Item 7.01 Regulation FD Disclosure

Contract Revenue Recognition

Organovo Holdings, Inc. (Organovo) has initiated the signing of contracts for research services using its 3D Human Liver Tissue. As Organovo has previously guided, contracts in this space may be in the tens of thousands of dollars per compound and hundreds of thousands of dollars per project. The contracted services to date total in the low hundreds of thousands of dollars (\$100k to \$400k range). The company has invoiced any amount due upon contract initiation, although our revenue recognition policy will likely result in booked revenue at the completion of the projects, currently estimated to be between September 2014 and November 2014 for contracts signed in fiscal Q1 2015 (April to June 2014).

As additional contracts are signed, Organovo does not expect to provide specific updates as to number of contracts or total value of contracts signed, but rather to report revenue in its quarterly and annual filings consistent with its established revenue recognition policies as reported in SEC filings.

Press Release

On April 29, 2014, Organovo issued a press release announcing that it has initiated contracting for toxicity testing using its 3D Human Liver Tissue for selected clients prior to full release. A copy of the press release is attached hereto as Exhibit 99.1 and incorporated herein by reference.

The information furnished on this Form 8-K, including the press release attached as Exhibit 99.1, shall not be deemed filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any other filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except as expressly set forth by specific reference in such a filing.
