Item 7.01 Regulation FD Disclosure.

FTI Consulting, Inc. (FTI Consulting) intends to use a presentation from time to time in its discussions with investors (the Presentation). The Presentation addresses FTI Consulting s financial results for the first quarter ended March 31, 2013, operating data and past, present and future business drivers. A copy of the Presentation is furnished as Exhibit 99.1 and has been posted to the FTI Consulting website at www.fticonsulting.com.

The Presentation includes information regarding adjusted EBITDA, adjusted segment EBITDA and adjusted net income and adjusted earnings per share. FTI Consulting defines Adjusted EBITDA as net income before income tax provision, other income (expense), depreciation, amortization of intangible assets, goodwill impairment charge and special charges, Adjusted Segment EBITDA as a segment s share of consolidated operating income before depreciation, amortization of intangible assets, goodwill impairment charge and special charges, and Adjusted Net Income and Adjusted EPS as net income and earnings per diluted share, respectively, excluding the net impact of any goodwill impairment charge, any special charges and any loss on early extinguishment of debt that were incurred in that period. Adjusted EBITDA, Adjusted Segment EBITDA, Adjusted EPS and Adjusted Net Income are not defined in the same manner by all companies and may not be comparable to other similarly titled measures of other companies. Although Adjusted EBITDA, Adjusted Segment EBITDA, Adjusted EPS and Adjusted Net Income are not measures of financial condition or performance determined in accordance with generally accepted accounting principles (GAAP), FTI Consulting believes that they can be useful operating performance measures for evaluating FTI Consulting s results of operations as compared from period-to-period and as compared to its competitors. These non-GAAP measures should be considered in addition to, but not as a substitute for or superior to, the information contained in FTI Consulting s Condensed Consolidated Statements of Comprehensive Income. EBITDA is a common alternative measure of operating performance used by investors, financial analysts and rating agencies to value and compare the financial performance of companies in FTI Consulting s industry. FTI Consulting uses Adjusted EBITDA and Adjusted Segment EBITDA to evaluate and compare the operating performance of its segments. Reconciliations of GAAP to Non-GAAP financial measures are included in the Presentation.

The Presentation contains forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are necessarily based on certain assumptions as of the date such forward-looking statements were made and are subject to significant risks and uncertainties. FTI Consulting does not undertake any responsibility for the adequacy, accuracy or completeness, or to update any, of these statements in the future. Actual future performance and results could differ from that contained in or suggested by the forward-looking statements.

The information included herein, including Exhibit 99.1 furnished herewith, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into any filing pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing, except as expressly set forth by specific reference in such filing.
