EXPLANATORY NOTE

This Amendment No. 1 on Form 10-K/A to the Annual Report on Form 10-K for the year ended October 31, 2010 of CurrencyShares® Australian Dollar Trust, which Form 10-K was originally filed with the Securities and Exchange Commission on December 29, 2010, is being filed for the purpose of amending Item 15 in order to (i) include the report and consent of our prior independent registered public accounting firm, (ii) amend the Exhibit Index and (iii) file certain exhibits as indicated in the Exhibit Index. Other than providing updates to the cover page, amending Item 15 and filing updated exhibits and certifications, no other changes have been made to the original Form 10-K. This Amendment No. 1 does not reflect any subsequent events occurring after the filing of the original Form 10-K or modify or update in any way disclosures made in the original filing.

Report of Independent Registered Public Accounting Firm

To the Shareholders of CurrencyShares® Australian Dollar Trust:

In our opinion, the balance sheet as of October 31, 2009 and the related statements of income and comprehensive income, of changes in shareholders' equity and of cash flows for each of two years in the period ended October 31, 2009 present fairly, in all material respects, the financial position of CurrencyShares® Australian Dollar Trust (the "Trust") at October 31, 2009, and the results of its operations and its cash flows for each of the two years in the period ended October 31, 2009, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Report of Independent Registered Public Accounting Firm

To the Shareholders of CurrencyShares® Australian Dollar Trust:

We have audited the accompanying statement of financial condition of CurrencyShares® Australian Dollar Trust (the Trust) as of October 31, 2010 and the related statement of income and comprehensive income, changes in shareholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CurrencyShares® Australian Dollar Trust at October 31, 2010 and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of CurrencyShares® Australian Dollar Trust's internal control over financial reporting as of October 31, 2010, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated December 29, 2010 expressed an unqualified opinion thereon.

/s/ Ernst & Young LLP

Table of Contents

Report of Independent Registered Public Accounting Firm

To the Shareholders of CurrencyShares® Australian Dollar Trust:

We have audited CurrencyShares® Australian Dollar Trust's (the Trust) internal control over financial reporting as of October 31, 2010, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Trust's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting appearing under Item 9A. Our responsibility is to express an opinion on the Trust's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, CurrencyShares® Australian Dollar Trust maintained, in all material respects, effective internal control over financial reporting as of October 31, 2010 based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of financial condition as of October 31, 2010 and the related statements of income and comprehensive income, changes in shareholder equity and cash flows for the year ended October 31, 2010 of CurrencyShares® Australian Dollar Trust and our report dated December 29, 2010 expressed an unqualified opinion thereon.

CurrencyShares® Australian Dollar Trust

Notes to Financial Statements

1. Organization and Description of the Trust

The CurrencyShares® Australian Dollar Trust (the "Trust") was formed under the laws of the State of New York on June 8, 2006 when Rydex Specialized Products LLC d/b/a Rydex Investments (the "Sponsor") deposited 100 Australian Dollars in the Trust's primary deposit account held by JPMorgan Chase Bank, N.A., London Branch (the "Depository"). The Sponsor is a Delaware limited liability company whose sole member is Rydex Advisors II, LLC (also d/b/a Rydex Investments). The Sponsor is responsible for, among other things, overseeing the performance of The Bank of New York Mellon (the "Trustee") and the Trust's principal service providers, including the preparation of financial statements. The Trustee is responsible for the day-to-day administration of the Trust.

The investment objective of the Trust is for the Trust's shares (the "Shares") to reflect the price of the Australian Dollar plus accrued interest less the Trust's expenses and liabilities. The Shares are intended to provide investors with a simple, cost-effective means of gaining investment benefits similar to those of holding Australian Dollars. The Trust's assets primarily consist of Australian Dollars on demand deposit in two deposit accounts maintained by the Depository: a primary deposit account which may earn interest and a secondary deposit account which does not earn interest. The secondary deposit account is used to account for any interest that may be received and paid out on creations and redemptions of blocks of 50,000 Shares ("Baskets"). The secondary account is also used to account for interest earned, if any, on the primary deposit account, pay Trust expenses and distribute any excess interest to holders of Shares ("Shareholders") on a monthly basis.

The accompanying audited financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

2. Significant Accounting Policies

A. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of the assets, liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period and the evaluation of subsequent events through the issuance of the financial statements. Actual results could differ from those estimates.

B. Foreign Currency Translation

The Trustee calculates the Trust's net asset value ("NAV") each business day, as described in Note 4. Prior to November 13, 2008, Australian Dollar deposits (cash) were translated for NAV calculation purposes at the Noon Buying Rate, which was the U.S. Dollar ("USD")/Australian Dollar exchange rate as determined and published by the Federal Reserve Bank of New York. As of November 13, 2008, Australian Dollar deposits (cash) are translated for NAV calculation purposes at the Closing Spot Rate, which is the USD/Australian Dollar exchange rate as determined by WM/Reuters at 4:00 PM (London time) on each day that NYSE Arca is open for regular trading.

The functional currency of the Trust is the Australian Dollar in accordance with generally accepted accounting standards. For financial statement reporting purposes, the U.S. Dollar is the reporting currency. As a result, the financial records of the Trust are translated from Australian Dollars to USD. The Closing Spot Rate on the last day of the period is used for translation in the statements of financial condition. The average Closing Spot Rate for the period is used for translation in the statement of income and comprehensive income and the statement of cash flows. Any currency translation adjustment is included in comprehensive income.

C. Federal Income Taxes

Edgar Filing: CURRENCYSHARES AUSTRALIAN DOLLAR TRUST - Form 10-K/A

The Trust is treated as a grantor trust for federal income tax purposes and, therefore, no provision for federal income taxes is required. Interest, gains and losses are passed through to the Shareholders.

F-9

Table of Contents

Shareholders generally will be treated, for U.S. federal income tax purposes, as if they directly owned a pro-rata share of the assets held in the Trust. Shareholders also will be treated as if they directly received their respective pro-rata portion of the Trust's income, if any, and as if they directly incurred their respective pro-rata portion of the Trust's expenses. The acquisition of Shares by a U.S. Shareholder as part of a creation of a Basket will not be a taxable event to the Shareholder.

The Sponsor's fee accrues daily and is payable monthly. For U.S. federal income tax purposes, an accrual-basis U.S. Shareholder generally will be required to take into account as an expense its allocable portion of the USD-equivalent of the amount of the Sponsor's fee that is accrued on each day, with such USD-equivalent being determined by the currency exchange rate that is in effect on the respective day. To the extent that the currency exchange rate on the date of payment of the accrued amount of the Sponsor's fee differs from the currency exchange rate in effect on the day of accrual, the U.S. Shareholder will recognize a currency gain or loss for U.S. federal income tax purposes.

The Trust does not expect to generate taxable income except for interest income (if any) and gain (if any) upon the sale of Australian Dollars. A non-U.S. Shareholder generally will not be subject to U.S. federal income tax with respect to gain recognized upon the sale or other disposition of Shares, or upon the sale of Australian Dollars by the Trust, unless: (1) the non-U.S. Shareholder is an individual and is present in the United States for 183 days or more during the taxable year of the sale or other disposition, and the gain is treated as being from United States sources; or (2) the gain is effectively connected with the conduct by the non-U.S. Shareholder of a trade or business in the United States.

A non-U.S. Shareholder's portion of any interest income earned by the Trust generally will not be subject to U.S. federal income tax unless the Shares owned by such non-U.S. Shareholder are effectively connected with the conduct by the non-U.S. Shareholder of a trade or business in the United States.

D. Revenue Recognition

Interest on the primary deposit account, if any, accrues daily as earned and is received on a monthly basis.

E. Dividends

To the extent that the interest earned by the Trust exceeds the sum of the Sponsor's fee for the prior month plus other Trust expenses, if any, the Trust will distribute, as a dividend, the excess interest earned in Australian Dollars effective on the first business day of the subsequent month. The Trustee will direct that the excess Australian Dollars be converted into USD at a prevailing market rate and the Trustee will distribute the USD as promptly as practicable to Shareholders on a pro-rata basis (in accordance with the number of Shares that they own). An income distribution of \$0.30051 per share with an ex-dividend date of November 1, 2010 was paid on November 8, 2010.

3. Australian Dollar Deposits

Australian Dollar principal deposits are held in an Australian Dollar-denominated, interest-bearing demand account. For the year ended October 31, 2010, there were Australian Dollar principal deposits of 325,000,000 and Australian Dollar principal redemptions of 475,000,000, resulting in an ending Australian Dollar principal balance of 675,000,000. This equates to 661,634,974 USD. For the year ended October 31, 2009, there were Australian Dollar principal deposits of 525,000,000 and Australian Dollar principal redemptions of 90,000,000, resulting in an ending Australian Dollar principal balance of 825,000,000. This equates to 745,470,252 USD. For the year ended October 31, 2008, there were Australian Dollar principal deposits of 520,000,000 and Australian Dollar principal redemptions of 365,000,000, resulting in an ending Australian Dollar principal balance of 390,000,000. This equates to 256,386,000 USD.

Net interest, if any, associated with creation and redemption activity is held in an Australian Dollar-denominated non-interest-bearing account, and any balance is distributed in full as part of the monthly income distributions.

4. Redeemable Capital Shares

Shares are classified as redeemable for financial statement purposes, since they are subject to redemption. Shares are issued and redeemed continuously in Baskets in exchange for Australian Dollars. Individual investors cannot purchase or redeem Shares in direct transactions with the Trust. Only Authorized Participants (as defined below) may place orders to create and redeem Baskets. An Authorized Participant is a

Edgar Filing: CURRENCYSHARES AUSTRALIAN DOLLAR TRUST - Form 10-K/A

Depository Trust Company (DTC) participant that is a broker-dealer or other institution eligible to settle securities transactions through the book-entry facilities of DTC and which has entered into a contractual arrangement with the Trust and the Sponsor governing,

F-10

Table of Contents

among other matters, the creation and redemption process. Authorized Participants may redeem their Shares at any time in Baskets.

Due to expected continuing creations and redemptions of Baskets and the three-day period for settlement of each creation or redemption, the Trust reflects Shares created as a receivable. Shares redeemed are reflected as a liability on the trade date. Outstanding Shares are reflected at a redemption value, which is the NAV per Share at the period end date. Adjustments to redeemable capital shares at redemption value are recorded against retained earnings, or, in the absence of retained earnings, by charges against the cumulative translation adjustment.

Activity in redeemable capital Shares is as follows:

	Year ended October 31, 2010		Year ended October 31, 2009		Year ended October 31, 2008	
	Shares	U.S. Dollar Amount	Shares	U.S. Dollar Amount	Shares	U.S. Dollar Amount

The Trustee calculates the Trust's NAV each business day. To calculate the NAV, the Trustee subtracts the Sponsor's accrued fee through the previous day from the Australian Dollars held by the Trust (including all unpaid interest accrued through the preceding day) and calculates the value of the Australian Dollars in USD based upon the Closing Spot Rate. If, on a particular evaluation day, the Closing Spot Rate has not been determined and announced by 6:00 PM (London time), then the most recent Closing Spot Rate will be used to determine the NAV of the Trust unless the Trustee, in consultation with the Sponsor, determines that such price is inappropriate to use as the basis for the valuation. If the Trustee and the Sponsor determine that the most recent Closing Spot Rate is not an appropriate basis for valuation of the Trust's Australian Dollars, they will determine an alternative basis for the valuation. The Trustee also determines the NAV per Share, which equals the NAV of the Trust divided by the number of outstanding Shares. Shares deliverable under a purchase order are considered outstanding for purposes of determining NAV per Share; Shares deliverable under a redemption order are not considered outstanding for this purpose.

Table of Contents

6. Sponsor's Fee

The Sponsor's fee accrues daily at an annual nominal rate of 0.40% of the Australian Dollars in the Trust (including all unpaid interest but excluding unpaid fees, each as accrued through the immediately preceding day) and is paid monthly.

The Sponsor assumes and pays the following administrative and marketing expenses incurred by the Trust: the Trustee's monthly fee, NYSE Arca listing fees, SEC registration fees, typical maintenance and transaction fees of the Depository, printing and mailing costs, audit fees and expenses, up to \$100,000 per year in legal fees and expenses, and applicable license fees.

In certain exceptional cases the Trust will pay for some expenses in addition to the Sponsor's fee. These exceptions include expenses not assumed by the Sponsor (i.e., expenses other than those identified in the preceding paragraph), taxes and governmental charges, expenses and costs of any extraordinary services performed by the Trustee or the Sponsor on behalf of the Trust or action taken by the Trustee or the Sponsor to protect the Trust or the interests of Shareholders, indemnification of the Sponsor under the Depositary Trust Agreement, and legal expenses in excess of 100,000 per year.

7. Related Parties

The Sponsor is a related party of the Trust. The Sponsor oversees the performance of the Trustee and the Trust's principal service providers, including the preparation of financial statements, but does not exercise day-to-day oversight over the Trustee or the Trust's service providers.

8. Concentration Risk

All of the Trust's assets are Australian Dollars, which creates a concentration risk associated with fluctuations in the price of the Australian Dollar. Accordingly, a decline in the Australian Dollar to USD exchange rate will have an adverse effect on the value of the Shares. Factors that may have the effect of causing a decline in the price of the Australian Dollar include national debt levels and trade deficits, domestic and foreign inflation rates, domestic and foreign interest rates, investment and trading activities of institutions and global or regional political, economic or financial events and situations. Substantial sales of Australian Dollars by the official sector (central banks, other governmental agencies and related institutions that buy, sell and hold Australian Dollars as part of their reserve assets) could adversely affect an investment in the Shares.

All of the Trust's Australian Dollars are held by the Depository. Accordingly, a risk associated with the concentration of the Trust's assets in accounts held by a single financial institution exists and increases the potential for loss by the Trust and the Trust's beneficiaries in the event that the Depository becomes insolvent.

9. Commitments and Contingencies

Under the Trust's organizational documents, the Sponsor is indemnified against any liability or expense it incurs without negligence, bad faith or willful misconduct on its part. The Trust's maximum exposure under this arrangement is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.
