The underwriting agreement provides that the closing will occur on August 15, 2012, which is five business days after the date of this pricing term sheet. Rule 15c6-1 under the Securities Exchange Act of 1934 generally requires that securities trades in the secondary market settle in three business days, unless the parties to a trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on any date prior to the third business day before delivery will be required, by virtue of the fact that the notes will settle in five business days, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Such purchasers should also consult their own advisors in this regard.
