PROXY STATEMENT

March 31, 2004

SOLICITATION

The solicitation of the enclosed proxy is made on behalf of the Board of Directors of Murphy Oil Corporation (the Company) for use at the Annual Meeting of Stockholders to be held on May 12, 2004. It is expected that this Proxy Statement and related materials will first be mailed to stockholders on or about March 31, 2004.

The complete mailing address of the Company's principal executive offices is 200 Peach Street, P.O. Box 7000, El Dorado, Arkansas 71731-7000.

VOTING PROCEDURES

The affirmative vote of a majority of the shares present in person or represented by proxy at the meeting is required for approval of matters presented at the meeting. Your proxy will be voted at the meeting, unless you (i) revoke it at any time before the vote by filing a revocation with the Secretary of the Company, (ii) duly execute a proxy card bearing a later date, or (iii) appear at the meeting and vote in person. Proxies returned to the Company, votes cast other than in person and written revocations will be disqualified if received after commencement of the meeting. If you elect to vote your proxy by telephone or internet as described in the telephone/internet voting instructions on your proxy card, we will vote your shares as you direct. Your telephone/internet vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned your proxy card.

Votes cast by proxy or in person at the meeting will be counted by the persons appointed by the Company to act as election inspectors for the meeting. The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum and for purposes of determining the outcome of any other business submitted at the meeting to the stockholders for a vote. Abstentions, however, do not constitute a vote for or against any matter and thus will be disregarded in the calculation of votes cast.

The election inspectors will treat shares referred to as broker non-votes (i.e., shares held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote and that the broker or nominee does not have discretionary power to vote on a particular matter) as shares that are present and entitled to vote for purposes of determining the presence of a quorum. However, for purposes of determining the outcome of any matter as to which the broker has physically indicated on the proxy that it does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter (even though those shares are considered entitled to vote for quorum purposes and may be entitled to vote on other matters).

Unless specification to the contrary is made, the shares represented by the enclosed proxy will be voted FOR all the nominees for director and FOR approval of the appointment of KPMG LLP as the Company's independent auditors.

VOTING SECURITIES

On March 15, 2004, the record date for the meeting, the Company had outstanding 91,975,464 shares of Common Stock, all of one class and each share having one vote in respect of all matters to be voted on at the meeting. This amount does not include 2,637,621 shares of treasury stock. Information as to Common Stock Ownership of certain beneficial owners and management is set forth in the tables on pages 6 and 7 (Security Ownership of Certain Beneficial Owners and Security Ownership of Management).

ELECTION OF DIRECTORS

One director, H. Rodes Hart, has attained retirement age and will not stand for reelection. Due to his retirement, the by-laws of the Company, which currently provide for ten directors, have been amended effective May 12, 2004 to provide for nine directors who will be elected at the Annual Meeting of Stockholders. Proxies cannot be voted for a greater number of persons than the number of nominees named. The by-laws also provide that the directors elected at each Annual Meeting of Stockholders shall serve until their successors are elected and qualified.

To the extent authorized by the proxies, the shares represented by the proxies will be voted in favor of the election as directors of the nine nominees whose names are set forth below. If for any reason any of these nominees is not a candidate when the election occurs, the shares represented by such proxies will be voted for the election of the other nominees named and may be voted for any substituted nominees. However, management of the Company does not expect this to occur. All of management's nominees were elected at the last Annual Meeting of Stockholders. The names of the nominees, and certain information as to them, are as follows:

Committees

The standing committees of the Board of Directors are the Executive Committee, the Audit Committee, the Executive Compensation Committee, the Nominating & Governance Committee and the Public Policy & Environmental Committee.

The Executive Committee is empowered to exercise certain functions of the Board of Directors when the Board is not in session.

The Audit Committee has the sole authority to appoint or replace the Company's independent auditors who report directly to the committee. The committee also assists the Board's oversight of the integrity of the Company's financial statements, the independent auditors' qualifications and independence, the performance of the Company's internal audit function and independent auditors and the compliance by the Company with legal and regulatory requirements. This committee meets with representatives of the independent auditors and with members of the internal Auditing Division for these purposes. All of the members of the Audit Committee are independent under the rules of the New York Stock Exchange.

The Executive Compensation Committee oversees the compensation of the Company's executives and directors and administers the Company's Annual Incentive Compensation Plan, the 1992 Stock Incentive Plan and the Stock Plan for Non-Employee Directors. All of the members of the Executive Compensation Committee are independent under the rules of the New York Stock Exchange.

The Nominating & Governance Committee identifies and recommends Board members, recommends appointments to Board committees, oversees evaluation of Board performance, develops, reviews and assesses the Corporate Governance Guidelines of the Company and reviews programs related to compliance with the Company's Code of Business Conduct and Ethics. All of the members of the Nominating & Governance Committee are independent under the rules of the New York Stock Exchange. Information regarding the process for evaluating and selecting potential director candidates, including those recommended by stockholders, is set out in the Company's Corporate Governance Guidelines. Stockholders desiring to

recommend candidates for membership on the Board of Directors for consideration by the Nominating & Governance Committee should address their recommendations to: Nominating & Governance Committee of the Board of Directors, c/o Secretary, Murphy Oil Corporation, P.O. Box 7000, El Dorado, Arkansas 71731-7000. The Corporate Governance Guidelines also provide a mechanism by which security holders may send communications to Board members and contain the Company's policy with respect to board member attendance at annual meetings of shareholders. All Board members attended the 2003 annual meeting.

The Public Policy & Environmental Committee assists the Board in monitoring compliance with applicable environmental, health and safety laws and regulations and provides guidance as to public issues affecting the Company.

Charters for the Audit, Executive Compensation, Nominating & Governance and Public Policy & Environmental Committees, along with Corporate Governance Guidelines and the Code of Ethical Conduct for Executive Management, are available on the Company's website, www.murphyoilcorp.com/cr/governance and free of charge from the Corporate Secretary.

Meetings and Attendance

During 2003 there were six regular meetings and one special meeting of the Board of Directors, twelve meetings of the Executive Committee, nine meetings of the Audit Committee, two meetings of the Executive Compensation Committee, three meetings of the Nominating & Governance Committee, and three meetings of the Public Policy & Environmental Committee. All nominees attended a minimum of 75% of the total number of meetings of the Board of Directors and committees on which they served.

Compensation of Directors

The Company's standard arrangement for the compensation of non-employee directors was revised in 2003 to divide remuneration into cash and equity components. Toward this end, a Stock Plan for Non-Employee Directors was submitted to, and approved by, stockholders at the 2003 annual meeting. The aim of the restructuring was twofold: (i) to further align the interests of directors and the shareholders they represent and (ii) to bring total director compensation to a level near the 50th percentile of the competitive market (as determined by a major national consulting firm) which will enhance the Company's ability to retain and recruit qualified individuals.

In 2003, the cash component consisted of an annual retainer of \$37,500 plus \$1,250 for each Board or committee meeting attended. Committee chairmen and the audit committee financial expert received an additional \$5,000 and the Chairman of the Board received an additional \$75,000. The Company also reimburses directors for travel, lodging and related expenses they incur in attending Board and committee meetings.

Pursuant to the Stock Plan for Non-Employee Directors, which is administered by the Executive Compensation Committee, each director received in 2003 stock options for 6,000 shares having a grant date present value of \$63,480.* The options vest 1/3 after one year, 2/3 after two years and in full after three years

* Grant date present value based on the Black-Scholes option pricing model adapted for use in valuing stock options. The actual value, if any, a director may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that the value realized by the director will be at or near the value estimated by the Black-Scholes model. The estimated values under that model are based on assumptions as to certain variables and included the following:

Edgar Filing: MURPHY OIL CORP /DE - Form DEF 14A

Risk-free rate of return	2.55%
Stock volatility	27.31%
Dividend yield	2.08%
Expected life of option	5 years

from the date of the grant and expire ten years from the date of the grant. The exercise price of \$47.16 is equal to the fair market value on the date of the grant, May 14, 2003.

- (1) No stock appreciation rights were granted in 2003.
- (2) Options granted in 2003 vest 50% at the end of two years and 100% at the end of three years from the date of grant and are exercisable for a period of 10 years from the date of grant.
- (3) Values were based on the Black-Scholes option pricing model adapted for use in valuing stock options. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that the value realized by the executive will be at or near the value estimated by the Black-Scholes model. The estimated values under that model are based on assumptions as to certain variables and in 2003 included the following:

Risk-free rate of return	3.04%
Stock volatility	28.87%
Dividend yield	2.12%
Expected life of option	5 years

Based on the Black-Scholes option pricing model, using the above assumptions, the options granted in 2003 have been valued at \$10.30 per share as of the grant date.

COMPENSATION COMMITTEE REPORT FOR 2003

Executive Compensation Philosophy and Principles

The Company's executive compensation policies applicable to the Named Executives are based on principles designed to align the interests of the executives with those of shareholders. Compensation is also intended to provide a direct link with the Company's values, objectives, business strategies and financial results. In order to attract and retain key executives who are critical to its long-term success, the Company believes that its pay package should be competitive with others in the energy industry. Executives should be rewarded for both the short-term and long-term success of the Company and, conversely, be subject to a degree of downside risk in the event that the Company does not achieve its performance objectives.

Toward this end, the Named Executives each have a compensation package which includes a base salary, participation in a cash based annual incentive plan and participation in an equity based long-term incentive plan. Each of these three elements is discussed in more detail below.

Base Salary Practices

Base salaries for the Named Executives are ultimately based on a combination of experience, performance, responsibilities and other factors. As guidance, the Company relies on energy industry salary surveys conducted by one or more major compensation consulting firms. Many of the companies in the surveys are also included in the AMEX Oil Index which is depicted in the performance graph shown on page 14. For each of the Named Executives, their salaries and the amount of increases for 2003 were at or near the mid-point of the salary surveys. Annual salary review for the Named Executives focuses on factors including individual performance, Company performance, general economic conditions and marketplace compensation trends.

Annual Incentive Compensation Program

The Company's annual incentive plan provides for cash bonuses, based on a percentage of base salary, if the Company achieves a targeted return on capital employed. The target level for 2003 was developed based on a projection of the Company's weighted average cost of capital. Because the Company met the performance target for 2003, the Named Executives received annual incentive awards for the 2003 plan year in accordance with the Plan's formula.

Long-Term Incentive Compensation

Long-term incentive compensation is provided by the 1992 Stock Incentive Plan, which provides for stock options, stock appreciation rights and performance-based restricted stock. In 2003, only stock options were awarded. A stock option gives the executive the right to purchase a specified number of shares of the Company's common stock at a price equal to the market price on the date of the grant. The options, all of which are nonqualified, vest in two years as to half and in three years as to the remaining half. Once vested, the options are exercisable for ten years from the date of the grant. The Company's stock option grants in 2003 were, based on survey data provided by a major compensation consulting firm, generally between the 25th and 50th percentile levels of energy industry practices. Total grants in 2003 equaled .86% of the Company's issued and outstanding shares.

Internal Revenue Code Section 162(m)

The Company currently structures its executive compensation packages so as to maintain full deductibility of compensation pursuant to section 162(m) of the Internal Revenue Code. However, the Company monitors compensation on an ongoing basis and may, when it is considered to be in the best interest of the Company, approve compensation for which deductibility is limited by Section 162(m).

Discussion of 2003 Compensation for the President and Chief Executive Officer

Factors and criteria on which the CEO's compensation is based are consistent with the policies and philosophies applicable to the other Named Executives outlined at the beginning of this report. Claiborne P. Deming, the Company's President and CEO, received a salary increase in 2003 of 5.88%. Both the amount of the increase and the resulting base salary are near the median of the competitive market as determined by a major compensation consulting firm. As noted earlier, in 2003 the Company met its performance target as established for the annual incentive compensation plan. As a participant in the plan in 2003, Mr. Deming earned an annual incentive award of \$900,000. In 2003, Mr. Deming was awarded long-term compensation in the form of 100,000 nonqualified stock options with terms and conditions as discussed above. Mr. Deming's long-term compensation is below the 25th percentile of the competitive market as determined by a major compensation consulting firm.

This report is submitted by the members of the Executive Compensation Committee: George S. Dembroski (Chairman), H. Rodes Hart, David J. H. Smith and William C. Nolan, Jr.

SUMMARY DESCRIPTION OF MATERIAL TERMS OF EQUITY COMPENSATION PLANS NOT APPROVED BY SHAREHOLDERS:

The Company's Canadian subsidiary offers its employees a Canada Customs and Revenue Agency approved savings plan. The plan matches on a one-for-one basis employee contributions up to 4% of base salary for employees with less than two years service and up to 6% for those with two years or more service. A number of investment alternatives are available with each employee determining the direction of his/her

contributions as well as the Company match. One of the investment alternatives is Murphy Stock. In 2003, the employee directed Company match into Company stock under this plan totaled 2,315 shares.

In 2003 the Company's UK based subsidiary offered its employees two types of plans that encourage savings and provide for the acquisition of Company stock: the Save As You Earn Plan (SAYE) and a Share Incentive Plan (SIP). The SAYE and the SIP are Inland Revenue approved.

The SAYE allows employees to contribute up to £3,000 annually. Contributions are invested in an approved Building Trust for a three year period, at the end of which, the employee has the option to direct the

amount saved and the interest earned to purchase Company stock at a price equal to 90% of the fair market value of the stock at the beginning of that period. It is permitted to run three plans concurrently but the individual savings limit is £3,000 annually on an aggregate basis. The following details the SAYE plans:

	<u>Start Date</u>	<u>Maturity</u>	<u>Options Outstanding</u>	<u>Options Exercised</u>
SAYE 2001	03/01	02/04	3,682	
SAYE 2002	11/02	10/05	8,776	

Under the SIP, employees may contribute up to the lower of 5% of their base salary or £1,500 for the purchase of Company stock. The Company matches the employee purchases on a one-for-one basis. The Company match totaled 4,539 shares in 2003.

RETIREMENT PLANS

(2) Exceeds presently allowable maximum legislative limits for annual pension benefits under a defined benefit pension plan. In 2003, the maximum benefit allowable was \$160,000 (\$165,000 for 2004).

A portion of the benefits shown above would be paid under the Company's Supplemental Benefit Plan to the extent such benefits exceed legislative limitations.

The estimated credited years of service for Messrs. Deming, Cossé, Hulse, Stobaugh and Eckart are twenty-five years, twenty-four years, thirteen years, nine years and thirteen years, respectively.

As of January 1, 1992, employees of Murphy Exploration & Production Company, formerly named Ocean Drilling & Exploration Company (ODECO), began participating in the Company's plans. Prior to that time such employees participated in similar plans of ODECO. Employees of the Company or one of its 100% owned subsidiaries who were previously included in the ODECO Retirement Plan may receive a benefit upon

retirement which is based on a combination of the Company and ODECO plans. The following table indicates the estimated annual benefit computed on a straight life annuity basis payable, at age 65, under the ODECO plan for the salary and length of service indicated:

Pension Plan Table ODECO Plan

* Exceeds presently allowable maximum legislative limits for annual pension benefits under a defined benefit pension plan.

The above tables do not reflect any reductions in retirement benefits that would result from the selection of one of either plan's various available survivorship options nor the actuarial reductions required by the plans for retirement earlier than age 62.

It is not feasible to calculate the specific amount attributable to the plans for each employee. The Company had no required contributions to these retirement plans in 2003, and therefore, no contributions were made.

APPROVAL OF APPOINTMENT OF INDEPENDENT AUDITORS

The Board of Directors desires that the stockholders indicate their approval or disapproval of the Audit Committee's action in appointing KPMG LLP, Certified Public Accountants, as independent auditors of the Company for the year 2004. KPMG LLP has been serving the Company and its subsidiaries as independent auditors for many years. The firm has advised the Company that its members have no direct or indirect financial interest in the Company or any of its subsidiaries. Members of the firm are expected to be present at the Annual Meeting for the purpose of responding to inquiries by stockholders, and such representatives will have an opportunity to make a statement if they desire to do so.

The Audit Committee pre-approves any engagement of KPMG. In 2003, the percentage of services designated for audit fees, audit-related fees and tax fees that were approved by the Audit Committee were 72%, 12% and 16%, respectively.

In the event a majority of the stockholders voting should indicate disapproval of the appointment of KPMG LLP, the adverse vote will be considered as a directive to the Audit Committee to select other auditors for the following year. Because of the difficulty and expense of making any substitution of auditors during a year, it is contemplated that the appointment for 2004 will be permitted to stand unless the Audit Committee finds other good reason for making a change.

Edgar Filing: MURPHY OIL CORP /DE - Form DEF 14A

The Board of Directors recommends that shareholders vote FOR approval of the appointment of KPMG LLP as independent auditors for the year 2004. Proxies solicited on behalf of the Board will be voted FOR this proposal.

AUDIT COMMITTEE REPORT

The Audit Committee assists the Board's oversight of the integrity of the Company's financial statements, the independent auditor's qualifications and independence, the performance of the Company's internal audit function and independent auditors and the compliance by the Company with legal and regulatory requirements. The Audit Committee met nine times in 2003. All of the members of the Audit Committee are independent under SEC and New York Stock Exchange rules. George S. Dembroski is the designated audit committee financial expert.

In connection with the Company's December 31, 2003 consolidated financial statements, the Audit Committee reviewed and discussed the audited financial statements with management; discussed with the auditors the matters required by Statement on Auditing Standards No. 61; and received and discussed with the auditors the matters required by Independence Standards Board Statement No. 1 and considered the compatibility of non-audit services with the auditor's independence. Fees for services provided by the Company's principal accountant, KPMG LLP, for the years ended December 31, 2003 and 2002 were as follows:

	<u>2003</u>	<u>2002</u>
Audit fees	\$ 698,500	719,567
Audit-related fees (1)	113,042	118,162
Audit and audit-related fees	811,542	837,729
Tax fees (2)	159,030	190,994
All other fees		
Total fees	\$ 970,572	1,028,723

(1) Audit-related fees consisted principally of fees for audits of financial statements of employee benefit plans, review of accounting for proposed transactions, and other reports primarily required by U.S. government agencies.

(2) Tax fees consisted of fees for tax consultation and tax compliance services.

Based on these reviews and discussions, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2003.

This report is submitted by the members of the Audit Committee: R. Madison Murphy (Chairman), Frank W. Blue, George S. Dembroski, H. Rodes Hart and William C. Nolan, Jr.
