ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying prospectus are part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a shelf registration process. Under this shelf registration process, we may offer from time to time shares of common stock. In the accompanying prospectus, we provide you with a general description of the common stock we may offer from time to time under our shelf registration statement. In this prospectus supplement, we provide you with specific information about the shares of our common stock that we are selling in this offering. Both this prospectus supplement and the accompanying prospectus include important information about us, our common stock and other information you should consider before investing. This prospectus supplement may add, update and change information contained in the accompanying prospectus. You should read both this prospectus supplement and the accompanying prospectus as well as additional information described under **Information Incorporated By Reference** on page 15 of the accompanying prospectus before investing in our common stock. The information incorporated by reference in the accompanying prospectus under **Information Incorporated by Reference** on page 15 shall be deemed to be incorporated by reference in this prospectus supplement. To the extent there is a conflict between the information contained in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus or any document incorporated by reference in the accompanying prospectus, on the other hand, the information contained in this prospectus supplement shall control.

You should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should not assume that the information contained in this prospectus supplement, the accompanying prospectus or the documents incorporated by reference is accurate as of any date other than the respective dates of those documents.

Unless the context otherwise requires, the terms **we**, **our**, **us**, **the company**, **ANB** and **Alabama National** refer to Alabama National Bancorporation and its subsidiaries.

PROSPECTUS SUPPLEMENT SUMMARY

This summary is not complete and does not contain all of the information that you should consider before investing in our common stock and is qualified in its entirety by the more detailed information included or incorporated by reference in this prospectus supplement and the accompanying prospectus. To understand this offering fully, you should carefully read this entire prospectus supplement, including the Risk Factors section, the accompanying prospectus and the documents incorporated by reference herein and therein.

Alabama National Bancorporation

Alabama National is a bank holding company headquartered in Birmingham, Alabama. We operate 83 banking offices through 14 wholly-owned banking subsidiaries located in Alabama, Florida and Georgia. Through our banks, we offer a wide range of lending services, including real estate, consumer and commercial loans, to individuals, small businesses and other organizations that are located in or conduct a substantial portion of their business in our markets. We complement our lending operations with a full array of retail deposit products and fee-based services to support our clients. Through one of our banking subsidiaries, we operate an investment services department devoted primarily to handling correspondent banks' investment needs, including sales of securities, asset/liability consulting, safekeeping and bond accounting. In addition, we are the parent company of a licensed self-clearing broker-dealer, NBC Securities, Inc., a full service independent property and casualty insurance agency, ANB Insurance Services, Inc., and a receivables factoring company, Corporate Billing, Inc.

We were organized as a bank holding company in December 1986 and completed our initial public offering of common stock in November 1994. Substantially all of our current management team has been in place since December 1995, when Alabama National merged with the parent company of National Bank of Commerce of Birmingham, which is our largest banking subsidiary.

At March 31, 2004, Alabama National had total assets of approximately \$4.9 billion, total deposits of approximately \$3.5 billion, total net loans of approximately \$3.1 billion and total shareholders' equity of approximately \$426.4 million. Additional information about Alabama National is included in documents incorporated by reference in this prospectus supplement and in the accompanying prospectus. See **Where You Can Find More Information** on page 14 and **Information Incorporated by Reference** on page 15 of the accompanying prospectus.

Market Areas and Growth Strategy

We currently conduct business through 43 locations in Alabama, 32 locations in Florida and 8 locations in Georgia. According to 2004 data from the U.S. Census Bureau, the projected population growth in our markets from 2004 to 2009 is expected to be 7.65% versus a U.S. average of 5.25%. In addition, approximately 99% of our deposits are in metropolitan statistical areas, or MSAs.

In Alabama, we focus our operations in three principal market areas: north Alabama (Decatur-Huntsville market); the metropolitan Birmingham area and east central Alabama; and Baldwin County (located between Mobile, Alabama and Pensacola, Florida on the Gulf Coast).

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

In Florida, we focus our operations in six principal market areas: Pensacola (located in the Florida panhandle); the Gainesville metropolitan area; the Orlando metropolitan area; the coastal Atlantic counties of Indian River and Brevard (including the Port St. Lucie metropolitan area); the Palm Coast / Ormond Beach region; and the Naples metropolitan area.

In Georgia, we focus our operations in the greater-Atlanta counties of Cobb, Douglas and Paulding.

S-4

Table of Contents

We intend to pursue expansion into attractive, high growth markets in Florida, Georgia and Alabama through acquisitions of community banks and branch locations and through bank expansions. Since December 1995, we have successfully integrated ten bank acquisitions (not including Coquina Bank, which we acquired on July 9, 2004) and two separate branch acquisitions. We focus our acquisition strategy on high quality community banks with proven management teams that view Alabama National as a partner, rather than as an exit strategy. Our strategy is to maintain the management team of each acquired bank, allowing it to retain its local entrepreneurial identity and decision making, while simultaneously creating efficiencies in the administrative and back office operations of the bank.

In addition to our strategy of expansion through combinations with other banks or thrifts, we intend to continue to expand organically where possible by growing our existing banks in their respective market areas and nearby attractive markets. Our decentralized community banking strategy allows our banks to effectively compete with our larger competitors by providing superior customer service with localized decision making capabilities.

We intend to achieve our primary goal of maximizing long term returns to stockholders by focusing on the following objectives:

Continue expansion into high growth, metropolitan markets in Florida and Georgia where we believe we have a competitive advantage and an opportunity for growth;

Continue our primary focus on commercial and retail customers in our existing market areas with the goal of providing superior customer service and maintaining strong asset quality;

Maintain local decision making and accountability at our subsidiary banks;

Expand our financial products and services to meet the needs of our customers and to increase our fee income; and

Ensure management's interests are aligned with stockholders.

Recent Developments

Second Quarter 2004 Results

On July 13, 2004, we issued a press release reporting our earnings for the second quarter and first six months of 2004. For the quarter, we reported earnings of approximately \$13.2 million, up 30.3% from the 2003 second quarter. Diluted earnings per share of \$0.84 were up 5.1% from the same quarter a year ago. Our second quarter 2004 return on average equity was 12.55% and our return on average assets was 1.09%, compared to second quarter 2003 ratios of 16.51% and 1.15%, respectively. Average equity and average assets were both higher in the second quarter of 2004 than in the second quarter of 2003 due to an increase in intangible assets of approximately \$100.4 million associated with the recently completed Cypress Bank and Indian River National Bank acquisitions. Second quarter 2004 return on average tangible equity and return on average tangible assets were 18.52% and 1.13%, respectively.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Year-to-date earnings at June 30, 2004 were approximately \$24.6 million, an increase of 24.7% over the approximately \$19.7 million in earnings reported for the same period in 2003. Diluted earnings per share for the first six months of 2004 were \$1.64, up 5.8% from \$1.55 for the first six months of 2003.

Total assets at quarter end of approximately \$4.939 billion were up 26.9% from approximately \$3.892 billion at June 30, 2003. Total loans at quarter end of approximately \$3.197 billion were up 31.6% from approximately \$2.429 billion at June 30, 2003. Deposits grew 31.3% to approximately \$3.615 billion at June 30, 2004, compared to approximately \$2.754 billion at June 30, 2003. Contributing to these increases are an aggregate of approximately \$781.3 million of assets, approximately \$363.8 million of loans and approximately \$548.9 million of deposits which we acquired in connection with our acquisition of Indian River National Bank and Cypress Bank in the first quarter of 2004. Our stockholders' equity for the second quarter was approximately \$423.7 million, or \$27.48 per share, and tangible book value per share was \$18.63.

During the second quarter, we recognized \$186,000 in net charge-offs, representing 0.02% of average loans on an annualized basis. Our second quarter 2004 provision expense for loan losses totaled \$1.3 million. Quarter-

S-5

Table of Contents

end nonperforming assets were 0.32% of quarter-end loans and other real estate. The allowance for loan losses covered nonperforming loans by 523%.

Certain of the information set forth above concerning our earnings for the second quarter and first six months of 2004 contains financial information determined by methods other than in accordance with generally accepted accounting principles (GAAP). Please see GAAP Reconciliation and Management Explanation below for a reconciliation of the differences between each of these non-GAAP financial measures and the most directly comparable GAAP measure, as well as management s explanation of the reasons why the non-GAAP measures are useful to investors in our common stock.

Acquisition of Coquina Bank

Effective July 9, 2004, we acquired Coquina Bank, a Florida state chartered bank headquartered in Ormond Beach, Florida, with approximately \$114 million in total assets as of June 30, 2004. Pursuant to the terms of the acquisition, the stockholders of Coquina Bank received an aggregate of approximately 543,681 shares of our common stock and an aggregate of approximately \$1.98 million in cash consideration, and Coquina Bank became our wholly-owned subsidiary. The Coquina Bank acquisition was accounted for as a purchase. We anticipate that on or about August 19, 2004, Coquina Bank will be merged with Cypress Bank, another wholly-owned subsidiary, with headquarters in Palm Coast, Florida. The combined bank will operate under the name Cypress & Coquina Bank.

Corporate Information

Our headquarters are located at 1927 First Avenue North, Birmingham, Alabama 35203, and our telephone number is (205) 583-3600. We maintain a website at <http://www.alabamanational.com>. Information on the website is not incorporated by reference and is not a part of this prospectus supplement or the accompanying prospectus.

GAAP Reconciliation and Management Explanation

The information set forth above concerning our earnings for the second quarter of 2004 contains certain financial information determined by methods other than in accordance with GAAP. These non-GAAP financial measures are return on average tangible equity, return on average tangible assets and tangible book value per share. Alabama National s management uses these non-GAAP measures in its analysis of the company s performance.

Return on average tangible equity is defined as annualized earnings for the period divided by average equity reduced by average goodwill and other intangible assets. Return on average tangible assets is defined as annualized earnings for the period divided by average assets reduced by average goodwill and other intangible assets. Alabama National s management includes these measures because it believes that they are important when measuring the company s performance exclusive of the effects of goodwill and other intangibles recorded in recent acquisitions, and these measures are used by many investors as part of their analysis of the company s performance.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Tangible book value per share is defined as total equity reduced by recorded intangible assets divided by total common shares outstanding. This measure is important to many investors in the marketplace that are interested in changes from period to period in book value per share exclusive of changes in intangible assets. Goodwill, an intangible asset that is recorded in a purchase business combination, has the effect of increasing total book value while not increasing the tangible assets of the company. For companies such as Alabama National that have engaged in multiple business combinations, purchase accounting requires the recording of significant amounts of goodwill related to such transactions.

S-6

Table of Contents

These disclosures should not be viewed as a substitute for results determined in accordance with GAAP, and are not necessarily comparable to non-GAAP performance measures which may be presented by other companies. The following Reconciliation Table provides a more detailed analysis of these non-GAAP performance measures.

Table of Contents

THE OFFERING

Common stock offered by us 850,000 shares (977,500 shares if the underwriters exercise their over-allotment option in full).

Common stock outstanding after this offering 16,269,936 shares (16,397,436 shares if the underwriters exercise their over-allotment option in full).
(1)

Use of proceeds We intend to use the net proceeds of this offering for general corporate purposes, which may include, among other things, our working capital needs and investments in our subsidiary banks, and to pay down certain short term borrowings. We may also use the net proceeds to finance possible acquisitions.

Dividends We currently pay a cash dividend of \$0.3125 per share of common stock per quarter, or \$1.25 on an annualized basis. The payment of dividends in the future will depend upon a number of factors. We cannot give you any assurance that we will continue to pay dividends or that their amount will not be reduced in the future.

Nasdaq National Market Symbol ALAB

Risk factors You should carefully read and consider the information set forth in the section entitled "Risk Factors" beginning on page S-9 of this prospectus supplement and page 3 of the accompanying prospectus before investing in our common stock.

(1) Based on shares outstanding as of June 30, 2004. This does not include an aggregate of (i) 193,855 shares of common stock reserved for issuance in connection with deferred common stock equivalents that have been issued to our officers and directors and to certain officers and directors of our subsidiary banks as of June 30, 2004, or (ii) 341,862 shares of common stock reserved for issuance for outstanding options at June 30, 2004, with a weighted average exercise price of \$20.39. If issued, these reserved shares would represent 3.4% of our outstanding shares before this offering and 3.2% of our outstanding shares after giving effect to the sale of 850,000 shares in this offering.

Unless otherwise expressly stated or the context otherwise requires, all information contained in this prospectus supplement assumes that the underwriters' over-allotment option will not be exercised. For more information regarding the over-allotment option, see the "Underwriting" section beginning on page S-16 of this prospectus supplement.

Table of Contents

RISK FACTORS

An investment in our securities involves a high degree of risk. You should carefully consider the risks described below and on page 3 of the accompanying prospectus before making an investment decision. You should also refer to the other information in this prospectus supplement and the accompanying prospectus, including our financial statements and the related notes incorporated by reference herein and therein. The risks and uncertainties described below are not the only risks and uncertainties we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations. If any of the following risks actually occur, our business, results of operations and financial condition could suffer. In that event, the trading price of our common stock could decline, and you may lose all or part of your investment in our common stock. The risks discussed below also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements.

Risks Related to Our Business

We may not be able to maintain our historical growth rate, which may adversely affect our results of operations and financial condition.

We have grown substantially in the past few years from approximately \$2.03 billion in total assets at December 31, 1999 (as restated for a 2001 pooling-of-interests transaction) to approximately \$4.95 billion in total assets at March 31, 2004. This growth has been achieved through a combination of internal growth and acquisitions. Our future profitability will depend in part on our continued ability to grow. We may not be able to sustain our historical rate of growth or may not be able to grow our business at all in the future. We may also not be able to obtain the financing necessary to fund additional growth and may not be able to find suitable candidates for additional acquisitions in the future. Various factors, such as economic conditions, regulatory and legislative considerations and competition, may impede or prohibit our ability to acquire additional bank subsidiaries or open or acquire new branch offices.

Our continued pace of growth may require us to raise additional capital in the future, but that capital may not be available when it is needed or on favorable terms.

We are required by federal and state regulatory authorities to maintain adequate levels of capital to support our operations. We anticipate that our capital resources following this offering will satisfy our capital requirements for the immediate future. We may, however, need to raise additional capital to support our continued growth.

Our ability to raise additional capital, if needed, will depend on conditions in the capital markets at that time, which are outside our control, and on our financial performance. Accordingly, we cannot assure you of our ability to raise additional capital, if needed, on terms acceptable to us. If we cannot raise additional capital when needed, our ability to further expand our operations through internal growth and acquisitions could be materially impaired.

Our directors and executive officers own a significant portion of our common stock.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Our directors and executive officers, as a group, beneficially owned approximately 21.81% of our common stock outstanding as of June 30, 2004. As a result of their beneficial ownership, directors and executive officers will have the ability, by voting their shares in concert, to significantly influence the outcome of all matters submitted to our stockholders for approval, including the election of directors.

We make and hold in our loan portfolio a significant number of construction loans, which may pose more credit risk than other types of real estate loans.

We offer residential and commercial construction programs for builders and developers, which constituted 20.3% of our loan portfolio as of March 31, 2004. Builder construction loans are considered more risky than

S-9

Table of Contents

other types of real estate loans. While we believe we have established adequate reserves to cover the credit risk associated with our construction loan portfolio, there can be no assurance that losses will not exceed our reserves, which could adversely affect our earnings.

Risks Related to an Investment in Our Common Stock

We have broad discretion in using the net proceeds of this offering. Our failure to effectively use these proceeds could adversely affect our ability to earn profits.

We intend to use the net proceeds of this offering for general corporate purposes. We have not allocated specific amounts of the net proceeds to specific purposes, and will have significant flexibility in determining our applications of the net proceeds. Our failure to apply these funds effectively could reduce our ability to earn profits.

Future issuances of our common stock may adversely affect our stock price.

Sales of a substantial number of shares of our common stock after this offering, or the perception by the market that those sales could occur, could cause the market price of our common stock to decline or could make it more difficult for us to raise capital through the sale of common stock or use our common stock as currency in acquisitions in the future.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

In addition to the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus, you should carefully consider the risk factors disclosed in this prospectus supplement and the accompanying prospectus when evaluating an investment in our common stock. This prospectus supplement and the accompanying prospectus include forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act. All statements other than statements of historical fact are forward-looking statements for purposes of these provisions, including any projections of earnings, revenues or other financial items, any statements of the plans and objectives of management for future operations, any statements concerning proposed new products or services, any statements regarding expansions through acquisitions or otherwise, any statements regarding future economic conditions or performance, and any statement of assumptions underlying any of the foregoing. In some cases, forward-looking statements can be identified by the use of terminology such as may, will, expects, plans, anticipates, estimates, believes, predicts, projects, goals, objectives, future, or the negative thereof or other comparable terminology. There can be no assurance that such expectations or any of the forward-looking statements will prove to be correct, and our actual results could differ materially from those projected in or implied by the forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to inherent risks and uncertainties, including but not limited to the risk factors set forth above and those described elsewhere in this prospectus supplement or in the accompanying prospectus. All forward-looking statements and reasons why results may differ included in this prospectus supplement are made as of the date hereof, and we assume no obligation to update any such forward-looking statement or reason why actual results might differ. You should refer to our periodic and current reports filed with the Securities and Exchange Commission for specific information which could cause our actual results to be significantly different from those expressed or implied by these forward-looking statements.

Table of Contents

USE OF PROCEEDS

Assuming a public offering price of \$54.30 (the last reported sale price of our common stock on July 12, 2004), we estimate that our net proceeds from the sale of 850,000 shares of our common stock in this offering will be approximately \$43,261,000 after deducting underwriting discounts and commissions and estimated offering expenses payable by us. If the underwriters' over-allotment option is exercised in full, we estimate that our net proceeds will be approximately \$49,786,000.

We intend to use the net proceeds of this offering for general corporate purposes, which may include, among other things, our working capital needs and investments in our subsidiary banks to support our growth. We also intend to use a portion of the net proceeds of this offering to repay all of the principal and interest outstanding (\$7,165,825 as of June 30, 2004) under our \$30,000,000 credit facility with an unaffiliated third party bank, which matures on May 31, 2005 and has an interest rate per annum equal to LIBOR plus 0.75%, currently 2.03%. Additionally, we may use a portion of the net proceeds to finance possible acquisitions. Although our growth strategy contemplates future acquisitions, we have no present agreements or definite plans relating to any acquisitions.

Until we designate the use of the net proceeds, we will invest them temporarily in liquid short term securities. The precise amounts and timing of our use of the net proceeds will depend upon market conditions and the availability of other funds, among other factors. From time to time, we may engage in additional capital financings as we determine appropriate based upon our needs and prevailing market conditions. These additional capital financings may include the sale of other securities.

Table of Contents**PRICE RANGE OF OUR COMMON STOCK AND DIVIDENDS**

Our common stock is quoted on the Nasdaq National Market under the symbol ALAB. At June 30, 2004, there were 15,419,936 shares of Alabama National's common stock outstanding. The following table sets forth, for the calendar quarters indicated, the high and low sales prices per share for Alabama National on the Nasdaq National Market, and the cash dividends declared per share in each such quarter. Cash dividends are paid by Alabama National in the quarter immediately following the quarter in which they are declared.

	Dividends		
	Declared		
	High	Low	Per Share
2002			
First Quarter	\$ 37.00	\$ 31.60	\$ 0.2500
Second Quarter	44.27	35.45	0.2500
Third Quarter	46.46	35.52	0.2500
Fourth Quarter	48.23	39.74	0.2500
2003			
First Quarter	\$ 46.00	\$ 40.75	\$ 0.2850
Second Quarter	50.50	40.88	0.2850
Third Quarter	53.69	47.12	0.2850
Fourth Quarter	55.39	47.56	0.2850
2004			
First Quarter	\$ 55.52	\$ 50.14	\$ 0.3125
Second Quarter	56.98	50.18	0.3125
Third Quarter (through July 12)	55.99	54.07	

Dividends are paid at the discretion of our Board of Directors, based on our operating performance and financial position, including our earnings, capital and liquidity. Dividends from our subsidiary banks are our primary source of funds for the payment of dividends to our stockholders, and there are various legal and regulatory limits on the extent to which our subsidiary banks may pay dividends or otherwise supply funds to us. In addition, federal and state regulatory agencies have the authority to prevent us from paying a dividend to our stockholders. Thus, while we intend to continue paying dividends, we can make no assurances that we will be able to or be permitted to do so in the future.

Table of Contents**CAPITALIZATION**

The following table sets forth our consolidated short-term borrowings, long-term indebtedness and capitalization at March 31, 2004, on an actual basis and as adjusted to give effect to the sale of 850,000 shares of common stock, assuming a public offering price of \$54.30 per share (the last reported sale price of our common stock on July 12, 2004) and our receipt of the estimated net proceeds from the sale of the shares. For purposes of this table, our estimated net proceeds will be approximately \$43,261,000 after deducting estimated offering expenses and underwriting discounts and commissions. If the underwriters' over-allotment option is exercised in full, 127,500 additional shares would be sold, resulting in estimated net proceeds of approximately \$49,786,000 after deducting estimated offering expenses and underwriting discounts and commissions. The data presented in the table does not include any exercise of the underwriters' over-allotment option. No other change in our consolidated capitalization since March 31, 2004 is reflected in the table. This table should be read together with our consolidated financial statements and related notes incorporated by reference into this prospectus supplement and the accompanying prospectus.

	Actual March 31, 2004	As Adjusted
	(Dollars in thousands, except per share data)	
Short-term borrowings ⁽¹⁾	\$ 67,743	\$ 61,093
Long-term debt:		
Junior subordinated debentures ⁽²⁾	\$ 53,610	\$ 53,610
FHLB borrowings	331,346	331,346
Capital leases	28	28
Total long-term debt	\$ 384,984	\$ 384,984
Stockholders' equity ⁽³⁾		
Common stock, \$1 par value; 27,500,000 shares authorized: 15,361,572 issued and outstanding at March 31, 2004 and 16,211,572 issued as adjusted	\$ 15,362	\$ 16,212
Additional paid-in capital	259,820	302,231
Retained earnings	146,147	146,147
Accumulated other comprehensive income, net of tax	5,087	5,087
Total stockholders' equity	\$ 426,416	\$ 469,677
Total capitalization ⁽⁴⁾	\$ 480,026	\$ 523,287
Book value per common share	\$ 27.76	\$ 28.97
Capital Ratios:		
Tier 1 leverage ratio	8.17%	9.28%
Tier 1 risk-based capital ratio	9.52%	10.74%
Total risk-based capital ratio	10.72%	11.94%

⁽¹⁾ Includes a note payable under our credit facility with a third-party commercial bank, with a principal balance outstanding at March 31, 2004 of \$6,650,000, and short-term Federal Home Loan Bank borrowings of \$61,093,000 at March 31, 2004.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

- (2) Consists of debt associated with trust preferred securities.
- (3) As of June 30, 2004, there were 15,419,936 shares of common stock outstanding, and we had (i) 341,862 shares of common stock subject to issuance upon the exercise of currently outstanding options with a weighted average exercise price of \$20.39 per share and (ii) 193,855 shares of common stock reserved for issuance in connection with deferred common stock equivalents that have been issued to our officers and directors and to certain officers and directors of our subsidiary banks.
- (4) Includes total stockholders' equity and junior subordinated debentures.

Table of Contents**SELECTED CONSOLIDATED FINANCIAL INFORMATION**

The following table sets forth our selected consolidated financial data as of and for the three month periods ended March 31, 2004 and 2003, and as of and for the years ended December 31, 1999 through December 31, 2003. This data should be read in conjunction with the consolidated financial statements and notes thereto incorporated by reference into this prospectus supplement and the accompanying prospectus from our Annual Report on Form 10-K for the year ended December 31, 2003, and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2004. Results for the three-month period ended March 31, 2004, are not necessarily indicative of results on an annualized basis or for any future period.

(1) On January 31, 2001, Peoples State Bank of Groveland (PSB) merged with a newly formed subsidiary of Alabama National, whereby PSB became a wholly owned subsidiary of Alabama National. Because the merger was accounted for as pooling-of-interests, the historical data for all periods have been restated to include the results of operations of PSB from the earliest period presented, except for dividends per common share.

In December 2010, the FASB issued ASU 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations* (ASU 2010-29). ASU 2010-29 is an update that addresses diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations if the entity presents comparative financial statements and expands the required disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This standard is effective prospectively for business combinations for which the acquisition dates are on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. The Company adopted these standards on September 1, 2011, however since there were no business combinations during the three and six month periods ended February 29, 2012, ASU 2010-29 had no material impact on the Company's financial disclosure, however, the provision will impact the financial disclosures of any business combinations in the future.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 is intended to result in convergence between U.S. GAAP and International Financial Reporting Standards (IFRS) requirements for measurement of and disclosures about fair value. The amendments are not expected to have a significant impact on companies applying U.S. GAAP. Key provisions of the amendment include: a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity's net exposure to the group; an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. In addition, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011. The Company will adopt these standards on March 1, 2012 and is currently assessing the impact on its condensed consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05). ASU 2011-05 will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The standard does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This standard is effective for interim and annual periods beginning after December 15, 2011. The Company early adopted these standards as of August 31, 2011. Because ASU 2011-05 impacts presentation only, it had no effect on the Company's condensed consolidated financial statements or on its financial condition for the three and six month periods ended February 29, 2012.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

In September 2011, the FASB issued ASU 2011-08, *Intangibles – Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08), which permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Because the Company has only one reporting unit, which has a fair value higher than its carrying amount, adoption of ASU 2011-08 did not have a material impact on the Company's condensed consolidated financial statements for the three and six month periods ended February 29, 2012.

-13-

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(3) INTANGIBLE ASSETS AND GOODWILL**

On December 14, 2007, the Company acquired the intellectual property and other rights to develop RP103/RP104 to treat various clinical indications from the University of California at San Diego (UCSD) by way of a merger with Encode Pharmaceuticals, Inc., a privately held development stage company (Encode), which held the intellectual property license with UCSD. The intangible assets acquired in the merger with Encode were recorded at approximately \$2.6 million, primarily based on the value of the Company's common stock and warrants issued to the Encode stockholders.

Intangible assets recorded as a result of the 2009 Merger were approximately \$1.1 million as discussed in Note 8 below.

Summary of intangibles acquired as discussed above:

	February 29, 2012	August 31, 2011
Intangible asset (IP license for RP103/RP104) related to the Encode merger	\$ 2,620,000	\$ 2,620,000
Intangible assets (out-license) related to the 2009 Merger	240,000	240,000
In-process research and development (IP license for tezampanel) related to the 2009 Merger	900,000	900,000
Total intangible assets	3,760,000	3,760,000
Less accumulated amortization	(582,083)	(509,083)
Intangible assets, net	\$ 3,177,917	\$ 3,250,917

The intangible assets related to RP103/RP104 are being amortized monthly over 20 years, which are the life of the intellectual property patents and the estimated useful life. The 20 year estimated useful life is also based upon the typical development, approval, marketing and life cycle management timelines of pharmaceutical drug products. The intangible assets related to the out-license will be amortized using the straight-line method over the estimated useful life of 16 years, which is the life of the intellectual property patents. The intangible assets related to tezampanel, which has been classified as in-process research and development, will not be amortized until the product is developed. During the three month periods ended February 29, 2012 and February 28, 2011, the Company amortized \$36,500 and \$38,375, respectively, of intangible assets to research and development expense. During the six month periods ended February 29, 2012 and February 28, 2011 and the cumulative period from September 8, 2005 (inception) to February 29, 2012, the Company amortized \$73,000, \$76,750 and \$623,958 (included \$41,875 related to NeuroTrans which was written off as of August 31, 2011), respectively, of intangible assets to research and development expense.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The following table summarizes the actual and estimated amortization expense for intangible assets for the periods indicated:

Amortization period	Amortization expense
Fiscal year ending August 31, 2012 estimate	146,000
Fiscal year ending August 31, 2013 estimate	146,000
Fiscal year ending August 31, 2014 estimate	146,000
Fiscal year ending August 31, 2015 estimate	146,000
Fiscal year ending August 31, 2016 estimate	146,000

Goodwill of \$3,275,403 represents the excess of total consideration recorded for the 2009 Merger over the value of the assets assumed. The Company tested the carrying value of goodwill for impairment as of its fiscal year ended August 31, 2011 and determined that there was no impairment. Intangibles are tested for impairment whenever events indicate that their carrying values may not be recoverable. During the year ended August 31, 2011 the NeuroTrans asset was written off with a carrying value of \$108,250 due to the termination of a collaboration agreement.

(4) FIXED ASSETS

Fixed assets consisted of:

Category	February 29, 2012	August 31, 2011	Estimated useful lives
Leasehold improvements	\$ 129,762	\$ 124,763	Shorter of life of asset or lease term
Office furniture	3,188	3,188	7 years
Laboratory equipment	423,472	285,346	5 years
Computer hardware and software	152,517	131,229	3 years
Capital lease equipment	13,730	13,730	Shorter of life of asset or lease term
Total at cost	722,669	558,256	
Less: accumulated depreciation	(499,223)	(481,259)	
Total fixed assets, net	\$ 223,446	\$ 76,997	

Depreciation expense for the three month periods ended February 29, 2012 and February 28, 2011 was \$9,295 and \$19,756, respectively. Depreciation expense for the six month periods ended February 29, 2012 and February 28, 2011 and the cumulative period from September 8, 2005 (inception) to February 29, 2012 was \$17,964, \$39,441 and \$518,737, respectively. Accumulated depreciation on capital lease equipment was \$2,112 and zero as of February 29, 2012 and August 31, 2011, respectively.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(5) FAIR VALUE MEASUREMENT**

The Company uses a fair-value approach to value certain assets and liabilities. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. The Company uses a fair value hierarchy, which distinguishes between assumptions based on market data (observable inputs) and an entity's own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level one Quoted market prices in active markets for identical assets or liabilities;

Level two Inputs other than level one inputs that are either directly or indirectly observable; and

Level three Unobservable inputs developed using estimates and assumptions, which are developed by the reporting entity and reflect those assumptions that a market participant would use.

Determining which category an asset or liability falls within the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter. Assets and liabilities measured at fair value on a recurring basis at February 29, 2012 and August 31, 2011 are summarized as follows:

	Level 1	Level 2	Level 3	February 29, 2012
Assets				
Fair value of cash equivalents	\$ 19,215,313	\$	\$	\$ 19,215,313
Restricted cash		163,461		163,461
Short-term investments	30,241,134			30,241,134
Total	\$ 49,456,447	\$ 163,461	\$	\$ 49,619,908
Liabilities				
Fair value of common stock warrants	\$	\$	\$ 26,568,922	\$ 26,568,922
Total	\$	\$	\$ 26,568,922	\$ 26,568,922
Assets				
Fair value of cash equivalents	\$ 13,855,813	\$	\$	\$ 13,855,813
Restricted cash		114,468		114,468
Total	\$ 13,855,813	\$ 114,468	\$	\$ 13,970,281

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Liabilities

Fair value of common stock warrants	\$	\$	\$ 23,575,294	\$ 23,575,294
Total	\$	\$	\$ 23,575,294	\$ 23,575,294

Cash equivalents and short-term investments represent the fair value of the Company's investment in four money markets and two short-term bond funds, respectively, as of February 29, 2012 and two money market accounts as of August 31, 2011. As of February 29, 2012, the fair value of the Company's common stock warrant liability increased resulting primarily from an increase in the Company's common stock price compared to the stock price as of August 31, 2011.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***Marked-to-Market*

The common stock warrants issued in the Company's August 2010 private placement and the Company's December 2009 equity financing are classified as liabilities under ASC 480 and are, therefore, re-measured using the Black-Scholes option valuation model at the end of every reporting period with the change in value reported in the Company's condensed consolidated statements of comprehensive loss.

For the three and six months ended February 29, 2012 and for the cumulative period from September 8, 2005 (inception) to February 29, 2012, as a result of the marking-to-market of the warrant liability at quarter-end and the day prior to the exercise of warrants subject to warrant liability accounting, the Company recorded losses of \$7.8 million, \$12.0 million and \$34.2 million, respectively, in the line item adjustment to fair value of common stock warrants in its consolidated statements of comprehensive loss. See Note 9 for further discussion on the calculation of the fair value of the warrant liability. Below is the activity of the warrant liabilities (in millions):

	Six month periods ended February 29, 2012	February 28, 2011
Fair value of December 2009 direct offering warrants (including placement agent warrants) at beginning of the fiscal years	\$ 5.9	\$ 5.8
December 2009 direct offering warrants exercised during the six month periods ended February 29, 2012 and February 28, 2011	(3.3)	2.3
Adjustment to mark to market common stock warrants for the six month periods ended February 29, 2012 and February 28, 2011	2.2	(1.0)
December 2009 direct offering common stock warrant liability at fair value at February 29, 2012 and February 28, 2011	4.8	7.1
Fair value of August 2010 private placement warrants (including broker warrants) at beginning of the fiscal years	17.7	9.9
August 2010 private placement warrants exercised during the six month periods ended February 29, 2012 and February 28, 2011	(3.8)	3.5
Adjustment to mark to market common stock warrants for the six month periods ended February 29, 2012 and February 28, 2011	7.9	(0.8)
August 2010 private placement common stock warrant liability at fair value at February 29, 2012 and February 28, 2011	21.8	12.6
Total warrant liability at February 29, 2012 and February 28, 2011	\$ 26.6	\$ 19.7

(6) ACCRUED LIABILITIES

Accrued liabilities consisted of:

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(7) STOCK OPTION PLANS**

Effective September 1, 2006, the Company began recording compensation expense associated with stock options and other forms of equity compensation in accordance with ASC 718. Prior to September 1, 2006, the Company accounted for stock options according to the provisions of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations, and therefore no related compensation expense was recorded for awards granted with no intrinsic value. The Company adopted the modified prospective transition method provided for under ASC 718, and consequently has not retroactively adjusted results from prior periods. Under this transition method, compensation cost associated with stock options now includes: (i) quarterly amortization related to the remaining unvested portion of all stock option awards granted prior to September 1, 2006, based on the grant date value estimated in accordance with the original provisions of ASC 718; and (ii) quarterly amortization related to all stock option awards granted subsequent to September 1, 2006, based on the grant date fair value estimated in accordance with the provisions of ASC 718. In addition, the Company records consulting expense over the vesting period of stock options granted to consultants. The compensation expense for stock-based compensation awards includes an estimate for forfeitures and is recognized over the requisite service period of the options, which is typically the period over which the options vest, using the straight-line method. Employee stock-based compensation expense for the three month periods ended February 29, 2012 and February 28, 2011 was \$1,104,301 and \$305,888, respectively. Employee stock-based compensation expense for the six month periods ended February 29, 2012, February 28, 2011 and for the cumulative period from September 8, 2005 (inception) to February 29, 2012 was \$2,021,039, \$1,179,562 and \$5,372,401, respectively, of which cumulatively \$4,311,183 was included in general and administrative expense and \$1,061,218 was included in research and development expense. No employee stock compensation costs were recognized for the period from September 8, 2005 (inception) to August 31, 2006, which was prior to the Company's adoption of ASC 718.

Stock-based compensation expense was based on the Black-Scholes option-pricing model assuming the following:

Period*	170 to 240 Risk-free interest rate	170 to 240 Expected life of stock option	170 to 240 Annual volatility
September 8, 2005 (inception) to August 31, 2006**	5%	10 years	100%
Year ended August 31, 2007	4 to 5%	8 years	100%
Year ended August 31, 2008	2 to 3.75%	8 years	109 to 128%
Year ended August 31, 2009	1.5 to 3.2%	7 years	170 to 240%
Year ended August 31, 2010	2.1 to 3.1%	6 to 7 years	55 to 245%
Year ended August 31, 2011	1.6 to 2.4%	6 years	88 to 116%
Three months ended November 30, 2011	1.2%	6 years	121%
Three months ended February 29, 2012	1.12%	5 years	122%

* Dividend rate is 0% for all periods presented.

** Stock-based compensation expense was recorded on the condensed consolidated statements of operations and statements of comprehensive loss commencing on the effective date of ASC 718, September 1, 2006. Prior to September 1, 2006, stock based compensation was reflected only in the footnotes to the condensed consolidated statements of operations, with no effect on the condensed consolidated statements of operations, per the guidelines of APB Opinion No. 25. Consultant stock-based compensation expense has been recorded on the condensed consolidated statements of operations and statements of comprehensive loss since inception.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

If factors change and different assumptions are employed in the application of ASC 718, the compensation expense recorded in future periods may differ significantly from what was recorded in the current period.

The Company recognizes as an expense the fair value of options granted to persons who are neither employees nor directors. The fair value of expensed options was based on the Black-Scholes option-pricing model assuming the same factors shown in the stock-based compensation expense table above. Stock-based compensation expense for consultants for the three and six month periods ended February 29, 2012 and February 28, 2011 and for the cumulative period from September 8, 2005 (inception) to February 29, 2012 was zero, zero, \$32,737, \$37,010 and \$683,322, respectively, of which cumulatively \$147,295 was included in general and administrative expense and \$536,027 was included in research and development expense.

A summary of the activity in the 2010 Equity Incentive Plan, the 2006 Equity Compensation Plan, as amended and the Company's other stock option plans, is as follows:

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

The weighted average intrinsic values of stock options outstanding and expected to vest and stock options exercisable as of February 29, 2012 and February 28, 2011 were approximately \$20.4 million, \$9.6 million, \$1.6 million and \$1.0 million, respectively (representing 5.8 million, 2.2 million, 3.3 million and 1.5 million shares, respectively).

There were 1,563,508 options available for grant as of February 29, 2012 under the 2010 Equity Incentive Plan, as amended (the Plan), which was approved by the Company's Board of Directors as of February 2, 2010 and approved by its stockholders on March 9, 2010. On April 7, 2011, the Company's stockholders passed amendments to the Plan which allow for an increase of the grant pool based upon 5% of the Company's common stock outstanding as of April 7, 2011, August 31, 2011 and August 31, 2012 up to an aggregate maximum increase of 6,000,000 shares. The April 7 and August 31, 2011, replenishments added 1,629,516 and 1,778,459 shares, respectively, available for grant under the Plan. The amendments also allow for 50% accelerated vesting of unvested stock options upon a change of control as defined in the Plan. In September 2011, the Company's Board of Directors approved an amended and restated form of award agreement under the Plan, which will be used for awards granted on or after September 22, 2011. The amended and restated award agreement, subject to the terms of any applicable employment agreement, extends the termination date of the awards granted under the Plan that are vested as of such termination date due to (a) an employee's or a non-employee director's retirement at age 62 or older which employee or non-employee director has at least five (5) years of continuous service with us prior to such retirement, (b) the termination of a non-employee director's board membership for reasons other than for cause or retirement and (c) an employee's or a non-employee director's death (during his or her continuous service with us or within 90 days of such continuous service with us) or permanent disability, to eighteen (18) months from the date of termination of continuous service with the Company. No further grants will be made under any previous or assumed stock option plans. As of February 29, 2012, the options outstanding under all of the Company's stock option plans consisted of the following:

Range of exercise prices	1,537,404	1,537,404	1,537,404	1,537,404	1,537,404
	Number of options outstanding and expected to vest (#)	Options outstanding Weighted-average remaining contractual life (yrs.)	Weighted-average exercise price (\$)	Options exercisable Number of options exercisable (#)	Weighted-average exercise price (\$)
\$0 to \$1.00	34,969	7.13	0.85	24,769	0.85
\$1.01 to \$2.00	84,427	7.26	1.74	68,752	1.74
\$2.01 to \$3.00	1,514,129	6.52	2.65	1,077,807	2.65
\$3.01 to \$4.00	1,766,957	8.77	3.50	880,193	3.50
\$4.01 to \$5.00	87,674	7.46	4.70	86,215	4.70
\$5.01 to \$6.00	2,119,905	9.57	5.13	41,250	5.13
\$6.01 to \$7.00	120,000	8.03	6.36	0	4.71
\$7.01 to \$8.00	70,000	9.88	7.75	0	7.75
\$8.01 to \$964.24	43,787	3.54	249.94	43,787	249.94
	5,841,848	8.41	5.80	2,222,773	7.92

At February 29, 2012, the total unrecognized compensation cost was approximately \$11.8 million. The weighted-average period over which it is expected to be recognized is 3.25 years.

(8) ISSUANCE OF COMMON STOCK

As of February 29, 2012, there were 48,854,168 shares of the Company's common stock outstanding.

ISSUANCE OF COMMON STOCK PURSUANT TO COMMON STOCK WARRANT EXERCISES AND STOCK OPTION EXERCISES

During the three and six month periods ended February 29, 2012, the Company received approximately \$2.8 million and \$4.8 million from the exercise of warrants in exchange for the issuance of 1.1 million and 1.7 million shares of the Company's common stock respectively. During the cumulative period from September 8, 2005 (inception) through February 29, 2012, the Company received approximately \$20.7 million from the exercise of warrants in exchange for the issuance of an aggregate of 8.8 million shares.

During the three and six month periods ended February 29, 2012, the Company received \$0.07 million and \$0.1 million from the exercise of stock options in exchange for the issuance of 26,128 and 43,613 shares of the Company's common stock, respectively. For the cumulative period from September 8, 2005 (inception) through February 29, 2012, the Company received approximately \$0.3 million from the exercise of stock options resulting in the issuance of 124,176 shares of common stock.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

ISSUANCE OF COMMON STOCK PURSUANT TO AN ASSET PURCHASE AGREEMENT WITH CONVIVIA, INC.

On October 18, 2007, the Company purchased certain assets of Convivia, including intellectual property, know-how and research reports related to a product candidate targeting liver ALDH2 deficiency, a genetic metabolic disorder. The Company hired Convivia's chief executive officer and founder, Thomas E. (Ted) Daley, as President of clinical development. In exchange for the assets related to the ALDH2 deficiency program, the Company issued to Convivia 46,625 shares of its restricted, unregistered common stock, an additional 46,625 shares of its restricted, unregistered common stock to a third party in settlement of a convertible loan between the third party and Convivia, and another 8,742 shares of restricted, unregistered common stock in settlement of other obligations of Convivia. Mr. Daley, as the former sole stockholder of Convivia (now dissolved), may earn additional shares of the Company based on certain triggering events or milestones related to the development of Convivia assets. In addition, Mr. Daley may earn cash bonuses based on the same triggering events pursuant to his employment agreement. In January 2008, Mr. Daley earned a \$30,000 cash bonus pursuant to his employment agreement for executing the Patheon formulation agreement for manufacturing Convivia. In March 2008, Mr. Daley earned a \$10,000 cash bonus pursuant to his employment agreement and was issued 23,312 shares of common stock valued at \$56,000 based on the execution of an agreement to supply the Company with the active pharmaceutical ingredient for Convivia pursuant to the asset purchase agreement.

In October 2008, Mr. Daley was issued 23,312 shares of restricted common stock valued at \$27,000 and earned a \$30,000 cash bonus (pursuant to Mr. Daley's employment agreement) pursuant to the fulfillment of a clinical milestone. In July 2010, the Company issued 11,656 shares of its restricted common stock valued at \$35,551 and paid a \$10,000 cash bonus to Mr. Daley as a result of the execution of the license agreement with Uni Pharma for the development of Convivia in Taiwan. As discussed above, in aggregate, the Company has issued to Mr. Daley, 58,280 shares of Raptor's common stock valued at \$118,551 and paid \$70,000 in cash bonuses related to Convivia milestones along with another \$20,000 in cash bonuses related to employment milestones pursuant to Mr. Daley's employment agreement. Pursuant to ASC 730, the accounting guidelines for expensing research and development costs, the Company has expensed the value of the stock issued in connection with this asset purchase (except for milestone bonuses, which are expensed as compensation expense) as in-process research and development expense under research and development expenses in the amount of \$240,625 on its consolidated statement of operations for the year ended August 31, 2008.

MERGER OF RAPTOR THERAPEUTICS INC. AND ENCODE PHARMACEUTICALS, INC.

On December 14, 2007, the Company entered into a Merger Agreement (the "Encode Merger Agreement"), dated as of the same date, by and between the Company, its subsidiary, Raptor Therapeutics Inc. and Encode. Pursuant to the Encode Merger Agreement, a certificate of merger was filed with the Secretary of State of the State of Delaware and Encode was merged with and into Raptor Therapeutics Inc. The existence of Encode ceased as of the date of the Encode Merger Agreement. Pursuant to the Encode Merger Agreement and the certificate of merger, Raptor Therapeutics Inc., as the surviving corporation, continued as a wholly-owned subsidiary of the Company. Under the terms of and subject to the conditions set forth in the Encode Merger Agreement, the Company issued 802,946 shares of restricted, unregistered shares of the Company's common stock, par value \$.001 per share (the "Common Stock") to the stockholders of Encode (the "Encode Stockholders"), options ("Company Options") to purchase 83,325 shares of Common Stock to the optionholders of Encode (the "Encode Optionholders"), and warrants ("Company Warrants") to purchase 256,034 restricted, unregistered shares of Common Stock to the warrantholders of Encode (the "Encode Warrantholders"), and together with the Encode Stockholders and Encode Optionholders, the "Encode Securityholders"), as of the date of the Encode Merger Agreement. Such Common Stock, Company Options to purchase Common Stock, and Company Warrants to purchase Common Stock combine for an aggregate amount of 1,142,305 shares of Common Stock issuable to the Encode Securityholders as of the closing of the merger with Encode. The purchase price was valued at \$2.6 million, which is reflected as intangible assets on the Company's consolidated balance sheet as of August 31, 2008, primarily based on the value of the Company's common stock and warrants issued to Encode stockholders. The Encode Securityholders are eligible to receive up to an additional 559,496 shares of Common Stock, Company Options and Company Warrants to purchase Common Stock in the aggregate based on certain triggering events related to regulatory approval of RP103/RP104, an Encode product program described below, if completed within the five year anniversary date of the Encode Merger Agreement. The Company recorded this transaction as an asset purchase rather than a business combination, as Encode had not commenced planned principal operations at the time of the merger, such as generating revenues from its drug product candidate.

Table of Contents

RAPTOR PHARMACEUTICAL CORP.

(A Development Stage Company)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

As a result of the merger with Encode, the Company received the exclusive worldwide license to RP103/RP104 (the License Agreement), developed by clinical scientists at the UCSD, School of Medicine. RP103/RP104 is a proprietary enterically coated formulation of cysteamine bitartrate, a cystine depleting agent currently approved by the U.S. Food and Drug Administration (FDA). Cysteamine bitartrate is prescribed for the management of the genetic disorder known as nephropathic cystinosis (cystinosis), a lysosomal storage disease. The active ingredient in RP103/RP104 has also demonstrated potential in studies as a treatment for other metabolic and neurodegenerative diseases, such as Huntington's Disease and NASH.

In consideration of the grant of the license, the Company will be obligated to pay an annual maintenance fee until it begins commercial sales of any products developed pursuant to the License Agreement. In addition to the maintenance fee, the Company will be obligated to pay during the life of the License Agreement: milestone payments ranging from \$20,000 to \$750,000 for orphan indications and from \$80,000 to \$1,500,000 for non-orphan indications upon the occurrence of certain events, if ever; royalties on commercial net sales from products developed pursuant to the License Agreement ranging from 1.75% to 5.5%; a percentage of sublicense fees ranging from 25% to 50%; a percentage of sublicense royalties; and a minimum annual royalty commencing the year the Company begins commercially selling any products pursuant to the License Agreement, if ever. Under the License Agreement, the Company is obligated to fulfill predetermined milestones within a specified number of years ranging from 0.75 to 6 years from the effective date of the License Agreement, depending on the indication. To the extent that the Company fails to perform any of the obligations, UCSD may terminate the license or otherwise cause the license to become non-exclusive. Cumulatively, Raptor has expensed \$680,000 in milestone payments to UCSD based upon the initiation of clinical trials in cystinosis, Huntington's Disease and NASH.

ISSUANCES OF COMMON STOCK AND WARRANTS IN CONNECTION WITH THE SALE OF UNITS IN A PRIVATE PLACEMENT

During the period from May 21, 2008 through June 27, 2008, Raptor entered into a Securities Purchase Agreement, as amended (the 2008 Private Placement Purchase Agreement), with 11 investors for the private placement of units of the Company, each unit comprised of one share of Raptor's Common Stock and one warrant to purchase one half of one share of Raptor's Common Stock, at a purchase price of \$2.14 per unit. Pursuant to the 2008 Private Placement Purchase Agreement, the Company sold an aggregate of 4,662,468 shares of Common Stock for aggregate gross proceeds of \$10.0 million and issued to the investors warrants, exercisable for two years from the initial closing, which entitle the investors to purchase up to an aggregate of 2,331,234 shares of Common Stock of the Company and have an exercise price of either \$3.22 or \$3.86 per share, depending on when such warrants are exercised, if at all, and were valued at approximately \$3.0 million (using the following Black-Scholes pricing model assumptions: risk-free interest rate 2%; expected term 2 years and annual volatility 121.45%).

In connection with the May / June 2008 private placement, the Company issued warrants and a cash fee to placement agents to compensate them for placing investors into the financing. Placement agents were issued warrants exercisable for 7% of Common Stock issued and issuable under the warrants issued to investors as part of the financing units and a cash fee based upon the proceeds of the sale of the units of the private placement. In connection with the sale of units, the Company issued placement agent warrants to purchase 489,559 shares of Raptor's Common Stock at an exercise price of \$2.36 per share for a five year term (valued at approximately \$960,000 using the following Black-Scholes pricing model assumptions: risk-free interest rate 2%; expected term 5 years and annual volatility 121.45%) and cash fees to placement agents totaling \$700,000. Of the placement agents compensated, Limetree Capital was issued warrants to purchase 438,890 shares of Raptor's Common Stock and cash commission of \$627,550. One of the Company's Board members served on the board of Limetree Capital.

On April 29, 2009, in order to reflect current market prices, Raptor notified the holders of warrants purchased in the May/June 2008 private placement that the Company was offering, in exchange for such warrants, new warrants to purchase its common stock at an exercise price of \$1.29 per share, but only to the extent such exchange of the original warrants and exercise of the new warrants, including the delivery of the exercise price, occurred on or prior to July 17, 2009. The new warrants were valued at approximately \$2.3 million based on the following Black-Scholes pricing model assumptions: risk-free interest rate 0.55%; expected term 1 year and annual volatility 231.97%. The warrants that were not exchanged prior to or on July 17, 2009 retained their original exercise prices of \$3.86 per share and original expiration date of May 21, 2010. The Company received \$2,614,500 of proceeds from warrant exercises that resulted in the issuance of 2,031,670 shares of Raptor's common stock pursuant to the exchange described above.

RAPTOR PHARMACEUTICAL CORP.

(A Development Stage Company)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

On August 21, 2009, Raptor entered into a securities purchase agreement with four investors for the private placement of units of the Company at a purchase price of \$1.37 per unit, each unit comprised of one share of Raptor's common stock, par value \$0.001 per share and one warrant to purchase one half of one share of Raptor's common stock. Pursuant to the securities purchase agreement, the Company sold an aggregate of 1,738,226 units to the investors for aggregate gross proceeds of \$2,386,000. The 1,738,226 units are comprised of an aggregate of 1,738,226 shares of common stock and warrants to purchase up to 869,113 shares of Raptor's common stock valued at \$1.0 million (using the following Black-Scholes pricing model assumptions: risk-free interest rate 1.11%; expected term 2 years and annual volatility 240.29%). The warrants, exercisable for two years from the closing, entitle the investors to purchase, in the aggregate, up to 869,113 shares of Raptor's common stock and have an exercise price of either \$2.57 until the first anniversary of issuance or \$3.22 per share after the first anniversary of issuance.

In connection with the August 2009 private placement, the Company issued warrants and a cash fee to Limetree Capital as its sole placement agent to compensate it for placing investors into the financing. Limetree Capital was issued warrants exercisable for 7% of common stock issued and issuable under the warrants issued to investors as part of the financing units and a 3.5% cash fee based upon the proceeds of the sale of the units of the August 2009 private placement. Limetree Capital was issued a five-year warrant to purchase 129,733 shares of Raptor's Common Stock at an exercise price of \$1.50 per share (valued at approximately \$171,000 using the following Black-Scholes pricing model assumptions: risk-free interest rate 2.58%; expected term 5 years and annual volatility 240.29%) and cash commission of \$59,360.

2009 MERGER AND NASDAQ LISTING

On September 29, 2009, the Company, formerly known as TorreyPines Therapeutics, Inc. (TorreyPines) and RPC completed a reverse merger. The Company changed its name to Raptor Pharmaceutical Corp. and commenced trading on September 30, 2009 on the NASDAQ Capital Market under the ticker symbol RPTP.

In connection with the exchange of shares in the merger, immediately after the effective time of such merger, RPC and the Company's stockholders owned 95% and 5% of the outstanding shares of the combined company, respectively. RPC stockholders received (as of immediately prior to such merger) 17,881,300 shares of the combined company's common stock in exchange for the 76,703,147 shares of RPC's common stock outstanding immediately prior to the closing of the merger. On September 29, 2009, immediately prior to the effective time of such merger, the Company's Board of Directors, with the consent of RPC's Board of Directors, acted to effect a reverse stock split of the issued and outstanding shares of the Company's common stock such that every 17 shares of the Company's common stock outstanding immediately prior to the effective time of the merger would represent one share of the Company's common stock. Due to the reverse stock split implemented by the Company, the 15,999,058 shares of the Company's common stock outstanding immediately prior to the closing of the merger became 940,863 shares of the combined company's common stock.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

In connection with the merger and subject to the same conversion factor as the RPC common stock (.2331234), the combined company assumed all of RPC's stock options and warrants outstanding at the time of the merger. The combined company also retained the Company's stock options and warrants outstanding at the merger, subject to the same adjustment factor as described above to give effect to the 1 for 17 reverse split.

The combined company is headquartered in Novato, California and is managed by Christopher M. Starr, Ph.D., as Chief Executive Officer and director, Todd C. Zankel, Ph.D., as Chief Scientific Officer, Kim R. Tsuchimoto as Chief Financial Officer, Ted Daley, as President of clinical development and Patrice P. Rioux, M.D., Ph.D., as Chief Medical Officer of clinical development.

There were a number of factors on which RPC's Board of Directors relied in approving the 2009 Merger. The primary reason for RPC's Board of Directors' decision to merge with TorreyPines was the benefit anticipated from the additional liquidity expected from having a NASDAQ trading market on which the combined company's common stock could be listed, in addition to having access to an expanded pipeline of product candidates across a wider spectrum of diseases and markets.

The liquidity benefit is the primary factor behind the goodwill recognized in the transaction (see below). The goodwill is expected to be fully deductible for tax purposes. Below is a breakdown of the assets acquired and liabilities assumed in the merger described herein (in millions, except for %):

	(millions) Value (millions)	(millions) %
Asset Allocation		
Cash and equivalents	\$ 0.58	13
Other current assets	0.10	2
Accrued liabilities	(0.68)	(15)
Intangible assets:		
In-process research & development	0.90	20
Licenses	0.24	6
Total identifiable assets	1.14	26
Plus goodwill	3.28	74
Total net assets acquired	\$ 4.42	100

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

ISSUANCES OF COMMON STOCK AND WARRANTS IN CONNECTION WITH THE SALE OF UNITS IN A REGISTERED DIRECT OFFERING

On December 17, 2009, the Company entered into a Placement Agent Agreement with Ladenburg Thalmann & Co. Inc. as placement agent (the 2009 Placement Agent), relating to the issuance and sale to the Direct Offering Investors (as defined below) pursuant to a registered direct offering (the Direct Offering) of up to 3,747,558 units (the Units), consisting of (i) 3,747,558 shares of the Company's common stock, (ii) warrants to purchase an aggregate of up to 1,873,779 shares of the Company's common stock (and the shares of common stock issuable from time to time upon exercise of such warrants) (the Series A Warrants), and (iii) warrants to purchase an aggregate of up to 1,873,779 shares of the Company's common stock (and the shares of common stock issuable from time to time upon exercise of such warrants) (the Series B Warrants, and collectively with the Series A Warrants, the Investor Warrants).

The 2009 Placement Agent received a placement fee equal to 6.5% of the gross cash proceeds to the Company from the Direct Offering of the Units or \$487,183 (excluding any consideration that may be paid in the future upon exercise of the Warrants), a warrant to purchase up to an aggregate of 74,951 shares of the Company's common stock at \$2.50 per share (valued at approximately \$52,000 using the following Black-Scholes pricing model assumptions: risk-free interest rate 2.23%; expected term 5 years and annual volatility 49.28%) and \$25,000 in out-of-pocket accountable expenses. The warrant issued to Ladenburg has the same terms and conditions as the Investor Warrants except that the exercise price is 125% of the public offering price per share or \$2.50 per share, and the expiration date is five years from the effective date of the Registration Statement.

In connection with the Direct Offering, following execution of the Placement Agent Agreement, the Company also entered into a definitive securities purchase agreement (the Direct Offering Purchase Agreement), dated as of December 17, 2009, with 33 investors set forth on the signature pages thereto (collectively, the Direct Offering Investors) with respect to the Direct Offering of the Units, whereby, on an aggregate basis, the Direct Offering Investors agreed to purchase 3,747,558 Units for a negotiated purchase price of \$2.00 per Unit, amounting to gross proceeds of approximately \$7.5 million and net proceeds after commissions and expenses of approximately \$6.2 million. Each Unit consists of one share of the Company's common stock, one Series A Warrant exercisable for 0.5 of a share of the Company's common stock and one Series B Warrant exercisable for 0.5 of a share of the Company's common stock. The shares of the Company's common stock and the Warrants were issued separately. The Series A Warrants were exercisable during the period beginning one hundred eighty (180) days after the date of issue and ending on the fifth (5th) anniversary of the date of issue. The Series B Warrants were exercisable during the period beginning one hundred eighty (180) days after the date of issue and ending on the eighteen (18) month anniversary of the date of issue. The Investor Warrants have a per share exercise price of \$2.45. At closing of the financing, the Series A Warrants were valued at \$1.3 million (using the following Black-Scholes pricing model assumptions: risk-free interest rate 2.23%; expected term 5 years and annual volatility 49.28%) and the Series B Warrants were valued at \$0.5 million (using the following Black-Scholes pricing model assumptions: risk-free interest rate 0.56%; expected term 18 months and annual volatility 49.28%). Based on the underlying terms of the Investor Warrants and Placement Agent Warrants, the Investor Warrants and the Placement Agent Warrants are classified as a liability, as discussed further below in Note 9.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

ISSUANCES OF COMMON STOCK IN CONNECTION WITH AN EQUITY LINE

On April 16, 2010, the Company signed a purchase agreement with Lincoln Park Capital Fund, LLC (LPC), together with a registration rights agreement, whereby LPC agreed to purchase up to \$15.0 million of the Company's common stock over a 25 month period. Under the registration rights agreement, the Company agreed to file a registration statement related to the transaction with the U.S. Securities and Exchange Commission (SEC) covering the shares that have been issued or may be issued to LPC under the purchase agreement. Such registration statement was declared effective by the SEC on May 7, 2010. Post-effective amendments to such registration statement were filed on November 23, 2010 and December 1, 2010, which amended registration statement was declared effective by the SEC on December 1, 2010. Post-effective amendments to such amended registration statement were filed on October 11, 2011 and October 14, 2011 on Form S-3, which amended registration statement was declared effective by the SEC on October 21, 2011. After May 7, 2010, the Company had the right over a 25-month period to sell its shares of common stock to LPC in amounts of \$100,000 to up to \$1 million per sale, depending on certain conditions as set forth in the purchase agreement, up to the aggregate amount of \$15.0 million. The purchase agreement may be terminated by the Company at any time at its discretion without any cost to the Company.

The purchase price of the shares issued to LPC under the purchase agreement is based on the prevailing market prices of the Company's shares at the time of sale without any fixed discount. The Company controlled the timing and amount of any sales of shares to LPC. LPC did not have the right or the obligation to purchase any shares of the Company's common stock on any business day that the purchase price of the Company's common stock is below \$1.50 per share.

In consideration for entering into the purchase agreement (the LPC Purchase Agreement), the Company issued to LPC 145,033 shares of common stock valued at \$246,556 (recorded as deferred offering costs on the Company's balance sheet and amortized over the usage of the equity line) as a commitment fee and is required to issue up to an additional 217,549 shares of its common stock pro rata as LPC purchases the \$15.0 million of the Company's common stock over the 25-month period. Since inception, the Company sold 4,186,038 shares to LPC at a weighted average price of \$2.78 and paid commitment fees to LPC in the form of 168,929 shares (in addition to the 145,033 shares issued as the initial commitment fee), valued at \$581,081. The Company issued an aggregate of 4,500,000 shares (including shares issued to LPC as commitment fees) to LPC pursuant to the LPC Purchase Agreement and does not plan to issue or register additional shares under such agreement.

2010 PRIVATE PLACEMENT

On August 9, 2010, the Company entered into a securities purchase agreement with 23 investors set forth on the signature pages thereto (the U.S. Investors) and a separate securities purchase agreement with a certain Canadian investor (the Canadian Investor) and together with the U.S. Investors, the 2010 Private Placement Investors) set forth on the signature pages thereto (collectively, the 2010 Private Placement Purchase Agreements), for the private placement (the 2010 Private Placement) of the Company's common stock and warrants to purchase its common stock, at a purchase price of \$3.075 per unit, with each unit comprised of one share of common stock and a warrant to purchase one share of common stock. JMP Securities LLC (the 2010 Placement Agent) served as the Company's placement agent in the 2010 Private Placement.

The closing of this private placement occurred on August 12, 2010. The Company issued and sold an aggregate of 4,897,614 units, comprised of 4,897,614 shares of common stock and warrants to purchase up to 4,897,614 shares of its common stock for gross proceeds of approximately \$15.1 million. Each warrant, exercisable for 5 years from August 12, 2010, has an exercise price of \$3.075 per share. At closing of the 2010 Private Placement, the warrants issued to investors were valued at approximately \$7.8 million (using the following Black-Scholes pricing model assumptions: risk-free interest rate 1.74%; expected term 5 years and annual volatility 85.14%). As the placement agent for the 2010 Private Placement, the 2010 Placement Agent was issued one warrant to purchase 97,952 shares of the Company's common stock (valued at approximately \$0.2 million, based upon the same Black-Scholes inputs as the investor warrants), paid a cash commission of \$978,911 and reimbursed for certain of its expenses incurred in connection with the 2010 Private Placement.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

In connection with the 2010 Private Placement, on August 12, 2010, the Company entered into a registration rights agreement with the 2010 Private Placement Investors, pursuant to which the Company filed with the SEC a registration statement related to the 2010 Private Placement covering the resale of the common stock issued to the 2010 Private Placement Investors under the 2010 Private Placement Purchase Agreements and the shares of common stock that will be issued to the 2010 Private Placement Investors upon exercise of the warrants, including the warrant issued to the 2010 Placement Agent. Such registration statement was declared effective on August 31, 2010. Post-effective amendments to such registration statement were filed on November 23, 2010 and December 1, 2010, which amended registration statement was declared effective by the SEC on December 1, 2010. A post-effective amendment to such amended registration statement was filed on October 11, 2011 on Form S-3, which amended registration statement was declared effective by the SEC on October 21, 2011.

2011 FOLLOW-ON PUBLIC OFFERING

On September 13, 2011, the Company closed an underwritten public offering of shares of the Company's common stock at a price to the public of \$4.00 per share. The shares sold in the offering included 10.0 million shares of common stock plus an additional 1.5 million shares of common stock pursuant to the exercise by the underwriters of the over-allotment option the Company granted to them. Total gross proceeds to the Company in the offering (including in connection with the sale of the shares of common stock pursuant to the exercise of the over-allotment option) totaled \$46.0 million, before underwriting discounts and commissions. The offering resulted in net proceeds to the Company of approximately \$42.8 million after deduction of underwriting discounts of 6% and other offering expenses paid by the Company.

The following is a summary of common stock outstanding as of February 29, 2012:

Transaction	Date of Issuance	Common Stock Issued
Founders' shares	Sep. 2005	1,398,742
Seed round	Feb. 2006	466,247

Total warrants outstanding	5,277,483	\$ 3.01*	

* Weighted average exercise price

The warrants issued by the Company in the August 2010 private placement and the December 2009 equity financing contain a conditional obligation that may require the Company to transfer assets to repurchase the warrants upon the occurrence of potential future events. Under ASC 480, a financial instrument that may require the issuer to settle the obligation by transferring assets is classified as a liability. Therefore, the Company has classified the warrants from both financings as liabilities and will mark them to fair value at each period end.

A Black-Scholes option-pricing model was used to obtain the fair value of the warrants issued in the December 2009 and August 2010 equity financings using the following assumptions at February 29, 2012 and August 31, 2011:

	December 2009 equity financing Series A		August 2010 equity financing investors and placement agent	
	February 29, 2012	August 31, 2011	February 29, 2012	August 31, 2011
Fair value (\$ millions)	4.7	5.9	21.8	17.7
Black-Scholes inputs:				
Stock price	\$ 6.98	\$ 4.73	\$ 6.98	\$ 4.73

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three and six month periods ended February 29, 2012 and February 28, 2011, and for the cumulative period from September 8, 2005 (inception) to February 29, 2012, as a result of the marking-to-market of the warrant liability at quarter-end and the day prior to the exercise of warrants subject to warrant liability accounting, the Company recorded losses of approximately \$7.8 million, \$12.0 million, a gain of approximately \$1.8 million, a loss of approximately \$3.9 million and losses of approximately \$34.2 million, respectively, in the line item adjustment to fair value of common stock warrants in its condensed consolidated statements of comprehensive loss. See Note 5 for further discussion on the marking-to-market of the warrant liability.

(10) COMMITMENTS AND CONTINGENCIES

CONTRACTUAL OBLIGATIONS WITH BIOMARIN

Pursuant to the terms of the asset purchase agreement the Company entered into with BioMarin for the purchase of intellectual property related to the Company's receptor-associated protein (RAP) based technology (including NeuroTrans), the Company is obligated to make the following milestone payments to BioMarin upon the achievement of the following events:

\$50,000 (paid by the Company in June 2006) within 30 days after the Company receives total aggregate debt or equity financing of at least \$2,500,000;

\$100,000 (paid by the Company in June 2006) within 30 days after the Company receives total aggregate debt or equity financing of at least \$5,000,000;

\$500,000 upon the Company's filing and acceptance of an investigational new drug application for a drug product candidate based on the NeuroTrans product candidate;

\$2,500,000 upon the Company's successful completion of a Phase 2 human clinical trial for a drug product candidate based on the NeuroTrans product candidate;

\$5,000,000 upon the Company's successful completion of a Phase 3 human clinical trial for a drug product candidate based on the NeuroTrans product candidate;

\$12,000,000 within 90 days of the Company's obtaining marketing approval from the FDA or other similar regulatory agencies for a drug product candidate based on the NeuroTrans product candidate;

\$5,000,000 within 90 days of the Company's obtaining marketing approval from the FDA or other similar regulatory agencies for a second drug product candidate based on the NeuroTrans product candidate;

\$5,000,000 within 60 days after the end of the first calendar year in which the Company's aggregated revenues derived from drug product candidates based on the NeuroTrans product candidate exceed \$100,000,000; and

\$20,000,000 within 60 days after the end of the first calendar year in which the Company's aggregated revenues derived from drug product candidates based on the NeuroTrans product candidate exceed \$500,000,000.

In addition to these milestone payments, the Company is also obligated to pay BioMarin a royalty at a percentage of the Company's aggregated revenues derived from drug product candidates based on the NeuroTrans product candidate. On June 9, 2006, the Company made a milestone payment in the amount of \$150,000 to BioMarin because the Company raised \$5,000,000 in its May 25, 2006 private placement financing. If the Company becomes insolvent or if the Company breaches its asset purchase agreement with BioMarin due to non-payment and the Company does not cure its non-payment within the stated cure period, all of the Company's rights to the RAP technology (including NeuroTrans) will

revert back to BioMarin.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

CONTRACTUAL OBLIGATIONS WITH THOMAS E. DALEY (ASSIGNEE OF THE DISSOLVED CONVIVIA, INC.)

Pursuant to the terms of the asset purchase agreement the Company entered into with Convivia, Inc. and Thomas E. Daley for the purchase of intellectual property related to its 4-MP product candidate program (the Asset Purchase Agreement), Mr. Daley will be entitled to receive the following, if at all, in such amounts and only to the extent certain future milestones are accomplished by the Company (or any of its subsidiaries thereof), as set forth below:

23,312 shares of Raptor's restricted, unregistered Common Stock within fifteen (15) days after the Company enters into a manufacturing license or other agreement to produce any product that is predominantly based upon or derived from any assets purchased from Convivia (Purchased Assets) in quantity (Product) if such license agreement is executed within one (1) year of execution of the Asset Purchase Agreement or, if thereafter, 11,656 shares of Raptor's restricted, unregistered Common Stock. Should the Company obtain a second such license or agreement for a Product, Mr. Daley will be entitled to receive 11,656 shares of the Company's restricted, unregistered Common Stock within 30 days of execution of such second license or other agreement. In January 2008, Mr. Daley earned a \$30,000 cash bonus pursuant to his employment agreement for executing the Patheon formulation agreement for manufacturing Convivia. On March 31, 2008, the Company issued 23,312 shares of Raptor's Common Stock valued at \$56,000 to Mr. Daley pursuant to this milestone reflecting the execution of an agreement to supply the active pharmaceutical ingredient for Convivia, combined with the execution of a formulation agreement to produce the oral formulation of Convivia. In July 2010, the Company issued 11,656 shares of its restricted common stock valued at \$35,551 and paid a \$10,000 cash bonus to Mr. Daley as a result of the execution of the license agreement with Uni Pharma for the development of Convivia in Taiwan.

23,312 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after it receives its first patent allowance on any patents which constitute part of the Purchased Assets in any one of certain predetermined countries (each, a Major Market).

11,656 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after the Company receives its second patent allowance on any patents which constitute part of the Purchased Assets different from the patent referenced in the immediately preceding paragraph above in a Major Market.

23,312 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days of completing predetermined benchmarks in a Major Market by the Company or its licensee of the first Phase 2 human clinical trial for a Product (Successful Completion) if such Successful Completion occurs within one (1) year of execution of the Asset Purchase Agreement or, if thereafter, 11,656 shares of the Company's restricted, unregistered Common Stock within thirty (30) days of such Successful Completion. In October 2008, the Company issued 23,312 shares of Raptor's Common Stock valued at \$27,000 and a \$30,000 cash bonus (pursuant to Mr. Daley's employment agreement) to Mr. Daley pursuant to the fulfillment of this milestone.

Table of Contents

RAPTOR PHARMACEUTICAL CORP.

(A Development Stage Company)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

11,656 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days of a Successful Completion in a Major Market by the Company or its licensee of the second Phase 2 human clinical trial for a Product (other than the Product for which a distribution is made under the immediately preceding paragraph above).

23,312 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after the Company or its licensee applies for approval to market and sell a Product in a Major Market for the indications for which approval is sought (Marketing Approval).

11,656 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after the Company or its licensee applies for Marketing Approval in a Major Market (other than the Major Market for which a distribution is made under the immediately preceding paragraph above).

46,625 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after the Company or its licensee obtains the first Marketing Approval for a Product from the applicable regulatory agency in a Major Market.

23,312 shares of the Company's restricted, unregistered Common Stock within fifteen (15) days after the Company or its licensee obtains Marketing Approval for a Product from the applicable regulatory agency in a Major Market (other than the Major Market for which a distribution is made under the immediately preceding paragraph above).

As discussed above, in aggregate, the Company has issued to Mr. Daley, 58,280 shares of Raptor's common stock valued at \$118,551 and paid \$70,000 in cash bonuses related to Convivia milestones along with another \$20,000 in cash bonuses related to employment milestones pursuant to Mr. Daley's employment agreement.

CONTRACTUAL OBLIGATIONS WITH FORMER ENCODE STOCKHOLDERS AND UCSD RELATING TO THE ACQUISITION OF THE DR CYSTEAMINE (RP103 AND RP104) LICENSE

As a result of the merger between Raptor Therapeutics Inc. and Encode, as discussed in Note 8 above, the Encode Securityholders are eligible to receive up to an additional 559,496 shares of Raptor's common stock, Company Options and Company Warrants to purchase Raptor's common stock in the aggregate based on certain triggering events related to regulatory approval of RP103/RP104, an Encode product program, if completed within the five year anniversary date of the merger agreement.

Also as a result of the merger, the Company will be obligated to pay an annual maintenance fee to UCSD for the exclusive license to develop RP103/RP104 for certain indications of \$15,000 until it begins commercial sales of any products developed pursuant to the License Agreement. In addition to the maintenance fee, the Company will be obligated to pay during the life of the License Agreement: milestone payments ranging from \$20,000 to \$750,000 for orphan indications and from \$80,000 to \$1,500,000 for non-orphan indications upon the occurrence of certain events, if ever; royalties on commercial net sales from products developed pursuant to the License Agreement ranging from 1.75% to 5.5%; a percentage of sublicense fees ranging from 25% to 50%; a percentage of sublicense royalties; and a minimum annual royalty commencing the year the Company begins commercially selling any products pursuant to the License Agreement, if ever. Under the License Agreement, the Company is obligated to fulfill predetermined milestones within a specified number of years ranging from 0.75 to 6 years from the effective date of the License Agreement, depending on the indication. In addition, the Company is obligated to, among other things, secure \$1.0 million in funding prior to December 18, 2008 (which the Company has fulfilled by raising \$10.0 million in its May/June 2008 private placement) and annually spend at least \$200,000 for the development of products (which, as of its fiscal years ended August 31, 2011, 2010 and 2009 by spending approximately \$11.3 million, \$6.2 million and \$4.1 million, respectively, on such programs) pursuant to the License Agreement. Cumulatively, the Company has expensed \$680,000 in milestone payments to UCSD based upon the initiation of clinical trials in cystinosis, Huntington's Disease and NASH. Subsequent to quarter end, the Company filed its Marketing Authorization Application (MAA) with the European Medicines Agency (EMA) for RP103 for the potential treatment of cystinosis, a milestone in which the Company will pay \$250,000 to UCSD pursuant to this license.

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

To the extent that the Company fails to perform any of its obligations under the License Agreement, then UCSD may terminate the license or otherwise cause the license to become non-exclusive.

-31-

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****OFFICE LEASES**

In March 2006, the Company entered into a lease for the Company's executive offices and research laboratory in Novato, California and expanded the lease on January 26, 2007. Base monthly payments were subject to annual rent increase of between 3% to 5%, based on the Consumer Price Index (CPI) and annual adjustments to base operating expenses. In October 2010, the Company executed a lease addendum to the Novato lease for an additional 3,100 square feet (\$5,309 per month) starting in April 2011. In February 2012, the Company executed a second addendum to the Novato lease for an additional 1,636 square feet (\$2,879.47 per month) starting in March 2012. Effective April 1, 2010, the Company's monthly base rent including base operating expenses was \$10,826. Effective April 11, 2011, the Company's monthly base including base operating expenses increased to \$16,135 with an adjustment for CPI and operating expenses in April 2012. Effective March 1, 2012, the monthly base including base operating expenses increased to \$19,014, with an adjustment for CPI. The Novato lease expires in March 2013. In January 2010, the Company entered into a one-year lease for administrative offices in San Mateo, California for \$2,655 per month. The Company anticipates continuing the San Mateo lease on a monthly basis.

During the three month periods ended February 29, 2012 and February 28, 2011, the Company's rent expense was \$60,774 and \$48,790, respectively. During the six month periods ended February 29, 2012 and February 28, 2011 and the cumulative period from September 8, 2005 (inception) to February 29, 2012, the Company's rent expense was \$114,506, \$100,515 and \$841,586, respectively.

The minimum future lease payments under this operating lease assuming a 3% CPI increase per year are as follows:

Period	Amount
March 1, 2012 to August 31, 2012	\$ 116,939
Fiscal year ending August 31, 2013	137,094

CAPITAL LEASE

On August 31, 2011, the Company leased a photocopier which is subject to a 39-month lease at \$387 per month. The future lease payments under the capital lease are as follows:

Period	Amount
March 1, 2012 to August 31, 2012	\$ 2,322
Year ending August 31, 2013	4,647
Year ending August 31, 2014	4,647
Year ending August 31, 2015	1,162
Total future capital lease payments	12,778
Less interest	(995)
Total current and long-term capital lease liability	\$ 11,783

Interest rate on the capital lease is 6% based on the lessor's implicit rate of return.

Table of Contents**RAPTOR PHARMACEUTICAL CORP.****(A Development Stage Company)****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****CONTRACT/CLINICAL RESEARCH AGREEMENTS**

During the three and six months ended February 29, 2012, the Company maintained several contracts with research organizations, clinical organizations and clinical sites, primarily to assist with clinical research for its cystinosis program and its NASH clinical collaboration. The future commitments pursuant to clinical research agreements are estimated as follows:

Period	Amount
March 1, 2012 to August 31, 2012	\$ 3,066,373
Fiscal year ending August 31, 2013	3,507,836
Fiscal year ending August 31, 2014	1,500,000

STORAGE AND CLINICAL DISTRIBUTION AGREEMENT

During the three and six months ended February 29, 2012, the Company maintained an agreement with a company that stores and distributes clinical materials for Raptor's cystinosis and Huntington's Disease trials. The future commitments pursuant to this agreement are estimated as follows:

Period	Amount
March 1, 2012 to August 31, 2012	\$ 216,935
Fiscal year ending August 31, 2013	691,900
Fiscal year ending August 31, 2014	207,200

FORMULATION / MANUFACTURING AGREEMENTS

In April 2008, the Company executed an agreement with a contract manufacturing organization to formulate and manufacture RP103 for its cystinosis and Huntington's Disease programs and subsequently, for its NASH program. The costs are invoiced to the Company in installments throughout the formulation and manufacturing process. In November 2010, the Company executed a supply agreement with a contract manufacturer for the active pharmaceutical ingredient of RP103. The future commitments pursuant to these contracts related to both clinical and near-term commercial manufacturing are estimated as follows:

Period	Amount
March 1, 2012 to August 31, 2012	\$ 5,461,003
Fiscal year ending August 31, 2013	9,490,100
Fiscal year ending August 31, 2014	10,278,200

(11) QUALIFYING THERAPEUTIC DISCOVERY PROJECT GRANT

In October 2010, the Company was awarded a tax grant under the U.S. Government's Qualifying Therapeutic Discovery Project for five of its research programs including its cystinosis, Huntington's Disease and NASH clinical programs and its HepTide and WntTide preclinical cancer research programs. The Company was granted an aggregate of approximately \$1.1 million for all five programs of which, as of August 31, 2011, it had received approximately \$874,000. The Company recorded the \$194,000 and \$680,000 of proceeds as a contra-research and development expense in its preclinical and clinical development division, respectively, during the first two quarters of fiscal 2011. The Company records the contra-expense upon deposit of the grant proceeds. During the three and six months ended February 29, 2012, the Company received approximately \$162,000 pursuant to the government program funding guidelines and the remaining balance of approximately \$36,000 was

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

drawn but was returned to the government in March 2012 along with an additional \$28,000 as recapture tax because the Company had not incurred the amount originally estimated as qualified expenses for its WntTide program, which was the basis for the program funding.

RAPTOR PHARMACEUTICAL CORP.

(A Development Stage Company)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(12) SUBSEQUENT EVENTS

On March 26, 2012, the Company announced that the EMA has determined that its MAA for its investigational drug candidate, RP103 for the potential treatment of nephropathic cystinosis, submitted in early March, is valid. Validation of the MAA confirms that the submission is sufficiently complete to begin the formal review process. The Company anticipates a decision from the EMA in the first calendar quarter of 2013.

On March 28, 2012, the Company announced the appointment of Henk Doude van Troostwijk as its General Manager of European Commercial Operations, effective April 15, 2012. Mr. Doude van Troostwijk will be responsible for building and managing the Company's commercial operations in Europe initially focusing on the potential launch and subsequent marketing of RP103 for nephropathic cystinosis in anticipation of the EMA's approval of the Company's MAA. The Company anticipates additional hiring in Europe as well as the U.S. over the next nine months in preparation for the potential commercialization of RP103 for the potential treatment of nephropathic cystinosis in the U.S. and Europe.

On March 30, 2012, the Company announced that it submitted a New Drug Application (NDA) to the U.S. Food and Drug Administration (FDA) seeking approval to market its investigational drug candidate, Cysteamine Bitartrate Delayed-release Capsules (RP103), for the potential treatment of nephropathic cystinosis. In its application, the Company has requested Priority Review of the NDA, which, if granted, could lead to a decision for marketing approval from the FDA of RP103 for the potential treatment of nephropathic cystinosis in the fourth calendar quarter of 2012. If Priority Review is not granted, the Company anticipates a decision by the FDA in the first calendar quarter of 2013.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FORWARD-LOOKING STATEMENTS

In this Quarterly Report on Form 10-Q, in other filings with the Securities and Exchange Commission, or the SEC, and in press releases and other public statements by our officers throughout the year, we make or will make statements that plan for or anticipate the future. These forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, include statements about our future business plans and strategies, as well as other statements that are not historical in nature. These forward-looking statements are based on our current expectations.

In some cases, these statements can be identified by the use of terminology such as believes, expects, anticipates, plans, may, might, will, should, would, projects, anticipates, predicts, intends, continues, estimates, potential, opportunity or the negative of the foregoing or comparable terminology. All such statements, other than statements of historical facts, including our financial condition, future results of operations, projected revenues and expenses, business strategies, operating efficiencies or synergies, competitive positions, growth opportunities for existing intellectual properties, technologies, products, plans, and objectives of management, markets for our securities, and other matters, are about us and our industry that involve substantial risks and uncertainties and constitute forward-looking statements for the purpose of the safe harbor provided by Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Such forward-looking statements, wherever they occur, are necessarily estimates reflecting the best judgment of our senior management on the date on which they were made, or if no date is stated, as of the date of the filing made with the SEC in which such statements were made. You should not place undue reliance on these statements, which only reflect information available as of the date that they were made. Our business actual operations, performance, development and results might differ materially from any forward-looking statement due to various known and unknown risks, uncertainties, assumptions and contingencies, including those described in the section titled Risk Factors That May Affect Future Results in Part II, Item 1A of this Quarterly Report on Form 10-Q and including, but not limited to, the following:

our need for, and our ability to obtain, additional funds;

uncertainties relating to clinical trials and regulatory reviews;

our dependence on a limited number of therapeutic compounds and formulations of these compounds;

the early stage of the products we are developing;

the acceptance of any of our future products by physicians and patients;

competition and dependence on collaborative partners;

loss of key management or scientific personnel;

our ability to obtain adequate intellectual property protection and to enforce these rights;

our ability to avoid infringement of the intellectual property rights of others; and

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

the other factors and risks described under the section captioned "Risk Factors That May Affect Future Results" in Part II, Item 1A of this Quarterly Report on Form 10-Q, as well as other factors not identified therein.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, the factors discussed in this Quarterly Report on Form 10-Q, in other filings with the SEC and in press releases and other public statements by our officers throughout the year, could cause actual results or outcomes to differ materially and/or adversely from those expressed in any forward-looking statements made by us or on our behalf, and therefore we cannot guarantee future results, levels of activity, performance or achievements and you should not place undue reliance on any such forward-looking statements. We cannot give you any assurance that such forward-looking statements will prove to be accurate and such forward-looking events may not occur. In light of the significant uncertainties inherent in such forward-looking statements, you should not regard the inclusion of this information as a representation by us or any other person that the results or conditions described in those statements or our objectives and plans will be achieved.

All subsequent forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to herein. Unless required by U.S. federal securities laws and the rules and regulations of the SEC, we do not undertake any obligation and disclaim any intention to update or release publicly any revisions to these forward-looking statements after the filing of this Quarterly Report on Form 10-Q to reflect later events or circumstances or to reflect the occurrence of unanticipated events or any other reason.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our condensed consolidated financial statements as of February 29, 2012, and the notes to such condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. All references to the Company, we, our and us include the activities of Raptor Pharmaceutical Corp. and its wholly-owned subsidiaries, Raptor Pharmaceuticals Corp. (which was merged into us as of December 7, 2011), Raptor Discoveries Inc., or Raptor Discoveries, Raptor Therapeutics Inc., or Raptor Therapeutics, Raptor European Products, LLC, RPTP European Holdings C.V. and Raptor Pharmaceuticals Europe B.V. This Management's Discussion and Analysis of Financial Condition and Results of Operations section contains forward-looking statements. Please see Forward-Looking Statements for a discussion of the uncertainties, risks and assumptions associated with these statements. Our actual results and the timing of certain events could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those discussed below and elsewhere in this Quarterly Report on Form 10-Q, particularly under the heading Risk Factors That May Affect Future Results.

Overview

Our goal is to research, produce, and deliver medicines that improve life for patients with severe, rare disorders. Our product portfolio includes both candidates from our proprietary drug targeting platforms and in-licensed and acquired product candidates.

Our current pipeline includes three clinical development programs, which we are actively developing. We also have two other clinical-stage product candidates, one of which we are seeking additional product development partners in Asia. In addition, we have three preclinical product candidates for which we are also seeking development partners.

Clinical Development Programs

Our three active clinical development programs are based on an existing therapeutic compound that we are reformulating and repurposing for potential improvement in safety and/or efficacy and for potential application in new disease indications. These clinical development programs include the following:

DR Cysteamine, or RP103, for the potential treatment of cystinosis, a rare genetic disorder;

RP103 for the potential treatment of Huntington's Disease, or HD, an inherited neurodegenerative disorder; and

RP103, for the potential treatment of non-alcoholic steatohepatitis, or NASH, a metabolic disorder of the liver.

RP103 is our proprietary delayed-release formulation of cysteamine bitartrate microbeads in capsules, which may require less frequent dosing and reduce gastro-intestinal side effects compared to the current standard of care. Our plan is to eventually develop a delayed-released formulation of cysteamine bitartrate in tablets, referred to as RP104, for NASH.

Other Clinical-Stage Product Candidates

Our other clinical-stage product candidates include:

Convivia for the potential management of acetaldehyde toxicity due to alcohol consumption by individuals with aldehyde dehydrogenase, or ALDH2 deficiency, an inherited metabolic disorder; and

Tezampanel, a glutamate receptor antagonist as a potential anti-platelet agent for use in thrombotic disorders.

Preclinical Product Candidates

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Our preclinical platforms consist of targeted therapeutics for the potential treatment of multiple indications, including liver diseases, neurodegenerative diseases and breast cancer. We are seeking development partners for these programs. These preclinical programs include the following:

Our receptor-associated protein, or RAP, platform consists of: HepTide for the potential treatment of primary liver cancer and other liver diseases; and NeuroTrans to potentially deliver therapeutics across the blood-brain barrier for treatment of a variety of neurological diseases.

Our mesoderm development protein, or Mesd, platform consists of WntTide for the potential treatment of breast cancer.

-36-

Table of Contents

Future Activities

Over the next 12 months, we plan to conduct research and development and general and administrative activities including: commercial preparation and drug supply for the potential launch of RP103 for the potential treatment of cystinosis in the U.S. and Europe; supporting our ongoing extension study of RP103 in cystinosis until patients are converted onto commercial drug; supplying clinical material for the ongoing clinical trial of RP103 in HD; funding the collaboration and supplying clinical material in the Phase 2b clinical trial of RP103 in NASH; funding a potential Phase 1 clinical trial of tezampanel as a potential anti-platelet agent; continuing business development of our preclinical product candidates; and supporting associated facilities and administrative functions. We plan to seek additional business development partners for our Convivia product candidate in Asia. We may also develop new preclinical opportunities, future in-licensed technologies and acquired technologies.

Clinical Development Programs

We develop clinical-stage drug product candidates which are: internally discovered therapeutic candidates based on our novel drug delivery platforms and in-licensed or purchased clinical-stage products which may be new chemical entities in mid-to-late stage clinical development, currently approved drugs with potential efficacy in additional indications, and treatments that we could repurpose or reformulate as potentially more effective or convenient treatments for a drug's currently approved indications.

Lead Clinical Development Program: Development of RP103 for the Potential Treatment of Nephropathic Cystinosis or Cystinosis

Our RP103 product candidate is a proprietary delayed-release, enteric-coated microbead formulation of cysteamine bitartrate contained in a gelatin capsule. We are investigating RP103 for the potential treatment of cystinosis.

Immediate-release cysteamine bitartrate, a cystine-depleting agent, is currently the only U.S. Food and Drug Administration, or FDA, and the European Medicines Agency, or EMA-approved drug to treat cystinosis, a rare genetic disease. Immediate-release cysteamine has been reported to be effective at preventing or delaying kidney failure and other serious health problems in cystinosis patients. RP103 is designed to pass through the stomach and deliver the drug directly to the small intestine, where it may be more easily absorbed into the bloodstream and may result in fewer gastrointestinal side effects. Studies have shown that patient compliance is challenging due to the requirement for every six-hour dosing and gastrointestinal side effects, especially since it requires a patient to be awakened during sleep to administer the nighttime dose. RP103 for the potential treatment of cystinosis is designed to mitigate these difficulties. It is expected to be dosed twice daily, compared to the current every-six-hour dosing schedule.

In March 2012, we submitted applications for marketing approval of RP103 for the potential treatment of cystinosis with both the FDA and the EMA. We requested Priority Review of our application with the FDA, which, if granted, could lead to an FDA decision by the fourth calendar quarter of 2012. We anticipate a decision from the EMA and the FDA (if Priority Review is not granted by the FDA) in the first calendar quarter of 2013.

In anticipation of drug approval, we have begun building our commercial infrastructure both in the U.S. and in Europe so we may timely launch RP103 for the potential treatment of cystinosis.

In July 2011, we announced that our Phase 3 clinical trial of RP103 for the treatment of cystinosis, met the sole primary endpoint of non-inferiority compared to Cystagon®, immediate-release cysteamine bitartrate. The comparison was based on white blood cell, or WBC, cystine levels, the established efficacy surrogate biomarker and sole primary endpoint in the clinical trial. There were no unexpected serious safety concerns experienced by patients in the trial attributable to RP103.

Our pivotal Phase 3 clinical trial was designed as an outpatient study of the pharmacodynamics, pharmacokinetics, safety and tolerability of RP103 compared to Cystagon® in cystinosis patients. The clinical trial was conducted at eight clinical research centers in the U.S. and Europe.

Of 41 patients who completed the Phase 3 protocol, 38 were included in the evaluable data set, 3 were not fully compliant with the protocol due to the fact that their WBC cystine levels went above 2.0 while on Cystagon® during the trial. The age range of study participants was 6 to 26 years old, with 87% of patients below 16 years old. On average, the peak WBC cystine level measured in patients treated with Cystagon® was 0.54 ± 0.05 nmol 1/2 cystine/mg protein, compared to an average peak value of 0.62 ± 0.05 nmol 1/2 cystine/mg protein for patients treated with RP103. The mean difference was 0.08 nmol 1/2 cystine/mg protein, with a 95.8% confidence interval of 0.00-0.16 (one sided $p=0.021$). As stipulated in our Statistical Analysis Plan, the non-inferiority endpoint of the clinical trial would be achieved when the upper end of the confidence interval around the mean difference of WBC cystine levels did not exceed an absolute value of 0.3. The upper end of the confidence interval in the Phase 3 clinical trial was determined to be 0.16, thus achieving the non-inferiority endpoint.

Table of Contents

Additionally, the endpoint was achieved at a lower average daily dose of RP103, compared to Cystagon®. Patients enrolled in the study were required to be well controlled under the existing Cystagon® therapy. The starting dose of RP103 for patients in the Phase 3 clinical trial was initially set at 70% of their established dose of Cystagon®. The protocol allowed for a single RP103 dose increase of 25%, based on intermediate WBC cystine level results, to reflect the current standard of care in establishing appropriate dosing of Cystagon® in cystinosis patients. Approximately one-third of patients remained at 70% of their starting Cystagon® dose throughout the study. The remaining two-thirds of the patients had their RP103 dose increased. On average, the total daily, steady-state dose of RP103 in patients in the Phase 3 clinical trial was 82% of their established, incoming dose of Cystagon®.

In the course of the study, no unexpected safety issues were experienced. Seven serious adverse events, or SAEs, requiring a visit to the emergency room or hospital, were reported for seven individual patients. Of these seven SAEs, six were determined by the principal investigator to be unrelated to either RP103 or Cystagon®. One SAE, gastric intolerance, was graded as possibly related to RP103 and was subsequently resolved and the patient returned on RP103 treatment. That patient completed the RP103 study and continued on the extension study described below. The most frequently reported non-serious adverse events, or AEs, in the study were gastric intolerance symptoms. Fifty-three AEs were scored as possibly or probably related to either study drug, and forty-three of fifty-three of the drug related AEs were scored as gastric intolerance symptoms. We plan to submit our Phase 3 clinical trial data for publication by the second half of calendar 2012.

We are conducting an ongoing, extension study in which all patients that completed the Phase 3 clinical trial may elect to continue on RP103 treatment and are monitored for WBC cystine levels and safety parameters. The extension study has provided six months of safety data for each patient and was submitted in our New Drug Application, or NDA, filing. Forty out of forty-one patients who completed the Phase 3 clinical trial elected to enroll in the extension study. Thirty-eight of such patients remain in the extension study. Thirty-two patients have been on RP103 in the extension study for at least nine months.

In a related clinical trial, we performed a bioequivalence study between RP103 administered as whole capsules and RP103 administered as capsule contents sprinkled onto applesauce. As a significant number of cystinosis patients are too young to take whole capsules, this result enabled us to expand enrollment in the extension study to patients who are too young to swallow whole capsules and were therefore ineligible for the pivotal Phase 3 clinical trial protocol. We have also expanded our extension study to patients who have undergone kidney transplants, thus ineligible to participate in our Phase 3 clinical trial. Enrollment of these additional patients in the extension study is ongoing. As of March 2012, we have a total of 55 patients in our ongoing extension study.

We hold an exclusive, worldwide license from UCSD to the patent, Enterically Coated Cysteamine, Cystamine and Derivatives Thereof, filed in 2007, which covers enteric delivery of cysteamine in cystinosis and other potential therapeutic applications. We received a formal Notice of Allowance from the U.S. Patent and Trademark Office, or USPTO, for this patent in November 2011. The patent is still in examination in Europe and other countries. The EMA and FDA granted orphan drug designation for RP103 for the treatment of cystinosis in calendar 2010 and 2006, respectively.

Development of RP103/RP104 for the Potential Treatment of Non-Alcoholic Steatohepatitis or NASH

On December 15, 2011, we executed a cooperative research and development agreement, or CRADA, with the National Institute of Diabetes and Digestive and Kidney Diseases, or NIDDK, part of the National Institutes of Health, or NIH, to conduct a Phase 2b clinical trial. The clinical trial will evaluate the safety and potential efficacy of RP103 as a potential treatment of non-alcoholic steatohepatitis, or NASH, an advanced form of non-alcoholic fatty liver disease, or NAFLD, in children. The clinical trial is expected to begin early in the second quarter of calendar 2012 with NIDDK sharing the costs with us to conduct the clinical trial.

We estimate the total cost of the one year clinical trial treatment period to be in the range of \$14-\$16 million. Under the CRADA agreement, we will fund a total of \$6 million of the cost of the trial, in addition to providing clinical trial materials and drug manufacturing/quality support estimated at approximately \$1 million. The remainder of the funding will come from NIDDK. We hold worldwide, exclusive licenses from UCSD to patents relating to use of cysteamine in NAFLD and NASH. Under this CRADA collaboration, we will retain exclusive development and commercial rights to the clinical data resulting from the clinical trial. If the clinical trial commences timely, we anticipate releasing the top-line Phase 2b data in the first half of calendar 2014.

We continue to work on the formulation of RP104, a delayed-release tablet form of RP103. RP103 will be used in the Phase 2b clinical trial in parallel to the continued formulation studies of RP104.

Table of Contents

In October 2008, we commenced a clinical trial in collaboration with UCSD to investigate a prototype formulation of RP103/RP104 for the treatment of NASH in juvenile patients. In May 2010, we presented positive Phase 2a clinical trial results from our pilot study of delayed-release cysteamine bitartrate in 11 adolescent patients with NASH, a progressive form of liver disease believed to affect 5% to 11% of the U.S. population. The results were presented at the Digestive Disease Week 2010 conference in New Orleans, Louisiana on May 2, 2010. Our open-label Phase 2a clinical trial was conducted under a collaboration agreement with UCSD at UCSD's General Clinical Research Center. Eligible patients with baseline levels of the liver enzymes alanine transaminase, or ALT, and aspartate aminotransferase, or AST, that were at least twice that of normal levels, were enrolled to receive twice-daily, escalating oral doses of up to 1,000 mg of delayed-release cysteamine bitartrate (a prototype of our RP103) for six months, followed by a six-month post-treatment monitoring period.

Patients showed a marked decline in ALT levels during the treatment period with 7 of 11 patients achieving a greater than 50% reduction and 6 of 11 reduced to within normal range. AST levels also saw significant improvements with patients averaging 41% reduction by the end of the treatment phase. The reduction in liver enzymes was largely sustained during the 6 month post-treatment monitoring phase. Other important liver function markers showed positive trends. Levels of cytokeratin 18, a potential marker of disease activity in Non-alcoholic Fatty Liver Disease, or NAFLD, decreased by an average of 45%.

Adiponectin levels increased by an average of 35% during the treatment period. Reduced adiponectin levels are thought to be a marker of the pathogenesis and progression of NASH. Body Mass Index, or BMI, did not change significantly during both the treatment and post-treatment phases. Delayed-release cysteamine bitartrate demonstrated a strong, favorable safety profile, with mean gastrointestinal symptom scores of 1.1 at baseline and 0.7 after 6 months of treatment using a rating system in which the maximum score of 14 indicates most severe gastrointestinal symptoms.

There are no currently approved drug therapies for NASH, and patients are limited to lifestyle changes such as diet, exercise and weight reduction to manage the disease. RP104 may provide a potential treatment option for patients with NASH. Although NASH is most common in insulin-resistant obese adults with diabetes and abnormal serum lipid profiles, its prevalence is increasing among juveniles as obesity rates rise within this patient population. Although most patients are asymptomatic and feel healthy, NASH causes decreased liver function and can lead to cirrhosis, liver failure and end-stage liver disease.

We hold an exclusive worldwide license from UCSD for the patent, *Methods of Treating Non-Alcoholic Steatohepatitis (NASH) Using Cysteamine Products*. The patent was filed in 2010. We received a formal Notice of Allowance from USPTO for this patent in June 2011. The patent is still in examination in Europe and other countries.

Development of RP103 for the Potential Treatment of Huntington's Disease or HD

Huntington's Disease, or HD, is a fatal, inherited degenerative neurological disease affecting about 30,000 people in the U.S. and a comparable number of people in Europe. We are not aware of any therapeutic treatment for HD other than therapeutics that minimize symptoms such as the uncontrollable movements and mood swings resulting from HD. We are collaborating with a French institution, CHU d'Angers, on a Phase 2 clinical trial investigating RP103 in HD patients, which began in October 2010. We are providing the clinical trial materials for the study, which is sponsored by CHU d'Angers and funded in part by a grant from the French government. Eight clinical sites in France were set up by CHU d'Angers for a 96 patient, placebo-controlled, 18-month trial, followed by an open-label trial with all placebo patients rolling onto RP103 and all non-placebo patients continuing on RP103 for up to another 18 months. The primary end point of the trial will be based upon the Unified Huntington's Disease Rating Scale, or UHDRS.

We anticipate reaching full enrollment for our Phase 2 clinical trial for RP103 in patients with HD in the second quarter of calendar 2012 and we anticipate releasing the top-line Phase 2 clinical trial data in the first half of calendar 2014.

In June 2010, we acquired an exclusive worldwide license to intellectual property related to the potential treatment of HD from the Weizmann Institute of Science in Israel and Niigata University in Japan. The Weizmann and Niigata patents cover the use of transglutaminase inhibitors, a class of molecules chemically similar to cysteamine, in the potential treatment of HD and other neurological disorders. These patents add to our portfolio of intellectual property related to our programs utilizing RP103/RP104. We were granted Orphan Drug Designation in the U.S. by the FDA for cysteamine as a potential treatment for HD in 2008 and are planning to apply for Orphan Drug Designation in the E.U. once clinical data is available.

Table of Contents

Other Clinical-Stage Product Candidates

We have two other clinical-stage product candidates.

Convivia for Liver Aldehyde Dehydrogenase Deficiency

Convivia is our proprietary oral formulation of 4-methylpyrazole, or 4-MP, intended for the potential treatment of acetaldehyde toxicity resulting from alcohol consumption in individuals with ALDH2 deficiency, which is an inherited disorder of the body's ability to breakdown ethanol, commonly referred to as alcohol intolerance. 4-MP is presently marketed in the U.S. and E.U. in an intravenous form as an anti-toxin. Convivia is designed to lower systemic levels of acetaldehyde (a carcinogen) and reduce symptoms, such as tachycardia and flushing, associated with alcohol consumption by ALDH2-deficient individuals. Convivia is a capsule designed to be taken approximately 30 minutes prior to consuming an alcoholic beverage.

In 2008, we completed a Phase 2a dose escalation clinical trial of oral 4-MP with ethanol in ALDH2 deficient patients. The study results demonstrated that the active ingredient in Convivia significantly reduced heart palpitations (tachycardia), which are commonly experienced by ALDH2 deficient people who drink, at all dose levels tested. The study also found that the 4-MP significantly reduced peak acetaldehyde levels and total acetaldehyde exposure in a subset of the study participants who possess specific genetic variants of the liver ADH and ALDH2 enzymes. We believe that this subset represents approximately one-third of East Asian populations.

In June 2010, we entered into an exclusive agreement with Uni Pharma Co., Ltd., or Uni Pharma, to commercialize Convivia in Taiwan. Under terms of the agreement, we will grant to Uni Pharma an exclusive license under all relevant patent applications, trademarks and future patents controlled by us to market Convivia in Taiwan. Uni Pharma will register Convivia for drug licensure for existing indications and will conduct a clinical trial and register Convivia for acetaldehyde toxicity resulting from ALDH2 deficiency. Uni Pharma will be responsible for marketing and sales activities for the commercialization of Convivia in Taiwan. We continue to seek potential partners in other Asian countries to continue clinical development of Convivia in those countries.

Tezampanel for Anti-Platelet Therapy

Thrombosis is a major cause of morbidity and mortality in the U.S. In addition to deep vein thrombosis and pulmonary embolus, thrombotic mechanisms predominate as the basis for both heart attack and stroke. During thrombosis, platelets become activated, a process involving a cascade of signaling factors, ultimately leading to aggregation and the formation of a solid mass, the thrombus, within blood vessels.

In addition to such well-known platelet signaling molecules as thromboxane A2 (blocked by aspirin) and adenosine diphosphate (blocked by Plavix®), research conducted at Johns Hopkins University, or JHU, by Dr. Craig Morrell and Dr. Charles Lowenstein demonstrated the importance of glutamate release in promoting platelet activation and thrombosis. This research showed that platelets treated with an AMPA/kainate receptor antagonist such as tezampanel are more resistant to glutamate-induced aggregation than untreated platelets. Glutamate release by a platelet acts to stimulate release of glutamate from other platelets, potentiating aggregation and the formation of the thrombus. Released glutamate acts by binding cell surface glutamate receptors expressed on platelets themselves. One particular type of the glutamate receptor is important in platelet activation, the AMPA receptor. Compounds that specifically activate the AMPA receptor can increase platelet activation. Conversely, compounds that inhibit the AMPA receptor decrease platelet activation.

This identifies the AMPA/kainate receptors on platelets targeted by tezampanel as a new antithrombotic target with a different mechanism of action than Plavix®, aspirin or tPA. Tezampanel is a molecule developed by Eli Lilly and licensed to us. Tezampanel has been shown to inhibit human platelet activation, subsequent human platelet aggregation, and thrombosis in mice. The inventors of this novel technology are Dr. Lowenstein and Dr. Morrell, currently at the University of Rochester in New York. The use of glutamate receptor antagonists as anti-platelet agents is covered by PCT/US08/00559, assigned to JHU and exclusively licensed to us.

Tezampanel has been extensively tested in Phase 1 clinical trials for safety in various indications. The drug candidate has been demonstrated to be safe over a wide range of doses, without any serious adverse events and without any major abnormal laboratory tests. Human pharmacokinetics of tezampanel are well characterized.

In collaboration with Dr. Lowenstein and Dr. Morrell, we are preparing to conduct a Phase 1 clinical trial in healthy volunteers to determine the efficacy of tezampanel in blocking platelet activation and aggregation. We anticipate this early-stage trial to commence in the second quarter of calendar 2012.

Table of Contents

Preclinical Product Candidates

We are also developing a drug-targeting platform based on the proprietary use of RAP and Mesd for the potential treatment of breast cancer. We believe that these proteins may have therapeutic applications in cancer, infectious diseases and neurodegenerative diseases, among others. We are currently seeking to out-license these programs.

HepTide for Hepatocellular Carcinoma or HCC and Other Liver Diseases

HepTide is a RAP peptide designed to potentially increase liver specific targeting and thereby, potentially diminish non-target tissue toxicity and increase the efficacy of therapeutic delivery to treat liver diseases. We are evaluating conjugates between HepTide and other molecules for testing in vitro and in appropriate preclinical models for the potential treatment of HCC and other liver diseases.

NeuroTrans for the Potential Treatment of Diseases Affecting the Brain

NeuroTrans is our proprietary RAP-based technology program to research the delivery of therapeutics across the blood-brain barrier. We believe our NeuroTrans platform may provide therapies that will be safer, less intrusive and more effective than current approaches in treating a wide variety of brain disorders. We are currently reviewing potential out-licensing opportunities for NeuroTrans and continue to maintain the program's intellectual property portfolio.

WntTide for the Potential Treatment of Cancer

WntTide is our proprietary, Mesd-based peptide that we are developing as a potential therapeutic to inhibit the growth and metastasis of tumors over-expressing LRP5 or LRP6. We have licensed the use of Mesd from Washington University for the potential treatment of cancer and bone density disorders. We are currently evaluating WntTide in a preclinical breast cancer model to inhibit the Wnt-signaling pathway designed to block cancers dependent upon signaling through LRP6, as well as other IND enabling studies.

Other Development Areas

Securing Additional and Complementary Technology Licenses from Others

We plan to establish additional research collaborations with prominent universities and research labs currently working on the development of potential targeting molecules and other potential clinical applications of cysteamine bitartrate, and to secure licenses from these universities and labs for technology resulting from the collaboration. No assurances can be made regarding our ability to establish such collaborations over the next 12 months, or at all. We intend to focus our in-licensing and product candidate acquisition activities on identifying complementary therapeutics, therapeutic platforms that offer a number of therapeutic targets, and clinical-stage therapeutics based on existing approved drugs in order to create proprietary reformulations to improve safety and efficacy or to expand such drugs' clinical indications through additional clinical trials. We may obtain these products through licenses, collaborations, joint ventures or through merger and/or acquisitions with other biotechnology companies.

Strategic Acquisitions

Reverse Merger with Raptor Pharmaceuticals Corp.

In July 2009, we, and our then wholly-owned subsidiary ECP Acquisition, Inc., a Delaware corporation, or merger sub, entered into an Agreement and Plan of Merger and Reorganization, or the 2009 Merger Agreement, with Raptor Pharmaceuticals Corp., a Delaware corporation (which merged with us on December 7, 2011). On September 29, 2009, on the terms and subject to the conditions set forth in the 2009 Merger Agreement, merger sub was merged with and into Raptor Pharmaceuticals Corp. and Raptor Pharmaceuticals Corp. survived such merger as our wholly-owned subsidiary. This merger is referred to herein as the 2009 Merger. Immediately prior to the 2009 Merger and in connection therewith, we effected a 1-for-17 reverse stock split of our common stock and changed our corporate name to Raptor Pharmaceutical Corp.

As of immediately following the effective time of the 2009 Merger, Raptor Pharmaceuticals Corp.'s stockholders (as of immediately prior to such 2009 Merger) owned approximately 95% of our outstanding common stock and our stockholders owned approximately 5% of our outstanding common stock, in each case without taking into account any of our or Raptor Pharmaceuticals Corp.'s shares of common stock, respectively, that were issuable pursuant to outstanding options or warrants of ours or Raptor Pharmaceuticals Corp., respectively, outstanding as of the effective time of the 2009 Merger. Although Raptor Pharmaceuticals Corp. became our wholly-owned subsidiary, Raptor Pharmaceuticals Corp. was the

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

accounting acquirer in the 2009 Merger and its Board of Directors and officers manage and operate the combined company. Our common stock currently trades on the NASDAQ Capital Market under the ticker symbol, RTP.

Purchase of RP103/RP104

In December 2007, prior to the 2009 Merger, through a merger between Encode Pharmaceuticals, Inc., or Encode, and Raptor Therapeutics, Raptor Pharmaceuticals Corp. purchased certain assets, including the clinical development and commercial rights to RP103/RP104. Under the terms of and subject to the conditions set forth in the merger agreement, Raptor Pharmaceuticals Corp. issued 802,946 shares of its common stock to the stockholders of Encode, or Encode Stockholders, options, or Encode Options, to purchase up to, in the aggregate, 83,325 shares of its common stock to the optionholders of Encode, or Encode Optionholders, and warrants, or Encode Warrants, to purchase up to, in the aggregate, 256,034 shares of its common stock to the warrantholders of Encode, or Encode Warrantholders, and together with the Encode Stockholders and Encode Optionholders, referred to herein collectively as the Encode Securityholders, as of the date of such agreement. The Encode Securityholders are eligible to receive up to an additional 559,496 shares of our common stock, Encode Options and Encode Warrants to purchase our common stock in the aggregate based on certain triggering events related to regulatory approval of RP103/RP104, an Encode product program, if completed within the five year anniversary date of the merger agreement.

As a result of the Encode merger, we received the exclusive worldwide license to RP103/RP104, referred to herein as the License Agreement, developed by clinical scientists at the UCSD School of Medicine. In consideration of the grant of the license, we are obligated to pay an annual maintenance fee of \$15,000 until we begin commercial sales of any products developed pursuant to the License Agreement. In addition to the maintenance fee, we are obligated to pay during the life of the License Agreement: milestone payments ranging from \$20,000 to \$750,000 for orphan indications and from \$80,000 to \$1,500,000 for non-orphan indications upon the occurrence of certain events, if ever; royalties on commercial net sales from products developed pursuant to the License Agreement ranging from 1.75% to 5.5%; a percentage of sublicense fees ranging from 25% to 50%; a percentage of sublicense royalties; and a minimum annual royalty commencing the year we begin commercially selling any products pursuant to the License Agreement, if ever. Under the License Agreement, we are obligated to fulfill predetermined milestones within a specified number of years ranging from 0.75 to 6 years from the effective date of the License Agreement, depending on the indication. In addition, we are obligated, among other things, to spend annually at least \$200,000 for the development of products (which we satisfied as of August 31, 2011, 2010 and 2009 by spending approximately \$11.3 million, \$6.2 million and \$4.1 million, respectively, on such programs) pursuant to the License Agreement. To date, we have paid \$680,000 in milestone payments to UCSD based upon the initiation of clinical trials in cystinosis, HD and in NASH.

Subsequent to quarter end, we filed our Marketing Authorization Application, or MAA, with the European Medicines Agency for RP103 for the potential treatment of cystinosis, a milestone in which we will pay \$250,000 to UCSD pursuant to this license.

To the extent that we fail to perform any of our obligations under the License Agreement, UCSD may terminate the license or otherwise cause the license to become non-exclusive.

Table of Contents

Application of Critical Accounting Policies

Our condensed consolidated financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles used in the U.S. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our condensed consolidated financial statements is critical to an understanding of our consolidated financial position.

We believe the following critical accounting policies require us to make significant judgments and estimates in the preparation of our condensed consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires our management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the dates of our condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Functional Currency

Our consolidated functional currency is the U.S. dollar. Raptor Pharmaceuticals Europe B.V., or BV, our European subsidiary, uses the European Euro as its functional currency. At quarter end, BV's balance sheet is translated into U.S. dollars based upon the quarter end exchange rate, while its statement of operations is translated into U.S. dollars based upon an average of the Euro's value between the beginning and end date of the reporting period. BV's equity is adjusted for any translation gain or loss.

Fair Value of Financial Instruments

The carrying amounts of certain of our financial instruments including cash and cash equivalents, restricted cash, prepaid expenses, accounts payable, accrued liabilities and capital lease liability approximate fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in our condensed consolidated financial statements. The warrant liability is carried at fair value which is determined using the Black-Scholes option valuation model at the end of each reporting period.

Cash and Cash Equivalents

We consider all highly liquid investments with original maturities of three months or less, when purchased, to be cash equivalents. We maintain cash and cash equivalents, which consist principally of money market funds with high credit quality financial institutions. Such amounts exceed Federal Deposit Insurance Corporation insurance limits. Restricted cash represents compensating balances required by the Company's U.S. and European banks as collateral for credit cards.

Short-term Investments

We invest in short-term investments in high credit-quality funds in order to obtain higher yields on our idle cash. Such investments are not insured by the Federal Deposit Insurance Corporation. We completed an evaluation of our investments and determined that we did not have any other-than-temporary impairments as of February 29, 2012. The investments are placed in financial institutions with strong credit ratings and management expects full recovery of the carrying amounts.

Deferred Offering Costs

Deferred offering costs represent expenses incurred to raise equity capital related to financing transactions which have not yet been completed as of the balance sheet dates.

Intangible Assets

Intangible assets include the intellectual property and other rights relating to DR Cysteamine (currently developed as RP103 and RP104), to an out-license acquired in the 2009 Merger and the rights to tezampanel. The intangible assets related to RP103/RP104 are being amortized using

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

the straight-line method over the estimated useful life of 20 years, which is the life of the intellectual property patents. The 20-year estimated useful life is also based upon the typical development, approval, marketing and life cycle management timelines of pharmaceutical drug products. The intangible assets related to the out-license will be amortized using the straight-line method over the estimated useful life of 16 years, which is the life of the intellectual property patents. The intangible assets related to tezampanel, which has been classified as in-process research and development, will not be amortized until development is completed, but will be tested annually for impairment.

-43-

Table of Contents

Goodwill

Goodwill represents the excess of the value of the purchase consideration over the identifiable assets acquired in the 2009 Merger. Goodwill is reviewed annually, or when an indication of impairment exists, to determine if any impairment analysis and resulting write-down in valuation is necessary.

Fixed Assets

Fixed assets, which mainly consist of leasehold improvements, lab equipment, computer hardware and software and capital lease equipment, are stated at cost. Depreciation is computed using the straight-line method over the related estimated useful lives, except for leasehold improvements and capital lease equipment, which are depreciated over the shorter of the useful life of the asset or the lease term. Significant additions and improvements that have useful lives estimated at greater than one year are capitalized, while repairs and maintenance are charged to expense as incurred.

Impairment of Long-Lived Assets

We evaluate our long-lived assets for indicators of possible impairment by comparison of the carrying amounts to future net undiscounted cash flows expected to be generated by such assets when events or changes in circumstances indicate the carrying amount of an asset may not be recoverable. Should an impairment exist, the impairment loss would be measured based on the excess carrying value of the asset over the asset's fair value or discounted estimates of future cash flows. We have not identified any such impairment losses to date.

Common Stock Warrant Liabilities

The warrants issued by us in the 2010 private placement contain a cash-out provision, which may be triggered upon request by the warrant holders if we are acquired or upon the occurrence of certain other fundamental transactions involving us. This provision requires these warrants to be classified as liabilities and to be marked to market at each period end commencing on August 31, 2010. The warrants issued by us in our December 2009 equity financing contain a conditional obligation that may require us to transfer assets to repurchase the warrants upon the occurrence of potential future events. Under the Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, Topic 480, *Distinguishing Liabilities from Equity*, a financial instrument that may require the issuer to settle the obligation by transferring assets is classified as a liability. Therefore, we have classified the warrants as liabilities and will mark them to fair value at each period end. The common stock warrants are re-measured at the end of every reporting period with the change in value reported in our condensed consolidated statements of comprehensive loss. Warrants which are recorded as liabilities that are exercised are re-measured and marked to market the day prior to exercise. Upon exercise of such warrants, the fair value of such warrants is reclassified to equity.

Income Taxes

Income taxes are recorded under the liability method, under which deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

Research and Development

We are a development stage biotechnology company. Research and development costs are charged to expense as incurred. Research and development expenses include medical, clinical, regulatory and scientists' salaries and benefits, lab collaborations, preclinical studies, clinical trials, clinical trial materials, commercial manufacturing costs prior to drug approval, regulatory and clinical consultants, lab supplies, lab services, lab equipment maintenance and small equipment purchased to support the research laboratory, amortization of intangible assets and allocated executive, human resources and facilities expenses. Research and development expenses are offset by contra-expenses, which are reimbursements of research and development expenses received either from research collaborators or from government grants or tax rebates.

Table of Contents

In-Process Research and Development

Prior to September 1, 2009, we recorded in-process research and development expense for a product candidate acquisition where there is not more than one potential product or usage for the assets being acquired. Upon the adoption of the revised guidance on business combinations, effective September 1, 2009, the fair value of acquired in-process research and development is capitalized and tested for impairment at least annually. Upon completion of the research and development activities, the intangible asset is amortized into earnings over the related product's useful life. In-process research and development that is amortized or expensed is recorded as part of research and development expenses on our statements of comprehensive loss. We review each product candidate acquisition to determine the existence of in-process research and development.

Comprehensive Loss

Components of comprehensive loss are reported in our condensed consolidated statements of comprehensive loss in the period in which they are recognized. The components of comprehensive loss include net loss and foreign currency translation adjustments.

Stock-Based Compensation

In February 2010, our Board of Directors approved, and in March 2010 our stockholders approved, our 2010 Equity Incentive Plan, or the 2010 Plan, to grant up to an aggregate of 3,000,000 stock options or restricted stock or restricted stock units over the ten year life of the 2010 Plan. Our Board of Directors has determined not to make any new grants under any of our former plans, but rather under the 2010 Plan. The 2010 Plan's term is ten years and allows for the granting of options to employees, directors and consultants. On April 7, 2011, our stockholders passed amendments to the 2010 Plan which allow for an increase of the grant pool based upon 5% of our common stock outstanding as of April 7, 2011, August 31, 2011 and August 31, 2012 up to an aggregate maximum increase of 6,000,000 shares. The April 7, 2011 and August 31, 2011 increases added 1,629,516 and 1,778,459 shares, respectively, available for grant under the 2010 Plan. As of February 29, 2012, options to purchase 5,841,848 shares of our common stock were outstanding and 1,563,508 shares of our common stock remain available for future issuance under the 2010 Plan. The amendments also allow for 50% accelerated vesting of unvested stock options upon a change of control as defined in the 2010 Plan, as amended. In September 2011, our Board of Directors approved an amended and restated form of award agreement to the 2010 Plan, which will be used for awards granted on or after September 22, 2011. The amended and restated award agreement, subject to the terms of any applicable employment agreement, extends the termination date of the awards granted under the 2010 Plan that are vested as of such termination date due to (a) an employee's or a non-employee director's retirement at age 62 or older which employee or non-employee director has at least five (5) years of continuous service with us prior to such retirement, (b) the termination of a non-employee director's board membership for reasons other than for cause or retirement and (c) an employee's or a non-employee director's death (during his or her continuous service with us or within 90 days of such continuous service with us) or permanent disability, to eighteen (18) months from the date of termination of continuous service with us.

In May 2006, Raptor Pharmaceuticals Corp.'s stockholders approved the 2006 Equity Compensation Plan, as amended, referred to herein as the 2006 Plan. The 2006 Plan's term is ten years and allows for the granting of options to employees, directors and consultants. Effective as of the effective time of the 2009 Merger, we assumed the outstanding stock options of Raptor Pharmaceuticals Corp. granted under the 2006 Plan. Such assumed options are subject to the terms of the 2006 Plan and, in each case, are also subject to the terms and conditions of an incentive stock option agreement, non-qualified stock option agreement or other option award, as the case may be, issued under such 2006 Plan. Prior to the 2009 Merger, and subject to the 2009 Merger becoming effective, our Board of Directors adopted the 2006 Plan such that the 2006 Plan became an equity incentive plan of ours after the 2009 Merger. Typical option grants under the 2010 and 2006 Plans are for ten years with exercise prices at or above market price based on the last closing price as of the date prior to the grant date on the relevant stock market or exchange and vest over four years as follows: 6/48ths on the six month anniversary of the date of grant; and 1/48th per month thereafter.

Effective September 1, 2006, our stock-based compensation is accounted for in accordance with ASC Topic 718, *Accounting for Compensation Arrangements*, or ASC Topic 718 (previously listed as Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment*, or SFAS 123(R)), and related interpretations. Under the fair value recognition provisions of this statement, share-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the vesting period. Determining the fair value of share-based awards at the grant date requires judgment, including estimating future stock price volatility and employee stock option exercise behavior. If actual results differ significantly from these estimates, stock-based compensation expense and results of operations could be materially impacted.

In March 2005, the FASB issued ASC Topic 718 (previously listed as Staff Accounting Bulletin No. 107), which offers guidance for what was previously referred to as SFAS 123(R). ASC Topic 718 was issued to assist preparers by simplifying some of the implementation challenges of SFAS 123(R) while enhancing the information that investors receive. ASC Topic 718 creates a framework that is premised on two overarching themes: (a) considerable judgment will be required by preparers to successfully implement SFAS 123(R), specifically when valuing employee

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

stock options; and (b) reasonable individuals, acting in good faith, may conclude differently on the fair value of employee stock options. Key topics covered by ASC Topic 718 include valuation models, expected volatility and expected term.

Table of Contents

For the three month period ended February 29, 2012, stock-based compensation expense was based on the Black-Scholes option-pricing model assuming the following: risk-free interest rate of 1.12%; 5 year expected life; 122.38% volatility; 2.5% turnover rate; and 0% dividend rate.

We based our Black-Scholes inputs on the following factors: the risk-free interest rate was based upon our review of current constant maturity treasury bill rates for seven and five years (average); the expected life of five years was based upon our assessment of the ten-year term of the stock options issued along with the fact that we are a development-stage company and our anticipation that option holders will exercise stock options when we are at a more mature stage of development; the volatility was based on the actual volatility of our common stock price as quoted on NASDAQ since the closing of our 2009 Merger on September 30, 2009; the turnover rate was based on our assessment of our historical employee turnover; and the dividend rate was based on our current decision to not pay dividends on our stock at our current development stage. If factors change and different assumptions are employed in the application of ASC Topic 718, the compensation expense recorded in future periods may differ significantly from what was recorded in the current period. See Note 7 of our condensed consolidated financial statements for a further discussion of our accounting for stock based compensation.

We recognize as consulting expense the fair value of options granted to persons who are neither employees nor directors. Stock options issued to consultants are accounted for in accordance with the provisions of the FASB ASC Topic 505-50, *Equity-Based Payments to Non-Employees* (previously listed as Emerging Issues Task Force, or EITF, Consensus No. 96-18, *Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling Goods or Services*). The fair value of expensed options is based on the Black-Scholes option-pricing model assuming the same factors as stock-based compensation expense discussed above.

Table of Contents**Results of Operations***Three months ended February 29, 2012 and February 28, 2011****General and Administrative Expenses***

General and administrative expenses include finance and executive compensation and benefits for personnel performing pre-commercial and administrative expenses, pre-commercial expenses, such as reimbursement and marketing studies, corporate costs, such as legal and auditing fees, business development expenses, travel, board of director fees and expenses, investor relations expenses, intellectual property costs associated with filed (but not issued) patents, administrative consulting and allocated human resources and facilities costs. General and administrative expenses for the three-month period ended February 29, 2012 increased by approximately \$1.3 million compared to the prior year's second fiscal quarter. The increase was primarily due to:

Reason for increase (decrease)	Increase (decrease) in \$ thousands
Expenses not in Q2 FY2011:	
Commercial operations requirements RP103 for cystinosis:	
Pre-commercial consulting services	117
Tax study and advisory fees related to EU headquarters	183
Estimated Q2 accrual for annual performance bonus based on assessment of performance to date	60
Salary and benefit increases and new personnel especially related to commercial operations	239
Stock option grants, employees and directors (non-cash)	647
Board expansion from 5 to 8 members, retainer fees and expenses	65
Higher NASDAQ fees and Delaware taxes due to increase in shares outstanding and market capitalization	114
Increased executive and human resource costs allocated to R&D due to higher headcount	(188)
Other, net	89
Total increase Q2 FY2012 versus Q2 FY 2011	1,326

Table of Contents***Research and Development***

Research and development expenses include medical, clinical, regulatory and scientists' compensation and benefits, lab collaborations, preclinical studies, clinical trials, clinical trial materials, commercial drug manufacturing costs prior to marketing approval, regulatory and clinical consultants, lab supplies, lab services, lab equipment maintenance and small equipment purchased to support the research laboratory, amortization of intangible assets and allocated executive, human resources and facilities expenses. Research and development expenses for the three month period ended February 29, 2012 increased by approximately \$300,000 over the prior year's second fiscal quarter primarily due to:

Reason for increase (decrease)	Increase (decrease) in \$ thousands
Reduction in tax rebate	158
Increased executive and human resource costs allocated to R&D due to higher headcount	188
Compensation	
Salary increases and new hire salaries	112
Stock option grants, employees (non-cash)	151
Estimated Q2 accrual for annual performance bonus based on assessment of performance to-date	50
Regulatory consulting for NDA/MAA preparation	62
Reduction in Phase 3 cystinosis trial expense partially offset by extension study	(439)
Other, net	20
Total increase Q2 FY2012 versus Q2 FY 2011	302

Research and development expenses include the following: (in \$ millions)

Major Program (stage of development)	Three month periods ended	
	February 29, 2012	February 28, 2011
RP103/RP104 All indications (clinical/pre-commercial)	2.7	3.0
Preclinical programs		(0.2)
Minor or inactive programs		0.1
R & D personnel and other costs not allocated to programs	1.3	0.8
Total research & development expenses	4.0	3.7

Table of Contents**Major Program expenses recorded as general and administrative expenses: (in \$ millions)**

Major Program (stage of development)	Three month periods ended	
	February 29, 2012	February 28, 2011
RP103/RP104 All indications (clinical and pre-commercial)	0.3	0.06
Convivia (clinical)		0.03
Preclinical programs	0.0	0.05

Additional major program expenses include patent fees and patent expenses which were recorded as general and administrative expenses as these fees are to support patent applications (not issued patents) and expenses related to the preparation for commercial launch of RP103 for the treatment of cystinosis (approximately \$170,000, \$388,000 and \$858,000 for the three and six month periods ended February 29, 2012 and the cumulative period from September 8, 2006 (inception) to February 29, 2012, respectively).

Any of our major programs could be partnered for further development and/or could be accelerated, slowed or ceased due to scientific results or challenges in obtaining funding. We anticipate that we will need additional funding in order to pursue our plans beyond the first calendar quarter of 2013. In addition, the timing and costs of development of our programs beyond the next 12 months are highly uncertain and difficult to estimate. See risks and other factors described under the section captioned **Risk Factors That May Affect Future Results** in Part II, Item 1A of this Quarterly Report on Form 10-Q.

Current Status of Major Programs

Please refer to the subsection titled **Future Activities** under this **Management's Discussion and Analysis of Financial Condition and Results of Operations** section of this Quarterly Report on Form 10-Q for a detailed discussion of each of our major programs. In summary, RP103/RP104 is being developed in cystinosis, NASH and HD. In July 2011, we announced that our Phase 3 clinical trial of RP103 for the treatment of cystinosis met its sole primary clinical endpoint and in November 2009, we released data from our Phase 2b clinical trial. In March 2012, we filed for marketing approval of RP103 for cystinosis in both the U.S. and in the E.U. and have begun commercial planning in anticipation of drug launch. In May 2010, we presented the data from our NASH Phase 2a clinical trial and have signed a collaborative agreement with the NIH for a Phase 2b clinical trial anticipated to commence early in the second quarter of calendar 2012. We continue to work on the formulation of RP104 as a delayed-released compressed tablet of cysteamine bitartrate for future studies. In October 2010, our collaborator commenced a Phase 2a clinical trial of RP103 in HD patients and we anticipate full enrollment in the second quarter of calendar 2012 with potential data in the first half of calendar 2014.

Our Convivia product candidate completed its initial clinical study in 2008 and in June 2010, we licensed Convivia to Uni Pharma for further clinical development in Taiwan. We continue to seek other potential partners for Convivia in other Asian countries where its potential market exists.

We are preparing for a Phase 1 clinical trial for the potential treatment of thrombotic disorder but plan to eventually out-license our tezampanel product candidate. HepTide will be undergoing further preclinical proof of concept studies and WntTide and NeuroTrans are being considered for potential out-licensing for further development. All preclinical product candidates will require further study prior to moving into a clinical phase of development.

Interest Income

Interest income for the three-month periods ended February 29, 2012 and February 28, 2011 was approximately \$107,000 and \$12,000, respectively.

Interest Expense

Interest expense for the three-month periods ended February 29, 2012 and February 28, 2011 was nominal.

Foreign Currency Transaction Loss

Foreign currency transaction gain (loss) for the three-month periods ended February 29, 2012 and February 28, 2011 was nominal.

Unrealized Loss on Cash Equivalents

Unrealized loss on short-term investments represents the change in net asset value of the Company's two short-term bond funds. The unrealized loss on short-term investments for the three-month periods ended February 29, 2012 and February 28, 2011 was nominal.

Table of Contents***Adjustment to the Fair Value of Common Stock Warrants***

Adjustment to the fair value of common stock warrants was a loss of approximately \$(7.8) million for the three month period ended February 29, 2012 compared to a gain of approximately \$1.8 million for the three month period ended February 28, 2011, representing an increase of approximately \$9.6 million resulting from a higher increase in stock price of our common stock during the three months ended February 29, 2012 compared to the three months ended February 28, 2011. These losses are non-cash.

Six months ended February 29, 2012 and February 28, 2011***General and Administrative Expenses***

General and administrative expenses include finance and executive compensation and benefits for personnel performing pre-commercial and administrative expenses, pre-commercial expenses, such as reimbursement and marketing studies, corporate costs, such as legal and auditing fees, business development expenses, travel, Board of Director fees and expenses, investor relations expenses, intellectual property costs associated with filed (but not issued) patents, administrative consulting and allocated human resources and facilities costs. General and administrative expenses for the six-month period ended February 29, 2012 increased by approximately \$2.0 million compared to the same period of the prior year. The increase was primarily due to:

Reason for increase (decrease)	Increase (decrease) in \$ thousands
Expenses not in Q2 FY2011:	
Investor relations, research coverage and financial advisory fees	296
Commercial operations requirements RP103 for cystinosis:	
Pre-commercial consulting services	233
Tax study and advisory fees related to EU headquarters	156
Estimated Q2 YTD accrual for annual performance bonus based on assessment of performance to date	130
Audit fee increase primarily due to internal control attestation in FY2011 audit	102
Salary and benefit increases and new personnel especially related to commercial operations	388
Stock option grants, employees and directors (non-cash)	701
Board expansion from 5 to 8 members, retainer fees and expenses	116
Higher NASDAQ fees and Delaware taxes due to increase in shares outstanding and market capitalization	132
Increased executive and human resource costs allocated to R&D due to higher headcount	(335)
Other, net	37
Total increase YTD FY2012 versus YTD FY 2011	1,956

Research and development expenses include the following: (in \$ millions)

Research and Development

Research and development expenses include medical, clinical, regulatory and scientists' compensation and benefits, lab collaborations, preclinical studies, clinical trials, clinical trial materials, commercial drug manufacturing costs prior to marketing approval, regulatory and clinical consultants, lab supplies, lab services, lab equipment maintenance and small equipment purchased to support the research laboratory, amortization of intangible assets and allocated executive, human resources and facilities expenses. Research and development expenses for the six month period ended February 29, 2012 increased by approximately \$2.6 million over the same period of the prior year primarily due to:

Reason for increase (decrease)	Increase (decrease) in \$ thousands
Increased product manufacture of RP103 and RP104 for cystinosis, HD, NASH	1,470
Reduction in tax rebate	704
Increased executive and human resource costs allocated to R&D due to higher headcount	335
Compensation	
Salary increases and new hire salaries	188
Stock option grants, employees (non-cash)	140
Estimated Q2 YTD accrual for annual performance bonus based on assessment of performance to-date	100
Reagents for preclinical studies	57
Reduction in Phase 3 cystinosis trial expense partially offset by extension study	(466)
Other, net	95
Total increase YTD FY2012 versus YTD FY 2011	2,623

Research and development expenses include the following: (in \$ millions)

	Cumulative through February 29, 2012	Six month periods ended	
Major Program (stage of development)		February 29, 2012	February 28, 2011
RP103/RP104 All indications (clinical/pre-commercial)	28.3	6.5	4.6
Convivia (clinical)	2.5		0.1
Preclinical programs	2.5		(0.2)
Minor or inactive programs	1.1		0.2
R & D personnel and other costs not allocated to programs	13.9	2.5	1.7
Total research & development expenses	48.3	9.0	6.4

Major Program expenses recorded as general and administrative expenses: (in \$ millions)

	Cumulative through February 29, 2012	Six month periods ended	
Major Program (stage of development)		February 29, 2012	February 28, 2011
RP103/RP104 All indications (clinical and pre-commercial)	1.73	0.60	0.16
Convivia (clinical)	0.27		0.09
Preclinical programs	0.78	0.01	0.07

Edgar Filing: ALABAMA NATIONAL BANCORPORATION - Form 424B5

Additional major program expenses include patent fees and patent expenses which were recorded as general and administrative expenses as these fees are to support patent applications (not issued patents) and expenses related to the preparation for commercial launch of RP103 for the treatment of cystinosis.

-51-

Table of Contents

Any of our major programs could be partnered for further development and/or could be accelerated, slowed or ceased due to scientific results or challenges in obtaining funding. We anticipate that we will need additional funding in order to pursue our plans beyond the first calendar quarter of 2013. In addition, the timing and costs of development of our programs beyond the next 12 months are uncertain and difficult to estimate. See risks and other factors described under the section captioned "Risk Factors That May Affect Future Results" in Part II, Item 1A of this Quarterly Report on Form 10-Q.

Interest Income

Interest income increased by \$152,360 for the six months ended February 29, 2012 compared to the same period of the prior fiscal year due to the purchase of short-term investments in October 2011.

Interest Expense

Interest expense for the six months ended February 29, 2012 and February 28, 2011 was nominal.

Foreign Currency Transaction Loss

Foreign currency transaction gain for the six months ended February 29, 2012 and February 28, 2011 was nominal.

Adjustment to the Fair Value of Common Stock Warrants

Adjustment to the fair value of common stock warrants was a loss of approximately \$(12.0) million for the six months ended February 29, 2012 compared to a loss of approximately \$(3.9) million for the six months ended February 28, 2011, an increase in loss of approximately \$15.9 million resulting from a higher increase in stock price of our common stock during the six months ended February 29, 2012 compared to the six months ended February 28, 2011. These losses are non-cash.

Table of Contents

Liquidity and Capital Resources

Capital Resource Requirements

As of February 29, 2012, we had approximately \$50.1 million in cash, cash equivalents, restricted cash and short-term investments, approximately \$30.1 million in current liabilities (of which \$26.6 million represented the non-cash common stock warrant liability) and approximately \$22.4 million of net working capital.

We believe our cash and cash equivalents as of February 29, 2012 will be sufficient to meet our obligations through the first calendar quarter of 2013.

Our recurring losses from operations raise substantial doubt about our ability to continue as a going concern and, as a result, our independent registered public accounting firm included an explanatory paragraph in its report on our consolidated financial statements for the year ended August 31, 2011 with respect to this uncertainty. We may need to generate significant revenue or raise additional capital to continue to operate as a going concern beyond the first calendar quarter of 2013. In addition, the perception that we may not be able to continue as a going concern may cause others to choose not to deal with us due to concerns about our ability to meet our contractual obligations and may adversely affect our ability to raise additional capital.

The sale of additional securities is likely to result in additional dilution to our stockholders. Additional financing may not be available when needed in amounts or on terms satisfactory to us or at all. We may be unable to raise additional financing due to a variety of factors, including our financial condition, the status of our research and development programs, and the general condition of the financial markets. If we fail to raise additional financing when needed, we may have to delay or terminate some or all of our research and development programs, our financial condition and operating results may be adversely affected and we may have to scale back our operations.

In December 2009, we entered into a definitive securities purchase agreement, or the Direct Offering Purchase Agreement, dated as of December 17, 2009, with 33 investors (collectively, the Direct Offering Investors) with respect to the sale of units, whereby, on an aggregate basis, the investors agreed to purchase 3,747,558 Units for a negotiated purchase price of \$2.00 per unit for aggregate gross proceeds of approximately \$7.5 million. Each unit consists of one share of our common stock, one Series A Warrant exercisable for 0.5 of a share of our common stock and one Series B Warrant exercisable for 0.5 of a share of our common stock. The shares of our common stock and the warrants were issued separately. The Series A Warrants exercisable for an aggregate 1,873,779 shares of our common stock were exercisable commencing on June 20, 2010 and ending December 22, 2014. The Series B Warrants exercisable for an aggregate 1,873,779 shares of our common stock were exercisable commencing on June 20, 2010 and ending June 22, 2011. The investor warrants have a per share exercise price of \$2.45. In connection with this offering we paid a placement agent cash compensation equal to 6.5% of the gross proceeds or \$487,183 plus a five-year warrant at an exercise price of \$2.50 per share for the purchase of up to 74,951 shares of our common stock. As of February 29, 2012, 1,055,029 shares of our common stock have been issued upon exercise of the Series A Warrants, 1,873,779 shares of our common stock have been issued upon exercise of the Series B Warrants and 74,951 shares of our common stock have been issued upon exercise of the placement agent warrants. As of February 29, 2012, Series A warrants to purchase up to 818,750 shares of our common stock were outstanding.

On August 9, 2010, we entered into the 2010 Private Placement Purchase Agreements with the 2010 Private Placement Investors for the private placement of our common stock and warrants to purchase our common stock, at a purchase price of \$3.075 per unit, with each unit comprised of one share of common stock and a warrant to purchase one share of common stock. We issued and sold an aggregate of 4,897,614 units, comprised of an aggregate of 4,897,614 shares of common stock and warrants to purchase up to 4,897,614 shares of our common stock for gross proceeds of approximately \$15.1 million. Each warrant, exercisable for 5 years from August 12, 2010, has an exercise price of \$3.075 per share. The placement agent for the 2010 Private Placement was issued one warrant to purchase 97,952 shares of our common stock at an exercise price of \$3.075 per share, paid a cash commission of \$978,911 and reimbursed for certain of its expenses incurred in connection with the 2010 Private Placement. As of February 29, 2012, 1,275,931 shares of our common stock have been issued upon exercise of the warrants. As of February 29, 2012, warrants to purchase up to 3,719,635 shares (including the placement agent warrants) of our common stock were outstanding.

On September 13, 2011, we closed an underwritten public offering of shares of our common stock at a price to the public of \$4.00 per share. The shares sold in the offering included 10.0 million shares of our common stock plus an additional 1.5 million shares of common stock pursuant to the exercise by the underwriters of the over-allotment option we granted to them. Total gross proceeds to us in the offering (including in connection with the sale of the shares of common stock pursuant to the exercise of the over-allotment option) were \$46.0 million, before underwriting discounts and commissions. The offering resulted in net proceeds to us of approximately \$42.8 million after deduction of underwriting discounts of 6% and other offering expenses payable by us.

Table of Contents

There can be no assurance that we will be able to obtain funds required for our continued operation. There can be no assurance that additional financing will be available to us or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain financing on a timely basis, we will not be able to meet our obligations as they become due and we will be forced to scale down or perhaps even cease the operation of our business. This also may be the case if we become insolvent or if we breach our asset purchase agreement with BioMarin, our licensing agreements with Washington University, UCSD, Yeda or the University of Arizona, or due to non-payment (and we do not cure our non-payment within the stated cure period). If this happens, we would lose all rights to the RAP technology assigned to us by BioMarin, the rights to Mesd licensed to us by Washington University, the rights to RP103 and RP104 licensed to us by UCSD, and the rights licensed to us by Yeda and University of Arizona, depending on which agreement is breached.

We anticipate that we will not be able to generate revenues from the sale of products until we further develop our drug product candidates and obtain the necessary regulatory approvals to market our future drug product candidates, which could take nine months or more for our first product candidate and several years or more for our other product candidates, if we are able to do so at all. Accordingly, our cash flow projections are subject to numerous contingencies and risk factors beyond our control, including successfully developing our drug product candidates, market acceptance of our drug product candidates, competition from well-funded competitors, and our ability to manage our expected growth. It is likely that for a couple of years, we will not be able to generate internal positive cash flow from the sales of our drug product candidates sufficient to meet our operating and capital expenditure requirements.

There is substantial doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining further long-term financing, the successful development of our drug product candidates and related technologies, the successful and sufficient market acceptance of any product offerings that we may introduce and, finally, the achievement of a profitable level of operations. The issuance of additional equity securities by us is likely to result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, including on acceptable terms, will increase our liabilities and future cash commitments.

Research and Development Activities

We plan to conduct further research and development, seek to support several clinical trials for RP103 and RP104, improve upon our RAP-based and in-licensed technology and continue business development efforts for our preclinical and other clinical-stage product candidates in the next 12 months. We plan to conduct research and development activities by our own laboratory staff and also by engaging contract research organizations, clinical research organizations and contract manufacturing organizations. We also plan to incur costs for the production of our clinical study drug candidates, RP103 and RP104 and for commercial production of RP103, clinical trials, clinical and medical advisors and consulting and collaboration fees. We anticipate that our research and development costs will increase during the next 12 months primarily due to the build-up of inventory of RP103 prior to marketing approval in anticipation of drug launch and the addition of our Phase 2 clinical trial in NASH.

General and Administrative Activities

General and administrative costs in the next 12 months will consist primarily of commercial and pre-commercial activities in anticipation of approval and launch of RP103 for cystinosis, legal and accounting fees, patent legal fees, investor relations expenses, board fees and expenses, insurance, rent and facility support expenses. We anticipate that general and administrative expenses will increase primarily due to the commercial and pre-commercial efforts required to prepare for the commercial launch of RP103 in cystinosis in both the U.S. and the E.U.

Officer and Employee Compensation

We presently have 18 full time employees and two part-time employees. Of the 18 full-time employees, 10 are in general and administrative (including 3 commercial employees) and 8 are in research and development functions. Based on our current plan, over the next 12 month period, we plan to add personnel in the areas of sales and marketing, regulatory, clinical, medical affairs and quality. We also plan to supplement our human resources needs through consultants and contractors as needed. We anticipate that our compensation expense will increase significantly during the next 12 months due to the addition of employees primarily in support of commercial operations in anticipation of launching RP103 for cystinosis in both the U.S. and the E.U. Officer and employee compensation is recorded on our condensed consolidated statements of comprehensive loss as either research and development expenses or general and administrative expenses based upon the functions served by the officers and employees.

Capital Expenditures

In the next 12 months, relatively minor capital expenditures will be made for lab equipment and office furniture.

Table of Contents

Contractual Obligations with Thomas E. Daley (assignee of the dissolved Convivia, Inc.)

Pursuant to the terms of the asset purchase agreement, or the Asset Purchase Agreement, that we entered into with Convivia, Inc. and Thomas E. Daley, pursuant to which we purchased intellectual property related to our 4-MP product candidate program known as Convivia™, Mr. Daley will be entitled to receive various payments in the form of our restricted common stock and cash, if at all, in such amounts and only to the extent certain future milestones are accomplished by us. See Note 10 Commitments and Contingencies for further details in our condensed consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q.

Contractual Obligations with Former Encode Securityholders

Pursuant to the terms of the merger agreement, or the Encode Merger Agreement, that we entered into with Encode Pharmaceuticals, Inc. and Nicholas Stergis in December 2007, former Encode securityholders will be entitled to receive the following, if at all, in such amounts and only to the extent certain future milestones are accomplished by us, as set forth below:

Restricted, unregistered common stock, stock options to purchase our common stock, and warrants to purchase our common stock in an amount equal to, in the aggregate, 116,562 shares of our common stock upon the receipt by it at any time prior to the fifth-year anniversary of the Encode Merger Agreement of approval to market and sell a product for the treatment of cystinosis predominantly based upon and derived from the assets acquired from Encode, or Cystinosis Product, from the applicable regulatory agency (e.g., FDA and European Agency for the Evaluation of European Medical Products, or EMA) in a given major market in the world.

Restricted, unregistered common stock, stock options to purchase our common stock, and warrants to purchase our common stock in an amount equal to 442,934 shares of our common stock upon the receipt by us at any time prior to the fifth anniversary of the Encode Merger Agreement of approval to market and sell a product, other than a Cystinosis Product, predominantly based upon and derived from the assets acquired from Encode, from the applicable regulatory agency (e.g., FDA and EMA) in a given major market in the world.

If within five years from the date of the Encode Merger Agreement, there occurs a transaction or series of related transactions that results in the sale of all or substantially all of the assets acquired from Encode other than to our affiliate in such case where such assets are valued at no less than \$2.5 million, the former Encode stockholders will be entitled to receive, in the aggregate, restricted, unregistered common stock, stock options to purchase our common stock, and warrants to purchase our common stock in an amount equal to 559,496 shares of common stock, less the aggregate of all milestone payments previously made or owing, if any.

To the extent that future milestones as described above are accomplished by us within five years from the effective time of the merger with Encode, we will be obligated to file a registration statement within 90 days covering such Encode stockholders' portion of such respective future restricted, unregistered common stock issued relating to such milestone payment.

Contractual Obligations with UCSD

As a result of the merger of Raptor Therapeutics Inc. and Encode, we received the exclusive worldwide license to RP103/RP104, or the License Agreement for use in the field of human therapeutics for metabolic and neurologic disorders, developed by clinical scientists at the UCSD, School of Medicine. RP103/RP104 is a proprietary, delayed-release, enteric-coated formulation of cysteamine bitartrate, a cystine depleting agent currently approved by the FDA. Cysteamine bitartrate is prescribed for the management of the genetic disorder known as cystinosis, a lysosomal storage disease. The active ingredient in RP103/RP104 has also demonstrated potential in studies as a treatment for other metabolic and neurodegenerative diseases, such as HD and NASH.

Table of Contents

In consideration of the grant of the license, prior to the merger, Encode paid an initial license fee and we are obligated to pay an annual maintenance fee of \$15,000 until we begin commercial sales of any products developed pursuant to the License Agreement. In addition to the maintenance fee, we are obligated to pay during the life of the License Agreement: milestone payments ranging from \$20,000 to \$750,000 for orphan indications and from \$80,000 to \$1,500,000 for non-orphan indications upon the occurrence of certain events, if ever; royalties on commercial net sales from products developed pursuant to the License Agreement ranging from 1.75% to 5.5%; a percentage of sublicense fees ranging from 25% to 50%; a percentage of sublicense royalties; and a minimum annual royalty commencing the year we begin commercially selling any products pursuant to the License Agreement, if ever. Under the License Agreement, we are obligated to fulfill predetermined milestones within a specified number of years ranging from 0.75 to 6 years from the effective date of the License Agreement, depending on the indication. In addition, we are obligated to, among other things, annually spend at least \$200,000 for the development of products which as of August 31, 2011, 2010 and 2009 we satisfied by spending approximately \$11.3 million, \$6.2 million and \$4.1 million, respectively, on such programs pursuant to the License Agreement. To date, we have paid \$680,000 in milestone payments to UCSD based upon the initiation of clinical trials in cystinosis and in NASH. In March 2012, we filed our MAA for RP103 for the potential treatment of cystinosis, a milestone in which we will pay \$250,000 to UCSD pursuant to this license. To the extent that we fail to perform any of our obligations under the License Agreement, UCSD may terminate the license or otherwise cause the license to become non-exclusive.

Off-Balance Sheet Arrangements

We do not have any outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency contracts. We do not engage in trading activities involving non-exchange traded contracts.

Reverse Acquisition

We have treated the 2009 Merger as a reverse acquisition and the reverse acquisition is accounted for as a recapitalization.

For accounting purposes, Raptor Pharmaceuticals Corp. is considered the accounting acquirer in the reverse acquisition. The historical financial statements reported in this Quarterly Report on Form 10-Q and in future periods are and will be those of Raptor Pharmaceuticals Corp. (merged into Raptor Pharmaceutical Corp. effective December 7, 2011) consolidated with its subsidiaries and with us, its parent, Raptor Pharmaceutical Corp. (formerly TorreyPines Therapeutics, Inc.). Earnings per share for periods prior to the reverse merger have been restated to reflect the number of equivalent shares received by former stockholders.

Going Concern

Due to the uncertainty of our ability to meet our current operating and capital expenses, in their reports on our audited financial statements for the years ended August 31, 2011, 2010, 2009, 2008, 2007 and for the period September 8, 2005 (inception) to August 31, 2006, our independent registered public accounting firm, Burr Pilger Mayer, Inc., included an explanatory paragraph regarding substantial doubt about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that led to this disclosure by our independent registered public accounting firm.

New Accounting Pronouncements

In December 2010, the FASB issued Accounting Standards Update (ASU) 2010-28, *Intangibles – Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts* (ASU 2010-28). ASU 2010-28 modifies Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts and requires the company to perform Step 2 if it is more likely than not that a goodwill impairment may exist. ASU 2010-28 is effective for fiscal years and interim periods within those years, beginning after December 15, 2010. Early adoption is not permitted. We adopted these standards on September 1, 2011 and have determined that ASU 2010-28 has no material impact on our condensed consolidated financial statements for the three and six month periods ended February 29, 2012, because there was no requirement to perform Step 2 due to our positive carrying amount.

In December 2010, the FASB issued ASU 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations* (ASU 2010-29). ASU 2010-29 is an update that addresses diversity in practice about the interpretation of the pro forma revenue and earnings disclosure requirements for business combinations if the entity presents comparative financial statements and expands the required disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. This standard is effective prospectively for business combinations for which the acquisition dates are on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. We adopted these standards on September 1, 2011, however since there were no business combinations during the three and six month periods ended February 29, 2012, ASU 2010-29 had no material impact on our financial disclosure,

however, the provision will impact the financial disclosures of any business combinations in the future.

In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 is intended to result in convergence between U.S. GAAP and International Financial Reporting Standards (IFRS) requirements for measurement of and disclosures about fair value. The amendments are not expected to have a significant impact on companies applying U.S.

Table of Contents

GAAP. Key provisions of the amendment include: a prohibition on grouping financial instruments for purposes of determining fair value, except when an entity manages market and credit risks on the basis of the entity's net exposure to the group; an extension of the prohibition against the use of a blockage factor to all fair value measurements (that prohibition currently applies only to financial instruments with quoted prices in active markets); and a requirement that for recurring Level 3 fair value measurements, entities disclose quantitative information about unobservable inputs, a description of the valuation process used and qualitative details about the sensitivity of the measurements. In addition, for items not carried at fair value but for which fair value is disclosed, entities will be required to disclose the level within the fair value hierarchy that applies to the fair value measurement disclosed. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011. We will adopt these standards on March 1, 2012 and are currently assessing the impact on our condensed consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income* (ASU 2011-05). ASU 2011-05 will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The standard does not change the items which must be reported in other comprehensive income, how such items are measured or when they must be reclassified to net income. This standard is effective for interim and annual periods beginning after December 15, 2011. We early adopted these standards as of August 31, 2011. Because ASU 2011-05 impacts presentation only, it had no effect on our condensed consolidated financial statements or on our financial condition for the three and six month periods ended February 29, 2012.

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08), which permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. Because we have only one reporting unit, which has a fair value higher than our carrying amount, adoption of ASU 2011-08 did not have a material impact on our condensed consolidated financial statements for the three and six month periods ended February 29, 2012.

Item 3. Quantitative And Qualitative Disclosures About Market Risk

Market risk represents the risk of changes in the value of market risk sensitive instruments caused by fluctuations in interest rates, foreign exchange rates and commodity prices. We are exposed to various market risks that may arise from adverse changes in market rates and prices, such as interest rates and foreign exchange fluctuations. We do not enter into derivatives or other financial instruments for trading or speculative purposes.

Foreign Exchange Risk

A majority of our assets and liabilities are maintained in the United States in U.S. dollars and a majority of our expenditures are transacted in U.S. dollars. We are subject to foreign exchange risk for the operations of BV which uses the European Euro as its functional currency. We do not believe that a hypothetical one percentage point fluctuation in the U.S. dollar exchange rate would materially affect our consolidated financial position, results from operations or cash flows as of February 29, 2012. We do not currently hedge our foreign currency transactions.

Interest Rate Risk

We are subject to interest rate risks associated with fluctuations in interest rates. In October 2011, we invested in two \$15 million short-term bond funds with the goal of increasing yield on our idle cash. Approximately \$19.2 million remained in the money market account yielding approximately .04% per year. The two short-term bond funds include one that exclusively invests in government securities and the other invests in a combination of government and other securities, both funds have historical annual yields of over 2%. Both bond funds pay dividends and provide their net asset value of their assets on a daily basis with daily liquidity. The change in net asset value is recorded on our statements of comprehensive loss as unrealized gain or loss on short-term investments. We completed an evaluation of our investments and determined that we did not have any other-than-temporary impairments as of February 29, 2012. The investments are placed in financial institutions with strong credit ratings and management expects full recovery of the carrying amounts. A hypothetical one percentage point decline in interest rates would not have materially affected our consolidated financial position, results of operations or cash flows as of February 29, 2012.

Table of Contents

Item 4. Controls and Procedures

As of February 29, 2012, we performed an evaluation of the effectiveness of our disclosure controls and procedures that are designed to ensure that the information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act, is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on our evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, has concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of February 29, 2012, are effective at a reasonable assurance level.

Our management, under the supervision of our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over our financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control over financial reporting is defined as a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer, and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and asset dispositions; (ii) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of our financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (iii) provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on our financial statements.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Control Integrated Framework, our management concluded that our internal control over financial reporting was effective as of February 29, 2012.

Changes in Internal Control Over Financial Reporting

During the most recent fiscal quarter, there have not been any material changes in our internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

We know of no material, active or pending legal proceedings against us, or any of our property, and we are not involved as a plaintiff in any material proceedings or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial stockholders are an adverse party or have a material interest adverse to us.

Table of Contents

Item 1A. Risk Factors.

RISK FACTORS THAT MAY AFFECT FUTURE RESULTS

An investment in our securities involves a high degree of risk. Before you decide to invest in our securities, you should consider carefully all of the information in this Quarterly Report on Form 10-Q, including the risks and uncertainties described below, as well as other information included in or incorporated by reference into this Quarterly Report on Form 10-Q, particularly the specific risk factors discussed in the sections titled "Risk Factors" contained in our filings with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act before deciding whether to invest in our securities. Any of these risks could have a material adverse effect on our business, prospects, financial condition and results of operations. In any such case, the trading price of our common stock could decline and you could lose all or part of your investment. You should also refer to the other information contained in this Quarterly Report on Form 10-Q, or incorporated herein by reference, including our financial statements and the notes to those statements, and the information set forth under the caption "Forward-Looking Statements" in Part I Item 2 of this Quarterly Report on Form 10-Q. The risks described below and contained in our other periodic reports are not the only ones that we face. Additional risks not presently known to us or that we currently deem immaterial may also adversely affect our business operations.

As of February 29, 2012, there were no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended August 31, 2011 that was filed with the SEC on November 14, 2011, as amended by that certain Amendment No. 1 on Form 10-K/A filed with the SEC on December 19, 2011, except as set forth below:

Risks Related to Our Business

If we fail to obtain the capital necessary to fund our operations, our financial results, financial condition and our ability to continue as a going concern will be adversely affected and we will have to delay or terminate some or all of our product development programs.

Our condensed consolidated financial statements as of February 29, 2012 have been prepared assuming that we will continue as a going concern. As of February 29, 2012, we had an accumulated deficit of approximately \$103.4 million. We expect to continue to incur losses for the foreseeable future and will have to raise substantial cash to fund our planned operations. Our recurring losses from operations raise substantial doubt about our ability to continue as a going concern and, as a result, our independent registered public accounting firm included an explanatory paragraph in its report on our consolidated financial statements for the year ended August 31, 2011, with respect to this uncertainty. We will need to generate significant revenue or raise additional capital to continue to operate as a going concern. In addition, the perception that we may not be able to continue as a going concern may cause others to choose not to deal with us due to concerns about our ability to meet our contractual obligations and may adversely affect our ability to raise additional capital.

We believe our cash, cash equivalents and short-term investments as of February 29, 2012 will be sufficient to meet our obligations through the first calendar quarter of 2013. We may raise equity funds by the third calendar quarter of 2012. There can be no assurance that we will be successful in raising equity funds when needed. If we are unable to obtain such additional capital when needed, we will be forced to scale down our expenditures.

In addition, in the future, we may need to sell equity or debt securities to raise additional funds. The sale of additional securities is likely to result in additional dilution to our stockholders. Additional financing may not be available in amounts or on terms satisfactory to us or at all. We may be unable to raise additional financing due to a variety of factors, including our financial condition, the status of our research and development programs, and the general condition of the financial markets. If we fail to raise additional financing when needed, we may have to delay or terminate some or all of our research and development programs, our financial condition and operating results may be adversely affected and we may have to scale back our operations.

If we obtain additional financing, we expect to continue to spend substantial amounts of capital on our operations for the foreseeable future. The amount of additional capital we will need depends on many factors, including:

the progress, timing and scope of our preclinical studies and clinical trials;

the time and cost necessary to obtain regulatory approvals;

the time and cost necessary to develop commercial manufacturing processes, including quality systems, and to build or acquire manufacturing capabilities;

the time and cost necessary to launch and successfully commercialize our product candidates, once approved;

the time and cost necessary to respond to technological and market developments; and

any changes made or new developments in our existing collaborative, licensing and other corporate relationships or any new collaborative, licensing and other commercial relationships that we may establish.

Table of Contents

Moreover, our fixed expenses such as rent, collaboration and license payments and other contractual commitments are substantial and will likely increase in the future. These fixed expenses are likely to increase because we expect to enter into:

additional licenses and collaborative agreements;

contracts for manufacturing, clinical and preclinical research, consulting, maintenance and administrative services; and

financing facilities.

We are an early development stage company and have not generated any revenues to date and have a limited operating history. Many of our drug product candidates are in the concept stage and have not undergone significant testing in preclinical studies or any testing in clinical trials. Moreover, we cannot be certain that our research and development efforts will be successful or, if successful, that our drug product candidates will ever be approved for sale or generate commercial revenues. We have a limited relevant operating history upon which an evaluation of our performance and prospects can be made. We are subject to all of the business risks associated with a new enterprise, including, but not limited to, risks of unforeseen capital requirements, failure of drug product candidates either in preclinical testing or in clinical trials, failure to establish business relationships, and competitive disadvantages against larger and more established companies.

Risks Related to Our Common Stock

There are a substantial number of shares of our common stock eligible for future sale in the public market, and the issuance or sale of equity, convertible or exchangeable securities in the market, or the perception of such future sales or issuances, could lead to a decline in the trading price of our common stock.

Any issuance of equity, convertible or exchangeable securities, including for the purposes of financing acquisitions and the expansion of our business, may have a dilutive effect on our existing stockholders. In addition, the perceived risk associated with the possible issuance of a large number of shares of our common stock or securities convertible or exchangeable into a large number of shares of our common stock could cause some of our stockholders to sell their common stock, thus causing the trading price of our common stock to decline. Subsequent sales of our common stock in the open market or the private placement of our common stock or securities convertible or exchangeable into our common stock could also have an adverse effect on the trading price of our common stock. If our common stock price declines, it may be more difficult for us to or we may be unable to raise additional capital.

In addition, future sales of substantial amounts of our currently outstanding common stock in the public market, or the perception that such sales could occur, could adversely affect prevailing trading prices of our common stock, and could impair our ability to raise capital through future offerings of equity or equity-related securities. We cannot predict what effect, if any, future sales of our common stock, or the availability of shares for future sales, will have on the trading price of our common stock.

As of February 29, 2012, we had the following warrants outstanding related to the assumption of warrants from our Encode merger, issuance of warrants related to our May/June 2008 private placement, issuance of warrants related to our August 2009 private placement, the assumption of warrants pursuant to the 2009 Merger, issuance of warrants related to our December 2009 registered direct offering and issuance of warrants related to our August 2010 private placement. See Note 9 in our condensed consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q for further discussion regarding our common stock warrants.

Table of Contents

	Number of shares exercisable	Exercise price	Expiration date
Issued in connection with Encode merger	233,309	\$ 2.87	12/13/2015
Issued to placement agents in May / June. 2008	432,649	\$ 2.36	5/21/2013
Issued to placement agents in August. 2009	65,000	\$ 1.50	8/21/2014
TorreyPines warrants assumed in 2009 Merger	8,140	\$ 80.86*	6/11/2013 - 9/26/2015
Issued to registered direct investors in Dec. 2009	818,750	\$ 2.45	12/22/2014
Issued to private placement investors in Aug. 2010	3,621,683	\$ 3.075	8/12/2015
Issued to placement agent in Aug. 2010	97,952	\$ 3.075	8/12/2015
Total warrants outstanding	5,277,483	\$ 3.01*	

* Weighted average exercise price

Our executive officers and our Board of Directors own, in the aggregate, 1,723,810 shares, or approximately 3.5% of our outstanding common stock as of February 29, 2012. Sales of a substantial number of shares of our common stock by such officers and directors in the public trading market, whether in a single transaction or a series of transactions, or the perception that these sales may occur, could also have a significant effect on volatility and the trading price of our common stock.

As of February 29, 2012, there were (i) outstanding warrants to purchase 5,277,483 shares of our common stock at a weighted average exercise price of \$3.01 per share (ii) outstanding options to purchase 5,692,401 shares of our common stock outstanding under our 2010 and 2006 Raptor stock option plans at a weighted-average exercise price of \$3.96, (iii) options to purchase 149,447 shares of our common stock outstanding under our TorreyPines Therapeutics stock option plans at a weighted-average exercise price of \$76.26 and (iv) 1,563,508 shares of our common stock available for future stock option grants issued under our 2010 Raptor Pharmaceutical stock option plan. The shares issuable under our stock option plans will be available for immediate resale in the public market. The shares issuable under the warrants are available for immediate resale in the public market. The market price of our common stock could decline as a result of such resales due to the increased number of shares available for sale in the market.

Future milestone payments, as more fully set forth under Contractual Obligations with Thomas E. Daley (assignee of the dissolved Convivia, Inc.) under Note 10 Commitments and Contingencies in our condensed consolidated financial statements located elsewhere in this Quarterly Report on Form 10-Q and Contractual Obligations with Former Encode Securityholders above, our acquisition of the Convivia assets and merger with Encode will result in dilution. We may be required to make additional contingent payments of up to 699,369 shares of our common stock, in the aggregate, under the terms of our acquisition of Convivia assets and merger with Encode, based on milestones related to certain future marketing and development approvals obtained with respect to Convivia and Encode product candidates. The issuance of any of these shares will result in further dilution to our existing stockholders.

These stock issuances and other future issuances of common stock underlying unexpired and unexercised warrants have and will result in, significant dilution to our stockholders. In connection with other collaborations, joint ventures, license agreements or future financings that we may enter into in the future, we may issue additional shares of common stock or other equity securities, and the value of the securities issued may be substantial and create additional dilution to our existing and future common stockholders.
