FORWARD-LOOKING STATEMENTS

This announcement contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements may include, without limitation, statements relating to (i) the Company's plans and strategies, including those in connection with our restructuring and integration after our merger with China Netcom Group Corporation (Hong Kong) Limited, or China Netcom, mergers and acquisitions and capital expenditures; (ii) the Company's plans for network expansion, including those in connection with the build-out of third generation mobile telecommunications, or 3G, digital cellular business and network infrastructure; (iii) the Company's competitive position, including its ability to upgrade and expand existing networks and increase network efficiency, to improve existing services and offer new services, to develop new technological applications and to leverage our position as an integrated telecommunications operator and expand into new businesses and markets; (iv) the Company's future business condition, including its future financial results, cash flows, financing plans and dividends; (v) the future growth of market demand of, and opportunities for, the Company's new and existing products and services, in particular, 3G services; and (vi) future regulatory and other developments in the PRC telecommunications industry.

The words anticipate, believe, could, estimate, intend, may, seek, will and similar expressions, as they relate to us, are intended to indicate certain of these forward-looking statements. The Company does not intend to update any of these forward-looking statements.

The forward-looking statements contained in this announcement are, by their nature, subject to significant risks and uncertainties. In addition, these forward-looking statements reflect the Company's current views with respect to future events and are not a guarantee of the Company's future performance. Actual results may differ materially from those expressed or implied in the forward-looking statements as a result of a number of factors, including, without limitation:

changes in the regulatory regime and policies for the PRC telecommunications industry, including without limitation changes in the regulatory policies of the Ministry of Industry and Information Technology, or the MIIT (which has assumed the regulatory functions of the former Ministry of Information Industry), the State-Owned Assets Supervision and Administration Commission, and other relevant government authorities of the PRC;

changes in the PRC telecommunications industry resulting from the issuance of 3G licenses by the central government of the PRC;

effects of tariff reduction and other policy initiatives from the relevant PRC government authorities;

changes in telecommunications and related technologies and applications based on such technologies;

the level of demand for telecommunications services, in particular, 3G services;

competitive forces from more liberalized markets and the Company's ability to retain market share in the face of competition from existing telecommunications companies and potential new market entrants;

effects of competition on the demand and price of the Company's telecommunications services;

the availability, terms and deployment of capital and the impact of regulatory and competitive developments on capital outlays;

effects of the Company's restructuring and integration following the completion of the Company's merger with China Netcom;

effects of the Company's discontinuation of the personal handyphone system business in response to the MIIT's request;

effects of the Company's acquisition from its parent companies of certain telecommunications business and assets, including the fixed-line business in 21 provinces in southern China, in January 2009;

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2011

1. GENERAL INFORMATION

China Unicom (Hong Kong) Limited (the Company) was incorporated as a limited liability company in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on 8 February 2000. The principal activities of the Company are investment holding and the Company's subsidiaries are principally engaged in the provision of cellular and fixed-line voice and related value-added services, broadband and other Internet-related services, information communications technology services, and business and data communications services in the PRC. The Company and its subsidiaries are hereinafter referred to as the Group.

2. BASIS OF PREPARATION

Except for (a) described below, the basis of preparation and the significant accounting policies and estimates adopted in the preparation of the unaudited condensed consolidated financial information for the nine months ended 30 September 2011 are consistent with those used in preparing the annual financial statements for the year ended 31 December 2010.

(a) Early Adoption of IFRS/HKFRS 9

On 1 January 2011, the Group early adopted IFRS/HKFRS 9 Financial Instruments. IFRS/HKFRS 9 requires an entity to classify its financial assets into two measurement categories: those measured at fair value and those measured at amortised cost. The determination is made at initial recognition and the classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.

Upon the adoption of the standard, the Group:

Classified its investments in equity instruments as those measured at fair value;

Made an irrevocable election to recognise changes in fair value of these financial assets only through other comprehensive income. As a result of this election, all subsequent fair value or disposal gains/losses will not be recognised in the statement of income; and

Transferred the balance of available-for-sale fair value reserve to investment valuation reserve.

There was no impact on the Group's accounting for financial liabilities, as the new standard only affect the accounting for financial liabilities that are designated at fair value through profit and loss, and the Group did not have any such liabilities. For details, please refer to Note 3(a) set out in the unaudited condensed consolidated interim financial information included in the Company's 2011 Interim Report.

(b) Revenue Recognition on Sales of Services and Goods

The Group offers promotional packages to the customers which include the bundled sale of mobile handset and provision of services. Prior to the fourth quarter of 2010, the Group determined the amount of revenue allocated to the handset using the residual value method. Under such method, the Group determined the revenue from the sale of the mobile handset by deducting the fair value of the service element from the total contract consideration. The Group recognised revenue related to the sale of the handset when the title is passed to the customer whereas service revenue was recognised based upon the actual usage of mobile services. The cost of the mobile handset was expensed immediately to the statement of income.

During 2010, the Group has offered preferential promotional packages with more attractive terms to new subscribers, and more new subscribers were developed under such preferential packages during the year. In order to provide reliable and more relevant information to users of the

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 6-K

financial statements, starting from the fourth quarter of 2010, the Group determined to adopt the accounting policy of relative fair value method retrospectively from 1 January 2010 to account for such preferential promotional packages, considering that each deliverable in the promotional packages has standalone value to the customer and there is objective and reliable evidence of the fair value regarding each deliverable in the services packages. Under the relative fair value method, the total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. Revenue relating to the sale of the handset is recognised when the title is passed to the customer whereas service revenue is recognised based upon the actual usage of mobile services. The cost of the mobile handset is expensed immediately to the statement of income upon revenue recognition. For details, please refer to Note 2.24(a) set out in the financial statements included in the Company's 2010 Annual Report.

This change in accounting policy resulted in an increase in the Group's revenue, profit before income tax, profit for the period and earnings per share of RMB1,131 million, RMB1,131 million, RMB983 million and RMB0.04 respectively, for the nine months ended 30 September 2010; and a decrease in advances from customers of RMB1,356 million as at 30 September 2010. The 2010 comparative figures have been restated accordingly.

(c) Going Concern Assumption

As at 30 September 2011, current liabilities of the Group exceeded current assets by approximately RMB153.4 billion (31 December 2010: approximately RMB156.0 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflow from operating activities;

Approximately RMB202.1 billion of revolving banking facilities and registered quota of commercial papers, of which approximately RMB149.5 billion was unutilised as at 30 September 2011; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history. In addition, the Group will continue to optimise its fund raising strategy from the short, medium and long-term perspectives and will maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated financial information of the Group for the nine months ended 30 September 2011 has been prepared on a going concern basis.

(d) Renewal of Continuing Connected Transactions in October 2010

The Group renewed the continuing connected transactions on 29 October 2010 which became effective on 1 January 2011. For details, please refer to Note 39.1(d) set out in the financial statements included in the Company's 2010 Annual Report.

3. AGREEMENT ON ADDITIONAL INVESTMENTS BETWEEN THE COMPANY AND TELEFÓNICA S.A.

On 23 January 2011, the Company entered into an agreement to enhance the strategic alliance with Telefónica S.A. (Telefónica) that: (a) Telefónica would purchase ordinary shares of the Company for a consideration of USD500 million through acquisition from third parties; and (b) the Company would acquire from Telefónica 21,827,499 ordinary shares of Telefónica held in treasury (Telefónica Treasury Shares) for an aggregate purchase price of Euro374,559,882.84. On 25 January 2011, the Company completed the purchase of Telefónica Treasury Shares in accordance with the strategic agreement. Please refer to the section headed **AGREEMENT TO ENHANCE THE STRATEGIC ALLIANCE WITH TELEFÓNICA** for details.

4. EARNINGS PER SHARE

Basic earnings per share for the nine months ended 30 September 2011 and 2010 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods.

Diluted earnings per share for the nine months ended 30 September 2011 and 2010 were computed by dividing the profit attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the periods, after adjusting for the effects of dilutive potential ordinary shares. All potential ordinary shares for the nine months ended 30 September 2011 arose from (i) share options granted under the amended Share Option Scheme; (ii) share options granted under the amended Special Purpose Share Option Scheme and (iii) convertible bonds, while all potential ordinary shares for the nine months ended 30 September 2010 arose from (i) share options granted under the amended Share Option Scheme; and (ii) share options granted under the amended Special Purpose Share Option Scheme.

For the nine months ended 30 September 2010, the potential ordinary shares which are not dilutive arose from share options with exercise price of HKD15.42 granted under the amended Share Option Scheme, which were excluded from the weighted average number of ordinary shares for the purpose of computation of diluted earnings per share.

For the nine months ended 30 September 2011, share options with exercise price of HKD15.42 granted under the amended Share Option Scheme were lapsed.

The following table sets forth the computation of basic and diluted earnings per share:

	Nine months ended 30 September	
	2011	2010
	As restated	
Numerator (in RMB millions):		
Profit attributable to owners of the parent used in computing basic earnings per share	4,263	4,251

The net reduction in local telephone subscribers was 2.060 million in the first three quarters of 2011, and the total number of local telephone service subscribers reached 94.575 million as at 30 September 2011. The ARPU of local telephone business was RMB26.2.

Costs and Expenses

Due to the factors including the expansion of Company's network capacity, rapid business growth and the higher inflation rate, the Company continued to face the pressure of increased costs. In the first three quarters of 2011, total costs and expenses² were RMB150.271 billion, up by 24.3% from the same period of last year.

The Company further optimised network coverage and enhanced network quality. Due to the increase in assets, the depreciation and amortisation increased to RMB42.941 billion in the first three quarters of 2011, representing an increase of RMB2.398 billion or 5.9% from the same period of last year. Due to the increase in utilities charges and rental expenses, networks, operations and support expenses were RMB21.523 billion in the first three quarters of 2011, representing an increase of RMB2.181 billion or 11.3% from the same period of last year.

As the Company continued the market promotion of its businesses, selling and marketing expenses were RMB20.634 billion in the first three quarters of 2011, increased by RMB3.524 billion or 20.6% from the same period of last year. 3G handset subsidy cost was RMB4.156 billion, increased by RMB2.890 billion from the same period of last year.

Due to the higher inflation rate and the increases in average social wages, employee insurance costs and motivation bonus, the Company's employee benefit expenses were RMB19.431 billion in the first three quarters of 2011, increased by RMB2.236 billion or 13.0% from the same period of last year.

Earnings

In the first three quarters of 2011, profit before income tax would be RMB5.647 billion, and the profit for the period would be RMB4.248 billion, up by 4.1% from the same period of last year. Basic earnings per share¹ was RMB0.181. EBITDA³ would be RMB48.574 billion, up by 4.1% as compared to the same period of last year. EBITDA margin (EBITDA as a percentage of the total revenue) would be 31.2%.

Note 1: Except for earnings per share, all revenue and profit figures mentioned above excluded deferred fixed-line upfront connection fees of RMB15 million for the first three quarters of 2011 and RMB169 million for the first three quarters of 2010.

Note 2: Including interconnection charges, depreciation and amortisation, networks, operations and support expenses, employee benefit expenses, other operating expenses, finance costs, interest income and other income-net.

Note 3: EBITDA represents profit for the period before finance costs, interest income, other income-net, income tax, depreciation and amortisation. As the telecommunications business is a capital intensive industry, capital expenditures and finance costs may have a significant impact on the net profit of the companies with similar operating results. Therefore, the Company believes that EBITDA may be helpful in analyzing the operating results of a telecommunications service operator like our Group.

AGREEMENT TO ENHANCE THE STRATEGIC ALLIANCE WITH TELEFÓNICA

On 23 January 2011, the Company and Telefónica entered into an Agreement to Enhance the Strategic Alliance (the Agreement to Enhance the Strategic Alliance).

Pursuant to the Agreement to Enhance the Strategic Alliance, the Company acquired from Telefónica 21,827,499 ordinary shares of Euro1.00 each in the capital of Telefónica for an aggregate purchase price of Euro374,559,882.84 on 25 January 2011, and Telefónica agreed to purchase ordinary shares of HKD0.10 each in the capital of the Company for the aggregate consideration of USD500,000,000 through acquisitions from third parties within nine months after the date of the signing of the Agreement to Enhance the Strategic Alliance.
