S. payors generally will not be required to deduct United States withholding tax from payments of principal, premium, if any, and interest, including OID, to you if, in the case of payments of interest:

1. you do not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Company entitled to vote,

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

2. you are not a controlled foreign corporation that is related to the Company through stock ownership, and
3. the U.S. payor does not have actual knowledge or reason to know that you are a United States person and:
 - a. you have furnished to the U.S. payor an Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person,
 - b. in the case of payments made outside the United States to you at an offshore account (generally, an account maintained by you at a bank or other financial institution at any location outside the United States), you have furnished to the U.S. payor documentation that establishes your identity and your status as a non-United States person,
 - c. the U.S. payor has received a withholding certificate (furnished on an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form) from a person claiming to be:

Table of Contents

- i. a withholding foreign partnership (generally a foreign partnership that has entered into an agreement with the Internal Revenue Service to assume primary withholding responsibility with respect to distributions and guaranteed payments it makes to its partners),
- ii. a qualified intermediary (generally a non-United States financial institution or clearing organization or a non-United States branch or office of a United States financial institution or clearing organization that is a party to a withholding agreement with the Internal Revenue Service), or
- iii. a U.S. branch of a non-United States bank or of a non-United States insurance company,

and the withholding foreign partnership, qualified intermediary or U.S. branch has received documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations (or, in the case of a qualified intermediary, in accordance with its agreement with the Internal Revenue Service),

- d. the U.S. payor receives a statement from a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business,
 - i. certifying to the U.S. payor under penalties of perjury that an Internal Revenue Service Form W-8BEN or an acceptable substitute form has been received from you by it or by a similar financial institution between it and you, and
 - ii. to which is attached a copy of the Internal Revenue Service Form W-8BEN or acceptable substitute form, or
- e. the U.S. payor otherwise possesses documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations; and

no deduction for any United States federal withholding tax will be made from any gain that you realize on the sale or exchange of your note.

Further, a note held by an individual who at death is not a citizen or resident of the United States will not be includible in the individual's gross estate for United States federal estate tax purposes if:

the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Company entitled to vote at the time of death and

the income on the note would not have been effectively connected with a United States trade or business of the decedent at the same time.

Backup Withholding And Information Reporting

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

In general, if you are a noncorporate United States holder, we and other payors are required to report to the Internal Revenue Service all payments of principal, any premium and interest on your note, and the accrual of OID on a discount note. In addition, we and other payors are required to report to the Internal Revenue Service any payment of proceeds of the sale of your note before maturity within the United States. Additionally, backup withholding will apply to any payments, including payments of OID, if you fail to provide an accurate taxpayer identification number, or you are notified by the Internal Revenue Service that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

In general, if you are a United States alien holder, payments of principal, premium or interest, including OID, made by us and other payors to you will not be subject to backup withholding and information reporting, provided that the certification requirements described above under United States Alien Holders

Table of Contents

are satisfied or you otherwise establish an exemption. However, we and other payors are required to report payments of interest on your notes on Internal Revenue Service Form 1042-S even if the payments are not otherwise subject to information reporting requirements. In addition, payment of the proceeds from the sale of notes effected at a United States office of a broker will not be subject to backup withholding and information reporting provided that:

the broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the broker:

an appropriate Internal Revenue Service Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, that you are not a United States person, or

other documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with U.S. Treasury regulations, or

you otherwise establish an exemption.

If you fail to establish an exemption and the broker does not possess adequate documentation of your status as a non-United States person, the payments may be subject to information reporting and backup withholding. However, backup withholding will not apply with respect to payments made to an offshore account maintained by you unless the broker has actual knowledge that you are a United States person.

In general, payment of the proceeds from the sale of notes effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States,

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address, or

the sale has some other specified connection with the United States as provided in U.S. Treasury regulations,

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of notes effected at a United States office of a broker) are met or you otherwise establish an exemption.

In addition, payment of the proceeds from the sale of notes effected at a foreign office of a broker will be subject to information reporting if the broker is:

a United States person,

a controlled foreign corporation for United States tax purposes,

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period, or

a foreign partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in U.S. Treasury regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership, or

such foreign partnership is engaged in the conduct of a United States trade or business,

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of notes effected at a United States office of a broker) are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Table of Contents

PROPOSED EUROPEAN UNION DIRECTIVE ON TAXATION OF SAVINGS

On July 18, 2001, the EU Commission published a proposal for a new directive regarding the taxation of savings income. It is proposed that, subject to a number of important conditions being met, Member States will be required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to an individual resident in that other Member State, subject to the right of certain Member States to opt instead for a withholding system for a transitional period in relation to such payments. The proposals are not yet final, and they may be subject to further amendment and/or clarification.

EMPLOYEE RETIREMENT INCOME SECURITY ACT

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the Employment Retirement Income Security Act of 1974, as amended (ERISA), should consider the fiduciary standards of ERISA in the context of the plan's particular circumstances before authorizing an investment in the notes. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the plan.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit an employee benefit plan, as well as individual retirement accounts and Keogh plans subject to Section 4975 of the Internal Revenue Code, from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Internal Revenue Code with respect to the plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA and Section 4975 of the Internal Revenue Code for such persons, unless exemptive relief is available under an applicable statutory or administrative exemption. Therefore, a fiduciary of an employee benefit plan should also consider whether an investment in the notes might constitute or give rise to a prohibited transaction under ERISA and the Internal Revenue Code. Employee benefit plans which are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA), and foreign plans (as described in Section 4(b)(4) of ERISA) generally are not subject to the requirements of ERISA or Section 4975 of the Internal Revenue Code.

Wachovia Corporation and certain of its affiliates may each be considered a party in interest or disqualified person with respect to many employee benefit plans. This could be the case, for example, if one of these companies is a service provider to a plan. Special caution should be exercised, therefore, before notes are purchased by an employee benefit plan. In particular, the fiduciary of the plan should consider whether exemptive relief is available under an applicable administrative exemption. The Department of Labor has issued five prohibited transaction class exemptions that could apply to exempt the purchase, sale and holding of notes from the prohibited transaction provisions of ERISA and the Internal Revenue Code. Those class exemptions are Prohibited Transaction Exemption 96-23 (for transactions determined by in-house asset managers), Prohibited Transaction Exemption 95-60 (for certain transactions involving insurance company general accounts), Prohibited Transaction Exemption 91-38 (for certain transactions involving bank investment funds), Prohibited Transaction Exemption 90-1 (for certain transactions involving insurance company separate accounts), and Prohibited Transaction Exemption 84-14 (for certain transactions determined by independent qualified asset managers).

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering the purchase of notes on behalf of or with plan assets of any employee benefit plan consult with their counsel regarding the consequences under ERISA and the Internal Revenue Code of the acquisition of the notes and the availability of exemptive relief under Prohibited Transaction Exemption 96-23, 95-60, 91-38, 90-1 or 84-14.

Table of Contents

PLAN OF DISTRIBUTION

Unless otherwise indicated in any pricing supplement, the U.S. distribution agents shall be First Union Securities, Inc., an indirect, wholly-owned subsidiary of Wachovia; Barclays Capital Inc.; Bear, Stearns & Co. Inc.; Credit Suisse First Boston Corporation; Goldman, Sachs & Co.; Guzman & Company; J.P. Morgan Securities Inc.; Lehman Brothers, Inc.; Merrill Lynch, Pierce, Fenner & Smith Incorporated; Salomon Smith Barney Inc.; UBS Warburg LLC; Utendahl Capital Partners, L.P.; and the European distribution agents shall be Wachovia Securities International Limited, an indirect, wholly-owned subsidiary of Wachovia; Barclays Bank PLC; Bear, Stearns International Limited; Credit Suisse First Boston (Europe) Limited; Goldman Sachs International; Guzman & Company; J.P. Morgan Securities Ltd.; Lehman Brothers International (Europe); Merrill Lynch International; Salomon Brothers International Limited; UBS AG, acting through its business group UBS Warburg and Utendahl Capital Partners, L.P. Wachovia conducts its investment banking, institutional and capital markets businesses through its various bank, broker-dealer and nonbank subsidiaries (including First Union Securities, Inc.) under the trade name Wachovia Securities. Any reference to Wachovia Securities is not intended to be a reference to Wachovia Securities, Inc., member NASD/SIPC, a separate broker-dealer subsidiary of Wachovia and sister affiliate of First Union Securities, Inc., which is not participating in this offering. Under the terms of a Distribution Agreement among Wachovia and these agents, Wachovia may sell notes to an agent, acting as principal, for resale to one or more investors or other purchasers at varying prices related to prevailing market prices at the time of resale, as determined by any of these agents or, if so agreed, at a fixed offering price. A form of Distribution Agreement has been filed as an exhibit to the registration statement for this prospectus. Unless otherwise indicated in the relevant pricing supplement, any note sold to an agent as principal will be purchased by that agent at a price equal to 100% of the principal amount of that note, less a percentage not exceeding the maximum commission applicable to any agency sale of a note of identical maturity, and, subject to the restriction noted in the following sentence, may be resold by that Agent to investors and other purchasers. An agent may offer the notes it has purchased as principal to other dealers at a discount and, unless otherwise indicated in any pricing supplement, and the discount allowed to any dealer will not exceed the discount to be received by that agent from Wachovia. After the initial public offering of notes to be resold to investors and other purchasers, the public offering price (in the case of notes to be resold on a fixed public offering price basis), the concession and the discount may be changed.

Wachovia may also offer the notes on a continuing basis through the agents, which have agreed to use their reasonable efforts to solicit offers to purchase the notes, on an agency basis. When Wachovia has sold notes through an agent on an agency basis, it will pay that agent a commission (or grant a discount) as agreed by Wachovia and that agent in an amount from 0.125% to 1.0% of the principal amount of each note sold through that agent. Any agent will have the right, in its discretion reasonably exercised, without notice to Wachovia, to reject any offer to purchase notes received by it in whole or in part.

Unless otherwise mentioned in the relevant pricing supplement, the obligations of any agents to purchase the notes will be subject to certain conditions precedent, and each of the agents with respect to a sale of notes will be obligated to purchase all of its notes if any are purchased.

Wachovia has reserved the right to sell notes directly to investors on its own behalf in those jurisdictions where it is authorized to do so. No selling commission will be payable nor will a selling discount be allowed on any sales made directly by Wachovia.

Wachovia has reserved the right to withdraw, cancel or modify the offer made by this prospectus without notice and may reject orders in whole or in part whether placed directly with Wachovia or with an agent. No termination date has been established for the offering of the notes.

The notes are a new issue of securities with no established trading market. Wachovia has been advised by the agents that they intend to make a market in the notes but are not obligated to do so and

Table of Contents

may discontinue market-making at any time without notice. The agents may from time to time purchase and sell notes in the secondary market, but no agent is obligated to do so. We can give no assurance that the notes offered by this prospectus will be sold or that there will be a secondary market for the notes (or liquidity in such secondary market, if one develops).

We have applied to list on the Luxembourg Stock Exchange any notes issued under this prospectus during the twelve-month period after the date of this prospectus. We may also list any notes on any additional securities exchanges on which we and the agents agree in relation to each issuance. We may also issue unlisted notes.

Unless otherwise indicated in any pricing supplement, payment of the purchase price of notes, other than notes denominated in a non-U.S. dollar currency, will be required to be made in funds immediately available in The City of New York. The notes will be in the Same Day Funds Settlement System at DTC and, to the extent the secondary market trading in the notes is effected through the facilities of such depository, such trades will be settled in immediately available funds. See Global Notes above.

In facilitating the sale of notes, agents may receive compensation from Wachovia or from purchasers of notes for whom they may act as agents in the form of discounts, concessions or commissions. Agents may sell notes to or through dealers, and these dealers may receive compensation in the form of discounts, concessions or commissions from the agents and/or commissions from the purchasers for whom they may act as agents. Agents and dealers that participate in the distribution of notes may be considered underwriters, and any discounts or commissions received by them from Wachovia and any profit on the resale of notes by them may be considered underwriting discounts and commissions under the Securities Act. Any such agent will be identified, and any such compensation received from Wachovia will be described, in the pricing supplement relating to those notes. Wachovia has agreed to indemnify the agents against and contribute toward certain liabilities, including liabilities under the Securities Act. Wachovia has also agreed to reimburse the agents for certain expenses.

If Wachovia offers and sells notes directly to a purchaser or purchasers in respect of which this prospectus is delivered, purchasers involved in the reoffer or resale of such notes, if these purchasers may be considered underwriters as that term is defined in the Securities Act, will be named and the terms of their reoffers or resales will be mentioned in the relevant pricing supplement. These purchasers may then reoffer and resell such notes to the public or otherwise at varying prices to be determined by such purchasers at the time of resale or as otherwise described in the relevant pricing supplement. Purchasers of notes directly from Wachovia may be entitled under agreements that they may enter into with Wachovia to indemnification by Wachovia against certain liabilities, including liabilities under the Securities Act, and may engage in transactions with or perform services for Wachovia in the ordinary course of their business or otherwise.

The agents may engage in over-allotment, stabilizing transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Securities Exchange Act of 1934. Over-allotment involves syndicate sales in excess of the offering size, which creates a syndicate short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Penalty bids permit reclaiming a selling concession from a syndicate member when the notes originally sold by such syndicate member are purchased in a syndicate covering transaction to cover syndicate short positions. Such stabilizing transactions, syndicate covering transactions and penalty bids may stabilize, maintain or otherwise affect the market price of the notes, which may be higher than it would otherwise be in the absence of such transactions. The agents are not required to engage in these activities, and may end any of these activities at any time.

Table of Contents

The participation of First Union Securities, Inc. in the offer and sale of the notes must comply with the requirements of Rule 2720 of the National Association of Securities Dealers, Inc. regarding underwriting securities of an affiliate. First Union Securities, Inc. will not execute a transaction in the notes in a discretionary account without the prior specific written approval of such member's customer.

This prospectus and the related pricing supplements may be used by First Union Securities, Inc., an affiliate of Wachovia, for offers and sales related to market-making transactions in the securities. First Union Securities, Inc. may act as principal or agent in these transactions. These sales will be made at prices related to prevailing market prices at the time of sale or otherwise.

From time to time the agents engage in transactions with Wachovia in the ordinary course of business. The agents or their affiliates may have performed investment banking services for Wachovia in the last two years and may have received fees for these services and may do so in the future. The agents and/or their affiliates may be customers of (including borrowers from), engage in transactions with, and/or perform services for the senior trustee and the subordinated trustee, in the ordinary course of business.

In addition to offering notes through the agents as discussed above, other medium-term notes that have terms substantially similar to the terms of the notes offered by this prospectus (but constituting one or more separate series of notes for purposes of the indentures) may in the future be offered, concurrently with the offering of the notes, on a continuing basis by Wachovia pursuant to the Distribution Agreement and directly to investors. Any of these notes sold pursuant to the Distribution Agreement or sold by Wachovia directly to investors will reduce the aggregate amount of notes which may be offered by this prospectus.

Selling Restrictions Outside the United States

Wachovia has taken no action that would permit a public offering of the notes or possession or distribution of this prospectus or any other offering material in any jurisdiction outside the United States where action for that purpose is required other than as described below. Accordingly, each agent has represented, warranted and agreed, and each other agent will be required to represent, warrant and agree, that it will comply with all applicable laws and regulations in force in any jurisdiction in which it purchases, offers or sells notes or possesses or distributes this prospectus or any other offering material and will obtain any consent, approval or permission required by it for the purchase, offer or sale by it of notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers or sales and Wachovia shall have no responsibility in relation to this.

With regard to each note, the relevant purchaser will be required to comply with those restrictions that Wachovia and the relevant purchaser shall agree and as shall be set out in the relevant pricing supplement.

United Kingdom

Each agent has represented and agreed, and each other agent will be required to represent and agree, that:

Edgar Filing: E-SMART TECHNOLOGIES INC - Form PRE 14C

with respect to notes which have a maturity of one year or more, it has not offered or sold and will not offer or sell any such notes to persons in the United Kingdom prior to the expiring of a period of six months from the issue date of such notes except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995;

Table of Contents

in relation to notes which have a maturity of one year or more, it has not offered or sold and, prior to the expiry of a period of six months from the issue date of such notes, will not offer or sell any such notes to persons in the United Kingdom except to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or otherwise in circumstances which have not resulted and will not result in an offer to the public in the United Kingdom within the meaning of the Public Offers of Securities Regulations 1995;

in relation to any notes which must be redeemed before the first anniversary of the date of their issue, (a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell any notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000 (the FSMA) by Wachovia;

it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of any notes in circumstances in which Section 21(1) of the FSMA does not apply to Wachovia; and

it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to such notes in, from or otherwise involving the United Kingdom.

Japan

The notes have not been, and will not be, registered under the Securities and Exchange Law of Japan. Accordingly, each distribution agent has represented and agreed, and each other distribution agent or dealer will be required to represent and agree, that, in connection with the notes, it has not, directly or indirectly, offered, sold or delivered and will not, directly or indirectly, offer, sell or deliver any notes in Japan or to residents of Japan or for the benefit of any Japanese person (which term as used herein means any person resident in Japan including any corporation or other entity organized under the laws of Japan) or to others for re-offering, resale or delivery, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan or to any Japanese person except in compliance with any applicable laws and regulations of Japan taken as a whole. Each distribution agent agrees to provide any necessary information on notes denominated or payable in Yen to Wachovia (which shall not include the names of clients) so that Wachovia may make any required reports to the Ministry of Finance through its designated agent.

In connection with an issuance of notes denominated or payable in Yen, Wachovia will be required to comply with all applicable laws, regulations and guidelines, as amended from time to time, of the Japanese government and regulatory authorities.

Germany

No selling prospectus (*Verkausprospekt*) within the meaning of the German Securities Prospectus Act (*Wertpapier-Verkaufsprospektgesetz*) of December 13, 1990 (as amended) has been and will be registered or published within the Federal Republic of Germany. The notes have not been offered or sold and will not be offered or sold in the Federal Republic of Germany otherwise than in accordance with the provisions of the Securities Prospectus Act.

Table of Contents

France

This prospectus has not been submitted to the French *Commission des opérations de bourse* for approval and the notes have not and will not be offered or sold, directly or indirectly, to the public in France. Accordingly, each distribution agent has agreed that it will only offer notes in France to qualified investors, as defined under Article 6 of French Ordinance No. 67-833 dated September 28, 1967 (as amended); provided, in this case, that it shall have obtained a certificate from the investor providing an acknowledgement that: (i) the offering is a private placement in France and no prospectus has been submitted to the *Commission des opérations de bourse*, (ii) the investor is an *investisseur qualifié* within the meaning of Article 6 of French Ordinance No. 67-833 dated September 28, 1967 (as amended), (iii) the investor is investing for his own account, and (iv) the investor will not resell the notes in violation of French securities laws and regulations.

Switzerland

Each agent has represented and agreed, and each other agent will be required to represent and agree, that the issue of any notes denominated in Swiss francs or carrying a Swiss franc-related element will be effected in compliance with the relevant regulations of the Swiss National Bank, which currently require that such issues have a maturity of more than one year, to be effected through a bank domiciled in Switzerland that is regulated under the Swiss Federal Law on Banks and Savings Banks of 1934 (as amended) (which includes a branch or subsidiary located in Switzerland of a foreign bank) or through a securities dealer which has been licensed as a securities dealer under the Swiss Federal Law on Stock Exchanges and Securities Trading of 1995 (except for issues of notes denominated in Swiss francs on a syndicated basis, where only the lead manager need be a bank domiciled in Switzerland). The relevant agent must report certain details of the relevant transaction to the Swiss National Bank no later than the time of delivery of the notes.

The Netherlands

Each agent represented and agreed, and each other agent will be required to represent and agree, that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell in The Netherlands any notes with a denomination of less than 50,000 (or its foreign currency equivalent) other than to persons who trade or invest in securities in the conduct of a profession or business (which includes banks, stockbrokers, insurance companies, pension funds, other institutional investors and finance companies and treasury departments of large enterprises) unless one of the other exemptions or exceptions to the prohibition contained in Article 3 of the Dutch Securities Transactions Supervision Act 1995 (*Wet toezicht effectenverkeer 1995*) is applicable and the conditions attached to such exemption or exception are complied with.

VALIDITY OF THE NOTES

The validity of the notes will be passed upon for Wachovia by Ross E. Jeffries, Jr., Esq., Senior Vice President and Assistant General Counsel of Wachovia, and for the agents by Sullivan & Cromwell, 125 Broad Street, New York, New York. Sullivan & Cromwell will rely upon the opinion of Mr. Jeffries as to matters of North Carolina law, and Mr. Jeffries will rely upon the opinion of Sullivan & Cromwell as to matters of New York law. The opinions of Mr. Jeffries and Sullivan & Cromwell will be conditioned upon, and subject to certain assumptions regarding, future action to be taken by Wachovia and the trustees in connection with the issuance and sale of any particular note, the specific terms of notes and other matters which may affect the validity of notes but which cannot be ascertained on the date of such opinions. Mr. Jeffries owns shares of Wachovia's common stock and holds options to purchase additional shares of Wachovia's common stock. Sullivan & Cromwell regularly performs legal services for Wachovia. Certain members of Sullivan & Cromwell performing these legal services own shares of Wachovia's common stock.

Table of Contents

EXPERTS

The consolidated balance sheets of Wachovia Corporation as of December 31, 2001 and 2000, and the related consolidated statements of income, changes in stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2001, included in Wachovia's 2001 Annual Report to Stockholders which is included in Wachovia's Annual Report on Form 10-K for the year ended December 31, 2001, and incorporated by reference in this prospectus, have been incorporated by reference in this prospectus in reliance upon the report of KPMG LLP, independent accountants, incorporated by reference herein, and upon the authority of said firm as experts in accounting and auditing.

The restated audited financial statements of former Wachovia Corporation at December 31, 2000 and 1999, and for each of the three years in the period ended December 31, 2000, included in Wachovia's Current Report on Form 8-K dated August 30, 2001 and incorporated by reference herein, have been incorporated by reference herein in reliance upon the report of Ernst & Young LLP, independent auditors. The restated audited financial statements referred to above are included in reliance upon such report given on the authority of such firm as experts in accounting and auditing.

LISTING AND GENERAL INFORMATION

Listing and Documents Available

Application has been made to list the notes offered by this prospectus on the Luxembourg Stock Exchange. The Luxembourg Stock Exchange has allocated to the program the number 12695 for listing purposes. The Amended and Restated Articles of Incorporation and the By-Laws of Wachovia and a legal notice relating to the issuance of the notes will be deposited prior to listing with the Registrar of the District Court in Luxembourg (*Greffier en Chef du Tribunal d'Arrondissement de et à Luxembourg*), where such documents may be examined and copies obtained upon request. Copies of the above documents together with this prospectus, any pricing supplements, the Distribution Agreement, the indentures and Wachovia's Annual Report on Form 10-K for the year ended December 31, 2001 as well as all other documents incorporated by reference herein (other than exhibits to such documents, unless such exhibits are incorporated by reference therein) including future Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, so long as the notes are listed on the Luxembourg Stock Exchange, will be made available for inspection, and may be obtained free of charge, at the main office of the Luxembourg listing agent. The Luxembourg listing agent will act as a contact between the Luxembourg Stock Exchange and Wachovia or the holders of the notes. We have appointed Dexia Banque Internationale à Luxembourg as the Luxembourg listing agent for the notes.

However, notes may be issued under the program which will not be listed on the Luxembourg Stock Exchange or which will be listed on any other securities exchange as Wachovia and the relevant agent(s) may agree.

Authorization

The program has been established and the notes will be issued pursuant to authority granted by the Board of Directors of Wachovia on October 26, 2001 as such authority may be supplemented from time to time.

Material Change

As of the date of this prospectus, other than as disclosed or contemplated herein or in the documents incorporated by reference, to the best of Wachovia's knowledge and belief, there has been no material adverse change in the financial position of Wachovia on a consolidated basis since March 31, 2002. See "Where You Can Find More Information" above.

Table of Contents

Litigation

As of the date of this prospectus, other than as disclosed or contemplated herein or in the documents incorporated by reference, to the best of Wachovia's knowledge and belief, Wachovia is not a party to any legal or arbitration proceedings (including any that are pending or threatened) which may have, or have had, since December 31, 2001, a significant effect on Wachovia's consolidated financial position or that are material in the context of the program or the issue of the notes which could jeopardize Wachovia's ability to discharge its obligation under the program or of the notes issued under the program.

Clearance Systems

The notes have been accepted for clearance through the DTC, Euroclear and Clearstream systems. The appropriate CUSIP, Common Code and ISIN for each tranche of notes to be held through any of these systems will be contained in the relevant pricing supplement.

Agents

The United States Registrar and Domestic Paying Agent for the notes will be initially Wachovia Bank, N.A., located at its corporate trust office at 12 East 49th Street, NY4040, 37th Floor, New York, New York 10017, Attn: Corporate Trust, or at its headquarters at One Wachovia Center, Charlotte, North Carolina, 28288-0600, United States of America.

The London Paying Agent and London Issuing Agent for the notes will be initially Citibank, N.A., located at P.O. Box 18055, 5 Carmelite Street, London, EC4Y 0PA.

The Luxembourg Paying Agent and Transfer Agent for the notes will be initially Dexia Banque Internationale à Luxembourg located at 69, route d'Esch, L-2953 Luxembourg.

The Listing Agent for the notes will be initially Dexia Banque Internationale à Luxembourg located at 69, route d'Esch, L-2953 Luxembourg.
