Meetings and Committees of the Board

The business and affairs of the Company are managed under the direction of the Board of Directors. Members of the Board keep informed of the Company's business and activities by reports and proposals sent to them periodically and in advance of each Board meeting and reports made to them during these meetings by the President and other Company officers. The Board is regularly advised of actions taken by the Executive Committee and other committees of the Board, as well as significant actions taken by management. Members of management are available at Board meetings and other times to answer questions and discuss issues. During the Company's fiscal year ended April 30, 2008, the Board of Directors held seven meetings.

Currently, the standing committees of the Board of Directors of the Company are the Executive Committee, Audit Committee, Compensation Committee, Financial/Planning Committee, and Nominating Committee. The functions and membership of the committees are described below.

The Executive Committee, consisting of Messrs. James Rhind (Chairman), Campbell, Manchester and Shumaker and Ms. Pyle, exercises the authority of the Board between meetings of the full Board, subject to the limitations of the Delaware General Corporation Law. The Executive Committee met one time during the Company's last fiscal year.

The Audit Committee, consisting of Messrs. Keehn (Chairman), Campbell, David Rhind, and James Rhind, each an independent director, performs the responsibilities and duties described in the Company's Audit Committee Charter, and is responsible for annually appointing the independent auditor for the Company, approving services to be performed by the independent auditor, reviewing the independent auditor's reports, and reviewing the Company's quarterly and annual financial statements before release to the public. In accordance with Audit Committee Charter guidelines, the Audit Committee is responsible for reviewing and approving all related party transactions. The Audit Committee met four times during the Company's last fiscal year. The Board of Directors has determined that Mr. Keehn, the Chairman of the Audit Committee, is a financial expert within the meaning of the current rules of the Securities and Exchange Commission. A copy of the Company's Audit Committee Charter was included as Appendix A to the Company's Proxy Statement for its annual meeting of stockholders held on August 22, 2007.

The Compensation Committee, consisting of Messrs. Caldwell (Chairman), Keehn and James Rhind and Ms. Pyle, each an independent director, considers and provides recommendations to the Board of Directors with respect to the compensation (salaries and bonuses) of executive officers of the Company; short- and long-range compensation programs for officers and other key employees of the Company; benefit programs for all employees of the Company; and stock option grants to key employees. The Compensation Committee also acts as the Stock Option Committee, administering and interpreting the stock option plans for officers and other key employees. The Compensation Committee does not have a written charter. The Compensation Committee met four times during the Company's last fiscal year.

The Financial/Planning Committee, consisting of Messrs. Manchester (Chairman), Caldwell, Keehn, David Rhind, and Shumaker and Ms. Pyle, reviews and provides recommendations to the Board of Directors with respect to the annual budget for the Company, the Company's strategic plan and the annual budget for capital expenditures. The Financial/Planning Committee also reviews the investment results of the assets of the Company's retirement plans. The Financial/Planning Committee met four times during the Company's last fiscal year.

The Nominating Committee, consisting of Messrs. James Rhind (Chairman), Campbell, Keehn, and Ms. Pyle, each an independent director, makes recommendations to the full Board with respect to candidates for Board membership, officers of the Company, and Board committee membership. The Nominating Committee will consider as prospective Board nominees persons brought to its attention

by officers, directors and stockholders. Proposals may be addressed to the Nominating Committee at the address shown on the cover of this Proxy Statement, attention of the Corporate Secretary. The Nominating Committee does not have a written charter. At a minimum, a candidate for the Board must demonstrate significant accomplishment in his or her field, the capacity and experience to understand the broad business operations of the Company, and the vision to assist the Company in its development and expansion. The Nominating Committee is responsible for assessing the appropriate balance of criteria required of Board members. The Nominating Committee met one time during the Company's last fiscal year.

Executive sessions of independent directors are held in connection with each regularly scheduled Board of Directors and Audit Committee meeting and at other times as necessary. The Board of Directors' policy is to hold executive sessions without the presence of management, including the chief executive officer and other non-independent directors. The Board of Directors has determined that each of Messrs. Caldwell, Campbell, Keehn, David Rhind, and James Rhind and Ms. Pyle are independent within the meaning of the rules of the Nasdaq Global Market.

The Company does not have a formal policy regarding attendance by members of the Board of Directors at the Annual Meeting of Stockholders, although all directors are expected to attend. All members of the Board of Directors attended the Company's 2007 Annual Meeting of Stockholders. In the Company's last fiscal year, no director attended less than 75% of the aggregate of all meetings of the Board and all meetings held by committees of the Board on which such director served.

The Board of Directors recommends that any communications from stockholders be in writing and addressed to the Board in care of the Corporate Secretary, 2700 West Front Street, Statesville, North Carolina 28677-2927. The name of any specific Board member to whom a communication is intended to be addressed should be noted in the communication. The Corporate Secretary will forward such correspondence only to the intended recipient if one is noted; however, the Corporate Secretary, prior to forwarding any correspondence, will review the correspondence, and in his discretion, will not forward certain items if they are deemed frivolous, of inconsequential commercial value or otherwise inappropriate for Board consideration.

Compensation Committee Interlocks and Insider Participation

As noted above, the Compensation Committee consists of Messrs. Caldwell, Keehn and James Rhind and Ms. Pyle. No executive officer of the Company served as a member of the Compensation Committee or as a director of any other entity, one of whose executive officers serves on the Compensation Committee or is a director of the Company. Audit Committee Report

The Audit Committee is composed of four independent directors and is responsible for overseeing the Company's financial reporting process and other duties as described in the Audit Committee Charter. In fulfilling its oversight responsibilities, the Committee has reviewed and discussed the Company's audited financial statements for the fiscal year ended April 30, 2008 with management and the Company's registered independent public accounting firm. Management of the Company is responsible for those financial statements and the Company's financial reporting process, including the Company's system of internal controls. The independent auditors are responsible for expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States. The Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 relating to the conduct of the audit. The Committee has received the written disclosures and the letter from Cherry, Bekaert & Holland, L.L.P. required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with Cherry, Bekaert & Holland, L.L.P. their independence. The Audit Committee also considered whether the provision of non-audit services by Cherry, Bekaert & Holland, L.L.P., if any, was compatible with maintaining its independence. Based on the Committee's review of the audited financial statements and the review and discussions described in this paragraph, the Committee recommended to the Board of Directors that the audited financial statements for the fiscal year ended April 30, 2008 be included in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2008 for filing with the Securities and Exchange Commission. INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Cherry, Bekaert & Holland, L.L.P. has served as the Company's independent registered public accounting firm to audit the Company's annual financial statements and to review the financial statements to be included in the Company's quarterly reports on Form 10-Q. The decision to engage Cherry, Bekaert & Holland, L.L.P. is approved annually by the Company's Audit Committee.

It is expected that a representative of Cherry, Bekaert & Holland, L.L.P. will be present at the Annual Meeting of Stockholders to be held on August 27, 2008 to answer any appropriate questions and such representative will have an opportunity to make a statement if he or she desires.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services

The Audit Committee's policy is to pre-approve all audit and non-audit services to be provided by the Company's independent auditors on a case-by-case basis. In making such determination, the Audit Committee considers whether the provision of non-audit services is compatible with maintaining the auditor's independence. All of the audit and non-audit services provided by the Company's independent auditors on behalf of the Company in 2008 and 2007 were pre-approved in accordance with this policy.

Audit Fees and Non-Audit Fees

The following fees were paid or will be paid to the Company's independent registered public accounting firm for professional services rendered on behalf of the Company related to the past two fiscal years:

	2008	2007
Audit of Financial Statements	\$ 84,500	\$ 79,000
Audit-Related Services	19,000	16,500
All Other Fees		
Total	\$ 103,500	\$ 95,500

Audit services consisted of the audit of the Company's annual consolidated financial statements and the review of the Company's quarterly financial statements. Audit-related services consisted of fees for audits of financial statements of employee benefit plans.

COMPENSATION DISCUSSION AND ANALYSIS

Executive compensation is administered by the Compensation Committee of the Board, which is composed of four independent directors.

The objective of the Company's executive compensation program is to attract, motivate, reward and retain management talent critical to the Company's achievement of its objectives. Salaries and other compensation for the Company's executive officers are based on each executive officer's responsibilities, level of experience, and performance over time, as well as on the recommendation of the Chief Executive Officer. In order to assure that salaries and compensation remain competitive, the Company subscribes to and consults various published surveys on executive compensation.

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the deduction for federal income tax purposes of certain compensation paid by any publicly-held corporation to its chief executive officer and its four other most highly compensated executive officers to \$1 million per year for each such executive. Because the levels of compensation of executive officers traditionally have been well below the deduction limit, the Company has not adopted a formal policy with respect to Section 162(m).

Executive Officer Compensation

The four principal components of the Company's compensation program for executive officers are discussed below.

Base Salary

The Compensation Committee annually reviews the base salaries of executive officers. Prior to the meeting at which the annual review occurs, the Committee is provided (i) information furnished by the Company's human resources department on historical data on the base and total compensation for each executive, and marketplace compensation data, including both base and incentive compensation data, for comparable positions at other manufacturing and service companies with generally similar annual sales volume, and (ii) individual performance appraisals and recommended base salary adjustments from the Chief Executive Officer for each executive officer, except himself. The human resources department also provides a base salary range for each executive officer, which shows a minimum, mid-point, and maximum salary, and the position of the executive officer's base salary in this range. The base salary range is established using marketplace comparison data and the individual responsibilities of the executive officer's position, and is updated each year for inflation. The Company typically targets base salaries at the mid-point of the Company's established range for a position. The Committee further considers, on a subjective basis, the executive officer's particular qualifications, level of experience, and sustained performance over time. These same factors are also considered in determining an adjustment to the salary of the Chief Executive Officer. Base salaries are traditionally adjusted as of July 1 of each year.

Annual Incentive Compensation

All of the Company's executive officers are eligible to participate in an annual incentive bonus plan, pursuant to which each executive officer is eligible to earn a cash bonus for each fiscal year of the Company, based primarily on the attainment of earnings goals established in the incentive bonus plan and, to a lesser extent, on the executive officer's achievement of established personal objectives to the degree determined by the Board of Directors upon the recommendation of the Chief Executive Officer and the Compensation Committee.

At the beginning of each fiscal year, the Board of Directors approves earnings goals for the Company for such year and, upon recommendation of the Compensation Committee, establishes specified percentages of each executive officer's base salary that will be available for bonuses if the Company and/or its operating businesses achieves specified earnings goals and the executive officer achieves his or her personal goals. The Board of Directors generally attempts to establish annual earnings goals at target levels it believes are challenging, but achievable, with earnings above target levels considered to be relatively difficult to achieve. In determining the level of available bonuses for each executive officer, many of the same factors considered in determining an executive officer's base salary are also considered by the Committee.

For fiscal year 2008, the specified bonus percentages for executive officers other than the Chief Executive Officer ranged from 10% of an executive officer's base salary, if the Company achieved 90% of targeted earnings for the year, increasing to a maximum of 22% of an executive's base salary, as earnings reached 110% of targeted earnings. The corresponding specified percentages for the Chief Executive Officer were from 15% to a maximum of 35%.

Long-Term Incentive Plans

In fiscal year 2008, the Company used stock options as its long-term incentive plan for executive officers. Stock option awards are normally made annually in August by the Board of Directors, based on the recommendations of the Chief Executive Officer, with respect to all stock options other than his own, and the Compensation Committee. The exercise price of the granted stock options is the fair market value of the Company's common stock on the date of the grant. Individual awards are based on an individual's performance, his or her comparative base salary level and the number of stock option grants previously made. In August 2007, the Company granted stock options on a total of 24,100 shares of the Company's common stock to the Chief Executive Officer and named executive officers under the Company's 2000 Key Employee Stock Option Plan.

In fiscal years 2004, 2005, and 2006, the Company used a performance-based long-term incentive plan, instead of stock options, as its long-term incentive plan for its executive officers. Under this plan, performance stock appreciation rights (PSARs) were normally granted annually in May by the Board of Directors to participating employees. This plan provides executive officers an opportunity to receive awards in the form of cash payments at the end of a three-year performance period based upon the occurrence of both (i) the Company's attainment of specified annual financial goals established by the Board of Directors and (ii) an increase in the market price of the Company's stock from the beginning to the end of the three-year period. No PSARs were granted in fiscal year 2007. Because of the Company's financial performance in fiscal year 2008, one-third of the PSARs under the fiscal year 2006 long-term performance incentive plan were earned. There were no outstanding PSARs at April 30, 2008.

Other Compensation Plans

The executive officers of the Company participate in the Company's Pension Plan. The Plan provides retirement benefits for participating employees. The annual benefit amount is calculated as 40% of the 10-year final average annual compensation (salary and bonus) minus 50% of the primary social security benefit, all multiplied by a fraction, the numerator of which is the number of years of credited service up to 30 years, and the denominator of which is 30. Participants in the Plan may elect among several payment alternatives. As of April 30, 2005, the Company froze the benefits under the Plan. As a result, no further benefits will be earned by current participants under the Plan after that date and no additional participants will be added to the Plan. To the extent ERISA rules restricted the amount otherwise payable under the Plan, the benefit amount in excess of the restrictions will be paid by the Company under the provisions of the Company's non-qualified Pension Equalization Plan.

The Company has a 401(k) Incentive Savings Plan (the 401(k) Plan) which covers substantially all salaried and hourly employees, including all of the executive officers. The plan provides benefits to all employees who have attained age 21, completed three months of service, and who elect to participate. Under terms of the plan, the Company makes matching contributions equal to 100% of the employee's qualifying contribution up to 3% of the employee's compensation, and makes matching contributions equal to 50% of the employee's contributions between 3% and 5% of the employee's compensation, resulting in a maximum employer contribution equal to 4% of the employee's compensation. Additionally, the Company makes a non-matching contribution for participants employed by the Company on December 31 of each year equal to 1% of the participant's qualifying compensation for that calendar year.

The Company also has a non-qualified 401 Plus Executive Deferred Compensation Plan (the 401 Plus Plan), which supplements the 401(k) Plan. The 401 Plus Plan was adopted to provide highly compensated employees an alternative retirement plan because income tax laws restrict the amount of contributions executives may otherwise have contributed to the 401(k) Plan. The 401 Plus Plan operates similarly to the 401(k) Plan, in that the Company makes matching credits to the participant's

account in an amount equal to 50% of the compensation deferred by the participant (up to 6% of the participant's compensation). Amounts deferred under the plan will be distributed to the participant after the participant's termination of employment with the Company in cash in a lump sum or installments in a time previously elected by the participant. All of the Company's executive officers participated in the 401(k) Plan and the 401 Plus Plan in fiscal year 2008, with the exception of Mr. Rindoks, who did not participate in the 401 Plus Plan.

Each of the Company's executive officers is entitled to receive additional compensation in the form of payments, allocations, or accruals under various other group compensation and benefit plans on the same basis as other employees. Benefits under these plans are not directly, or indirectly, tied to employee or Company performance.

Chief Executive Officer Compensation

The Compensation Committee considers the Chief Executive Officer's leadership an important factor in the future success of the Company. The compensation of the CEO has traditionally included base salary, annual incentive compensation, long-term incentive compensation, and benefits under various group plans. In establishing Mr. Shumaker's base salary for each fiscal year, the Compensation Committee considers operating results for the prior year and the outlook for the current year, continued development of the management team, operational improvements, compensation of chief executive officers of other companies with comparable sales, a review of his base salary in relation to the range for his position proposed by the human resources department, and the price of the Company's common stock. The CEO's annual incentive compensation and long-term incentive compensation are determined pursuant to the Company's incentive plans for executive officers. Mr. Shumaker earned a cash bonus in the amount of \$115,500, or 35% of his fiscal year 2008 base salary, under the annual incentive bonus plan for fiscal year 2008. The bonus amount was based on the level of earnings attained for the year and his achievement of established personal goals during the year. He also earned a cash payout of \$38,155 for the value of PSARs earned under the third year of the fiscal year 2006 Long-Term Performance Incentive Plan based on the level of earnings attained for fiscal year 2008 and the increase in Company stock price from the beginning to the ending for the three-year period covered by the Plan. In August 2007, Mr. Shumaker was granted stock options on 10,100 shares of the Company's common stock with an exercise price at the fair market value of the common stock on that date.

Each executive officer whose employment is so terminated will receive compensation if the termination of his employment was by the Company or its successor without cause, or by the executive officer for good reason, as defined in the agreements. Upon such a termination of employment within one year following a Change of Control, the Company or its successor will be required to make, in addition to unpaid ordinary compensation and a lump-sum cash payment for certain benefits, a lump-sum cash payment equal to the executive officer's annual compensation with respect to Messrs. Black, Rindoks, Smith, Dahlgren and Rausch and two (2) times the executive officer's annual compensation with respect to Messrs. Shumaker and Parker. Upon a termination of employment occurring after the first anniversary, but within three years, of the date of the Change of Control, in addition to unpaid ordinary compensation and a lump-sum cash payment for certain benefits, Messrs. Black, Rindoks, Smith, Dahlgren and Rausch will be entitled to a lump-sum payment equal to one-half (1/2) of their annual compensation and Messrs. Shumaker and Parker will be entitled to a lump-sum payment equal to their annual compensation. See Compensation Tables - Payments upon Termination or Change in Control for other entitlements for the named executive officers under terms of the Agreements.

In August 2004, the Company entered into an employment letter agreement with Mr. Black, which provides that if he is terminated without cause, the Company will be obligated to pay him separation pay equal to his current base salary for nine (9) months, reduced by any income earned by him during the payment period.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers, directors and 10% stockholders to file reports of ownership with the Securities and Exchange Commission. Such persons also are required to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of copies of such forms received by it and inquiries of such persons, the Company believes that all such filing requirements applicable to its executive officers, directors and 10% stockholders were complied with.

PROXIES AND VOTING AT THE MEETING

The expense of solicitation of proxies is to be paid by the Company. The Company will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in sending proxies and proxy material to the beneficial owners of the Company's common stock.

At the close of business on July 3, 2008, the record date for determination of stockholders entitled to vote at the annual meeting, there were 2,551,670 shares of common stock of the Company outstanding and entitled to vote.

Each share of common stock is entitled to one vote. Any stockholder giving a proxy has the power to revoke it at any time before it is voted, by written notice to the Secretary, by delivery of a later-dated proxy or in person at the meeting.

The holders of a majority of the total shares of common stock issued and outstanding, whether present in person or represented by proxy, will constitute a quorum for the transaction of business at the meeting. The vote of a plurality of the shares represented at the meeting, in person or by proxy, is required to elect the three nominees for director. The affirmative vote of the holders of a majority of the shares of common stock represented at the meeting, in person or by proxy, and entitled to vote is required for approval of the 2008 Key Employee Stock Option Plan. Approval of any other matter submitted to the stockholders for their consideration at the meeting requires the affirmative vote of the holders of a majority of the shares of common stock represented at the meeting, in person or by proxy, and entitled to vote. Abstentions, directions to withhold authority, and broker non-votes are counted as shares present in the determination of whether the shares of stock represented at the meeting constitute a quorum. Abstentions, directions to withhold authority, and broker non-votes are not counted in tabulations of the votes cast on proposals presented to stockholders. Thus, an abstention, direction to withhold authority, or broker non-vote with respect to a matter other than the election of directors, may have the same legal effect as a vote against the matter. With respect to the election of directors, an abstention, direction to withhold authority or broker non-vote will have no effect. An automated system administered by the Company's transfer agent will be used to tabulate votes.

A stockholder entitled to vote for the election of directors can withhold authority to vote for any of the nominees.

PROPOSAL TO APPROVE THE 2008 KEY EMPLOYEE STOCK OPTION PLAN

The board of directors adopted on June 25, 2008, subject to stockholder approval, and recommends that the stockholders approve, the 2008 Key Employee Stock Option Plan (the 2008 Plan).

The 2008 Plan, a copy of which accompanies this proxy statement as Appendix A, is intended to replace the Company's 2000 Key Employee Stock Option Plan (the 2000 Plan). The terms of the 2008 Plan are substantially similar to the terms of the 2000 Plan. The 2008 Plan is designed to secure for the Company and its stockholders the benefits of incentive inherent in the ownership of common stock of the Company by key employees who will be responsible for its future growth and continued success. As of July 3, 2008, 5,000 shares were available for option grants under the 2000 Plan. If the 2008 Plan is approved by the stockholders, the final grant of options under the 2000 Plan will be made at the August 27, 2008 meeting of the Board of Directors and no future options will be granted under the 2000 Plan. It is expected, however, that substantially all of the options available under the 2000 Plan will have been granted as of such date. No options have been granted under the 2008 Plan.

The 2008 Plan will be administered by the Board of Directors or, in its discretion, a committee (the Committee) of three or more members of the Board of Directors (none of whom is or was at any time within one year before appointment to the Committee eligible to participate in the Plan). It provides for the issuance of both incentive stock options (qualified options) within the meaning of Section 422 of the Internal Revenue Code of 1986, and options which do not qualify as incentive stock options (non-qualified options). The 2008 Plan authorizes the Board of Directors, until August 27, 2018, to grant options to purchase a total of not more than 300,000 shares of the Company's common stock to certain key employees of the Company and its subsidiaries (including officers, whether or not they are directors). The Committee also may grant substitute options, with the optionee's consent, at a different option price to replace previously granted options.

The option price of an option granted under the 2008 Plan is to be determined by the Board of Directors at the time of grant but may not be less than the fair market value of the Company's common stock on the date of grant. Options may be exercised by giving written notice to the Company specifying the number of shares to be purchased. The purchase price for the shares acquired pursuant to the exercise of an option shall be paid, to the extent permitted by applicable law and as determined by the Board of Directors in its sole discretion, by any combination of the methods of payment set forth below. The Board of Directors shall have the authority to grant options that do not permit all of the following methods of payment (or otherwise restrict the ability to use certain methods) and to grant options that require the consent of the Company to utilize a particular method of payment. The permitted methods of payment are:

by cash, check, bank draft or money order payable to the Company;

pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board that, prior to the issuance of the stock subject to the option, results in either the receipt of cash (or check) by the Company or the receipt of irrevocable instructions to pay the aggregate exercise price to the Company from the sales proceeds;

by delivery to the Company (either by actual delivery or attestation) of shares of common stock of the Company;

by a net exercise arrangement pursuant to which the Company will reduce the number of shares of common stock issued upon exercise by the largest whole number of shares with a fair market value that does not exceed the aggregate exercise price; or

in any other form of legal consideration that may be acceptable to the Board of Directors.

For this purpose, the per share value of the Company's common stock shall be its fair market value at the close of business on the date preceding the date of exercise. At the time of exercise of any option that is not a qualified option, an optionee must pay the Company at the time of exercise, an amount equal to any tax that the Company is required to withhold (less any amount withheld from the optionee's regular compensation in connection with such exercise).

Options may be granted under the 2008 Plan for a term of not more than ten years and will be exercisable in such installments, at such time or times, and subject to such conditions, as the Board of Directors in its discretion determines. In the event of a change in control of the Company, as defined under the 2008 Plan, all options outstanding granted under the 2008 Plan to optionees who are employees of the Company become immediately exercisable in full without regard to any installments. The foregoing does not apply to an option which contains performance standards as a condition upon exercise, except that in the event of a change in control the Board of Directors may waive the performance standards if it determines, in its sole discretion, that based on results of operations prior to the change in control, the standards would reasonably be expected to have been met within the relevant period or periods. In the event that any outstanding option for any reason expires or is terminated, the shares allocable to the unexercised portion of such option may again be optioned.

The Board may amend or discontinue the 2008 Plan, except that no amendment or discontinuance may adversely change or impair any option previously granted without the consent of the optionee, or increase the maximum number of shares which may be purchased under the 2008 Plan, change the minimum purchase price, change the limitations on the option period, or increase the time limitation on the grant of options.

In the event that the Company's shares of common stock are changed by a stock dividend, stock split or combination of shares, or a merger, consolidation or reorganization with another company in which holders of the Company's common stock receive other securities, or other relevant change in the capitalization of the Company, a proportionate or equitable adjustment will be made in the number or kind of shares subject to unexercised options or available for options and in the purchase price for shares.

Options are not transferable by the optionee otherwise than by will or the laws of descent and distribution. Options expire if the optionee's employment is terminated for cause, which is defined in the 2008 Plan as dishonesty, disloyalty or gross misconduct. In the event an optionee dies while employed with the Company, the optionee's heirs, legatees or legal representatives, within one year after the date of death, may exercise the option in full if death occurred on or after the first anniversary of the option. If death occurred before the first anniversary of the option, the option may be exercised to the extent it was exercisable at the date of death. In the event of termination because of disability, the optionee may exercise the option within one year after such termination to the extent it was exercisable at the date of termination. In the event that an optionee retires, options held by the optionee may be exercised within three years of the date of retirement to the extent they were exercisable on the date of retirement. If the option so provided, if such retirement occurs after the first anniversary of the option, the option may be exercised in full during its specified term during the exercise period. In the event of termination other than for cause or by death, disability or retirement, the optionee may exercise the option within three months after such termination to the extent it was exercisable at the date of termination. Notwithstanding the foregoing, in no event is an option exercisable after the termination date specified in the option grant.

With respect to non-qualified options granted under the 2008 Plan, the Company understands that under existing federal income tax law (i) no income will be recognized to the optionee at the time of grant, (ii) upon exercise of an option, the optionee will be required to treat as ordinary income the difference on the date of exercise between the option price and the fair market value of the stock purchased, and the Company will be entitled to a deduction equal to such amount, and (iii) assuming the shares received upon the exercise of such option constitute capital assets in the optionee's hands, any gain or loss upon disposition of the shares (measured by reference to the fair market value of the shares on the date of exercise) will be treated as capital gain or loss which will be long-term if the shares have been held longer than one year. In the case of an optionee who is subject to Section 16(b) of the Securities and Exchange Act of 1934 (an officer, director or ten percent stockholder) and who exercises an option less than 6 months after its date of grant, the amount of income recognized for federal income tax purposes (and the amount of the Company's deduction) will be determined by the fair market value of the stock purchased on the date which is six months after the date of exercise unless the optionee makes an election to use the stock's fair market value on the exercise date.

Qualified options granted under the 2008 Plan are intended to qualify as incentive stock options within the meaning of Section 422 of the Internal Revenue Code of 1986. The Company understands that under the regular federal income tax, if shares purchased pursuant to the exercise of a qualified option are not disposed of by the optionee within two years from the date of grant of the option or within one year after the transfer of the shares to him, then (i) no income will be recognized by the optionee upon either the grant or the exercise of the option, (ii) any gain or loss will be recognized by the optionee only upon ultimate disposition of the shares and, assuming the shares constitute capital assets in the optionee's hands, will be treated as long-term capital gain or loss, and (iii) the Company will not be entitled to a federal income tax deduction in connection with the grant or the exercise of the option. For purposes of computing the alternative minimum tax, the difference between the option price and the fair market value of the shares acquired upon exercise of a qualified option will increase the optionee's alternative minimum taxable income.

If an optionee disposes of the shares acquired upon exercise of a qualified option within two years from the date of grant of the option or within one year after the transfer of the shares to him, ordinary income will be recognized to the optionee in an amount equal to the difference between the option price and the lesser of the fair market value of the shares on the date of exercise or the selling price. The balance of the optionee's gain on such disposition, if any, will be taxed as capital gain. The Company will be entitled to a deduction in the year of disposition equal to the amount of ordinary income recognized to the optionee.

The Board of Directors recommends approval of the 2008 Plan by stockholders. The affirmative vote of the holders of a majority of the shares of the Company's common stock present or represented at the Annual Meeting of Stockholders is necessary to adopt the 2008 Plan. Unless otherwise instructed, signed proxies returned in a timely manner will be voted for the 2008 Plan.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE
2008 PLAN.

KEWAUNEE SCIENTIFIC CORPORATION

2008 KEY EMPLOYEE STOCK OPTION PLAN

The purpose of this Stock Option Plan, (the Plan) is to benefit KEWAUNEE SCIENTIFIC CORPORATION (the Company) and its subsidiaries through the maintenance and development of top management by offering certain present and future executive and key personnel a favorable opportunity to become holders of stock in the Company over a period of years, thereby giving them a permanent stake in the growth and prosperity of the Company and encouraging the continuance of their services with the Company or its subsidiaries. Options granted under this Plan are intended to qualify as Incentive Stock Options as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the Code), or as stock options that are not incentive stock options, according to the designation at time of grant by the Board of Directors of the Company.

1. *Administration.* The Plan shall be administered by the Board of Directors of the Company, whose interpretation of the terms and provisions of the Plan shall be final and conclusive. The Board of Directors may, in its discretion, delegate to a committee of three or more members of the Board (none of whom is or was at any time within one year before appointment to the Committee eligible to participate in the Plan) the authority to administer such matters under the Plan and options granted under the Plan as the Board of Directors may specify.

2. *Eligibility.* Options shall be granted only to key employees of the Company and its subsidiaries (including officers, and including directors of the Company and its subsidiaries who are also employees), selected initially and from time to time thereafter by the Board of Directors on the basis of the special importance of their services in the management, development and operations of the Company or its subsidiaries. In the case of incentive stock options, no option shall be granted to any employee who, immediately after such option is granted, would own, within the meaning of section 422(b)(6) of the Code, stock possessing more than 10 percent of the total combined voting power of all classes of stock of the Company or any of its subsidiaries, except that an option may be granted to such an employee if at the time the option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and the option by its terms is not exercisable after the expiration of five years from the date the option is granted.

3. *Granting of Options.* The Board of Directors may grant options to purchase from the Company a total of not more than 300,000 shares of the common stock of the Company, subject to adjustment as provided in Paragraph 10. For incentive stock options granted under the Plan, the aggregate fair market value (determined as of the time the option is granted) of the stock with respect to which options are exercisable for the first time by any employee during any calendar year (under all incentive stock option plans of the Company and its parent and subsidiary corporations) shall not exceed \$100,000.

No options shall be granted under the Plan subsequent to August 27, 2018.

In the event that an option expires or is terminated or cancelled unexercised as to any shares, such released shares may again be optioned. Shares subject to options may be made available from unissued or reacquired shares of common stock.

The Board of Directors may, with the optionee's consent, grant substitute options at a different price or with different provisions to replace previously-granted outstanding options.

Nothing contained in the Plan or in any option granted pursuant thereto shall confer upon any optionee any right to be continued in the employment of the Company or any subsidiary of the Company, or interfere in any way with the right of the Company or its subsidiaries to terminate his employment at any time.

4. *Option Price.* The option price shall be determined by the Board of Directors and, subject to the provisions of Paragraph 2 and Paragraph 10 hereof, shall be not less than the fair market value, at the time the option is granted, of the stock subject to the option.

5. *Duration of Options, Increments and Extensions.* Subject to the provisions of Paragraph 2 and Paragraph 8 hereof, each option shall be for such term of not more than ten years as shall be determined by the Board of Directors at the date of the grant. Each option shall become exercisable in such installments, at such time or times, and may be subject to such conditions, including conditions based upon the performance of the Company, as the Board of Directors may in its discretion determine at the date of grant.

Subject to the foregoing, the Board of Directors may in its discretion (i) accelerate the exercisability of any option or (ii) at any time prior to the expiration or termination of an option previously granted, extend the term of such option (including options held by officers or directors) for such additional period as the Board of Directors, in its discretion, shall determine; provided, however, that the aggregate option period with respect to any option, including the original term of the option and any extensions thereof, shall never exceed ten years.

6. *Change in Control.* Any option granted under the Plan to an optionee who is an employee of the Company or any of its subsidiaries on the date of a Change in Control shall be immediately exercisable in full on such date and thereafter during its specified term. The words "Change in Control" shall mean the occurrence, at any time during the specified term of an option granted under the Plan, of any of the following events:

(a) The Company is merged, consolidated or reorganized into or with another corporation or other legal person, or there is an offer to holders of the common stock generally relating to the acquisition of their shares, and as a result of such merger, consolidation, reorganization or offer, less than 75% of the outstanding voting securities or other capital interests of the surviving, resulting or acquiring corporation or other legal person are owned in the aggregate by the stockholders of the Company immediately prior to such merger, consolidation, reorganization or offer;

(b) The Company sells all or substantially all of its business and/or assets to any other corporation or other legal person, less than 75% of the outstanding voting securities or other capital interests of which are owned in the aggregate, directly or indirectly, by the persons who were stockholders of the Company immediately before or after such sale; or

(c) During any period of two consecutive years, individuals who at the beginning of any such period constitute the directors of the Company cease for any reason to constitute at least a majority thereof unless the election, or the nomination for election by the Company's stockholders, of each new director of the Company, was approved by a vote of at least two-thirds of such directors of the Company then still in office who were directors of the Company at the beginning of any such period.

The provisions of this Paragraph 6 shall not apply to an option which contains performance standards as a condition upon exercise, except that in the event of a Change of Control the Board of Directors may waive the performance standards if it determines, in its sole discretion, that based on results of operations prior to the Change of Control, the standards would reasonably be expected to have been met within the relevant period or periods.

7. Exercise of Option; Withholding. An option may be exercised by giving written notice to the Company, attention of the Secretary, specifying the number of shares to be purchased. The purchase price for the shares acquired pursuant to the exercise of an option shall be paid, to the extent permitted by applicable law and as determined by the Board of Directors in its sole discretion, by any combination of the methods of payment set forth below. The Board of Directors shall have the authority to grant options that do not permit all of the following methods of payment (or otherwise restrict the ability to use certain methods) and to grant options that require the consent of the Company to utilize a particular method of payment. The methods of payment permitted by this Paragraph 7 are:

(a) by cash, check, bank draft or money order payable to the Company;

(b) pursuant to a program developed under Regulation T as promulgated by the Federal Reserve Board that, prior to the issuance of the stock subject to the option, results in either the receipt of cash (or check) by the Company or the receipt of irrevocable instructions to pay the aggregate exercise price to the Company from the sales proceeds;

(c) by delivery to the Company (either by actual delivery or attestation) of shares of common stock of the Company;

(d) by a net exercise arrangement pursuant to which the Company will reduce the number of shares of common stock issued upon exercise by the largest whole number of shares with a fair market value that does not exceed the aggregate exercise price; *provided, however*, that the Company shall accept a cash or other payment from the optionee to the extent of any remaining balance of the aggregate exercise price not satisfied by such reduction in the number of whole shares to be issued; *provided, further*, that shares of common stock will no longer be outstanding subject to an

option, which will not be exercisable thereafter, to the extent that (A) shares are used to pay the exercise price pursuant to the net exercise, (B) shares are delivered to the optionee as a result of such exercise, and (C) shares are withheld to satisfy tax withholding obligations; or

(e) in any other form of legal consideration that may be acceptable to the Board of Directors.

For this purpose, the per share value of the Company's common stock shall be its fair market value at the close of business on the date preceding the date of exercise. The optionee shall pay the Company at the time of exercise an amount equal to any tax that the Company is required to withhold from the optionee upon exercise (less any amount withheld from the optionee's regular compensation in connection with such exercise).

At the time of any exercise of any option, the Company may, if it shall determine it necessary or desirable for any reason, require the optionee (or the optionee's heirs, legatees, or legal representatives, as the case may be) as a condition upon the exercise thereof, to deliver to the Company a written representation of present intention to purchase the shares for investment and not for distribution. In the event such representation is required to be delivered, an appropriate legend may be placed upon each certificate delivered to the optionee upon exercise of part or all of the option and a stop transfer order may be placed with the transfer agent. Each option shall also be subject to the requirement that, if at any time the Company determines, in its discretion, that the listing, registration or qualification of the shares subject to the option upon any securities exchange or under any state or Federal law, or the consent or approval of any governmental regulatory body is necessary or desirable as a condition of, or in connection with, the issue or purchase of shares thereunder, the option may not be exercised in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable by the Company.

8. *Termination of Employment Exercise Thereafter.* Unless otherwise determined by the Board of Directors at the time of grant:

(a) If the employment of an optionee with the Company or any of its subsidiaries terminates for any reason except discharge for cause, an option which is not an incentive stock option may be exercised as follows:

(i) if the optionee's employment is terminated otherwise than by death, disability or retirement, by the optionee at any time within three months after such termination;

(ii) if the optionee's employment is terminated by death, by the optionee's heirs, legatees or legal representatives at any time within one year after the date of death;

(iii) if the optionee's employment is terminated because of disability (as defined in Section 22(e)(3) of the Code), by the optionee at any time within one year after the date of such termination; or

(iv) if the optionee's employment is terminated by retirement (as defined in the Company's qualified retirement plan for salaried employees), by the optionee within three years after the date of retirement.

For an incentive stock option, these same provisions shall apply except the exercise period following termination of employment because of death or retirement shall not exceed three months.

(b) Notwithstanding the foregoing, an option shall not be exercisable after the expiration of its specified term and shall be exercisable only to the extent it was exercisable at the date of such termination of employment, except that if the optionee's employment is terminated by death or, if the option so provides, by retirement, at any time on or after the first anniversary of the option, the option may be exercised in full during its specified term during the period provided above.

(c) If an optionee is discharged for cause, the option shall expire forthwith and all rights to purchase shares under it shall terminate immediately. For this purpose, discharge for cause means a discharge on account of dishonesty, disloyalty or gross misconduct.

9. *Non-Transferability of Options.* No option shall be transferable by the optionee otherwise than by will or the laws of descent and distribution and each option shall be exercisable during an optionee's lifetime only by the optionee.

10. *Adjustment.* The number of shares subject to the plan and to options granted under the Plan shall be adjusted as follows: (a) in the event that the Company's outstanding common stock is changed by any stock dividend, stock split or combination of shares, the number of shares subject to the Plan and to options granted thereunder shall be proportionately adjusted; (b) in the event of any merger, consolidation or reorganization of the Company with any other corporation or corporations, there shall be substituted on an equitable basis as determined by the Board of Directors, for each share of common stock then subject to the Plan, whether or not at the time subject to outstanding options, the number and kind of shares of stock or other securities or cash or other property to which the holders of common stock of the Company will be entitled pursuant to the transaction; and (c) in the event of any other relevant change in the capitalization of the Company, the Board of Directors shall provide for an equitable adjustment in the number of shares of common stock then subject to the Plan, whether or not then subject to outstanding options. In the event of any such adjustment, the purchase price per share shall be proportionately adjusted.

11. *Amendment of Plan.* The Board of Directors may amend or discontinue the Plan at any time. However, no such amendment or discontinuance shall (a) change adversely or impair any option previously granted, without the consent of the optionee, (b) increase the maximum number of shares which may be purchased by all employees, (c) change the minimum purchase price, or (d) change the limitations on the option period or increase the time limitations on the grant of option.

12. *Effective Date.* The Plan has been adopted by the Board of Directors on May 29, 2008 for submission to the stockholders of the Company. If the Plan is approved by the affirmative vote of the holders of a majority of the voting stock of the Company voting in person or by proxy at a duly held stockholders meeting on August 27, 2008, it shall be deemed to have become effective on the date of such approval by the Company's stockholders.
