- (1) Revised. Refer to our Annual Report on Form 10-K for the fiscal year ended March 31, 2008 for additional information.
See accompanying Notes to Condensed Consolidated Financial Statements.

Table of Contents**RENTRAK CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****Note 1. Basis of Presentation**

The accompanying unaudited Condensed Consolidated Financial Statements of Rentrak Corporation have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with the accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The results of operations for the three and nine-month periods ended December 31, 2008 are not necessarily indicative of the results to be expected for the entire fiscal year ending March 31, 2009. The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included in our 2008 Annual Report to Shareholders.

The Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to present fairly our financial position, results of operations and cash flows. Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation.

Note 2. Net Income Per Share

Basic net income per share (EPS) and diluted EPS are computed using the methods prescribed by Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share. Following is a reconciliation of the shares used for the basic EPS and diluted EPS calculations (in thousands):

	Three Months Ended		Nine Months Ended	
	Dec. 31,		Dec. 31,	
	2008	2007	2008	2007
Basic EPS:				
Weighted average number of shares of common stock outstanding	10,538	10,757	10,587	10,747
Diluted EPS:				
Effect of dilutive deferred stock units, stock options and warrants	456	523	517	516
	10,994	11,280	11,104	11,263
Options not included in diluted EPS because the exercise price of the options was greater than the average market price of the common shares for the period		45		
Performance-based options not included in diluted EPS			345	

Note 3. Business Segments, Significant Suppliers and Major Customers

We operate in two business segments, our Pay-Per-Transaction (PPT) Division and Advanced Media and Information (AMI) Division, and, accordingly, we report certain financial information by individual segment under this structure. The PPT Division focuses on managing our business operations that facilitate the delivery of home entertainment content products and related rental and sales information for that content to our Participating Retailers on a revenue sharing basis. The AMI Division concentrates on the management and growth of our Essentials Suite of business information services, primarily offered on a recurring subscription basis, which are no longer in the early stages. Effective July 1, 2008, our Multi-Screen Essentials line of business was moved from the Other Division to the AMI Division. Prior period information has been reclassified to conform to the current presentation.

We did not have any revenues from our Other Division in the fiscal 2009 or fiscal 2008 periods.

Assets are not specifically identified by segment as the information is not used by the chief operating decision maker to measure the segments performance.

Table of Contents

Certain information by segment was as follows (in thousands):

	PPT	AMI	Other ⁽¹⁾	Total
Three months ended December 31, 2008				
Sales to external customers	\$ 19,749	\$ 3,224	\$	\$ 22,973

(1) Percentages may not add due to rounding.

Table of Contents

Revenue by service activity was as follows (in thousands):

	Three Months Ended Dec. 31,		Nine Months Ended Dec. 31,	
	2008	2007	2008	2007
Order processing fees	\$ 2,129	\$ 2,362	\$ 6,752	\$ 5,814
Transaction fees	12,756	14,033	41,438	41,788
Sell-through fees	3,294	3,227	10,078	10,693
DRS fees	1,438	1,387	4,606	4,563
Essentials Suite	3,224	2,685	9,354	7,551
Other	132	181	425	481
	\$ 22,973	\$ 23,875	\$ 72,653	\$ 70,890

During the three and nine-month periods ended December 31, 2008 and 2007, we had Program Suppliers that supplied product which generated in excess of 10% of our total revenues as follows:

	Three Months Ended Dec. 31,		Nine Months Ended Dec. 31,	
	2008	2007	2008	2007
Program Supplier 1	16.1%	13.1%	12.8%	13.0%
Program Supplier 2	15.4%	16.0%	13.7%	16.8%
Program Supplier 3	14.6%	16.5%	14.7%	17.2%
Program Supplier 4	12.4%	19.7%	17.1%	16.7%

There were no other Program Suppliers who provided product to our PPT Division that accounted for 10% or more of our total revenues for the three or nine-month periods ended December 31, 2008 or 2007. Although management does not believe that the relationships with our significant Program Suppliers will be terminated in the near term, a loss of any one of these suppliers could have an adverse effect on our financial condition and results of operations.

There were no customers that accounted for 10% or more of our total revenue in the three or nine-month periods ended December 31, 2008 or 2007.

Note 4. Stock-Based Compensation

We account for stock-based compensation pursuant to SFAS No. 123R, Share-Based Payment. Stock option activity for the first nine months of fiscal 2009 was as follows:

	Options Outstanding	Weighted Average Exercise Price
Outstanding at March 31, 2008	1,044,276	\$ 6.26
Granted	344,875	11.10
Exercised	(17,575)	7.98
Forfeited		
Outstanding at December 31, 2008	1,371,576	7.46

On October 10, 2008 and November 6, 2008, we granted nonqualified stock options exercisable for a total of 344,875 shares of our common stock pursuant to our 2005 Stock Incentive Plan to 15 employees. The options have an exercise price of \$11.10 per share. The options are subject to vesting provisions based on attaining performance goals comparable to those applicable to the SAR awards discussed in Note 8 and

Edgar Filing: RENTRAK CORP - Form 10-Q

will expire on August 30, 2011 to the extent not previously exercised or terminated. Vesting will be accelerated if a change in control occurs before the performance criteria are met. The fair value of the performance-based options was estimated using the Black-Scholes valuation model, the same methodology we have historically used for other option awards. However, as of December 31, 2008, no compensation cost has been recognized for these options as we do not currently have sufficient information with which to determine that the conditions are probable of being achieved.

As of December 31, 2008, unrecognized stock-based compensation related to outstanding, but unvested options was \$0.1 million, which will be recognized over the weighted average remaining vesting period of 2.5 years.

Table of Contents

Deferred stock unit (DSU) activity for the first nine months of fiscal 2009 was as follows:

	Units Outstanding	Weighted Average Grant Date Fair Value
Outstanding at March 31, 2008⁽¹⁾	72,000	\$ 12.75
Granted	55,500	12.58
Issued		
Forfeited		
Outstanding at December 31, 2008	127,500 ⁽¹⁾	12.67

(1) Of the 127,500 DSUs outstanding at December 31, 2008, 72,000 were vested. However, the DSUs are not issued until the director holding such DSUs retires from the Board.

During the first quarter of fiscal 2009, 45,000 DSUs were granted. The total value of these DSUs was \$0.5 million and is being recognized over the three-year vesting period. During the second quarter of fiscal 2009, 10,500 DSUs were granted to two new Board members. The total value of these DSUs was \$0.2 million and is being recognized over the three-year vesting period.

As of December 31, 2008, the unrecognized compensation expense related to unvested DSUs was \$0.5 million, which will be recognized over the weighted average remaining vesting period of 2.4 years.

Note 5. Marketable Securities and Fair Market Value Disclosures

During the second quarter of fiscal 2009, we purchased \$30.0 million of short-term marketable securities, which we have classified as available for sale securities. Pursuant to SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities, our marketable securities are marked to market on a quarterly basis, with unrealized gains and losses being excluded from earnings and reflected as a component of other comprehensive income.

Effective April 1, 2008, we adopted the provisions of SFAS No. 157, Fair Value Measurements, for our financial assets and liabilities. The adoption of this portion of SFAS No. 157 did not have any effect on our financial position or results of operations and we do not expect the adoption of the provisions of SFAS No. 157 related to non-financial assets and liabilities to have an effect on our financial position or results of operations. Although the adoption of SFAS No. 157 did not impact our results of operations, we are now required to provide additional disclosures as part of our financial statements.

SFAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring the fair value of our financial assets and liabilities and are summarized into three broad categories:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.; and

Level 3 significant unobservable inputs, including our own assumptions in determining fair value.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Following are the disclosures related to our financial assets pursuant to SFAS No. 157 (in thousands):

Edgar Filing: RENTRAK CORP - Form 10-Q

	December 31, 2008	
	Fair Value	Input Level
Available for sale marketable securities:		
Municipal tax exempt bond fund	\$ 29,496	Level 1

The fair value of our available for sale securities is determined based on quoted market prices for identical securities on a quarterly basis.

Table of Contents

Note 6. Forgiveness of State of Oregon Loan

In June 2008, the State of Oregon forgave in full our outstanding \$0.2 million note payable related to our fiscal 2007 corporate headquarters renovations. The related \$0.2 million gain was deferred and is being amortized against lease expense over the remaining lease term at the rate of approximately \$6,000 per quarter.

Note 7. Multi-Screen Contract Deferred Revenue

During the fourth quarter of fiscal 2008, we entered into a long-term agreement with a customer/supplier relating to our Essentials line of business, in which we are developing reporting tools specifically relating to their unique business requirements. We recognize revenue in accordance with Statement of Position 81-1, Accounting for Performance of Construction-Type and Certain Production-Type Contracts, applying the completed-contract method. As of December 31, 2008, we had received payments totaling \$1.0 million and incurred related costs of \$0.1 million, both of which have been deferred. We will recognize the revenue and related costs when the development project is completed.

Note 8. Stock Appreciation Rights Plan

In October 2008, we adopted the Rentrak Corporation Stock Appreciation Rights Plan (the SAR Plan), pursuant to which up to a total of 500,000 stock appreciation rights (SARs) may be awarded to our key employees. Upon vesting, each SAR gives the holder the right to receive, in cash, an amount equal to the increase in the value of a share of our common stock over the base price. The base price will be equal to the closing sale price of a share of our common stock as quoted on The Nasdaq Stock Market on the grant date.

On October 10, 2008 and November 6, 2008, we granted a total of 277,625 SARs to 42 employees. The base price of the SARs for both grant dates was \$11.10. Vesting of the SAR awards is subject to performance goals based on the achievement of minimum amounts of operating income by various lines of business. The performance goals relate to the two-year period ending March 31, 2011. Each individual SAR award is subject to a performance goal associated with the relevant line of business, with about 70% of the awards tied to combined operating results for Multi-Screen and OnDemand Essentials and the remaining awards to operating results for our PPT Division, Box Office Essentials, Home Entertainment Essentials or Supply Chain Essentials. We will determine whether the performance goals have been met by no later than June 15, 2011 and vested SARs will be settled in cash based on the closing sale price of our common stock on August 30, 2011 and paid no later than September 30, 2011. The SARs will vest in full if a change in control occurs before the performance criteria are met. As of December 31, 2008, no compensation cost has been recognized for these SARs as we do not currently have sufficient information with which to determine that the conditions are probable of being achieved.

Note 9. Stock Repurchases

During the three-month period ended December 31, 2008, we repurchased a total of 115,581 shares of our common stock at an average price of \$11.11 per share, which totaled approximately \$1.3 million. The stock repurchase plan, approved by our Board of Directors in January 2006, authorizes the purchase of up to 1,000,000 shares of our common stock and does not have an expiration date. Following these repurchases, a total of 591,880 shares had been repurchased pursuant to this plan at an average price of \$10.96 per share and 408,120 shares remained available for repurchase under this plan.

Note 10. Income Taxes

Our effective tax rate, which was a benefit of 43.5% and a provision of 25.8% in the three and nine-month periods ended December 31, 2008, respectively. The rates included a benefit for: i) the enactment of an extension of the federal Research and Experimentation credit; ii) earnings on investments in tax exempt municipal bonds; and iii) favorable tax return adjustments related to the filing of our fiscal 2008 tax returns.

Table of Contents

Our unrecognized tax benefits increased \$0.5 million in both the three and nine-month periods ended December 31, 2008 in conjunction with uncertain tax positions related to prior tax filings and uncertain tax positions included in the current year tax computations. Unrecognized tax benefits totaled \$2.2 million at December 31, 2008, all of which would reduce our effective tax rate if recognized.

Note 11. Line of Credit Amendment

Our \$15.0 million line of credit agreement with Wells Fargo Bank, National Association was amended effective December 1, 2008 to extend the maturity date from December 1, 2008 to December 1, 2011.

Note 12. New Accounting Pronouncements

SFAS No. 162

In May 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 162, The Hierarchy of Generally Accepted Accounting Principles, which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 4311, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. We believe that our accounting principles and practices are consistent with the guidance in SFAS No. 162, and, accordingly, we do not expect the adoption of SFAS No. 162 to have a material effect on our financial position or results of operations.

SFAS No. 161

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, which requires certain disclosures related to derivative instruments. SFAS No. 161 is effective prospectively for interim periods and fiscal years beginning after November 15, 2008. We do not have any derivative instruments that fall under the guidance of SFAS No. 161 and, accordingly, we do not expect the adoption of SFAS No. 161 to have any effect on our financial position or results of operations.

SFAS No. 141R and SFAS No. 160

In December 2007, the FASB issued SFAS No. 141R, Business Combinations, and SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements. SFAS Nos. 141R and 160 require most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. Both statements are effective for periods beginning on or after December 15, 2008 and earlier adoption is prohibited. SFAS No. 141R will be applied to business combinations occurring after the effective date and SFAS No. 160 will be applied prospectively to all noncontrolling interests, including any that arose before the effective date. We are currently evaluating what impact, if any, the adoption of SFAS Nos. 141R and 160 will have on our financial position or results of operations. We believe that the impact, if any, will be immaterial.

EITF 07-3

In June 2007, the Emerging Issues Task Force (EITF) issued EITF 07-3, Accounting for Advance Payments for Goods or Services to Be Used in Future Research and Development Activities, which states that non-refundable advance payments for services that will be consumed or performed in a future period in conducting research and development activities on behalf of the company should be recorded as an asset when the advance payment is made and then recognized as an expense when the research and development activities are performed. EITF 07-3 is applicable prospectively to new contractual arrangements entered into in fiscal years beginning after December 15, 2007. The adoption of EITF 07-3 effective April 1, 2008 did not have a material effect on our financial position or results of operations.

Table of Contents

SFAS No. 159

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, which permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The adoption of SFAS No. 159 effective April 1, 2008 did not have any effect on our financial position or results of operations.

SFAS No. 157

Effective April 1, 2008, we adopted the provisions of SFAS No. 157, Fair Value Measurements, for our financial assets and liabilities. The adoption of this portion of SFAS No. 157 did not have any effect on our financial position or results of operations and we do not expect the adoption of the provisions of SFAS No. 157 related to non-financial assets and liabilities to have an effect on our financial position or results of operations.

Note 13. Subsequent Event

On January 1, 2009, our forgivable \$0.7 million loan with the Portland Development Commission became due. We are in the process of completing the documentation with regard to our compliance with the program requirements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

Certain information included in this Quarterly Report on Form 10-Q (including Management's Discussion and Analysis of Financial Condition and Results of Operations regarding revenue growth, gross profit margin and liquidity) constitute forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements may be identified by the use of forward-looking words such as may, will, expects, intends, anticipates, estimates or continues or the negative thereof or variations thereon or comparable terminology. The following factors are among the factors that could cause actual results to differ materially from the forward-looking statements: our ability to retain and grow our customer base of retailers participating in the Pay-Per-Transaction system (the PPT System) (Participating Retailers) and customers for our business intelligence software and services; the financial stability of the Participating Retailers and their performance of their obligations under our PPT System; business conditions and growth in the video industry and general economic conditions, both domestic and international; customer demand for movies in various media formats; competitive factors, including increased competition, expansion of revenue sharing programs other than the PPT System by motion picture studios or other licensees or owners of the rights to certain video programming content (Program Suppliers) and new technology; the continued availability of home entertainment content products (DVDs, Blue-ray Discs, etc.) (collectively Units) leased/licensed to home video specialty stores and other retailers from Program Suppliers; the loss of significant Program Suppliers; our ability to successfully develop and market new services, including our business intelligence services, to create new revenue streams; and the development of similar business intelligence services by competitors with substantially greater financial and marketing resources than our company. This Quarterly Report on Form 10-Q further describes some of these factors. In addition, some of the important factors that could cause actual results to differ from our expectations are discussed in Item 1A to our fiscal 2008 Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2008. These risk factors have not significantly changed since the filing of the fiscal 2008 Form 10-K.

Business Trends

Our corporate structure includes separate Pay-Per-Transaction (PPT) and Advanced Media and Information (AMI) operating divisions and, accordingly, we report certain financial information by individual segment under this structure.

Table of Contents

Our PPT Division focuses on managing our business operations that facilitate the delivery of home entertainment content products (DVDs, Blu-ray Discs, etc.) and related rental and sales information for the content to home video specialty stores and other retailers, on a revenue sharing basis. We lease product from various suppliers, typically motion picture studios. Under our PPT System, retailers sublease that product from us and rent it to consumers. Retailers then share a portion of the revenue from each retail rental transaction with us and we share a portion of the revenue with the studio. Since we collect, process and analyze rental and sales information at the title level, we report that information to both the studio and the respective retailers.

Our PPT Division also includes our Direct Revenue Sharing (DRS) services, which collects, tracks, audits and reports the results of DRS retailers, such as Blockbuster Entertainment, Movie Gallery and Netflix, to the respective DRS client under established agreements on a fee for service basis.

Our AMI Division concentrates on the management and growth of our Essentials Suite of business information services. Our Essentials Suite software and services, offered on a recurring subscription basis, provide unique data collection, management, analysis and reporting functions, resulting in business information valuable to our clients.

The PPT Division

The financial results from the PPT Division continue to be affected by the changing dynamics in the home video rental market as well as trends in overall economic conditions. This market is highly competitive and influenced greatly by consumer spending patterns and behaviors. The end consumer has a wide variety of choices from which to select their entertainment content. Some examples include renting Units of product from our Participating Retailers or other Retailers, purchasing previously viewed Units from our Participating Retailers or other Retailers, ordering product via online subscriptions and/or online distributors, subscribing to at-home movie channels, purchasing and owning the Unit directly, or selecting an at-home pay-per-view or on-demand option. Our PPT system focuses on the traditional brick and mortar retailer. We believe that our system successfully addresses the many choices available to consumers and affords our Participating Retailers the opportunity to stock their stores with a wider selection of titles and a greater supply of popular box office releases. Many of our arrangements are structured so that the Participating Retailers pay minimal upfront fees and lower per transaction fees in exchange for ordering Units of all titles offered by a particular Program Supplier (referred to as output programs). Since these programs usually result in more overall Units rented, our Participating Retailers revenue and the corresponding share with the studios also increase.

In an effort to further stabilize and grow our overall PPT revenue and earnings streams, we have implemented strategies to obtain new Participating Retailers, as well as assist in the retention and growth of our current Participating Retailers.

We continue to be in good standing with our Program Suppliers and we make on-going efforts to enhance those business relationships through improvement of current services offered and the development of new service offerings.

We are also continually seeking to develop business relationships with new Program Suppliers. Our relationships with Program Suppliers typically may be terminated without cause upon thirty days written notice by either party.

AMI and Other Divisions

We are also allocating significant resources towards our business information service offerings, both those services that are currently operational as well as those that are in various stages of development. Our suite of business information services has been well received in the various targeted markets to date, as our offerings fit well with the needs identified by those market participants. Our Essentials business information service offerings which are fully operational and no longer in significant stages of development, realized a revenue increase of 24% in the first nine months of fiscal 2009 compared to the first nine months of fiscal 2008. We intend to continue to invest in our existing, as well as new, business information services in the near-term as we expand the markets we serve and our service lines. The cost

Table of Contents

of these investments will likely lower our earnings in the short-term. Longer-term, we believe these services will provide significant future revenue and earnings streams and contribute to our overall success.

In December 2008, we entered into an agreement with an AT&T subsidiary to measure AT&T U-verse(SM) TV viewing patterns across traditional broadcast and cable network linear television, Video On Demand (VOD) and Digital Video Recorder (DVR) programming aggregated on a totally anonymous basis from all set-top boxes across AT&T s U-verse distribution footprint.

We receive completely anonymous data which cannot be matched, traced or targeted to any specific subscriber or to the name, physical address, IP address, telephone number or any other personally identifiable information of any specific TV viewer.

As part of the agreement, AT&T will co-market with us our TVEssentials service to content providers, local TV stations and marketing clients. The data will provide programmers, advertisers and marketing agencies with information regarding programming and advertising such as the total number of subscribers watching a particular program, average length of time customers viewed a program, and to what extent subscribers fast forwarded through all commercial breaks or just specific commercials via a DVR. We believe the anonymous data from the full U-verse subscriber base meets a significant market demand for non-sample viewership data.

Sources of Revenue

Revenue by segment includes the following:

PPT Division

order processing fees generated when Units are ordered by, and distributed to, retailers;

transaction fees generated when retailers rent Units to consumers; additionally, certain arrangements include guaranteed minimum revenues from our customers; we recognize the guaranteed minimum revenue on the street (release) date in accordance with Statement of Position 00-2, Accounting by Producers or Distributors of Films, (SOP 00-2) provided all other revenue recognition criteria are met;

sell-through fees generated when retailers sell previously-viewed rental Units to consumers;

buy-out fees generated when retailers purchase Units at the end of the lease term; and

DRS fees from data tracking and reporting services provided to Program Suppliers.

AMI Division

Subscription fee revenues from:

Box Office Essentials;

Home Entertainment Essentials;

Supply Chain Essentials;

OnDemand Essentials; and

Multi-Screen Essentials.

Other Division

revenue relating to other products and/or services which are still in the development stage, including AdEssentials, which will capture census-level data regarding viewing patterns of on-demand advertising for reporting to marketers and advertising agencies.

-----------	-----------	-----------	-----------

Revenue

Revenue decreased \$0.9 million, or 3.8%, to \$23.0 million in the three-month period ended December 31, 2008 (the third quarter of fiscal 2009) compared to \$23.9 million in the three-month period ended December 31, 2007 (the third quarter of fiscal 2008). Revenue increased \$1.8 million, or 2.5%, to \$72.7 million in the nine-month period ended December 31, 2008 compared to \$70.9 million in the nine-month period ended December 31, 2007. The changes in revenue are described more fully below.

PPT Division

PPT revenues decreased \$1.4 million, or 6.8%, in the three-month period ended December 31, 2008 compared to the same period of the prior fiscal year and were flat in the nine-month comparable periods as detailed below (in thousands):

	Three Months		Nine Months Ended	
	Ended Dec. 31, 2008	2007	2008	2007
Order processing fees	\$ 2,129	\$ 2,362	\$ 6,752	\$ 5,814
Transaction fees	12,756	14,033	41,438	41,788
Sell-through fees	3,294	3,227	10,078	10,693
DRS	1,438	1,387	4,606	4,563
Other	132	181	425	481
	\$ 19,749	\$ 21,190	\$ 63,299	\$ 63,339

Table of Contents

Order processing fees decreased \$0.2 million, or 9.9%, and increased \$0.9 million, or 16.1%, respectively, in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year. Order processing fees were affected by the following:

	Three Months Ended Dec. 31,		Nine Months Ended Dec. 31,	
	2008	2007	2008	2007
Units shipped (in thousands)	1,807	1,751	5,186	4,693
Fee per Unit	\$ 1.18	\$ 1.35	\$ 1.30	\$ 1.24

	Three-month period ended December 31, 2008 compared to three- month period ended December 31, 2007	Nine-month period ended December 31, 2008 compared to nine- month period ended December 31, 2007
Percentage increase in Units shipped	3.2%	10.5%
Effect of increase in Units shipped on revenue	\$ 0.1 million	\$ 0.6 million
Increase (decrease) in fee per Unit	\$ (0.17)	\$ 0.06
Effect of increase (decrease) in fee per Unit on revenue	\$ (0.3) million	\$ 0.3 million

The increases in volume in the fiscal 2009 periods compared to the same periods of fiscal 2008 were due to more theatrical releases in the current periods compared to the prior fiscal year periods. The timing of new releases tends to fluctuate from studio to studio.

Fees per Unit are affected by our mix of Units received from Program Suppliers with varying rates of upfront fees and tend to fluctuate from period to period.

Transaction fees decreased \$1.3 million, or 9.1% in the three-month period ended December 31, 2008 compared to the same period of the prior fiscal year. The transaction fee decrease for the three-month period was primarily due to fewer revenue generating rental transactions during the period related to non-guaranteed Units. The revenue on guaranteed Units is recognized at the beginning of the lease term and, therefore, rental transactions occurring in approximately the first half of the product lease typically do not generate additional transaction fee revenue until the revenue guarantees have been met. Total rental transactions at our Participating Retailers increased 2.4% in the three-month period ended December 31, 2008 compared to the same period of the prior fiscal year, while the rate per transaction remained flat, excluding the impact of minimum revenue guarantees on guaranteed Units.

Transaction fees decreased \$0.4 million, or 0.8%, in the nine-month period ended December 31, 2008 compared to the same period of the prior fiscal year. The nine-month period transaction fees decreased due to a reduction in total rental transactions, partially offset by increases in Units shipped compared to the prior fiscal year period. Total rental transactions at our Participating Retailers decreased 6.6% in the nine-month period ended December 31, 2008 compared to the same period of the prior fiscal year, while the rate per transaction increased \$0.01, excluding the impact of minimum revenue guarantees on guaranteed Units. The decrease in rental transactions for the nine-month period ended December 31, 2008 was due to a temporary shift in consumer behavior towards viewing televised events, such as the Olympics and election year politics (conventions and debates). We expect rental transactions to fluctuate in the months ahead based on product flow. Historically, consumers have continued to rent movies during economic downturns, so we expect a stable flow of rental transactions in the future. However, since this is highly dependent on consumer behavior, there can be no assurance regarding transaction activity in future periods.

Sell-through fees increased \$0.1 million, or 2.1%, and decreased \$0.6 million, or 5.8%, respectively, in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year. The increase in the three-month period was primarily due to an increase in the number of Units purchased at the end of their lease term. The decrease in the nine-month period was due to an 8% decrease in the number of sell-through transactions. The decrease in the nine-month period was affected

Table of Contents

by an overall decline in Units available for sale on average, taking release dates and product sell-through restrictions into account over the comparable period of the prior fiscal year.

DRS fees were relatively flat in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year primarily due to no significant change in the amount and quality of product released and made available to Retailers by our Program Suppliers.

AMI Division

AMI revenues increased \$0.5 million, or 20.1%, and \$1.8 million, or 23.9%, respectively, in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year. Revenues related to our Essentials business information service offerings have increased primarily due to our continued investment in, and marketing of, these offerings.

Other Division

We did not have any revenues from our Other Division in the first nine months of fiscal 2008 or fiscal 2007.

Cost of Sales

Cost of sales consists of order processing costs, transaction costs, sell-through costs, handling and freight costs in the PPT Division and costs in the AMI Division associated with certain Essentials business information service offerings. These expenditures represent the direct costs to produce revenues.

In the PPT Division, order processing costs, transaction costs and sell through costs represent the amounts due to the Program Suppliers that hold the distribution rights to the Units. Freight costs represent the cost to pick, pack and ship orders of Units to the Participating Retailers. Our cost of sales can also be impacted by the release dates of Units with guarantees. We recognize the guaranteed minimum costs on the release date. The terms of some of our agreements result in 100% cost of sales on titles in the first month in which the Unit is released, which results in lower margins during the initial portion of the revenue sharing period. Once the Unit's rental activity exceeds the required amount for these guaranteed minimums, margins generally expand during the second and third months of the Unit's revenue sharing period. However, since these factors are highly dependent upon the quality, timing and release dates of new products, margins may not expand to any significant degree during any period. As a result, it is difficult to predict the impact these Program Supplier Revenue Sharing programs with guaranteed minimums will have on future results of operations in any reporting period.

In the AMI Division, a portion of the Essentials business information service offerings costs represent costs associated with the operation of a call center for our Box Office Essentials services, as well as costs associated with amortizing capitalized internally developed software used to provide the corresponding services and direct costs incurred to obtain, cleanse and process data and maintain our systems.

Cost of sales decreased \$1.2 million, or 7.0%, and increased \$1.1 million, or 2.3%, respectively, in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year. Cost of sales as a percentage of revenue was 68.6% and 67.3%, respectively, in the three and nine-month periods ended December 31, 2008 compared to 70.9% and 67.5%, respectively, in the same periods of the prior fiscal year.

The fluctuations in cost of sales were primarily due to the fluctuations in revenue, as well as the decreases in cost of sales as a percentage of revenue. The decreases in cost of sales as a percentage of revenue were primarily due to the timing and magnitude of Units shipped with minimum guarantees, as well as to a larger percentage of our revenue coming from our AMI Division. We achieve higher gross margins on our AMI Division revenue than on our PPT Division revenue.

Selling and Administrative

Selling and administrative expenses consist primarily of compensation and benefits, development, marketing and advertising costs, legal and professional fees, communications costs, depreciation and

Table of Contents

amortization of tangible fixed assets and software, real and personal property leases, as well as other general corporate expenses.

Selling and administrative expenses increased \$0.4 million, or 6.8%, to \$6.7 million in the third quarter of fiscal 2009 compared to \$6.3 million in the third quarter of fiscal 2008, and increased \$1.3 million, or 6.7%, to \$20.3 million in the nine-month period ended December 31, 2008 compared to \$19.0 million in the same period of the prior fiscal year.

The increases in selling and administrative expenses in the three and nine-month periods ended December 31, 2008 compared to the same periods of the prior fiscal year were primarily due to the continued expansion of our Essentials lines of business. As a percentage of revenues, selling and administrative expenses were 29.4% and 27.9%, respectively, for the three and nine-month periods ended December 31, 2008 compared to 26.5% and 26.9%, respectively, for the comparable periods of the prior fiscal year, primarily due to lower revenues in the three-month period ended December 31, 2008 compared to the same period of the prior year, as well as our continued investment in our Essentials line of business in fiscal 2009.

Interest Income

Interest income was \$0.4 million and \$0.8 million, respectively, for the three and nine-month periods ended December 31, 2008 compared to \$0.4 million and \$1.2 million, respectively, for the same periods of the prior fiscal year. The decrease in interest income in the nine-month period primarily related to lower interest rates in the current fiscal year period compared to the same period of the prior fiscal year, resulting from changes in market conditions and lower average investments in marketable securities. Our average combined cash and investment balance was \$35.1 million and \$33.9 million for the nine-month periods ended December 31, 2008 and 2007, respectively.

Income Taxes

Our effective tax rate was (43.5)% and 25.8%, respectively, in the three and nine-month periods ended December 31, 2008 and 46.1% and 44.5% in the three and nine-month periods ended December 31, 2007. Our effective tax rate typically differs from the federal statutory tax rate primarily due to state income taxes. In the third quarter of fiscal 2009, our tax rate decreased due to the following factors: the enactment of an extension of the federal Research and Experimentation credit, earnings on investments in tax exempt municipal bonds and favorable tax return adjustments related to the filing of our fiscal 2008 tax returns.

Liquidity and Capital Resources

Our sources of liquidity include our cash and cash equivalents, cash expected to be generated from future operations and investment income and our \$15.0 million line of credit. Based on our current financial projections and projected cash needs, we believe that our available sources of liquidity will be sufficient to fund our current operations, the continued current development of our business information services and other cash requirements through at least December 31, 2009.

Cash and cash equivalents and marketable securities increased \$2.5 million to \$34.3 million at December 31, 2008 compared to \$31.8 million at March 31, 2008. This increase resulted primarily from \$6.1 million provided by operating activities, partially offset by \$1.8 million used for the purchase of equipment and capitalized IT costs and by \$1.3 million used for the repurchase of common stock. Our current ratio was 4.3:1.0 at December 31, 2008 and 5.4:1.0 at March 31, 2008.

Accounts receivable, net of allowances, increased \$3.1 million to \$18.1 million at December 31, 2008 compared to \$15.0 million at March 31, 2008, primarily due to the \$0.7 million of increased revenues during the quarter ended December 31, 2008, compared to the last quarter of fiscal 2008, as well as increased Units with minimum guaranteed revenues shipped during the third quarter of fiscal 2009 compared to the fourth quarter of fiscal 2008.

Table of Contents

During the first nine months of fiscal 2009, we spent \$1.8 million on property and equipment, including \$1.5 million for the capitalization of internally developed software for our business information service offerings. We anticipate spending a total of approximately \$2.8 million on property and equipment in fiscal 2009, including approximately \$2.2 million for the capitalization of internally developed software, primarily for our business information service offerings. The remaining capital expenditures in fiscal 2009 will be primarily for computer equipment.

Accounts payable increased \$2.8 million to \$9.6 million at December 31, 2008 compared to \$6.8 million at March 31, 2008, primarily due to the timing of payments due to Program Suppliers.

Deferred revenue increased \$0.7 million to \$1.6 million at December 31, 2008 compared to \$0.9 million at March 31, 2008, primarily due to a long-term agreement with a customer/supplier relating to one of our Essentials lines of business, in which we will develop reporting tools specifically relating to their unique business requirements. As of December 31, 2008, we had received payments totaling \$1.0 million and incurred related costs of \$0.1 million, both of which have been deferred. We will recognize the revenue and related costs when the development project is completed, which is anticipated to be in the second quarter of fiscal 2010.

Taxes receivable and prepaid taxes, net of taxes payable, increased \$0.5 million to \$21,000 at December 31, 2008 compared to a liability of \$0.5 million at March 31, 2008 primarily due to the timing of tax payments and the year-to-date provision for income taxes. Deferred income tax liabilities, net of deferred tax assets, have also increased to \$0.6 million at December 31, 2008 compared to \$27,000 at March 31, 2008 due to temporary book-tax differences related to accelerated expensing of internally developed software expenditures for tax purposes, as well as adoption of a change for tax purposes to cease recognizing short-term deferred revenue in advance of book recognition.

Deferred rent, current and long-term, of \$1.0 million at December 31, 2008 represents amounts received for qualified renovations on our corporate headquarters and free rent for the first three months of the lease term. The deferred rent is being amortized against rent expense over the term of the related lease at the rate of approximately \$22,000 per quarter.

Notes payable at December 31, 2008 represents a \$0.7 million loan from the Portland Development Commission (PDC) and a \$58,000 conditional grant from the PDC related to our fiscal 2007 corporate headquarters renovations. The \$0.7 million loan from the PDC does not bear interest until it becomes due, which is January 1, 2009, and contains provisions relating to forgiveness if we meet certain requirements. If the loan is not forgiven, it will accrue interest at the rate of 8.5% per annum beginning January 1, 2009. Similar terms apply to the conditional grant of \$58,000. The previously outstanding \$0.2 million loan from the State of Oregon was forgiven in June 2008. The related \$0.2 million gain was deferred and is being amortized against lease expense over the remaining lease term of approximately 8.5 years. We are in the process of completing the documentation with regard to our compliance with the PDC program requirements. It is expected that the \$0.7 million loan, along with the related \$58,000 grant, will be forgiven by the end of February 2009.

In January 2006, our board of directors adopted a share repurchase program authorizing the purchase of up to 1.0 million shares of our common stock. We repurchased 115,581 shares in the first nine months of fiscal 2009 at an average price of \$11.11 per share. Through December 31, 2008, a total of 591,880 shares had been repurchased under this plan at an average price of \$10.96 per share and 408,120 shares remained available for purchase. This plan does not have an expiration date.

We currently have a secured revolving line of credit for \$15.0 million, with a maturity of December 1, 2011. Interest on the line of credit is LIBOR plus 1.5 percent. The credit line is secured by substantially all of our assets. The line of credit includes certain financial covenants requiring: (1) a consolidated pre-tax income to be achieved each fiscal quarter of a minimum of \$1.00, and consolidated after-tax income not less than \$1.00 on an annual basis, determined at fiscal year end; (2) a minimum current ratio of 1.5:1.0, measured quarterly; and (3) a maximum debt-to-tangible net worth ratio of 1.5:1.0, measured quarterly. Based upon the financial results reported as of and for the quarter ended December 31, 2008, we determined that we

Table of Contents

were in compliance with the financial covenants at December 31, 2008. At December 31, 2008, we had no outstanding borrowings under this agreement.

Critical Accounting Policies and Estimates

We reaffirm the critical accounting policies and estimates as reported in our fiscal 2008 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2008.

New Accounting Pronouncements

See Note 12 of Notes to Condensed Consolidated Financial Statements for a discussion of new accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

There have been no material changes in our reported market risks since the filing of our fiscal 2008 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2008.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (Exchange Act). Based on that evaluation our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1A. RISK FACTORS**

Our Annual Report on Form 10-K for the fiscal year ended March 31, 2008 includes a detailed discussion of our risk factors. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K. Accordingly, the information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in our fiscal 2008 Form 10-K, which was filed with the Securities and Exchange Commission on June 13, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We repurchased the following shares of our common stock in open market transactions during the third quarter of fiscal 2009 pursuant to our previously-announced repurchase program:

	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plan	Maximum number of shares that may yet be purchased under the plan
October 1 to October 31	71,500	\$ 11.79	71,500	452,201
November 1 to November 30	36,481	10.06	36,481	415,720
December 1 to December 31	7,600	9.77	7,600	408,120
Total	115,581	11.11	115,581	408,120

The stock repurchase plan, which was approved by our Board of Directors in January 2006 for a total of 1.0 million shares, does not have an expiration date.

ITEM 6. EXHIBITS

The following exhibits are filed herewith and this list is intended to constitute the exhibit index:

- 10.1 Amendment to Credit Agreement, dated December 1, 2008, to Credit Agreement with Wells Fargo Bank, National Association, dated July 15, 2002.
- 10.2 Revolving Line of Credit Note dated December 1, 2008 between Rentrak Corporation and Wells Fargo Bank, National Association.
- 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a).
- 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a).
- 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350.
