Item 2.06 Material Impairments

On November 23, 2007, the Company's management announced it will record a non-cash charge for the impairment of assets associated with its Retail Products segment for approximately \$255 million.

This charge reflects a lower fair value of the segment based on continued adverse trends in raw material and energy costs, and a higher discount rate to reflect current market conditions.

The Company performed an asset impairment analysis during the fourth quarter of 2007 in accordance with Statement of Financial Accounting Standards (SFAS) No. 144. The asset impairment analysis was completed on November 16, 2007, and the charge will be included in the Company's fourth quarter results. We expect the majority of this charge will be allocated to goodwill.
