ANNUAL REPORT

Dear Shareholder

In the final months of 2011, financial markets were highly volatile but were in a mode of gradual improvement. Global central bank actions and better-than-expected economic data tempered investors anxiety after markets had been upended in the previous quarter by sovereign debt turmoil in the United States and Europe. Improving sentiment carried over into early 2012 as investors felt some relief from the world s financial woes. Volatility was low and risk assets (including stocks, commodities and high yield bonds) moved boldly higher through the first two months of 2012, while climbing Treasury yields pressured higher-quality fixed income assets.

Markets reversed course in the spring when Europe s debt problems boiled over once again. High levels of volatility returned as political instability threatened Greece s membership in the eurozone and debt problems in Spain grew increasingly severe. Sovereign debt yields in peripheral European countries continued to rise while finance leaders deliberated over the fiscal integration of the currency bloc. Alongside the drama in Europe, investors were discouraged by gloomy economic reports from various parts of the world. A slowdown in China, a key powerhouse for global growth, emerged as a particular concern. In the United States, disappointing jobs reports dealt a crushing blow to investor sentiment. Risk assets sold off in the second quarter as investors retreated to safe haven assets.

Despite ongoing concerns about the health of the global economy and the debt crisis in Europe, most asset classes enjoyed a robust summer rally powered mainly by expectations for policy stimulus from central banks in Europe and the United States. Global economic data continued to be mixed, but the spate of downside surprises seen in the second quarter had receded and, outside of some areas of Europe, the risk of recession largely subsided. Additionally, in response to mounting debt pressures, the European Central Bank allayed fears by affirming its conviction to preserve the euro bloc. Early in September, the European Central Bank announced its plan to purchase sovereign debt in the eurozone s most troubled nations. Later that month, the US Federal Reserve announced its long-awaited and surprisingly aggressive stimulus program, committing to purchase \$40 billion of agency mortgage-backed securities per month until the US economy exhibits enough strength to sustain real growth and the labor market shows solid improvement. These central bank actions boosted investor confidence and risk assets rallied globally.

European stocks continued their advance in the final month of the reporting period as progress toward fiscal integration created a more positive atmosphere for investors. However, as corporate earnings season got underway in the United States, lackluster results pointed to the fragility of global growth and pushed US equity markets down for the month of October. The period ended with increasing concern about how and when US politicians would resolve the nation s looming fiscal crisis, known as the fiscal cliff.

All asset classes performed well for the 12-month period ended October 31, 2012, with the strongest returns coming from US stocks and high yield bonds. For the six-month period ended October 31, 2012, equities underperformed fixed income investments, where high yield was the leading sector. US and international stocks finished the six-month period with modest gains, while emerging market stocks lagged other asset classes amid ongoing uncertainty. Near-zero short term interest rates continued to keep yields on money market securities near their all-time lows.

Although the financial world remains highly uncertain, we believe there are new avenues of opportunity new ways to invest and new markets to consider. We believe it s our responsibility to help investors adapt to today s new world of investing and build the portfolios these times require. We encourage you to visit www.blackrock.com/newworld for more information.

Sincerely,

Rob Kapito

Fund Summary as of October 31, 2012

BlackRock Credit Allocation Income Trust I, Inc.

Fund Overview

BlackRock Credit Allocation Income Trust I, Inc. s (PSW) (the Fund) primary investment objective is to provide holders of common shares (Common Shareholders) with high current income. The secondary investment objective of the Fund is to provide Common Shareholders with capital appreciation. The Fund seeks to achieve its investment objectives by investing, under normal market conditions, at least 80% of its assets in credit-related securities, including, but not limited to, investment grade corporate bonds, high yield bonds (commonly referred to as junk bonds), bank loans, preferred securities or convertible bonds or derivatives with economic characteristics similar to these credit-related securities. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund s investment objective will be achieved.

Portfolio Management Commentary

On July 27, 2012, the Board of Directors of PSW approved a plan of reorganization whereby BlackRock Credit Allocation Income Trust IV (BTZ) would acquire all of the assets and assume all of the liabilities of PSW in exchange for newly issued shares of BTZ in a merger transaction. At a shareholder meeting on November 2, 2012, PSW shareholders approved the plan of reorganization and BTZ shareholders approved the issuance of BTZ shares in connection with the reorganization. The reorganization took place on December 10, 2012.

How did the Fund perform?

For the 12-month period ended October 31, 2012, the Fund returned 24.59% based on market price and 17.95% based on net asset value (NAV). For the same period, the closed-end Lipper Corporate BBB-Rated Debt Funds (Leveraged) category posted an average return of 21.64% based on market price and 15.80% based on NAV. All returns reflect reinvestment of dividends. The Fund's discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV.

What factors influenced performance?

The largest contributor to performance for the period was the Fund s allocation to the financials sector, which has seen very strong performance in 2012, especially in the first quarter. The rally in financials was driven mainly by the completion of the widely anticipated Greek sovereign debt restructuring and the launch of a second allotment of long-term refinancing operations (LTROs) from the European Central Bank (ECB). Risk assets broadly moved higher through the first quarter due to the reduction of systemic risk stemming from the eurozone s sovereign debt crisis coupled with improving economic data in the United States. The Fund has held a long position in financials since the latter half of 2011 when valuations became attractive and credit fundamentals began to improve due to heightened industry regulation following the 2008 financial crisis. Another source of positive performance was the Fund s allocation to capital trust securities, which have experienced significant price appreciation due to banking and financial industry regulatory reform under Basel III and the Dodd Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act). Positioning within industrials aided performance as the Fund was selectively overweight in higher-beta names (i.e., those with greater sensitivity to market movements) early in 2012, particularly in the technology, media and telecommunications space. The

Fund s exposure to high yield corporate bonds drove strong returns and supported the Fund s overall yield.

Detracting modestly from the Fund s performance was an allocation to the metals and mining space. As China has shown signs of slowing economic growth and a move away from its investment-based economy, the metals and mining sector has struggled given its close ties to the Chinese growth story.

Describe recent portfolio activity.

Early in the 12-month period, the Fund reduced its overall risk profile by favoring high quality companies with strong balance sheets and by decreasing leverage and portfolio duration (sensitivity to interest rate movements). However, following an important step by the ECB to alleviate liquidity strains in the financial markets through its LTROs, the Fund increased risk significantly in early 2012 as the market appeared to be poised for a strong rally. Improving credit fundamentals coupled with the reduction of major liquidity risks proved the right formula for a rally in the credit space. The Fund expressed this view largely by increasing exposure to the financials sector, where valuations were attractive. The Fund reduced risk again at the end of the first quarter as the positive effect of the ECB s LTROs began to fade and the market was growing impatient with the stalling global economic growth. Accordingly, the Fund positioned itself away from sectors directly tied to growth, and instead focused on companies that derive cash flows from the United States and are less sensitive to slowing global growth. In particular, the Fund increased exposure to US pipelines and electric companies as they tend to generate stable cash flows despite the slowing growth dynamic.

Describe portfolio positioning at period end.

As of period end, the Fund maintained diversified exposure across investment grade and high yield corporate credits. While investment grade credit has experienced dramatic spread tightening in the past year, Fund management continued to find value in this space. The Fund continued to generate additional yield from its sizeable allocation to high yield debt. Within the credit space, the Fund retained a strong allocation to financials, although to a lesser extent than earlier in 2012. The Fund s holdings at period end reflected a slightly more defensive bias, with a focus on the US growth story, which remained relatively benign as compared to the rest of the world. To this end, the Fund favored companies with cash flows derived from the United States and a lower sensitivity to recession in Europe.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

Fund Summary as of October 31, 2012

BlackRock Credit Allocation Income Trust IV

Fund Overview

BlackRock Credit Allocation Income Trust IV s (BTZ) (the Fund) investment objective is to provide current income, current gains and capital appreciation. The Fund seeks to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in credit-related securities, including, but not limited to, investment grade corporate bonds, high yield bonds (commonly referred to as junk bonds), bank loans, preferred securities or convertible bonds or derivatives with economic characteristics similar to these credit-related securities. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund s investment objective will be achieved.

Portfolio Management Commentary

On July 27, 2012, the Board of Directors of BTZ approved separate plans of reorganization whereby BTZ would acquire all of the assets and assume all of the liabilities of PSW, PSY and BPP (PSW, PSY and BPP, each a Target Fund) in exchange for newly issued shares of BTZ in a merger transaction. At a shareholder meeting on November 2, 2012, each Target Fund s shareholders approved their respective plan of reorganization and BTZ shareholders approved the issuance of BTZ shares in connection with the reorganization. The reorganization took place on December 10, 2012.

How did the Fund perform?

For the 12-month period ended October 31, 2012, the Fund returned 26.44% based on market price and 18.35% based on NAV. The Fund s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV.

What factors influenced performance?

The largest contributor to performance for the period was the Fund s allocation to the financials sector, which has seen very strong performance in 2012, especially in the first quarter. The rally in financials was driven mainly by the completion of the widely anticipated Greek sovereign debt restructuring and the launch of a second allotment of LTROs from the ECB. Risk assets broadly moved higher through the first quarter due to the reduction of systemic risk stemming from the eurozone s sovereign debt crisis coupled with improving economic data in the United States. The Fund has held a long position in financials since the latter half of 2011 when valuations became attractive and credit fundamentals began to improve due to heightened industry regulation following the 2008 financial crisis. Another source of positive performance was the Fund s allocation to capital trust securities, which have experienced significant price appreciation due to banking and financial industry regulatory reform under Basel III and the Dodd-Frank Act. Positioning within industrials aided performance as the Fund was selectively overweight in higher-beta names (i.e., those with greater sensitivity to market movements) early in 2012, particularly in the technology, media and telecommunications space. The Fund s exposure to high yield corporate bonds drove strong returns and supported the Fund s overall yield.

Detracting modestly from the Fund s performance was an allocation to the metals and mining space. As China has shown signs of slowing economic growth and a move away from its investment-based economy, the metals and mining sector has struggled given its close ties to the Chinese growth story.

Describe recent portfolio activity.

Early in the 12-month period, the Fund reduced its overall risk profile by favoring high quality companies with strong balance sheets and by decreasing leverage and portfolio duration (sensitivity to interest rate movements). However, following an important step by the ECB to

alleviate liquidity strains in the financial markets through its LTROs, the Fund increased risk significantly in early 2012 as the market appeared to be poised for a strong rally. Improving credit fundamentals coupled with the reduction of major liquidity risks proved the right formula for a rally in the credit space. The Fund expressed this view largely by increasing exposure to the financials sector, where valuations were attractive. The Fund reduced risk again at the end of the first quarter as the positive effect of the ECB s LTROs began to fade and the market was growing impatient with the stalling global economic growth. Accordingly, the Fund positioned itself away from sectors directly tied to growth, and instead focused on companies that derive cash flows from the United States and are less sensitive to slowing global growth. In particular, the Fund increased exposure to US pipelines and electric companies as they tend to generate stable cash flows despite the slowing growth dynamic.

Describe portfolio positioning at period end.

As of period end, the Fund maintained diversified exposure across investment grade and high yield corporate credits. While investment grade credit has experienced dramatic spread tightening in the past year, Fund management continued to find value in this space. The Fund continued to generate additional yield from its sizeable allocation to high yield debt. Within the credit space, the Fund retained a strong allocation to financials, although to a lesser extent than earlier in 2012. The Fund s holdings at period end reflected a slightly more defensive bias, with a focus on the US growth story, which remained relatively benign as compared to the rest of the world. To this end, the Fund favored companies with cash flows derived from the United States and a lower sensitivity to recession in Europe.

Fund Summary as of October 31, 2012

BlackRock Floating Rate Income Trust

Fund Overview

BlackRock Floating Rate Income Trust s (BGT) (the Fund) primary investment objective is to provide a high level of current income. The Fund s secondary investment objective is to seek the preservation of capital. The Fund seeks to achieve its investment objectives by investing primarily, under normal conditions, at least 80% of its assets in floating and variable rate instruments of US and non-US issuers, including a substantial portion of its assets in global floating and variable rate securities including senior secured floating rate loans made to corporate and other business entities. Under normal market conditions, the Fund expects that the average effective duration of its portfolio will be no more than 1.5 years. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund s investment objectives will be achieved.

Portfolio Management Commentary

How did the Fund perform?

For the 12-month period ended October 31, 2012, the Fund returned 25.33% based on market price and 12.37% based on NAV. For the same period, the closed-end Lipper Loan Participation Funds category posted an average return of 21.76% based on market price and 12.63% based on NAV. All returns reflect reinvestment of dividends. The Fund moved from a discount to NAV to a premium by period end, which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV.

What factors influenced performance?

Security selection in the gaming, diversified manufacturing, electric and consumer services industries contributed positively to results, as did the Fund stactical allocation to fixed-rate high yield corporate bonds, which outperformed floating rate loan interests (bank loans) over the period.

Conversely, security selection in the media non-cable industry detracted from performance, along with exposure to the media cable and independent energy industries. The Fund s limited exposure to emerging market securities hindered returns as this segment of the fixed income universe outperformed both high yield and bank loans. **Describe recent portfolio activity.**

During the 12-month period, the Fund maintained its focus on the higher quality portions of the loan market in terms of loan structure, liquidity and overall credit quality. The Fund sought issuers with attractive risk-reward characteristics and superior fundamentals. Given mixed economic data along with global policy uncertainty and an overall weak outlook for global growth, the Fund remained cautious of lower-rated, less-liquid loans.

Financial markets improved during the period due to the long-term refinancing operations introduced by the European Central Bank (ECB) in December 2011 and additional monetary stimulus from both the ECB and the US Federal Reserve in September 2012. These global central bank actions were supportive of risk markets, but did not have a significant influence on the Fund s view on risk within the loan market. More specifically, the Fund continued to adhere to a strict investment discipline with the goal of pursuing yield while minimizing exposure to macro risks.

Describe portfolio positioning at period end.

At period end, the Fund held 80% of its total portfolio in floating rate loan interests and 16% in corporate bonds, with the remainder invested in a mix of asset-backed securities, foreign agency obligations and common stocks. The Fund s largest sector exposures included health care, media cable and chemicals. The Fund ended the period with leverage at 30% of its total managed assets.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

The Benefits and Risks of Leveraging

The Funds may utilize leverage to seek to enhance the yield and NAV of their common shares (Common Shares). However, these objectives cannot be achieved in all interest rate environments.

The Funds may utilize leverage by borrowing through a credit facility and/or entering into reverse repurchase agreements. In general, the concept of leveraging is based on the premise that the financing cost of assets to be obtained from leverage, which will be based on short-term interest rates, will normally be lower than the income earned by each Fund on its longer-term portfolio investments. To the extent that the total assets of each Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Fund s shareholders will benefit from the incremental net income.

The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV. However, in order to benefit shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, income to shareholders will be lower than if the Funds had not used leverage.

To illustrate these concepts, assume a Fund s capitalization is \$100 million and it borrows for an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Fund pays borrowing costs and interest expense on the \$30 million of borrowings based on the lower short-term interest rates. At the same time, the securities purchased by the Fund with assets received from the borrowings earn income based on long-term interest rates. In this case, the borrowing costs and interest expense of the borrowings is significantly lower than the income earned on the Fund s long-term investments, and therefore the Fund s shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates, the yield curve has a negative slope. In this case, the Fund pays higher short-term interest rates whereas the Fund s total portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Funds portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the

redemption value of the Funds borrowings does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Funds NAV positively or negatively in addition to the impact on Fund performance from borrowings discussed above.

The use of leverage may enhance opportunities for increased income to the Funds, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes in the Funds NAVs, market prices and dividend rates than comparable portfolios without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Funds net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Fund s net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. Each Fund may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Fund to incur losses. The use of leverage may limit each Fund s ability to invest in certain types of securities or use certain types of hedging strategies. Each Fund will incur expenses in connection with the use of leverage, all of which are borne by shareholders and may reduce income.

Under the Investment Company Act of 1940, as amended (the 1940 Act), the Funds are permitted to issue senior securities representing indebtedness up to $33 \frac{1}{3}\%$ of their total managed assets (each Fund s net assets plus the proceeds of any outstanding borrowings). If the Funds segregate liquid assets having a value not less than the repurchase price (including accrued interest), a reverse repurchase agreement will not be considered a senior security and therefore will not be subject to this limitation. In addition, each Fund voluntarily limits its aggregate economic leverage to 50% of its managed assets. As of October 31, 2012, the Funds had aggregate economic leverage from reverse repurchase agreements and/or borrowings through a credit facility as a percentage of their total managed assets as follows:

	Percent of Economic Leverage
PSW	33%
PSY	32%
BPP	32%
BTZ	32%
BGT	30%

14 ANNUAL REPORT

Derivative Financial Instruments

The Funds may invest in various derivative financial instruments, including financial futures contracts, foreign currency exchange contracts, options and swaps, as specified in Note 2 of the Notes to Financial Statements, which may constitute forms of economic leverage. Such derivative financial instruments are used to obtain exposure to a security, index and/or market without owning or taking physical custody of securities or to hedge market, equity, credit, interest rate and/or foreign currency exchange rate risks. Derivative financial instruments involve risks, including the imperfect correlation between the value of a derivative financial instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative financial instrument. The Funds ability to use a

derivative financial instrument successfully depends on the investment advisor s ability to predict pertinent market movements accurately, which cannot be assured. The use of derivative financial instruments may result in losses greater than if they had not been used, may require a Fund to sell or purchase portfolio investments at inopportune times or for distressed values, may limit the amount of appreciation a Fund can realize on an investment, may result in lower dividends paid to shareholders or may cause a Fund to hold an investment that it might otherwise sell. The Funds investments in these instruments are discussed in detail in the Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

21

Schedule of Investments (continued)

BlackRock Credit Allocation Income Trust I, Inc. (PSW)

- (a) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (b) Variable rate security. Rate shown is as of report date.
- (c) All or a portion of security has been pledged as collateral in connection with open reverse repurchase agreements.
- (d) Convertible security.
- (e) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (f) Security is perpetual in nature and has no stated maturity date.
- (g) Non-income producing security.
- (h) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (i) Investments in issuers considered to be an affiliate of the Fund during the year ended October 31, 2012, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

	Shares Held at		Shares Held at	
Affiliate	October 31, 2011	Net Activity	October 31, 2012	Income
BlackRock Liquidity Funds, TempFund, Institutional Class	1,362,932	(479,754)	883,178	\$ 1,279

(j) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Reverse repurchase agreements outstanding as of October 31, 2012 were as follows:

³ Fund pays the fixed rate and receives the floating rate.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Fund has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instruments and is not necessarily an indication of the risks associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and derivative financial instruments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Notes to Financial Statements.

Foreign currency exchange contracts Interest rate contracts Liabilities: Credit contracts	\$ 132,884 (47,046)	2,443 117,558		2,443 250,442

¹ Derivative financial instruments are swaps, financial futures contracts, foreign currency exchange contracts and options. Swaps, financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at value.

Certain of the Fund s assets and liabilities are held at carrying amount or face value, which approximates fair value for financial statement purposes. As of October 31, 2012, such assets and liabilities are categorized within the disclosure hierarchy as follows:

	Level 1	Level 2	Level 3	r	Fotal
Assets:					
Foreign currency at value	\$ 8,814			\$	8,814
Cash pledged as collateral for					
financial futures contracts	207,000				207,000
Cash pledged as collateral for					
swaps	120,000				120,000
Liabilities:					
Reverse repurchase agreements		\$(57,959,120)		(57	,959,120)
- -					
Total	\$335,814	\$ (57,959,120)		\$(57	,623,306)

There were no transfers between Level 1 and Level 2 during the year ended October 31, 2012.

Certain of the Fund s investments and derivative financial instruments are categorized as Level 3 and were valued utilizing transaction prices or third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in the unobservable inputs could result in a significantly lower or higher value in such Level 3 investments and derivative financial instruments.

A reconciliation of Level 3 investments and derivative financial instruments is presented when the Fund had a significant amount of Level 3 investments and derivative financial instruments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	Asset- Backed Securities	Corporate Bonds	Total
Assets:			
Opening balance, as of October 31, 2011	\$ 503,750	\$ 858,000	\$1,361,750
Transfers into Level 3 ²			
Transfers out of Level 3 ²			
Accrued discounts/premiums	15,649		15,649
Net realized gain (loss)			
Net change in unrealized appreciation/depreciation ³	68,851	(3,625)	65,226
Purchases		500,000	500,000
Sales			
Closing Balance, as of October 31, 2012	\$ 588,250	\$ 1,354,375	\$ 1,942,625

² Transfers into and transfers out of Level 3 represent the values as of the beginning of the reporting period.

³ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on investments still held as of October 31, 2012 was \$65,226.

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

Schedule of Investments (continued)

BlackRock Credit Allocation Income Trust II, Inc. (PSY)

(i) Investments in issuers considered to be an affiliate of the Fund during the year ended October 31, 2012, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

	Shares		Shares	
	Held at		Held at	
	October 31,	Net	October 31,	
Affiliate	2011	Activity	2012	Income
BlackRock Liquidity Funds, TempFund, Institutional Class	405,708	719,366	1,125,074	\$ 4,796

(j) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

³ Fund pays the fixed rate and receives the floating rate.

⁴ Fund pays the floating rate and receives the fixed rate.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Fund has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and derivative financial instruments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the Fund s investments and derivative financial instruments categorized in the disclosure hierarchy as of October 31, 2012:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Long-Term Investments:				
Asset-Backed Securities		\$ 2,784,003	\$ 2,398,250	\$ 5,182,253
Corporate Bonds		574,247,467	4,960,375	579,207,842

Schedule of Investments (concluded)

BlackRock Credit Allocation Income Trust II, Inc. (PSY)

	Level 1	Level 2	Level 3	Total
Derivative Financial Instruments ¹				
Assets:				
Credit contracts		\$ 200,205		\$ 200,205
Foreign currency exchange				
contracts		7,118		7,118
Interest rate contracts	\$ 553,055	484,885		1,037,940
Liabilities:				
Credit contracts		(170,089)		(170,089)
Interest rate contracts	(219,658)	(505,803)		(725,461)
Total	\$ 333,397	\$ 16,316		\$ 349,713

¹ Derivative financial instruments are swaps, financial futures contracts, foreign currency exchange contracts and options. Swaps, financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at value.

Certain of the Fund s assets and liabilities are held at carrying amount or face value, which approximates fair value for financial statement purposes. As of October 31, 2012, such assets and liabilities are categorized within the disclosure hierarchy as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Foreign currency at value	\$ 3,738			\$ 3,738
Cash pledged as collateral for				
financial futures contracts	868,000			868,000
Cash pledged as collateral for				
swaps	160,000			160,000
Liabilities:				
Reverse repurchase agreements		\$(235,518,351)		(235,518,351)
Cash received as collateral for				
reverse repur-				
chase agree-				
ments		(3,336,000)		(3,336,000)
Cash received as collateral for				
swaps		(600,000)		(600,000)
Total	\$ 1,031,738	\$ (239,454,351)		\$ (238,422,613)

There were no transfers between Level 1 and Level 2 during the year ended October 31, 2012.

Table of Contents

Certain of the Fund s investments and derivative financial instruments are categorized as Level 3 and were valued utilizing transaction prices or third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in the unobservable inputs could result in a significantly lower or higher value in such Level 3 investments and derivative financial instruments.

A reconciliation of Level 3 investments and derivative financial instruments is presented when the Fund had a significant amount of Level 3 investments and derivative financial instruments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	 set-Backed Securities	Corporate Bonds	Total
Assets:			
Opening balance, as of			
October 31, 2011	\$ 2,053,750	\$3,536,000	\$ 5,589,750
Transfers into Level 3 ²			
Transfers out of Level 3 ²			
Accrued discounts/premiums	37,775		37,775
Net realized gain (loss)			
Net change in unrealized			
appreciation/depreciation ³	306,725	(25,625)	281,100
Purchases		1,450,000	1,450,000
Sales			
Closing Balance, as of October 31, 2012	\$ 2,398,250	\$4,960,375	\$7,358,625

² Transfers into and transfers out of Level 3 represent the values as of the beginning of the reporting period.

³ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on investments still held as of October 31, 2012 was \$281,100. The following table is a reconciliation of Level 3 derivative financial instruments for which significant unobservable inputs were used in determining fair value:

	 edit tracts
Assets:	
Opening balance, as of October 31, 2011	\$ 5,018
Transfers into Level 3 ²	
Transfers out of Level 3 ²	
Accrued discounts/premiums	
Net realized gain (loss)	
Net change in unrealized appreciation/depreciation ⁴	(5,018)
Purchases	

Issues ⁵		
Sales		
Settlements ⁶		

Closing Balance, as of October 31, 2012

- ⁴ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on derivative financial instruments still held as of October 31, 2012 was \$0.
- ⁵ Issues represent upfront cash received on certain derivative financial instruments.
- ⁶ Settlements represent periodic contractual cash flows and/or cash flows to terminate certain derivative financial instruments.

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

Schedule of Investments (continued)

BlackRock Credit Allocation Income Trust III (BPP)

(h) Investments in issuers considered to be an affiliate of the Fund during the year ended October 31, 2012, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

	Shares Held at October 31,	Net	Shares Held at October 31,		
Affiliate	2011	Activity	2012	Income	
BlackRock Liquidity Funds, TempFund Institutional Class	2,459,914	1,642,068	4,101,982	\$ 2,279	
(i) Represents the current yield as of report date.					

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Total						\$	302,670		

³ Fund pays the fixed rate and receives the floating rate.

⁴ Fund pays the floating rate and receives the fixed rate.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of

three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Fund has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and derivative financial instruments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the Fund s investments and derivative financial instruments categorized in the disclosure hierarchy as of October 31, 2012:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Long-Term Investments:				
Asset-Backed Securities			\$ 1,176,500	\$ 1,176,500
Corporate Bonds		\$ 282,854,334	2,367,700	285,222,034
Floating Rate Loan Interests		85,435		85,435
Preferred Securities	\$ 1,178,055	48,483,313		49,661,368
Taxable Municipal Bonds		2,109,059		2,109,059
US Govern-				
ment Sponsored Agency Securities		704,579		704,579
US Treasury Obligations		16,354,555		16,354,555
Short-Term Securities	4,101,982			4,101,982
Total	\$ 5,280,037	\$ 350,591,275	\$ 3,544,200	\$ 359,415,512

	Level 1	Level 2	Level 3	Total
Derivative Financial Instruments ¹				
Assets:				
Credit contracts		\$ 78,252		\$ 78,252
Foreign currency exchange contracts		423		423
Interest rate contracts	\$ 228,820	425,943		654,763
Liabilities:				
Credit contracts		(65,504)		(65,504)
Foreign currency exchange contracts		(12,860)		(12,860)
Interest rate contracts	(113,509)	(1,428,429)		(1,541,938)
Total	\$ 115,311	\$ (1,002,175)		\$ (886,864)

¹ Derivative financial instruments are swaps, financial futures contracts, foreign currency exchange contracts and options. Swaps, financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at value.

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

45

Schedule of Investments (concluded)

BlackRock Credit Allocation Income Trust III (BPP)

Certain of the Fund s assets and liabilities are held at carrying amount or face value, which approximates fair value for financial statement purposes. As of October 31, 2012, such assets and liabilities are categorized within the disclosure hierarchy as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Foreign currency at value	\$ 10,231			\$ 10,231
Cash pledged as collateral for				
financial futures contracts	266,000			266,000
Cash pledged as collateral for				
swaps	571,000			571,000
Liabilities:				
Reverse repurchase agreements		\$(117,132,156)		(117,132,156)
Cash received as collateral for				
reverse repur-				
chase agree-				
ments		(1,297,000)		(1,297,000)
Total	\$847,231	\$ (118,429,156)		\$(117,581,925)

There were no transfers between Level 1 and Level 2 during the year ended October 31, 2012.

Certain of the Fund s investments and derivative financial instruments are categorized as Level 3 and were valued utilizing transaction prices, third party pricing information or net asset value without adjustment. Such valuations are based on unobservable inputs. A significant change in the unobservable inputs could result in a significantly lower or higher value in such Level 3 investments and derivative financial instruments.

A reconciliation of Level 3 investments and derivative financial instruments is presented when the Fund had a significant amount of Level 3 investments and derivative financial instruments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	Asset- Backed Securities	Corporate Bonds	Total
Assets:			
Opening balance, as of			
October 31, 2011	\$ 1,007,500	\$ 1,690,000	\$2,697,500
Transfers into Level 3 ¹			
Transfers out of Level 3 ¹			
Accrued discounts/premiums	18,531		18,531

Table of Contents

Closing Balance, as of October 31, 2012	\$ 1,176,500	\$2,367,700	\$3,544,200
Sales			
Purchases		690,000	690,000
Net change in unrealized appreciation/depreciation ²	150,469	(12,300)	138,169
Net realized gain (loss)			

¹ Transfers into and transfers out of Level 3 represent the values as of the beginning of the reporting period.

² Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on investments still held as of October 31, 2012 was \$138,169.
 The following table is a reconciliation of Level 3 derivative financial instruments for which significant unobservable inputs were used in determining fair value:

	 Credit ontracts
Assets:	
Opening balance, as of October 31, 2011	\$ 2,351
Transfers into Level 3 ¹	
Transfers out of Level 3 ¹	
Accrued discounts/premiums	
Net realized gain (loss)	
Net change in unrealized appreciation/depreciation ³	(2,351)
Purchases	
Issues ⁴	
Sales	
Settlements ⁵	

Closing Balance, as of October 31, 2012

³ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/ depreciation on derivative financial instruments still held as of October 31, 2012 was \$0.

⁴ Issues represent upfront cash received on certain derivative financial instruments.

⁵ Settlements represent periodic contractual cash flows and/or cash flows to terminate certain derivative financial instruments.

See Notes to Financial Statements.

(a) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.

(b) Variable rate security. Rate shown is as of report date.

(c) All or a portion of security has been pledged as collateral in connection with open reverse repurchase agreements.

(d) Convertible security.

(e) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.

- (f) Security is perpetual in nature and has no stated maturity date.
- (g) Non-income producing security.
- (h) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (i) Investments in issuers considered to be an affiliate of the Fund during the year ended October 31, 2012, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

	Shares Held at		Shares Held at	
	October 31,	Net	October 31,	_
Affiliate	2011	Activity	2012	Income
BlackRock Liquidity Funds, TempFund, Institutional Class	3,823,108	(2,170,452)	1,652,656	\$ 6,626

(j) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

³ Fund pays the fixed rate and receives the floating rate.

⁴ Fund pays the floating rate and receives the fixed rate.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Fund has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instruments and is not necessarily an indication of the risks associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and derivative financial instruments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

Schedule of Investments (concluded)

BlackRock Credit Allocation Income Trust IV (BTZ)

The following tables summarize the Fund s investments and derivative financial instruments categorized in the disclosure hierarchy as of October 31, 2012:

	Level 1	Level 2	Level 3	Total		
Assets:						
Investments:						
Long-Term Investments:						
Asset-Backed Securities		\$ 4,929,658	\$ 3,982,000	\$ 8,911,658		
Corporate Bonds		917,652,041	8,192,550	925,844,591		
Floating Rate Loan Interests		291,395		291,395		
Preferred Securities	\$ 4,229,295	184,817,988		189,047,283		
Taxable Municipal Bonds		10,941,745		10,941,745		
US Govern-						
ment Spon-						
sored Agency Securities		2,420,075		2,420,075		
US Treasury Obligations		27,384,482		27,384,482		
Short-Term Securities	1,652,656			1,652,656		
Total	\$ 5,881,951	\$ 1,148,437,384	\$ 12,174,550	\$ 1,166,493,885		
	Level 1	Level 2	Level 3	Total		
Derivative Financial Instruments ¹						
Assets:						
Credit contracts		\$ 360,454		\$ 360,454		
Interest rate contracts	\$ 747,505	1,391,182		2,138,687		
Liabilities:						
Credit contracts		(293,124)		(293,124)		
Interest rate contracts	(461,722)	(4,868,986)		(5,330,708)		
				• /• /• / • · · ·		
Total	\$ 285,783	\$ (3,410,474)		\$ (3,124,691)		

¹ Derivative financial instruments are swaps, financial futures contracts and options. Swaps, financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at value.

Certain of the Fund s assets and liabilities are held at carrying amount or face value, which approximates fair value for financial statement purposes. As of October 31, 2012, such assets and liabilities are categorized within the disclosure hierarchy as follows:

	Level 1	Level 2	Level 3	Total	
Assets:					
Cash	\$ 57,836			\$	57,836
Foreign currency at value	44				44
Cash pledged as collateral for					
financial futures contracts	766,940				766,940
Cash pledged as collateral for swaps	3,640,000				3,640,000
Liabilities:					
Reverse repurchase agreements		\$ 6 (373,715,690)	1		(373,715,690)
Cash received as collateral for					
reverse repurchase agreements		(11,059,900)	1		(11,059,900)
Cash received as collateral for					
swaps		(500,000))		(500,000)
Total	\$ 4,464,820	\$ 6 (385,275,590)	1	\$	(380,810,770)

There were no transfers between Level 1 and Level 2 during the year ended October 31, 2012.

Certain of the Fund s investments and derivative financial instruments are categorized as Level 3 and were valued utilizing transaction prices or third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in the unobservable inputs could result in a significantly lower or higher value in such Level 3 investments and derivative financial instruments.

A reconciliation of Level 3 investments and derivative financial instruments is presented when the Fund had a significant amount of Level 3 investments and derivative financial instruments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	set-Backed Securities	Corporate Bonds	Total
Assets:			
Opening balance, as of October 31, 2011	\$ 3,410,000	\$ 5,876,000	\$ 9,286,000
Transfers into Level 3 ²			
Transfers out of Level 3 ²			
Accrued discounts/premiums	62,713		62,713
Net realized gain (loss)			
Net change in unrealized appreciation/depreciation ³	509,287	(43,450)	465,837
Purchases		2,360,000	2,360,000
Sales			
Closing Balance, as of October 31, 2012	\$ 3,982,000	\$ 8,192,550	\$ 12,174,550

² Transfers into and transfers out of Level 3 represent the values as of the beginning of the reporting period.

³ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The

change in unrealized appreciation/depreciation on investments still held as of October 31, 2012 was \$465,837. The following table is a reconciliation of Level 3 derivative financial instruments for which significant unobservable inputs were used in determining fair value:

	Credit Intracts
Assets:	
Opening balance, as of October 31, 2011	\$ 8,182
Transfers into Level 3 ²	
Transfers out of Level 3 ²	
Accrued discounts/premiums	
Net realized gain (loss)	
Net change in unrealized appreciation/depreciation ⁴	(8,182)
Purchases	
Issues ⁵	
Sales	
Settlements ⁶	

Closing Balance, as of October 31, 2012

- ⁴ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on derivative financial instruments still held as of October 31, 2012 was \$0.
- ⁵ Issues represent upfront cash received on certain derivative financial instruments.
- ⁶ Settlements represent periodic contractual cash flows and/or cash flows to terminate certain derivative financial instruments.

See Notes to Financial Statements.

(a) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be resold in transactions exempt from registration to qualified institutional investors.

- (b) Variable rate security. Rate shown is as of report date.
- (c) Non-income producing security.
- (d) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (e) Convertible security.
- (f) Issuer filed for bankruptcy and/or is in default of principal and/or interest payments.
- (g) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (h) Other interests represent beneficial interests in liquidation trusts and other reorganization or private entities.
- (i) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.
- (j) Investments in issuers considered to be an affiliate of the Fund during the year ended October 31, 2012, for purposes of Section 2(a)(3) of the 1940 Act, were as follows:

	Shares		Shares	
	Held at October 31,	Net	Held at October 31,	
Affiliate	2011	Activity	2012	Income
BlackRock Liquidity Funds, TempFund, Institutional Class	1,071,567	1,669,127	2,740,694	\$ 1,817

(k) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. These definitions may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Foreign currency exchange contracts as of October 31, 2012 were as follows:

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivative financial instruments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial statement purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Fund has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

Consolidated Schedule of Investments (continued)

BlackRock Floating Rate Income Trust (BGT)

curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund s own assumptions used in determining the fair value of investments and derivative financial instruments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Fund s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments and derivative financial instruments is based on the pricing transparency of the investment and derivative financial instrument and is not necessarily an indication of the risks associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and derivative financial instruments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the Fund s investments and derivative financial instruments categorized in the disclosure hierarchy as of October 31, 2012:

	Level 1	Level 2	Level 3	Total
Assets:				
Investments:				
Long-Term Investments:				
Asset-Backed Securities		\$ 817,377	\$ 8,621,975	\$ 9,439,352
Common Stocks	\$ 149,375	2,874,288	8,096	3,031,759
Corporate Bonds		80,618,164		80,618,164
Floating Rate Loan Interests		379,687,538	27,270,564	406,958,102
Foreign Agency Obligations		3,245,123		3,245,123
Other Interests			1,394,386	1,394,386
Warrants		67,341		67,341
Short-Term Securities	2,740,694			2,740,694
Total	\$ 2,890,069	\$ 467,309,831	\$ 37,295,021	\$ 507,494,921
	Level 1	Level 2	Level 3	Total
Derivative Financial Instruments ¹				

Table of Contents

Assets:		
Foreign currency exchange contracts	\$ 774,487	\$ 774,487
Liabilities:		
Foreign currency exchange contracts	(119,911)	(119,911)
Total	\$ 654,576	\$ 654,576

¹ Derivative financial instruments are foreign currency exchange contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

Certain of the Fund s assets and liabilities are held at carrying amount, which approximates fair value for financial statement purposes. As of October 31, 2012, such assets and liabilities are categorized within the disclosure hierarchy as follows:

	Level 1	Level 2	Level 3	Total
Assets:				
Cash	\$168,646			\$ 168,646
Liabilities:				
Bank overdraft on foreign currency				
at value		\$ (915,491)		(915,491)
Loan payable		(145,000,000)		(145,000,000)
Total	\$168,646	\$(145,915,491)		\$(145,746,845)

There were no transfers between Level 1 and Level 2 during the year ended October 31, 2012.

See Notes to Financial Statements.

ANNUAL REPORT

OCTOBER 31, 2012

Consolidated Schedule of Investments (concluded)

BlackRock Floating Rate Income Trust (BGT)

The following table summarizes the valuation techniques used and unobservable inputs developed by the BlackRock Global Valuation Methodologies Committee (Global Valuation Committee) to determine the value of certain of the Fund s Level 3 investments as of October 31, 2012:

				Range of	
				Unobservable Inputs	Weighted Average of Unobservable
	Value	Valuation Techniques	Unobservable Inputs ¹	Utilized	Inputs ²
Assets:					
Floating Rate Loan Interests	\$ 4,153,635	Market Comparable Companies	Illiquidity Discount	50%	50%
-			Yield	9.64%	9.64%
		Cost	N/A ³		
Total ⁴	\$ 4,153,635				

¹ A change to the unobservable input may result in a significant change to the value of the investment as follows:

	Impact to	Impact to
Unobservable Input	Value if Input Increases	Value if Input Decreases
Illiquidity Discount	Decrease	Increase
Yield	Decrease	Increase

² Unobservable inputs are weighted based on the value of the investments included in the range.

- ³ The Fund fair values certain of its Level 3 investments using prior transaction prices (acquisition cost), although the transaction may not have occurred during the current reporting period. In such cases, these investments are generally privately held investments. There may not be a secondary market, and/or there are a limited number of investors. The determination to fair value such investments at cost is based upon factors consistent with the principles of fair value measurement that are reasonably available to the Global Valuation Committee, or its delegate. Valuations are reviewed utilizing available market information to determine if the carrying value should be adjusted. Such market data may include, but is not limited to, observations of the trading multiples of public companies considered comparable to the private companies being valued, financial or operational information released by the company, and/or news or corporate events that affect the investment. Valuations may be adjusted to account for company-specific issues, the lack of liquidity inherent in a nonpublic investment and the fact that comparable public companies are not identical to the investments being fair valued by the Fund.
- ⁴ Does not include Level 3 investments with values derived utilizing transaction prices from recent prior transactions or third party pricing information without adjustment for which such inputs are unobservable. The value of Level 3 investments derived using prices from prior transactions and/or third party pricing information is \$33,141,386. A significant change in third party pricing information could result in a significantly lower or higher value in such Level 3 investments.

A reconciliation of Level 3 investments is presented when the Fund had a significant amount of Level 3 investments at the beginning and/or end of the year in relation to net assets. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

Asset-Backed	Common	Floating Rate	Foreign	Other	Warrants	Total
Securities	Stocks	Loan Interests	Agency			

				Obligations	Interests		
Assets:							
Opening balance, as of October 31, 2011	\$ 6,561,220	\$ 234,634	\$ 32,466,825	\$ 2,961,954	\$ 1,281,000	\$ 227	\$ 43,505,860
Transfers into Level 3 ⁵			2,061,526				2,061,526
Transfers out of Level 36			(9,265,338)	(1,766,334)		(224)	(11,031,896)
Accrued discounts/premiums	102,690		135,391	54,220			292,301
Net realized gain (loss)	10,436	(1,973,689)	(786,090)		182		(2,749,161)
Net change in unrealized							
appreciation/depreciation ⁷	896,626	1,747,166	1,274,470	160	113,386	(3)	4,031,805
Purchases	7,064,246		12,178,975				19,243,221
Sales	(6,013,243)	(15)	(10,795,195)	(1,250,000)	(182)		(18,058,635)
Closing Balance, as of October 31, 2012	\$ 8,621,975	\$ 8,096	\$ 27,270,564		\$ 1,394,386		\$ 37,295,021

⁵ Transfers into Level 3 represent values as of the beginning of the reporting period.

- ⁶ As of October 31, 2011, the Fund used significant unobservable inputs in determining the value of certain investments. As of October 31, 2012, the Fund used observable inputs in determining the value on the same investments. As a result, investments with a beginning of year value of \$11,031,896 transferred from Level 3 to Level 2 in the disclosure hierarchy.
- ⁷ Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The change in unrealized appreciation/depreciation on investments still held as of October 31, 2012 was \$761,055.

See Notes to Financial Statements.

Portfolio turnover	37%	53%	66%	36%	119%
Asset coverage per Preferred Share at \$25,000 liquidation preference, end of year			\$ 93,831	\$ 84,663	\$ 53,009
Asset coverage, end of year per \$1,000	\$ 3,050	\$ 3,037			

- ¹ Based on average shares outstanding.
- ² Total investment returns based on market value, which can be significantly greater or lesser than the net asset value, may result in substantially different returns. Where applicable, total investment returns exclude the effects of any sales charges and include the reinvestment of dividends and distributions.
- ³ Includes the proceeds from a settlement of litigation which impacted the Fund. Not including these proceeds the Fund s total return would have been 24.54%.
- ⁴ Do not reflect the effect of dividends to Preferred Shareholders.
- ⁵ Includes reorganization costs associated with the Fund s merger. Without these costs, total expenses, total expenses after fees waived and paid indirectly, and total expenses after fees waived and paid indirectly and excluding interest expense would have been 1.25%, 1.25% and 1.10%, respectively.
- ⁶ Dividends and distributions are determined in accordance with federal income tax regulations.
