To the Trustee and Participants

American Community Bank 401 (k) Profit Sharing Plan

Monroe, North Carolina

We have audited the accompanying statement of net assets available for benefits of the American Community Bank 401 (k) Profit Sharing Plan (the Plan) as of December 31, 2006 and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan Administrator. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the American Community Bank 401 (k) Profit Sharing Plan as of December 31, 2006 and the changes in its net assets available for benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the 2006 basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We have compiled the accompanying statement of net assets available for benefits of the American Community Bank 401 (k) Profit Sharing Plan as of December 31, 2005 in accordance with the Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying 2005 statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

AMERICAN COMMUNITY BANK 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2006 and 2005

NOTE A PLAN DESCRIPTION

American Community Bank 401(k) Profit Sharing Plan is a trustee defined contribution plan covering substantially all employees of American Community Bank, the plan sponsor (the Company or Employer), with participation effective upon date of employment. An employee is eligible for Company matching contributions after 1,000 hours and one year of employment. Annual employer profit sharing contributions are at the sole discretion of the Company.

The Plan is administered by the Audit Committee as appointed by the Company's Board of Directors. Plan assets are held in trust, and transactions are executed therein by the trust department of FISERV, Inc.

Profit sharing contributions to the Plan are allocated to the individual participant's account in the proportion that each participant's annual compensation bears to the total annual compensation of all participants. However, this contribution will not exceed 25% of compensation, nor will a wage base in excess of statutory limits be used to compute any participant's contribution share.

The Plan also has a 401(k) feature. Participants may contribute a portion of their compensation to the Plan. These contributions are fully vested at the time of the contribution and the participants can select from twenty two options where the contributions are to be invested. The Company matches contributions of up to 3% of each employee's salary. Matching contributions of \$99,782 were made during the year ended December 31, 2006.

Investment income or loss is allocated to the individual participant's account in the proportion which the account of each such participant bears to the total of the accounts of all participants.

Active employees participating in the Plan at age 65 are permitted to withdraw up to 100% of their account balance in order to take advantage of other investment opportunities.

Upon termination of the Plan or upon complete discontinuance of contributions under the Plan, the rights of all participants to the amounts credited to the participants' accounts are nonforfeitable, and upon the occurrence of either of such events, the assets of the trust shall be administered and distributed to the participants and the beneficiaries at such time or times and in such nondiscriminatory manner as is determined by the committee to be consistent with Employee Retirement Income Security Act of 1974 and its related regulations.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer's matching and discretionary contributions and earnings thereon is based on years of service as follows:

Vesting

	Years of service					
	Less than 2	2	3	4	5	6 or more
Percent vested	0%	20%	40%	60%	80%	100%

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are used to reduce the Employer's contributions to the Plan and/or pay Plan administrative expenses.

NOTE B SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments in temporary investments and corporate stocks are carried at fair value as determined by quoted market prices. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. For investments in common trust funds, fair value represents the Plan's proportionate share of the total fair value of the securities in the common trust funds. Loans to participants are secured and are valued at cost plus accrued interest, which approximates fair value. Stable Value Fund is valued at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Expenses

Administrative expenses are paid by either the Plan or the Company, as provided in the plan agreement.

Payment of Benefits

Benefits are reported when paid.

Plan Termination

Although there is no intention to do so, the Plan can be terminated at any time by the Company. If terminated, the rights of all affected participants to the amounts credited to such participants' accounts shall be non-forfeitable and the assets of the Plan shall be administered and distributed to the participants and beneficiaries at such time and in such nondiscriminatory manner as prescribed by ERISA and its related regulations.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

AMERICAN COMMUNITY BANK 401(k) PROFIT SHARING PLAN**NOTES TO FINANCIAL STATEMENTS***December 31, 2006 and 2005***NOTE B SIGNIFICANT ACCOUNTING POLICIES (Continued)**Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE C INCOME TAX STATUS

The Plan obtained its latest determination letter in July 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

NOTE D INVESTMENTS

Investments held by the Plan at December 31, 2006 and 2005, are summarized in the following tables. Investments that represent 5% or more of the Plan's net assets and investments with companies who are known to be a party-in-interest to the Plan are separately identified.
