Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE A - BASIS OF PRESENTATION**

In management's opinion, the financial information, which is unaudited, reflects all adjustments (consisting solely of normal recurring adjustments) necessary for a fair presentation of the financial information as of and for the three and six months ended June 30, 2006 and 2005, in conformity with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of American Community Bancshares, Inc. (the Company) and its wholly owned subsidiary, American Community Bank (ACB). All significant inter-company transactions and balances are eliminated in consolidation. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2006.

The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the consolidated financial statements filed as part of the Company's 2005 annual report on Form 10-K. This quarterly report should be read in conjunction with such annual report.

NOTE B - COMMITMENTS

At June 30, 2006, loan commitments are as follows:

Undisbursed lines of credit	\$ 88,292,187
Stand-by letters of credit	2,077,380
Loan commitments	7,211,800

NOTE C - PER SHARE RESULTS

Basic earnings per share represents income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the company relate solely to outstanding stock options and warrants and are determined using the treasury stock method.

	Three months ended		Six months ended	
	June 30		June 30	
	2006	2005	2006	2005
Weighted average number of common shares used in computing basic net income per share	6,876,336	6,401,366	6,864,852	5,902,178
Effect of dilutive stock options	300,000	292,606	303,261	293,506
Weighted average number of common shares and dilutive potential common shares used in computing diluted net income per share	7,176,336	6,693,972	7,168,113	6,195,684

For the three and six months ended June 30, 2006, there were 37,000 and 18,500 options, respectively, that were antidilutive. For the three and six months ended June 30, 2005 there were no options or warrants that were antidilutive.

Table of Contents

AMERICAN COMMUNITY BANCSHARES, INC.

Notes to Consolidated Financial Statements

NOTE D COMPREHENSIVE INCOME

Total comprehensive income, consisting of net income, unrealized gains and losses on available for sale securities, net of taxes, and unrealized losses on cash flow hedges, net of taxes, was \$471,000 and \$1,330,000 for the three months ended June 30, 2006 and 2005, respectively. For the six months ended June 30, 2006 and 2005, total comprehensive income was \$1,531,000 and \$1,926,000, respectively.

NOTE E STOCK COMPENSATION PLAN

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R (revised 2004), Share-Based Payment, (SFAS No. 123R) which was issued by the Financial Accounting Standards Board (FASB) in December 2004. SFAS No. 123R revises SFAS No. 123 Accounting for Stock Based Compensation, and supersedes APB No. 25, Accounting for Stock Issued to Employees, (APB No. 25) and its related interpretations. SFAS No.123R requires recognition of the cost of employee services received in exchange for an award of equity instruments in the financial statements over the period the employee is required to perform the services in exchange for the award (presumptively the vesting period). SFAS No. 123R also requires measurement of the cost of employee services received in exchange for an award based on the grant-date fair value of the award. SFAS No. 123R also amends SFAS No. 95 Statement of Cash Flows, to require that excess tax benefits be reported as financing cash inflows, rather than as a reduction of taxes paid, which is included within operating cash flows.

The Company adopted SFAS No. 123R using the modified prospective application as permitted under SFAS No. 123R. Accordingly, prior period amounts have not been restated. Under this application, the Company is required to record compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards that remain outstanding at the date of adoption. Prior to the adoption of SFAS No. 123R, the Company used the intrinsic value method as prescribed by APB No. 25 and thus recognized no compensation expense for options granted with exercise prices equal to the fair market value of the Company's common stock on the date of grant.

The Company has five share-based compensation plans in effect at June 30, 2006. The compensation cost that has been charged against income for those plans was approximately \$332,000 and \$347,000 for the three months and six months ended June 30, 2006, respectively. The Company recorded a deferred tax benefit in the amount of \$115,000 related to share-based compensation during the quarter ended June 30, 2006.

In 1999, the Company implemented the 1999 Incentive Stock Option Plan which authorized the Board of Directors to grant up to 246,191 of stock options to employees and officers of the Company and the 1999 Non-statutory Stock Option Plan which authorized the Board of Directors to grant up to 246,191 of non-qualified stock options to directors. Options granted under the 1999 Stock Option Plans have a term of up to ten years from the date of grant. Vesting of options is determined at the time of grant and ranges from immediate to five years. Options under these plans must be granted at a price not less than the fair market value at the date of grant.

In 2001, the Company implemented the 2001 Incentive Stock Option Plan which authorized the Board of Directors to grant up to 210,300 of stock options to employees and officers of the company. Options granted under the 2001 Stock Option Plan have a term of up to ten years from the date of grant. These options have a five year vesting period. Options under this plan must be granted at a price not less than the fair market value at the date of grant.

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE E STOCK COMPENSATION PLAN (Continued)**

In 2002, the Company implemented the 2002 Non-statutory Stock Option Plan which authorized the Board of Directors to grant up to 37,500 stock options to directors of the Company. Options granted under the 2002 Non-Statutory Stock Option Plan have a term of up to ten years from the date of grant. Vesting of options is three years. Options under this plan must be granted at a price not less than the fair market value at the date of grant.

In 2004, the Company acquired FNB Bancshares, Inc. (First National). First National had two stock option plans, the 1997 Incentive Stock Option Plan and the 1997 Non-statutory Stock Option Plan. At the acquisition date the plans had 133,162 and 160,577 options outstanding, respectively, which vested immediately.

Stock Options

The fair market value of each option award is estimated on the date of grant using the Black-Scholes option pricing model. The Company granted 98,000 stock options for the six months ended June 30, 2006 with a weighted average fair value of \$4.52 per option. No options were granted for the six months ended June 30, 2005.

Assumptions for the six months ended June 30, 2006 are as follows:

Dividend yield	1.54%
Risk-free interest rate	4.83%
Volatility	30.24%
Expected life	7 Years

The risk-free interest rate is based upon a U.S. Treasury instrument with a life that is similar to the expected life of the option grant. Expected volatility is based upon the historical volatility of the Company based upon the previous three years trading history. The expected term of the options is based upon the average life of previously issued stock options. The expected dividend yield is based upon current yield on date of grant. No post-vesting restrictions exist for these options.

A summary of option activity under the stock option plans as of June 30, 2006 and changes during the six months ended June 30, 2006 is presented below:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at December 31, 2005	643,131	\$ 5.57		
Exercised	(68,314)	5.95		
Authorized				
Forfeited	(7)	4.68		
Granted	98,000	12.92		
Outstanding at June 30, 2006	672,810	6.61	5.45 years	\$ 3,797,694
Exercisable at June 30, 2006	579,429	6.17	5.16 years	3,525,870

Table of Contents***AMERICAN COMMUNITY BANCSHARES, INC.******Notes to Consolidated Financial Statements*****NOTE E STOCK COMPENSATION PLAN (Continued)**

For the six months ended June 30, 2006 and 2005, the intrinsic value of options exercised was approximately \$441,000 and \$543,000, respectively.

The fair value of stock options vested over the six months ended June 30, 2006 and 2005, respectively was \$347,000 and \$29,000.

As of June 30, 2006, there was \$189,000 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted under all of the Company's stock benefit plans. That cost is expected to be recognized over a weighted-average period of 3.79 years.

The Company funds the option shares from authorized but unissued shares. The Company does not typically purchase shares to fulfill the obligations of the stock benefit plans. Company policy does allow option holders to exercise options with seasoned shares.

Cash received from option exercise under all share-based payment arrangements for the six month period ended June 30, 2006 was \$407,000. The actual tax benefit in stockholders equity realized for the tax deductions from option exercise of the share-based payment arrangements totaled \$119,000 for the six months ended June 30, 2006.

The adoption of SFAS 123R and its fair value compensation cost recognition provisions are different from the non-recognition provisions under SFAS 123 and the intrinsic value method for compensation cost allowed by APB 25. The effect (increase/(decrease)) of the adoption of SFAS 123R is as follows:

	Three Months Ended June 30, 2006	Six Months Ended June 30, 2006
Income before income tax expense	\$ (332,430)	\$ (346,663)
Net Income	(218,037)	(231,819)
Cash flow from operating activities	(118,689)	(118,689)
Cash flow provided by financing activities	118,689	118,689
Basic earnings per share	0.03	0.03
Diluted earnings per share	0.03	0.03

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE E STOCK COMPENSATION PLAN (Continued)**

The following illustrates the effect on net income available to common stockholders if the Company had applied the fair value recognition provisions of SFAS No. 123 to the prior year three and six months ended June 30, 2005 (in thousands, except per share data):

	Three months ended June 30, 2005	Six months ended June 30, 2005
Net income, as reported	\$ 1,066,000	\$ 2,114,000
Add: Stock-based employee compensation expense included in the reported net income, net of related income taxes		
Less: Stock-based employee compensation expense determined under fair value based method of all awards, net of related income taxes	(12,102)	(30,151)
Proforma net income	\$ 1,053,898	\$ 2,083,849
Earnings per share - basic, as reported	\$ 0.17	\$ 0.36
Earnings per share - basic, pro forma	0.17	0.35
Earnings per share - diluted, as reported	0.16	0.34
Earnings per share - diluted, pro forma	0.16	0.33

NOTE F DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, the Company enters into derivative contracts to manage interest rate risk by modifying the characteristics of the related balance sheet instruments in order to reduce the adverse effect of changes in interest rates. All derivative financial instruments are recorded at fair value in the consolidated financial statements.

On the date a derivative contract is entered into, the Company designates the derivative as a fair value hedge, a cash flow hedge, or a trading instrument. Changes in the fair value of instruments used as fair value hedges are accounted for in the earnings of the period simultaneous with accounting for the fair value change of the item being hedged. Changes in the fair value of the effective portion of cash flow hedges are accounted for in other comprehensive income rather than earnings. Changes in fair value of instruments that are not intended as a hedge are accounted for in the earnings of the period of the change.

If a derivative instrument designated as a fair value hedge is terminated or the hedge designation removed, the difference between a hedged item's then carrying amount and its face amount is recognized into income over the original hedge period. Likewise, if a derivative instrument designated as a cash flow hedge is terminated or the hedge designation removed, related amounts accumulated in other comprehensive income are reclassified into earnings over the original hedge period during which the hedged item affects income.

As of June 30, 2006, the Company had two cash flow hedges with a notional amount of \$30.0 million and \$15.0 million, respectively. Both derivative instruments consist of an interest rate floor contract that is used to protect certain designated variable rate loans from the downward effects of their repricing in the event of a decreasing rate environment for a period of three years ending in February 2009 and June 2009, respectively. If the prime rate falls below 7.25% during the term of the first contract, the Company will receive payments based on the \$30.0 million notional amount times the difference.

Table of Contents

AMERICAN COMMUNITY BANCSHARES, INC.

Notes to Consolidated Financial Statements

NOTE F DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES (Continued)

between 7.25% and the daily weighted average prime rate for the quarter. No payments will be received by the Company if the weighted average prime rate is 7.25% or higher. The Company paid a premium of \$228,000 on this contract, which is being amortized over the three-year term of the contract. On the second floor, if the prime rate falls below 7.75% during the term of this contract, the Company will receive payments based on the \$15.0 million notional amount times the difference between 7.75% and the weighted average prime rate for the quarter. No payments will be received by the Company if the weighted average prime rate is 7.75% or higher. The Company paid a premium of \$95,250 on this contract. The interest rate floors are carried at a fair market value of \$144,044 and are included in other assets as of June 30, 2006.

NOTE G STOCK DIVIDEND

On January 25, 2006, the Company declared a three-for-two stock split in the form of a 50% stock dividend to shareholders of record on February 7, 2006 and payable on February 21, 2006. As a result of the stock dividend, 2,284,567 additional shares of common stock were issued and retained earnings was reduced by \$2,284,567. All references to net income per share and weighted average shares outstanding have been adjusted for the effect of this stock split.

NOTE H- SHARE REPURCHASE AND DIVIDEND REINVESTMENT PROGRAMS

On February 1, 2006, the Company's Board of Directors authorized a share repurchase program for up to 225,000 shares of the Company's outstanding common stock. The Board's authorization permits the Company to repurchase shares in the open market or through privately negotiated transactions during the next twelve months when, in the opinion of management, market conditions warrant such action. During the quarter, the Board of Directors also voted to establish a dividend reinvestment and stock purchase plan under which shares of the Company's common stock are available for sale to the registered shareholders of the Company. The Plan provides shareholders with an alternative way to increase their holdings of our common stock by reinvesting dividends or making optional cash payments to purchase additional shares.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q may contain certain forward-looking statements consisting of estimates with respect to the financial condition, results of operations and business of the Company that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include, but are not limited to, general economic conditions, changes in interest rates, deposit flows, loan demand, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting the Company's operations, pricing, products, and services. There are no pending legal proceedings other than those incurred in the normal course of business to which the Company or subsidiaries are a party, or of which any of their property is the subject.

COMPARISON OF FINANCIAL CONDITION AT JUNE 30, 2006 AND DECEMBER 31, 2005

Total assets at June 30, 2006 increased by \$24.1 million or 5.52% to \$460.8 million compared to \$436.7 million at December 31, 2005. The Company had earning assets of \$424.8 million at month-end June 30, 2006. Gross loans increased by \$24.4 million or 7.3% to \$357.1 million from \$332.7 million at December 31, 2005. Investment securities and other non-marketable equity securities increased by \$1.1 million or 1.6% to \$67.4 million from \$66.3 million at December 31, 2005. Overnight investments decreased from \$4.5 million at December 31, 2005 to \$326,000. Total deposits as of June 30, 2006 increased by \$16.0 million or 4.6% to \$361.4 million compared to \$345.4 million at December 31, 2005. Total borrowed money as of June 30, 2006 increased \$7.6 million or 19.9% to \$46.1 million compared to \$38.5 million at December 31, 2005. Stockholders' equity was \$52.6 million at June 30, 2006 compared to \$50.9 million at December 31, 2005 for an increase of \$1.7 million or 3.3%.

The Company recorded a \$668,000 provision for loan losses for the quarter ended June 30, 2006, representing an increase of \$486,000 or 267.0% from the \$182,000 provision for the quarter ended June 30, 2005. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company has continued to provide provisions for loan losses principally as a result of the continued growth in the loan portfolio and as a result of some specific changes in credit quality primarily within the lease portfolio. Gross loans receivable increased by \$6.6 million or 1.9% during the quarter ended June 30, 2006. The allowance for loan losses increased by \$710,000 or 16.5% to \$5.0 million at June 30, 2006 as compared to \$4.3 million at December 31, 2005. The allowance for loan losses equaled 1.41% of total loans outstanding at June 30, 2006 as compared to 1.30% at December 31, 2005. In addition the allowance for loan losses equaled 158% of non-performing loans and leases, which totaled \$3.2 million at June 30, 2006 and 455% of non-performing loans and leases at December 31, 2005 which totaled \$951,000. The increase in non-performing loans and leases is discussed further under "Provision for Loan Losses".

The Company had investment securities available for sale of \$63.1 million at June 30, 2006. The portfolio increased by \$1.0 million or 1.6% from the \$62.1 million balance at December 31, 2005. In addition the Company had investment securities held to maturity of \$2.2 million at June 30, 2006 and December 31, 2005.

Interest-earning deposits with banks at June 30, 2006 decreased by \$4.1 million or 92.7% to \$326,000 million compared to \$4.5 million at December 31, 2005. This decrease was primarily to fund loan growth. The Company holds funds in interest-earning deposits with banks to provide liquidity for future loan demand and to satisfy fluctuations in deposit levels.

Non interest-earning assets at June 30, 2006 increased by \$3.5 million or 9.3% to \$41.0 million compared to \$37.5 million at December 31, 2005. The increase is primarily attributable to an increase of \$3.6 million to \$16.1 million in the cash and due from banks category. The cash and due from banks primarily represents customer deposits that are in the process of collection and not available for overnight investment combined with cash on hand in the branches. In addition, bank premises and

Table of Contents

equipment was \$9.3 million at June 30, 2006, a decrease of \$332,000 from December 31, 2005. Accrued interest receivable increased \$144,000 to \$2.6 million at June 30, 2006 as a result of the timing in the collection of interest income, growth in the loan portfolio and the increase in the prime lending rate. Foreclosed real estate decreased by \$128,000 as a result of the sale of a 1-4 family property resulting in a loss of \$7,000. Other assets increased by \$199,000 at June 30, 2006 to \$2.9 million as a result of an increase in deferred income taxes of \$43,000, combined with the market value of interest rate floors purchased of \$144,000.

Total deposits increased \$16.0 million or 4.6% from \$345.4 million at December 31, 2005 to \$361.4 million at June 30, 2006. The composition of the deposit base, by category, at June 30, 2006 is as follows: 16% non-interest bearing demand deposits, 3% savings deposits, 20% money market and interest bearing demand deposits and 61% time deposits. The non-interest bearing demand deposits, savings deposits, and money market and interest bearing demand deposits categories all experienced decreases over the six-month period. Dollar and percentage decreases were as follows: non-interest bearing demand deposits, \$1.9 million or 3.3%; savings deposits, \$418,000 or 3.6%; and money market, \$271,000 or 0.4%. The time deposits category experienced an increase of, \$18.6 million or 9.2%. Time deposits of \$100,000 or more totaled \$130.0 million, or 36% of total deposits at June 30, 2006. The composition of deposits at December 31, 2005 was 17% non-interest bearing demand deposits, 3% savings deposits, 21% money market and interest bearing demand deposits and 59% time deposits.

The Company had advances from the Federal Home Loan Bank of Atlanta at June 30, 2006 of \$11.0 million with maturity dates ranging from December 2011 through February 2013. The balance of Federal Home Loan Bank advances at December 31, 2005 was \$11.1 million with maturity dates ranging from May 2006 through February 2013. These advances are secured by a blanket lien on 1-4 family real estate loans, certain commercial real property and certain securities available for sale. Total securities sold under agreement to repurchase, secured by certain of the Company's investment securities, increased \$1.5 million or 11.4% from \$11.7 million at December 31, 2005 to \$13.2 million at June 30, 2006. The Company borrowed \$6.3 million in federal funds purchased to fund short-term liquidity needs during the quarter. The Company also maintained the capital lease for its main office. The recorded obligation under this capital lease at June 30, 2006 was \$1.7 million. In addition, the Company carried subordinated debentures in the amount of \$13.9 million. Maturity dates of the subordinated debentures range from March 2032 to December 2033 and are redeemable March 2007 to December 2008.

Other liabilities decreased \$1.3 million or 65.7% to \$659,000 at June 30, 2006 from \$1.9 million at December 31, 2005. The decrease is primarily attributable to a decrease in accrued income taxes, which resulted from the tax payments of \$2.5 million in excess of accrued taxes payable of \$1.3 million during the six months ended June 30, 2006.

Comparison of Results of Operations for the Three Months Ended June 30, 2006 and 2005

Net Income. The Company generated net income for the three months ended June 30, 2006 of \$932,000 compared to net income for the three months ended June 30, 2005 of \$1,066,000. Earnings for the three months ended June 30, 2006 were negatively impacted by compensation expense related to stock options granted under SFAS 123R in the amount of \$218,000, net of income tax combined with the provision for loan losses of \$668,000. On a fully diluted per share basis earnings were \$.13 for 2006 compared to \$.16 for 2005. Per share earnings were also negatively affected by a 520,000 increase in average diluted common shares outstanding. The Company issued approximately 1,000,000 shares of stock in April 2005 from the exercise of warrants. These shares were not outstanding during the entire three month period ended June 30, 2005 resulting in a lower average number of shares outstanding during the period. For the three months ended June 30, 2006 and 2005, respectively annualized return on average assets was 0.82% and 1.06% and annualized return on average equity was 7.17% and 9.39%.

Table of Contents

Net Interest Income. Net interest income increased \$865,000 from \$3.9 million for the three months ended June 30, 2005 to \$4.8 million for the three months ended June 30, 2006. Total interest income benefited from growth in average earning assets combined with an increase in net interest margin.

Total average earning assets increased \$48.6 million or 13.1% from an average of \$370.7 million during the second quarter of 2005 to an average of \$419.3 million during the second quarter of 2006. The Company experienced strong loan growth with average loan balances increasing by \$44.9 million. The increase in average balances for investment securities and interest-earning deposits was \$8.5 million. Average interest-bearing liabilities increased by \$32.4 million during the three months ended June 30, 2006 of which \$32.2 million was attributable to deposits while borrowings increased \$187,000.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the quarter ended June 30, 2006 was 4.59% compared to 4.21% for the same quarter in 2005. The increase in net interest margin resulted primarily from the re-pricing of the Company's prime rate based loan portfolio due to eight increases in short-term rates by the Federal Open Market Committee since the second quarter of 2005. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, increased 16 basis points from 3.80% in the quarter ended June 30, 2005 to 3.96% for the same quarter in 2006.

Provision for Loan Losses. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company's provision for loan losses for the quarter ended June 30, 2006 was \$668,000, representing a \$486,000 or 267.0% increase from the \$182,000 recorded for the quarter ended June 30, 2005. The increase in the provision was primarily related to an increase in non-accrual loans and leases of \$2.5 million or 331% from \$742,000 at June 30, 2005 to \$3.2 million at June 30, 2006. The increase in non-accrual loans of \$1.2 million is comprised primarily of three loans secured substantially by real estate. One of the loans in the amount of \$453,000 is 75% guaranteed by the Small Business Administration which leaves an exposure of approximately \$113,000. The increase in non-accrual leases of \$1.3 million is comprised of 35 leases with average balances of approximately \$36,000 each. Management has provided individual reserves for these leases and is aggressively pursuing collection and liquidating any underlying collateral as necessary. With the recent retirement of our leasing manager, the Company has made the decision to discontinue originating new leases. Servicing for the remainder of the lease portfolio will be outsourced to a third party leasing company beginning in the third quarter until such time as the leases are paid out or the portfolio can be sold. As of June 30, 2006 the leasing portfolio totaled approximately \$11.8 million.

Non-interest Income. Non-interest income decreased by \$11,000 or 1.3% to \$869,000 for the three months ended June 30, 2006 compared with \$880,000 for the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 15.5% for the three months ended June 30, 2006 from 18.5% for the same period in the prior year primarily as a result of the increase in the Company's net interest income. The largest components of non-interest income were service charges on deposit accounts of \$601,000 for the quarter ended June 30, 2006, compared to \$585,000 in 2005 and fees from mortgage banking operations of \$106,000 in 2006 as compared to \$133,000 in 2005 or a 20.3% decrease. This decrease is primarily the result of the slowdown in the housing market in 2006 as a result of the increase in long-term mortgage rates.

Non-interest Expense. Total non-interest expense increased from \$2.9 million for the three months ended June 30, 2005 to \$3.4 million for the same period in 2006. This 19.1% increase was primarily due to compensation expense related to stock options granted under SFAS 123R of \$332,000 and increased expenses related to the opening of two new branches in the second quarter of 2006.

Table of Contents

Provision for Income Taxes. The Company's provision for income taxes, as a percentage of income before income taxes, was 38.0% and 36.9% for the three months ended June 30, 2006 and 2005, respectively.

Comparison of Results of Operations for the Six Months Ended June 30, 2006 and 2005

Net Income. The Company generated net income for the six months ended June 30, 2006 of \$2.2 million compared to net income for the six months ended June 30, 2005 of \$2.1 million. Earnings for the six months ended June 30, 2006 were negatively impacted by compensation expense related to stock options granted under SFAS 123R in the amount of \$232,000, net of income tax, combined with the provision for loan losses of \$940,000. On a per share basis, basic earnings were \$.33 for 2006 compared to \$.36 for 2005, and diluted earnings were \$.31 for 2006 compared to \$.34 for 2005. For the six months ended June 30, 2006 and 2005, respectively annualized return on average assets was 1.00% and 1.06% and annualized return on average equity was 8.71% and 10.09%.

Net Interest Income. Net interest income increased \$1.7 million from \$7.6 million for the six months ended June 30, 2005 to \$9.3 million for the six months ended June 30, 2006. Total interest income benefited from strong growth in average earning assets.

Total average earning assets increased \$44.3 million or 11.9% from an average of \$371.1 million during the first half of 2005 to an average of \$415.4 during the first half of 2006. The Company experienced strong loan growth with average loan balances increasing by \$39.6 million. Average balances for investment securities and interest-earning deposits increased \$9.3 million. Average interest-bearing liabilities increased by \$22.6 million of which \$29.6 million was attributable to deposits while borrowings decreased \$7.0 million.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the six months ended June 30, 2006 was 4.51% compared to 4.10% for the same period in 2005. The increase in net interest margin resulted primarily from the re-pricing of the Company's prime rate based loan portfolio due to eight increases in short-term rates by the Federal Open Market Committee since the second quarter of 2005. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, increased to 3.84% for the six months ended June 30, 2006 compared to 3.75% for the same period in 2005.

Provision for Loan Losses. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company's provision for loan losses for the six months ended June 30, 2006 was \$940,000, representing a \$649,000 or 223.0% increase over the \$291,000 recorded for the six months ended June 30, 2005. The increase in the provision was primarily related to an increase in non-accrual loans and leases of \$2.5 million or 331% from \$742,000 at June 30, 2005 to \$3.2 million at June 30, 2006. The increase in non-accrual loans of \$1.2 million is comprised primarily of three loans secured substantially by real estate. One of the loans in the amount of \$453,000 is 75% guaranteed by the Small Business Administration which leaves an exposure of approximately \$113,000. The increase in non-accrual leases of \$1.3 million is comprised of 35 leases with average balances of approximately \$36,000 each. Management has provided individual reserves for these leases and is aggressively pursuing collection and liquidating any underlying collateral as necessary. With the recent retirement of our leasing manager, the Company has made the decision to discontinue originating new leases. Servicing for the remainder of the lease portfolio will be outsourced to a third party leasing company beginning in the third quarter until such time as the leases are paid out or the portfolio can be sold. As of June 30, 2006 the leasing portfolio totaled approximately \$11.8 million.

Non-Interest Income. Non-interest income increased by \$69,000 or 4.2% to \$1.7 million for the six months ended June 30, 2006 compared with \$1.6 million for the same period in the prior year. Non-interest

Table of Contents

income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 15.5% at June 30, 2006 from 18.0% at June 30, 2005 primarily as a result of the increase in the Company's net interest income. The largest components of non-interest income were service charges on deposit accounts of \$1.2 million for the quarter ended June 30, 2006 as compared to \$1.1 million for the same period in 2005 or a 5.9% increase and fees from mortgage banking operations of \$187,000 in 2006 as compared to \$221,000 in 2005 or a 15% decrease. Service charge income increased primarily as a result of the increase in deposit transaction accounts. Fees from mortgage operations decreased due to rising rates.

Non-Interest Expenses. Total non-interest expense increased from \$5.3 million for the six months ended June 30, 2005 to \$6.5 million for the same period in 2006. This 16.7% increase was primarily due to compensation expense related to stock options granted under SFAS 123R of \$347,000 and increased operating expenses related to the opening of two new branches in the second quarter of 2006.

Income Taxes. The Company's provision for income taxes, as a percentage of income before income taxes, was 37.0% and 37.3% for the six months ended June 30, 2006 and 2005, respectively.

Liquidity and Capital Resources

Maintaining adequate liquidity while managing interest rate risk is the primary goal of the Company's asset and liability management strategy. Liquidity is the ability to fund the needs of the Company's borrowers and depositors, pay operating expenses, and meet regulatory liquidity requirements. Maturing investments, loan and mortgage-backed security principal repayments, deposit growth, borrowings from the Federal Home Loan Bank, and federal funds lines from correspondent banks are presently the main sources of the Company's liquidity. The Company's primary uses of liquidity are to fund loans, operating expenses, deposit withdrawals, repay borrowings and to make investments.

As of June 30, 2006, liquid assets (cash and due from banks, interest-earning deposits with banks, and investment securities available for sale) were approximately \$79.5 million, which represents 17.3% of total assets and 19.5% of total deposits and borrowings. Supplementing this liquidity, the Company has available lines of credit from correspondent banks of approximately \$28.0 million and an additional line of credit with the FHLB equal to 15% of assets (subject to available qualified collateral, with borrowings of \$11.0 million outstanding from the FHLB at June 30, 2006). At June 30, 2006, outstanding commitments to extend credit were \$7.2 million and available line of credit balances totaled \$79.8 million. Management believes that the combined aggregate liquidity position of the Company is sufficient to meet the funding requirements of loan demand and deposit maturities and withdrawals in the near term.

Certificates of deposit represented 61.1% of the Company's total deposits at June 30, 2006, and 58.5% at December 31, 2005. The Company's growth strategy will include efforts focused at increasing the relative volume of transaction deposit accounts. Certificates of deposit of \$100,000 or more represented 36.0% of the Company's total deposits at June 30, 2006. These deposits are generally considered rate sensitive, but management believes most of them are relationship-oriented. While the Company will need to pay competitive rates to retain these deposits at maturity, there are other subjective factors that will determine the Company's continued retention of those deposits.

Banks and bank holding companies, as regulated institutions, must meet required levels of capital. The FDIC and the Federal Reserve, the primary regulators of the Bank and Bancshares, respectively, have adopted minimum capital regulations or guidelines that categorize components and the level of risk associated with various types of assets. Financial institutions are expected to maintain a level of capital commensurate with the risk profile assigned to its assets in accordance with these guidelines. At June 30, 2006, the Company maintained capital levels exceeding the minimum levels for well capitalized bank holding companies and banks.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk reflects the risk of economic loss resulting from adverse changes in market price and interest rates. This risk of loss can be reflected in diminished current market values and/or reduced potential net interest income in future periods.

The Company's market risk arises primarily from interest rate risk inherent in its lending and deposit-taking activities. The structure of the Company's loan and deposit portfolios is such that a significant decline in interest rates may adversely impact net market values and net interest income. The Company does not maintain a trading account nor is the Company subject to currency exchange risk or commodity price risk. Interest rate risk is monitored as part of the Company's asset/liability management function, which is discussed above in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations under the heading Liquidity and Capital Resources.

Management does not believe there has been any significant change in the overall analysis of financial instruments considered market risk sensitive since December 31, 2005.

Item 4. Controls and Procedures

The Company maintains a system of internal controls and procedures designed to provide reasonable assurance as to the reliability of the consolidated financial statements and other disclosures included in this report. The Company's Board of Directors, operating through its audit committee which is composed entirely of independent outside directors, provides oversight to the Company's financial reporting process.

The Company's management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively), have concluded based on their evaluation as of the end of the period covered by this quarterly report that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer of the Company, as appropriate to allow timely decisions regarding required disclosure.

There were no significant changes in the Company's internal controls during the Company's last fiscal quarter that could significantly affect the Company's internal control over financial reporting.
