GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation on behalf of the Board of Directors (the Board) of Tupperware Corporation (the Company) of proxies to be voted at the annual meeting of shareholders of the Company to be held on May 12, 2004, and at any adjournment thereof. This proxy statement and the accompanying form of proxy are being mailed to shareholders on or about March 25, 2004.

Voting at the Meeting

The Board has fixed the close of business on March 15, 2004 as the record date for determining shareholders entitled to vote at the meeting. On that date there were outstanding 58,536,044 shares of the Company's common stock, each of which will be entitled to one vote. A majority of the shares entitled to vote at the meeting will constitute a quorum for the transaction of business.

Shares will be voted in accordance with the instructions indicated in a properly executed proxy. If no instructions are indicated, such shares will be voted as recommended by the Board. A shareholder who has given a proxy may revoke it by voting in person at the meeting, or by giving written notice of revocation or a later-dated proxy to the Corporate Secretary of the Company at any time before the closing of the polls at the meeting. The Company has appointed an officer of Wells Fargo Bank, N.A., transfer agent for the Company, as the independent inspector to act at the meeting.

The Company's By-Laws require the affirmative vote of a plurality of the votes cast at the meeting for the election of directors, and the affirmative vote of a majority of the votes cast at the meeting for the approval of the independent auditors. Abstentions are not treated as votes cast for purposes of the election of directors or the approval of independent auditors. Broker non-votes are not treated as votes cast for purposes of any of the matters to be voted on at the meeting.

1. Election of Directors

Board of Directors

The Board is divided into three classes of directors. At each annual meeting, members of one of the classes, on a rotating basis, are elected for a three-year term. All of the nominees are currently directors of the Company. The Board has nominated Robert J. Murray for election as a director at this meeting for a term expiring in 2005, at which time he is expected to be renominated by the Board for election by shareholders for a three-year term. His candidacy was recommended by another non-management director of the Company. The Board has nominated four directors for re-election at this meeting, each for a term expiring in 2007. They are Rita Bornstein, E.V. Goings, Joyce M. Roché and M. Anne Szostak.

Unless otherwise specified, proxy votes will be cast for the election of all of the nominees as directors. If any such person should be unavailable for election, resign or withdraw, the Board has authority to either reduce the number of directors accordingly or designate a substitute nominee. In the latter event, it is intended that proxy votes will be cast for the election of such substitute nominee. Shareholder nominations of persons for election as directors are subject to the notice requirements described under the caption "Other Matters" appearing later in this proxy statement.

Board Committees

The Audit and Corporate Responsibility Committee, which held four meetings in 2003, reviews the scope and results of the audit by the independent auditors, evaluates, selects and replaces the independent auditors and has approval authority with respect to services provided by the independent auditors and fees therefor. The Committee monitors the independent auditors' relationship with and independence from the Company. In addition, it reviews the adequacy of internal control systems and accounting policies, as well as reviewing and discussing with management and the independent auditors the Company's financial statements and recommending the audited annual financial statements for inclusion in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission. The Committee also monitors the Company's relationships with and support of various outside interests, including the communities within which it operates; and reviews the Company's adherence to both the spirit and letter of relevant laws. Members of this Committee are Mr. Grum (Chairperson), Dr. Bornstein, Ms. Roché and Messrs. Cloninger and Murray. All such members are independent in accordance with New York Stock Exchange listing standards and at least one member of this Committee (Mr. Grum) is an audit committee financial expert as defined by applicable rules. None of the members of this Committee serve on more than three audit committees.

The Compensation and Governance Committee, which held five meetings in 2003, identifies and reviews qualifications of and recommends to the Board candidates for election as directors of the Company, and also acts on other matters pertaining to Board membership. This Committee will evaluate and determine the criteria for selection of a director candidate in the context of the continuing makeup of the Board of Directors based on the facts and circumstances of the Company. Once such criteria have been determined, the Committee will conduct a search for qualified candidates, which may include the use of third-party search organizations or solicitations of nominee suggestions from management or the non-management members of the Board of Directors. After compiling background material on potential nominee candidates, management will provide an analysis against Committee-established criteria and promising candidates will be interviewed by management and non-management directors, including the chairpersons of the board committees. As part of this process, a determination is made relating to a candidate's possible schedule conflicts, conflicts of interest, concerns over independence and possession of financial expertise. If a third-party search firm is paid a fee for a search it will identify potential candidates, meet with appropriate members of management to clarify issues and requirements, communicate with candidates, arrange for interviews with management and directors, and prepare materials for consideration by the Committee. The Committee also will consider recommendations of shareholders as to candidates for Board membership. Any shareholder who desires to propose to the Committee a candidate for Board membership should send to the attention of the Corporate Secretary of the Company a letter of recommendation containing the name and address of the proposing shareholder and the proposed candidate, a written consent of the proposed candidate and a complete business, professional and educational background of the proposed candidate. The Compensation and Governance Committee also evaluates the performance of and makes compensation recommendations to the Board for senior management, including the Chief Executive Officer. It also directs the administration of and makes various determinations under the management incentive plans, appoints members of senior management to have responsibility for the design and administration of employee benefit plans and reviews employee benefit plan investment performance and policies. Members of this Committee are Mr. Marbut (Chairperson), Ms. Szostak and Messrs. Lee, Martinez and Parker, and all such members are independent in accordance with New York Stock Exchange listing standards. Ms. Szostak is replacing Mr. Marbut as Chairperson of this Committee, who will continue to serve on the Committee.

The Executive Committee, which did not meet in 2003, has most of the powers of the Board and can act when the Board is not in session. Members of this Committee are Messrs. Goings (Chairperson), Grum, Lee and Marbut.

Board Meetings and Annual Meeting of Shareholders and Directors Attendance

There were five Board meetings and nine committee meetings held in 2003. No director attended fewer than 75 percent of the aggregate of Board meetings and committee meetings on which the director served as a

committee member. The Board has adopted Corporate Governance Principles which are set forth on the Company's website and which provide, in part, that directors should be available to attend scheduled and special Board and committee meetings on a consistent basis and in person, as well as to attend the annual meeting of shareholders. With the exception of one director, all directors attended the Annual Meeting of Shareholders in 2003.

Corporate Governance

The Board has established corporate governance guidelines, a code of conduct for its officers, employees and directors, a code of ethics for financial executives and charters for the key committees of its Board of Directors. These corporate governance documents may be viewed by accessing the Company's website at www.Tupperware.com. Copies of these documents may be obtained by a request in writing to the Corporate Secretary's Department, Tupperware Corporation, P.O. Box 2353, Orlando, Florida 32802-2353. In addition, because it has been modified to incorporate New York Stock Exchange required provisions, the Audit and Corporate Responsibility Committee's charter is appended hereto as Appendix A. The Company will, to the extent required by law, disclose on its website if and when there are any waivers of or amendments to its code of conduct or code of ethics.

In addition, the Company has implemented written, telephonic and electronic means for interested parties to communicate directly with the Company's compliance officers or with the non-management members of the Company's Board of Directors. Communications from interested parties to non-management directors are routed to the chairperson of the Audit and Corporate Responsibility Committee of the Board of Directors, who will then determine whether such communication shall be distributed to all non-management directors, make such distribution, if so determined, and oversee any reaction to such communications by the Board of Directors, if appropriate. Instructions are located at Tupperware.com/Investor Relations/Corporate Governance/Code of Conduct or Contact the Board. These procedures allow for such communications to be confidential, and if desired, anonymous.

Each regularly-scheduled meeting (excluding telephonic meetings) of the Board of Directors includes an executive session of the non-management members of the Board of Directors. The Board of Directors has determined that the presiding director of such sessions shall be the chairperson of the Compensation and Governance Committee of the Board of Directors.

The Board of Directors has affirmatively determined that each non-management member of the Board has no material relationship with the Company, taking into consideration all relevant facts and circumstances, including without limitation, commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships. The Board of Directors has adopted a standard which permits a relationship to exist in which the annual financial amount involved in the relationship does not exceed the greater of \$1 million or two percent of the consolidated gross revenue of the Company or the organization with whom the non-management director is affiliated, whichever is lower. Any such permitted relationship shall be deemed immaterial and shall not constitute a conflict of interest preventing a director's independence.

For its 2003 fiscal year, the Company believes all Section 16(a) filing requirements applicable to its officers, directors and greater than 10 percent beneficial owners were complied with.

INDEBTEDNESS OF MANAGEMENT

E. V. Goings, the Company's Chairman and Chief Executive Officer, was indebted to the Company at the end of 2003 in the amount of \$7,483,360 as a consequence of a loan from a subsidiary of the Company. The Company loaned \$7.65 million to Mr. Goings in 1998 to enable him to purchase 400,000 shares of the common stock of the Company. The shares were purchased in 1998 and are pledged to secure the repayment of the loan, which is non-interest bearing and non-recourse to Mr. Goings. Mr. Goings may prepay the loan in whole or in part and receive a pro rata release of the shares which secure the loan, based on the amount of the loan outstanding compared with the original amount of the loan. Ten percent of any annual bonus awards payable to Mr. Goings must be used to reduce the balance of the loan. The loan matures on November 12, 2006. An additional amount of indebtedness of Mr. Goings is described in the following paragraph.

In October 2000, a subsidiary of the Company adopted the Management Stock Purchase Plan, pursuant to which and since such time such subsidiary has loaned a total of approximately \$13.2 million to current employees and of such amount \$8.0 million has been loaned to thirteen executive officers of the Company. The loans bear interest at various rates of interest ranging from 5.21 to 5.96 percent per annum, are recourse to the borrowers and mature over an eight-year period from their origination. The proceeds of the loans were used to purchase shares of common stock of the Company, which are pledged to secure the repayment of the loans. The outstanding principal amounts of indebtedness under the loan program for each executive officer as of December 27, 2003 were as follows: Judy B. Curry, \$66,912; R. Glenn Drake, \$638,115; Lillian D. Garcia, \$368,834;

E. V. Goings, \$3,122,033; Josef Hajek, \$229,073; David T. Halversen, \$359,490; C. Morgan Hare, \$410,074; Michael S. Poteshman, \$153,409; Anne E. Naylor, \$71,808; Gaylin L. Olson, \$706,660; Thomas M. Roehlk, \$450,434; Christian E. Skroeder, \$1,000,500; and José Timmerman, \$460,226. Except for Mr. Goings, such amounts also represent the largest aggregate amounts of indebtedness by such executive officer at any time during 2003. The largest aggregate amount of indebtedness by Mr. Goings at any time during 2003 was \$10,605,393.

The purpose of all of the foregoing loan transactions was to enable the borrowers to substantially increase their ownership in the common stock of the Company and to serve as an incentive for performance to increase shareholder value. Based upon the provisions of the Sarbanes-Oxley Act of 2002, no further loans under this plan will be permitted.

REPORT OF THE AUDIT AND CORPORATE RESPONSIBILITY COMMITTEE

The Audit and Corporate Responsibility Committee (under this heading, the Committee) has reviewed and discussed with management the audited financial statements of the Company for the year 2003, which management has represented to the Committee have been prepared in accordance with accounting principles generally accepted in the United States of America and PricewaterhouseCoopers LLP has concurred in such representation in its opinion relating to such audited financial statements. The Committee discussed with representatives of PricewaterhouseCoopers LLP, the Company's independent auditors, the matters required to be discussed by Statement on Auditing Standards 61. In addition, the Committee received from PricewaterhouseCoopers LLP the written disclosures required by the Independence Standards Board Standard Number 1 (Independence Discussions with Audit Committee) and has discussed with that firm the independent auditor's independence, and has considered whether the provision of non-audit services is compatible with maintaining such firm's independence.

Management has responsibility for establishing and maintaining the Company's internal control system and its financial reporting process, and PricewaterhouseCoopers LLP has responsibility for auditing the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and issuing an audit report. The Committee monitors and oversees these processes.

Based upon the foregoing disclosures, representations, reports and discussions, the Committee recommended to the Board of Directors that the audited financial statements for the Company's 2003 fiscal year be included in the Company's Annual Report on Form 10-K for the year ended December 27, 2003.

REPORT OF THE COMPENSATION AND GOVERNANCE COMMITTEE

ON EXECUTIVE COMPENSATION

The Compensation and Governance Committee (under this heading, the Committee) is responsible for the establishment, oversight and administration of executive compensation, management incentive plans and stock-based incentive plans. It appoints members of senior management to have authority over the design and administration of other employee benefit plans.

Executive Compensation Philosophy

The executive compensation program is designed to achieve two principal objectives. First, the program is intended to be fully competitive to enable the Company to attract, motivate and retain talented executives. Second, the program is intended to create an alignment of interests between the Company's executives and shareholders such that a significant portion of each executive's compensation varies with Company performance.

The Committee's philosophy is to pay competitive annual salaries, coupled with a leveraged incentive system that pays more than competitive total compensation for performance exceeding financial goals, and less than competitive total compensation for performance below financial goals. The leveraged incentive system consists of annual cash incentive compensation and equity compensation.

The Committee assesses compensation competitiveness by referring annually to a variety of compensation survey data furnished by prominent international consulting firms. The data include market values (medians and/or averages) for salaries, bonuses, total cash compensation, stock options and various other long-term incentives provided by companies with which the Company may compete for executive talent. In addition, the Committee refers to benchmarks of total compensation for the Company's most senior executives, derived from a group of consumer products companies whose businesses are felt to be similar to the Company's. The companies whose data are represented in these various surveys include companies of varying performance levels, and are many of the same companies that comprise the comparator group indices in the Performance Graph included in this proxy statement.

Based on studies supplied by an independent consultant, the Committee believes that the Company's compensation program for the Named Officers, as defined below, has the following characteristics that serve to align executive interest with long-term shareholder value creation:

Emphasizes at risk pay such as annual cash incentives and stock options.

Emphasizes long-term compensation in the form of various equity programs.

Provides rewards based primarily on financial results and only secondarily on individual performance against individual objectives.

Section 162(m) of the Internal Revenue Code establishes certain requirements in order for compensation exceeding \$1 million earned by certain senior executives to be deductible. The Company's executive compensation programs have been structured to comply with Section 162(m). The actions of the Committee regarding the compensation paid, or to be paid, to executive management have also complied with Section 162(m); however, the Committee reserves the right to forego deductibility if, in its discretion, it believes a particular compensation program or payment or Committee action is consistent with the overall best interests of the Company and its shareholders.

Annual Salaries

Salary ranges governing executives, including the Chief Executive Officer (the CEO) and the other four most highly compensated executive officers of the Company (under this heading, the Named Officers), are established annually based on the competitive data described earlier. Within those ranges, individual salaries vary

based upon the individual's work experience, performance, level of responsibility, impact on the business, tenure and potential for advancement within the organization. Annual salaries for newly hired executives are determined at time of hire taking into account the above factors other than tenure. Under the Company's general compensation policy, salary increase consideration is conducted at 12 month intervals.

Individual salary increases are based on the performance of the individual executives and on the overall performance of the Company in the case of the CEO. Salary adjustments for the CEO and the other Named Officers are subject to approval by the full Board, based upon the recommendation of the Committee.

Incentives

One part of the Company's leveraged incentive system is the cash incentive program. This incentive program for executives is based on financial performance and is designed to promote the annual and longer-term objectives of the organization. Participants include the CEO, the other Named Officers, and other management employees whose contributions influence results. The target annual incentive opportunities of the CEO and the other Named Officers are subject to Committee review and approval annually and are established as a percentage of salary based on job level, impact on results and the competitive data referred to previously. The CEO's and the other Named Officers' targets range from 45-100 percent of annual salary, and awards based on financial performance range from 0-300 percent of target. Financial goals are subject to review and approval by the Committee at the beginning of each year. For 2003, the financial measure for executive level incentives was net income after tax.

In 2003, the Company introduced a long-term cash incentive in the form of a performance share program based upon achievement of Company financial performance, which is designed both to promote the long-term objectives of the organization and to serve as a retention incentive. Participants include the CEO and other Named Officers as well as selected executives who are in a position to make substantial contributions to the accomplishment of the long-term financial objectives of the Company. Financial objectives are based upon three-year cumulative earnings per share and three-year cumulative free cash flow. Every year begins a new three-year measurement period. The amount of potential bonus awards under the performance share program is based upon a fixed number of shares dependent upon the level of the participant. Participants in this program receive a reduced annual stock option grant from what would otherwise be granted absent such participation.

The CEO and one other senior officer received incentive compensation in 2003 based upon the completion of performance goals relating to real estate development. This incentive program continues in 2004 and beyond for such senior officer and the CEO, and compensation levels will be based upon the amount of proceeds from completed sales.

For all incentive programs, the Committee verifies the actual performance achieved as a precondition to approving awards and reserves the right to reduce any formula-based award that, in its judgment, is inappropriate in light of overall results and circumstances. The Committee has reserved the right to interpret financial results and to determine the proper treatment of changes in accounting standards, non-recurring events, capital gains and losses or changes in capital structure of the Company. The Committee's discretion generally is limited to reducing or withholding awards. Performance targets are established so as to include or exclude the effects of transactions or events, such that the Committee can effectively modify awards through the use of negative discretion.

Restricted Stock

In 2003 the Company made a grant of restricted stock to the CEO and the other Named Officers, and to select key employees having strategic impact on revenue generation, product, staffing, technology, pricing, controls, investment or policy matters. The main purpose was to provide

Edgar Filing: TUPPERWARE CORP - Form DEF 14A

motivation and retention incentive. The amount of restricted stock was based upon a fixed number of shares dependent upon the level of the participant.

Participants in this program received a reduced annual stock option grant from what would otherwise have been granted absent such participation.

Stock Options

The grant of stock options to key employees encourages equity ownership and closely aligns management interest with the interests of other shareholders. Additionally, because options are generally subject to forfeiture if the employee leaves the Company prior to their becoming exercisable, options provide an incentive to remain with the Company long term. The Company has guidelines regarding the accumulation of designated levels of Company stock over time by officers, and the exercise of options provide one way by which officers can meet the guidelines. Stock options are generally granted annually to the CEO and the other Named Officers, and to other key employees having strategic impact on revenue generation, product, staffing, technology, pricing, controls, investment or policy matters. The aggregate number of options granted, as well as each individual grant to the CEO and the other Named Officers, contain option exercise prices at least equal to the fair market value on the date of grant. The size of the annual 2003 stock option grant for the executive officers as a group is less than the median of the competitive norms, due to the group's participation in other incentive programs discussed above.

Corporate Performance & CEO Pay

Performance in 2003 resulted in net income of \$47.9 million. This represented a 47 percent decrease from 2002 net income of \$90.1 million.

In 2003 Mr. Goings' salary was \$900,000, and he did not receive a salary increase. Mr. Goings' incentive bonus target remained the same at 100% of base salary in 2003. Based on a comparison of Mr. Goings' total compensation package (salary, incentives at target, stock options, benefits and perquisites) with the total compensation packages of the CEOs in benchmark companies referred to previously, Mr. Goings' total compensation opportunity at target incentive achievement is at the market median. In 2003 Mr. Goings' received a real estate incentive payout of \$57,943 and a discretionary bonus payout of \$225,000 for achieving individual objectives set by the Board.

The Committee granted an option to Mr. Goings to purchase 75,700 shares of the Company's common stock and 12,000 shares of restricted stock under the Company's annual stock incentive program. In addition, the Committee also issued 40,000 share units under the Performance Share Program.

The Committee also provided Mr. Goings with a Supplemental Executive Retirement Plan under which it is estimated that Mr. Goings will receive an annual benefit of \$525,253 at age 65 after offsetting other company benefits.

- (3) For 2003, this column includes annual contributions by the Company for Messrs. Goings, Drake, Halversen and Poteshman to the Retirement Savings Plan, and amounts credited by the Company with respect to the such officers to the Company's Supplemental Plan (which provides benefits to which they would have been entitled under the Retirement Savings Plan, but for the benefit limits imposed by the Code) as follows: Mr. Goings, \$13,890 and \$66,618; Mr. Drake, \$13,890 and \$23,773; Mr. Poteshman, \$13,890, and \$10,087; and Mr. Halversen, \$15,390, and \$12,310.
- (4) Includes amounts representing imputed income for deemed interest, which Mr. Goings is not obligated to pay under a loan transaction described under the caption "Indebtedness to Management" due to the non-interest bearing nature of the loan, as well as a gain from exercise of a stock option of \$1,324,447 in 2002 only. For Mr. Poteshman, this includes primarily expatriate and relocation costs associated with his assignment to the Company's European headquarters, as well as the value of stock upon the lapse of restrictions on a restricted stock award of \$31,380 in 2003, \$34,760 in 2002 and \$45,060 in 2001.
- (5) Mr. Skróder did not receive a salary increase in 2002 or 2003. These differences are due to the strengthening of the Swiss franc against the U.S. dollar during the three-year period.

STOCK OPTIONS

The following tables show option grants, exercises and fiscal year-end values of stock options for the Named Officers under the Company's 1996 Incentive Plan. The Plan permits the grant of stock appreciation rights.

- (1) These options will become exercisable 1/3 each year commencing on November 19, 2004. The exercise price of these stock options is the average of the high and low price of the Company's common stock on the date of grant. The term of each option is 10 years. In the event of a Change of Control of the Company, all options will become immediately exercisable and the optionee will have the right to receive the difference between the exercise price and the fair market value of the common stock in cash.
- (2) The Black-Scholes option pricing model was used assuming a dividend yield of 5.9 percent, a risk-free interest rate of 3.8 percent, an expected stock price volatility based on historical experience of 40 percent and an expected option life based on historical experience of eight years. The attribution of values with the Black-Scholes model to stock option grants requires adoption of certain assumptions, as described above. While the assumptions are believed to be reasonable, the reader is cautioned not to infer a forecast of earnings or dividends either from the model's use or from the values adopted for the model's assumptions. Any future values realized will ultimately depend upon the excess of the stock price over the exercise price on the date the option is exercised.

Long-Term Incentive Plan Awards

The following table sets forth the long-term incentive opportunity for the three-year cycle of 2003 through 2005 under the Company's Performance Share Plan. Payment of awards, if any, would occur in 2006 based on actual performance for the three-year period.

- (1) This represents a range of performance units at varying levels of Company performance. Payments in cash would be the product of the number of units earned depending upon Company performance in the 3-year period times the average closing stock price over a 60-day period.

The Named Officers participate in the Performance Share Plan under the Corporation's 2002 Incentive Plan. Financial objectives are based upon three-year cumulative earnings and cash flow before financing activities, subject to adjustment for certain non-recurring items, with every year

beginning a new three-year measurement period. The amount of potential bonus awards is based upon a fixed number of shares depending upon the level of the participant.

Retirement Plans

Messrs. Goings, Drake, Halversen and Poteshman (the U.S. Named Officers) participate in the Tupperware Corporation Base Retirement Plan (the Base Plan) at 1 percent of career average pay. Compensation covered by the Base Plan includes salary and annual bonus paid in the calendar year, but does not include any long-term incentive or other cash payments. Credited years of service for each of the Named Officers are: Mr. Goings, 11.08; Mr. Drake, 19.92; Mr. Halversen 8.83 and Mr. Poteshman, 10.25. Benefits are computed on a straight-life annuity basis and are not subject to any deductions for social security or other offset amounts. The estimated annual benefits payable upon retirement at normal retirement age for each of the Named Officers are: Mr. Goings, \$161,242; Mr. Drake, \$100,857; Mr. Halversen, \$43,583 and Mr. Poteshman, \$89,696. The estimates take into account participation in the Base Plan, any predecessor plan formula, and the Tupperware Supplemental Plan, which provides benefits from general assets of the Company that would otherwise be payable from plans but for the benefit limits imposed by the Code.

Mr. Goings participates in a supplemental executive retirement plan (SERP), which provides for benefits at 3 percent of final average SERP pay multiplied by the credited years of service. Final average SERP pay means the highest average cash compensation, taking into account salary plus bonus, over a consecutive three-year period during the last five years of credited service. Mr. Goings has 11.08 years credited service under the SERP, and the estimated annual benefits payable upon retirement at normal retirement age for Mr. Goings are \$525,253 after offsetting other company benefits.

Mr. Skróder participates in the Tupperware International Holdings B.V. Pension Plan (the TEAM pension plan) at 1.75 percent of pay of the average best five salaries in the final ten years prior to retirement per year of service. Compensation covered by the TEAM pension plan includes salary plus management bonus, but does not include any overtime, commissions or occasional premiums. Mr. Skróder has 15.83 years credited service under the TEAM pension plan. Benefits are computed on a straight-life annuity basis and are subject to integration with Swiss social security through an offset with covered compensation. The estimated annual benefits payable upon retirement at normal retirement age for Mr. Skróder are CHF 228,986. The estimate takes into account participation in the TEAM and Swiss pension plans and any predecessor plan formula.

Compensation of Directors

Non-employee directors of the Company receive (i) an annual retainer fee of \$34,000, (ii) an annual stock option grant to purchase 4,000 shares of the Company s common stock at the fair market value of the common stock on the date of grant, (iii) for committee chairpersons, a retainer of \$15,000 per year (other than the Executive Committee) and (iv) a fee of \$1,500 for each meeting of the Board and for each meeting of any committee attended.

Such directors receive one-half of their annual retainer fees in stock and the balance, at their election, in stock, cash or a discounted stock option. They may elect to defer payment of all or part of the cash retainer and, at their election, attendance fees, in which event interest is credited at the prime rate. The Director Stock Plan also provides that a grant of 1,000 shares of Tupperware Common Stock be made to each new non-employee director after three months of service on the Board.

Non-employee directors may also participate in the Company s Matching Gift Program. Under the Program, the Company will match dollar for dollar up to \$3,500 of a director s charitable gift to eligible organizations and institutions. Non-employee directors also receive compensation in the form of merchandise not exceeding \$2,000.

Change of Control Agreements and Severance Agreement

The Company has entered into a change of control employment agreement (collectively, the Change of Control Agreements) with each of its executive officers including the CEO and the Named Officers. The purpose of these agreements is to assure stockholders that the business of the Company will continue with a minimum amount of disruption in the event of a change of control or attempted change of control of the Company. Under the terms of the Change of Control Agreements, a change of control is defined as the acquisition of 15 percent or more of the Company s Common Stock or voting securities of the Company by a person or group, certain changes in the majority of the Company s Board, certain mergers involving the Company or the liquidation, dissolution or sale of all or substantially all of the assets of the Company. If within three years of a change of control, the Company terminates any such officer s employment (other than for cause or disability) or any such officer terminates his employment for good reason, or, during the 30-day period beginning one year after a change of control, any such officer terminates his employment for any reason, such officer will be entitled to, among other things, his or her base salary and pro rata bonus through the date of termination; the amount of any compensation previously deferred and any accrued vacation pay, in each case, to the extent not yet paid; three times the sum of his or her base salary and the greater of any incentive award for the most recently completed fiscal year, and the average of the higher of the actual incentive award and the target incentive award (on a year-by-year basis) for the last three years; and continued

participation in the Company's

welfare plans for the remainder of such three-year period (other than medical benefits which will, under certain circumstances, be continued for the lifetime of such officer). Additionally, if any payment or distribution by the Company or any subsidiary or affiliate to an officer who is party to a Change of Control Agreement would be subject to any excise tax as an excess parachute payment, then such officer will be entitled to receive an additional gross-up payment in an amount such that after payment of all taxes by such officer attributable to such additional gross-up payment, such officer is in the same after-tax position as if no excise tax had been imposed on such officer.

A severance agreement was entered into between the Corporation and E.V. Goings pursuant to which Mr. Goings could be paid two times the sum of his base salary and target bonus and receive other benefits in the event his employment was terminated without cause. The other benefits include the vesting of all long-term incentive awards and twenty-four months of continued medical and dental insurance coverage. The payments under this contract would be reduced on a dollar-for-dollar basis by any amounts paid under a change of control arrangement.

The Board recommends that you vote FOR the election of all of the nominees to the Board of Directors.

Compatibility with Independence

The Audit and Corporate Responsibility Committee has considered whether the provision of the non-audit services rendered by PricewaterhouseCoopers LLP is compatible with maintaining that firm's independence and concluded that such services were compatible.

On an annual basis, the Audit and Corporate Responsibility Committee approves the audit services and the fees related thereto to be provided by PricewaterhouseCoopers LLP in advance of the year of service. Any new services proposed to be provided by PricewaterhouseCoopers LLP during the year of service are approved by the Committee in advance of being provided.
