#### EXPLANATORY NOTE

Contango Oil & Gas Company (the Company, Contango, we, our, us) is hereby amending its previously filed Quarterly Report on Form 10for the quarter ended March 31, 2007 (the Original Filing). This Amendment No. 1 (the Amendment) is being filed solely to amend the following items:

Footnote No. 1 to the Consolidated Financial Statements Summary of Significant Accounting Policies, *Principles of Consolidation*, has been revised to more clearly explain the consolidation policy of our non-wholly owned subsidiaries; and

Item 2 *Management s Discussion and Analysis of Financial Condition and Results of Operations*, revised to replace the discussion in the Original Filing that was based on activity of continuing and discontinued operations combined, which was presented without differentiation and was inconsistent with the financial statement presentation. The revised discussion focuses on continuing operations apart from discontinued operations in accordance with generally accepted accounting principles (GAAP) and the provisions of Item 303(a) of Regulation S-K. Since we did not have any newly discontinued operations for the nine months ended March 31, 2007, the revisions restate the analysis comparing our more recent activity to that of the corresponding periods of the prior year. Additionally, we are providing expanded disclosures of Management s Discussion and Analysis covering the first and second quarters of the fiscal year ended June 30, 2007 for the same reason, rather than amending the earlier interim reports for such periods.

**Other than as specified above, this Amendment does not modify or affect the financial statements in the Original Filing.** As a result of this Amendment, the certifications filed as Exhibit 31.1 and Exhibit 32.1 have been re-executed as of the date of this Amendment. This Amendment does not reflect events occurring after the filing of the Original Filing or modify or update the disclosures therein in any way other than as described above. In accordance with Rule 12b-15 promulgated under the Securities Exchange Act of 1934, the complete text of each affected item, as amended, is included herein. Unaffected items have not been repeated in this Amendment.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information, pursuant to the rules and regulations of the Securities and Exchange Commission, including instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete annual financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are of a normal recurring nature. Certain prior year amounts have been reclassified to conform to the current year presentation. The financial statements should be read in conjunction with the audited financial statements and notes included in the Company s Form 10-K for the fiscal year ended June 30, 2006. The results of operations for the three and nine months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2007.

#### 1. Summary of Significant Accounting Policies

The application of generally accepted accounting principles involves certain assumptions, judgments, choices and estimates that affect reported amounts of assets, liabilities, revenues and expenses. Thus, the application of these principles can result in varying results from company to company. Contango s significant accounting policies are described below.

*Successful Efforts Method of Accounting.* The Company follows the successful efforts method of accounting for its natural gas and oil activities. Under the successful efforts method, lease acquisition costs and all development costs are capitalized. Unproved properties are reviewed quarterly to determine if there has been impairment of the carrying value, and any such impairment is charged to expense in the period. Exploratory drilling costs are capitalized until the results are determined. If proved reserves are not discovered, the exploratory drilling costs are expensed. Other exploratory costs, such as seismic costs and other geological and geophysical expenses, are expensed as incurred. The provision for depreciation, depletion and amortization is based on the capitalized costs as determined above. Depreciation, depletion and amortization is on a cost center by cost center basis using the unit of production method, with lease acquisition costs amortized over total proved reserves and other costs amortized over proved developed reserves.

When circumstances indicate that proved properties may be impaired, the Company compares expected undiscounted future net cash flows on a cost center basis to the unamortized capitalized cost of the asset. If the future undiscounted net cash flows, based on the Company s estimate of future natural gas and oil prices and operating costs and anticipated production from proved reserves, are lower than the unamortized capitalized cost, then the capitalized cost is reduced to fair market value. Approximately \$0.2 million of impairment was reported for the nine months ended March 31, 2007 which was attributable to a write-down of costs relating to the Alta-Ellis #1 well in December 2006.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144 (SFAS 144), Accounting for the Impairment or Disposal of Long-Lived Assets, the Company classified its \$11.6 million property sale effective April 1, 2006, and its \$2.0 million property sale effective February 1, 2006, as discontinued operations. An integral and on-going part of our business strategy is to sell our proved reserves from time to time in order to generate additional capital to reinvest in our onshore and offshore exploration programs. Thus, it is our intent to remain an independent natural gas and oil company engaged in the exploration, production, and acquisition of natural gas and oil.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

*Cash Equivalents.* Cash equivalents are considered to be highly liquid investment grade debt investments having an original maturity of 90 days or less. As of March 31, 2007, the Company had \$2,565,459 in cash and cash equivalents, of which \$665,483 was invested in highly liquid AAA-rated tax-exempt money market funds.

*Short Term Investments.* As of March 31, 2007, the Company had no money invested in a portfolio of periodic auction reset (PAR) securities, which typically have coupons that periodically reset to market interest rates at intervals ranging from 7 to 35 days. These PAR securities are ordinarily classified as short term investments and consist of AAA-rated tax-exempt municipal bonds. PAR securities are highly liquid and have minimal interest rate risk.

Principles of Consolidation. The Company s consolidated financial statements include the accounts of Contango Oil & Gas Company and its subsidiaries and affiliates, after elimination of all intercompany balances and transactions. Wholly-owned subsidiaries are fully consolidated. Exploration and development subsidiaries not wholly owned, such as 42.7% owned Republic Exploration LLC ( REX ), 50% owned Magnolia Offshore Exploration LLC ( MOE ), and 76.0% owned Contango Offshore Exploration LLC ( COE ) are not controlled by the Company and are proportionately consolidated.

Upon the formation of REX and MOE, Contango was the only owner that contributed cash, and under the terms of the respective limited liability company agreements, was entitled to all of the ventures assets and liabilities until the ventures expended all of the Company s initial cash contribution. The Company therefore consolidated 100% of the ventures net assets and results of operations. During the quarter ended December 31, 2002, both REX and MOE completed exploration activities to fully expend the Company s initial cash contribution, thereby enabling each owner to share in the net assets of the venture based on their stated ownership percentages. Commencing with the quarter ended December 31, 2002, the Company began consolidating 33.3% and 50.0% of the net assets and results of operations of REX and MOE, respectively. The reduction of our ownership in the net assets of REX and MOE resulted in a non-cash exploration expense of approximately \$4.2 million and \$0.2 million, respectively. The other owners of REX contributed seismic data and related geological and geophysical services, while the other owner of MOE contributed geological and geophysical services in exchange for its ownership interest.

Upon the formation of COE, Contango was the only owner that contributed cash, but by agreement, the owners in COE immediately shared in the net assets of COE, including the Company s initial cash contribution, based on their stated ownership percentages. The Company therefore consolidated 66.6% of the venture s net assets and results of operations. The other owner of COE contributed geological and geophysical services in exchange for its ownership interest.

On September 2, 2005, the Company purchased an additional 9.4% ownership interest in each of REX and COE. Both interests were purchased from an existing owner, which prior to the sale, owned 33.3% of each of the two subsidiaries. As a result of these two purchases, the Company s equity ownership interest in REX has increased from 33.3% to 42.7% and in COE from 66.6% to 76.0%. On September 2, 2005, an independent third party also purchased a 9.4% interest in each of REX and COE and the selling owner s ownership interest thus decreased from 33.3% to 14.6% in each such entity.

Contango s 10% limited partnership interest in Freeport LNG Development, L.P. (Freeport LNG) is accounted for at cost. As a 10% limited partner, the Company has no ability to direct or control the operations or management of the general partner.

Contango s 32% ownership in Contango Capital Partnership Management, LLC ( CCPM ), Contango s 25% limited partnership interest in Contango Capital Partners, L.P. ( CCPLP ) and Contango s 33% ownership of Moblize Inc. ( Moblize ) are accounted for using the equity method. Under the equity method, only Contango s investment in and amounts due to and from the equity investee are included in the consolidated balance sheet.

# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

CCPLP formed the Contango Capital Partners Fund, LP (the Fund ) in January 2005. The Fund owns equity interests in a portfolio of alternative energy companies. The Fund marks these equity interests to market according to fair market values on a quarterly basis.

Contango s investments in Gridpoint, Inc. (Gridpoint) is accounted for using the cost method. Under the cost method, Contango records an investment in the stock of an investee at cost, and recognizes dividends received as income. Dividends received in excess of earnings subsequent to the date of investment are considered a return of investment and are recorded as reductions of cost of the investment.

Contango s investment in Trulite, Inc. (Trulite) is accounted for in accordance with SFAS No. 115 (SFAS 115) Accounting for Certain Investments in Debt and Equity Securities . SFAS 115 applies to preferred stock and common stock, if ownership is less than 20%, or if ownership exceeds 20% but effective control (significant influence) is lacking. It is not applicable to investments under the equity method. Due to the nature and objective of our investment in Trulite, these securities are classified as available-for-sale securities under SFAS 115. Any unrealized gains or losses while marking these securities to market are reflected as a component of other comprehensive income at March 31, 2007.

*Recent Accounting Pronouncements.* In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. This pronouncement permits entities to use the fair value method to measure certain financial assets and liabilities by electing an irrevocable option to use the fair value method at specified election dates. After election of the option, subsequent changes in fair value would result in the recognition of unrealized gains or losses as period costs during the period the change occurred. SFAS No. 159 becomes effective as of the beginning of the first fiscal year that begins after November 15, 2007, with early adoption permitted. However, entities may not retroactively apply the provisions of SFAS No. 159 to fiscal years preceding the date of adoption. We are currently evaluating the impact that SFAS No. 159 may have on our financial position, results of operations or cash flows.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under Generally Accepted Accounting Principles and requires enhanced disclosures about fair value measurements. It does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. We do not expect SFAS No. 157 to have a material impact on the Company.

In July 2006, the FASB issued FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. It prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the provisions of FIN 48 and assessing the impact, if any, it may have on our financial position and results of operations.

*Stock-Based Compensation*. Effective July 1, 2001, the Company adopted the fair value based method prescribed in SFAS No. 123, Accounting for Stock Based Compensation . Under the fair value based method, compensation cost is measured at the grant date based on the fair value of the award and is recognized over the award vesting period. The fair value of each award is estimated as of the date of grant using the Black-Scholes options-pricing model. Effective July 1, 2005, the Company adopted SFAS No. 123 (revised 2004) (SFAS 123(R)), Share-Based Payment . Prior to the adoption of SFAS 123(R), the Company presented all benefits from the exercise of share-based compensation as operating cash flows in the statement of cash flows. SFAS 123(R) requires the benefits of tax deductions in excess of the compensation cost recognized for the options (excess tax benefit) to be classified as financing cash flows. The fair value of each option is estimated as of the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions used for grants during the quarters ended March 31, 2007 and 2006, respectively: (i) risk-free interest rates of 5.0 and 4.5 percent; (ii) expected lives of five years; (iii) expected volatility of 56 percent and 40 percent and (iv) expected dividend yield of zero percent.

Under the Company s 1999 Stock Incentive Plan, as amended (the 1999 Plan ), the Company s Board of Directors may also grant restricted stock awards to officers or other employees of the Company. Restricted stock awards made under the 1999 Plan are subject to such restrictions, terms and conditions, including forfeitures, if any, as may be determined by the Board. Restricted stock awards generally vest over a period of three years. Grants of service based restricted stock awards are valued at our common stock price at the date of grant. During the nine months ended March 31, 2007, the Company granted 16,750 shares of restricted stock to its employees, and 8,416 shares of restricted stock to its Board of Directors vest over a period of one year.

On February 7, 2007, the Company granted 200,000 options to the Chairman and CEO at a fair value of \$11.25 per option, to be expensed over the vesting period. During the nine months ended March 31, 2007 and 2006, the Company recorded stock-based compensation charges of \$1,158,069 and \$599,695 to general and administrative expense, respectively.

#### 2. Natural Gas and Oil Exploration Risk

The Company s future financial condition and results of operations will depend upon prices received for its natural gas and oil production and the cost of finding, acquiring, developing and producing reserves. Substantially all of its production is sold under various terms and arrangements at prevailing market prices. Prices for natural gas and oil are subject to fluctuations in response to changes in supply, market uncertainty and a variety of other factors beyond the Company s control.

Other factors that have a direct bearing on the Company s financial condition are uncertainties inherent in estimating natural gas and oil reserves and future hydrocarbon production and cash flows, particularly with respect to wells that have not been fully tested and with wells having limited production histories; the timing and costs of our future drilling; development and abandonment activities; access to additional capital; changes in the price of natural gas and oil; availability and cost of services and equipment; and the presence of competitors with greater financial resources and capacity. The preparation of our financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions that affect our reported results of operations, the amount of reported assets, liabilities and contingencies, and proved natural gas and oil reserves. We use the successful efforts method of accounting for our natural gas and oil activities.

#### 3. Credit Risk

The majority of the Company s revenues for the three and nine months ended March 31, 2007 resulted from oil and gas sales to a single customer, Cokinos Energy Corporation. The receivables associated with these revenues are secured with letters of credit. We believe the loss of this purchaser would not have a material effect on our financial position or results of operation since there are numerous potential purchasers of our production.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### 7. Acquisition of Interest in Partially-Owned Subsidiaries and Overriding Royalties

On September 2, 2005, we purchased an additional 9.4% ownership interest in each of our two partially-owned offshore Gulf of Mexico exploration subsidiaries, REX for \$5.6 million and COE for \$1.9 million, for a total expenditure of \$7.5 million. Both interests were purchased from Juneau Exploration, L.P. (JEX), which prior to the sale, owned 33.3% of each of the two subsidiaries. As a result of these two purchases, the Company's equity ownership interest in REX has increased from 33.3% to 42.7% and in COE from 66.6% to 76.0%. The purchases were financed from the Company's existing cash on hand. An independent third party also purchased a 9.4% interest in each of REX and COE from JEX for the same total purchase price of \$7.5 million. JEX will continue in its capacity as the managing member of both REX and COE and following these two sales, now owns a 14.6% interest in each of REX and COE.

The purchase price paid in excess of the subsidiaries net assets acquired (purchase price allocation) was allocated to the various assets owned by the subsidiaries during the quarter ended September 30, 2005. These assets include planned drilling commitments, unevaluated exploration blocks, and proven developed producing properties. A significant portion of the purchase price allocation was allocated to our Eugene Island 10 (Dutch) and Grand Isle 63/72/73 (Liberty) exploration prospects.

On November 7, 2005, the Company, in a separate transaction, also acquired certain overriding royalty interests in REX, COE and MOE offshore prospects for the purchase price of \$1.0 million.

The Term Loan Agreement is secured with substantially all the assets of the Company, except for the stock of Contango Sundance, Inc. (Sundance), our wholly-owned subsidiary. As of March 31, 2007, the Company had borrowed \$10.0 million under the Term Loan Agreement. Borrowings under the Term Loan Agreement bear interest at 30 day LIBOR plus 5.0%. An arrangement fee of 1%, or \$300,000, was paid in connection with the term loan. Additionally, we pay a non-use fee in the amount of 0.50% per annum multiplied by such non-funded amount.

The Company has \$20.0 million outstanding under a three-year \$20.0 million secured term loan facility with The Royal Bank of Scotland plc (the RBS Facility ). The RBS Facility is secured with the stock of Sundance. Sundance owns a 10% limited partnership interest in Freeport LNG, which owns the Freeport LNG facility. Borrowings under the RBS Facility bear interest, at the Company s option, at either (i) 30 day LIBOR, (ii) 60 day LIBOR, (iii) 90 day LIBOR or (iv) 6 month LIBOR, all plus 6.5%.
