Item 8.01 Other Information

On June 3, 2005, The Coast Distribution System, Inc. issued a press release reporting that its Board of Directors (i) had, pursuant to its previously announced dividend policy, declared a quarterly cash dividend of \$0.04 per share, that is payable on June 29, 2005 to all stockholders of record on June 15, 2005, and (ii) has approved a new stock buyback program that authorizes the Company to purchase from time to time, in accordance with applicable Securities and Exchange Commission rules, up to \$1.5 million of its shares of common stock in open market and private transactions, when opportunities to do so become available at attractive prices. A copy of that press release is attached as Exhibit 99.1 to this Report.

As stated in its press release, the declaration of cash dividends in the future, pursuant to the Company's dividend policy, is subject to final determination by the Board of Directors based on a number of factors, including the Company's financial performance and its available cash resources. Also, it could become necessary for the Company to obtain the consent of the lender under its secured bank loan agreement in order to pay cash dividends in the future. For these reasons, as well as others, there can be no assurance that that the Board of Directors will not decide to reduce, suspend or discontinue the payment of cash dividends in the future.

Also, as stated in the press release, Coast is under no obligation to repurchase shares under the share buyback program and the timing, actual number and value of shares that are repurchased by Coast under that program will depend on a number of factors, including its future financial performance and available cash resources, prevailing market prices of its common stock and the number of shares that become available for sale at prices that the Company believes are attractive.
