Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include statements preceded by, followed by or that include the words may, could, would, should, believe, expect, anticipate, plan, estimate, project, intend, foresee and similar expressions. These statements include, among others, statements regarding our expected business outlook, anticipated financial and operating results, our business strategy and means to implement the strategy, our objectives, the amount and timing of capital expenditures, the likelihood of our success in expanding our business, financing plans, budgets, working capital needs and sources of liquidity.

Forward-looking statements are only predictions and are not guarantees of performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. Important assumptions relating to the forward-looking statements include, among others, assumptions regarding demand for our products, the expansion of product offerings geographically or through new marketing applications, the timing and cost of planned capital expenditures, competitive conditions and general economic conditions. These assumptions could prove inaccurate. Forward-looking statements also involve known and unknown risks and uncertainties, which could cause actual results to differ materially from those contained in any forward-looking statement. Many of these factors are beyond our ability to control or predict. Such factors include, but are not limited to, the following:

general economic conditions and construction and industrial activity in the markets where we operate in North America, as well as the depth and duration of the recent macroeconomic downturn and related decreases in construction and industrial activities, which may significantly affect our revenues and operating results;

the impact of conditions in the global credit markets and their effect on construction spending and the economy in general;

relationships with equipment suppliers;

increased maintenance and repair costs as we age our fleet and decreases in our equipment's residual value;

our indebtedness;

risks associated with the expansion of our business;

our possible inability to integrate any businesses we acquire;

competitive pressures;

compliance with laws and regulations, including those relating to environmental matters and corporate governance matters; and

other factors discussed under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012.

Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the Securities and Exchange Commission ("SEC"), we are under no obligation to publicly update or revise any forward-looking statements after we file this Quarterly Report on Form 10-Q, whether as a result of any new information, future events or otherwise. Investors, potential investors and other

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

readers are urged to consider the above mentioned factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results or performance.

For a more detailed discussion of some of the foregoing risks and uncertainties, see Item 1A Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012, as well as other reports and registration statements filed by us with the SEC. All of our annual, quarterly and current reports, and any amendments thereto, filed with or furnished to the SEC are available on our Internet website under the Investor Relations link. For more information about us and the announcements we make from time to time, visit our Internet website at www.he-equipment.com.

H&E EQUIPMENT SERVICES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(1) Organization and Nature of Operations

Basis of Presentation

Our condensed consolidated financial statements include the financial position and results of operations of H&E Equipment Services, Inc. and its wholly-owned subsidiaries H&E Finance Corp., GNE Investments, Inc., Great Northern Equipment, Inc., H&E California Holding, Inc., H&E Equipment Services (California), LLC and H&E Equipment Services (Mid-Atlantic), Inc., collectively referred to herein as we or us or our or the Company.

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such regulations. In the opinion of management, all adjustments (consisting of all normal and recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013, and therefore, the results and trends in these interim condensed consolidated financial statements may not be the same for the entire year. These interim condensed consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements and related notes in our Annual Report on Form 10-K for the year ended December 31, 2012, from which the consolidated balance sheet amounts as of December 31, 2012 were derived.

All significant intercompany accounts and transactions have been eliminated in these condensed consolidated financial statements. Business combinations accounted for as purchases are included in the condensed consolidated financial statements from their respective dates of acquisition.

The nature of our business is such that short-term obligations are typically met by cash flows generated from long-term assets. Consequently, and consistent with industry practice, the accompanying condensed consolidated balance sheets are presented on an unclassified basis.

Nature of Operations

As one of the largest integrated equipment services companies in the United States focused on heavy construction and industrial equipment, we rent, sell and provide parts and service support for four core categories of specialized equipment: (1) hi-lift or aerial work platform equipment; (2) cranes; (3) earthmoving equipment; and (4) industrial lift trucks. By providing equipment sales, rental, on-site parts, and repair and maintenance functions under one roof, we are a one-stop provider for our customers' varied equipment needs. This full-service approach provides us with multiple points of customer contact, enables us to maintain a high quality rental fleet, as well as an effective distribution channel for fleet disposal, and provides cross-selling opportunities among our new and used equipment sales, rental, parts sales and service operations.

(2) Significant Accounting Policies

We describe our significant accounting policies in note 2 of the notes to consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2012. During the three month period ended March 31, 2013, there were no significant changes to those accounting policies.

Use of Estimates

We prepare our consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, which requires management to use its judgment to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reported period. These assumptions and estimates could have a material effect on our condensed consolidated financial statements. Actual results may differ materially from those estimates. We review our estimates on an ongoing basis based on information currently available, and changes in

facts and circumstances may cause us to revise these estimates.

Table of Contents*Recent Accounting Pronouncements*

There are no recent accounting pronouncements that are expected to affect the Company's financial reporting.

(3) Fair Value of Financial Instruments

The carrying value of financial instruments reported in our accompanying condensed consolidated balance sheets for cash, accounts receivable, accounts payable and accrued expenses payable and other liabilities approximate fair value due to the immediate or short-term nature or maturity of these financial instruments. The carrying amount for our senior secured credit facility approximates fair value because the underlying instrument includes provisions that adjust our interest rates based on current market rates. The determination of the fair value of our letters of credit is based on fees currently charged for similar agreements. The carrying amounts and fair values of our other financial instruments subject to fair value disclosures have been calculated based upon market quotes and present value calculations based on our current estimated incremental borrowing rates for similar types of borrowing arrangements, which are presented in the table below (amounts in thousands):

	March 31, 2013	
	Carrying Amount	Fair Value
Manufacturer flooring plans payable with interest computed at 5.25%	\$ 67,693	\$ 56,765
Senior unsecured notes with interest computed at 7.0% ⁽¹⁾	630,000	692,213
Capital lease payable with interest computed at 5.929% to 9.55%	2,406	1,853
Letters of credit		146

	December 31, 2012	
	Carrying Amount	Fair Value
Manufacturer flooring plans payable with interest computed at 5.25%	\$ 50,839	\$ 44,232
Senior unsecured notes with interest computed at 7.0% ⁽¹⁾	530,000	564,450
Capital lease payable with interest computed at 5.929% to 9.55%	2,447	1,919
Letters of credit		162

(1) Amounts shown based on aggregate amounts outstanding for the periods presented.

(4) Stockholders' Equity

The following table summarizes the activity in Stockholders' Equity for the three month period ended March 31, 2013 (amounts in thousands, except share data):

	Common Stock		Additional	Treasury	Retained	Total
	Shares Issued	Amount	Paid-in Capital	Stock	Earnings (Deficit)	Stockholders Equity
Balances at December 31, 2012	38,917,619	\$ 388	\$ 212,850	\$ (57,578)	\$ (107,024)	\$ 48,636
Stock-based compensation			938			938
Issuance of common stock	19,064					
Net income					4,777	4,777
Balances at March 31, 2013	38,936,683	\$ 388	\$ 213,788	\$ (57,578)	\$ (102,247)	\$ 54,351

Table of Contents

(5) Stock-Based Compensation

We account for our stock-based compensation plan using the fair value recognition provisions of ASC 718, *Stock Compensation* (ASC 718). Under the provisions of ASC 718, stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period of the grant). Shares available for future stock-based payment awards under our 2006 Stock-Based Incentive Compensation Plan were 3,701,337 shares as of March 31, 2013.

Non-vested Stock

The following table summarizes our non-vested stock activity for the three months ended March 31, 2013:

	Number of Shares	Weighted Average Grant Date Fair Value
Non-vested stock at December 31, 2012	230,415	\$ 13.65
Granted		
Vested		
Forfeited	(1,028)	\$ 13.61
Non-vested stock at March 31, 2013	229,387	\$ 13.65

As of March 31, 2013, we had unrecognized compensation expense of approximately \$2.8 million related to non-vested stock that we expect to be recognized over a weighted-average period of 2.0 years. The following table summarizes compensation expense, which is included in selling, general and administrative expenses in the accompanying condensed consolidated statements of income for the three months ended March 31, 2013 and 2012 (amounts in thousands):

	For the Three Months Ended March 31,	
	2013	2012
Compensation expense	\$ 938	\$ 332

Stock Options

At March 31, 2013, there is no unrecognized compensation expense as all stock option awards have fully vested. The following table represents stock option activity for the three months ended March 31, 2013:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Contractual Life In Years
Outstanding options at December 31, 2012	51,000	\$ 17.80	
Granted			
Exercised			
Canceled, forfeited or expired			
Outstanding options at March 31, 2013	51,000	\$ 17.80	3.3
Options exercisable at March 31, 2013	51,000	\$ 17.80	3.3

The aggregate intrinsic value of our outstanding and exercisable options at March 31, 2013 was approximately \$0.1 million.

Table of Contents**(6) Income per Share**

Income per common share for the three months ended March 31, 2013 and 2012 is based on the weighted average number of common shares outstanding during the period. The effects of potentially dilutive securities that are anti-dilutive are not included in the computation of dilutive income per share. The following table sets forth the computation of basic and diluted net income per common share for the three month periods ended March 31, 2013 and 2012 (amounts in thousands, except per share amounts):

	Three Months Ended March 31,	
	2013	2012
Basic net income per share:		
Net income	\$ 4,777	\$ 3,955
Weighted average number of common shares outstanding	34,976	34,806
Net income per common share basic	\$ 0.14	\$ 0.11
Diluted net income per share:		
Net income	\$ 4,777	\$ 3,955
Weighted average number of common shares outstanding	34,976	34,806
Effect of dilutive securities:		
Effect of dilutive stock options	14	
Effect of dilutive non-vested stock	107	143
Weighted average number of common shares outstanding diluted	35,097	34,949
Net income per common share diluted	\$ 0.14	\$ 0.11
Common shares excluded from the denominator as anti-dilutive:		
Stock options		51
Non-vested restricted stock		

(7) Senior Unsecured Notes

On February 4, 2013, the Company closed on its offering of \$100 million aggregate principal amount of 7% senior notes due 2022 (the Add-on Notes) in an unregistered offering through a private placement. The Add-on Notes were priced at 108.5% of the principal amount. Net proceeds from the offering of the Add-on Notes, including accrued interest from August 20, 2012, totaled approximately \$110.4 million. The Company used the proceeds from the offering to repay indebtedness outstanding under its Senior Secured Credit Facility (the Credit Facility) and for the payment of fees and expenses related to the offering. In connection with the offering, on January 29, 2013, the Company amended its Credit Facility to permit the issuance of the Add-on Notes.

The Add-on Notes bear interest at a rate of 7% per year and mature on September 1, 2022. Interest on the Add-on Notes accrues from August 20, 2012 and is payable on each March 1 and September 1, commencing March 1, 2013. No principal payments are due until maturity.

The Add-on Notes are redeemable, in whole or in part, at any time on or after September 1, 2017 at specified redemption prices plus accrued and unpaid interest to the date of redemption. We may redeem up to 35% of the aggregate principal amount of the Add-on Notes before September 1, 2015 with the net cash proceeds from certain equity offerings. We may also redeem the Add-on Notes prior to September 1, 2017 at a specified make-whole redemption price plus accrued and unpaid interest to the date of redemption.

The Add-on Notes are our senior unsecured obligations and rank (i) equally in right of payment to all of our existing and future senior indebtedness and (ii) senior to any of our subordinated indebtedness. The Add-on Notes are unconditionally guaranteed on a senior unsecured basis by all of our current and future significant domestic restricted subsidiaries. In addition, the Add-on Notes are effectively subordinated to all of our and the guarantors' existing and future secured indebtedness, including the Credit Facility, to the extent of the assets securing such indebtedness, and are structurally subordinated to all of the liabilities and preferred stock of any of our subsidiaries that do not guarantee the Add-on Notes. The Add-on Notes were issued as additional notes under an indenture dated as of August 20, 2012 pursuant to which the Company previously issued \$530 million aggregate principal amount of 7% senior notes due 2022 (the New Notes). The Add-on Notes have identical terms to, rank equally with, and form a part of a single class of securities with the New Notes.

If we experience a change of control, we will be required to offer to purchase the Add-on Notes at a repurchase price equal to 101% of the principal amount, plus accrued and unpaid interest to the date of repurchase.

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

On April 1, 2013, the Company launched an offer to exchange the New and Add-on Notes and guarantees for registered, publicly tradable notes and guarantees that have terms identical in all material respects to the New and Add-on Notes (except that the exchange notes will not contain any transfer restrictions). This exchange offer closed on April 30, 2013.

Table of Contents

The following table reconciles our Senior Secured Notes to our Condensed Consolidated Balance Sheet:

Aggregate principal amount issued on August 20, 2012	\$ 530,000
Initial purchasers' discount	(9,275)
Accretion of discount through December 31, 2012	340
Balance at December 31, 2012	521,065
Aggregate principal amount issued on February 4, 2013	100,000
Premium on notes issued	8,500
Initial purchaser's discount	(1,250)
Accretion of discount through March 31, 2013	253
Amortization of note premium through March 31, 2013	(148)
Balance at March 31, 2013	\$ 628,420

(8) Segment Information

We have identified five reportable segments: equipment rentals, new equipment sales, used equipment sales, parts sales and service revenues. These segments are based upon how management of the Company allocates resources and assesses performance. Non-segmented revenues and non-segmented costs relate to equipment support activities including transportation, hauling, parts freight and damage-waiver charges and are not allocated to the other reportable segments. There were no sales between segments for any of the periods presented. Selling, general and administrative expenses as well as all other income and expense items below gross profit are not generally allocated to reportable segments.

We do not compile discrete financial information by segments other than the information presented below. The following table presents information about our reportable segments (amounts in thousands):

	Three Months Ended March 31,	
	2013	2012
Revenues:		
Equipment rentals	\$ 75,370	\$ 59,629
New equipment sales	53,323	40,997
Used equipment sales	32,149	26,522
Parts sales	24,952	23,378
Services revenues	14,551	13,300
Total segmented revenues	200,345	163,826
Non-segmented revenues	12,043	9,839
Total revenues	\$ 212,388	\$ 173,665
Gross Profit (Loss):		
Equipment rentals	\$ 33,635	\$ 25,272
New equipment sales	5,584	5,052
Used equipment sales	9,401	7,900
Parts sales	6,648	6,449
Services revenues	8,808	8,176
Total segmented gross profit	64,076	52,849
Non-segmented gross profit (loss)	404	(198)

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

Total gross profit \$ 64,480 \$ 52,651

	Balances at	
	March 31, 2013	December 31, 2012
Segment identified assets:		
Equipment sales	\$ 136,372	\$ 64,441
Equipment rentals	595,262	583,349
Parts and services	17,173	15,529
Total segment identified assets	748,807	663,319
Non-segment identified assets	268,006	279,080
Total assets	\$ 1,016,813	\$ 942,399

Table of Contents

The Company operates primarily in the United States and our sales to international customers for the three month periods ended March 31, 2013 and 2012 were approximately 1.8% and 1.7% of total revenues, respectively. No one customer accounted for more than 10% of our revenues on an overall or segment basis for any of the periods presented.

(9) Condensed Consolidating Financial Information of Guarantor Subsidiaries

All of the indebtedness of H&E Equipment Services, Inc. is guaranteed by GNE Investments, Inc. and its wholly-owned subsidiary Great Northern Equipment, Inc., H&E Equipment Services (California), LLC, H&E California Holding, Inc., H&E Equipment Services (Mid-Atlantic), Inc. and H&E Finance Corp. The guarantor subsidiaries are all wholly-owned and the guarantees, made on a joint and several basis, are full and unconditional (subject to subordination provisions and subject to a standard limitation which provides that the maximum amount guaranteed by each guarantor will not exceed the maximum amount that can be guaranteed without making the guarantee void under fraudulent conveyance laws). There are no restrictions on H&E Equipment Services, Inc.'s ability to obtain funds from the guarantor subsidiaries by dividend or loan.

The consolidating financial statements of H&E Equipment Services, Inc. and its subsidiaries are included below. The financial statements for H&E Finance Corp. are not included within the consolidating financial statements because H&E Finance Corp. has no assets or operations.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion summarizes the financial position of H&E Equipment Services, Inc. and its subsidiaries as of March 31, 2013, and its results of operations for the three month period ended March 31, 2013, and should be read in conjunction with (i) the unaudited condensed consolidated financial statements and notes thereto included elsewhere in this Quarterly Report on Form 10-Q and (ii) the audited consolidated financial statements and accompanying notes to our Annual Report on Form 10-K for the year ended December 31, 2012. The following discussion contains, in addition to historical information, forward-looking statements that include risks and uncertainties (see discussion of **Forward-Looking Statements** included elsewhere in this Quarterly Report on Form 10-Q). Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those factors set forth under **Item 1A Risk Factors** of our Annual Report on Form 10-K for the year ended December 31, 2012.

Overview

Background

As one of the largest integrated equipment services companies in the United States focused on heavy construction and industrial equipment, we rent, sell and provide parts and service support for four core categories of specialized equipment: (1) hi-lift or aerial work platform equipment; (2) cranes; (3) earthmoving equipment; and (4) industrial lift trucks. By providing equipment rental, sales, on-site parts, repair and maintenance functions under one roof, we are a one-stop provider for our customers' varied equipment needs. This full service approach provides us with multiple points of customer contact, enables us to maintain a high quality rental fleet, as well as an effective distribution channel for fleet disposal, and provides cross-selling opportunities among our new and used equipment sales, rental, parts sales and service operations.

As of April 26, 2013, we operated 66 full-service facilities throughout the Intermountain, Southwest, Gulf Coast, West Coast, Southeast and Mid-Atlantic regions of the United States. Our work force includes distinct, focused sales forces for our new and used equipment sales and rental operations, highly skilled service technicians, product specialists and regional managers. We focus our sales and rental activities on, and organize our personnel principally by, our four core equipment categories. We believe this allows us to provide specialized equipment knowledge, improve the effectiveness of our rental and sales force and strengthen our customer relationships. In addition, we have branch managers for each location who are responsible for managing their assets and financial results. We believe this fosters accountability in our business and strengthens our local and regional relationships.

Through our predecessor companies, we have been in the equipment services business for approximately 52 years. H&E Equipment Services L.L.C. (**H&E LLC**) was formed in June 2002 through the business combination of Head & Engquist Equipment, LLC (**Head & Engquist**), a wholly-owned subsidiary of Gulf Wide Industries, L.L.C. (**Gulf Wide**), and ICM Equipment Company L.L.C. (**ICM**). Head & Engquist, founded in 1961, and ICM, founded in 1971, were two leading regional, integrated equipment service companies operating in contiguous geographic markets. In the June 2002 transaction, Head & Engquist and ICM were merged with and into Gulf Wide, which was renamed H&E LLC. Prior to the combination, Head & Engquist operated 25 facilities in the Gulf Coast region, and ICM operated 16 facilities in the Intermountain region of the United States.

In connection with our initial public offering in February 2006, we converted H&E LLC into H&E Equipment Services, Inc. Prior to our initial public offering, our business was conducted through H&E LLC. In order to have an operating Delaware corporation as the issuer for our initial public offering, H&E Equipment Services, Inc. was formed as a Delaware corporation and wholly-owned subsidiary of H&E Holdings L.L.C. (**Holdings**), and immediately prior to the closing of our initial public offering, on February 3, 2006, H&E LLC and Holdings merged with and into us (H&E Equipment Services, Inc.), with us surviving the reincorporation merger as the operating company. Effective February 3, 2006, H&E LLC and Holdings no longer existed under operation of law pursuant to the reincorporation merger.

Critical Accounting Policies

Item 7, included in Part II of our Annual Report on Form 10-K for the year ended December 31, 2012, presents the accounting policies and related estimates that we believe are the most critical to understanding our consolidated financial statements, financial condition, and results of operations and cash flows, and which require complex management judgment and assumptions, or involve uncertainties. There have been no changes to these critical accounting policies and estimates during the quarter ended March 31, 2013. These policies include, among others, revenue recognition, the adequacy of the allowance for doubtful accounts, the propriety of our estimated useful life of rental equipment and property and equipment, the potential impairment of long-lived assets including goodwill and intangible assets, obsolescence reserves on inventory, the allocation of purchase price related to business combinations, reserves for claims, including self-insurance reserves, and deferred income taxes, including the valuation of any related deferred tax assets.

Table of Contents

Information regarding our other significant accounting policies is included in note 2 to our consolidated financial statements in Item 8 of Part II of our Annual Report on Form 10-K for the year ended December 31, 2012 and in note 2 to the condensed consolidated financial statements in this Quarterly Report on Form 10-Q.

Business Segments

We have five reportable segments because we derive our revenues from five principal business activities: (1) equipment rentals; (2) new equipment sales; (3) used equipment sales; (4) parts sales; and (5) repair and maintenance services. These segments are based upon how we allocate resources and assess performance. In addition, we also have non-segmented revenues and costs that relate to equipment support activities.

Equipment Rentals. Our rental operation primarily rents our four core types of construction and industrial equipment. We have a well-maintained rental fleet and our own dedicated sales force, focused by equipment type. We actively manage the size, quality, age and composition of our rental fleet based on our analysis of key measures such as time utilization (which we analyze as equipment usage based on: (1) the number of rental equipment units available for rent, and (2) as a percentage of original equipment cost), rental rate trends and targets, rental equipment dollar utilization and maintenance and repair costs, which we closely monitor. We maintain fleet quality through regional quality control managers and our parts and services operations.

New Equipment Sales. Our new equipment sales operation sells new equipment in all of our four core product categories. We have a retail sales force focused by equipment type that is separate from our rental sales force. Manufacturer purchase terms and pricing are managed by our product specialists.

Used Equipment Sales. Our used equipment sales are generated primarily from sales of used equipment from our rental fleet, as well as from sales of inventoried equipment that we acquire through trade-ins from our equipment customers and through selective purchases of high quality used equipment. Used equipment is sold by our dedicated retail sales force. Our used equipment sales are an effective way for us to manage the size and composition of our rental fleet and provide a profitable distribution channel for disposal of rental equipment.

Parts Sales. Our parts business sells new and used parts for the equipment we sell and also provides parts to our own rental fleet. To a lesser degree, we also sell parts for equipment produced by manufacturers whose products we neither rent nor sell. In order to provide timely parts and service support to our customers as well as our own rental fleet, we maintain an extensive parts inventory.

Services. Our services operation provides maintenance and repair services for our customers' equipment and to our own rental fleet at our facilities as well as at our customers' locations. As the authorized distributor for numerous equipment manufacturers, we are able to provide service to that equipment that will be covered under the manufacturer's warranty.

Our non-segmented revenues and costs relate to equipment support activities that we provide, such as transportation, hauling, parts freight and damage waivers, and are not generally allocated to reportable segments.

For additional information about our business segments, see note 8 to the condensed consolidated financial statements in this Quarterly Report on Form 10-Q.

Revenue Sources

We generate all of our total revenues from our five business segments and our non-segmented equipment support activities. Equipment rentals and new equipment sales account for more than half of our total revenues. For the three month period ended March 31, 2013, approximately 35.5% of our total revenues were attributable to equipment rentals, 25.1% of our total revenues were attributable to new equipment sales, 15.1% were attributable to used equipment sales, 11.7% were attributable to parts sales, 6.9% were attributable to our services revenues and 5.7% were attributable to non-segmented other revenues.

Table of Contents

The equipment that we sell, rent and service is principally used in the construction industry, as well as by companies for commercial and industrial uses such as plant maintenance and turnarounds. As a result, our total revenues are affected by several factors including, but not limited to, the demand for and availability of rental equipment, rental rates and other competitive factors, the demand for new and used equipment, the level of construction and industrial activities, spending levels by our customers, adverse weather conditions and general economic conditions. For a discussion of the impact of seasonality on our revenues, see *Seasonality* below.

Equipment Rentals. Our rental operation primarily rents our four core types of construction and industrial equipment. We have a well-maintained rental fleet and our own dedicated sales force, focused by equipment type. We actively manage the size, quality, age and composition of our rental fleet based on our analysis of key measures such as time utilization (which we analyze: (1) as equipment usage based on the number of rental equipment units available for rent and (2) as a percentage of original equipment cost), rental rate trends and targets, rental equipment dollar utilization and maintenance and repair costs, which we closely monitor. We maintain fleet quality through regional quality control managers and our parts and services operations. We recognize revenue from equipment rentals in the period earned on a straight-line basis, over the contract term, regardless of the timing of the billing to customers.

New Equipment Sales. We seek to optimize revenues from new equipment sales by selling equipment through a professional in-house retail sales force focused by product type. While sales of new equipment are impacted by the availability of equipment from the manufacturer, we believe our status as a leading distributor for some of our key suppliers improves our ability to obtain equipment. New equipment sales are an important component of our integrated model due to customer interaction and service contact and new equipment sales also lead to future parts and service revenues. We recognize revenue from the sale of new equipment at the time of delivery to, or pick-up by, the customer and when all obligations under the sales contract have been fulfilled and collectibility is reasonably assured.

Used Equipment Sales. We generate the majority of our used equipment sales revenues by selling equipment from our rental fleet. The remainder of our used equipment sales revenues comes from the sale of inventoried equipment that we acquire through trade-ins from our equipment customers and selective purchases of high-quality used equipment. Our policy is not to offer specified price trade-in arrangements on equipment for sale. Sales of our rental fleet equipment allow us to manage the size, quality, composition and age of our rental fleet, and provide us with a profitable distribution channel for the disposal of rental equipment. We recognize revenue for the sale of used equipment at the time of delivery to, or pick-up by, the customer and when all obligations under the sales contract have been fulfilled and collectibility is reasonably assured.

Parts Sales. We generate revenues from the sale of new and used parts for equipment that we rent or sell, as well as for other makes of equipment. Our product support sales representatives are instrumental in generating our parts revenues. They are product specialists and receive performance incentives for achieving certain sales levels. Most of our parts sales come from our extensive in-house parts inventory. Our parts sales provide us with a relatively stable revenue stream that is generally less sensitive to the economic cycles that tend to affect our rental and equipment sales operations. We recognize revenues from parts sales at the time of delivery to, or pick-up by, the customer and when all obligations under the sales contract have been fulfilled and collectibility is reasonably assured.

Services. We derive our services revenues from maintenance and repair services to customers for their owned equipment. In addition to repair and maintenance on an as-needed or scheduled basis, we also provide ongoing preventative maintenance services to industrial customers. Our after-market service provides a high-margin, relatively stable source of revenue through changing economic cycles. We recognize services revenues at the time services are rendered and collectibility is reasonably assured.

Non-Segmented Other Revenues. Our non-segmented other revenue consists of billings to customers for equipment support and activities including: transportation, hauling, parts freight, environmental fees and loss damage waiver charges. We recognize non-segmented other revenues at the time of billing and after the related services have been provided.

Principal Costs and Expenses

Our largest expenses are the costs to purchase the new equipment we sell, the costs associated with the used equipment we sell, rental expenses, rental depreciation and costs associated with parts sales and services, all of which are included in cost of revenues. For the three months ended March 31, 2013, our total cost of revenues was approximately \$147.9 million. Our operating expenses consist principally of selling, general and administrative expenses. For the three months ended March 31, 2013, our selling, general and administrative expenses were \$46.3 million. In addition, we have interest expense related to our debt instruments. Operating expenses and all other income and expense items below the gross profit line of our consolidated statements of income are not generally allocated to our reportable segments.

Table of Contents

We are also subject to federal and state income taxes. Our Federal Tax Returns for the tax years 2005 through 2009 were recently examined by the Internal Revenue Service (IRS) following the Company's filing of amended returns for those tax years pursuant to which the Company claimed a net operating loss carryback. In February 2013, the IRS concluded its examination of those tax returns and determined that no material adjustments were required. Future income tax examinations by state and federal agencies could result in additional income tax expense based on the probable outcomes of such matters.

Cost of Revenues:

Rental Depreciation. Depreciation of rental equipment represents the depreciation costs attributable to rental equipment. Estimated useful lives vary based upon type of equipment. Generally, we depreciate cranes and aerial work platforms over a ten year estimated useful life, earthmoving over a five year estimated useful life with a 25% salvage value, and industrial lift trucks over a seven year estimated useful life. Attachments and other smaller type equipment are depreciated over a three year estimated useful life. We periodically evaluate the appropriateness of remaining depreciable lives assigned to rental equipment.

Rental Expense. Rental expense represents the costs associated with rental equipment, including, among other things, the cost of servicing and maintaining our rental equipment, property taxes on our fleet and other miscellaneous costs of rental equipment.

New Equipment Sales. Cost of new equipment sold primarily consists of the equipment cost of the new equipment that is sold, net of any amount of credit given to the customer towards the equipment for trade-ins.

Used Equipment Sales. Cost of used equipment sold consists of the net book value of rental equipment for used equipment sold from our rental fleet, the equipment costs for used equipment we purchase for sale or the trade-in value of used equipment that we obtain from customers in equipment sales transactions.

Parts Sales. Cost of parts sales represents costs attributable to the sale of parts directly to customers.

Services Support. Cost of services revenues represents costs attributable to service provided for the maintenance and repair of customer-owned equipment and equipment then on-rent by customers.

Non-Segmented Other. These expenses include costs associated with providing transportation, hauling, parts freight, and damage waiver including, among other items, drivers' wages, fuel costs, shipping costs, and our costs related to damage waiver policies.

Selling, General and Administrative Expenses:

Our selling, general and administrative (SG&A) expenses include sales and marketing expenses, payroll and related benefit costs, insurance expenses, legal and professional fees, rent and other occupancy costs, property and other taxes, administrative overhead, depreciation associated with property and equipment (other than rental equipment) and amortization expense associated with intangible assets. These expenses are not generally allocated to our reportable segments.

Interest Expense:

Interest expense for the periods presented represents the interest on our outstanding debt instruments, including aggregate amounts outstanding under our revolving senior secured credit facility (the Credit Facility), senior unsecured notes due 2022 and our capital lease obligations, as well as our extinguished senior unsecured notes due 2016 for the periods during which such debt was outstanding. Interest expense also includes interest on our outstanding manufacturer flooring plans payable which are used to finance inventory and rental equipment purchases. Non-cash interest expense related to the amortization cost of deferred financing costs is also included in interest expense.

Table of Contents**Principal Cash Flows**

We generate cash primarily from our operating activities and, historically, we have used cash flows from operating activities, manufacturer floor plan financings and available borrowings under the Credit Facility as the primary sources of funds to purchase inventory and to fund working capital and capital expenditures (see also [Liquidity and Capital Resources](#) below). Our management of our working capital is closely tied to operating cash flows, as working capital can be significantly impacted by, among other things, our accounts receivable activities, the level of new and used equipment inventories, which may increase or decrease in response to current and expected demand, and the size and timing of our trade accounts payable payment cycles.

Rental Fleet

A substantial portion of our overall value is in our rental fleet equipment. The net book value of our rental equipment at March 31, 2013 was \$595.3 million, or approximately 58.5% of our total assets. Our rental fleet as of March 31, 2013 consisted of 21,288 units having an original acquisition cost (which we define as the cost originally paid to manufacturers or the original amount financed under operating leases) of approximately \$897.6 million. As of March 31, 2013, our rental fleet composition was as follows (dollars in millions):

	Units	% of Total Units	Original Acquisition Cost	% of Original Acquisition Cost	Average Age in Months
Hi-Lift or Aerial Work Platforms	14,254	66.9%	\$ 547.2	61.0%	45.7
Cranes	384	1.8%	109.1	12.2%	39.8
Earthmoving	1,958	9.2%	170.7	19.0%	19.7
Industrial Lift Trucks	696	3.3%	26.5	2.9%	24.2
Other	3,996	18.8%	44.1	4.9%	19.9
Total	21,288	100.0%	\$ 897.6	100.0%	37.6

Determining the optimal age and mix for our rental fleet equipment is subjective and requires considerable estimates and judgments by management. We constantly evaluate the mix, age and quality of the equipment in our rental fleet in response to current economic and market conditions, competition and customer demand. The mix and age of our rental fleet, as well as our cash flows, are impacted by sales of equipment from the rental fleet, which are influenced by used equipment pricing at the retail and secondary auction market levels, and the capital expenditures to acquire new rental fleet equipment. In making equipment acquisition decisions, we evaluate current economic and market conditions, competition, manufacturers' availability, pricing and return on investment over the estimated useful life of the specific equipment, among other things. As a result of our in-house service capabilities and extensive maintenance program, we believe our rental fleet is well-maintained.

The original acquisition cost of our gross rental fleet increased by approximately \$14.6 million, or 1.7%, for the three months ended March 31, 2013. The average age of our rental fleet equipment decreased by approximately 0.4 months for the three months ended March 31, 2013.

Our average rental rates for the three months ended March 31, 2013 were 10.2% higher than in the three months ended March 31, 2012 (see further discussion on rental rates in [Results of Operations](#) below).

The rental equipment mix among our four core product lines for the three months ended March 31, 2013 was largely consistent with that of the prior year comparable period as a percentage of total units available for rent and as a percentage of original acquisition cost.

Principal External Factors that Affect our Businesses

We are subject to a number of external factors that may adversely affect our businesses. These factors, and other factors, are discussed below and under the heading [Forward-Looking Statements](#), and in Item 1A [Risk Factors](#) in our Annual Report on Form 10-K for the year ended December 31, 2012.

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

Economic downturns. The demand for our products is dependent on the general economy, the stability of the global credit markets, the industries in which our customers operate or serve, and other factors. Downturns in the general economy or in the construction and manufacturing industries, as well as adverse credit market conditions, can cause demand for our products to materially decrease.

Spending levels by customers. Rentals and sales of equipment to the construction industry and to industrial companies constitute a significant portion of our total revenues. As a result, we depend upon customers in these businesses and their ability and willingness to make capital expenditures to rent or buy specialized equipment. Accordingly, our business is impacted by fluctuations in customers' spending levels on capital expenditures and by the availability of credit to those customers.

Table of Contents

Adverse weather. Adverse weather in a geographic region in which we operate may depress demand for equipment in that region. Our equipment is primarily used outdoors and, as a result, prolonged adverse weather conditions may prohibit our customers from continuing their work projects. Adverse weather also has a seasonal impact in parts of our Intermountain region, particularly in the winter months.

We believe that our integrated business tempers the effects of downturns in a particular segment. For a discussion of seasonality, see Seasonality on page 29 of this Quarterly Report on Form 10-Q.

Results of Operations

The tables included in the period-to-period comparisons below provide summaries of our revenues and gross profits for our business segments and non-segmented revenues for the three months ended March 31, 2013 and 2012. The period-to-period comparisons of our financial results are not necessarily indicative of future results.

*Three Months Ended March 31, 2013 Compared to the Three Months Ended March 31, 2012**Revenues.*

	Three Months Ended March 31,		Total Dollar Increase	Total Percentage Increase
	2013	2012		
	(in thousands, except percentages)			
Segment Revenues:				
Equipment rentals	\$ 75,370	\$ 59,629	\$ 15,741	26.4%
New equipment sales	53,323	40,997	12,326	30.1%
Used equipment sales	32,149	26,522	5,627	21.2%
Parts sales	24,952	23,378	1,574	6.7%
Services revenues	14,551	13,300	1,251	9.4%
Non-Segmented revenues	12,043	9,839	2,204	22.4%
Total revenues	\$ 212,388	\$ 173,665	\$ 38,723	22.3%

Total Revenues. Our total revenues were \$212.4 million for the three month period ended March 31, 2013 compared to \$173.7 million for the three month period ended March 31, 2012, an increase of \$38.7 million, or 22.3%. Revenues increased in all of our reportable segments and non-segmented revenues and are further discussed below.

Equipment Rental Revenues. Our revenues from equipment rentals for the three month period ended March 31, 2013 increased approximately \$15.7 million, or 26.4%, to \$75.4 million from \$59.6 million in the three month period ended March 31, 2012. Rental revenues from aerial work platforms increased \$9.7 million, while rental revenues from earthmoving equipment increased \$2.2 million. Rental revenues from other equipment increased approximately \$2.2 million and rental revenues from cranes increased \$0.9 million. Lift truck rental revenues increased \$0.7 million. Our average rental rates for the three month period ended March 31, 2013 increased 10.2% compared to the same three month period last year and increased 2.1% from the fourth quarter of fiscal 2012.

Rental equipment dollar utilization (annual rental revenues divided by the average original rental fleet equipment costs) for the three month period ended March 31, 2013 improved to 33.9% compared to 32.3% in the three month period ended March 31, 2012, an increase of 1.6%. The increase in comparative rental equipment dollar utilization was primarily driven by a 10.2% increase in average rental rates and the mix of equipment rented, which was partially offset by a 2.2% decrease in rental equipment time utilization based on the number of rental equipment units available for rent. Rental equipment time utilization based on the number of rental equipment units available for rent was 63.6% for the three month period ended March 31, 2013 compared to 65.8% in the same period last year. Rental equipment time utilization as a percentage of original equipment cost was 67.9% for the three month period ended March 31, 2013 compared to 69.5% in the three month period ended March 31, 2012, a decrease of 1.6%. The decrease in equipment rental time utilization based on the number of units available for rent and based on original equipment cost is reflective of the 20.3% growth in our rental fleet size from \$745.7 million at March 31, 2012 to \$897.6 million at March 31, 2013.

Table of Contents

New Equipment Sales Revenues. Our new equipment sales for the three month period ended March 31, 2013 increased \$12.3 million, or 30.1%, to \$53.3 million from \$41.0 million for the three month period ended March 31, 2012. Sales of new cranes increased \$5.9 million and sales of new earthmoving equipment increased \$3.9 million. Sales of new aerial work platform equipment increased \$2.1 million and sales of new other equipment increased \$0.4 million.

Used Equipment Sales Revenues. Our used equipment sales increased \$5.6 million, or 21.2%, to \$32.1 million for the three month period ended March 31, 2013, from \$26.5 million for the same three month period in 2012. Sales of used cranes increased \$6.1 million, while sales of used aerial work platform equipment and used other equipment increased \$3.2 million and \$0.4 million, respectively. Sales of used earthmoving equipment decreased \$3.7 million while sales of used lift trucks decreased \$0.3 million.

Parts Sales Revenues. Our parts sales increased \$1.6 million, or 6.7%, to \$25.0 million for the three month period ended March 31, 2013 from \$23.4 million for the same three month period in 2012. The increase in parts revenues was due to higher demand for parts compared to last year.

Services Revenues. Our services revenues for the three month period ended March 31, 2013 increased \$1.3 million, or 9.4%, to \$14.6 million from \$13.3 million for the same three month period last year. The increase in service revenues was largely due to an increase in demand for services in conjunction with the improvements in our rental and sales businesses.

Non-Segmented Other Revenues. Our non-segmented other revenues consisted primarily of equipment support activities including transportation, hauling, parts freight and damage waiver charges. For the three month period ended March 31, 2013, our other revenues were \$12.0 million, an increase of \$2.2 million, or 22.4%, from \$9.8 million in the same three month period in 2012. The increase was primarily due to an increase in the volume of these services in conjunction with the related improvements of our primary business activities.

Gross Profit.

	Three Months Ended March 31,		Total Dollar Change Increase	Total Percentage Change Increase
	2013	2012		
	(in thousands, except percentages)			
Segment Gross Profit (Loss):				
Equipment rentals	\$ 33,635	\$ 25,272	\$ 8,363	33.1%
New equipment sales	5,584	5,052	532	10.5%
Used equipment sales	9,401	7,900	1,501	19.0%
Parts sales	6,648	6,449	199	3.1%
Services revenues	8,808	8,176	632	7.7%
Non-Segmented revenues	404	(198)	602	304.0%
Total gross profit	\$ 64,480	\$ 52,651	\$ 11,829	22.5%

Total Gross Profit. Our total gross profit was \$64.5 million for the three month period ended March 31, 2013 compared to approximately \$52.7 million for the same three month period in 2012, an increase of \$11.8 million, or 22.5%. Total gross profit margin for the three month period ended March 31, 2013 was 30.4%, an increase of 0.1% from the 30.3% gross profit margin for the same three month period in 2012. Gross profit (loss) and gross margin for all reportable segments are further described below:

Equipment Rentals Gross Profit. Our gross profit from equipment rentals for the three month period ended March 31, 2013 increased \$8.4 million, or 33.1%, to \$33.6 million from \$25.3 million in the same three month period in 2012. The increase in equipment rentals gross profit was the result of a \$15.7 million increase in rental revenues for the three month period ended March 31, 2013, which was partially offset by a \$2.1 million increase in rental expenses and a \$5.3 million increase in rental equipment depreciation expense. The increase in rental expenses and rental equipment depreciation expense was due to a larger fleet size in 2013 compared to 2012. As a percentage of equipment rental revenues, rental expenses were 18.1% for the three month period ended March 31, 2013 compared to 19.4% for the same period last year. Depreciation expense was 37.3% for the three month period ended March 31, 2013 compared to 38.3% for the same period in 2012. These percentage decreases were primarily attributable to the increase in comparative rental revenues.

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

Gross profit margin on equipment rentals for the three month period ended March 31, 2013 was approximately 44.6%, up 2.2% from 42.4% for the same period in 2012. This gross profit margin improvement was primarily due to the increase in comparative rental revenues resulting from higher average rental rates, combined with the decreases in depreciation expenses and rental expenses as a percentage of equipment rental revenues and the decrease in time utilization for the three month period ended March 31, 2013 compared to the three month period ended March 31, 2012.

Table of Contents

New Equipment Sales Gross Profit. Our new equipment sales gross profit for the three month period ended March 31, 2013 increased \$0.5 million, or 10.5%, to \$5.6 million compared to \$5.1 million for the same three month period in 2012 on a total new equipment sales increase of \$12.3 million. Gross profit margin on new equipment sales for the three month period ended March 31, 2013 was 10.5%, a decrease of 1.8% from 12.3% in the same three month period in 2012, primarily reflecting lower margins on new crane sales in the current year period due to the mix of cranes sold.

Used Equipment Sales Gross Profit. Our used equipment sales gross profit for the three month period ended March 31, 2013 increased \$1.5 million, or 19.0%, to \$9.4 million from \$7.9 million in the same period in 2012 on a used equipment sales increase of \$5.6 million. Gross profit margin on used equipment sales for the three month period ended March 31, 2013 was 29.2%, down 0.6% from 29.8% for the same three month period in 2012, primarily as a result of the mix of used equipment sold. Our used equipment sales from the rental fleet, which comprised approximately 69.6% and 89.2% of our used equipment sales for the three month periods ended March 31, 2013 and 2012, respectively, were approximately 161.2% and 146.3% of net book value for the three month periods ended March 31, 2013 and 2012, respectively.

Parts Sales Gross Profit. For the three month period ended March 31, 2013, our parts sales revenue gross profit increased approximately \$0.2 million, or 3.1%, to \$6.6 million from \$6.4 million for the same three month period in 2012 on a \$1.6 million increase in parts sales revenues. Gross profit margin for the three month period ended March 31, 2013 was 26.6%, a decrease of 1.0% from 27.6% in the same three month period in 2012, as a result of the mix of parts sold.

Services Revenues Gross Profit. For the three month period ended March 31, 2013, our services revenues gross profit increased \$0.6 million, or 7.7%, to \$8.8 million from \$8.2 million for the same three month period in 2012 on a \$1.3 million increase in services revenues. Gross profit margin for the three month period ended March 31, 2013 was 60.5%, down 1.0% from 61.5% in the same three month period in 2012, as a result of service revenues mix.

Non-Segmented Other Revenues Gross Profit (Loss). Our non-segmented other revenues realized a gross profit of \$0.4 million for the three month period ended March 31, 2013 compared to a gross loss of \$0.2 million for the same period in 2012. On a gross margin basis, gross margin for the three month period ended March 31, 2013 was 3.4% compared to a gross loss margin of 2.0% in the same three month period last year, primarily reflective of the \$2.2 million improvement in comparative non-segmented other revenues.

Selling, General and Administrative Expenses. SG&A expenses increased \$5.6 million, or 13.7%, to \$46.3 million for the three month period ended March 31, 2013 compared to \$40.7 million for the three month period ended March 31, 2012. The net increase in SG&A expenses was attributable to several factors. Employee salaries and wages and related employee expenses increased approximately \$3.8 million as a result of higher salaries, wages and payroll taxes stemming primarily from an increase in commission and incentive pay that resulted from higher rental and sales revenues, and higher health insurance costs from an increase in the number of employees compared to last year. Stock-based compensation expense was \$0.9 million and \$0.3 million for the three month periods ended March 31, 2013 and 2012, respectively. Professional fees increased \$0.7 million, while fuel and utilities costs and facility related expenses increased \$0.3 million. Depreciation and amortization expense increased \$0.5 million and general corporate overhead expenses increased \$0.3 million. As a percentage of total revenues, SG&A expenses were 21.8% for the three month period ended March 31, 2013, a decrease of 1.6% from 23.4% for the same three month period in 2012, primarily as a result of the current year increase in total revenues.

Other Income (Expense). For the three month period ended March 31, 2013, our net other expenses increased \$5.3 million to approximately \$11.8 million compared to \$6.5 million for the same three month period in 2012. The increase was the result of a \$5.4 million increase in interest expense to \$12.3 million for the three month period ended March 31, 2013 compared to \$6.9 million for the same three month period in 2012 and an increase in miscellaneous other income of approximately \$0.1 million. The increase in interest expense is the net result of a \$5.1 million increase in expense related to our senior unsecured notes and a \$0.5 million increase in interest expense related the Credit Facility. The increase in interest expense on our senior unsecured notes is primarily due to an increase in the aggregate principal amount of these notes from \$250 million to \$630 million. The increase in interest expense related to the Credit Facility is largely due to an increase in the average amount of borrowings under the Credit Facility during the current year three month period compared to the same period last year. These increases were partially offset by a \$0.2 million decrease in interest expense related to manufacturing flooring plans used to finance inventory purchases.

Income Taxes. We recorded income tax expense of \$2.2 million for the three month period ended March 31, 2013 compared to income tax expense of \$1.8 million for the three month period ended March 31, 2012. Our effective income tax rate was 31.3% for both of the three month periods ended March 31, 2013 and March 31, 2012. We also recorded a reduction of book goodwill of approximately \$0.2 million for the three month period ended March 31, 2013 for tax benefits realized from tax-deductible goodwill in excess of book goodwill. Based on available evidence, both positive and negative, we believe it is more likely than not that our deferred tax assets at March 31, 2013 are fully realizable through future reversals of existing taxable temporary differences and future taxable income, and are not subject to any limitations.

Table of Contents

Liquidity and Capital Resources

Cash flow from operating activities. For the three month period ended March 31, 2013, the cash provided by our operating activities was \$8.8 million. Our reported net income of \$4.8 million, which, when adjusted for non-cash income and expense items, such as depreciation and amortization, deferred income taxes, provision for losses on accounts receivable, provision for inventory obsolescence, stock-based compensation expense, writedown of goodwill for tax-deductible goodwill in excess of book goodwill and net gains on the sale of long-lived assets, provided positive cash flows of \$30.9 million. These cash flows from operating activities were also positively impacted by a \$61.4 million increase in accounts payable and a \$16.9 million increase in manufacturing flooring plans payable. Also increasing our operating cash flows was a \$8.8 million decrease in net accounts receivables. Offsetting these positive cash flows were an increase of \$93.5 million in net inventories as a result of increasing demand and improving sales of new and used equipment. Also decreasing our operating cash flows was a \$13.6 million decrease in accrued expenses payable and other liabilities.

For the three month period ended March 31, 2012, our cash provided by our operating activities was exceeded by our cash used in our operating activities, resulting in net cash used in our operating activities of \$11.7 million. Our reported net income of \$4.0 million, which, when adjusted for non-cash income and expense items, such as depreciation and amortization, deferred income taxes, provision for losses on accounts receivable, stock-based compensation expense and net gains on the sale of long-lived assets, provided positive cash flows of \$25.5 million. These cash flows from operating activities were also positively impacted by a decrease of \$6.1 million in net accounts receivable, a \$26.3 million increase in accounts payable and a \$1.6 million increase in manufacturing flooring plans payable. Offsetting these positive cash flows were an increase of \$63.9 million in net inventories, a \$6.4 million decrease in accrued expenses payable and other liabilities, a \$0.7 million increase in prepaid expenses and other assets, and a \$0.1 million decrease in deferred compensation payable.

Cash flow from investing activities. For the three months ended March 31, 2013, cash provided by our investing activities was exceeded by our cash used in our investing activities, resulting in net cash used in our investing activities of \$17.5 million. This was a net result of purchases of rental and non-rental equipment totaling \$40.4 million, which was partially offset by proceeds from the sale of rental and non-rental equipment of approximately \$22.9 million.

For the three months ended March 31, 2012, cash provided by our investing activities was exceeded by our cash used in our investing activities, resulting in net cash used in our investing activities of \$15.2 million. This was a net result of purchases of rental and non-rental equipment totaling \$39.3 million, which was partially offset by proceeds from the sale of rental and non-rental equipment of approximately \$24.1 million.

Cash flow from financing activities. For the three month period ended March 31, 2013, cash provided by our financing activities was approximately \$2.7 million. Net proceeds from our 7% senior notes due 2022 issued on February 4, 2013 (the Add-on Notes) were \$107.3 million. Net payments under the Credit Facility totaled \$103.9 million and payments of deferred financing costs totaled \$0.6 million.

For the three month period ended March 31, 2012, cash provided by our financing activities was approximately \$5.6 million. Net borrowings under the Credit Facility totaled \$6.4 million. This positive cash flow was partially offset by payments of deferred financing costs of \$0.8 million related to the first quarter Amendment to the Credit Facility.

Senior Unsecured Notes

On August 20, 2012, the Company closed on its offering of \$530 million aggregate principal amount of its 7% senior notes due 2022 (the New Notes) in an unregistered offering. The New Notes and related guarantees were offered in a private placement solely to qualified institutional buyers in reliance on Rule 144A under the Securities Act of 1933, as amended (the Securities Act), or outside the United States to persons other than U.S. persons in compliance with Regulation S under the Securities Act.

Net proceeds to the Company from the sale of the New Notes totaled approximately \$520.7 million. The Company used a portion of the net proceeds from the sale of the New Notes to repurchase \$158.7 million of the \$250 million aggregate principal amount of its 8 3/8% senior notes due 2016 (the Old Notes) in early settlement of a tender offer and consent solicitation (the Tender Offer) that the Company launched on August 6, 2012. Holders who tendered their Old Notes prior to the early tender deadline received \$1,031.67 per \$1,000 principal amount of Old Notes tendered, plus accrued and unpaid interest to the date of repurchase. Having received the

Table of Contents

requisite consents from the holders of the Old Notes in the Tender Offer, the Company, certain of its subsidiaries and The Bank of New York Mellon Trust Company, N.A., as trustee, executed a supplemental indenture amending the indenture relating to the Old Notes. Also on August 20, 2012, the Company satisfied and discharged its obligations under the indenture relating to the Old Notes and issued a notice of redemption for the remaining outstanding principal amount of the Old Notes. On September 19, 2012, the Company redeemed the remaining \$91.3 million principal amount outstanding of the Old Notes at a redemption price equal to 102.792% of the aggregate principal amount of the Old Notes being redeemed, plus accrued and unpaid interest on the Old Notes to the redemption date.

The Company used the remaining net proceeds of the offering of the New Notes to pay on September 19, 2012 a special, one-time cash dividend. Actual dividends paid totaled approximately \$244.4 million, representing \$7.00 per share paid on 34,911,455 outstanding shares of Common Stock of the Company. Dividends on 232,431 outstanding shares of non-vested common stock totaling approximately \$1.5 million, net of estimated forfeitures, are to be paid upon vesting of those shares pursuant to their respective stock awards terms and conditions.

In connection with the above transactions, the Company recorded a one-time loss on the early extinguishment of debt of approximately \$10.2 million, or approximately \$6.6 million after-tax, reflecting payment of \$5.0 million of tender premiums and \$2.6 million to redeem the Old Notes that remained outstanding following completion of the Tender Offer, combined with the write off of approximately \$2.6 million of unamortized deferred financing costs related to the Old Notes. Transaction costs incurred in connection with the offering of the New Notes totaled approximately \$1.7 million.

The New Notes were issued at par and require semiannual interest payments on March 1 and September 1 of each year, commencing on March 1, 2013. No principal payments are due until maturity (September 1, 2022).

The New Notes are redeemable, in whole or in part, at any time on or after September 1, 2017 at specified redemption prices plus accrued and unpaid interest to the date of redemption. We may redeem up to 35% of the aggregate principal amount of the New Notes before September 1, 2015 with the net cash proceeds from certain equity offerings. We may also redeem the New Notes prior to September 1, 2017 at a specified make-whole redemption price plus accrued and unpaid interest to the date of redemption.

The New Notes rank equally in right of payment to all of our existing and future senior indebtedness and rank senior to any of our subordinated indebtedness. The New Notes are unconditionally guaranteed on a senior unsecured basis by all of our current and future significant domestic restricted subsidiaries. In addition, the New Notes are effectively subordinated to all of our and the guarantors existing and future secured indebtedness, including the Credit Facility, to the extent of the assets securing such indebtedness, and are structurally subordinated to all of the liabilities and preferred stock of any of our subsidiaries that do not guarantee the New Notes.

If we experience a change of control, we will be required to offer to purchase the New Notes at a repurchase price equal to 101% of the principal amount, plus accrued and unpaid interest to the date of repurchase.

On February 4, 2013, the Company closed on its offering of \$100 million aggregate principal amount of Add-on Notes in an unregistered offering through a private placement. The Add-on Notes were priced at 108.5% of the principal amount. Net proceeds from the offering of the Add-on Notes, including accrued interest from August 20, 2012 totaled approximately \$110.4 million. The Company used the proceeds from the offering to repay indebtedness outstanding under its Credit Facility and for the payment of fees and expenses related to the offering.

The Add-on Notes were issued as additional notes under an indenture dated as of August 20, 2012, pursuant to which the Company previously issued the New Notes as described above. The Add-on Notes have identical terms to, rank equally with and form a part of a single class of securities with the New Notes.

In order to satisfy our obligations under two separate registration rights agreements, one entered into between the Company, the guarantors of the New Notes and the initial purchasers of the New Notes, and the other entered into between the Company, the guarantors of the Add-on Notes and the initial purchaser of the Add-on Notes, we commenced an offering on April 1, 2013 to exchange the New Notes and guarantees and the Add-on Notes and guarantees for registered, publicly tradable notes and guarantees that have terms identical in all material respects to the New Notes and the Add-on Notes (except that the exchange notes will not contain any transfer restrictions). This exchange offer closed on April 30, 2013.

Table of Contents

Senior Secured Credit Facility

We and our subsidiaries are parties to a senior secured Credit Facility with General Electric Capital Corporation as agent, and the lenders named therein. On January 29, 2013, the Company amended the Credit Facility by entering into Amendment No. 4 to the Credit Facility to permit the issuance of the Add-on Notes. As amended, the Credit Facility provides, among other things, a \$402.5 million senior secured asset based revolver which includes a \$30.0 million letter of credit facility, and a \$47.5 million incremental facility. The Credit Facility is secured by substantially all of the assets of the Company and its subsidiaries, and the Company and each of its subsidiaries provide a guaranty of the obligations under the Credit Facility. The Credit Facility requires us to maintain a minimum fixed charge coverage ratio in the event that our excess borrowing availability is below approximately \$50.3 million (as adjusted if the \$47.5 million incremental facility is exercised). The Credit Facility also requires us to maintain a maximum total leverage ratio of 5.0 to 1.0, which is tested if excess availability is less than approximately \$50.3 million (as adjusted if the \$47.5 million incremental facility is exercised). As of March 31, 2013, we were in compliance with our financial covenants under the Credit Facility.

At March 31, 2013, the interest rate on the Credit Facility was based on a 3.25% U.S. Prime Rate plus 100 basis points. At April 26, 2013, we had \$332.5 million of available borrowings under our Credit Facility, net of \$6.5 million of outstanding letters of credit.

Cash Requirements Related to Operations

Our principal sources of liquidity have been from cash provided by operating activities and the sales of new, used and rental fleet equipment, proceeds from the issuance of debt, and borrowings available under the Credit Facility. Our principal uses of cash have been to fund operating activities and working capital (including new and used equipment inventories), purchases of rental fleet equipment and property and equipment, fund payments due under facility operating leases and manufacturer flooring plans payable, and to meet debt service requirements. In the future, we may pursue additional strategic acquisitions and seek to open new start-up locations. We anticipate that the above described uses will be the principal demands on our cash in the future.

The amount of our future capital expenditures will depend on a number of factors including general economic conditions and growth prospects. Our gross rental fleet capital expenditures for the three month period ended March 31, 2013 were approximately \$53.9 million, including \$19.8 million of non-cash transfers from new and used equipment to rental fleet inventory. Our gross property and equipment capital expenditures for the three month period ended March 31, 2013 were approximately \$6.3 million. In response to changing economic conditions, we believe we have the flexibility to modify our capital expenditures by adjusting them (either up or down) to match our actual performance.

To service our debt, we will require a significant amount of cash. Our ability to pay interest and principal on our indebtedness (including the New Notes and the Add-on Notes, the Credit Facility and our other indebtedness), will depend upon our future operating performance and the availability of borrowings under the Credit Facility and/or other debt and equity financing alternatives available to us, which will be affected by prevailing economic conditions and conditions in the global credit and capital markets, as well as financial, business and other factors, some of which are beyond our control. Based on our current level of operations and given the current state of the capital markets, we believe our cash flow from operations, available cash and available borrowings under the Credit Facility will be adequate to meet our future liquidity needs for the foreseeable future. As of April 26, 2013, we had \$332.5 million of available borrowings under the Credit Facility, net of \$6.5 million of outstanding letters of credit.

We cannot provide absolute assurance that our future cash flow from operating activities will be sufficient to meet our long-term obligations and commitments. If we are unable to generate sufficient cash flow from operating activities in the future to service our indebtedness and to meet our other commitments, we will be required to adopt one or more alternatives, such as refinancing or restructuring our indebtedness, selling material assets or operations or seeking to raise additional debt or equity capital. Given current economic and market conditions, including the significant disruptions in the global capital markets, we cannot assure investors that any of these actions could be effected on a timely basis or on satisfactory terms or at all, or that these actions would enable us to continue to satisfy our capital requirements. In addition, our existing debt agreements, including the Credit Facility and the indenture governing the New Notes and the Add-on Notes, as well as any future debt agreements, contain or may contain restrictive covenants, which may prohibit us from adopting any of these alternatives. Our failure to comply with these covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt.

Table of Contents**Seasonality**

Although we believe our business is not materially impacted by seasonality, the demand for our rental equipment tends to be lower in the winter months. The level of equipment rental activities is directly related to commercial and industrial construction and maintenance activities. Therefore, equipment rental performance will be correlated to the levels of current construction activities. The severity of weather conditions can have a temporary impact on the level of construction activities. Adverse weather has a seasonal impact in parts of the markets we serve, including our Intermountain region, particularly in the winter months.

Equipment sales cycles are also subject to some seasonality with the peak selling period during the spring season and extending through the summer. Parts and service activities are typically less affected by changes in demand caused by seasonality.

Contractual and Commercial Commitments

Our contractual obligations and commercial commitments principally include obligations associated with our outstanding indebtedness and interest payments as of March 31, 2013.

	Total	Payments Due by Year			Thereafter
		2013	2014-2015	2016-2017	
		(Amounts in thousands)			
Senior unsecured notes payable	\$ 630,000	\$	\$	\$	\$ 630,000
Interest payments on senior unsecured notes (1)	352,450	18,550	74,200	74,200	185,500
Credit Facility	53,818			53,818	
Interest payments on Credit Facility (1)	17,208	4,133	8,265	4,810	
Capital lease obligations (including interest) (2)	3,545	250	666	666	1,963
Operating leases (3)	89,178	8,877	20,358	14,776	45,167
Other long-term obligations (4)	67,692	35,422	28,496	3,774	
Total contractual cash obligations (5)	\$ 1,213,891	\$ 67,232	\$ 131,985	\$ 152,044	\$ 862,630

- (1) Future interest payments are calculated based on the assumption that all debt remains outstanding until maturity. Interest on the Credit Facility assumes the interest rate in effect at March 31, 2013 and includes the unused commitment fee.
- (2) This includes a capital lease for which the related liability has been recorded (including interest) at the present value of future minimum lease payments due under the lease.
- (3) This includes total operating lease rental payments having initial or remaining non-cancelable lease terms longer than one year.
- (4) Amounts include \$67.7 million in manufacturer flooring plans payable, which is used to finance our purchases of inventory and rental equipment.
- (5) We had an unrecognized tax benefit of approximately \$6.5 million at March 31, 2013. This liability is not included in the table above as this amount relates to federal income taxes and any liability subsequently determined and potentially assessed by the IRS would be offset against our Net Operating Losses for the related tax years and no cash payment would be required.

As of March 31, 2013, we had a standby letter of credit issued under our Credit Facility totaling \$6.5 million, which expires on January 1, 2014.

Off-Balance Sheet Arrangements

There have been no material changes from the information included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our earnings may be affected by changes in interest rates since interest expense on the Credit Facility is currently calculated based upon the index rate plus an applicable margin of 1.00% to 1.50%, depending on the leverage ratio, in the case of index rate revolving loans and LIBOR plus an applicable margin of 2.00% to 2.50%, depending on the leverage ratio, in the case of LIBOR revolving loans. At March 31, 2013, we had total borrowings outstanding under the Credit Facility of \$53.8 million. A 1.0% increase in the interest rate on the Credit Facility would

Edgar Filing: H&E Equipment Services, Inc. - Form 10-Q

result in approximately a \$0.5 million increase in interest expense on an annualized basis. At April 26, 2013, we had \$332.5 million of available borrowings under the Credit Facility, net of \$6.5 million of outstanding letters of credit. We did not have significant exposure to changing interest rates as of March 31, 2013 on the fixed-rate New Notes and Add-on Notes. Historically, we have not engaged in derivatives or other financial instruments for trading, speculative or hedging purposes, though we may do so from time to time if such instruments are available to us on acceptable terms and prevailing market conditions are accommodating.

Item 4. Controls and Procedures

Management's Quarterly Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or furnishes under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required financial disclosure.

Our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively) have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of March 31, 2013, our current disclosure controls and procedures were effective.

The design of any system of control is based upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated objectives under all future events, no matter how remote, or that the degree of compliance with the policies or procedures may not deteriorate. Because of its inherent limitations, disclosure controls and procedures may not prevent or detect all misstatements. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) that occurred during the quarter ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we are involved in various claims and legal actions arising in the ordinary course of our business. In the opinion of management, after consultation with legal counsel, the ultimate disposition of these various matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors.

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I, Item 1A—Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2012, which could materially affect our business, financial condition or future results.

As of the date of this Quarterly Report on Form 10-Q, there have been no material changes with respect to the Company's risk factors previously disclosed on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.
