IMPORTANT NOTICE REGARDING THE CONDITIONS

FOR THIS OFFERING OF ASSET-BACKED SECURITIES

The asset-backed securities referred to in these materials are being offered when, as and if issued. In particular, you are advised that asset-backed securities, and the asset pools backing them, are subject to modification or revision (including, among other things, the possibility that one or more classes of securities may be split, combined or eliminated), at any time prior to issuance or availability of a final prospectus. As a result, you may commit to purchase securities that have characteristics that may change, and you are advised that all or a portion of the securities may not be issued that have the characteristics described in these materials. Our obligation to sell securities to you is conditioned on the securities and the underlying transaction having the characteristics described in these materials. If we determine that condition is not satisfied in any material respect, we will notify you, and neither the issuing entity nor the underwriter will have any obligation to you to deliver all or any portion of the securities which you have committed to purchase, and there will be no liability between us as a consequence of the non-delivery.

Interest Distributions on the Notes

On each Payment Date, Available Funds will be allocated in the following priority:

- (i) from Available Funds, to the Swap Provider all net swap payments and swap termination payments (other than a Defaulted Swap Termination Payment) owed to the Swap Provider pursuant to the swap agreement;
- (ii) from the Distributable Interest Amount, to the Class A-1, A-2, A-3 and A-4 Notes, concurrently, their Accrued Note Interest and any unpaid Accrued Note Interest from prior Payment Dates allocated based on their entitlement to those amounts; and
- (iii) from any remaining Distributable Interest Amount, to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, their Accrued Note Interest.

Definitions Related to Interest Distributions

Accrued Note Interest. For any Payment Date and each class of notes, the amount of interest accrued during the related Interest Accrual Period on the related Class Note Balance immediately prior to such Payment Date at the related Interest Rate, as reduced by any net prepayment interest shortfalls and any shortfalls resulting from the application of the Servicemembers Civil Relief Act provided, however that in the case of any Class M Note, such amount shall be reduced by the amount described in clause (a) in the definition of Deferred Interest allocated to such class.

Available Funds. For any Payment Date, the sum of the following amounts: (i) all scheduled collections of principal and interest on the mortgage loans due and received by the Servicer during the related Due Period, (ii) all partial prepayments other than pay-aheads of principal and other amounts collected on account of principal, including net REO proceeds, net liquidation proceeds and insurance proceeds, if any, collected by the Servicer during the previous calendar month, (iii) all principal prepayments in full collected by the Servicer during the related Prepayment Period, (iv) all Delinquency Advances made with respect to payments due to be received on the mortgage loans during the related Due Period and Compensating Interest paid, by the Servicer, (v) any other amounts required to be placed in the collection account by the Servicer pursuant to the sale and servicing agreement, (vi) any net swap payment received from the Swap Provider, (vii) the proceeds from repurchases of mortgage loans, and (viii) all proceeds received with respect to any Optional Clean-up Call; net of certain amounts such as servicing fees and reimbursement to the Servicer for advances.

Available Funds Cap. For any Payment Date and any class of notes, a per annum rate equal to the quotient of (i) the product of (a) the Distributable Interest Amount for such Payment Date multiplied by (b) the quotient of (I) 360 divided by (II) the actual number of days in the Interest Accrual Period, divided by (ii) the aggregate Class Note Balance of all classes of notes on the first day of the Interest Accrual Period (after taking into account payments of principal on such day).

Basis Risk Carry Forward Amount. For any Payment Date, and any class of notes, the sum of: (i) the excess, if any, of interest that would otherwise be due on such class of notes at such notes' applicable Interest Rate (without regard to the Available Funds Cap) over interest due on such class of notes at a rate equal to the Available Funds Cap, (ii) any Basis Risk Carry Forward Amount for such class remaining unpaid from prior Payment Dates and (iii) interest on the amount in clause (ii) at such notes' applicable Interest Rate (without regard to the Available Funds Cap).

Defaulted Swap Termination Payment. Any termination payment required to be made by the trust to the Swap Provider pursuant to the swap agreement as a result of (a) a default with respect to which the Swap Provider is the defaulting party, (b) a termination event (other than illegality or tax event) with respect to which the Swap Provider is the sole affected party, (c) a termination resulting from a downgrade event with respect to the Swap Provider, or (d) a termination resulting from the failure of the swap provider to provide certain information required by Regulation A/B.

Distributable Interest Amount. For any Payment Date, the Interest Remittance Amount, plus (a) any swap receipts and minus (b) any swap outflows.

Interest Rate. For each class of notes, the lesser of (i) one-month LIBOR plus the related margin (subject to the Step-Up Coupon provisions below), and (ii) the Available Funds Cap.

Edgar Filing: Accredited Mortgage Loan REIT Trust - Form FWP

Interest Remittance Amount. For any Payment Date, the portion of Available Funds attributable to interest received or advanced on the mortgage loans less the Servicing Fee to the extent not retained by the Servicer and certain indemnification liabilities of the Issuing Entity to the Indenture Trustee and the Owner Trustee.

Retained Swap Termination Payment. In the event that the Issuing Entity receives a swap termination payment, and a successor Swap Provider cannot be obtained, then the Indenture Trustee will be required to deposit the swap

This is not a research report and was not prepared by the Morgan Stanley research department. It was prepared by Morgan Stanley sales, trading or other non-research personnel. Past performance is not necessarily a guide to future performance. Please see additional important information and qualifications at the end of this material.

termination payment into a reserve account. On each subsequent Distribution Date (so long as funds are available in such reserve account), the Indenture Trustee will be required to withdraw from such reserve account and deposit into the Payment Account an amount equal to the amount of any net swap payment due the Issuing Entity (calculated in accordance with the terms of the original interest rate swap agreement) and treat such amount as a net swap payment for purposes of determining the distributions from the Payment Account. The remaining amount in the reserve account will remain in that account and not treated as a swap termination payment for purposes of determining the distributions from the Payment Account until the date on which the last payment on the swap is expected to be received, at which time the amount then on deposit therein will be transferred to the Payment Account and treated as part of Available Funds.

Step-Up Coupons. For each class of notes, the coupon margin will increase after the Optional Clean-Up Call is first exercisable, should the call not be exercised. The margin for the Class A Notes will increase to 2 times the margin at issuance and the margin for the Class M Notes will increase to 1.5 times the margin at issuance.

Unpaid Interest Shortfall Amount. With respect to each class of Notes, is equal to any unpaid Accrued Note Interest from prior Payment Dates, with interest accrued thereon at the related Interest Rate.

Principal Distributions on the Notes

On each Payment Date (A) prior to the Step-Down Date or (B) on which a Trigger Event is in effect, principal distributions will be allocated from the remaining Available Funds after payment of amounts described under Interest Distributions on the Notes up to the Principal Distribution Amount as follows:

- (i) to the Class A-1, Class A-2, Class A-3 and Class A-4 Notes, sequentially and in that order, the Principal Distribution Amount, until their respective Class Note Balances have been reduced to zero; and
- (ii) to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, until their respective Class Note Balances have been reduced to zero.

On each Payment Date (A) on or after the Step-Down Date and (B) on which a Trigger Event is not in effect, principal distributions will be allocated from the remaining Available Funds after payment of amounts described under Interest Distributions on the Notes up to the Principal Distribution Amount as follows:

- (i) to the Class A-1, Class A-2, Class A-3 and Class A-4 Notes, sequentially and in that order, up to the amount required to achieve the Targeted Credit Enhancement Percentage for the Class A Notes in the aggregate; and
- (ii) to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, until the credit enhancement supporting each class is equal to the related Targeted Credit Enhancement Percentage for such Payment Date.

Definitions Related to Principal Distributions

Basic Principal Distribution Amount. On any Payment Date, the excess of (i) the Principal Remittance Amount over (ii) the Excess Subordinated Amount, if any.

Credit Enhancement Percentage. For any class of notes on any Payment Date, the percentage obtained by dividing (x) the aggregate Class Note Balance of the class or classes subordinate thereto (including any overcollateralization and taking into account distributions of the Principal Distribution Amount for such Payment Date) by (y) the aggregate scheduled principal balance of the mortgage loans as of the last day of the related Due Period.

Target Credit Enhancement Percentage

Class	On and after Step-Down Date
-------	-----------------------------

Edgar Filing: Accredited Mortgage Loan REIT Trust - Form FWP

A	34.50
M-1	28.40
M-2	22.70
M-3	19.20
M-4	15.90
M-5	12.90
M-6	10.50
M-7	8.30
M-8	6.20
M-9	4.20

Extra Principal Distribution Amount. For any Payment Date, the lesser of (i) the sum of (a) the excess of (x) the Distributable Interest Amount for such Payment Date over (y) the sum of interest payable on the notes on such Payment Date and (b) the amount of any prepayment penalties collected during the related Prepayment Period and (ii) the Overcollateralization Deficiency for such Payment Date.

Edgar Filing: Accredited Mortgage Loan REIT Trust - Form FWP

Excess Subordinated Amount. For any Payment Date, the lesser of (x) the Principal Remittance Amount for such Payment Date and (y) the excess, if any of (i) the Overcollateralization Amount over (ii) the Target Overcollateralization Amount for such Payment Date.

Overcollateralization Amount. For any Payment Date, the amount, if any, by which (x) the aggregate scheduled principal balance of the mortgage loans as of the end of the related Due Period exceeds (y) the aggregate Class Note Balance of the notes, after giving effect to payments on such Payment Date.

Overcollateralization Deficiency. For any Payment Date, the amount, if any, by which (x) the Target Overcollateralization Amount for such Payment Date exceeds (y) the Overcollateralization Amount for such Payment Date, calculated for this purpose after giving effect to the reduction on such Payment Date of the Class Note Balances of the notes resulting from the payment of the Principal Remittance Amount on such Payment Date.

Principal Distribution Amount. On any Payment Date, the sum of (i) the Basic Principal Distribution Amount and (ii) the Extra Principal Distribution Amount.

Principal Remittance Amount. On any Payment Date, the sum of

- (i) all scheduled collections of principal due and received by the Servicer during the related Due Period or advanced by the Servicer for the related servicer remittance date,
- (ii) the principal portion of all full prepayments received during the related Prepayment Period,
- (iii) the principal portion of all partial prepayments, including net REO proceeds, net liquidation proceeds and net insurance proceeds received during the prior month,
- (iv) the principal portion of the repurchase price for any repurchased mortgage loans,
- (v) the principal portion of substitution adjustments received in connection with the substitution of a mortgage loan as of such Payment Date,
- (vi) the principal portion of the proceeds received if the Optional Clean-Up Call is exercised or if the Trust is terminated, and
- (vii) subsequent recoveries received (net of reimbursable expenses) on the mortgage loans.

Senior Credit Enhancement Percentage. The Credit Enhancement Percentage for the Class A Notes.

Step-Down Date. The earlier of (A) the date on which the aggregate Class Note Balance of the Class A Notes have been reduced to zero and (B) the later to occur of:

- (x) the Payment Date occurring in April 2009; and
- (y) the first Payment Date on which the Senior Credit Enhancement Percentage (calculated for this purpose after giving effect to payments or other recoveries on the mortgage loans during the related Due Period, but before giving effect to payments on any of the notes on such Payment Date) for the Class A Notes is greater than or equal to 34.50%.

Target Overcollateralization Amount. For any Payment Date, (a) prior to the Step-Down Date, approximately 2.10% of the aggregate scheduled principal balance of the mortgage loans as of the Cut-off Date and (b) on or after the Step-Down Date, so long as a Trigger Event is not in effect, approximately 4.20% of the aggregate scheduled principal balance of the mortgage loans as of the last day of the related Due Period, subject to a floor equal to 0.50% of the aggregate scheduled principal balance of the mortgage loans as of the Cut-off Date. If a Trigger Event is in effect,

Edgar Filing: Accredited Mortgage Loan REIT Trust - Form FWP

then the Target Overcollateralization Amount will equal the Target Overcollateralization Amount as of the prior Payment Date.

Allocation of Net Monthly Excess Cashflow

For any Payment Date, any Available Funds remaining after making all payments of accrued interest and principal as described above will be deemed Net Monthly Excess Cashflow and paid as follows:

- (i) to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, their Unpaid Interest Shortfall Amount;
- (ii) concurrently, any Basis Risk Carry Forward Amount to each class of Class A Notes, *pro rata* based on each class' respective Basis Risk Carry Forward Amount;
- (iii) to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, any Basis Risk Carry Forward Amount for such classes;
- (iv) to the Class M-1, M-2, M-3, M-4, M-5, M-6, M-7, M-8 and M-9 Notes, sequentially and in that order, any Deferred Interest in respect of any Principal Deficiency Amount allocated to such classes;
- (v) to the Swap Provider, any Defaulted Swap Termination Payment; and
- (vi) to the trust certificates, any remaining amounts.

All realized losses on the mortgage loans will be allocated on each Payment Date first to excess cash flow, second to prepayment penalties, and third, in reduction of the overcollateralization amount. Realized losses will not be allocated to the notes, however if excess cash flow and overcollateralization are insufficient to absorb realized losses a Principal Deficiency Amount will be created with respect to the Class M Notes.

Deferred Interest. For any class of Class M notes and any Payment Date, the sum of (a) the aggregate amount of interest accrued at the related Interest Rate during the related Interest Accrual Period on the portion of the Principal Deficiency Amount allocated to that class, (b) any amounts described in clause (a) for such class for prior Payment Dates that remain unpaid, and (c) interest accrued at the related Interest Rate for the Interest Accrual Period related to such Payment Date on the amount in clause (b).

Principal Deficiency Amount. For any Payment Date, the excess, if any, of the aggregate Class Note Balance of the notes, immediately prior to such Payment Date over the aggregate scheduled principal balance of the mortgage loans as of the first day of the related Due Period. The total Principal Deficiency Amount will be allocated among the Class M Notes in reverse order of seniority.

Unpaid Interest Shortfall Amount. With respect to each class of Class M Notes, is equal to any unpaid Accrued Note Interest from prior Payment Dates, with interest accrued thereon at the related Interest Rate.

Trigger Events

A Trigger Event is in effect on any Payment Date if (i) on that Payment Date the 60+ day delinquency rolling average equals or exceeds 46% of the Senior Credit Enhancement Percentage (the 60+ day delinquency rolling average will equal the rolling 3 month average percentage of mortgage loans that are 60 or more days delinquent including mortgage loans in foreclosure and all REO property) or (ii) during such period, the aggregate amount of realized losses incurred (less any subsequent recoveries) since the Cut-off Date through the last day of the related Prepayment Period divided by the aggregate scheduled principal balance of the mortgage loans as of the Cut-off Date (the Cumulative Realized Loss Percentage) exceeds the amounts set forth below:

Swap Agreement

On the Closing Date, the Indenture Trustee will enter into a Swap Agreement with an initial notional amount of approximately \$1,003,750,611 that will amortize approximately in accordance with the schedule shown below. Under the Swap Agreement, the Issuing Entity shall be obligated to pay an amount equal to a per annum rate of 4.80% (on a 30/360 basis) on the swap notional amount to the Swap Provider and the Issuing Entity will be entitled to receive a per annum rate equal to One-Month LIBOR (on a actual/360 basis) on the swap notional amount from the Swap Provider, on each Payment Date, accrued during the swap accrual period, until the swap is retired. Only the net amount of the two obligations above will be paid by the appropriate party.

Breakeven CDR Table*

The tables below describe the Constant Default Rate (CDR), and the related cumulative loss on the Mortgage Loans when the referenced Class begins to incur a principal deficiency. Calculations are run to maturity at forward LIBOR. Other assumptions incorporated include the following: (1) 100% of the Prepayment Assumption, (2) 40% loss severity, (3) 6-month lag from default to loss, (4) triggers fail (i.e., no stepdown), and (5) 1-month and 6-month LIBOR are equal to their respective forward curves.

TERM SHEET DISCLAIMER

This material was prepared by sales, trading or other non-research personnel of one of the following: Morgan Stanley & Co. Incorporated, Morgan Stanley & Co. International Limited, Morgan Stanley Japan Limited and/or Morgan Stanley Dean Witter Asia Limited (together with their affiliates, hereinafter "Morgan Stanley"). This material was not produced by a Morgan Stanley research analyst, although it may refer to a Morgan Stanley research analyst or research report. Unless otherwise indicated, these views (if any) are the author's and may differ from those of the Morgan Stanley fixed income or equity research department or others in the firm.

This material was prepared by or in conjunction with Morgan Stanley trading desks that may deal as principal in or own or act as market maker or liquidity provider for the securities/instruments (or related derivatives) mentioned herein. The trading desk may have accumulated a position in the subject securities/instruments based on the information contained herein. Trading desk materials are not independent of the proprietary interests of Morgan Stanley, which may conflict with your interests. Morgan Stanley may also perform or seek to perform investment banking services for the issuers of the securities and instruments mentioned herein.

The information contained in this material is subject to change, completion or amendment from time to time, and the information in this material supersedes information in any other communication relating to the securities referred to in this material.

This material is not a solicitation to participate in any trading strategy, and is not an offer to sell any security or instrument or a solicitation of an offer to buy or sell any security or instrument in any jurisdiction where the offer, solicitation or sale is not permitted. Unless otherwise set forth in this material, the securities referred to in this material may not have been registered under the U.S. Securities Act of 1933, as amended, and, if not, may not be offered or sold absent an exemption therefrom. Recipients are required to comply with any legal or contractual restrictions on their purchase, holding, sale, exercise of rights or performance of obligations under any securities/instruments transaction.

The securities/instruments discussed in this material may not be suitable for all investors. This material has been prepared and issued by Morgan Stanley for distribution to market professionals and institutional investor clients only. Other recipients should seek independent financial advice prior to making any investment decision based on this material. This material does not provide individually tailored investment advice or offer tax, regulatory, accounting or legal advice. Prior to entering into any proposed transaction, recipients should determine, in consultation with their own investment, legal, tax, regulatory and accounting advisors, the economic risks and merits, as well as the legal, tax, regulatory and accounting characteristics and consequences, of the transaction. You should consider this material as only a single factor in making an investment decision.

Options are not for everyone. Before purchasing or writing options, investors should understand the nature and extent of their rights and obligations and be aware of the risks involved, including the risks pertaining to the business and financial condition of the issuer and the security/instrument. A secondary market may not exist for these securities. For Morgan Stanley customers who are purchasing or writing exchange-traded options, please review the publication "Characteristics and Risks of Standardized Options," which is available from your account representative.

The value of and income from investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. Actual events may differ from those assumed and changes to any assumptions may have a material impact on any projections or estimates. Other events not taken into account may occur and may significantly affect the projections or estimates. Certain assumptions may have been made for modeling purposes only to simplify the presentation and/or calculation of any projections or estimates, and Morgan Stanley does not represent that any such assumptions will reflect actual future events. Accordingly, there can be no assurance that estimated returns or projections will be realized or that actual returns or performance results will not materially differ from those estimated herein. Some of the information contained in this document may be aggregated data of transactions in securities or other financial instruments executed by Morgan Stanley that has been compiled so as not to identify the underlying transactions of any particular customer.

Notwithstanding anything herein to the contrary, Morgan Stanley and each recipient hereof agree that they (and their employees, representatives, and other agents) may disclose to any and all persons, without limitation of any kind from the commencement of discussions, the U.S. federal and state income tax treatment and tax structure of the transaction and all materials of any kind (including opinions or other tax analyses) that are provided to it relating to the tax treatment and tax structure. For this purpose, "tax structure" is limited to facts relevant to the U.S. federal and state income tax treatment of the transaction and does not include information relating to the identity of the parties, their affiliates, agents or advisors.

In the UK, this communication is directed in the UK to those persons who are market counterparties or intermediate customers (as defined in the UK Financial Services Authority's rules).
