The following table provides our consolidated ratio of earnings to fixed charges:

	Years Ended December 31,

Fixed charges consist of interest costs and amortization of debt discount and premium on all indebtedness and the estimated interest portion of all rental expense.

RISK FACTORS

Your investment in the bonds will involve certain risks. Before investing in the bonds, you should carefully consider the following discussion as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, including the information under **Risk Factors** on page 5 of the accompanying prospectus, which has been updated by ITEM 1A, Risk Factors, of our annual report on Form 10-K for the year ended December 31, 2007.

There is no public market for the bonds.

We can give no assurances concerning the liquidity of any market that may develop for the bonds offered hereby, the ability of any investor to sell any of the bonds, or the price at which investors would be able to sell them. If a market for the bonds does not develop, investors may be unable to resell the bonds for an extended period of time, if at all. If a market for the bond does develop, it may not continue or it may not be sufficiently liquid to allow holders to resell any of the bonds. Consequently, investors may not be able to liquidate their investment readily, and lenders may not readily accept the bonds as collateral for loans.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the bonds, after deducting underwriting compensation and estimated fees and expenses, to refinance commercial paper having an approximate weighted average interest rate of 4.26% per annum as of February 22, 2008, and for other general corporate purposes.

Table of Contents**CAPITALIZATION**

The following table sets forth our consolidated capitalization and short-term debt as of December 31, 2007, and as adjusted to give effect to the issuance and sale of the bonds and the use of the net proceeds from this offering as set forth under "Use of Proceeds" above. This table should be read in conjunction with our consolidated financial statements and related notes for the year ended December 31, 2007, incorporated by reference in this prospectus supplement and the accompanying prospectus. DESCRIPTION OF THE BONDS AND FIRST AND REFUNDING MORTGAGE

The following description of the particular terms of the offered bonds is qualified in its entirety by the more detailed information appearing elsewhere in this prospectus supplement and the accompanying prospectus. References in this description of the bonds and our First and Refunding Mortgage (Mortgage) to we, our, us or the Company are to PECO Energy Company and not its subsidiaries.

Securities Offered

The bonds will be issued under our Mortgage as proposed to be further supplemented by a supplemental mortgage indenture relating to the bonds. The bonds will initially be limited in aggregate principal amount to \$500,000,000. We may issue additional bonds under our Mortgage with the same priority as the bonds offered by this prospectus supplement, including bonds having the same series designation and terms (except for the public offering price and the issue date) as the bonds offered by this prospectus supplement, without the approval of the holders of the outstanding bonds issued under our Mortgage, including the bonds offered by this prospectus supplement. The bonds will be secured equally with all other bonds outstanding or hereafter issued under our Mortgage. The bonds will be issued in book-entry form only in denominations of \$1,000 and authorized multiples thereof.

Principal, Maturity and Interest

Interest on the bonds will be payable on March 1 and September 1 of each year, beginning on September 1, 2008, until the principal is paid or made available for payment. Interest on the bonds will accrue from the most recent date to which interest has been paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. The bonds will mature on March 1, 2018.

The Company may fix a date, not more than fourteen calendar days prior to any interest payment date for the bonds, as a record date for determining the registered holders of the bonds entitled to interest payments. Only the registered holder on such record date will be entitled to receive an payment, notwithstanding any transfer of the bond subsequent to such record date.

Redemption at our Option

We may, at our option, redeem the bonds in whole or in part at any time at a redemption price equal to the greater of:

100% of the principal amount of the bonds to be redeemed, plus accrued interest to the redemption date, or

as determined by the Quotation Agent, the sum of the present values of the remaining scheduled payments of principal and interest on the bonds to be redeemed (not including any portion of payments of interest accrued as of the redemption date) discounted to the redemption date on a semi-annual basis at the Adjusted Treasury Rate plus 25 basis points, plus accrued interest to the redemption date. The redemption price will be calculated assuming a 360-day year consisting of twelve 30-day months.

We will mail notice of any redemption at least 30 days, but not more than 45 days before the redemption date to each registered holder of the bonds to be redeemed.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the bonds or portions of the bonds called for redemption.

Adjusted Treasury Rate means, with respect to any redemption date, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

Table of Contents

Business Day means any day that is not a day on which banking institutions in New York City are authorized or required by law or regulation to close.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the bonds that would be used, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the bonds.

Comparable Treasury Price means, with respect to any redemption date:

the average of the Reference Treasury Dealer Quotations for that redemption date, after excluding the highest and lowest of the Reference Treasury Dealer Quotations; or

if the trustee obtains fewer than three Reference Treasury Dealer Quotations, the average of all Reference Treasury Dealer Quotations so received.

Quotation Agent means the Reference Treasury Dealer appointed by us.

Reference Treasury Dealer means (1) each of Goldman, Sachs & Co., Lehman Brothers Inc. and BNY Capital Markets, Inc. and their respective successors, unless any of them ceases to be a primary U.S. Government securities dealer in New York City (a **Primary Treasury Dealer**), in which case we shall substitute another Primary Treasury Dealer, and (2) any other Primary Treasury Dealer selected by us.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by that Reference Treasury Dealer at 5:00 p.m., New York City time, on the third Business Day preceding that redemption date.

Form

The bonds will be registered in the name of Cede & Co., as registered owner and as nominee for The Depository Trust Company, New York, New York (DTC). Beneficial interests in the bonds will be shown on, and transfers will be effected only through, records maintained by DTC (with respect to participants' interests) and its participants. Except as described in this prospectus supplement or the accompanying prospectus, the bonds will not be issued in certificated form. The bonds will trade in DTC's Same-Day Funds Settlement System until maturity, and secondary market trading activity for the bonds will therefore settle in immediately available funds.

Security

The bonds will be secured equally with all other mortgage bonds outstanding or hereafter issued under our Mortgage by the lien of our Mortgage, subject to (1) minor exceptions and certain excepted encumbrances that are defined in the mortgage and (2) the mortgage trustee's prior lien for compensation and expenses, constitutes a first lien on substantially all of our properties. Our Mortgage does not constitute a lien on any property owned by our subsidiaries or affiliates. Our properties consist principally of electric transmission and distribution lines and substations, gas distribution facilities and general office and service buildings.

We may not issue securities which will rank ahead of the mortgage bonds as to security. We may acquire property subject to prior liens. If such property is made the basis for the issuance of additional bonds after we acquire it, all additional bonds issued under the prior lien must be pledged with the mortgage trustee as additional security under our Mortgage.

Table of Contents

Authentication and Delivery of Additional Bonds

Our Mortgage permits the issuance from time to time of additional mortgage bonds, without limit as to aggregate amount. Additional mortgage bonds may be in principal amount equal to:

- (1) the principal amount of underlying bonds secured by a prior lien upon property acquired by us after March 1, 1937 and deposited with the mortgage trustee under the Mortgage;
- (2) the principal amount of any such underlying bonds redeemed or retired, or for the payment, redemption or retirement of which funds have been deposited in trust;
- (3) the principal amount of bonds previously authenticated under the Mortgage on or after March 1, 1937, which have been delivered to the mortgage trustee;
- (4) the principal amount of bonds previously issued under the Mortgage on or after March 1, 1937, which are being refunded or redeemed, if funds for the refunding or redemption have been deposited with the mortgage trustee;
- (5) an amount not exceeding 60% of the actual cost or the fair value, whichever is less, of the net amount of permanent additions to the property subject to the lien of the mortgage, made or acquired after November 30, 1941, and of additional plants or property acquired by us after November 30, 1941, and to be used in connection with its electric or gas business as part of one connected system and located in Pennsylvania or within 150 miles of Philadelphia; and
- (6) the amount of cash deposited with the mortgage trustee, which cash shall not at any time exceed \$3,000,000 or 10% of the aggregate principal amount of bonds then outstanding under the mortgage, whichever is greater, and which cash may subsequently be withdrawn to the extent of 60% of capital expenditures, as described in clause (5) above.

No additional bonds may be issued under our Mortgage as outlined in clauses (5) and (6) and, in certain cases, clause (3) above, unless the net earnings test of the Mortgage is satisfied. The net earnings test of the mortgage, which relates only to the issuance of additional mortgage bonds, requires for 12 consecutive calendar months, within the 15 calendar months immediately preceding the application for such bonds, that our net earnings, after deductions for amounts set aside for renewal and replacement or depreciations reserves and before provision for income taxes, must have been equal to at least twice the annual interest charges on all bonds outstanding under the Mortgage (including those then applied for) and any other bonds secured by a lien on our property.

Release and Substitution of Property

While no event of default exists, we may obtain the release of the lien of the Mortgage on mortgaged property which is sold or exchanged if (1) we deposit or pledge cash or purchase money obligations with the mortgage trustee, or (2) in certain instances, if we substitute other property of equivalent value. The Mortgage also contains certain requirements relating to our withdrawal or application of proceeds of released property and other funds held by the mortgage trustee.

Corporate Existence

We may consolidate or merge with or into or convey, transfer or lease all, or substantially all, of the Mortgage property to any corporation lawfully entitled to acquire or lease and operate the property, provided that: such consolidation, merger, conveyance, transfer or lease in no respect impairs the lien of the Mortgage or any rights or powers of the mortgage trustee or the holders of the outstanding mortgage bonds; and such successor corporation executes and causes to be recorded an indenture which assumes all of the terms, covenants and conditions of the Mortgage and any indenture supplement thereto.

Edgar Filing: PECO ENERGY CO - Form 424B2

The Mortgage does not contain any covenant or other provision that specifically is intended to afford holders of our mortgage bonds special protection in the event of a highly leveraged transaction. The issuance of long-term debt securities requires the approval of the PAPUC.

S-8

Table of Contents

Defaults

Events of default are defined in the Mortgage as (1) default for 60 days in the payment of interest on mortgage bonds or sinking funds deposits under the Mortgage, (2) default in the payment of principal of bonds under the mortgage at maturity or upon redemption, (3) default in the performance of any other covenant in the Mortgage continuing for a period of 60 days after written notice from the trustee, and (4) certain events of bankruptcy or insolvency of our company.

Upon the authentication and delivery of additional mortgage bonds or the release of cash or property, we are required to file documents and reports with the mortgage trustee with respect to the absence of default.

Rights of Bondholders upon Default

Upon the occurrence of an event of default, the holders of a majority in principal amount of all the outstanding mortgage bonds may require the mortgage trustee to accelerate the maturity of the mortgage bonds and to enforce the lien of the Mortgage. Prior to any sale under the Mortgage, and upon the remedying of all defaults, any such acceleration of the maturity of the mortgage bonds may be annulled by the holders of at least a majority in principal amount of all the outstanding mortgage bonds. The Mortgage permits the mortgage trustee to require indemnity before proceeding to enforce the lien of the Mortgage.

Amendments

We and the mortgage trustee may amend the Mortgage without the consent of the holders of the mortgage bonds: (1) to subject additional property to the lien to the Mortgage; (2) to define the covenants and provisions permitted under or not inconsistent with the Mortgage; (3) to add to the limitations of the authorized amounts, date of maturity, method, conditions and purposes of issue of any bonds issued under the Mortgage; (4) to evidence the succession of another corporation to us and the assumption by a successor corporation of our covenants and obligations under the Mortgage; (5) to make such provision in regard to matters or questions arising under the mortgage as may be necessary or desirable and not inconsistent with the Mortgage.

We and the mortgage trustee may amend the Mortgage or modify the rights of the holders of the mortgage bonds with the written consent of at least 66 2/3% of the principal amount of the mortgage bonds then outstanding; provided, that no such amendment shall, without the written consent of the holder of each outstanding mortgage bond affected thereby: (1) change the date of maturity of the principal of, or any installment hereof on, any mortgage bond, or reduce the principal amount of any mortgage bond or the interest thereon or any premium payable on the redemption thereof, or change any place of payment where, or currency in which, any mortgage bond or interest thereon is payable, or impair the right to institute suit for the enforcement of any such payment on or after the date of maturity thereof; or (2) reduce the percentage in principal amount of the outstanding mortgage bonds, the consent of whose holders is required for any amendment, waiver of compliance with the provisions of the mortgage or certain defaults and their consequences; or (3) modify any of the amendment provisions or Section 22 of Article VIII (relating to waiver of default), except to increase any such percentage or to provide that certain other provisions of the Mortgage cannot be modified or waived without the consent of the holder of each mortgage bond affected thereby.

Governing Law

The Mortgage is governed by the laws of the Commonwealth of Pennsylvania.

Mortgage Trustee

U.S. Bank National Association, the trustee under the Mortgage, is the registrar and disbursing agent for our mortgage bonds. U.S. Bank National Association is also our depository, from time to time makes loans to us and is trustee for three series of senior unsecured notes of our affiliate, Exelon Generation Company, LLC.

Table of Contents

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

General

The following is a summary of certain federal income tax consequences material to the purchase, ownership and disposition of the bonds. This summary is based upon current provisions of the Internal Revenue Code (Code), proposed, temporary and final Treasury regulations thereunder, and published rulings and court decisions currently in effect. The current tax laws and the current regulations, administrative rulings and court decisions may be changed, possibly retroactively, and may be subject to differing interpretation. The statements set forth in the following discussion, to the extent they constitute matters of United States federal income tax law or legal conclusions with respect thereto, represent the opinion of Ballard Spahr Andrews & Ingersoll, LLP.

The following summary does not furnish information in the level of detail or with the attention to an investor's specific tax circumstances that would be provided by an investor's own tax advisor. For example, it does not discuss the tax consequences of the purchase, ownership and disposition of the bonds by investors that are subject to special treatment under the federal income tax laws, including banks and thrifts, insurance companies, regulated investment companies, dealers in securities, holders that will hold the bonds as a position in a straddle or as a part of a synthetic security or conversion transaction or other integrated investment comprised of the bonds and one or more other investments, trusts and estates, and pass-through entities, the equity holders of which are any of these specified investors. In addition, the discussion regarding the bonds is limited to the federal income tax consequences of the initial investors (and not a purchaser in the secondary market) that have purchased bonds and hold those bonds as capital assets within the meaning of Section 1221 of the Code. This discussion does not address the tax consequences for a beneficial owner of a bond who or which is not a United States person for United States federal income tax purposes. Finally, the following summary assumes, as is expected, that the bonds will be issued without original issue discount.

Interest

Interest on a bond will be taxed to a beneficial owner of a bond as ordinary interest income at the time it accrues or is received, in accordance with the beneficial owner's regular method of accounting for federal income tax purposes.

Disposition of a Bond

Upon the sale, exchange, redemption or other disposition of a bond, a beneficial owner of a bond generally will recognize taxable gain or loss equal to the difference, if any, between the amount realized on the sale, exchange, redemption or other disposition (not including any amount attributable to accrued but unpaid interest) and the beneficial owner's adjusted tax basis in the bond. Any amount attributable to accrued but unpaid interest will be treated as a payment of interest and taxed in the manner described above under Interest. In general, the beneficial owner's adjusted tax basis in a bond will be equal to the initial purchase price of the bond paid by the beneficial owner, reduced by the amount of principal payments on the bond received before such date of sale, exchange, redemption or other disposition.

Gain or loss recognized on the sale, exchange, redemption or retirement of a bond generally will be capital gain or loss, and will be long-term capital gain or loss if at the time of sale, exchange, redemption or retirement the bond has been held by the investor for more than one year. For individuals, the excess of net long-term capital gains over net short-term capital losses generally is taxed at a lower rate than ordinary income. Capital losses are, with very limited exception, deductible only to the extent of capital gains recognized during the taxable year. Any excess capital losses may be carried over to and deducted in other taxable years subject to certain limitations.

Information Reporting and Backup Withholding

Information reporting requirements apply to interest and principal payments made to, and to the proceeds of sales or other dispositions before maturity by, certain noncorporate owners of bonds. Generally, we must report annually to the Internal Revenue Service (IRS), the amount of interest that we paid to an owner of a bond and the amount of tax that we withheld on that interest. In addition, backup withholding applies to a noncorporate owner if

Table of Contents

the owner fails to furnish his or her taxpayer identification number, which for an individual would be his or her Social Security Number, to the payor in the manner required,

the owner furnishes an incorrect taxpayer identification number and the payor is so notified by the IRS,

the payor is notified by the IRS that the owner has failed to properly report payments of interest and dividends, or

in certain circumstances, the owner fails to certify, under penalties of perjury, that he or she has furnished a correct taxpayer identification number and has not been notified by the IRS that he or she is subject to backup withholding for failure to properly report interest and dividend payments.

The current rate of backup withholding is 28% of the amount paid prior to December 31, 2008. Any amounts withheld under backup withholding rules will be allowed as a refund or credit against an owner's federal income tax liability, provided the required information is timely furnished to the IRS.

The United States federal income tax discussion set forth above is included for general information only and may not be applicable depending upon an owner's particular situation. Prospective purchasers of the bonds should consult their own tax advisors with respect to the tax consequences to them of the ownership and disposition of bonds, including the tax consequences under state, local, foreign and other tax laws and the possible effects of changes in United States or other tax laws.

The underwriters have agreed to purchase all of the bonds sold pursuant to the underwriting agreement if any of the bonds are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended (Securities Act), or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the bonds, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the bonds, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

It is expected that delivery of the bonds will be made on or about the date specified on the cover page of this prospectus supplement, which will be the fifth business day following the date of this prospectus supplement (T + 5). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade bonds on the date of this prospectus supplement or the next succeeding business day will be required, by virtue of the fact that the bonds initially will settle in T + 5, to specify an alternate settlement cycle at the time of any such trade to prevent failed settlement and should consult their own advisors.

Commissions and Discounts

The underwriters have advised us that they propose initially to offer the bonds to the public at the public offering price on the cover page of this prospectus supplement, and to dealers at that price less a concession not in excess of 0.40% of the principal amount of the bonds. The underwriters may allow, and the dealers may reallow, a discount not in excess of 0.20% of the principal amount of the bonds to other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The expenses of the offering, not including the underwriting discount, are estimated to be \$485,535 and are payable by us.

New Issue of Bonds

The bonds are a new issue of securities with no established trading market. We do not intend to apply for listing of the bonds on any national securities exchange or for quotation of the bonds on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the bonds after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the bonds or that an

Table of Contents

active public market for the bonds will develop. If an active public trading market for the bonds does not develop, the market price and liquidity of the bonds may be adversely affected.

Price Stabilization and Short Positions

In connection with the offering, the underwriters are permitted to engage in transactions that stabilize the market price of the bonds. Such transactions consist of bids or purchases to peg, fix or maintain the price of the bonds. If the underwriters create a short position in the bonds in connection with the offering, *i.e.*, if they sell more bonds than are on the cover page of this prospectus supplement, the underwriters may reduce that short position by purchasing bonds in the open market. Purchases of a security to stabilize the price or to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases.

The underwriters may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased bonds sold for the account of such underwriter in stabilizing or short covering transactions.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the bonds. In addition, neither we nor any of the underwriters makes any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Other Relationships

Some of the underwriters and their affiliates have engaged in, and some or all of the underwriters may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us and our affiliates. They have received and may continue to receive customary fees and commissions for these transactions. Each of Goldman, Sachs & Co., Lehman Brothers Inc., BNY Capital Markets, Inc., Mizuho Securities USA Inc. and Greenwich Capital Markets, Inc. has banking affiliates who are lending parties in our revolving credit facilities.

LEGAL MATTERS

Ballard Spahr Andrews & Ingersoll, LLP, Philadelphia, Pennsylvania, will render an opinion as to the validity of the bonds for us, and certain legal matters will be passed on for the underwriters by Winston & Strawn LLP, Chicago, Illinois. Winston & Strawn LLP provides legal services to Exelon and its subsidiaries, including us, from time to time.

All reports and other documents subsequently filed by us pursuant to Sections 13(a), 13(c), 14 and 15(d) of the Exchange Act, prior to the filing of a post-effective amendment, which indicates that all of a class of securities offered hereby have been sold or which deregisters all of a class of securities then remaining unsold, shall be deemed incorporated by reference herein and to be a part hereof from the date of filing of such documents.

We have not included or incorporated by reference any separate financial statements of the trusts. We do not consider the financial statements of the trusts to be material to holders of the trust preferred securities because each trust (1) is a special purpose entity that has no operating history or independent operations and (2) is not engaged in and does not propose to engage in any activity other than holding our subordinated debt securities and issuing the trust preferred securities. We do not expect the trusts to file periodic reports under Sections 13 and 15(d) of the Exchange Act.

RISK FACTORS

Investing in the Securities involves various risks. You are urged to read and consider the risk factors described in the Annual Reports on Form 10-K of Exelon, Generation and PECO, as applicable, for the year ended December 31, 2006, filed with the SEC on February 13, 2007, which have been updated under Part II, Item A of our quarterly reports on Form 10-Q for the quarters ended March 31, 2007, June 30, 2007 and September 30, 2007 and incorporated by reference in this prospectus. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus. The risks and uncertainties we have described are not the only ones facing Exelon, Generation and PECO. The prospectus supplement applicable to each type or series of Securities we offer will contain a discussion of additional risks applicable to an investment in us and the particular type of Securities we are offering under that prospectus supplement.

Table of Contents

EXELON CORPORATION

Exelon, a utility services holding company, operates through its principal subsidiaries - Generation, Commonwealth Edison Company (ComEd) and PECO.

Exelon was incorporated in Pennsylvania in February 1999. Exelon's principal executive offices are located at 10 South Dearborn Street, Chicago, Illinois 60603, and its telephone number is 312-394-7700.

As discussed further below, Generation's business consists of its owned and contracted electric generating facilities, wholesale energy marketing operations and competitive retail sales operations.

Exelon's regulated energy delivery operations consist of ComEd and PECO.

ComEd is engaged principally in the purchase and regulated retail and wholesale sale of electricity and the provision of distribution and transmission services to a diverse base of residential, commercial, industrial and wholesale customers in northern Illinois. ComEd is subject to extensive regulation by the Illinois Commerce Commission (ICC) as to rates and service, the issuance of securities, and certain other aspects of ComEd's operations. ComEd is also subject to regulation by the Federal Energy Regulatory Commission (FERC) as to transmission rates and certain other aspects of ComEd's business.

ComEd's retail service territory has an area of approximately 11,300 square miles and an estimated population of approximately eight million. The service territory includes the City of Chicago, an area of about 225 square miles with an estimated population of three million. ComEd has approximately 3.8 million customers.

As discussed further below, PECO is engaged principally in the purchase and regulated retail sale of electricity and the provision of transmission and distribution services to residential, commercial and industrial customers in southeastern Pennsylvania, including the City of Philadelphia, as well as the purchase and regulated retail sale of natural gas and the provision of distribution services to residential, commercial and industrial customers in the Pennsylvania counties surrounding the City of Philadelphia.

EXELON GENERATION COMPANY, LLC

Generation was formed in 2000 as a Pennsylvania limited liability company. Generation began operations as a result of a corporate restructuring effective January 1, 2001 in which Exelon separated its generation and other competitive businesses from its regulated energy delivery businesses at ComEd and PECO. Generation's principal executive offices are located at 300 Exelon Way, Kennett Square, Pennsylvania 19348, and its telephone number is 610-765-5959.

Edgar Filing: PECO ENERGY CO - Form 424B2

Generation is one of the largest competitive electric generation companies in the United States, as measured by owned and controlled megawatts (MWs). Generation combines its large generation fleet with an experienced wholesale energy marketing operation and a competitive retail sales operation.

At December 31, 2006, Generation owned generation assets with an aggregate net capacity of 25,543 MWs, including 16,945 MWs of nuclear capacity. In addition, Generation controlled another 7,691 MWs of capacity through long-term contracts.

Generation's wholesale marketing unit, Power Team, a major wholesale marketer of energy, draws upon Generation's energy generation portfolio and logistical expertise to ensure delivery of energy to Generation's wholesale customers under long-term and short-term contracts, including a power purchase agreement (PPA) with PECO and, beginning in 2007, ICC-approved standardized supplier forward contracts and other power purchase agreements with ComEd and Ameren Corporation. In addition, Power Team markets energy in the wholesale bilateral and spot markets.

Table of Contents

Generation's retail business provides retail electric and gas services as an unregulated retail energy supplier in Illinois, Michigan and Ohio. Generation's retail business is dependent upon continued deregulation of retail electric and gas markets and its ability to obtain supplies of electricity and gas at competitive prices in the wholesale market. The low-margin nature of the business makes it important to service customers with higher volumes so as to manage costs.

The PPA between Generation and PECO expires at the end of 2010. Generation's PPA with ComEd expired at the end of 2006. In September 2006, Generation participated in and won portions of the ComEd and Ameren auctions in Illinois for the procurement of electricity. As a result of the expiration of the PPA with ComEd and the results of the auctions, beginning in 2007, Generation sells more power through bilateral agreements with other new and existing counterparties.

Table of Contents

PECO ENERGY COMPANY

PECO's principal executive offices are located at 2301 Market Street, Philadelphia, PA 19101-8699, and its telephone number is (215) 841-4000.

PECO is subject to extensive regulation by the Pennsylvania Public Utility Commission (PAPUC) as to electric and gas rates and service, the issuances of certain securities and certain other aspects of PECO's operations. PECO is also subject to regulation by FERC as to transmission rates and certain other aspects of PECO's business.

PECO's retail service territory has an area of approximately 2,100 square miles and an estimated population of approximately 3.8 million. PECO provides electric delivery service in an area of approximately 2,000 square miles, with a population of approximately 3.7 million, including 1.5 million in the City of Philadelphia. Natural gas service is supplied in an area of approximately 1,900 square miles in southeastern Pennsylvania adjacent to the City of Philadelphia, with a population of approximately 2.3 million. PECO delivers electricity to approximately 1.6 million customers and natural gas to approximately 480,000 customers.

PECO has the necessary authorizations to furnish regulated electric and gas service in the various municipalities or territories in which it now supplies such services. PECO's authorizations consist of charter rights and certificates of public convenience issued by the PAPUC and/or grandfathered rights. These rights are generally unlimited as to time and are generally exclusive from competition from other electric and gas utilities. In a few defined municipalities, PECO's gas service territory authorizations overlap with that of another gas utility but PECO does not consider those situations as posing a material competitive or financial threat.

EXELON CAPITAL TRUST I, EXELON CAPITAL TRUST II AND

EXELON CAPITAL TRUST III

Each of Exelon Capital Trust I, Exelon Capital Trust II and Exelon Capital Trust III is a Delaware statutory trust that was formed on August 25, 2003. Consequently, all of the forward-looking statements made in this prospectus are qualified by these cautionary statements and we cannot assure you that the results or developments anticipated by us will be realized or, even if realized, will have the expected consequences to or effects on us or our business prospects, financial condition or results of operations. Any proceeds of Securities issued by the Exelon Trusts will be used by the Exelon Trusts to purchase subordinated debt securities from Exelon. Any proceeds of Securities issued by the PECO Trusts will be used by the PECO Trusts to purchase subordinated debt securities from PECO. We will describe in the applicable prospectus supplement any specific allocation of the proceeds to a particular purpose that we have made at the date of that prospectus supplement. Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND RATIO OF EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

The following are Exelon's consolidated ratios of earnings to fixed charges for each of the periods indicated:

	Years Ended December 31,					Nine Months Ended September 30, 2007
	2002	2003	2004	2005	2006	
Ratio of earnings to fixed charges	3.1	2.1	3.5	2.8	3.4	4.7

The following are Generation's consolidated ratios of earnings to fixed charges for each of the periods indicated:

	Years Ended December 31,					Nine Months Ended September 30, 2007
	2002	2003	2004	2005	2006	
Ratio of earnings to fixed charges	3.0	N/A(1)	4.1	5.5	6.3	9.5

- (1) For purposes of the ratio calculation, the deficiency in Generation's earnings to achieve a 1:1 ratio of earnings to fixed charges for 2003 was approximately \$480 million. Generation's earnings for 2003 were negatively impacted by a \$945 impairment charge related to the long-lived assets of Boston Generating, LLC. For purposes of calculating Generation's ratio of earnings to fixed charges for the twelve months ended December 31, 2003, fixed charges were approximately \$298 million.

The following are PECO's consolidated ratios of earnings to fixed charges for each of the periods indicated:

	Years Ended December 31,					Nine Months Ended September 30, 2007
	2002	2003	2004	2005	2006	
Ratio of earnings to fixed charges	3.0	3.2	3.4	3.8	3.3	4.1

The ratio of earnings to fixed charges represents, on a pre-tax basis, the number of times earnings cover fixed charges. Earnings consist of pre-tax net income from continuing operations after adjustment for income from equity investees and capitalized interest or allowance for funds used during construction, to which has been added fixed charges. Fixed charges consist of interest costs and amortization of debt discount and premium on all indebtedness and the interest portion of all rental expense.

Exelon and Generation had no preferred securities outstanding during the periods indicated; therefore, the ratio of earnings to combined fixed charges and preferred stock dividends is the same as the ratio of earnings to fixed charges for Exelon and Generation.

BOOK-ENTRY SYSTEM

Unless otherwise indicated in the applicable prospectus supplement, Securities will initially be issued in the form of one or more global securities, in registered form, without coupons (as applicable). The global security will be deposited with, or on behalf of, a depository, and registered in the name of that depository or a nominee of that depository. Unless otherwise indicated in the applicable prospectus supplement, the depository for any global securities will be The Depository Trust Corporation (DTC).

The global securities will be issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee. One fully registered global security certificate will be issued for each issue of the global securities, each in the aggregate principal amount of that issue and will be deposited with DTC. So long as the depository, or its nominee, is the registered owner of a global security, that depository or such nominee, as the case may be, will be considered the owner of that global security for all purposes under the indenture, the subordinated debt indenture or the trust agreement, as applicable, including for any notices and voting. Except as otherwise provided below, the owners of beneficial interests in a global security will not be entitled to have securities registered in their names, will not receive or be entitled to receive physical delivery of any such securities and will not be considered the registered holder thereof under the indenture, subordinated debt indenture or the trust agreement, as applicable. Accordingly, each person holding a beneficial interest in a global security must rely on the procedures of the depository and, if that person is not a direct participant, on procedures of the direct participant through which that person holds its interest, to exercise any of the rights of a registered owner of such security.

A global security may not be transferred as a whole except by DTC to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global securities shall be transferred and exchanged through the facilities of DTC. Beneficial interests in the global securities may not be exchanged for securities in certificated form except in the circumstances described in the following paragraph.

We will be obligated to exchange global securities in whole for certificated securities only if:

- r the depository notifies us that it is unwilling or unable to continue as depository for the global securities or the depository has ceased to be a clearing agency registered under applicable law and, in either case, we thereupon fail to appoint a successor depository within 90 days;
- r we, at our option, notify the applicable trustee in writing that we elect to cause the issuance of certificated securities; or
- r there shall have occurred and be continuing an event of default with respect to the applicable securities of any series.

In all cases, certificated securities delivered in exchange for any global security or beneficial interest therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depository (in accordance with customary procedures).

The descriptions of operations and procedures of DTC that follow are provided solely as a matter of convenience. These operations and procedures are solely within DTC's control and are subject to changes by DTC from time to time. We take no responsibility for these operations and procedures and urge you to contact DTC or its participants directly to discuss these matters. DTC has advised us as follows:

Edgar Filing: PECO ENERGY CO - Form 424B2

- r DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing corporation registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934.

Table of Contents

- r DTC holds securities that its direct participants deposit with DTC. DTC also facilitates the settlement among direct participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in direct participants' accounts, thereby eliminating the need for physical movement of securities certificates.

- r Direct participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations.

- r DTC is owned by a number of its direct participants and by the New York Stock Exchange, Inc., the American Stock Exchange, Inc. and the National Association of Securities Dealers, Inc.

- r Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which are referred to as indirect participants and, together with the direct participants, the participants.

- r The rules applicable to DTC and its participants are on file with the SEC.

Purchases of global securities under the DTC system must be made by or through direct participants, who will receive a credit for such purchases of global securities on DTC's records. The ownership interest of each actual purchaser of each global security, or beneficial owner, is in turn to be recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the global securities are to be accomplished by entries made on the books of participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global securities, except in the event that use of the book-entry system for the global securities is discontinued.

To facilitate subsequent transfers, all global securities deposited by participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. The deposit of global securities with DTC and their registration in the name of Cede & Co. effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the global securities; DTC's records reflect only the identity of the direct participants to whose accounts such global securities are credited which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. If the global securities are redeemable, redemption notices shall be sent to Cede & Co. If less than all of the global securities are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in such issue to be redeemed.

Neither DTC nor Cede & Co. will consent or vote with respect to the global securities. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants whose accounts the global securities are credited on the record date, identified in a listing attached to the omnibus proxy.

Payments of distributions, dividends, principal, interest, premiums and liquidation amounts, if any, on the global securities will be made to DTC in immediately available funds. DTC's practice is to credit direct participants' accounts on the date on which interest is payable in accordance

Edgar Filing: PECO ENERGY CO - Form 424B2

with the respective holdings shown on DTC's records, unless DTC has reason to believe that it will not receive payment on that date. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the

responsibility of that participant and not of DTC, the trustee for those securities, or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of distributions, dividends, principal, interest, premiums and liquidation amounts, if any, on any of the aforementioned securities represented by global securities to DTC is the responsibility of the appropriate trustee and us. Disbursement of those payments to direct participants shall be the responsibility of DTC, and disbursement of those payments to the beneficial owners shall be the responsibility of the participants.

DTC may discontinue providing its services as securities depository with respect to the global securities at any time by giving us reasonable notice. Although DTC has agreed to the foregoing procedures in order to facilitate transfers of beneficial ownership interests in the global securities among participants, it is under no obligation to perform or continue to perform those procedures, and those procedures may be discontinued at any time.

The underwriters, dealers or agents of any of the securities may be direct participants of DTC.

None of the trustees, us or any agent for payment on or registration of transfer or exchange of any global security will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial interests in that global security or for maintaining, supervising or reviewing any records relating to those beneficial interests.
