In the first quarter of 2014, the Company paid \$65 million cash to acquire a manufacturer of fluid management solutions for environmental monitoring and remediation, markets where Graco had little or no previous exposure. The acquired business will expand and complement the Company's Industrial segment. The purchase price was allocated based on estimated fair values, including \$37 million of goodwill, \$22 million of other identifiable intangible assets and \$6 million of net tangible assets.

Forward exchange contracts	2	302	-
Total liabilities at fair value		\$ 2,882	\$ 2,296

Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

Long-term notes payable with fixed interest rates have a carrying amount of \$300 million and an estimated fair value of \$320 million as of June 27, 2014 and \$320 million as of December 27, 2013. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value (level 2 of the fair value hierarchy) based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

11. On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. (ITW). The acquisition included powder finishing and liquid finishing equipment operations, technologies and brands (separately, the Powder Finishing and Liquid Finishing businesses). Results of the Powder Finishing businesses have been included in the Industrial segment since the date of acquisition. In May 2012, the United States Federal Trade Commission (FTC) issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets no later than 180 days from the date the order becomes final. The FTC continues to work on resolving issues related to a proposed final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not have a controlling interest in the Liquid Finishing businesses, nor is it able to exert significant influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been

Table of Contents

reflected as a cost-method investment on the Consolidated Balance Sheets, and its results of operations have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from after-tax earnings of Liquid Finishing and included in other expense (income) on the Consolidated Statements of Earnings. Dividends received in 2014 totaled \$11 million in the second quarter and \$15 million year-to-date. Dividends received in 2013 totaled \$11 million in the second quarter and \$15 million year-to-date. Once the FTC issues its final decision and order, and the Company completes the sale of its investment, there will be no further dividends from Liquid Finishing.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of June 27, 2014, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Sales and operating earnings of the Liquid Finishing businesses were as follows (in thousands):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	June 27, 2014	June 28, 2013	June 27, 2014	June 28, 2013

Operating Earnings	14,608	16,398	29,894	29,978

12. On June 26, 2014, the Company executed an amendment to its revolving credit agreement, extending the expiration date to June 26, 2019, and increasing the amount of credit available to \$500 million, a \$50 million increase.

Under the amended agreement, the base rate applied to borrowings is an annual rate equal to a margin ranging from zero percent to 0.875 percent (down from zero to 1 percent under the prior agreement), depending on the Company's cash flow leverage ratio, plus the highest of (i) the bank's prime rate, (ii) the federal funds rate plus 0.5 percent or (iii) one-month LIBOR plus 1.5 percent. In general, LIBOR-based loans bear interest at LIBOR plus 1 percent to 1.875 percent (down from 1 to 2 percent), depending on the Company's cash flow leverage ratio.

Fees on the undrawn amount of the loan commitment decreased to a range of 0.15 percent to 0.30 percent (down from 0.15 percent to 0.40 percent), depending on the Company's cash flow leverage ratio.

13. In May 2014, the Financial Accounting Standards Board issued a final standard on revenue from contracts with customers. The new standard sets forth a single comprehensive model for recognizing and reporting revenue. The new standard is effective for the Company in its fiscal year 2017, and permits the use of either a retrospective or a cumulative effect transition method. The Company is evaluating the effect of the new standard on its consolidated financial statements and related disclosures, and has not yet selected a transition method.

**GRACO INC. AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS OF**

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid and coating materials. Management classifies the Company's business into three reportable segments: Industrial, Contractor and Lubrication. Key strategies include developing and marketing new products, expanding distribution globally, opening new markets with technology and channel expansion and completing strategic acquisitions.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

Acquisition in 2012

On April 2, 2012, the Company completed the purchase of the finishing businesses of ITW. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco's businesses while the United States Federal Trade Commission (FTC) considered a settlement with Graco and determined which portions of the Liquid Finishing businesses Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC continues to work on resolving issues related to a proposed final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from after-tax earnings of Liquid Finishing and included in other expense (income) on the Consolidated Statements of Earnings. Dividends received in 2014 totaled \$11 million in the second quarter and \$15 million year-to-date, consistent with the amounts received in comparable periods of

2013. Once the FTC issues its final decision and order, and the Company completes the sale of its investment, there will be no further dividends from Liquid Finishing.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of June 27, 2014, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Consolidated Results

Net sales, net earnings and earnings per share were as follows (in millions except per share amounts and percentages):

	Thirteen Weeks Ended			Twenty-six Weeks Ended		
	June 27, 2014	June 28, 2013	% Change	June 27, 2014	June 28, 2013	% Change

Net Earnings	\$ 66.2	\$ 57.8	15%	\$ 117.0	\$ 110.0	6%
Diluted Net Earnings per Common Share	\$ 1.07	\$ 0.92	16%	\$ 1.88	\$ 1.76	7%

Sales for the second quarter increased in all reportable segments and regions, with double-digit percentage growth in Industrial and Contractor segments. Year-to-date sales increased in all segments and regions except for Asia Pacific, where sales were flat compared to last year.

Changes in product mix and lower margins from acquired operations contributed to a decrease in gross margin rate for both the quarter and the year-to-date.

Expense leverage offset the effects of lower gross margin rates on operating earnings. Year-to-date operating earnings increased 9 percent, but a higher effective income tax rate led to a smaller increase in net earnings.

Sales for the quarter increased 13 percent, including increases of 15 percent in the Americas, 12 percent in EMEA (8 percent at consistent translation rates) and 7 percent in Asia Pacific. Year-to-date sales increased 10 percent, including increases of 15 percent in the Americas and 10 percent in EMEA (6 percent at consistent translation rates). Sales were flat in Asia Pacific. Sales from operations acquired in the fourth quarter of 2013 and the first quarter of 2014 totaled \$10 million for the quarter (contributing 4 percentage points of growth) and \$17 million year-to-date (3 percentage

points of growth).

Gross profit margin, expressed as a percentage of sales, was 55 percent for both the quarter and year-to-date, down less than one percentage point from the comparable periods last year. Changes in product mix and lower margins in acquired operations contributed to the decrease in both the quarter and year-to-date. Non-recurring inventory-related purchase accounting effects of \$1 million and lower margins in acquired operations accounted for nearly half of the year-to-date decrease.

Table of Contents

Total operating expenses for the quarter were \$7 ½ million (9 percent) higher than second quarter last year. Year-to-date operating expenses were \$13 million (8 percent) higher than last year. Expenses of acquired operations and spending on regional and product growth initiatives accounted for more than half of the increase for both the quarter and year-to-date. As a percentage of sales, total operating expenses for the quarter were 28 percent, down 1 percentage point from the second quarter last year and year-to-date operating expenses were down by one-half percentage point.

Other expense (income) included dividends received from the Liquid Finishing businesses that are held separate from the Company's other businesses. Such dividends totaled \$11 million for the quarter and \$15 million year-to-date, consistent with the comparable periods of last year.

The effective income tax rate of 28 percent for the quarter was 1 percentage point lower than the comparable period last year. The decrease resulted from higher foreign earnings that are taxed at lower rates than in the U.S., partially offset by the impact of the federal R&D credit not being renewed for 2014. The effective year-to-date income tax rate of 29 percent was 1 percentage point higher than last year. Last year's rate included the favorable impact of the R&D credit that was renewed in 2013 retroactive to the beginning of 2012. The increase in the effective rate as a result of the expiration of the R&D credit for 2014 was partially offset by the impacts of higher foreign earnings taxed at lower rates than in the U.S. and additional benefit from U.S. business deductions.

Segment Results

Certain measurements of segment operations compared to last year are summarized below:

Industrial

Total	\$ 181.8	\$ 159.7	\$ 358.2	\$ 323.8

Industrial segment sales for the quarter increased 14 percent, with increases of 18 percent in the Americas, 12 percent in EMEA (7 percent at consistent translation rates) and 8 percent in Asia Pacific. Year-to-date sales increased 11 percent with increases in the Americas and EMEA and a small decrease in Asia Pacific. First half results included the operations of QED Environmental Systems, acquired at the beginning of fiscal 2014, and EcoQuip, acquired at the end of fiscal 2013. Acquired operations contributed \$10 million to sales in this segment for the quarter and \$17 million year-to-date (6 percentage points of growth for the quarter and 5 percentage points for the year-to-date). Year-to-date operating margin rate for the Industrial segment decreased compared to last year due to lower margins on acquired operations, including the impact of non-recurring acquisition-related inventory valuation adjustments, and

other investments in regional and product expansion.

Contractor segment sales for the quarter increased 13 percent, including increases of 13 percent in the Americas, 18 percent in EMEA (14 percent at consistent translation rates) and 1 percent in Asia Pacific. Year-to-date sales increased 11 percent with strong increases in the Americas and EMEA. Operating margin rates in the Contractor segment were slightly higher than the rates for the comparable periods last year. The favorable effects of higher sales volume and expense leverage were partially offset by unfavorable effects of product mix.

Lubrication segment sales increased 7 percent for the quarter and 6 percent year-to-date, mostly from increases in the Americas. Higher sales volume, improved gross margin rate and expense leverage led to a higher year-to-date operating margin rate in the Lubrication segment.

Liquidity and Capital Resources

Net cash provided by operating activities was \$84 million in 2014 and \$100 million in 2013. The first half increase in accounts receivable was \$15 million higher in 2014 than the increase in 2013. Accounts receivable and inventory

balances have increased since the end of 2013 due to increases in business activity. Significant uses of cash in the first half of 2014 included \$65 million for a business acquisition, \$94 million for purchases of Company common stock and \$33 million of dividends paid to shareholders.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the

Table of Contents

development, manufacture, and sale of products under the Binks, DeVilbiss, Ransburg and BGK brand names, no later than 180 days from the date the order becomes final. The FTC continues to work on resolving issues related to a proposed final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. The Company believes its investment in the Liquid Finishing businesses, carried at a cost of \$422 million, is not impaired.

Under terms of the FTC's hold separate order, the Company is required to provide sufficient resources to maintain the viability, competitiveness and marketability of the Liquid Finishing businesses, including general funds, capital, working capital and reimbursement of losses. To the extent that the Liquid Finishing businesses generate funds in excess of financial resources needed, the Company has access to such funds consistent with practices in place prior to the acquisition. Since the date of acquisition, the Company received \$55 million of dividends from current earnings of the Liquid Finishing businesses, including \$15 million in the first half of 2014.

On June 26, 2014, the Company executed an amendment to its revolving credit agreement, extending the expiration date to June 26, 2019, and increasing the amount of credit available to \$500 million, a \$50 million increase.

Under the amended agreement, the base rate applied to borrowings is an annual rate equal to a margin ranging from zero percent to 0.875 percent (down from zero to 1 percent under the prior agreement), depending on the Company's cash flow leverage ratio, plus the highest of (i) the bank's prime rate, (ii) the federal funds rate plus 0.5 percent or (iii) one-month LIBOR plus 1.5 percent. In general, LIBOR-based loans bear interest at LIBOR plus 1 percent to 1.875 percent (down from 1 to 2 percent), depending on the Company's cash flow leverage ratio.

Fees on the undrawn amount of the loan commitment decreased to a range of 0.15 percent to 0.30 percent (down from 0.15 percent to 0.40 percent), depending on the Company's cash flow leverage ratio.

At June 27, 2014, the Company had various lines of credit totaling \$552 million, of which \$317 million was unused. Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2014, including the needs of the Liquid Finishing businesses acquired in April 2012.

Outlook

After a solid first half of 2014, we are well positioned to achieve full-year growth in all segments and geographies. Our Contractor segment is poised to continue low double-digit growth in the Americas, benefitting from the recovery in the U.S. construction market. Stable macroeconomic conditions in developed economies and firming demand levels in the emerging markets of EMEA and China may provide upside to our outlook for mid-single-digit organic growth for the second half of the year.
