To announce the Company's July 2011 revenues

Date of events: 2011/08/10

Contents:

1. Date of occurrence of the event: 2011/08/10
2. Company name: Chunghwa Telecom Co., Ltd.
3. Relationship to the Company (please enter head office or affiliate company): Head office
4. Reciprocal shareholding ratios: N/A
5. Cause of occurrence: Chunghwa Telecom today announced a 3.9% year-over-year increase in unconsolidated total revenue to NT\$15.96 billion in July 2011. Operating income decreased by 5.7% year-over-year to NT\$4.52 billion, net income increased by 8.8% year-over-year to NT\$4.41 billion, and EPS rose by 33.3% to NT\$0.56.

The revenue increase was primarily attributable to the rise in local fixed line revenue resulting from the shift of the pricing right of a fixed-to-mobile call from mobile operators to fixed network operators, as well as to the growth in mobile value added services and international data services, which offset the impact of the tariff reduction mandated by regulator starting from April 2011 and the pricing right shift on mobile revenue. The decrease in operating income was primarily due to interconnection and transition fees resulting from the pricing right shift, the rise in cost of sales and marketing expenses because of the popularity of smartphones and 3G handsets, as well as the higher maintenance fee for promoting mobile internet service and migrating broadband customers to higher speed services. The increase in net income was primarily due to the construction projects by subsidiary Light Era resulting in a rise in non-operating income, which offset the decrease of operating income. The increase in EPS was mainly due to the net income increase as well as the capital reduction in January 2011, which decreased the number of outstanding shares.
