ANNUAL MEETING OF SHAREHOLDERS

March 24, 2008

Dear Shareholder:

You are cordially invited to attend the 2008 Annual Meeting of Shareholders of LandAmerica Financial Group, Inc., which is to be held at the Company's Shared Resources Center, 5600 Cox Road, Glen Allen, Virginia, on Tuesday, May 13, 2008 at 9:00 a.m. At the Meeting, you will be asked to elect four directors to serve three year terms and to act on a proposal to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the 2008 fiscal year.

Whether or not you plan to attend the Meeting, it is important that your shares be represented and voted at the Meeting. Therefore, I urge you to promptly vote and submit your proxy by phone, via the Internet, or, if you have requested and received a printed copy of these proxy materials by mail, by signing, dating, and returning your proxy card. Beneficial owners of shares held in street name should follow the instructions in the proxy statement for voting their shares. If you are a record holder and you decide to attend the Annual Meeting, you will be able to vote in person, even if you have previously submitted your proxy.

Sincerely,

Theodore L. Chandler, Jr
Chairman and Chief Executive Officer

PROXY STATEMENT

The LandAmerica Financial Group, Inc. Board of Directors is soliciting proxies for the 2008 Annual Meeting. In connection with that solicitation, you, as a shareholder, are being provided with a Notice of Internet Availability of Proxy Materials (the E-Proxy Notice) and access to these proxy materials. You may revoke your proxy at any time prior to voting at the meeting by submitting a later dated proxy (including a proxy via the Internet or by telephone) or by giving timely written notice of your revocation to the Secretary of the Company. Proxies properly executed and received by the Secretary prior to the meeting, and not revoked, will be voted in accordance with the terms of the proxies.

In accordance with rules and regulations recently adopted by the Securities and Exchange Commission, instead of mailing a printed copy of our proxy materials, which includes our annual report to shareholders, we may now furnish proxy materials, including our annual report to shareholders, to our shareholders on the Internet. Therefore, when you receive the E-Proxy Notice by mail, you will not automatically receive a printed copy of the proxy materials or the annual report to shareholders. Instead, the E-Proxy Notice instructs you as to how you may access and review all of the important information contained in the proxy materials, including our annual report to shareholders. The E-Proxy Notice also instructs you as to how you may submit your proxy. Registered shareholders and participants in plans holding shares of the Company's Common Stock may vote by Internet or toll-free telephone or, if you have requested and received a printed copy of these proxy materials by mail, by completing, signing and dating the proxy card and returning it as promptly as possible. The telephone and Internet voting procedures are designed to authenticate shareholders' and plan participants' identities, to allow shareholders and plan participants to give their voting instructions and to confirm that such instructions have been recorded properly.

If you would like to receive a printed copy of our proxy materials, including our annual report to shareholders, you should follow the instructions for requesting such materials included in the E-Proxy Notice.

We, the Company, will pay all of the costs associated with this proxy solicitation. Proxies may be solicited in person or by mail, telephone, telefacsimile or other means of electronic transmission by our directors, officers and employees. We will also reimburse banks, brokerage firms, and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding materials to the beneficial owners of the shares of our Common Stock.

If you desire to attend the 2008 Annual Meeting, you should indicate your intent to attend in person when voting by internet or phone or, if you have requested or received a printed copy of these proxy materials by mail, by marking the appropriate box on the enclosed proxy card. If you do not indicate attendance at the meeting on the proxy, you will be required to present acceptable proof of stock ownership to attend. All shareholders who attend the meeting must furnish personal photo identification for admission. If your shares are not registered in your own name and you plan to attend the meeting and vote your shares in person, you should contact your broker or agent in whose name your shares are registered to obtain a proxy executed in your favor and bring it to the meeting in order to vote.

The 2008 Annual Meeting will be webcast on May 13, 2008 at 9:00 a.m. Eastern Daylight Time. You must register for the webcast and can access it through the Company's website at www.landam.com. An archived copy of the webcast will also be available approximately two hours after the conclusion of the meeting at www.landam.com until June 30, 2008.

We will mail the E-Proxy Notice to registered holders of our Common Stock on or about March 24, 2008.

Table of Contents

VOTING RIGHTS

We had 15,351,550 shares of Common Stock outstanding as of March 10, 2008 each having one vote. Only holders of the Company's Common Stock of record at the close of business on March 10, 2008, will be entitled to vote. A majority of the shares entitled to vote, represented in person or by proxy, will constitute a quorum for the transaction of business at the meeting. Abstentions and shares held in street name, otherwise known as broker shares, voted as to any matter at the meeting will be included in determining the number of shares present or represented at the meeting. Broker shares that are not voted on any matter at the meeting will not be included in determining the number of shares present or represented at the meeting.

We are not aware of any matters that are to come before the meeting other than those described in this Proxy Statement; however, if other matters do properly come before the meeting, it is the intention of the persons named in the proxy card to vote such proxy in accordance with their best judgment.

PROPOSAL ONE

ELECTION OF DIRECTORS

At the 2008 Annual Meeting, four directors are to be elected for terms of three years. Nine other directors have been elected to terms that end in either 2009 or 2010, as indicated below. The following pages set forth certain information concerning the nominees and the directors whose terms of office will continue after the meeting.

Proxies, unless otherwise specified, will be voted for the election of the nominees listed to serve as directors. The election of each nominee for director requires a plurality of the votes cast in the election of directors. If, at the time of the meeting any nominee should be unavailable to serve as a director, it is intended that votes will be cast, in accordance with the enclosed proxy, for such substitute nominee as may be nominated by the Board of Directors, or the Board of Directors may reduce the number of directors. Each nominee has consented to being named in this Proxy Statement and to serve if elected.

Nominees for Election for Terms Expiring in 2011

Mr. McCann has been a director since 1997.

**PROPOSAL TWO RATIFICATION OF APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS**

Ernst & Young LLP (Ernst & Young), independent registered public accountants, served as the Company s independent auditors during the fiscal year ended December 31, 2007, and the Audit Committee has selected them to serve as the Company s independent auditors for the current fiscal year. Services provided to the Company by Ernst & Young for the 2007 fiscal year are described in Audit Information-Fees of Independent Registered Public Accountants on page 51 of this Proxy Statement. Representatives of Ernst & Young will be present at the meeting, will have the opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Although shareholder ratification is not required by the Company s Bylaws or otherwise, the Board of Directors is requesting that shareholders ratify the selection of Ernst & Young as the Company s independent registered public accountants to make an examination of the financial statements of the Company for the 2008 fiscal year. If shareholders do not ratify the selection of Ernst & Young at the meeting, the Audit Committee will consider the vote in making its selection of the Company s independent auditors for the 2009 fiscal year; however, because of the expense and difficulty in changing independent auditors after the beginning of a year, the Audit Committee does not expect to make a change in the appointment of auditors for the 2008 fiscal year unless the Audit Committee finds other reasons for making a change.

A majority of the votes cast by holders of Common Stock is required for the ratification of the appointment of Ernst & Young as the Company s independent registered public accountants for the 2008 fiscal year.

The Board of Directors recommends that the shareholders vote FOR Proposal Two.

Table of Contents**STOCK OWNERSHIP****Principal Shareholders**

The following table sets forth certain information with respect to the beneficial ownership of shares of the Company's Common Stock by each person or group, according to the most recent Schedule 13G filed with the Securities and Exchange Commission or otherwise known to us, to beneficially own more than 5% of the outstanding shares of such stock.

¹ The numbers of shares of Common Stock of the Company are as shown in the filed Schedule 13G or Schedule 13D reviewed by the Company or as of the latest practicable date.

Table of Contents

- ^{1a} The numbers of shares of Common Stock of the Company are as of December 31, 2007.
- ^{1b} The numbers of shares of Common Stock of the Company are as of December 18, 2007.
- ^{1c} The numbers of shares of Common Stock of the Company are as of January 31, 2008.
- ² The percentages shown in the table are based on 15,351,550, which was the number of shares of Common Stock outstanding on March 10, 2008.
- ³ In a Schedule 13G filed with the Securities and Exchange Commission on February 6, 2008, Dimensional Fund Advisors Inc. (Dimensional) reported that, in its role as investment adviser to four investment companies registered under the Investment Company Act of 1940 and as investment manager to certain commingled group trusts and separate accounts (collectively, the Funds), it has sole power to vote and dispose of 1,388,153 shares of the Company s Common Stock. The Schedule 13G states that all of such shares are owned by the Funds, no one of which, to the knowledge of Dimensional, owns more than 5% of the shares of Common Stock outstanding. Dimensional further notes that the Schedule 13G should not be construed as an admission that the reporting person or any of its affiliates is the beneficial owner of any securities covered by its Schedule 13G for any other purposes than Section 13(d) of the Securities Exchange Act. Dimensional further disclaims beneficial ownership of such securities.
- ⁴ In a Schedule 13G filed with the Securities and Exchange Commission on February 14, 2008, Advisory Research, Inc. reported that, in its role as investment adviser, it has sole power to vote and dispose of 1,386,623 shares of the Company s Common Stock.
- ⁵ In a Schedule 13G filed with the Securities and Exchange Commission on February 14, 2008, AQR Capital Management, LLC reported that, in its role as investment adviser, it has shared power to vote and dispose of 693,540 shares of the Company s Common Stock and debt securities that are convertible into 406,206 shares of the Company s Common Stock.
- ⁶ In a Schedule 13D filed with the Securities and Exchange Commission on December 18, 2007, Markel Corporation reported that it has sole power to vote and dispose of 930,500 shares of the Company s Common Stock.
- ⁷ In a Schedule 13G filed with the Securities and Exchange Commission on February 14, 2008, Lord, Abnett & Co. reported that, in its role as investment adviser, it has sole power to vote of 781,510 shares of the Company s Common Stock and sole power to dispose of 922,410 shares of the Company s Common Stock.
- ⁸ In a Schedule 13G filed with the Securities and Exchange Commission on February 8, 2008, Perry Corp. (Perry) and Richard C. Perry, who is President and sole stockholder of Perry, reported that, they have sole power to vote and dispose of 870,838 shares of the Company s Common Stock. Perry serves as investment adviser and general partner and/or managing member of two or more private investment funds with respect to which it has voting and dispositive authority over the shares reported in its Schedule 13G. As President and sole stockholder of Perry, Mr. Perry may be deemed to control Perry and therefore may be deemed to be the beneficial owner of the shares reported in their Schedule 13G.
- ⁹ Each participant in the LandAmerica Financial Group, Inc. Savings and Stock Ownership Plan (the 401(k) Plan) has the right to instruct Merrill Lynch Trust Company, trustee for the 401(k) Plan, with respect to the voting of shares allocated to his or her account. The trustee, however, will vote any shares for which it receives no instructions in the same proportion as those shares for which it has received instructions.
- ¹⁰ In a Schedule 13G filed with the Securities and Exchange Commission on January 31, 2008, Old Republic International Corporation reported that it, along with the following wholly owned subsidiaries: Old Republic Insurance Company, Great West Casualty Company, Old Republic General Insurance Corporation, Bituminous Casualty Corporation, Bituminous Fire and Marine Insurance Company, Old Republic Home Protection Company, Old Republic Union Insurance Company, Old Republic Surety Company, Inter West Assurance, Ltd., Old Republic Security Assurance Company, Old Republic Life Insurance Company, Old Republic Mercantile Insurance Company and Old Republic Asset Management Corporation have shared power to vote and dispose of 795,200 shares of the Company s Common Stock.

following December 31, 2007. The number of shares also includes 46,384 shares of the Company's Common Stock held in fiduciary capacities. Such shares held in fiduciary capacities may be deemed to be beneficially owned by the rules of the Securities and Exchange Commission, but inclusion of the shares in the table does not constitute admission of beneficial ownership.

Table of Contents

- ³ The amounts reported in this column are deferred stock units held as of December 31, 2007 by (i) non-employee directors under the Company's Outside Directors Deferral Plan, also referred to as the ODDP and (ii) executive officers under the Company's Executive Voluntary Deferral Plan, also referred to as the EVDP. Each deferred stock unit represents a hypothetical share of the Company's Common Stock, fluctuates in value with the market price of such stock and is payable only in shares of the Company's Common Stock.
- ^{3a} The amount reported reflects 8,705 deferred stock units in the EVDP and 2,750 deferred stock units in the ODDP, which were acquired by Mr. Chandler as a non-employee director prior to his commencement of employment with the Company.
- ^{3b} The amount reported reflects 3,519 deferred stock units in the EVDP which were acquired by Mr. Foster as an employee with the Company and 1,052 deferred stock units in the ODDP acquired as a non-employee director with the Company.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that we disclose late filings of reports of stock ownership by LandAmerica Financial Group directors, executive officers and persons who own more than 10% of the Company's Common Stock. Because of the complexity of the reporting rules, the Company has instituted procedures to assist officers and directors with these obligations. Christine Vlahcevic inadvertently did not report the vesting of cash units occurring on January 1, 2007 until March 3, 2008. Thomas G. Snead, Jr. inadvertently did not report the acquisition of shares through dividend reinvestment on various dates until February 20, 2007. Paul M. Bedell inadvertently did not report the disposition of shares occurring on May 23, 2007 until June 13, 2007. Richard P. Gonzalez inadvertently did not report his holdings in the Company's Executive Voluntary Deferral Plan in his original Form 3 filed on June 4, 2007 until September 18, 2007, and he also did not report the acquisition of deferred stock units under such plan on June 15, 2007 until September 18, 2007. Kenneth Astheimer, Theodore L. Chandler, Jr., Ross W. Dorneman, G. William Evans, Michelle H. Gluck, Melissa A. Hill and Jeffrey C. Selby inadvertently did not report the vesting of cash units on December 17, 2007 until December 27, 2007. Other than what we have reported here, to our knowledge, based solely on a review of the copies of such reports furnished to us and written representations that no other reports were required, we believe that the other applicable Section 16(a) filing requirements were satisfied for transactions that occurred in 2007.

GOVERNANCE OF THE COMPANY

The Board of Directors directs the management of the business and affairs of the Company in accordance with the Virginia Stock Corporation Act and our Articles of Incorporation and Bylaws. Members of the Board of Directors are kept informed of the Company's business through discussions with the Chairman and Chief Executive Officer and other officers, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees. Our corporate governance practices are summarized below.

Where to Find Corporate Governance Information

The Board of Directors has adopted Corporate Governance Guidelines, Board Committee charters, a Code of Business Conduct and Ethics and a Code of Ethics for Senior Financial Officers. All of these documents are available on our web page: [www.landam.com/Corporate Governance](http://www.landam.com/Corporate%20Governance). Copies of these documents are also available in print form to any shareholder at no charge by sending a written request to the Secretary of the Company, 5600 Cox Road, Glen Allen, Virginia 23060.

Corporate Governance Guidelines

The Corporate Governance Guidelines set forth the practices of the Board of Directors with respect to director qualifications, director responsibilities, the lead director, director access to management and independent advisors, director compensation, director orientation and continuing education, management evaluation and succession, and evaluation of the performance of the Board of Directors.

Independence

The Board of Directors in its business judgment has determined that the following 11 of its 13 members are independent in compliance with the New York Stock Exchange listing standards: Janet A. Alpert, Gale K. Caruso, Michael Dinkins, John P. McCann, Dianne M. Neal, Robert F. Norfleet, Jr., Robert T. Skunda, Julious P. Smith, Jr., Thomas G. Snead, Jr., Eugene P. Trani and Marshall B. Wishnack. In reaching this conclusion, the Board of Directors considered that the Company and its subsidiaries conduct business and have other relationships with organizations of which certain members of the Board of Directors or members of their immediate families are or were directors or officers. Consistent with the New York Stock Exchange listing standards, our Corporate Governance Guidelines establish categorical standards under which a director will not be considered to have a material relationship with us if:

during each of the current fiscal year and three most recent fiscal years, neither the director nor any immediate family member of the director received more than \$100,000 per year in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided that such compensation is not contingent on continued service);

during each of the current fiscal year and three most recent fiscal years, the director is not, and was not, an executive officer or an employee, or whose immediate family member is not, or was not, an executive officer of another company that made payments to, or received payments from, the Company for property or services in an amount which, in any single fiscal year, exceeded the greater of \$1,000,000 or 2% of such other company's consolidated gross revenues; or

the director serves as an executive officer of a charitable organization to which during each of the three preceding fiscal years the Company made charitable contributions that did not exceed the greater of \$1,000,000 or 2% of such charitable organization's consolidated gross revenues.

Table of Contents

None of our non-management directors, their immediate family members, or organizations in which they are a partner, shareholder or officer, are engaged in relationships with us not meeting the categorical standards set forth above. The Corporate Governance Committee also considered all relevant facts and circumstances in making an independence determination, and, in the course of its determination regarding independence, it considered the following transactions, relationships and arrangements:

the fact that Julious P. Smith, Jr. is a principal in the Williams Mullen law firm, which acts as our primary outside counsel;

the fact that Michael Dinkins is Executive Vice President and Chief Financial Officer of Hilb, Rogal and Hobbs Company, a company which acts as our primary insurance broker and on whose Board of Directors our Chairman and Chief Executive Officer sits;

the fact that Eugene P. Trani is the President of Virginia Commonwealth University (VCU) and other directors serve in various capacities on Boards within VCU and we made an immaterial contribution to VCU's Business School.

The Corporate Governance Committee concluded that such relationships did not affect such directors' independence and the Audit Committee concluded that such relationships were not required to be disclosed under Item 404(a) of Regulation S-K.

Codes of Ethics

The Board of Directors has approved a Code of Business Conduct and Ethics for directors, officers and employees of the Company and each of its subsidiaries and controlled affiliates and a Code of Ethics for Senior Financial Officers for the Chairman and Chief Executive Officer and principal financial officers. The Codes address such topics as protection and proper use of our assets, compliance with applicable laws and regulations, accuracy and preservation of records, accounting and financial reporting, conflicts of interest and insider trading.

Board and Committee Meeting Attendance

In 2007, there were eight meetings of the Board of Directors. No directors attended fewer than 75% of the total aggregate number of meetings of the Board of Directors and of the committees on which he or she served.

Lead Director and Executive Sessions

In 2007, the Board of Directors appointed a Lead Director to be responsible for ensuring that the Board of Directors operates independently of management and to provide directors with a leadership contact independent from the Chairman and Chief Executive Officer. The Corporate Governance Guidelines provide that the Lead Director shall be appointed annually from among the independent directors. The current lead director is Eugene P. Trani, who is Chairman of the Corporate Governance Committee.

The Lead Director serves as chairman for executive sessions where non-management directors meet on an informal basis. These executive sessions are scheduled either before or after each regularly scheduled Board of Directors meeting. At least once a year the Board of Directors schedules an executive session including only independent directors.

Table of Contents

The Lead Director is responsible for chairing meetings when the Chairman and Chief Executive Officer is absent or when it is deemed inappropriate for the Chairman and Chief Executive Officer to preside over the meeting. The Lead Director acts as a liaison between the Board of Directors and the Chairman and Chief Executive Officer and among Committee chairs and senior management. The Lead Director participates in setting the agendas for meetings of the Board of Directors and ensures that directors receive on a timely basis the reports, background materials and other resources necessary to enable them to carry out their responsibilities. The Lead Director also may make recommendations regarding consultants for the Board of Directors and perform other duties as requested by the Board of Directors or any of its Committees.

Communications with Directors

Any director may be contacted by writing to him or her c/o the Secretary of the Company at the address set forth above. Communications to the non-management directors as a group may be sent to the Lead Director c/o the Secretary of the Company at the same address. We promptly forward, without screening other than normal security procedures for all our mail, all correspondence to the indicated director or directors.

Committees of the Board

The standing committees of the Board of Directors are the Executive Committee, the Audit Committee, the Executive Compensation Committee, the Corporate Governance Committee, the Investment Funds Committee and the Finance Committee.

Executive Committee

The Executive Committee has the authority to act for the Board of Directors on most matters during the intervals between Board of Directors meetings. The members of the Executive Committee are Messrs. Chandler (Chairman), Dinkins, McCann, Snead, Wishnack and Trani. The Executive Committee met one time in 2007.

Audit Committee

The Audit Committee assists the Board of Directors in fulfilling the oversight responsibility of the Board of Directors to the shareholders relating to the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the qualifications, independence and performance of the Company's independent registered public accounting firm and the performance of the internal audit function. The Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attestation services for the Company. The Committee operates under a written charter last amended by the Board of Directors in December 2007.

The members of the Audit Committee are Messrs. Snead (Chairman), McCann, Norfleet and Skunda and Mmes. Caruso and Neal, all of whom the Board of Directors in its business judgment has determined are independent as defined by regulations of the Securities and Exchange Commission and the New York Stock Exchange listing standards. The Board of Directors also has determined that all of the Committee members are financially literate as defined by the New York Stock Exchange listing standards and that Mr. Snead and Ms. Neal qualify as audit committee financial experts as defined by regulations of the Securities and Exchange Commission.

The Audit Committee met four times in 2007. For additional information regarding the Committee, see [Audit Information](#) [Report of Audit Committee](#) on page 51 of this Proxy Statement.

Executive Compensation Committee

The Executive Compensation Committee performs the responsibilities of the Board of Directors relating to compensation of the Company's executives. The Committee's responsibilities include:

reviewing and approving corporate goals and objectives relevant to compensation of the Company's Named Executive Officers (NEOs);

evaluating and determining compensation for the Chairman and Chief Executive Officer (CEO), reviewing and approving the compensation of the other NEOs and reviewing compensation paid to the Company's executive officers, other than the NEOs;

reviewing and discussing with the Company's executive officers the Company's Compensation Discussion and Analysis and providing the Compensation Committee Report;

making recommendations to the Board of Directors with respect to annual and long-term incentive compensation plans and equity-based plans and administering the Company's equity-based, deferral and other compensation plans, including review of significant changes in the Company's other benefit plans;

reviewing and approving the terms of employment, termination, severance and change of control agreements or any other compensation arrangements with the Company's executive officers;

reviewing with the assistance of corporate personnel or independent consultants, the impact of tax, accounting and regulatory requirements on executive compensation, reviewing on a periodic basis significant trends, developments and alternatives in executive compensation and evaluating competitive market analyses of the Company's overall executive compensation program and its components; and

monitoring compliance with the Company's target stock ownership program for executives.

The processes and procedures for the consideration and determination of executive compensation, the extent to which the Executive Compensation Committee delegates its authority and the role of executive officers in the compensation process are set forth in detail in the Company's Compensation Discussion and Analysis on Page 15 of this Proxy Statement. The Committee operates under a written charter last amended by the Board of Directors in December 2007.

The members of the Executive Compensation Committee are Messrs. Wishnack (Chairman), McCann, Snead and Trani and Ms. Neal, all of whom the Board of Directors in its business judgment has determined are not employees and are independent as defined by the New York Stock Exchange listing standards. The Committee met six times in 2007. For additional information regarding the Committee, see "Compensation Discussion and Analysis" on page 15 of this Proxy Statement.

Corporate Governance Committee

The Corporate Governance Committee makes recommendations to the Board of Directors concerning corporate governance practices, persons qualified to become members of the Board of Directors and the form and amount of compensation to be paid to directors. The Committee acts as the Company's nominating committee. The Committee operates under a written charter last amended by the Board of Directors in December 2007.

The members of the Corporate Governance Committee are Messrs. Trani (Chairman), Norfleet, Skunda and Snead and Ms. Caruso, all of whom the Board of Directors in its business judgment has determined are independent as defined by the New York Stock Exchange listing standards. The Committee met four times in 2007.

Shareholders entitled to vote for the election of directors may submit candidates for consideration by the Corporate Governance Committee if we, the Company, receive timely written notice, in proper form, for each such recommended director nominee. If the notice is not timely and in proper form, the nominee will not be considered by the Committee. To be timely for the 2009 annual meeting, the notice must be received within the time frame set forth in *Proposals for 2009 Annual Meeting* on page 53 of this Proxy Statement. To be in proper form, the notice must include each nominee's written consent to be named as a nominee and to serve, if elected, and information about the shareholder making the nomination and the person nominated for election. These requirements are more fully described in Section 3.4 of the Company's Bylaws, a printed copy of which is available to any shareholder at no cost upon written request to the Secretary of the Company at the address set forth above under *Where to Find Corporate Governance Information* on page 9 of this Proxy Statement.

The Corporate Governance Committee considers, at a minimum, the following factors in recommending to the Board of Directors potential new directors, or the continued service of existing directors:

The characteristics described in the Corporate Governance Guidelines (*i.e.*, knowledge of business and financial affairs, an understanding of the Company's business and the complexities of a large publicly-traded company in today's business environment, personal qualities of integrity and judgment, educational background and business or professional experience);

Whether the member/potential member assists in achieving a mix of Board of Directors members that represent a diversity of background and experience;

Whether the member/potential member is subject to a disqualifying factor as described in the Corporate Governance Guidelines (*e.g.*, relationships with competitors or recent previous employment with the Company);

Whether an existing member has reached retirement age;

The member's/potential member's independence;

Whether the member/potential member would be considered an audit committee financial expert or financially literate under Securities and Exchange Commission regulations and New York Stock Exchange listing standards;

The extent of the member's/potential member's business experience, technical expertise, or specialized skills or experience; and

Table of Contents

Any factors related to the ability and willingness of a new member to serve, or an existing member to continue his or her service. Under our process for selecting new candidates for the Board of Directors, the Chairman and Chief Executive Officer, the Corporate Governance Committee or other members of the Board of Directors identify the need to add a new member with specific qualifications or to fill a vacancy on the Board of Directors. The Chairman of the Corporate Governance Committee initiates a search, working with staff support and seeking input from members of the Board of Directors and senior management, hiring a search firm, if necessary, and considering any candidates recommended by shareholders. An initial slate of candidates that will satisfy criteria and otherwise qualify for membership on the Board of Directors is presented to the Corporate Governance Committee. A determination is made as to whether Corporate Governance Committee members or other members of the Board of Directors have relationships with preferred candidates and can initiate contacts. The Chairman and Chief Executive Officer and at least one member of the Corporate Governance Committee interview prospective candidate or candidates. The Corporate Governance Committee meets to conduct further interviews of prospective candidates, if necessary or appropriate, and to consider and recommend final candidates for approval by the full Board of Directors.

Investment Funds Committee

The Investment Funds Committee establishes the investment policy and monitors the performance of pension and portfolio investments of the Company and its subsidiaries. The members of the Investment Funds Committee are Messrs. McCann (Chairman), Dinkins, Foster and Smith and Mmes. Alpert and Caruso (Vice-Chair). The Committee met four times in 2007.

Finance Committee

The Finance Committee advises the Board of Directors with respect to financing needs, capital structure, significant mergers and acquisitions and other matters related to corporate finance. The members of the Finance Committee are Messrs. Dinkins (Chairman), Foster, McCann, Smith and Wishnack and Ms. Alpert. The Committee met seven times in 2007.

Annual Meeting Attendance

We encourage members of the Board of Directors to attend the Annual Meeting of Shareholders. All of the directors attended the 2007 Annual Meeting of Shareholders.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

LandAmerica believes that our executive compensation program should not only attract, retain and motivate talented executives but also complement our financial results from business operations, which depend heavily on the economic cycles that the entire real estate industry regularly experiences. Therefore, we structure our executive compensation program to both boost performance and account for this cyclicality: we limit fixed costs, we structure incentive programs so that awards reflect our ability to afford them and we consider our relative performance compared to our peers. The following discussion and analysis of our executive compensation program begins with an explanation of the functions performed by those overseeing and implementing the program and proceeds through our compensation philosophy and objectives. It addresses what our executive compensation program is designed to reward, with particular focus on how we compensate each Named Executive Officer (NEO), and describes each element of compensation and the rationale that supports it as well as the interrelationship of such elements.

Oversight and Operation of the Executive Compensation Program

The Executive Compensation Committee of the Board of Directors (the Committee) oversees the compensation program for our NEOs. For details on the Committee's oversight of the executive compensation program, see *Executive Compensation Committee* on page 12 of this Proxy Statement. The Committee retains the services of a consulting firm, Mercer (US) Inc. (Mercer), to advise the Committee on our executive compensation program. During 2007, the Committee requested and Mercer furnished the Committee with incentive plan modeling and dilution analysis, a peer group analysis and review in which data regarding a potential new peer group was presented, an executive compensation review including pay for performance analysis, dilution analysis and restricted stock projections. The Committee used such materials in its compensation decisions. Representatives from Mercer typically attend portions of the Committee's meetings; however, although the consultant attends meetings and makes recommendations to the Committee, the Committee retains ultimate authority over compensation decisions.

The CEO worked with the other NEOs to develop their individual goals for the 2007 fiscal year in support of LandAmerica's operating plan. After evaluating the performance of those NEOs for 2006 against their individual goals for that year, the CEO made recommendations to the Committee as to their base salary, cash incentives and equity incentives. The Committee considered such recommendations in the context of its overall compensation decision making, but it retained ultimate responsibility over compensation for NEOs, including the CEO.

We do not have a policy on adjusting or recovering awards or payments if the relevant performance measures upon which they are based are restated or adjusted, except as may be legally required. If such a situation were to arise, the Committee would consider whether to adjust or recover the award on a case-by-case basis.

Objectives of the Compensation Program

We designed our executive compensation program based on the following objectives.

Table of Contents

Total executive compensation and benefits should be competitive.

Our compensation and benefits must provide for flexibility in attracting, retaining and motivating talent to drive successful corporate performance. We compete in a competitive labor market for executives and must be able to offer competitive opportunities for total compensation and benefits. To determine competitive market rates of pay, the Committee, with the assistance of Mercer, regularly reviews competitive compensation data from two peer groups and a broader industry survey, to ensure that total pay levels, pay mix, and pay design are competitive. Further information on our peer groups is set forth below under the heading *What the Compensation Program is Designed to Reward*.

Structure of compensation should reflect cyclical nature of the industry.

Changes in interest rates result in cyclical nature of our revenue and necessitate that we manage expenses prudently so that our expenses align with our revenue base. To that end, we fix base salary and benefits at competitive levels and adjust incentive and equity payouts to NEOs to reflect our level of profitability and other performance measures from year to year. Specifically, by setting salary levels to be competitive with our chosen peers, specifically the Title Insurers Peer Group for the CEO and CFO and the Broader Survey Data for the other NEOs, we structure our fixed compensation to account for the market cyclical nature that also affects our peers. The variable annual and long-term incentives provide for more substantial payouts when we have strong absolute and relative performance; conversely, we pay lower awards when our absolute performance and performance relative to our peers is weak. Thus, the costs of the compensation and benefits programs have a direct relationship with our profitability, which varies with the business cycles of the real estate industry.

Compensation should reflect performance.

We believe that a significant portion of an executive's total compensation should reflect performance in three areas: absolute company performance, relative company performance and individual performance. We currently consider performance in these three areas without attributing any particular percentage of compensation to each area of performance; however, our incentive program for NEOs for 2008 will expressly take into consideration performance of a particular business unit for those NEOs who are responsible for business unit. The discussion below under *Elements of the Compensation Program* addresses how each element of compensation reflects performance.

Executives should have a meaningful equity stake in the enterprise.

The Committee believes that our long-term success depends upon aligning executives' and shareholders' interests. To support this objective, we provide our executives with equity accumulation opportunities, primarily by awarding restricted stock. Other opportunities for equity accumulation include the Executive Voluntary Deferral Plan (EVDP), which provides executives an opportunity to defer cash incentive compensation into LandAmerica stock (with a 20% company stock premium, offered when the deferral election is in company stock), and an Employee Stock Purchase Program, which permits all employees to purchase LandAmerica common stock at a discount. Restricted stock grants vest over four years and the EVDP premium for deferrals in LandAmerica stock vests over three years to support long-term retention of executives and reinforce long-term considerations because executives cannot sell the shares until they have vested. We have also adopted equity ownership guidelines to reinforce the need to accumulate and hold a significant equity stake in LandAmerica. Each of these programs, including the equity ownership guidelines, is described below under *Elements of the Compensation Program*.

What the Compensation Program is Designed to Reward

Our executive compensation program is designed to reward individual performance as well as absolute and relative corporate performance. With respect to individual and absolute corporate performance, the Committee evaluates the performance of each NEO with respect to individual and corporate goals in setting compensation. The table below sets forth the categories of evaluation for each of the NEOs for the 2007 fiscal year:

Table of Contents**NEO Categories of Evaluation for 2007**

* The Committee does not weight these categories of evaluation, but financial and operating results constitute important measures. Peer groups play multiple roles for the Company. The groups serve as a pay reference. The Committee also uses the Title Insurers Peer Group to assess relative performance for equity award determinations. The table below identifies the composition of the groups used for comparative purposes with respect to 2007 compensation decisions along with the basis for selecting the groups and the functions performed by each group.

Table of Contents

In 2007, the Committee reviewed the composition of the peer groups with the assistance of Mercer. It concluded that the Title Insurers Peer Group continued to represent our direct competitors; however, changes were made to the Full Financial Services Peer Group. In particular, Ambac Financial Group, Inc., Commerce Group, Inc. and White Mountains Insurance Group, Ltd. were excluded because of their lack of interest rate sensitivity and weaker stock price correlation. MDC Holdings and Technical Olympic USA were excluded because, even though they are homebuilders subject to many of the same real estate market forces as LandAmerica, their operational requirements and business models are different than ours. The Committee replaced the excluded companies with four new Full Financial Services Peer Group companies: Indymac Bancorp, MGIC Investment Corp, Radian Group Inc. and PMI Group Inc. that are mostly mortgage insurance companies and were selected based on a screen of companies with similar business models, interest rate sensitivity and stock price movement.

The Committee recognizes the importance of reviewing our performance relative to the selected peer companies as a consideration in setting compensation levels. Within the Title Insurers Peer Group, the Committee analyzes relative performance in setting equity award levels. In addition, as part of the Committee's 2007 and ongoing regular review of executive compensation, it considers retrospectively the relationship between our compensation levels versus peers in the Title Insurers Peer Group, Full Financial Services Peer Group, and Broader Survey Group and makes adjustments if necessary. During 2007, no adjustments were made. Through this analysis, the Committee seeks to align relative pay positioning and relative performance positioning.

Indicators of our financial performance compared to the peer groups that the Committee reviewed in 2007 were examined over the 2006 fiscal year and the three-year period from 2004 to 2006, to provide perspective on relative short-term and long-term performance results. The Committee believes these performance indicators, which are listed in the table below, express a composite measure of financial performance by evaluating growth, profitability and return. The first five of these indicators are also used to determine the Company's relative performance ranking for purposes of determining the stock pool for annual equity awards. The financial performance indicators reviewed, the definitions of such indicators and the basis for selection of each are set forth in the table below:

Performance Indicators

Performance Indicator	Definition	Basis for Consideration	Applicable Peer Group Against Which Performance Indicator Measured
Total Shareholder Return	Stock price appreciation plus dividends	Basis for determining return to shareholders	Full Financial Services Peer Group
Return on Equity	Divide (1) income after all expenses, including special items, income taxes and minority interest, but before provisions for common dividends (but exclusive of discontinued operations or extraordinary items) for that period by (2) average shareholders equity	Improved return on equity should lead to improved shareholder return	Full Financial Services Peer Group

The impact of absolute and relative performance on each element of compensation is discussed in further detail below under Elements of the Compensation Program.

Wealth Accumulation and Internal Pay Equity

The Committee does not use analytic tools such as wealth accumulation and internal pay equity in setting compensation because the Committee does not believe that implementing such measures will improve individual or corporate performance.

Elements of the Compensation Program

Compensation for NEOs consists of three main elements: base salary, annual cash incentives and annual equity incentives. The NEOs also participate in a number of other benefit programs including the EVDP, frozen retirement plans and other plans generally available to LandAmerica employees. The NEOs also receive certain perquisites comprising a minimal portion of their total compensation. The discussion below covers each element of our compensation program in detail and explains why we pay each element, how the amount of each element is determined and how each element relates to our overall compensation objectives and affects decisions regarding other elements.

Interrelationship of Elements within the Compensation Program

The Committee annually reviews base salary and annual and long-term incentives, and periodically reviews the benefit programs provided to each NEO. Decisions on each of these components are made individually; however, the Committee generally structures the compensation packages so that base salary comprises 20-40% of total compensation. The Committee intends for all incentives, including both cash and equity to comprise 60-80% of the total compensation package, but it does not have particular, separate percentage ranges for cash incentives and equity incentives. In 2007, the Committee reviewed a spreadsheet indicating the value and relative worth of all elements of the compensation and benefits programs. This data analysis was combined with a consideration of performance against peers in setting compensation, with no particular weighting to either consideration. No compensation changes were made based solely on a review of the spreadsheet. The table below sets forth the pay mix for fiscal year 2007 for each NEO by showing the percentages of base salary, annual cash incentives and annual equity incentives to the total of all three:

Table of Contents**Pay Mix**

Name	Base Salary	Annual Cash Incentive	Annual Equity
			Incentive ¹
Chandler	35%	0%	65%
Evans	40%	0%	60%
Astheimer	44%	29%	27%
Hill	44%	0%	56%
Selby	29%	71%	0%

¹ The value of the Annual Equity Incentive was calculated by multiplying the number of shares and units awarded by \$38.77, which was the closing price of the Company's common stock on February 19, 2008, the closest business day to February 18, 2008, the date that the equity incentives were granted.

For 2007, Mr. Chandler's and Mr. Evans' pay mix reflect the fact that such individuals did not receive an annual cash incentive, but their equity compensation continues to comprise a large portion of the total. Mr. Astheimer's base percentage is higher than in previous years because his incentives, both cash and equity, comprise a smaller portion of the total than in previous years. Ms. Hill's base salary is a large portion of her total because she did not receive any cash incentive compensation for 2007. Mr. Selby did not receive an annual equity incentive for 2007 because of his impending retirement effective April 1, 2008. Instead, he received a larger annual cash incentive largely attributable to the outstanding performance of the business channel for which he is responsible.

The Committee analyzed how the NEOs' base salary, total cash compensation (base salary plus annual cash incentive for 2006 performance) and total direct compensation (total cash compensation plus annual restricted stock and cash unit awards) compared to company pay at the proxy peer groups (and in particular, against executives holding the third through fifth positions in the Title Insurers Peer Group), and whether it was aligned with our performance relative to peer group performance across the performance indicators. The performance review indicated that our relative performance positioning versus peers was directionally consistent with pay levels, with the exception of Ms. Hill, who had just assumed her current responsibilities on January 1, 2007.

Base Salary

The base salary component of the compensation program provides fixed compensation to the NEOs for performance of core duties. The Committee intends for it to be a minority piece (20-40%) of the total compensation package offered to the NEOs, based on prevailing market practices. See the Pay Mix Table above for specific information on the percentage of base salary to total direct compensation, which includes salary and incentives.

The Committee targets base salary for the CEO and CFO to be generally competitive with the market median of their peers within the Title Insurers Peer Group and, supplementally, the Full Financial Services Peer Group. The Committee targets the base salary for the other NEOs to be generally competitive with their peer positions based on the Title Insurers Peer Group, the Broader Survey Group, and, supplementally, the Full Financial Services Peer Group. The Committee evaluates the base salaries of the NEOs and customarily adjusts on an annual basis in February or March of each year. The Committee makes adjustments to base salary based on individual performance, level of responsibility, relative importance and contribution to the overall success of our goals as well as changes in the competitive market, with no particular weight placed on each consideration. The Committee set the base salaries of the NEOs on a prospective basis on March 1, 2007, and the Committee gave each NEO a 3.3% salary increase effective on that date to keep pace with wage adjustments within the industry generally. In 2008, based on its assessment of total

Table of Contents

compensation and the comparative data and in light of overall corporate performance, the Committee made no changes to base salaries. Even though the compensation review demonstrated that Ms. Hill's salary was not consistent with peer information, no changes were made to her base salary given current Company performance.

Annual Cash Incentives

Description of Annual Cash Incentives

Our pre-tax income funds our annual cash incentive program, with payouts adjusted to reflect individual and corporate performance. Generally, the Committee approves the plan design and award opportunities for each NEO on an annual basis within ninety days of the start of each fiscal year as required under Section 162(m) of the Internal Revenue Code of 1986, as amended. A specific explanation for the annual cash incentives for the 2007 fiscal year is set forth below.

2007 Fiscal Year Awards

For 2007, the Committee created a maximum target award schedule consisting of annual cash incentive awards based on a percentage of our pre-tax income as determined in accordance with Generally Accepted Accounting Principles, subject to the Committee's right to reduce the awards as permitted under Section 4.2 of the Company's shareholder-approved Executive Officer Incentive Plan (EOIP). The percentages of pre-tax income selected were as follows: Chandler .9%; Evans .3%, Astheimer .4%; Hill .4% and Selby .8%. The Committee selected the percentages of pre-tax income for each officer based on our estimated profit forecast and the impact of the potential award on competitive pay positioning versus the market references described above. When the awards were established, the Committee also reserved the right to adjust pre-tax income to exclude extraordinary items. The Committee specifically has the right to reduce a participant's cash award based on the executive's annual performance and to account for the evaluation of the participant's integrity, leadership, individual duties and responsibilities and relative importance and contribution to the overall success of our goals. Further reductions may be made to the annual cash award to an NEO who is President of one of our business channels to account for the financial results of the NEO's particular channel. The Committee's exercise of negative discretion is expected with the award of performance-based compensation under Section 162(m) and does not necessarily suggest that our or the NEOs' performance was unsatisfactory. Instead, reductions could occur even if performance is superior because the established targets represent a maximum. Because the Company had no pre-tax income for 2007, no annual cash incentives were awarded under the EOIP.

The Committee awarded discretionary cash bonuses of \$760,306 to Mr. Selby and \$207,454 to Mr. Astheimer to reward them for the positive pre-tax performance of the business channels for which they are responsible. Mr. Selby's bonus was calculated to equal the portion of the Commercial channel's pre-tax income that the Committee considered to be attributable to Mr. Selby's efforts. Mr. Astheimer's bonus was calculated to equal the portion of the Agency channel's pre-tax income, which was smaller than the Commercial channel's pre-tax income in 2007, that the Committee considered to be attributable to Mr. Astheimer's efforts.

Any incentive compensation for the NEOs that would have been paid under the EOIP qualifies for deductibility under Section 162(m) of the Internal Revenue Code. However, discretionary cash bonuses do not qualify for such deductibility, and the Committee retains the discretion to pay such bonuses in order to reward exemplary individual performance. However, for the 2008 performance year, for the NEOs who are responsible for particular business channels, the Committee revised the maximum award schedule to provide for an annual cash incentive award equal to the sum of a percentage of our pre-tax income as determined in accordance with Generally Accepted Accounting Principles plus a percentage of pre-tax income for the business channel for which the NEO is responsible, subject to the Committee's right to reduce the awards as permitted under the EOIP. This change will align compensation with channel performance and will improve deductibility of any future awards paid based on channel pre-tax income.

Why We Pay Annual Cash Incentives

Our annual cash incentives support a number of our compensation objectives. First, our annual cash incentives enable the company to provide competitive cash compensation against market references, which are the Title Insurers Peer Group for the Chief Executive Officer and Chief Financial Officer, the Broader Survey Group for the other NEOs and, supplementally the Full Financial Services Peer Group for all NEOs. Aggregate award opportunities are adjusted to provide the potential for market competitive awards based on our expected performance.

Second, we have structured the annual incentive program for the NEOs to account for the cyclicity of our business due to changes in interest rates, which lead to volatility in revenue and profitability. The annual incentive plan structure recognizes that when favorable market conditions exist, payouts should reflect our prosperity, and when unfavorable market conditions exist, the annual incentive plan funding and payouts are reduced to reflect lower profitability. In 2007, no payouts were made under the EOIP and discretionary bonuses were paid selectively to reward individual performance.

Third, through annual cash incentives, we tie a significant portion of the NEOs' compensation to performance including annual corporate performance and/or a business channel for which a NEO is responsible, as well as to specific individual performance goals. The annual cash incentive program serves as a tool to motivate executives to insure we meet our performance goals. We seek to manage expenses prudently so that our expenses align with our revenue base. To that end, our executive compensation program reflects profitability of the enterprise, which measures how effectively our executives manage expenses so they increase and decrease with revenue.

Annual Equity Incentives

Description of Annual Equity Incentives

Prior to 2002, the Committee granted stock options to our senior management. After considerable discussion and review of the merits of stock options versus restricted stock, the Committee decided to replace stock option grants with restricted stock grants, and (beginning in 2004) with a combination of restricted stock and cash units, so that recipients could utilize vesting cash awards to fund the income tax obligation that arises upon vesting of restricted stock awards. Specifically, the Committee considered the following points in reaching its determination: (i) stock grants immediately increase management's stock ownership, tie its financial interests to those of our shareholders and help retain executives during periods of cyclicity; (ii) executives are more motivated by restricted stock and cash unit awards than option awards of equal value to grow the value of the enterprise; and (iii) we no longer have an economic incentive to grant stock options rather than restricted shares since the adoption of FAS 123R and required option expensing.

In 2007 and 2008, the Committee continued its practice of granting equity awards in the form of restricted stock and cash units. The restricted shares and units vest pro rata over four years to support retention and were granted based on overall corporate results as well as the individual NEO's performance.

Table of Contents

2007 Fiscal Year Awards

For awards pertaining to performance for the 2007 fiscal year, the Committee determined the size of the maximum pool of shares from which to draw all awards to senior management including the NEOs. In addition to determining a size of the maximum pool of shares, the Committee also set maximum share grants for each participant, which cannot be greater than the 50,000 share maximum per participant set forth in the EOIP. Prior to 2007, the Committee had awarded restricted stock based on a percentage of revenue in excess of a stated amount for each NEO, subject to adjustment under the EOIP. After considerable discussion, the Committee switched to the pool concept in 2007 to improve the correlation between corporate performance and the awards granted. The size of the stock pool may be a percentage between zero and four percent of the weighted average of diluted shares outstanding during fiscal year 2007, depending on our average performance rank against other members of the Title Insurers Peer Group on five separate performance measures, which, collectively, represent our competitiveness, the cyclicality of the market and our relative performance. Specifically, those performance measures include ranking of (1) total shareholder return for the fiscal year, including reinvested dividends, (2) return on equity for the fiscal year, (3) percent change in return on equity over the fiscal year, (4) profit share within the Title Insurers Peer Group for the fiscal year and (5) percent change in profit share within the Title Insurers Peer Group over the fiscal year. The table below sets forth the exact calculation of the stock pool based on our average performance rank:

Maximum Stock Pool		
Average Performance Rank	(percentages are of the weighted average diluted shares outstanding during fiscal 2007)	Example Performance Rank (5 metrics)
1.00	4.00%	Ranked 1 st on all five measures
1.01 1.50	3.00%	Ranked 1 st on four measures and 2 nd on one measure
1.51 2.49	2.50%	Ranked 2 nd on three measures and 3 rd on two measures
2.50 3.50	2.00%	Ranked 3 rd on all five measures
3.51 4.49	1.50%	Ranked 4 th on three measures and 3 rd on two measures
4.50 4.99	1.00%	Ranked last on three measures and 4 th on two measures
5.00	.00%	Ranked last on all measures

On February 19, 2007, the Committee assigned each NEO a percentage of the stock pool and designated share maximums for each participant, subject to the Committee's right to reduce the awards as permitted under Section 4.2 of the EOIP. The percentages of the stock pool selected (and designated maximums) were as follows: Chandler 28.4 % (50,000 shares); Evans 17.0 % (30,000 shares), Astheimer 3.9 % (6,800 shares); Hill 3.9 % (6,800 shares) and Selby 3.9 % (6,800 shares) based on level of responsibility and the categories on which the NEOs were evaluated. In setting these percentages, the Committee's goal was to align the interests of the officers with the most control over the performance of the Company with the Company by granting them the largest percentages of the stock pool. The Committee may also reduce an equity incentive award for a participant based on the executive's annual performance and to account for the evaluation of a participant's integrity, leadership, individual duties and responsibilities, and relative importance and contribution to the overall success of corporate goals. Although the maximum stock pool for awards pertaining to performance for the 2007 fiscal year was two percent of the weighted average of diluted shares outstanding, the Committee made awards to all senior officers, including the NEOs, for fiscal year 2007 using its negative discretion to adjust the awards so that they equaled approximately .77% of the weighted average of diluted shares outstanding, excluding the portion of the award attributable to cash units. Actual awards were 17,400 restricted shares and 12,600 cash units for Mr. Chandler; 8,700 restricted shares and 6,300 cash units for Mr. Evans; 2,900 restricted shares and 2,100 cash units for Mr. Astheimer and 5,800 restricted shares and 4,200 cash units for Ms. Hill. The Committee adjusted the awards of Messrs. Chandler, Evans and Astheimer down to a level appropriate for their individual performance and to recognize the cash bonus awarded to Mr. Astheimer. The Committee gave Ms. Hill the maximum share award and added a discretionary award to recognize her substantial work restructuring the Company's

Table of Contents

residential business. The Committee did not make a stock award to Mr. Selby in anticipation of his announced retirement to be effective April 1, 2008 in favor of a discretionary cash bonus paid to Mr. Selby. The Committee made awards to all senior officers, including the NEOs for fiscal year 2006 equal to .63% of the weighted average of diluted shares outstanding, for fiscal year 2005 equal to .80% of the weighted average of diluted shares outstanding, in each case excluding the portion of the award attributable to cash units.

The Committee approved the restricted stock and cash unit grants for 2007 on February 18, 2008 effective March 14, 2008, with vesting on February 28 in the following four years, rather than the approval date, in order to provide consistency with prior grant dates and transparency and for the additional purpose of ensuring that vesting occurs on dates that are generally during an open window for trading stock.

Why We Pay Annual Equity Incentives

The Committee believes that (1) equity incentive compensation performs an essential role in retaining and motivating executive officers; (2) providing executive officers with long-term incentives encourages the executive officers to make decisions affecting the operation of the business that maximize shareholder value; and (3) significant ownership of stock by senior management aligns the interests of management with the shareholders. As an executive's level of responsibility increases, the number of restricted shares and cash units granted to the executive increases because increased responsibility typically means increased ability to affect corporate performance. Long-term incentives also provide an opportunity for NEOs to accumulate capital, which complements the modest company-funded retirement benefits and lack of any excess benefit plans for NEOs, except for a grandfathered Supplemental Executive Retirement Plan for Mr. Selby, which is discussed in more detail below.

Benefit Programs

We provide benefit programs consistent with our overall compensation philosophy of minimizing fixed costs. The value of benefits and other compensation also varies from year to year, but traditionally falls within 2 to 5% of the NEO's compensation. The Committee completed its last market assessment of the executive benefit programs in 2006 in order to assess whether to adjust its benefit arrangements. As part of the market assessment, the Committee examined retirement benefits for comparable positions within the Title Insurers Peer Group. As a result of the assessment, the Committee did not make any material changes to its benefit arrangement, other than the adoption of a revised Change of Control Agreement, as discussed in more detail below.

Executive Voluntary Deferral Plan

Each NEO is eligible to participate in the EVDP. Under the EVDP, a participant may make annual elections to defer up to 95% of his or her cash incentive compensation. The participant may invest the deferred funds in cash at 8% annual interest or in deferred LandAmerica stock units. While the 8% annual rate of return is currently an above-market rate, it was a market rate when the rate was established, and the Committee maintains the rate to give participants certainty, in part to replace the retirement plans that we no longer offer and to recognize the benefits are an unsecured and unfunded obligation. If a participant defers any portion of his or her cash incentive compensation into deferred LandAmerica stock units for a particular plan year, then the participant receives an additional amount of deferred LandAmerica stock units equal to 20% of the total amount deferred in order to provide the participant with an additional capital accumulation opportunity. Aside from the additional stock received, there are no other corporate matches to the EVDP. For each deferral made, the 20% deferred stock unit premium and one-half of the interest (4%) vests after three years.

The EVDP provides a tax-favored vehicle for participants, including NEOs, to defer their compensation and accumulate funds tax-deferred over time. The participants may potentially use these funds to support retirement savings. We do not offer a

Table of Contents

defined benefit plan (other than the frozen plans described below), so the EVDP provides an alternative vehicle to support market competitive accumulation of funds for retirement, based on an analysis of the benefits offered by the Title Insurers Peer Group. Because participants may invest in LandAmerica stock through the EVDP and because participants may receive additional stock units for deferring into stock, the EVDP encourages stock ownership by NEOs. All NEOs participate in the EVDP.

Other Retirement Benefits

We provide modest company-funded retirement benefits. This benefit is consistent with the objective of providing cash and other incentive compensation that varies with the business cycle. This arrangement allows participants to self-direct funding of their retirement and does not impose a high fixed-cost burden on us. With respect to retirement benefits, our Cash Balance Plan and Benefit Restoration Plan were frozen on December 31, 2004; all NEOs were participants in the Cash Balance Plan, which was a plan available to all salaried employees (and now frozen for all salaried employees who were participants on that date).

1. Cash Balance Plan

While it was an active plan, the Cash Balance Plan provided participants with the benefit of an annual compensation credit determined by applying a formula involving the participant's age, years of service and annual compensation, subject to qualified plan limitations. The frozen Cash Balance Plan accounts of the NEOs continue to receive annual interest credits. The interest credits vary from year to year. The annual interest credit for fiscal year 2007 that was applied to all frozen Cash Balance Plan accounts including those of the NEOs was 4.60%.

2. Benefit Restoration Plan

Three of the NEOs (Messrs. Astheimer, Chandler and Evans) participated in the Benefit Restoration Plan. While it was an active plan, the Benefit Restoration Plan provided participants with a benefit determined by applying a formula involving the participant's age, years of service and annual compensation, less the benefit received under the Cash Balance Plan. When the Benefit Restoration Plan was frozen on December 31, 2004, the value of that benefit was fixed for each participant. The Benefit Restoration Plan, as frozen, will provide each participant with a post retirement benefit for a period of 15 years. For additional discussion, see the Pension Benefits Table on page 37 of this Proxy Statement.

3. Supplemental Executive Retirement Plan

Mr. Selby is a party to a Supplemental Executive Retirement Plan Agreement (SERP) dated May 4, 1994, since amended and restated. Mr. Selby is the only NEO currently participating in a supplemental retirement arrangement as it became effective while Mr. Selby was an employee of Reliance Group Holdings, Inc., prior to the combination of its business with ours. Mr. Selby's SERP provides for a retirement benefit equal to thirty percent (30%) of his career average annual salary for a period of 10 years after his normal or early retirement. Because of Mr. Selby's SERP, Mr. Selby is also a party to a Supplemental Change of Control Agreement described in further detail below.

4. Lawyers Title Insurance Corporation Deferred Income Plan

The Lawyers Title Insurance Corporation Deferred Income Plan (LTDIP) is an inactive plan that provided executives with the opportunity to defer compensation. Although the plan is no longer active, Mr. Astheimer is the only NEO who still has an account balance under the LTDIP. Amounts previously deferred by Mr. Astheimer under the LTDIP earn annual interest of 19%.

Table of Contents

Benefits Available to LandAmerica Employees

We do not currently maintain any executive benefit plans for the NEOs other than those mentioned above. Our view is that additional benefit plans are not necessary to maintain a competitive compensation package for our executives. Not maintaining these programs reduces fixed costs.

The NEOs may participate in plans and benefits that are offered generally to employees, including the Savings and Stock Ownership Plan (the 401(k) Plan), the Employee Stock Purchase Plan, long- and short-term disability coverage, life insurance, and other personal benefits (e.g., flexible spending accounts; real estate transaction reimbursements; tuition reimbursements; matching charitable gifts; health, dental, and vision coverage; and paid time off).

Perquisites

Each NEO receives various perquisites that, in conjunction with the benefit plans available to all salaried employees, are designed in part to meet their health and welfare needs.

On February 19, 2007, the Committee adopted an Executive Perquisite Reimbursement Policy to provide for the reimbursement of personal expenses that are not covered under our existing policies or programs to enable eligible executive officers to help support their financial and physical well being in recognition of their key role in the success of the organization. All of the NEOs are covered under this policy. Personal expenses that are eligible for reimbursement are those that support financial and physical well being and include the cost of estate planning, tax preparation, financial planning, physical exams and medical costs not covered under our healthcare plan, and memberships in facilities dedicated solely to exercise and physical well being. Any reimbursement under the policy is treated as income to the recipient. Under the policy, the CEO has an annual reimbursement limit of \$10,000 and the other NEOs have an annual reimbursement limit of \$5,000. In addition to the policy stated above, for fiscal year 2007, we discontinued the payment of car allowances and reimbursement for country club dues to the NEOs and other members of the senior management team. In exchange for foregoing these payments and reimbursements, Mr. Astheimer received a payment of \$12,960 on March 30, 2007 and will receive additional payments in that amount on March 30, 2008 and March 30, 2009. Mr. Selby received a payment of \$10,356 on March 30, 2007 and will receive an additional payment equal to one fourth of that amount on March 30, 2008. Mr. Selby's payment in March 2008 was prorated as a result of his announced retirement on April 1, 2008. During 2008, we intend to continue making life insurance premium payments, reimbursing for certain spousal travel and providing Group Excess Liability insurance up to \$4,000,000 of coverage for the NEOs.

Ownership Guidelines

To reinforce our stock ownership objective, the Committee established target ownership guidelines for the NEOs and other members of senior management in March 2003, which were updated in January 2006 and again in January 2007. In 1999, the Committee adopted a target ownership initiative requiring ownership of LandAmerica common stock equal to a salary multiple for Executive Vice Presidents and above, but the initiative was replaced with more formal guidelines in 2003. We use the guidelines to encourage the accumulation and retention of a significant economic stake in LandAmerica and to align executives' interests with the economic interests of our shareholders. We believe the levels are appropriate considering our share granting practices and the ownership requirements of our peers. The share ownership levels for the various positions are as follows:

1. Chairman and CEO 65,000 shares
2. Chief Financial Officer 20,000 shares

Table of Contents

- 3. Executive Vice Presidents (who are also the President of a business channel or Chief of an internal department) 12,000 shares
- 4. Other Executive Vice Presidents 10,000 shares
- 5. Senior Vice Presidents 5,000 shares

Executives have five years to reach their target ownership. Shares owned outright by the executive, shares held in a qualified benefit plan, unvested restricted shares, shares retained from option exercises, and deferred stock in the EVDP all count towards satisfaction of the guidelines. Once an executive reaches age 62, he/she is no longer subject to these guidelines. All NEOs have met their guidelines. Consequences associated with not meeting the guideline may include loss of eligibility for new equity grants, loss of eligibility for the 20% premium deferred units in the EVDP, and/or receiving a portion of the annual bonus in stock as determined by the Committee. We do not have any policies for hedging economic risk associated with such ownership because we do not consider such measures necessary at this time.

Severance/Change of Control Agreements

To ensure that the executive officers act in the best interests of shareholders and continue to perform in their roles when a change of control is possible, threatened or pending, we have entered into Change of Control Employment Agreements with each of the NEOs and other designated employees. In 2006, we revised all of the outstanding Change of Control Agreements to follow general market practices with regard to the terms and number of recipients within the organization based on information provided to us from Mercer and other publicly available information on change of control agreements that we discussed and analyzed with outside legal counsel. In 2007, further changes were made to ensure that the agreements were in compliance with Internal Revenue Code Section 409A. The Committee believes that the compensation multiples and form of Change of Control Agreement offered to the NEOs is consistent with general market practices with regard to the terms of such agreements.

For the NEOs including the CEO, the Agreements generally provide that if an executive officer is terminated other than for cause within three years after a change of control, or if the executive officer terminates his or her employment for good reason within such three-year period or voluntarily during the 30-day period following the first anniversary of the change of control for any reason, the executive officer is entitled to receive certain severance benefits. Severance benefits include a lump sum severance payment equal to a multiple of the sum of the executive officer's base salary and highest annual bonus, together with certain other payments and benefits, including continuation of employee welfare benefits and additional payments to compensate the executive officer for certain excise taxes imposed on certain change of control payments. For the NEOs, the severance payment multiple is three times annual base salary and highest annual bonus, although the severance payment multiple in each instance may be lower if the executive has voluntarily terminated employment during the 30-day period following the first anniversary of the change of control. All benefits payable to the executives under the Agreements are subject to the limitations set forth in Section 409A of the Internal Revenue Code of 1986, as amended. The Change of Control Employment Agreements of the NEOs are discussed in more detail on page 40 under the heading Potential Payments Upon Termination or Change of Control. Because Mr. Selby's SERP is structured differently from the frozen Benefit Restoration Plan, we entered into a separate Supplemental Change of Control Employment Agreement with Mr. Selby on January 1, 2008, to provide Mr. Selby with the same supplemental retirement benefits as those provided to other executive officers under the Change of Control Agreements.

Under our 2000 Stock Incentive Plan and the terms and conditions of the Non-qualified Stock Option Agreements and Restricted Stock and Cash Unit Agreements to which the NEOs are parties, unless otherwise provided by the Committee in an agreement, any outstanding restricted shares, unexercisable, unvested stock options, stock appreciation rights, or phantom stock will become fully exercisable and vested upon the date of a change of control. At this time, only stock options, restricted stock and cash units are outstanding. We provided for accelerated vesting in our 2000 Stock Incentive Plan to conform to market practice upon a change of control contingency, and we have not changed our practice since adoption of that plan. The Committee reviews the appropriateness of such acceleration from time to time as it makes new grants and awards.

Employment Agreements

Other than the Change of Control Employment Agreements including Mr. Selby's Supplemental Change of Control Employment Agreement, none of the NEOs has an employment agreement. We do not typically offer employment agreements to our NEOs because they serve at our pleasure, and we want to maintain flexibility with respect to the terms of the executives' employment arrangements.

Compensation Committee Report

The Executive Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and based on such review and discussions, the Executive Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K or proxy statement on Schedule 14A.

Compensation Committee Interlocks and Insider Participation

All members of the Executive Compensation Committee are considered independent under the New York Stock Exchange Listing Standards. Specifically, no members are employees or former employees of LandAmerica or any of its subsidiaries and no members had any relationship with us requiring disclosure under Item 404 of Regulation S-K. There are no compensation committee interlock relationships required to be disclosed under Item 407(e)(4)(iii) of Regulation S-K.

Table of Contents**Summary Compensation Table**

Our compensation philosophy, including a discussion of the elements of compensation that we pay our NEOs and the material factors necessary to understand the compensation reflected in the Summary Compensation Table and Grants of Plan-Based Awards Table, is set forth in our Compensation Discussion and Analysis on page 15 of this Proxy Statement. We do not have any employment agreements with our NEOs, other than the Change of Control Employment Agreements, described in more detail below under the heading Potential Payments Upon Termination or Change of Control on page 40 of this Proxy Statement.

The following table summarizes, for the fiscal years ended December 31, 2007 and 2006, the compensation paid to or earned by each of the NEOs in all capacities in which they served:

¹ The amounts in this column reflect the dollar amount of compensation expense recognized in 2007 and 2006 for financial reporting purposes for restricted stock and cash unit awards made in 2007 and prior years and 2006 and prior years in accordance with SFAS 123R, but disregarding estimated forfeitures related to service-based vesting conditions. Assumptions made in the valuation are discussed in Note 1 Summary of Significant Accounting Policies for Stock-Based Compensation and Note 11 Shareholders Equity in the Company's financial statements filed on Form 10-K for the fiscal year ended December 31, 2007.

² There was no Non-Equity Incentive Plan Compensation earned during the 2007 fiscal year. The Non-Equity Incentive Plan Compensation disclosed in this column was earned in 2006 and paid to the NEOs pursuant to the EOIP on March 15, 2007.

date used for financial statement reporting purposes with respect to the Company's audited financial statements for the prior two completed fiscal years, which is (y) September 30, 2005, to the pension plan measurement date used for financial statement reporting purposes with respect to the Company's audited financial statements for the 2006 fiscal year, which is September 30, 2006 and (z) September 30, 2006, to the pension plan measurement date used for financial statement reporting purposes with respect to the Company's audited financial statements for the 2007 fiscal year, which is September 30, 2007, and (ii) above-market or preference earnings on compensation that is deferred on a basis that is not tax-qualified, including such earnings on nonqualified defined contribution plans for each fiscal year.

With respect to (i), we have plans that provide for the payment of retirement benefits and benefits that will be paid primarily following retirement including the Cash Balance Plan, the Benefit Restoration Plan and the Commonwealth Supplemental Executive Retirement Plan. The Cash Balance Plan was frozen as of December 31, 2004 and since that date, participants in that plan continue to earn only interest credits (and not compensation credits, which were earned while the plan was active). A participant's benefit at any given time under the Cash Balance Plan is expressed as a lump sum. For purposes of determining an executive officer's accumulated benefit under the Cash Balance Plan, we project the executive's account value to age 65 as a lump sum and then take the present value of that amount. Specifically, the change in present value of each of the NEOs' benefits under the Cash Balance Plan between pension plan measurement dates for fiscal 2007 and fiscal 2006 were: Chandler: \$183, Evans: \$766, Astheimer: \$8,149, Hill: -\$69 and Selby: \$6,153 and for fiscal 2006 and fiscal 2005 were: Chandler: \$744, Evans: \$10,167, Astheimer: \$15,925, Hill: \$453 and Selby: \$8,055. The benefit payable under the Benefit Restoration Plan is fixed at the difference between the benefit that would have been payable under the Cash Balance Plan, but for either or both of the Internal Revenue Code maximum benefit or earnings limitations, and the amount actually payable under the Cash Balance Plan. The benefits under the Benefit Restoration Plan are payable at the participant's normal retirement date for 15 years. The change in present value of the NEOs' benefits for those participating in the Company's Benefit Restoration Plan between pension plan measurement dates for fiscal 2007 and fiscal 2006 were: Chandler: \$640, Evans: \$1,315 and Astheimer: \$7,676 and for fiscal 2006 and fiscal 2005 were: Chandler: \$1,876, Evans: \$6,850 and Astheimer: \$13,334. The Commonwealth Supplemental Executive Retirement Plan, also referred to as the SERP, is a plan maintained solely for Mr. Selby, which was put in place while Mr. Selby was an employee of Reliance Group Holdings, Inc. The SERP is an unfunded individual plan that provides a supplemental retirement benefit based on 30% of Mr. Selby's career average salary multiplied by a service percentage (the ratio of years of service to years from employment until normal retirement age). The benefit under the SERP is payable for a period of ten years. The change in present value for Mr. Selby under the SERP between pension plan measurement dates for fiscal 2007 and fiscal 2006 was \$30,359 and for fiscal 2006 and fiscal 2005 was \$58,411.

With respect to (ii), the Company currently maintains an Executive Voluntary Deferral Plan, also referred to as the EVDP, which is not tax-qualified, pursuant to which all of the NEOs earn interest. The NEOs can earn 8% interest on deferred cash accounts under such plan, and the Company has determined that 1.68% represents the above-market portion based on the difference between 8% and a rate of 6.32%, which represents 120% of the applicable long term federal rate with annual compounding as of December 1, 1998, the date that the rate was set. Specifically, the above-market amounts earned by each of the NEOs under the Company's EVDP during fiscal year 2007 were: Chandler: \$45,728, Evans: \$7,179, Astheimer: \$36,438, Hill: \$10,986 and Selby: \$43,864 and during fiscal year 2006 were: Chandler: \$33,513, Evans: \$6,647, Astheimer: \$29,001, Hill: \$8,950 and Selby: \$35,949. No portion of the NEOs' deferred stock accounts under the EVDP is considered to be above-market because the deferred stock accounts earn dividends at the same rate that dividends are paid on the Company's common stock. Mr. Astheimer also continues to earn interest at a rate of 19% under the Lawyers Title Insurance Corporation Deferred Income Plan, also referred to as the LTDIP, which is no longer active. Under the LTDIP, the Company has determined that 9.32% represents the above-market portion based on the difference between 19% and a rate of 9.68%, which represents 120% of the applicable long term federal rate with annual compounding as of July 1, 1986, the date that the rate was set. The above market amount earned by Mr. Astheimer under the LTDIP for fiscal 2007 was \$4,196 and for fiscal 2006 was \$2,964.

^{1a} The Executive Compensation Committee met on February 19, 2007 to set the performance goals and measures under the Executive Officer Incentive Plan, also referred to as the EOIP, for the performance period consisting of the 2007 fiscal year; however, no grant date for these awards occurred in fiscal year 2007.

^{1b} The Executive Compensation Committee met on February 19, 2007 to certify awards for fiscal year 2006 performance; however, these awards of restricted stock and cash units were made effective March 15, 2007 with annual vesting over a period of four years to coincide with the vesting schedule of prior fiscal year awards and to allow time between the Executive Compensation Committee meeting and receipt of the awards to communicate the terms of the awards to the NEOs.

² There were no thresholds or targets set for the 2007 fiscal year awards; instead, the awards were based on a percentage of pre-tax income as discussed in more detail in the Compensation Discussion and Analysis Elements of the Compensation Program Annual Cash Incentives on page 21 of this Proxy Statement. Under the terms of the EOIP, the maximum annual award payable to any participant is \$2,000,000.

Table of Contents

³ There were no thresholds for the 2007 fiscal year awards; instead the awards were based on a pool of shares expressed as a percentage of shares outstanding subject to maximum share awards shown in the table and as discussed in more detail in the Compensation Discussion and Analysis Elements of the Compensation Program Annual Equity Incentives on page 22 of this Proxy Statement.

^{4a} Amount represents an award of shares of restricted stock. Each restricted stock award is accompanied by a restricted stock agreement, which provides that the award vests in 25% increments over a period of four years, commencing on February 28, 2008. While the shares are restricted, the award holder has the right to receive dividends at the same rate that dividends are paid on shares of the Company's common stock. On certain events including disability, death, retirement after age 55 or in other circumstances approved by the Executive Compensation Committee, the restricted shares become fully vested and transferable. If an award recipient discontinues employment with the Company during the vesting schedule, then the officer forfeits the unvested portion of shares. In the event of a change in corporate structure, the number of shares covered by the award would be appropriately adjusted. There were no adjustments or material modifications to awards made to the NEOs during fiscal year 2007.

^{4b} Amount represents an award of cash units, which vest in 25% increments annually over a period of four years, beginning on the first anniversary of the grant date. A cash unit is a security that tracks the value of a share of the Company's common stock from the award date, but is paid to the executive when it vests in cash. Each cash unit award is accompanied by a cash unit agreement, which provides that the award vests in 25% increments over a period of four years, commencing on February 28, 2008. Before the units vest, the award holder has the right to receive dividend equivalents at the same rate that dividends are paid on shares of the Company's common stock. On certain events including disability, death, retirement after age 55 or in other circumstances approved by the Executive Compensation Committee, the cash units become fully vested. If an award recipient discontinues employment with the Company during the vesting schedule, then the officer forfeits the unvested portion of units. In the event of a change in corporate structure, the number of units covered by the award would be appropriately adjusted. There were no adjustments or material modifications to awards made to the NEOs during fiscal year 2007.

⁵ The amounts in this column reflect the grant date fair value under SFAS 123R of the restricted stock and cash units granted to the NEOs in 2007.

¹ The Company has not granted, and does not have any policies with respect to granting extra years of service to its NEOs, under the Company's pension plans.

² The present value was determined assuming retirement at age 65 (which is the normal retirement age under the Cash Balance Plan, the Benefit Restoration Plan and the Commonwealth Supplemental Executive Retirement Plan) using an interest rate consistent with assumptions used for the Company's financial reporting under FAS 87, which rate was 5.75% for September 30, 2006 and 6.0% for September 30, 2007. The post retirement mortality assumption used was RP2000 projected to 2010 with white collar adjustment. Other assumptions made in the valuation are discussed in Note 12 Pensions and Other Postretirement Benefits in the Company's financial statements filed on Form 10-K for the fiscal year ended December 31, 2007.

All of the NEOs have vested accounts in the Company's Cash Balance Plan, a qualified defined benefit retirement plan. Under the plan, which was frozen effective December 31, 2004, a cash balance account was established for each participant for record keeping purposes. Prior to December 31, 2004, a participant's cash balance account was annually credited with (i) a compensation credit based on the participant's age, service and compensation for that year and (ii) an interest credit based on the participant's account balances at the end of the prior year. The compensation credit percentage was based on the sum of the participant's age and service at the beginning of the year, and ranged from 2% for a sum of less than 35 to 5% for a sum of 80 or more. Annual interest credits were based on the average of 10-year Treasury bond rates in effect for the month of November of the prior year. There is no early retirement option under the plan, and upon termination of employment, the account balance may be converted to various monthly benefit options based on actuarial factors defined in the plan or may be paid in a lump sum benefit. Benefits for participants who were eligible for early retirement on December 31, 1998, under the terms of the former Lawyers Title Retirement Plan or

Table of Contents

the former Commonwealth Pension Plan will be no less than benefits calculated under the provisions of such former plan. Because any participant can convert the account balance upon termination of employment, all NEOs are eligible for a benefit under the Cash Balance Plan at retirement.

The Internal Revenue Code limits (i) the annual retirement benefit that may be paid under the Cash Balance Plan and (ii) the compensation that may be used in computing a benefit. The maximum benefit limitation is adjusted each year to reflect the cost of living. For 2007, the maximum benefit limitation was \$180,000 (based on a life annuity) and the earnings limitation was \$225,000.

Mr. Chandler, Mr. Evans and Mr. Astheimer are also covered by the Company's 1999 Benefit Restoration Plan, a plan designed to restore to selected participants the benefits that cannot be paid under the Cash Balance Plan due to the Internal Revenue Code maximum benefit limitation, the earnings limitation, or both. As of December 31, 2004, future accruals under the 1999 Benefit Restoration Plan were discontinued. The benefit payable under the 1999 Benefit Restoration Plan is fixed at the difference between the benefit that would be payable under the Cash Balance Plan, but for either or both of the Internal Revenue Code limitations, and the amount actually payable under the Cash Balance Plan. The benefits under the 1999 Benefit Restoration Plan are payable for a period of 15 years commencing after normal retirement. The Benefit Restoration Plan does not provide an early retirement benefit, but a participant's right to receive benefits vests at age 55 with at least five years of service. Although the Benefit Restoration Plan is unfunded for purposes of the Employee Retirement Security Act, also referred to as ERISA, the Company maintains a rabbi trust, which holds corporate owned life insurance to hedge its obligations under the plan.

Mr. Selby is a party to a Commonwealth Supplemental Executive Retirement Plan Agreement, also referred to as a SERP, dated May 4, 1994. This exception exists because the arrangement became effective while Mr. Selby was an employee of Reliance Group Holdings, Inc., prior to the combination of its business with the Company. Mr. Selby's SERP provides for a retirement benefit equal to thirty percent (30%) of his career average annual salary for a period of 10 years after his retirement. Mr. Selby is currently eligible for a benefit under the SERP retirement. Because of Mr. Selby's SERP, Mr. Selby is also a party to a Supplemental Change of Control Agreement, described in further detail below under Potential Payments Upon Termination or Change of Control on page 40 of this Proxy Statement.

Table of Contents**2007 Nonqualified Deferred Compensation Table**

The following table contains information concerning nonqualified deferred compensation for the Named Executive Officers during the fiscal year ended December 31, 2007.

Melissa A. Hill	105,750	0	52,363	0	801,911
Jeffrey C. Selby	202,563	0	208,967	0	2,965,508

¹ Contributions by the executives reflected in this column are not covered by the Summary Compensation Table because contributions were made from annual cash incentive payments earned for fiscal year 2006 and paid in fiscal year 2007, and the Summary Compensation Table reflects cash incentive payments earned for fiscal year 2007 and paid in fiscal year 2008. However, contributions made by the NEO reflected in this column were made from the non-equity incentive plan awards reflected in the 2007 Grants of Plan-Based Awards Table.

² Amounts in this column reflect the total cash earnings for the 2007 fiscal year on the NEOs deferred cash accounts under the EVDP, and, for Mr. Chandler, earnings for the 2007 fiscal year on both the EVDP and the ODDP and for Mr. Astheimer, earnings for the 2007 fiscal year on both the EVDP and the LTDIP.

³ The Company's Summary Compensation Table information presented in previous years did not include this information.

^{3a} Mr. Chandler's aggregate balance includes both his balance in the EVDP, the ODDP and the prior ODDP.

^{3b} Mr. Astheimer's aggregate balance includes both his balance in the EVDP and the LTDIP.

For details of the EVDP, see the discussion of the EVDP in the Compensation Discussion & Analysis on page 15 of this Proxy Statement.

Because Mr. Chandler was a non-management director of the Company prior to his employment with the Company, he has an account under the ODDP, which is not a tax-qualified plan. Certain participants in the ODDP, including Mr. Chandler, have grandfathered deferred cash accounts under the ODDP for the plan years 1995 through 1999, which earn 9% interest. The rate for the plan years 1995 through 1999 under the ODDP is not considered to be an above-market rate because 120% of the applicable long term federal rate on January 1, 1995, the date that the rate was set, is greater than 9%. Therefore, the Summary Compensation Table does not include any above market earnings under the ODDP for Mr. Chandler. For further discussion of the ODDP, see the Directors' Compensation Table on page 45 of this Proxy Statement and discussion following the table.

Mr. Astheimer is the only NEO with an account remaining under the LTDIP, which is an unfunded plan that the Company no longer actively maintains, except for maintaining account balances from executives who were originally participants. For details of the LTDIP, see the discussion of the LTDIP in the Compensation Discussion & Analysis on page 25 of this Proxy Statement.

Table of Contents**Potential Payments Upon Termination or Change of Control**

NEOs may receive payments from the Company upon termination of employment or a change of control pursuant to Change of Control Agreements between the NEOs and the Company, under the Company's Severance Plan or pursuant to the terms of certain equity awards held by the NEOs. The material terms of the Change of Control Agreements and the Severance Plan are summarized below, along with quantification of such potential payments.

Equity Awards

For a description of benefits triggered under equity awards held by the NEOs, see the Compensation Discussion and Analysis Severance/Change of Control Agreements on page 27 of this Proxy Statement. The benefits triggered under such equity awards are included in the quantification of payments below.

Change of Control Agreements

To help ensure that we will have the continued dedicated service of certain key employees notwithstanding the possibility, threat or occurrence of a change of control, we have entered into a Change of Control Employment Agreement with each of the NEOs and other designated employees for a one year term with an automatic annual renewal on each anniversary date, unless earlier terminated. We entered into a Supplemental Change of Control Employment Agreement with Mr. Selby that had the effect of equalizing the benefits to which he was entitled under his Change of Control Employment Agreement with the Change of Control Agreements for the other NEOs. The material provisions of the change of control agreements for the NEOs including Mr. Selby's supplemental agreement are summarized in the table below:

Any of the following:

Change of Control
Definition

- i) Acquisition of beneficial ownership of over 20% of our common stock or combined voting power
- ii) Reorganization, merger or similar transaction resulting in shareholders owning less than 50% of surviving company, liquidation or sale of substantially all assets
- iii) Change in majority of directors as a result of a contested election

Employment Period

If a change of control occurs during the term of the Agreement, a 3-year employment period begins during which the executive is guaranteed minimum compensation and certain severance benefits

Compensation During
Employment Period

- i) Monthly base salary at least equal to highest monthly base salary paid during previous 12 months
- ii) Annual bonus at least equal to highest annual bonus paid in the 3 fiscal years prior to the change of control
- iii) Savings, welfare benefits, fringe benefits and retirement benefits at least as favorable as those in effect during 120 days preceding the change of control

Table of Contents

- Other Provisions
- i) Reimbursement of legal expenses incurred by Executive to enforce or interpret the Agreement
 - ii) The Company pays excise tax on a grossed-up basis unless the total payments subject to the excise tax is less than 110% of the Section 280G limit, in which case payments are limited as necessary to eliminate the excise tax
 - iii) Executive required to protect confidential information indefinitely and protect against solicitation of employees for 2 years if terminated for cause or without good reason
 - iv) No obligation to mitigate and no setoff required for compensation earned by Executive after severance

Severance Plan

We also maintain a Severance Plan for all salaried employees that provides employees, including the NEOs, with certain severance benefits, conditioned on the execution of a severance agreement with the Company. The benefits are triggered by a termination of employment by the Company without cause and are paid if the eligible employee meets the conditions of the plan. Assuming the Severance Plan conditions are met, the employee is entitled to a payment equal to the product of the employee's number of years of service with the Company (subject to a maximum of twenty) times an amount equal to one week of the terminated employee's base salary.

Quantification of Payments

The table below outlines, by termination event, the potential payments to the NEOs upon termination or change of control, assuming a termination date of December 31, 2007.

Table of Contents

- ^{1a} Potential payments to NEOs are the same under the NEOs' Change of Control Agreements regardless of whether termination occurs based on good reason by the executive or without cause by the Company.
- ^{1b} The Company does not pay severance benefits if an executive is terminated for cause or if the executive voluntarily terminates employment regardless of whether a change of control has occurred.
- ^{2a} Under the NEOs' Change of Control Agreements, severance benefits are payable in a lump sum within thirty days after termination for good reason by the executive or without cause by the Company. The severance payment amount shown in the table includes payment equal to three times the sum of the executive's base salary as of December 31, 2007 and the highest annual bonus received by the executive over the three year period ending December 31, 2007 assuming termination on December 31, 2007. The value of continued welfare benefits until December 31, 2009 plus the cost of outplacement services estimated at \$9,400 and other payments that the executive would receive under other agreements are reflected in the Other Payments column.
- ^{2b} Under the NEOs' Change of Control Agreements, severance benefits are payable in a lump sum within thirty days after termination by the executive during the window period. The severance payment amount shown in the table includes payment equal to the sum of the executive's base salary as of December 31, 2007 and the highest annual bonus received by the executive over the three year period ending December 31, 2007 assuming termination on December 31, 2007. The value of continued welfare benefits until December 31, 2009 and other payments that the executive would receive under other agreements are reflected in the Other Payments column.
- ^{2c} The severance payment amount shown in the table reflects the payment to which the executive would be entitled under the Company's Severance Plan assuming involuntary termination on December 31, 2007 and assuming compliance with the terms of the Company's Severance Plan by the executive. The payment amount is based on a formula equal to a certain number of weeks of base salary depending on the executive's years of service with the Company.
- ^{3a} This column reflects amounts that would be paid to the executive in connection with a termination, excluding payments made to the executive strictly pursuant to a Change of Control Agreement or the Company's Severance Plan including the value of continued welfare benefits until December 31, 2009 plus the cost of outplacement services estimated at \$9,400 and other payments that the executive would receive under other agreements including payments under the EVDP and Benefit Restoration Plan or SERP, as applicable for the particular executive. Under the EVDP, if the NEO terminates employment within three years following a change of control, any unvested deferred stock units fully vest upon termination and will be paid in a lump sum payment within thirty days after termination. Benefits under the Benefit Restoration Plan also fully vest upon a change of control. Mr. Selby, who is the only SERP participant, would be entitled to early retirement benefits, either a deferred benefit commencing on his early retirement date or a reduced benefit commencing after retirement prior to age 65. Cash Balance Plan and LTDIP benefits are not affected by the type of termination.
- ^{3b} This column reflects amounts that would be paid to the executive in connection with a termination, excluding payments made to the executive strictly pursuant to a Change of Control Agreement or the Company's Severance Plan including the value of continued welfare benefits until December 31, 2009 and other payments that the executive would receive under other agreements including payments under the EVDP and Benefit Restoration Plan or SERP, as applicable for the particular executive.
- ^{3c} This amount equals estimated outplacement costs for one year, which the Company may offer upon involuntary termination.
- ⁴ Represents the compensation resulting from accelerated vesting of equity awards. Optionholders have ninety days from the date of termination to exercise outstanding, exercisable stock options upon involuntary termination or termination for cause and two years from the date of termination to exercise outstanding, exercisable stock options upon death, disability or retirement. The Company does not have any unvested stock options.

¹ The amounts in this column reflect the dollar amount of compensation expense recognized in 2007 for financial reporting purposes for restricted stock awards made in 2006 and prior years in accordance with SFAS 123. The grant date fair value was \$56.20 per share for all outstanding stock awards. The following are the aggregate number of stock awards outstanding on December 31, 2007 for each director. Alpert: 1,000 shares awarded on May 18, 2005; Caruso: 1,000 shares awarded on May 18, 2005; Dinkins: 1,000 shares awarded on May 18, 2005; McCann: 1,000 shares awarded on May 18, 2005; Norfleet: 1,000 shares awarded on May 18, 2005; Skunda: 1,000 shares awarded on May 18, 2005; Smith: 1,000 shares awarded on May 18, 2005; Snead: 1,000 shares awarded on May 18, 2005; Trani: 1,000 shares awarded on May 18, 2005; and Wishnack: 1,000 shares awarded on May 18, 2005.

² Although no options were awarded to directors during 2007 and no compensation expense was recognized in 2007 for financial reporting purposes, the following are the aggregate number of stock options outstanding on December 31, 2007 for each director with the grant date fair value of each equity award computed in accordance with FAS 123R noted in parentheses following the award: Dinkins: 2,000 shares at \$28.81 per share expiring May 19, 2009 (\$29,400) and 2,000 shares at \$32.04 per share expiring May 22, 2012 (\$35,840); McCann: 2,000 shares at \$54.04 per share expiring June 17, 2008 (\$52,160), 2,000 shares at \$28.81 per share expiring May 19, 2009 (\$29,400), 2,000 shares at \$20.06 per share expiring May 17, 2010 (\$24,060), 2,000 shares at \$27.70 per share expiring May 23, 2011 (\$32,680) and 2,000 shares at \$32.04 per share expiring May

³ We do not maintain any defined benefit or actuarial plans for non-employee directors. With respect to the above-market or preference earnings on compensation that is deferred on a basis that is not tax-qualified, including earnings on nonqualified defined contribution plans, we currently maintain the ODDP, which is not tax-qualified, pursuant to which all of non-employee directors earn interest. The non-employee directors who have grandfathered deferred cash accounts under the plan can earn 9% interest on such accounts, and we have determined that 1.81% represents the above-market portion based the difference between 9% and a rate of 7.19%, which represents 120% of the applicable long term federal rate with annual compounding as of December 1, 1998, the date that the rate was set. Because we do not maintain any defined benefit or actuarial plans for its non-employee directors, the amounts in this column reflect the above-market amounts earned by each of the non-employee directors during fiscal year 2007. No portion of the directors' deferred stock accounts under the ODDP is considered to be above-market because the deferred stock accounts earn dividends at the same rate that dividends are paid on the Company's common stock. During fiscal year 2006, Mr. Foster was not a participant in this plan; however, he was a participant in the EVDP and the LTDIP.

During 2007, each director who is not an officer received a quarterly retainer of \$7,500, a fee of \$2,000 for attendance at each meeting of the Board of Directors and a fee of \$1,500 for attendance at each meeting of a committee of the Board of Directors of which he or she was a member. In addition to the foregoing, the Chairman of the Audit Committee received a quarterly retainer of \$2,500, the Chairman of the Executive Compensation Committee received a quarterly retainer of \$1,875 and all other Committee Chairmen received an additional quarterly retainer of \$1,250. During 2007, the Company's Lead Director, who is currently Dr. Eugene P. Trani, received an additional \$25,000 annually, paid in quarterly installments.

In addition, during 2007, each non-employee director received an equity-based compensation award equivalent of 1,000 shares of common stock. Specifically, the annual award was paid in the ratio of 58% common stock, without vesting or forfeiture restrictions, and 42% cash, effective as of the first business day following each annual meeting of the Company's shareholders. In prior years, directors were awarded restricted stock, combinations of restricted stock and cash units and options. A director who is also an officer of the Company receives no compensation for his or her services as a director.

During 2006, we compensated Charles H. Foster, Jr., a director, under the terms of an employment agreement effective January 1, 2005 and an addendum to that agreement dated December 9, 2005. The employment agreement, as amended by the addendum, set forth Mr. Foster's duties as Chairman of the Board of Directors of the Company and provided for compensation and benefits during the term of the agreement and upon a change of control of the Company. The addendum added necessary provisions to comply with Section 409A of the Internal Revenue Code, made changes to the payment of Mr. Foster's 2005 bonus so that it was paid only in cash and corrected a discrepancy in the description of Mr. Foster's change of control benefit. Specifically, the employment agreement, as amended by the addendum, provided for an annual base salary of \$575,000 and annual bonuses of \$1,125,000 in cash for 2005 and \$1,125,000 in cash or stock, or a combination of both, for 2006. Mr. Foster's bonus for fiscal year was paid in cash on February 28, 2007. The employment agreement provided that Mr. Foster is entitled to participate in and receive benefits under all savings, retirement, welfare benefit, expense reimbursement, fringe benefit and other plans and arrangements made available to peer executives of the Company. The employment agreement terminated on December 22, 2006. Other than as indicated for Mr. Foster, the only compensation arrangements with directors are those disclosed in this Proxy Statement.

Table of Contents

Each non-employee director is eligible to participate in the Outside Directors Deferral Plan. The Outside Directors Deferral Plan permits non-employee directors to defer all or a portion of their cash compensation in deferred stock units. Each deferred stock unit represents a hypothetical share of the Company's common stock and fluctuates in value with the market price of such stock. A participant's deferred stock unit account is increased by dividends paid by the Company on the common stock. Those participants who elect to defer 100% of their total cash compensation into deferred stock units for a given year shall receive additional compensation in the form of deferred stock units equal to 20% of their total compensation. A former version of the Outside Directors Deferral Plan permitted non-employee directors to defer their cash compensation into a deferred cash account, so some non-employee directors have deferred cash accounts under the Plan. Each deferred cash account is credited with interest annually, and the interest paid is based on the rate of return set forth in the amended and restated Plan, which is currently 9%. Under the Plan, benefits in deferred stock unit accounts are paid in common stock, and benefits in deferred cash accounts are paid in cash. Benefits also include survivor's benefits in the event that the participant dies before receiving all of the benefits to which the participant is entitled under the Plan. A participant may also postpone receipt of benefit payments by making a timely election. Accelerated payment of deferred benefits may occur under certain conditions, including a change of control of the Company. The Plan was amended effective January 1, 2005 to comply with the requirements of Internal Revenue Code Section 409A and to make certain other administrative changes. In addition, the definition of "Eligible Director" in the Plan was amended to enable non-employee directors to continue to make deferrals of director compensation upon attaining the age of 65 or older.

Effective January 1, 2006, the Corporate Governance Committee amended the Corporate Governance Guidelines to include a stock ownership requirement for non-employee directors that requires non-employee directors to attain certain stock ownership levels and therefore maintain a vested interest in the performance of the Company. Specifically, non-employee directors shall attain a minimum stock ownership of 2,500 shares of Company common stock and shall maintain such stock ownership as long as he or she continues to serve as a director of the Company. Each non-employee director is required to meet the target level of stock ownership prior to the later of December 31, 2010 or five years after joining the Board of Directors. Stock ownership for purposes of the Corporate Governance Guidelines includes (1) shares beneficially owned outright by the non-employee director or by a trust for the non-employee director's benefit, (2) the unvested portion of restricted shares, (3) shares retained upon the exercise of stock options, and (4) any deferred stock units credited to the non-employee director's account under the Outside Directors Deferral Plan. Unexercised stock options or other derivative securities do not count toward the target ownership level required.

Table of Contents**EQUITY COMPENSATION PLAN INFORMATION**

The following table sets forth information as of December 31, 2007, with respect to compensation plans under which shares of the Company's common stock are authorized for issuance.

¹ Amounts exclude any securities to be issued upon exercise of outstanding options, warrants and rights.

² We have two equity compensation plans – the EVDP and the ODDP that are not presented in this table. No options, warrants or rights are granted under either plan. Under each plan, participants may elect to defer compensation in deferred stock units that represent a hypothetical share of the Company's common stock. The deferred stock units are paid out in shares of common stock. Each plan includes a feature under which we may credit additional deferred stock units to participants. The maximum amounts of shares of common stock that the Company can issue under the EVDP and the ODDP are 800,000 and 100,000, respectively. On December 31, 2007, there were 252,598 deferred stock units under the EVDP and 71,984 deferred stock units under the ODDP credited to the participants' deferred stock unit accounts under such plans.

³ The 2000 Stock Incentive Plan permits grants of stock options and stock appreciation rights and awards of common stock, restricted stock and/or phantom stock. The 2000 Stock Incentive Plan currently authorizes the issuance of 3,600,000 shares of common stock for grants and awards. The 2000 Stock Incentive Plan does not limit, however, the amount of phantom stock (designated as cash units) we can award as long as it is payable only in cash.

⁴ No options, warrants or rights are granted under the LandAmerica Financial Group, Inc. Executive Officer Incentive Plan.

⁵ We have no equity compensation plans that have not been approved by the shareholders.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In 2006, the Board of Directors adopted a Related Person Transactions Policy specifying our policies and procedures for the review, approval or ratification of any related person transaction. The Board of Directors further amended the policy in February 2007. Under the policy, "Related Person" means any director or executive officer of the Company, any nominee for director of the Company, any shareholder who beneficially owns more than 5% of the Company's common stock, any immediate family member of any of the foregoing persons, and any entity in which any of the foregoing persons has, or will have, a direct or indirect material interest. A "Related Person Transaction" means any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships, between the Company, as a participant, and a Related Person in which the amount involved exceeds \$120,000 and in which the Related Person has, or will have, a direct or indirect material interest. The Audit Committee of the Board of Directors has responsibility for applying the policy and making determinations under the policy. The Audit Committee then reports determinations under the policy to the Board of Directors. If presented with the situation, we would submit a Related Person Transaction to our shareholders for approval in the circumstances required by Rule 312.03(b) of the New York Stock Exchange Listed Company Manual.

At the first regularly scheduled Audit Committee meeting of each fiscal year, management shall present for approval any proposed or continuing Related Person Transactions for that calendar year. In order to consider a Related Person Transaction, the Audit Committee evaluates the following information:

the Related Person's name and relationship to the Company;

the facts and circumstances of the proposed transaction;

the aggregate dollar amount involved in the transaction or, in the case of indebtedness, information regarding the principal amount of the debt, interest rate, repayment and other material terms;

the Related Person's interest in the transaction with the Company, including the Related Person's position or relationship with, or ownership in, a firm, corporation or other entity that is a party to, or has an interest in, the transaction;

the benefits to the Company of the proposed transaction and, if applicable, the terms and availability of comparable products and services from unrelated third parties; and

any other information regarding the Related Person Transaction or the Related Person that is material to the Audit Committee's determination.

Under the policy, any Related Person Transaction shall be approved or ratified only if the Audit Committee determines that, based on the facts and circumstances known to the Committee at the time of approval, the Related Person Transaction serves our best interests and our shareholders or the transaction is on terms reasonably comparable to those that could be obtained in arm's length dealings with an unrelated third party. The Audit Committee may establish, as appropriate, guidelines and directives for management to follow with respect to a Related Person Transaction. At each subsequently scheduled meeting, management shall update the Audit Committee as to any material changes in the transactions previously approved and shall seek approval of any further proposed Related Person Transactions. The Audit Committee shall review and approve any material change to a previously approved Related Person Transaction. A Related Person Transaction is approved or ratified if it receives the affirmative vote of a majority of the disinterested directors on the Audit Committee. No member of the Audit Committee participates in any review, approval or ratification of any Related Person Transaction with respect to which such member or any of his or her immediate family members is a Related Person.

On January 31, 2008, Old Republic International Corporation (Old Republic) filed a Schedule 13G indicating that it owned in excess of 5% of our outstanding common stock. Therefore, the Audit Committee considered transactions with Old Republic and its affiliates during fiscal year 2007, and approved all such transactions consisting of less than \$750,000 in reinsurance and title insurance transactions in the ordinary course of business as well as less than \$2,000,000 in license fees paid to RQ Holdings, a joint venture in which we own an interest along with Old Republic. We did not have any other Transactions with related persons within the meaning of Item 404(a) of Regulation S-K or our Related Person Transaction Policy.

Table of Contents**AUDIT INFORMATION**

The following provides information about the Company's independent registered public accountants and their relationship with the Company and the Audit Committee.

Fees of Independent Registered Public Accountants

The following table shows fees for professional services rendered by Ernst & Young for the past two fiscal years ended December 31:

Type of Fees	Fees for fiscal 2007 (\$)	Fees for fiscal 2006 (\$)
Audit Fees ¹	2,315,000	2,497,558
Audit Related Fees ²	11,790	306,978
Tax Fees ³	100,475	166,980
All Other Services	0	0

¹ Audit Fees represent fees billed in connection with the audit of the Company's annual financial statements and for the review of the Company's interim financial statements included in the Company's quarterly reports on Form 10-Q as well as services normally provided in connection with statutory or regulatory filing.

² Audit Related Fees represent fees billed for assurance and related services that are reasonably related to the review of the Company's financial statements and not reported under the heading "Audit Fees". During 2006, these services included SAS 70 work, accounting consultation, insurance department work paper review and online subscription charges. During 2007, these services included regulatory department work paper review and online subscription charges.

³ Tax Fees represent fees billed for tax compliance, tax advice and tax planning. During 2006 and 2007, these services generally included tax assistance on specific matters.

Pre-Approved Services

The Audit Committee's Charter provides for pre-approval of audit, audit-related and tax services to be performed by the independent auditors. All such services, as described above, were pre-approved by the Audit Committee, which concluded that the provision by Ernst & Young of the services not related to the annual audit and quarterly review of the Company's financial statements was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.

The Charter also authorizes the Audit Committee to delegate to one or more of its members pre-approval authority with respect to permitted services. The decisions of any Audit Committee member to whom pre-approval authority is delegated must be presented to the full Audit Committee at its next scheduled meeting.

Report of the Audit Committee

The Audit Committee is composed of six directors, each of whom meets the independence and experience requirements for Audit Committee members set forth in Rule 10A-3 under the Securities Exchange Act of 1934, as amended, the rules and

Table of Contents

regulations of the New York Stock Exchange and applicable law. The Audit Committee operates under a written charter adopted by the Board of Directors. The Audit Committee reviews its charter at least annually and revises it as necessary to ensure compliance with current regulatory requirements.

Management is responsible for:

establishing and maintaining the Company's internal control over financial reporting;

assessing the effectiveness of the Company's internal control over financial reporting as of the end of each year; and

the preparation, presentation and integrity of the Company's consolidated financial statements.

The Company's independent registered public accounting firm is responsible for:

performing an independent audit of the Company's consolidated financial statements and the Company's internal control over financial reporting;

expressing an opinion as to the conformity of the Company's consolidated financial statements with U.S. generally accepted accounting principles; and

expressing an opinion as to management's assessment of the effectiveness of the Company's internal control over financial reporting and the effectiveness of the Company's internal control over financial reporting.

The Audit Committee is responsible for:

the appointment, compensation, retention and oversight of the work of the independent registered public accounting firm engaged for the purpose of preparing or issuing an audit report or performing other audit, review or attestation services for the Company; and

overseeing and reviewing the accounting and financial reporting processes of the Company.

In this context, the Audit Committee has met and held discussions with management and Ernst & Young LLP, the Company's independent registered public accounting firm. Management represented to the Audit Committee that the Company's consolidated financial statements for the year ended December 31, 2007 were prepared in accordance with U.S. generally accepted accounting principles. The Audit Committee has reviewed and discussed these consolidated financial statements with management and Ernst & Young LLP, including the scope of the independent registered public accounting firm's responsibilities, critical accounting policies and practices used and significant financial reporting issues and judgments made in connection with the preparation of such financial statements.

The Audit Committee has discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). The Audit Committee has also received the written disclosures and the letter from Ernst & Young LLP relating to the independence of that firm as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and has discussed with Ernst & Young LLP the firm's independence from the Company.

In addition, the Audit Committee has discussed with management its assessment of the effectiveness of internal control over financial reporting and has discussed with Ernst & Young LLP its opinion as to both the effectiveness of the Company's internal control over financial reporting and management's assessment thereof.

Table of Contents

Based upon its discussions with management and Ernst & Young LLP and its review of the representations of management and the report of Ernst & Young LLP to the Audit Committee, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for filing with the Securities and Exchange Commission.
