OUR COMPANY

Because this is a summary, it does not contain all the information about us that may be important to you. You should read the more detailed information and the financial statements and related notes which are incorporated by reference in this prospectus.

Tutor Perini is a leading construction services company, based on revenues, as ranked by Engineering News-Record, or ENR, offering diversified general contracting and design-build services to private clients and public agencies throughout the world. We have provided construction services since 1894 and have established a strong reputation within our markets by executing large, complex projects on time and within budget while adhering to strict quality control measures. We offer general contracting, pre-construction planning and comprehensive project management services, including the planning and scheduling of the manpower, equipment, materials and subcontractors required for a project. We also offer self-performed construction services including excavation, concrete forming and placement, steel erection, electrical and mechanical services, plumbing and HVAC.

Our business is conducted through three basic segments: building, civil, and management services. Our building segment, comprised of Perini Building Company, the building operations of Tutor-Saliba Corporation, James A. Cummings, Inc., Rudolph and Sletten, Inc., and Keating Building Corporation, focuses on large, complex projects in the hospitality and gaming, healthcare, municipal offices, sports and entertainment, education, transportation, corrections, biotech, pharmaceutical and high-tech markets, and electrical, mechanical, plumbing and HVAC services as a subcontractor to the Company and other general contractors. Our civil segment is comprised of Perini Civil Construction, the civil operations of Tutor-Saliba Corporation and Cherry Hill Construction, Inc., and focuses on public works construction primarily in the western, northeastern and mid-Atlantic United States, including the repair, replacement and reconstruction of the public infrastructure such as highways, bridges, mass transit systems and wastewater treatment facilities. Our management services segment, including the recently merged Tutor-Saliba Corporation operation in Guam, provides diversified construction and design-build services to the U.S. military and government agencies as well as to surety companies and multi-national corporations in the United States and overseas.

Business Segment Overview:

Building Segment

Our building segment has significant experience providing services to a number of specialized building markets, including the hospitality and gaming, healthcare, municipal offices, sports and entertainment, education, transportation, corrections, biotech, pharmaceutical and high-tech markets, and electrical, mechanical, plumbing and HVAC services. We believe our success within the building segment results from our proven ability to manage and perform large, complex projects with aggressive fast-track schedules, elaborate designs and advanced mechanical, electrical and life safety systems while providing accurate budgeting and strict quality control. Although price is a key competitive factor, we believe our strong reputation, long-standing customer relationships and significant level of repeat and referral business have enabled us to achieve our leading position.

We are a recognized leader in the hospitality and gaming market, specializing in the construction of high-end destination resorts and casinos and Native American developments. We work with hotel operators, Native American tribal councils, developers and architectural firms to provide diversified construction services to meet the challenges of new construction and renovation of hotel and resort properties. We believe that our reputation for completing projects on time is a significant competitive advantage in this market, as any delay in project completion may result in significant loss of revenues for the customer.

As a result of our reputation and track record, we have been awarded and are currently working on contracts for several marquee projects in the hospitality and gaming market in Las Vegas, including Project CityCenter for MGM MIRAGE, The Cosmopolitan Resort and Casino, the Wynn Encore Hotel and the Planet Hollywood Tower. We also have completed work on several other marquee projects in the hospitality and gaming market, including Paris Las Vegas, Mohegan Sun and the MGM Grand at Foxwoods resort expansion, both in Connecticut, the Morongo Casino Resort and Spa and the Pechanga Resort and Casino, both in California, the Seminole Hard Rock Hotels and Casinos in Florida, the Red Rock Casino Resort Spa, the Augustus Tower at Caesars Palace, the Trump International Hotel and Tower, all in Las Vegas, and the Gaylord National Resort and

Convention Center in the Washington, DC area. In other end markets, we have constructed large, complex projects such as the Airport Parking Garage and Rental Car Facility in Ft. Lauderdale, FL; the Palm Beach International Airport Parking Garage in West Palm Beach, FL; the San Francisco International Airport reconstruction; the Florida International University Health and Life Sciences Building in Miami, FL; the Glendale Arena in Glendale, AZ; the Stanford University Cancer Center in Stanford, CA; the Johnson & Johnson Pharmaceutical R&D Expansion in La Jolla, CA; and the Kaiser Hospital and Medical Office Building in Santa Clara, CA.

In January 2003, the acquisition of James A. Cummings, Inc. expanded our presence in the southeastern region of the United States. Cummings specializes in the construction of schools, municipal buildings and commercial developments. In October 2005, we acquired Rudolph and Sletten, Inc., an established building contractor and construction management company based in Redwood City, California, to expand our presence on the west coast of the United States. Rudolph and Sletten, Inc. specializes in the construction of corporate campuses and healthcare, gaming, biotech, pharmaceutical and high-tech projects. In September 2008, we merged with Tutor-Saliba Corporation to further expand our presence in the western United States. Tutor-Saliba Corporation is an established building contractor specializing in the construction of hospitality and gaming projects, as well as both private and public works building projects, including transportation, healthcare, education and office building projects, primarily in Nevada and California. In January 2009, we completed our acquisition of Keating Building Corporation, which enabled us to expand our building construction market presence in the eastern half of the United States, including the northeast and mid-Atlantic regions. Keating has a history of successfully completed projects in the corporate campus, gaming, hospitality, education, pharmaceutical and institutional building construction markets.

Civil Segment

Our civil segment specializes in public works construction and the repair, replacement and reconstruction of infrastructure, primarily in the western, northeastern and mid-Atlantic United States. Our civil contracting services include construction and rehabilitation of highways, bridges, mass transit systems and wastewater treatment facilities. Our customers primarily award contracts through one of two methods: the traditional public competitive bid method, in which price is the major determining factor, or through a request for proposals where contracts are awarded based on a combination of technical capability and price. Traditionally, our customers require each contractor to pre-qualify for construction business by meeting criteria that include technical capabilities and financial strength. We believe that our financial strength and outstanding record of performance on challenging civil works projects enables us to pre-qualify for projects in situations where smaller, less diversified contractors are unable to meet the qualification requirements. We believe this is a competitive advantage that makes us an attractive partner on the largest infrastructure projects and prestigious DBOM (design-build-operate-maintain) contracts, which combine the nation's top contractors with engineering firms, equipment manufacturers and project development consultants in a competitive bid selection process to execute highly sophisticated public works projects.

We believe the civil segment provides significant opportunities for growth. The U.S. government approved a multi-billion dollar economic stimulus package in 2009 which includes significant funding for civil construction, public healthcare and public education projects over the next several years. We have been active in civil construction since 1894 and believe we have developed a particular expertise in large, complex civil construction projects. We have completed or are currently working on some of the most significant civil construction projects in the northeastern United States. We have completed work on multiple portions of the Boston Central Artery/Tunnel project; New Jersey Light Rail Transit; the Richmond/San Rafael Bridge retrofit in California; the Alameda Corridor project in Southern California; rehabilitations of the Triborough, Williamsburg and Whitestone bridges in New York City and the Passaic River Bridge in New Jersey; Jamaica Station transportation center in New York; and sections of both the Brooklyn-Queens Expressway and the Long Island Expressway. We are currently working on rehabilitations of the Tappan Zee Bridge in Westchester County, New York, and the Route 9 bridge replacement in Peekskill, New York, along with work on the Harold Structures mass transit project in Queens, New York, and the construction of express toll lanes along I-95 in Maryland.

In January 2005, we acquired Cherry Hill Construction, Inc. to expand our presence in the mid-Atlantic and southeastern regions of the United States. Cherry Hill Construction, Inc. specializes in excavation, foundations, paving and construction of civil infrastructure. With the merger with Tutor-Saliba Corporation in September 2008,

we significantly expanded our civil construction presence. Tutor-Saliba Corporation is an established civil construction contractor specializing in mass transit, airport and bridge projects in California.

Management Services Segment

Our management services segment provides diversified construction and design-build services to the U.S. military and government agencies as well as surety companies and multi-national corporations in the United States and overseas. We believe customers choose our services based on our ability to plan and execute rapid response assignments and multi-year contracts through our diversified construction and design-build abilities. In addition, we believe we have demonstrated consistently superior performance on competitively bid or negotiated multi-year, multi-trade, task order and ID/IQ (Indefinite Delivery/Indefinite Quantity) construction programs. We have been chosen by the federal government for significant projects related to defense and reconstruction projects in Iraq and Afghanistan. For example, we are currently working on several overhead coverage, housing, administrative, and transportation projects in Iraq. In addition, we completed work on the design and construction of four military bases in Afghanistan for the Afghan National Army.

We believe we are well positioned to capture additional management services projects that involve long-term contracts and provide a recurring source of revenues as the level of government expenditures for defense and homeland security has increased in response to the global threat of terrorism. For example, we have completed all work on a multi-year contract with the U.S. Department of State, Office of Overseas Buildings Operations, to perform design-build security upgrades at 27 U.S. embassies and consulates throughout the world. In addition, our proven abilities with federal government projects have enabled us to win contracts from private defense contractors who are executing projects for the federal government. For example, we have completed design and construction contracts with Raytheon Integrated Defense Systems for upgrades to radar facilities at Beale Air Force Base in California, the Cobra Dane Facility on Shemya Island, Alaska, and at a Royal Air Force facility in Fylingdales, England to meet the requirements of a new early warning radar system. Black Construction, one of our subsidiaries, is expected to generate a significant portion of its future revenues from the construction of facilities for the expansion of the United States military's presence on the island of Guam.

We also provide diversified management services to surety companies and multi-national corporations. We are under agreement with a major North American surety company to provide rapid response, contract completion services. Upon notification from the surety of a contractor bond default, we provide management or general contracting services to fulfill the contractual and financial obligations of the surety.

We are a Massachusetts corporation. We were incorporated in 1918 as a successor to businesses that had been engaged in providing construction services since 1894. Our principal executive offices are located at 15901 Olden Street, Sylmar, CA 91342, and our telephone number is 818-362-8391.

Summary of Resale Restrictions

The shares to be offered hereby were acquired by the selling shareholders as consideration in connection with the Company's merger with Tutor-Saliba Corporation. At the time of the merger, we entered into a shareholders agreement with all of the former shareholders of Tutor-Saliba Corporation (the "Shareholders Agreement") pursuant to which we agreed to register shares of our common stock held by or issuable to the selling shareholders. Additionally, the selling shareholders who received their shares in the merger agreed to certain resale restrictions, as follows:

Prior to March 2009, none of the shareholders party to the Shareholders Agreement were permitted to transfer or dispose of the shares of Company common stock acquired pursuant to the merger other than to certain affiliated persons.

Following March 2009, Ronald N. Tutor, Ronald N. Tutor Separate Property Trust, Ronald N. Tutor 2006 QuickGRAT and any affiliate of the foregoing (collectively the "Tutor Group") continue to be subject to a limitation on the number of shares they can sell. Specifically, the Tutor Group is not permitted to transfer shares of common stock unless after doing so the Tutor Group continues to collectively own at least 70% of the shares of Company common stock acquired by them pursuant to the merger, subject to certain exceptions we describe below. The Tutor Group acquired 22,106,155 shares pursuant to the merger, 7,705,125 of which are being registered by this prospectus. In order to continue to hold at least 70% of the shares acquired pursuant to the merger, the Tutor Group is not permitted to sell more than 6,631,846 shares prior to the earliest of (i) September 8, 2013, (ii) at such time that the Tutor Group collectively ceases to own 20% of the aggregate issued and outstanding shares of Company common stock or (iii) upon approval by a majority of the Company's board of directors, excluding Mr. Tutor and the directors designated by him.

The limitation on the sale of shares by the Tutor Group lapses if Ronald N. Tutor's employment with the Company is terminated without cause under the terms of Mr. Tutor's employment agreement with the Company, except that transfers of Company common stock by the Tutor Group do not include a transfer of shares directly or indirectly equal to 15% of the total voting power of the Company to any person or group.

A tabular summary of the foregoing is included below:

| Selling Stockholder | Total Shares Registered by this Prospectus | Shares Eligible for Resale Immediately | Shares Subject to Restrictions that Lapse no later than September 8, 2013 |
|---------------------|---|---|---|
| Ronald N. Tutor | 7,705,125 (1) | 6,631,846 | 1,073,279 (2) |

(1) Includes shares held by Ronald N. Tutor Separate Property Trust and Ronald N. Tutor 2006 QuickGRAT.

(2) This number does not include 14,401,030 additional shares acquired by the Tutor Group pursuant to the merger, which are not being registered at this time but which will be eligible for resale no later than September 8, 2013. These additional shares may be registered at any time under the terms of the Shareholders Agreement.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the common stock by the selling shareholders pursuant to this prospectus. However, we will pay the expenses of registration of all of the shares that are offered pursuant to this prospectus, including legal and accounting fees.

The selling shareholders are subject to the applicable provisions of the Exchange Act and the rules and regulations under the Exchange Act, including Regulation M. This regulation may limit the timing of purchases and sales of any of the shares of common stock offered in this prospectus by the selling shareholders. The anti-manipulation rules under the Exchange Act may apply to sales of shares in the market and to the activities of the selling shareholders and their affiliates. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities for the particular securities being distributed for a period of up to five business days before the distribution. The restrictions may affect the marketability of the shares and the ability of any person or entity to engage in market-making activities for the shares.

To the extent required, this prospectus may be amended and/or supplemented from time to time to describe a specific plan of distribution. Instead of selling the shares of common stock under this prospectus, the selling shareholders may sell the shares of common stock in compliance with the provisions of Rule 144 under the Securities Act, if available, or pursuant to other available exemptions from the registration requirements of the Securities Act.
