**Our Company**

Founded in 1977, we are an international real estate investment and services firm. We are a vertically integrated real estate operating company with approximately 400 professionals in 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. Based on management's estimate of fair value as of June 30, 2013, we have approximately \$13.5 billion of real estate and real estate-related assets under our management (AUM), totaling over 64 million square feet of properties throughout the United States, Europe and Japan. This includes ownership in 16,679 multifamily apartment units, of which 2,030 units are owned by our consolidated subsidiaries and 14,649 are held in joint ventures.

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans and investments in joint ventures. Our AUM is intended principally to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our AUM consist of the total estimated fair value of the real estate properties and other assets either owned by third parties, wholly owned or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested. Committed (but unfunded) capital from investors in our sponsored funds is not included in this component of our AUM. The estimated value of development properties is included at estimated completion cost.

**Our Business Segments**

Our operations are defined by two core business units: KW Investments and KW Services. KW Investments invests our capital in most cases alongside partners' capital in real estate-related assets, including multifamily properties, loans secured by real estate and office and residential properties. KW Services provides a full array of real estate-related services to investors and lenders, with a strong focus on financial institution based clients.

**KW Investments**

We invest our capital in real estate assets and loans secured by real estate through joint ventures, separate accounts, commingled funds and wholly owned investments. We are typically the general partner in these investment vehicles with ownership interests ranging from approximately 5% to 50%. Our equity partners include financial institutions, foundations, endowments, high net worth individuals and other institutional investors. In many cases, we get a promoted interest in the profits of our investments beyond our ownership percentage.

Our investment philosophy is based on three core fundamentals:

significant proprietary deal flow from an established network of industry relationships, particularly with financial institutions;

focus on a systematic research process with a disciplined approach to investing; and

superior in-house operating execution.

Our primary investment markets include the Western United States, the United Kingdom, Ireland and Japan, which we have identified as areas with dense populations, high barriers to entry, scarcity of land and supply constraints. We typically focus on the following opportunities:

real estate owners or lenders seeking liquidity;

under-managed or under-leased assets; and

repositioning opportunities.

The following table describes our investment account, which includes the following financial statement captions below, and is derived from our consolidated balance sheet as of June 30, 2013 (dollars in millions):

### **KW Services**

KW Services offers a comprehensive line of real estate services for the full lifecycle of real estate ownership and investment to clients that include financial institutions, developers, builders and government agencies. KW Services has three business lines: investment management, property services and auction and conventional sales. These three business lines generate revenue for us through commissions and fees.

Through our investment management business, we provide acquisition, asset management and disposition services to our equity partners as well as to third parties.

We manage over 64 million square feet of property for institutional clients and individual investors in the United States, Europe and Japan. With 24 offices throughout the United States, the United Kingdom, Ireland, Spain and Japan, we have the capabilities and resources to provide property services to real estate owners, as well as the experience as a real estate investor, to understand client concerns.

Additionally, KW Services plays a critical role in supporting the company's investment strategy by providing local market intelligence and real-time data for evaluating investments, generating proprietary transaction flow and creating value through efficient implementation of asset management or repositioning strategies.

### **Our Competitive Strengths**

We believe the combination of a service business and an investment platform provides us with significant competitive advantages and allows us to generate superior risk-adjusted returns. We use our service platform to facilitate the origination of investment opportunities, enhance the investment process and ensure the alignment of interests with our investors' interests. Our competitive advantages include:

***Transaction experience:*** Our Executive Committee has more than 125 years of combined real estate experience and has been working and investing together, on average, for over 15 years. Members of the Executive Committee have collectively acquired, developed and managed in excess of \$20 billion of real estate investments in the United States, the United Kingdom, Ireland and Japan throughout various economic cycles, both at our company and throughout their careers.

***Extensive relationship and sourcing network:*** We leverage our services business in order to source off-market deals. In addition, the Executive Committee and our acquisition team have transacted deals in nearly every major metropolitan market on the West Coast of the United States, as well as in the United Kingdom, Ireland and Japan. Their local presence and reputation in these markets have enabled them to cultivate key relationships with major holders of property inventory, particularly financial institutions, throughout the real estate community.

***Structuring expertise and speed of execution:*** Our prior acquisitions have taken a variety of forms, including direct property investments, joint ventures, participating loans and investments in performing and non-performing mortgages with the objective of long-term ownership. We believe we have developed a reputation of being able to quickly execute, as well as originate and creatively structure, acquisitions, dispositions and financing transactions.

## **Table of Contents**

***Vertically integrated platform for operational enhancement:*** We have approximately 400 employees, with 24 regional offices throughout the United States, the United Kingdom, Ireland, Spain and Japan. We have a hands-on approach to real estate investing and possess the local expertise in property management, leasing, construction management, development and investment sales, which, we believe, enable us to invest successfully in selected submarkets.

***Risk protection and investment discipline:*** We underwrite our investments based upon a thorough examination of property economics and a critical understanding of market dynamics and risk management strategies. We conduct an in-depth sensitivity analysis on each of our acquisitions. This analysis applies various economic scenarios that include changes to rental rates, absorption periods, operating expenses, interest rates, exit values and holding periods. We use this analysis to develop our disciplined acquisition strategies.

## **Recent Developments**

### ***Acquisition Activity***

Subsequent to June 30, 2013, we and our equity partners have acquired \$1.0 billion of real estate-related investments, which include 23 commercial properties, two loan originations and one loan portfolio purchase. Our total equity investment in these transactions was approximately \$121 million. Our investments since June 30, 2013 include the following:

***Real Estate:*** We and our equity partners have acquired two portfolios totaling 21 commercial properties located in the United Kingdom and Ireland, consisting of approximately 2.9 million square feet. In addition, we and our equity partners have also acquired two commercial properties in the Western United States and the United Kingdom totaling approximately 0.2 million square feet.

As of September 9, 2013, we are under separate contracts to purchase six real estate-related investments in the United States and the United Kingdom, as well as a real estate loan servicing business platform in Spain, at an aggregate purchase price of over \$450 million. We are currently conducting our due diligence on these investments, and all but one of the agreements provide us with the right to terminate the agreement for any reason prior to the expiration of the relevant due diligence period. In the event that we consummate any of these acquisitions, we anticipate financing such transactions with a combination of debt and third-party equity. Our equity investment in any of these acquisitions has not yet been determined. There can be no assurances that we will complete these or any other potential acquisitions under contract.

### ***Amendment to Unsecured Revolving Credit Facility***

**Table of Contents**

- (1) EBITDA represents net income (loss) before interest expense, our share of interest expense included in income from investments in joint ventures and loan pool participations, depreciation and amortization, our share of depreciation and amortization included in income from investments in joint ventures, loss on early extinguishment of corporate debt and income taxes. We do not adjust EBITDA for gains or losses on the extinguishment of mortgage debt, as we are in the business of purchasing discounted notes secured by real estate, and, in connection with these note purchases, we may resolve these loans through discounted payoffs with the borrowers. EBITDA is not a recognized term under generally accepted accounting principles, or GAAP, and does not purport to be an alternative to net earnings as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA is not intended to be a measure of free cash flow available for management's discretionary use, as it does not consider certain cash requirements such as interest payments, tax payments and debt service requirements. Our presentation of EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. EBITDA is not calculated under GAAP and should not be considered in isolation or as a substitute for net income, cash flows or other financial data prepared in accordance with GAAP or as a measure of our overall profitability or liquidity. Our management believes EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations.
- (2) Adjusted EBITDA represents EBITDA, as defined above, adjusted to exclude merger-related expenses and stock-based compensation expense. Our management uses Adjusted EBITDA to analyze our business because it adjusts EBITDA for items we believe do not have an accurate reflection of the nature of our business going forward or are non-cash in nature. Such items may vary for different companies for reasons unrelated to overall operating performance. Additionally, we believe Adjusted EBITDA is useful to investors to assist them in getting a more accurate picture of our results from operations. However, EBITDA and Adjusted EBITDA are not recognized measurements under GAAP, and, when analyzing our operating performance, readers should use EBITDA and Adjusted EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA and Adjusted EBITDA are not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA and Adjusted EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.
- (3) Net Investment Account is defined as investments in joint ventures plus real estate, net, plus notes receivable plus loan pool participations plus marketable securities plus acquired in-place lease value, net less mortgage debt.

**RISK FACTORS**

An investment in our common stock involves a high degree of risk. Before deciding to invest in our common stock, you should carefully consider the risks set forth under the heading **Risk Factors** beginning on page 5 of our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, which we filed with the Securities and Exchange Commission, or the SEC, on March 12, 2013 and which is incorporated by reference into this prospectus supplement, as well as the other information in that Annual Report and in other reports we file from time to time with the SEC that are incorporated by reference in this prospectus supplement. See **Incorporation of Certain Information by Reference**.

The risks and uncertainties referred to above are not the only risks and uncertainties that we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of these risks actually occurs, our business, financial condition and results of operations would suffer.

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

Statements included or incorporated by reference in this prospectus supplement or the accompanying prospectus or in other reports and statements released by us that are not historical facts constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21 of the Exchange Act. These forward-looking statements are estimates reflecting the judgment of our senior management based on estimates, expectations, forecasts and projections that are current as of the date of the applicable forward-looking statement. Forward-looking statements include comments that express opinions about trends and factors that may impact future operating results. Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, or the negative of these, as well as similar expressions, are intended to identify forward-looking statements, but the absence of any of these words does not necessarily mean that a statement is not forward-looking.

Forward-looking statements are not guarantees of future performance, rely on a number of assumptions concerning future events, many of which are outside of our control, and involve known and unknown risks and uncertainties that could cause actual results, performance or achievements or industry results to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable as of the time the statements were made, the transactions and events described may not happen as described or may not happen at all. In evaluating these statements, you should specifically consider the risks referred to under the heading Risk Factors on page S-12 of this prospectus supplement, including, but not limited to, the following factors:

disruptions in general economic and business conditions, particularly in geographic areas where our business may be concentrated;

the continued volatility and disruption of the capital and credit markets, higher interest rates, higher loan costs, less desirable loan terms and a reduction in the availability of mortgage loans and mezzanine financing, all of which could increase costs and limit our ability to acquire additional real estate assets;

continued high levels of, or increases in, unemployment and a general slowdown in commercial activity;

our leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in our debt service obligations;

our ability to generate a sufficient amount of cash from operations to satisfy working capital requirements and to service our existing and future indebtedness;

our ability to achieve improvements in operating efficiency;

foreign currency fluctuations;

adverse changes in the securities markets;

our ability to retain our senior management and attract and retain qualified and experienced employees;

our ability to attract new user and investor clients;

our ability to retain major clients and renew related contracts;

trends in the use of large, full-service commercial real estate providers;

changes in tax laws in the United States, Europe or Japan that reduce or eliminate our deductions or other tax benefits;

future acquisitions may not be available at favorable prices or with advantageous terms and conditions;  
and

costs relating to the acquisition of assets we may acquire could be higher than anticipated.

Each forward-looking statement should be considered in the context of the various disclosures we make about our business, including, without limitation, the factors discussed above. Except as required under the federal securities laws and the rules and regulations of the SEC, we do not intend or have an obligation to publicly update any forward-looking statements, whether as a result of new information, future events, changes in assumptions or otherwise.

**USE OF PROCEEDS**

We estimate that the net proceeds to us from this offering will be approximately \$        million (or approximately \$        million if the underwriter fully exercises its option to purchase additional shares), after deducting underwriting discounts and commissions and the estimated offering expenses payable by us.

We currently intend to use the net proceeds from this offering for general corporate purposes, including future acquisitions and co-investments, and to repay the \$50.0 million balance outstanding under our unsecured revolving credit facility as of September 9, 2013. Loans under this facility mature on June 30, 2015 and bear interest at a rate per annum equal to LIBOR plus 2.75%. We are currently in discussions with the lenders under our unsecured revolving credit facility to, among other things, increase the amount available to us under the facility and extend the term. There can be no assurances that we will be successful in amending our unsecured revolving credit facility.

**U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following is a discussion of the material U.S. federal income tax considerations relevant to non-U.S. holders (as defined below) of the ownership and disposition of shares of our common stock, but does not purport to be a complete analysis of all potential tax effects. This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury Regulations issued thereunder, Internal Revenue Service (IRS) rulings and pronouncements, and judicial decisions, all as of the date hereof and all of which are subject to change at any time. Any such change may be applied retroactively in a manner that could adversely affect a holder of our common stock. We have not sought any ruling from the IRS with respect to the statements made and the conclusions reached in the following discussion, and there can be no assurance that the IRS will agree with such statements and conclusions.

This discussion does not address all of the U.S. federal income tax consequences that may be relevant to a holder in light of such holder's particular circumstances or to holders subject to special rules, including, without limitation:

banks, insurance companies and other financial institutions;

U.S. expatriates and certain former citizens or long-term residents of the United States;

holders subject to the alternative minimum tax;

dealers in securities;

traders in securities;

controlled foreign corporations, passive foreign investment companies and corporations that accumulate earnings to avoid U.S. federal income tax;

partnerships or other pass-through entities;

real estate investment trusts or regulated investment companies;

persons holding shares of our common stock as part of a straddle, conversion transaction or other risk reduction transaction; and

persons deemed to sell shares of our common stock under the constructive sale provisions of the Code.

In addition, this discussion is limited to non-U.S. holders purchasing shares of our common stock issued pursuant to this offering and who hold shares of our common stock as capital assets within the meaning of Section 1221 of the

Code. Moreover, the effects of other U.S. federal tax laws (such as estate and gift tax laws or the unearned income Medicare contribution tax) and any applicable state, local or foreign tax laws are not discussed.

If a partnership or other entity taxable as a partnership holds our common stock, the tax treatment of the partners in the partnership generally will depend on the status of the particular partner in question and the activities of the partnership. Such partners should consult their tax advisors as to the specific tax consequences to them of holding our common stock indirectly through ownership of their partnership interests.

**YOU ARE URGED TO CONSULT YOUR TAX ADVISOR WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATION AS WELL AS ANY TAX CONSEQUENCES OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL, FOREIGN OR OTHER TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.**

## **Table of Contents**

### **Definition of Non-U.S. Holder**

A non-U.S. holder is a beneficial owner of our common stock that is not a partnership (or an entity treated as a partnership for U.S. federal income tax purposes) or a U.S. holder. A U.S. holder is any of the following:

an individual who is a citizen or resident of the United States;

a corporation or other entity treated as a corporation created or organized in or under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust, if (a) a U.S. court can exercise primary supervision over the administration of the trust and one or more United States persons within the meaning of the Code control all substantial trust decisions; or (b) it has made a valid election under applicable Treasury Regulations to continue to be treated as a United States person.

### **Distributions on Our Common Stock**

Distributions we make with respect to shares of our common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a non-U.S. holder's adjusted tax basis in its shares of our common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under Gain on Sale or Disposition of Shares of Our Common Stock. Because we may not know the extent to which a distribution is a dividend for U.S. federal income tax purposes at the time it is made, for withholding purposes, we may treat the entire distribution as a dividend. However, amounts withheld would generally be refundable if it were subsequently determined that the distribution was, in fact, not a dividend for U.S. federal income tax purposes, provided that certain conditions are met.

Dividends paid to a non-U.S. holder of shares of our common stock that are not effectively connected with a U.S. trade or business conducted by such non-U.S. holder generally will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends, or such lower rate as is specified by an applicable tax treaty. To receive the benefit of a reduced treaty rate, a non-U.S. holder must furnish a valid IRS Form W-8BEN (or applicable successor form) certifying such non-U.S. holder's qualification for the reduced rate. This certification must be provided prior to the payment of dividends and must be updated periodically. If the non-U.S. holder holds the stock through a financial institution or other agent acting on the non-U.S. holder's behalf, the non-U.S. holder will be required to provide appropriate documentation to the agent. If a non-U.S. holder qualifies for a reduced treaty rate but does not timely provide the required certification, the non-U.S. holder may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisors regarding possible entitlement to benefits under a tax treaty.

If a non-U.S. holder holds shares of our common stock in connection with the conduct of a trade or business in the United States, and dividends paid on the shares of our common stock are effectively connected with such non-U.S.

holder's U.S. trade or business (and, if required by an applicable tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States), the non-U.S. holder will be exempt from U.S. federal withholding

S-19

## **Table of Contents**

tax. To claim the exemption, the non-U.S. holder must furnish a valid IRS Form W-8ECI (or applicable successor form), certifying that the dividends are effectively connected with the non-U.S. holder's conduct of a trade or business within the United States. Any such dividends generally will be subject to U.S. federal income tax on a net-income basis in the same manner as if such non-U.S. holder were a United States person. A non-U.S. holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate as is specified by an applicable tax treaty) on its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

### **Gain on Sale or Disposition of Our Common Stock**

Subject to the discussion below regarding backup withholding, a non-U.S. holder generally will not be subject to U.S. federal income tax on any gain realized upon the sale or disposition of shares of our common stock unless:

the gain is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States and, if required by an applicable tax treaty, attributable to a permanent establishment maintained by the non-U.S. holder in the United States;

the non-U.S. holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the sale or disposition and certain other requirements are met; or

shares of our common stock constitute a U.S. real property interest by reason of our status as a U.S. real property holding corporation, or a USRPHC, for U.S. federal income tax purposes.

Unless an applicable tax treaty provides otherwise, the gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net-income basis in the same manner as if such non-U.S. holder were a United States person. A non-U.S. holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate as is specified by an applicable tax treaty) on its effectively connected earnings and profits for the taxable year, as adjusted for certain items. Non-U.S. holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Gain described in the second bullet point above generally will be subject to U.S. federal income tax at a flat 30% rate (or such lower rate as is specified by an applicable income tax treaty), but may be offset by U.S.-source capital losses of the non-U.S. holder during the taxable year of the sale or disposition (even though the individual is not considered a resident of the United States), provided that the non-U.S. holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe that we currently are a USRPHC. Because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property interests relative to the fair market value of our other real estate and business assets, however, there can be no assurance that we currently are a USRPHC or will remain a USRPHC in the future. Assuming we are a USRPHC, as long as shares of our common stock are regularly traded on an established securities market, a non-U.S. holder's shares of our common stock will not be treated as a U.S. real property interest unless the non-U.S. holder actually or constructively held more than 5% of the shares of our common stock at any time during the shorter of (i) the five-year period ending on the date of the non-U.S. holder's sale or disposition of such shares and (ii) the non-U.S. holder's holding period for such shares. We

S-20

## **Table of Contents**

believe, but cannot guarantee, that shares of our common stock will continue to be regularly traded on an established securities market. If gain on the sale or other taxable disposition of shares of our common stock were subject to taxation under the third bullet point above, the non-U.S. holder would be subject to regular U.S. federal income tax with respect to such gain in generally the same manner as a United States person. In addition, if shares of our common stock were not regularly traded on an established securities market, the purchaser of such common stock would generally be required to withhold and remit to the IRS 10% of the purchase price.

## **Information Reporting and Backup Withholding**

Generally, information returns must be filed annually with the IRS and provided to each non-U.S. holder with respect to the amount of dividends paid to such non-U.S. holder and the amount, if any, of tax withheld with respect to those dividends. This information also may be made available under a specific treaty or agreement with the tax authorities of the country in which the non-U.S. holder resides or is established. Under certain circumstances, the Code imposes backup withholding on certain reportable payments. Backup withholding generally will not, however, apply to payments of dividends to a non-U.S. holder of shares of our common stock, provided that the non-U.S. holder furnishes to the applicable withholding agent the required certification as to its non-U.S. status, such as by providing a valid IRS Form W-8BEN or W-8ECI, or otherwise establishes an exemption. Notwithstanding the foregoing, backup withholding may apply if the payor has actual knowledge, or reason to know, that the non-U.S. holder is a United States person that is not an exempt recipient.

Unless a non-U.S. holder complies with certification procedures to establish that it is not a United States person, information returns may be filed with the IRS in connection with, and the non-U.S. holder may be subject to backup withholding on the proceeds from, a sale or other disposition of shares of our common stock. The certification procedures described in the immediately preceding paragraph will satisfy these certification requirements as well.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

## **Foreign Account Tax Compliance Act**

Under legislation commonly referred to as the Foreign Account Tax Compliance Act (FATCA), withholding taxes may apply to certain types of payments made to foreign financial institutions (as specially defined in the Code) and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, and gross proceeds from the sale or other disposition of, shares of our common stock paid to a foreign financial institution or to a non-financial foreign entity, unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution described in clause (1) above, in order to avoid this tax, it must generally enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain United States persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an inter-governmental agreement with the United States governing FATCA may be subject to different rules.

**Table of Contents**

Treasury Regulations and IRS guidance provide that the withholding provisions described above generally will apply to payments of dividends on or after July 1, 2014 and to payments of gross proceeds from a sale or other disposition of stock on or after January 1, 2017. Prospective investors should consult their tax advisors regarding these withholding provisions.

provided that in each case such transfers do not require any public filing and no public filing is voluntarily made. In each of these cases, the transferee of the securities must also sign a lock-up agreement.

In the event that either (x) during the last 17 days of the lock-up period referred to above, we issue an earnings release or material news or a material event relating to us occurs or (y) prior to the expiration of the lock-up period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16-day period beginning on the last day of the lockup period, the restrictions described above shall continue to apply until the expiration of the 18-day period beginning on the issuance of the earnings release or the occurrence of the material news or material event, unless Deutsche Bank Securities Inc. waives such extension in writing.

In connection with the offering, Deutsche Bank Securities Inc. may purchase and sell shares of our common stock in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions.

Short sales involve the sale by Deutsche Bank Securities Inc. of a greater number of shares than it is required to purchase in the offering. Covered short sales are sales made in an amount not greater than Deutsche Bank Securities Inc.'s option to purchase additional shares of common stock from us in the offering. Deutsche Bank Securities Inc. may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, Deutsche Bank Securities Inc. will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares.

Naked short sales are any sales in excess of the option to purchase additional shares. Deutsche Bank Securities Inc. must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if Deutsche Bank Securities Inc. is concerned that there may be downward pressure on the price of the shares in the open market prior to the completion of the offering. Stabilizing transactions consist of various bids for or purchases of our common stock made by Deutsche Bank Securities Inc. in the open market prior to the completion of the offering.

Purchases to cover a short position and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of our common stock. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange, in the over-the-counter market or otherwise.

A prospectus supplement and accompanying prospectus in electronic format may be made available on Internet web sites maintained by Deutsche Bank Securities Inc. Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on Deutsche Bank Securities Inc.'s web site and any information contained in any other web site maintained by Deutsche Bank Securities Inc. is not part of the prospectus supplement, the accompanying prospectus or the related registration statement.

Deutsche Bank Securities Inc. or its affiliates have provided investment banking services to us in the past and may do so in the future. They receive customary fees and commissions for these services.

Disclosures that use words such as believe, anticipate, estimate, intend, could, plan, expect, project or the negative of these, as well as expressions, are intended to identify forward-looking statements.

Although the issuers believe that their plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, no assurance can be given that the transactions and events described will happen as described (or that they will happen at all). In evaluating these statements, you should specifically consider the risks referred to under the heading Risk Factors on page 1 of this prospectus, and in the reports Kennedy-Wilson Holdings files from time to time with the SEC and incorporates by reference herein, including, but not limited to, the following factors:

disruptions in general economic and business conditions, particularly in geographies where the issuers respective businesses may be concentrated;

continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;

the issuers leverage and ability to refinance existing indebtedness or incur additional indebtedness;

an increase in the issuers debt service obligations;

**Table of Contents****RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS**

The following table sets forth Kennedy-Wilson Holdings' ratio of earnings to fixed charges and ratio of earnings to fixed charges and preferred dividends for the periods indicated:

	Nine Months Ended		Year Ended December 31,			
	September 30, 2012	2011	2010	2009	2008	2007
Ratio of earnings to fixed charges	n/a	n/a	1.51	n/a	n/a	n/a
Ratio of earnings to combined fixed charges and preferred stock dividends	n/a	n/a	1.02	n/a	n/a	n/a

The ratio of earnings to fixed charges is calculated by dividing earnings, as defined, by fixed charges, as defined. For this purpose, earnings consist of pretax income from continuing operations before noncontrolling interest and equity in income of joint ventures plus operating distributions from equity investees, and fixed charges consists of interest expense, whether capitalized or expensed, amortization related to indebtedness and premiums or discounts of stock issuances and an estimate of interest expense within rental expense. For the nine months ended September 30, 2012 and the years ended December 31, 2011, 2009, 2008 and 2007, Kennedy-Wilson Holdings' earnings were insufficient to cover fixed charges, and the deficiency of earnings was \$2.2 million, \$6.5 million, \$21.1 million, \$9.5 million, and \$13.6 million, respectively.

The ratio of earnings to combined fixed charges and preferred stock dividends is calculated by dividing earnings, as defined, by fixed charges, as defined. For this purpose, earnings and fixed charges have the respective meanings assigned above. Preferred stock dividends refers to preferred dividend requirements of consolidated subsidiaries. For the nine months ended September 30, 2012 and the years ended December 31, 2011, 2009, 2008 and 2007, Kennedy-Wilson Holdings' earnings were insufficient to cover fixed charges and preferred stock dividends, and the deficiency of earnings was \$8.2 million, \$15.3 million, \$21.1 million, \$9.5 million and \$13.6 million, respectively.

**DESCRIPTION OF COMMON STOCK**

Unless otherwise stated or the context otherwise requires, as used in this section, the words we, us, our or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

Our second amended and restated certificate of incorporation authorizes the issuance of 125,000,000 shares of common stock, par value \$0.0001. As of October 31, 2012, 63,772,598 shares of common stock were issued and outstanding. Holders of common stock have exclusive voting rights for the election of our directors and all other matters requiring stockholder action, except with respect to amendments to our second amended and restated certificate of incorporation that alter or change the powers, preferences, rights or other terms of any outstanding preferred stock if the holders of such affected series of preferred stock are entitled to vote on such an amendment. Holders of common stock are entitled to one vote per share on matters to be voted on by stockholders and also are entitled to receive such dividends, if any, as may be declared from time to time by our board of directors in its discretion out of funds legally available therefor. The payment of dividends, if ever, on the common stock will be subject to (i) the prior payment of dividends on any outstanding shares of preferred stock, and (ii) compliance with any applicable limitations in our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement. Our common stock has no conversion, preemptive or other subscription rights and there are no sinking fund or redemption provisions applicable to the common stock.

Our board of directors is divided into three classes, each of which generally serve for a term of three years with only one class of directors being elected in each year. A plurality of the votes cast at a stockholders meeting is sufficient to elect any director into office. There is no cumulative voting with respect to the election of directors.

**DESCRIPTION OF PREFERRED STOCK**

Unless otherwise stated or the context otherwise requires, as used in this section, the words we, us, our or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

**General.** Our second amended and restated certificate of incorporation provides that we may issue up to 1,000,000 shares of preferred stock, \$0.0001 par value per share, or preferred stock. Our second amended and restated certificate of incorporation provides that shares of preferred stock may be issued from time to time in one or more series. Our board of directors is authorized to fix the voting rights, if any, the designations, powers, and preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions, applicable to the shares of each series of preferred stock. Our board of directors is able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control or the removal of existing management by diluting the stock ownership or voting rights of a person seeking to obtain control of the company or remove existing management. As of October 31, 2012, 100,000 shares of our series A preferred stock were issued and outstanding and 32,550 shares of our series B preferred stock were issued and outstanding. Other than the series A preferred stock and series B preferred stock, no shares of preferred stock are currently outstanding.

The specific terms of a particular class or series of preferred stock will be described in the prospectus supplement relating to that class or series, including a prospectus supplement providing that preferred stock may be issuable upon the exercise of warrants, or upon the conversion of any debt securities, that we issue pursuant to this prospectus. The description of preferred stock set forth below and the description of the terms of a particular class or series of preferred stock set forth in the applicable prospectus supplement do not purport to be complete and are qualified in their entirety by reference to the articles supplementary relating to that class or series.

The preferences and other terms of the preferred stock of each class or series will be fixed by the certificate of designation relating to such class or series. A prospectus supplement, relating to each class or series, will specify the terms of the preferred stock as follows:

the title and stated value of such preferred stock;

the number of shares of such preferred stock offered, the liquidation preference per share and the offering price of such preferred stock;

the dividend rate(s), period(s), and/or payment date(s) or method(s) of calculation thereof applicable to such preferred stock;

whether such preferred stock is cumulative or not and, if cumulative, the date from which dividends on such preferred stock shall accumulate;

the provision for a sinking fund, if any, for such preferred stock;

the provision for redemption, if applicable, of such preferred stock;

any listing of such preferred stock on any securities exchange;

preemptive rights, if any;

## Edgar Filing: Kennedy-Wilson Holdings, Inc. - Form 424B5

the terms and conditions, if applicable, upon which such preferred stock will be converted into our common stock, including the conversion price (or manner of calculation thereof);

a discussion of any material United States federal income tax consequences applicable to an investment in such preferred stock;

the relative ranking and preferences of such preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

## **Table of Contents**

any limitations on issuance of any class or series of preferred stock ranking senior to or on a parity with such class or series of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of the affairs of our company;

any voting rights of such preferred stock; and

any other specific terms, preferences, rights, limitations or restrictions of such preferred stock.

**Rank.** Unless otherwise specified in the applicable prospectus supplement, the preferred stock will, with respect to dividend rights and rights upon liquidation, dissolution or winding up of our company, rank: (i) senior to all classes or series of our common stock, and to any other class or series of our stock expressly designated as ranking junior to the preferred stock; (ii) on parity with any class or series of our stock expressly designated as ranking on parity with the preferred stock; and (iii) junior to any other class or series of our stock expressly designated as ranking senior to the preferred stock.

**Conversion Rights.** The terms and conditions, if any, upon which any shares of any class or series of preferred stock are convertible into our common stock will be set forth in the applicable prospectus supplement relating thereto. Such terms will include the number of shares of our common stock into which the shares of preferred stock are convertible, the conversion price (or manner of calculation thereof), the conversion period, provisions as to whether conversion will be at the option of the holders of such class or series of preferred stock, the events requiring an adjustment of the conversion price and provisions affecting conversion in the event of the redemption of such class or series of preferred stock.

**Power to Increase Authorized Stock and Issue Additional Shares of Our Preferred Stock.** The number of authorized shares of preferred stock may be increased by the affirmative vote of the holders of a majority of the voting power of all the then outstanding shares of the capital stock entitled to vote generally in the election of directors, voting together as a single class, without a separate vote of the holders of the Preferred Stock, or any series thereof, unless a vote of any such holders is required pursuant to the resolutions adopted by the board of directors for such series. Our board of directors has the power to issue additional authorized but unissued shares of our preferred stock and to classify or reclassify unissued shares of our preferred stock and thereafter to cause us to issue such classified or reclassified shares of stock. Although our board of directors does not intend to do so, it could authorize us to issue a class or series that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for our stockholders or otherwise be in their best interest.

**Dividend Limitations.** The payment of dividends, if ever, on the preferred stock will be subject to compliance with any applicable limitations in our debt agreements, including debt securities issued pursuant to this prospectus and any prospectus supplement.

In addition, we may not make certain material and adverse changes to the terms of the series A preferred stock without the affirmative vote of the holders of at least two-thirds of the outstanding shares of series A preferred stock and the holders of all other shares of any class or series ranking on parity with the series A preferred stock that are entitled to similar voting rights (voting together as a single class).

**DESCRIPTION OF WARRANTS**

Unless otherwise stated or the context otherwise requires, as used in this section, the words we, us, our or the company refer to Kennedy-Wilson Holdings, Inc. and its subsidiaries.

This section describes the general terms and provisions of our warrants to acquire our securities that we may issue from time to time. The applicable prospectus supplement will describe the terms of any warrant agreements and the warrants issuable thereunder. If any particular terms of the warrants described in the prospectus supplement differ from any of the terms described herein, then the terms described herein will be deemed superseded by that prospectus supplement.

We may issue warrants for the purchase of our common stock or preferred stock. We may issue warrants independently or together with other securities, and they may be attached to or separate from the other securities. Each series of warrants will be issued under a separate warrant agreement that we will enter into with a bank or trust company, as warrant agent, as detailed in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation, or agency or trust relationship, with you. We will file a copy of the warrant and warrant agreement with the SEC each time we issue a series of warrants, and these warrants and warrant agreements will be incorporated by reference into the registration statement of which this prospectus is a part. A holder of our warrants should refer to the provisions of the applicable warrant agreement and prospectus supplement for more specific information.

The prospectus supplement relating to a particular issue of warrants will describe the terms of those warrants, including, when applicable:

the offering price;

the currency or currencies, including composite currencies, in which the price of the warrants may be payable;

the number of warrants offered;

the securities underlying the warrants, including the securities of third parties or other rights, if any, to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing, purchasable upon exercise of the warrants;

the exercise price and the amount of securities you will receive upon exercise;

the procedure for exercise of the warrants and the circumstances, if any, that will cause the warrants to be automatically exercised;

the rights, if any, we have to redeem the warrants;

the date on which the right to exercise the warrants will commence and the date on which the warrants will expire;

the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security;

the date on and after which the warrants and the related securities will be separately transferable;

material U.S. federal income tax consequences;

the name of the warrant agent; and

any other material terms of the warrants.

After the warrants expire they will become void. The prospectus supplement may provide for the adjustment of the exercise price of the warrants.

**Table of Contents**

Warrants may be exercised at the appropriate office of the warrant agent or any other office indicated in the applicable prospectus supplement. Before the exercise of warrants, holders will not have any of the rights of holders of the securities purchasable upon exercise and will not be entitled to payments made to holders of those securities.

The applicable warrant agreement may be amended or supplemented without the consent of the holders of the warrants to which it applies to effect changes that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants. However, any amendment that materially and adversely alters the rights of the holders of warrants will not be effective unless the holders of at least a majority of the applicable warrants then outstanding approve the amendment. Every holder of an outstanding warrant at the time any amendment becomes effective, by continuing to hold the warrant, will be bound by the applicable warrant agreement as amended. The prospectus supplement applicable to a particular series of warrants may provide that certain provisions of the warrants, including the securities for which they may be exercisable, the exercise price and the expiration date, may not be altered without the consent of the holder of each warrant.
