**for**

**all of its outstanding 8.875% Senior Notes due 2020**

We are offering to exchange, upon the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, all of our new 8.875% Senior Notes due 2020 (the "exchange notes") for all of our outstanding 8.875% Senior Notes due 2020 (the "outstanding notes" and collectively with the exchange notes, the "notes"). We are also offering the subsidiary guarantees of the exchange notes, which are described in this prospectus. The terms of the exchange notes are substantially identical to the terms of the outstanding notes except that the issuance of the exchange notes has been registered pursuant to an effective registration statement under the Securities Act of 1933, as amended (the "Securities Act"). We will pay interest on the notes on February 1 and August 1 of each year. The notes will mature on August 1, 2020.

The principal features of the exchange offer are as follows:

We will exchange all outstanding notes that are validly tendered and not validly withdrawn prior to the expiration of the exchange offer for an equal principal amount of exchange notes.

You may withdraw tendered outstanding notes at any time prior to the expiration of the exchange offer.

The exchange offer expires at 5:00 p.m., New York City time, on November 14, 2013, unless extended. We do not currently intend to extend the expiration date.

The exchange of outstanding notes for exchange notes pursuant to the exchange offer will not be a taxable event for U.S. federal income tax purposes.

We will not receive any proceeds from the exchange offer.

We do not intend to apply for listing of the exchange notes on any securities exchange or automated quotation system. All untendered outstanding notes will continue to be subject to the restrictions on transfer set forth in the outstanding notes and in the indenture. In general, the outstanding notes may not be offered or sold except in a transaction registered under the Securities Act or pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Other than in connection with the exchange offer, we do not currently anticipate that we will register the outstanding notes under the Securities Act.

**You should consider carefully the risk factors beginning on page 17 of this prospectus before participating in the exchange offer.**

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for outstanding notes where such outstanding notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that, for a period of 180 days after the expiration date (as defined herein), we will make this prospectus available to any broker-dealer for use in connection with any such resale. **SUMMARY**

*This summary contains basic information about us and the exchange offer. Because it is a summary, it does not contain all of the information that may be important to you. You should consider this entire prospectus carefully, including the section entitled Risk Factors and our consolidated financial statements and the related notes included elsewhere in this prospectus, before participating in the exchange offer.*

*As part of the transactions described under The Transactions, on July 27, 2012 PC Merger Sub, Inc. ( Merger Sub ) merged with and into Party City Holdings Inc., with Party City Holdings Inc. being the surviving corporation, which we refer to as the Acquisition. In this prospectus, the terms we, us, our, the Company and other similar terms refer to Party City Holdings Inc. and all its subsidiaries that are consolidated under United States generally accepted accounting principles ( GAAP ). Unless we indicate otherwise or the context otherwise requires, information identified in this prospectus as pro forma gives effect to the consummation of the Transactions as described under The Transactions as if they had occurred on January 1, 2012.*

*Please note that our discussion of certain financial information, specifically net sales, royalties and franchise fees and retail operating expenses, for the year ended December 31, 2012 includes data from the Predecessor period, which covers the period preceding the Acquisition (January 1, 2012 to July 27, 2012) and data from the Successor period, which covers the period following the Acquisition (July 28, 2012 to June 30, 2013), on a combined basis. The Company notes that the change in basis resulting from the Transactions did not impact such financial information and, although this combined basis does not comply with GAAP, we believe it provides a meaningful method of comparison to the other periods presented in this prospectus. The data is being presented for analytical purposes only. Combined operating results (i) have not been prepared on a pro forma basis as if the Acquisition occurred on the first day of the period, (ii) may not reflect the actual results we would have achieved absent the Acquisition and (iii) may not be predictive of future results of operations.*

**Our Company**

We are a global leader in decorated party supplies. We make it easy and fun to enhance special occasions with a wide assortment of innovative and exciting merchandise at a compelling value. With the 2005 acquisition of Party City Corporation ( Party City ), we created a vertically integrated business combining a leading product design, manufacturing and distribution platform, which constitutes our wholesale business ( Amscan ), with the largest U.S. retailer of party supplies. We believe we have the industry's broadest selection of decorated party supplies, which we distribute to over 100 countries. Our vertically integrated business model and scale differentiate us from most other party supply companies and allow us to capture the manufacturing-to-retail margin on a significant portion of the products sold in our stores. We believe our widely recognized brands, broad product offering, low-cost global sourcing model and category-defining retail concept are significant competitive advantages. We believe these characteristics, combined with our vertical business model and scale, position us for continued organic and acquisition-led growth in the United States and internationally.

Founded in 1947, we started as an importer and wholesaler and have grown to become one of the largest global designers, manufacturers, distributors and retailers of decorated party supplies. Our broad selection of decorated party supplies includes paper and plastic tableware, metallic and latex balloons, novelties, costumes, other garments, stationery and gifts for everyday, themed and seasonal events. Our products are available in over 40,000 retail outlets worldwide, including our own retail network, independent party supply stores, mass merchants, grocery retailers, gift shops, dollar stores and other retailers and distributors throughout the world. We believe that through our extensive offerings, as well as our industry-leading innovation, customer service levels and value, we will continue to win with our customers.

## **Table of Contents**

The acquisition of Party City represented an important step in our evolution. Over the last seven years, we have established the largest network of party supply stores in North America with approximately 1,200 locations consisting of over 850 party superstores (inclusive of approximately 50 iParty Corp. ( iParty ) stores acquired in May 2013 and approximately 215 franchised stores) in the United States and Canada, principally under the Party City banner, and a network of approximately 350 temporary Halloween locations, under the Halloween City banner. We also operate PartyCity.com, our primary e-commerce site. Underscored by our slogan "Nobody Has More Party for Less", we believe we offer a superior one-stop shopping experience with a broad selection, consistently high in-stock positions and compelling value, making us the favored destination for all of our customers' party-supply needs.

Through a combination of organic growth and strategic acquisitions, we increased our consolidated revenues from \$1,560 million in 2008 to \$1,914 million in 2012, representing a compounded annual growth rate of 5.2%.

### **Evolution of Our Business**

Over the last 60 years, we have grown to become a global, vertically integrated designer, manufacturer, distributor and retailer of decorated party supplies. Key strategic initiatives that have been important to our evolution include:

Enhancing our wholesale platform through targeted acquisitions while investing in state-of-the-art distribution facilities and developing a strong Asian-based sourcing and sales organization.

Establishing retail leadership in our industry and our vertically integrated model through the acquisitions of Party City, Party America Corporation ( Party America ), Factory Card & Party Outlet ( FCPO ) and Party City Canada (formerly known as Party Packagers). Following each acquisition, we capitalized on our vertically integrated model by increasing the percentage of the acquired company's total sales that relate to our wholesale products, allowing us to capture the manufacturing-to-retail margin on a growing portion of our retail sales.

Re-launching our e-commerce platform in 2009 provided us with an additional direct-to-consumer channel.

Broadening our product offering and channel reach by acquiring valuable character licenses and costume capabilities in addition to improving our access to grocery and mass merchant retailers.

Growing our international presence by building relationships with local retailers to develop party supply store-in-store concepts as well as targeted acquisitions that extended our geographic reach.

As a result of these investments, we have created a differentiated, vertically integrated business model. We believe that our superior selection of party supplies, scale, innovation and service position us for future growth across all of our channels.

### **Industry Overview**

We operate in the broadly defined \$10 billion retail party goods industry (including decorative paper and plastic tableware, decorations, accessories and balloons), which is supported by a range of suppliers from commodity paper goods producers to party goods specialty retailers. Sales of party goods are fueled by everyday events such as birthdays, baby showers, weddings and anniversaries, as well as seasonal events such as holidays and other special occasions (Halloween, Christmas, New Year's Eve, graduations, Easter, Super Bowl, Fourth of July). As a result of numerous and diverse occasions, the U.S. party goods market enjoys broad demographic appeal. Additionally, we operate in the \$7 billion Halloween market, a portion of which overlaps with the \$10 billion retail party goods industry. The Halloween market includes costumes, candy and makeup.

## **Table of Contents**

The retail landscape is comprised primarily of party superstores, mass merchants, grocery retailers, craft stores and dollar stores. The party superstore has emerged as a preferred destination for party goods shoppers, similar to the dominance of specialty retailers in other categories such as office supplies, pet products and sporting goods. This is typically due to the superstore chain's ability to offer a wider variety of merchandise at more compelling prices in a convenient setting. Other retailers that cater to the party goods market typically offer a limited assortment of party supplies and seasonal items. Mass merchants tend to focus primarily on juvenile and seasonal goods, greeting cards and gift wrap; craft stores on decorations and seasonal merchandise; and dollar stores on general and seasonal party goods items.

The consumable nature and low per-item prices in the party goods market have historically driven demand among consumers seeking to enhance the quality of their gatherings and celebrations. Party goods are an economical means by which to make events and occasions more festive and, as a result, have continued to sell well during economic downturns. Manufacturers and retailers continue to create and market party goods and gifts that celebrate a greater number of events, holidays and occasions. Additionally, the number and types of products offered for each occasion continues to expand, encouraging add-on and impulse purchases by consumers.

### **The Transactions**

On July 27, 2012, affiliates of Thomas H. Lee Partners, L.P. ( "THL" ) acquired a majority stake in the Company in the Acquisition, valued at approximately \$2.7 billion. To consummate the Acquisition, we entered into new debt financing consisting of (i) \$1,525 million of senior secured credit facilities (the "Senior Credit Facilities" ) consisting of: (a) a \$400 million revolving credit facility (the "ABL Facility" ), which had \$115 million drawn at the closing of the Acquisition and (b) a \$1,125 million term loan credit facility (the "Term Loan Facility" ), and (ii) \$700 million of outstanding notes, which we are offering to exchange, upon the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, for all of our exchange notes.

We refer to the Acquisition and the related transactions, including the issuance and sale of the outstanding notes and the borrowings under our Senior Credit Facilities, as the "Transactions."

For additional information regarding the Transactions, see "Description of Other Indebtedness" and "Description of Exchange Notes."

### **Risks Related to Our Indebtedness**

We are subject to a number of risks related to our substantial indebtedness. These risks are discussed more fully in the "Risk Factors" section in this prospectus. In particular:

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the exchange notes;

We have the ability to incur substantially more indebtedness, including senior secured indebtedness;

Restrictions imposed by the indenture governing the notes, and by our Senior Credit Facilities and our other indebtedness, may limit our ability to operate our business and to finance our future operations or capital needs to engage in other business activities;

We may not be able to generate sufficient cash to service all of our indebtedness, including the exchange notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful; and

**Table of Contents**

Payments on the leases of our company-owned stores, our corporate headquarters and our distribution facilities account for a significant portion of our operating expenses and we expect payment obligations under our leases to account for a significant portion of our future operating expenses.

**Our Sponsors**

THL is one of the world's oldest and most experienced private equity firms. THL invests in growth-oriented companies across three broad sectors: Business & Financial Services, Consumer & Healthcare and Media & Information Services. THL's investment and operating professionals partner with portfolio company management teams to identify and implement business model improvements that accelerate sustainable revenue and profit growth. The firm focuses on global businesses headquartered primarily in North America. Since the firm's founding in 1974, THL has raised approximately \$20 billion of equity capital and invested in more than 100 portfolio companies with an aggregate value of more than \$150 billion. The firm's two most recent private equity funds comprise more than \$14 billion of aggregate committed capital.

As a result of the Transactions, affiliates of THL, together with Advent International (Advent), (each a Sponsor and collectively, the Sponsors) own approximately 93% of our indirect parent's equity, with affiliates of THL owning approximately 69% of our indirect parent's equity.

The Sponsors will not have any obligations under the exchange notes, and the interests of the Sponsors may not in all cases be aligned with your interests as a holder of the exchange notes. For example, the Sponsors may have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, even though such transactions might involve risks to you as a holder of the exchange notes.

**Ratio of Earnings to Fixed Charges**

The following table sets forth our ratio of earnings to fixed charges for each of the periods shown.

	<b>Year Ended December 31, 2008</b> (Predecessor)	<b>Year Ended December 31, 2009</b> (Predecessor)	<b>Year Ended December 31, 2010</b> (Predecessor)	<b>Year Ended December 31, 2011</b> (Predecessor)	<b>Period from January 1, 2012 to July 27, 2012</b> (Predecessor)	<b>Period from July 28, 2012 to December 31, 2012</b> (Successor)	<b>Six Months Ended June 30, 2013</b> (Successor)
Ratio of earnings to fixed charges	1.6x	2.2x	1.9x	1.9x	0.8x	0.9x	0.4x

These ratios are computed by dividing the total earnings by the total fixed charges. For purposes of calculating the ratio of earnings to fixed charges, earnings represent pre-tax income from continuing operations plus fixed charges. Fixed charges consist of interest expense on all indebtedness plus amortization of debt issuance costs and the portion of rental expense that we believe is representative of the interest component of rental expense.

**The Exchange Offer**

*On July 27, 2012, we completed a private offering of the outstanding notes. Concurrently with the private offering, Merger Sub entered into a registration rights agreement (the "Registration Rights Agreement") with Merrill Lynch, Pierce, Fenner & Smith Incorporated, as representative of the several purchasers named in Schedule I to the Purchase Agreement (as defined in the Registration Rights Agreement). Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58.6 million, and during the six months ended June 30, 2013 by \$19.4 million, as a portion of the related inventory was sold.
- (4) In conjunction with the Transactions, the Company recorded \$8.4 million of transaction costs in general and administrative expenses during the period from January 1, 2012 to July 27, 2012. Additionally, the Transactions accelerated the vesting of certain of the Company's stock options and during the period from January 1, 2012 to July 27, 2012 the Company recorded \$2.1 million of expense in general and administrative expenses. Further, due to the vesting of such stock options, the Company made payments in lieu of dividends to the holders of such options and during the period from January 1, 2012 to July 27, 2012 the Company recorded a \$16.1 million charge in general and administrative expenses.
- (5) During 2010, the Company implemented plans to convert and rebrand its company-owned FCPO stores to Party City stores. As a result, the Company recorded a charge for the impairment of the Factory Card & Party Outlet trade name of \$27.4 million in the fourth quarter of 2010.

(8) We present Adjusted EBITDA as a supplemental measure of our performance. We define EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. These further adjustments are itemized below. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

We present Adjusted EBITDA because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we use Adjusted EBITDA: (i) as a factor in determining incentive compensation, (ii) to evaluate the effectiveness of our business strategies and (iii) because the credit facility agreements use Adjusted EBITDA to measure compliance with certain covenants.

Adjusted EBITDA has limitations as an analytical tool. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

non-cash compensation is and will remain a key element of our overall long-term incentive compensation package, although we exclude it as an expense when evaluating our ongoing operating performance for a particular period;

Adjusted EBITDA does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

**Table of Contents**

Because of these limitations, Adjusted EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally. The reconciliation from net income to EBITDA and Adjusted EBITDA for the periods presented is as follows:

**RISK FACTORS**

*You should carefully consider the risks described below before participating in the exchange offer. The risks described below are not the only ones facing the Company. Any of the following risks could materially adversely affect our business, financial condition or results of operations. In such case, you may lose all or part of your original investment in the notes.*

**Risks Related to Our Indebtedness and the Exchange Notes**

*Our substantial level of indebtedness could materially adversely affect our ability to generate sufficient cash to fulfill our obligations under the exchange notes, our ability to react to changes in our business and our ability to incur additional indebtedness to fund future needs.*

We have a substantial amount of indebtedness. As of June 30, 2013, we had total indebtedness of \$1,952.8 million (exclusive of the impact of the original issue discount and the call premium on the Term Loan Facility balance), including the outstanding notes, and an additional \$232.1 million of borrowing capacity available under our ABL Facility (excluding \$19.0 million of letters of credit outstanding as of June 30, 2013).

We also have, and will continue to have, significant lease obligations. As of December 31, 2012, our minimum aggregate rental obligation under operating leases for fiscal 2013 through 2017 totaled \$438.8 million.

On a pro forma basis after giving effect to the Transactions (including borrowings in connection therewith), our net interest expense, for 2012 would have been \$127.1 million based on our estimate of interest rates payable on our pro forma indebtedness. As of June 30, 2013, we had outstanding approximately \$1,246.6 million in aggregate principal amount (exclusive of the impact of the original issue discount and the call premium on the Term Loan Facility balance) of indebtedness under our Senior Credit Facilities that bears interest at a floating rate. A 0.125% change in the interest rates for the Senior Credit Facilities would increase (or decrease) pro forma annual interest expense by approximately \$1.6 million. See Unaudited Pro Forma Condensed Consolidated Financial Statements and Notes to Unaudited Pro Forma Consolidated Statements of Operations and Comprehensive Loss.

Our substantial level of indebtedness will increase the possibility that we may be unable to generate cash sufficient to pay, when due, the principal of, interest on or other amounts due in respect of our indebtedness. Our substantial indebtedness, combined with our other financial obligations and contractual commitments, could have important consequences for our noteholders. For example, it could:

make it more difficult for us to satisfy our obligations with respect to our indebtedness, including the notes, and any failure to comply with the obligations under any of our debt instruments, including restrictive covenants, could result in an event of default under the indenture governing the notes and the agreements governing such other indebtedness;

require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing funds available for working capital, capital expenditures, acquisitions, selling and marketing efforts, product development and other purposes;

increase our vulnerability to adverse economic and industry conditions, which could place us at a competitive disadvantage compared to our competitors that have relatively less indebtedness;

limit our flexibility in planning for, or reacting to, changes in our business and the industries in which we operate;

expose us to the risk of increasing rates as certain of our borrowings, including under the Senior Credit Facilities, will be at variable interest rates;

**Table of Contents**

restrict us from making strategic acquisitions or cause us to make non-strategic divestitures;

limit our ability to borrow additional funds, or to dispose of assets to raise funds, if needed, for working capital, capital expenditures, acquisitions, product development and other corporate purposes; and

prevent us from raising the funds necessary to repurchase all notes tendered to us upon the occurrence of certain changes of control, which would constitute a default under the indenture governing the notes.

The occurrence of any one of these events could have an adverse effect on our business, financial condition, results of operations, prospects and ability to satisfy our obligations under our indebtedness.

***We, including our subsidiaries, will have the ability to incur substantially more indebtedness, including senior secured indebtedness.***

Subject to the restrictions in our Senior Credit Facilities and the indenture governing the notes, we, including our subsidiaries, may incur significant additional indebtedness. As of June 30, 2013, we had:

\$1,252.8 million of senior secured debt, comprised of \$1,116.6 million under our Term Loan Facility (exclusive of the impact of the original issue discount and the call premium), \$2.9 million of capital leases, \$1.8 million outstanding under a mortgage note, \$1.5 million outstanding under our existing foreign facilities and \$130.0 million in borrowings under our ABL Facility; and

\$700.0 million of senior unsecured debt, consisting of the \$700.0 million outstanding notes.

In addition, as of June 30, 2013, we had an additional \$232.1 million of borrowing capacity under our ABL Facility (excluding \$19.0 million of letters of credit outstanding as of June 30, 2013), which, if borrowed, would be senior secured indebtedness. Further, our ability to borrow under our ABL Facility will increase as our borrowing base (which is based on eligible trade receivables and eligible inventory balances, up to a maximum committed amount of \$400.0 million) increases, which, if borrowed, would be senior secured indebtedness.

Although the terms of our Senior Credit Facilities and the indenture governing the notes contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of important exceptions, and indebtedness incurred in compliance with these restrictions could be substantial. If we and our restricted subsidiaries incur significant additional indebtedness, the related risks that we face could increase.

***Restrictions imposed by the indenture governing the notes, and by our Senior Credit Facilities and our other outstanding indebtedness, may limit our ability to operate our business and to finance our future operations or capital needs or to engage in other business activities.***

The terms of our Senior Credit Facilities and the indenture governing the notes restrict us and our subsidiaries from engaging in specified types of transactions. These covenants restrict our ability and the ability of our restricted subsidiaries, among other things, to:

incur or guarantee additional indebtedness;

pay dividends on our capital stock or redeem, repurchase or retire our capital stock or indebtedness;

make investments, loans, advances and acquisitions;

create restrictions on the payment of dividends or other amounts to us from our restricted subsidiaries;

engage in transactions with our affiliates;

sell assets, including capital stock of our subsidiaries; and

consolidate or merge; and create liens.

---

**Table of Contents**

In addition, our ABL Facility requires us to comply, under specific circumstances, including certain types of acquisitions, with a minimum fixed charge coverage ratio covenant of 1.00 to 1.00. At June 30, 2013 such ratio was 2.00 to 1.00. Our ability to comply with this covenant can be affected by events beyond our control, and we may not be able to satisfy them. A breach of this covenant would be an event of default. In the event of a default under our ABL Facility, the ABL Facility lenders could elect to declare all amounts outstanding under our ABL Facility to be immediately due and payable or terminate their commitments to lend additional money, which would also lead to a cross-default and cross-acceleration of amounts owing under our Term Loan Facility. If the indebtedness under our Senior Credit Facilities or the notes were to be accelerated, our assets may not be sufficient to repay such indebtedness in full. In particular, noteholders will be paid only if we have assets remaining after we pay amounts due on our secured indebtedness, including our Senior Credit Facilities. We have pledged a significant portion of our assets as collateral under our Senior Credit Facilities. See Description of Other Indebtedness.

***We may not be able to generate sufficient cash to service all of our indebtedness, including the exchange notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.***

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the exchange notes.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the exchange notes. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments and the indenture governing the notes may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. Our Senior Credit Facilities and the indenture governing the notes will restrict our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds that we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations.

***Our ability to repay our debt, including the exchange notes, is affected by the cash flow generated by our subsidiaries.***

Our subsidiaries own substantially all of our assets and conduct substantially all of our operations. Accordingly, repayment of our indebtedness, including the exchange notes, will be dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Unless they are guarantors of the exchange notes, our subsidiaries will not have any obligation to pay amounts due on the exchange notes or to make funds available for that purpose. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the exchange notes. Each subsidiary is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While the indenture governing the notes limits the ability of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to certain

---

**Table of Contents**

qualifications and exceptions. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the exchange notes.

***You may have difficulty selling the outstanding notes that you do not exchange.***

If you do not exchange your outstanding notes for exchange notes in the exchange offer you will continue to be subject to the restrictions on transfer of your outstanding notes described in the legend on your outstanding notes. The restrictions on transfer of your outstanding notes arise because we issued the outstanding notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the outstanding notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from these requirements. Except as required by the Registration Rights Agreement, we do not intend to register the outstanding notes under the Securities Act. The tender of outstanding notes under the exchange offer will reduce the principal amount of the currently outstanding notes. Due to the corresponding reduction in liquidity, this may have an adverse effect upon, and increase the volatility of, the market price of any currently outstanding notes that you continue to hold following completion of the exchange offer.

***Your right to receive payments on the exchange notes is effectively junior to the right of lenders who have a security interest in our assets to the extent of the value of those assets.***

Our obligations under the exchange notes and our guarantors' obligations under their guarantees of the exchange notes are unsecured, but our obligations under our Senior Credit Facilities and each guarantor's obligations under its guarantee of our Senior Credit Facilities are secured by a security interest in substantially all of our domestic tangible and intangible assets, including the stock of substantially all of our wholly-owned U.S. subsidiaries. If we are declared bankrupt or insolvent, or if we default under our Senior Credit Facilities, the lenders could declare all of the funds borrowed thereunder, together with accrued interest, immediately due and payable. If we were unable to repay such indebtedness, the lenders could foreclose on the pledged assets to the exclusion of holders of the exchange notes, even if an event of default exists under the indenture governing the exchange notes at such time. Furthermore, if the lenders foreclose and sell the pledged equity interests in any guarantor under the exchange notes, then that guarantor will be released from its guarantee of the exchange notes automatically and immediately upon such sale. In any such event, because the exchange notes will not be secured by any of our assets or the equity interests in the guarantors, it is possible that there would be no assets remaining from which your claims could be satisfied or, if any assets remained, they might be insufficient to satisfy your claims in full. See Description of Other Indebtedness.

As of June 30, 2013, we had \$1,252.8 million of senior secured debt, comprised of \$1,116.6 million under our Term Loan Facility (exclusive of the impact of the original issue discount and the call premium), \$2.9 million of capital leases, \$1.8 million outstanding under a mortgage note, \$1.5 million outstanding under our existing foreign facilities and \$130.0 million in borrowings under our ABL Facility. In addition, as of the same date, we had an additional \$232.1 million of borrowing capacity under our ABL Facility (excluding \$19.0 million of letters of credit outstanding as of June 30, 2013), subject to the borrowing base, which, if borrowed, would be senior secured indebtedness. Further, our ability to borrow under our ABL Facility will increase as our borrowing base (which is based on eligible trade receivables and eligible inventory balances, up to a maximum committed amount of \$400.0 million) increases, which, if borrowed, would be senior secured indebtedness.

***Claims of noteholders will be structurally subordinated to claims of creditors of certain of our subsidiaries that will not guarantee the exchange notes.***

The exchange notes will not be guaranteed by certain of our subsidiaries, including all of our non-U.S. subsidiaries or non-wholly owned subsidiaries. Accordingly, claims of holders of the exchange notes will be structurally subordinated to the claims of creditors of these non-guarantor subsidiaries, including trade creditors.

---

**Table of Contents**

All obligations of our non-guarantor subsidiaries will have to be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to us or a guarantor of the exchange notes.

For the twelve months ended June 30, 2013, on a pro forma basis after giving effect to the Transactions, our subsidiaries that will guarantee the exchange notes accounted for a substantial majority of our net sales and our consolidated total assets, with our non-guarantor subsidiaries accounting for the remainder. For the twelve months ended June 30, 2013, our non-guarantor subsidiaries represented approximately 15% of our revenue and as of June 30, 2013, our non-guarantor subsidiaries represented approximately 7% of our total assets (excluding intercompany balances) and approximately 2% of our total liabilities. The indenture governing the notes will permit our non-guarantor subsidiaries to incur certain additional debt and will not limit their ability to incur other liabilities that are not considered indebtedness thereunder.

***The lenders under our Senior Credit Facilities will have the discretion to release any guarantors under these facilities in a variety of circumstances, which will cause those guarantors to be released from their guarantees of the exchange notes.***

While any obligations under our Senior Credit Facilities remain outstanding, any guarantee of the exchange notes may be released without action by, or consent of, any holder of the exchange notes or the trustee under the indenture governing the notes, at the discretion of lenders under our Senior Credit Facilities, if the related guarantor is no longer a guarantor of obligations under our Senior Credit Facilities or any other indebtedness. The lenders under our Senior Credit Facilities will have the discretion to release the guarantees under our Senior Credit Facilities in a variety of circumstances. Any of our subsidiaries that are released as a guarantor of our Senior Credit Facilities will automatically be released as a guarantor of the exchange notes. You will not have a claim as a creditor against any subsidiary that is no longer a guarantor of the exchange notes, and the indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries will effectively be senior to claims of exchange notes.

***If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the exchange notes.***

Any default under the agreements governing our indebtedness, including a default under our Senior Credit Facilities, that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness, could prevent us from paying principal, premium, if any, and interest on the exchange notes and substantially decrease the market value of the exchange notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants in the instruments governing our indebtedness (including covenants in our Senior Credit Facilities and the indenture governing the notes), we could be in default under the terms of the agreements governing such indebtedness, including our Senior Credit Facilities and the indenture governing the notes. In the event of such default,

the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest;

the lenders under our Senior Credit Facilities could elect to terminate their commitments thereunder, cease making further loans and institute foreclosure proceedings against our assets; and

we could be forced into bankruptcy or liquidation.

If our operating performance declines, we may in the future need to obtain waivers from the required lenders under our Senior Credit Facilities to avoid being in default. If we breach our covenants under our Senior Credit Facilities and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under our Senior Credit Facilities, the lenders could exercise their rights, as described above, and we could be forced into bankruptcy or liquidation.

***We may not be able to repurchase the exchange notes upon a change of control.***

Upon the occurrence of specific kinds of change of control events, including (i) the sale, lease or transfer, in one or more series of related transactions, of all or substantially all of our and our subsidiaries' assets and (ii) the acquisition of any person or group of more than 50% of the voting power of our equity, we will be required to offer to repurchase all exchange notes at 101% of their principal amount plus accrued and unpaid interest, if any. See Description of Exchange Notes Repurchase at the Option of Holders Change of Control. The source of funds for any such purchase of the exchange notes will be our available cash or cash generated from our operations or the operations of our subsidiaries or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the exchange notes upon a change of control because we may not have sufficient financial resources to purchase all of the exchange notes that are tendered upon a change of control. Further, the terms of our Senior Credit Facilities will provide that a change of control is an event of default thereunder that permits lenders to accelerate the maturity of borrowings thereunder. Any of our future debt agreements may contain similar provisions. Accordingly, we may not be able to satisfy our obligations to purchase the exchange notes unless we are able to refinance or obtain waivers under our Senior Credit Facilities. Our failure to repurchase the exchange notes upon a change of control would cause a default under the indenture governing the notes and a cross default under our Senior Credit Facilities.

***Holders of the exchange notes may not be able to determine when a change of control giving rise to their right to have the exchange notes repurchased has occurred following a sale of substantially all of our assets.***

The definition of change of control in the indenture governing the notes includes a phrase relating to the sale of all or substantially all of our assets. There is no precise established definition of the phrase substantially all under applicable law. Accordingly, the ability of a holder of exchange notes to require us to repurchase its exchange notes as a result of a sale of less than all our assets to another person may be uncertain.

***Because each guarantor's liability under its guarantees may be reduced to zero, avoided or released under certain circumstances, you may not receive any payments from some or all of the guarantors.***

You have the benefit of the guarantees of the subsidiary guarantors. However, the guarantees by the subsidiary guarantors are limited to the maximum amount that the subsidiary guarantors are permitted to guarantee under applicable law. As a result, a subsidiary guarantor's liability under its guarantee could be reduced to zero, depending upon the amount of other obligations of such subsidiary guarantor. Further, under the circumstances discussed more fully below, a court under federal and state fraudulent conveyance and transfer statutes could void the obligations under a guarantee or further subordinate it to all other obligations of the guarantor. See Federal and state statutes allow courts, under specific circumstances, to void the exchange notes and the guarantee of the exchange notes by certain of our subsidiaries, and to require holders of notes to return payments received from us. In addition, you will lose the benefit of a particular guarantee if it is released under certain circumstances described in the sections entitled Description of the Exchange Notes Guarantees.

***Federal and state statutes allow courts, under specific circumstances, to void the exchange notes and the guarantee of the exchange notes by certain of our subsidiaries, and to require holders of notes to return payments received from us.***

Our issuance of the exchange notes and the guarantee of the notes by certain of our subsidiaries may be subject to review under the federal bankruptcy law and comparable provisions of state fraudulent transfer laws. While the relevant laws may vary from state to state, under such laws, the issuance of the exchange notes or a guarantee could be voided, or claims in respect of the exchange notes or a guarantee could be subordinated to all other debts of our company or that guarantor, as applicable, if, among other things, our company or the guarantor, at the time it incurred the indebtedness:

received less than reasonably equivalent value or fair consideration for the incurrence of such indebtedness and was insolvent or rendered insolvent by reason of such incurrence;

---

**Table of Contents**

was engaged in a business or transaction for which its remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

In addition, any payment by us or that guarantor pursuant to the exchange notes or a guarantee, as applicable, could be voided and required to be returned to us or the guarantor, as applicable, or to a fund for the benefit of the creditors of the guarantor.

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, our company or a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

On the basis of historical financial information, recent operating history and other factors, we believe that our company and each guarantor is solvent, does not have unreasonably small capital for the business in which it is engaged and has not incurred debts beyond its ability to pay such debts as they mature. We cannot assure you, however, as to what standard a court would apply in making these determinations or that a court would agree with our conclusions in this regard. Although the indenture governing the notes contains a limitation on each guarantor's liability under its guarantee to the maximum amount that would be enforceable under applicable law, a recent court decision found that a similar limitation was ineffective to preserve the enforceability of a guarantee.

If a court were to find that the issuance of the exchange notes, the incurrence of a guarantee or the grant of security was a fraudulent transfer or conveyance, the court could void the payment obligations under the exchange notes or such guarantee or subordinate the exchange notes or such guarantee to presently existing and future indebtedness of ours or of the related guarantor, or require the holders of the exchange notes to repay any amounts received with respect to such guarantee. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the exchange notes. Further, the avoidance of the exchange notes could result in an event of default with respect to our and our subsidiaries' other debt that could result in acceleration of such debt.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the exchange notes to other claims against us under the principle of equitable subordination, if the court determines that: (i) the holder of exchange notes engaged in some type of inequitable conduct; (ii) such inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holder of exchange notes; and (iii) equitable subordination is not inconsistent with the provisions of the bankruptcy code.

***We are indirectly owned and controlled by the Sponsors, and the Sponsors' interests as equity holders may conflict with yours as a creditor.***

The Sponsors own approximately 93% of our indirect parent's equity, with affiliates of THL owning approximately 69% of our indirect parent's equity and, accordingly, the Sponsors have the ability to control our policies and operations. The Sponsors will not have any liability for any obligations under the exchange notes, and the interests of the Sponsors may not in all cases be aligned with your interests. For example, if we encounter financial difficulties or are unable to pay our debts as they mature, the interests of our equity holders might conflict with your interests as a noteholder. In addition, our equity holders may have an interest in pursuing

## **Table of Contents**

acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, even though such transactions might involve risks to you as a holder of the exchange notes. Furthermore, the Sponsors may in the future own businesses that directly or indirectly compete with us. The Sponsors also may pursue acquisition opportunities that may be complementary to our business, and as a result, those acquisition opportunities may not be available to us. For information concerning our arrangements with the Sponsors, see Certain Relationships and Related Party Transactions.

Furthermore, the stockholders agreement that we entered into on the closing date of the Acquisition between THL and certain other investors provides that we renounce any interest, duty or expectancy in, or in being offered an opportunity to participate in, any business opportunity that may from time to time be presented to the Sponsors, any of their respective affiliates or any director designated by any of the foregoing.

As a result, the respective directors, the Sponsors and their affiliates may become aware, from time to time, of certain business opportunities, such as acquisition opportunities, and may direct such opportunities to other businesses in which they or their affiliates have invested, in which case we may not become aware of or otherwise have the ability to pursue such opportunities. Furthermore, the Sponsors may acquire interests in businesses that directly or indirectly compete with certain portions of our business. As a result, the Sponsors could have differing interests than our other stockholders and our business or future prospects could be adversely affected if attractive business opportunities are procured by such parties for their own benefit.

***An active trading market may not develop for the exchange notes and the exchange notes may trade at a discount from the initial offering price.***

The exchange notes are new issues of securities for which there is no established trading market. We do not intend to apply for listing of the exchange notes on a security exchange or to include the exchange notes in any automated dealer quotation system. The liquidity of the trading market in the exchange notes and the market prices quoted for the exchange notes may be adversely affected by changes in the overall market for this type of securities and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. When the exchange notes are issued, they may trade at a discount from the initial offering price in the exchange offer, depending upon:

prevailing interest rates;

the market for similar securities; and

other factors, including general economic conditions and our financial condition, performance and prospects.

As a consequence, an active trading market may not develop for the exchange notes, you may not be able to sell the exchange notes, or, even if you can sell the exchange notes, you may not be able to sell them at an acceptable price.

***We may designate certain of our subsidiaries as non-restricted, in which case they would not be subject to the restrictive covenants in the indenture governing the notes.***

Although all of our subsidiaries are currently restricted, we may designate certain subsidiaries as nonrestricted in the future. Any such subsidiaries would not be subject to the restrictive covenants in the indenture governing the notes. This means that these entities would be able to engage in many of the activities that we and our restricted subsidiaries are prohibited or limited from doing under the terms of the indenture governing the notes, such as incurring additional debt, securing assets in priority to the claims of the holders of the exchange notes, paying dividends, making investments, selling assets and entering into mergers or other business combinations. These actions could be detrimental to our ability to make payments of principal and interest when due and to comply with our other obligations under the exchange notes, and could reduce the amount of our assets that would be available to satisfy your claims should we default on the exchange notes.

## **Table of Contents**

*Many of the covenants in the indenture governing the notes will not apply to us if the exchange notes are rated investment grade by both Moody's and Standard & Poor's.*

Many of the covenants in the indenture governing the notes will not apply to us if the exchange notes are rated investment grade by both Moody's and Standard & Poor's, provided at such time no default or event of default had occurred and is continuing. There can be no assurance that the exchange notes will ever be rated investment grade, or that if they are rated investment grade, that the exchange notes will maintain these ratings. However, suspension of these covenants would allow us to engage in certain transactions that would not be permitted while these covenants were in effect. To the extent the covenants are subsequently reinstated, any such actions taken while the covenants were suspended would not result in an event of default under the indenture. See Description of Exchange Notes Certain Covenants.

## **Risks Relating to Our Business and Our Industry**

*We operate in a competitive industry, and our failure to compete effectively could cause us to lose our market share, revenues and growth prospects.*

We compete with many other manufacturers and distributors, including smaller, independent manufacturers and distributors and divisions or subsidiaries of larger companies with greater financial and other resources than we have. Some of our competitors control licenses for widely recognized images and have broader access to mass market retailers that could provide them with a competitive advantage.

The party goods retail industry is large and highly fragmented. Our retail stores compete with a variety of smaller and larger retailers, including specialty retailers, warehouse/merchandise clubs, drug stores, supermarkets, dollar stores, mass merchants, and catalogue and online merchants. Our stores compete, among other ways, on the basis of location and store layout, product mix and availability, customer convenience and price. We may not be able to continue to compete successfully against existing or future competitors in the retail space. Expansion into markets served by our competitors and entry of new competitors or expansion of existing competitors into our markets could materially adversely affect our business, results of operations, cash flows and financial performance.

We must remain competitive in the areas of quality, price, breadth of selection, customer service and convenience. Competing effectively may require us to reduce our prices or increase our costs, which could lower our margins and adversely affect our revenues and growth prospects.

*Our business may be adversely affected by fluctuations in commodity prices.*

The costs of our key raw materials (paper, petroleum-based resin and cotton) fluctuate. In general, we absorb movements in raw material costs that we consider temporary or insignificant. However, cost increases that are considered other than temporary may require us to increase our prices to maintain our margins. Raw material prices may increase in the future and we may not be able to pass on these increases to our customers. A significant increase in the price of raw materials that we cannot pass on to customers could have a material adverse effect on our results of operations and financial performance. In addition, the interruption in supply of certain key raw materials essential to the manufacturing of our products may have an adverse impact on our and our suppliers' abilities to manufacture the products necessary to maintain our existing customer relationships.

*Our business may be adversely impacted by helium shortages.*

Although not used in the actual manufacture of our products, helium gas is currently used to inflate the majority of our metallic balloons. We rely upon the exploration and refining of natural gas to ensure adequate supplies of helium as helium is a by-product of the natural gas production process.

During the middle of 2012, helium supplies tightened due to the following factors: (i) natural gas production declined due to warmer than usual winters, (ii) new natural gas plants took longer than expected to come on-line, (iii) certain natural gas plants experienced longer than anticipated downtime for maintenance and (iv) helium

## **Table of Contents**

demand increased due to new technologies. As a result, our full-year 2012 domestic metallic balloon sales were \$2.6 million lower than 2011 as balloon distributors and retailers rationalized inventory levels in light of the shortage. Additionally, our net sales of domestic metallic balloons during the first six months of 2013 were \$7.0 million lower than the first six months of 2012.

We believe that the shortage is temporary as new natural gas plants are scheduled to come on-line during the second half of 2013 and during 2014 and many helium users are implementing conservation programs. However, should the shortage continue, it could have a material impact on our results.

### ***Our failure to appropriately respond to changing merchandise trends and consumer preferences could significantly harm our customer relationships and financial performance.***

As a manufacturer, distributor and retailer of consumer goods, our products must appeal to a broad range of consumers whose preferences are constantly changing. We also sell certain licensed products, with images such as cartoon or motion picture characters, which are in great demand for short time periods, making it difficult to project our inventory needs for these products. In addition, if consumers' demand for single-use, disposable party goods were to diminish in favor of reusable products for environmental or other reasons, our sales could decline.

The success of our business depends upon many factors, such as our ability to accurately predict the market for our products and our customers purchasing habits, to identify product and merchandise trends, to innovate and develop new products, to manufacture and deliver our products in sufficient volumes and in a timely manner and to differentiate our product offerings from those of our competitors. We may not be able to continue to offer assortments of products that appeal to our customers or respond appropriately to consumer demands. We could misinterpret or fail to identify trends on a timely basis. Our failure to anticipate, identify or react appropriately to changes in consumer tastes could, among other things, lead to excess inventories and significant markdowns or a shortage of products and lost sales. Our failure to do so could harm our customer relationships and financial performance.

### ***We may not be able to successfully implement our store growth strategy.***

If we are unable to increase the number of retail stores we operate and increase the productivity and profitability of existing retail stores, our ability to increase sales, profitability and cash flow could be impaired. To the extent we are unable to open new stores as we planned, our sales growth would come primarily from increases in comparable store sales. We may not be able to increase our comparable store sales, improve our margins or reduce costs as a percentage of sales. Growth in profitability in that case would depend significantly on our ability to increase margins or reduce costs as a percentage of sales. Further, as we implement new initiatives to reduce the cost of operating our stores, sales and profitability may be negatively impacted.

Our ability to successfully open and operate new stores depends on many factors including, among others, our ability to:

identify suitable store locations, including temporary lease space for our Halloween City locations, the availability of which is largely outside of our control;

negotiate and secure acceptable lease terms, desired tenant allowances and assurances from operators and developers that they can complete the project, which depend in part on the financial resources of the operators and developers;

obtain or maintain adequate capital resources on acceptable terms, including the availability of cash for rent outlays under new leases;

manufacture and source sufficient levels of inventory at acceptable costs;

hire, train and retain an expanded workforce of store managers and other personnel;

successfully integrate new stores into our existing control structure and operations, including information system integration;

## **Table of Contents**

maintain adequate manufacturing and distribution facilities, information system and other operational system capabilities;

identify and satisfy the merchandise and other preferences of our customers in new geographic areas and markets;

gain brand recognition and acceptance in new markets; and

address competitive, merchandising, marketing, distribution and other challenges encountered in connection with expansion into new geographic areas and markets, including geographic restrictions on the opening of new stores based on certain agreements with our franchisees and other business partners.

In addition, as the number of our stores increases along with our online sales, we may face risks associated with market saturation of our product offerings. To the extent our new store openings are in markets where we have existing stores, we may experience reduced net sales in existing stores in those markets. Finally, there can be no assurance that any newly opened stores will be received as well as, or achieve net sales or profitability levels comparable to those of, our existing stores in the time periods estimated by us, or at all. If our stores fail to achieve, or are unable to sustain, acceptable net sales and profitability levels, our business may be materially harmed and we may incur significant costs associated with closing those stores. Our failure to effectively address challenges such as these could adversely affect our ability to successfully open and operate new stores in a timely and cost-effective manner, and could have a material adverse effect on our business, results of operations and financial condition.

### ***A decrease in our Halloween sales could have a material adverse effect on our operating results for the year.***

Our retail business, including our Party City stores, online sales from our e-commerce website and our temporary Halloween City locations, realizes a significant portion of its revenues, net income and cash flow in September and October, principally due to our Halloween sales. We believe this general pattern will continue in the future. An economic downturn, or adverse weather, during this period could adversely affect us to a greater extent than at other times of the year. Any unanticipated decrease in demand for our products during the Halloween season could require us to maintain excess inventory or sell excess inventory at a substantial markdown, which could have a material adverse effect on our business, profitability, ability to repay any indebtedness and our brand image. In addition, our sales during the Halloween season could be affected if we are not able to find sufficient and adequate lease space for our temporary Halloween City locations or if we are unable to hire temporary personnel to adequately staff these stores and our distribution facility during the Halloween season. Failure to have proper lease space and adequate personnel could hurt our business, financial condition and results of operations.

### ***Disruption to the transportation system or increases in transportation costs may negatively affect our operating results.***

We rely upon various means of transportation, including shipments by air, sea, rail and truck, to deliver products to our distribution centers from vendors and manufacturers and from other distribution centers to our stores, as well as for direct shipments from vendors to stores. Independent third parties with whom we conduct business may employ personnel represented by labor unions. Labor stoppages, shortages or capacity constraints in the transportation industry, disruptions to the national and international transportation infrastructure, fuel shortages or transportation cost increases could adversely affect our business, results of operations, cash flows and financial performance.

### ***Product recalls and/or product liability may adversely impact our business, merchandise offerings, reputation, results of operations, cash flow and financial performance.***

We may be subject to product recalls if any of the products that we manufacture or sell are believed to cause injury or illness. In addition, as a retailer of products manufactured by third parties, we may also be liable for various product liability claims for products we do not manufacture. Indemnification provisions that we may

## **Table of Contents**

enter into are typically limited by their terms and depend on the creditworthiness of the indemnifying party and its insurer and the absence of significant defenses. We may be unable to obtain full recovery from the insurer or any indemnifying third party in respect of any claims against us in connection with products manufactured by such third party. In addition, if our vendors fail to manufacture or import merchandise that adheres to our quality control standards or standards established by applicable law, our reputation and brands could be damaged, potentially leading to an increase in customer litigation against us. Furthermore, to the extent we are unable to replace any recalled products, we may have to reduce our merchandise offerings, resulting in a decrease in sales, especially if a recall occurs near or during a peak seasonal period. If our vendors are unable or unwilling to recall products failing to meet our quality standards, we may be required to recall those products at a substantial cost to us.

***Our business is sensitive to consumer spending and general economic conditions, and an economic slowdown could adversely affect our financial performance.***

In general, our retail sales, and the retail sales of our business partners to whom we sell, represent discretionary spending by our customers and our business partners' customers. Discretionary spending is affected by many factors, such as general business conditions, interest rates, availability of consumer credit, unemployment levels, taxation, weather and consumer confidence in future economic conditions. Our customers and our business partners' customers' purchases of discretionary items, including our products, often decline during periods when disposable income is lower or during periods of actual or perceived unfavorable economic conditions. If this occurs, our revenues and profitability will decline. In addition, economic downturns may make it difficult for us to accurately forecast future demand trends, which could cause us to purchase excess inventories, resulting in increases in our inventory carrying cost, or insufficient inventories, resulting in our inability to satisfy our customer demand and potential loss of market share.

***Our business may be adversely affected by the loss or actions of our third-party vendors, and the loss of the right to use licensed material could harm our business and our results of operations.***

Our ability to find new qualified vendors who meet our standards and supply products in a timely and efficient manner can be a significant challenge, especially for goods sourced from outside the United States. Many of our vendors currently provide us with incentives such as volume purchasing allowances and trade discounts. If our vendors were to reduce or discontinue these incentives, costs would increase. Should we be unable to pass cost increases to consumers, our profitability would be reduced.

Additionally, certain of our suppliers may control various product licenses for widely recognized images, such as cartoon or motion picture characters. The loss of these suppliers, or the termination of our ability to use certain licensed material, would prevent us from manufacturing and distributing the licensed products and could cause our customers to purchase these products from our competitors. This could materially adversely affect our business, results of operations, financial performance and cash flow.

***Because we rely heavily on our own manufacturing operations, disruptions at our manufacturing facilities could adversely affect our business, results of operations, cash flows and financial performance.***

In 2012, we manufactured items representing approximately 34% of our net sales at wholesale (including sales to the Company's retail operations). Any significant disruption in our manufacturing facilities, in the United States or abroad, for any reason, including regulatory requirements, the loss of certifications, power interruptions, fires, hurricanes, war or other force of nature, could disrupt our supply of products, adversely affecting our business, results of operations, cash flows and financial performance. The occurrence of one or more natural disasters, or other disruptive geo-political events, could also result in increases in fuel (or other energy) prices or a fuel shortage, the temporary or permanent closure of one or more of manufacturing or distribution centers, the temporary lack of an adequate work force in a market, the temporary or long-term disruption in the supply of products from some local and overseas suppliers, the temporary disruption in the transport of goods from overseas or delays in the delivery of goods to our distribution centers or stores or to third parties who purchase from us. If one or more of these events occurred, our revenues and profitability would be reduced.

***Our business and results of operations may be harmed if our suppliers or third-party manufacturers fail to follow acceptable labor practices or to comply with other applicable laws and guidelines.***

Many of the products sold in our stores and on our website are manufactured outside of the United States, which may increase the risk that the labor, manufacturing safety and other practices followed by the manufacturers of these products may differ from those generally accepted in the United States as well as those with which we are required to comply under many of our image or character licenses. Although we require each of our vendors to sign a purchase order and vendor agreement that requires adherence to accepted labor practices and compliance with labor, manufacturing safety and other laws and we test merchandise for product safety standards, we do not supervise, control or audit our vendors or the manufacturers that produce the merchandise we sell to our customers. The violation of labor, manufacturing safety or other laws by any of our vendors or manufacturers, or the divergence of the labor practices followed by any of our vendors or manufacturers from those generally accepted in the United States could interrupt or otherwise disrupt the shipment of finished products to us, damage our brand image, subject us to boycotts by our customers or activist groups or cause some of our licensors of popular images to terminate their licenses to us. Our future operations and performance will be subject to these factors, which are beyond our control and could materially hurt our business, financial condition and results of operations or require us to modify our current business practices or incur increased costs.

***Our international operations subject us to additional risks, which risks and costs may differ in each country in which we do business and may cause our profitability to decline.***

We conduct our business in a number of foreign countries, including contracting with manufacturers and suppliers located outside of the United States, many of which are located in Asia. We recently expanded our international operations through the acquisitions of the Christy's Group (Christy's or Christy's Group), a U.K. based costume company, in September 2010, Riethmüller, a German distributor of party goods, in January 2011, Party City Canada, a Canadian retailer of party goods and outdoor toys, in July 2011 and Party Delights Ltd. (Party Delights), a U.K. based e-commerce retailer, in March 2013. Our operations and financial condition may be adversely affected if the markets in which we compete or source our products are affected by changes in political, economic or other factors. These factors, over which we have no control, may include:

recessionary or expansive trends in international markets;

changes in foreign currency exchange rates, principally fluctuations in the Euro, British pound sterling, Mexican peso, Canadian dollar, Australian dollar, Malaysian ringgit and Chinese renminbi;

hyperinflation or deflation in the foreign countries in which we operate;

work stoppages or other employee rights issues;

the imposition of restrictions on currency conversion or the transfer of funds;

transportation delays and interruptions;

increases in the taxes we pay and other changes in applicable tax laws;

legal and regulatory changes and the burdens and costs of our compliance with a variety of laws, including trade restrictions and tariffs; and

political and economic instability.

***We may face risks associated with litigation and claims.***

From time to time, we are involved in class actions and other lawsuits, claims and other proceedings relating to the conduct of our business, including but not limited to employee-related and consumer matters. Additionally, as a retailer and manufacturer of decorated party goods, we have been and may continue to be subject to product liability claims if the use of our products, whether manufactured by us or our third party manufacturers, is alleged to have resulted in injury or if our products include inadequate instructions or warnings. Due to the uncertainties of litigation, we can give no assurance that we will prevail on all claims made against us in the lawsuits that we currently face or that additional claims will not be made against us in the future. While it is not feasible to predict the outcome of pending lawsuits and claims, we do not believe that any such matters are material or that the

## **Table of Contents**

disposition thereof is likely to have a material adverse effect on our business, financial condition and results of operations, although the resolution in any reporting period of any matter could have an adverse effect on our operating results for that period. Also, we can give no assurance that any other lawsuits or claims brought in the future will not have a material adverse effect on our business, financial condition and results of operations.

*We may require additional capital to fund our business, which may not be available to us on satisfactory terms or at all.*

We currently rely on cash generated by operations and borrowings available under our credit facilities to meet our working capital needs. However, if we are unable to generate sufficient cash from operations or if borrowings available under our credit facilities are insufficient, we may be required to adopt one or more alternatives to raise cash, such as incurring additional indebtedness, selling our assets, seeking to raise additional equity capital or restructuring, which alternatives may not be available to us on satisfactory terms or at all. Any of the foregoing could have a material adverse effect on our business.

*Our success depends on key personnel whom we may not be able to retain or hire.*

The success of our business depends, to a large extent, on the continued service of our senior management team. Gerald C. Rittenberg, our Chief Executive Officer, and James M. Harrison, our President and Treasurer, have been with the Company for approximately 22 and 16 years, respectively. The loss of the services and leadership of either of these individuals could have a negative impact on our business, as we may not be able to find management personnel with similar experience and industry knowledge to replace either of them on a timely basis. We do not maintain key life insurance on any of our senior officers.

As our business expands, we believe that our future success will depend greatly on our continued ability to attract, motivate and retain highly skilled and qualified personnel. Although we generally have been able to meet our staffing requirements in the past, our ability to meet our labor needs while controlling costs is subject to external factors, such as unemployment levels, minimum wage legislation and changing demographics. Our inability to meet our staffing requirements in the future at costs that are favorable to us, or at all, could impair our ability to increase revenue, and our customers could experience lower levels of customer service.

*We are subject to risks associated with leasing substantial amounts of space.*

We lease all of our company-owned stores, our corporate headquarters and most of our distribution facilities. Payments under our leases account for a significant portion of our operating expenses and we expect payment obligations under our leases to account for a significant portion of our future operating expenses. The majority of our store leases contain provisions for base rent and a small number of store leases contain provisions for base rent, plus percentage rent based on sales in excess of an agreed upon minimum annual sales level. Our continued growth and success depends in part on our ability to renew leases for successful stores and negotiate leases for new stores, including temporary leases for our Halloween City stores. There is no assurance that we will be able to negotiate leases at similar or favorable terms, and we may decide not to enter a market or be forced to exit a market if a favorable arrangement cannot be made. If an existing or future store is not profitable and we decide to close it, we may nonetheless be committed to perform our obligations under the applicable lease, including, among other things, paying the base rent for the balance of the lease term. Moreover, even if a lease has an early cancellation clause, we may not satisfy the contractual requirements for early cancellation under the lease.

*Our business could be harmed if our existing franchisees do not conduct their business in accordance with agreed upon standards.*

Our success depends, in part, upon the ability of our franchisees to operate their stores and promote and develop our store concept. Although our franchise agreements include certain operating standards, all franchisees operate independently and their employees are not our employees. We provide certain training and support to our franchisees, but the quality of franchise store operations may be diminished by any number of factors beyond our control. Consequently, franchisees may not successfully operate stores in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other store personnel. If they do not, our image, brand and reputation could suffer.

### ***Our information systems, order fulfillment and distribution facilities may prove inadequate or may be disrupted.***

We depend on our management information systems for many aspects of our business. We will be materially adversely affected if our management information systems are disrupted or we are unable to improve, upgrade, maintain and expand our systems. In particular, we believe our perpetual inventory, automated replenishment and stock ledger systems are necessary to properly forecast, manage and analyze our inventory levels, margins and merchandise ordering quantities. We may fail to properly optimize the effectiveness of these systems, or to adequately support and maintain the systems. Moreover, we may not be successful in developing or acquiring technology that is competitive and responsive to our customers and might lack sufficient resources to make the necessary investments in technology needs and to compete with our competitors, which could have a material adverse impact on our business, results of operations, cash flows and financial performance.

In addition, we may not be able to prevent a significant interruption in the operation of our electronic order entry and information systems, e-commerce platform or manufacturing and distribution facilities due to natural disasters, accidents, systems failures or other events. Any significant interruption in the operation of these facilities, including an interruption caused by our failure to successfully expand or upgrade our systems or manage our transition to utilizing the expansions or upgrades, could reduce our ability to receive and process orders and provide products and services to our stores, third-party stores, and other customers, which could result in lost sales, cancelled sales and a loss of loyalty to our brand.

### ***We may fail to adequately maintain the security of our electronic and other confidential information.***

We have become increasingly centralized and dependent upon automated information technology processes. In addition, a portion of our business operations is now conducted over the Internet. We could experience operational problems with our information systems and e-commerce platform as a result of system failures, viruses, computer hackers or other causes. Any material disruption or slowdown of our systems could cause information, including data related to customer orders, to be lost or delayed, which could especially if the disruption or slowdown occurred during a peak sales season result in delays in the delivery of merchandise to our stores and customers or lost sales, which could reduce demand for our merchandise and cause our sales to decline.

In addition, in the ordinary course of our business, we collect and store certain personal information from individuals, such as our customers and suppliers, and we process customer payment card and check information, including via our e-commerce platform. Computer hackers may attempt to penetrate our computer system and, if successful, misappropriate personal information, payment card or check information or confidential Company business information. In addition, a Company employee, contractor or other third party with whom we do business may attempt to circumvent our security measures in order to obtain such information and may purposefully or inadvertently cause a breach involving such information. Any failure to maintain the security of our customers' confidential information, or data belonging to us or our suppliers, could put us at a competitive disadvantage, result in deterioration in our customers' confidence in us, subject us to potential litigation and liability, and fines and penalties, resulting in a possible material adverse impact on our business, results of operations, cash flows and financial performance.

### ***Historically we have made a number of acquisitions, and we may make more acquisitions in the future as part of our growth strategy. Future acquisitions or investments could disrupt our ongoing business, distract management and employees, increase our expenses and adversely affect our business. In addition, we may not be able to identify suitable acquisitions.***

We have made a number of recent acquisitions which have contributed to our growth. Acquisitions require significant capital resources and can divert management's attention from our existing business. Acquisitions also entail an inherent risk that we could become subject to contingent or other liabilities, including liabilities arising from events or conduct predating the acquisition, that were not known to us at the time of acquisition. We may also incur significantly greater expenditures in integrating an acquired business than we had anticipated at the time of the acquisition, which could impair our ability to achieve anticipated cost savings and synergies.

## **Table of Contents**

Acquisitions may also have unanticipated tax and accounting ramifications. Our failure to successfully identify and consummate acquisitions or to manage and integrate the acquisitions we make could have a material adverse effect on our business, financial condition or results of operations.

In addition, we may not be able to:

identify suitable acquisition candidates;

consummate acquisitions on acceptable terms;

successfully integrate any acquired business into our operations or successfully manage the operations of any acquired business; or

retain an acquired company's significant customer relationships, goodwill and key personnel or otherwise realize the intended benefits of an acquisition.

In the event that the operations of an acquired business do not meet our performance expectations, we may have to restructure the acquired business or write-off the value of some or all of the assets of the acquired business.

### ***Our intellectual property rights may be inadequate to protect our business.***

We hold a variety of United States trademarks, service marks, patents, copyrights, and registrations and applications therefor, as well as a number of foreign counterparts thereto and/or independent foreign intellectual property asset registrations. In some cases, we rely solely on unregistered common law trademark rights and unregistered copyrights under applicable United States law to distinguish and/or protect our products, services and branding from the products, services and branding of our competitors. We cannot assure you that no one will challenge our intellectual property rights in the future. In the event that our intellectual property rights are successfully challenged by a third party, we could be forced to re-brand, re-design or discontinue the sale of certain of our products or services, which could result in loss of brand recognition and/or sales and could require us to devote resources to advertising and marketing new branding or re-designing our products. Further, we cannot assure you that competitors will not infringe our intellectual property rights, or that we will have adequate resources to enforce these rights. We also permit our franchisees to use a number of our trademarks and service marks, including Party City®, The Discount Party Super Store®, Party America® and Halloween City®. Our failure to properly control our franchisees' use of such trademarks could adversely affect our ability to enforce them against third parties. A loss of any of our material intellectual property rights could have a material adverse effect on our business, financial condition and results of operations.

We license from many third parties and do not own the intellectual property rights necessary to sell products capturing many popular images, such as cartoon or motion picture characters. While none of these licenses is individually material to our aggregate business, a large portion of our business depends on the continued ability to license the intellectual property rights to these images in the aggregate. Any injury to our reputation or our inability to comply with, in many cases, stringent licensing guidelines in these agreements may adversely affect our ability to maintain these relationships. A large aggregate loss of these licensed rights could have a material adverse effect on our business, financial condition and results of operations.

We also face the risk of claims that we have infringed third parties' intellectual property rights, which could be expensive and time consuming to defend, cause us to cease using certain intellectual property rights or selling certain products or services, result in our being required to pay significant damages or require us to enter into costly royalty or licensing agreements in order to obtain the rights to use third parties' intellectual property rights, which royalty or licensing agreements may not be available at all, any of which could have a negative impact on our operating profits and harm our future prospects.

**THE EXCHANGE OFFER**

**Purpose and Effect of the Exchange Offer**

Under the Registration Rights Agreement, the Company and the guarantors agreed to use commercially reasonable efforts to file a registration statement with respect to an offer to exchange the outstanding notes for exchange notes under the Securities Act within 365 days after July 27, 2012 and to use commercially reasonable efforts to have the registration statement declared effective by the SEC on or prior to 405 days after July 27, 2012. The Company and the guarantors have also agreed to use commercially reasonable efforts to file under the Securities Act a shelf registration statement for the resale of the outstanding notes and guarantees if the exchange offer is not available or cannot be effected within such time. If the exchange offer is not completed or the shelf registration statement is not effective prior to September 5, 2013, additional interest on the outstanding notes will accrue at a rate of 0.25% per annum for the first 90-day period and shall increase at a rate of 0.25% per annum at the end of each subsequent 90-day period until the registration obligations are fulfilled; provided that the additional interest on the outstanding notes may in no event exceed 1.00% per annum.

Following the completion of the exchange offer, holders of outstanding notes not tendered will not have any further registration rights other than as set forth in the paragraphs below, and, subject to certain exceptions, the outstanding notes will continue to be subject to certain restrictions on transfer.

Subject to certain conditions, including the representations set forth below, the exchange notes will be issued without a restrictive legend and generally may be reoffered and resold without registration under the Securities Act. In order to participate in the exchange offer, a holder must represent to us in writing, or be deemed to represent to us in writing, among other things, that:

the holder is not an affiliate of ours;

the holder is not engaged and does not intend to engage in, and has no arrangement or understanding with any person to participate in, a distribution of the exchange notes; and

the holder is acquiring the exchange notes in its ordinary course of business.

Under certain circumstances specified in the Registration Rights Agreement, we may be required to file a shelf registration statement covering resales of the outstanding notes pursuant to Rule 415 under the Securities Act.

Based on an interpretation by the SEC's staff set forth in no-action letters issued to third parties unrelated to us, we believe that, with the exceptions set forth below, the exchange notes issued in the exchange offer may be offered for resale, resold and otherwise transferred by the holder of exchange notes without compliance with the registration and prospectus delivery requirements of the Securities Act, unless the holder:

is an affiliate, within the meaning of Rule 405 under the Securities Act, of ours;

is a broker-dealer that purchased outstanding notes directly from us for resale under Rule 144A or Regulation S or any other available exemption under the Securities Act;

acquired the exchange notes other than in the ordinary course of the holder's business;

has an arrangement with any person to engage in the distribution of the exchange notes; or

## Edgar Filing: Party City Holdings Inc. - Form 424B3

is prohibited by any law or policy of the SEC from participating in the exchange offer.

Any holder who tenders in the exchange offer for the purpose of participating in a distribution of the exchange notes cannot rely on this interpretation by the SEC's staff and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a secondary resale transaction. Each broker-dealer that receives exchange notes for its own account in exchange for outstanding notes, where such outstanding notes were acquired by such broker-dealer as a result of market-making activities or other trading

activities, must acknowledge that it will deliver a prospectus in connection with any resale of such exchange note. See Plan of Distribution. Broker-dealers who acquired outstanding notes directly from us and not as a result of market-making activities or other trading activities may not rely on the staff's interpretations discussed above, and must comply with the prospectus delivery requirements of the Securities Act in order to sell the exchange notes.

### **Terms of the Exchange Offer**

Upon the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal, we will accept any and all outstanding notes validly tendered and not withdrawn prior to 5:00 p.m., New York City time, on November 14, 2013, or such date and time to which we extend the exchange offer. We will issue \$1,000 in principal amount of exchange notes in exchange for each \$1,000 principal amount of outstanding notes accepted in the exchange offer. Holders may tender some or all of their outstanding notes pursuant to the exchange offer. Outstanding notes may be tendered only in a denomination equal to \$2,000 and any integral multiples of \$1,000 in excess of \$2,000.

The exchange notes will evidence the same debt as the outstanding notes and will be issued under the terms of, and entitled to the benefits of, the indenture relating to the outstanding notes.

As of the date of this prospectus, \$700 million in aggregate principal amount of outstanding notes are outstanding. This prospectus, together with the letter of transmittal, is being sent to the registered holders of the outstanding notes. We intend to conduct the exchange offer in accordance with the applicable requirements of the Exchange Act and the rules and regulations of the SEC promulgated under the Exchange Act.

We will be deemed to have accepted validly tendered outstanding notes when, as and if we have given oral or written notice thereof, with written confirmation of any oral notice to be given promptly thereafter, to Wilmington Trust, National Association, which is acting as the exchange agent. The exchange agent will act as agent for the tendering holders for the purpose of receiving the exchange notes from us. If any tendered outstanding notes are not accepted for exchange because of an invalid tender, the occurrence of certain other events set forth under the heading

Conditions to the Exchange Offer, any such unaccepted outstanding notes will be returned, without expense, to the tendering holder of those outstanding notes promptly after the expiration date unless the exchange offer is extended.

Holders who tender outstanding notes in the exchange offer will not be required to pay brokerage commissions or fees or, subject to the instructions in the letter of transmittal, transfer taxes with respect to the exchange of outstanding notes in the exchange offer. We will pay all charges and expenses, other than certain applicable taxes, applicable to the exchange offer. See Fees and Expenses.

### **Expiration Date; Extensions; Amendments**

The expiration date shall be 5:00 p.m., New York City time, on November 14, 2013, unless we, in our sole discretion, extend the exchange offer, in which case the expiration date shall be the latest date and time to which the exchange offer is extended. In order to extend the exchange offer, we will notify the exchange agent by oral or written notice prior to 9:00 a.m., with written confirmation of any oral notice to be given promptly thereafter, New York City time, on the next business day after the previously scheduled expiration date and will also disseminate notice of any extension by press release or other public announcement prior to 9:00 a.m., New York City time on such date. Any such announcement will include the approximate number of securities deposited as of the date of the extension. We reserve the right, in our sole discretion:

to delay accepting any outstanding notes properly tendered due to an extension of the exchange offer, to extend the exchange offer or, if any of the conditions set forth under Conditions to the Exchange Offer shall not have been satisfied, to terminate the exchange offer, by giving oral or written notice of that delay, extension or termination to the exchange agent; or

to amend the terms of the exchange offer in any manner.

---

## **Table of Contents**

Any delay in acceptance, extension, termination or amendment will be followed as promptly as practicable by oral or written notice to the registered holders of the outstanding notes. If we amend the exchange offer in a manner that we determine to constitute a material change, we will promptly disclose the amendment in a manner reasonably calculated to inform the holders of outstanding notes of that amendment, and we will extend the offer period, if necessary, so that at least five business days remain in the offer following notice of the material change.

### **Procedures for Tendering**

When a holder of outstanding notes tenders, and we accept such notes for exchange pursuant to that tender, a binding agreement between us and the tendering holder is created, subject to the terms and conditions set forth in this prospectus and the accompanying letter of transmittal. Except as set forth below, a holder of outstanding notes who wishes to tender such notes for exchange must, on or prior to the expiration date:

transmit a properly completed and duly executed letter of transmittal, including all other documents required by such letter of transmittal, to Wilmington Trust, National Association, which will act as the exchange agent, at the address set forth below under the heading Exchange Agent ; or

comply with DTC's Automated Tender Offer Program, or ATOP, procedures described below.

In addition, either:

the exchange agent must receive the certificates for the outstanding notes and the letter of transmittal;

the exchange agent must receive, prior to the expiration date, a timely confirmation of the book-entry transfer of the outstanding notes being tendered, along with the letter of transmittal or an agent's message; or

the holder must comply with the guaranteed delivery procedures described below.

The term agent's message means a message, transmitted to DTC and received by the exchange agent and forming a part of a book-entry transfer, or book-entry confirmation, which states that DTC has received an express acknowledgement that the tendering holder agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against such holder.

The method of delivery of the outstanding notes, the letters of transmittal and all other required documents is at the election and risk of the holders. If such delivery is by mail, we recommend registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. No letters of transmittal or outstanding notes should be sent directly to us.

Signatures on a letter of transmittal or a notice of withdrawal must be guaranteed by an eligible institution unless the outstanding notes surrendered for exchange are tendered:

by a registered holder of the outstanding notes; or

for the account of an eligible institution.

An eligible institution is a firm which is a member of a registered national securities exchange or a member of the Financial Industry Regulatory Authority, Inc., or a commercial bank or trust company having an office or correspondent in the United States.

If outstanding notes are registered in the name of a person other than the signer of the letter of transmittal, the outstanding notes surrendered for exchange must be endorsed by, or accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form to the exchange agent and as determined by us in our sole discretion, duly executed by the registered holder with the holder's signature guaranteed by

an eligible institution.

## **Table of Contents**

Our interpretation of the terms and conditions of the exchange offer as to any particular outstanding notes either before or after the expiration date, including the letter of transmittal and the instructions to it, will be final and binding on all parties. Holders must cure any defects and irregularities in connection with tenders of outstanding notes for exchange within such reasonable period of time as we will determine, unless we waive such defects or irregularities.

Neither we, the exchange agent nor any other person shall be under any duty to give notification of any defect or irregularity with respect to any tender of outstanding notes for exchange, nor shall any of us incur any liability for failure to give such notification.

If trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity sign the letter of transmittal or any outstanding notes or any power of attorney, these persons should so indicate when signing, and you must submit proper evidence satisfactory to us of those persons' authority to so act unless we waive this requirement.

By tendering, each holder will represent to us that the person acquiring exchange notes in the exchange offer, whether or not that person is the holder, is obtaining them in the ordinary course of its business, and at the time of the commencement of the exchange offer neither the holder nor, to the knowledge of such holder, that other person receiving exchange notes from such holder has any arrangement or understanding with any person to participate in the distribution (within the meaning of the Securities Act) of the exchange notes issued in the exchange offer in violation of the provisions of the Securities Act. If any holder or any other person receiving exchange notes from such holder is an affiliate, as defined under Rule 405 of the Securities Act, of us, or is engaged in or intends to engage in or has an arrangement or understanding with any person to participate in a distribution (within the meaning of the Securities Act) of the notes in violation of the provisions of the Securities Act to be acquired in the exchange offer, the holder or any other person:

may not rely on applicable interpretations of the staff of the SEC; and

must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that acquired its outstanding notes as a result of market-making activities or other trading activities, and thereafter receives exchange notes issued for its own account in the exchange offer, must acknowledge that it will comply with the applicable provisions of the Securities Act (including, but not limited to, delivering this prospectus in connection with any resale of such exchange notes issued in the exchange offer). The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. See Plan of Distribution for a discussion of the exchange and resale obligations of broker-dealers.

### **Acceptance of Outstanding Notes for Exchange; Delivery of Exchange Notes Issued in the Exchange Offer**

Upon satisfaction or waiver of all the conditions to the exchange offer, we will accept, promptly after the expiration date, all outstanding notes properly tendered and will issue exchange notes registered under the Securities Act in exchange for the tendered outstanding notes. For purposes of the exchange offer, we shall be deemed to have accepted properly tendered outstanding notes for exchange when, as and if we have given oral or written notice to the exchange agent, with written confirmation of any oral notice to be given promptly thereafter, and complied with the applicable provisions of the Registration Rights Agreement. See Conditions to the Exchange Offer for a discussion of the conditions that must be satisfied before we accept any outstanding notes for exchange.

For each outstanding note accepted for exchange, the holder will receive an exchange note registered under the Securities Act having a principal amount equal to that of the surrendered outstanding note. Registered holders

of exchange notes issued in the exchange offer on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date on which interest has been paid or, if no interest has been paid, from the issue date of the outstanding notes. Holders of exchange notes will not receive any payment in respect of accrued interest on outstanding notes otherwise payable on any interest payment date, the record date for which occurs on or after the consummation of the exchange offer. Under the Registration Rights Agreement, we may be required to make payments of additional interest to the holders of the outstanding notes under circumstances relating to the timing of the exchange offer.

In all cases, we will issue exchange notes for outstanding notes that are accepted for exchange only after the exchange agent timely receives:

certificates for such outstanding notes or a timely book-entry confirmation of such outstanding notes into the exchange agent's account at DTC; and

a properly completed and duly executed letter of transmittal or an agent's message; and all other required documents.

If for any reason set forth in the terms and conditions of the exchange offer we do not accept any tendered outstanding notes, or if a holder submits outstanding notes for a greater principal amount than the holder desires to exchange, we will return such unaccepted or nonexchanged notes without cost to the tendering holder. In the case of outstanding notes tendered by book-entry transfer into the exchange agent's account at DTC, the nonexchanged notes will be credited to an account maintained with DTC.

We will return the outstanding notes or have them credited to DTC promptly after the expiration or termination of the exchange offer.

**Book-Entry Transfer**

The participant should transmit its acceptance to DTC on or prior to the expiration date or comply with the guaranteed delivery procedures described below. DTC will verify the acceptance and then send to the exchange agent confirmation of the book-entry transfer. The confirmation of the book-entry transfer will be deemed to include an agent's message confirming that DTC has received an express acknowledgment from the participant that the participant has received and agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against such participant. Delivery of exchange notes issued in the exchange offer may be effected through book-entry transfer at DTC. However, the letter of transmittal or facsimile thereof or an agent's message, with any required signature guarantees and any other required documents, must:

be transmitted to and received by the exchange agent at the address set forth below under Exchange Agent on or prior to the expiration date; or

comply with the guaranteed delivery procedures described below.

DTC's ATOP program is the only method of processing the exchange offer through DTC. To tender outstanding notes through ATOP, participants in DTC must send electronic instructions to DTC through DTC's communication system. In addition, such tendering participants should deliver a copy of the letter of transmittal to the exchange agent unless an agent's message is transmitted in lieu thereof. DTC is obligated to communicate those electronic instructions to the exchange agent through an agent's message. Any instruction through ATOP, such as an agent's message, is at your risk and such instruction will be deemed made only when actually received by the exchange agent.

In order for your tender through ATOP to be valid, an agent's message must be transmitted to and received by the exchange agent prior to the expiration date, or the guaranteed delivery procedures described below must be complied with. Delivery of instructions to DTC does not constitute delivery to the exchange agent.

**Guaranteed Delivery Procedures**

If a holder of outstanding notes desires to tender such notes and the holder's outstanding notes are not immediately available, or time will not permit the holder's outstanding notes or other required documents to reach the exchange agent before the expiration date, or the procedure for book-entry transfer cannot be completed on a timely basis, a tender may be effected if:

the holder tenders the outstanding notes through an eligible institution;

prior to the expiration date, the exchange agent receives from such eligible institution a properly completed and duly executed notice of guaranteed delivery, acceptable to us, by facsimile transmission (receipt confirmed by telephone and an original delivered by guaranteed overnight courier), mail or hand delivery, setting forth the name and address of the holder of the outstanding notes tendered, the names in which such outstanding notes are registered, if applicable, the certificate number or numbers of such outstanding notes and the amount of the outstanding notes being tendered. The notice of guaranteed delivery shall state that the tender is being made and guarantee that within three New York Stock Exchange trading days after the expiration date, the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, together with a properly completed and duly executed letter of transmittal or agent's message with any required signature guarantees and any other documents required by the letter of transmittal will be deposited by the eligible institution with the exchange agent; and

the exchange agent receives the certificates for all physically tendered outstanding notes, in proper form for transfer, or a book-entry confirmation, as the case may be, together with a properly completed and duly executed letter of transmittal or agent's message with any required signature guarantees and any other documents required by the letter of transmittal, within three New York Stock Exchange trading days after the expiration date.

**Withdrawal of Tenders**

You may withdraw tenders of your outstanding notes at any time prior to the expiration of the exchange offer.

For a withdrawal to be effective, you must send a written notice of withdrawal to the exchange agent at the address set forth below under Exchange Agent. Any such notice of withdrawal must:

specify the name of the person that has tendered the outstanding notes to be withdrawn; identify the outstanding notes to be withdrawn, including the principal amount of such outstanding notes; and

where certificates for outstanding notes are transmitted, specify the name in which outstanding notes are registered, if different from that of the withdrawing holder.

If certificates for outstanding notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of such certificates, the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and signed notice of withdrawal with signatures guaranteed by an eligible institution unless such holder is an eligible institution. If outstanding notes have been tendered pursuant to the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at DTC, as applicable, to be credited with the withdrawn notes and otherwise comply with the procedures of such facility.

We will determine all questions as to the validity, form and eligibility (including time of receipt) of notices of withdrawal and our determination will be final and binding on all parties. Any tendered notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any

outstanding notes which have been tendered for exchange but which are not exchanged for any reason will be returned to the holder thereof without cost to such holder. In the case of outstanding notes tendered by book-entry transfer into the exchange agent's account at DTC, the outstanding notes withdrawn will be credited to an account at the book-entry transfer facility. The outstanding notes will be returned promptly after withdrawal, rejection of tender or termination of the exchange offer. Properly withdrawn outstanding notes may be re-tendered by following one of the procedures described under "Procedures for Tendering" above at any time on or prior to 5:00 p.m., New York City time, on the expiration date.

### **Conditions to the Exchange Offer**

Notwithstanding any other provision of the exchange offer, we may (a) refuse to accept any outstanding notes and return all tendered outstanding notes to the tendering holders, (b) extend the exchange offer and retain all outstanding notes tendered before the expiration of the exchange offer, subject, however, to the rights of holders to withdraw those outstanding notes, or (c) waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered outstanding notes that have not been withdrawn, if we determine, in our reasonable judgment, that (i) the exchange offer violates applicable laws or, any applicable interpretation of the staff of the SEC; (ii) an action or proceeding shall have been instituted or threatened in any court or by any governmental agency which might materially impair our ability to proceed with the exchange offer or a material adverse development shall have occurred in any existing action or proceeding with respect to us; or (iii) all governmental approvals that we deem necessary for the consummation of the exchange offer have not been obtained.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any such condition or may be waived by us in whole or in part at any time and from time to time. The failure by us at any time to exercise any of the foregoing rights shall not be deemed a waiver of any of those rights and each of those rights shall be deemed an ongoing right which may be asserted at any time and from time to time.

In addition, we will not accept for exchange any outstanding notes tendered, and no exchange notes will be issued in exchange for those outstanding notes, if at such time any stop order shall be threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or the qualification of the indenture under the Trust Indenture Act of 1939. In any of those events we are required to use every reasonable effort to obtain the withdrawal of any stop order at the earliest possible time.

### **Effect of Not Tendering**

Holders who desire to tender their outstanding notes in exchange for exchange notes registered under the Securities Act should allow sufficient time to ensure timely delivery. Neither the exchange agent nor we are under any duty to give notification of defects or irregularities with respect to the tenders of outstanding notes for exchange.

Outstanding notes that are not tendered or are tendered but not accepted will, following the consummation of the exchange offer, continue to accrue interest and to be subject to the provisions in the indenture regarding the transfer and exchange of the outstanding notes and the existing restrictions on transfer set forth in the legend on the outstanding notes and in the prospectus relating to the outstanding notes. After completion of the exchange offer, we will have no further obligation to provide for the registration under the Securities Act of those outstanding notes except in limited circumstances with respect to specific types of holders of outstanding notes and we do not intend to register the outstanding notes under the Securities Act. In general, outstanding notes, unless registered under the Securities Act, may not be offered or sold except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws.

**Fees and Expenses**

We will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. The estimated cash expenses to be incurred in connection with the exchange offer will be paid by us and will include fees and expenses of the exchange agent, legal, printing and related fees and expenses. Notwithstanding the foregoing, holders of the outstanding notes shall pay all agency fees and commissions and underwriting discounts and commissions, if any, attributable to the sale of such outstanding notes or exchange notes.

**Accounting Treatment**

We will record the exchange notes at the same carrying value as the outstanding notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes as the terms of the exchange notes are substantially identical to those of the outstanding notes. The expenses of the exchange offer will be amortized over the terms of the exchange notes.

**Transfer Taxes**

Holders who tender their outstanding notes for exchange will not be obligated to pay any transfer taxes in connection with that tender or exchange, except that holders who instruct us to register or issue exchange notes in the name of, or request that outstanding notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder will be responsible for the payment of any applicable transfer tax on those outstanding notes. If satisfactory evidence of payment of such taxes or exception therefrom is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to such tendering holder. Notwithstanding the foregoing, holders of the outstanding notes shall pay transfer taxes, if any, attributable to the sale of such outstanding notes or exchange notes. If a transfer tax is imposed for any reason other than the transfer and exchange of outstanding notes to the Company or its order pursuant to the exchange offer, the amount of any such transfer taxes (whether imposed on the registered holder or any other person) will be payable by the tendering holder.

**THE TRANSACTIONS**

On June 4, 2012, PC Topco Holdings, Inc. ( Parent ), an affiliate of THL and direct parent of PC Intermediate Holdings, Inc. ( Holdings ), the Company and Merger Sub entered into an Agreement and Plan of Merger, pursuant to which, on July 27, 2012, Merger Sub merged with and into the Company, with the Company being the surviving corporation and a wholly-owned subsidiary of Holdings. The aggregate consideration paid in connection with the Acquisition was approximately \$2.7 billion. As a result of the consummation of the Acquisition, each outstanding share of the Company's common stock (together with any associated rights), other than those held by the Company (other than treasury stock), Parent, or any subsidiary of either the Company or Parent, were converted into the right to receive cash consideration. Additionally, all outstanding options to acquire capital stock of the Company were accelerated and cancelled and, in the case of vested in-the-money options only, were converted into the right to receive a cash payment.

In connection with the Acquisition, on July 27, 2012, we entered into (a) the ABL Facility, which had \$115 million drawn at the closing of the Acquisition, and (b) the Term Loan Facility. Borrowings from the ABL Facility and Term Loan Facility were, together with other sources of funds, used to finance the Transactions. Subsequent to the closing of the Acquisition, proceeds from the ABL Facility are available to provide financing for working capital and general corporate purposes. See Description of Other Indebtedness for further details on the Senior Credit Facilities.

Additionally, in connection with the Transactions, we issued the outstanding notes, which we are offering to exchange, upon the terms and subject to the conditions set forth in this prospectus and the accompanying letter of transmittal, for all of our exchange notes. See Description of Exchange Notes.

Immediately following the Acquisition, we repaid all amounts due under our prior credit agreements.

**USE OF PROCEEDS**

The exchange offer is intended to satisfy certain of our obligations under the Registration Rights Agreement. We will not receive any proceeds from the issuance of the exchange notes in the exchange offer. In exchange for the exchange notes, we will receive outstanding notes in like principal amount. We will retire or cancel all of the outstanding notes tendered in the exchange offer. Accordingly, issuance of the exchange notes will not result in any change in our capitalization.

- (8) We present Adjusted EBITDA as a supplemental measure of our performance. We define EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. These further adjustments are itemized below. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

We present Adjusted EBITDA because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we use Adjusted EBITDA: (i) as a factor in determining incentive compensation, (ii) to evaluate the effectiveness of our business strategies and (iii) because the credit facility agreements use Adjusted EBITDA to measure compliance with certain covenants.

Adjusted EBITDA has limitations as an analytical tool. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

non-cash compensation is and will remain a key element of our overall long-term incentive compensation package, although we exclude it as an expense when evaluating our ongoing operating performance for a particular period;

Adjusted EBITDA does not reflect the impact of certain cash charges resulting from matters we consider not to be indicative of our ongoing operations; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

**Table of Contents**

Because of these limitations, Adjusted EBITDA should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally. The reconciliation from net income to EBITDA and Adjusted EBITDA for the periods presented is as follows:

At the time of the Transactions, certain outstanding stock options became fully vested and distributions were made in the amount of \$16.1 million. Further, prior to the Transactions, during 2012 certain outstanding stock options became fully vested and the Company made distributions in the amount of \$0.4 million. The Company recorded charges equal to such amounts in general and administrative expenses during the period from January 1, 2012 to July 27, 2012.

**NOTES TO UNAUDITED PRO FORMA CONDENSED CONSOLIDATED STATEMENTS OF  
OPERATIONS AND COMPREHENSIVE LOSS**

The unaudited pro forma condensed consolidated statements of operations and comprehensive loss assume that the Transactions, and the related application of the acquisition method of accounting, occurred on January 1, 2012. During February 2013, the Company amended the Term Loan Facility and the interest rate was decreased by 1.50%. The unaudited pro forma condensed consolidated statements of operations and comprehensive loss assume that the Term Loan Facility was entered into on January 1, 2012 at the amended rate.

(1) As a result of the Acquisition, the Company applied the acquisition method of accounting and increased the value of its inventory. The adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at the Acquisition date. Such adjustment increased the Company's cost of sales as the related inventory was sold. Additionally, as a result of the application of the acquisition method of accounting, the Company recorded certain intangible assets and recorded its property, plant and equipment at fair value. Such adjustments impacted the Company's depreciation expense and amortization expense.

(2) As a result of the application of the acquisition method of accounting, the Company recorded certain intangible assets and recorded its property, plant and equipment at fair value. Such adjustments impacted the Company's depreciation expense and amortization expense.

(3) In conjunction with the Transactions, the Company incurred \$28.6 million of compensation-related costs. Such costs were recorded in the Company's consolidated statement of operations and comprehensive loss in the period prior to the Transactions (January 1, 2012 to July 27, 2012). As the unaudited pro forma condensed consolidated statements of operations and comprehensive loss assume that the Transactions occurred on January 1, 2012, such costs have been removed from the financial statements. Additionally, as a result of the application of the acquisition method of accounting, the Company recorded certain intangible assets and recorded its property, plant and equipment at fair value. Such adjustments impacted the Company's depreciation expense and amortization expense.

(4) The unaudited pro forma condensed consolidated statements of comprehensive loss assume that the Transactions occurred on January 1, 2012 and that the related refinancing also took place on such date. In conjunction with the Transactions, amounts outstanding under the Company's previous \$350.0 million ABL revolving credit facility and \$675.0 million term loan agreement were repaid. At such time, the Company entered into the ABL Facility and the Term Loan Facility. Additionally, in conjunction with the Transactions, on July 27, 2012, the Company issued the outstanding notes and redeemed all of its outstanding \$175.0 million 8.75% senior subordinated notes. Additionally, the unaudited pro forma condensed consolidated statements of operations and comprehensive loss assume that the Term Loan Facility was entered into at the amended rate (see above).

Pro forma interest expense for the ABL Facility was based upon actual borrowings, \$115.0 million, at the closing of the Transactions.

(5) In conjunction with the Transactions, the Company incurred \$19.9 million of third-party costs, principally banker fees. Such costs were recorded in the Company's consolidated statement of operations and comprehensive loss in the period prior to the Acquisition (January 1, 2012 to July 27, 2012). As the unaudited pro forma condensed consolidated statements of operations and comprehensive loss assume that the Transactions occurred on January 1, 2012, such costs have been removed from the financial statements.

**Table of Contents**

During February 2013, the Company amended the Term Loan Facility and the interest rate was decreased by 1.50%. In conjunction with the amendment, the Company recorded \$12.3 million of expense, principally related to the write-off of deferred financing costs and the payment of a call premium. As the unaudited pro forma condensed consolidated financial statements assume that the Term Loan Facility was entered into on January 1, 2012 at the amended rate, such costs have been removed from the financial statements.

- (6) Reflects the estimated tax effects of the pro forma adjustments.

**Table of Contents****RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our ratio of earnings to fixed charges for each of the periods shown.

	<b>Year Ended December 31, 2008</b> (Predecessor)	<b>Year Ended December 31, 2009</b> (Predecessor)	<b>Year Ended December 31, 2010</b> (Predecessor)	<b>Year Ended December 31, 2011</b> (Predecessor)	<b>Period from January 1, 2012 to July 27, 2012</b> (Predecessor)	<b>Period from July 28, 2012 to December 31, 2012</b> (Successor)	<b>Six Months Ended June 30, 2013</b> (Successor)
Ratio of earnings to fixed charges	1.6x	2.2x	1.9x	1.9x	0.8 x	0.9x	0.4x

These ratios are computed by dividing the total earnings by the total fixed charges. For purposes of calculating the ratio of earnings to fixed charges, earnings represent pre-tax income from continuing operations plus fixed charges. Fixed charges consist of interest expense on all indebtedness plus amortization of debt issuance costs and the portion of rental expense that we believe is representative of the interest component of rental expense.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF  
OPERATIONS**

*You should read the following discussion and analysis of our results of operations and financial statements in conjunction with the consolidated financial statements, the accompanying notes and the other financial information contained elsewhere in this prospectus. This section contains forward-looking statements, based on current expectations and related to future events and our future financial performance, that involve risks and uncertainties. Our actual results may vary materially from those discussed in the forward-looking statements as a result of various factors, including, without limitation, those set forth in "Risk Factors", as well as other matters described in this prospectus. See "Cautionary Disclosure Regarding Forward-Looking Statements."*

**Effect of the Transactions**

On July 27, 2012, funds affiliated with THL acquired a majority stake in the Company in a recapitalization transaction. The aggregate consideration paid in connection with the acquisition was approximately \$2.7 billion. The consideration was funded by a combination of equity and debt financing and reinvestment by existing holders.

As a result of the Transactions, the financial information for the period after July 27, 2012 represents the financial information of the Successor company. Prior to, and including, July 27, 2012, the consolidated financial statements include the accounts of the Predecessor company. Due to the change in the basis of accounting resulting from the application of the acquisition method of accounting and push-down accounting (see Note 1 to the audited consolidated financial statements, which are included elsewhere in this prospectus, for further discussion), the Predecessor's consolidated financial statements and the Successor's consolidated financial statements are not necessarily comparable. The change in basis resulting from the Transactions did not impact net sales, royalties and franchise fees or retail operating expenses and, for those accounts, comparing full-year 2012 results to full-year 2011 results provides meaningful comparison. However, for all other accounts, to the extent that the change in basis had a material impact on our results during the Successor period, we have disclosed such impact in "Results of Operations". Certain amounts in this prospectus combine the results of the Predecessor and the Successor. Such combination was performed by mathematical addition and does not comply with GAAP, although we believe it provides a meaningful method of comparison for certain accounts. The data is being presented for analytical purposes only. Combined operating results (i) have not been prepared on a pro forma basis as if the Acquisition occurred on the first day of the period, (ii) may not reflect the actual results we would have achieved absent the Acquisition and (iii) may not be predictive of future results of operations.

**Business Overview**

**Our Company**

We are a global leader in decorated party supplies. We make it easy and fun to enhance special occasions with a wide assortment of innovative and exciting merchandise at a compelling value. With the 2005 acquisition of Party City, we created a vertically integrated business combining the leading product design, manufacturing and distribution platform with the largest U.S. retailer of party supplies. We believe we have the industry's broadest selection of decorated party supplies, which we distribute to over 100 countries. Our vertically integrated business model and scale differentiate us from most other party supply companies and allow us to capture the manufacturing-to-retail margin on a significant portion of the products sold in our stores. We believe our widely recognized brands, broad product offering, low-cost global sourcing model and category-defining retail concept are significant competitive advantages. We believe these characteristics, combined with our vertical business model and scale, position us for continued organic and acquisition-led growth in the United States and internationally.

The Company is a wholly-owned subsidiary of Holdings, which is a wholly-owned subsidiary of Parent. Holdings and Parent have no assets or operations other than their investments in the Company and its subsidiaries and income from the Company and its subsidiaries. All capital stock amounts in this prospectus represent the capital stock accounts of Parent.

## **Table of Contents**

### **How We Assess the Performance of Our Company**

In assessing the performance of our company, we consider a variety of performance and financial measures for our two operating segments, Retail and Wholesale. These key measures include revenues and gross profit, comparable retail same-store sales and operating expenses. We also review other metrics such as EBITDA and Adjusted EBITDA. For a discussion of our use of Adjusted EBITDA and a reconciliation to net income, please refer to Selected Historical Consolidated Financial Statements.

### **Segments**

Our Wholesale segment generates revenues globally through sales of Amscan, Designware, Anagram and other party supplies to party goods superstores, including our company-owned and franchised stores, other party goods retailers, dollar stores, mass merchants, independent card and gift stores and other retailers and distributors throughout the world. Sales to domestic and international customers accounted for 79% and 21%, respectively, of our total wholesale sales in 2012.

Our Retail segment generates revenues from the sale of merchandise to the end consumer through our chain of company-owned party goods stores, online through our e-commerce websites, including PartyCity.com, and through our chain of temporary Halloween City locations. Franchise revenues include royalties on franchise retail sales and franchise fees charged for the initial franchise award and subsequent renewals. Our retail sales of party goods are fueled by everyday events such as birthdays, various seasonal events and other special occasions occurring throughout the year. In addition, through Halloween City, our temporary Halloween business, we seek to maximize our Halloween seasonal opportunity. As a result, in 2012, our Halloween business represented approximately 25% of our total domestic retail sales, generally occurring in a five-week selling season ending on October 31. We expect to continue to generate a significant portion of our retail sales during the Halloween selling season.

Intercompany sales between the Wholesale and the Retail segment are eliminated, and the profits on intercompany sales are deferred and realized at the time the merchandise is sold to the consumer. For segment reporting purposes, certain general and administrative expenses and art and development costs are allocated based on total revenues.

### **Financial Measures**

*Revenues.* Revenues from retail operations are recognized at point of sale. We estimate future retail sales returns and record a provision in the period in which the related sales are recorded based on historical information. Retail revenues include shipping revenue related to e-commerce sales. Retail sales are reported net of taxes collected. Franchise royalties are recognized based on reported franchise retail sales.

Revenues from our wholesale operations represent the sale of our products to third parties, less rebates, discounts and other allowances. The terms of our wholesale sales are generally freight-on-board ( FOB ) shipping point, and revenue is recognized when goods are shipped. We estimate reductions to revenues for volume-based rebate programs and subsequent credits at the time sales are recognized. Intercompany sales from our wholesale operations to our retail stores are eliminated in our consolidated total revenues.

*Comparable Retail Same-Store Sales.* The growth in same-store sales represents the percentage change in same-store sales in the period presented compared to the prior year. Same-store sales exclude the net sales of a store for any period if the store was not open during the same period of the prior year. Comparable sales are calculated based upon stores that were open at least thirteen full months as of the end of the applicable reporting period. When a store is reconfigured or relocated within the same general territory, the store continues to be treated as the same store. If, during the period presented, a store was closed, sales from that store up to and including the closing day are included as same-store sales as long as the store was open during the same period of the prior year. Converted FCPO and Party Packagers stores are included in Party City's same-store sales immediately following conversion. Same-store sales for the Party City brand include e-commerce sales.

## **Table of Contents**

*Cost of Sales.* Cost of sales at wholesale reflects the production costs (i.e., raw materials, labor and overhead) of manufactured goods and the direct cost of purchased goods, inventory shrinkage, inventory adjustments, inbound freight to our manufacturing and distribution facilities, distribution costs and outbound freight to get goods to our wholesale customers. At retail, cost of sales reflects the direct cost of goods purchased from third parties and the production or purchase costs of goods acquired from our wholesale operations. Retail cost of sales also includes inventory shrinkage, inventory adjustments, inbound freight, occupancy costs related to store operations (such as rent and common area maintenance, utilities and depreciation on assets) and all logistics costs associated with our e-commerce business.

Our cost of sales increases in higher volume periods as the direct costs of manufactured and purchased goods, inventory shrinkage and freight are generally tied to net sales. However, other costs are largely fixed or vary based on other factors and do not necessarily increase as sales volume increases. Changes in the mix of our products may also impact our overall cost of sales. The direct costs of manufactured and purchased goods are influenced by raw material costs (principally paper, petroleum-based resins and cotton), domestic and international labor costs in the countries where our goods are purchased or manufactured and logistics costs associated with transporting our goods. We monitor our inventory levels on an on-going basis in order to identify slow-moving goods.

As a result of the Acquisition, the Company applied the acquisition method of accounting and increased the value of its inventory by \$89.8 million as of July 28, 2012. The adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at July 27, 2012. Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58.6 million, and during the six months ended June 30, 2013 by \$19.4 million, as a portion of the related inventory was sold.

*Wholesale Selling Expenses.* Wholesale selling expenses include the costs associated with our wholesale sales and marketing efforts, including merchandising and customer service. Costs include the salaries and benefits of the related work force, including sales-based bonuses and commissions. Other costs include catalogues, showroom rent, travel and other operating costs. Certain selling expenses, such as sales-based bonuses and commissions, vary in proportion to sales, while other costs vary based on other factors, such as our marketing efforts, or are largely fixed and do not necessarily increase as sales volumes increase.

*Retail Operating Expenses.* Retail operating expenses include all of the costs associated with retail store operations, excluding occupancy-related costs included in cost of sales. Costs include store payroll and benefits, advertising, supplies and credit card costs. Retail expenses are largely variable but do not necessarily vary in proportion to net sales.

*Franchise Expenses.* Franchise expenses include the costs associated with operating our franchise network, including salaries and benefits of the administrative work force and other administrative costs. These expenses generally do not vary proportionally with royalties and franchise fees.

*General and Administrative Expenses.* General and administrative expenses include all operating costs not included elsewhere in the statement of operations and comprehensive income (loss). These expenses include payroll and other expenses related to operations at our corporate offices, including occupancy costs, related depreciation and amortization, legal and professional fees and data-processing costs. These expenses generally do not vary proportionally with net sales.

In conjunction with the Transactions, the Company incurred transaction costs that were recorded in general and administrative expenses. Additionally, the Transactions accelerated the vesting of certain of the Company's stock options and the Company recorded a charge in general and administrative expenses. Further, due to the vesting of such stock options, the Company made payments in lieu of dividends to the holders of such options and recorded a charge in general and administrative expenses. See **Results of Operations** for further discussion of these charges.

---

## **Table of Contents**

*Art and Development Costs.* Art and development costs include the costs associated with art production, creative development and product management. Costs include the salaries and benefits of the related work force. These expenses generally do not vary proportionally with net sales.

*EBITDA and Adjusted EBITDA.* We define EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization. We define Adjusted EBITDA as EBITDA, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. We caution investors that amounts presented in accordance with our definitions of EBITDA and Adjusted EBITDA may not be comparable to similar measures disclosed by other issuers, because not all issuers and analysts calculate EBITDA or Adjusted EBITDA in the same manner. We present EBITDA in this prospectus because we consider it an important supplemental measure of our performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. We present Adjusted EBITDA because we believe it assists investors and analysts in comparing our performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. In addition, we use Adjusted EBITDA: (i) as a factor in determining incentive compensation, (ii) to evaluate the effectiveness of our business strategies and (iii) because the credit facility agreements use Adjusted EBITDA to measure compliance with certain covenants.

## **Executive Overview**

Our recent financial results demonstrate continued growth and profitability enhancements in a difficult economic environment. During 2012 we posted revenue growth despite the adverse impact of Super Storm Sandy during the all-important Halloween weekend shopping period. Super Storm Sandy's adverse impact on 2012 net sales is estimated at approximately \$10 million. Additionally, 2012 revenues were adversely impacted by Halloween falling on a Wednesday. Further, 2012 Party City sales were negatively impacted by approximately \$8 million as a result of the timing of New Year's Eve, as the fiscal year for the Company's retail operations ended on December 29, 2012 (as opposed to on December<sup>s</sup>31 during 2011).

## **Other Factors Affecting Our Results**

Other important events that have impacted or will impact the results presented in Management's Discussion and Analysis of Financial Condition and Results of Operations include:

*Party City Canada.* On July 29, 2011, we acquired Party City Canada for total consideration of approximately \$31.8 million. Party City Canada is a Canadian retailer of party goods and outdoor toys. The acquisition expands our vertical business model, giving us a significant retail presence in Canada. The results of operations of Party City Canada are included in our consolidated financial statements from the date of acquisition. Due to the additional seven months of operations in 2012, our revenues increased by \$21.5 million over 2011.

*Acquisition-Related Costs.* As a result of the Acquisition, the Company applied the acquisition method of accounting and increased the value of its inventory by \$89.8 million as of July 28, 2012. The adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at July 27, 2012. The adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58.6 million, and during the six months ended June 30, 2013 by \$19.4 million, as a portion of the related inventory was sold. Such amount was added back to EBITDA when arriving at Adjusted EBITDA. For a discussion of our use of Adjusted EBITDA and a reconciliation to net income, please refer to Selected Historical Consolidated Financial Statements.

Additionally, as a result of the Acquisition, the Company applied the acquisition method of accounting and recorded its property, plant and equipment and intangible assets at fair value. The impact of the adjustments increased the Company's depreciation expense and amortization expense subsequent to July 28, 2012.

**Table of Contents**

In conjunction with the Transactions, during 2012, the Company recorded \$8.9 million of compensation-related transaction costs in general and administrative expenses and \$19.7 million of additional transaction costs, principally banker fees, in other expense, net. Also, the Acquisition accelerated the vesting of certain of the Company's stock options and during 2012 the Company recorded \$2.1 million of expense in general and administrative expenses. Further, due to the vesting of such stock options, the Company made payments in lieu of dividends to the holders of such options and during 2012 the Company recorded a \$16.1 million charge in general and administrative expenses. These costs were added back to EBITDA when arriving at Adjusted EBITDA. For a discussion of our use of Adjusted EBITDA and a reconciliation to net income, please refer to Selected Historical Consolidated Financial Statements.

*Recent Acquisitions.* In March 2013, the Company completed its acquisition of Party Delights, an online retailer of party goods, fancy dress and similar items for birthdays, weddings, christenings and other celebrations, for \$14.8 million. The acquisition broadens the Company's product offering and allows it to enter European retail markets through e-commerce. In May 2013, the Company completed its acquisition of iParty, a party goods retailer with approximately 50 stores, principally located in the New England region, for \$38.4 million (including the repayment of \$9.0 million outstanding under iParty's credit agreement). The acquisition accelerates the Company's growth throughout New England, a densely populated region where the Company did not have a market presence.

*Refinancings.* Amounts outstanding under the Company's previous \$350.0 million ABL revolving credit facility and previous \$675.0 million term loan agreement were repaid in conjunction with the closing of the Transactions. At such time, the Company entered into the ABL Facility and the Term Loan Facility. Additionally, in conjunction with the Transactions, the Company issued the outstanding notes and it completed a cash tender offer for all of its outstanding \$175.0 million 8.75% senior subordinated notes.

As a result of the higher debt levels following these refinancings, our interest expense increased by \$26.3 million during 2012.

During February 2013, the Company amended its Term Loan Facility. In conjunction with the refinancing, the Company wrote-off \$5.9 million of costs that had been capitalized during the initial issuance of the debt. Additionally, the Company wrote-off \$2.3 million of the net original issuance discount that existed as of the time of the amendment. Also, in conjunction with the refinancing, the Company expensed \$2.5 million of a call premium and \$1.6 million of banker and legal fees. All of the charges were recorded in other expense in the Company's condensed consolidated statement of operations and comprehensive loss.

**Table of Contents*****Wholesale***

Net sales during the six months ended June 30, 2013 were \$258.9 million and were \$10.4 million, or 3.9%, lower than during the first six months of 2012. During the first six months of 2013, net sales to domestic party goods retailers, including our franchisee network, and to domestic party goods distributors totaled \$129.8 million and were \$1.1 million, or 0.8%, lower than the corresponding period of 2012. During the first six months of 2013, sales of Halloween-related product increased by approximately \$2 million as certain sales shifted from the third quarter of 2012 to the second quarter of 2013. Additionally, sales of tableware at the Company's third-party contract manufacturing operations increased by approximately \$2 million. These increases were partially offset by the classification of \$2 million of sales as intercompany sales as a result of the Company's May 2013 acquisition of iParty. Sales of solid colored tableware, juvenile birthday and graduation product each decreased by approximately \$1 million from 2012 principally due to timing shifts and, in the case of juvenile birthday product, due to 2012 benefitting from the initial load-in of product related to new licenses and new products for existing licenses. Net sales of metallic balloons to domestic customers totaled \$38.9 million and were \$7.0 million, or 15.3%, lower than 2012, as sales continue to reflect the impact of the temporary helium shortage and certain customers shifted purchases to the fourth quarter of 2012. International net sales, including U.S. export sales, totaled \$90.2 million and were \$2.3 million, or 2.5%, lower than 2012. The decrease was primarily due to 2012 U.K. sales benefitting from the Queen's Jubilee and the London Olympics, partially offset by higher sales of Christy's costumes, garments and accessories during the 2013 period. Foreign currency negatively impacted 2013 sales by \$0.8 million.

Intercompany sales to our retail affiliates were \$170.3 million and were \$2.7 million, or 1.6%, higher than 2012. The increase was principally due to the Company's acquisition of iParty during May 2013 as sales to iParty are now included in intercompany sales. Intercompany sales represented 39.7% of total wholesale sales during the first six months of 2013, compared to 38.4% during the corresponding period of 2012. The intercompany sales of our wholesale segment are eliminated against the intercompany purchases of our retail segment in the consolidated financial statements.

***Retail***

Retail net sales for the first six months of 2013 were \$580.7 million and were \$41.3 million, or 7.7%, higher than retail net sales for the corresponding period of 2012. The retail net sales at our Party City stores totaled \$520.5 million and were \$24.8 million, or 5.0%, higher than the corresponding period of 2012. Additionally, our domestic e-commerce sales totaled \$41.3 million during the six months ended June 30, 2013 and were \$2.1 million higher than the corresponding period of 2012, during which our domestic e-commerce sales were \$39.2 million. Net sales during the first six months of 2013 were positively impacted by approximately \$8.0 million as a result of the timing of New Year's Eve, as the 2012 fiscal year for the Company's retail operations ended on December 29, 2012 (as opposed to on December 31 during 2011). Same-store sales for the Party City brand (including e-commerce sales and sales at acquired stores converted to the Party City format, to the extent that the stores were included in the Company's sales for the comparable period of the prior year) increased by 1.9% from the corresponding six months of 2012 as a 2.8% increase in average transaction dollar size was partially offset by a 0.9% decrease in transaction count. Excluding the impact of e-commerce, same-store sales increased by 1.7% as a 2.8% increase in average transaction dollar size was partially offset by a 1.1% decrease in transaction count. Domestic e-commerce sales increased by 5.1% as a 5.2% increase in transaction count was slightly offset by a 0.1% decrease in average transaction dollar size. The timing of New Year's Eve positively impacted same-store sales for the Party City brand by 1.5%. The overall increase in Party City store sales also reflects the operation of 20 additional stores during the first six months of 2013 as 21 stores were opened, four stores were acquired from franchisees and five stores were closed between June 2012 and June 2013. The May 2013 acquisition of iParty contributed \$12.3 million to net sales. Sales at all other formats totaled \$6.6 million and were \$2.1 million higher than the corresponding period of 2012 as other acquisitions contributed \$5.6 million to sales for the first six months of 2013.

**Table of Contents****Royalties and franchise fees**

Royalties and franchise fees for the six months ended June 30, 2013 were \$8.1 million and were principally consistent with the corresponding period of 2012.

**Gross Profit**

Our total gross profit on net sales during the first six months of 2013 was 34.0% or 460 basis points lower than the corresponding period of 2012. As a result of the Acquisition, the Company applied the acquisition method of accounting and increased the value of its inventory by \$89.8 million as of July 28, 2012. Such adjustment increased the Company's cost of sales during the six month period ended June 30, 2013 by \$19.4 million, as a portion of the related inventory was sold. Further, during the application of the acquisition method of accounting, the Company increased the values of certain intangible assets and its property, plant and equipment. The impact of such adjustments on depreciation and amortization expense increased the Company's cost of sales during the six month period ended June 30, 2013 by \$15.5 million. The purchase accounting adjustments to cost of sales negatively impacted the Company's gross profit percentage by 420 basis points.

The following table sets forth the Company's gross profit for the six months ended June 30, 2013 and June 30, 2012.

	Six Months Ended June 30,			
	2013		2012	
	(Successor)		(Predecessor)

<b>Total</b>	<b>\$ 285,056</b>	<b>34.0%</b>	<b>\$ 312,249</b>	<b>38.6%</b>

The gross profit on net sales at wholesale during the six months ended June 30, 2013 was 28.8% and was 630 basis points lower than the corresponding period of 2012. The purchase accounting adjustments to cost of sales negatively impacted wholesale's gross profit percentage by 360 basis points. The remainder of the variance was principally due to changes in product mix, including greater licensed product sales and the introduction of additional value line tableware products, and the impact of the lower sales levels on fixed manufacturing and distribution costs. The gross profit on net sales at retail during the first six months of 2013 was 36.3% and was 400 basis points lower than the corresponding period of 2012. The purchase accounting adjustments to cost of sales negatively impacted retail's gross profit percentage by 440 basis points. During the six months ended June 30, 2013, our wholesale operations' share of shelf at our domestic Party City stores (excluding iParty stores) and our e-commerce operations (i.e., the percentage of total cost of sales which relates to product supplied by our wholesale operations) was 67.5%, compared to 64.6% during the corresponding period of 2012. Our Canadian retail share of shelf was 68.7%.

**Operating expenses**

Wholesale selling expenses of \$34.1 million during the six months ended June 30, 2013 were \$6.7 million, or 24.7%, higher than the same period of 2012. Wholesale selling expenses were 13.2% of net wholesale sales during the period, compared to 10.1% during the same period of 2012. As a result of the application of the acquisition method of accounting, the Company increased the values of certain intangible assets and its property, plant and equipment. The impact of such adjustments on depreciation and amortization expense increased wholesale selling expenses during the first six months of 2013 by \$4.4 million. Also, to a lesser extent, wholesale selling expenses during the period were impacted by the reclassification of certain costs from general and administrative expenses.

## **Table of Contents**

Retail operating expenses during the first six months of 2013 were \$154.8 million and were \$8.3 million, or 5.6%, higher than the corresponding period of 2012. The increase was partially due to \$4.3 million of retail operating costs related to iParty and other operations which were acquired during 2013. Additionally, during the period, the Company operated 20 more Party City stores than it did during the first six months of 2012. Retail operating expenses were 26.7% of retail net sales during the six months ended June 30, 2013, compared to 27.2% during the same period of 2012.

Franchise expenses during the first six months of 2013 were \$6.5 million and were \$0.7 million higher than the first six months of 2012 due to increased amortization expense caused by the application of the acquisition method of accounting.

General and administrative expenses during the six months ended June 30, 2013 were \$69.3 million and were \$3.9 million, or 5.9%, higher than the corresponding period of 2012. The increase was principally due to \$3.8 million of general and administrative expenses related to iParty and other operations acquired during 2013. General and administrative expenses were 8.2% and 8.0% of total revenues during the six months ended June 30, 2013 and 2012, respectively.

Art and development costs totaled \$9.7 million and \$9.5 million for the six months ended June 30, 2013 and 2012, respectively. As a percentage of total revenues, art and development costs were 1.1% and 1.2% for the six months ended June 30, 2013 and June 30, 2012, respectively.

### ***Interest expense, net***

Interest expense, net, totaled \$65.7 million during the six months ended June 30, 2013, compared to \$36.8 million during the corresponding period of 2012. The increase of \$28.9 million was due to the increase in debt in conjunction with the Acquisition.

### ***Other expense, net***

Other expense, net, was \$14.5 million during the six months ended June 30, 2013, compared to expense of \$0.3 million during the same period of 2012.

During February 2013, the Company amended its Term Loan Facility (see Note 13 to the unaudited condensed consolidated financial statements which are included elsewhere in this prospectus). In conjunction with the refinancing, the Company wrote-off \$5.9 million of costs that had been capitalized during the initial issuance of the debt. Additionally, the Company wrote-off \$2.3 million of the net original issuance discount that existed as of the time of the amendment. Also in conjunction with the refinancing, the Company expensed \$2.5 million of a call premium and \$1.6 million of banker and legal fees.

The increase was also partially due to corporate development expenses related to the iParty acquisition.

### ***Income tax expense***

The effective income tax rate for the first six months of 2013 was 35.5%, compared to 37.0% during the corresponding period of 2012. The variance was primarily due to the impact of valuation allowances on loss carryforwards in the U.K. on the Company's income tax benefit for the first half of 2013.

**Table of Contents*****Wholesale***

Net sales for the period from January 1, 2012 to July 27, 2013 were \$317.8 million. Net sales for the period from July 28, 2012 to December 31, 2012 were \$265.1 million. The change in basis resulting from the Transactions did not impact the Company's net sales. Net sales for full-year 2012 were \$582.9 million and were \$2.0 million, or 0.3%, lower than 2011. During full-year 2012, net sales to domestic party goods retailers, including our franchisee network, and to other domestic party goods distributors totaled \$289.6 million and were \$16.0 million, or 5.9%, higher than 2011. The growth in sales was principally driven by higher sales of our Christy's costume line, approximately \$8 million, and increased sales of juvenile birthday products across all channels, driven by both new licenses and new products for existing licenses, also approximately \$8 million. Net sales of metallic balloons to domestic customers, excluding export sales, totaled \$83.6 million during full-year 2012 and were \$2.6 million, or 3.1%, lower than 2011, as distributors and retailers rationalized inventory levels in light of the temporary helium shortage. International net sales, including U.S. export sales, totaled \$209.7 million during full-year 2012 and were \$15.4 million, or 6.9%, lower than 2011. The decrease in international sales reflects several factors, including changes in foreign currency exchange rates (which resulted in a \$5.4 million decrease in international net sales compared to 2011) and the July 2011 acquisition of Party City Canada, which resulted in the elimination of sales to Party City Canada during the seven months ended July 2012 (sales to Party City Canada were \$3.1 million during the seven months ended July 2011). Additionally, sales volumes in Europe were adversely impacted by weaker economic conditions in 2012 and by changes in the timing of purchases by certain customers.

Intercompany sales to our retail affiliates were \$439.9 million during full-year 2012 and were \$84.7 million, or 23.9%, higher than 2011. Such sales represented 43.0% of total wholesale sales during 2012, compared to 37.8% during 2011. The increase in intercompany sales included higher sales of Christy's costumes, juvenile birthday products and sports products. Additionally, intercompany sales reflect the acquisition of Party City Canada in July 2011. The intercompany sales of our wholesale segment are eliminated against the intercompany purchases of our retail segment in the consolidated financial statements.

***Retail***

Retail net sales for the period from January 1, 2012 to July 27, 2012 were \$613.1 million. Net sales for the period from July 28, 2012 to December 31, 2012 were \$699.3 million. The change in basis resulting from the Transactions did not impact the Company's net sales. Retail net sales for full-year 2012 were \$1,312.4 million and were \$44.4 million, or 3.5%, higher than retail net sales for 2011. The retail net sales at our domestic superstores totaled \$1,071.7 million during full-year 2012 and our e-commerce sales totaled \$96.1 million during full-year 2012, as compared to \$76.0 million during 2011. Same-store sales for the domestic Party City brand, including e-commerce and all stores converted from the FCPO format to the Party City format prior to December 31, 2012, increased by 1.8% from 2011 reflecting a 2.5% increase in average transaction dollar size, partially offset by a 0.7% decrease in transaction count. Super Storm Sandy adversely impacted the combined sales of our Party City and Halloween City stores by approximately \$10 million during the 2012 Halloween selling season. Further, full-year 2012 Party City sales were negatively impacted by approximately \$8 million as a result of the timing of New Year's Eve, as the fiscal year for the Company's retail operations ended on December 29, 2012 (as opposed to on December 31<sup>st</sup> during 2011). In aggregate, Super Storm Sandy and the timing of New Year's Eve adversely impacted the Company's same-store sales for the domestic Party City brand by approximately 1.3%. Full year 2012 e-commerce sales increased by 26.6% as a 28.7% increase in transaction count was slightly offset by a 2.1% decrease in average transaction dollar size. Domestic superstore sales were positively impacted by the opening of 21 stores and the acquisition of six stores from franchisees, partially offset by the closure of five stores. Sales at Party City stores in Canada totaled \$48.7 million during full-year 2012 and were \$23.0 million higher than 2011 principally due to a full year of operations in 2012. Net sales at our temporary Halloween City stores (including Canadian locations) totaled \$89.1 million during full-year 2012 or \$16.9 million lower than 2011 principally due to the impact of Super Storm Sandy, as well as the impact of the Wednesday Halloween. Sales at outlet stores totaled \$6.8 million during full-year 2012 and were \$12.5 million lower than 2011 principally due to the closure of 25 stores during 2012.

**Table of Contents**

**Royalties and franchise fees**

Royalties and franchise fees for the period from January 1, 2012 to July 27, 2012 were \$9.3 million. Royalties and franchise fees for the period from July 28, 2012 to December 31, 2012 were also \$9.3 million. The change in basis resulting from the Transactions did not impact royalties and franchise fees. Royalties and franchise fees for full-year 2012 were \$18.6 million or \$0.5 million lower than 2011, partially due to the operation of fewer franchise stores.

**Gross Profit**

Our total gross profit on net sales for the period from January 1, 2012 to July 27, 2012 was 38.3% and our total gross profit on net sales for the period from July 28, 2012 to December 31, 2012 was 34.0%. Our total gross profit on net sales for 2011 was 39.6%. As a result of the Acquisition, the Company applied the acquisition method of accounting, and increased the value of its inventory by \$89.8 million as of July 28, 2012. Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58.6 million, as a portion of the related inventory was sold. Further, during the application of the acquisition method of accounting, the Company increased the values of certain intangible assets and its property, plant and equipment. The impact of such adjustments on depreciation expense and amortization expense increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$15.4 million. The adjustments to inventory, intangible assets and property, plant and equipment adversely impacted the Company's gross profit percentage during the period from July 28, 2012 to December 31, 2012 by 770 basis points.

The following table sets forth the Company's gross profit:

The gross profit on net sales at wholesale during 2011 was 34.4%. The adjustments to inventory, intangible assets and property, plant and equipment adversely impacted wholesale's gross profit percentage by 730 basis points during the period from July 28, 2012 to December 31, 2012. The gross profit on net sales at retail during the period from January 1, 2012 to July 27, 2012 was 39.9% and the gross profit on net sales at retail during the period from July 28, 2012 to December 31, 2012 was 36.5%. The gross profit on net sales at retail during 2011 was 42.0%. The adjustments to inventory, intangible assets and property, plant and equipment adversely impacted retail's gross profit percentage by 780 basis points during the period from July 28, 2012 to December 31, 2012. Excluding the impact of the adjustments, retail's gross profit on net sales was higher during the period from July 28, 2012 to December 31, 2012 than during the period from January 1, 2012 to July 27, 2012 due to the impact of higher sales levels during the Halloween selling season on fixed occupancy costs. During full-year 2012, our wholesale operations' share of shelf at our domestic Party City stores and e-commerce (i.e., the percentage of total cost of sales which relates to product supplied by our wholesale operations) was 64.2%, compared to 62.8% during 2011. During full-year 2012, our Canadian retail share of shelf was 64.4%.

**Operating expenses**

Wholesale selling expenses were \$31.6 million during the period from January 1, 2012 to July 27, 2012 and \$28.1 million during the period from July 28, 2012 to December 31, 2012. Wholesale selling expenses were \$57.9 million during 2011. Wholesale selling expenses were 9.9% of net wholesale sales during the period from

January 1, 2012 to July 27, 2012, 10.6% of net wholesale sales during the period from July 28, 2012 to December 31, 2012 and 9.9% of net wholesale sales during 2011. As a result of the application of the acquisition method of accounting, the Company increased the values of certain intangible assets and its property, plant and equipment. The impact of such adjustments on depreciation expense and amortization expense increased wholesale selling expenses during the period from July 28, 2012 to December 31, 2012 by \$3.8 million.

Retail operating expenses were \$166.0 million during the period from January 1, 2012 to July 27, 2012, \$172.2 million during the period from July 28, 2012 to December 31, 2012 and \$325.3 million during 2011. The change in basis resulting from the Transactions did not impact retail operating expenses. Retail operating expenses during full-year 2012 were \$338.2 million and were \$12.9 million, or 4.0%, higher than 2011. The increase was principally due to \$6.5 million of incremental operating expenses related to the July 2011 acquisition of Party City Canada and increased e-commerce costs consistent with the growth of our e-commerce business. Retail operating expenses were 27.1% of retail net sales during the period from January 1, 2012 to July 27, 2012, 24.6% during the period from July 28, 2012 to December 31, 2012 and 25.7% during 2011. Franchise expenses were \$6.6 million during the period from January 1, 2012 to July 27, 2012, \$6.1 million during the period from July 28, 2012 to December 31, 2012 and \$13.7 million during 2011. There was a net decrease of seven franchise stores during 2012.

General and administrative expenses were \$101.5 million during the period from January 1, 2012 to July 27, 2012, \$65.9 million during the period from July 28, 2012 to December 31, 2012 and \$138.1 million during full-year 2011. In conjunction with the Transactions, the Company recorded \$8.9 million of transaction costs in general and administrative expenses during the period from January 1, 2012 to July 27, 2012. Additionally, the Acquisition accelerated the vesting of certain of the Company's stock options and during the period the Company recorded \$2.1 million of expense in general and administrative expenses. Further, due to the vesting of such stock options, the Company made payments in lieu of dividends to the holders of such options and during the period from January 1, 2012 to July 27, 2012 the Company recorded a \$16.1 million charge in general and administrative expenses. During the application of the acquisition method of accounting, the Company increased the values of certain intangible assets and its property, plant and equipment. The impact of such adjustments on depreciation expense and amortization expense increased general and administrative expenses during the period from July 28, 2012 to December 31, 2012 by \$2.7 million. General and administrative expenses were 10.7% of total revenues during the period from January 1, 2012 to July 27, 2012, 6.8% of total revenues during the period from July 28, 2012 to December 31, 2012 and 7.4% of total revenues during 2011. Costs related to the Transactions adversely impacted the January 1, 2012 to July 27, 2012 percentage by 280 basis points. Additionally, general and administrative expenses as a percentage of total revenues during the period from July 28, 2012 to December 31, 2012 were lower than during the period from January 1, 2012 to July 27, 2012 due to the impact of the higher sales levels during the Halloween selling season on fixed general and administrative costs.

Art and development costs totaled \$10.8 million during the period from January 1, 2012 to July 27, 2012, \$8.2 million during the period from July 28, 2012 to December 31, 2012 and \$16.6 million during 2011. As a percentage of total revenues, art and development costs were 1.1% during the period from January 1, 2012 to July 27, 2012, 0.8% from July 28, 2012 to December 31, 2012 and 0.9% during 2011.

***Interest expense, net***

Interest expense, net, totaled \$42.0 million during the period from January 1, 2012 to July 27, 2012, \$62.1 million during the period from July 28, 2012 to December 31, 2012 and \$77.7 million during 2011. Interest expense was higher during the period from July 28, 2012 to December 31, 2012 due to the increase in debt in conjunction with the Transactions.

***Other expense, net***

Other expense, net, was \$22.2 million during the period from January 1, 2012 to July 27, 2012, \$1.6 million during the period from July 28, 2012 to December 31, 2012 and \$1.5 million during 2011. In conjunction

**Table of Contents**

with the Transactions, the Company recorded \$19.7 million of transaction costs in other expense, during the period from January 1, 2012 to July 27, 2012. Additionally, the period from January 1, 2012 to July 27, 2012 included \$2.4 million in costs as a result of the termination of an initial public offering.

**Income tax expense**

The effective income tax rate was (2.8%) during the period from January 1, 2012 to July 27, 2012, 19.2% during the period from July 28, 2012 to December 31, 2012 and 37.4% during 2011. The effective tax rate for the period from January 1, 2012 to July 27, 2012 was impacted by non-deductible costs related to the Transactions. The effective tax rate during the period from July 28, 2012 to December 31, 2012 was impacted by the Company recording a valuation allowance against certain deferred tax assets.

**Wholesale**

Net sales for 2011 of \$584.9 million were \$114.0 million or 24.2% higher than net sales for 2010. During 2011, net sales to domestic party goods retailers, including our franchisee network, and to other domestic party goods distributors totaled \$284.9 million and were \$3.7 million or 1.3% higher than during 2010. The increase in sales was principally attributable to an increase in Halloween products shipped directly to our franchise stores under a distribution center bypass program including \$3.9 million of synergistic sales of Christy's Halloween and other costumes. Net sales of metallic balloons, including export sales, of \$106.2 million were \$9.8 million or 10.2% higher than 2010, with the sales growth occurring across most channels, including domestic and international balloon distributors, dollar stores and custom. International sales, excluding export sales of metallic balloons, totaled \$194.1 million and were \$100.8 million higher than 2010, principally reflecting the acquisition of the Christy's Group in September 2010 and Riethmüller in late January 2011. The contribution from the Christy's Group in 2011 was \$35.2 million higher than 2010, due to an additional nine months of operations, and the Riethmüller acquisition contributed \$55.5 million to 2011 sales. In addition, changes in foreign currency exchange rates resulted in a \$4.8 million or 5.1% increase in international sales over 2010.

Intercompany sales to our retail affiliates of \$355.2 million were \$56.8 million or 19.0% higher than during 2010 and represented 37.8% of total wholesale sales in 2011, compared to 38.8% in 2010. The increase in intercompany sales principally reflects an increase in Halloween products, including synergistic sales of Christy's Halloween costumes. The intercompany sales of our wholesale segment are eliminated against the intercompany purchases of our retail segment in the consolidated financial statements.

**Retail**

Retail net sales for 2011 of \$1,268.0 million were \$159.2 million or 14.4% higher than retail sales in 2010. The retail sales at our Party City stores (including all converted FCPO stores) totaled \$954.2 million and were \$154.9 million or 19.4% higher than in 2010. Additionally, our e-commerce sales totaled \$76.0 million in 2011 and were \$35.8 million higher than our 2010 e-commerce sales of \$40.2 million. Same-store sales for the domestic Party City brand, including e-commerce and all stores converted from the FCPO format to the Party City format prior to December 31, 2011, increased by 9.5% from 2010. E-commerce sales increased by 88.7%, driven by an 88.2% increase in transaction count and a 0.5% increase in average transaction dollar size and Party City same-store sales increased by 4.6%, driven by a 2.7% increase in average transaction dollar size and a 1.9% increase in transaction count. Sales at stores converted from the FCPO format to the Party City format during 2011 were 21.8% higher than

**Table of Contents**

sales at those same stores during 2010. The increase in sales is partially attributable to the successful shift in our principal advertising strategy from free standing newspaper inserts to a national broadcasting campaign, coupled with other successful online initiatives implemented since our re-launch of the PartyCity.com website in August 2009. The increase in Party City store sales also reflects the net addition of 48 new stores during 2011, including the opening of 16 stores, the acquisition of eight stores from franchisees, and the conversion of 31 FCPO stores to the Party City format during that time period, offset by the closure of seven stores. Additionally, 2011 Party City store sales benefited from the impact of a full year of sales for the stores that were added during 2010. Net sales at our temporary Halloween stores, including 16 stores operated in Canada, totaled \$106.0 million and were \$4.6 million higher than in 2010. The 26 Party City Canada stores acquired at the end of July 2011 added net sales of \$25.7 million during 2011. Sales at all other store formats, including unconverted FCPO and outlet stores, totaled \$106.1 million and were \$61.8 million or 36.8% lower than in 2010. The decrease principally reflects the conversion of 31 FCPO stores to the Party City format and the closure of 27 stores during 2011.

**Royalties and franchise fees**

Royalties and franchise fees of \$19.1 million for 2011 were comparable to 2010 as the negative impact on royalty income from the net decrease of 11 franchise stores during 2011 was substantially offset by the impact of increased same-store sales at the remaining franchise stores.

**Gross Profit**

Our total margin on net sales for 2011 was 39.6% or 70 basis points lower than 2010. The following table sets forth our gross profit on net sales for 2011 and 2010.

	Year Ended December 31,			
	2011		2010	
	(Predecessor)		(Predecessor)	
	Dollars in Thousands	Percentage of Net Sales	Dollars in Thousands	Percentage of Net Sales
Net Wholesale	\$ 201,246	34.4%	\$ 174,507	37.1%
Retail	532,650	42.0%	462,112	41.7%
<b>Total</b>	<b>\$ 733,896</b>	<b>39.6%</b>	<b>\$ 636,619</b>	<b>40.3%</b>

The gross profit margin on net sales at wholesale for 2011 was 34.4% or 270 basis points lower than 2010. The decrease in wholesale gross profit margin partially reflects the dilutive impact of our recent international acquisitions, the Christy's Group and Riethmüller, which have lower gross profit margins relative to our historical wholesale operations. The impact of the Christy's Group and Riethmüller on wholesale gross profit margin was approximately 100 basis points of the decline in 2011. The remaining decline reflected a combination of increased sales of lower margin products and increases in certain raw material and product costs.

Retail gross profit margin for 2011 was 42.0% or 30 basis points higher than 2010, as the impact of a greater percentage of our wholesale products sold at retail and the realization of higher previously deferred manufacturing and distribution margin in 2011 compared to 2010 were partially offset by a decrease in the margin for temporary Halloween stores from 2010 to 2011 and, to a lesser extent, the inclusion of lower margin Party City Canada sales. During 2011, 63.6% of our Party City branded store sales were products supplied by our wholesale operations, compared to 61.1% for 2010.

**Operating expenses**

Wholesale selling expenses of \$57.9 million for 2011 were \$15.2 million or 35.6% higher than 2010. The increase in wholesale selling expenses principally reflects the additional expenses of the Christy's Group and Riethmüller of \$6.7 million and \$4.8 million, respectively. Wholesale selling expenses were 6.2% of total wholesale sales in 2011, compared to 5.6% in 2010. The increase was principally due to the cost structures of the Christy's Group and Riethmüller as selling expenses for the two recently acquired businesses were 12.1% of their 2011 sales. Excluding the impact of the Christy's Group and Riethmüller, wholesale selling expenses were 5.5% of total wholesale sales in both 2011 and 2010.

## **Table of Contents**

Retail operating expenses for 2011 of \$325.3 million were \$28.4 million higher than 2010. The increase in retail operating expenses reflects the growth in our retail store base, including a \$11.3 million increase due to the growth in our e-commerce operations and \$7.7 million of expenses related to the acquisition of Party City Canada. E-commerce costs reflect additional distribution, website and customer service costs. The increase in retail operating expenses also reflects additional costs associated with a national broadcasting campaign and inflationary increases in retail expenses. As a percent of retail sales, retail operating expenses were 25.6% for 2011, compared to 26.8% for 2010. Franchise expenses for 2011 of \$13.7 million were \$1.4 million or 11.4% higher than 2010, principally due to an increase in commissions paid to franchisees on e-commerce sales originating in their territories.

As a percentage of total revenues, general and administrative expenses decreased to 7.4% for 2011, compared to 8.4% for 2010. General and administrative expenses for 2011 of \$138.1 million were \$3.7 million or 2.8% higher than 2010, as additional expenses from the acquisitions of the Christy's Group, Riethmüller and Party City Canada of \$0.7 million, \$8.1 million and \$2.2 million, respectively, were partially offset by 2010 including \$9.4 million of stock compensation expense arising from the payment of the December 2010 dividend distribution to vested time-based option holders.

Art and development costs of \$16.6 million for 2011 were \$1.7 million or 11.4% higher than 2010, principally reflecting increases in personnel, compensation and employee benefits. As a percentage of total revenues, art and development costs were 0.9% in both 2011 and 2010.

During 2010, we instituted a program to convert substantially all of our FCPO stores to either Party City stores or to an outlet format and recorded a \$27.4 million non-cash charge in 2010 for the impairment of the Factory Card & Party Outlet trade name.

### ***Interest expense, net***

Interest expense, net, of \$77.7 million for 2011 was \$36.8 million higher than 2010. The increase was principally due to higher interest rates and the \$326.6 million increase in our term loan borrowings following the \$350.0 million ABL revolving credit facility refinancing in August 2010 and the \$675.0 million term loan refinancing in December 2010.

### ***Other expense, net***

Other expense, net, was \$1.5 million for 2011 compared to \$4.2 million for 2010. During 2011 and 2010, Other expense, net, principally consisted of our share of income from an unconsolidated balloon distribution joint venture in Mexico, foreign currency gains and acquisition related expenses. During 2010 Other expense, net also included \$2.4 million of costs related to the \$350.0 million ABL revolving credit facility refinancing and the \$675.0 million term loan refinancing.

### ***Income tax expense***

Income tax expense for 2011 and 2010 reflected consolidated effective income tax rates of 37.4% and 40.0%, respectively. The higher effective income tax rate in 2010 was primarily attributable to adjustments to deferred tax accounts related to previous acquisitions and non-deductible non-cash stock option and warrant-related charges, partially offset by higher domestic manufacturing deductions in 2010.

## **Liquidity and Capital Resources**

### **Capital Structure**

Amounts outstanding under the Company's previous \$350.0 million ABL revolving credit facility and the Company's previous \$675.0 million term loan agreement were repaid in conjunction with the closing of the Transactions. At such time, the Company entered into the \$400.0 million ABL Facility and the \$1,125.0 million

Term Loan Facility. Additionally, in conjunction with the Transactions, on July 27, 2012, the Company issued \$700.0 million of the outstanding notes and it completed a cash tender offer for all of its outstanding \$175.0 million 8.75% senior subordinated notes. See [Description of Other Indebtedness](#) and [Description of Exchange Notes](#) for further details on the ABL Facility, Term Loan Facility and the outstanding notes. For additional information, refer to the credit agreements, indenture and related agreements filed as exhibits to this prospectus.

### ***Other Credit Agreements***

The Company, through its subsidiaries, has entered into several foreign credit facilities which provide the Company with borrowing capacity of GBP 10.0 million, CDN 6.0 million, EUR 2.5 million and RM 2.5 million. At December 31, 2012, borrowings under the foreign facilities totaled \$9.9 million. In connection with one of the facilities, at December 31, 2012, the Company maintained a compensating cash balance of \$4.4 million to secure outstanding standby letters of credit.

### ***Other Indebtedness***

Long-term borrowings at December 31, 2012 include a mortgage note with the New York Job Development Authority of \$2.4 million. The mortgage note was amended during December 2009, extending the fixed monthly payments of principal and interest for a period of 60 months up to and including December 31, 2014. The note bears interest at the rate of 2.01%, and is subject to review and adjustment semi-annually based on the New York Job Development Authority's confidential internal protocols. The mortgage note is collateralized by our Chester, New York distribution facility.

Additionally, the Company has entered into various capital leases for machinery and equipment with implicit interest rates generally ranging from 3% to 8% and extending to 2017. The Company also has numerous non-cancelable operating leases for its retail store sites, as well as several leases for offices, distribution and manufacturing facilities, showrooms and equipment. These leases generally contain renewal options and require the Company to pay real estate taxes, utilities and related insurance costs.

### **Liquidity**

We expect that cash generated from operating activities and availability under our credit agreements will be our principal sources of liquidity. Based on our current level of operations, we believe these sources will be adequate to meet our liquidity needs for at least the next 12 months. We cannot assure you, however, that our business will generate sufficient cash flow from operations or that future borrowings will be available to us under the ABL Facility and the Term Loan Facility in amounts sufficient to enable us to repay our indebtedness or to fund our other liquidity needs.

### ***Cash Flow Data Six Months Ended June 30, 2013 Compared to Six Months Ended June 30, 2012***

Net cash used in operating activities totaled \$8.9 million during the six months ended June 30, 2013. Net cash provided by operating activities totaled \$24.0 million during the corresponding period of 2012. Net cash flows provided by operating activities before changes in operating assets and liabilities were \$21.6 million during the first six months of 2013 and \$52.5 million during the comparable period of 2012. The variance was principally due to higher interest payments resulting from the additional debt incurred at the time of the Transaction (see Note 2 to the unaudited condensed consolidated financial statements which are included elsewhere in this prospectus). Changes in operating assets and liabilities during the first six months of 2013 and 2012 resulted in the use of cash of \$30.5 million and \$28.5 million, respectively, and principally reflected the pay down of Halloween and other fourth quarter seasonal trade accounts payable. Additionally, cash flows during the first six months of 2013 were negatively impacted by the timing of income tax payments.

**Table of Contents**

Net cash used in investing activities totaled \$74.0 million during the six months ended June 30, 2013, as compared to \$24.3 million during the six months ended June 30, 2012. Investing activities during the six months ended June 30, 2013 included \$48.6 million paid in connection with certain acquisitions, including the acquisition of iParty (see Note 3 to the unaudited condensed consolidated financial statements which are included elsewhere in this prospectus). Capital expenditures during the six months ended June 30, 2013 and 2012 were \$25.6 million and \$23.8 million, respectively. Retail capital expenditures totaled \$17.0 million during the six months ended June 30, 2013 and principally related to store conversions and new stores. Wholesale capital expenditures totaled \$8.6 million and primarily related to printing plates and dies, information technology spending, displays/racks and machinery and equipment at the Company's manufacturing operations.

Net cash provided by financing activities was \$82.0 million during the six months ended June 30, 2013, as compared to \$3.8 million used in financing activities during the corresponding period of 2012. Borrowings during the six months ended June 30, 2013 were principally used to finance acquisitions (see Note 3 to the unaudited condensed consolidated financial statements which are included elsewhere in this prospectus), pay down Halloween and other fourth quarter seasonal trade accounts payable, make interest payments on the debt which was incurred in conjunction with the Transaction, and refinance the Term Loan Facility (see Note 13 to the unaudited condensed consolidated financial statements which are included elsewhere in this prospectus).

At June 30, 2013, we had \$232.1 million of excess availability under the ABL Facility.

***Cash Flow Data Year Ended December 31, 2012 Compared to Year Ended December 31, 2011***

Net cash used in operating activities totaled \$17.3 million during the period from July 28, 2012 to December 31, 2012 and \$18.1 million during the period from January 1, 2012 to July 27, 2012, as compared to cash provided by operating activities of \$161.3 million during 2011. The net cash outflow during the period from July 28, 2012 to December 31, 2012 was principally due to stock option payments, payments in lieu of dividends and other Transactions-related payments being principally offset by other operating cash inflows. See Notes 5 and 12 to the consolidated financial statements in which are included elsewhere in this prospectus for further discussion of the Transactions-related payments.

Net cash used in investing activities totaled \$1,578.6 million during the period from July 28, 2012 to December 31, 2012 and \$31.8 million during the period from January 1, 2012 to July 27, 2012, as compared to \$138.9 million during 2011. On July 27, 2012, funds affiliated with THL acquired a majority stake in the Company in a recapitalization transaction. The aggregate consideration paid in connection with the acquisition was approximately \$2,690.0 million. The portion of the consideration that was not retained by the Company, \$1,562.2 million, is included in cash paid in connection with acquisitions during the period from July 28, 2012 to December 31, 2012. Investing activities during the period from January 1, 2012 to July 27, 2012 included \$3.1 million paid in connection with the acquisition of retail stores from franchisees. Investing activities during 2011 included \$47.1 million paid in connection with the acquisition of Riethmüller, \$31.8 million paid in connection with the acquisition of Party City Canada, \$4.0 million paid in connection with the acquisition of the Christy's Group, and \$12.7 million paid in connection with the purchase of retail franchise stores. Capital expenditures during 2012 were principally consistent with 2011. Retail capital expenditures totaled \$11.3 million and \$22.0 million during the periods from July 28, 2012 to December 31, 2012 and January 1, 2012 to July 27, 2012, respectively, and were principally for store conversions and new stores. Wholesale capital expenditures totaled \$5.1 million and \$6.9 million during the periods from July 28, 2012 to December 31, 2012 and January 1, 2012 to July 27, 2012, respectively, and were principally for printing plates and dies and data processing equipment.

Net cash provided by financing activities was \$1,604.8 million during the period from July 28, 2012 to December 31, 2012 and \$33.3 million during the period from January 1, 2012 to July 27, 2012, as compared to net cash used in financing activities of \$19.8 million during 2011. Due to the Transactions, during the period from July 28, 2012 to December 31, 2012 amounts outstanding under the Company's previous \$350.0 million ABL revolving credit facility and previous \$675.0 million term loan agreement were repaid and the Company entered into the ABL Facility, of which \$115.0 million was drawn at closing, and the Term Loan Facility. Additionally, the Company issued \$700.0 million of the outstanding notes and repaid \$175.0 million of then-

existing notes. The Company paid \$64.1 million of costs in conjunction with the issuance of the new debt. See the consolidated financial statements included elsewhere in this prospectus for further detail. Additionally, due to the acquisition by THL, the Company received \$809.4 million of capital contributions. The periods from July 28, 2012 to December 31, 2012 and January 1, 2012 to July 27, 2012 include excess tax benefits from stock options in the amounts of \$0.6 million and \$32.3 million, respectively. See the consolidated financial statements included elsewhere in this prospectus for further discussion.

**Cash Flow Data Year Ended December 31, 2011 Compared to Year Ended December 31, 2010**

Net cash provided by operating activities totaled \$161.3 million during 2011, as compared to \$61.2 million during 2010. Net cash flow provided by operating activities before changes in operating assets and liabilities was \$155.7 million during 2011 and \$133.4 million during 2010. During 2011, changes in operating assets and liabilities provided \$5.6 million of cash. During 2010 changes in operating assets and liabilities used \$72.2 million of cash, which principally reflected an increase in inventories to support the replenishment of inventories across the channels we serve from the intentionally low levels reached in 2009, growth in Halloween City locations and additional inventory build related to the Designware acquisition.

Net cash used in investing activities totaled \$138.9 million during 2011, as compared to \$102.8 million during 2010. Investing activities during 2011 included \$47.1 million paid in connection with the acquisition of Riethmüller, \$31.8 million paid in connection with the acquisition of Party City Canada, an additional \$4.0 million paid in connection with the acquisition of the Christy's Group, and \$12.7 million paid in connection with the purchase of retail franchise stores. Capital expenditures totaled \$44.5 million during 2011, compared to \$49.6 million in 2010. Retail capital expenditures totaled \$31.3 million in 2011 and were principally for new stores, FCPO conversions and store renovations, while wholesale capital expenditures totaled \$13.2 million and were principally for printing plates, dies, computer equipment and distribution equipment.

Net cash used in financing activities was \$19.8 million during 2011, compared to \$46.5 million provided by financing activities in 2010. The 2011 usage principally reflects repayments under the \$350.0 million ABL revolving credit facility and scheduled repayments of the \$675.0 million term loan agreement, partially offset by borrowings under the foreign credit facilities.

- (a) See our consolidated financial statements included elsewhere in this prospectus for further detail.
- (b) We are also an assignor with continuing lease liability for 12 stores sold to franchisees, and other parties, that expire through 2018. The assigned lease obligations continue until the applicable leases expire. The maximum amount of the assigned lease obligations may vary, but is limited to the sum of the total amount due under the lease. At December 31, 2012, the maximum amount of the assigned lease obligations was approximately \$3.3 million and is not included in the table above.
- (c) The Company has certain purchase commitments requiring minimum purchase commitments. See our consolidated financial statements included elsewhere in this prospectus for further detail.

## **Table of Contents**

Not included in the above table are borrowings under our ABL Facility and our foreign credit facilities.

Not included in the above table are \$0.5 million of net potential cash obligations associated with unrecognized tax benefits due to the high degree of uncertainty regarding the timing of future cash outflows associated with such obligations. Refer to the notes to the consolidated financial statements included elsewhere in this prospectus for further information related to unrecognized tax benefits.

Additionally, not included in the above table are expected interest payments associated with the Term Loan Facility, the outstanding notes, capital lease obligations and mortgage obligations, of approximately \$109.9 million in 2013, \$109.3 million in 2014, \$108.8 million in 2015, \$108.3 million in 2016, \$107.8 million in 2017 and \$231.7 million thereafter. Interest payments are estimates based on our debt's scheduled maturities and stated interest rates or, for variable rate debt, interest rates as of December 31, 2012 (with the exception of the Term Loan Facility for which the revised interest rates, as amended in February 2013, were used). Our estimates do not reflect interest payments on the credit facilities or the possibility of additional interest from the refinancing of our debt as such amounts are not determinable.

## **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements.

## **Effects of Inflation**

Although we expect that our operating results will be influenced by general economic conditions, we do not believe that inflation has had a material effect on our results of operations during the periods presented. However, there can be no assurance that our business will not be affected by inflation in the future.

## **Critical Accounting Policies and Procedures**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the appropriate application of certain accounting policies, many of which require estimates and assumptions about future events and their impact on amounts reported in the financial statements and related notes. Since future events and their impact cannot be determined with certainty, the actual results will inevitably differ from our estimates. Such differences could be material to the consolidated financial statements included herein.

We believe our application of accounting policies, and the estimates inherently required by these policies, are reasonable. These accounting policies and estimates are constantly re-evaluated and adjustments are made when facts and circumstances dictate a change. Historically, we have found the application of accounting policies to be reasonable, and actual results generally do not differ materially from those determined using necessary estimates.

## ***Revenue Recognition***

Our terms of sale to retailers and other distributors for substantially all of our sales is FOB shipping point and, accordingly, title and the risks and rewards of ownership are transferred to the customer, and revenue is recognized, when goods are shipped. We estimate reductions to revenues for volume-based rebate programs at the time sales are recognized.

Wholesale sales returns are not significant as, generally, we only accept the return of goods that were shipped to retailers in error.

Revenue from retail operations is recognized at the point of sale. We estimate future retail sales returns and record a provision in the period that the related sales are recorded based on historical information. Retail sales are reported net of taxes collected.

## **Table of Contents**

Franchise fee revenue is recognized upon the completion of our performance requirements and the opening of the franchise store. In addition to the initial franchise fee, we also recognize royalty fees generally ranging from 4% to 6% and advertising fund fees ranging from 1% to 2.25% based upon the franchised stores' reported gross retail sales. The terms of our franchise agreements also provide for payments to franchisees based on e-commerce sales originating from specified areas relating to the franchisees' contractual territory. The amounts paid vary based on several factors, including the profitability of our e-commerce sales, and are expensed at the time of sale.

### ***Store Closure Costs***

We record estimated store closure costs, estimated lease commitment costs net of estimated sublease income and other miscellaneous store closing costs when the liability is incurred.

### ***Product Royalty Agreements***

We enter into product royalty agreements that allow us to use licensed designs on certain of our products. These contracts require us to pay royalties, generally based on the sales of such product and may require guaranteed minimum royalties, a portion of which may be paid in advance. We match royalty expense with revenue by recording royalties at the time of sale, at the greater of the contractual rate or an effective rate calculated based on the guaranteed minimum royalty and our estimate of sales during the contract period. Guaranteed minimum royalties paid in advance are recorded in the consolidated balance sheets in either prepaid expenses and other current assets or other assets, depending on the nature of the royalties.

### ***Allowance for Doubtful Accounts***

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers and franchisees to make required payments. A considerable amount of judgment is required in assessing the ultimate realization of these receivables, including consideration of our history of receivable write-offs, the level of past due accounts and the economic status of our customers. In an effort to identify adverse trends relative to customer economic status, we assess the financial health of the markets we operate in and perform periodic credit evaluations of our customers and ongoing reviews of account balances and aging of receivables. Amounts are considered past due when payment has not been received within the time frame of the credit terms extended. Write-offs are charged directly against the allowance for doubtful accounts and occur only after all collection efforts have been exhausted. Because we cannot predict future changes in economic conditions and in the financial stability of our customers, actual future losses from uncollectible accounts may differ from our estimates and could impact our allowance for doubtful accounts.

### ***Inventories***

Inventories are valued at the lower of cost or market. In assessing the ultimate realization of inventories, we are required to make judgments regarding, among other things, future demand and market conditions, current inventory levels and the impact of the possible discontinuation of product designs.

We determine the cost of inventory at our retail stores using the weighted average method. All other inventory cost is determined principally using the first-in, first-out method.

We estimate retail inventory shortage for the period between physical inventory dates on a store-by-store basis. Our inventory shortage estimate can be affected by changes in merchandise mix and changes in actual shortage trends. The shrinkage rate from the most recent physical inventory, in combination with historical experience, is the basis for estimating shrinkage.

### ***Long-Lived and Intangible Assets (including Goodwill)***

We review the recoverability of our long-lived assets, including finite-lived intangible assets, whenever facts and circumstances indicate that the carrying amount may not be fully recoverable. For purposes of

## **Table of Contents**

recognizing and measuring impairment, we evaluate long-lived assets other than goodwill based upon the lowest level of independent cash flows ascertainable to evaluate impairment. If the sum of the undiscounted future cash flows expected over the remaining asset life is less than the carrying value of the assets, we may recognize an impairment loss. The impairment related to long-lived assets is measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset. When fair values are not readily available, we estimate fair values using expected discounted future cash flows. Such estimates of fair value require significant judgment, and actual fair value could differ due to changes in the expectations of cash flows or other assumptions, including discount rates.

In the evaluation of the fair value and future benefits of finite long-lived assets attached to retail stores, we perform our cash flow analysis on a store-by-store basis. Various factors including future sales growth and profit margins are included in this analysis. To the extent these future projections or strategies change, the conclusion regarding impairment may differ from the current estimates.

Goodwill is reviewed for potential impairment on an annual basis or more frequently if circumstances indicate a possible impairment.

For purposes of testing goodwill for impairment, reporting units are determined by identifying individual components within our organization which constitute a business for which discrete financial information is available and is reviewed by management. Components within a segment are aggregated to the extent that they have similar economic characteristics. Based on this evaluation, we have determined that our operating segments, wholesale and retail, represent our reporting units for the purposes of our goodwill impairment test.

If necessary, we estimate the fair value of each reporting unit using expected discounted cash flows. If the carrying amount of a reporting unit exceeds its fair value, the excess, if any, of the fair value of the reporting unit over amounts allocable to the unit's other assets and liabilities is the implied fair value of goodwill. If the carrying amount of a reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss will be recognized in an amount equal to that excess. The fair value of a reporting unit refers to the amount at which the unit as a whole could be sold in a current transaction between willing parties. The determination of such fair value is subjective, and actual fair value could differ due to changes in the expectations of cash flows or other assumptions including discount rates.

### ***Insurance Accruals***

Our consolidated balance sheet includes significant liabilities with respect to self-insured workers' compensation, medical and general liability claims. We estimate the required liability for such claims based upon various assumptions, which include, but are not limited to, our historical loss experience, projected loss development factors, actual payroll and other data. The required liability is also subject to adjustment in the future based upon changes in claims experience, including changes in the number of incidents (frequency) and changes in the ultimate cost per incident (severity). Adjustments to earnings resulting from changes in historical loss trends have been insignificant. Further, we do not anticipate any significant change in loss trends, settlements or other costs that would cause a significant change in our earnings.

### ***Income Taxes***

Temporary differences arising from differing treatment of income and expense items for tax and financial reporting purposes result in deferred tax assets and liabilities that are recorded on the balance sheet. These balances, as well as income tax expense, are determined through management's estimations, interpretation of tax law for multiple jurisdictions and tax planning. However, inherent in the measurement of deferred balances are certain judgments and interpretations of enacted tax laws and published guidance with respect to applicability to our operations. If our actual results differ from estimated results due to changes in tax laws or tax planning, our effective tax rate and tax balances could be affected. As such, these estimates may require adjustment in the future as additional facts become known or as circumstances change.

**Table of Contents**

During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. A valuation allowance is established against deferred tax assets when it is more likely than not that some portion or all of the deferred tax assets will not be realized. These provisions prescribe a comprehensive model of how a company should recognize, measure, present and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. In accordance with these provisions, we recognize a tax benefit when a tax position is more-likely-than-not to be sustained upon examination, based solely on its technical merits. We measure the recognized tax benefit as the largest amount of tax benefit that has greater than a 50% likelihood of being realized upon the ultimate settlement with a taxing authority. We reverse previously recognized tax benefits if we determine that the tax position no longer meets the more-likely-than-not threshold of being sustained. We accrue interest and penalties related to unrecognized tax benefits in income tax expense.

***Stock-Based Compensation***

Accounting for stock-based compensation requires measurement of compensation cost for all stock-based awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. The value of our stock-based awards is recognized as expense over the service period, net of estimated forfeitures. The estimation of stock awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from our current estimates, such amounts will be recorded as a cumulative adjustment in the period estimates are revised. Actual results and future estimates may differ substantially from our current estimates.

**Recently Issued Accounting Pronouncements**

In July 2013, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2013-10, Derivatives and Hedging (Topic 815), Inclusion of the Federal Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedging Accounting Purposes. The pronouncement allows companies to use the federal funds effective rate as a benchmark interest rate for purposes of achieving hedge accounting. Although the pronouncement has no current impact on the Company, it could impact the Company in the future.

In March 2013, the FASB issued ASU 2013-05, Foreign Currency Matters (Topic 830), Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. The pronouncement states that a cumulative translation adjustment is attached to the parent's investment in a foreign entity and should be released in a manner consistent with the derecognition guidance on investments in entities. The ASU is effective for fiscal years beginning after December 15, 2013. Although the Company continues to review this pronouncement, it does not believe that it will have a material impact on the Company's financial statements.

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities. Additionally, in January 2013, the FASB issued ASU 2013-01, Balance Sheet (Topic 210), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. The pronouncements require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The Company adopted the pronouncements on January 1, 2013. The adoption did not have a material impact on the Company's condensed consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The pronouncement requires companies to report, in one place, information about reclassifications out of accumulated other comprehensive income. Additionally, it requires companies to report changes in accumulated other comprehensive income balances. The Company adopted ASU 2013-02 on January 1, 2013. See Note 5 to the audited consolidated financial statements in which are included elsewhere in this prospectus. The adoption did not have a material impact on the Company's condensed consolidated financial statements.

**Quarterly Results**

Despite a concentration of holidays in the fourth quarter of the year, as a result of our expansive product lines and customer base and increased promotional activities, the impact of seasonality on the quarterly results of our wholesale operations has been limited. However, due to Halloween and Christmas, the inventory balances of our wholesale operations are slightly higher during the third quarter than during the remainder of the year. Additionally, the promotional activities of our wholesale business, including special dating terms, particularly with respect to Halloween products sold to retailers and other distributors, result in slightly higher accounts receivable balances during the third quarter. Our retail operations are subject to significant seasonal variations. Historically, our retail segment has realized a significant portion of its revenues, cash flow and net income in the fourth quarter of the year, principally due to our Halloween sales in October and, to a lesser extent, year-end holiday sales.

On July 27, 2012, funds affiliated with THL acquired a majority stake in the Company in the Acquisition. As a result of the Transactions, the financial information for the period after July 27, 2012 represents the financial information of the Successor company. Prior to, and including, July 27, 2012, the consolidated financial statements include the accounts of the Predecessor company. Due to the change in the basis of accounting resulting from the application of the acquisition method of accounting, the Predecessor's consolidated financial statements and the Successor's consolidated financial statements are not necessarily comparable. The following table sets forth our historical revenues, gross profit, income (loss) from operations, net income (loss) and net income (loss) attributable to Party City Holdings Inc. for the quarters ended March 31, 2011 (predecessor), June 30, 2011 (predecessor), September 30, 2011 (predecessor), December 31, 2011 (predecessor), March 31, 2012 (predecessor), June 30, 2012 (predecessor), for the periods from July 1, 2012 to July 27, 2012 (predecessor) and July 28, 2012 to September 30, 2012 (successor), December 31, 2012 (successor), March 31, 2013 (successor) and June 30, 2013 (successor) (dollars in thousands):

- (a) As a result of the Acquisition, the Company applied the acquisition method of accounting and increased the value of its inventory by \$89.8 million as of July 28, 2012. Such adjustment increased the Company's cost of sales during the periods from July 28, 2012 to September 30, 2012, October 1, 2012 to December 31, 2012, January 1, 2013 to March 31, 2013 and April 1, 2013 to June 30, 2013 by \$27.8 million, \$30.8 million, \$10.8 million and \$8.5 million, respectively, as a portion of the related inventory was sold. See the notes to the consolidated financial statements for further detail.
- (b) During February 2013, the Company amended its Term Loan Facility. In conjunction with the refinancing, the Company wrote-off \$5.9 million of costs that had been capitalized during the initial issuance of the debt. Additionally, the Company wrote-off \$2.3 million of the net original issuance discount that existed as of the time of the amendment. Also in conjunction with the refinancing, the Company expensed \$2.5 million of a call premium and \$1.6 million of banker and legal fees. All of the charges were recorded in other expense in the Company's condensed consolidated statement of operations and comprehensive loss.
- (c) Includes: \$8.4 million of compensation expense related to the Acquisition, \$2.1 million of stock-based compensation expense related to the Acquisition and \$16.1 million of expense for payments in lieu of dividends. See the notes to the consolidated financial statements for further detail, including a discussion of the income tax impact.
- (d) Includes: \$28.1 million of costs related to the Acquisition, principally bankers fees and compensation costs, \$2.1 million of stock-based compensation expense related to the Acquisition and \$16.1 million of expense for payments in lieu of dividends. See the notes to the consolidated financial statements for further detail, including a discussion of the income tax impact.

**Quantitative and Qualitative Disclosures about Market Risk**

As a result of our variable rate indebtedness, our earnings are affected by changes in interest rates. From time to time we have utilized interest rate swap agreements to manage the risk associated with such changes. As discussed in the notes to the consolidated financial statements included elsewhere in this prospectus, on July 27, 2012 all amounts outstanding under the \$675.0 million term loan agreement were repaid and the Company entered into the Term Loan Facility. Assuming that the refinancing had occurred on January 1, 2010, if market interest rates for our variable rate indebtedness averaged 2% more than the actual rates, during 2012, 2011 and 2010 the interest expense amounts in the Company's consolidated financial statements included elsewhere in this prospectus would have increased by \$25.3 million, \$25.3 million and \$22.3 million during 2012, 2011 and 2010, respectively. The income (loss) before income taxes for the three years would have also been impacted by the same amounts. These amounts are determined by considering the impact of the hypothetical interest rates on our borrowings and considering any interest rate swap agreements. This analysis does not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Further, in the event of a change of such magnitude, management could potentially take action to mitigate our exposure to the change. However, due to the uncertainty of the specific actions that we would take and their possible effects, the sensitivity analysis assumes no changes in our financial structure.

**Table of Contents**

As a result of the sale of our products in foreign markets, our earnings are affected by fluctuations in the value of the U.S. dollar when compared to the values of foreign currencies. Although we periodically enter into foreign currency forward contracts to hedge against the earnings impact of such fluctuations, we (1) may not be able to achieve hedge effectiveness in order to qualify for hedge-accounting treatment and, therefore, would record any gain or loss on the mark-to-market of the contracts in other expense (income) and (2) may not be able to hedge such risks completely or permanently. A uniform 10% strengthening in the value of the U.S. dollar relative to the currencies in which our foreign sales are denominated would have decreased income from operations, as stated in the consolidated financial statements included elsewhere in this prospectus, by \$16.9 million, \$16.9 million and \$6.7 million during 2012, 2011 and 2010, respectively. The income (loss) before income taxes for the three years would have also been impacted by the same amounts. In addition to the direct effects of changes in exchange rates, changes in exchange rates may also affect the volume of sales or the foreign currency sales price as competitors' products become more or less attractive. Our sensitivity analysis of the effects of changes in foreign currency exchange rates does not consider a potential change in sales levels or local currency prices.

**BUSINESS**

**Our Company**

We are a global leader in decorated party supplies. We make it easy and fun to enhance special occasions with a wide assortment of innovative and exciting merchandise at a compelling value. With the 2005 acquisition of Party City, we created a vertically integrated business combining the leading product design, manufacturing and distribution platform, which constitutes our wholesale business ( Amscan ), with the largest U.S. retailer of party supplies. We believe we have the industry's broadest selection of decorated party supplies, which we distribute to over 100 countries. Our vertically integrated business model and scale differentiate us from most other party supply companies and allow us to capture the manufacturing-to-retail margin on a significant portion of the products sold in our stores. We believe our widely recognized brands, broad product offering, low-cost global sourcing model and category-defining retail concept are significant competitive advantages. We believe these characteristics, combined with our vertical business model and scale, position us for continued organic and acquisition-led growth in the United States and internationally.

Founded in 1947, we started as an importer and wholesaler and have grown to become one of the largest global designers, manufacturers, distributors and retailers of decorated party supplies. Our broad selection of decorated party supplies includes paper and plastic tableware, metallic and latex balloons, novelties, costumes, other garments, stationery and gifts for everyday, themed and seasonal events. Our products are available in over 40,000 retail outlets worldwide, including our own retail network, independent party supply stores, mass merchants, grocery retailers, gift shops, dollar stores and other retailers and distributors throughout the world. We believe that through our extensive offerings, as well as our industry-leading innovation, customer service levels and value, we will continue to win with our customers.

The acquisition of Party City represented an important step in our evolution. Over the last seven years, we have established the largest network of party supply stores in North America with approximately 1,200 locations consisting of over 850 party superstores (inclusive of approximately 50 iParty stores acquired in May 2013 and approximately 215 franchised stores) in the United States and Canada, principally under the Party City banner, and a network of approximately 350 temporary Halloween locations, under the Halloween City banner. We also operate PartyCity.com, our primary e-commerce site. Underscored by our slogan "Nobody Has More Party for Less", we believe we offer a superior one-stop shopping experience with a broad selection, consistently high in-stock positions and compelling value, making us the favored destination for all of our customers' party-supply needs.

Through a combination of organic growth and strategic acquisitions, we increased our consolidated revenues from \$1,560 million in 2008 to \$1,914 million in 2012, representing a compounded annual growth rate of 5.2%.

**Evolution of Our Business**

Over the last 60 years, we have grown to become a global, vertically integrated designer, manufacturer, distributor and retailer of decorated party supplies. Key strategic initiatives that have been important to our evolution include:

Enhancing our wholesale platform through targeted acquisitions while investing in state-of-the-art distribution facilities and developing a strong Asian-based sourcing and sales organization.

Establishing retail leadership in our industry and our vertically integrated model through the acquisitions of Party City, Party America, FCPO and Party City Canada. Following each acquisition, we capitalized on our vertically integrated model by increasing the percentage of the acquired company's total sales that relate to our wholesale products, allowing us to capture the manufacturing-to-retail margin on a growing portion of our retail sales.

Re-launching our e-commerce platform in 2009 provided us with an additional direct-to-consumer channel.

## **Table of Contents**

Broadening our product offering and channel reach by acquiring valuable character licenses and costume capabilities in addition to improving our access to grocery and mass merchant retailers.

Growing our international presence by building relationships with local retailers to develop party supply store-in-store concepts as well as targeted acquisitions that extended our geographic reach.

As a result of these investments, we have created a differentiated, vertically integrated business model. We believe that our superior selection of party supplies, scale, innovation and service position us for future growth across all of our channels.

## **Industry Overview**

We operate in the broadly defined \$10 billion retail party goods industry (including decorative paper and plastic tableware, decorations, accessories and balloons), which is supported by a range of suppliers from commodity paper goods producers to party goods specialty retailers. Sales of party goods are fueled by everyday events such as birthdays, baby showers, weddings and anniversaries, as well as seasonal events such as holidays and other special occasions (Halloween, Christmas, New Year's Eve, graduations, Easter, Super Bowl, Fourth of July). As a result of numerous and diverse occasions, the U.S. party goods market enjoys broad demographic appeal. Additionally, we operate in the \$7 billion Halloween market, a portion of which overlaps with the \$10 billion retail party goods industry. The Halloween market includes costumes, candy and makeup.

The retail landscape is comprised primarily of party superstores, mass merchants, grocery retailers, craft stores and dollar stores. The party superstore has emerged as a preferred destination for party goods shoppers, similar to the dominance of specialty retailers in other categories such as office supplies, pet products and sporting goods. This is typically due to the superstore chain's ability to offer a wider variety of merchandise at more compelling prices in a convenient setting. Other retailers that cater to the party goods market typically offer a limited assortment of party supplies and seasonal items. Mass merchants tend to focus primarily on juvenile and seasonal goods, greeting cards and gift wrap; craft stores on decorations and seasonal merchandise; and dollar stores on general and seasonal party goods items.

The consumable nature and low per-item prices in the party goods market have historically driven demand among consumers seeking to enhance the quality of their gatherings and celebrations. Party goods are an economical means by which to make events and occasions more festive and, as a result, have continued to sell well during economic downturns. Manufacturers and retailers continue to create and market party goods and gifts that celebrate a greater number of events, holidays and occasions. Additionally, the number and types of products offered for each occasion continues to expand, encouraging add-on and impulse purchases by consumers.

## **Business Overview**

We believe we are the leading vertically integrated provider of decorated party goods with a national footprint of party superstores offering an unrivaled selection of party supplies. We have two primary reporting segments: Wholesale and Retail. In 2012, we generated 30.4% of our total revenues from our wholesale segment and 69.6% from our retail segment (which includes 1.0% of total revenues from franchising activities). Our wholesale revenues are generated from the sales of party goods for all occasions, including paper and plastic tableware, accessories and novelties, metallic and latex balloons, stationery and gift items. Our products are sold at wholesale to party goods superstores, including our company-owned and franchised retail stores, other party goods retailers, mass merchants, independent card and gift stores, dollar stores and other retailers and distributors throughout the world. Our retail operations generate revenue primarily through the sale of Amscan, Designware, Anagram and other party supplies through Party City, Halloween City and PartyCity.com. Our franchising revenues are generated from an initial one-time franchise fee, renewal fees and ongoing franchise royalty payments based on retail sales from the franchised stores.

**Wholesale Operations*****Overview***

We are one of the leading designers, manufacturers and distributors of decorated party goods in the world, offering an extensive selection. We currently offer party goods ensembles which range from approximately five to 100 design-coordinated items spanning tableware, accessories, novelties, balloons, decorations and gifts. The breadth of these ensembles enables retailers to promote additional sales of related products for every occasion. To enhance our customers' celebrations of life's important events, we market party goods ensembles for a wide variety of occasions, including seasonal and religious holidays, special events and themed celebrations.

Our Amscan, Anagram and Designware branded products are offered in over 40,000 retail outlets worldwide, ranging from party goods superstores, including our company-owned and franchised retail stores, other party goods retailers, mass merchants, independent card and gift stores, dollar stores and other retailers and distributors throughout the world. We have long-term relationships with many of our wholesale customers. Party goods superstores, the Company's primary channel of distribution, provide consumers with a one-stop source for all of their party needs. Amscan, Anagram and Designware branded products represent a significant portion of party goods carried by both company-owned and third-party stores with the overall percentage continuing to increase, reflecting the breadth of our product line and, based on our scale, our ability to manufacture and source quality products at competitive prices.

The table below shows the breakdown of our total wholesale sales by channel for the year ended December 31, 2012.

<b>Channel</b>	<b>Sales (dollars in millions)</b>
Party City and Halloween City owned stores and e-commerce	\$ 440
Party City franchised stores	147
Other domestic retailers	142
Domestic balloon distributors	84
International balloon distributors	22
Other international	188
<b>Total wholesale sales</b>	<b>\$ 1,023</b>

International party supply markets are generally less mature than the U.S. markets. However, we believe this will change over time, and we are making significant investments to ensure we are well positioned to benefit from growth in these markets. Investments include our September 2010 acquisition of Christy's Group and the January 2011 acquisition of Riethmüller, which provided us with an expanded international platform.

***Wholesale Product Development and Design Capabilities***

Our in-house design staff continuously develops innovative and contemporary product designs and concepts. Our continued investment in art and design results in a steady supply of fresh ideas and the creation of unique ensembles that appeal to consumers. Our creative staff is constantly in the market identifying trends and

new product concepts. We typically introduce 3,000 – 4,000 new products and approximately 50 new party goods ensembles annually. Our proprietary designs and strength in developing new items at attractive prices help differentiate our products from those of our competitors.

**Wholesale Manufactured Products**

We are one of the largest manufacturers of decorated party goods products globally. Our in-house manufacturing capabilities enable us to control costs, monitor product quality, better manage inventory and provide more efficient order fulfillment. Our domestic manufacturing facilities allow us to react rapidly to changing consumer trends and fulfill our customers' needs for key products with fast turnaround times. In 2012, we manufactured items representing approximately 34% of our net sales at wholesale (including sales to the Company's retail operations). Our facilities in Rhode Island, Kentucky, Minnesota, Mexico, Malaysia and New York are highly automated and produce paper and plastic plates and cups, paper napkins, metallic and latex balloons and other party and novelty items at a globally competitive cost. State-of-the-art printing, forming, folding and packaging equipment support these manufacturing operations. Given our size and sales volume, we are generally able to operate our manufacturing equipment on the basis of at least two shifts per day, thus lowering production costs per unit. In select cases, we use available capacity to manufacture products for third parties, which allows us to maintain a satisfactory level of equipment utilization.

The table below summarizes our principal manufacturing facilities.

Location	Principal Products	Approximate Square Feet
East Providence, Rhode Island	Plastic plates, cups and bowls	229,230(1)
Louisville, Kentucky	Paper plates	189,175
Eden Prairie, Minnesota	Metallic balloons and accessories	115,600
Tijuana, Mexico	Piñatas and other party products	135,000
Melaka, Malaysia	Latex balloons	100,000
Harriman, New York	Paper napkins	74,400
Newburgh, New York	Paper napkins and paper cups	52,400

(1) This figure represents an industrial park, which includes a 48,455 square foot office and warehouse.

Complementing our manufacturing facilities, we have a diverse global network of third-party suppliers that supports our strategy of consistently offering a broad selection of high quality, innovative and competitively priced product. We have over 20-year relationships with many of our vendors and often represent a significant portion of their overall business. Third-party manufacturers supplied approximately 66% of products sold at wholesale in 2012. These manufacturers generally produce items designed by and created for us, are located in Asia and are managed by our sourcing office in Hong Kong. We actively work with our third-party suppliers to ensure product cost, quality and safety.

The principal raw materials used in manufacturing our products are paper, petroleum-based resin and cotton. While we currently purchase such raw material from a relatively small number of sources, paper, resin and cotton are available from numerous sources. Therefore, we believe our current suppliers could be replaced without adversely affecting our manufacturing operations in any material respect.

**Wholesale Seasonality**

Despite a concentration of holidays in the fourth quarter of the year, as a result of our expansive product lines, customer base and increased promotional activities, the impact of seasonality on the quarterly results of our wholesale operations has been limited. However, due to Halloween and Christmas, the inventory balances of our wholesale operations are slightly higher during the third quarter than during the remainder of the year. Additionally, the promotional activities of our wholesale business, including special dating terms, particularly with respect to Halloween products sold to retailers and other distributors, result in slightly higher accounts receivable balances during the third quarter.

### ***Wholesale Sales and Marketing***

Our principal wholesale sales and marketing efforts are conducted through an employee sales force servicing approximately 15,000 non-affiliated retail accounts in the United States. In addition to the employee sales team, a select group of manufacturers' representatives handle specific account situations. International customers are generally serviced by employees of our subsidiaries outside the United States. We have our own sales force of professionals in the U.K., Mexico, Canada, Germany, France, Spain and Hong Kong and operate through third-party distributors elsewhere. Our Anagram subsidiary utilizes independent distributors in the United States to bring our metallic balloons to the grocery, retail gift and floral markets, as well as to our party superstore and specialty retailer customers. Additionally, through our agreement with American Greetings, we are able to leverage American Greetings' sales force to place our product into other distribution channels, including mass market, drug and grocery retailers.

To support our sales and marketing efforts, we produce five key decorative party product catalogues annually (four catalogues for seasonal products and one catalogue for everyday products), with additional catalogues produced to market our metallic balloons and gift products and for international markets. We have also developed a website which displays and describes our product assortment and capabilities. We utilize this website as a marketing tool, providing us with the ability to announce special product promotions, new program launches and other information in an expeditious manner. To further promote our products, we participate in a variety of industry trade shows throughout the year.

### ***Wholesale Distribution and Systems***

We ship our products directly to retailers and distributors throughout the world from our distribution facilities, as well as on a freight-on-board ( FOB ) basis directly from our domestic and international factories. Our electronic order entry and information systems allow us to manage our inventory with minimal obsolescence while maintaining strong fill rates and quick order turnaround time.

Our main distribution facility for domestic party customers is located in Chester, New York, with nearly 900,000 square feet under one roof. This state-of-the-art facility, built in 2001 and expanded in 2005, serves as the main point of distribution for our Amscan-branded products and utilizes paperless, pick-by-light systems, offering superior inventory management and turnaround times as short as 48 hours. Over the last ten years, we have made significant investments in order to customize and upgrade our Chester distribution facility and we believe it has sufficient capacity to support our continued growth.

We utilize a bypass system which allows us to ship products directly from selected third-party suppliers to our company-owned and franchised stores, thus bypassing our distribution facilities. In addition to lowering our distribution costs, this bypass system creates warehouse capacity. We expect to grow the percentage of our products shipped via bypass, which will lead to additional savings.

We sell metallic balloons domestically from our facilities in Minnesota and New York.

The distribution center for our e-commerce platform is located in Naperville, Illinois. We also have other distribution centers in the U.K., Germany, Mexico, Australia and Poland, to support our international customers.

### ***Wholesale Customers***

We have a diverse third party customer base at wholesale. During 2012, no individual third party customer accounted for more than 5% of our total sales at wholesale.

### ***Wholesale Product Safety and Quality Assurance***

We are subject to regulatory requirements in the United States and internationally, and we believe that all products that we manufacture comply with the requirements in the markets in which they are sold. Third-party

manufactured products are tested both at the manufacturing site and upon arrival at our distribution center. We have a full-time staff of professionals in the United States, Asia and Europe dedicated to product safety and quality assurance.

### ***Competition at Wholesale***

In our wholesale segment, we compete primarily on the basis of diversity and quality of our product designs, breadth of product line, product availability, price, reputation and customer service. Although we have many competitors with respect to one or more of our products, we believe that there are no competitors who design, manufacture, source and distribute products with the complexity of design and breadth of product lines that we do. Furthermore, our design and manufacturing processes create efficiencies in manufacturing that few of our competitors can achieve in the production of numerous coordinated products in multiple design types. Competitors include smaller independent manufacturers and distributors, as well as divisions or subsidiaries of large companies. Certain of these competitors control various party goods product licenses for widely recognized images, such as cartoon or motion picture characters, which could provide them with a competitive advantage. However, we control a strong portfolio of character licenses for use in the design and production of our metallic balloons and, as a result of the acquisition of Designware, we have access to a strong portfolio of character and other licenses for party goods.

### **Retail Operations**

#### ***Overview***

Opening its first company-owned store in 1986, Party City has grown to become what we believe is the largest operator of owned and franchised party superstores in the United States. At the time of the acquisition in 2005, Party City's network consisted of 502 stores, including 254 franchised locations. Since the acquisition, we have expanded the Party City network to approximately 850 superstore locations in the United States (inclusive of approximately 50 iParty stores acquired in May 2013 and approximately 215 franchised stores) and approximately 30 locations in Canada. We also operate approximately 350 temporary Halloween locations, under the Halloween City banner.

The 2005 combination of Party City and Amscan has led to the creation of a vertically integrated business from which we derive a number of competitive advantages. We offer customers a differentiated shopping experience with extensive selection and consistently high in-stock positions of quality products with a compelling value proposition making us the premier destination for party supplies. Through our vertical model, we also enhance our total profitability by capturing the manufacturing-to-retail margin on a significant portion of our retail sales and by leveraging our access to multiple channels to limit mark-downs and excessive promotions. Moreover, we believe that our direct-to-consumer channels enable our product development teams to effectively respond to trends and changes in consumer preferences, which allows us to keep our assortment fresh and exciting.

Party City was founded on the idea that life should be celebrated in monumental ways, with a passion for inspiring celebrations from Super Bowl to New Year's Eve parties and all the celebrations and seasons in between. With our brand's slogan, "Nobody Has More Party for Less," Party City offers an assortment of party supplies, decorations and costumes perfect for every type of party occasion. With dynamic merchandising displays combined with organized seasonal aisles and hundreds of party themes to match any type of celebration, party planning has never been simpler or more fun.

In recent years, Party City has made substantial investments to enhance the customers' in-store experience and become the ultimate retail destination for party supplies. Stores now showcase dynamic balloon counters displaying hundreds of balloons to coordinate with any occasion. Additionally, store-within-a-store concepts for sports, candy and party favors are focal points in all new stores. Aptly named Sports City, Candy City, Color City and Favor City, these specialty areas create a fun shopping environment, expand product offering and allow us to better showcase the merchandise.

**Table of Contents**

The following table summarizes our company-owned retail footprint for our permanent stores, by format, as well as our strategy going forward:

Format	# of Stores as of December 31, 2008	# of Stores as of December 31, 2012	Average Size of Stores (sq. ft.)	Strategy/Focus
Party City U.S.	385	571	10,000-12,000	Grow the store base opening 25-30 new stores per year
FCPO	166		10,000-12,000	Converted to Party City banner
The Paper Factory and other outlets	92	12	3,500-5,000	Product liquidation channel
Party City Canada		29	8,000-10,500	Enter the Canadian market

We believe that our stores are typically destination shopping locations. We seek to maximize customer traffic and quickly build the visibility of new stores by situating them in high traffic areas. Our stores are predominantly located in strip centers and are generally co-located with other destination retailers. Site selection criteria include population density, demographics, traffic counts, location of complementary retailers, storefront visibility and presence (either in a stand-alone building or in dominant strip shopping centers), competition, lease rates and accessible parking.

As of December 31, 2012, we had 600 company-owned Party City stores (including Canadian locations). The following table shows the change in our company-owned Party City store network:

	2012	2011	2010
Stores open at beginning of period	487	439	382
Stores opened	24	16	13
FCPO and Party City Canada stores converted to Party City	88	31	40
Stores acquired from franchisees	6	8	20
Stores closed	(5)	(7)	(10)
Stores sold			(6)
Stores open at end of period	600	487	439

We spent the last six years integrating our retail acquisitions and rationalizing our store base. We believe there are more than 400 locations in North America that present opportunities for us to expand our party superstore base. In 2012, we opened 24 Party City stores, acquired six Party City stores from franchisees and closed five Party City store locations, as well as converted 88 FCPO/ Party Packagers stores to the Party City banner. A new Party City location costs an average of \$765,000, which includes \$90,000 in pre-openings expenses and \$350,000 of net startup inventory. A typical new store reaches approximately 80% maturity in the first year of operation and reaches maturity in its fourth year of operation. We target locations where stores have the potential to generate annual sales of at least \$2 million at maturity and achieve consolidated pre-tax store contribution of approximately 18% to 20%. We expect our new stores to have a payback period of approximately three years and to generate an average pre-tax cash-on-cash return on invested capital of approximately 50% in year three (including margin generated from our vertical model).

### ***Retail Merchandising***

Our merchandising strategy is based on three core principles:

*Broad Assortment of Merchandise* We believe we offer a greater assortment of products than our national competitors, including mass merchants. Our products span a wide range of lifestyle events from birthdays to themed parties and sporting events, as well as holidays such as Halloween and New Year's. A typical retail store offers a wide selection of Amscan and other merchandise consisting of an average of 25,000 SKUs at any one time to satisfy a broad range of styles and tastes.

*Deep Merchandise Selection* We maintain high in-stock positions of core products and related items, so we are able to address party needs of any size. These high in-stock positions are enabled by our vertical integration model, which results in a high percentage of Amscan merchandise in our company-owned stores and quick turnaround times.

*Compelling Value* Our pricing strategy is to provide the best value to our customers. Our vertically integrated business model enables us to provide our customers with leading prices for most of our product categories. We negotiate pricing with suppliers on behalf of all stores in our network (company-owned and franchised) and believe that our buying power enables us to receive favorable pricing terms and enhances our ability to obtain high demand merchandise. We reinforce our value message through our advertising and marketing campaigns with the "Nobody Has More Party for Less" slogan.

We generally organize the aisles in our stores into four-foot sections based on themed products, which include basic products like plates, cups and napkins and other coordinated accessories that enhance sales and customers' shopping experiences. This presentation makes it simple and easy for our customers to find all their party needs in one convenient location and allows us to achieve a higher average basket size compared to non-specialty channels. We manage each category by product and by SKU and use planograms to ensure a consistent merchandise presentation across our store base. Our coordinated product offering drives add-on purchases as customers are presented with additional decorations, favors and accessories that match their party theme. Our low individual price points encourage impulse buys by customers resulting in higher unit sales.

We have many product categories that relate to birthdays, making this event the largest non-seasonal occasion at approximately 21% of our sales for our permanent domestic operations. We aim to be the pre-eminent resource for the party goods associated with birthday celebrations. Each birthday product category includes a wide assortment of merchandise to fulfill customer needs, including invitations, thank you cards, tableware, hats, horns, banners, cascades, balloons, novelty gifts, piñatas, favors and candy.

Halloween is our retail segment's largest seasonal product category in dollars. As a key component of our sales strategy, our stores provide an extensive selection of Halloween products throughout the year to position us as the premier Halloween shopping destination. The stores also carry a broad array of related decorations and accessories for the Halloween season. In 2012, Halloween business represented approximately 25% of our total domestic retail sales. To maximize our seasonal opportunity, the Company operates a chain of temporary Halloween locations, under the Halloween City banner, during the months of September and October of each year. During 2012, our temporary Halloween locations generated revenues of approximately \$89 million.

As a vertically integrated business, our wholesale operation is the largest supplier to our retail operations. During 2012, our wholesale operations share of shelf at our domestic Party City stores and e-commerce (i.e., the percentage of total cost of sales which relates to product supplied by our wholesale operations) was 64.2%, compared to 62.8% during 2011. The increase was primarily driven by our expanded wholesale product offerings and increased utilization of our bypass initiative, with a target of 75% to 80% over the long term.

We also offer products supplied by other vendors, which include licensed products, candies, greeting cards and costumes. In 2012, no other supplier accounted for more than 10% of our retail segment's purchases.

## **Table of Contents**

### ***Retail Seasonality***

Our retail operations are subject to significant seasonal variations. Historically, this segment has realized a significant portion of its revenues, cash flow and net income in the fourth quarter of the year, principally due to our Halloween sales in October and, to a lesser extent, year-end holiday sales.

### ***E-Commerce***

In August 2009, we re-launched e-commerce capabilities through PartyCity.com, providing us with an additional direct-to-consumer sales channel. Our website offers a convenient, user-friendly and secure online shopping option for new and existing customers. In addition to the ability to order products, we expect our website to provide a substantial amount of content about our party products, party planning ideas and promotional offers. Our website will also be one of our key marketing vehicles, specifically as it relates to social marketing initiatives.

Compared to our Party City superstores, PartyCity.com offers a broader assortment of products with over 35,000 SKUs available online versus an average of 25,000 SKUs at any one time in our party superstores. By seamlessly linking our website to our store network, we intend to offer our customers the option to purchase products online which are not physically available at the store.

We also sell party goods via our PartyAmerica.com website and, during March 2013, we acquired Party Delights, a U.K. retail e-commerce business with approximately \$18 million of annual revenues. The acquisition expanded our e-commerce platform into Europe.

In 2012, sales from e-commerce were \$96.1 million or approximately 7.3% of total retail net sales. We believe that our website is well positioned to continue to capture market share of online purchases, which represent one of the fastest growing distribution channels for party related goods, as we capitalize on our competitive advantages which include a nationwide store base, strong brand recognition and vertical integration. The average basket size through our e-commerce site is approximately three times as large as the average basket size in our Party City stores. We plan to drive future traffic to our website through the continuation of our pay-per-click advertising strategy, through our mobile site and by utilizing the approximately 8 million e-mail addresses that we have obtained (as of December 31, 2012) from visitors to our stores and visitors to the website.

### ***Retail Advertising and Marketing***

Our advertising focuses on promoting specific seasonal occasions and general party themes, with a strong emphasis on our price-value proposition *Nobody Has More Party for Less* with the goal of increasing customer traffic and further building our brand. In late 2009, we modified our advertising strategy to minimize our dependency on newspaper inserts and focus instead on a national broadcasting campaign to further develop our customer base. This shift emphasizes brand building and our price-value proposition. As a result, our use of newspaper inserts has decreased from 60% of gross domestic advertising spend in 2009 to 13% in 2012, while the use of broadcasts has increased to 61% of gross domestic advertising spend in 2012.

**Table of Contents****Franchise Operations**

As of December 31, 2012, we had 214 franchised stores throughout the United States and Puerto Rico run by franchisees utilizing our format, design specifications, methods, standards, operating procedures, systems and trademarks. Our wholesale sales to our franchised stores generally mirror, with respect to relative size, mix and category, those to our company-owned stores. The following table shows the change in our franchisee-owned store network:

	2012	2011	2010
Stores open at beginning of period	221	232	250
Stores opened/acquired by existing franchisees	1	2	7
Stores sold to the Company	(6)	(8)	(20)
Stores closed or converted to independent	(2)	(5)	(5)
Stores open at end of period	214	221	232

We are not currently marketing, nor do we plan to market, new franchise territories.

We receive revenue from our franchisees, consisting of an initial one-time fee and ongoing royalty fees generally ranging from 4% to 6%. In exchange for these franchise fees, franchisees receive brand value and company support with respect to planograms, information technology, purchasing and marketing. In addition, each franchisee has a mandated advertising budget, which consists of a minimum initial store opening promotion and ongoing local advertising and promotions. Further, franchisees must pay an additional 1% to 2.25% of net sales to a group advertising fund to cover common advertising materials. The terms of our franchise agreements provide for payments to franchisees based on e-commerce sales originating from specified areas relating to the franchisees' contractual territory. The amounts paid by us vary based on several factors, including the profitability of our e-commerce sales, and are expensed at the time of sale. We do not offer financing to our franchisees for one-time fees or ongoing royalty fees. Our franchise agreements provide us with a right of first refusal should any franchisee look to dispose of its operations.

Current franchise agreements provide for an assigned area or territory that typically equals a three or four-mile radius from the franchisee's store location and the right to use the Party City® logo and trademark. In addition, certain agreements with our franchisees and other business partners contain geographic limitations on opening new stores. In most stores, the franchisee or the majority owner of a corporate franchisee devotes full time to the management, operation and on-premises supervision of the stores or groups of stores.

**Competition at Retail**

In our retail segment, our stores compete primarily on the basis of product mix and variety, store location and layout, customer convenience and value. Although we compete with a variety of smaller and larger retailers, including, but not limited to, independent party goods supply stores, specialty stores, dollar stores, warehouse/merchandise clubs, drug stores, mass merchants and catalogue and Internet merchandisers, we believe that our retail stores maintain a leading position in the party goods business by offering a wider breadth of merchandise than most competitors and a greater selection within merchandise classes, at a compelling value. We are one of the only vertically integrated suppliers of decorated party goods. While some of our competitors in our markets have greater financial resources, we believe that our significant buying power, which results from the size of our retail store network and the breadth of our assortment, is an important competitive advantage. Many of our retail competitors are also customers of our wholesale business.

**Government Regulation**

As a franchisor, we must comply with regulations adopted by the Federal Trade Commission, such as the Trade Regulation Rule on Franchising, which requires us, among other things, to furnish prospective franchisees with a franchise offering circular. We also must comply with a number of state laws that regulate the offer and

## **Table of Contents**

sale of our franchises and certain substantive aspects of franchisor-franchisee relationships. These laws vary in their application and in their regulatory requirements. State laws that regulate the offer and sale of franchises typically require us to, among other things, register before the offer and sale of a franchise can be made in that state and to provide a franchise offering circular to prospective franchisees.

State laws that regulate the franchisor-franchisee relationship presently exist in a substantial number of states. Those laws regulate the franchise relationship, for example, by restricting a franchisor's rights with regard to the termination, transfer and renewal of a franchise agreement (for example, by requiring good cause to exist as a basis for the termination and the franchisor's decision to refuse to permit the franchisee to exercise its transfer or renewal rights), by requiring the franchisor to give advance notice to the franchisee of the termination and give the franchisee an opportunity to cure most defaults. To date, those laws have not precluded us from seeking franchisees in any given area and have not had a material adverse effect on our operations.

Our wholesale and retail segments must also comply with applicable regulations adopted by federal agencies, including product safety regulations, and with licensing and other regulations enforced by state and local health, sanitation, safety, fire and other departments. Difficulties or failures in obtaining the required licenses or approvals can delay and sometimes prevent the opening of a new store or the shutting down of an existing store.

Our manufacturing operations, stores and other facilities must comply with applicable environmental, health and safety regulations, although the cost of complying with these regulations to date has not been material. More stringent and varied requirements of local governmental bodies with respect to zoning, land use, and environmental factors can delay, and sometimes prevent, development of new stores in particular locations.

Our stores must comply with the Fair Labor Standards Act and various state laws governing various matters such as minimum wages, overtime and other working conditions. Our stores must also comply with the provisions of the Americans with Disabilities Act, which requires that employers provide reasonable accommodation for employees with disabilities and that stores must be accessible to customers with disabilities.

## **Copyrights and Trademarks**

We hold copyright registrations on the designs we create and use on our products and trademark registrations on the words and designs used on or in connection with our products. It is our practice to register our copyrights with the United States Copyright Office and trademarks with the United States Patent and Trademark Office to the extent we deem necessary. In addition, we rely on unregistered common law trademark rights and unregistered copyrights under applicable U.S. law to distinguish and/or protect our products, services and branding. We do not believe that the loss of copyrights or trademarks with respect to any particular product or products would have a material adverse effect on our business. We hold numerous intellectual property licenses from third parties, allowing us to use various third-party cartoon and other characters and designs principally on our metallic balloons and costumes. None of these licenses is individually material to our aggregate business.

We permit our franchisees to use a number of our trademarks and service marks, including Party City<sup>®</sup>, The Discount Party Super Store<sup>®</sup>, Party America<sup>®</sup> and Halloween City<sup>®</sup>.

## **Information Systems**

We continually evaluate and upgrade our information systems to enhance the quantity, quality and timeliness of information available to management and to improve the efficiency of our manufacturing and distribution facilities, as well as our service at the store level. We have implemented merchandise replenishment software to complement our distribution, planning and allocation processes. The system enhances the store replenishment function by improving in-stock positions, leveraging our distribution infrastructure and allowing

us to become more effective in our use of store labor. We have implemented a Point of Sale system and upgraded merchandising systems to standardize technology across all of our domestic retail superstores and we have implemented similar systems at our temporary Halloween City locations.

We lease the property for all of our company-owned stores. We do not believe that any individual store property is material to our financial condition or results of operations. Of the leases for the company-owned stores at December 31, 2012, 117 expire in 2013, 108 expire in 2014, 44 expire in 2015, 53 expire in 2016, 56 expire in 2017 and the balance expire in 2018 or thereafter. We have options to extend many of these leases for a minimum of five years.

We believe that our properties have been adequately maintained, are in generally good condition and are suitable for our business as presently conducted. We believe our existing manufacturing facilities provide sufficient production capacity for our present needs and for our anticipated needs in the foreseeable future. To the extent such capacity is not needed for the manufacture of our products, we generally use such capacity for the manufacture of products for others pursuant to terminable agreements. All manufacturing and distribution facilities generally are used on a basis of two shifts per day. We also believe that, upon the expiration of our current leases, we will be able either to secure renewal terms or to enter into leases for alternative locations at market terms.

**EXECUTIVE COMPENSATION**

**Compensation Discussion and Analysis**

This compensation discussion and analysis section will provide context for the information contained in the tables following this discussion and is intended to provide information about our 2012 compensation objectives and policies for Gerald C. Rittenberg, our Chief Executive Officer, James M. Harrison, our President and Treasurer, Michael A. Correale, our Chief Financial Officer, and Gregg A. Melnick, our President-Party City Retail Group (collectively, our named executive officers).

The compensation objectives and policies of the compensation committee of the Board (the Compensation Committee) prior to and after the consummation of the Acquisition are comparable. Any material changes made by the successor Compensation Committee to our compensation programs are highlighted in this Executive Compensation section. Such changes will impact the Company's 2013 compensation objectives and policies. These changes include the adoption of the 2012 Omnibus Equity Incentive Plan. At this time it is expected that the 2013 annual cash bonus plan will be similar to the 2012 plan.

***Compensation Committee***

Prior to the consummation of the Acquisition on July 27, 2012, the Compensation Committee consisted of Richard K. Lubin, Kevin M. Hayes, Jordan A. Kahn and David M. Mussafer. Effective upon the consummation of the Acquisition, a new Board and Compensation Committee was appointed. The new members of the Compensation Committee are Todd M. Abbrecht, Jefferson M. Case and Joshua M. Nelson. The Compensation Committee is responsible for setting and administering our executive compensation policies and programs and determining the compensation of our executive officers. The Compensation Committee also administers our Equity Incentive Plans (as defined under Components of Compensation - Stock-based Incentive Program).

The Compensation Committee has the authority to retain outside independent executive compensation consultants to assist in the evaluation of executive officer compensation and in order to ensure the objectivity and appropriateness of the actions of the Compensation Committee. The Compensation Committee has the sole authority to retain, at our expense, and terminate any such consultant, including sole authority to approve such consultant's fees and other retention terms. However, all decisions regarding compensation of executive officers are made solely by the Compensation Committee. No independent executive compensation consultants were retained by the Compensation Committees during 2012.

***Compensation Philosophy***

Our executive compensation program has been designed to motivate, reward, attract and retain the management deemed essential to ensure our success. The program seeks to align executive compensation with our short and long-term objectives, business strategy and financial performance. We seek to create a sustainable competitive advantage by achieving higher productivity and lower costs than our competitors. Our compensation objectives at all compensation levels are designed to support this goal by:

linking pay to performance to create incentives to perform;

ensuring compensation levels and components are actively managed; and

using equity compensation to align employees' long-term interests with those of our stockholders.

***Compensation***

Our Chief Executive Officer and our President and Treasurer jointly evaluate the performance of all executive and senior officers, other than themselves, against their established goals and objectives and recommend compensation packages to the Compensation Committee. The Compensation Committee evaluates the performance of our Chief Executive Officer and President and Treasurer. The Compensation Committee

## **Table of Contents**

meets annually, usually in February or March, to evaluate the performance of the executive and senior officers, and to establish their base salaries, annual cash incentive award for the prior year's performance and share-based incentive compensation to be effective for the current year. The Compensation Committee may meet at interim dates during the year to review the compensation package of a named executive officer or other officer as the result of unforeseen organizational or responsibility changes, including new hires, which occur during the year.

In determining compensation components and levels, the Chief Executive Officer, President and Treasurer and the Compensation Committee consider the scope and responsibility of the officer's position, our overall financial and operating performance, the officer's overall performance and future potential, and the officer's income potential resulting from common stock acquired and stock options received in prior years. The current members of the Compensation Committee are representatives of private equity firms that collectively own approximately 93% of our outstanding equity. Thus, unlike the situation at many public companies, compensation decisions at our company are made by individuals who have a real and direct economic stake in the outcome of the decisions. The Compensation Committee members apply their considerable experiences in serving as directors of private equity portfolio companies to devise compensation packages that they believe will attract, retain and provide incentives to the executive talent necessary to manage an entity in which their firms have a substantial economic interest. Although the Compensation Committee looks to other companies to get a sense of the market for executive compensation in comparable circumstances, it does not engage in formal benchmarking. The members take the compensation actions that a prudent owner of a business would take to make sure that they have the right executive management to protect their investment.

Our Chief Executive Officer and our President and Treasurer set salaries and bonus opportunities for employees below the levels of executive and senior officers and make recommendations with respect to equity incentive awards to employees at these levels.

### ***Components of Compensation***

The Company's named executive and other officer compensation includes both short-term and long-term components. Short-term compensation consists of an officer's annual base salary and annual incentive cash bonus. Long-term compensation may include grants of stock options, restricted stock or other share-based incentives established by the Company, as determined by the Compensation Committee.

Compensation is comprised of the following components:

#### ***Base Salary***

The base salaries for our officers were determined based on the scope of their responsibilities, basing the determination in large part on the collective experience that the Sponsor representatives have with other companies in their respective portfolios. Generally, we believe that executive base salaries should be near the middle of the range of salaries that our Compensation Committee members have observed for executives in similar positions and with similar responsibilities. Base salaries are reviewed annually and adjusted from time to time to reflect individual responsibilities, performance and experience, as well as market compensation levels. In the case of Mr. Rittenberg and Mr. Harrison, annual salary adjustments are determined in accordance with their respective employment agreements. Mr. Correale's and Mr. Melnick's annual salary adjustments for 2012 were the result of an evaluation of their overall performance during the last completed fiscal year by the Compensation Committee, the Chief Executive Officer and the President and Treasurer.

#### ***Annual Cash Bonus Plan***

We have an annual cash incentive plan that is designed to serve as an incentive to drive annual financial performance. As a company with a substantial amount of indebtedness, we believe that Adjusted EBITDA is an important measure of our financial performance and ability to service our indebtedness and we use it as the target metric for our annual cash incentive plan. Adjusted EBITDA is a non-GAAP measure used internally and is

**Table of Contents**

measured by taking net income (loss) from operations and adding back interest charges, income taxes, depreciation and amortization and other adjustments which eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance. For a discussion of our use of Adjusted EBITDA and a reconciliation to net income, please refer to Selected Historical Consolidated Financial Statements.

During 2012, the target annual bonus for each named executive officer was based on a percentage of base salary ranging from 50%, in the case of Mr. Correale and Mr. Melnick, to 100%, in the case of Mr. Rittenberg and Mr. Harrison. For twenty-five percent (25%) of the target, the Compensation Committee, with input from our Chief Executive Officer and President and Treasurer, determines, on a subjective basis, the amount that should be paid. In making the determination, the Compensation Committee evaluates the individual executive's overall contribution during the prior year, but there are no specific, pre-determined, performance goals. The remaining seventy-five percent (75%) of an executive's target annual bonus depends on our performance against an Adjusted EBITDA target and also requires that the Compensation Committee, with input from senior management, is satisfied with the contributions made by the executive during the year. Depending on actual Adjusted EBITDA, the portion of the incentive award that is related to Adjusted EBITDA can be paid at a maximum of 200% for Mr. Rittenberg and Mr. Harrison and 150% for Mr. Correale and Mr. Melnick.

In addition to an executive's target annual bonus, the Compensation Committee can elect to pay additional bonuses to certain executives if, in its subjective judgment, the performance of such executives warrants additional compensation. On July 27, 2012, funds affiliated with THL acquired a majority stake in the Company in connection with the Acquisition and the investors in the Company approved and paid discretionary bonuses to certain executives in conjunction with the Acquisition.

The target Adjusted EBITDA for 2012 was \$310 million. If actual Adjusted EBITDA had equaled that amount, each of the named executive officers would have earned 100% of the Adjusted EBITDA portion of the incentive award target. If we had achieved Adjusted EBITDA of less than \$281 million, the named executive officers would have earned 0% of the Adjusted EBITDA portion of the incentive award target. If we had achieved Adjusted EBITDA equal to \$281 million, the named executive officers would have earned 50% of the Adjusted EBITDA portion of the incentive award target. If actual Adjusted EBITDA equaled \$345 million, each of the named executive officers would have earned 150% of the Adjusted EBITDA portion of the incentive award target. If Adjusted EBITDA exceeded \$281 million, but was less than \$310 million, the percentage of the Adjusted EBITDA portion of the incentive award target that was earned by the named executive officers would have been adjusted on a pro-rata basis. If Adjusted EBITDA exceeded \$310 million, but was less than \$345 million, the percentage of the Adjusted EBITDA portion of the incentive award target that was earned by the named executive officers would have been adjusted on a pro-rata basis. If Adjusted EBITDA exceeded \$345 million, Mr. Rittenberg and Mr. Harrison would have earned 200% of the Adjusted EBITDA portion of the incentive award target.

We achieved Adjusted EBITDA of \$292 million. As a result, the Compensation Committee paid the named executive officers 69% of the Adjusted EBITDA portion of the incentive award target. Additionally, the Compensation Committee determined that all of the named executive officers should receive 60% of the remaining twenty-five percent (25%) of their incentive award targets.

*Stock-based Incentive Program*

Prior to the consummation of the Acquisition, the Company maintained the 2004 Equity Incentive Plan (the "2004 Equity Incentive Plan"), under which the Compensation Committee granted incentive awards in the form of options to purchase shares of common stock to directors, officers, employees and consultants of the Company and its affiliates. Subsequent to the consummation of the Transactions, the Company adopted the 2012 Omnibus Equity Incentive Plan (the "2012 Equity Incentive Plan" and, collectively, with the 2004 Equity Incentive Plan, the "Equity Incentive Plans"), under which the Company can grant incentive awards in the form of stock appreciation rights, restricted stock and common stock options to certain directors, officers, employees and

## **Table of Contents**

consultants of the Company and its affiliates. As of December 31, 2012, no awards had been granted under the 2012 Equity Incentive Plan. During the three months ended June 30, 2013, 998 time-based stock options and 1,493 performance-based stock options were granted.

The Compensation Committee uses the Equity Incentive Plans as an important component of our overall compensation program because it helps retain key employees, aligns their financial interests with the interests of our equity owners, and rewards the achievement of the our long-term strategic goals. Common stock options provide our employees with the opportunity to purchase and maintain an equity interest in the Company and to share in the appreciation of the value of our stock.

The Compensation Committee uses both time-based awards and performance-based awards to provide what it believes are the appropriate incentives. Time-based stock options help to retain executives, who must be employed by us at the time the award vests. In addition, because we set the exercise price of stock options at the fair value of the common stock at the time of grant, our equity value must increase, thereby benefiting all stockholders, before the awards have any value. Additionally, we grant performance-based awards that vest, upon a change-in-control, if specified internal rates of return are achieved and/or the Company's price per share reaches specified amounts. We believe that these options put our executives in the shoes of the equity owners and align their interest with those of our stockholders.

Unless otherwise provided in the related award agreement or, if applicable, the Company's stockholders agreement, immediately prior to change of control transactions described in the Equity Incentive Plans, all outstanding time-based options will, subject to certain limitations, become fully exercisable and vested, and any restrictions and deferral limitations applicable to any restricted stock awards will lapse. We believe that providing for acceleration upon a liquidity event such as a change of control helps to align the interests of the executives with those of the stockholders.

In February 2012, the Compensation Committee made a stock option award to Gregg A. Melnick. The award consisted of time-based options for 10 shares of our common stock. The options vested upon consummation of the Acquisition.

The Acquisition accelerated the vesting of all of the Company's time-based options and certain of the Company's performance-based options and, as a result, the Company recorded \$2.1 million of stock-based compensation expense for the period from January 1, 2012 to July 27, 2012. Any performance-based options which did not vest at the time of the Acquisition were cancelled. No new stock options were granted subsequent to July 27, 2012.

The 2012 Equity Incentive Plan is further described below under the heading 2012 Equity Incentive Plan.

### *Special stock option distribution*

In December 2010, in connection with the refinancing of our previous \$675.0 million term loan agreement, the Board declared a one-time cash dividend of \$9,400 per share of outstanding common stock of Party City Holdings Inc. Because a dividend of that magnitude would reduce the value of the common stock, the Compensation Committee made dividend equivalent distributions to the holders of vested options. The named executive officers, to the extent they held vested options, received the same payment per vested option as if they were stockholders. These distributions are reflected in the All Other Compensation column of the Summary Compensation Table below. In addition, the Compensation Committee decided to pay a dividend equivalent, without interest, on each other option that was outstanding at the time the dividend was declared, to the extent that such options vested. The Board and Compensation Committee believe that this treatment of option holders is fair and consistent with their status as equity participants in the Company. At the time of the Acquisition certain outstanding stock options became fully vested and the Company paid dividend equivalents in the amount of \$16.1 million. The Company recorded a charge equal to such amount in the Company's consolidated financial statements for the period from January 1, 2012 to July 27, 2012.

**Table of Contents***Other compensation*

Each named executive is eligible to participate in our benefit plans, such as medical, dental, group life, disability and accidental death and dismemberment insurance. Under our profit-sharing plans, our named executive officers and generally all full-time domestic exempt and non-exempt employees who meet certain length-of-service and age requirements, as defined in such plans, may contribute a portion of their compensation to the plan on a pre-tax basis and receive an employer matching contribution ranging from approximately 12% to 100% of the employee contributions, not to exceed a range of 4% to 6% of the employee's annual salary. In addition, our profit-sharing plans provide for annual discretionary contributions to be credited to participants' accounts. Named executive officers participate in the benefit plans on the same basis as our other employees.

The Chief Executive Officer and the President and Treasurer drive automobiles owned by the Company. The Chief Financial Officer and the President-Party City Retail Group each receive an allowance to cover the cost of his automobile. The annual value of the automobile usage and the allowance are reported as taxable income to the executive and are reflected in the All Other Compensation column of the Summary Compensation Table below. All employees, including the named executives are reimbursed for the cost of business-related travel.

**Tax Treatment**

Because our common stock is not currently publicly traded, executive compensation has not been subject to the provisions of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), which limit the deductibility of compensation paid to certain individuals to \$1.0 million, excluding qualifying performance-based compensation and certain other compensation.

For a discussion of Mr. Rittenberg's and Mr. Harrison's employment contracts, see Employment Agreements. The following table presents the potential post-employment severance, bonus and deferred bonus payments payable to Mr. Rittenberg, Mr. Harrison and Mr. Correale, as applicable, and assumes that the triggering event took place on December 31, 2012.

- (1) If the employee is terminated other than for cause, or if he terminates his employment for good reason, the employee is entitled to receive three times the sum of his base salary and \$500,000 (\$400,000 in the case of Mr. Harrison). If the employee is terminated under those circumstances within six months following a change in control, the employee receives the sum of (a) his base salary multiplied by three and (b) the amount equal to the annual bonus paid to the employee with respect to the last full calendar year of his employment prior to the change in control (the table assumes that such year was 2012).
- (2) In accordance with the employment agreements for Mr. Rittenberg and Mr. Harrison, if their employment is terminated other than for cause or if they terminate their employment agreements for good reason, we are obligated to pay them their earned, but unpaid, annual bonuses for any prior year and a pro rata bonus for the year of termination. Amounts represent non-equity incentive plan compensation earned in 2012.
- (3) Represents payment under the severance agreement based on the officer's base salary and 100% bonus for the year of termination (the table assumes Mr. Correale's salary as of December 31, 2012 and 100% of his earned bonus for 2012).
- (4) If Mr. Rittenberg and Mr. Harrison are not offered employment on substantially similar terms by us or one of our affiliates following a change in control, their employment will be treated as having been terminated other than for cause. See (1) above for the calculation of termination benefits.

**Employment Agreements**

*Employment Agreement with Gerald C. Rittenberg.* Gerald C. Rittenberg entered into an employment agreement with the Company, dated June 1, 2011 and amended on July 1, 2011 (the Rittenberg Employment Agreement), pursuant to which Mr. Rittenberg will serve as our Chief Executive Officer for an employment period of January 1, 2011 through December 31, 2015. For 2011, Mr. Rittenberg's annual base salary is \$1,212,750. His base salary is subject to an automatic five percent increase on January 1 each year during his employment period commencing in 2012. Mr. Rittenberg will be eligible for an annual bonus with a target of 100% of annual base salary for each calendar year during the employment period consistent with the Company's bonus plan for key executives in effect from time to time, not to exceed 200% of the annual base salary. In addition to the annual bonus, Mr. Rittenberg is entitled to receive a deferred bonus accruing at a rate of \$500,000 per year (the Deferred Bonus). The Deferred Bonus for the period beginning on January 1, 2011 and ending on December 31, 2012 will be paid to Mr. Rittenberg on December 31, 2012, subject to his remaining continuously employed by the Company through such date, or, if earlier, upon the termination of Mr. Rittenberg's employment by the Company other than for cause, by Mr. Rittenberg for good reason, or by reason of Mr. Rittenberg's permanent disability or death. If Mr. Rittenberg continues his employment after December 31, 2012, the Deferred Bonus accruing for the period beginning January 1, 2013 will be paid upon the earliest of the expiration of the employment period or the termination of his employment by the Company other than for cause, by Mr. Rittenberg for good reason, or by reason of Mr. Rittenberg's permanent disability or death. Any payment of

**Table of Contents**

the Deferred Bonus to Mr. Rittenberg upon the termination of his employment will be subject to his signing a release of claims. The Rittenberg Employment Agreement also provides for other customary benefits including savings and retirement plans, paid vacation, health care and life insurance plans and expense reimbursement.

Under the Rittenberg Employment Agreement, if we terminate Mr. Rittenberg's employment other than for cause, or if Mr. Rittenberg terminates his employment for good reason, we would be obligated to pay Mr. Rittenberg the following lump sum cash payments: (1) accrued unpaid salary, earned but unpaid annual bonus for any prior year and accrued but unpaid vacation pay (collectively, the Accrued Obligations); (2) severance pay (the Severance Payment) equal to (A)(x) his annual base salary plus (y) \$500,000 multiplied by (B) the number of years in the Restriction Period (which will last one to three years following the termination of his employment, as described below); provided, however, that if such a termination occurs within six months following a change in control, the Restriction Period will equal three years and the Severance Payment will equal the sum of three years' base salary and the amount of annual bonus paid to Mr. Rittenberg with respect to the last full calendar of his employment prior to the change in control; (3) the Deferred Bonus (as described above and calculated under the Rittenberg Employment Agreement) and (4) a pro rata annual bonus for the year of termination. Upon termination of Mr. Rittenberg's employment by us for cause, or upon the termination of his employment without good reason, Mr. Rittenberg will be entitled to the Accrued Obligations. Upon his termination due to death or disability, he will be entitled to the Accrued Obligations, the Deferred Bonus and a pro rata annual bonus for the year of termination. All payments of the Deferred Bonus and pro rata bonus are subject to Mr. Rittenberg's signing of a release of claims.

If a change in control occurs and Mr. Rittenberg is not offered employment on substantially similar terms by us or by one of our continuing affiliates immediately thereafter, then for all purposes of the Rittenberg Employment Agreement, Mr. Rittenberg's employment will be treated as having been terminated by us other than for cause effective as of the date of such change in control. However, if Mr. Rittenberg is hired or offered employment on substantially similar terms by the purchaser of our stock or assets, if his employment is continued by us or one of our continuing affiliates, or if Mr. Rittenberg does not actually terminate employment, he will not be entitled to the treatment described in the preceding sentence.

The Rittenberg Employment Agreement also provides that during the term of the agreement and the Restriction Period (as described below), Mr. Rittenberg will be subject to certain non-competition and non-solicitation provisions, as described in the Rittenberg Employment Agreement. The Restriction Period will be three years in the event of the termination of Mr. Rittenberg's employment by us for cause or by Mr. Rittenberg without good reason. If we terminate Mr. Rittenberg's employment other than for cause or due to his death or permanent disability, or Mr. Rittenberg terminates his employment for good reason, the Restriction Period will be instead a one, two or three-year period, determined at our election (except that following a change in control, the Restriction Period will be three years if Mr. Rittenberg's employment is terminated by us other than for cause or by Mr. Rittenberg for good reason).

*Employment Agreement with James M. Harrison.* James M. Harrison entered into an employment agreement with the Company, dated June 1, 2011 and amended on July 1, 2011 (the Harrison Employment Agreement), pursuant to which Mr. Harrison agreed to serve as our President for an employment period of January 1, 2011 through December 31, 2015. The Harrison Employment Agreement is substantially identical to the Rittenberg Employment Agreement. The only material differences from the Rittenberg Employment Agreement are that (1) for 2011, Mr. Harrison's annual base salary is \$1,030,837.50, (2) Mr. Harrison's deferred bonus accrues at a rate of \$400,000 per year, and (3) the Severance Payment payable to Mr. Harrison in the case of a termination of his employment by us other than for cause or by Mr. Harrison for good reason is based on his annual base salary plus \$400,000.

### **2012 Equity Incentive Plan**

The following is a description of the material terms of the 2012 Equity Incentive Plan.

*Plan Administration.* The Compensation Committee, or the Board itself in the absence of a Compensation Committee, is authorized to make grants and various other decisions under the 2012 Equity Incentive Plan.

*Authorized Shares.* Subject to adjustment as described in the 2012 Equity Incentive Plan, the maximum number of shares of common stock that may be delivered in satisfaction of awards under the 2012 Equity Incentive Plan is 3,706. Shares of common stock to be issued under the 2012 Equity Incentive Plan may be authorized but unissued shares of common stock or, if determined by the Board in its sole discretion, previously-issued shares acquired by the Company and held in our treasury.

*Eligibility.* The Compensation Committee selects participants from among those employees, directors and consultants who are in a position to make a significant contribution to our success.

*Types of Awards; Vesting.* The 2012 Equity Incentive Plan provides for grants of stock options, restricted stock, stock appreciation rights and other stock-based awards. The Compensation Committee has the authority to determine the vesting schedule applicable to each award, and to accelerate the vesting or exercisability of any award.

*Amendment and Termination.* The Compensation Committee may amend the 2012 Equity Incentive Plan or outstanding awards, or terminate the 2012 Equity Incentive Plan, except that the consent of a participant will be required for any amendment to an award that adversely affects a participant's rights under such award.

*Change in Control.* Performance-based stock options vest if certain service requirements are met and if specified internal rates of return are achieved and the Company's price per share reaches specified amounts. In the event of a change in control, the service requirement is not automatically satisfied if such change in control date is less than five years from the grant date of the options. All time-based stock options become fully vested in the event of a change in control.

### **Director Compensation**

#### ***Annual Compensation***

Directors who are also our employees, or are representatives of our Sponsors, receive no additional compensation for serving as a director. In 2012, three independent directors served on our Board. Following the consummation of the Acquisition on July 27, 2012, a new Board was appointed and, as of December 31, 2012, all members were non-independent directors. During 2013, Norman S. Matthews was appointed as an independent director.

We agreed to pay, and will continue to pay, the independent directors an annual retainer fee and additional fees for regular and special meetings of the Board. We also reimbursed, and will continue to reimburse, our independent directors for customary expenses for attending board and committee meetings. In addition, Mr. Kahn and Ms. Meyrowitz were each granted 2.5 time-based stock options and 2.5 performance-based stock options during the year that they joined the Board and, Mr. Kussell was granted 2 time-based stock options during the year that he joined the Board.

**Table of Contents**

The following table further summarizes the compensation paid to the independent directors for the year ended December 31, 2012.

William Kussell	6,500	53,209	59,709
Carol M. Meyrowitz	5,000	175,471	180,471

- (1) In connection with the consummation of the Acquisition, certain outstanding stock options became fully vested and exercisable. Directors holding vested options received cash payments equal to the difference between the fair value of the Company's stock, as determined by the acquisition price, and the exercise prices of the stock options. Mr. Kahn, Mr. Kussell and Ms. Meyrowitz received cash payments in the amounts of \$193,424, \$40,669 and \$155,543, respectively. Additionally, due to the vesting of the options, Mr. Kahn, Mr. Kussell and Ms. Meyrowitz received special cash distributions in the amounts of \$23,500, \$12,540 and \$19,928, respectively, due to the dividend that the Company declared in 2010 (see Compensation Discussion and Analysis Special stock option distribution for further discussion).

**Compensation Committee Interlocks and Insider Participation**

The members of the Compensation Committee who served during 2012 are set forth under Compensation Committee. There were no interlocks or insider participation between any member of the Board of Directors or Compensation Committee and any member of the board of directors or compensation committee of any other company, nor has any interlocking relationship existed in the past.

**CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS**

**Agreements with Management**

We have previously entered into employment agreements with certain of our executive officers. See Executive Compensation Employment Agreements.

**Stockholders Agreement**

In connection with the Acquisition, Parent, the Sponsors, American Greetings and certain members of management entered into a stockholders agreement (the Stockholders Agreement ). The Stockholders Agreement contains provisions related to the election of directors, governance, stock transfer restrictions, customary drag-along rights and customary tag-along rights and preemptive rights. The Stockholders Agreement terminates upon the earlier of (i) an initial public offering of Parent or any subsidiary of Parent, (ii) consummation of a change of control as defined in the Stockholders Agreement and (iii) the mutual written consent of Parent, the Sponsors, American Greetings and a majority in interest of members of senior management party to the Stockholders Agreement.

Pursuant to the Stockholders Agreement, Parent s board of directors must be comprised of nine members. Both Mr. Rittenberg and Mr. Harrison were appointed to the Parent s board of directors pursuant to Stockholders Agreement and will remain as directors of Parent for so long as each serves as an officer of Parent. THL and Advent have the right to designate up to five directors and two directors, respectively. In the event that Advent holds between 2% and 4% of the common stock of Parent, it will only be entitled to designate one director for election to Parent s board of directors. In the event that Advent ceases to hold at least 2% of the common stock of Parent, it will no longer be entitled to designate any directors for election to Parent s board of directors. The size of Parent s board of directors may not be increased or decreased without the prior written consent of the Sponsors.

**Management Agreements**

As a result of the Acquisition, on July 27, 2012, funds affiliated with THL acquired a majority stake in the Company. In conjunction with the Acquisition, funds affiliated with Advent maintained a minority interest in the Company. At the time of the Acquisition the Company entered into a management agreement with THL and Advent, under which THL and Advent will provide advice to the Company on, among other things, financing, operations, acquisitions and dispositions. Under the agreement, THL and Advent are paid, in aggregate, an annual management fee in the amount of the greater of \$3.0 million or 1.0% of Adjusted EBITDA, as defined in the Company s debt agreements (see Selected Historical Consolidated Financial Statements for further details). THL and Advent received annual management fees in the amounts of \$1.0 million and \$0.3 million, respectively, during the period from July 28, 2012 to December 31, 2012. Additionally, at the time of the Acquisition, the Company paid THL and Advent a non-recurring \$20.0 million management fee for services performed in conjunction with the Company s obtaining of new financing. Such amount was recorded as a reduction to stockholders equity in the Company s consolidated financial statements. Additionally, as long as THL and Advent receive annual management fees, they will advise the Company in connection with financing, acquisition and disposition transactions and the Company will pay a fee for services rendered in connection with each such transaction in an amount up to 1% of the gross transaction value. The management agreement expires on its tenth anniversary. In the case of an initial public offering or a change in control, as defined in the Company s stockholders agreement, at the time of such event the Company must pay THL and Advent the net present value of the remaining annual management fees that are payable over the agreement s ten year term.

Prior to the Acquisition, the Company had a management agreement with two of its former owners, Berkshire Partners LLC ( Berkshire Partners ) and Weston Presidio Capital ( Weston Presidio ), pursuant to which they were paid an annual management fee in the aggregate amount of \$1.3 million. Berkshire Partners received management fees of \$0.5 million during the period from January 1, 2012 to July 27, 2012 and \$0.8 million during each of 2011 and 2010. Weston Presidio received management fees of \$0.2 million during the

period from January 1, 2012 to July 27, 2012 and \$0.4 million during each of 2011 and 2010. On August 19, 2008, Berkshire Partners and Weston Presidio entered into an agreement with Advent pursuant to which Advent would provide consulting and management advisory services to the Company and would receive, in return, a portion of the management fees due to Berkshire Partners and Weston Presidio under their management agreement. Under this agreement, Advent received management fees of \$0.3 million during the period from January 1, 2012 to July 27, 2012 and \$0.5 million during each of 2011 and 2010.

**DESCRIPTION OF OTHER INDEBTEDNESS**

**New Senior Credit Facilities**

In connection with the Acquisition, we and certain of our subsidiaries entered into a \$400.0 million senior secured asset-based revolving credit facility (the *ABL Facility*), which included a \$50.0 million letter of credit and a \$40.0 million swingline loan facility and a \$1,125.0 million senior secured term loan facility (the *Term Loan Facility*, and collectively with the *ABL Facility*, the *Senior Credit Facilities*), with Deutsche Bank Trust Company Americas, as administrative agent, and certain financial institutions as lenders. Deutsche Bank Securities Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Barclays Bank PLC, Goldman Sachs Lending Partners LLC, and Morgan Stanley Senior Funding, Inc. acted as joint lead arrangers and joint bookrunners for the *Senior Credit Facilities*.

On February 19, 2013, we amended the credit agreement governing the *Term Loan Facility* to reprice the *Term Loan Facility*.

***General***

The credit agreement governing our *ABL Facility* (the *ABL Credit Agreement*) provides that, we may request up to \$125.0 million in increased commitments under the *ABL Facility* subject to certain conditions. In addition, the credit agreement governing our *Term Loan Facility* (the *Term Loan Agreement*) provides that we may request increases to the *Term Loan Facility* and/or add one or more incremental revolving facilities or term loan facilities in an aggregate principal amount not to exceed (x) \$250.0 million, plus (y) in the case of any incremental revolving facilities that serve to effectively extend the maturity of the *Term Loan Facility* and/or any incremental revolving facilities, an amount equal to the reductions in the *Term Loan Facility* and/or such incremental revolving facilities to be replaced thereby plus (z) an unlimited amount, subject to compliance on a pro forma basis with a senior secured leverage ratio of no greater than 4.00:1.00. The existing lenders under the *Senior Credit Facilities* will not be under any obligation to provide such additional commitments, and any increase in commitments is subject to customary conditions precedent.

Availability under the *ABL Facility* is limited to the line cap, which is calculated as the lesser of (a) the aggregate revolving commitments and (b) the then applicable borrowing base (the *Line Cap*). The borrowing base shall equal the sum of the following:

90% of our eligible trade receivables, *plus*

90% of our eligible credit card receivables, *plus*

90% of the net orderly liquidation value of our eligible inventory and eligible in-transit inventory (not to exceed \$20.0 million), *minus*

any reserves established by the administrative agent for the *ABL Facility* in its permitted discretion.

***Interest Rate and Fees***

Borrowings under our *Senior Credit Facilities* bear interest at a rate per annum equal to an applicable margin, *plus*, at our option, either (a) a base rate (which in the case of the *Term Loan Facility* only, shall be no less than 2.00% (2.25% prior to the amendment)) determined by the reference to the highest of (1) the prime commercial lending rate publicly announced by the administrative agent as the *prime rate* as in effect on such day, (2) the federal funds effective rate plus 0.50%, and (3) the LIBOR rate determined by reference to the cost of funds for Eurodollar deposits for an interest period of one month, plus 1.00% or (b) a LIBOR rate (which in the case of the *Term Loan Facility* only, shall be no less than 1.00% (1.25% prior to the amendment)) determined by reference to the costs of funds for Eurodollar deposits for the specified interest period, as adjusted for certain statutory reserve requirements. The applicable margin for borrowings under our *ABL Facility* ranges from 0.5% to 1.00% with respect to base rate borrowings and from 1.50% to 2.00% with respect to LIBOR borrowings, based on our excess availability under the *Line Cap*. The applicable margin as of June 30, 2013 was 0.75% for

base rate loans and 1.75% for loans based on the LIBOR rate. The applicable margin for borrowings under our Term Loan Facility margin is 2.25% (3.50% prior to the amendment) with respect to base rate borrowings and 3.25% (4.50% prior to the amendment) with respect to LIBOR borrowings.

A commitment fee will be charged on the average daily unused portion of the ABL Facility of 0.25% per annum if average utilization under the ABL Facility is greater than or equal to 50.0% or 0.375% if average utilization under the ABL Facility is less than 50.0%. A letter of credit fee will accrue on the aggregate face amount of outstanding letters of credit under the ABL Facility equal to the interest rate margin for LIBOR loans. In addition, a fronting fee will be charged on the aggregate face amount of outstanding letters of credit equal to 0.125% per annum.

### ***Mandatory Prepayments***

The Term Loan Agreement requires us to prepay, subject to certain exceptions, outstanding term loans with:

100% of net cash proceeds of any incurrence of debt, other than the net cash proceeds of debt permitted under the Term Loan Agreement;

100% of net cash proceeds above a threshold amount of certain asset sales, subject to reinvestment rights and certain other exceptions; and

50% (subject to step-downs to 25% and 0% based upon our senior secured leverage ratio) of our annual excess cash flow.

The ABL Credit Agreement requires us to prepay outstanding loans and cash collateralize, backstop or replace outstanding letters of credit if at any time the aggregate amount of outstanding loans, unreimbursed letter of credit drawings and outstanding letters of credit under our ABL Facility exceeds the Line Cap, in an aggregate amount equal to such excess.

### ***Voluntary repayment***

We may voluntarily reduce the unutilized portion of the commitment amount and repay outstanding loans under the Senior Credit Facilities at any time without premium or penalty other than (a) customary breakage costs with respect to LIBOR borrowings and (b) in the case of the Term Loan Facility, a 1.00% call protection premium applicable to certain repricing transactions occurring on or prior to the date that is six months after February 19, 2013.

### ***Amortization and final maturity***

There is no scheduled amortization under our ABL Facility. The ABL Facility has a maturity date of July 27, 2017. The term loans under the Term Loan Agreement mature on July 27, 2019. We are required to repay installments on the term loans in quarterly principal amounts of 0.25%, with the remaining amount payable on the maturity date.

### ***Guarantees and Security***

All obligations under our Senior Credit Facilities are unconditionally guaranteed by Holdings and certain of our existing and future direct and indirect wholly-owned domestic subsidiaries. All obligations under our Senior Credit Facilities, and the guarantees of those obligations, are secured, subject to certain exceptions, by substantially all of our assets and the assets of the guarantors, including:

A first-priority or second-priority pledge, as applicable, of all of our capital stock directly held by Holdings and a first-priority or second-priority pledge, as applicable, of all of the capital stock directly held by us and our subsidiary guarantors (which pledge, in the case of the capital stock of any foreign subsidiary or any disregarded domestic subsidiary, will be limited to 65% of the stock of such subsidiary); and

**Table of Contents**

A first-priority or second-priority security interest, as applicable, in substantially all of our and the guarantors' tangible and intangible assets, including certain deposit accounts.

***Certain Covenants and Events of Default***

incur additional indebtedness;

pay dividends on our capital stock or redeem, repurchase or retire our capital stock;

make investments, acquisitions, loans and advances;

create negative pledge or restrictions on the payment of dividends or payment of other amounts owed to us from our subsidiaries;

materially alter the business we conduct;

modify certain material documents;

change our fiscal year;

consolidate, merge, liquidate or dissolve;

incur liens; and

make prepayments of subordinated or junior debt or the notes.

Holdings shall also be subject to a passive holding company covenant under our Senior Credit Facilities.

In addition, upon the occurrence of an event of default or excess availability under the Line Cap of less than the greater of 10.0% of the Line Cap and \$30.0 million, we will be subject to a fixed charge coverage ratio test of at least 1.0 to 1.0.

Our Senior Credit Facilities also contain certain customary representations and warranties, affirmative covenants and reporting obligations. In addition, the lenders under the Senior Credit Facilities will be permitted to accelerate the loans and terminate commitments thereunder or exercise other specified remedies available to secured creditors upon the occurrence of certain events of default, subject to certain grace periods and exceptions, which will include, among others, payment defaults, breaches of representations and warranties, covenant defaults,

**DESCRIPTION OF EXCHANGE NOTES**

**General**

Certain terms used in this description are defined under the subheading **Certain Definitions**. In this description, (i) the terms **we**, **our** and **us** each refer to Party City Holdings Inc. (the **Company** ) and its consolidated Subsidiaries; (ii) the term **Issuer** refers only to the Company and not any of its Subsidiaries.

The Issuer issued \$700,000,000 aggregate principal amount of 8.875% senior notes due 2020 (the **Outstanding Notes** ) under an indenture dated July 27, 2012, as amended or supplemented from time to time (the **Indenture** ), among the Issuer, the Guarantors and Wilmington Trust, National Association, as trustee (the **Trustee** ). The Outstanding Notes were issued in a private transaction that was not subject to the registration requirements of the Securities Act. In this section, we refer to the exchange notes together with the Outstanding Notes as the **Notes**. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to specific provisions of the Trust Indenture Act.

The following description is only a summary of the material provisions of the Indenture, does not purport to be complete and is qualified in its entirety by reference to the provisions thereof, including the definitions therein of certain terms used below. We urge you to read the Indenture because it, and not this description, defines your rights as a Holder of the Notes. You may request copies of the Indenture at our address set forth under the heading **Summary**.

**Exchange Notes versus Outstanding Notes**

The terms of the exchange notes are substantially identical to the Outstanding Notes except that the exchange notes will be registered under the Securities Act and will be free of any covenants regarding exchange registration rights.

**Brief Description of Notes**

The Notes are:

unsecured senior obligations of the Issuer;

*pari passu* in right of payment to all existing and future senior indebtedness (including the Senior Credit Facilities) of the Issuer;

effectively subordinated to all Secured Indebtedness of the Issuer (including the Senior Credit Facilities) to the extent of the value of the assets securing such Indebtedness;

senior in right of payment to all existing and future Subordinated Indebtedness of the Issuer; and

guaranteed on a senior unsecured basis by each Restricted Subsidiary that guarantees the Senior Credit Facilities; and

subject to registration with the SEC pursuant to the Registration Rights Agreement.

**Guarantees**

The Guarantors, as primary obligors and not merely as sureties, do jointly and severally irrevocably and unconditionally guarantee, subject to customary automatic release provisions described below, on a senior unsecured basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of, premium, if any, or interest on or Additional Interest, if any, in respect of the Notes, expenses, indemnification or otherwise, on the

terms set forth in the Indenture by executing the Indenture.

The Restricted Subsidiaries that guarantee the Senior Credit Facilities have guaranteed the Notes. Each of the Guarantees of the Notes is a general unsecured obligation of each Guarantor and is *pari passu* in right of payment with all existing and future senior indebtedness of each such entity, is effectively subordinated to all

**Table of Contents**

Secured Indebtedness of each such entity to the extent of the value of the assets securing such Indebtedness and is senior in right of payment to all existing and future Subordinated Indebtedness of each such entity. The Notes are structurally subordinated to Indebtedness of Subsidiaries of the Issuer that do not Guarantee the Notes.

Not all of the Issuer's Subsidiaries Guarantee the Notes. In the event of a bankruptcy, liquidation or reorganization of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer. None of our Foreign Subsidiaries, non-Wholly-Owned Subsidiaries or any Receivables Subsidiary was required to Guarantee the Notes. In addition, certain other Excluded Subsidiaries do not Guarantee the Notes.

The obligations of each Guarantor under its Guarantee are limited to the extent enforceable as necessary to prevent such Guarantee from constituting a fraudulent conveyance under applicable law.

Any Guarantor that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor's pro rata portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

The Indenture provides that each Guarantor may consolidate with, amalgamate or merge with or into or sell its assets to the Issuer or another Guarantor without limitation, or with other Persons upon the terms and conditions set forth in the Indenture. See Certain Covenants Merger, Consolidation or Sale of All or Substantially All Assets.

If a Guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the Guarantor, and, depending on the amount of such indebtedness, a Guarantor's liability on its Guarantee could be reduced to zero. See Risk Factors Risks Related to our Indebtedness and the Notes Federal and state statutes allow courts, under specific circumstances, to void the notes and the guarantee of the notes by certain of our subsidiaries, and, to require holders of Notes to return payments received from us.

A Guarantee by a Guarantor shall provide by its terms that it shall be automatically and unconditionally released and discharged upon:

- (1) (a) any sale, exchange, disposition or transfer (including through consolidation, merger or otherwise) of (x) the Capital Stock of such Guarantor, after which the applicable Guarantor is no longer a Restricted Subsidiary, or (y) all or substantially all the assets of such Guarantor, which sale, exchange, disposition or transfer in each case is made in compliance with clauses (1) and (2) of the first paragraph under the caption Repurchase at the Option of Holders Asset Sales ;
  - (b) the release, discharge or termination of the guarantee by such Guarantor of the Senior Credit Facilities or the guarantee which resulted in the creation of such Guarantee, except a release, discharge or termination by or as a result of payment under such guarantee;
  - (c) the permitted designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary;
  - (d) upon the consolidation or merger of any Guarantor with and into the Issuer or another Guarantor that is the surviving Person in such consolidation or merger, or upon the liquidation of such Guarantor following the transfer of all of its assets to the Issuer or another Guarantor; or
  - (e) the Issuer exercising its legal defeasance option or covenant defeasance option as described under Legal Defeasance and Covenant Defeasance or the Issuer's obligations under the Indenture being discharged in accordance with the terms of the Indenture; and
- (2) the Issuer delivering to the Trustee an Officer's Certificate of such Guarantor or the Issuer and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

## **Table of Contents**

### **Ranking**

The payment of the principal of, premium, if any, and interest and Additional Interest, if any, on the Notes and the payment of any Guarantee rank *pari passu* in right of payment to all senior indebtedness of the Issuer or the relevant Guarantor, as the case may be, including the obligations of the Issuer and such Guarantor under the Senior Credit Facilities.

The Notes are effectively subordinated in right of payment to all of the Issuer's and each Guarantor's existing and future Secured Indebtedness to the extent of the value of the assets securing such Indebtedness. As of June 30, 2013, the Issuer had \$1,252.8 million of Secured Indebtedness, comprised of \$1,116.6 million under its Term Loan Facility (exclusive of the impact of the original issue discount and the call premium), \$2.9 million of capital leases, \$1.8 million under a mortgage note, \$1.5 million under existing foreign facilities and \$130.0 million in borrowings under its ABL Facility. In addition, as of the same date, we had an additional \$232.1 million of borrowing capacity under the ABL Facility (excluding \$19.0 million of letters of credit outstanding as of June 30, 2013).

Although the Indenture contains limitations on the amount of additional Indebtedness that the Issuer and the Guarantors may incur, under certain circumstances the amount of such Indebtedness could be substantial and, in any case, such Indebtedness may be senior indebtedness. See Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.

### **Paying Agent and Registrar for the Notes**

The Issuer will maintain one or more paying agents for the Notes. Currently, the initial paying agent for the Notes is the Trustee.

The Issuer will also maintain a registrar for the Notes. Currently, the initial registrar is the Trustee. The registrar will maintain a register reflecting ownership of the Notes outstanding from time to time and will make payments on and facilitate transfers of Notes on behalf of the Issuer.

The Issuer may change the paying agents or the registrars without prior notice to the Holders. The Issuer or any of its Subsidiaries may act as a paying agent or registrar.

### **Transfer and Exchange**

A Holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. Holders are required to pay all taxes due on transfer. The Issuer is not required to transfer or exchange any Note selected for redemption. Also, the Issuer is not required to transfer or exchange any Note for a period of 15 days before the mailing of a notice of redemption.

### **Principal, Maturity and Interest**

The Issuer initially issued \$700,000,000 in aggregate principal amount of Notes. The Issuer may issue additional Notes under the Indenture from time to time subject to compliance with the covenant described below under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock (the *Additional Notes*). The Notes offered by the Issuer and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase. Unless the context requires otherwise, references to Notes for all purposes of the Indenture and this Description of Exchange Notes include any Additional Notes.

Interest on the Notes accrues at the rate of 8.875% per annum and is payable in cash. Interest on the Notes will be payable semi-annually in arrears on each February 1 and August 1, commencing on February 1, 2013.

## **Table of Contents**

The Issuer will make each interest payment to the Holders of record of the Notes on the immediately preceding January 15 and July 15. Interest on the Notes accrues from the most recent date to which interest has been paid with respect to such Notes, or if no interest has been paid with respect to such Notes, from the date of original issuance thereof. Interest is computed on the basis of a 360-day year comprised of twelve 30-day months. The Notes will mature on August 1, 2020 and are issued in denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. Additional Interest may accrue on the Notes in certain circumstances pursuant to the Registration Rights Agreement as described under Exchange Offer; Registration Rights. All references in the Indenture and this Description of Exchange Notes, in any context, to any interest or other amount payable on or with respect to the Notes shall be deemed to include any Additional Interest required to be paid pursuant to the Registration Rights Agreement.

Principal of, premium, if any, and interest on the Notes will be payable at the office or agency of the Issuer maintained for such purpose or, at the option of the Issuer, payment of interest may be made through the paying agent by check mailed to the holders of the Notes at their respective addresses set forth in the register of Holders; *provided* that all payments of principal, premium, if any, and interest with respect to the Notes represented by one or more global notes registered in the name of or held by The Depository Trust Company ( *DTC* ) or its nominee will be made by wire transfer of immediately available funds to the accounts specified by the Holder or Holders thereof.

### **Mandatory Redemption; Offers to Purchase; Open Market Purchases**

The Issuer is not required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Issuer may be required to offer to purchase Notes as described under the caption Repurchase at the Option of Holders. We may at any time and from time to time purchase Notes in the open market or otherwise.

### **Optional Redemption**

Except as set forth below, the Issuer will not be entitled to redeem Notes at its option prior to August 1, 2015.

At any time prior to August 1, 2015, the Issuer may redeem all or a part of the Notes, at its option, at any time or from time to time, upon not less than 30 nor more than 60 days prior notice mailed by first class mail to the registered address of each Holder of Notes or otherwise delivered in accordance with the procedures of DTC, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest and Additional Interest, if any, to, but not including, the date of redemption (the *Redemption Date* ), subject to the rights of Holders of record on the relevant record date to receive interest due on the relevant interest payment date.

On and after August 1, 2015, the Issuer may redeem the Notes, at its option, in whole at any time or in part from time to time, upon notice as described under the heading Selection and Notice, at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest thereon and Additional Interest, if any, to, but not including, the applicable Redemption Date, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on August 1 of each of the years indicated below:

<b>Year</b>	<b>Percentage</b>
2015	106.656%
2016	104.438%
2017	102.219%
2018 and thereafter	100.000%

---

## **Table of Contents**

The Trustee shall select the Notes to be redeemed in the manner described under Selection and Notice.

### **Repurchase at the Option of Holders**

#### ***Change of Control***

The Notes provide that, if a Change of Control occurs after the Issue Date, unless the Issuer has previously or concurrently mailed a redemption notice with respect to all the outstanding Notes as described under Optional Redemption, the Issuer will make an offer to purchase all of the Notes pursuant to the offer described below (*the Change of Control Offer*) at a price in cash (*the Change of Control Payment*) equal to 101% of the aggregate principal amount thereof plus accrued and unpaid interest and Additional Interest, if any, to, but not including, the date of purchase, subject to the right of Holders of record of the Notes on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Issuer will send notice of such Change of Control Offer by first-class mail, with a copy to the Trustee, to each Holder of Notes to the registered address of such Holder or otherwise in accordance with the procedures of DTC, with the following information:

- (1) that a Change of Control Offer is being made pursuant to the covenant entitled Change of Control, and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer at a repurchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of repurchase, subject to the right of Holders of records of the Notes on the relevant record date to receive interest due on the relevant interest payment date;
- (2) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is mailed or otherwise delivered (*the Change of Control Payment Date*);
- (3) that any Note not properly tendered will remain outstanding and continue to accrue interest;
- (4) that unless the Issuer defaults in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;
- (5) if such notice is delivered prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control;
- (6) that Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender such Notes, with the form entitled Option of Holder to Elect Purchase on the reverse of such Notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

**Table of Contents**

(7) that Holders will be entitled to withdraw their tendered Notes and their election to require the Issuer to purchase such Notes, *provided* that the paying agent receives, not later than the close of business on the second Business Day prior to the Change of Control Payment Date, facsimile transmission or letter setting forth the name of the Holder of the Notes, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

(8) that if the Issuer is redeeming less than all of the Notes, the Holders of the remaining Notes will be issued new Notes and such new Notes will be equal in principal amount to the unpurchased portion of the Notes surrendered. The unpurchased portion of the Notes must be equal to \$2,000 or an integral multiple of \$1,000 in excess of \$2,000; and

(9) the other instructions, as determined by the Issuer, consistent with the covenant described hereunder, that a Holder must follow.

Notes repurchased by the Issuer pursuant to a Change of Control Offer will have the status of Notes issued but not outstanding or will be retired and cancelled at the option of the Issuer. Notes purchased by a third party pursuant to the preceding paragraph will have the status of Notes issued and outstanding.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase by the Issuer of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuer will, to the extent permitted by law,

(1) accept for payment all Notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered; and

(3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuer.

The Senior Credit Facilities prohibit or limit, and future credit agreements or other agreements to which the Issuer becomes a party may prohibit or limit, the Issuer from purchasing any Notes as a result of a Change of Control. In the event a Change of Control occurs at a time when the Issuer is prohibited from purchasing the Notes, the Issuer could seek the consent of its lenders to permit the purchase of the Notes or could attempt to refinance the borrowings that contain such prohibition. If the Issuer does not obtain such consent or repay such borrowings, the Issuer will remain prohibited from purchasing the Notes. In such case, the Issuer's failure to purchase tendered Notes after any applicable notice and lapse of time would constitute an Event of Default under the Indenture which would, in turn, likely constitute a default under such other agreements.

The Senior Credit Facilities provide, and future credit agreements or other agreements relating to senior indebtedness to which the Issuer becomes a party may provide, that certain change of control events with respect to the Issuer would constitute a default thereunder (including a Change of Control under the Indenture). If we experience a change of control that triggers a default thereunder, we could seek a waiver of such default or seek to refinance such Indebtedness. In the event we do not obtain such a waiver or refinance such Indebtedness, such default could result in amounts outstanding under such Indebtedness being declared due and payable.

Our ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases. See Risk Factors Risks Related to Our Indebtedness and the Notes We may not be able to repurchase the exchange notes upon a change of control.

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Initial Purchasers and us. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under Certain Covenants Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock and Certain Covenants Liens. Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture does not contain any covenants or provisions that may afford Holders of the Notes protection in the event of a highly leveraged transaction.

We will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by us and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The definition of Change of Control includes a disposition of all or substantially all of the assets of the Issuer to any Person. Although there is a limited body of case law interpreting the phrase substantially all under New York law, which governs the Indenture, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of all or substantially all of the assets of the Issuer. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder of Notes may require the Issuer to make an offer to repurchase the Notes as described above.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes.

### ***Asset Sales***

The Indenture provides that the Issuer will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale, unless:

- (1) the Issuer or such Restricted Subsidiary, as the case may be, receives consideration at the time of such Asset Sale at least equal to the fair market value (as determined in good faith by the Issuer) of the assets sold or otherwise disposed of; and
- (2) except in the case of a Permitted Asset Swap, at least 75% of the consideration therefor received by the Issuer or such Restricted Subsidiary, as the case may be, is in the form of Cash Equivalents; *provided* that the amount of:
  - (a) any liabilities (as shown on the Issuer's or such Restricted Subsidiary's most recent balance sheet or in the footnotes thereto) of the Issuer or such Restricted Subsidiary, other than liabilities that

are by their terms subordinated to the Notes or the Guarantees, that are assumed by the transferee of any such assets or that are otherwise cancelled or terminated in connection with the transaction with such transferee and for which the Issuer and all of its Restricted Subsidiaries have been validly released by all creditors in writing,

(b) any securities, notes or other obligations or assets received by the Issuer or such Restricted Subsidiary from such transferee that are converted by the Issuer or such Restricted Subsidiary into Cash Equivalents (to the extent of the Cash Equivalents received) within 180 days following the closing of such Asset Sale, and

(c) any Designated Non-cash Consideration received by the Issuer or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of (x) \$40.0 million and (y) 1.25% of Consolidated Total Assets at the time of the receipt of such Designated Non-cash Consideration, with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be Cash Equivalents for purposes of this provision and for no other purpose.

Within 365 days after the receipt of any Net Proceeds of any Asset Sale, the Issuer or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

(1) to repay:

(a) Obligations under the Senior Credit Facilities and if the Indebtedness repaid is revolving credit indebtedness, to correspondingly reduce commitments with respect thereto;

(b) Obligations under Indebtedness (other than Subordinated Indebtedness) that is secured by a Lien, which Lien is permitted by the Indenture, and if the Indebtedness repaid is revolving credit indebtedness, to correspondingly reduce commitments with respect thereto;

(c) Obligations under other Indebtedness (other than Subordinated Indebtedness) (and if the Indebtedness repaid is revolving credit indebtedness, to correspondingly reduce commitments with respect thereto), *provided* that the Issuer shall equally and ratably reduce Obligations under the Notes as provided under Optional Redemption, through open-market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, and Additional Interest, if any, on the amount of Notes that would otherwise be prepaid; or

(d) Indebtedness of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to the Issuer or another Restricted Subsidiary;

(2) to make (a) an Investment in any one or more businesses, *provided* that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Issuer or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) capital expenditures or (c) acquisitions of other properties or assets, in the case of each of (a), (b) and (c), used or useful in a Similar Business; or

(3) to make an Investment in (a) any one or more businesses, *provided* that such Investment in any business is in the form of the acquisition of Capital Stock and results in the Issuer or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) properties or (c) other assets that, in the case of each of (a), (b) and (c), replace the businesses, properties and/or other assets that are the subject of such Asset Sale;

**Table of Contents**

*provided* that, in the case of clauses (2) and (3) above, a binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment so long as the Issuer or such other Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Proceeds will be applied to satisfy such commitment within 180 days of such commitment (an *Acceptable Commitment* ) and, in the event any Acceptable Commitment is later cancelled or terminated for any reason before the Net Proceeds are applied in connection therewith, the Issuer or such Restricted Subsidiary enters into another Acceptable Commitment (a *Second Commitment* ) within 180 days of such cancellation or termination; *provided further* that if any Second Commitment is later cancelled or terminated for any reason before such Net Proceeds are applied, then such Net Proceeds shall constitute Excess Proceeds (as defined below).

Any Net Proceeds from any Asset Sale that are not invested or applied as provided and within the time period set forth in the preceding paragraph (it being understood that any portion of such Net Proceeds used to make an offer to purchase Notes, as described in clause (1) above, will be deemed to have been invested whether or not such offer is accepted) will be deemed to constitute *Excess Proceeds*. When the aggregate amount of Excess Proceeds exceeds \$25.0 million, the Issuer shall make an offer to all Holders of the Notes and, at the option of the Issuer, to any holders of any Indebtedness that is *pari passu* with the Notes ( *Pari Passu Indebtedness*) (an *Asset Sale Offer* ), to purchase the maximum aggregate principal amount of the Notes and such *Pari Passu Indebtedness* that is at least \$2,000 and an integral multiple of \$1,000 in excess thereof that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100% of the principal amount thereof, or 100% of the accreted value thereof, if less, plus accrued and unpaid interest and Additional Interest, if any, (or, in respect of such *Pari Passu Indebtedness*, such lesser price, if any, as may be provided for by the terms of such *Pari Passu Indebtedness*) to, but not including, the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. The Issuer will commence an Asset Sale Offer with respect to Excess Proceeds within thirty Business Days after the date that Excess Proceeds exceed \$25.0 million by mailing the notice required pursuant to the terms of the Indenture, with a copy to the Trustee, or otherwise in accordance with the procedures of DTC.

To the extent that the aggregate amount of Notes and such *Pari Passu Indebtedness* tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to compliance with other covenants contained in the Indenture. If the aggregate principal amount of Notes and the *Pari Passu Indebtedness* surrendered in an Asset Sale Offer exceeds the amount of Excess Proceeds, the Trustee shall select the Notes to be purchased in the manner described under Selection and Notice below. Selection of such *Pari Passu Indebtedness* will be made pursuant to the terms of such *Pari Passu Indebtedness*. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds shall be reset to zero (regardless of whether there are any remaining Excess Proceeds upon such completion).

Pending the final application of any Net Proceeds pursuant to this covenant, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The Senior Credit Facilities will prohibit or limit, and future credit agreements or other agreements to which the Issuer becomes a party may prohibit or limit, the Issuer from purchasing any Notes pursuant to this Asset Sales covenant. In the event the Issuer is prohibited from purchasing the Notes, the Issuer could seek the consent of its lenders to the purchase of the Notes or could attempt to refinance the borrowings that contain such prohibition. If the Issuer does not obtain such consent or repay such borrowings, it will remain prohibited from

purchasing the Notes. In such case, the Issuer's failure to purchase tendered Notes would constitute an Event of Default under the Indenture which would, in turn, likely constitute a default under such other agreements.

### **Selection and Notice**

If the Issuer is redeeming less than all of the Notes issued by it at any time, the Trustee will select the Notes to be redeemed (a) if the Notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange, if any, on which the Notes are listed (so long as such listing is known to the Trustee) or (b) if the Notes are not so listed, on a pro rata basis (to the extent practicable), by lot or by such other method as the Trustee shall deem fair and appropriate and otherwise in accordance with the procedures of DTC; *provided* that no Notes of \$2,000, an integral multiples of \$1,000 in excess thereof, or less shall be redeemed in part.

Notices of purchase or redemption shall be mailed by first-class mail, postage prepaid, at least 30 but not more than 60 days before the date of purchase or Redemption Date to each Holder of record of Notes at such Holder's registered address or otherwise delivered in accordance with the procedures of DTC, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. If any Note is to be purchased or redeemed in part only, any notice of purchase or redemption that relates to such Note shall state the portion of the principal amount thereof that has been or is to be purchased or redeemed.

The Issuer will issue a new Note in a principal amount equal to the unredeemed portion of the Note called for redemption or tendered for purchase in the name of the Holder upon cancellation of the redeemed or purchased Note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions thereof called for redemption.

### **Certain Covenants**

Set forth below are summaries of certain covenants that are contained in the Indenture.

If on any date following the Issue Date (i) the Notes have an Investment Grade Rating from both Rating Agencies and (ii) no Default has occurred and is continuing under the Indenture then, beginning on that day and continuing at all times thereafter until the Reversion Date, as defined below (the occurrence of the events described in the foregoing clauses (i) and (ii) being collectively referred to as a *Covenant Suspension Event*), the covenants specifically listed under the following captions in this Description of Exchange Notes (collectively, the *Suspended Covenants*) will not be applicable to the Notes:

- (1) Repurchase at the Option of Holders Asset Sales ;
- (2) Limitation on Restricted Payments ;
- (3) Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ;
- (4) clause (4) of the first paragraph of Merger, Consolidation or Sale of All or Substantially All Assets ;
- (5) Transactions with Affiliates ;
- (6) Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries ;
- (7) Limitation on Guarantees of Indebtedness by Restricted Subsidiaries ; and
- (8) Repurchase at the Option of Holders Change of Control.

During a Suspension Period, the Issuer may not designate any of its Subsidiaries as Unrestricted Subsidiaries pursuant to the second sentence of the definition Unrestricted Subsidiaries.

---

**Table of Contents**

If and while the Issuer and the Restricted Subsidiaries are not subject to the Suspended Covenants, the Notes will be entitled to substantially less covenant protection. In the event that the Issuer and the Restricted Subsidiaries are not subject to the Suspended Covenants under the Indenture for any period of time as a result of the foregoing, and on any subsequent date (the *Reversion Date*) one or both of the Rating Agencies withdraw their Investment Grade Rating or downgrade the rating assigned to the Notes below an Investment Grade Rating, then the Issuer and the Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants under the Indenture with respect to future events. The period beginning on the day of a Covenant Suspension Event and ending on a Reversion Date is called a *Suspension Period*.

On each Reversion Date, all Indebtedness incurred, or Disqualified Stock or Preferred Stock issued, during the Suspension Period will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (3) of the second paragraph under *Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*. Calculations made after the Reversion Date of the amount available to be made as Restricted Payments under *Limitation on Restricted Payments* will be made as though the covenant described under *Limitation on Restricted Payments* had been in effect prior to, but not during, the Suspension Period. No Default or Event of Default will be deemed to have occurred on the Reversion Date (or thereafter) under any Suspended Covenant solely as a result of any actions taken by the Issuer or its Restricted Subsidiaries, or events occurring, during the Suspension Period. On and after each Reversion Date, the Issuer and its Subsidiaries will be permitted to consummate the transactions contemplated by any contract entered into during the Suspension Period so long as such contract and such consummation would have been permitted during such Suspension Period.

For purposes of the *Repurchase at the Option of Holders Asset Sales* covenant, on the Reversion Date, the unutilized Excess Proceeds amount will be reset to zero.

For purposes of the *Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries* covenant, on the Reversion Date, any contractual encumbrances or restrictions of the type specified in clause (1), (2) or (3) of that covenant entered into during the Suspension Period will be deemed to have been in effect on the Issue Date, so that they are permitted under clause (a) under *Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries*.

For purposes of the *Transactions with Affiliates* covenant, any Affiliate Transaction entered into after the Reversion Date pursuant to a contract, agreement, loan, advance or guaranty with, or for the benefit of, any Affiliate of the Issuer entered into during the Suspension Period will be deemed to have been in effect as of the Issue Date for purposes of clause (6) under *Transactions with Affiliates*.

There can be no assurance that the Notes will ever achieve or maintain Investment Grade Ratings.

The Issuer shall deliver promptly to the Trustee an Officer's Certificate notifying it of the commencement or termination of any Suspension Period. The Trustee shall have no independent obligation to determine if a Suspension Period has commenced or terminated, to notify the Holders regarding the same or to determine the consequences thereof.

***Limitation on Restricted Payments***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

(I) declare or pay any dividend or make any other payment or any distribution on account of the Issuer's, or any of its Restricted Subsidiaries Equity Interests (in each case, solely in such Person's capacity as holder of such Equity Interests), including any dividend or distribution payable in connection with any merger or consolidation other than:

(a) dividends or distributions by the Issuer payable solely in Equity Interests (other than Disqualified Stock) of the Issuer; or

(b) the payment, redemption, repurchase, defeasance, acquisition or retirement for value of Subordinated Indebtedness purchased in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of such payment, redemption, repurchase, defeasance, acquisition or retirement; or

(IV) make any Restricted Investment

(all such payments and other actions set forth in clauses (I) through (IV) above being collectively referred to as *Restricted Payments* ), unless, at the time of such Restricted Payment:

(1) no Default shall have occurred and be continuing or would occur as a consequence thereof;

(2) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer could incur \$1.00 of additional Indebtedness under the provisions of the first paragraph of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ; and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Issuer and its Restricted Subsidiaries after the Issue Date (including Restricted Payments permitted by clauses (1), (6)(c), (9) and (14) of the next succeeding paragraph, but excluding all other Restricted Payments permitted by the next succeeding paragraph), is less than the sum of (without duplication):

(a) 50% of the Consolidated Net Income of the Issuer for the period (taken as one accounting period) beginning on the first day of the fiscal quarter of the Issuer in which the Issue Date occurs to the end of the Issuer's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment, or, in the case such Consolidated Net Income for such period is a deficit, minus 100% of such deficit; *plus*

(b) 100% of the aggregate net cash proceeds and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received by the Issuer since the Issue Date (other than net cash proceeds to the extent such net cash proceeds have been used to incur Indebtedness, Disqualified Stock or Preferred Stock pursuant to clause (12)(a) of the second paragraph of Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ) from the issue or sale of:

(i) (A) Equity Interests of the Issuer, including Treasury Capital Stock (as defined below), but excluding cash proceeds and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received from the sale of:

(x) Equity Interests to any future, present or former employee, officer, director, member of management or consultant (or the estate, heirs, family members, spouse, former spouse,

domestic partner or former domestic partner of any of the foregoing) of the Issuer, any direct or indirect parent company of the Issuer and the Issuer's Subsidiaries since the Issue Date to the extent such amounts have been applied to Restricted Payments made in accordance with clause (4) of the next succeeding paragraph; and

(y) Designated Preferred Stock; and

(B) to the extent such net cash proceeds are actually contributed to the Issuer, Equity Interests of the Issuer's direct or indirect parent companies (excluding contributions of the proceeds from the sale of Designated Preferred Stock of such companies or contributions to the extent such amounts have been applied to Restricted Payments made in accordance with clause (4) of the next succeeding paragraph); or

(ii) debt securities of the Issuer that have been converted into or exchanged for Equity Interests of the Issuer or its direct or indirect parent companies;

*provided, however*, that this clause (b) shall not include the proceeds from (W) Refunding Capital Stock (as defined below), (X) Equity Interests or convertible debt securities of the Issuer sold to a Restricted Subsidiary, (Y) Disqualified Stock or debt securities that have been converted into Disqualified Stock or (Z) Excluded Contributions; *plus*

(c) 100% of the aggregate amount of cash and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property contributed to the capital of the Issuer following the Issue Date other than (X) net cash proceeds to the extent such net cash proceeds have been used to incur Indebtedness or issue Disqualified Stock or Preferred Stock pursuant to clause (I2)(a) of the second paragraph of

Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock, (Y) by a Restricted Subsidiary and (Z) from any Excluded Contributions; *plus*

(d) 100% of the aggregate amount received in cash and the fair market value, as determined in good faith by the Issuer, of marketable securities or other property received by means of:

(i) the sale or other disposition (other than to the Issuer or a Restricted Subsidiary) of Restricted Investments made by the Issuer or its Restricted Subsidiaries and repurchases and redemptions of such Restricted Investments from the Issuer or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees, which constitute Restricted Investments by the Issuer or its Restricted Subsidiaries, in each case since the Issue Date; or

(ii) the sale (other than to the Issuer or a Restricted Subsidiary) of the stock of an Unrestricted Subsidiary or a distribution from an Unrestricted Subsidiary (other than in each case to the extent the Investment in such Unrestricted Subsidiary was made by the Issuer or a Restricted Subsidiary pursuant to clause (7) of the next succeeding paragraph or to the extent such Investment constituted a Permitted Investment) or a dividend from an Unrestricted Subsidiary since the Issue Date; *plus*

(e) in the case of the redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary or the merger, amalgamation or consolidation of an Unrestricted Subsidiary into the Issuer or a Restricted Subsidiary or the transfer of all or substantially all of the assets of an Unrestricted Subsidiary to the Issuer or a Restricted Subsidiary after the Issue Date, the fair market value of the Investment of the Issuer or the Restricted Subsidiary in such Unrestricted Subsidiary (or the assets transferred), as determined by the Issuer in good faith or, if such fair market value may exceed \$50.0 million, by the board of directors of the Issuer, a copy of the resolution of which with respect thereto will be delivered to the Trustee at the time of the redesignation of such Unrestricted Subsidiary as a Restricted Subsidiary or at the time of such merger, amalgamation, consolidation or transfer of assets other than to the extent the Investment in such Unrestricted Subsidiary was made by the Issuer or a Restricted

Subsidiary pursuant to clause (7) of the next succeeding paragraph or to the extent such Investment constituted a Permitted Investment.

The foregoing provisions will not prohibit:

(1) the payment of any dividend or distribution or the consummation of any irrevocable redemption within 60 days after the date of declaration of the dividend or other distribution or giving of the redemption notice, as the case may be, if at the date of declaration or distribution such dividend, distribution or redemption payment would have complied with the provisions of the Indenture;

(2) (a) the redemption, repurchase, retirement or other acquisition of any Equity Interests ( *Treasury Capital Stock* ) or Subordinated Indebtedness of the Issuer, any direct or indirect parent of the Issuer or any Restricted Subsidiary in exchange for, or out of the proceeds of, the substantially concurrent sale or issuance (other than to a Restricted Subsidiary) of, Equity Interests of the Issuer or any direct or indirect parent company of the Issuer to the extent contributed to the Issuer (in each case, other than any Disqualified Stock) ( *Refunding Capital Stock* ), (b) the declaration and payment of dividends on Treasury Capital Stock out of the proceeds of the substantially concurrent sale or issuance (other than to a Subsidiary of the Issuer or to an employee stock ownership plan or any trust established by the Issuer or any of its Subsidiaries) of Refunding Capital Stock, and (c) if immediately prior to the retirement of Treasury Capital Stock, the declaration and payment of dividends thereon was permitted under clause (6) of this paragraph, the declaration and payment of dividends on the Refunding Capital Stock (other than Refunding Capital Stock the proceeds of which were used to redeem, repurchase, retire or otherwise acquire any Equity Interests of any direct or indirect parent company of the Issuer) in an aggregate amount per year no greater than the aggregate amount of dividends per annum that were declarable and payable on such Treasury Capital Stock immediately prior to such retirement;

(a) the principal amount (or accreted value, if applicable) of such new Indebtedness or the liquidation preference of such new Disqualified Stock does not exceed the principal amount of (or accreted value, if applicable), *plus* any accrued and unpaid interest on, the Subordinated Indebtedness or the liquidation preference of, *plus* any accrued and unpaid dividends on, the Disqualified Stock being so repaid, repurchased, redeemed, defeased, exchanged, acquired or retired for value, *plus* the amount of any premium required to be paid under the terms of the instrument governing the Subordinated Indebtedness or Disqualified Stock being so repaid, repurchased, redeemed, defeased, exchanged, acquired or retired, any tender premiums, plus any defeasance costs and any fees and expenses (including original issue discount, upfront or similar fees) incurred in connection therewith;

fluctuations in the exchange rate of currencies will not be deemed to be an incurrence of Indebtedness or an issuance of Disqualified Stock or Preferred Stock for purposes of this covenant. Guarantees of, or obligations in respect of letters of credit relating to, Indebtedness which is otherwise included in the determination of a particular amount of Indebtedness shall not be included in the determination of such amount of Indebtedness; provided that the incurrence of the Indebtedness represented by such guarantee or letter of credit, as the case may be, was in compliance with this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. dollar-equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed or first incurred (whichever yields the lower U.S. dollar equivalent), in the case of revolving credit debt; *provided* that if such Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness (plus premium (including tender premiums), fees, defeasance costs and expenses including original issue discount, upfront fees or similar fees) does not exceed the principal amount of such Indebtedness being refinanced.

The principal amount of any Indebtedness incurred to refinance other Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

The Indenture does not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) senior indebtedness as subordinated or junior to any other senior indebtedness merely because it has a junior priority with respect to the same collateral.

## ***Liens***

The Issuer will not, and will not permit any Guarantor to, directly or indirectly, create, incur, assume or suffer to exist any Lien (except Permitted Liens) that secures obligations under any Indebtedness or any related guarantee, on any asset or property of the Issuer or any Guarantor, or any income or profits therefrom, or assign or convey any right to receive income therefrom, unless:

(1) in the case of Liens securing Subordinated Indebtedness, the Notes and related Guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; or

except that the foregoing shall not apply to or restrict (a) Liens securing the Notes and the related Guarantees, (b) Liens securing obligations in respect of (x) Indebtedness and other obligations permitted to be incurred under Senior Credit Facilities, including any letter of credit facility relating thereto, that was permitted by the terms of the Indenture to be incurred pursuant to clause (1) of the second paragraph under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock, and (y) obligations of the Issuer or any Guarantor in respect of any Bank Products or Cash Management Services provided by any lender party to any

Senior Credit Facility or any affiliate of such lender (or any Person that was a lender or an affiliate of a lender at the time the applicable agreements pursuant to which such Bank Products or Cash Management Services are provided were entered into) and (c) Liens incurred to secure Obligations in respect of any Indebtedness permitted to be incurred pursuant to the covenant described above under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock ; *provided* that, with respect to Liens securing Obligations permitted under this subclause (c), at the time of incurrence and after giving *pro forma* effect thereto, the Consolidated Secured Debt Ratio would be no greater than 4.00 to 1.0.

Any Lien created for the benefit of the Holders of the Notes pursuant to this covenant shall be deemed automatically and unconditionally released and discharged upon the release and discharge of each of the Liens described in clauses (1) and (2) above.

The expansion of Liens by virtue of accrual of interest, the accretion of accreted value, the payment of interest or dividends in the form of additional Indebtedness, amortization of original issue discount and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies will not be deemed to be an incurrence of Liens for purposes of this covenant.

***Merger, Consolidation or Sale of All or Substantially All Assets***

The Issuer may not consolidate or merge with or into or wind up into (whether or not the Issuer is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) the Issuer is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of the jurisdiction of organization of the Issuer or the laws of the United States, any state thereof, the District of Columbia (the Issuer or such Person, as the case may be, being herein called the *Successor Company* ); *provided* that in the case where the Successor Company is not a corporation, a co-obligor of the Notes is a corporation;

(2) the Successor Company, if other than the Issuer, expressly assumes all the obligations of the Issuer under the Notes pursuant to supplemental indentures or other documents or instruments;

(3) immediately after such transaction, no Default shall have occurred and be continuing;

(4) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period, either

(a) the Successor Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first sentence of the covenant described under Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock, or

(b) the Fixed Charge Coverage Ratio for the Successor Company and its Restricted Subsidiaries would be equal to or greater than the Fixed Charge Coverage Ratio for the Issuer and its Restricted Subsidiaries immediately prior to such transaction;

(5) each Guarantor, unless it is the other party to the transactions described above, in which case clause (1)(b) of the second succeeding paragraph shall apply, shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person's obligations under the Indenture, the Notes and the Registration Rights Agreement; and

(6) the Successor Company shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures; if any, comply with the Indenture.

---

**Table of Contents**

The Successor Company (if other than the Issuer) will succeed to, and be substituted for the Issuer, as the case may be, under the Indenture and the Notes and in such event the Issuer will automatically be released and discharged from its obligation under the Indenture and the Notes.

The foregoing clauses (3), (4), (5) and (6) shall not apply to the merger contemplated by the Transaction Agreement. Notwithstanding the foregoing clauses (3) and (4),

(1) any Restricted Subsidiary may consolidate with or merge with or into or wind up into or sell, assign, transfer, lease, convey or otherwise dispose of all or part of its properties and assets to the Issuer, and

(2) the Issuer may consolidate with or merge with or into or wind up into an Affiliate of the Issuer solely for the purpose of reincorporating the Issuer in a State of the United States so long as the amount of Indebtedness of the Issuer and its Restricted Subsidiaries is not increased thereby.

No Guarantor will, and the Issuer will not permit any Guarantor to, consolidate or merge with or into or wind up into (whether or not the Issuer or Guarantor is the surviving corporation), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person (other than any such sale, assignment, transfer, lease, conveyance or disposition in connection with the Transactions described in the Offering Memorandum) unless:

(1) (a) such Guarantor is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a corporation, partnership or limited liability company organized or existing under the laws of the jurisdiction of organization of such Guarantor, as the case may be, or the laws of the United States, any state thereof, the District of Columbia or any territory thereof (such Guarantor or such Person, as the case may be, being herein called the *Successor Person* );

(b) the Successor Person, if other than such Guarantor, expressly assumes all the obligations of such Guarantor under the Indenture and such Guarantor's related Guarantee pursuant to supplemental indentures or other documents or instruments;

(c) immediately after such transaction, no Default exists; and

(d) the Successor Person shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger or transfer and such supplemental indentures, if any, comply with the Indenture; or

(2) the transaction is made in compliance with clauses (1) and (2) of the first paragraph of the covenant described under *Repurchase at the Option of Holders* *Asset Sales*.

Subject to certain limitations described in the Indenture, the Successor Person (if other than such Guarantor) will succeed to, and be substituted for, such Guarantor under the Indenture and such Guarantor's Guarantee, and such Guarantor will automatically be released and discharged from its obligations under the Indenture and such Guarantor's Guarantee. Notwithstanding the foregoing, (1) any Guarantor may consolidate with or merge with or into or wind up into or sell, assign, transfer, lease, convey or otherwise dispose of all or part of its properties and assets to another Guarantor or the Issuer and (2) a Guarantor may consolidate or merge with or into or wind up or convert into an Affiliate incorporated solely for the purpose of reincorporating such Guarantor in another state of the United States or the District of Columbia so long as the amount of Indebtedness of the Guarantor is not increased thereby.

Clauses (3) and (4) of the first paragraph of this *Merger, Consolidation and Sale of All or Substantially All Assets* covenant will not apply to a sale, assignment, transfer, conveyance or other disposition of assets between or among the Issuer and the Restricted Subsidiaries.

## Table of Contents

Although there is a limited body of case law interpreting the phrase substantially all under New York law, which governs the Indenture, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve all or substantially all of the property or assets of a Person.

### *Transactions with Affiliates*

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Issuer (each of the foregoing, an *Affiliate Transaction*) involving aggregate payments or consideration in excess of \$10.0 million, unless:

(1) such Affiliate Transaction is on terms that are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis; and

(2) the Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of \$25.0 million, a resolution adopted by the majority of the board of directors of the Issuer approving such Affiliate Transaction and set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with clause (1) above.

The foregoing provisions will not apply to the following:

(1) transactions between or among the Issuer or any of its Restricted Subsidiaries, or an entity that becomes a Restricted Subsidiary as a result of such transaction, and any merger, consolidation or amalgamation of the Issuer and any direct parent of the Issuer; *provided* that such parent shall have no material liabilities and no material assets other than cash, Cash Equivalents and Capital Stock of the Issuer (or a parent company thereof) and such merger, consolidation or amalgamation is otherwise in compliance with the terms of the Indenture and effected for a bona fide business purpose;

(3) the payment of management, consulting, monitoring and advisory fees and termination fees and related indemnities and expenses pursuant to the Sponsor Management Agreement as in effect on the Issue Date or any amendment thereto or replacement thereof so long as any such amendment or replacement is not disadvantageous in any material respect, in the good faith judgment of the Issuer, to the Holders of the Notes when taken as a whole as compared to the Sponsor Management Agreement in effect on the Issue Date (it being understood that any amendment thereto or replacement thereof to increase the fees payable pursuant to such Sponsor Management Agreement would be deemed to be materially disadvantageous to the Holders);

(4) the payment of reasonable and customary fees and reimbursement of expenses and compensation paid to, and indemnities provided on behalf of or for the benefit of, future, present or former employee, officer, director, member of management or consultant (or the estate, heirs, family members, spouse, former spouse, domestic partner or former domestic partner of any of the foregoing) of the Issuer, any of its direct or indirect parent companies or any of its Restricted Subsidiaries;

(5) transactions in which the Issuer or any of its Restricted Subsidiaries, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Issuer or such Restricted Subsidiary from a financial point of view or stating that the terms are not materially less favorable to the Issuer or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person on an arm's-length basis;

(7) the existence of, or the performance by the Issuer, any of its Restricted Subsidiaries or any direct or indirect parent of the Issuer of its obligations under the terms of, any stockholders agreement (including any registration rights agreement or purchase agreement related thereto) to which it is a party as of the Issue Date and any transaction, agreement or arrangement described in the Offering Memorandum and, in each case, any amendment thereto or similar transactions, agreements or arrangements which it may enter into thereafter; *provided, however*, that the existence of, or the performance by the Issuer or any of its Restricted Subsidiaries of obligations under, any future amendment to any such existing transaction, agreement or arrangement or any similar transaction, agreement or arrangement entered into after the Issue Date shall only be permitted by this clause (7) to the extent that the terms of any such existing transaction, agreement or arrangement together will all amendments thereto, taken as a whole, or new transaction, agreement or arrangement are not otherwise disadvantageous in any material respect to the Holders when taken as a whole as compared to the original agreement in effect on the Issue Date;

(9) the issuance of Equity Interests (other than Disqualified Stock or Preferred Stock) of the Issuer or a Restricted Subsidiary to any person;

(10) sales of accounts receivable, or participations therein, in connection with any Receivables Facility;

(12) payments or loans (or cancellation of loans) or advances to employees, officers, directors, members of management or consultants (or the estate, heirs, family members, spouse, former spouse, domestic partner or former domestic partner of any of the foregoing) of the Issuer, any of its direct or indirect parent companies or any of its Restricted Subsidiaries and employment agreements, severance arrangements, stock option plans and other similar arrangements with such employees, officers, directors, members of management or consultants (or the estate, heirs, family members, spouse, former spouse, domestic partner or former domestic partner of any of the foregoing) which, in each case, are approved by a majority of the board of directors of the Issuer, in good faith;

(19) transactions undertaken in good faith (as certified by a responsible financial or accounting officer of the Issuer in an Officer's Certificate) for the purposes of improving the consolidated tax efficiency of the Issuer and its Subsidiaries and not for the purpose of circumventing any covenant set forth in the Indenture.

### ***Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries***

The Issuer will not, and will not permit any of its Restricted Subsidiaries that are not Guarantors to, directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or consensual restriction on the ability of any such Restricted Subsidiary to:

(1) (a) pay dividends or make any other distributions to the Issuer or any of its Restricted Subsidiaries on its Capital Stock or with respect to any other interest or participation in, or measured by, its profits; or

(b) pay any Indebtedness owed to the Issuer or any of its Restricted Subsidiaries;

(j) customary provisions in any joint venture agreement and other similar agreement entered into in the ordinary course of business;

(k) customary provisions contained in leases, subleases, licenses or sublicenses, Equity Interests or asset sale agreements and other similar agreements, in each case, entered into in the ordinary course of business;

(l) any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (a) through (k) above; *provided* that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of the Issuer, no more restrictive in any material respect with respect to such encumbrances and other restrictions taken as a whole than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing;

(m) any other agreement governing Indebtedness entered into after the Issue Date if (a) such encumbrances and other restrictions are, in the good faith judgment of the Issuer, no more restrictive in any material respect taken as a whole with respect to any Restricted Subsidiary than (i) the restrictions contained in the Indenture as of the Issue Date or (ii) those encumbrances and other restrictions that are in effect on the Issue Date with respect to that Restricted Subsidiary pursuant to agreements in effect on the Issue Date, or (b) any such encumbrance or restriction contained in such Indebtedness does not prohibit (except upon a default or an event of default thereunder) the payment of dividends in an amount sufficient, as determined by the board of directors of the Issuer in good faith, to make scheduled payments of cash interest on the Notes when due;

***Limitation on Guarantees of Indebtedness by Restricted Subsidiaries***

The Issuer will not permit any of its Wholly-Owned Subsidiaries that are Restricted Subsidiaries (and non-Wholly-Owned Subsidiaries if such non-Wholly-Owned Subsidiaries guarantee other capital markets debt securities of the Issuer or any Guarantor), other than a Guarantor or an Excluded Subsidiary, to guarantee the payment of any Indebtedness of the Issuer or any other Guarantor unless:

(1) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture to the Indenture providing for a Guarantee by such Restricted Subsidiary, except that with respect to a guarantee of Indebtedness of the Issuer or any Guarantor, if such Indebtedness is by its express terms subordinated in right of payment to the Notes or such Guarantor's Guarantee, any such guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Guarantee substantially to the same extent as such Indebtedness is subordinated to the Notes; and

(2) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Issuer or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee;

*provided* that this covenant shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary.

Each Guarantee will be limited, to the extent enforceable, to an amount not to exceed the maximum amount that can be guaranteed by that Restricted Subsidiary without rendering the Guarantee, as it relates to such Restricted Subsidiary, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

The Issuer may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Guarantor to become a Guarantor, in which case, such Subsidiary shall only be required to comply with clauses (1) (other than with respect to any time period) and (2) above.

Each Guarantee shall be released in accordance with the provisions of the Indenture described under Guarantees.

***Reports and Other Information***

Notwithstanding that the Issuer may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, the Indenture requires the Issuer to file with the SEC (and make available to the Trustee and Holders of the Notes (without exhibits), without cost to any Holder, within 15 days after it files them with the SEC) from and after the Issue Date,

(1) within 90 days after the end of each fiscal year, annual reports on Form 10-K, or any successor or comparable form, containing the information required to be contained therein, or required in such successor or comparable form;

(2) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, commencing with the first fiscal quarter of the fiscal year commencing January 1, 2012, reports on Form 10-Q containing all quarterly information that would be required to be contained in Form 10-Q, or any successor or comparable form;

(3) promptly from time to time after the occurrence of an event required to be therein reported, such other reports on Form 8-K, or any successor or comparable form; and

(4) any other information, documents and other reports which the Issuer would be required to file with the SEC if it were subject to Section 13 or 15(d) of the Exchange Act beginning on and after the Issue Date;

---

## **Table of Contents**

in each case, in a manner that complies in all material respects with the requirements specified in such form; *provided* that the Issuer shall not be so obligated to file such reports with the SEC (i) if the SEC does not permit such filing or (ii) prior to the consummation of an exchange offer or the effectiveness of a shelf registration statement as required by the Registration Rights Agreement, so long as clause (i) or (ii) is applicable, the Issuer makes available such information to prospective purchasers of Notes, in addition to providing such information to the Trustee and the Holders of the Notes, in each case within 15 days after the time the Issuer would be required to file such information with the SEC, if it were subject to Sections 13 or 15(d) of the Exchange Act, including by posting such information on the website of the Issuer or any of its parent companies (which may be password protected so long as the password is made promptly available by the Issuer to the Trustee, the Holders of the Notes and such prospective purchasers upon request). The Trustee shall have no obligation whatsoever to determine whether or not such information has been posted. In addition, to the extent not satisfied by the foregoing, the Issuer has agreed that, for so long as any Notes are outstanding, it will furnish to Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

In the event that any direct or indirect parent company of the Issuer becomes a guarantor of the Notes, the Indenture permits the Issuer to satisfy its obligations in this covenant with respect to financial information relating to the Issuer by furnishing financial information relating to such parent; *provided* that the same is accompanied by consolidating information that explains in reasonable detail the differences between the information relating to such parent, on the one hand, and the information relating to the Issuer and its Restricted Subsidiaries on a standalone basis, on the other hand.

Notwithstanding the foregoing, such requirements shall be deemed satisfied prior to the commencement of the exchange offer or the effectiveness of the shelf registration statement by the filing with the SEC of any registration statement or other filing, and any amendments thereto, with such financial information that satisfies Regulation S-X of the Securities Act.

### ***Events of Default and Remedies***

The Indenture provides that each of the following is an Event of Default:

- (1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of, or premium; if any, on the Notes;
- (2) default for 30 days or more in the payment when due of interest or Additional Interest on or with respect to the Notes;
- (3) failure by the Issuer or any Guarantor for 60 days after receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the Notes to comply with any of its obligations, covenants or agreements (other than a default referred to in clauses (1) and (2) above) contained in the Indenture or the Notes;
- (4) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries or the payment of which is guaranteed by the Issuer or any of its Restricted Subsidiaries, other than Indebtedness owed to the Issuer or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the Notes, if both:
  - (a) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and

---

**Table of Contents**

(b) the principal amount of such Indebtedness, together with the principal amount of any other such indebtedness in default for failure to pay any principal at its stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$50.0 million or more at any one time outstanding;

(5) failure by the Issuer or any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, to pay final judgments aggregating in excess of \$50.0 million, which final judgments remain unpaid, undischarged, unwaived and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

(6) certain events of bankruptcy or insolvency with respect to the Issuer or any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary; or

(7) the Guarantee of any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, shall for any reason cease to be in full force and effect or any responsible officer of any Guarantor that is a Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, as the case may be, denies that it has any further liability under its or their Guarantee(s) or gives notice to such effect, other than by reason of the termination of the Indenture or the release of any such Guarantee in accordance with the Indenture.

If any Event of Default (other than of a type specified in clause (6) above with respect to the Issuer) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in principal amount of the then total outstanding Notes by notice to the Issuer may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately.

Upon the effectiveness of such declaration, such principal and interest will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) above with respect to the Issuer, all outstanding Notes will become due and payable without further action or notice. The Indenture provides that the Trustee may withhold from the Holders notice of any continuing Default, except a Default relating to the payment of principal, premium, if any, or interest, if it determines that withholding notice is in their interest.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default and its consequences under the Indenture except a continuing Default in the payment of interest on, premium, if any, or the principal of any Note held by a non-consenting Holder. In the event of any Event of Default specified in clause (4) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 20 days after such Event of Default arose:

(1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged; or

(2) holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or

(3) the default that is the basis for such Event of Default has been cured.

## **Table of Contents**

The Indenture provides that, at any time after a declaration of acceleration with respect to the Notes, the Holders of a majority in principal amount of the Notes may rescind and cancel such declaration and its consequences:

- (1) if the rescission would not conflict with any judgment or decree;
- (2) if all existing Events of Default have been cured, waived, annulled or rescinded except nonpayment of principal or interest that has become due solely because of the acceleration;
- (3) to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid; and
- (4) if the Issuer has paid the Trustee its reasonable compensation and reimbursed the Trustee for its expenses, disbursements and advances.

In case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the Notes unless the Holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;
- (2) Holders of at least 25% in principal amount of the total outstanding Notes have requested the Trustee, in writing, to pursue the remedy;
- (3) Holders of the Notes have offered the Trustee security or indemnity reasonably satisfactory to it against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and
- (5) Holders of a majority in principal amount of the total outstanding Notes have not given the Trustee a written direction inconsistent with such request within such 60-day period.

Subject to certain restrictions, under the Indenture the Holders of a majority in principal amount of the total outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Note or that would involve the Trustee in personal liability.

The Indenture provides that the Issuer is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Issuer is required, within five Business Days, after becoming aware of any Default, to deliver to the Trustee a statement specifying such Default.

## **No Personal Liability of Directors, Officers, Employees and Stockholders**

No past, present or future director, officer, employee, manager, incorporator, member, partner or stockholder of the Issuer or any Guarantor or any of their Subsidiaries or direct or indirect parent companies shall have any liability for any obligations of the Issuer or the Guarantors under the Notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting Notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that such a waiver is against public policy.

**Legal Defeasance and Covenant Defeasance**

The obligations of the Issuer and the Guarantors under the Indenture will terminate (other than certain obligations) and will be released upon payment in full of all of the Notes. The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the Notes and have each Guarantor's obligation discharged with respect to its Guarantee ( *Legal Defeasance* ) and cure all then existing Events of Default except for:

- (1) the rights of Holders of Notes to receive payments in respect of the principal of, premium, if any, and interest on the Notes when such payments are due solely out of the trust created pursuant to the Indenture;
- (2) the Issuer's obligations with respect to Notes concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and those of each Guarantor released with respect to substantially all of the restrictive covenants in the Indenture ( *Covenant Defeasance* ) and thereafter any omission to comply with such obligations shall not constitute a Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to the Issuer) described under *Events of Default and Remedies* will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Notes:

- (1) the Issuer must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be Sufficient, in the opinion of a nationally recognized firm of independent public accountants, investment bank or appraisal firm, to pay the principal of, premium, if any, and interest due on the Notes on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on such Notes (*provided* that if such redemption is made as provided under *Optional Redemption*, (x) the amount of cash in U.S. dollars, Government Securities, or a combination thereof, that the Issuer must irrevocably deposit or cause to be deposited will be determined using an assumed Applicable Premium calculated as of the date of such deposit and (y) the Issuer must irrevocably deposit or cause to be deposited additional money in trust on the redemption date as necessary to pay the Applicable Premium as determined on such date) and the Issuer must specify whether such Notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions,
  - (a) the Issuer has received from, or there has been published by, the United States Internal Revenue Service a ruling, or
  - (b) since the issuance of the Notes, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes, as applicable, as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

---

**Table of Contents**

(3) in the case of Covenant Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to such tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default (other than that resulting from borrowing funds to be applied to make such deposit and the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under the Senior Credit Facilities have been issued or any other material agreement or instrument (other than the Indenture) to which the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound;

(7) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel (which Opinion of Counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Notwithstanding the foregoing, an Opinion of Counsel required by the immediately preceding paragraph with respect to legal defeasance need not be delivered if all of the Notes not theretofore delivered to the Trustee for cancellation (x) have become due and payable or (y) will become due and payable at their stated maturity within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer.

**Satisfaction and Discharge**

The Indenture will be discharged and will cease to be of further effect as to all Notes, when either:

(1) all Notes theretofore authenticated and delivered, except lost, stolen or destroyed Notes which have been replaced or paid and Notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from trust, have been delivered to the Trustee for cancellation; or

(2) (a) all Notes not theretofore delivered to the Trustee for cancellation have become due and payable by reason of the making of a notice of redemption or otherwise, will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer and the Issuer or any Guarantor have irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders of the Notes, cash in U.S. dollars, Government Securities, or a combination thereof, in such amounts as will be sufficient without consideration of any reinvestment of interest to pay and discharge the entire indebtedness on the Notes not theretofore delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest to, but not including, the date of maturity or redemption;

(b) the Issuer and/or the Guarantors have paid or caused to be paid all sums payable by it under the Indenture; and

(c) the Issuer has delivered irrevocable instructions to the Trustee to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In addition, the Issuer must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

### **Amendment, Supplement and Waiver**

- (10) except as expressly permitted by the Indenture, modify the Guarantees of any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer), would constitute a Significant Subsidiary, in any manner adverse to the Holders of the Notes.

Notwithstanding the foregoing, the Issuer, any Guarantor (with respect to a Guarantee or the Indenture to which it is a party) and the Trustee may amend or supplement the Indenture and any Guarantee or Notes without the consent of any Holder:

Interest on a Capitalized Lease Obligation shall be deemed to accrue at an interest rate reasonably determined by a responsible financial or accounting officer of the Issuer to be the rate of interest implicit in such Capitalized Lease Obligation in accordance with GAAP. **BOOK-ENTRY; DELIVERY AND FORM**

The certificates representing the exchange notes will be issued in fully registered form without interest coupons (the global notes). The global notes will be deposited with the trustee as a custodian for DTC, as depository, and registered in the name of a nominee of such depository.

**The Global Notes**

We expect that pursuant to procedures established by DTC (a) upon the issuance of the global notes, DTC or its custodian will credit, on its internal system, the principal amount at maturity of the individual beneficial interests represented by such global notes to the respective accounts of persons who have accounts with such depository and (b) ownership of beneficial interests in the global notes will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants). Such accounts initially will be designated by or on behalf of the initial purchasers and ownership of beneficial interests in the global notes will be limited to persons who have accounts with DTC (participants) or persons who hold interests through participants. Holders may hold their interests in the global notes directly through DTC if they are participants in such system, or indirectly through organizations which are participants in such system.

**Except as described below, owners of interests in the global notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.**

So long as DTC, or its nominee, is the registered owner or holder of the notes, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such global notes for all purposes under the indenture. No beneficial owner of an interest in the global notes will be able to transfer that interest except in accordance with DTC's procedures, in addition to those provided for under the indenture with respect to the global notes.

Payments of the principal of, premium (if any), interest (including additional interest) on, the global notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. None of us, the trustee or any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interest.

We expect that DTC or its nominee, upon receipt of any payment of principal, premium, if any, interest (including additional interest) on the global notes, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global notes as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the global notes held through such participants will be governed by standing instructions and customary practice, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way through DTC's same-day funds system in accordance with DTC rules and will be settled in same day funds.

DTC has advised us that it will take any action permitted to be taken by a holder of notes (including the presentation of outstanding notes for exchange as described below) only at the direction of one or more participants to whose account the DTC interests in the global notes are credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the indenture, DTC will exchange the global notes for certificated securities, which it will distribute to its participants and which will be legended as set forth under the heading "Notice to Investors" in the final offering memoranda relating to the outstanding notes.

## **Table of Contents**

DTC has advised us as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the Federal Reserve System, a clearing corporation within the meaning of the Uniform Commercial Code and a Clearing Agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly ( indirect participants ).

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the global notes among participants of DTC, it is under no obligation to perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

### **Certificated Securities**

Certificated securities shall only be issued in exchange for beneficial interests in the global notes (i) after there has occurred and is continuing an event of default with respect to the notes or (ii) if DTC is at any time unwilling or unable to continue as a depository for the global notes or has ceased to be a clearing agency registered under the Exchange Act and a successor depository is not appointed by us within 120 days.

### **Secondary Market Trading, Global Clearance and Settlement under the Book-Entry System**

Any permitted secondary market trading activity in the notes will be required by DTC to be settled in immediately available funds. We expect that secondary trading in any certificated notes will also be settled in immediately available funds.

**CERTAIN MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following is a discussion of certain material U.S. federal income tax considerations of the exchange offer to holders of outstanding notes. This discussion is based upon the Code, U.S. Treasury regulations promulgated or proposed thereunder and administrative and judicial interpretations thereof, all as in effect on the date hereof, and all of which are subject to change, possibly with retroactive effect, or to different interpretation. This discussion does not address all of the U.S. federal income tax considerations that may be relevant to particular holders in light of their particular circumstances or to holders subject to special treatment under U.S. federal income tax law (such as banks, insurance companies, dealers in securities or other holders that generally mark their securities to market for U.S. federal income tax purposes, tax-exempt entities, retirement plans, regulated investment companies, real estate investment trusts, certain former citizens or residents of the United States, holders that hold outstanding notes as part of a straddle, hedge, conversion or other integrated transaction or holders that are U.S. persons that have a functional currency other than the U.S. dollar). In addition, this discussion does not address any foreign, state, local, gift, estate or other tax laws that may be applicable to a particular holder. This discussion applies only to a beneficial holder that holds outstanding notes as a capital asset within the meaning of Section 1221 of the Code.

The exchange of an outstanding note for an exchange note pursuant to the exchange offer will not constitute a taxable exchange for U.S. federal income tax purposes, and accordingly a holder will not recognize any gain or loss upon the receipt of an exchange note for an outstanding note. A holder's holding period for an exchange note will include the holding period for the outstanding note exchanged therefor, and a holder's tax basis in the exchange note immediately after the exchange will be the same as such holder's adjusted tax basis in such outstanding note immediately before the exchange.

**This discussion is for general information only. Holders of outstanding notes are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular circumstances as well as the application of foreign, state, local, gift, estate or other tax laws.**

Any resale may be made directly to purchasers or to through brokers or dealers who may receive compensation in the form of commissions or concessions from any broker-dealer or the purchasers of any exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of the exchange notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any resale of exchange notes and any commissions or concessions received by these persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

We will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. The estimated cash expenses to be incurred in connection with the exchange offer will be paid by us and will include fees and expenses of the exchange agent, legal, printing and related fees and expenses. The *Company* also franchises both individual stores and franchise areas throughout the United States and Puerto Rico, principally under the name *Party City*.

*PCHI* is a wholly-owned subsidiary of *PC Intermediate Holdings, Inc.* (*PC Intermediate*), which is a wholly-owned subsidiary of *PC Topco Holdings, Inc.* (*PC Topco*). *PC Intermediate* and *PC Topco* have no assets or operations other than their investments in *PCHI* and its subsidiaries and income from *PCHI* and its subsidiaries.

On July 27, 2012, *PC Merger Sub, Inc.* (*Merger Sub*), a wholly-owned subsidiary of *PC Intermediate*, which is a wholly-owned subsidiary of *PC Topco*, merged into the *Company*, with the *Company* being the surviving entity (the *Transaction*). At such time 100% of *PC Topco*, which was formed in order to effect the *Transaction*, was owned by a collaborative group consisting of funds affiliated with Thomas H. Lee Partners, L.P. (*THL*), 70% ownership, funds affiliated with Advent International Corporation (*Advent*), 24% ownership, and other minority investors, including management, 6% ownership. Prior to the *Transaction*, the *Company* was owned by Berkshire Partners LLC, Weston Presidio Capital, Advent, and other minority investors, including management. *THL* did not own any portion of the *Company* prior to the *Transaction*. See Note 5 for further discussion.

As a result of the *Transaction*, the financial information for the period after July 27, 2012 represents the financial information of the *Successor* company. Prior to, and including, July 27, 2012, the consolidated financial statements include the accounts of the *Predecessor* company. Due to the change in the basis of accounting resulting from the application of the acquisition method of accounting and push-down accounting, the *Predecessor*'s consolidated financial statements and the *Successor*'s consolidated financial statements are not necessarily comparable.

The consolidated balance sheet as of December 31, 2012 and the consolidated statement of stockholders' equity for the period from July 28, 2012 to December 31, 2012 have been adjusted to report the issued and outstanding shares of *PCHI*, as opposed to the issued and outstanding shares of *PC Topco*. The adjustment did not have an impact on stockholders' equity. Additionally, the condensed consolidating financial information in footnote 20 has been adjusted to reflect the balances of *PCHI* in a separate column in order to comply with Note 1 to Rule 3-10(f) of Regulation S-X.

**Note 2 Summary of Significant Accounting Policies*****Consolidated Financial Statements***

The consolidated financial statements of the *Company* include the accounts of all majority-owned subsidiaries and controlled entities. All significant intercompany balances and transactions have been eliminated.

The *Company*'s retail operations define a fiscal year (*Fiscal Year*) as the 52-week period or 53-week period ended on the Saturday nearest December 31st of each year, and define their fiscal quarters (*Fiscal Quarter*) as the four interim 13-week periods following the end of the previous *Fiscal Year*, except in the case of a 53-week *Fiscal Year* when the fourth *Fiscal Quarter* is extended to 14 weeks. The consolidated financial statements of the *Company* combine the *Fiscal Year* and *Fiscal Quarters* of the *Company*'s retail operations with the calendar year and calendar quarters of the *Company*'s wholesale operations, as the differences are not significant.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Subsequent events have been evaluated through April 1, 2013, the date on which financial statements were available to be issued.

***Use of Estimates***

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Management periodically evaluates estimates used in the preparation of the consolidated financial statements for continued reasonableness. Appropriate adjustments, if any, to the estimates used are made prospectively based on such periodic evaluations.

***Cash Equivalents***

Highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

***Inventories***

Inventories are valued at the lower of cost or market.

The Company determines the cost of inventory at its retail stores using the weighted average method. All other inventory cost is determined principally using the first-in, first-out method.

The Company estimates retail inventory shortage for the period between physical inventory dates on a store-by-store basis. Inventory shrinkage estimates can be affected by changes in merchandise mix and changes in actual shortage trends. The shrinkage rate from the most recent physical inventory, in combination with historical experience, is the basis for estimating shrinkage.

***Allowance for Doubtful Accounts***

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of the Company's customers to make required payments. A considerable amount of judgment is required in assessing the ultimate realization of these receivables, including consideration of the Company's history of receivable write-offs, the level of past due accounts and the economic status of the Company's customers. In an effort to identify adverse trends relative to customer economic status, the Company assesses the financial health of the markets it operates in and performs periodic credit evaluations of its customers and ongoing reviews of account balances and aging of receivables. Amounts are considered past due when payment has not been received within the time frame of the credit terms extended. Write-offs are charged directly against the allowance for doubtful accounts and occur only after all collection efforts have been exhausted. At December 31, 2012 and December 31, 2011, the allowance for doubtful accounts was \$706 and \$3,877, respectively.

***Long-Lived and Intangible Assets (including Goodwill)***

Property, plant and equipment are stated at cost. Equipment under capital leases are stated at the present value of the minimum lease payments at the inception of the lease. Depreciation is calculated principally on the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized on a straight-line basis over the shorter of the lease term or the estimated useful life of the asset.

The Company reviews the recoverability of its finite long-lived assets, including finite-lived intangible assets, whenever facts and circumstances indicate that the carrying amount may not be fully recoverable. For purposes of recognizing and measuring impairment, the Company evaluates long-lived assets other than goodwill

---

**Table of Contents**

**PARTY CITY HOLDINGS INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

based upon the lowest level of independent cash flows ascertainable to evaluate impairment. If the sum of the undiscounted future cash flows expected over the remaining asset life is less than the carrying value of the assets, the Company may recognize an impairment loss. The impairment related to long-lived assets is measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset.

In the evaluation of the fair value and future benefits of finite long-lived assets attached to retail stores, the Company performs its cash flow analysis on a store-by-store basis. Various factors including future sales growth and profit margins are included in this analysis.

Goodwill represents the excess of the purchase price of acquired companies over the estimated fair value of the net assets acquired. Goodwill and other intangibles with indefinite lives are not amortized, but are reviewed for impairment annually or more frequently if certain indicators arise. The Company evaluates the goodwill associated with its acquisitions, and other intangibles with indefinite lives, as of the first day of its fourth quarter based on current and projected performance. For purposes of testing goodwill for impairment, reporting units are determined by identifying individual components within the Company's organization which constitute a business for which discrete financial information is available and is reviewed by management. Components within a segment are aggregated to the extent that they have similar economic characteristics. Based on this evaluation, the Company has determined that its operating segments, wholesale and retail, represent reporting units for the purposes of its goodwill impairment test.

If necessary, the Company estimates the fair value of each reporting unit using expected discounted cash flows. If the carrying amount of a reporting unit exceeds its fair value, the excess, if any, of the fair value of the reporting unit over amounts allocable to the unit's other assets and liabilities is the implied fair value of goodwill. If the carrying amount of a reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss will be recognized in an amount equal to that excess. The fair value of a reporting unit refers to the amount at which the unit as a whole could be sold in a current transaction between willing parties.

During 2010, the Company evaluated the conversion of approximately 20 of its Factory Card & Party Outlet (FCPO) stores to the Party City name and, based on the results, the Company concluded during the fourth quarter of 2010 that it would convert the remaining FCPO non-outlet stores, over time, to the Party City name. The Company performed an impairment test and determined that the FCPO trade name of \$27,400 became fully impaired during the fourth quarter of 2010 and impaired the entire amount of the trade name. The fair value calculation utilized Level 3 fair value inputs, as defined in Note 17.

***Deferred Financing Costs***

Deferred financing costs are amortized to interest expense over the lives of the debt using the effective interest method.

***Deferred Rent and Rental Expenses***

The Company leases its retail stores under operating leases that generally have initial terms of ten years, with two five year renewal options. The Company's leases may have early cancellation clauses, which permit the lease to be terminated if certain sales levels are not met in specific periods, and may provide for the payment of contingent rent based on a percentage of the store's net sales. The Company's lease agreements generally have defined escalating rent provisions, which are reported as a deferred rent liability and expensed on a straight-line basis over the term of the related lease, commencing with the date of possession. In addition, the Company may receive cash allowances from its landlords on certain properties, which are reported as deferred rent and amortized to rent expense over the term of the lease, also commencing with the date of possession. The deferred rent liability at December 31, 2012 and 2011 was \$6,335 and \$18,425, respectively.

**PARTY CITY HOLDINGS INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

***Investments***

The Company maintains a 49.9% interest in Convergram Mexico, a joint venture distributing metallic balloons, principally in Mexico and Latin America. The Company accounts for its investment in the joint venture using the equity method. The Company's investment in the joint venture is included in other assets on the consolidated balance sheet and the results of the joint venture's operations are included in other expense (income) on the consolidated statement of operations and comprehensive income (loss) (see Note 10).

***Insurance Accruals***

The Company maintains certain self-insured workers' compensation and general liability insurance plans. The Company estimates the required liability for claims under such plans based upon various assumptions, which include, but are not limited to, historical loss experience, projected loss development factors, actual payroll and other data. The required liability is also subject to adjustment in the future based upon changes in claims experience, including changes in the number of incidents (frequency) and changes in the ultimate cost per incident (severity).

***Revenue Recognition***

The Company's terms of sale to retailers and other distributors for substantially all of its sales is freight-on-board ( F.O.B. ) shipping point and, accordingly, title and the risks and rewards of ownership are transferred to the customer, and revenue is recognized, when goods are shipped. The Company estimates reductions to revenues for volume-based rebate programs at the time sales are recognized. Wholesale sales returns are not significant as, generally, we only accept the return of goods that were shipped to retailers in error. Revenue from retail operations is recognized at the point of sale. The Company estimates future retail sales returns and records a provision in the period that the related sales are recorded based on historical information. Retail sales are reported net of taxes collected.

Franchise fee revenue is recognized upon the completion of the Company's performance requirements and the opening of the franchise store. In addition to the initial franchise fee, the Company also recognizes royalty fees generally ranging from 4% to 6% and advertising fund fees ranging from 1% to 2.25% based upon the franchised stores' reported gross retail sales. The terms of the Company's franchise agreements also provide for payments to franchisees based on e-commerce sales originating from specified areas relating to the franchisees' contractual territory. The amounts paid by the Company vary based on several factors, including the profitability of the Company's e-commerce sales, and are expensed at the time of sale.

***Cost of Sales***

Cost of sales at wholesale reflects the production costs (i.e., raw materials, labor and overhead) of manufactured goods and the direct cost of purchased goods, inventory shrinkage, inventory adjustments, inbound freight to the Company's manufacturing and distribution facilities, distribution costs and outbound freight to transfer goods to the Company's wholesale customers. At retail, cost of sales reflects the direct cost of goods purchased from third parties and the production or purchase costs of goods acquired from the Company's wholesale operations. Retail cost of sales also includes inventory shrinkage, inventory adjustments, inbound freight, occupancy costs related to store operations, such as rent and common area maintenance, utilities and depreciation on assets, and all logistics costs (i.e., procurement, handling and distribution costs) associated with the Company's e-commerce business. As a result of the Transaction (see Note 1), the Company applied the acquisition method of accounting and increased the value of its inventory by \$89,754 as of July 28, 2012. The

adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at July 27, 2012. Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58,626 as a portion of the related inventory was sold.

***Retail Operating Expenses***

Retail operating expenses include the costs and expenses associated with the operation of the Company's retail stores, with the exception of occupancy costs included in cost of sales. Retail operating expenses principally consist of employee compensation and benefits, advertising, supplies expense and credit card and banking fees.

***Shipping and Handling***

Outbound shipping costs billed to customers are included in net sales. The costs of shipping and handling incurred by the Company are included in cost of sales.

***Store Closure Costs***

The Company records estimated store closure costs, estimated lease commitment costs, net of estimated sublease income, and other miscellaneous store closing costs when the liability is incurred.

***Product Royalty Agreements***

The Company enters into product royalty agreements that allow the Company to use licensed designs on certain of its products. These contracts require the Company to pay royalties, generally based on the sales of such product, and may require guaranteed minimum royalties, a portion of which may be paid in advance. The Company matches royalty expense with revenue by recording royalties at the time of sale, at the greater of the contractual rate or an effective rate calculated based on the guaranteed minimum royalty and the Company's estimate of sales during the contract period. If a portion of the guaranteed minimum royalty is determined to be unrecoverable, the unrecoverable portion is charged to expense at that time. Guaranteed minimum royalties paid in advance are recorded in the consolidated balance sheets in either prepaid expenses and other current assets or other assets, depending on the nature of the royalties.

***Catalogue Costs***

The Company expenses costs associated with the production of catalogues when incurred.

***Advertising***

Advertising costs are expensed as incurred. Retail advertising expenses for the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010 were \$34,434, \$30,068, \$65,914 and \$53,256, respectively.

***Art and Development Costs***

Art and development costs are primarily internal costs that are not easily associated with specific designs, some of which may not reach commercial production. Accordingly, the Company expenses these costs as incurred.

***Derivative Financial Instruments***

The Company accounts for derivative financial instruments pursuant to Accounting Standards Codification ( ASC ) Topic 815, Accounting for Derivative Instruments and Hedging Activities. ASC Topic 815 requires that all derivative financial instruments be recognized on the balance sheet at fair value and establishes criteria for both the designation and effectiveness of hedging activities. The Company uses derivatives in the management of interest rate and foreign currency exposure. ASC Topic 815 requires the Company to formally document the assets, liabilities or other transactions the Company designates as hedged items, the risk being hedged and the relationship between the hedged items and the hedging instruments. The Company must measure the effectiveness of the hedging relationship at the inception of the hedge and on an on-going basis.

If derivative financial instruments qualify as fair value hedges, the gain or loss on the instrument and the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in current earnings during the period of the change in fair values. For derivative financial instruments that qualify as cash flow hedges (*i.e.*, hedging the exposure to variability in expected future cash flows that is attributable to a particular risk), the effective portion of the gain or loss on the derivative instrument is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. The ineffective portion of a cash flow hedge, if any, is determined based on the dollar-offset method (*i.e.*, the gain or loss on the derivative financial instrument in excess of the cumulative change in the present value of future cash flows of the hedged item) and is recognized in current earnings during the period of change. As long as hedge effectiveness is maintained, interest rate swap arrangements and foreign currency exchange agreements qualify for hedge accounting as cash flow hedges (see Note 18).

***Income Taxes***

The Company accounts for income taxes in accordance with the provisions of ASC Topic 740, Accounting for Income Taxes. Under the asset and liability method of ASC Topic 740, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities and operating loss and tax credit carryforwards applying enacted statutory tax rates in effect for the year in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance when, in the judgment of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

***Stock-Based Compensation***

Accounting for stock-based compensation requires measurement of compensation cost for all stock-based awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. The value of the Company's stock-based awards is recognized as expense over the service period, net of estimated forfeitures.

***Accumulated Other Comprehensive Income (Loss)***

Accumulated other comprehensive income (loss) consists of the Company's foreign currency adjustments and the impact of interest rate swap and foreign exchange contracts that qualify as hedges (see Notes 18 and 19).

***Foreign Currency Transactions and Translation***

The functional currencies of the Company's foreign operations are the local currencies in which they operate. Foreign currency exchange gains or losses resulting from receivables or payables in currencies other

than the functional currencies generally are credited or charged to operations. The balance sheets of foreign subsidiaries are translated into U.S. dollars at the exchange rates in effect on the balance sheet date. The results of operations of foreign subsidiaries are translated into U.S. dollars at the average exchange rates effective for the periods presented. The differences from historical exchange rates are recorded as comprehensive income (loss) and are included as a component of accumulated other comprehensive income (loss).

***Recently Issued Accounting Pronouncements***

In July 2012, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update ( ASU ) 2012-02, Intangibles Goodwill and Other (Topic 350), Testing Indefinite-Lived Intangible Assets for Impairment . Under the ASU, an entity has the option to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired. If an entity determines that it is not more likely than not that an impairment has taken place, it does not need to calculate the fair value of the asset. However, if an entity concludes otherwise, then it is required to calculate the fair value of the asset, compare that value with its carrying amount and record an impairment charge, if any. The ASU is effective for interim and annual impairment tests performed for fiscal years beginning after September 15, 2012. The Company early adopted the pronouncement during the period from July 28, 2012 to December 31, 2012 and the adoption did not have a material impact on its consolidated financial statements.

In December 2011, the FASB issued ASU 2011-11, Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities . Additionally, in January 2013, the FASB issued ASU 2013-01, Balance Sheet (Topic 210), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities . The pronouncements require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The pronouncements are effective during interim and annual periods beginning on or after January 1, 2013. Although the Company continues to review the pronouncements, the Company does not believe that they will have a material impact on the Company s consolidated financial statements or the notes thereto.

In September 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220), Presentation of Comprehensive Income . The pronouncement gives two choices of how to present items of net income, items of other comprehensive income and total comprehensive income: one continuous statement of comprehensive income or two separate consecutive statements can be presented. The guidance also required the reclassification adjustments for each component of accumulated other comprehensive income to be displayed in both net income and other comprehensive income. However, in December 2011, the FASB issued ASU 2011-12, Comprehensive Income (Topic 220): Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05 , which deferred such requirement. In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220), Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income . The pronouncement requires companies to report, in one place, information about reclassifications out of accumulated other comprehensive income. Additionally, it requires companies to report changes in accumulated other comprehensive income balances. The Company adopted ASU 2011-05 during 2012 and chose the single continuous statement approach. Since ASU 2011-05 only required a change in presentation, the adoption did not have a material impact on the Company s results of operations, cash flows or financial condition. For public companies, ASU 2013-02 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012. Since the update only impacts presentation and disclosure, the Company does not expect that the adoption of the pronouncement will have a material impact on its results of operations, cash flows or financial condition.

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards, or IFRS. The ASU amends the fair value measurement and disclosure guidance in Accounting Standards Codification 820, Fair Value Measurement, to converge U.S. GAAP and IFRS requirements for measuring amounts at fair value as well as disclosures about these measurements. Many of the amendments clarify existing concepts and are generally not expected to result in significant changes to application of fair value principles. In certain instances, however, the FASB changed a principle to achieve convergence, and while limited, these amendments have the potential to significantly change practice. These amendments were effective during interim and annual periods beginning after December 15, 2011. The Company adopted the pronouncement during 2012. Such adoption did not have a material impact on the Company's consolidated financial statements or the notes thereto.

**Note 3 Inventories, Net**

Inventories consisted of the following:

As a result of the Transaction (see Note 1 and Note 5), the Company applied the acquisition method of accounting and increased the value of its inventory by \$89,754 as of July 28, 2012. The adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at July 27, 2012. Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58,626 as a portion of the related inventory was sold. At December 31, 2012, \$31,128 of the adjustment was included in finished goods.

Depreciation and amortization expense related to property, plant and equipment, including assets under capital leases, was \$35,677, \$28,373, \$48,515 and \$39,073 for the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010, respectively.

As a result of the Transaction (see Note 1 and Note 5), the Company applied the acquisition method of accounting and recorded its property, plant and equipment at fair value, \$257,266, at July 28, 2012.

**Note 5 Acquisitions*****The Transaction***

On July 27, 2012, Merger Sub, a wholly-owned subsidiary of PC Intermediate, which is a wholly-owned subsidiary of PC Topco, merged into the Company, with the Company being the surviving entity through the Transaction. At such time 100% of PC Topco, which was formed in order to effect the Transaction, was owned by a collaborative group consisting of funds affiliated with THL, 70% ownership, funds affiliated with Advent, 24% ownership, and other minority investors, including management, 6% ownership. Prior to the Transaction, the Company was owned by Berkshire Partners LLC, Weston Presidio Capital, Advent, and other minority investors, including management. THL did not own any portion of the Company prior to the Transaction. As the collaborative group acquired 100% of the Company, push-down accounting was required.

The consideration was paid in cash and was funded by a combination of equity and debt financing. The consideration was equal to:

	\$ 2,690,000
plus: the Company's cash (as defined in the merger agreement):	6,650
plus: the aggregate strike price of vested stock options (see Note 12 for further discussion):	52,080
plus: working capital adjustment (as defined in the merger agreement):	8,540
less: the Company's debt (as defined in the merger agreement):	(994,510)
less: Transaction-related costs of the Predecessor company:	(35,630)

Merger consideration to former owners:	\$ 1,727,130
--	--------------

The amount of cash paid in connection with acquisitions, net of cash acquired on the Company's consolidated statement of cash flows for the period from July 28, 2012 to December 31, 2012, \$1,562,246, represents the portion of the merger consideration that was received by the Company's former owners. The difference between such amount and the merger consideration represents payments to the holders of vested stock options and payments in lieu of dividends on vested stock options (please see Note 12 for a discussion of the impact of the Transaction on stock options and payments in lieu of dividends). Such payments are included in decrease in accounts payable, accrued expenses and income taxes payable on the Company's consolidated statement of cash flows for the period from July 28, 2012 to December 31, 2012.

Amounts outstanding under the Company's \$350,000 ABL revolving credit facility ( Old ABL Facility ) and the Company's \$675,000 Term Loan Agreement ( Old Term Loan Credit Agreement ) were repaid in conjunction with the closing of the Transaction. At such time, the Company entered into a new \$400,000 ABL revolving credit facility ( New ABL Facility ) and a new \$1,125,000 Term Loan Agreement ( New Term Loan Credit Agreement ). Additionally, in conjunction with the Transaction, on July 27, 2012, the Company issued \$700,000 of 8.875% senior notes (the New Senior Subordinated Notes ). See Notes 7 and 8 for further detail. Also, in connection with the Transaction, the Company commenced a cash tender offer for any and all of its outstanding \$175,000 8.75% Senior Subordinated Notes due 2014 (the Tender Offer ). The total consideration included an early tender payment and the tender offer consideration. The early tender payment equaled \$30 per \$1,000 principal

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

amount of notes tendered and accepted for payment. The Tender Offer consideration equaled \$973.75 per \$1,000 principal amount of notes tendered and accepted for payment, plus accrued and unpaid interest. Approximately \$115,800 aggregate principal amount of the notes were validly tendered. On August 27, 2012, the Company redeemed all remaining outstanding notes not tendered pursuant to the Tender Offer. The notes were redeemed at a price of 100% of the principal amount plus accrued and unpaid interest on the principal amount.

In conjunction with the Transaction, the Company incurred \$28,052 of transaction costs during the period from January 1, 2012 to July 27, 2012. Of such amount, \$19,669, relating principally to banker fees, was recorded in other expense, net in the Company's consolidated statement of operations and comprehensive loss. The remaining \$8,383 was recorded as compensation expense in general and administrative expenses in the Company's consolidated statement of operations and comprehensive loss. Additionally, the Transaction accelerated the vesting of certain of the Company's stock options and, as a result, the Company recorded \$2,149 of stock-based compensation expense in general and administrative expenses in the Company's consolidated statement of operations and comprehensive loss. Further, due to the vesting of such stock options, the Company made payments in lieu of dividends to the holders of such options and recorded a \$16,148 charge in general and administrative expenses in the Company's consolidated statement of operations and comprehensive loss. The transaction costs payments, stock option payments and payments in lieu of dividends are included in the decrease in accounts payable, accrued expenses and income taxes payable in the Company's July 28, 2012 to December 31, 2012 consolidated statement of cash flows. See Note 12 for further detail on the stock option and dividend charges. Additionally, in conjunction with the Transaction, Merger Sub and PC Topco incurred \$4,564 of third-party costs, principally attorney and banker fees, prior to July 27, 2012. As the amount related to costs incurred by PC Topco and Merger Sub prior to the Transaction, such amount was not recorded as expense in the Company's Predecessor financial statements and, instead, was recorded as a reduction to stockholders equity in the Company's consolidated financial statements.

The Transaction represented a business combination and the Company applied the acquisition method of accounting and recorded \$741,066 of intangible assets. See Note 6 for further detail. The excess of the purchase price over the fair value of the net assets acquired was assigned to goodwill. Of the total amount, \$1,041,388 was assigned to the Retail segment and \$493,149 was assigned to the Wholesale segment. None of the goodwill is deductible for tax purposes. Goodwill arises due to the Company's vertically integrated structure as, during 2011, 63.6% of the Company's Party City branded store sales were products supplied by the Company's wholesale operations. The vertically integrated structure enhances the Company's profitability as the Company realizes the wholesale-to-retail margin on a significant portion of its retail sales. However, the structure limits the values of certain identifiable intangible assets of the Company's wholesale operations, including the values of trade names and customer lists and relationships, as a significant portion of the wholesale operations consist of intercompany activity. Also, goodwill arises due to the fact that the purchase price that was paid by the collaborative group reflected the expectation that the Company will continue to increase the percentage of the Company's retail sales that relate to product supplied by the Company's wholesale operations and, therefore, the Company will realize the entire wholesale-to-retail margin on such retail sales.

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The allocation of the purchase price is based on the Company's estimate of the fair value of the tangible assets acquired and liabilities assumed. The following table summarizes the values of the major classes of assets acquired and liabilities assumed:

<b>Assets:</b>	
Cash and cash equivalents	\$ 5,501
Accounts receivable	121,249
Inventories	602,543
Prepaid expenses and other current assets	88,857
Total current assets	818,150
Property, plant and equipment	257,266
Goodwill	1,534,537
Other intangible assets	741,066
Other assets	73,606
Total assets	\$ 3,424,625
<b>Liabilities, Redeemable Common Securities and Stockholders' Equity:</b>	
Total liabilities	\$ 2,616,203
Total redeemable common securities and stockholders' equity	808,422
Total liabilities, redeemable common securities and stockholders' equity	\$ 3,424,625

Due to the application of the acquisition method of accounting, the Company increased the value of its inventory by \$89,754 as of July 28, 2012. The adjustment principally reflects the previously deferred wholesale margin on inventory supplied to the Company's retail operations at July 27, 2012. Such adjustment increased the Company's cost of sales during the period from July 28, 2012 to December 31, 2012 by \$58,626 as a portion of the related inventory was sold.

**Wholesale Acquisitions**

On January 30, 2011, the Company acquired all of the common stock of Riethmüller GmbH ( Riethmüller ) for \$47,069 in cash, in a transaction accounted for as a business combination. Riethmüller is a German distributor of party goods and carnival items with latex balloon manufacturing operations in Malaysia and the ability to manufacture certain party goods in Poland. The results of this acquired business are included in the consolidated financial statements since the January 30, 2011 acquisition date and are reported in the operating results of the Company's Wholesale segment.

On September 30, 2010, the Company acquired Christy's By Design Limited and three affiliated companies (the Christy's Group ) from Christy Holdings Limited, a United Kingdom ( U.K. ) based company. The Christy's Group designs and distributes costumes and other garments and accessories through its operations in Asia and the U.K. The fair value of the total consideration paid for the Christy's Group was \$34,342, including \$3,974 paid during the year ended December 31, 2011. The results of this acquired business are included in the consolidated financial statements since the September 30, 2010 acquisition date and are reported in the operating results of the Company's Wholesale segment.

**Retail Acquisitions**

On July 29, 2011, the Company acquired all of the common stock of Party Packagers Inc. ( Party City Canada or Party Packagers ) for \$31,783 in cash in a transaction accounted for as a business combination. The results of this acquired business are included in the consolidated financial statements since the July 29, 2011

acquisition date and are reported in the operating results of the Company's Retail segment. The excess of the purchase price of Party Packagers over the fair value of the net assets acquired was assigned to goodwill. The following summarizes the fair values of the assets acquired and liabilities assumed: accounts receivable of \$284, inventory of \$9,874, fixed assets of \$4,457, other current and non-current assets of \$1,418, accounts payable and other current liabilities of \$7,466 and other liabilities of \$323. The remaining \$23,539 has been recorded as goodwill. The allocation of the purchase price, which was finalized during the period from January 1, 2012 to July 27, 2012, was based on the fair values of the tangible assets acquired and liabilities assumed. Goodwill arose because the purchase price reflected the strategic fit and expected synergies this business brings to the Company's operations. The acquisition expanded the Company's vertical business model by giving the Company a significant retail presence in Canada. Subsequent to the acquisition date, all Party Packagers stores were converted to the Party City banner.

During the period from January 1, 2012 to July 27, 2012, the Company acquired franchisee stores for total consideration of \$3,106. The results of these stores are included in the consolidated financial statements from the acquisition dates and are reported in the operating results of the Company's Retail segment. No franchisee stores were acquired during the period from July 28, 2012 to December 31, 2012.

During 2011, the Company acquired franchisee stores for total consideration of \$12,798 in cash.

During 2010, the Company acquired franchisee stores for total consideration of \$24,300. Total consideration consisted of \$21,500 in cash and the exchange of five corporate stores located in Pennsylvania.

As a result of the Transaction (see Note 1 and Note 5) the Company applied the acquisition method of accounting and recorded the finite-lived intangible assets listed above. The Company is amortizing most of the assets using accelerated patterns based on the discounted cash flows that were used to value such assets.

Additionally, as a result of the Transaction, the Company applied the acquisition method of accounting and recorded an indefinite-lived asset for the Party City trade name of \$519,000, an indefinite-lived asset for the Amscan trade name of \$26,000, an indefinite-lived asset for the Halloween City trade name of \$18,000 and indefinite-lived assets for other trade names in the aggregate amount of \$3,326.

The amortization expense for finite-lived intangible assets for the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010 were \$14,160, \$5,542, \$11,116 and \$10,345, respectively. Estimated amortization expense for each of the next five years will be approximately \$27,640, \$23,445, \$19,744, \$16,708, and \$13,437, respectively.

**Note 7 Loans and Notes Payable**

Amounts outstanding under the Company's \$350,000 ABL revolving credit facility and the Company's \$675,000 Term Loan Agreement were repaid in conjunction with the closing of the Transaction. At such time, the Company entered into a new \$400,000 ABL revolving credit facility ( New ABL Facility ) and a new \$1,125,000 Term Loan Agreement ( New Term Loan Credit Agreement ). Additionally, in conjunction with the Transaction, on July 27, 2012, the Company issued \$700,000 of 8.875% senior notes (the New Senior Subordinated Notes ).

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Under the New ABL Facility, the borrowing base at any time equals (a) 90% of eligible trade receivables plus (b) 90% of eligible inventory and (c) 90% of eligible credit card receivables, less (d) certain reserves.

The New ABL Facility provides for two pricing options: (i) an alternate base interest rate ( ABR ) equal to the greater of (a) the prime rate, (b) the federal funds rate plus 1/2 of 1% or (c) the LIBOR rate plus 1%, in each case, on the date of such borrowing or (ii) a LIBOR based interest rate determined by reference to the LIBOR cost of funds for U.S. dollar deposits for the relevant interest period adjusted for certain additional costs and, in each case, plus an applicable margin. The applicable margin ranges from 0.5% to 1.00% with respect to ABR borrowings and from 1.50% to 2.00% with respect to LIBOR borrowings. The applicable margin at December 31, 2012 was 0.75% for ABR loans and 1.75% for loans based on the LIBOR rate.

In addition to paying interest on outstanding principal under the New ABL Facility, the Company is required to pay a commitment fee of between 0.250% and 0.375% per annum in respect of the unutilized commitments thereunder. The Company must also pay customary letter of credit fees.

The New ABL Facility also provides that the Company has the right from time to time to request additional commitments, of which \$125,000 remains available. The lenders under the New ABL Facility are not under any obligation to provide any such additional commitments, and any increase in commitments is subject to several conditions precedent and limitations. If the Company were to request any additional commitments, and the existing lenders or new lenders were to agree to provide such commitments, the facility size could be increased to up to \$525,000, but the Company's ability to borrow under this facility would still be limited by the amount of the borrowing base under this facility and limitations on incurring additional indebtedness under other debt agreements.

The New ABL Facility has a maturity date of July 27, 2017.

In connection with the New ABL Facility, the Company incurred \$6,224 in finance costs that have been capitalized and will be amortized over the life of the debt.

All obligations under the New ABL Facility are jointly and severally guaranteed by PC Intermediate, PCHI and each existing and future domestic subsidiary of the Company. The Company and each guarantor has secured its obligations, subject to certain exceptions and limitations, including obligations under its guaranty, as applicable, by a first-priority lien on its accounts receivable, inventory, cash and certain related assets and a second-priority lien on substantially all of its other assets, including a pledge of all of the capital stock held by PC Intermediate, PCHI and each guarantor.

The New ABL Facility contains negative covenants that, among other things and subject to certain exceptions, restrict the ability of the Company to:

incur additional indebtedness;

pay dividends on capital stock or redeem, repurchase or retire capital stock;

make certain investments, loans, advances and acquisitions;

engage in transactions with affiliates;

create liens; and

transfer or sell certain assets.

In addition, the Company must comply with a fixed charge coverage ratio if excess availability under the New ABL Facility on any day is less than the greater of: (a) 10% of the lesser of the aggregate commitments

and the then borrowing base under the New ABL Facility and (b) \$30,000. The fixed charge coverage ratio is the ratio of (i) Adjusted EBITDA (as defined in the New ABL Facility) minus maintenance-related capital expenditures (as defined in the New ABL Facility) to (ii) fixed charges (as defined in the New ABL Facility). The Company has not been subjected to the fixed charge coverage ratio as its excess availability has not fallen below the amounts specified above.

The New ABL Facility also contains certain customary affirmative covenants and events of default.

Borrowings under the New ABL Facility totaled \$23,330 at December 31, 2012 and the interest rate was 4.00%. Borrowings under the \$350,000 ABL revolving credit facility totaled \$131,089 at December 31, 2011. The interest rate on \$100,000 of the outstanding balance was 3.03% and the interest rate on the remaining balance was 5.00%. Outstanding standby letters of credit totaled \$18,683 and, after considering borrowing base restrictions, the Company had \$338,470 of available borrowing capacity under the terms of the New ABL Facility at December 31, 2012.

**Other Credit Agreements**

In connection with the acquisitions of the Christy's Group, Riethmüller and Party Packagers, the Company, through its subsidiaries, entered into several foreign asset-based and overdraft credit facilities that provide the Company with GBP10,000, CDN6,000, EUR2,500 and MYR2,500 of borrowing capacity. At December 31, 2012, borrowings under the foreign facilities totaled \$9,928. The facilities contain customary affirmative and negative covenants. In connection with one of the facilities, the Company maintains a compensating cash balance of \$4,361 to secure outstanding standby letters of credit. The compensating cash balance is included in prepaid expenses and other current assets.

All obligations under the New Term Loan Credit Agreement are jointly and severally guaranteed by PC Intermediate, PCHI and each existing and future domestic subsidiary of the Company. Party City Holdings Inc. is a wholly-owned subsidiary of PC Intermediate Holdings, Inc., which is a wholly-owned subsidiary of PC Topco Holdings, Inc. PC Intermediate Holdings, Inc. and PC Topco Holdings, Inc. have no assets or operations other than their investments in PCHI and its subsidiaries and income from PCHI and its subsidiaries.

At December 31, 2012, the Company's authorized capital stock consisted of 100.00 shares of \$0.01 par value common stock.

Under the terms of PC Topco's stockholders' agreement, dated July 27, 2012, and the Company's former stockholders' agreement, dated April 30, 2004, the Company has an option to purchase all of the shares of common stock held by former employees and, under certain circumstances, former employee stockholders can require the Company to purchase all of the shares held by the former employees. The aggregate amount that may be payable to current employee stockholders should they die or become disabled, based on the estimated fair market value of fully paid and vested common securities, totaled \$22,205 and \$35,831 at December 31, 2012 and 2011, respectively, and was classified as redeemable common securities on the Company's consolidated balance sheet, with a corresponding adjustment to stockholders' equity. As there is no active market for the common stock, the Company estimates the fair value of its common stock based on a valuation model confirmed periodically by recent acquisitions or independent appraisals. The former stockholders' agreement, dated April 30, 2004, was terminated in conjunction with the Transaction (see Note 5).

In addition, in 2004, the Company's CEO and President exchanged vested options in a predecessor company for fully vested options to purchase common stock of the Company. Since these options vested immediately and could be exercised upon the death or disability of the officer and put back to the Company, they were reflected as redeemable common securities on the Company's consolidated balance sheet and are recorded at fair market value, with a corresponding adjustment to general and administrative expenses. In conjunction with the Transaction, the options were cancelled and the CEO and President received payments equal to the difference between the fair value of the stock and the exercise prices of the options.

A summary of the changes in redeemable common securities for the years ended December 31, 2010 and 2011 and the period from January 1, 2012 to July 27, 2012 follows:

At July 28, 2012 there were 888.23 redeemable common securities outstanding, at a fair value of \$25,000 per share. There was no change in the number of redeemable shares or the value of such shares from July 28, 2012 to December 31, 2012.

In December 2010, the Company's Board of Directors declared a one-time cash dividend of \$9,400 per share of outstanding common stock, totaling \$289,746, and similar distributions to the holders of vested common stock warrants, \$12,083, and vested time options, \$9,370. The distribution to vested time option holders resulted in a charge to stock compensation expense in 2010. In addition, the Board of Directors declared that holders of unvested options at the declaration date would receive a distribution of \$9,400 per share when the options vested. During 2011, certain time options vested and the Company recorded a \$617 charge to stock compensation expense. Additionally, at the time of the Transaction (see Note 5) certain outstanding stock options became fully vested and the Company made distributions in the amount of \$16,148. The Company recorded a charge equal to such amount in general and administrative expenses in the Company's consolidated statement of operations and comprehensive loss for the period from January 1, 2012 to July 27, 2012.

Certain subsidiaries of the Company maintain profit sharing plans for eligible employees providing for annual discretionary contributions to a trust. Eligible employees are full time domestic employees who have completed a certain length of service, as defined, and attained a certain age, as defined. In addition, the plans require the subsidiaries to match from approximately 12% to 100% of voluntary employee contributions to the plans, not to exceed a maximum amount of the employee's annual salary, ranging from 4% to 6%. Expense for the plans for the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010 totaled \$2,286, \$2,505, \$4,943 and \$4,470, respectively.

**Note 12 Equity Incentive Plan**

On May 1, 2004, the Company adopted the 2004 Equity Incentive Plan (the "2004 Plan") under which the Company could grant incentive awards in the form of restricted and unrestricted common stock options to purchase shares of the Company's common stock to certain directors, officers, employees and consultants of the Company and its affiliates. All stock option activity discussed below related to the 2004 Plan.

**PARTY CITY HOLDINGS INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

PC Topco has adopted the 2012 Omnibus Equity Incentive Plan (the 2012 Plan ) under which it can grant incentive awards in the form of stock appreciation rights, restricted stock and common stock options to certain directors, officers, employees and consultants of PC Topco and its affiliates. A committee of PC Topco s board of directors, or the board itself in the absence of a committee, is authorized to make grants and various other decisions under the 2012 Plan. The maximum number of shares reserved under the 2012 Plan is 3,706 shares. As of December 31, 2012, no awards had been granted under the 2012 Plan.

Prior to the Transaction (see Note 5), the Company had three types of options rollover options, time-based options, and performance-based options, each of which is described below. At the time of the Transaction certain outstanding stock options became fully vested and employees holding such options received cash payments equal to the difference between the fair value of the Company s stock and the exercise prices of the stock options. As a result, at such time, the Company recorded \$2,149 of expense in general and administrative expenses in the Company s consolidated statement of operations and comprehensive loss. Total stock-based compensation expense recorded during the period from January 1, 2012 to July 27, 2012 was \$3,375. Any stock options that did not vest at the time of the Transaction were cancelled and no new stock options were granted subsequent to July 27, 2012.

In December 2010, the Company s Board of Directors declared a one-time cash dividend of \$9,400 per share of outstanding common stock. In addition, the Board of Directors declared that holders of unvested options at the declaration date would receive a distribution of \$9,400 per share when the options vested. At the time of the Transaction certain outstanding stock options became fully vested and the Company made distributions in the amount of \$16,148. The Company recorded a charge equal to such amount in general and administrative expenses in the Company s consolidated statement of operations and comprehensive loss for the period from January 1, 2012 to July 27, 2012.

The stock option payments and payments in lieu of dividends are included in the decrease in accounts payable, accrued expenses and income taxes payable in the Company s July 28, 2012 to December 31, 2012 consolidated statement of cash flows.

Prior to the Transaction the Company had three types of options rollover options, time-based options, and performance-based options, each of which is described below.

***Rollover Options***

In 2004, the Company s CEO and its President exchanged vested options in the predecessor company for 98.18 vested options to purchase common shares at \$2,500 per share (the Rollover Options ). These options had an intrinsic value of \$737 and a fair value of \$880. Under ASC 805-30-30-11 *Goodwill or Gain from Bargain Purchase, Including Consideration Transferred*, vested options granted by the acquiring company in exchange for outstanding options of the target company should be considered part of the purchase transaction. The fair value is accounted for as part of the purchase price of the target company.

Since these options were vested immediately and could be exercised upon death or disability of the executives and put back to the Company, they were reflected as redeemable common securities on the Company s consolidated balance sheet.

However, these options had an additional condition, whereby they could have been put back to the Company at fair market value upon retirement. Because the terms of the Rollover Options could extend beyond the retirement dates of these two executives, it was possible that they could exercise these options within six months of the specified retirement date and then put the immature shares back to the Company at retirement

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

less than six months later. GAAP requires variable accounting for awards with puts that can be exercised within six months of the issuance of the shares.

Therefore, regardless of the probability of this occurrence, changes in market value of the shares were expensed as additional stock compensation because the put, even if not probable, was within the control of the employee.

During the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010, increases in the valuation of the remaining options resulted in charges to pre-tax income of \$775, \$116 and \$572, respectively.

***Time-based options***

From 2004 to 2012 the Company granted time-based options to key eligible employees and outside directors. In conjunction with the options the Company recorded compensation expense of \$1,747, \$1,281 and \$723 during the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010, respectively. Compensation expense during the period from January 1, 2012 to July 27, 2012 included a \$1,296 charge due to the acceleration of vesting of time-based options in conjunction with the Transaction (see Note 5). The fair value of each grant was estimated on the grant date using a Black-Scholes option valuation model based on the assumptions in the following table:

Expected dividend rate	0
Risk free interest rate	1.41% to 5.08%
Price volatility	15.00%
Weighted average expected life	7.5
Forfeiture rate	7.75

The weighted average expected life (estimated period of time outstanding) was estimated using the Company's best estimate for determining the expected term. Expected volatility was based on implied historical volatility of an applicable Dow Jones Industrial Average sector index for a period equal to the stock option's expected life.

***Performance-based options***

From 2005 to 2012 the Company granted performance based options ( PBOs ) to key employees and its outside directors. Under the PBO feature, the ability to exercise vested option awards was contingent upon the occurrence of an initial public offering of the Company's common stock or a change in control of the Company and the achievement of specified investment returns to the Company's shareholders. Since a change in control condition cannot be assessed as probable before it occurs, no compensation expense was recorded in connection with the issuance of PBOs until the Transaction. At such time the Company recorded compensation expense of \$853.

The fair value of each grant was estimated on the grant date using a Monte Carlo option valuation model based on the assumptions in the following table:

Expected dividend rate	0
Risk free interest rate	2.75 % to 5.10%

Management assesses the available positive and negative evidence to estimate if sufficient taxable income will be generated to realize existing deferred tax assets. On the basis of this evaluation, as of December 31, 2012, a \$1,720 valuation allowance had been established for United Kingdom ( U.K. ) net operating loss carryforwards. In addition to such allowance, an additional valuation allowance of \$2,054 was established on the Company's foreign tax credit carryforwards based on a projection of foreign source income which limits the Company's ability to utilize the credits.

The difference between the Company's effective income tax rate and the U.S. statutory income tax rate is as follows:

	Period from July 28, 2012 to December 31, 2012 (Successor)	Period from January 1, 2012 to July 27, 2012 (Predecessor)	Year Ended December 31, 2011 (Predecessor)	Year Ended December 31, 2010 (Predecessor)

Warrant compensation charge not deductible	0	0	0	2.0
Domestic production activities deduction	11.8	(15.8)	(1.8)	(3.0)
Deferred tax adjustments	0	(1.5)	0	3.5
Non-deductible transaction costs	0	(13.4)	0	0
U.K. net operating losses not benefited	(10.7)	(8.7)	0	0
U.S. foreign rate differential	(23.1)	(0.5)	0.2	(0.2)
Other	(1.8)	(0.3)	0.5	(0.1)
Effective income tax rate	19.1%	(2.8)%	37.4%	40.0%

*Deferred tax adjustments:* During the period from January 1, 2012 to July 27, 2012 the Company established a full valuation allowance on its foreign tax credit carryforwards. Additionally, the Company wrote-off a deferred tax liability related to the federal deduction for state taxes and it wrote-off a deferred tax asset related to deferred rent. In 2010, the Company recorded certain adjustments related to deferred income tax accounts recorded during the year related to activities associated with previous acquisitions.

*U.S. foreign rate differential:* During the periods from July 28, 2012 to December 31, 2012 and January 1, 2012 to July 27, 2012, the U.S. tax effect on foreign earnings which are expected to be remitted in the future was provided, without consideration of offsetting foreign tax credits, due to projected future foreign source income being insufficient to utilize any available foreign tax credits.

As of December 31, 2012, the Company had tax-effected net operating loss carryforwards in the U.K. and Canada of \$1,720 and \$768, respectively. The Company has established a full valuation allowance on loss carryforwards in the U.K. and it expects the net operating loss carryforwards in Canada to be fully realizable.

Other differences between the effective income tax rate and the federal statutory income tax rate are composed primarily of favorable permanent differences related to inventory contributions, offset by non-deductible meals and entertainment expenses and, in 2011, offset by the settlement of an IRS audit of the Company's 2008 and 2009 Federal income tax returns.

At December 31, 2012 and 2011, the Company's share of the cumulative undistributed earnings of its foreign subsidiaries whose earnings are considered permanently reinvested was approximately \$22,764 and

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

\$26,435, respectively. No provision has been made for U.S. or additional foreign taxes on the undistributed earnings of certain foreign subsidiaries, because such earnings are expected to be reinvested indefinitely in the subsidiaries' operations. It is not practical to estimate the amount of additional tax that might be payable on these foreign earnings in the event of distribution or sale.

The Company and its subsidiaries file a U.S. federal income tax return, and over 100 state, city, and foreign tax returns.

The following table summarizes the activity related to the Company's gross unrecognized tax benefits:

	Period from July 28, 2012 to December 31, 2012 (Successor)	Period from January 1, 2012 to July 27, 2012 (Predecessor)	Year Ended December 31, 2011 (Predecessor)	Year Ended December 31, 2010 (Predecessor)
Balance as of beginning of period	\$ 492	\$ 492	\$ 831	\$ 992
Increases related to current period tax positions	163	0	49	73
Increases related to prior period tax positions	0	0	0	505
Decrease related to settlements	0	0	(253)	(334)
Decreases related to lapsing of statutes of limitations	(126)	0	(135)	(405)
Balance as of end of period	\$ 529	\$ 492	\$ 492	\$ 831

The Company's total net unrecognized tax benefits that, if recognized, would impact the Company's effective tax rate are \$443 and \$362 at December 31, 2012 and 2011, respectively. It is reasonably possible that a reduction of uncertain tax positions of \$159 may occur prior to December 31, 2013, upon the expiration of the period to assess tax in various federal, state and foreign taxing jurisdictions.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. The Company has accrued \$67 and \$48 for the potential payment of interest and penalties at December 31, 2012 and 2011, respectively. During the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010, the Company recorded income tax expense (credits) of \$10, (\$29), (\$42) and (\$56), respectively, related to interest and penalties.

For federal income tax purposes, the years 2010 through 2012 are open to examination at December 31, 2012. For non-U.S. income tax purposes, tax years from 2006 through 2012 remain open. Lastly, the Company is open to state and local income tax examinations for the tax years 2008 through 2012.

**Note 14 Commitments, Contingencies and Related Party Transactions****Lease Agreements**

The Company has non-cancelable operating leases for its numerous retail store sites, as well as for its corporate offices, certain distribution and manufacturing facilities, showrooms, and warehouse equipment that expire on various dates, principally through 2024. These leases generally contain renewal options and require the Company to pay real estate taxes, utilities and related insurance.

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

At December 31, 2012, future minimum lease payments under all operating leases consisted of the following:

	<b>Future Minimum Operating Lease Payments</b>
2013	\$ 124,708
2014	98,857
2015	83,842
2016	72,352
2017	59,064
Thereafter	141,169
	<b>\$ 579,992</b>

The Company is also an assignor with contingent lease liability for 12 stores sold to franchisees and other parties. The potential contingent lease obligations continue until the applicable leases expire in 2018. The maximum amount of the contingent lease obligations may vary, but is limited to the sum of the total amount due under the leases. At December 31, 2012, the maximum amount of the contingent lease obligations was approximately \$3,254 and is not included in the table above as such amount is contingent upon certain events occurring, which management has not assessed as probable or estimable at this time.

The future minimum lease payments included in the above table also do not include contingent rent based upon sales volumes or other variable costs, such as maintenance, insurance and taxes.

Rent expense for the period from July 28, 2012 to December 31, 2012, the period from January 1, 2012 to July 27, 2012 and the years ended December 31, 2011 and 2010, was \$86,642, \$95,100, \$167,791 and \$144,006, respectively, and included immaterial amounts of rent expense related to contingent rent.

***Product Royalty Agreements***

The Company has entered into product royalty agreements, with various licensors of copyrighted and trademarked characters and designs, which are used on the Company's products, which require royalty payments based on sales of the Company's products, and, in some cases, include annual minimum royalties.

At December 31, 2012, the Company's commitment to pay future minimum product royalties was as follows:

	<b>Future Minimum Royalty Payments</b>
2013	\$ 10,171
2014	14,091

2016	8,028

During December 2009, the Company entered into a product purchase agreement with a vendor which requires the Company to purchase \$9,000 of products annually through 2015.

During July 2012, the Company entered into an agreement which requires the Company to spend a minimum of \$5,000 on advertising during the three year period ended July 2015.

***Legal Proceedings***

The Company is a party to certain claims and litigation in the ordinary course of business. The Company does not believe that any of these proceedings will result, individually or in the aggregate, in a material adverse effect upon its financial condition or future results of operations.

***Related Party Transactions***

At the time of the Transaction (see Note 5), the Company entered into a management agreement with THL and Advent, a minority owner, under which THL and Advent will provide advice to the Company on, among other things, financing, operations, acquisitions and dispositions. Under the agreement THL and Advent are paid, in aggregate, an annual management fee in the amount of the greater of \$3,000 or 1.0% of Adjusted EBITDA, as defined in the Company's debt agreements. THL and Advent received annual management fees in the amounts of \$961 and \$331, respectively, during the period from July 28, 2012 to December 31, 2012. Such amounts were recorded in general and administrative expenses in the Company's consolidated statement of operations and comprehensive loss. Additionally, at the time of the Transaction, the Company paid THL and Advent a non-recurring \$20,000 fee for certain services that were performed in conjunction with the execution of the Transaction, including the obtaining of new financing. As the amount related to services performed for PC Topco and Merger Sub prior to the Transaction, such amount was not recorded as expense in the Company's Predecessor financial statements and, instead, was recorded as a reduction to stockholders' equity in the Company's consolidated financial statements. Additionally, as long as THL and Advent receive annual management fees, they will advise the Company in connection with financing, acquisition and disposition transactions and the Company will pay a fee for services rendered in connection with each such transaction in an amount up to 1% of the gross transaction value. The management agreement expires on its tenth anniversary. In the case of an initial public offering or a change in control, as defined in PC Topco's stockholders' agreement, at the time of such event the Company must pay THL and Advent the net present value of the remaining annual management fees that are payable over the agreement's ten year term.

Prior to the Transaction, the Company had a management agreement with two of its former owners, Berkshire Partners LLC ( Berkshire Partners ) and Weston Presidio Capital ( Weston Presidio ), pursuant to which they were paid an annual management fee of \$1,300. Berkshire Partners received management fees of \$474 during the period from January 1, 2012 to July 27, 2012 and \$833 during each of 2011 and 2010. Weston Presidio received management fees of \$239 during the period from January 1, 2012 to July 27, 2012 and \$417 during each of 2011 and 2010.

**Note 16 Quarterly Results (Unaudited)**

Despite a concentration of holidays in the fourth quarter of the year, as a result of the Company's expansive product lines and customer base and increased promotional activities, the impact of seasonality on the quarterly results of the Company's wholesale operations has been limited. However, due to Halloween and

Christmas, the inventory balances of the Company's wholesale operations are slightly higher during the third quarter than during the remainder of the year. Additionally, the promotional activities of the Company's wholesale business, including special dating terms, particularly with respect to Halloween products sold to retailers and other distributors, result in slightly higher accounts receivable balances during the third quarter. The Company's retail operations are subject to significant seasonal variations. Historically, the Company's retail operations have realized a significant portion of their revenues, cash flow and net income in the fourth quarter of the year, principally due to Halloween sales in October and, to a lesser extent, year-end holiday sales.

The following table sets forth our historical revenues, gross profit, income (loss) from operations, net income (loss) and net income (loss) attributable to Party City Holdings Inc. for each of the quarters during the period from January 1, 2010 to June 30, 2012, the quarter ended December 31, 2012 and for the periods from July 1, 2012 to July 27, 2012 and July 28, 2012 to September 30, 2012:

**Note 17 Fair Value Measurements**

The provisions of ASC Topic 820, "Fair Value Measurement", define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 established a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The following table shows assets and liabilities as of December 31, 2012 (Successor) that are measured at fair value on a recurring basis:

	Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)	Total as of December 31, 2012
Derivative assets	0	\$ 27	0	\$ 27

The following table shows assets and liabilities as of December 31, 2011 (Predecessor) that are measured at fair value on a recurring basis:

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company is required to record other assets and liabilities at fair value on a nonrecurring basis, generally as a result of impairment charges.

The carrying amounts for cash and cash equivalents, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued expenses and other current liabilities approximated fair value at December 31, 2012 and December 31, 2011 because of the short-term maturities of the instruments and/or their variable rates of interest.

The carrying amount and fair value (based on observable inputs, including interest rates) of the Company's borrowings under the New Term Loan Credit Agreement are as follows:

	<b>December 31, 2012</b>	
	<b>Carrying Amount</b>	<b>Fair Value (Level 2)</b>
New Term Loan Credit Agreement	\$ 1,112,632	\$ 1,235,973

At December 31, 2012, the carrying amount of the Company's borrowings under the New Senior Subordinated Notes approximated fair value as market conditions have not changed significantly since the issuance of the debt in July 2012.

The carrying amounts for other long-term debt approximated fair value at December 31, 2012 and December 31, 2011 based on the discounted future cash flow of each instrument at rates currently offered for similar debt instruments of comparable maturity.

**Note 18 Derivative Financial Instruments**

The Company is directly and indirectly affected by changes in certain market conditions. These changes in market conditions may adversely impact the Company's financial performance and are referred to as market risks. The Company, when deemed appropriate, uses derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks managed through the use of derivative financial instruments are interest rate risk and foreign currency exchange rate risk.

***Interest Rate Risk Management***

As part of the Company's risk management strategy, the Company periodically uses interest rate swap agreements to hedge the variability of cash flows on floating rate debt obligations. Accordingly, interest rate swap agreements are reflected in the consolidated balance sheets at fair value and the related gains and losses on these contracts are deferred in stockholders' equity and recognized in interest expense over the same period in which the related interest payments being hedged are recognized in income. The fair value of an interest rate swap agreement is the estimated amount that the counterparty would receive or pay to terminate the swap agreement at the reporting date, taking into account current interest rates and the current creditworthiness of the swap counterparty. The Company did not utilize interest rate swap agreements during 2012. See Note 19 for disclosure of the impact of interest rate swap agreements during 2011 and 2010.

**Table of Contents****PARTY CITY HOLDINGS INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Foreign Exchange Risk Management**

A portion of the Company's cash flows is derived from transactions denominated in foreign currencies. In order to reduce the uncertainty of foreign exchange rate movements on transactions denominated in foreign currencies, including the British Pound Sterling, the Euro, the Malaysian Ringgit, the Canadian Dollar and the Australian Dollar, the Company enters into foreign exchange contracts with major international financial institutions. These forward contracts, which typically mature within one year, are designed to hedge anticipated foreign currency transactions, primarily inventory purchases and sales. For contracts that qualify for hedge accounting, the terms of the foreign exchange contracts are such that cash flows from the contracts should be highly effective in offsetting the expected cash flows from the underlying forecasted transactions.

The foreign currency exchange contracts are reflected in the consolidated balance sheets at fair value. The fair value of the foreign currency exchange contracts is the estimated amount that the counterparties would receive or pay to terminate the foreign currency exchange contracts at the reporting date, taking into account current foreign exchange spot rates. At December 31, 2012 and 2011, the Company had unrealized net (losses) gains of \$(225), and \$505, respectively, recorded in accumulated other comprehensive income (loss) (see Note 19) related to foreign exchange contracts that qualify for hedge accounting. No components of these agreements are excluded in the measurement of hedge effectiveness. As these hedges are 100% effective, there is no current impact on earnings due to hedge ineffectiveness. The Company anticipates that substantially all unrealized gains and losses in accumulated other comprehensive income related to these foreign exchange contracts will be reclassified into earnings by June 2014.

The following table displays the fair values and notional amounts of the Company's derivatives at December 31, 2012 and December 31, 2011:

Derivative Instrument	Notional Amounts		Derivative Assets				Derivative Liabilities			
	December 31, 2012	December 31, 2011	Balance Sheet Line	Fair Value	Balance Sheet Line	Fair Value	Balance Sheet Line	Fair Value	Balance Sheet Line	Fair Value

Foreign Exchange Contracts	\$ 20,120	\$ 27,884	(a)PP	\$ 27	(a)PP	\$ 808	(b)AE	\$ 63	(b)AE	\$ 18

(a) PP = Prepaid expenses and other current assets

(b) AE = Accrued expenses

**Note 19 Subsequent Events**

During February 2013, the Company amended the New Term Loan Credit Agreement. All term loans outstanding at the time of the amendment were replaced with new term loans for the same principal amount and the original issuance discount was eliminated. Additionally, the applicable margin for ABR borrowings was lowered from 3.50% to 2.25%, the applicable margin for LIBOR borrowings was lowered from 4.50% to 3.25% and the LIBOR floor was decreased from 1.25% to 1.00%. The amended agreement provides for two pricing options: (i) an ABR for any day, a rate per annum equal to the greater of (a) Deutsche Bank's prime rate in effect on such day, (b) the federal funds effective rate in effect on such day plus 1/2 of 1%, (c) the adjusted LIBOR rate plus 1% and (d) 2.00% or (ii) the LIBOR rate, adjusted for certain additional costs, with a LIBOR floor of 1.00%, in each case plus the applicable margin.
