UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL DATA

The following unaudited pro forma consolidated financial data has been derived by the application of pro forma adjustments to our historical consolidated financial statements included elsewhere in this offering memorandum.

The unaudited pro forma consolidated balance sheet at June 30, 2011 and the unaudited pro forma consolidated statement of operations for the six months ended June 30, 2011 give effect to the Transactions as if they had occurred on June 30, 2011 and January 1, 2010, respectively. The unaudited pro forma consolidated statement of operations data for the year ended December 31, 2010, the six months ended June 30, 2010 and the for the twelve months ended June 30, 2011 give effect to (i) the CEA Acquisition and the related financing and (ii) the Transactions as if they had occurred on January 1, 2010, January 1, 2010 and July 1, 2010, respectively.

The unaudited pro forma consolidated statement of operations data for the twelve months ended June 30, 2011 have been derived by: (i) adding the historical audited consolidated statement of operations for the year ended December 31, 2010, and the historical unaudited condensed consolidated statement of operations for the six months ended June 30, 2011, (ii) subtracting the historical unaudited condensed consolidated statement of operations for the six months ended June 30, 2010, (iii) adding the pre-acquisition historical unaudited statement of operations for the CEA Acquisition for the three months ended September 30, 2010, and then (iv) applying pro forma adjustments to give effect to the CEA Acquisition and the Transactions. The pro forma consolidated financial information for the twelve months ended June 30, 2011 has been included in this offering memorandum in order to provide investors with pro forma information for the latest practicable twelve-month period.

The pro forma adjustments are based upon available information and certain assumptions that we believe are reasonable. The actual adjustments will be made as of the closing date of the Transactions and may differ from those reflected in the summary unaudited pro forma consolidated financial data presented below. Such differences may be material. The unaudited pro forma consolidated financial data are for informational purposes only and do not purport to represent what our results of operations, balance sheet data or financial information would have been if the CEA Acquisition or the Transactions had occurred as of the dates indicated, or what such results will be for any future periods or as of any future date.

The unaudited pro forma consolidated financial data have been prepared to give effect to the Transactions, including the accounting for the acquisition of our business as a business combination in accordance with the FASB Accounting Standards Codification Business Combination Topic, which resulted in a new basis of accounting. The pro forma adjustments related to the allocation of the consideration transferred and the financing of the Transactions are preliminary and based on information obtained to date and are subject to revision as additional information becomes available. The total consideration transferred was allocated to our net assets based upon preliminary estimates of fair value. The final allocation of the consideration transferred will be based on a formal valuation analysis and may include an adjustment to the amounts recorded for the value of property, equipment, identifiable intangible assets, goodwill and other pro forma adjustments. A final valuation will be obtained following the completion of the Transactions. The result of the final allocation of the consideration transferred based on this final valuation could be materially different from the preliminary allocation set forth in this offering memorandum.

The unaudited pro forma consolidated financial data and the accompanying notes should be read in conjunction with our historical audited consolidated financial statements and related notes included elsewhere in this offering memorandum and the other financial information contained in Use of Proceeds, Capitalization, Selected Historical Consolidated Financial Data and Management's Discussion and Analysis of Financial Condition and Results of Operations.

NOTES TO UNAUDITED PRO FORMA CONSOLIDATED BALANCE SHEET

(\$ in thousands)

- (1) The amounts in this column represent our actual results for the periods reflected.
- (2) Reflects adjustments to give effect to the EBS Unit Exchange and to the exchange of Class B shares held by certain members of senior management for Class A common stock of Emdeon.
- (3) Under our tax receivable agreements, we are required to pay to (a) the Tax Receivable Entity 85% of the cash savings realized on (i) any step-up in basis in EBS Master's assets resulting from the purchases by the Company and certain predecessors of its subsidiaries of EBS Units prior to the Company's IPO; (ii) tax benefits primarily related to imputed interest deemed to be paid by the Company in connection with tax receivable agreements and (iii) loss carryovers from periods (or portions thereof) prior to our IPO and (b) Management Members 85% of the cash savings realized on any step up in basis of EBS Master's assets resulting from conversions at the IPO. The historical balance sheet reflects an estimate of the obligation due under the tax receivable agreements prior to the effect of the Transactions.

In connection with the Transactions, Management Members will exchange their EBS Units for Class A common stock, or for stock of Parent and/or cash if and to the extent the Management Unit Exchange and/or Management Unit Purchase occur, and certain investment funds affiliated with Hellman & Friedman will exchange their EBS Units for cash and stock of Parent as part of the EBS Unit Exchange and the EBS Unit Purchase, respectively. As a result, the Company expects to incur an additional obligation under our tax receivable agreements. This liability was recognized as a reduction of the additional paid in capital.

The pro forma balance sheet reflects a liability only for the cash savings attributable to tax attributes arising prior to and as a result of the Transactions. It is possible that future transactions or events could increase or decrease the actual tax benefits realized and the corresponding tax receivable agreement payments from these tax attributes.

- (4) Reflects the elimination of the historical equity of Emdeon in connection with the Merger whereby the existing common stock of Emdeon is cancelled.
- (5) Reflects the contribution of capital by certain investment funds affiliated with Blackstone and certain other investors which consists of \$978.6 million of cash and \$330.0 million of Parent shares (subject to a potential reduction of such amount to no less than \$245.0 million pursuant to a contemplated equity syndication). For purposes of this presentation, no allocation of the cash purchase price of \$19.00 per share of Emdeon's Class A common stock has been made to the transfer of interests in the Tax Receivable Entity (as defined under Tax Receivable Agreements) to an entity controlled by Blackstone. If such an allocation were made, the pro forma equity and goodwill recorded by the Company as a result of the Transactions would be reduced.
- (6) Reflects the write-off of deferred costs associated with a customer sales incentive of \$5.7 million (\$1.4 million of which was classified within prepaid expenses and other current assets and \$4.3 million of which was classified in other assets, net), deferred loan costs of \$1.0 million, existing goodwill of \$926.2 million, deferred revenue of \$12.5 million and deferred rent of \$4.4 million in connection with acquisition method accounting.
- (7) Reflects the adjustment of the carrying values of assets acquired and liabilities assumed to their respective fair values in connection with acquisition method accounting. The determination of such values is preliminary in nature and subject to change based on the receipt of a final valuation of tangible and intangible assets and assumed liabilities.
- (8) Reflects adjustments to deferred tax liabilities as a result of the Transactions.
