If you are a registered holder of Lincoln shares or a participant in The Lincoln Electric Company Employee Savings Plan (401(k) plan), as a convenience to you and as a means of reducing costs, you may choose to vote your proxy electronically using the Internet or a touch-tone telephone instead of using the conventional method of completing and mailing the enclosed Proxy and Voting Instruction Form. Electronic proxy voting is permitted under Ohio law and the Company's Regulations. You will find instructions on how to vote electronically in the proxy statement and on the Proxy and Voting Instruction Form. Having the freedom to vote by means of the Internet, telephone or mail does not limit your right to attend or vote in person at the Annual Meeting, if you prefer. We look forward to seeing you at the Annual Meeting.

March 14, 2008

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON APRIL 25, 2008.

This proxy statement, along with our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 and our Annual Report, are available free of charge on the following website: www.lincolnelectric.com.

GENERAL INFORMATION

Who is soliciting proxies and why?

The enclosed Proxy is being solicited by the Directors of the Company, and the Company will pay the cost of the solicitation. Certain officers and other employees of the Company may also solicit proxies by telephone, letter or personal interview. The Company will begin mailing this proxy statement on or about March 1, 2008.

If your shares are held in your name, in order to vote your shares you must either attend the Annual Meeting and vote in person or appoint a proxy to vote on your behalf. Because it would be highly unlikely that all shareholders would be able to attend the Annual Meeting, the Directors recommend that you appoint a proxy to vote on your behalf, as indicated on the accompanying Proxy and Voting Instruction Form, or appoint your proxy electronically via telephone or the Internet.

What is Householding?

To reduce the expense of delivering duplicate voting materials to shareholders who share the same address, we have taken advantage of the householding rules enacted by the Securities and Exchange Commission (SEC). As long as we provide proper notice to such shareholders, these rules permit us to deliver only one set of voting materials to shareholders who share the same address, meaning only one copy of the Annual Report, proxy statement and any other shareholder communication will be sent to those households. Each shareholder will, however, receive a separate Proxy and Voting Instruction Form.

How do I obtain a separate set of communications to shareholders?

If you share an address with another shareholder and have received only one copy of the Annual Report, proxy statement or any other shareholder communication, you may request that the Company send a separate copy of these materials to you at no cost to you. The Company will promptly send a copy of these materials to you upon your written or oral request. For this meeting and for future Annual Meetings, you may request separate copies of these materials, or request that the Company send only one set of these materials to you if you are receiving multiple copies, by sending a written notice to the Corporate Secretary at Lincoln Electric Holdings, Inc., c/o National City Bank, Corporate Trust Operations, Locator 5352, P.O. Box 92301, Cleveland, Ohio 44197-1200. You may also request separate copies of these materials for this meeting and for future Annual Meetings by calling Roy Morrow, the Company's Director, Corporate Relations, at 216-383-4893.

Who may vote?

Record holders of the common shares of Lincoln Electric Holdings, Inc. as of the close of business on March 14, 2008, the record date, are entitled to vote at the Annual Meeting. On that date, 10,000,000 shares of Lincoln common stock were outstanding. Each share is entitled to one vote on each proposal brought before the meeting.

What shares are included on the proxy card?

If you are both a registered shareholder of the Company and a participant in The Lincoln Electric Company Employee Savings Plan (401(k) plan), you may have received one Proxy and Voting Instruction Form that shows all shares of Lincoln common stock registered in your name, including any Dividend Reinvestment Plan shares, and all shares you have (based on the units credited to your account) under the 401(k) plan. Accordingly, your Proxy and Voting Instruction Form also serves as your voting directions to the 401(k) plan Trustee.

Please note, however, that unless the identical name or names appeared on all your accounts, we were not able to consolidate your share information. If that was the case, you received more than one Proxy and Voting Instruction Form and must vote each one separately.

If your shares are held through a bank, broker, trustee or some other nominee, you will receive either a voting form or a proxy card from the nominee, instructing you on how to vote your shares, which may also include instructions on telephone and electronic voting.

What are the proposals on which I will be voting?

You are being asked to vote on five proposals:

- (1) Election of three Directors, each to serve for a term scheduled to expire in 2011;
- (2) Approval of amendments to the Company's Code of Regulations relating to shareholder meetings, including shareholder proposals and adding provisions regarding the mechanics of shareholder meetings;
- (3) Approval of amendments to the Company's Code of Regulations relating to procedures for Director nominations;
- (4) Approval of amendments to the Company's Code of Regulations to allow the Board of Directors to amend the Regulations to the extent permitted by law; and
- (5) Ratification of the appointment of Ernst & Young LLP as the Company's independent auditors for the year ending December 31, 2008. The Directors do not know of any other matters that are to be presented at the meeting. If any other matters come before the meeting of which we did not have notice prior to February 14, 2008 or that applicable laws otherwise would permit proxies to vote on a discretionary basis, it is intended that the persons authorized under solicited proxies will vote on the matters in accordance with their best judgment.

How do I vote?

Registered Holders. If your shares are registered in your name, you may vote in person or by proxy. If you decide to vote by proxy, you may do so in any **ONE** of the following three ways.

By telephone. After reading the proxy materials and with your Proxy and Voting Instruction Form in front of you, you may call the toll-free number **1-888-693-8683**, using a touch-tone telephone. You will be prompted to enter your Control Number from your Proxy and Voting Instruction Form. This number will identify you and the Company. Then you can follow the simple instructions that will be given to you to record your vote.

Over the Internet. After reading the proxy materials and with your Proxy and Voting Instruction Form in front of you, you may use a computer to access the website **www.cesvote.com**. You will be prompted to enter your Control Number from your Proxy and Voting Instruction Form. This number will identify you and the Company. Then you can follow the simple instructions that will be given to you to record your vote.

By mail. After reading the proxy materials, you may mark, sign and date your Proxy and Voting Instruction Form and return it in the enclosed prepaid and addressed envelope.

The Internet and telephone voting procedures have been set up for your convenience and have been designed to authenticate your identity, allow you to give voting instructions and confirm that those instructions have been recorded properly.

Whether you choose to vote by telephone, over the Internet or by mail, you can specify whether your shares should be voted for all, some or none of the nominees for Director (Proposal 1 on the Proxy and Voting

Instruction Form). You can also specify whether you want to vote for or against, or abstain from voting for, the approval of the proposed amendments to the Company's Code of Regulations (Proposals 2 through 4 on the Proxy and Voting Instruction Form) and the ratification of the appointment of the independent auditors (Proposal 5 on the Proxy and Voting Instruction Form). If you make such specifications, your shares will be voted in accordance therewith. If you sign, date and return your Proxy and Voting Instruction Form but do not specify how you want to vote your shares, your shares will be voted **FOR** the election of all the Director nominees, **FOR** the approval of all of the amendments to the Company's Code of Regulations and **FOR** the ratification of the appointment of the independent auditors.

Participants in the 401(k) Plan. If you participate in the 401(k) plan, the plan's independent Trustee, Fidelity Management Trust Company, will vote your 401(k) plan shares according to your voting directions. You may give your voting directions to the plan Trustee in any **ONE** of the three ways set forth above under Registered Holders. If you do not return your Proxy and Voting Instruction Form or do not vote over the Internet or by telephone, the Trustee will not vote your plan shares. Each participant who gives the Trustee voting directions acts as a named fiduciary for the 401(k) plan under the provisions of the Employee Retirement Income Security Act of 1974, as amended.

Nominee shares. If your shares are held by a bank, broker, trustee or some other nominee, that entity will give you separate voting instructions.

May I revoke my proxy or change my vote?

Yes. You may change or revoke your proxy prior to the closing of the polls in any one of the following four ways:

- (1) by sending a written notice to the Company's Corporate Secretary stating that you want to revoke your proxy;
- (2) by submitting a properly completed and signed Proxy and Voting Instruction Form with a later date (which will automatically revoke the earlier proxy);
- (3) by entering later-dated telephone or Internet voting instructions (which will automatically revoke the earlier proxy); or
- (4) by voting in person at the Annual Meeting after requesting that the earlier proxy be revoked. **NOTE: Because your 401(k) plan shares are held in a qualified plan, you are not able to vote 401(k) plan shares at the Annual Meeting.**

If your shares are held by a bank, broker, trustee or some other nominee, you will have to check with your bank, broker, trustee or other nominee to determine how to change your vote. Also note that if you plan to attend the Annual Meeting, you will not be able to vote in person at the meeting any of your shares held by a nominee unless you have a valid proxy from the nominee. If you plan to attend the Annual Meeting, please check the attendance box on the enclosed Proxy and Voting Instruction Form or indicate so when prompted if you are voting by telephone or over the Internet.

How are the votes counted?

Shareholder votes will be tabulated by an independent inspector of elections for the Annual Meeting. All properly signed Proxy and Voting Instruction Forms and all properly recorded Internet and telephone votes (including votes marked abstain and broker non-votes) will be counted to determine whether or not a quorum is present at the meeting.

Election of Directors (Proposal 1). Votes for the Director nominees (Proposal 1) that are marked withhold, and any broker non-votes or other abstentions, will not be counted in determining the election of Directors.

Approval of Amendments to the Code of Regulations Relating to Shareholder Meetings (Proposal 2). Votes on Proposal 2 that are marked `abstain` and broker non-votes will have the same effect as votes **AGAINST** that proposal.

Approval of Amendments to the Code of Regulations Relating to Procedures for Director Nominations (Proposal 3). Votes on Proposal 3 that are marked `abstain` and broker non-votes will have the same effect as votes **AGAINST** that proposal.

Approval of Amendments to the Code of Regulations to Allow the Board of Directors to Amend the Regulations to the Extent Permitted by Law (Proposal 4). Votes on Proposal 4 that are marked `abstain` and broker non-votes will have the same effect as votes **AGAINST** that proposal.

Ratification of the Appointment of Ernst & Young LLP as the Company's Independent Auditors for the Year Ending December 31, 2008 (Proposal 5). Votes on Proposal 5 that are marked `abstain` will have the same effect as votes **AGAINST** that proposal, and broker non-votes will have no effect on the result of that proposal.

A broker non-vote occurs when a nominee holding shares for the beneficial owner does not vote those shares on a particular proposal because the nominee does not have discretionary authority to do so, and has not received voting instructions with respect to the proposal from the beneficial owner.

May I receive future shareholder communications over the Internet?

If you are a registered shareholder, you may consent to accessing future shareholder communications (*e.g.*, proxy materials, Annual Reports and interim communications) over the Internet instead of receiving copies in the mail. You may give your consent by marking the appropriate box on your Proxy and Voting Instruction Form or following the prompts given you when you vote by telephone or over the Internet. If you choose electronic access to future shareholder communications, once there is sufficient interest in electronic delivery we will discontinue mailing the proxy statement and Annual Report to you, but you will receive a Proxy and Voting Instruction Form, together with a formal notice of the meeting, in the mail with instructions containing the Internet address or addresses to access shareholder communications.

Providing shareholder communications over the Internet will reduce the Company's printing and postage costs and the number of paper documents that you would otherwise receive. If you give your consent, there is no cost to you for this service other than charges you may incur from your Internet provider, telephone and/or cable company. Once you give your consent, it will remain in effect until you inform us otherwise.

If your shares are held through a bank, broker, trustee or some other nominee, check the information provided by that entity for instructions on how to choose to access future shareholder communications over the Internet.

In addition, our Annual Report on Form 10-K for the fiscal year ended December 31, 2007, Annual Report and this proxy statement are available free of charge on the following website: www.lincolnelectric.com.

When are shareholder proposals due for the 2009 Annual Meeting?

In order for proposals to be considered for inclusion in next year's proxy statement, a shareholder proposal must be submitted in writing to the Corporate Secretary at Lincoln Electric Holdings, Inc., 22801 Saint Clair Avenue, Cleveland, Ohio 44117-1199 by November 20, 2008. If a shareholder intends to present a proposal at the 2009 Annual Meeting without the inclusion of that proposal in the proxy statement, written notice of the proposal must be received no later than January 25, 2009 and no earlier than December 26, 2008 (if Proposal 2 is adopted), or no later than February 3, 2009 (if Proposal 2 is not adopted), or proxies solicited by the Board for the 2009 Annual Meeting will confer discretionary authority to vote on the proposal if presented at the 2009 Annual Meeting.

May I submit a nomination for Director?

The Company's Regulations permit shareholders to nominate one or more persons for election as a Director but require that nominations be received by the Company by a certain date as described below. This date will vary depending on whether Proposal 3 is adopted. To nominate a candidate for election, you must send a written notice to the Corporate Secretary at Lincoln Electric Holdings, Inc., 22801 Saint Clair Avenue, Cleveland, Ohio 44117-1199. The notice must include certain information about you as a shareholder of the Company and about the person you intend to nominate, including a statement about the person's willingness to serve, if elected. Specifically, each notice must include: (1) the name and address of the shareholder who intends to make the nomination and of the person(s) to be nominated, (2) a representation that the shareholder is a holder of record of stock of the Company entitled to vote for the election of directors on the date of such notice and intends to appear in person or by proxy at the meeting to nominate the person(s) specified in the notice, (3) a description of all arrangements or understandings between the shareholder and each nominee and any other person(s) (naming such person(s)) pursuant to which the nomination(s) are to be made by the shareholder, (4) such other information regarding each nominee proposed by the shareholder as would be required to be included in the proxy statement filed pursuant to the proxy rules of the SEC, had the nominee been nominated, or intended to be nominated, by the Board of Directors of the Company, and (5) the consent of each nominee to serve as a director of the Company if so elected.

If Proposal 3 is Adopted. If Proposal 3 is adopted, this written notice must be delivered to or received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary of the previous year's annual meeting of shareholders. Accordingly, nominations for the 2009 Annual Meeting must be delivered to or received at our principal executive offices no later than January 25, 2009 and no earlier than December 26, 2008. If the date of the 2009 Annual Meeting is advanced more than 30 days prior to or delayed by more than 30 days after the anniversary of the 2008 Annual Meeting, written notice must be delivered no later than the close of business on the later of the 90th day prior to the 2009 Annual Meeting or the tenth calendar day following the date of public disclosure of the date of the 2009 Annual Meeting.

If Proposal 3 is Not Adopted. If Proposal 3 is not adopted, this written notice must be received in the Corporate Secretary's Office at least 80 days before the date of the annual meeting at which the nomination is to be made in those instances when the Company publicly announced the date of the annual meeting more than 90 days prior to the annual meeting date or no later than the close of business on the tenth day following the day on which the Company publicly announced the date of the annual meeting in those instances when the Company has not publicly announced the date of the annual meeting more than 90 days prior to the annual meeting date. For complete details on the nomination process, contact the Company's Corporate Secretary.

For this year's Annual Meeting, the Company must have received nominations not later than the close of business on February 5, 2008 as the Company publicly announced the date of this year's Annual Meeting on January 10, 2008, which is more than 90 days prior to this year's Annual Meeting date. Accordingly, no additional nominations can be made for this year's Annual Meeting.

The name of any specific intended Board recipient should be noted in the communication. The Corporate Secretary will forward such correspondence only to the intended recipients. Prior to forwarding any correspondence, the Corporate Secretary will review such correspondence and, in his discretion, not forward certain items if they are deemed of a frivolous nature or otherwise inappropriate for the Board's consideration. In such cases, some of that correspondence may be forwarded elsewhere in the Company for review and possible response.

ELECTION OF DIRECTORS

Proposal No. 1

The Company's Regulations provide for three classes of Directors whose terms expire in different years. Ohio's General Corporation Law provides that, unless another voting standard is stipulated in the Articles of Incorporation, if a quorum is present, the Director nominees receiving the greatest number of votes will be elected as Directors of the Company. During 2007, the Company adopted a majority voting policy with respect to uncontested elections of Directors, which is described in detail below under Corporate Governance. For the 2008 Annual Meeting, if any Director fails to receive a majority of the votes cast in his or her favor, the Director will be required to submit his or her resignation to the Board promptly after the certification of the election results. The Nominating and Corporate Governance Committee of the Board would then consider each resignation and recommend to the Board whether to accept or reject it.

Unless otherwise directed, shares represented by proxy will be voted **FOR** the following:

Class of 2011. The class of Directors whose term ends in 2011 has been fixed at three. David H. Gunning, G. Russell Lincoln and Hellene S. Runtagh are standing for election. All of the nominees have been elected previously by the shareholders.

Each of the nominees has agreed to stand for election and has agreed, in accordance with the Company's majority voting policy, to tender his or her resignation in the event that he or she fails to receive a majority of the votes cast in his or her favor. If any of the nominees is unable to stand for election, the Board may provide for a lesser number of nominees or designate a substitute. In the latter event, shares represented by proxies solicited by the Directors may be voted for the substitute. We have no reason to believe that any of the nominees will be unable to stand for election.

All Directors are expected to attend the Annual Meeting. All of the Director nominees, as well as the continuing Directors, plan to attend this year's Annual Meeting. At the 2007 Annual Meeting, all of the Directors of the Company were in attendance.

DIRECTORS BIOGRAPHIES

The following table sets forth biographical information about the Director nominees and the Directors whose terms of office will continue after this Annual Meeting. Except as otherwise indicated, each of the Director nominees and continuing Directors has held the occupation listed below for more than five years.

None of the Director nominees or continuing Directors has any special arrangement or understanding with any other person pursuant to which the Director nominee or continuing Director was or is to be selected as a Director or nominee. There are no family relationships, as defined by SEC rules, among any of our Directors or executive officers. SEC rules define the term "family relationship" to mean any relationship by blood, marriage or adoption, not more remote than first cousin.

Two exceptions to the foregoing are that the authority to delegate is not permitted with respect to awards under our 2006 Equity and Performance Incentive Plan to any executive officers or any person subject to Code Section 162(m) and any delegation under our 2007 Management Incentive Compensation Plan (or 2007 MICP), which was adopted by the shareholders at last year's Annual Meeting and relates to awards subject to Code Section 162(m). See the Compensation Discussion and Analysis section below for more information on the Committee's role with respect to executive compensation.

Shareholders may nominate one or more persons for election as Director of the Company. The process for doing so is set forth above under the caption "May I submit a nomination for Director?"

See the narrative following the Director compensation table below for specific information on the Committee's involvement in determining Director compensation.

CORPORATE GOVERNANCE

Director Independence

Each of the current non-employee Director nominees and continuing Directors meets the independence standards set forth in the NASDAQ listing standards. The NASDAQ independence standards include a series of objective tests, such as that the Director is not an employee of the Company and has not engaged in various types of business dealings with the Company, to determine whether there are any relationships which would interfere with the exercise of independent judgment in carrying out the responsibilities of the Director.

During 2007, the independent Directors met in Executive Session, separate from the sole management Director, in conjunction with each of the seven meetings of the Board. The Lead Director, discussed below, was the presiding Director of these sessions.

Lead Director

The Lead Director is appointed each year by the independent Directors at the organizational meeting of the Board following the Annual Meeting. The Lead Director serves as a liaison between the Chairman of the Board and the independent Directors, and presides over Executive Sessions attended only by independent Directors. The Lead Director consults with the Chairman on the format and adequacy of information the Directors receive and the effectiveness of the Board meeting process. As described under Guidelines on Significant Corporate Governance Issues below, during 2007, our Governance Guidelines were modified to enhance the role of the Lead Director and the Lead Director now has independent authority to review and approve Board meeting agendas and schedules, as well as the authority to request from the officers of the Company any Company information deemed desirable by the independent Directors. The Lead Director may also speak on behalf of the Company from time to time as the Board may decide.

In April 2007, Harold L. Adams was re-appointed as the Lead Director for 2007-2008, a position he has held since the position was created in December 2004. Mr. Adams has been a Director of the Company since 2002 and is the former Chairman, President and Chief Executive Officer of RTKL Associates Inc., an architectural and engineering firm.

Guidelines on Significant Corporate Governance Issues

Your Board has adopted Guidelines on Significant Corporate Governance Issues to assure good business practices, transparency in financial reporting and the highest level of professional and personal conduct. These guidelines address current developments in the area of corporate governance, including developments in Federal securities law, developments related to the Sarbanes-Oxley Act of 2002 and changes in the NASDAQ listing standards. The Governance Guidelines also provide for the annual appointment of our Lead Director. During 2007, the guidelines were modified by the Board to include an express confidentiality provision, which emphasizes that, unless otherwise authorized by the Board, Directors are not to discuss confidential corporate business with third parties, and instead are to refer all such matters to the appropriate company management. Other modifications included enhancing the authority of the Lead Director, including providing the Lead Director with independent authority to review and approve Board meeting agendas and schedules, as well as providing the Lead Director with the authority to request from the officers of the Company any Company information deemed desirable by the independent Directors, and the addition of a majority voting policy for the election of Directors, which is discussed in detail below.

Majority Voting Policy

Effective as of January 2008, Ohio corporate law permits the articles of incorporation of an Ohio corporation to set forth alternative standards (as opposed to plurality voting) for the election of directors. In order to be

responsive to the majority voting movement, but in light of the uncertainty surrounding reaction to a full articles amendment, during 2007, the Company modified its Governance Guidelines to include a majority voting policy. The Board has the exclusive power and authority to administer the policy, as well as to repeal the policy, in whole or in part, or to adopt a new policy as it deems appropriate.

Under the policy, in uncontested elections of Directors, any Director who failed to receive a majority of the votes cast in his or her favor would be required to submit his or her resignation to the Board promptly after the certification of the election results. The Nominating and Corporate Governance Committee would then consider each resignation and recommend to the Board whether to accept or reject it. The Committee, in making its determination, may consider any factors or other information that it deems appropriate, including, the reasons (if any) given by shareholders as to why they withheld their votes, the qualifications of the tendering Director and his or her contributions to the Board and the Company, and the results of the most recent evaluation of the tendering Director's performance by the Committee and other members of the Board. Any Director who tenders his or her resignation under the policy shall not participate in the Committee's recommendation or Board action regarding whether to accept or reject the tendered resignation. If a Director's tendered resignation is rejected by the Board, the Director will continue to serve for the remainder of his or her term and until a successor is duly elected. If a Director's tendered resignation is accepted by the Board, then the Board, in its sole discretion, may fill any resulting vacancy or may decrease the size of the Board.

You can access the Guidelines on Significant Corporate Governance Issues on the Company's website at www.lincolnelectric.com/corporate/about/governance.asp.

Code of Corporate Conduct and Ethics

Your Board also has adopted a Code of Corporate Conduct and Ethics to govern the Company's Directors, officers and employees, including the principal executive officers and senior financial officers. During 2007, the Code of Conduct was modified slightly to reflect organizational changes to our corporate compliance program, namely the addition of a Director of Compliance.

The Company has satisfied, and in the future intends to satisfy, the disclosure requirements of Item 5.05 of Form 8-K regarding an amendment to, or a waiver from, any provision of its Code of Corporate Conduct and Ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, and relates to any element of the code of ethics definition as set forth in Item 406(b) of Regulation S-K of the Securities Exchange Act of 1934 by posting such information on its website. You can access the Code of Corporate Conduct and Ethics, and any such amendments or waivers thereto, on the Company's website at www.lincolnelectric.com/corporate/about/governance.asp. Other than the amendments relating to the corporate compliance program discussed above, there have been no amendments to the Code of Corporate Conduct and Ethics as of the date of this proxy statement, and there have been no waivers to the Code of Corporate Conduct and Ethics as of the date of this proxy statement.

RELATED PARTY TRANSACTIONS

Any related party transactions concerning the Company and any of its directors or officers (or any of their immediate family members as defined as children, stepchildren, parents, stepparents, spouses, siblings, mother-in-laws, father-in-laws, son-in-laws, daughter-in-laws, brother-in-laws, sister-in-laws and any other persons sharing a household (other than a tenant or employee)), including those that are reportable under Item 404(a) of Regulation S-K of the Securities Exchange Act of 1934, are to be disclosed to and approved by the Chief Compliance Officer, Compliance Counsel and the Audit Committee of the Board. The Company defines related party transactions generally as transactions in which the self-interest of the employee, officer or director may be at odds or conflict with the interests of the Company, such as doing business with entities that are or may be controlled or significantly influenced by such persons or their immediate family members. It is the Company's policy to avoid related party transactions; related party transactions involving officers of the Company are generally prohibited. Our related party transaction policies can be found in our Code of Corporate Conduct and Ethics, as well as the Audit Committee Charter, both of which are available on our website.

In February 2008, the Audit Committee considered and approved a related party transaction involving P&R Specialty, Inc., a supplier to the Company. Greg D. Blankenship, the brother of George D. Blankenship, Senior Vice President, Global Engineering, is the sole stockholder and President of P&R Specialty, Inc. During 2007, the Company purchased approximately \$3 million worth of products from P&R Specialty in ordinary course of business transactions. George D. Blankenship has no ownership interest in or any involvement with P&R Specialty. The Company believes that the transactions with P&R Specialty were on terms no less favorable to the Company than those that could have been obtained from unaffiliated parties.

In February 2008, the Audit Committee also considered and approved an additional related party transaction involving Jones Day, a law firm that the Company has retained for specific legal services, on a case-by-case basis, for over ten years. Mr. Gunning, one of our Directors, is the father-in-law of Gina K. Gunning, a partner of Jones Day. The fees paid by the Company to Jones Day during 2007 were \$2,172,932, which amount is less than 1% of Jones Day's gross revenues for 2007. Ms. Gunning does not personally render legal services to the Company or supervise any attorney in the rendering of legal services to the Company, and Ms. Gunning does not receive any direct compensation from fees paid by the Company to Jones Day.

All of the outstanding stock options were exercisable as of December 31, 2007.

General

Based upon the recommendations of the Nominating and Corporate Governance Committee, the Board determines Director compensation. The Committee periodically reviews the status of Board compensation in relation to other comparable companies, trends in Board compensation and other factors it deems appropriate. The Committee receives assistance and advice from compensation consultants at Watson Wyatt, an internationally-recognized human resources consulting firm, and from the management of the Company, particularly the Chief Executive Officer, General Counsel and Vice President, Human Resources, regarding the underlying philosophies, components and levels of Director compensation. An employee of Lincoln who also serves as a Director does not receive any additional compensation for serving as a Director, or as a member or chair of a Board committee.

In addition, the Committee administers our Director equity incentive plans, including approval of grants of stock options, restricted stock and other equity or equity-based awards, and makes recommendations to the Board with respect to equity-based plans for Directors. The Committee does not generally delegate any of its authority to other persons, although it has the power to do so.

2007 Director Compensation Package

During 2007, the Directors' compensation package for non-employee Directors was based on the following principles:

a significant portion of Director compensation should be aligned with creating and sustaining shareholder value;

Directors should have equity interest in Lincoln; and

total compensation should be structured to attract and retain a diverse and truly superior Board of Directors. With the above principles in mind, the compensation package for 2007 was comprised of the following components:

Cash Compensation

an annual retainer of \$40,000 for all Directors;

an annual retainer of \$15,000 for the Lead Director;

an annual retainer of \$10,000 for the Chairs of the Audit and the Compensation and Executive Development Committees and \$5,000 for each other Committee Chair;

Board meeting fees of \$3,000 for each meeting attended; and

Committee meeting fees of \$1,500 for each meeting attended.

Stock-Based Compensation

Stock-based compensation is provided under the 2006 Stock Plan for Non-Employee Directors, which provides for various types of stock awards, including restricted stock and stock options. Beginning in 2005, the Company migrated stock awards from stock options to restricted stock in order to provide non-employee Directors with an opportunity to obtain more of a proprietary interest in Lincoln and in light of the new non-employee Director stock ownership guidelines discussed below. As it relates to 2007 compensation, the Nominating and Corporate Governance Committee resolved that annual awards of restricted stock would be made at a value of \$50,000 to all non-employee Directors and that initial awards of restricted stock would be made at a value of \$35,000 to any non-employee Director who becomes eligible by virtue of his or her election to the Board.

During 2007, the following stock-based awards were made to our non-employee Directors pursuant to the 2006 Stock Plan for Non-Employee Directors:

an annual restricted stock award of 729 shares, or approximately \$50,000 worth of restricted stock, to each non-employee Director; and

an initial restricted stock award of 541 shares to Mr. MacDonald, or approximately \$35,000 worth of restricted stock, who became eligible to receive this initial award by virtue of his election to the Board at last year's Annual Meeting.

Other Arrangements

We reimburse all Directors for out-of-pocket expenses incurred in connection with attendance at Board meetings, or when traveling in connection with the performance of their services for Lincoln. With respect to the use of private aircraft, we will reimburse the Director for the cost of a first-class ticket (which amount is increased proportionately should other Directors or executives travel on the same flight).

Continuing Education

Directors are reimbursed up to \$5,000 annually for continuing education expenses (inclusive of travel expenses), in such amounts and on such programs and related expenses as each Director may elect. Fifty percent

of our Directors are certified by the Corporate Directors Institute of the National Association of Corporate Directors (NACD), which offers continuing education programs for both new and experienced directors.

Stock Ownership Guidelines

In keeping with the philosophy that Directors' interests should be aligned with creating and sustaining shareholder value and as part of its continued focus on best practices with respect to corporate governance, we introduced stock ownership guidelines for the non-employee Directors effective January 1, 2006. Guidelines were also introduced for officers, which are described below in the Compensation Discussion and Analysis section. Under these new guidelines, non-employee Directors are required to accumulate over time a certain number of our common shares equal in value to at least three times the Board's 2006 annual cash retainer of \$40,000 (or \$120,000). Non-employee Directors have five years to satisfy the stock ownership guidelines, which can be satisfied by holding either (1) shares aggregating the specified dollar amount, or (2) 3,025 shares, which amount is the equivalent to three times the annual retainer in effect on January 1, 2006 (\$120,000) divided by the closing price of a common share on December 30, 2005 (\$39.66). Restricted stock awards count towards the stock ownership guidelines; common shares underlying stock options and shares held in another person's name (including a relative) do not. As of December 31, 2007, more than 85% of our non-employee Directors satisfied their ownership guidelines.

2006 Stock Plan for Non-Employee Directors

Approved by shareholders at our 2006 Annual Meeting, the 2006 Stock Plan for Non-Employee Directors provides for the annual and initial grants of stock-based awards as outlined above. The plan provides for various types of stock-based awards, including stock options and restricted stock.

During 2007, non-employee Directors received an annual award of shares of restricted stock valued at approximately \$50,000. Mr. MacDonald received an award of restricted stock valued at approximately \$35,000 upon his initial election to the Board at last year's Annual Meeting. Recipients of shares of restricted stock have all of the rights of a shareholder with respect to the restricted stock, including the right to vote such shares. Under the terms of the award, shares of restricted stock vest in full three years after the date of grant with accelerated vesting upon a change in control of the Company or upon the death, disability or retirement of the Director. During the period during which the shares remain forfeitable, dividends on the restricted stock are paid out to the non-employee Directors in cash. Awards of restricted stock made during 2006 contain the same terms, except that there is no accelerated vesting upon retirement under the terms of the 2006 awards. At the time of the 2006 awards, the definition of "retirement" as contained in the plan resulted in an unintended tax consequence to the Directors. The plan was amended in 2007 to eliminate the unintended result.

During 2007, no stock options were granted under the plan and only one Director, Mr. Hanks, received stock options during 2006 in connection with his initial election to the Board. An option becomes exercisable after the optionee has continuously served as a Director for one year from the date of grant, with accelerated vesting upon a change in control of the Company or upon the death, disability or retirement of the Director. Once the optionee has vested in his or her options, the option may be exercised in whole or in part with respect to 100% of the underlying common shares. Options granted under the plan have a 10-year term.

Non-Employee Directors' Deferred Compensation Plan

Adopted in 1995, this plan allows the non-employee Directors to defer payment of all or a portion of their annual cash compensation. This plan allows each participating non-employee Director to:

elect to defer a specified dollar amount or a percentage of his or her cash compensation;

have the deferred amount credited to the Director's account and deemed invested in one or more of the options available under the plan; and

elect to begin payment of the deferred amounts as of the earlier of termination of services as a Director, death or a date not less than one full calendar year after the year the fees are initially deferred.

The investment elections available under the plan are the same as those available to officers under our Top Hat Plan, which is discussed in the narrative of the Nonqualified Deferred Compensation Table following the Compensation Discussion and Analysis section of this proxy statement. On November 30, 2005, we amended the plan to allow future deferrals under the plan effective as of January 1, 2006. The plan previously had been frozen with respect to benefit accruals for the period after December 31, 2004 in response to the adoption of Section 409A of the U.S. Internal Revenue Code, which significantly changed the Federal tax law applicable to amounts deferred under the plan after that date. All benefit accruals vested prior to January 1, 2005 qualify for grandfathered status and continue to be governed by the law applicable to nonqualified deferred compensation prior to the addition of Section 409A of the Code. Two Directors, Mr. Hanks and Mr. Walls, elected to defer Board fees under the plan during 2007.

Directors Charitable Award Program

This program was terminated in 2003, other than for Directors already vested. Upon the death of a vested non-employee Director, we will donate an aggregate of \$500,000 (in 10 annual installments) to one or more charitable organizations recommended by the vested Director and approved by Lincoln. This program is funded through insurance policies on the lives of the vested Directors. No premiums were paid during 2007 as the policies were fully-funded as of the end of 2005.

All charitable deductions and the cash surrender value of the policies accrue solely to Lincoln; the vested Directors derive no financial benefit. The current non-employee Directors who are vested in the program are David H. Gunning, G. Russell Lincoln and Kathryn Jo Lincoln.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

The following explains the material elements of the compensation objectives and policies as it relates to our named executive officers included in the Summary Compensation Table.

Our executive compensation programs consist of four main components: base compensation, annual bonus, long-term incentives and benefits/perquisites, all of which are discussed in more detail below. Base pay is targeted at the 45th percentile of the competitive market (slightly below market), while target total cash compensation (which includes an annual bonus target) is set at the 65th percentile of the market (above market). Long-term incentive compensation is set at the 50th percentile (at market), and is divided equally among three programs: stock options, restricted stock and a cash long-term incentive program. Benefits are set at the market median or 50th percentile. Although not targeted to a specific competitive level, we believe our executive perquisites are below the market median.

The following discussion and analysis contains statements regarding future individual and company performance targets and goals. These targets and goals are disclosed in the limited context of our compensation programs and should not be understood to be statements of management's expectations or estimates of results or other guidance. We specifically caution investors not to apply these statements for other contexts.

Executive Summary

The Compensation and Executive Development Committee of the Board (the Committee), which consists solely of non-employee Directors, has responsibility for reviewing, establishing and monitoring all elements of compensation of our executives (see *Role of Committee, Consultants and Management* below). To set the levels of compensation for executive management, the Committee conducts an annual review of competitive market compensation, executive compensation trends, business needs, individual performance and our financial performance to peers. Based on these factors and the advice of its outside executive compensation consultant, Watson Wyatt, the Committee made certain program changes in 2007. Most notably, it added a working capital metric to the annual bonus program, it modified the matrix used to determine payouts for the annual bonus program to allow for payouts when financial performance exceeds 120% of budget and it increased the maximum payout under the cash long-term incentive plan from 140% of target to 200% of target, if significant financial performance is achieved. The Committee also took steps to implement the plan approved by shareholders at last year's Annual Meeting (the 2007 Management Incentive Compensation Plan or 2007 MICP) to qualify for the performance based exclusion from the deduction limitations under Section 162(m) of the Internal Revenue Code.

For each named executive officer, the Committee reviewed the levels and amounts of compensation based on an analysis of pay for performance, a summary of the Company's overall compensation philosophies, a comparison of current pay to the various competitive targets and individual performance. The Committee increased 2007 base salaries, MIP (bonus) targets and long-term incentives (Cash LTIP and equity awards) for the named executive officers (each of these actions is described in more detail in *Executive Compensation Components* below). Although the Company experienced strong financial performance during 2007, actual payouts for the 2007 MIP for the named executive officers, on average, decreased from 2006 amounts due to aggressive financial targets. However, as a result of that same strong financial performance during the most recent three fiscal years and due to higher target amounts for most of the named executive officers (as a result of increased responsibilities), the actual payout for the Cash LTIP for the named executive officers increased from 2006 amounts. In approving these incentive payments, the Committee noted that in both longer historical periods (2005 to 2007) and the most recent fiscal year (year to date 2007), pay levels were generally lower than the financial performance delivered (each of these components is described in more detail in *Executive Compensation Components* below).

Executive Compensation Philosophy

We place the greatest emphasis on programs that reward financial and individual performance while striking a balance between different programs that reward short-term and long-term financial performance. We believe that this structure is the most effective way to attract, motivate and retain exceptional employees. Our approach to executive compensation is generally the same as our approach to employee-wide compensation, with a strong belief in pay-for-performance and a long-standing commitment to incentive-based compensation. For example, virtually all domestic, welding business full-time employees participate in a bonus program designed to reward both company financial performance and individual contributions. In the 2007 bonus year, our broad-based bonus pool was \$82.5 million, the average bonus paid was 57.12% of an employee's base pay and the average total cash compensation received by bonus-eligible employees was \$73,409.

We expect base pay and benefits to deliver a level of predictable compensation since our structure is heavily weighted toward variable compensation. Therefore, fixed components, such as base compensation, are generally set below the competitive market for each position, while incentive-based compensation, such as annual bonuses, are set above the competitive market and require strong financial performance for payouts to result (method used for determining the competitive market is described in *Market Comparison Data* below). However, because annual bonuses reward operating performance and are paid in cash, our long-term incentive compensation programs are weighted more heavily toward rewards for share appreciation and non-cash awards.

Employees are rewarded when we achieve superior financial results but their compensation is significantly reduced when we do not achieve the expected level of financial performance. In addition, individual performance plays a key role in determining the amount of compensation delivered to an individual, with our philosophy being that the best performers should receive the greatest rewards.

Executive Compensation Methodologies

Role of Committee, Consultants and Management

Committee. The Committee regularly involves the full Board in its responsibilities. Its primary charge is to determine and report to the Board on the compensation (or method of calculating it) for the Chairman, President and Chief Executive Officer and the other executive officers. It establishes and then conducts a full Board review in executive session of the annual performance for the Chief Executive Officer. In addition, the Committee establishes procedures and conducts succession planning for the Chief Executive Officer and other executive management positions. It also reviews and makes recommendations to the Board concerning our employee stock, incentive compensation and employee benefit programs.

CEO and Management. The management of the Company (particularly the Chief Executive Officer, the Chief Financial Officer and the Vice President, Human Resources) provides recommendations to the Committee relative to the philosophies underlying our compensation programs, components of these programs and levels of compensation. Specifically, the Chief Executive Officer recommends the compensation for the other executive management positions and provides the Committee with assessments of their individual performance, both of which are subject to Committee review. Relative to compensation setting, the Committee reviews the Chief Executive Officer's recommendations and discusses them with Watson Wyatt to ensure the compensation recommendations are in line with the executive compensation program's stated philosophies and are reasonable when compared to our competitive market. Relative to individual performance assessments, which are based on achievement of various financial and leadership objectives set by the Chief Executive Officer at the beginning of each year, the Committee reviews specific performance components and makes suggestions for modifications where warranted.

Compensation Consultants. The Committee receives assistance and advice from its executive compensation consultants at Watson Wyatt, an internationally-recognized human resources consulting firm, on matters

including competitive compensation surveys, executive compensation trend data, observations on the design of our incentive programs, peer company financial performance and peer company compensation analysis. These consultants report directly to the Chairperson of the Committee, although they are available to, and regularly do, provide advice to management. Changes to the incentive programs in 2007 were made in consultation with Watson Wyatt. The Committee, however, is not bound by the input, advice or recommendations of Watson Wyatt. Watson Wyatt also provides other human resources consulting to the Company, such as actuarial services for our U.S. and Canadian retirement programs and consulting on Director compensation. In order to ensure the independence of its consultants, the Committee requires that, with respect to non-executive compensation work, the Committee review and approve the work to be performed and Watson Wyatt must ensure that the specific executive compensation consultants will not perform such non-executive compensation work.

Selection of Compensation Elements

As part of its annual review, the Committee first evaluates whether changes in the philosophy or structure are warranted in light of emerging trends, business needs and/or our financial performance. Absent changes, the Committee uses competitive market data, performance assessments and management recommendations to set the pay components along the targets described above (i.e., 45th percentile for base pay). Actual pay for the executive officers will generally fall within a range of these targets (plus or minus 20%).

Consistent with our pay-for-performance and incentive-based philosophies is our belief that compensation for executives new to their positions should be brought to the levels described above over time, not all at once. Therefore, for a period of time, new executives may experience larger pay increases but their compensation will be set below the targets described above during a transition period. Absent these types of significant increases, increases for break-through individual performance or significant changes in the competitive market data, pay increases are generally expected to be in line with national trends.

Market Comparison Data

Competitive market compensation data is collected from multiple, nationally-published surveys, proxy data from a peer group of companies and, beginning in 2007, proxy data from companies in the S&P Midcap 400 Index (in which the Company began participating in mid-2006). The S&P Midcap 400 Index data is collected for all companies in that index as well as for the manufacturing companies only in that index. All competitive market compensation data is statistically determined (through regression analysis) to approximate the Company's revenue size. Survey data is also aged to approximate more current data.

Comparison Group

The peer group of companies consists of 28 publicly-traded industrial corporations that are headquartered in the United States, serve a number of different market segments and have significant foreign operations. These are companies for which Lincoln competes for talent and for shareholder investment. During 2007, the Committee reviewed the make-up of the peer group and made certain additions and deletions. As a result, during 2007, our peer group was comprised of the following companies:

AGCO Corp	Donaldson Co	Ingersoll-Rand Co	Power-One Inc
Ametek Inc	Dover Corp	ITT Corp	Rockwell Automation
Caterpillar Inc	Eaton Corp	Kennametal Inc	Roper Industries
Cooper Industries	Emerson Electric	Nordson Corporation	SPX Corp
Crane Company	Flowserve Corporation	Paccar Inc	Tecumseh Products Corp
Cummins Inc	Graco Inc	Pall Corp	Thomas & Betts
Deere & Co	Illinois Tool Works	Parker-Hannifin Corp	Trane Inc (formerly American Standard)

Compensation Structure

Business Needs. Compensation consultants assist in presenting information about emerging trends in executive compensation, along with Committee members' own reading and study on these matters. These trends are considered by the Committee in light of our compensation philosophies and looking at various business needs. Business needs evaluated can include: talent attraction and retention strategies, growth expectations, cost-containment initiatives, management development needs, administrative complexity and our company culture. In evaluating the impact of these, no single factor guides whether changes will be made. Instead, the Committee adopts a holistic approach, considering various factors.

Individual Performance. Individual past performance is a significant factor in determining annual changes (up or down) to pay components (base pay, annual bonus targets and long-term incentive awards) as the Company views past performance as a strong indicator of future performance. In addition, as described in more detail below, the annual bonus includes an individual performance component in determining the percentage of target actually paid. Individual performance is measured against how well an executive achieves objectives established for him or her at the beginning of the year. Other than objectives tied to specific business needs (such as those described above), objectives could include: leadership of specific initiatives, participation in or support of strategic programs and individual development actions. A performance rating will generally range from .80 to 1.15, with all performance ratings capped at 1.15.

Pay and Performance Review. In determining whether changes will be made to the existing philosophy or structure and before setting compensation levels for the upcoming year, the Committee conducts an annual review of pay and performance. This review is used to evaluate whether executive pay levels are properly aligned with our financial performance, when compared to pay levels and financial performance of the peer group companies and, beginning in 2007, companies in the S&P Midcap 400 Index. The review looks at various financial metrics and compensation data for the most recent fiscal year and for a multi-year historical period. It then considers whether our financial performance is at, below or above that of the peer group companies/companies in the S&P Midcap 400 Index and whether our executive compensation is at, below or above the peer group companies/companies in the S&P Midcap 400 Index. In setting 2007 compensation (which was done in the fourth quarter of 2006), the Committee reviewed revenue growth, earnings before interest and taxes (EBIT) growth, net income growth, earnings per share (EPS) growth, return on invested capital and 1-year and 3-year total shareholder return for Lincoln versus the peer group (those same components were also reviewed for companies in the S&P Midcap 400 Index in setting 2008 compensation, which was done in the fourth quarter of 2007). Overall, Lincoln's historical financial performance was at or above the peer group's financial performance for the most recent fiscal year and the most recent three-year period. Specifically, revenue growth, EBIT growth, net income growth, EPS growth, return on invested capital and 1-year and 3-year total shareholder return for the Company for 2005 (the most recent fiscal year) were at or above the 75th percentile of peer group performance while compensation was at or below the median (50th percentile) of the peer group. Taken as a whole, the Committee used this information to conclude that, while no significant changes were needed to our overall executive compensation philosophies for 2007, certain adjustments in the incentive programs were appropriate to allow for larger payouts at higher levels of financial performance.

Timing of Compensation Determinations and Payouts

Base pay levels, annual bonus targets and long-term incentive awards (which include all equity-based awards, such as stock options and restricted stock, and a cash long-term incentive plan target) are set at the end of the immediately prior year at a regularly-scheduled Committee meeting. The date is fixed by the Committee well in advance and generally occurs at the same time each year (in the fourth quarter) in connection with regularly-scheduled Board and Committee meetings. Payout amounts for the annual bonus and the cash long-term incentive plan are determined after year-end, at the first regularly-scheduled Committee meeting of the following year, once complete financial results are available.

Executive Compensation Components

Base Compensation

Base compensation provides executives with a predictable minimum level of compensation. Base salaries are set based on the executive's experience, expertise, level of responsibility, seniority, leadership qualities, individual accomplishments and other factors. That being said, the Company aims to set base salaries at approximately the 45th percentile of the market (slightly below market) in keeping with our philosophy that greater emphasis should be placed upon variable compensation. For 2007, the base salaries for the named executive officers were just below the 45th percentile of the market and the average increase in their base pay was 5.3%.

Annual Bonus

Overview. The Management Incentive Plan, or MIP, provides the named executive officers an opportunity to receive an annual cash bonus. We believe that, given base pay is set below market, annual cash bonus opportunities should be above average to balance some of the risk associated with greater variable compensation. Therefore, we target total cash compensation (base and bonus target) at the 65th percentile of the market. We believe, however, that payments of above-average bonuses should only be made where the individual's performance, that of the entire Company and that of his or her particular business unit warrant it. As a result, financial goals are set aggressively. Actual bonus payments may be substantially above the market median (approaching total cash compensation in the upper quartile, or 75th percentile, of the market) if Lincoln delivers outstanding financial results that are well above targets. Conversely, actual bonus payments, and therefore total cash compensation, may be substantially below market if either individual performance or Company performance does not reach budgeted levels. For 2007, 31 individuals participated in the MIP worldwide. Two additional individuals were recommended for participation in the MIP for 2008.

Funding Formula MIP Matrix. The percentage of target actually paid is based upon a matrix that takes into account the level of achievement of financial performance and the executive's individual performance. If either of these factors is not met, the percentage of target paid is reduced, with the potential that no bonus will be paid. If either of these factors exceeds expectations, the percentage paid is above target.

For 2007, the Committee approved certain changes to the MIP structure. First, the Committee modified the MIP matrix to increase the level of financial performance that will be considered (up from 120% of budget to 150% of budget) and raised the maximum MIP payout (up from 135% of target to 160% of target). The Committee also added a second financial metric, namely the achievement of budget for average operating working capital (AOWC) to sales, in addition to the existing EBITB to budget financial metric. For 2007, the MIP matrix was as follows:

2007 MIP Matrix

And Individual	Based on Financial Achievement to Budget of										
	50%	60%	70%	80%	90%	100%	110%	120%	130%	140%	150%

0.65	0	0	0	0	0	0	0	0	0	0	0

This same matrix will be used for determining 2008 MIP payouts.

Consolidated Results and Business Unit Performance. A portion of the financial component is based upon achievement of Company consolidated financial results, and another portion may be attributable to regional/business unit financial results, depending upon the individual's span of responsibility. Given their corporate-wide responsibilities, for 2007, the financial component for Messrs. Stropki, Petrella and Stueber was 100% dependent upon Company consolidated financial results. For 2007, the financial components for Messrs. LeBlanc and Flohn were 25% dependent upon achievement of financial results for the consolidated Company and 75% dependent upon achievement of financial results for their particular business units/regions. By varying the financial metrics used based upon areas of responsibility, it is possible that certain participants will receive a higher percentage of target while others will receive a lower percentage of target where the business unit performance for one participant is better than the business unit performance for the other. This is a key component of our pay-for-performance and incentive-based philosophies. This was the case in 2007, where the consolidated and most business unit EBITB results were above budgets. As a result, most executives, including all of the named executive officers other than Mr. Flohn, received payouts that were above their target amounts.

EBITB Financial Metric. For 2007, one financial metric used was achievement of earnings before interest, taxes and the broad-based bonus referred to as EBITB to budget. This metric accounted for 80% of the MIP financial component. EBITB to budget has been used as the financial metric for the MIP since its inception in 1997 because it is an important indicator of profitability. Budgets for the consolidated company and the various business units are set aggressively (based on the local and global economic climate), at the beginning of the year, are reviewed by the Finance Committee of the Board and are approved by the full Board. In the last five years, EBITB to budget for the consolidated Company has ranged from 76.2% to 140.5% and has averaged 112.1%. For all of our business units, since 1997, EBITB to budgets have ranged from 7.1% to 162.1%, and have averaged 97.9%. When performance goals are set, we believe that there is an equal probability of achieving EBITB to budget in any year, although the cyclical nature of our business may increase the probability in some years and decrease it in others.

AOWC Financial Metric. For 2007, the Committee added a second financial metric, namely the achievement of budget for average operating working capital (AOWC) to sales, in addition to the existing EBITB to budget

financial metric. This metric accounted for 20% of the MIP financial component. This metric was added to underscore the Company's commitment to improving cash flow. For 2007, for all business units, AOWC to sales ranged from 70.7% to 101.1% and averaged 93.0%. Like EBITB, we believe that there is an equal probability of achieving AOWC to sales in any given year, although the cyclical nature of our business may increase the probability in some years and decrease it in others.

Target Awards. The 2007 MIP targets for the named executive officers were established according to the principles discussed above. Their 2007 MIP targets placed their total cash compensation (base and bonus targets), on average, below the broad-based survey group 65th percentile and the average increase in their MIP targets was 9.6% (primarily due to increases that reflected the transition to greater job responsibilities).

2007 MIP Payments. The bonuses actually paid to the named executive officers for 2007 (as reported in the Summary Compensation Table) were below the amounts paid to them in 2006 (except for Mr. LeBlanc) but were above their 2007 targets (except for Mr. Flohn). These lower payments were due to aggressive 2007 financial budgets, even though overall financial performance for the Company and individual performance were all strong. On average, 2007 actual bonuses were 4.6% lower than 2006 actual bonuses and were 16% above targets. In approving the 2007 MIP payments, the Committee noted that the Company's growth in earnings before interest and taxes (EBIT) for the most recent trailing twelve month period was at the 75th percentile of the peer group and at the 71st percentile of the companies in the S&P Midcap 400 Index (growth in EBIT being the closest financial comparison available for the EBITB to budget metric used in the MIP), and that the Company's return on invested capital for the most recent fiscal year (2006) was at the 7th percentile of the peer group and at the 87th percentile of the companies in the S&P Midcap 400 Index (return on invested capital being the closest financial comparison available for the AOWC to sales metric used in the MIP). These bonus payments resulted in total cash compensation (base and actual bonus) for the group that was, on average, at the survey group 65th percentile.

2008 MIP Targets. During 2007, the Committee determined that the 2008 MIP matrix would be the same as the 2007 MIP matrix. MIP targets for 2008 for the named executive officers are set forth in the Grants of Plan-Based Awards Table below. The Committee determined these targets, in consultation with Watson Wyatt, based on the Company's compensation philosophies and competitive data. The 2008 MIP targets resulted in total compensation (base and target bonus) for the group that was, on average, slightly below the survey group 65th percentile.

Long-Term Incentives

Overview. We believe that long-term incentive opportunities should be provided to focus rewards on factors that deliver long-term sustainability for the Company and should be established at the median (or 50th percentile) of the market. We have targeted the median of the market, in keeping with our pay-for-performance philosophy, because we believe that superior long-term financial growth itself should be the main driver of above-market long-term incentive compensation. We also believe that different financial metrics help drive long-term performance. Therefore, we have established a structure for long-term incentives that combines several different long-term metrics, with the greatest emphasis placed on share appreciation and non-cash awards.

Long-Term Components. Our long-term incentive program is made up of three components: stock options, restricted stock and a cash long-term incentive program. The value of each is weighted equally, such that one-third of an executive's long-term incentive value is delivered through stock options, one-third through restricted stock and one-third through a target cash award, because it provides an even balance with respect to the different attributes and timing associated with each type of award. Annual awards of all three components are made on a limited and selective basis to those individuals who have been designated as officers. The stock option and restricted stock awards for 2007 and 2008 were made under the 2006 Equity and Performance Incentive Plan. For 2007 and 2008 awards, 16 individuals received all three components, including all of the named executive officers.

Stock Options. Recognizing that equity awards are a valuable compensation tool, we extend the stock option portion of our long-term incentive program to senior managers and also make available certain one-time option grants to significant contributors, regardless of their position within Lincoln. Approximately 73% of the stock options covered by the 2007 award were made to employees other than our named executive officers, with a total of 337 employees receiving options worldwide. Approximately 69% of the stock options covered by the 2008 award (granted in the fourth quarter of 2007) were made to employees other than our named executive officers, with a total of 341 employees receiving options worldwide.

Restricted Stock. Historically limited to officers, beginning with the 2007 award (granted in the fourth quarter of 2006), all MIP participants received restricted stock awards.

Timing of Stock Options and Restricted Stock Awards. The Committee has sole discretion in awarding stock options and restricted stock and does not delegate such authority to our management nor does our management have the ability to select or influence award dates. The date used for awards is the date of a regularly-scheduled Committee meeting which is fixed by the Committee well in advance and generally occurs at the same time each year (in the fourth quarter). Occasionally, the Committee is asked to approve limited, out-of-cycle special awards for specific business purposes. Other than the additional stock option award made to Mr. Stropki upon his election as Chief Executive Officer (described in *Other Equity Compensation* below), all of these out-of-cycle stock option grants have been made at regularly-scheduled Committee meetings that have been set well in advance and all have been for minimal amounts. The Committee has not made any out-of-cycle restricted stock awards.

Cash Long-Term Incentive

Overview. A cash long-term incentive plan, or Cash LTIP, was introduced in 1997 for officers. The plan is designed to offer reward opportunities leveraged to the long-term performance of the Company and to provide line-of-sight for plan participants by tying rewards to operating performance. Target amounts are set each year at the beginning of a three-year performance cycle. Because awards are made each year and because each award relates to a three-year performance cycle, three different programs will be running at any point in time. The percentage of the target amount actually paid at the end of the applicable three-year cycle will be based upon achievement of three-year Company performance against pre-established performance thresholds. Each plan has six to seven performance thresholds with percentage payouts attributable to those thresholds ranging from 0% to 200% of target. For 2007, payments were capped at 140% of target.

Performance Measure. Since its inception, the performance measure used has been growth in net income over the three-year cycle. Beginning in 2005, we began measuring growth over the entire three-year period (instead of on a year-by-year basis) because we concluded it was a better metric of sustained growth. Although net income growth has been used consistently, any of the following performance measures may be used as deemed appropriate by the Committee: growth measures, profitability measures, cash flow measures, return on investment/asset measures, shareholder value, strategic or non-financial performance and other key business issues or initiatives. From time to time, the Committee has considered and approved certain limited adjustments to reported net income in determining achievement of the performance measure against the thresholds. Each adjustment is reviewed in detail before it is made. The types of adjustments the Committee has considered include: extraordinary items and other adjustments that are related to events that are infrequent or unusual, and inappropriately distort results. To the extent an adjustment relates to restructuring or rationalization charges that are intended to improve organizational efficiency, a corresponding charge (equal to the adjustment) is added and amortized against future years until that adjustment is fully offset against the intended savings.

Performance Thresholds. In setting the performance thresholds for a new three-year period, the factors that the Committee may consider include, but are not limited to, internal, external and macro-economic factors. Performance thresholds are set aggressively (based on the economic climate); accordingly, 2007 was the fifth

time payments had been made under this plan (out of eight full cycles). Since its inception, the average percent of target paid has been 76.1%, with payments ranging from 0% to 140% of target. For all prior plan cycles, the average net income growth threshold required to achieve a 100% payout under the three-year period has been 17%, with a range of 6% to 30%. For the 2005-2007 cycle, the payments for which are reported in the Summary Compensation Table, the performance thresholds were as follows:

2005 Cash LTIP

(2005 to 2007 cycle)	
Growth in Net Income	% of Target Paid
Over Entire 3-Year Cycle	After 3-Year Cycle
Less than 6%	0
6%	30%
9%	50%
14%	100%
18%	120%
21%	140%

Performance thresholds for the 2005 to 2007 cycle (established in the fourth quarter of 2004) were set at a time when the Company (and other industrial companies) had experienced negative adjusted net income growth in several preceding years. Therefore, to anticipate a modest growth rate during a recovery period, the 2005 to 2007 thresholds were less aggressive than the performance thresholds used in some prior cycles and are less aggressive than the current performance thresholds. Current performance thresholds have been set higher in light of our recent superior net income performance and as a result of additional components of the review process that take into account peer company performance and macro-economic factors. Comparing the historical performance thresholds to past net income performance, we believe that there is an even probability of achieving the net income growth thresholds for any open cycle.

The Committee retains discretion to modify payments to any participant, to modify targets and/or to modify the performance thresholds. For the 2007 to 2009 cycle (established in the first quarter of 2007), the Committee raised the maximum Cash LTIP payment (up from 140% of target to 200% of target), although they tied that change to a significant increase in the performance threshold required for the maximum payout. The 2008 to 2010 plan cycle (established in the first quarter of 2008) uses similar thresholds as the 2007 to 2009 cycle.

Payouts under Cash LTIP. Payouts were achieved in 2007, based on net income growth over the three-year period that was above the 21% maximum performance threshold for that cycle. The following adjustments were made to reported net income to calculate net income growth under the plan: rationalization adjustments (charges for each of which are amortized over a three-year period), non-recurring tax adjustments and the loss on the sale of a business adjustment. However, net income results would have been above the 21% maximum performance threshold even without those adjustments. As a result, payouts were made at 140% of targets for 18 officers. In approving the 2007 Cash LTIP payments, the Committee noted that the Company's growth in net income for the most recent trailing 36-month period was at the 88th percentile of the peer group and at the 81st percentile of the companies in the S&P Midcap 400 Index. Although we had very strong performance between 2005 and 2007, the Committee determined that Cash LTIP payments would remain capped at 140% of targets.

Timing for Setting Performance Measure and Performance Thresholds. Although Cash LTIP target amounts are set at the end of the immediately prior year at a regularly-scheduled Committee meeting, the performance measure and the performance thresholds are now generally set at the beginning of the first fiscal year, which timing coincides with regularly-scheduled Board and Committee meetings. This timing allows the Committee to see our full financial results for the prior year and allows for more current macro-economic projections to be used.

Other Equity Compensation. From time-to-time, the Committee makes special one-time grants of equity compensation to meet a specific business need. Business needs could include, but are not limited to, retention and recruitment of key management. Mr. Stropki was given a special award of 30,000 stock options, in June 2004, upon his appointment as Chief Executive Officer. This special award was made to bring his long-term incentive compensation toward the competitive market 50th percentile for a chief executive officer. The normal terms of our stock option awards applied to Mr. Stropki's grant. As a result, those options became fully vested on June 2007. There are no other currently outstanding special one-time grants of equity compensation for the executive officers.

Long-Term Incentive Timing and Amounts. Stock options, restricted stock and target Cash LTIP awards, are made each year, at the same time that base compensation and bonus targets are set. Awards reported in the footnotes to the Summary Compensation Table and the Grants of Plan-Based Awards Table, which were made in the fourth quarter of 2007, are evaluated as 2008 awards, since they relate to performance in 2008 and beyond. Therefore, the competitive market data, compensation trends, business needs, individual performance, individual role and Company financial performance to peers evaluated by the Committee to set the long-term incentive amounts reported in the footnotes to the Summary Compensation Table and the Grants of Plan-Based Awards Table will be different from those same components used to evaluate and set the base and bonus amounts reported in the Summary Compensation Table. The Cash LTIP payments reported in the Summary Compensation Table are an additional exception. Since these payments relate to the 2005 to 2007 three-year cycle, the target amounts for the Cash LTIP reported in the Summary Compensation Table were evaluated and set as 2005 awards (and made in the fourth quarter of 2004).

Each named executive officer received a 2007 stock option grant, a 2007 restricted stock award and a 2008 to 2010 Cash LTIP target (amounts for each reported in Summary Compensation Table and Grants of Plan-Based Awards Table). The total value of these three awards placed their long-term incentive compensation, on average, above the broad-based survey group 50th percentile, but below the peer group and the S&P Midcap 400 group 50th percentiles. The average increase in the potential value of their long-term incentive awards was 20.6%, primarily due to target increases as certain named executive officers transitioned to greater job responsibilities and due to changes in the market data as reflected in the proxy statements of the peer group companies and companies in the S&P Midcap 400 Index.

Benefits

Overview of Benefits Structure. We intend to provide a competitive group of benefits for all of our employees targeted at 50th percentile of the market. Some aspects of our benefit programs are considered non-traditional due to their relationship with our pay-for-performance and incentive-based philosophies. For example, employees, including the named executive officers, are required to have medical insurance coverage through the Company or an equivalent external source. The premiums for Company-provided medical coverage are 100% paid by employees, on a pre-tax basis. Premiums for dental coverage, which is a voluntary benefit, are also 100% paid by employees. Life insurance coverage paid fully by the Company is set at \$10,000 per employee, including the named executive officers, although employees may purchase additional insurance at their own cost. The executive officers are not exempt from this cost-sharing approach. We continually review our benefits for overall competitiveness.

We attempt to balance our various non-traditional programs (such as those with a significant portion of the cost borne by the employee), with more traditional programs. As a result, we place the greatest emphasis with our benefit programs on the delivery of retirement benefits to our employees. This allows us to reward long-term service with the Company which, we believe, is not addressed in our other compensation and benefit programs. The value of our retirement benefits are intended to deliver a retirement benefits package that is, when viewed in isolation, above the market median (50th percentile). Because some of our other benefits might be viewed as less than competitive and because our retirement benefits are above the competitive market, we believe that our overall benefit structure is at the competitive market (50th percentile).

Retirement Benefits. Retirement benefits are provided to our named executive officers through the following programs:

Supplemental Executive Retirement Plan, or SERP, that became effective January 1, 1994. The purpose of the SERP is, in part, to make up for limitations imposed by the Code on payments of retirement benefits under our tax-qualified retirement plans, including the RAP (described below), and, primarily, to provide an aggregate competitive retirement benefit for SERP participants in line with our overall 50th percentile objective for benefits. Participation in the SERP is limited to individuals approved by the Committee. As of December 31, 2007, there were 13 active participants in the SERP. No new participants have been added to the SERP since January 1, 2005. Compensation covered by the SERP is the same as shown in the salary and bonus columns of the Summary Compensation Table below. Certain terms of the SERP may be modified as to individual participants, upon action by the Committee. Except with respect to the increase of Mr. Stropki's annual SERP benefit limit as described below in the narrative following the Grants of Plan-Based Awards Table, there have been no material modifications of terms of the SERP as to the named executive officers.

The Lincoln Electric Company Retirement Annuity Program, or RAP, in effect since 1936 and applies to all eligible domestic welding business employees. Effective January 1, 2006, new employees are no longer eligible to participate in the RAP but became eligible for FSP Plus benefits described below. The retirement benefits under the RAP for the named executive officers are estimated in the Pension Benefits Table based on the 2006 and 1997 elections of the SERP they each made (those elections are described in the *Retirement and Other Post-Employment Benefits* section).

A supplemental deferred compensation plan, or Top Hat Plan. Our Top Hat Plan is designed to allow participants to defer their current income on a pre-tax basis and to receive a tax-deferred return on those deferrals. Top Hat Plan benefits are provided through two separate programs: the Lincoln Electric Holdings, Inc. 2005 Deferred Compensation Plan for Executives, or New Top Hat Plan, was adopted on December 30, 2004 to provide for ongoing deferrals in compliance with Section 409A of the Code and the Lincoln Electric Holdings, Inc. Deferred Compensation Plan for Executives, or Old Top Hat Plan, was originally adopted in 1994 and ultimately amended on December 30, 2005 to provide that all benefits under the plan would comply with the requirements of Section 409A of the Code. Participation in the Top Hat Plan is limited to individuals approved by the Committee. As of December 31, 2007, there were 17 active participants in the Top Hat Plan. No new participants entered the New Top Hat Plan in 2007 and no new participants or deferrals will be added to the Old Top Hat Plan.

A qualified 401(k) savings plan, formally known as The Lincoln Electric Company Employee Savings 401(k) Plan, established in 1994 and applies to all eligible domestic welding business employees. For 2007, all of the named executive officers deferred amounts under the 401(k) plan. We match participant contributions (other than catch-up contributions) at 35% up to the first 6% of pay (base and bonus) contributed. We may also provide additional contributions under a program we refer to as the Financial Security Plan (FSP) for those participants, including the named executive officers, who made an election to adopt this program in 1997 (in which case they receive an annual FSP contribution of 2% of base pay) or who made an election to adopt a revised program in 2006, which we refer to as the FSP Plus program, in which case they receive an annual FSP Plus contribution as follows:

After service of...	Lincoln will contribute...
1 year	4% of base pay
5 years	5% of base pay
10 years	6% of base pay
15 years	7% of base pay
20 years	8% of base pay
25 years	10% of base pay

We also provide accidental death benefits to officers, due to the significant amount of travel required in their jobs. Under this program, the premiums of which are paid by the Company, a participant's beneficiary would receive a payment of \$750,000 upon an officer's accidental death. The policy also provides disability benefits of up to \$7,500 per month in the event an officer is permanently and totally disabled as a result of an accident, and it provides for medical evacuation coverage as a result of an accident.

Supplemental Executive Retirement Plan. In 2005, we added a two-tier benefit structure applicable to new participants in the SERP in light of emerging trends in executive compensation. Under the two-tier benefit structure, future participants, if any, designated as Management Committee and Regional President Participants are entitled to a retirement benefit as follows:

$$\text{Management Committee/Regional Presidents} = \left[\left(\frac{\text{1.333\%} \times \text{years of service}}{\text{final average pay}} \right) - \text{applicable offsets} \right] \times \text{participation factor}$$

to a maximum of 60%

All future participants designated as Other Participants are entitled to a retirement benefit as follows:

$$\text{Other Participants} = \left[\left(\frac{\text{1.111\%} \times \text{years of service}}{\text{final average pay}} \right) - \text{applicable offsets} \right] \times \text{participation factor}$$

to a maximum of 50%

Generally, benefits under the SERP for current participants, including each named executive officer, are determined as follows:

$$\text{Current Participants} = \left[\left(\frac{\text{1.445\%} \times \text{years of service}}{\text{final average pay}} \right) - \text{applicable offsets} \right] \times \text{participation factor}$$

to a maximum of 65%

Perquisites

The Company will occasionally provide perquisites to officers or MIP participants to meet specific business needs. For example, because we believe in the importance of maintaining the health of all of our employees, including the named executive officers, we pay for an annual physical for MIP participants who are age 45 or older and for certain participants below that age on an *ad hoc* basis. We also make available financial planning services to officers. However, the cost of these financial planning services is included in the income of the participants. The physical and financial planning programs are optional programs. To assist us in conducting business meetings and/or entertainment, we pay the cost of certain club dues for some officers. Although these officers may derive some personal benefit from their use, club memberships are used extensively for business purposes, all personal expenses are born entirely by the executive and the club dues are included in the income of the participants. Initiation fees for club memberships are paid by the executive.

In 2007, Messrs. Stropki and Petrella opted to use the executive physical program. All of the named executive officers used the financial planning services. Finally, certain club dues were paid for Messrs. Stropki, Petrella and Stueber. The value of these perquisites is included in the Summary Compensation Table.

Change in Control Agreements

We entered into agreements in 1998 with certain officers, designed generally to assure continued management in the event of a change in control of Lincoln. As of December 31, 2007, three officers continue to have active

agreements, including Messrs. Stropki and Stueber. The agreements with Messrs. Stropki and Stueber were modified in March 2000. These arrangements are operative only if a change in control occurs and payments are only made if the officer's employment is terminated (or if the officer terminates his employment due to certain adverse changes in his terms of employment). Outside of these three change in control agreements, the Company does not maintain written change in control or severance agreements. With the assistance of Watson Wyatt and external legal advisors, the Committee periodically evaluates the existing change in control agreements, and considers whether additional or new agreements are warranted, in light of current market terms and practices.

Stock Ownership Guidelines

As with the Directors, in keeping with our philosophy that officers should maintain an equity interest in Lincoln and based on our view that such ownership is a component of good corporate governance, we adopted stock ownership guidelines for officers effective January 1, 2006. Under the guidelines, officers of Lincoln are required to own and hold a certain number of our common shares, currently at the levels set forth in the table below:

	Executive Group	Ownership Guideline
CEO		3 times base salary
Management Committee Members*		1 times base salary
Other Officers **		1/2 times base salary

* Includes Messrs. Petrella and Stueber, as well as other officers of Lincoln.

** Includes Messrs. LeBlanc and Flohn, as well as other officers of Lincoln.

Officers have five years to satisfy the stock ownership guidelines, which can be satisfied either by holding (1) shares aggregating the dollar amount specified above, or (2) that number of shares needed to satisfy the ownership guidelines tied to the base salaries in effect on January 1, 2006 divided by the closing price of a common share on December 30, 2005 (\$39.66). The Committee reserves the right to modify these guidelines in the future. Restricted stock awards will count towards the stock ownership guidelines; common shares underlying stock options and shares held in another person's name (including a relative) will not. As of December 31, 2007, more than 90% of our officers met the stock ownership requirements.

Accounting Impact

Effective January 1, 2003, we adopted the fair value method of recording equity-based compensation contained in SFAS No. 123 Accounting for Stock-Based Compensation. Effective January 1, 2006, we adopted SFAS No. 123 (Revised 2004), Share-Based Payment, which is a revision of SFAS No. 123. Generally, the approach under SFAS No. 123(R) is similar to the approach under SFAS No. 123. All employee stock option grants beginning January 1, 2003 are expensed over the stock option vesting period based on their fair value on the date the options are granted. Restricted shares or deferred shares require compensation expense to be measured by the quoted market price on the date of grant and expensed over the vesting period. No expense is recognized for any stock options, restricted shares or deferred shares that are forfeited, in which case the recipients have failed to meet the applicable vesting requirements.

Section 162(m) Of The U.S. Internal Revenue Code

Our general philosophy is to qualify future compensation for tax deductibility under Section 162(m) of the Code, wherever appropriate, recognizing that, under certain circumstances, the limitations may be exceeded. Qualification is sought to the extent practicable and only to the extent that it is consistent with our overall compensation objectives. For example, in the past, our MIP and Cash LTIP programs were not qualified under Section 162(m) of the Code because the Committee believed that it was important to retain a significant level of flexibility and simplicity in those programs to support our pay-for-performance philosophies and it believed that

this required flexibility and simplicity could not be accomplished under the qualification rules. The Committee also believed that it employed other safeguards (such as a mechanism for comparing pay and performance) that, although not recognized under Section 162(m) of the Code, did ensure that payments made under these programs were performance-based. Finally, given that the impact of non-deductibility in the past under Section 162(m) of the Code had not been material, the Committee viewed non-qualification of those plans as appropriate in light of the significant level of flexibility and simplicity of the programs.

As a result of our on-going review of our compensation programs, the Committee determined that both the MIP and Cash LTIP plans could be structured in such a way as to maintain a suitable level of flexibility and simplicity and, at the same time, could be treated as performance-based compensation under Section 162(m) of the Code. Such treatment would allow those payments to be deductible under Section 162(m) of the Code, to the extent that an executive officer's compensation exceeded \$1 million, which would be beneficial to the Company. Accordingly, the 2007 Management Incentive Compensation Plan (or 2007 MICP), approved by shareholders at last year's Annual Meeting, may allow the following components of executive compensation to be excluded in determining deductibility under Section 162(m) of the Code: annual bonus (MIP), Cash LTIP and stock option awards. Exclusion of those amounts under Section 162(m) means that they are fully deductible, regardless of amount, assuming they are otherwise considered reasonable compensation and are within the limits of the plan. Payments of base pay and restricted stock (as currently structured) would not be excludable and, thus, any of those amounts that exceed \$1 million in a calendar year would be non-deductible.

Compensation paid to the named executive officers during 2007 was tax deductible for Federal income tax purposes, except with respect to a portion of the compensation paid to Mr. Stropki.

- (1) The performance-based amounts shown represent the estimated cash payouts for 2008 under our annual bonus program (or MIP). Under the MIP, payments are based on the achievement of Company financial performance goals and the executive's individual performance. Target awards are set by the Compensation and Executive Development Committee of the Board in the fourth quarter of the year preceding the bonus year. Actual payment amounts are determined by the Compensation and Executive Development Committee of the Board in the first quarter of the year following the bonus year. For additional information regarding the MIP, see the Compensation Discussion and Analysis section above.
- (2) The performance-based amounts shown represent estimated cash payouts for the 2008 to 2010 cycle under our cash long-term incentive plan. Under the plan, payments are based on net income growth over a three-year cycle. Target awards are set by the Compensation and Executive Development Committee of the Board in fourth quarter of the year before the three-year cycle. Actual payment amounts are determined by the Compensation and Executive Development Committee of the Board in the first quarter of the year following the three-year cycle.
- (3) The amounts shown in this column represent restricted stock grants made under our 2006 Equity and Performance Incentive Plan on November 28, 2007. The restricted stock vests upon the earlier of (1) the recipient remaining in continuous employment for five years (to November 28, 2012), or (2) a determination

by the Compensation and Executive Development Committee of the Board that the financial targets for our cash long-term incentive plan (discussed above) are met (i.e., 3 years) (2008-2010 cycle), with accelerated vesting upon a change in control in the event the employee is terminated or in the event any successor to the Company does not honor the terms of the award or in the event of death, disability or retirement. Beginning with the 2007 awards (made in the fourth quarter of 2006), accelerated vesting upon a change in control began requiring a termination of employment in connection with the change in control or in the event any successor to the Company does not honor the terms of the award in connection with the change in control. Any cash dividends on the restricted stock are sequestered by us until the shares are nonforfeitable, at which time such dividends are paid in common shares. The dividend rate for dividends paid on the restricted stock to the named executive officers is the same as for all other shareholders (in other words, it is not preferential).

- (4) The amounts shown in this column represent stock option grants made under our 2006 Equity and Performance Incentive Plan on November 28, 2007. The stock options were granted at the closing price of our common shares on the date of the grant. All stock options are non-qualified for tax purposes. We value stock options using the Black-Scholes valuation method. The stock options vest over a three-year period (in equal annual increments), with accelerated vesting upon retirement, death, disability or a change in control in the event the employee is terminated or if the plan is not assumed upon a change in control. Beginning with 2007 awards, accelerated vesting upon a change in control began requiring a termination of employment in connection with the change in control. Three-year vesting applies to stock option awards given to senior managers and officers. Options awarded to non-management employees vest after one year, with accelerated vesting upon retirement, death or disability. The options have 10-year terms.
- (5) The amounts shown represent the full value of the restricted stock awards and the stock option grants calculated in accordance with FAS 123R. The actual amount, if any, realized upon the exercise of stock options will depend upon the market price of our common shares relative to the exercise price per share of the stock option at the time of exercise. The actual amount realized upon vesting of restricted stock will depend upon the market price of our common shares at the time of vesting. There is no assurance that the hypothetical full values of the awards reflected in this table will actually be realized.

The narrative below describes the material terms of each named executive officer's employment agreement or arrangement with us to the extent it is not otherwise discussed above in the Compensation Discussion and Analysis section and/or in the Summary Compensation Table and its corresponding footnotes.

Additional Employment Terms for the Chief Executive Officer

Mr. Stropki was elected President and Chief Executive Officer of the Company effective June 3, 2004. In connection with his election, Mr. Stropki and Lincoln entered into a letter agreement modifying the terms of his retirement benefits. Under the terms of the letter agreement, Mr. Stropki will continue to participate in the SERP under the same terms and conditions that existed prior to his appointment as Chief Executive Officer, except that his annual benefit limit under the SERP was increased from the standard \$300,000 to \$500,000. For a general discussion of the SERP, see the Compensation Discussion and Analysis above and the Pension Benefits Table below.

For 2007, Mr. Stropki's salary and bonus accounted for 59% of his total compensation, based on the value of his 2007 base salary, 2007 actual MIP (or bonus) paid in February 2008 and assumes one-third of his actual Cash LTIP payment for the 2005 to 2007 performance cycle.

Additional Employment Terms for the Chief Financial Officer

As part of its review of the Company's cash long-term incentive plan, the Compensation and Executive Development Committee of the Board determined that it would institute pro-rata target awards for any open

performance cycle for those individuals who became officers or for those officers who received significant promotions during these periods. As a result, the Committee determined that Mr. Petrella's 2004 to 2006 cash long-term incentive target would be raised from \$40,000 to \$74,667 to reflect his promotion to Chief Financial Officer in 2004. The 2006 cash long-term incentive plan payment to Mr. Petrella that is reported in the Summary Compensation Table above was calculated based on this revised target.

For 2007, Mr. Petrella's salary and bonus accounted for 66% of his total compensation, based on the value of his 2007 base salary, 2007 actual MIP (or bonus) paid in February 2008 and assumes one-third of his actual Cash LTIP payment for the 2005 to 2007 performance cycle.

Additional Employment Terms for the Other Named Executive Officers

Mr. Stueber entered into an employment agreement in February 1995, which was modified in May 1998. The agreement contains many terms no longer in effect. The agreement grants credited service for purposes of the SERP of 22 years as of his date of hire, assuming a normal retirement age of 60 and service of 45 years at age 65.

Both Messrs. LeBlanc and Flohn are U.S. employees, working overseas. As such, they receive certain expatriate benefits under our overseas assignment policy. However, the benefits provided to Messrs. LeBlanc and Flohn are on the same terms as those provided to other expatriates. Therefore, the Company has not entered into any special employment agreement with Messrs. LeBlanc and Flohn.

For 2007, Mr. Stueber's salary and bonus accounted for 55% of his total compensation, Mr. LeBlanc's salary and bonus accounted for 50% of his total compensation and Mr. Flohn's salary and bonus accounted for 36% of his total compensation. The above percentages were based, in each case, on the value of the executive's 2007 base salary, 2007 actual MIP (or bonus) paid in February 2008 and assumes one-third of the executive's actual Cash LTIP payment for the 2005 to 2007 performance cycle.

(1) Stock options vest in three equal annual installments, commencing on the first anniversary of the date of the grant.

(2) The amounts shown in this column represent restricted stock awards made pursuant to our 1998 Stock Plan (November 30, 2005 awards) and 2006 Equity and Performance Incentive Plan (November 28, 2007 and November 29, 2006 awards). For more information on our restricted stock awards, see the narrative discussion provided in the Grants of Plan-Based Award Table and its corresponding footnotes. The terms of the 2005 awards are the same as the 2006 and 2007 awards, except that the 2005 awards have accelerated vesting upon a change in control only and do not also require a termination of employment in connection with a change in control.

- (1) Under the RAP, credited years of service are the same as actual years of service, both of which are calculated from the date of hire with the Company. Accordingly, there is no benefit increase for credited years of service under the plan. All of the named executive officers are currently under normal retirement age.
- (2) Under the SERP, credited years of service versus actual years of service are the same for Messrs. Stropki, Petrella, LeBlanc and Flohn, all of which are calculated from their dates of hire with the Company. Credited years of service versus actual years of service vary for Mr. Stueber as follows: (actual: 11) (credited: 33). Mr. Stueber was granted additional years of service under the SERP for service with his prior employer. As a result, benefits earned at his prior employer will serve as an offset against his SERP benefits. The aggregate benefit increase under the SERP for enhanced credited years of service for Mr. Stueber is \$1,557,000.

Edgar Filing: LINCOLN ELECTRIC HOLDINGS INC - Form PRE 14A

- (3) This represents the actuarial present value of accrued benefits in the RAP for the named executive officers at December 31, 2007. However, this is an estimated full value number that is discounted to a current date. In addition, because the RAP does not provide for lump-sum payments, the amounts listed will not be paid in the form expressed here. The above actuarial present values were determined using a 6.35% discount rate, RP-2000 Mortality, age 60 commencement and no decrements for death or termination prior to age 60. All of the named executive officers are currently vested in their RAP benefits because they each have at least five years of service with the Company.

Mr. Stropki will be eligible for a full, unreduced benefit under the RAP in 2010, when he reaches age 60. He may retire before that date and receive early retirement benefits, commencing as early as age 55; however, those early benefits will be actuarially reduced to account for an early payment. As of December 31, 2007, Mr. Stropki's accrued benefit payable at age 60 under the plan was \$86,000 per year.

Mr. Petrella will be eligible for a full, unreduced benefit beginning in 2020, or an earlier reduced benefit after he reaches age 55. As of December 31, 2007, Mr. Petrella's accrued benefit payable at age 60 under the plan was \$48,000 per year.

Mr. Stueber will be eligible for a full, unreduced benefit beginning in 2013, or an earlier reduced benefit after he reaches age 55. As of December 31, 2007, Mr. Stueber's accrued benefit payable at age 60 under the plan was \$56,000 per year.

Mr. LeBlanc will be eligible for a full, unreduced benefit beginning in 2024, or an earlier reduced benefit after he reaches age 55. As of December 31, 2007, Mr. LeBlanc's accrued benefit payable at age 60 under the plan was \$45,000 per year.

Mr. Flohn will be eligible for a full, unreduced benefit beginning in 2020, or an earlier reduced benefit after he reaches age 55. As of December 31, 2007, Mr. Flohn's accrued benefit payable at age 60 under the plan was \$52,000 per year.

(4) This represents the actuarial present value of accrued benefits in the SERP for the named executive officers at December 31, 2007. However, this is an estimated full value number that is discounted to a current date. The above actuarial present values were determined using a 6.35% discount rate, RP-2000 Mortality, age 60 commencement and no decrements for death nor termination prior to age 60. Mr. Stropki will be fully-vested in the SERP in 2010. Benefits may become vested earlier but this early vesting would require approval of our Compensation and Executive Development Committee of the Board. In addition, any benefits paid before age 60 would be actuarially reduced to account for an early payment. SERP benefits may be paid on a lump sum basis, but all payments under the SERP are subject to the requirements of U.S. Internal Revenue Code Section 409A. As of December 31, 2007, Mr. Stropki's accrued benefit payable at age 60 under the plan was \$500,000 per year, his limit under the plan.

Mr. Petrella will be fully-vested in the SERP in 2020, subject to the potential early vesting treatment outlined above. As of December 31, 2007, Mr. Petrella's accrued benefit payable at age 60 under the plan was \$0 per year, due to the fact that plan offsets currently exceed his SERP benefit.

Mr. Stueber will be fully-vested in the SERP in 2013, subject to the potential early vesting treatment outlined above. As of December 31, 2007, Mr. Stueber's accrued benefit payable at age 60 under the plan was \$208,000 per year.

Mr. LeBlanc will be fully-vested in the SERP in 2024, subject to the potential early vesting treatment outlined above. As of December 31, 2007, Mr. LeBlanc's accrued benefit payable at age 60 under the plan was \$0 per year, due to the fact that plan offsets currently exceed his SERP benefit.

Mr. Flohn will be fully-vested in the SERP in 2020, subject to the potential early vesting treatment outlined above. As of December 31, 2007, Mr. Flohn's accrued benefit payable at age 60 under the plan was \$0 per year, due to the fact that plan offsets currently exceed his SERP benefit.

Supplemental Executive Retirement Plan. For purposes of the SERP:

Final average pay is the average base and bonus compensation for the three highest years in the seven-year period preceding retirement.

Years of service includes all service with the Company (and may include service with certain previous employers) but excludes service after age 65. Credited service for SERP purposes, as of December 31, 2007, for Messrs. Stropki, Petrella, Stueber, LeBlanc and Flohn was 35, 12, 34, 13 and 24 years,

respectively. Mr. Stueber was awarded prior years of service under the SERP for service with his previous employer. Since 2001, however, it has not been customary for us to grant extra years of credited service under the SERP.

Benefits payable under the SERP are reduced by the maximum Social Security benefit payable in the year of retirement, the single life benefit payable under the RAP, the lifetime benefit equivalence of any account balance attributable to employer matching contributions, Employee Stock Ownership Plan contributions and/or Financial Security Program contributions under the 401(k) plan, and other employer-paid qualified plan benefits paid by previous employers (but only if prior years of service are awarded under the SERP for service with that previous employer). Benefits under the SERP are also reduced if the covered employee has participated in the SERP for fewer than eight years at the time of retirement.

Unless a different factor is set by the Committee, participants are credited with only 20% of the net amount of the benefit otherwise payable under the SERP when they first become participants, and in each of the next eight years, an additional 10% of the net amount of the benefit will become payable upon retirement. As of December 31, 2007, Messrs. Stropki and Stueber had 100% participation factors, Messrs. Petrella and LeBlanc had 80% participation factors, and Mr. Flohn had a 50% participation factor. Unless modified, the maximum net benefit payable under the SERP is \$300,000 per year.

SERP benefits vest at the plan's normal retirement age of 60. None of the named executive officers is currently vested in the SERP. Benefits may become vested as early as age 55, but only if such vesting is approved by the Committee. If benefits are paid before age 60, they are reduced for early commencement. The SERP also provides accumulated benefits to eligible spouses of deceased employees or former employees.

Retirement Annuity Program (RAP). Under the RAP, each eligible employee accumulates 2.5% of each year's base compensation (limited to \$220,000 for 2006 and \$225,000 for 2007 for compensation earned during the period November 1, 2006 through October 31, 2007 and \$230,000 thereafter per Code limits) in the form of an annuity payable at normal retirement age (age 60 or five years of employment, if later). Participants may also retire early and receive a benefit as early as age 55, but that benefit is reduced to reflect the early payments. For example, a participant commencing his or her RAP benefit at age 55 will receive a benefit equal to 63.82% of his or her normal retirement benefit. In addition to the 2.5% accumulation each year, we have granted, on a number of occasions, additional prospective past service benefits. The program also provides accumulated benefits to eligible spouses of deceased employees or former employees. Benefits under the program are in addition to those payable under Social Security. The RAP was modified in 1997 and again in 2006 to provide one-time elections to all employees at those times.

The 2006 election provided a one-time choice for existing employees (hired before January 1, 2006), between maintaining the current program or opting into an alternative program in which the prospective annual earned annuity in the RAP is reduced to 1.25% of each year's base compensation and the employee is entitled to an enhanced Lincoln contribution in the qualified 401(k) plan, based on service. The enhanced defined contribution program is known as the FSP Plus program and is described in more detail below. All employees hired after January 1, 2006 may participate in the FSP Plus program (and may not participate in any RAP benefits).

The 1997 election provided a one-time choice to existing employees (hired before November 1, 1997), between maintaining a feature in the RAP known as the Age 60 Feature (or Ramp) or eliminating that feature prospectively in lieu of receipt of employer-provided benefits in our 401(k) plan (referred to as FSP benefits and described in more detail below). Under the Ramp feature, if a participant, including a named executive officer, works past normal retirement age (60), he or she may be eligible for certain enhanced benefits to be paid in one of two ways at his/her election: (1) retirement benefits would commence at age 60 while the participant continued to work, or (2) retirement benefits would be delayed until actual retirement with the participant receiving higher payments. Under the Ramp, a participant must start his or her retirement benefits at age 65, even if he/she continues to work for us.

- (9) The portions of the amount reported that relate to deferral contributions in prior years have not been reported in the Summary Compensation Table in those previous years because Mr. Flohn was not a named executive officer for those years.

2005 Deferred Compensation Plan (Top Hat Plan). Our plan is designed to be a top-hat plan that complies with Section 409A of the Code. In order for a deferral to be eligible for deferred taxation, it must be subject to a substantial risk of forfeiture and must follow limited deferral and distribution rules. Under Section 409A of the Code, non-qualified deferred compensation plan distributions are permitted only in the event of separation from service, disability, death, a change in control of the employer or an unforeseeable emergency. Distributions also can be made at a specified time or under a fixed schedule, as stated in the plan at the time of the deferral.

Participation in our Top Hat Plan is limited to management and highly compensated employees, approved by the Committee, who have elected to make the maximum elective contributions permitted under the terms of our 401(k) plan for the applicable deferral period/year (\$15,500 for 2007). Participants may elect to defer portions of their regular salary and/or bonus, provided that the deferral amount under the plan and the 401(k) plan together cannot exceed 80% of base salary and/or 80% of bonus. Deferrals are credited to participant accounts based on their elections and accounts are also credited with earnings based on the investment elections made by the participant. There are currently 23 investment options, 22 of which mirror the third-party managed investment funds available under our 401(k) plan and one, Moody's Corporate Bond Average Index, that preserves an investment option previously available under our old deferred compensation plan. All of the third-party managed investment options track precisely with the returns reported by the investment managers for the funds to which they are associated. The Moody's Corporate Bond Average Index is derived from pricing data for approximately 100 corporate bonds in the U.S. market, each with current outstandings of over \$100 million.

Amounts deferred under the plan are distributed when a participant terminates employment with us or elects to receive an in-service distribution, which is available to assist participants in meeting shorter-term financial needs. In-service distributions are elected at the time the deferral election is made and are payable in a lump-sum payment on a date that is at least one calendar year after the date of the applicable deferral period/plan year. Distributions following death or retirement may be made by payment in five, ten or fifteen annual installments or by payment of a single lump-sum, except that accounts valued at less than \$35,000 are distributed in a single lump-sum payment. The retirement distribution is available for participants starting at age 60 (or age 55 if the participant has 25 years of service). The plan administrator, in its sole discretion, may also allow for financial hardship distributions in certain circumstances. Loans are not permitted under the plan.

TERMINATION AND CHANGE IN CONTROL ARRANGEMENTS

The table below reflects the estimated additional amounts of compensation each named executive officer would receive in the event of a termination of employment. Termination events include: a voluntary termination by the executive; normal retirement of the executive (defined as termination at age 60 or later); an involuntary, not-for-cause termination by the Company; a for-cause termination by the Company; a termination upon a change in control; and a termination due to death or disability. In addition, estimated additional compensation amounts are shown in the event of a change in control without termination of employment. The amounts shown assume that each event occurred on December 31, 2007, the last business day of the calendar year.

Termination of Employment

No written agreements exist that provide additional payments to a named executive officer in the event he voluntarily terminates his employment with Lincoln or Lincoln terminates his employment (whether for cause or not). Pursuant to our standard employment policies, however, upon termination of employment, a named executive officer would be entitled to receive the following:

- Earned but unpaid base pay, up to the date of termination;
- Earned and unused vacation, up to the date of termination;
- Vested amounts held in his account under our 401(k) Plan;
- Amounts held in his account under our Top Hat Plan;
- Deferred vested benefits under our RAP (pension plan) payments for which could begin at normal retirement age (60) or as early as age 55 (but at a reduced amount); and
- Continuing medical and/or dental coverage under COBRA, for which the executive would pay 102% of the applicable premium.

In addition, the named executive officer generally would be entitled to exercise any vested stock options for a period of three months after termination (after which time the options would expire). However, vested options would be automatically cancelled if the executive's employment were terminated for cause or if the executive engaged in competitive conduct within six months of his termination. Annual bonus targets, cash long-term incentive targets, unvested stock options and restricted stock would be eliminated.

Normal Retirement

In addition to the entitlements described above, upon termination after normal retirement age, a named executive officer would be entitled to receive the following:

- A pro-rata portion of the annual bonus (MIP), based on his period of employment during the calendar year, subject to achievement of the applicable personal and financial goals;
- Pro-rata portions of each cash long-term incentive plan (Cash LTIP), based on his periods of employment during each of the open three-year cycles and upon completion of each cycle, subject to achievement of the applicable financial goals;
- Vesting of any unvested stock options and restricted stock awards;
- Normal vesting of benefits under the SERP (nonqualified pension plan);
- Continuing medical and/or dental coverage as a retiree, with 100% of the premium paid by the executive; and
- Financial planning services for the year of retirement and for one calendar year thereafter.

The named executive officer would be entitled to exercise his stock options for a period of three years after retirement (after which time the options would expire).

Change in Control

We entered into change in control agreements with certain officers, including Messrs. Stropki and Stueber. Currently, only one other officer has such an agreement. Those agreements are operative only if the executive's

employment is terminated as a result of the change in control. Pursuant to these agreements, upon a change in control and a subsequent termination of employment within a three-year severance period, the named executive officer would be entitled to receive the following:

Earned but unpaid base pay, up to the date of termination;

A pro-rata portion of the annual bonus (MIP), based on his period of employment during the calendar year, in an amount equal to the greater of the actual or target amount;

A severance payment equal to the amount of base and bonus that would have been paid to the executive for the greater of one year or the remainder of the severance period;

Long-term incentive awards granted prior to the change in control, in amounts equal to the greater of target or actual performance on the executive's date of termination;

Continuation of medical insurance and life insurance for the greater of one year or the remainder of the severance period, subject to reduction for comparable welfare benefits received in any subsequent employment;

Enhanced service credit and age under the SERP of three years and immediate vesting under the SERP;

Outplacement services for a period of twelve months;

Vesting of any unvested stock options and restricted stock awards; and

An additional payment, net of taxes, to compensate for the excise tax imposed on these and other payments if they are determined to be excess parachute payments under the U.S. Internal Revenue Code.

Notwithstanding the foregoing, if the underlying transaction that triggered the change in control is abandoned, the Board may nullify the effect of the change in control and reinstate the agreements without prejudice to any action that may have been taken prior to the nullification.

During the period ending on the later of (1) one year following the termination date or (2) the end of the severance period (as described below), if the executive has received or is receiving severance compensation, the executive may not engage in a business enterprise in substantial and direct competition with Lincoln or one of our subsidiaries without the consent of Lincoln, which consent shall not be unreasonably withheld. The severance period commences on the date of the first occurrence of a change in control and ends on the earliest of (a) the third anniversary of the change in control, (b) the executive's death, or (c) the executive's sixty-fifth birthday.

In addition to these agreements, our outstanding stock option and restricted stock agreements provide for automatic vesting upon a change in control of Lincoln. However, beginning with 2007 awards (made in the fourth quarter of 2006), accelerated vesting for stock option awards and restricted stock grants upon a change in control also require a termination of employment in connection with the change in control.

The following events would constitute a change in control:

all or substantially all of Lincoln's assets are sold to another entity, or Lincoln is merged, consolidated or reorganized into or with another entity, with the result that upon the conclusion of the transaction less than 51% of the outstanding securities entitled to vote generally in the election of directors of the surviving entity are owned, directly or indirectly, by the shareholders of Lincoln generally prior to the transaction;

a report filed on Schedule 13D or Schedule TO disclosing that any person has become the beneficial owner of securities representing 20% or more of the combined voting power of Lincoln, excluding (1) any person or group of persons who are officers, directors or employees of Lincoln or any subsidiary as of the date of the agreement or are related by blood or marriage to the descendants of James F. or John C. Lincoln, including any trusts or similar arrangements for any of the foregoing and any foundations established by the foregoing, (2) any underwriter or syndicate of underwriters acting on behalf of Lincoln in a public offering of our securities and any of their transferees, and (3) Lincoln, a subsidiary or a Lincoln-sponsored employee stock ownership plan;

Lincoln shall file a current report on Form 8-K or proxy statement with the Securities and Exchange Commission disclosing that a change in control of Lincoln has or may have occurred or will or may occur in the future pursuant to any then-existing contract or transaction; or

individuals who, at the beginning of any period of two consecutive calendar years, constituted the Directors of Lincoln cease for any reason to constitute at least a majority thereof unless the nomination for election by Lincoln's stockholders of each new Director was approved by a vote of at least two-thirds of the Directors still in office who were Directors at the beginning of any such period.

Death or Disability

In addition to the entitlements described above under the heading of Termination of Employment, upon death or termination due to disability, a named executive officer (or his beneficiary) would be entitled to receive the following:

A pro-rata portion of the annual bonus (MIP), based on the executive's period of employment during the calendar year subject to achievement of the applicable personal and financial goals;

Pro-rata portions of each cash long-term incentive plan (Cash LTIP), based on the executive's periods of employment during each of the open three-year cycles and upon completion of each cycle, subject to achievement of the applicable financial goals;

Vesting of any unvested stock options and restricted stock awards;

Vesting of accrued benefits under the SERP (nonqualified pension plan) if the Compensation and Executive Development Committee of the Board so provides; and

Continuing medical and/or dental coverage as a retiree, with 100% of the premium paid by the executive (or his surviving dependents).

The named executive officer (or his estate) would be entitled to exercise his stock options for a period of three years after termination (after which time the options would expire).

Termination and Change in Control Table

The following table sets forth estimates of the potential incremental payments to each of our named executive officers upon the specified termination events and upon a change in control without termination of employment, assuming that each such event took place on the last business day of 2007. The table does not quantify benefits under plans that are generally available to salaried employees and do not discriminate in favor of executive officers, including the Retirement Annuity Program, the 401(k) plan, the health care plan and the life insurance plan. In addition, the table does not include the value of outstanding equity awards that have previously vested, such as stock options, which awards are set forth above in the Outstanding Equity Awards at Fiscal Year-End Table. For descriptions of the compensation plans and agreements that provide for the payments set forth in the following table, including our change in control agreements, see the Executive Compensation Components discussion contained in the Compensation Discussion and Analysis section above.

APPROVAL OF AMENDMENTS TO THE CODE OF REGULATIONS

Proposal Nos. 2, 3 and 4

In November 2007, the Board of Directors unanimously approved and recommended that the shareholders approve amendments to our Code of Regulations described below. The proposed amendments are separated into three proposals to allow shareholders to focus and vote on each significant change. Each proposal will be voted upon separately, and the adoption or rejection of one proposal will not affect the adoption or rejection of another proposal. The proposed amendments are incorporated in the Amended and Restated Code of Regulations, a copy of which is attached as Appendix A and marked to show the proposed changes. The changes marked in Article V relate to Proposal 3. The changes marked in Article IX related to Proposal 4. All other changes relate to Proposal 2.

Proposal 2 Shareholder Meetings

Proposal 2 contains several related changes to the Code of Regulations regarding the business to be brought before shareholder meetings and the conduct of business at such meetings.

Notice of Shareholder Proposals. The most significant aspect of this proposal is that the amendments set forth advance notice provisions relating to shareholder proposals. To be timely submitted, a shareholder notice of a proposal would need to be delivered to or received by us not less than 90 nor more than 120 days prior to the first anniversary of the date of the previous year's annual meeting of shareholders. However, if the date of the annual meeting is advanced more than 30 days prior to or delayed by more than 30 days after the first anniversary of the previous year's annual meeting, notice would need to be delivered not later than the close of business on the later of the 90th day prior to the annual meeting or the tenth day following the date on which public disclosure of the date of such meeting is first made. The existing Code of Regulations does not contain a requirement for the timely submission of a shareholder proposal.

Conduct of Meetings. The existing Code of Regulations does not contain any provisions regarding the conduct of shareholder meetings and the methods for determining what business is properly brought before the meeting. If this proposal is adopted, a new Section 6 would be added to Article II of the Code of Regulations that would set forth these requirements. In addition to the advance notice requirements for shareholder proposals described above, this new section would identify how the presiding officer of the meeting is determined and what that officer's powers and responsibilities at the meeting are. The new section would also identify the mechanisms for determining what business is properly brought before an annual or special meeting of shareholders.

Record Date. The existing Code of Regulations provides that a record date for determining which shareholders are entitled to vote at a meeting of shareholders or for other purposes (such as the declaration of dividends) may not exceed 45 days prior to the applicable meeting or other event. This period is shorter than is practicable in some circumstances. The Ohio Revised Code allows Ohio corporations to set record dates up to 60 days prior to the applicable meeting or other event. The Amended and Restated Code of Regulations would change the current Code of Regulations to allow record dates to be set up to 60 days ahead of the meeting or event to give the Board of Directors greater flexibility in setting record dates.

Updates for Electronic Communications. Since the existing Code of Regulations was last amended, Ohio law has been updated to allow for the use of electronic communications with respect to shareholder meetings. The changes in this proposal would update the Code of Regulations to allow shareholders to participate in meetings and receive notice of meetings by the use of electronic communications. This would give the Board of Directors and shareholders greater flexibility in setting, holding and participating in annual meetings.

Other Changes. If this proposal is approved, other miscellaneous changes will be made to the existing Code of Regulations to correct typographical errors and make pronoun references gender neutral. These additional changes are indicated in Appendix A.

Approval of Proposal 2 requires the affirmative vote of the holders of shares entitling them to exercise not less than a majority of our voting power. Unless otherwise directed, shares represented by proxy will be voted FOR the approval of Proposal 2.

Your Board of Directors recommends that you vote FOR approval of Proposal 2.

Proposal 3 Procedures for Director Nominations

This proposal seeks to amend Article V of the Code of Regulations to clarify and modernize the process for shareholders to nominate candidates for election as Directors. If this proposal is adopted, shareholders would be required to provide notice of a nomination not less than 90 nor more than 120 days prior to the first anniversary of the date of the previous year's annual meeting of shareholders. If the date of the annual meeting is advanced more than 30 days prior to or delayed by more than 30 days after the anniversary of the preceding year's annual meeting, shareholders would instead be required to provide notice of the nomination not later than the close of business on the later of the 90th day prior to such annual meeting or the tenth day following the day on which public disclosure of the date of such annual meeting is made.

Under the existing Code of Regulations, notice of any shareholder nomination is required not less than 80 days in advance of the meeting; however, if the date of the annual meeting was not publicly announced more than 90 days before the meeting, notice of a shareholder nomination is required not later than the close of business on the tenth calendar day after such public notice was made. While this change does require a slightly earlier notice of a shareholder nomination for regularly scheduled meetings, it does give shareholders more time to make a nomination in the event that date of annual meeting is advanced or delayed from the anniversary of the previous annual meeting.

Other changes to Article V that are a part of this proposal involve specifying the information required to be in the shareholder nomination notice. The requirements generally reflect the information that the SEC's proxy rules would require to be included in the proxy statement should the nominee be submitted for election to the shareholders at the applicable annual meeting. Also required is a representation by the shareholder making the nomination that a representative of the shareholder intends to appear at the annual meeting to nominate the person or persons specified in the notice.

Approval of Proposal 3 requires the affirmative vote of the holders of shares entitling them to exercise not less than two-thirds of our voting power. Unless otherwise directed, shares represented by proxy will be voted FOR the approval of Proposal 3.

Your Board of Directors recommends that you vote FOR approval of Proposal 3.

Proposal 4 Allow the Board of Directors to Amend the Code of Regulations to the Extent Permitted by Law

On October 12, 2006, the Ohio Revised Code was amended to allow boards of directors of Ohio corporations to make certain amendments to their codes of regulations without shareholder approval so long as such amendments do not divest or limit the shareholders' power to adopt, amend or repeal the regulations of the corporation. The existing Code of Regulations requires that all amendments be approved by shareholders. Many jurisdictions, such as Delaware, allow the board of directors of a corporation to amend the bylaws without shareholder approval. The Ohio Revised Code now gives Ohio corporations similar flexibility, subject to statutory limitations that prohibit directors from amending the regulations to effect changes in certain areas deemed by the Ohio legislature to be important substantive rights, such as to:

specify the percentage of shares a shareholder must hold in order to call a special meeting;

specify the length of time period required for notice of a shareholders' meeting;

specify that shares that have not yet been fully paid can have voting rights;

specify requirements for a quorum at a shareholders meeting;

prohibit shareholder or director actions from being authorized or taken without a meeting;

define terms of office for directors or provide for classification of directors;

require greater than a majority vote of shareholders to remove directors without cause;

establish requirements for a quorum at directors meetings, or specify the required vote for an action of the directors;

delegate authority to committees of the board to adopt, amend or repeal regulations; and

remove the requirement that a control share acquisition of an issuing public corporation be approved by shareholders of the acquired corporation.

Article IX of the Amended and Restated Code of Regulations reflects this change by allowing the Board of Directors to amend the Code of Regulations in the future to the extent permitted by Ohio law. Accordingly, the Board would be able to make ministerial and other changes to the Code of Regulations without the time-consuming and expensive process of seeking shareholder approval, which would be required if this proposal is not adopted. Under Ohio law, we will be required to promptly provide shareholders with any amendments that the Board of Directors makes to the Code of Regulations if this proposal is adopted.

Approval of Proposal 4 requires the affirmative vote of the holders of shares entitling them to exercise not less than a majority of our voting power. Unless otherwise directed, shares represented by proxy will be voted FOR the approval of Proposal 4.

Your Board of Directors recommends that you vote FOR approval of Proposal 4.

AUDIT COMMITTEE REPORT

The Audit Committee consists solely of independent Directors within the meaning of the NASDAQ listing standards. The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal control over financial reporting. In fulfilling its oversight responsibilities, the Committee reviewed and discussed with management the audited financial statements in the Annual Report, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the U.S., their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under Statement on Auditing Standards 61, as amended. RATIFICATION OF INDEPENDENT AUDITORS**Proposal No. 5**

A proposal will be presented at the Annual Meeting to ratify the appointment of the firm of Ernst & Young LLP as the Company's independent auditors to examine our books of account and other records and our internal control over financial reporting for the fiscal year ending December 31, 2008.

Fees for professional services provided by Ernst & Young LLP as the Company's independent auditors in each of the last two fiscal years, in each of the following categories are:

	2007	2006
Audit Fees	\$ 2,492,634	\$ 2,405,245
Audit-Related Fees	137,143	183,588
Tax Fees	153,105	423,100
All Other Fees	0	0
	\$ 2,782,882	\$ 3,011,933

Audit Fees include fees associated with the annual integrated audit of the financial statements and internal control over financial reporting in 2007, the reviews of the Company's quarterly reports on Form 10-Q, statutory audits required for the Company's international subsidiaries and services provided in connection with regulatory filings with the Securities and Exchange Commission. Audit-Related Fees for 2006 and 2007 principally include audits of the Company's employee benefit plans and accounting advisory assistance. The amount reported for 2006 also includes fees related to due diligence in connection with acquisitions. Tax Fees include tax compliance and tax advisory services.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee has established a policy regarding pre-approval of all audit and non-audit services performed by the Company's independent auditors, including the scope of and fees for such services. Requests for audit services, as defined in the policy, must be approved prior to the performance of such services, and requests for audit-related services, tax services and permitted non-audit services, each as defined in the policy, must be presented for approval prior to the performance of such services, to the extent known at that time. The policy prohibits the Company's independent auditors from providing certain services described in the policy as prohibited services. All of the fees included in Audit-Related Fees, Tax Fees and All Other Fees shown above were pre-approved by the Audit Committee.

Generally, requests for independent auditor services are submitted to the Audit Committee by the Company's Senior Vice President, Chief Financial Officer and Treasurer (or other member of the Company's senior financial management) and the Company's independent auditors for consideration at the Audit Committee's regularly scheduled meetings. Requests for additional services in the categories mentioned above may be approved at subsequent Audit Committee meetings to the extent that none of such services is performed prior to its approval. The Chairman of the Audit Committee is also delegated the authority to approve independent auditor services requests under certain dollar thresholds provided that the pre-approval is reported at the next meeting of the Audit Committee. All requests for independent auditor services must include a description of the services to be provided and the fees for such services.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and are expected to be available to respond to appropriate shareholder questions. Although ratification of the appointment of the independent auditors is not required by law, the Audit Committee and the Board of Directors believe that shareholders should be given the opportunity to express their views on the subject. While not binding on the Audit Committee or the Board of Directors, the failure of the shareholders to ratify the appointment of Ernst & Young LLP as the Company's independent

auditors would be considered by the Board of Directors in determining whether or not to continue the engagement of Ernst & Young LLP. Ultimately, the Audit Committee retains full discretion and will make all determinations with respect to the appointment of independent auditors, whether or not the Company's shareholders ratify the appointment. Ratification requires the affirmative vote of the majority of the shares of Lincoln common stock present or represented and entitled to vote on the matter at the Annual Meeting. Unless otherwise directed, shares represented by proxy will be voted **FOR** ratification of the appointment of Ernst & Young LLP.

Your Board of Directors recommends that you vote FOR ratification of the appointment of Ernst & Young LLP as the Company's independent auditors.

OTHER MATTERS

The Board of Directors knows of no other matters that are likely to be brought before the Annual Meeting, but if any such matters properly come before the Annual Meeting, the persons named in the enclosed Proxy, or their substitutes, will vote the Proxy in accordance with their best judgment.
