MERGER BENEFIT STATEMENT

July 31, 2013

Dear Warner Chilcott Shareholder,

On May 20, 2013, Actavis, Inc. (Actavis) and Warner Chilcott Public Limited Company (Warner Chilcott) announced that they had entered into a definitive agreement pursuant to which Actavis Limited, a new holding company incorporated in Ireland that will be renamed Actavis plc (New Actavis), will acquire Warner Chilcott and Actavis (the Transaction). On July 31, 2013, New Actavis filed with the U.S. Securities and Exchange Commission (the SEC) Amendment No. 1 to its registration statement on Form S-4 in connection with the Transaction (the Form S-4), which was declared effective on July 31, 2013. The Form S-4 contains the definitive joint proxy statement of Actavis and Warner Chilcott, which also serves as the prospectus of New Actavis and has been filed with the SEC by each of Actavis, Warner Chilcott and New Actavis (the Joint Proxy Statement/Prospectus). The Joint Proxy Statement/Prospectus is included along with this letter.

As Warner Chilcott is an Irish-incorporated company, the Transaction is subject to the Irish Takeover Rules. In accordance with the Irish Takeover Rules, where Actavis gives a statement regarding the synergies that may result from the Transaction (known as a merger benefit statement under the Irish Takeover Rules), certain attestations to that merger benefit statement must be provided.

As Actavis previously disclosed a merger benefit statement in the announcement of the Transaction on May 20, 2013, that statement has been repeated in the Joint Proxy Statement/Prospectus on pages 301 through 302, and is also enclosed with this letter.

In addition, enclosed with this letter are reports from Actavis' auditor, PricewaterhouseCoopers LLP, 1 Embankment Place, London WC2N 6RH, United Kingdom, and Actavis' financial advisors, Merrill Lynch, Pierce, Fenner & Smith Incorporated (BofA Merrill Lynch) and Greenhill & Co., LLC (Greenhill), confirming (respectively) that the merger benefit statement has been made, in the form and context in which it was made, with due care and consideration.

Very truly yours,

Paul M. Bisaro
President, Chief Executive Officer and Director
Actavis, Inc.

Actavis Cautionary Statement Regarding Forward-Looking Statements

Statements contained in this communication that refer to non-historical facts are forward-looking statements that reflect Actavis' current perspective of existing information as of the date of this release. It is important to note that Actavis' goals and expectations are not predictions of actual performance. Actual results may differ materially from Actavis' current expectations depending upon a number of factors, risks and uncertainties affecting Actavis' business. These factors include, among others, the inherent uncertainty associated with financial projections; restructuring in connection with, and successful close of, Actavis' acquisition of Warner Chilcott (the Acquisition); subsequent integration of the Acquisition and the ability to recognize the anticipated synergies and benefits of the Acquisition; the receipt of required regulatory approvals for the Acquisition (including the approval of antitrust authorities necessary to complete the Acquisition); the anticipated size of the markets and continued demand for Actavis' and Warner Chilcott's products; the impact of competitive products and pricing; access to available financing (including financing for the Acquisition or refinancing of Actavis or Warner Chilcott debt) on a timely basis and on reasonable terms; maintaining a position in the Standard & Poor's 500; the risks of fluctuations in foreign currency exchange rates; the risks and uncertainties normally incident to the pharmaceutical industry, including product liability claims and the availability of product liability insurance on reasonable terms; the difficulty of predicting the timing or outcome of pending or future litigation or government investigations; periodic dependence on a small number of products for a material source of net revenue or income; variability of trade buying patterns; changes in generally accepted accounting principles; risks that the carrying values of assets may be negatively impacted by future events and circumstances; the timing and success of product launches; the difficulty of predicting the timing or outcome of product development efforts and regulatory agency approvals or actions, if any; costs and efforts to defend or enforce intellectual property rights; difficulties or delays in manufacturing; the availability and pricing of third party sourced products and materials; successful compliance with governmental regulations applicable to Actavis' and Warner Chilcott's manufacturers, facilities, products and/or businesses; changes in the laws and regulations affecting, among other things, pricing and reimbursement of pharmaceutical products; changes in tax laws or interpretations that could increase Actavis' consolidated tax liabilities; the loss of key senior management or scientific staff; and such other risks and uncertainties detailed in Actavis' periodic public filings with the SEC including but not limited to Actavis' Quarterly Reports on Form 10-Q for the quarters ended March 31, 2013 and

June 30, 2013 and Actavis' Annual Report on Form 10-K for the year ended December 31, 2012 (as revised pursuant to Actavis' Current Report on Form 8-K dated as of June 17, 2013, which was filed with the SEC on June 18, 2013). Except as expressly required by law, Actavis disclaims any intent or obligation to update these forward-looking statements.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. These forward-looking statements are based on estimates and assumptions by Warner Chilcott's management that, although Warner Chilcott believes to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. The following represent some, but not necessarily all, of the factors that could cause actual results to differ from historical results or those anticipated or predicted by Warner Chilcott's forward-looking statements: the timing to consummate the proposed transaction with Actavis; the risk that a condition to closing of the proposed transaction with Actavis may not be satisfied; the risk that a regulatory approval that may be required for the proposed transaction with Actavis is delayed, is not obtained or is obtained subject to conditions that are not anticipated; New Actavis' ability to achieve the synergies and value creation contemplated by the proposed acquisition; New Actavis' ability to promptly and effectively integrate Actavis' and Warner Chilcott's businesses; the diversion of management time on transaction-related issues; Warner Chilcott's substantial indebtedness, including increases in the LIBOR rates on its variable-rate indebtedness above the applicable floor amounts; competitive factors and market conditions in the industry in which Warner Chilcott operates, including the approval and introduction of generic or branded products that compete with its products; Warner Chilcott's ability to protect its intellectual property; a delay in qualifying any of Warner Chilcott's manufacturing facilities that produce its products, production or regulatory problems with either its own manufacturing facilities or those of third party manufacturers, packagers or API suppliers upon whom Warner Chilcott may rely for some of its products or other disruptions within Warner Chilcott's supply chain; pricing pressures from reimbursement policies of private managed care organizations and other third party payors, government sponsored health systems and regulatory reforms, and the continued consolidation of the distribution network through which Warner Chilcott sells its products; changes in tax laws or interpretations that could increase Warner Chilcott's consolidated tax liabilities; government regulation, including U.S. and foreign health care reform, affecting the development, manufacture, marketing and sale of pharmaceutical products, including Warner Chilcott's ability and the ability of companies with whom it does business to obtain necessary regulatory approvals; adverse outcomes in Warner Chilcott's outstanding litigation, regulatory investigations or arbitration matters or an increase in the number of such matters to which it is subject; the loss of key senior management or scientific staff; Warner Chilcott's ability to manage the growth of its business by successfully identifying, developing, acquiring or licensing new products at favorable prices and marketing such new products; Warner Chilcott's ability to obtain regulatory approval and customer acceptance of new products, and continued customer acceptance of its existing products; and the other risks identified in Warner Chilcott's periodic filings, including its Annual Report on Form 10-K for the year ended December 31, 2012 and its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2013 and June 30, 2013, and from time-to-time in its other investor communications. Warner Chilcott cautions you that the foregoing list of important factors is not exclusive. In addition, in light of these risks and uncertainties, the matters referred to in Warner Chilcott's forward-looking statements may not occur. Warner Chilcott undertakes no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as may be required by law.

MERGER BENEFIT STATEMENT

Actavis anticipates that the acquisition will provide after tax operational synergies and related cost reductions and tax savings of more than \$400 million. The majority of savings are expected to be realized in 2014, with full effect during 2015. The majority of these are operational, and the estimate excludes any revenue, manufacturing or interest rate synergies or savings.

Subject to the scheme becoming effective, Warner Chilcott shareholders will be able to share in the synergies resulting from the acquisition by means of the consideration they will receive.

There are various material assumptions underlying the synergies estimate which may result in the synergies being materially greater or less than estimated. The estimate of synergies should therefore be read in conjunction with the key assumptions underlying the estimates.

The estimate of synergies set out in this document has been reported on for the purposes of Rule 19.3(b)(ii) of the Takeover Rules by (i) PricewaterhouseCoopers LLP, 1 Embankment Place, London WC2N 6RH, United Kingdom; (ii) Greenhill; and (iii) BofA Merrill Lynch. Copies of their respective reports are attached hereto.

The Synergy Statements should not be construed as a profit forecast or interpreted to mean that New Actavis earnings in the first full year following the acquisition, or in any subsequent period, would necessarily match or be greater than or be less than those of Actavis and/or Warner Chilcott for the relevant preceding financial period or any other period.

Assumptions

1. The bases of belief (including sources of information and assumptions made) that support the expected synergies are set out in the following paragraphs. The Synergy Statements have been reported in accordance with Rule 19.3(b) of the Irish Takeover Rules.
2. The expected sources of the anticipated after-tax operational synergies and related cost reductions and tax savings are:
 - (a) primarily resulting from the integration of the women's health and urology sales force, the elimination of redundant marketing expenses, the consolidation of corporate general and administrative functions and research and development, and procurement savings; and
 - (b) tax savings resulting from the combined company being incorporated in Ireland with organizational, operations and capitalization structures that will enable the combined company to more efficiently manage its global cash and treasury operations.
3. When evaluating the potential after-tax operational synergies and related cost reductions and tax savings the Actavis board of directors has assumed the following:
 - (a) that the scheme will become effective and New Actavis will acquire 100% of the issued and to be issued share capital of Warner Chilcott on completion of the acquisition;
 - (b) that there will be no material unanticipated impact on the combined company arising from any decisions made by competition authorities;
 - (c) that there will be no material change to the market dynamics affecting Actavis and/or Warner Chilcott following completion of the acquisition;

Edgar Filing: Warner Chilcott plc - Form 425

- (d) that there will be no material change to exchange rates following completion of the acquisition; and

- (e) there will be no material change to income tax laws or regulations affecting Actavis and/or Warner Chilcott following completion of the acquisition.

4. In establishing the estimate of after-tax operational synergies and related cost reductions and tax savings the Actavis board of directors has assumed that Warner Chilcott's operations, processes and procedures are comparable to those of Actavis' related operations, except where publicly available information clearly indicates otherwise or the due diligence materials provided by Warner Chilcott to Actavis indicated otherwise. Actavis' management, aided by its previous integration experience and through an understanding of Warner Chilcott's operations and cost structure based on their own market intelligence and experience, and due diligence materials provided by Warner Chilcott, has determined the source and scale of potential after-tax operational synergies and resultant tax benefits. The after-tax operational synergies and related cost reductions, and tax savings are incremental to Actavis' and, to the best of Actavis' knowledge, Warner Chilcott's existing plans. In addition to information from Actavis' and Warner Chilcott's respective management teams, the sources of information that Actavis has used to arrive at the estimate of potential after-tax operational synergies and resultant tax benefits, include:
- (a) the Warner Chilcott annual report and accounts;
 - (b) Warner Chilcott's presentations to analysts;
 - (c) Warner Chilcott's website;
 - (d) Analysts' research;
 - (e) Other public information;
 - (f) Actavis' knowledge of the industry and of Warner Chilcott; and
 - (g) Actavis' experience of synergies from previous transactions, in particular, the acquisition by Watson of Actavis.
5. There remains an inherent risk in the synergy forward-looking statements. No Synergy Statement in the Announcement should be construed as a profit forecast or interpreted to mean that New Actavis' earnings in the first full year following the acquisition, or in any subsequent period, would necessarily match or be greater than or be less than those of Actavis and/or Warner Chilcott for the relevant preceding financial period or any other period.

This report is being furnished to the Warner Chilcott shareholders solely to comply with the Irish Takeover Rules. This report is not intended to be soliciting material under the securities laws of the United States. Nothing in this report is deemed to be a part of, or incorporated by reference into, any other filing made with the SEC, including, without limitation, the joint proxy statement.
