ODYSSEY MARINE EXPLORATION, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE A BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Odyssey Marine Exploration, Inc. and subsidiaries (the Company, Odyssey, us, we or our) have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and the instructions to Form 10-Q and, therefore, do not include all information and footnotes normally included in financial statements prepared in accordance with generally accepted accounting principles. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

In the opinion of management, these financial statements reflect all adjustments, including normal recurring adjustments, necessary for a fair presentation of the financial position as of September 30, 2010, and the results of operations and cash flows for the interim periods presented. Operating results for the nine-month period ended September 30, 2010, are not necessarily indicative of the results that may be expected for the full year. We have evaluated subsequent events for recognition or disclosure through the date this Form 10-Q is filed with the Securities and Exchange Commission.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Company is presented to assist in understanding our financial statements. The financial statements and notes are representations of the Company's management, who are responsible for their integrity and objectivity, and have prepared them in accordance with our customary accounting practices.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Odyssey Marine Services, Inc., OVH, Inc., Odyssey Retriever, Inc. and Odyssey Marine Entertainment, Inc. All significant inter-company transactions and balances have been eliminated. Equity investments in which we exercise significant influence but do not control and are not the primary beneficiary are accounted for using the equity method.

Shipwreck Heritage Press, LLC was organized during 2005 to publish and distribute print media. The entity does not have any current activity and has not been capitalized, and therefore, it is not consolidated.

Use of Estimates

Management used estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

Reclassifications

At December 31, 2009, a deferred revenue balance of \$1,257,453 was included in the accrued expenses and other balance of \$3,390,450. In the December 31, 2009 balance sheet presented, the deferred revenue balance has been reclassified into its own account. This reclassification has no effect on net income for the fiscal year ended December 31, 2009.

Revenue Recognition and Accounts Receivable

Revenue from product sales is recognized at the point of sale when legal title transfers. Legal title transfers when product is shipped or is available for shipment to customers. Exhibit or expedition revenue is recognized based upon the accrual method of accounting supported by contractual terms of an agreement. Bad debts are recorded as identified, and no allowance for bad debts has been recorded. A return allowance is established for sales which have a right of return. Accounts receivable is stated net of any recorded allowance for returns, if any.

Cash, Cash Equivalents and Restricted Cash

Cash, cash equivalents and restricted cash include cash on hand and cash in banks. We also consider all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Table of Contents

Fair Value of Financial Instruments

The carrying value of cash and cash equivalents, accounts receivable, prepaid expense, accounts payable, accrued expense, loan payable and mortgage payable approximate fair value. Considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value, and, accordingly, the estimates are not necessarily indicative of the amounts that we could realize in a current market exchange.

Inventory

Our inventory consists mainly of artifacts recovered from the *SS Republic* shipwreck as well as general branded merchandise and related packaging material. The value of recovered artifacts in inventory is comprised of the costs of recovery and conservation. Costs of recovery include direct operating costs such as vessel and related equipment operations and maintenance, crew and technical labor, fuel, provisions and supplies, port fees and depreciation. The *SS Republic* recovery costs also include the fee paid to an insurer to relinquish the insurer's claim to the artifacts recovered from the shipwreck. Conservation costs include fees paid to conservators for cleaning and preparing the artifacts for sale. We continually monitor the recorded aggregate costs of the artifacts in inventory to ensure these costs do not exceed the net realizable value. Historical sales, publications or available public market data are used to assess market value.

Packaging materials and merchandise are recorded at average cost. We record our inventory at the lower of cost or market.

Long-Lived Assets

Our policy is to recognize impairment losses relating to long-lived assets in accordance with the Accounting Standards Codification (ASC) topic for Property, Plant and Equipment. Decisions are based on several factors, including, but not limited to, management's plans for future operations, recent operating results and projected cash flows.

Comprehensive Income

Securities with a maturity greater than three months from purchase date are deemed available-for-sale and carried at fair value. Unrealized gains and losses on these securities are excluded from earnings and reported as a separate component of stockholders' equity. At September 30, 2010, we did not own securities with a maturity greater than three months.

Property and Equipment and Depreciation

Property and equipment is stated at historical cost. Depreciation is provided using the straight-line method at rates based on the assets' estimated useful lives, which are normally between three and ten years. Leasehold improvements are amortized over their estimated useful lives or lease term, if shorter. Major overhaul items (such as engines or generators) that enhance or extend the useful life of vessel related assets qualify to be capitalized and depreciated over the useful life or remaining life of that asset, whichever is shorter. Certain major repair items required by industry standards to ensure a vessel's seaworthiness also qualify to be capitalized and depreciated over the period of time until the next scheduled planned major maintenance for that item. All other repairs and maintenance are accounted for under the direct-expensing method and are expensed when incurred.

Earnings Per Share

Basic earnings per share (EPS) is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that would occur if dilutive securities and other contracts to issue Common Stock were exercised or converted into Common Stock or resulted in the issuance of Common Stock that then shared in our earnings. We use the treasury stock method to compute potential common shares from stock options and warrants and the as-if-converted method to compute potential common shares from Preferred Stock or other convertible securities.

When a net loss occurs, potential common shares have an anti-dilutive effect on earnings per share and such shares are excluded from the diluted EPS calculation.

At September 30, 2010 and 2009, weighted average common shares outstanding year-to-date were 65,245,071 and 55,159,192, respectively. For the periods ended September 30, 2010 and 2009, in which net losses occurred, all potential common shares were excluded from diluted EPS.

because the effect of including such shares would be anti-dilutive.

Table of Contents

The potential common shares in the following table represent potential common shares calculated using the treasury stock method from outstanding options, stock awards and warrants that were excluded from the calculation of diluted EPS:

	Three Months Ended		Nine Months Ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Average market price during the period	\$ 1.47	\$ 1.85	\$ 1.38	\$ 2.79
In-the-money potential common shares excluded	631,261	175,164	568,474	177,850

Potential common shares from out-of-the-money options and warrants were also excluded from the computation of diluted EPS because calculation of the associated potential common shares has an anti-dilutive effect on EPS. The following table lists options and warrants that were excluded from diluted EPS:

	Three Months Ended		Nine Months Ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Out of the money options and warrants excluded:				
Stock options with an exercise price of \$1.74 per share	71,500		71,500	
Stock options with an exercise price of \$2.50 per share		33,000		33,000
Stock options with an exercise price of \$3.50 per share	1,382,916	1,417,916	1,382,916	1,417,916
Stock options with an exercise price of \$3.51 per share	984,670	1,003,170	984,670	1,003,170
Stock options with an exercise price of \$3.53 per share	211,900	214,300	211,900	214,300
Stock options with an exercise price of \$4.00 per share	97,500	315,250	97,500	315,250
Stock options with an exercise price of \$5.00 per share	650,000	650,000	650,000	650,000
Stock options with an exercise price of \$7.00 per share	100,000	100,000	100,000	100,000
Warrants with an exercise price of \$2.25 per share	2,670,000		2,670,000	
Warrants with an exercise price of \$5.25 per share	100,000	100,000	100,000	100,000
Total anti-dilutive warrants and options excluded from EPS	6,268,486	3,833,636	6,268,486	3,833,636

Weighted average potential common shares from outstanding Convertible Preferred Stock calculated on an as-if-converted basis having an anti-dilutive effect on diluted EPS were excluded from potential common shares as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Potential common shares from Preferred Stock excluded from EPS	206,400	3,906,400	206,400	3,903,789

The following is a reconciliation of the numerators and denominators used in computing basic and diluted net income per share:

	Three Months Ended		Nine Months Ended	
	September 30, 2010	September 30, 2009	September 30, 2010	September 30, 2009
Net loss	\$ (1,307,313)	\$ (4,396,252)	\$ (7,917,310)	\$ (14,671,312)

Net loss per share diluted	\$ (0.02)	\$ (0.07)	\$ (0.12)	\$ (0.27)

Table of Contents**Income Taxes**

Income taxes are accounted for using an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases. A valuation allowance is provided when it is more likely than not that some portion or the entire deferred tax asset will not be realized.

Stock-based compensation

Our stock-based compensation is recorded in accordance with the guidance in the ASC topic for Stock-Based Compensation. (See NOTE J)

NOTE C RESTRICTED CASH

As required by the revolving credit facility entered into with Fifth Third Bank (the Bank) on February 7, 2008 and the renewal entered into on April 23, 2010 (See NOTE I), a balance of \$500,000 was established in an interest-bearing account from which interest payments will be made. Upon each anniversary of the facility, we deposit into the account an amount sufficient to restore the balance to \$500,000 for interest payments for the following facility year. The balance in this restricted cash account is held as additional collateral by the Bank and is not available for operations. Any funds remaining in this account at the end of the facility term will be returned to the Company. The balance in this account at September 30, 2010, was \$399,690.

As required by the mortgage loan entered into with the Bank on July 11, 2008, \$500,000 was deposited into an additional interest-bearing account from which principal and interest payments were made for the first one-year period. On each anniversary of the mortgage, we deposit or will deposit into the account an amount sufficient to ensure a balance of \$500,000 for principal and interest payments for the subsequent year of the mortgage. The balance in this restricted cash account is held as additional collateral by the Bank and is not available for operations. Any funds remaining in this account at the end of the mortgage term will be returned to the Company. The balance in this account at September 30, 2010, was \$462,634.

NOTE D ACCOUNTS RECEIVABLE

Of the \$8,661,459 accounts receivable at September 30, 2010, \$1,570,000 is owed according to the terms of sale of research material for the *Shantaram* project in the second quarter of 2010 and \$5,367,403 relates to charter activity with Dorado Ocean Resources, Ltd. The remaining balance at September 30, 2010 consists of trade receivables. The December 31, 2009 balance of \$246,266 is all trade receivables.

NOTE E INVENTORY

Our inventory consisted of the following:

	September 30, 2010	December 31, 2009
Artifacts	\$ 6,212,238	\$ 6,317,383
Packaging	220,114	235,045
Merchandise	498,683	519,636
Merchandise reserve	(482,420)	(483,707)
Total inventory	\$ 6,448,615	\$ 6,588,357

Of these amounts, \$5,833,628 and \$5,950,475 is classified as non-current as of September 30, 2010 and December 31, 2009, respectively.

If we secure ownership rights to the recovered artifacts from the *Black Swan* project, we will capitalize into inventory all related costs to recover and conserve these artifacts. Recovery costs include operating costs to recover, legal fees to defend and secure ownership rights and other costs

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

associated with bringing the artifacts into an appropriate archaeological state. We have capitalized costs of approximately \$2.5 million related to recovery and conservation that have been reserved for at 100%. When and if ownership rights are secured, these deferred costs will be allocated to inventory and the reserve eliminated.

Table of Contents**NOTE F INVESTMENT IN UNCONSOLIDATED ENTITY**

During the quarter ended December 31, 2009 we invested \$500,000 for a 25% interest (five membership units) in SMM Project, LLC (SMM) to pursue opportunities in the exploration of deep-ocean gold and copper deposits. SMM purchased a majority interest in Bluewater Metals Pty, Ltd. (Bluewater), an Australian company with licenses for mineral exploration of approximately 150,000 square kilometers of ocean floor in territorial waters controlled by four different countries in the South Pacific. Effective April 2010, SMM was acquired by Dorado Ocean Resources, Ltd. (DOR) through a stock exchange agreement. At that time, DOR also acquired the remaining interest in Bluewater. We were issued 450 DOR shares in exchange for our surrendered units in SMM. Additionally, we acquired 1,200 shares of DOR valued at \$2,000,000 that resulted in a 41.25% ownership of DOR prior to any additional dilution that may result from additional financing. Currently we have a 40.8% ownership. Under the terms of the Share Subscription Agreement, we have the option to pay for this investment in cash or by providing marine services to DOR over a three-year period commencing April 2010. Subsequently we purchased geological equipment for DOR resulting in the reduced September 30, 2010 balance of \$1,816,753. The focus of DOR is on the exploration and monetization of gold and copper-rich Seafloor Massive Sulfide (SMS) deposits. We have dedicated certain marine assets, including a ship and related marine exploration technology, to the endeavor on a reasonable commercial basis. In addition, we are providing proprietary expertise and personnel management to the new entity under contract.

For the three- and nine- month periods ended September 30, 2010, DOR incurred losses of \$7,132,160 and \$8,045,433, respectively. Our share of losses recognized in our income statement for the three- and nine- month periods ended September 30, 2010 are \$2,112,011 and \$2,447,471, respectively. We are only at risk for the carrying value of our investment which was \$2,112,011 before recognizing any loss for the three month period ended September 30, 2010; otherwise, we would have recognized an allocable loss of \$2,909,011 based on our current ownership percentage.

NOTE G INCOME TAXES

As of September 30, 2010, the Company had consolidated income tax net operating loss (NOL) carryforwards for federal tax purposes of approximately \$105 million. The NOL will expire in various years beginning in 2017 and ending in 2030.

Deferred income taxes reflect the net tax effects of the temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities are as follows:

Deferred tax assets:	
Net operating loss and capital loss carryforwards	\$ 38,116,336
Accrued expenses	93,759
Reserve for inventory	169,405
Start-up costs	107,470
Excess of book over tax depreciation	1,027,998
Stock option expense	2,371,730
Investment in unconsolidated entity	877,892
Less: valuation allowance	(42,624,408)
	\$ 140,182
Deferred tax liability:	
Property and equipment basis	\$ 69,516
Prepaid expenses	70,666
	\$ 140,182
Net deferred tax asset	\$

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

As reflected above, we have recorded a net deferred tax asset of \$0 at September 30, 2010. As required by the Accounting for Income Taxes topic in the ASC, we have evaluated whether it is more likely than not that the deferred tax assets will be realized. Based on the available evidence, we have concluded that it is more likely than not that those assets would not be realized without the recovery and rights of ownership or salvage rights of high value shipwrecks and thus a valuation allowance has been recorded as of September 30, 2010. While we have recovered more than 17 tons of silver and hundreds of gold coins and other artifacts from the *Black Swan* project, we do not have the ability to monetize the recovered cargo unless and until we are awarded title or a salvage award by the court or otherwise reach a settlement of the matter.

The change in the valuation allowance is as follows:

September 30, 2010	\$ 42,624,408
December 31, 2009	39,693,015
Change in valuation allowance	\$ 2,931,393

Table of Contents

Income taxes for the nine-month periods ended September 30, 2010 and 2009 differ from the amounts computed by applying the effective federal income tax rate of 34.0% to income (loss) before income taxes as a result of the following:

	September 30, 2010	September 30, 2009
Expected (benefit)	\$ (2,691,886)	\$ (4,988,246)
State income taxes net of federal benefits	(87,926)	(212,304)
Nondeductible expense	12,327	12,630
Stock options exercised		4,285
Change in valuation allowance	2,931,393	5,096,257
Effects of:		
Change in apportionment estimate	(164,387)	87,471
Other, net	479	(93)
	\$	\$

We have not recognized a material adjustment in the liability for unrecognized tax benefits and have not recorded any provisions for accrued interest and penalties related to uncertain tax positions.

The earliest tax year still subject to examination by a major taxing jurisdiction is 2006.

NOTE H COMMITMENTS AND CONTINGENCIES**Legal Proceedings**

The Company may be subject to a variety of claims and suits that arise from time to time in the ordinary course of business. Management is currently not aware of any claims or suits that will have a material adverse impact on its financial position or its results of operations.

Trends and Uncertainties

Based upon our current expectations, we believe our cash position should be sufficient to fund operating cash flows throughout the rest of 2010 taking into account our capital raises, expected revenues from multiple sources, including projected sales and syndicated projects, commercial salvage activities, surveys and our ability to realize our accounts receivable. While we have recovered more than 17 tons of silver coins and hundreds of gold coins and other artifacts from the *Black Swan* project, we will not be able to monetize any recovered cargo unless we are awarded title or a salvage award by the U.S. District Court. At the present time, we cannot determine how long that process may take, and there is no way to estimate the likelihood of receiving a salvage award from the U.S. District Court. We have also identified one potential high value target shipwreck, HMS *Victory*. However, unless there is an agreement with the U.K. government, we will not be able to conduct any archaeological recoveries on this project. If cash flow is not sufficient to meet our projected business plan requirements, we will be required to raise additional capital or curtail expenses. While we have been successful in raising the necessary funds in the past, there can be no assurance that we can continue to do so.

NOTE I MORTGAGE AND LOANS PAYABLE

The Company's consolidated debt consisted of the following at September 30, 2010 and December 31, 2009:

September 30, 2010	December 31, 2009
-----------------------	----------------------

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

Revolving credit facility	\$ 5,000,000	\$ 4,927,286
Notes payable	1,759,229	
Mortgage payable	2,988,044	3,123,839
	\$ 9,747,273	\$ 8,051,125

Revolving Credit Facility

On February 7, 2008, we entered into a \$5 million revolving credit facility with Fifth Third Bank (the Bank). The credit facility has a floating interest rate equal to the Prime Rate plus fifty basis points (.50%), requires monthly payments of interest only and was originally due in full February 7, 2010, and a 90-day extension was granted until May 7, 2010. On April 23, 2010, the Bank renewed the credit facility which is due in full on April 23, 2011. The facility requires us to pay the Bank an unused line fee equal to one-half percent (0.50%) per annum of the unused portion of the credit line. The line of credit is secured by a restricted cash balance (See NOTE C) as well as approximately 28,500 coins recovered from the SS *Republic* shipwreck, which amount will be reduced over the term by the amount of coins sold. The modified borrowing base is equal to forty percent

Table of Contents

(40%) of the eligible coin inventory calculated on a rolling twelve-month wholesale average value. Odyssey is required to comply with a number of customary affirmative and negative covenants. The significant covenants include: maintaining insurance on the inventory; ensuring the collateral is free from encumbrances and without the consent of the Bank, the Company cannot merge or consolidate with or into any other corporation or entity nor can the Company enter into a material debt agreement with a third party.

Notes Payable

On August 20, 2010, we entered into individual purchase agreements with certain investors pursuant to which we issued and sold promissory notes in the aggregate principal amount of \$1,800,000 and warrants to purchase an aggregate of 270,000 shares of common stock. The notes bear interest at a rate equal to 5.0% per annum, and all principal and accrued interest thereunder is due and payable on or before December 18, 2010. If an event of default occurs, the notes will thereafter bear interest at a rate equal to 25% per annum. As of October 18, 2010, these notes were pre-paid and satisfied in their entirety. The warrants have an exercise price of \$2.25 per share of common stock and will be exercisable in accordance with their terms at any time on or before the close of business on August 20, 2013. These warrants represented a discount on the notes payable, therefore were valued using the Black-Scholes valuation method and bifurcated establishing a discount on notes payable for \$150,893 and a corresponding increase to paid-in-capital. The discount is being amortized to interest expense over the life of the note until October 18, 2010. The notes payable of \$1,800,000 at September 30, 2010 is shown net of the discount remaining which is \$40,771.

Mortgage Payable

On July 11, 2008, we entered into a mortgage loan with Fifth Third Bank. Pursuant to the Loan Agreement, we borrowed \$2,580,000. The loan bears interest at a variable rate equal to the prime rate plus three-fourths of one percent (0.75%) per annum. The loan matures on July 11, 2013, and requires us to make monthly principal payments in the amount of \$10,750 plus accrued interest. This loan is secured by a restricted cash balance (See NOTE C) as well as a first mortgage on our corporate office building. This loan contains customary representations and warranties, affirmative and negative covenants, conditions, and other provisions.

During May 2008, we entered into a mortgage loan in the principal amount of \$679,000 with The Bank of Tampa to purchase our conservation lab and storage facility. This obligation has a monthly payment of \$5,080 and a maturity date of May 14, 2015. Principal and interest payments are payable monthly. Interest is at a fixed annual rate of 6.45%. This debt is secured by the related mortgaged real property. The seller is carrying a second mortgage for \$100,000 with interest due monthly and \$25,000 of principal due each May commencing in May 2009. The interest is at a variable rate of 1.0% above the prime interest rate stated by BB&T, formerly Colonial Bank of Tampa. This obligation has a maturity date of May 14, 2012, and is also secured by the related mortgaged real property.

NOTE J STOCKHOLDER S EQUITY

Common Stock

On May 6, 2010, we issued 1,300,000 shares of common stock to one institutional investor upon conversion of 13 outstanding shares of our Series E Convertible Preferred Stock.

On April 20, 2010, we issued 600,000 shares of common stock to one institutional investor upon conversion of 600,000 outstanding shares of our Series D Convertible Preferred Stock.

On March 18, 2010, we issued 600,000 shares of common stock to one institutional investor upon conversion of 600,000 outstanding shares of our Series D Convertible Preferred Stock.

On February 12, 2010, we issued 500,000 shares of common stock to one institutional investor upon conversion of 500,000 outstanding shares of our Series D Convertible Preferred Stock.

During January 2010, we entered into individual purchase agreements with certain investors pursuant to which we sold an aggregate of 4,000,000 shares of Odyssey's common stock and warrants to purchase up to 2,400,000 shares of common stock to such investors. The common stock and warrants were sold as units, with each unit consisting of one share of common stock and a warrant to purchase 0.6 shares of common stock. The purchase price for each unit was \$1.565. The warrants have an exercise price of \$2.25 per share of common stock and are exercisable in accordance with their terms at any time on or before the close of business on January 29, 2013. The net proceeds to us from the registered direct public offering, after deducting placement agent fees and its offering expenses, and excluding the proceeds, if any, from the exercise of the warrants issued in the offering, were approximately \$6.1 million.

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

On May 22, 2009, we issued and sold 1,720,000 shares of common stock at a price of \$2.965 per share, for an aggregate purchase price of \$5,100,000 in cash, pursuant to a Common Stock Purchase Agreement between the Company and three funds managed by two accredited investors. During the three-month period ended June 30, 2009, we issued 4,241,200 shares of common stock to two accredited investors upon conversion of 4,241,200 shares of Series D Convertible Preferred Stock.

Table of Contents

On January 28, 2009, we issued 250,000 shares of common stock to one accredited investor upon conversion of 250,000 shares of Series D Convertible Preferred Stock.

Preferred Stock

During January 2009, three accredited investors exercised warrants for the purchase of 197,600 shares of Series D Convertible Preferred Stock for an aggregate exercise price of \$790,400.

Stock-Based Compensation

We have two active stock incentive plans, the 1997 Stock Incentive Plan and the 2005 Stock Incentive Plan (the Plan). The 1997 Stock Incentive Plan expired on August 17, 2007. As of that date, options cannot be granted from that Plan but any granted and unexercised options will continue to exist until exercised or they expire. The Plan provides for the grant of incentive stock options, non-qualified stock options, restricted stock awards, restricted stock units and stock appreciation rights. We initially reserved 2,500,000 of our authorized but unissued shares of common stock for issuance under the Plan, and, at the time the Plan was adopted, not more than 500,000 of these shares could be used for restricted stock awards and restricted stock units. On January 16, 2008, the Board of Directors approved amendments to the Plan to add 2,500,000 shares of common stock to the Plan, to allow any number of shares to be used for restricted stock awards, to clarify certain other provisions in the Plan and to submit the amended Plan for stockholder approval. The amended Plan was approved at the annual meeting of stockholders on May 7, 2008. On June 3, 2010, the stockholders approved the addition of 3,000,000 shares to the Plan. Any incentive option and non-qualified option granted under the Plan must provide for an exercise price of not less than the fair market value of the underlying shares on the date of grant, but the exercise price of any incentive option granted to an eligible employee owning more than 10% of our outstanding common stock must not be less than 110% of fair market value on the date of the grant.

Share-based compensation expense recognized during the period is based on the value of the portion of share-based payment awards that is ultimately expected to vest. As share-based compensation expense recognized in the statement of operations is based on awards ultimately expected to vest, it will be reduced for forfeitures. The ASC topic Stock Compensation requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The share based compensation charged against income for the nine-month periods ended September 30, 2010 and 2009 was \$1,406,640 and \$1,629,182, respectively, and for the three-month periods ended September 30 2010 and 2009 was \$469,092 and \$414,091, respectively.

The weighted average estimated fair value of stock options granted during the three-month period ended September 30, 2010, was \$.84. We did not issue stock options in the three-month period ended September 30, 2009. The weighted average fair value of stock options granted is determined using the Black-Scholes option-pricing model, which values options based on the stock price at the grant date, the expected life of the option, the estimated volatility of the stock, the expected dividend payments, and the risk-free interest rate over the life of the option. The Black-Scholes option valuation model was developed for estimating the fair value of traded options that have no vesting restrictions and are fully transferable. Because option valuation models require the use of subjective assumptions, changes in or variations from these assumptions can materially affect the fair value of the options.

	September 30, 2010	September 30, 2009
Risk-free interest rate	.67%	
Expected volatility of common stock	70.54%	
Dividend yield	0%	
Expected life of options	3.3 years	

NOTE K DEFERRED REVENUE

During the three-month period ended June 30, 2010, we entered into two marine search services contracts associated with the Robert Frasier Marine, Ltd. projects. These contracts are comprised of two components: sale of research and search operations. Cash payments for the sale of research are received and recorded as revenue upon execution of the contract. Cash payments for search operations are normally 50% on contract, 40% upon arrival at the site and 10% upon completion; however, revenue is recognized over the contractual period when services are performed. The period of time a search operation contract is active varies but will generally last over several months and may be accelerated or extended depending upon operational factors. At September 30, 2010, we have a \$1,620,734 service obligation that will be recognized as

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

revenue over the period of time the contractual services are provided. At December 31, 2009, related to another marine search services contract, we had deferred revenue of \$1,257,453 which was earned in 2010. For the three-month and nine-month periods ended September 30, 2010, we earned charter expedition revenue of \$679,132 and \$3,151,680, respectively, relating to these contracts.

Table of Contents

NOTE L CONCENTRATION OF CREDIT RISK

We maintain our cash in three financial institutions. The Federal Deposit Insurance Corporation insures up to \$250,000 per legal entity per financial institution through December 31, 2013. On July 21, 2010, the Federal Deposit Insurance Corporation made the \$250,000 insurance limit permanent. Previously, our main financial institution participated in the Transaction Guarantee Program which provided unlimited coverage to checking deposit accounts that do not earn interest. On July 1, 2010, our main financial institution opted out of the Transaction Guarantee Program. At September 30, 2010, our uninsured cash balance was approximately \$1,600,000.

Our revolving credit facility and primary mortgage bear interest at variable rates and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even though the principal amount of such indebtedness remained the same. Interest on both of these debt instruments are equal to prime plus basis points as described in NOTE I. An increase in the prime rate could have an adverse effect on our operating cash flows and financial condition but we believe it would not be material.

NOTE M SUBSEQUENT EVENTS

On October 6, 2010, we entered into separate purchase agreements with certain investors pursuant to sell 24 shares of Series G 8% Convertible Preferred Stock, par value \$0.0001 per share, and warrants to purchase up to 1,800,000 shares of Odyssey's common stock to such investors. The Series G preferred stock and warrants were offered as units, with each unit consisting of one share of Preferred Stock and a Warrant to purchase 75,000 shares of common stock. The purchase price for each unit was \$250,000 (the Financing Arrangement). On October 12, 2010, we completed the Financing Arrangement which resulted in the sale of 24 units for cash proceeds of \$5,050,000 and the exchange for face value \$950,000 of 5.0% Promissory Notes, issued August 20, 2010 and due December 18, 2010 (also see NOTE I).

Our Series G Preferred Stock has a liquidation value of \$250,000 per share and provides for cumulative dividends of \$20,000 per share per annum (8% of the liquidation preference) payable upon declaration by our Board of Directors. The Series G Preferred Stock is convertible into shares of our common stock after April 11, 2011 at an initial conversion price of \$1.785714. The initial conversion price is subject to adjustment for changes in our capital structure and for sales or issuances of common stock or contracts linked to our common stock at amounts or conversion prices below the initial conversion price. The Series G Preferred Stock is redeemable for cash at our option after December 15, 2010. For the period from December 15, 2010 to March 31, 2011, the cash redemption price is 100% of the liquidation value. Subsequently, the redemption price increases at a rate of 1% of the liquidation value each month. The Series G Preferred Stock is also redeemable for cash at the option of the investors after December 15, 2011 at a redemption price equal to our redemption price. Accordingly, the initial redemption price to the investors on December 15, 2011 is \$272,500 per share (or 109% of the liquidation value). The Series G Preferred Stock votes with our common stock on an if-converted basis.

The Warrants were immediately exercisable by the investors at an initial exercise price of \$2.50 per share. The exercise price is subject to adjustment for changes in our capital structure and for sales or issuances of common stock or contracts linked to our common stock at amounts or exercise prices below the initial exercise price. The Warrants, which expire on October 11, 2013, do not extend voting or any other rights of a shareholder to the investors. We have agreed to maintain effectiveness of a Registration Statement that applies to common shares underlying the Warrants.

We will account for the Financing Arrangement in the period it was completed. We will account for exchange of Series G Preferred Stock and Warrants for Promissory Notes as an extinguishment of the Promissory Notes, wherein the financial instruments issued will be recorded at their fair values, the carrying values of our Promissory Notes will be removed from our accounts and the difference will be reflected as a gain or a loss upon extinguishment. At the time of filing of this report, we have not completed the calculation of the fair values of the financial instruments issued.

We will account for the sale of Series G Preferred Stock and Warrants for cash as a financing transaction, wherein the net proceeds that we received will be allocated to the financial instruments and other components issued. For purposes of our allocation, we have concluded that the Warrants do not achieve conditions necessary for their classification in our stockholders' equity. Accordingly, we will first allocate proceeds to the Warrants based upon their fair value. We have also concluded certain features embedded in the Series G Preferred Stock, including the conversion and redemption features, are required to be separated as a compound derivative financial instrument from the Series G Preferred Stock. Accordingly, we will next allocate proceeds to this compound derivative financial instrument based upon its fair value. We have not completed the calculation of fair values of the Warrants or the compound derivative financial instrument. The residual balance of the proceeds, after allocation to the Warrants and the compound derivative financial instrument, will be allocated to the Series G Preferred Stock.

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

The Warrants and the compound derivative financial instrument are required to be classified in liabilities and measured at their fair values both initially and subsequently, with changes in fair value reflected in our income. The Series G Preferred Stock is required to be classified outside of stockholders' equity because it is a redeemable security. The residual value initially ascribed to

Table of Contents

the Series G Preferred Stock will be accreted to its redemption value, through charges to retained earnings using the effective interest method, over the period from issuance to the earliest redemption date of December 15, 2011. Also, following the issuance of the Series G Preferred Stock, charges for accretion and dividends, whether or not declared, will be reflected as a reduction to our income for purposes of computing income (loss) applicable to our common stockholders and income (loss) per common share.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion will assist in the understanding of our financial position and results of operations. The information below should be read in conjunction with the financial statements, the related notes to the financial statements and our Annual Report on Form 10-K for the year ended December 31, 2009.

In addition to historical information, this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 regarding the Company's expectations concerning its future operations, earnings and prospects. On the date the forward-looking statements are made, the statements represent the Company's expectations, but the expectations concerning its future operations, earnings and prospects may change. The Company's expectations involve risks and uncertainties (both favorable and unfavorable) and are based on many assumptions that the Company believes to be reasonable, but such assumptions may ultimately prove to be inaccurate or incomplete, in whole or in part. Accordingly, there can be no assurances that the Company's expectations and the forward-looking statements will be correct. Please refer to the Company's most recent Annual Report on Form 10-K for a description of risk factors that could cause actual results to differ (favorably or unfavorably) from the expectations stated in this discussion. Odyssey disclaims any obligation to update any of these forward-looking statements except as required by law.

Operational Update

We have numerous shipwreck projects in various stages of development around the world. In order to protect the targets of our planned search or recovery operations, in some cases we will defer disclosing specific information relating to our projects until we have located a shipwreck or targets of interest and determined a course of action to protect our property rights.

Additional information regarding our announced projects may be found in our Annual Report on Form 10-K for the year ended December 31, 2009 and our Quarterly Reports on Form 10-Q for the quarters ending March 31, 2010 and June 30, 2010. Only projects with material status updates since those reports were filed are discussed below. We may have other projects in various stages of planning or execution that may not be disclosed for security or legal reasons until considered appropriate by management.

We may use our vessels, the *Odyssey Explorer* and *Ocean Alert*, or chartered vessels to conduct operations based on availability.

***Atlas* Search Project**

Between 2005 and 2010, we searched more than 5,000 square nautical miles of seabed in the western English Channel and the Western Approaches to the Channel, recording over 270 shipwrecks. The shipwrecks discovered include site 35-F, the *Marquise de Tourny*, and HMS *Victory* (1744). Additional high-value targets are believed to be within the *Atlas* search area, and search operations are currently underway in this area.

HMS *Victory* Project

We discovered and conducted a preliminary investigation of the shipwreck of Admiral Balchin's HMS *Victory* (which sank in 1744) during our 2008 *Atlas* season and we have been cooperating closely with the United Kingdom (UK) Ministry of Defence (the MOD) on the project. All activities at the site, including the recovery of two bronze cannon, have been conducted in accordance with protocols approved by the UK Government and Royal Navy officials. The *Victory* discovery was announced publicly February 2, 2009. On September 18, 2009, we announced an agreement with the UK Government on an 80% salvage award for the cannon recovered from the site. We have since received the cash payment as compensation under that agreement.

On March 25, 2010, the MOD and the Department for Culture Media and Sport published an official consultation document with a deadline for public submissions of June 30, 2010. Odyssey submitted a document to this process that included a proposal for additional archaeological work on the site. Although the UK is not a signatory to the United Nations Educational Scientific and Cultural Organization's (UNESCO) Convention for the Protection of Underwater Cultural Heritage (CPUCH) and therefore not bound by CPUCH, Odyssey's proposal is consistent with the archaeological principles of the Rules of CPUCH.

Table of Contents

Robert Fraser Projects (*Enigma II* , *Firebrand*, *Shantaram*)

In April 2010, we entered into agreements to provide project research and shipwreck search and survey services for a project code-named *Firebrand* associated with Robert Fraser Marine, Ltd. projects. Under the agreements, Odyssey furnished research related to *Firebrand* and its sinking and agreed to provide a research vessel, equipment and crew to search a specified area and inspect targets in that area. The contracts provided initial cash payments totaling approximately \$3.2 million (of which \$3.0 has been paid) as well as additional payments upon the sale of coins or artifacts from the *Firebrand* project. After repayment of salvage costs and fees, Odyssey will receive 75% of net revenue in aggregate until an additional £10.5 (approximately \$17 million) has been received and then 50% in aggregate of all further net revenue. Search operations have commenced on the *Firebrand* project and are currently underway.

In June 2010, we entered into agreements to provide project research and shipwreck search and survey services for a project code-named *Shantaram* associated with Robert Fraser Marine, Ltd. projects. Under the agreements, Odyssey furnished research related to *Shantaram* and its sinking and provided a research vessel, equipment and crew to search a specified area and inspect targets in that area. The contract provides for cash payments totaling approximately U.S. \$3.4 million representing initial cash payments of \$1.7 million and additional payments of approximately \$1.5 million within 30 days and \$0.2 million upon project completion, plus additional payments upon the sale of coins or artifacts from the *Shantaram* project. After the re-payment of salvage costs and fees, we will receive 75% of net revenue in aggregate until an additional £11.4 million (approximately \$18 million) has been received and then 50% in aggregate of all further net revenue. The survey of the *Shantaram* search block is complete. Targets of interest have been inspected by our remotely operated vehicle and several other targets remain to be inspected. An amount of approximately \$1.5 million remains due which we are still expecting to receive. In the event of non-payment, Odyssey has secured collateral which includes the right to receive an additional percentage of the net proceeds assuming the target shipwreck is located.

In September 2010, we executed agreements to provide supplementary project research and shipwreck search and survey services for a project code-named *Enigma II* associated with Robert Fraser Marine, Ltd. projects. As part of the agreements for the *Enigma II* project, Odyssey furnished research related to the anticipated location of the *Enigma II* and agreed to provide the research vessel, equipment and crew to search a specified area and inspect targets in that area. The contract provided for initial cash payments totaling approximately \$1.6 million to Odyssey, plus additional payments upon the sale of coins or artifacts from the *Enigma II* project. After the repayment of all recovery costs, Odyssey will receive 75% of net revenue in aggregate until an additional £5.2 million (approximately \$8 million) has been received and then 60% in aggregate of all further net revenue. Survey operations have been completed and targets of interest have been inspected with a remotely operated vehicle.

Based on preliminary results, there is evidence suggesting that at least one of the Robert Fraser Project target shipwrecks has been located. Additional analysis and investigation is currently underway.

We expect to execute additional agreements for subsea mineral exploration and other projects in the fourth quarter. To protect the security of the operations and search areas, specific location details for search projects are not being released at this time.

ET 409 Project

In January 2010, Ethiopian Airlines Flight ET 409 crashed into the Mediterranean Sea shortly after take-off from Beirut International Airport in Lebanon. When ET 409 crashed, Lebanese authorities contacted Odyssey and asked the company to assist in the search and recovery efforts. The *Alert* returned to Beirut and was integrated into search operations that included the Lebanese Navy and Army, the US Navy (USS *Ramage*) and a German Navy ship, the *Laboe*.

Before the plane wreckage was discovered, the Government of Lebanon asked Odyssey to provide additional capabilities for more complex technical documentation of the site. Odyssey sent the *Odyssey Explorer*, which was based in the UK, to Lebanon to assist. We were paid \$1.4 million for the work completed to-date by the Lebanese government. We have also completed a video survey and photomosaic of the entire area of the wreckage and debris field under contract to the airline insurance company for a total contract price of \$ 1.5 million. This groundbreaking project is believed to be the largest underwater geo-spatially accurate photomosaic ever completed, and required stitching together over 50,000 individual high resolution photos. Additional aircraft recovery work at the site is pending until a thorough review of the photomosaic has been completed by the accident investigation team.

***Gairsoppa* Project**

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

In January 2010, Odyssey was awarded the exclusive salvage contract for the cargo of the SS *Gairsoppa* by the United Kingdom (UK) Government Department for Transport. The contract was awarded after a competitive bid process and is for two years, which commenced immediately. The SS *Gairsoppa* was a British cargo steamer enlisted in the service of the United Kingdom for the Ministry of War Transport during World War II. It was torpedoed by a German U-Boat in February 1941 in the North Atlantic while reportedly carrying a significant cargo of silver.

Table of Contents

Odyssey will assume the risk, expense, and responsibility for the search, cargo recovery, documentation, and marketing of the cargo. If the salvage is successful, Odyssey will be compensated with a salvage award which consists of 80% of the net value of the recovered cargo after deduction of expenses of search and salvage. This project aligns with our strategy to focus on partnership projects with several governments that provide straightforward legal ownership arrangements.

Due to August and September hurricanes adversely affecting the North Atlantic and availability of equipment for our *Gairsoppa* search, we are currently planning to begin search operations in second quarter of 2011.

Subsea Mineral Mining and Exploration Project

Odyssey currently owns 40.8% of Dorado Ocean Resources Ltd., a company created to bring together exclusive licenses and skills of world renowned deep-ocean geologist Dr. Timothy McConachy of Bluewater Metals, the deep-ocean survey and exploration expertise of Odyssey, and the offshore coring and mining expertise of Robert Goodden and Subsea Minerals.

We entered into a long-term charter agreement for a vessel, the *Dorado Discovery*, which underwent renovations and mobilization in Southeast Asia. The *Dorado Discovery* was deployed to the South Pacific in August to work on subsea mineral mining and exploration projects subject to a charter agreement with Dorado. We are providing proprietary expertise and personnel management to Dorado under contract on a commercially reasonable basis, and will continue to conduct operations to explore for deep-ocean SMS deposits in areas covered by exploration permits held by Dorado.

Preliminary results of our early exploration efforts are very encouraging. Operations to-date have supported reconnaissance of an epithermal gold deposit and two SMS (Seafloor Massive Sulfide) deposits. Detailed analyses of certain samples collected to-date indicate high gold, silver, lead and zinc content. However, much more work is needed to assess the commercial value, if any, of these deposits. We are in the very early stages of exploration of the Dorado tenements and remain excited about the prospects for this new venture.

Admiralty Legal Proceedings

An Admiralty arrest is a legal process in which Odyssey seeks recognition from the Court of Odyssey's salvor-in-possession status for a specific shipwreck, site or cargo. It is the first legal step in establishing Odyssey's rights to ownership or to a salvage award. If Odyssey is able to confirm that any entity has a potential legitimate legal claim to any materials recovered from any shipwreck site, we will provide legal notice to any and all potential claimants and pursue prompt resolutions of all claims.

***Black Swan* Arrest**

We filed our notice of appeal with the Federal District Court for the Middle District of Florida and Eleventh Circuit Court of Appeals on January 15, 2010, and filed the appeal with the Eleventh Circuit on May 11, 2010. Spain issued their reply to our appeal on July 19, 2010, and Odyssey's reply to Spain's response was filed on August 19, 2010. Our case has been scheduled for oral argument during the week of February 28, 2011 in Atlanta, Georgia.

In its initial brief, Odyssey argued that the district court erroneously dismissed the case by using flawed legal analysis and by failing to acknowledge or understand several major aspects of the case, including the issue of sovereign immunity. The opening brief also points out several erroneous factual findings and legal conclusions made by the district court including the following:

The district court did not conduct an evidentiary hearing on the disputed issues of fact, unquestioningly accepting testimony presented by Spain. This was a violation of due process for all of the claimants as well as Odyssey.

The district court erred in failing to recognize that the Defendant in the case (an *in rem* proceeding) was NOT Spain or a vessel owned by Spain. The actual Defendant in the case was the group of coins and artifacts (the *res* in this case) discovered and recovered by Odyssey.

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

Descendant claimants have alleged to have ownership rights to the property recovered, claiming their ancestors placed it aboard the *Mercedes* (the vessel alleged by Spain to have been carrying the subject cargo) for shipment. The district court completely misunderstood their relationship to the property, referring to them as descendants of those aboard the *Mercedes*, rather than the descendants of property owners.

Despite undisputed evidence to the contrary, the district court erroneously found that the *Mercedes* was not engaged in commercial activity. The majority of coins aboard the *Mercedes* were privately owned and commercially shipped, and the gun decks of the *Mercedes* had been reconfigured to accommodate paying passengers and cargo. In fact, in the aftermath of the sinking of the *Mercedes*, Spain went on diplomatic record to protest to the British government that the *Mercedes* was carrying private cargo and passengers, and therefore the British attack was an unwarranted provocation. Longstanding law, as codified in the FSIA (Foreign Sovereign Immunities Act) and the SMCA (Sunken Military Craft Act) states a vessel is NOT entitled to foreign sovereign immunity if it was engaged in commercial acts.

The district court also failed to recognize that under well-established admiralty law, cargo may be separated from a vessel, and the cargo may be subdivided to determine competing claims of ownership and salvage

Table of Contents

The case is currently pending in the Eleventh Circuit Court of Appeals in Atlanta, Georgia. All of Odyssey's significant filings to date, including those made at the district court level, can be viewed at <http://www.shipwreck.net/blackswanlegal.php>.

Critical Accounting Policies and Changes to Accounting Policies

There have been no material changes in our critical accounting estimates since December 31, 2009, nor have we adopted any accounting policy that has or will have a material impact on our consolidated financial statements.

Results of Operations

The dollar values discussed in the following tables, except as otherwise indicated, are approximations to the nearest \$100,000 and therefore do not necessarily sum in columns or rows. For more detail refer to the Financial Statements in Part I, Item 1. For the three months ended September 30, 2010, we have shown Income From Operations of \$1.0 million which is the first quarter in several years whereby we have shown a profit from operations.

Three months ended September 30, 2010, compared to three months ended September 30, 2009

	Increase/(Decrease) (Dollars in millions)	2010 vs. 2009			
		2010	2009	\$	%
Artifact sales and other		\$	\$.6	\$ (.6)	(94)%
Exhibit			.2	(.2)	(100)
Expedition charter		9.8		9.8	57,478
Total revenue		\$ 9.8	\$.8	\$ 9.0	1,063%
Cost of sales			.2	(.2)	(86)
Marketing, general and administrative		2.2	2.1	.1	5
Operations and research		6.6	2.9	3.7	129
Total operating expenses		\$ 8.8	\$ 5.2	\$ 3.6	70%
Other income (expense)		\$ (2.3)	\$ (.1)	\$ (2.3)	(3,489)%

The explanations that follow are for the three months ended September 30, 2010, compared to the three months ended September 30, 2009.

Revenue

The increase in total revenue of \$9.0 million was primarily related to a \$9.8 million increase in expedition charter revenue associated with subsea mineral mining work in the South Pacific with Dorado Ocean Resources Ltd. (\$5.1 million), syndicated shipwreck search projects which include *Enigma II*, *Shantaram* and *Firebrand* (\$2.5 million), government and insurance company services in the wake of the airline accident in the Eastern Mediterranean (\$1.5 million) and other miscellaneous charter services (\$.7 million). We are currently working under a charter agreement with Dorado Ocean Resources Ltd. which will extend into the fourth quarter 2010 and longer. We are also planning other syndicated projects in the South Pacific in late 2010 and in 2011.

Odyssey's exhibit, *SHIPWRECK! Pirates & Treasure*, was not on display in the third quarter 2010, but opened at the Maryland Science Center in Baltimore on October 1, 2010. The exhibit will run through January 31, 2011, in the Legg Mason Gallery on the second floor of the science center. We have also seen a decline in artifact sales of \$.6 million in the third quarter 2010 which we believe is due to general economic conditions, availability of new product offerings and merger of two of our major distributors.

Operating Expenses

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

Marketing, general and administrative expenses were \$2.2 million in 2010 as compared to \$2.1 million in 2009 primarily representing an increase in employee-related expenses offset in part by a decrease in outside professional services.

Operations and research expenses were \$6.6 million in 2010 as compared to \$2.9 million in 2009. The \$3.7 million increase was due to higher vessel - related expenses in 2010 versus 2009 primarily attributable to the volume of projects underway and the addition of our two chartered vessels. The *Dorado Discovery* comprised \$2.6 million of the increase and has recently completed renovations and mobilization in Southeast Asia and has been deployed to the South Pacific to work on subsea mineral mining and exploration projects under a charter agreement with Dorado Ocean Resources Ltd. Our second chartered vessel was deployed during the second quarter 2010 to work on the *Shantaram* project and has recently been sub-chartered to a third party which comprised \$1.4 million of the increase. These increases in vessel-related expenses were offset in part by decreases *Ocean Alert* expenses of \$.3 million while she is waiting to be deployed on the next project. We are currently anticipating several options for the *Ocean Alert* including charter, use on the recovery of the aircraft which crashed in the Easter Mediterranean and potential sale.

Table of Contents**Other Income (Expense)**

Other income (expense) represents income from investments, interest expense on loans and gain (loss) on our equity investment in Dorado Ocean Resources Ltd. For the third quarter 2010, \$2.1 million represents our portion of the loss on the equity investment. See Note F of the Notes to the Consolidated Financial Statements.

Nine months ended September 30, 2010, compared to nine months ended September 30, 2009

	Increase/(Decrease) (Dollars in millions)	2010	2009	2010 vs. 2009	
				\$	%
Artifact sales and other		\$.3	\$ 1.3	\$ (1.0)	(74)%
Exhibit		.1	.4	(.3)	(85)
Expedition charter		16.7	.2	16.5	10,157
Total revenue		\$ 17.1	\$ 1.9	\$ 15.2	810%
Cost of sales		.2	.5	(.4)	(69)
Marketing, general and administrative		6.7	6.9	(.2)	(2)
Operations and research		15.3	8.9	6.3	71
Total operating expenses		\$ 22.2	\$ 16.4	\$ 5.8	35%
Other income (expense)		\$ (2.8)	\$ (.2)	\$ (2.7)	(1,742)%

The explanations that follow are for the nine months ended September 30, 2010, compared to the nine months ended September 30, 2009.

Revenue

The increase in revenue of \$15.2 million was primarily related to a \$16.5 million increase in expedition charter revenue associated with several syndicated shipwreck search projects including *Enigma I and II*, *Shantaram* and *Firebrand* (\$8.0 million), subsea mineral mining work in the South Pacific with Dorado Ocean Resources Ltd. (\$5.1 million), government and insurance company services in the wake of the airline accident in the Eastern Mediterranean (\$2.9 million) and other miscellaneous charter and expedition services (\$.5 million). We are currently working under a charter agreement with Dorado Ocean Resources Ltd. which will extend into the fourth quarter 2010 and longer. We are also planning other syndicated projects in the South Pacific in late 2010 and in 2011.

Exhibit revenue decreased \$.3 million in 2010 because Odyssey's exhibit, *SHIPWRECK! Pirates & Treasure*, was on tour for one month in 2010 versus six months on two separate tours in 2009. The exhibit opened at the Maryland Science Center in Baltimore on October 1, 2010. The exhibit will run through January 31, 2011, in the Legg Mason Gallery on the second floor of the science center. Artifact and other sales decreased \$1.0 million in 2010 versus 2009 which we believe is due to general economic conditions, availability of new product offerings and merger of two of our major distributors.

Operating Expenses

Cost of sales for coins decreased 69% for 2010 versus 2009 primarily because of fewer coins sold in 2010. There is no cost of sales component associated with the exhibits and expedition charter revenues.

Marketing, general and administrative expenses were \$6.7 million in 2010 as compared to \$6.9 million in 2009. The decrease of \$.2 million was primarily attributable to lower professional services and depreciation expenses.

Edgar Filing: ODYSSEY MARINE EXPLORATION INC - Form 10-Q

Operations and research expenses were \$15.3 million in 2010 as compared to \$8.9 million in 2009. The \$6.3 million increase was due to higher vessel - related expenses in 2010 versus 2009 primarily attributable to the volume of projects underway and the addition of our two chartered vessels. The *Dorado Discovery* comprised \$3.7 million of the increase and has recently completed renovations and mobilization in Southeast Asia and has been deployed to the South Pacific to work on subsea mineral mining and exploration projects under a charter agreement with Dorado Ocean Resources Ltd. Our second chartered vessel was deployed during the second quarter 2010 to work on the *Shantaram* project and has recently been sub-chartered to a third party which comprised \$2.6 million of the increase.

Table of Contents**Other Income (Expense)**

Other income (expense) represents income from investments, interest expense on loans and gain (loss) on our equity investment in Dorado Ocean Resources Ltd. For the nine months 2010, \$2.5 million represents our portion of the loss on the equity investment. See Note F of the Notes to the Consolidated Financial Statements.

Liquidity and Capital Resources

(Dollars in thousands)	2010	2009
Summary of Cash Flows:		
Net cash (used) by operating activities	\$ (7,485)	\$ (11,778)
Net cash (used) by investing activities	(1,549)	(524)
Net cash provided by financing activities	7,794	5,689
Net increase (decrease) in cash and cash equivalents	\$ (1,240)	\$ (6,613)
Beginning cash and cash equivalents	2,145	10,740
Ending cash and cash equivalents	\$ 906	\$ 4,128

Discussion of Cash Flows

Net cash used in operating activities for the first nine months of 2010 was \$7.5 million. This amount primarily reflected an operating loss of \$7.9 million offset in part by non-cash items including depreciation and loan discount amortization (\$1.7 million), share-based compensation (\$1.4 million) and loss from unconsolidated entity (\$2.4 million). Working capital changes also included an increase in accounts receivable of \$8.4 million (\$1.6 million represents the amount due on the *Shantaram* project, \$5.4 represents amount due from Dorado Ocean Resources, Ltd. and \$0.8 million due from an insurance adjuster in the wake of the airline accident in the Eastern Mediterranean), an increase in accounts payable of \$2.8 million (\$1.7 million represents ship charters and fuel), an increase in deferred revenue of \$0.4 million (\$1.6 million representing deferred revenue outstanding on the *Firebrand* project offset by recognition of revenue for projects *Enigma* and *Shantaram*), and other net sources of working capital of \$0.1 million. Net cash used in operating activities for the first nine months of 2009 was \$11.8 million. This amount primarily reflected an operating loss of \$14.7 million and non-cash items including depreciation and amortization (\$1.7 million) and share-based compensation (\$1.6 million), a decrease in inventory, accounts receivable and other assets (\$0.9 million), offset in part by a decrease in accounts payable and accrued expenses (\$1.3 million).

Cash flows used in investing activities for the first nine months of 2010 were \$1.5 million which primarily represented marine property and equipment purchases primarily for our business venture into subsea mineral mining and exploration. Cash flows used in investing activities was \$0.5 million for the first nine months in 2009 which primarily reflected the purchase of property and equipment for our marine operations group which included extensive capitalized upgrades to the *Ocean Alert* (\$0.3 million).

Cash flows provided by financing activities for the first nine months of 2010 were \$7.8 million which included \$6.2 million proceeds from the issuance and sale of common stock in January 2010 offset by fees related to the private offering of \$0.2 million and \$1.8 million proceeds from the issuance of promissory notes in August 2010. Cash flows provided by financing activities for the first nine months of 2009 were \$5.7 million which included \$5.1 million proceeds from the issuance and sale of common stock in May 2009 and \$0.8 million proceeds from the exercise of warrants to purchase preferred stock in the first quarter. Cash proceeds were offset in part by repayments of mortgage and loans payable of \$0.2 million.

General Discussion 2010

At September 30, 2010, we had cash and cash equivalents of \$0.9 million, a decrease of \$1.2 million from the December 31, 2009, balance of \$2.1 million.

Equity-Related

In November 2009, we invested \$500,000 for a 25% interest in SMM Project, LLC (SMM) to pursue opportunities in the exploration of deep-ocean gold and copper deposits. SMM purchased a majority interest in Bluewater Metals Pty, Ltd. (Bluewater), an Australian company with licenses for mineral exploration of approximately 150,000 square kilometers of ocean floor in territorial waters controlled by four different countries in the South Pacific. The focus will be on the exploration and monetization of gold and copper-rich Seafloor Massive Sulfide (SMS) deposits through a new business entity, Dorado Ocean Resources (DOR), which has acquired the remaining interest in Bluewater. Odyssey will dedicate certain marine assets, including a ship and related marine exploration technology, to the endeavor.

During January 2010, we entered into individual purchase agreements with certain investors pursuant to which we sold an aggregate of 4,000,000 shares of Odyssey s common stock and warrants to purchase up to 2,400,000 shares of common stock to

Table of Contents

such investors. The common stock and warrants were sold as units, with each unit consisting of one share of common stock and a warrant to purchase 0.6 shares of common stock. The purchase price for each unit was \$1.565. The warrants have an exercise price of \$2.25 per share of common stock and are exercisable in accordance with their terms at any time on or before the close of business on January 29, 2013. The net proceeds to us from the registered direct public offering, after deducting placement agent fees and its offering expenses, and excluding the proceeds, if any, from the exercise of the warrants issued in the offering, were approximately \$6.1 million.

On February 12, 2010, we issued 500,000 shares of common stock to one institutional investor. The shares of common stock were issued upon conversion of 500,000 outstanding shares of our Series D Convertible Preferred Stock that was originally purchased in January 2007.

On March 18, 2010, we issued 600,000 shares of common stock to one institutional investor. The shares of common stock were issued upon conversion of 600,000 outstanding shares of the Odyssey's Series D Convertible Preferred Stock which was originally purchased in May 2007.

On April 20, 2010, we issued 600,000 shares of common stock to one institutional investor. The shares of common stock were issued upon conversion of 600,000 outstanding shares of the Company's Series D Convertible Preferred Stock which was originally purchased in May 2007.

On April 30, 2010, SMM was acquired by DOR through a stock exchange agreement. We were issued 450 DOR shares in exchange for our surrendered shares in SMM. Additionally, we invested \$2 million dollars for 1,200 shares of DOR resulting in a 41.25% ownership of DOR. Under the terms of the Share Subscription Agreement, we have the option to pay for this investment in cash or by providing marine services to DOR over a three-year period.

On May 6, 2010, we issued 1,300,000 shares of common stock to one institutional investor. The shares of common stock were issued upon conversion of 13 outstanding shares of the Odyssey's Series E Convertible Preferred Stock which was originally purchased in September 2007. The Series E Convertible Preferred Stock was convertible into 100,000 shares common for every one share of preferred. As a result of the conversion, there are no longer any shares of Series E Convertible Preferred Stock outstanding and only 206,400 Series D which are convertible to common on a one-for-one basis.

On June 3, 2010, shareholders approved the proposal at the annual meeting to amend the 2005 Incentive Stock Plan by adding 3,000,000 shares of common stock to the Plan. An S-8 Registration was filed in August 2010 for the additional shares.

On August 20, 2010, we entered into individual purchase agreements with certain investors to issue and sell promissory notes in the principal amount of \$1.8 million and warrants to purchase an aggregate of 270,000 shares of common stock. The notes bear interest at a rate equal to 5.0% per annum, and all principal and accrued interest was due and payable on or before December 18, 2010. The warrants had an exercise price of \$2.25 per share of common stock and will be exercisable in accordance with their terms at any time on or before the close of business on August 20, 2013. All the notes were paid in full as of October 18, 2010.

On October 6, 2010, we entered into separate purchase agreements with certain investors pursuant to sell 24 shares of Series G 8% Convertible Preferred Stock, par value \$0.0001 per share, and warrants to purchase up to 1,800,000 shares of Odyssey's common stock to such investors. The Series G preferred stock and warrants were offered as units, with each unit consisting of one share of Preferred Stock and a Warrant to purchase 75,000 shares of common stock. The purchase price for each unit was \$250,000. The transaction closed on October 12, 2010, and we sold 20 of the units for cash, and four of the units were issued upon tender of an aggregate of \$1.0 million of principal amount of the promissory notes that Odyssey issued in August 2010 by the holders thereof. Accordingly, the net cash proceeds to Odyssey were approximately \$5.0 million. See NOTE M to the Consolidate Financial Statements for further information and the planned accounting for this transaction.

Bank Credit Facility

On April 23, 2010, we renewed our \$5.0 million revolving credit facility with Fifth Third Bank (the Bank). The original two-year \$5.0 million credit facility was entered into on February 7, 2008, and a 90-day extension was granted until May 7, 2010. The renewed credit facility has a floating interest rate equal to the Prime Rate plus one hundred and fifty basis points (1.50%), requires monthly payments of interest only, and is due in full April 23, 2011. The Company will also be required to pay the Bank an unused line fee equal to 0.50% per annum of the unused portion of the credit line.

The line of credit is secured by approximately 28,500 numismatic coins recovered from the SS *Republic* shipwreck, which amount will be reduced over the term by the amount of coins sold by the Company. The coins used as collateral are held by a custodian for the security of the Bank. The borrowing base is equal to forty percent (40%) of the eligible coin inventory valued on a rolling twelve-month wholesale average value. The Company is required to comply with a number of customary covenants.

Trends and Uncertainties

Based upon our current expectations, we believe our cash position should be sufficient to fund operating cash flows throughout the rest of 2010 taking into account our capital raises, expected revenues from multiple sources, including projected sales and syndicated projects, commercial salvage activities, surveys and our ability to realize our accounts receivable. While we

Table of Contents

have recovered more than 17 tons of silver coins and hundreds of gold coins and other artifacts from the *Black Swan* project, we will not be able to monetize any recovered cargo unless we are awarded title or a salvage award by the U.S. District Court. At the present time, we cannot determine how long that process may take, and there is no way to estimate the likelihood of receiving a salvage award from the U.S. District Court. We have also identified one potential high value target shipwreck, HMS *Victory*. However, unless there is an agreement with the U.K. government, we will not be able to conduct any archaeological recoveries on this project. If cash flow is not sufficient to meet our projected business plan requirements, we will be required to raise additional capital or curtail expenses. While we have been successful in raising the necessary funds in the past, there can be no assurance that we can continue to do so.

New Accounting Pronouncements

As of September 30, 2010, the impact of recent accounting pronouncements on our business is not considered to be material.

Off-Balance Sheet Arrangements

We do not engage in off-balance sheet financing arrangements. In particular, we do not have any interest in so-called limited purpose entities, which include special purpose entities (SPEs) and structured finance entities.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. Our revolving credit facility and primary mortgage bear interest at variable rates and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness would increase even though the principal amount of such indebtedness remained the same. Interest on both of these debt instruments are equal to prime plus basis points as described in NOTE I. An increase in the prime rate could have an adverse effect on our operating cash flows and financial condition, but we believe it would not be material. We do not believe we have other material market risk exposure and have not entered into any market risk sensitive instruments to mitigate these risks or for trading or speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

Odyssey maintains a set of disclosure controls and procedures designed to ensure that information required to be disclosed in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. As of the end of the period covered by this report, based on an evaluation carried out under the supervision and with the participation of Odyssey's management, including the chief executive officer (CEO) and chief financial officer (CFO), of the effectiveness of our disclosure controls and procedures, the CEO and CFO have concluded that Odyssey's disclosure controls and procedures are effective. There have been no significant changes in the Company's internal controls over financial reporting during the third quarter of 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

The Company is not currently a party to any material litigation other than the admiralty proceedings described in this report. From time to time in the ordinary course of business, the Company may be subject to or may assert a variety of claims or lawsuits.

See the information set forth under the heading *Operational Update Admiralty Legal Proceedings* in Part I, Item 2 of this report for disclosure regarding certain admiralty legal proceedings in which Odyssey is involved. Such information is hereby incorporated by reference into this Part II, Item 1.

ITEM 1A. Risk Factors

For information regarding risk factors, please refer to Item 1A in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. There have been no material changes from the disclosure provided in the Form 10-K for the year ended December 31, 2009, with respect to the Risk Factors. Investors should consider the Risk Factors prior to making an investment decision with respect to the Company's securities.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

ITEM 3. Defaults Upon Senior Securities

None.

Table of Contents

ITEM 4. [Removed and Reserved]
