Report of Independent Registered Certified Public Accounting Firm

To the Participants and Administrator of

The Restated Cott USA 401(k) Savings & Retirement Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of The Restated Cott USA 401(k) Savings & Retirement Plan (the Plan) at December 31, 2007 and 2006, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Restated Cott USA 401(k) Savings & Retirement Plan

Notes to Financial Statements

December 31, 2007 and 2006

1. Description of Plan

General

The following description of The Restated Cott USA 401(k) Savings & Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is a defined contribution savings and investment plan under Section 401(k) of the Internal Revenue Code ("IRC") covering substantially all full-time employees 18 years or older who have completed six months of service with Cott Beverages, Inc. (formerly Cott Beverages USA, Inc.) (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). For the years ended December 31, 2007 and 2006, Wachovia Retirement Services Company ("Wachovia") served as the trustee and custodian.

Contributions

Participation in the Plan is voluntary. Active participants can contribute up to 30% of earnings, to a maximum of \$15,500 for 2007 and \$15,000 for 2006 to the Plan in the form of basic contributions. Contributions in excess of those allowed by IRC Section 401(k)(3) are reflected as excess participant contributions. The Company matches the employee contributions dollar for dollar up to 5% of the participant's earnings. Investment in Cott Corporation Common Stock is optional for Plan participants. Non-matching Company contributions may be made at the discretion of the Board of Directors of the Company. There were no non-matching contributions for the years ended December 31, 2007 or 2006.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is at a rate of 20% per year. A participant is 100% vested after 5 years of credited service. Due to the plant closure and plan termination of Metro Beverage Co., Inc. 401(k) Savings Plan ("Metro 401(k)") and Cardinal 401(k) Plan ("Cardinal 401(k)") for the year ended December 31, 2006, all participants within these plans became immediately vested in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon.

Investment Options

Prior to June 30, 2006, the plan provided participants with nine diverse mutual funds, a collective investment trust fund and Cott Corporation Common Stock, as investment options in which to invest their contributions. Effective June 30, 2006, the Plan provides participants with eleven diverse mutual funds, two collective investment trust funds and Cott Corporation Common Stock, as investment options in which to invest their contributions.

Participant Loans

Participants may borrow from their accounts up to a maximum of the lesser of \$50,000 or 50% of their account balance. The term of the loan shall not exceed 5 years except for loans to purchase a primary residence, in which case the term of the loan shall not exceed 15 years. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. Principal and interest is paid ratably through payroll deductions.

Benefit Payments

Vested benefits of retired, disabled, or terminated employees are distributed as a single lump-sum payment and are recorded when paid.

Table of Contents

The Restated Cott USA 401(k) Savings & Retirement Plan

Notes to Financial Statements

December 31, 2007 and 2006

Transfer of Assets

Effective January 3, 2006, all participants in Cardinal 401(k) had their balances transferred to the Plan. The fair value of the Cardinal 401(k) net assets at the time of the transfer was \$215,602. Effective December 18, 2006, all participants in Metro 401(k) had their balances transferred to the Plan. The fair value of the Metro 401(k) net assets at the time of the transfer was \$159,957. There were no transfers of plan assets during the plan year ended December 31, 2007.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting except for benefits paid to participants, which are recorded when paid.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), which establishes a framework for measuring fair value under generally accepted accounting principles in the United States of America and expands disclosures about financial assets and liabilities. SFAS 157 is effective for annual periods beginning after November 15, 2007. Management does not believe that implementation of this new standard will result in a material change to the Net Assets Available for Benefits.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS 159), which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS 159 also includes an amendment to SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, which applies to all entities with available-for-sale and trading securities. This statement is effective as of the beginning of an entity's first fiscal year that began after November 15, 2007. Management does not believe that the implementation of this new standard will result in a material change to the Net Assets Available for Benefits.

Investment Valuation and Income Recognition

With the exception of the Cott Corporation Common Stock, the Plan invests in diverse mutual funds and two collective investment trust funds managed by Wachovia Securities as of December 31, 2007. Effective June 30, 2006, the collective investment trust fund managed by Gartmore Trust Company was liquidated and all proceeds from liquidation were invested in collective investment trust funds managed by Wachovia Securities. Investments in the collective trust funds are valued at quoted market prices to determine a current fund value. Investments in securities for which exchange quotations are readily available are valued at the last sales price or, if no sales price exists, at the closing bid price. Investments in mutual funds are recorded at their respective daily net asset value. Participant loans are recorded at cost, which approximates fair value.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (FSP), investment contracts held in a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to

Edgar Filing: COTT CORP /CN/ - Form 11-K

initiate permitted transactions under terms of the Plan. The Plan invests in investment contracts through a collective investment trust. As required by the FSP, the

Table of Contents

The Restated Cott USA 401(k) Savings & Retirement Plan

Notes to Financial Statements

December 31, 2007 and 2006

Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective investment trust as well as the adjustment of the investment in the collective investment trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Therefore the presentation of the December 31, 2007 and 2006 financial statement amounts include the presentation of fair value with an adjustment to contract value for such investments.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in fair value of its investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Participant Accounts

Participant accounts are credited with units by investment for participant contributions, employer contributions, fund transfers and loan repayments. Unit values are calculated daily to reflect the gains or losses of the underlying investments and expenses. Each participant's account is credited with the participant's contribution and allocation of Plan earnings. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the units in the participant's account by investment multiplied by the appropriate unit values on the valuation date.

Contributions

Participant and employer contributions are recorded in the period during which payroll deductions are made from the participants' earnings.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of increases and decreases in net assets during the reporting periods. Actual results could differ from those estimates.

Administrative Costs

Substantially all administrative expenses of the Plan are paid by the Plan. Additionally, participant returns are reported net of investment management fees and other administrative expenses.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Table of Contents

The Restated Cott USA 401(k) Savings & Retirement Plan

Notes to Financial Statements

December 31, 2007 and 2006

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions and terminate the Plan. Upon a complete or partial termination of the Plan, the account of each affected participant will fully vest. The form and timing of payment will be as determined under the Plan at the time of plan termination.

4. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated December 1, 2005, that the Plan is qualified, and that the trust established under the plan is tax exempt under the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore no provision for income taxes has been included in the Plan's financial statements.

5. Forfeitures

Forfeited nonvested amounts for 2007 and 2006 were \$179,246 and \$147,645, respectively. These are included in the Plan's investments and are available to reduce future employer contributions and pay administrative expenses. Forfeited nonvested amounts used to reduce employer contributions and pay administrative expenses were \$227,707 and \$105,159 for 2007 and 2006, respectively.

6. Collective Investment Trust

The Wachovia Diversified Stable Value Fund (the Value Fund) and Wachovia Equity Index Trust Fund (the Equity Index Fund), offered to participants of the Plan, are collective investment trust funds managed by Wachovia Securities. The Gartmore Morley Stable Value Fund investment fund (the Morley Stable Value Fund), offered to participants of the Plan, is a collective investment trust fund managed by Gartmore Trust Company. Effective June 30, 2006, the Morley Stable Value Fund was liquidated and all proceeds from the liquidation were invested in the Value Fund. The Value Fund and Morley Stable Value Fund consist of a diversified portfolio of high quality stable value investment contracts issued by life insurance companies, banks and other financial institutions. The Equity Index Fund consists of a diversified portfolio of high quality equity investments. Income is accrued daily and reinvested in the funds. The accrual of income is reflected in each fund's unit price which is priced daily and is not held constant.

7. Related-Party Transactions

Fees paid by the Plan for trustee management services amounted to \$111,943 and \$118,692 for the years ended December 31, 2007 and 2006, respectively. These fees qualify as party-in-interest transactions and are recorded in administrative costs in the accompanying Statements of Changes in Net Assets Available for Benefits.

The Plan's investments include shares of Cott Corporation Common Stock and Participant Loans. These transactions qualify as party-in-interest transactions. Certain Plan investments are managed by Wachovia. Wachovia is the trustee as defined by the Plan and, therefore, the Value Fund and Equity Index Fund qualify as party-in-interest transactions. The Evergreen Core Bond Fund and Evergreen International Equity Fund are mutual funds managed by subsidiaries of Wachovia; therefore, they qualify as party-in-interest transactions.

Table of Contents**The Restated Cott USA 401(k) Savings & Retirement Plan****Notes to Financial Statements****December 31, 2007 and 2006****8. Investments**

The following tables present the Plan's investments that represent 5% or more of the Plan's assets as of December 31, 2007 and 2006:

	2007	2006
American Balanced Fund	\$ 4,687,229	\$ 4,734,787
American Funds Growth Fund of America	10,039,930	10,028,524
Evergreen Core Bond Fund	2,097,699	2,246,870
