Table of Contents**Management Performance and Financial Conditions****1. Outline of Operations and Business Results**

For the fiscal year ended March 31, 2008, the Komatsu Group (hereinafter Komatsu) renewed record-high sales and profits, marking the sixth consecutive fiscal year of growth in both sales and profits.

Consolidated net sales reached ¥2,243.0 billion (US\$22,430 million). In the construction and mining equipment segment, Komatsu boosted sales by steadily capitalizing on expanded demand against the backdrop of thriving resource development around the world and infrastructure development particularly in emerging powers. Komatsu also expanded sales of forklift trucks and industrial machinery, reflecting buoyant capital investments in Japan and overseas.

Operating income for the year increased to ¥332.8 billion (US\$3,329 million), and operating income ratio improved 1.9 percentage points over the previous fiscal year, to 14.8%. Operating income improved 36.0% due not only to expanded sales, centering on construction and mining equipment, but also to the successful realization of prices for construction and mining equipment in Japan and overseas. Income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies reached ¥322.2 billion (US\$3,222 million). Net income for the year, the sum of income from continuing and discontinued operations, advanced to ¥208.7 billion (US\$2,088 million).

[Consolidated Results for the Year]

	2008	Changes (2008/2007)	2008
Net sales	¥ 2,243.0 billion	18.5%	US\$ 22,430 million
Operating income	¥ 332.8 billion	36.0%	US\$ 3,329 million
Income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies	¥ 322.2 billion	36.2%	US\$ 3,222 million
Income from discontinued operations	¥ 4.9 billion		US\$ 50 million
Net income	¥ 208.7 billion	26.8%	US\$ 2,088 million

Notes: 1) In April 2007, Komatsu Zenoah Co. had Zenoah Co., a subsidiary, take over its outdoor power equipment business through the split and takeover procedure. In the same month, Komatsu Utility Co., Ltd., which had taken over Komatsu Zenoah Co., sold all of its shares of Zenoah Co. to HUSQVARNA JAPAN LTD. (currently, Husqvarna Zenoah Co., Ltd.). In accordance with the Statement of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the entire operation of Komatsu Utility Co., Ltd., except for the outdoor power equipment business, remains as a continuing operation, and income from this continuing operation is presented as income from continuing operations, in the consolidated statements of income.

2) In accordance with the above-mentioned Standards, income from the sale of the outdoor power equipment business of Komatsu Zenoah Co. is presented as one line, income from discontinued operations, in the consolidated statements of income.

Table of Contents

[Sales by Operation]

	2008	Changes (2008/2007)	2008
Construction and Mining Equipment	¥ 1,897.6 billion	21.0%	US\$ 18,976 million
Industrial Machinery, Vehicles and Others	¥ 345.4 billion	6.1%	US\$ 3,454 million
Total	¥ 2,243.0 billion	18.5%	US\$ 22,430 million

Note: While Komatsu had earlier disclosed the three segments of Construction and Mining Equipment, Industrial Machinery, Vehicles and Others, and Electronics through the previous fiscal year, starting in the fiscal year ended March 31, 2008, Komatsu has included Electronics in the Industrial Machinery, Vehicles and Others segment in line with a structural change of its operations. As a result, Komatsu discloses the two segments of Construction and Mining Equipment and Industrial Machinery, Vehicles and Others. Accordingly, the changes in percentage are stated after retrospectively reclassifying related figures for the previous year.

Construction and Mining Equipment

Consolidated net sales of construction and mining equipment for the fiscal year under review accelerated 21.0% over the previous year, to ¥1,897.6 billion (US\$18,976 million). As demand for our equipment continued to expand, we not only introduced and stepped up sales of DANTOTSU models which feature unrivaled performance in fuel consumption and other areas, but also worked to realize higher prices and strengthen our product support capability. In response to thriving demand for our equipment, we further expanded our production capacities, including new Japanese facilities for key components and assembly plants, particularly in Asia, in concert with supplier partners.

In preparation for further growth in demand, we began construction of new plants: one to produce super-large hydraulic excavators adjacent to the Port of Kanazawa in Ishikawa Prefecture, Japan; one for medium-sized hydraulic excavators, forklift trucks and other equipment in Yaroslavl, northeast of Moscow, Russia; and one for crawlers for construction equipment in Jining, Shandong, China.

Total	1,897,620	1,567,723	329,897	21.0%

Table of Contents

Japan

While public-sector investments remained slack, demand for equipment renewal supported the Japanese market, reflecting strong exports of used equipment from Japan. However, demand for new equipment declined around the middle of the fiscal year resulting from a drop in housing starts when Japan's Building Codes were revised. We worked to expand sales of new equipment centering on DANTOTSU models, realize higher prices, and reinforce the used equipment business. As a result, sales increased 2.1% from the previous year.

As a measure to further build up the rental and used equipment business, we decided to unify the management of Komatsu Rental Japan Ltd. and BIGRENTAL CO., LTD.(hereinafter BIGRENTAL).

The Americas

North American demand, which had begun declining since the second half period of 2006, reflecting a drop in U.S. housing starts, remained slack as affected by an economic slowdown which was triggered by the subprime mortgage problem. Meanwhile, Latin American demand continued to increase, centering on mining equipment. In this environment, we continued our efforts to normalize our distributors' inventories in North America. In both regions, we worked to reinforce our sales and product support capabilities for the mining industry. We also worked to expand sales of DANTOTSU models such as the D51 bulldozer, which offers unrivaled front visibility for operators, and to strengthen our competitiveness through such measures as price realization. As a result, sales in the Americas remained flat (up 0.2%) from the previous year.

Europe & CIS

European demand expanded, reflecting good market conditions in Germany, the largest market in Europe, and Central and Eastern Europe. In addition to shortening our production lead-time, we focused efforts to accelerate sales of DANTOTSU models and realize higher prices through our distributors who are more in number and stronger. In CIS, demand sharply expanded for use in infrastructure development in urban areas in addition to use in natural resource and energy developments. Under the leadership of Komatsu CIS, LLC, our regional headquarters, we worked to increase the number of distributors and strengthen their capabilities and reinforce our sales and product support capabilities for the mining industry. As a result, sales in Europe & CIS increased 32.9% over the previous year.

China

In addition to expanded demand for use in infrastructure development nationwide, demand continued to climb, supported mainly by exploration of new mines and progress in mechanization. While launching the medium-sized PC200 renewed hydraulic excavator model which offers better fuel economy, we concerted efforts to sharpen our competitiveness by expanding sales of new equipment based on IT-capitalized information concerning business negotiations and equipment operations, improving operational efficiency of sales and production and reinforcing our capability to manage customers' equipment. As a result, sales in China advanced 62.3% over the previous year.

Asia & Oceania

In Indonesia, the largest market of Southeast Asia, demand continued to expand in civil engineering, agricultural and forestry sectors, in addition to surging demand for mining equipment. In India, demand for equipment advanced steadily for uses in infrastructure development and mining, driven by powerful economic growth. In Oceania, demand was strong, centering on mining equipment. In this environment, we focused our efforts to expand production capacity and sales and product support capabilities for the mining industry. As a result, sales in Asia & Oceania recorded an increase of 37.8%.

Table of Contents

Middle East & Africa

Against the backdrop of skyrocketing prices of crude oil and other commodities, demand remained strong in infrastructure development in the Middle East and resource and infrastructure developments in Africa. In this environment, we concerted efforts to strengthen our aggressive sales and product support capabilities by teaming up with our distributors. As a result, sales in the Middle East & Africa improved 42.6% over the previous year.

Industrial Machinery, Vehicles and Others

Consolidated net sales of industrial machinery, vehicles and other operations increased 6.1% over the previous year, to ¥345.4 billion (US\$3,454 million) for the fiscal year under review. Reflecting strong capital investments in Japan and overseas, the forklift truck business and the industrial machinery business continued to improve sales.

In the forklift truck business, Komatsu Utility Co., Ltd. worked to expand sales of new models and strengthen its sales and service capabilities, mainly in Greater Asia which includes Asia, CIS and the Middle East. The company also concerted efforts to step up sales of electric forklift trucks in Japan, including the market introduction of the industry's first hybrid electric forklift truck.

Our industrial machinery business effectively took advantage of capital investments centering on the automobile industry in Japan and overseas, enjoying good sales of large presses, sheet metal and press machines of Komatsu Industries Corporation, and machine tools of Komatsu Machinery Corporation.

To further reinforce the industrial machinery sector, Komatsu Ltd. (hereinafter the Company) had acquired 29.3% of the equity of NIPPEI TOYAMA Corporation (hereinafter NIPPEI TOYAMA) back in December 2006. In January 2008 the Company launched the tender offer to obtain all issued shares of NIPPEI TOYAMA, resulting in an equity-holding ratio of 93.7% as of March 31, 2008. As a tentative goal, the Company plans to make NIPPEI TOYAMA a wholly owned subsidiary through share exchange by the end of August 2008.

2. Financial Conditions

As of March 31, 2008, total assets increased by ¥261.1 billion from the previous fiscal year-end to ¥2,105.1 billion (US\$21,051 million). This increase reflects two new additions of consolidated subsidiaries, namely, NIPPEI TOYAMA and BIGRENTAL, in addition to increases of inventories and tangible fixed assets resulting from expanded production to meet thriving demand for construction and mining equipment.

As of March 31, 2008, interest-bearing debt grew by ¥103.0 billion from the previous fiscal year-end to ¥452.0 billion (US\$4,521 million), as mainly affected by consolidating the above-mentioned and other subsidiaries. Shareholders' equity totaled ¥887.1 billion (US\$8,871 million), up ¥110.4 billion from the previous fiscal year-end, resulting from an increase in profits. Shareholders' equity ratio remained at 42.1%, the same level from the previous fiscal year-end. Net debt-to-equity ratio* was 0.39, compared to 0.33 a year ago.

Table of Contents

Net cash provided by operating activities for the fiscal year under review decreased by ¥1.1 billion from the previous fiscal year to ¥160.9 billion (US\$1,610 million), because working capital increased, offsetting an increase in net income resulting from good business performance. Net cash used in investing activities increased by ¥28.5 billion to ¥128.1 billion (US\$1,282 million) due to aggressive capital investments in Japan and overseas to expand production capacity and improve productivity as well as acquisition of the shares of NIPPEI TOYAMA and BIGRENTAL, which offset income from the sale of the outdoor power equipment business. Net cash used in financing activities amounted to ¥17.4 billion (US\$174 million), down ¥23.9 billion from the previous fiscal year.

As a result of the above, cash and cash equivalents as of March 31, 2008 increased by ¥9.8 billion from the previous fiscal year-end, to ¥102.0 billion (US\$1,020 million). See below for the trends of cash flow indicators.

* Net debt-to-equity ratio = (Interest-bearing debt - Cash and cash equivalents - Time debt-to-equity) / Shareholders' equity

[Trends of Financial Conditions Indicators]

	Fiscal years ended March 31, 2008, 2007 and 2006		
	2008	2007	2006
Shareholders' equity ratio (%)	42.1	42.1	37.7
Shareholders' equity ratio at aggregate market value (%)	130.7	133.7	135.0
Years of debt redemption	2.8	2.2	2.8
Interest coverage ratio	9.6	10.5	11.1

- Shareholders' equity ratio: Shareholders' equity/Total assets
- Shareholders' equity ratio at aggregate market value: Aggregate market value of outstanding shares of common stock/Total assets
- Years of debt redemption term: Interest-bearing debt/Net cash provided by operating activities
- Interest coverage ratio: Net cash provided by operating activities/Interest expense

3. Projections for the Fiscal Year Ending March 31, 2009

(From April 1, 2008 to March 31, 2009)

There are some factors of concern such as an increase in prices of raw materials in addition to slack demand for construction equipment in the United States. Komatsu, however, projects that thriving demand for construction and mining equipment should remain at a high note, particularly in emerging powers. In response to such an environment, Komatsu will expand its production capacity and work to further improve profits especially by launching new products and realizing prices. In the industrial machinery market, Komatsu also anticipates an expansion in sales not only against the backdrop of buoyant capital investments, especially in emerging powers, but also reflecting contributions of NIPPEI TOYAMA as a newly consolidated subsidiary. By taking these above factors into account, Komatsu is looking forward to renewing record-high sales, operating income, income from continuing operations before income taxes, minority interests and equity in earnings of affiliated companies, and net income for the year, following the previous fiscal year.

Table of Contents

Billions of yen

	2008	2009	Changes
	Results	Projection	Increase
	(A)	(B)	(B)-(A)/(A)
Net sales	2,243.0	2,580.0	15.0%
Operating income	332.8	360.0	8.2%
Income before income taxes, minority interests and equity in earnings of affiliated companies	322.2	353.0	9.6%
Net income	208.7	219.0	4.9%

Foreign exchange rates are premised at ¥103 to US\$1 and ¥160 to EUR1 for the fiscal year ending March 31, 2009.

4. Basic Policy for Redistribution of Profits and Projections for the Fiscal Year Ended March 31, 2008 and the Fiscal Year Ending March 31, 2009

The Company is building a sound financial position and flexible and agile corporate strength to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the policy of redistributing profits by first striving to continue stable dividends and then considering consolidated business results, while working for the goal of a consolidated payout ratio of 20% or higher.

The Company plans to set the year-end dividends per share for the fiscal year ended March 31, 2008, at ¥22, based on its basic policy. It has already paid ¥20 per share for the interim dividends. Therefore, it plans to increase the annual dividends per share by ¥11 to ¥42 compared to ¥31 for the previous year.

Regarding the fiscal year ending March 31, 2009, the Company plans to set the annual dividends per share at ¥44, up ¥2, compared to ¥42 for fiscal year ended March 31, 2008.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for the Company's principal products, owing to changes in the economic conditions in the Company's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving the Company's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of the Company's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

Management Policy

1. Basic Management Policy

The cornerstone of Komatsu's management is commitment to Quality and Reliability for maximization of its corporate value. This commitment is not limited to delivering safe and innovative products and services which incorporate the viewpoints of customers. Komatsu is continuing its efforts to enhance the Quality and Reliability of all organizations, businesses, employees and management of the entire Komatsu. It is the top management task of Komatsu to continue improving the Quality and Reliability of all these year after year.

2. Mid to Long-Range Management Plan, Target and Issues Ahead

We at Komatsu define our corporate value as the total sum of trust given to us by society and all stakeholders. To increase this corporate value, we have set the following two management goals.

To maintain our top-level profitability and financial position in the industry and enhance our position in the global marketplace, especially in Greater Asia.

To continue management, while keeping market value in mind, which reflects the amount of trust given to us by society and shareholders. To achieve these goals above, we will promote the following three matters as Komatsu's permanent ongoing tasks. (1) thorough measures for compliance, safety and environmental conservation, (2) dissemination of The KOMATSU Way and human resource development, and (3) brand management activities, which we are introducing for the first time starting in the current fiscal year.

Furthermore, we are continuing our efforts on the following seven activities of importance for our Global Teamwork for 15 mid-range management plan, the goal of which is set for the year ending March 31, 2010. We are determined to produce achievements.

(1) Development of DANTOTSU Products

We are promoting the development of DANTOTSU products by taking advantage of Komatsu group-wide strengths, such as in-house capabilities to develop and produce key components including engines and hydraulic units which enable a substantial reduction of fuel consumption, IT applications as represented by KOMTRAX (Komatsu Machine Tracking System), and an autonomous haulage system for super-large dump trucks.

(2) Further Enhancement of Market Position in Greater Asia

We are going to further enhance Komatsu's market position in Greater Asia especially by leading our competitors in product launchings, expanding local production, and further reinforcing sales and product support capabilities.

Table of Contents**(3) Business Expansion in the Entire Value Chain***

In addition to expanding our parts business, we are working to expand businesses in the entire value chain. Specifically, we are also going to expand peripheral businesses in relation to construction and mining equipment, such as (1) services and Reman, (2) retail finance, (3) rental and used equipment, (4) working gears (attachments) and forest machines by capitalizing on Komatsu group-wide areas of original technological edge and facilitating collaboration among different business operations.

* Values generated by business activities of Komatsu with its partners, i.e., distributors and suppliers, and customers.

(4) Establishment of Flexible Manufacturing Operations

By taking effective advantage of global sales, production, procurement and other operations, we are going to further enhance production flexibility in tune with demand changes and foreign exchange fluctuations. We are also going to share market information among distributors, plants and suppliers. In the short term, we are going to accurately incorporate such information into production, sales and inventory planning. In the medium term, we will accurately incorporate useful information into capital investment planning in order to ensure appropriate production capacity.

(5) Expansion of Utility Equipment Business

We are working further to generate synergy in production and development of forklift trucks and compact-construction equipment in order to enhance product competitiveness. We are also working to improve our position in the utility equipment industry and improve earnings by doubling our efforts in Greater Asia.

(6) Reinforcement of Industrial Machinery Business

We are working to further expand our industrial machinery business by generating more synergy with NIPPEI TOYAMA as a new member of Komatsu and by strengthening business, particularly in Greater Asia.

(7) Reduction of Fixed Costs

We have been working to reduce fixed costs since the commencement of the first-stage Reform of Business Structure project. We are working to further cut down our fixed costs by applying IT to improve operations.

[Numerical Targets]

Items	Targets for Fiscal Year ending March 31, 2010
Operating income ratio	15% or above
ROE (Return on equity)	Keeping 20% level
Net debt-to-equity ratio	0.2 or below
ROE = Net income for the year / [(shareholders' equity at the beginning + shareholders' equity at the end of the fiscal year) / 2]	

Net debt-to-equity ratio = (interest-bearing debt - cash and cash equivalents - time deposits) / shareholders' equity

[Premises]

Items	Targets for Fiscal Year ending March 31, 2010
Guideline on sales	¥2,400 billion ± ¥100 billion
Guidelines on exchange rate	¥110/USD ¥145/1EUR

Table of Contents

Komatsu is strengthening its corporate governance to ensure sound and transparent management, while working to improve management efficiency. In addition to ensuring thorough compliance, all employees of Komatsu will share The KOMATSU Way. In addition to improving our business performance, we will facilitate the development of both corporate strength and social responsibility in a well balanced manner.

Cautionary Statement

The announcement set forth herein contains forward-looking statements which reflect management's current views with respect to certain future events, including expected financial position, operating results, and business strategies. These statements can be identified by the use of terms such as will, believes, should, projects and similar terms and expressions that identify future events or expectations. Actual results may differ materially from those projected, and the events and results of such forward-looking assumptions cannot be assured.

Factors that may cause actual results to differ materially from those predicted by such forward-looking statements include, but are not limited to, unanticipated changes in demand for the Company's principal products, owing to changes in the economic conditions in the Company's principal markets; changes in exchange rates or the impact of increased competition; unanticipated cost or delays encountered in achieving the Company's objectives with respect to globalized product sourcing and new Information Technology tools; uncertainties as to the results of the Company's research and development efforts and its ability to access and protect certain intellectual property rights; and, the impact of regulatory changes and accounting principles and practices.

Table of Contents

Basis of Financial Statements (Consolidated)

1) The Number of Consolidated Subsidiaries and Affiliated Companies Accounted for by the Equity Method

Number of consolidated subsidiaries:	165 companies
Number of companies accounted for by the equity method:	43 companies

2) Changes in group of entities

Consolidated subsidiaries

Added:	27 companies BIGRENTAL CO., LTD., Komatsu CIS LLC, Komatsu Financial Europe N.V. and other 24 companies
Added (From affiliated companies):	3 companies NIPPEI TOYAMA Corporation and other 2companies
Removed (Merger etc.):	10 companies Komatsu Zenoah Co. and other 9 companies

Affiliated companies accounted for by the equity-method

Added:	5 companies Komatsu Australia Corporate Finance Pty. Ltd. and other 4 companies
Removed (To Consolidated subsidiaries):	3 companies NIPPEI TOYAMA Corporation and other 2companies
Removed (Exclusion):	1 company

3) Adoption of new accounting standards

Starting from the fiscal year ended March 31, 2008, Komatsu adopted the FASB issued Interpretation No.48 (FIN 48), Accounting for Uncertainty in Income Taxes an interpretation of SFAS No.109, Accounting for Income Taxes. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS No.109. The adoption of FIN 48 did not have a material impact on our consolidated results of operations and financial condition.

4) Discontinued operations

In accordance with Statement of Financial Accounting Standards No.144, Accounting for the Impairment or Disposal of Long-Lived Assets, assets and liabilities held for sale in connection with the discontinued operations were classified as held for sale on the consolidated balance sheet as of March 31, 2007. The result of discontinued operations, less applicable income taxes, is presented as income from discontinued operations in the consolidated statement of income.

Payment of cash dividends for the fiscal year ended March 31, 2008

In the Board meeting held on April 30, 2008, the Board of Directors of Komatsu Ltd. (hereinafter the Company), President & CEO: Kunio Noji) made a resolution concerning the following cash dividends from retained earnings as of March 31, 2008, the date of record.

1. Contents of the Dividends

	Detailed dividends	Latest projection	Results for FY ended
	resolved to be distributed	(announced on	March 31, 2007
Record date	March 31, 2008	October 30, 2007)	March 31, 2007
Cash dividends per share	¥ 22.0	Same as on left	¥ 18.0
Total amount of dividends	¥ 21,904 million		¥17,898 million
Effective date	June 25, 2008		June 25, 2007
Resource for dividends	Retained earnings		Retained earnings

2. Reason for the revision

The Company is building a sound financial position and flexible and agile corporate strength to increase its corporate value. Concerning cash dividends to shareholders, the Company maintains the basic policy of redistributing profits by first striving to continue stable dividends and then considering consolidated business results, while working for the goal of a consolidated payout ratio of 20% or higher.

For the fiscal year ended March 31, 2008, the Komatsu Group recorded good business results, centering on the construction and mining equipment business. Accordingly, the Company plans to increase the year-end dividends to ¥22, up ¥2 from the previous forecast. This plan requires approval of the 139th general shareholders' meeting scheduled for June 24, 2008.

Record date	Cash dividends per share		
	Interim	Year-end	Total
FY ended March 31, 2008	¥ 20.0	¥ 22.0	¥ 42.0
FY ended March 31, 2007	¥ 13.0	¥ 18.0	¥ 31.0

Together with interim dividends of ¥20 per share which were already paid, annual dividends will total ¥42 per share, an increase of ¥11 from the previous fiscal year. Payout ratio based on net income will amount to 20.0%.

Re: Notice Regarding the Making of NIPPEI TOYAMA Corporation a Wholly Owned**Subsidiary of Komatsu Ltd. through a Share Exchange**

Komatsu Ltd. (Komatsu) and NIPPEI TOYAMA Corporation (NTC) hereby announce that, at their respective board of directors' meetings held today, Komatsu and NTC resolved to implement a share exchange as of August 1, 2008, as set forth below, through which NTC will become a wholly owned subsidiary of Komatsu (the Share Exchange). Accordingly, Komatsu and NTC will enter into a Share Exchange Agreement today. Prior to the effective date of the Share Exchange, shares of NTC are scheduled to be delisted from the Tokyo Stock Exchange, Inc. (the Tokyo Stock Exchange).

Rule 802 Legend

This exchange offer or business combination is made for the securities of a foreign company. The offer is subject to disclosure requirements of a foreign country that are different from those of the United States. Financial statements included in the document, if any, have been prepared in accordance with foreign accounting standards that may not be comparable to the financial statements of United States companies.

It may be difficult for you to enforce your rights and any claim you may have arising under the federal securities laws, since the issuer is located in a foreign country, and some or all of its officers and directors may be residents of a foreign country. You may not be able to sue a foreign company or its officers or directors in a foreign court for violations of the U.S. securities laws. It may be difficult to compel a foreign company and its affiliates to subject themselves to a U.S. court's judgments.

Edgar Filing: KOMATSU LTD - Form 6-K

You should be aware that the issuer may purchase securities otherwise than under the exchange offer, such as in open market or privately negotiated purchases.

Table of Contents

1. Purpose of Making NTC a Wholly Owned Subsidiary of Komatsu through the Share Exchange

(1) Purpose of the Share Exchange

As previously announced in 1. Purpose of Tender Offer of the Notice Regarding Commencement of Tender Offer for Shares of NIPPEI TOYAMA Corporation (the Announcement of Commencement of Tender Offer) dated January 16, 2008, Komatsu implemented a tender offer for shares of NTC (the Tender Offer), from January 22, 2008 through March 17, 2008, with the aim of making NTC a wholly owned subsidiary of Komatsu. As a result, as of the date hereof, Komatsu holds 47,429,444 issued shares of NTC (accounting for 93.79% of the total number of issued shares of NTC).

Major customers of Komatsu in the industrial machinery business and those of NTC are those in the automobile related industries and semiconductor related industries, and the two companies are highly complementary in their product mix. Both companies have their production bases in the Hokuriku area, which is another common factor. Accordingly, Komatsu and NTC have worked to generate collaborative effects in the areas of purchasing, production, sales and service, as well as manufacturing.

This collaborative relationship between Komatsu and NTC has been good, and is starting to generate specific, positive results. Mutual trust is being built through this collaborative relationship. Under these circumstances, by making NTC a wholly owned subsidiary of Komatsu, it is expected that both companies will realize the significant benefit of being able to work more flexibly and speedily on mid- to long-range management challenges, such as collaboration in research and development as well as joint development of new business areas which transcend the scope of their existing businesses. Thus, Komatsu and NTC entered into a basic agreement as of January 16, 2008, in which Komatsu agreed to make NTC a wholly owned subsidiary of Komatsu.

In addition, Komatsu posted consolidated sales of 102.9 billion yen in the industrial machinery business, centering on press machines and the machine tools, for the fiscal year that ended on March 31, 2007, while consolidated sales of NTC for the same fiscal year were 82.6 billion yen. When NTC becomes a wholly owned subsidiary of Komatsu, consolidated sales will be in the scale of 200 billion yen. This figure ranks Komatsu and NTC as a world's top-class manufacturer group of industrial machinery and machine tools, and Komatsu and NTC expect to make their business base stronger and further enhance their competitiveness in an industry that is known for drastic demand fluctuations.

NTC has also decided that it is necessary and the best to become a wholly owned subsidiary of Komatsu, to strengthen the capital relationship, and to implement business strategies, tactics and others flexibly and promptly, so that NTC can strengthen profitability and ensure further development, as described in the Endorsement of the Tender Offer on the shares of NIPPEI TOYAMA Co. by Komatsu Ltd. , dated January 16, 2008.

Table of Contents

Based on such decision, in the event that Komatsu fails to acquire all the issued and outstanding shares of NTC, both companies intend to implement the Share Exchange described in the Announcement of Commencement of Tender Offer and to deliver shares of Komatsu to all shareholders of NTC (excluding Komatsu) who did not subscribe to the Tender Offer, in exchange for shares of NTC held by such shareholders.

Although the effective date of the Share Exchange was initially scheduled to be a date in or around October 2008, as stated in the Announcement of Commencement of Tender Offer, as a result of consultations between Komatsu and NTC, it was decided that the effective date should be advanced to August 1, 2008, in view of minimizing any negative effects that the loss of liquidity of shares of NTC may have on the shareholders of NTC, because, as a result of the Tender Offer, the ratio of liquid shares of NTC is below 5% as of the end of the accounting period ended March 31, 2008, which satisfies the Tokyo Stock Exchange's standards for the delisting of shares, and thus it is expected that shares of NTC will be delisted in late July, 2008.

In view of the aforementioned circumstances, both companies have, as of the date hereof, determined to implement the Share Exchange, with August 1, 2008 being the effective date thereof. Accordingly, Komatsu and NTC will enter into a Share Exchange Agreement today.

Komatsu has an intention, after NTC becomes a wholly owned subsidiary of Komatsu, to respect the autonomy and independence of NTC and to maintain the management team, employees, business domains, business bases and brand, etc. of NTC as they are at present.

(2) Possibility of Delisting and Reasons Therefor

Through the Share Exchange, NTC will become a wholly owned subsidiary of Komatsu, as of August 1, 2008, the effective date of the Share Exchange. In addition, as a result of the Tender Offer, the ratio of liquid shares of NTC, which will become a wholly owned subsidiary, are below 5% as of the end of the accounting period ended March 31, 2008, which satisfies the Tokyo Stock Exchange's standards for the delisting of shares. For these reasons, the shares of NTC are scheduled to be delisted from the Tokyo Stock Exchange in late July 2008. After delisting, the shares of NTC may no longer be traded on the Tokyo Stock Exchange.

Since shares of Komatsu, which are consideration for the Share Exchange, are listed on both the Tokyo Stock Exchange and the Osaka Securities Exchange, Co., Ltd. (the Osaka Securities Exchange), liquidity of shares will continue to be provided after the Share Exchange for each shareholder of NTC who holds not less than 233 shares of NTC; provided, however, that for shareholders of NTC who hold less than 233 shares of NTC, shares of Komatsu constituting less than a whole unit, which is composed of 100 shares of Komatsu, shall be allotted. Refer to Note 3 of 2. (2) for the treatment of shares constituting less than a whole unit.

Table of Contents

(3) Measures Taken to Assure Fairness

To ensure the fairness and appropriateness of the share exchange ratio in the Share Exchange, in light of the fact that Komatsu holds 93.79% of the total number of issued shares of NTC, as described above, Komatsu and NTC respectively requested a third-party appraiser independent from both companies to value the share exchange ratio, as described in 2. (3) below, and obtained reports of the results of valuation. Using the valuation results as a reference, discussions, negotiations and consultations were conducted between both companies, and as a result, it was decided that the Share Exchange would be implemented using the agreed-upon share exchange ratio.

Furthermore, the board of directors of Komatsu has obtained an opinion on fairness (fairness opinion) from Nomura Securities Co., Ltd. (Nomura Securities), to the effect that the share exchange ratio that was agreed upon is fair for the shareholders of Komatsu from a financial perspective as of April 28, 2008. The board of directors of NTC has not obtained a fairness opinion from its third-party appraiser.

(4) Measures Taken to Prevent Conflicts of Interest

As Mr. Yasuo Suzuki concurrently serves as a director and senior executive officer of Komatsu and a director of NTC, due to the potential for conflicts of interest, he refrained from participating in related discussions and the subsequent resolution of the aforementioned meetings of the respective board of directors of Komatsu and NTC.

2. Outline of the Share Exchange

(1) Schedule for the Share Exchange

Board of directors meeting to resolve the Share Exchange	April 30, 2008 (Wednesday)
Execution of the Share Exchange Agreement	April 30, 2008 (Wednesday)
	(Scheduled)
Date of designation as shares under supervision (NTC)	April 30, 2008 (Wednesday)
	(Scheduled)
Date of designation as shares to be delisted (NTC)	Late June, 2008 (Scheduled)
Delisting date (NTC)	Late July, 2008 (Scheduled)
Scheduled date for the Share Exchange (effective date)	August 1, 2008 (Friday)
	(Scheduled)
Delivery date of share certificates	Late September, 2008
	(Scheduled)

(Note 1) The Share Exchange is scheduled to be implemented as a summary share exchange (*kan i-kabushiki-koukan*) pursuant to Article 796, Paragraph 3 of the Companies Act, with respect to Komatsu, and as a short-form share exchange (*ryakushiki-kabushiki-koukan*) pursuant to Article 784, Paragraph 1 of the Companies Act, with respect to NTC, and the Share Exchange is scheduled to be implemented without approval by a meeting of the shareholders of either company.

(Note 2) Since, as a result of the Tender Offer, the ratio of liquid shares of NTC, which will become a wholly owned subsidiary, are below 5% as of the end of the accounting period ended March 31, 2008, which satisfies the Tokyo Stock Exchange's standards for the delisting of shares, the shares of NTC are expected to be designated as shares under supervision and shares to be delisted.

Edgar Filing: KOMATSU LTD - Form 6-K

(Note 3) The shares of NTC are expected to be designated as shares under supervision as of today, the day on which NTC files the share distribution table with the Tokyo Stock Exchange, and are expected to be designated as shares to be delisted on the day following the day on which NTC files the Securities Report with the Kanto Local Finance Bureau.

Table of Contents**(2) Allotment of Shares in Relation to the Share Exchange**

Company Name	Komatsu, Ltd.	NIPPEI TOYAMA Corporation
	(Wholly owning parent company through the Share Exchange)	(Wholly owned subsidiary through the Share Exchange)
Share exchange ratio for allotment of shares in the Share Exchange	1	0.43
Number of shares to be newly issued through the Share Exchange	No shares will be newly issued.	

(Note 1) Share exchange ratio for the allotment of shares

0.43 shares of Komatsu will be allotted per one (1) share of NTC, provided, however, that allotment of shares through the Share Exchange will not be made for the 47,429,444 shares of NTC held by Komatsu.

(Note 2) Number of shares to be allotted through the share exchange, etc.

Komatsu will allot its common shares owned by itself to all shareholders (excluding Komatsu; and with respect to the shareholders of NTC who demand their shares be purchased pursuant to Article 785 of the Companies Act, NTC shall be deemed to be listed or recorded on the shareholder registry as the shareholder instead of such shareholders) of NTC listed or recorded on the shareholder registry of NTC as of the day immediately prior to the effective date of the Share Exchange, at the ratio of 0.43 Komatsu shares per one (1) share of NTC owned by such shareholders.

Komatsu plans to allocate 1,351,084 shares of treasury shares to the allotment of shares through the Share Exchange, and not to newly issue shares. The number of shares to be allotted through the Share Exchange is subject to change for reasons such as the cancellation of treasury shares held by NTC.

In addition, if the number of the common shares of Komatsu that are to be delivered to the shareholders of NTC through the Share Exchange includes fractions of less than one share, cash will be delivered to the shareholders in accordance with Article 234 of the Companies Act with respect to the fractions of less than one share.

Table of Contents

(Note 3) Treatment of shares constituting less than a whole unit

The shareholder who will be allotted, and thereby hold, shares of Komatsu constituting less than a whole unit upon the Share Exchange will be entitled to utilize the following systems in respect of shares of Komatsu. A notice of detailed information, including information such as the date of commencement for the handling of requests, will be given along with an announcement for submission of share certificates, which is scheduled to be dispatched in late June, 2008. The shareholders may not sell shares constituting less than a whole unit on any stock exchange.

(i) Purchases (*kaitori*) by Komatsu of shares constituting less than a whole unit (sale by a holder of shares constituting less than a whole unit)

A system whereby Komatsu purchases shares constituting less than a whole unit that may not be sold on the market.

(ii) Further Purchases (*kaimashi*) of shares constituting less than a whole unit (purchase to reach a total of 100 shares)

A system whereby holders of shares of Komatsu constituting less than a whole unit may purchase shares so as to achieve a whole unit (*tangen*).

(3) Basis of the Valuation for Allotment of Shares in Relation to the Share Exchange, etc.

(i) Basis of valuation and background

To ensure the fairness and appropriateness of the share exchange ratio in the Share Exchange, each of Komatsu and NTC decided to request a third-party appraiser independent from both companies to calculate the share exchange ratio, and Komatsu and NTC appointed Nomura Securities and PwC Advisory Co., Ltd. (PwC Advisory), respectively, as third-party appraisers.

Nomura Securities, taking into account the facts, various conditions, and results of the Tender Offer conducted prior to the Share Exchange, adopted the market price method in the valuation for Komatsu (in consideration of various conditions, with April 25, 2008 being the assessment record date, based on the average value of the closing stock prices on each trading day during the last one (1)-week period commenced on April 21, 2008 and ended on April 25, 2008, during the last one (1)-month period commenced on March 26, 2008 and ended on April 25, 2008, and during the period commenced on March 19, 2008, the first business day following the day on which results of the Tender Offer were announced, and ended on April 25, 2008), since shares of Komatsu are listed on the Tokyo Stock Exchange and the Osaka Securities Exchange, and a market share price exists. With respect to NTC, Nomura Securities adopted the market price method in the valuation for NTC (in consideration of various conditions, with April 25, 2008 being the assessment record date, based on the average value of the closing stock prices on each trading day during the last one (1)-week period commenced on April 21, 2008 and ended on April 25, 2008, during the last one (1)-month period commenced on March 26, 2008 and ended on April 25, 2008, and during the period commenced on March 19, 2008, the first business day following the day on which results of the Tender Offer were announced, and ended on April 25, 2008), since its shares are listed on the Tokyo Stock Exchange, and a market share price exists. Furthermore, in order to take into account the state of future business operations in the assessment, the discounted cash flow method (the DCF method) was also adopted. The following shows the assessment ranges according to each valuation method when the share value per share of Komatsu is set at one (1).

Assessment method	Assessment range of the share exchange ratio
Market price method	0.432 to 0.440
DCF method	0.381 to 0.550

Table of Contents

Meanwhile, PwC Advisory, taking into account the facts, various conditions, and results of the Tender Offer conducted prior to the Share Exchange, adopted the market price method in the valuation for Komatsu (with April 25, 2008 being the assessment record date, based on the average value of the stock trading price and of the closing stock price on each trading day during the last three (3) months, one (1) month and one (1) week ended on April 25, 2008), since shares of Komatsu are listed on the Tokyo Stock Exchange and the Osaka Securities Exchange, and a market share price exists. With respect to NTC, PwC Advisory adopted the market price method in the valuation for NTC (with April 25, 2008 being the assessment record date, based on the average value of the stock trading price and of the closing stock price on each trading day during the period commenced on January 17, 2008, the first business day following the day on which the Announcement of Commencement of the Tender Offer was made, and ended on April 25, 2008 and during the three (3)-month period, one (1)-month period and one (1)-week period ended on April 25, 2008), since its shares are listed on the Tokyo Stock Exchange, and a market share price exists; further, in order to take into account the state of future business operations in the assessment, the discounted cash flow method (the "DCF method") was also adopted. The following shows the assessment ranges according to each valuation method when the share value per share of Komatsu is set at one (1).

Assessment method	Assessment range of the share exchange ratio
Market price method	0.416 to 0.481
DCF method	0.367 to 0.530

Komatsu and NTC both carefully examined the valuation results for the share exchange ratio that were submitted by the aforementioned third-party appraisers, and upon consideration of the purchase price of the Tender Offer and as a result of examinations, negotiations and consultations between Komatsu and NTC, each of them has determined the share exchange ratio for the Share Exchange at the meetings of their respective board of directors held on April 30, 2008.

The results of valuation for the share exchange ratio provided by the third-party appraisers above are not opinions with respect to fairness of the share exchange ratio in the Share Exchange. However, the board of directors of Komatsu has obtained a fairness opinion from Nomura Securities, to the effect that the share exchange ratio that was agreed upon is fair for the shareholders of Komatsu from a financial perspective as of April 28, 2008.

Table of Contents

(ii) Relationship with the appraisers

Neither Nomura Securities nor PwC Advisory falls under the category of related parties with respect to Komatsu or NTC.

(4) Handling of the Stock Acquisition Rights and Convertible Bonds of the Wholly Owned Subsidiary upon the Share ExchangeNTC does not issue stock acquisition rights (*shinkabu-yoyakukun*) or bonds with stock acquisition rights (*shinkabu-yoyakukun-tsuki-shasai*).**3.
