Compensation Highlights

We seek to closely align the interests of our executives with the interests of our stockholders. Our compensation programs are designed to:

pay for performance by tying a substantial majority of an executive’s compensation to the attainment of specific performance measures;

provide the same types of benefits for executives as other employees, with no special or supplemental pension, health or death benefits for executives;

target total direct compensation at approximately the median among companies with which we compete for executive talent;

enable us to recover, or clawback, incentive compensation if there is any material restatement of our financial results or if an executive is involved in misconduct;

require our executives to own a significant amount of our stock;

avoid incentives that encourage unnecessary or excessive risk-taking; and

compete effectively for talented executives who will contribute to our long-term success.

ANNUAL MEETING OF STOCKHOLDERS

To Be Held June 6, 2014

PROXY STATEMENT

This proxy statement is being furnished to the stockholders of Leidos Holdings, Inc., a Delaware corporation, in connection with the solicitation of proxies by our Board of Directors for use at our annual meeting of stockholders to be held at the Hyatt Regency Reston, 1800 Presidents Street, Reston, Virginia, on Friday, June 6, 2014, at 9:00 a.m. (local time) and at any and all adjournments, postponements or continuations of the meeting. This proxy statement and the proxy and voting instruction card are first being sent or made available to our stockholders on or about April 25, 2014.

INFORMATION ABOUT VOTING RIGHTS AND SOLICITATION OF PROXIES

Background Information

On September 27, 2013, we completed the spin-off of our technical, engineering and enterprise information technology services business into an independent publicly-traded company named Science Applications International Corporation (New SAIC). In connection with the spin-off, we changed our name to Leidos Holdings, Inc.

Who is entitled to vote at the annual meeting?

Only stockholders of record of our common stock as of the close of business on our record date of April 9, 2014 are entitled to notice of, and to vote at, the annual meeting. As of April 9, 2014, there were 75,329,010 shares of common stock outstanding. We have no other class of capital stock outstanding.

Do I need an admission ticket to attend the annual meeting?

Yes. If you attend the meeting, you will be asked to present an admission ticket or proof of ownership and valid photo identification.

If you received your proxy materials via U.S. mail, your admission ticket is attached to your proxy and voting instruction card. Please detach the admission ticket and bring it with you to the meeting.

If you vote electronically through the Internet, you can print an admission ticket from the online site.

If you hold shares through an account with a bank or broker, you should bring a letter or a recent account statement showing that you owned Leidos common stock in your account as of the record date. This will serve as your admission ticket.

What constitutes a quorum?

The presence, either in person or by proxy, of the holders of a majority of the total voting power of the shares of common stock outstanding as of April 9, 2014 is necessary to constitute a quorum and to conduct business at the annual meeting. Abstentions and broker non-votes will be counted as present for purposes of determining the presence of a quorum.

What is a broker non-vote ?

A broker non-vote occurs when a broker, bank or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that matter and has not received voting instructions from the beneficial owner. In tabulating the voting results for a particular proposal, broker non-votes are not considered entitled to vote on that proposal. Broker non-votes will not have an effect on the outcome of any matter being voted on at the meeting, assuming a quorum is present.

Table of Contents

Unless you provide voting instructions to any broker holding shares on your behalf, your broker may not use discretionary authority to vote your shares on any of the matters to be considered at the annual meeting other than the ratification of our independent registered public accounting firm. Please vote your proxy or provide voting instructions to your broker so your vote can be counted.

How many votes am I entitled to?

Each holder of common stock will be entitled to one vote per share, in person or by proxy, for each share of stock held in such stockholder's name as of April 9, 2014, on any matter submitted to a vote of stockholders at the annual meeting unless a stockholder elects to cumulate votes for the election of directors as described below.

Is cumulative voting permitted for the election of directors?

In the election of directors, you may cumulate your vote. This means that you may allocate among the director nominees, as you see fit, the total number of votes equal to the director positions to be filled multiplied by the number of shares you hold. You may not cumulate your votes against a nominee.

If you are a stockholder of record and choose to cumulate your votes, you will need to notify our Corporate Secretary in writing prior to the Annual Meeting or, if you vote in person at the annual meeting, notify the chair of the meeting prior to the commencement of voting at the annual meeting. You may not submit your proxy or voting instructions over the Internet or by telephone if you wish to distribute your votes unevenly among two or more nominees. If you hold shares beneficially through a broker, trustee or other nominee and wish to cumulate votes, you should contact your broker, trustee or nominee.

Cumulative voting applies only to the election of directors.

How do I vote my shares?

Shares of common stock represented by a properly executed and timely proxy will, unless it has previously been revoked, be voted in accordance with its instructions. In the absence of specific instructions, the shares represented by a properly executed and timely proxy will be voted in accordance with the Board's recommendations as follows:

FOR all of the company's nominees to the Board;

FOR the approval, on a non-binding, advisory basis, of the compensation of our named executive officers; and

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending January 30, 2015;

No other business is expected to come before the annual meeting; however, should any other matter properly come before the annual meeting, the proxy holders intend to vote such shares in accordance with their best judgment on such matter.

There are four different ways to vote your shares:

By Internet: You may submit a proxy or voting instructions over the Internet by going to www.proxyvote.com or by scanning the QR code on your proxy and voting instruction card with a smart phone and following the instructions.

By Telephone: You may submit a proxy or voting instructions by calling 1-800-690-6903 and following the instructions.

By Mail: If you received your proxy materials via the U.S. mail, you may complete, sign and return the accompanying proxy and voting instruction card in the postage-paid envelope provided.

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

In Person: You may attend the meeting at the Hyatt Regency Reston, in Reston, Virginia, and vote in person if you are a stockholder of record or if you have obtained a valid proxy from the stockholder of record.

Submitting a proxy will not prevent you from attending the annual meeting and voting in person. Any proxy may be revoked at any time prior to exercise by delivering a written revocation or a new proxy bearing a later date to our mailing agent, Broadridge, as described below or by attending the annual meeting and voting in person. The mailing address of our mailing agent is Broadridge, 51 Mercedes Way, Edgewood, NY 11717. Attendance at the annual meeting will not, however, in and of itself, revoke a proxy.

What are the voting deadlines?

For shares not held in the Leidos, Inc. Retirement Plan (the Leidos Retirement Plan), the deadline for submitting a proxy using the Internet or the telephone is 11:59 p.m. Eastern time on June 5, 2014. For shares held in the Leidos Retirement Plan, the deadline for submitting voting instructions using any of the allowed methods is 11:59 p.m. Eastern time on June 3, 2014.

Table of Contents

How are the shares held by the Leidos Retirement Plan voted?

Each participant in the Leidos Retirement Plan has the right to instruct Vanguard Fiduciary Trust Company, as trustee of the Leidos Retirement Plan (the Trustee), on a confidential basis, how to vote his or her proportionate interests in all shares of common stock held in the Leidos Retirement Plan. The Trustee will vote all shares held in the Leidos Retirement Plan for which no voting instructions are received in the same proportion as the shares for which voting instructions have been received. The Trustee's duties with respect to voting the common stock in the Leidos Retirement Plan are governed by the fiduciary provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The fiduciary provisions of ERISA may require, in certain limited circumstances, that the Trustee override the votes of participants with respect to the common stock held by the Trustee and to determine, in the Trustee's best judgment, how to vote the shares.

How are the shares held by the Stock Plans voted?

Under the terms of our Stock Compensation Plan, Management Stock Compensation Plan and Key Executive Stock Deferral Plan, Vanguard Fiduciary Trust Company, as trustee of these stock plans, has the power to vote the shares of common stock held in these stock plans. Vanguard will vote all such shares in the same proportion that our other stockholders collectively vote their shares of common stock. If you are a participant in these stock plans, you do not have the right to instruct Vanguard on how to vote your proportionate interests in the shares of common stock held in these stock plans.

What is the difference between a stockholder of record and a beneficial holder?

These terms describe how your shares are held. If your shares are registered directly with Computershare, our transfer agent, then you are a stockholder of record of these shares. If your shares are held in an account at a broker, bank, trust or other similar organization, then you are a beneficial holder of these shares. The organization holding your account is considered the stockholder of record for purposes of voting at the annual meeting. As a beneficial owner, you have the right to instruct that organization on how to vote the shares held in your account. If you wish to vote in person at the annual meeting, you must obtain a valid proxy from the organization holding the shares.

Who is soliciting these proxies?

We are soliciting these proxies and the cost of the solicitation will be borne by us, including the charges and expenses of persons holding shares in their name as nominee incurred in connection with forwarding proxy materials to the beneficial owners of such shares. In addition to the use of the mail, proxies may be solicited by our officers, directors and employees in person, by telephone or by email. Such individuals will not be additionally compensated for such solicitation but may be reimbursed for reasonable out-of-pocket expenses incurred in connection with such solicitation.

What is householding and how does it affect me?

We have adopted a procedure approved by the Securities and Exchange Commission, or SEC, called householding. Under this procedure, we send only one proxy statement and one annual report to eligible stockholders who share a single address, unless we have received instructions to the contrary from any stockholder at that address. This practice is designed to reduce our printing and postage costs. Stockholders who participate in householding will continue to receive separate proxy and voting instruction cards. We do not use householding for any other stockholder mailings.

If you are a registered stockholder residing at an address with other registered stockholders and wish to receive a separate copy of the proxy statement or annual report, or if you do not wish to participate in householding and prefer to receive separate copies of these documents in the future, please contact our mailing agent, Broadridge, either by calling toll-free at 1-800-542-1061, or by writing to Broadridge, Householdings Department, 51 Mercedes Way, Edgewood, NY 11717. If you own shares through a bank, broker, or other nominee, you should contact the nominee concerning householding procedures. We will promptly deliver a separate copy of the proxy statement or annual report to you upon request.

If you are eligible for householding, but you and other stockholders of record with whom you share an address currently receive multiple copies of the proxy statement or annual report and you wish to receive a single copy of each of these documents for your household, please contact our mailing agent, Broadridge, at the telephone number or address indicated above.

Where can I find the voting results of the annual meeting?

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

We intend to announce preliminary voting results at the annual meeting and publish final results in a Current Report on Form 8-K to be filed with the SEC within four business days of the annual meeting.

Table of Contents

INTERNET AVAILABILITY OF PROXY MATERIALS

As permitted by the rules of the SEC, we are using the Internet as a means of furnishing proxy materials to our stockholders. We believe this method will make the proxy distribution process more efficient, lower costs and help in conserving natural resources.

On or about April 25, 2014, we mailed to our stockholders a Notice of Internet Availability of Proxy Materials containing instruction on how to access our proxy materials, including our proxy statement and annual report. The Notice of Internet Availability of Proxy Materials also instructs you on how to access your proxy and voting instruction card to be able to vote through the Internet or by telephone. Other stockholders, in accordance with their prior requests, and employees with regular access to email have received email notification of how to access our proxy materials and vote via the Internet or by telephone or have been mailed paper copies of our proxy materials and a proxy and voting instruction card.

The proxy statement and annual report are available at www.proxyvote.com.

PROPOSAL I ELECTION OF DIRECTORS

Nominees for Director

At the annual meeting, eight directors are to be elected to serve for one-year terms to hold such position until their successors are elected and qualified unless any such director resigns or is removed prior to the end of such term. All nominees have been nominated by the Board of Directors based on the recommendation of the Nominating and Corporate Governance Committee. To the best knowledge of the Board of Directors, all of the nominees are able and willing to serve. Each nominee has consented to be named in this proxy statement and to serve if elected.

Majority Voting Standard in Uncontested Director Elections

We have adopted majority voting procedures for the election of directors in uncontested elections. In an uncontested election, nominees must receive more for than against votes to be elected. Abstentions are not counted as votes cast. As provided in our bylaws, a contested election is one in which the number of nominees exceeds the number of directors to be elected. The election of directors at the 2014 annual meeting is an uncontested election.

If an incumbent director receives more against than for votes, he or she is expected to tender his or her resignation in accordance with our Corporate Governance Guidelines. The Nominating and Corporate Governance Committee will consider the offer of resignation and recommend to the Board of Directors the action to be taken. The Board will promptly disclose its decision as to whether to accept or reject the tendered resignation in a press release, Current Report on Form 8-K or some other public announcement.

Shares of common stock represented by properly executed, timely received and unrevoked proxies will be voted as instructed in the proxy. In the absence of specific instructions, the shares represented by properly executed, timely received and unrevoked proxies will be voted for each nominee. If any of the nominees listed below becomes unable to stand for election at the annual meeting, the proxy holders intend to vote for any person designated by the Board of Directors to replace the nominee unable to serve.

Recommendation of the Board of Directors

The Board of Directors unanimously recommends a vote FOR each nominee.

Nominees for Election to the Board of Directors

Set forth below is a brief biography of each nominee for election as a director and a brief discussion of the specific experience, qualifications, attributes or skills that led to the Board's conclusion that the nominee should serve as a director of our company. The Board evaluates each individual in the context of the Board as a whole, with the objective of recommending to stockholders a group of nominees with complementary skills and a diverse mix of backgrounds, perspectives and expertise beneficial to the broad business diversity of our company. Our board membership criteria and director nomination process are described in the *Corporate Governance* section of this proxy statement.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

Our Board of Directors recognizes the importance of strong corporate governance as a means of addressing the various needs of our stockholders, employees, customers and other stakeholders. As a result, our Board of Directors has adopted Corporate Governance Guidelines which, together with our certificate of incorporation, bylaws, committee charters and other key governance practices and policies, provide the framework for our corporate governance. Our Corporate Governance Guidelines cover a wide range of subjects, including criteria for determining the independence and qualification of our directors. These guidelines are available on our website at www.leidos.com by clicking on the link entitled Corporate Governance. The Board recognizes that observing good corporate governance practices is an ongoing responsibility. The Nominating and Corporate Governance Committee regularly reviews corporate governance developments and recommends revisions to these Corporate Governance Guidelines and other corporate governance documents as necessary to promote our and our stockholders' best interests and to help ensure that we comply with all applicable laws, regulations and stock exchange requirements.

Codes of Conduct

All of our employees, including our executive officers, are required to comply with our *Code of Conduct*, which describes our standards for protecting company and customer assets, fostering a safe and healthy work environment, dealing fairly with customers and others, conducting international business properly, reporting misconduct and protecting employees from retaliation. This code forms the foundation of our corporate policies and procedures designed to promote ethical behavior in all aspects of our business.

Our directors also are required to comply with our *Code of Business Conduct of the Board of Directors* intended to describe areas of ethical risk, provide guidance to directors and help foster a culture of honesty and accountability. This code addresses areas of professional conduct relating to service on our Board, including conflicts of interest, protection of confidential information, fair dealing and compliance with all applicable laws and regulations.

These documents are available on our website at www.leidos.com by clicking on the links entitled Investors followed by Corporate Governance.

Director Independence

The Board of Directors annually determines the independence of each of our directors and nominees in accordance with the Corporate Governance Guidelines. These guidelines provide that independent directors are those who are independent of management and free from any relationship that, in the judgment of the Board of Directors, would interfere with their exercise of independent judgment. No director qualifies as independent unless the Board of Directors affirmatively determines that the director has no material relationship with us (either directly or as a partner, stockholder or officer of an organization with which we have a relationship). The Board of Directors has established independence standards set forth in the Corporate Governance Guidelines that include all elements of independence required by the listing standards of the New York Stock Exchange, or NYSE.

All members of the Audit, Human Resources and Compensation and Nominating and Corporate Governance Committees must be independent directors as defined by the Corporate Governance Guidelines. Members of the Audit Committee must also satisfy a separate independence requirement pursuant to the Securities Exchange Act of 1934 which requires that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from us or any of our subsidiaries other than their directors' compensation or be an affiliated person of ours or any of our subsidiaries.

Each year, our directors are obligated to complete a questionnaire which requires them to disclose any transactions with us in which the director or any member of his or her immediate family might have a direct or potential conflict of interest. Based on its review of an analysis of the responses, the Board of Directors determined that all directors, except for John P. Jumper because of his role as our Chief Executive Officer, are independent under its guidelines and free from any relationship that would interfere with the exercise of their independent judgment.

Criteria for Board Membership

To fulfill its responsibility to identify and recommend to the full Board nominees for election as directors, the Nominating and Corporate Governance Committee reviews the composition of the Board to determine the qualifications and areas of expertise needed to further enhance

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

the composition of the Board. In evaluating potential nominees, the Committee and the Board consider each individual in the context of the Board as a whole, with the objective of recommending to stockholders a slate of individual director nominees that can best continue the success of our business and advance stockholders' interests. In evaluating the suitability of individual nominees, the Nominating and Corporate Governance Committee and the Board consider many factors, including:

expertise and involvement in areas relevant to our business such as defense, intelligence, science, finance, government or commercial and international business;

CORPORATE GOVERNANCE

interpersonal skills, substantial personal accomplishments and diversity as to gender, age, ethnic background and experience;

commitment to business ethics, professional reputation, independence and understanding of the responsibilities of a director and the governance processes of a public company;

demonstrated leadership, with the ability to exercise sound judgment informed by diversity of experience and perspectives; and

benefits from the continuing service of qualified incumbent directors in promoting stability and continuity, contributing to the Board's ability to work together as a collective body and giving the company the benefit of experience and insight that its directors have accumulated during their tenure.

The Nominating and Corporate Governance Committee reviews the director selection process annually and the Committee and the Board assess its effectiveness through an annual written evaluation process. In addition, the Nominating and Corporate Governance Committee has been directed by the Board to observe the following principles contained in our Corporate Governance Guidelines:

a majority of directors must meet the independence criteria established by the Board of Directors;

based upon the desired number of 7 to 14 directors, no more than three directors may be an employee of ours;

only a full-time employee who serves as either the Chief Executive Officer or one of his or her direct reports will be considered as a candidate for an employee director position; and

no director nominee may be a consultant to us.

The Board of Directors expects a high level of commitment from its members and will review a candidate's other commitments and service on other boards to ensure that the candidate has sufficient time to devote to us. In addition, non-employee directors may not serve on the board of directors of more than four other publicly-traded companies. Moreover, directors are expected to act ethically at all times and adhere to our Code of Business Conduct of the Board of Directors.

Board Leadership Structure

The Board is currently led by John P. Jumper, who also is our Chief Executive Officer. Our Board believes that it is in the best interests of stockholders for the Board to have the flexibility to determine the most qualified and appropriate individual to serve as Chair of the Board, whether that person is an independent director or the Chief Executive Officer. The Board selects the Chair annually and may decide to separate or combine the roles of Chair of the Board and Chief Executive Officer, if appropriate, any time in the future. In cases where the Board determines it is in the best interests of our stockholders to combine the positions of Chair and Chief Executive Officer, the independent directors will designate a lead independent director with the responsibilities described in our Corporate Governance Guidelines.

The functions of the executive Chair of the Board include:

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

planning the Board's annual schedule of meetings and agendas in consultation with the Lead Director, the Corporate Secretary and other directors as appropriate;

developing teamwork and a cohesive Board culture and facilitating formal and informal communication with and among directors;

helping to ensure that action items established by the Board are tracked and appropriate follow-up action is taken as necessary;

making recommendations to the Nominating and Corporate Governance Committee as to committee membership and committee chairs, for approval by the Board;

working with committee chairs to ensure that each committee functions effectively and keeping the Board apprised of actions taken;

being authorized to attend all committee meetings, as appropriate;

chairing annual and special meeting of stockholders;

collaborating with the Nominating and Corporate Governance Committee in identifying and recruiting new Board members; and

collaborating with the Nominating and Corporate Governance Committee on the performance and structure of the Board and its committees, including the performance of individual directors.

Our Board is committed to strong corporate governance and believes that Board independence and oversight of management are effectively maintained through the Board's current composition, committee structure and the position of Lead Director. Currently, 8 of our 9 directors are independent as defined by the NYSE rules and our Corporate Governance Guidelines. The Board's Audit, Finance, Human Resources and Compensation and Nominating and Corporate Governance Committees are each comprised entirely of independent directors. In addition, in the event that the Chair of the Board is not an independent director, the Nominating and Corporate Governance Committee nominates an independent director to serve as Lead Director, who then must be approved by a majority of the independent directors.

The Lead Director has specifically delineated duties, which include:

reviewing and providing input to the Chair and Corporate Secretary regarding meeting agendas and the annual schedule of meetings;

providing input to the Chair on the quantity, quality and timeliness of information provided to the Board;

calling and chairing all meetings of the independent directors and apprising the Chair of the issues considered, as appropriate;

presiding, in the Chair's absence, at Board meetings and the annual meeting of stockholders;

helping the Chair facilitate full and candid Board discussions, ensuring all directors express their views on key Board matters and assisting the Board in achieving a consensus;

being authorized to attend all committee meetings, as appropriate;

serving as the liaison between the independent directors and the Chair and Chief Executive Officer;

being available for consultation and direct communication with significant stockholders and other interested parties, if requested;

collaborating with the Human Resources and Compensation Committee on the annual performance evaluation of the Chief Executive Officer;

collaborating with the Nominating and Corporate Governance Committee on the performance and structure of the Board of Directors and its committees, including the performance of individual directors;

on behalf of the independent directors, retaining such counsel or other advisors as they deem appropriate in the conduct of their duties and responsibilities; and

performing such other duties as the Board may determine from time to time.

Currently, Lawrence C. Nussdorf serves as our independent Lead Director.

The Board's Role in Risk Oversight

As part of its oversight function, the Board and its committees monitor risk as part of their regular deliberations throughout the year. When granting authority to management, approving strategies, making decisions and receiving management reports, the Board considers, among other things, the risks facing the company. The Board also oversees risk in particular areas through its committee structure. The Audit Committee evaluates the company's guidelines and policies regarding risk assessment and risk management, including risks related to internal control over financial reporting, the company's major financial risk exposures and the steps management has taken to monitor and control such exposures. The Human Resources and Compensation Committee evaluates risks potentially arising from the company's human resources and compensation policies and practices. The Finance Committee oversees financial, capital investment and insurance risks. The Ethics and Corporate Responsibility Committee oversees risks associated with unethical conduct and political, social, environmental and reputational risks. The Classified Business Oversight Committee oversees risk review activities applicable to the company's classified business activities and receives reports from management on particular classified projects involving significant performance, financial or reputational risks. The company also utilizes an internal Enterprise Risk Management Committee, comprised of the Chief Executive Officer and senior management that, among other things, establishes the overall corporate risk strategy and ensures that policies, systems, processes and training are established to identify and address appropriate risk matters within the company. This committee reports annually to the full Board of Directors on its activities and findings, highlighting the key risks we face and management's actions for managing those risks.

developing and overseeing an annual self-evaluation process of the Board of Directors and its committees.

The Nominating and Corporate Governance Committee held three meetings during fiscal 2014.

Director Nominations Process

The Nominating and Corporate Governance Committee utilizes a variety of methods for identifying and evaluating nominees for director. The Committee regularly assesses the Board's current and projected strengths and needs by, among other things, reviewing the Board's current profile, the criteria for board membership described in this proxy statement beginning on page 10 and our current and future needs.

To the extent that vacancies on the Board of Directors are anticipated or otherwise arise, the Committee prepares a target candidate profile and develops an initial list of director candidates identified by the current members of the Board, business contacts, community leaders and members of management. The Committee may also retain a professional search firm to assist it in developing a list of qualified candidates, although the Committee has not utilized the services of such firms to date. The Nominating and Corporate Governance Committee would also consider any stockholder recommendations for director nominees that are properly received.

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

The Committee then screens and evaluates the resulting slate of director candidates to identify those individuals who best fit the target candidate profile and Board membership criteria and provides the Board of Directors with its recommendations. The Board of Directors then considers the recommendations and votes on whether to nominate the director candidate for election by the stockholders at the annual meeting or to appoint the director candidate to fill a vacancy on the Board.

Stockholder Nominations

Any stockholder may nominate a person for election as a director by complying with the procedures set forth in our bylaws. Under Section 3.03 of our bylaws, in order for a stockholder to nominate a person for election as a director, such stockholder must give timely notice to our Corporate Secretary prior to the meeting at which directors are to be elected. To be timely, notice must be delivered to the Corporate Secretary not later than the close of business on the 90th day, nor earlier than the close of business on the 120th day, prior to the first anniversary of the preceding year's annual meeting. (If the date of the annual meeting is more than 30 days before or more than 70 days after such anniversary date, however, notice by the stockholder must be delivered not earlier than the close of business on the 120th day prior to such annual meeting and not later than the close of business on the 90th day prior to such annual meeting or the 10th day following the day on which we first publicly announce the date of such annual meeting, whichever occurs later).

Such stockholder's notice must include certain information as provided in Section 3.03 of our bylaws about the nominee, the stockholder and the underlying beneficial owner, if any, including his or her name, age, address, occupation, shares, rights to acquire shares, information about derivatives, hedges, short positions, understandings or agreements regarding the economic and voting interests of the nominee, the stockholder and related persons with respect to our stock, if any, and such other information as would be required to be disclosed in a proxy statement soliciting proxies for the election of the proposed nominee. In addition, the notice must contain certain information about the stockholder proposing to nominate that

person. We may require any proposed nominee to furnish such other information as may reasonably be required to determine the eligibility of such proposed nominee to serve as a director. A stockholder's notice must be updated, if necessary so that the information submitted is true and correct as of the record date for determining stockholders entitled to receive notice of the meeting.

Mandatory Retirement Policy

The Board has adopted a mandatory retirement age of 75 for independent directors and 65 for employee directors. It is the general policy of the Nominating and Corporate Governance Committee not to nominate candidates for re-election at any annual stockholder meeting to be held after he or she has attained the applicable retirement age. The Board of Directors granted an exemption to allow John P. Jumper to remain on the Board after assuming the position of our Chief Executive Officer.

Director Compensation

The Board of Directors uses a combination of cash and stock-based incentives to attract and retain qualified candidates to serve as directors. In determining director compensation, the Board of Directors considers the significant amount of time required of our directors in fulfilling their duties, as well as the skill and expertise of our directors. The Human Resources and Compensation Committee periodically reviews director compensation with the assistance of independent compensation consultants and recommends to the Board of Directors the form and amount of compensation to be provided. The director compensation described below represents the total compensation received by our directors for their service as directors for both Leidos and Leidos, Inc.

The following is a summary of the compensation that we provide to our non-employee directors:

Cash Compensation. Our directors receive a cash retainer for their service on the Board of Directors. For fiscal 2014, our directors were paid an annual retainer of \$50,000 and the Chair of each committee of the Board was paid an additional annual retainer of \$10,000, except for the Chair of the Audit Committee who was paid an additional annual retainer of \$15,000. The independent Lead Director also receives an additional annual retainer of \$25,000. In addition to the cash retainers, non-employee directors also received \$2,000 for each meeting of the Board and committee they attended. We also reimburse our directors for expenses incurred while attending meetings or otherwise performing services as a director.

Equity Compensation. Directors receive annual equity awards under our equity incentive plan. For fiscal 2014, each of our directors received equity awards valued at approximately \$150,000, of which two-thirds was in the form of restricted stock units of common stock and one-third was in the form of stock options. These equity awards vest on the earlier of one year from the date of grant or on the date of the next annual meeting of stockholders following the date of grant. If a director retires due to our mandatory retirement policy, the director's equity awards continue to vest as scheduled and options remain exercisable for the remainder of the option term.

Deferral Plans. The directors are eligible to defer all or any portion of their cash retainers or fees or certain equity compensation into our Keystaff Deferral Plan or Key Executive Stock Deferral Plan, or both. These plans are described in further detail under the caption "Executive Compensation - Nonqualified Deferred Compensation" below.

Stock Ownership Guidelines and Policies. The Board of Directors believes that its members should acquire and hold shares of our stock in an amount that is meaningful and appropriate. To encourage directors to have a material investment in our stock, the Board has adopted stock ownership guidelines that call for directors to hold shares of our stock with a value of at least five times the amount of the annual cash retainer within three years of joining the Board. All of our directors met this requirement in fiscal 2014. In addition to these ownership guidelines, our directors are also subject to policies that prohibit certain short-term or speculative transactions in our securities that we believe carry a greater risk of liability for insider trading violations or may create an appearance of impropriety. Our policy requires directors to obtain preclearance from our General Counsel for all transactions in our securities.

The following table sets forth information regarding the compensation paid to our directors for service in fiscal 2014. In June 2013, the number of shares and the exercise prices of all outstanding options were adjusted to preserve the economic value in connection with the payment of a

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

special dividend by us. Further, in connection with the spin-off, all of the equity awards held by our directors were bifurcated and converted into awards denominated in our common stock and awards denominated in the common stock of New SAIC based the relative ratios of each company's value as of the date of the spin-off. In this way, directors would not be motivated to favor one company over the other in making decisions related to the spin-off as they would have an equity stake in both companies. As a result, approximately 69% of equity awards held by our directors were converted into equity awards denominated in our common stock and approximately 31% of equity awards held by our directors were converted into equity awards denominated in the common stock of New SAIC. Further, account balances in the Key Executive Stock Deferral Plan for our directors who remained as our directors after the spin-off

were adjusted to preserve the same value immediately after the spin-off that each share unit had before the spin-off. All information regarding directors' compensation in the following tables is shown on a post-adjustment basis as a result of the special dividend and the spin-off transaction.

(1) John P. Jumper, our Chief Executive Officer, is not included in this table because he received no additional compensation for his services as a director.

(2) Upon the consummation of the spin-off, Dr. Cordova and Messrs. Drummond, Frist and Sanderson resigned as Directors and joined the Board of Directors of New SAIC and Mr. Hamre serves on both our Board and the Board of New SAIC.

(3) Mr. Young retired in June 2013.

(4) Amounts in this column represent the aggregate dollar amount of all fees earned or paid in cash for services as a director for annual retainer fees, committee and/or chair fees and meeting fees. The directors are eligible to defer such cash fees into our Keystaff Deferral Plan and Key Executive Stock Deferral Plan. Director fees that are deferred into the Key Executive Stock Deferral Plan result in stock units of equal value based on the closing sales price of our common stock on the trading day prior to the day of deferral on a quarterly basis. In fiscal 2014, the following directors deferred the following amounts and received the following number of stock units in our Key Executive Stock Deferral Plan:

Related Party Transactions

The Board of Directors has adopted written policies and procedures for the review and approval of transactions between us and certain related parties, which are generally considered to be our directors and executive officers, nominees for director, holders of five percent or more of our outstanding capital stock and members of their immediate families. The Board of Directors has delegated to the Ethics and Corporate Responsibility Committee the authority to review and approve the material terms of any proposed related party transaction. If a proposed related party transaction involves a non-employee director or nominee for election as a director and may be material to a consideration of that person's independence, the matter is also considered by the Chair of the Board of Directors and the Chair of the Nominating and Corporate Governance Committee.

In determining whether to approve or ratify a related party transaction, the Ethics and Corporate Responsibility Committee considers, among other factors it deems appropriate, the potential benefits to us, the impact on a director's or nominee's independence or an executive officer's relationship with or service to us, whether the related party transaction is on terms no less favorable than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related party's interest in the transaction. In deciding to approve a transaction, the Committee may, in its sole discretion, impose such conditions as it deems appropriate on us or the related party. Any transactions involving the compensation of executive officers, however, are to be reviewed and approved by the Human Resources and Compensation Committee. If a related party transaction will be ongoing, the Ethics and Corporate Responsibility Committee may establish guidelines to be followed in our ongoing dealings with the related party. Thereafter, the Ethics and Corporate Responsibility Committee will review and assess ongoing relationships with the related party on at least an annual basis to determine whether they are in compliance with the Committee's guidelines and that the related party transaction remains appropriate.

We engage in transactions and have relationships with many entities, including educational and professional organizations, in the ordinary course of our business. Some of our directors, executive officers or their immediate family members may be directors, officers, partners, employees or stockholders of these entities. We carry out transactions with these firms on customary terms. There were no transactions during fiscal 2014 in which any related party had a direct or indirect material interest.

PROPOSAL 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION

We are providing our stockholders with the opportunity to vote to approve, on a nonbinding, advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the compensation disclosure rules of the SEC.

We urge stockholders to read our *Compensation Discussion and Analysis* (CD&A) beginning on the following page, which describes in detail how we seek to closely align the interests of our named executive officers with the interests of our stockholders. As described in the CD&A, our compensation programs are designed to

pay for performance by tying a substantial majority of an executive's compensation to the attainment of financial and other performance measures that the Board believes promote the creation of long-term stockholder value and position the company for long-term success;

provide the same types of benefits for executives as other employees, with no special or supplemental pension, health or death benefits for executives;

target total direct compensation at approximately the median among companies with which we compete for executive talent;

enable us to recover, or clawback, incentive compensation if there is any material restatement of our financial results or if an executive is involved in misconduct;

require our executives to own a significant amount of Leidos stock;

avoid incentives that encourage unnecessary or excessive risk-taking; and

compete effectively for talented executives who will contribute to our long-term success.

The Human Resources and Compensation Committee and the Board of Directors believe that these programs and policies are effective in implementing our pay for performance philosophy and achieving its goals. This advisory stockholder vote, commonly known as Say-on-Pay, gives you, as a stockholder, the opportunity to advise whether or not you approve of our executive compensation program and policies by voting on the following resolution:

RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, compensation tables and any related material.

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the compensation of our named executive officers, as described in the CD&A and Executive Compensation sections of this proxy statement in accordance with the compensation disclosure rules of the SEC. The vote is advisory, which means that the vote is not binding on the company, our Board of Directors or the Human Resources and Compensation Committee of the Board of Directors. Our Board values the opinions of our stockholders. To the extent there is any significant vote against our named executive officer compensation as disclosed in this proxy statement, the Human Resources and Compensation Committee will evaluate whether any actions are necessary to address the concerns of stockholders.

Executive Summary

Fiscal 2014 Programs and Our Pay for Performance Philosophy

Our executive compensation programs are designed to align the interests of senior management with stockholders by tying a significant majority of their potential compensation to the achievement of financial performance goals or stock value appreciation through annual incentive bonuses, stock options and performance-based equity awards. Our fiscal 2014 programs were executed on our pay-for-performance philosophy, with the Committee establishing performance targets that measured revenues, operating income, days working capital, net annual bookings, internal revenue growth and growth in diluted earnings per share. The Committee designed this year's annual incentive program to measure primarily quantitative or objective performance, with 80% of results measured against pre-established financial targets. While financial performance is the most significant factor, personal performance goals, and other factors such as leadership behaviors based on ethics, integrity, and collaboration also impacted the payout for our fiscal 2014 annual cash incentive program. The Committee believes these personal performance goals and leadership behaviors contribute to a top-tier workplace environment, improve our efficiency and effectiveness, help us to win key business opportunities, and ultimately drive long-term value for stockholders. Although the Committee reviews and certifies financial results as part of the process for determining payouts under our cash incentive and performance share programs, the amount of compensation awarded to executives is ultimately determined at the Committee's discretion and is based on what the Committee believes is in the best interests of stockholders.

The Committee continued its practice of awarding a majority of total target compensation to the named executive officers in the form of variable, performance-based incentive compensation, with only a small portion of the total potential compensation provided in the form of base

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

salary. For fiscal 2014, 83% of total targeted direct compensation for our Chief Executive Officer, Mr. Jumper, was linked directly to performance, with only 17% paid as salary. For our other named executive officers, the figure tied to financial performance represented 71% to 79% of their respective targeted compensation. Please refer to the Compensation Mix Chart on page 26 below for details.

Business Environment, Performance and Impact on Compensation in Fiscal 2014

We generate the majority of our revenues from contracts with the U.S. government, particularly the Department of Defense. Our service and product offerings and capabilities are therefore largely aligned with current and future budget priorities of the U.S. government. In general, our business performance is subject to changes in the overall level of U.S. government spending, especially national security spending. During fiscal 2014, the mandated sequestration cuts and the failure of Congress to pass a timely budget (which resulted in a shutdown of the federal government in October 2013) combined to create increasing pressure on our government customers to hold or reduce spending. Even where the budget was available, government contracting actions were delayed. In addition, the shift that was already underway in fiscal 2013 to multiple-award contracts and to award criteria emphasizing low price, technically acceptable basis, exacerbated competition and increased pricing pressure. Sequestration and the government shutdown also had a negative effect on our commercial health business. Customers in that market are heavily reliant on Medicare and Medicaid income to fund their operations and found those payments delayed significantly, resulting in delays in utilizing our contracted services. Additionally, our financial performance was negatively affected by transaction expenses and infrastructure costs related to the spin-off transaction discussed below, intangible asset impairment charges and bad debt expenses related to receivables for two energy design-build construction projects.

Table of Contents

COMPENSATION DISCUSSION & ANALYSIS

Overall, these events and market conditions contributed to weaker performance in fiscal 2014 than anticipated, and resulted in the payment of compensation below the targets previously established by the Committee.

Our annual cash incentive payouts were particularly impacted by our below target financial results. In making bonus determinations, the Committee reviewed performance for the first half of the year separately from performance for the second half of the year to account for the mid-year spin-off transaction described below. For the first half of the year, consolidated revenue was slightly above target at 101%, average days working capital performance was below target level at 89%, and operating income performance was below target level at 92%. For the second half of the year, no payout was approved with respect to financial results due our failure to meet threshold operating income goals. These results, combined with the personal performance assessment score for the full year, resulted in average annual bonus payments of approximately 60% of our executive s targeted bonuses.

The alignment of pay with performance in our executive programs, and through the decisions of our Committee, is clear: after a year of below target results, our executives received compensation significantly below target levels.

Impact of Spin-off Transaction on Compensation Programs

On September 27, 2013, we completed the spin-off of our technical services and enterprise information technology services businesses into a new, independent, publicly traded company named Science Applications International Corporation (New SAIC). The spin-off was designed to allow us to expand the addressable market for our offerings that were previously constrained by regulations governing organizational conflicts of interest, which generally prohibit companies from selling products to the U.S. Government under a particular program if the company also provides certain services under the same program. In addition, the discrete services business that is now part of New SAIC had different financial and operational requirements than our product businesses, and the spin-off allows us to better focus management s attention on our core businesses. New SAIC previously comprised a significant portion of our overall business operations and, as a result of the spin-off, the assets, liabilities, results of operations and cash flows of New SAIC have been classified as discontinued operations in our financial statements.

In fiscal 2014, the Committee approved adjustments to our compensation programs and outstanding awards to account for the impact of the spin-off that occurred during the year. In summary, these adjustments included the following actions:

ongoing performance periods and related performance targets were adjusted in order to account for the spin-off transaction;

the Committee did not grant performance share awards with a three-year performance cycle, and instead granted performance restricted stock units (PRSUs) with a net annual bookings performance goal and vesting three years after the grant;

for employees, including executive officers, the number of previously granted restricted stock awards and restricted stock unit awards (RSUs), and exercise price and number of shares underlying stock options, were adjusted to preserve the intrinsic value of the awards; and

the Committee granted equity transition awards to key personnel, including our executive officers, to reward extraordinary efforts in connection with the spin-off and to enhance retention of key personnel necessary to help ensure a smooth transition following the spin-off. More details regarding these compensation decisions are included in the relevant sections of the CD&A below discussing our executive s annual incentive awards and long-term incentive awards.

Compensation Governance

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

Other aspects of our compensation program are intended to further align our executives' interest with stockholders. These include:

total compensation for executives targeted at competitive market median levels;

stock ownership guidelines that require executive officers to accumulate and hold SAIC shares with a value of at least five times their base salary;

a clawback policy that permits the Committee to recover incentive compensation if there is a material restatement of our financial results for any reason, or if the executive was involved in misconduct;

an annual compensation risk assessment to identify incentives that could lead to excessive risk-taking;

no special or supplemental pension, health or death benefits for executives; and

a double-trigger for change in control benefits, meaning that no benefits are paid solely due to a change in control (an executive's employment with the company must terminate under certain conditions following a change in control to receive benefits).

COMPENSATION DISCUSSION & ANALYSIS

Stockholder Advisory Vote

At our last annual stockholders meeting in June 2013, we held a stockholder advisory vote on the compensation of our named executive officers, commonly referred to as a say-on-pay vote. Our stockholders approved the compensation of our named executive officers, with approximately 82% of stockholder votes cast in favor of our 2014 say-on-pay resolution. As we evaluated our compensation practices throughout fiscal 2014, we considered the support our stockholders expressed for our pay for performance compensation philosophy and that, along with the pending spin-off transaction, influenced our decision not to make any significant changes to our executive compensation programs this year. We continued to emphasize short- and long-term incentive compensation, targeted at competitive market median levels with a substantial majority of total compensation based on the achievement of financial performance goals designed to deliver value for our stockholders.

At our 2011 annual meeting of stockholders, our stockholders expressed a preference for an annual advisory vote on executive compensation, in accordance with our Board's recommendation. Accordingly, the Board determined that we will hold an annual advisory stockholder vote on the compensation of our named executive officers until the next say-on-pay frequency vote.

Elements and Objectives of Our Compensation Program

Under the direction of the Committee, we provide the following principal elements of compensation to our executive officers:

Base Salary. Consistent with our philosophy of tying pay to performance, our executives receive a minority portion of their overall compensation in the form of base salary. In order to effectively attract and retain talented executives, we provide a fixed base salary to our executive officers based on their level of responsibility, expertise, skills, knowledge and experience and on competitive peer company data.

Variable Incentive Compensation. We use a combination of cash and equity incentive awards to foster and reward performance in key areas over different timeframes. Our annual cash incentive awards are based upon performance against predetermined goals for the fiscal year in order to encourage and to reward contributions to our annual financial, operating and strategic objectives. We provide medium- and long-term equity incentive awards to our executive officers to motivate them to stay with us and build stockholder value through their future performance. As previously discussed, we granted three-year PRSUs for fiscal 2014 in lieu of performance share awards due to the difficulty of setting performance goals in light of the mid-year spin-off transaction. We intend to resume granting three-year performance share awards in fiscal 2015 for 50% of the total long-term incentive value for executive officers. Because these equity awards are intended to help motivate our executive officers to stay with us and to continue to build *future* stockholder value, the Committee generally does not consider an executive officer's current stock or option holdings in making additional awards.

The following chart summarizes the relevant performance measures and time frames used to assess our variable pay elements for fiscal 2014:

Other Benefits. We also provide our executive officers with benefits generally available to other employees, such as participation in our health, benefit and retirement programs. Our executive officers are also entitled to certain benefits if their employment is terminated under certain conditions following a change in control.

Considerations in Determining Direct Compensation

In determining the amounts of direct compensation (salary, annual and long-term incentives) to be awarded to our executive officers, the Committee considers the company's overall performance, the performance of operating units under the executive officer's management, individual performance as measured against performance goals and criteria, and competitive market data for our compensation peer group. The Committee reviews and approves the amounts of direct compensation to be provided to our executive officers for each fiscal year.

Table of Contents

COMPENSATION DISCUSSION & ANALYSIS

At the beginning of each fiscal year, the Committee reviews and approves:

the amount of base salary and target incentive opportunities to be provided for the upcoming year;

the payout range for the cash incentive awards that may be earned for the year and the performance goals and criteria upon which the amounts of the awards will be determined;

the payout range for performance share awards, if any, that may be earned for the three-year performance period beginning in that fiscal year and the performance goals and criteria upon which the amounts of the awards for the relevant performance period will be determined; and

the mix and amount of equity incentive awards (including any performance share awards, PRSUs, time-vested restricted stock units and stock options) to be granted to our executive officers.

In approving payout ranges, the Committee determines the levels of performance that must be achieved in order to receive a minimum, target and maximum payout amount. Upon completion of each fiscal year, the Committee approves the payment, if any, of cash incentive awards and the number of performance shares that are earned based upon the achievement of the predetermined performance goals and criteria for the three-year performance cycle just completed.

Company and Operational Sector Performance

Our overall performance (or a combination of company and sector performance for executive officers with operational responsibilities) determines 80% of the amount of any cash incentive awards to be paid upon completion of the fiscal year. Amounts are principally determined based upon the company's or sector's achievement of financial and operating objectives set at the beginning of the fiscal year, but the Committee retains the discretion to reduce the payouts when appropriate.

Individual Performance

Individual performance is a factor in setting base salaries, and individual contributions to the achievement of our enterprise goals and leadership behaviors determine 20% of the amount of any cash incentive awards to be paid upon completion of the fiscal year. In determining base salaries, the Committee reviews a performance assessment for each of our executive officers, as well as compensation recommendations provided by the Chief Executive Officer and the Executive Vice President for Human Resources. The Committee also considers market data and information provided by its independent compensation consultant. Executive officers do not propose their own compensation. In addition, in determining annual incentive amounts, the Committee considers whether the executive officer has achieved predetermined personal performance goals applicable to his or her organization, and the way in which those personal goals were achieved, as demonstrated through leadership behaviors. Personal performance goals and leadership behaviors relate to ethics and integrity, maintaining a top-tier workplace environment, collaboration, customer satisfaction and retention, business development in strategic areas and certain other financial and operating goals. The payout of the portion of the incentive payment related to personal performance goals is multiplied by a factor (which may range from 50% to 125%), which reflects the Committee's assessment of the executive officer's leadership behaviors.

Assessing Chief Executive Officer Performance

In determining compensation for our Chief Executive Officer, the Committee meets in executive session and evaluates his performance based on his achievement of performance objectives that were established and agreed upon at the beginning of the fiscal year. Formal input is received

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

from the independent directors and senior management. The Committee also considers the Chief Executive Officer's leadership contributions towards the company's performance, including financial and operating results, development and achievement of strategic objectives, progress in building capability among the senior management team and corporate governance leadership, as well as market data and information provided by the Committee's independent compensation consultant. The Committee determines the Chief Executive Officer's compensation and then reviews his evaluation and compensation with the Board's independent directors. The Lead Director and the Chair of the Committee then present the Committee's evaluation and compensation determination to the Chief Executive Officer. The Chief Executive Officer does not propose his own compensation.

Comparable Market Compensation

The Committee compares the amount of direct compensation we provide to our executive officers to that provided by companies with whom we compete for executive talent with similar roles and responsibilities. To assist with this effort, the Committee asks its independent compensation consulting firm, Frederic W. Cook & Co., to review and benchmark each element of direct compensation (including salary and cash and equity incentives) we provide to our executive officers. For fiscal 2014, Frederic W. Cook & Co. compared each element of direct compensation we provide to members of senior management against that provided by other publicly-traded engineering, information technology, consulting and defense companies, which we refer to as our compensation peer group.

Table of Contents

COMPENSATION DISCUSSION & ANALYSIS

Our compensation peer group is periodically reviewed and updated. The compensation peer group for fiscal 2014 was reviewed by the Committee in February 2013. Peer group companies are chosen for having a similar industry focus as ours, and for competing with us for talent and stockholder investment. Furthermore, the compensation peer group is structured so that no company within the survey has annual revenues or a market cap greater than three times or less than approximately one-third of ours. In anticipation of our spin-off of New SAIC, the Committee established two separate compensation peer groups one calibrated to our company pre-spin, and the other calibrated to us as a smaller company post-spin.

Our Pre-Spin Compensation Peer Group (same as fiscal 2013)

Accenture, Ltd.	General Dynamics Corporation	Northrop Grumman Corporation
AECOM Technology Corporation	Harris Corporation	Raytheon Company
CGI Group, Inc.	Jacobs Engineering Group Inc.,	Rockwell Collins, Inc.
Computer Sciences Corporation	KBR, Inc.	Unisys Corporation
Exelis Inc.	L-3 Communications Holdings, Inc.	URS Corporation

Our Post-Spin Compensation Peer Group

AECOM Technology Corporation	Computer Sciences Corporation	Mantech International
Alliant Techsystems	Exelis Inc.	Rockwell Collins, Inc.
CACI International	Harris Corporation	TetraTech
Cerner	Jacobs Engineering Group Inc.	URS Corporation
CGI Group	L-3 Communications Holdings, Inc.	

For purposes of setting pay for full fiscal 2014, the Committee considered market data from both peer groups. On average, we compared at the 42nd percentile of our pre-spin compensation peer group and at the 49th percentile of our post-spin compensation peer group for revenues and market capitalization.

In addition to the compensation peer group, the Committee reviewed multiple broad-based third-party surveys and other information compiled by its independent consultant, Frederic W. Cook & Co., regarding levels of the compensation that other comparably-sized companies provide to their chief executive officer, chief financial officer and other members of senior management. For our Sector Presidents, we compared the compensation we provide against compensation received by managers of operating units or subsidiaries of similar size to our sectors.

The Committee considers this survey data and analysis when evaluating appropriate levels of direct compensation. To be competitive in the market for our executive-level talent, we generally will:

target overall compensation for our executive officers at the market median, although the actual cash incentive awards paid will vary based on operating performance and may therefore generate compensation that is higher or lower than the market median; and

award higher levels of compensation, when appropriate, in recognition of the importance or uniqueness of the role of an executive officer, or to address retention concerns.

COMPENSATION DISCUSSION & ANALYSIS

Compensation Mix Chart

The chart below depicts each principal element of targeted compensation as a percentage of total fiscal 2014 targeted direct compensation for our active named executive officers:

As indicated above, base salary or fixed compensation represents a smaller portion of total direct compensation than variable or performance-based compensation (variable compensation includes target short-term annual cash incentives plus annual long-term equity grants consisting of stock options and PRSUs). Total direct compensation is defined as base salary plus target STI plus long-term equity grants. The allocation of a meaningful portion of compensation to cash incentive awards or STI ranging from 20% to 25% of total direct compensation demonstrates the Committee's belief that a substantial portion of total direct compensation should reflect the actual achievement of predetermined individual and company goals. The allocation of a majority of annual compensation in the form of stock options and PRSUs ranging from 46% to 63% of total direct compensation reflects the principle that a substantial portion of total compensation should be delivered in the form of equity awards in order to align the interests of our executive officers with those of our stockholders. We believe that a combination of PRSUs and stock options provides an appropriate balance of medium and long-term incentives.

The various amounts of compensation provided to our named executive officers for fiscal 2014 are set forth in more detail in the tables in this proxy statement under the caption Executive Compensation. The allocation of PRSUs and stock options in the chart above are based on the grant date fair value of these awards. The actual value realized under these awards will be based on future financial performance and our stock price.

Compensation Decisions for Fiscal 2014

Base Salary

In approving the fiscal 2014 base salaries for our named executive officers and other executive officers, the Committee considered its independent consultant's analysis of pay levels for comparable positions in the compensation peer group based on proxy and survey data which indicated that base salaries for our executive officers were, on average, at approximately competitive median levels. Individual executive officers may have base salaries that are slightly above or below the median of the market. Individual base salary amounts also reflect the Committee's judgment with respect to each executive officer's responsibility, performance, experience and other factors, including internal equity considerations, the individual's historical compensation and any retention concerns. The Committee reviews executive officers' base salaries annually or at the time of promotion or a substantial change in responsibilities based on the criteria described above.

Fiscal 2014 Annual Cash Incentive Awards

The cash incentive awards paid to our executives for performance during fiscal 2014 were based on the achievement of pre-established goals for the performance period beginning on February 1, 2013 and ending on January 31, 2014. Cash incentive awards for our executives were based on the financial metrics score, as calculated below, as well as the achievement of personal performance goals during the full fiscal year. The Committee reserved the discretion to pay less than formulaically calculated amounts, based on an evaluation of any factors or considerations they believe are relevant.

In evaluating fiscal 2014 financial performance, the Committee reviewed actual performance results against targeted performance levels. In analyzing personal performance results, the Committee reviewed each individual's level of achievement and also considered input from the Chief Executive Officer or the independent directors with respect to the Chief Executive Officer's compensation. Any circumstance considered relevant by board members can be a factor in the

determination, including the degree of success and the difficulty of achieving personal performance goals and his or her leadership behavior. Ultimately, weighted average scores for financial and personal objectives were determined and applied against the target bonus applicable to such objectives to determine a formula-based bonus amount.

In March 2014, based on its certification of financial results, and its review of personal performance during the year, the Committee determined that payment of below-target compensation under our annual cash incentive programs for fiscal 2014 was appropriate, with active named executive officers receiving, on average, cash payouts equal to 60% of their annualized targets. Actual cash incentive award amounts paid to the named executive officers are provided in the chart below, as reported in the Summary Compensation Table on page 34.

Determination of Annual Cash Incentive Awards. In the first quarter of fiscal 2014, the Committee approved the threshold, target and maximum bonus amounts for each executive as shown in the chart below, as well as the performance goals and criteria upon which awards would be determined. The Committee set goals for each of the four quarters for fiscal 2014 at its March 2013 meeting. Mr. Craver did not receive a bonus for fiscal year 2014 as a result of his termination of employment with the company. He is therefore not included in the following discussion. Mr. Von Thaeer joined the Company in June 2013. As part of the recruitment process, Mr. Von Thaeer was guaranteed a minimum annual cash incentive for fiscal 2014 in the amount of \$500,000. As a result, his bonus is also not included in the discussion below and the metrics, goals and results provided are solely at the enterprise level as they relate to Mr. Jumper, Mr. Sopp, Mr. Shea and Mr. Maffeo exclusively:

	Enterprise level goals (in \$ millions, except DWC)			
	Q1 Goal	Q2 Goal	Q3 Goal	Q4 Goal
<i>Financial Goals</i>				
Consolidated Revenue	\$ 2,618	\$ 2,511	\$ 2,660	\$ 2,612
Operating Income	\$ 116	\$ 121	\$ 213	\$ 224
Average Days Working Capital (DWC)	41	42	44	45

The Committee set the target payout amount for the full fiscal year at 117% of base salary, or \$1,400,000, for the Chief Executive Officer and between 87% and 100% of base salary for the other named executive officers. No bonus was payable for performance below threshold goals; payouts were structured to range from 54% of target (threshold achievement on every metric) to 157.5% of target (maximum achievement on every metric), including the portion on personal performance.

Because the financial goals are considered the most important factors and are objectively measurable, we weigh these goals more heavily and they represent 80% of any potential payout. To the extent that performance for a financial metric was less than 80% of our annual operating plan (threshold performance), no bonus amount would be paid with respect to that metric. Payouts for financial goals ranged from 60% at threshold performance (80% of objective achieved) to 150% at maximum performance (125% of objective achieved).

We believe that individual contributions towards other enterprise goals contribute to the achievement of our financial goals over time. Therefore, such non-formulaic goals represent 20% of any potential payout to encourage individual efforts in an array of areas that should ultimately lead to improved financial performance for the company. The payout range for the personal performance goals is also 60% at threshold and 150% at maximum. In addition, we believe that the way in which our executive officers achieve their results should be measured against desired leadership behaviors. Therefore, the Committee determined that the payout for the portion of the incentive payment related to the personal performance goals (20%) would be multiplied by a factor ranging from 50% to 125%, reflecting its assessment of the executive officer's leadership behaviors.

The chart below provides individual payout amounts at threshold, target and maximum, as well as the actual payout amounts for the fiscal 2014 annual cash incentive program:

Maximum Award Actual Award

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

	Threshold Award (54% of Target)	Target Award	(157.5% of Target)		Actual Award as a % of Target
John P. Jumper	\$ 756,000	\$ 1,400,000	\$ 2,205,000	\$ 774,000	55%
Mark W. Sopp	\$ 324,000	\$ 600,000	\$ 945,000	\$ 298,000	50%
K. Stuart Shea	\$ 391,500	\$ 725,000	\$ 1,141,875	\$ 437,000	60%
Vincent A. Maffeo	\$ 270,000	\$ 500,000	\$ 787,500	\$ 383,000	77%

The financial metrics for the fiscal 2014 annual cash incentive were based on consolidated revenue, operating income, and average working days capital. Revenue and operating income were included as financial goals because they most directly align with our growth strategy and we believe they generally are strongly correlated with potential stockholder value. We employ average days working capital to measure how efficiently we use our working capital relative to the size of our business and operating units. In addition to the financial goals set for each metric, the Committee set an overall threshold based on achievement of 70% of the operating income goal in our annual plan. Failure to achieve this threshold level of achievement will result in no payout with respect to the 80% of the annual incentive plan based on financial metrics.

COMPENSATION DISCUSSION & ANALYSIS

In October, the Committee reviewed performance through the end of the second fiscal quarter completed at the time of the spin-off transaction, as contemplated when the program was established in March 2013. Because we met the operating income goal threshold of 70% with respect to the first two quarters, the Committee certified a payout of 88.1% with respect to the first half of the fiscal year based on our consolidated revenue, operating income and average days working capital results, as provided in the chart below. The target for the second half of the year was determined based on the original goals set in March 2013 adjusted for discontinued operations. However, because we failed to achieve the threshold level of operating income performance for the second half of fiscal 2014, there was no payout with respect to our financial performance metrics related to this period. This resulted in an average financial score for the full fiscal year of 44.1%. The scores from the personal performance goal assessments were applied across the entire fiscal year.

Long-Term Incentive Awards

Consistent with last year, 25% of the targeted total value of equity awards for our executive officers was granted in the form of stock options. Different than last year, the remaining 75% was awarded in the form of PRSUs rather than a combination of performance share awards and RSUs. Equity awards are granted primarily to motivate future performance and for retention purposes. The actual grant amounts are determined based on market data and our consideration of each executive officer's level of experience, position and responsibilities. The Committee approved annual long-term incentive awards for our executive officers in March 2013.

Fiscal 2014 Stock Options. Stock options are an effective means of linking rewards to the creation of stockholder value over a longer term. We believe that stock options motivate our executives to build stockholder value because they may realize value only if our stock appreciates over the option term.

Each executive officer received a grant of stock options on April 5, 2013. Twenty percent (20%) of the options vest on each of the first three anniversaries of grant date, with the final 40% vesting on the fourth anniversary of grant date. Options expire on the seventh anniversary of grant date.

Fiscal 2014 Performance Restricted Stock Awards. Equity awards that vest contingent upon the achievement of pre-established financial goals help to ensure that a significant portion of an executive's total annual compensation is aligned with our performance and stockholder interests.

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

On April 5, 2013, in anticipation of the spin-off, executive officers were granted PRSUs with short-term goals in lieu of a three-year performance share program. The PRSUs entitled grantees to receive shares of the Company's common stock after meeting two conditions. The first is based on meeting a net annual bookings goal, and the second is a service-based requirement. Only if both conditions are met will the performance restricted stock units vest.

Before the PRSUs can vest, the company must achieve a threshold of \$6 billion in net bookings, as defined in the company's Annual Report on Form 10-K, pro-rated as of the end of the last completed fiscal quarter completed prior to the spin-off. This performance criteria was met and therefore (i) one-half of the performance restricted stock units will continue to vest according to the following schedule: 20% on each of the first three anniversaries of grant date, with the final 40% vesting on the fourth anniversary of grant date (April 5, 2017); and (ii) the other half of the performance restricted stock units will vest 100% on the third anniversary of grant date, April 5, 2016.

In October 2013, the Compensation Committee reviewed the Company's performance results for the first half of fiscal year 2014 and certified achievement of approximately \$3.2 billion in net bookings and approved the continued vesting of the PRSUs. The RSUs will continue to vest and be distributed to executive officers according to the original schedule, contingent on the executive officer's continued employment, except in cases of special retirement, where the award will continue to vest.

The following table sets forth the target number of shares and corresponding target value for the fiscal 2014 performance restricted stock unit awards granted to our named executive officers, with the target number of shares based on the closing sales price of our common stock on the NYSE on the trading day before the grant date. Shares have been adjusted for our reverse stock split explained further below.

Fiscal 2013 - Fiscal 2015 Performance Share Awards. The fiscal 2013-2015 performance share awards were granted in March 2012 and were designed to pay out based on performance for fiscal years 2013 through 2015, as discussed in last year's proxy. These awards entitled grantees to receive shares of our common stock following the end of the three-year performance period based on the achievement of pre-established goals measuring growth in diluted earnings per share from continuing operations, and internal revenue growth, weighted equally.

We used diluted earnings per share growth as a performance metric for the performance share awards because it is a key measure of profitability followed by stockholders and market analysts and it also reflects share dilution management and non-recurring items. It encourages control of tax expense and includes the dilutive or accretive effect of acquisitions. We used internal revenue growth because it encourages growth of the business without regard to diluted shares outstanding and non-recurring items. The Committee determined that an equal weighting would provide the appropriate balance between these measures.

In March 2013, the Board certified performance at 94.91% for one-third of the target grant amount relating to fiscal year 2013. At that same meeting, the Committee approved the performance goals for the fiscal 2014 portion of the three-year performance period. In anticipation of the spin-off, performance was intended to be measured based on cumulative quarterly results through the most recently completed quarter ending on or before the completion date of the spin-off. Based on the transaction date (September 27, 2013), the relevant cumulative quarterly goals through the second quarter are provided below (internal revenue growth goals amounts are expressed in \$ billions):

Level of Performance	Cumulative Internal Revenue		Cumulative Diluted Earnings Per Share	
	(50% Weighting)		(50% Weighting)	
	First Quarter	Second Quarter	First Quarter	Second Quarter
Threshold (50% payout)	\$ 2.51	\$ 4.92	\$ 0.18	\$ 0.37
Target (100% payout)	\$ 2.62	\$ 5.13	\$ 0.19	\$ 0.39
Maximum (150% payout)	\$ 2.72	\$ 5.34	\$ 0.20	\$ 0.41

Following the spin-off, in October 2013, the Committee determined that 81% of the target number of shares allocated to the first half of fiscal 2014 (one-sixth of the target grant amount) had been earned based on cumulative second quarter diluted earnings per share growth at 50% of the

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

target level, and cumulative second quarter internal revenue growth at 112% of the target level, with each measure weighted equally. Shares will not be issued until the service-vesting requirements are met on January 30, 2015, subject to continued employment.

Performance Metric	Threshold	Target	Results	Achievement Level	Weighted Payout as % of Target Shares

Pursuant to the Employee Matters Agreement approved by the Board regarding the treatment of outstanding equity awards impacted by the spin-off, the remaining 1/2 of the original target grant amount, covering the portion of the performance period from August 3, 2013 through January 30, 2015, was converted into time-vested RSUs. These converted time-based awards, and all previously earned awards, will continue to vest and be distributed on January 30, 2015, the conclusion of the original performance period, contingent on grantees being actively employed on that date.

Fiscal 2012 Fiscal 2014 Performance Share Awards. The fiscal 2012-2014 performance share awards were granted on April 1, 2011 and entitled grantees to receive shares of our common stock following the end of a three-year performance period. As with our fiscal 2013-2015 performance share awards described directly above, these awards were designed to vest based on the achievement of pre-established goals measuring growth in diluted earnings per share from continuing operations, and internal revenue growth, weighted equally.

In October 2013, following the spin-off, the Committee determined that results were below the required threshold level and determined that no payout had been earned with respect to the fiscal 2012-2014 performance period through the end of the fiscal quarter completed on August 2, 2013. Pursuant to the Employee Matters Agreement, the unearned portion of these awards (one-sixth of the original target grant amount) was converted into time-vested restricted stock units as of the spin-off date, September 27, 2013. These converted restricted stock units vested in full on January 31, 2014, the conclusion of the original performance period.

Transition Awards

As a result of the successful spin-off, the Committee granted transition awards in the form of time-vested RSUs and stock options to key personnel, including our executive officers, to reward their extraordinary efforts in preparation for the spin-off and to help retain the key personnel necessary to ensure a smooth transition following the spin-off. The following grants were made on October 4, 2013 except for Mr. Von Thaeer's grants which were made on October 18, 2013:

Transition Award Grant Recipients	Restricted Stock Units (\$)	Restricted Stock Units (#)	Options (\$)	Options (#)	Total Grant
<i>John P. Jumper</i>	\$ 750,000	16,315	\$ 250,000	26,222	\$ 1,000,000
<i>K. Stuart Shea</i>	\$ 750,000	16,315	\$ 250,000	26,222	\$ 1,000,000
<i>Mark W. Sopp</i>	\$ 562,500	12,237	\$ 187,500	19,667	\$ 750,000
<i>Lewis F. Von Thaeer</i>	\$ 375,000	8,185	\$ 125,000	13,677	\$ 500,000
<i>Vincent A. Maffeo</i>	\$ 262,500	5,711	\$ 87,500	9,178	\$ 350,000
<i>Joseph W. Craver, III</i>	\$ 562,500	12,237	\$ 187,500	19,667	\$ 750,000

The RSUs vest 100% on the third anniversary of grant date. The stock options have an exercise price equal to the closing price of our common stock on trading date before the grant date. The options also vest on the third anniversary of grant date, and expire on the seventh anniversary of grant date. See the Grants of Plan-Based Awards table for more information. These awards are subject to forfeiture if the recipient's employment with the company terminates prior to the October 2016 vesting date. Accordingly, the transition awards granted to Mr. Shea and Mr. Craver were subsequently forfeited.

Other Benefits Provided in Fiscal 2014

In addition to the elements of direct compensation described above, we also provide our executive officers with the following benefits:

Health and Welfare Benefits

Our executive officers are entitled to participate in all health and welfare plans that we generally offer to all of our eligible employees, which provide medical, dental, health, group term life insurance and disability benefits. We believe that these health and welfare benefits are reasonable in scope and amount and are of the kind typically offered by other companies against which we compete for executive talent.

Retirement Benefits

Our executive officers are entitled to participate in the same defined contribution retirement plan that is generally available to all of our eligible employees. We make matching contributions to eligible participants' retirement plan accounts based on a percentage of their eligible compensation under applicable rules. The average amount of contributions we made to the retirement plan accounts of our named executive officers in fiscal 2014 was approximately \$13,700. The Committee believes that this retirement program permits our executives to save for their retirement in a tax-effective manner.

Deferred Compensation Plans

To provide other tax-deferred means to save for retirement, we maintain certain deferred compensation plans that allow our named executive officers and other eligible participants to elect to defer all or a portion of any cash or certain equity incentive awards granted to them under our cash incentive or stock plans. We make no contributions to named executive officers' accounts under these plans. In addition, we maintain a deferred compensation plan that allows our named executive officers

Table of Contents

COMPENSATION DISCUSSION & ANALYSIS

and other eligible participants to elect to defer a portion of their eligible salary. Vested deferred balances under the plans will generally be paid upon retirement or termination. These plans are described in more detail under *Nonqualified Deferred Compensation* beginning on page 39.

Perquisites and Personal Benefits

We generally do not provide perquisites and personal benefits to our executive officers that are not otherwise available to other employees.

Other Policies and Considerations

Assessment of Risks in our Compensation Programs

In fiscal 2014, the Committee directed management to undertake a risk assessment of our compensation programs and asked Frederic W. Cook & Co., the Committee's independent compensation consultant, to review the assessment. In conducting the assessment, we reviewed our pay practices and incentive programs to identify any potential risks inherent in our compensation programs. We also reviewed the risks facing the company and evaluated whether our compensation practices and programs could be expected to increase or help mitigate these risks. The finding of the assessment, with which the Committee concurred, was that our compensation programs are effectively designed to help mitigate excessive risk-taking that could harm our value or reward poor judgment by our executives or other employees. The factors considered in reaching this conclusion include:

short-term incentive measures are balanced among different financial measures, with targets that are intended to be achievable upon realistic levels of performance;

significant weighting towards long-term incentive compensation promotes long-term decision making and discourages short-term risk taking;

maximum payouts are capped at levels that do not reward excessive risk-taking;

goals are based on company and sector performance measures, which mitigates excessive risk-taking within any particular business unit;

leadership behaviors, such as ethics and integrity, are specifically addressed in our short-term incentive programs;

our compensation recoupment policy allows us to recover compensation based on financial results that are subsequently restated or if fraud or intentional misconduct is involved; and

our stock ownership guidelines encourage a long-term perspective.

Equity Award Grant Practices

The Committee is responsible for the administration of our equity incentive plans. In advance of each fiscal year, the Committee predetermines the dates on which equity awards will be granted during the following fiscal year to new and existing employees, including our executive

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

officers. These grant dates are selected to occur after the dates we anticipate releasing our annual and quarterly financial results. We generally grant equity incentive awards to our executive officers and all other eligible employees on an annual basis shortly after we announce our financial results for the recently completed fiscal year. In addition to these annual grants, the Committee predetermines four quarterly dates on which any additional equity incentive awards may be made to eligible executive officers or other employees in connection with a new hire, for retention purposes or otherwise. The equity award grant dates for fiscal 2014 were fixed by the Committee in December 2012 and the grant dates for fiscal 2015 were fixed by the Committee in December 2013. The Committee approves all equity awards made to our directors and executive officers.

The exercise price of any option grant is determined by reference to the fair market value of the shares on the grant date, which our 2006 Equity Incentive Plan defines as the closing sales price of our common stock on the NYSE on the previous trading day.

Stock Ownership Guidelines and Policies

We encourage our employees to own our stock so that they are motivated to maximize our long-term performance and stock value. Under our established stock ownership guidelines, our named executive officers are required to accumulate and maintain stockholdings in an amount of our stock with a value at least equal to five times their base salary. Because they must hold all shares acquired under our equity incentive programs until they meet this ownership requirement, which we expect will take several years, we do not have specific time-based holding periods following the exercise of stock options or vesting of other equity awards. In addition to these ownership guidelines, we have also established policies for our executive officers that prohibit certain short-term or speculative transactions in our securities. We believe that these prohibited transactions carry a greater risk of liability for insider trading violations and create an appearance of impropriety. For example,

Table of Contents

COMPENSATION DISCUSSION & ANALYSIS

with respect to our securities, our executive officers are not permitted to engage in any short sales or any trading in puts, calls or other derivatives on an exchange or other organized market. In addition, our executive officers are required to obtain preclearance from our General Counsel for all transactions in our securities.

Compensation Recoupment Policy

Under our compensation recoupment policy, the Committee may require members of senior management to return incentive compensation if there is a material restatement of the financial results upon which the incentive compensation was originally based. If the Committee determines that recovery is appropriate, the company will seek repayment of the difference between the incentive compensation paid and the incentive compensation that would have been paid, if any, based on the restated financial results.

The policy also provides for recovery of incentive compensation from any employee involved in fraud or intentional misconduct, whether or not it results in a restatement of our financial results. In such a situation, the Committee would exercise its business judgment to determine what action it believes is appropriate under the circumstances.

We may seek to recover the applicable amount of compensation from incentive compensation paid or awarded after the adoption of the policy, from future payments of incentive compensation, cancellation of outstanding equity awards and reduction in or cancellation of future equity awards. In cases of fraud or misconduct, we may also seek recovery from incentive compensation paid or awarded prior to the adoption of the policy.

Post-Employment Benefits

We do not maintain a defined benefit or other supplemental retirement plan that would entitle our executive officers to receive company-funded payments if they leave the company.

Upon certain terminations of employment, including death, disability, retirement or a change in control, our named executive officers may be eligible for continued vesting of equity awards on the normal schedule or accelerated vesting in full or on a pro-rata basis, depending on the nature of event and the type of award. The purpose of these provisions is to protect previously earned or granted awards by making them available following the specified event. Because these termination provisions are contained in our standard award agreements for all recipients and relate to previously granted or earned awards, we do not consider these potential termination benefits as a separate item in compensation decisions for our named executive officers. Our long-term incentive plans do not provide for additional benefits or tax gross-ups. For more information about potential post-employment benefits, see Executive Compensation Potential Payments Upon Termination or a Change in Control beginning on page 40.

Separation Payments to Mr. Shea

On March 24, 2014, we entered into a Memorandum of Understanding with Mr. Shea regarding his departure from the company. Pursuant to this agreement, in April 2014, we paid Mr. Shea an aggregate amount of \$3,386,892, less applicable tax withholdings. In addition, following the completion of our current fiscal year, Mr. Shea will be eligible to receive a pro-rated portion of the annual cash incentive bonus that he otherwise would have been eligible to receive for the current fiscal year based on our organizational performance. Mr. Shea agreed to certain covenants not to compete with us and not to solicit our employees, in each case for a period of one year. He also reaffirmed his existing confidentiality obligations and further agreed to customary provisions relating to non-disparagement, cooperation and the release of certain claims.

Potential Change in Control and Severance Benefits

We have entered into severance protection agreements with our executive officers that would provide them with payments and benefits if their employment is involuntarily terminated following an acquisition of our company as further described in this Proxy Statement under Executive Compensation Potential Payment Upon a Change in Control. We believe that these agreements provide an important benefit to us by helping alleviate any concern the executive officers might have when contemplating a potential change in control of our company and permitting them to

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

focus their attention on our business. In addition, we believe that these agreements are an important recruiting and retention tool, as many of the companies with which we compete for talent have similar arrangements in place for their senior management.

These severance protection agreements renew for successive one-year terms each year, unless either the Committee or the executive officer that the agreement applies to decides not to extend the term of the agreement before October 31st of the prior year. This annual term permits the Committee to regularly review the amount of benefits that would be provided to our executive officers in connection with their termination of employment under certain conditions following a change in control and to consider whether to continue providing such benefits.

COMPENSATION DISCUSSION & ANALYSIS

Tax Deductibility of Executive Compensation

We generally attempt to provide compensation that is structured to maximize favorable tax benefits for us. Section 162(m) of the Internal Revenue Code generally limits the deductibility of certain compensation in excess of \$1,000,000 paid in any one year to the Chief Executive Officer and the three other most highly compensated named executive officers (other than our Chief Financial Officer). Qualified performance-based compensation will not be subject to this deduction limit if certain requirements are met.

The Committee periodically reviews and considers the deductibility of executive compensation under Section 162(m) in designing and implementing our compensation programs and arrangements. The majority of our target cash incentive awards and all of our performance restricted stock units and performance share award payouts are determined based upon the achievement of certain predetermined financial performance goals under a stockholder-approved plan, which is intended to permit us to deduct such amounts pursuant to Section 162(m).

While we will continue to monitor our compensation programs in light of Section 162(m), the Committee considers it important to retain the flexibility to design compensation programs that are in the best long-term interests of our company and our stockholders. As a result, the Committee may conclude that paying compensation at levels that are not deductible under Section 162(m) is nevertheless in the best interests of our company and our stockholders.

Human Resources and Compensation Committee Report

The Human Resources and Compensation Committee has reviewed and discussed with our management the Compensation Discussion and Analysis included in this Proxy Statement. Based upon this review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

Table of Contents**EXECUTIVE COMPENSATION****Special Dividend and Spin-Off Transaction**

In June 2013, the number of shares and the exercise prices of all outstanding options were adjusted to preserve the economic value in connection with the payment of a special dividend by us. Further, as described above, on September 27, 2013, we completed the separation or spin-off of our technical, engineering and enterprise information technology services business into an independent publicly-traded company named Science Applications International Corporation (New SAIC). In connection with the spin-off, we completed a one-for-four reverse stock split of our common stock and all equity awards held by our employees were adjusted to preserve the same value immediately prior to the spin-off. Further, account balances in our Key Executive Stock Deferral and Management Stock Compensation Plans for our employees are reflected as stock units of our common stock and were also adjusted to preserve the same value immediately after the spin-off that each share unit had immediately before the spin-off. All information in the following tables is shown on a post-adjustment basis as a result of the special dividend and the spin-off.

Summary Compensation Table

The following table sets forth information regarding compensation earned by our named executive officers for service to us during fiscal 2014 and, if applicable, fiscal 2013 and 2012, whether or not such amounts were paid in such year:

The actual payouts for the combined performance periods in fiscal 2014 are provided the Summary Compensation Table in the column headed Non-equity incentive plan compensation.

- (2) Amounts in these columns represent restricted stock units which are subject to a performance goal related to fiscal 2014 bookings (PRSU). Because the performance goal was met, all shares subject to the PRSU are issuable subject to service vesting requirements as follows: one-half of these shares would vest on the third anniversary of the date of grant and the remaining half would vest 20%, 20%, 20% and 40% on the first, second, third and fourth year anniversaries of the date of grant, respectively, except for the PRSUs held by Mr. Von Thae. Of the PRSUs held by Mr. Von Thae, 11,010 will vest on the third anniversary of the date of grant and 17,126 will vest 20%, 20%, 20% and 40% on the first, second, third and fourth year anniversaries on the date of grant.
- (3) Amounts in this column represent the number of shares of common stock underlying options issued in fiscal 2014. Options granted in October 2013 were transition awards to the named executive officers in recognition of their contribution to the successful spin-off transaction. Such transition options vest 100% on the third anniversary of the date of grant. All other options vest as to 20%, 20%, 20% and 40% of the underlying shares on the first, second, third and fourth year anniversaries of the date of grant, respectively. For details regarding the transition awards, please see the CD&A on page 30.

Nonqualified Deferred Compensation

Edgar Filing: Leidos Holdings, Inc. - Form DEF 14A

We provided benefits to our named executive officers during fiscal 2014 under the following nonqualified deferred compensation plans, which are summarized below:

The Leidos Keystaff Deferral Plan allows eligible participants to elect to defer all or a portion of any cash or vested equity incentive awards granted to them under our cash incentive or stock incentive plans. We make no contributions to participants' accounts under the Keystaff Deferral Plan, although participant deferrals, which are reflected in dollars, earn interest during the deferral period. Distributions under the Keystaff Deferral Plan are then made to participants in cash. Deferred balances under this plan will generally be paid upon retirement or separation from service.

The Leidos Key Executive Stock Deferral Plan allows eligible participants to elect to defer all or a portion of their cash or certain equity incentive awards granted to them under our cash incentive or stock incentive plans. Participant deferrals generally correspond to stock units of our common stock. Shares equivalent to deferrals may be deposited to a rabbi trust to fund benefits for participants. We make no contributions to participants' accounts under the Key Executive Stock Deferral Plan. Distributions under the Key Executive Stock Deferral Plan are then made to participants in shares of common stock corresponding to the number of vested stock units held for the participant. Vested deferred balances under this plan will generally be paid upon retirement or separation from service.

The Leidos 401(k) Excess Deferral Plan (Excess Plan) is a pre-tax savings plan that allows eligible participants to defer up to 20% of their eligible compensation. Salary deferrals into the Excess Plan do not start until after an eligible participant has met

Table of Contents**EXECUTIVE COMPENSATION**

the annual IRS contribution limit for the Leidos Retirement Plan. Bonuses are not eligible for deferral to the Excess Plan. The investment options in the Excess Plan are similar to those in the Leidos Retirement Plan but do not include the Leidos Stock Funds. named executive officers held the following number of vested and unvested stock units at the end of fiscal 2014: (a) Mr. Jumper, 4,708; (b) Mr. Sopp, 80,977; (c) Mr. Shea, 16,057; (d) and (f) Mr. Maffeo, 7,792.

Potential Payments upon Termination or a Change in Control

We are not obligated to offer any kind of severance benefits to our named executive officers solely upon termination of employment.

We have entered into the following agreements and arrangements with our named executive officers that would provide them with certain payments and benefits, which are described below, if we are subject to a change in control:

Severance Protection Agreements. We have entered into severance protection agreements with each of our executive officers, including each of the named executive officers, which provide that if the executive officer is involuntarily terminated without cause or resigns for good reason within a 24-month period following a change in control, he or she will be entitled to receive all accrued salary and a pro rata bonus for the year of termination, plus a single lump sum payment equal to two-and-one-half times the executive officer's then current salary and bonus amount. The executive officer will also receive such life insurance, disability, medical, dental, vision and hospitalization benefits as are provided to other similarly situated executive officers who continue to be employed for the 30 months following termination and up to 12 months of outplacement counseling. In order to receive the lump sum payment and the 30 months of continued benefits, the executive officer is required to execute a written release of claims. The executive officer is not entitled to receive a gross up payment to account for any excise tax that might be payable under the Internal Revenue Code, and the amount of the payments may be reduced by us to the extent necessary to avoid an excise tax.

Stock Incentive and Deferred Compensation Plans. Under the terms of our stock incentive and deferred compensation plans, all unvested stock, options and deferred compensation awards held by all participants under those plans, including our named executive officers, are subject to accelerated vesting upon the occurrence of a change in control under certain circumstances. Outstanding stock options, stock awards and stock units issued to the named executive officers under our Key Executive Stock Deferral Plan, generally become fully vested upon the occurrence of a change in control. Our 2006 Equity Incentive Plan generally provides that vesting will accelerate if the holder is involuntarily terminated or terminates his employment for good reason within 18 months following a change in control. For performance share awards issued under our 2006 Equity Incentive Plan, shares would be paid out on an immediate pro rata basis based on the percentage of the performance period completed at the time of the change in control. If more than 50 percent of the performance period is completed, the prorated number of shares that would vest is based on company performance up to the date of change in control. If less than 50 percent of the performance period is completed, a prorated target number of shares would vest based on the time elapsed during the performance period.

The following table sets forth our estimates regarding the potential value of any cash payments and benefits and accelerated vesting of equity awards to be received by the named executive officers under the foregoing agreements and plans, assuming that a change in control occurred on the last business day of fiscal 2014:

Name	Severance protection benefits				Accelerated equity awards		Applicable scale-back ⁽⁷⁾	Total Total gross severance benefits and equity awards ⁽⁸⁾

⁽¹⁾ Amounts in this column represent a single lump sum equal to two-and-one-half times the sum of (a) the named executive officer's fiscal 2014 salary and (b) the amount of his or her annual target bonus for fiscal 2014. This amount of the bonus calculated under subsection (b) is referred to as the Bonus Amount.

⁽²⁾ Amounts in this column represent a pro rata portion of the Bonus Amount to which the named executive officer would be entitled depending on the number of days that had elapsed in the fiscal year in which he or she is terminated. Because we are required to present all information in this table assuming that the named executive officer is terminated on the last business day of fiscal 2014, the amount of the pro rata Bonus Amount in this column represents the full amount of the executive officers' respective Bonus Amounts. In addition to the amounts set forth in the column, our named executive officers would also be entitled to be paid for any unused comprehensive leave time they had accrued.

EXECUTIVE COMPENSATION

⁽⁹⁾ Mr. Jumper is also entitled to continued salary, target bonus and benefits through March 1, 2014 in the event his employment is involuntarily terminated without cause absent a change in control.

⁽¹⁰⁾ Mr. Shea's employment with the company terminated on April 6, 2014 and therefore he is no longer entitled to the payments and benefits reflected in table above. For a description of the actual separation payments to Mr. Shea, see our CD&A on page 32.

⁽¹¹⁾ Mr. Craver's employment with the company terminated on January 31, 2014 and therefore he is no longer entitled to the payments and benefits reflected in the table above.

Treatment of Equity Awards upon Termination

With respect to outstanding equity awards, our executive officers are generally treated in the same way as all other employee award recipients if their employment is terminated due to death, disability, retirement or voluntary departure.

In the case of death or disability, restricted stock, restricted stock units and options will vest immediately and options would remain exercisable for a period of time, depending on the nature of the event and the plan under which the awards were issued. Under our performance share award program, shares earned would be paid out on a pro rata basis promptly upon death or at the end of the three-year performance period in case of disability.

Under our continued vesting program, employees who retire, including our executive officers, may continue holding and vesting in their stock options if they have held such options for at least 12 months prior to retirement and they retire (i) after age 59 1/2 with at least ten years of service or (ii) after age 59 1/2 when age at termination plus years of service equals at least 70. Our executive officers who retire after reaching the applicable mandatory retirement age, however, will be allowed to continue to vest in such options without regard to the 12 month holding requirement. When an individual becomes eligible for continued vesting under this program, all unvested shares of restricted stock becomes fully vested as of such eligibility date. Retirees meeting these qualifications who hold performance share awards will receive a pro rata number of shares after the end of the applicable three-year performance period, based on actual company performance over the full period. We have the right to terminate continued vesting if a retiree violates confidentiality, non-solicitation or similar obligations to us.

In any other case, if the employment of an equity award recipient, including an executive officer, is terminated for any reason, all unvested restricted stock, restricted stock units, options and performance share awards are forfeited. Vested options remain exercisable for 90 days or until the option expiration date, if earlier.

PROPOSAL 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has appointed Deloitte & Touche LLP as the independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ending January 30, 2015. Stockholders are not required to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm. However, we are submitting the appointment for ratification as a matter of good corporate practice. If stockholders fail to ratify the appointment, the Audit Committee will consider whether or not to retain Deloitte & Touche LLP. Even if the appointment is ratified, the Audit Committee may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in our stockholders' best interests.

In the absence of specific instructions, properly executed, timely received and unrevoked proxies will be voted *FOR* the proposal.

AUDIT MATTERS

Audit Committee Report

The Audit Committee assists the Board of Directors in its oversight of: (i) the integrity of the company's financial statements, including the financial reporting process, system of internal control over financial reporting and audit process; (ii) the company's compliance with legal and regulatory requirements; (iii) the independent registered public accounting firm's qualifications and independence; (iv) the performance of the company's internal audit function and independent registered public accounting firm; and (v) financial reporting risk assessment and mitigation. The Audit Committee's job is one of oversight and it recognizes that management is responsible for the preparation and certification of the company's financial statements and that the independent registered public accounting firm is responsible for auditing those financial statements.

The Audit Committee recognizes that financial management, including the internal audit staff, and the independent registered public accounting firm, have more time, knowledge, and detailed information on the company than do Audit Committee members. Consequently, in carrying out its oversight responsibilities, the Audit Committee is not providing any expert or special assurance as to the company's financial statements or any professional certification as to the independent registered public accounting firm's work.

The duties and responsibilities of the Audit Committee have been set forth in a written charter since 1975. A copy of its current Audit Committee charter is available on the company's website at www.leidos.com by clicking on the links entitled "Corporate Governance" and then "Board Committees." Each member of the Audit Committee meets the independence and financial literacy requirements of the SEC and the NYSE. In addition, three of the four Committee members (Harry M.J. Kraemer, Jr., Lawrence C. Nussdorf, and Robert S. Shapard) qualify as audit committee financial experts under SEC rules.

In the course of fulfilling its responsibilities, the Audit Committee has:

met with the internal auditor and the independent registered public accounting firm to discuss any matters that the internal auditor, the independent registered public accounting firm or the Committee believed should be discussed privately without members of management present;

met with management of the company to discuss any matters management or the Committee believed should be discussed privately without the internal auditor or the independent registered public accounting firm present;

reviewed and discussed with management and Deloitte & Touche LLP, the company's independent registered public accounting firm, the audited consolidated financial statements for the fiscal year ended January 31, 2014;

discussed with Deloitte & Touche LLP the matters required to be discussed by Public Company Accounting Oversight Board (PCAOB) Standards and Rule 2-07 of Regulation S-X (Communications with Audit Committees); and

received the written disclosures and the letter required by the applicable PCAOB Standard (Communication with Audit Committees Concerning Independence).

Based on the reviews and discussions summarized in this Report and subject to the limitations on our role and responsibilities referred to above and contained in the Audit Committee charter, the Audit Committee recommended to the Board of Directors that the company's audited consolidated financial statements referred to above be included in the company's Annual Report on Form 10-K for the fiscal year ended January 31, 2014 for filing with the SEC.
