SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, DC 20549

FORM 10-Q

x **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2014

OR

.. **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-16545

Atlas Air Worldwide Holdings, Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation)

13-4146982
(IRS Employer Identification No.)

2000 Westchester Avenue, Purchase, New York
(Address of principal executive offices)

10577
(Zip Code)

(914) 701-8000
(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "accelerated filer," "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of July 25, 2014, there were 25,258,346 shares of the registrant's Common Stock outstanding.

Atlas Air Worldwide Holdings, Inc.

Notes to Unaudited Consolidated Financial Statements

June 30, 2014

1. Basis of Presentation

Our consolidated financial statements include the accounts of the holding company, Atlas Air Worldwide Holdings, Inc. (AAWW) and its consolidated subsidiaries. AAWW is the parent company of its principal operating subsidiary, Atlas Air, Inc. (Atlas), and of Polar Air Cargo LLC (Old Polar). AAWW is also the parent company of several subsidiaries related to our dry leasing services (collectively referred to as Titan). In addition, we are the primary beneficiary of Global Supply Systems Limited (GSS), a consolidated subsidiary. AAWW has a 51% equity interest and 75% voting interest in Polar Air Cargo Worldwide, Inc. (Polar). We record our share of Polar s results under the equity method of accounting.

The terms we, us, our, and the Company mean AAWW and all entities included in its consolidated financial statements.

We provide outsourced aircraft and aviation operating services throughout the world, serving Africa, Asia, Australia, Europe, the Middle East, North America and South America through: (i) contractual service arrangements, including those through which we provide aircraft to customers and value-added services, including crew, maintenance and insurance (ACMI), as well as those through which we provide crew, maintenance and insurance services, with the customer providing the aircraft (CMI); (ii) military charter services provided to the U.S. Military Air Mobility Command (the AMC) (AMC Charter); (iii) seasonal, commercial and ad hoc charter services (Commercial Charter); and (iv) dry leasing of aircraft and engines (Dry Leasing or Dry Lease).

The accompanying unaudited consolidated financial statements and related notes (the Financial Statements) have been prepared in accordance with the U.S. Securities and Exchange Commission (the SEC) requirements for quarterly reports on Form 10-Q, and consequently exclude certain disclosures normally included in audited consolidated financial statements prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). All significant intercompany accounts and transactions have been eliminated. The Financial Statements should be read in conjunction with the audited consolidated financial statements and the notes included in the AAWW Annual Report on Form 10-K for the year ended December 31, 2013, which includes additional disclosures and a summary of our significant accounting policies. In our opinion, the Financial Statements contain all adjustments, consisting of normal recurring items, necessary to fairly state the financial position of AAWW and its consolidated subsidiaries as of June 30, 2014, the results of operations for the three and six months ended June 30, 2014 and 2013, comprehensive income for the three and six months ended June 30, 2014 and 2013, cash flows for the six months ended June 30, 2014 and 2013, and shareholders equity as of and for the six months ended June 30, 2014 and 2013.

Our quarterly results are subject to seasonal and other fluctuations, and the operating results for any quarter are therefore not necessarily indicative of results that may be otherwise expected for the entire year.

Except for per share data, all dollar amounts are in thousands unless otherwise noted.

Certain reclassifications have been made to prior periods unaudited consolidated financial statement amounts and related note disclosures to conform to the current period s presentation, including the reclassification of maintenance

reserves received from operating activities to financing activities on the consolidated statements of cash flows.

2. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board amended its accounting guidance for revenue recognition. The fundamental principles of the new guidance are that companies should recognize revenue in a manner that reflects the timing of the transfer of services to customers and the amount of revenue recognized reflects the consideration that a company expects to receive for the services provided. It also requires additional disclosures necessary for the financial statement users to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The amended guidance is effective as of the beginning of 2017 and we are currently assessing the impact it will have on our financial statements. Early adoption is not permitted.

Table of Contents**3. Related Parties*****DHL Investment and Polar***

DHL Network Operations (USA), Inc. (*DHL*), a subsidiary of Deutsche Post AG (*DP*), holds a 49% equity interest and a 25% voting interest in Polar. Polar is a variable interest entity that we do not consolidate because we are not the primary beneficiary as the risks associated with the direct costs of operation are with DHL. Under a 20-year blocked space agreement (the *BSA*), Polar provides air cargo capacity to DHL. Atlas has several agreements with Polar to provide ACMI, CMI, administrative, sales and ground support services to one another. We do not have any financial exposure to fund debt obligations or operating losses of Polar, except for any liquidated damages that we could incur under these agreements. The following table summarizes our transactions with Polar:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Revenue and Expenses:				
ACMI segment revenue from Polar	\$ 74,144	\$ 71,205	\$ 143,839	\$ 142,052
Other revenue from Polar	\$ 2,842	\$ 2,837	\$ 5,684	\$ 5,675
Ground handling and airport fees paid to Polar	\$ 448	\$ 334	\$ 772	\$ 671

	June 30, 2014	December 31, 2013
Accounts receivable/payable as of:		
Receivables from Polar	\$ 4,851	\$ 4,249
Payables to Polar	\$ 1,689	\$ 3,464

	June 30, 2014	December 31, 2013
Aggregate Carrying Value of Polar Investment as of:		
	\$ 4,870	\$ 4,870

GATS

We hold a 50% interest in Global Aviation Technical Solutions Co. Ltd. (*GATS*), a joint venture with an unrelated third party. The purpose of the joint venture is to purchase rotatable parts and provide repair services for those parts, primarily for 747-8F aircraft. The joint venture is a variable interest entity and we have not consolidated GATS because we are not the primary beneficiary as we do not exercise financial control. As of June 30, 2014 and December 31, 2013, our investment in GATS was \$13.0 million and \$13.2 million, respectively, and our maximum exposure to losses from the entity is limited to our investment, which is comprised primarily of rotatable parts. GATS does not have any third-party debt obligations.

4. Special Charge

We hold a 49% interest in GSS, a private company. GSS is a variable interest entity and we are the primary beneficiary for financial reporting purposes. Atlas previously dry leased three 747-8F owned aircraft to GSS. The leases provided for payment of rent and a provision for maintenance costs associated with the aircraft. GSS provided

ACMI services to British Airways Plc (British Airways) using these three aircraft. In January 2014, British Airways notified us that they would be returning the three 747-8F aircraft in April 2014. As a result, we recognized \$1.6 million and \$3.9 million of employee termination benefits during the three and six months ended June 30, 2014, respectively, after management determined that such costs were probable and estimable. Substantially all cash payments related to employee termination benefits are expected to be paid by the end of 2014. In addition, we recognized a reserve of \$5.2 million related to a loan from GSS to its 51% U.K. shareholder during the six months ended June 30, 2014.

In 2013, we recognized a Special charge related to the early termination of operating leases for two 747-400BCF aircraft that we permanently parked in December 2013. Substantially all cash payments related to the lease termination costs are expected to be paid by 2015.

A summary of the Special charge liabilities is as follows:

	Lease Termination Costs	GSS Employee Termination Benefits	Total
Liability as of December 31, 2013	\$ 12,773	\$	\$ 12,773
Special charge items, net	313	3,893	4,206
Cash payments	(6,838)	(2,306)	(9,144)
Liability as of June 30, 2014	\$ 6,248	\$ 1,587	\$ 7,835

Table of Contents**5. Accrued Liabilities**

Accrued liabilities consisted of the following as of:

	June 30, 2014	December 31, 2013
Customer maintenance reserves	\$ 56,093	\$ 17,274
Maintenance	38,619	26,539
Aircraft fuel	29,828	14,905
Salaries, wages and benefits	30,087	36,450
Deferred revenue	13,366	26,279
Other	65,086	72,845
Accrued liabilities	\$ 233,079	\$ 194,292

Customer maintenance reserves are amounts received under our Dry Leases that are subject to reimbursement to the lessee upon the completion of qualifying maintenance work on Dry Leased aircraft.

6. Debt***Ex-Im Bank Guaranteed Note***

In January 2014, we refinanced a bridge loan with a note guaranteed by the Export-Import Bank of the United States (Ex-Im Bank) in the amount of \$140.6 million secured by a mortgage on a 747-8F aircraft (aircraft tail number N854GT) for a period of 134 months (the 2014 Ex-Im Guaranteed Note). In connection with entry into this guaranteed note, we paid usual and customary fees. This guaranteed note accrues interest at a fixed rate of 2.67% with principal and interest payable quarterly and contains customary covenants and event of default provisions.

Term Loans

In January 2014, we purchased three 777-200LRF aircraft that are leased to a customer on a long-term basis. We accounted for the purchases as asset acquisitions and recognized lease intangibles of \$42.7 million related to the long-term Dry Leases, which will be amortized on a straight-line basis over the life of the leases. As part of the transactions, we entered into six separate term loans in the aggregate amount of \$432.0 million each secured by a mortgage on the aircraft and the attached leases (the 2014 Term Loans). In connection with entry into these term loans, we paid usual and customary fees. The term loans accrue interest with principal and interest payable quarterly and contain customary covenants and event of default provisions.

The following table summarizes the terms and amounts for each term loan (in millions):

	Issue	Face	Collateral Aircraft Tail	Original	Interest Rate	Interest
	Date	Value	Number	Term	Type	Rate
First 2014 Term Loan	2014	\$ 115.0	MSN 38969	114 months	Fixed	4.48%

Edgar Filing: ATLAS AIR WORLDWIDE HOLDINGS INC - Form 10-Q

Second 2014 Term Loan	2014	30.8	MSN 38969	114 months	Fixed	7.30%
Third 2014 Term Loan	2014	115.0	MSN 37138	118 months	Fixed	4.57%
Fourth 2014 Term Loan	2014	29.0	MSN 37138	118 months	Fixed	7.38%
Fifth 2014 Term Loan	2014	115.0	MSN 39286	116 months	Fixed	4.51%
Sixth 2014 Term Loan	2014	27.2	MSN 39286	116 months	Fixed	7.35%
\$ 432.0						

7. Income Taxes

Our effective income tax rates were a benefit of 461.0% and 181.4% for the three and six months ended June 30, 2014, respectively. Our effective income tax rates were an expense of 32.3% and 0.2% for the three and six months ended 2013, respectively. The effective rates for the three and six months ended June 30, 2014 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$24.0 million, net of reserves, related to extraterritorial income (ETI) from offshore leasing of certain of our aircraft. In addition, our effective income tax rate for the six months ended

Table of Contents

June 30, 2014 differed from the U.S. federal statutory rate due to losses associated with GSS for which we have recognized a valuation allowance due to the uncertainty regarding whether the benefit for those losses will be realized. The effective rate for the six months ended June 30, 2013 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$14.2 million, net of reserves, related to ETI from offshore leasing of certain of our aircraft and also related to our decision during the second quarter of 2013 to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S. The effective rates in all periods also differed from the U.S. federal statutory rate due to the income tax impact of foreign operations taxed at different rates, U.S. state income taxes, the nondeductibility of certain expenses for tax purposes, adjustments to our liability for uncertain tax positions, and the relationship of these items to our projected operating results for the year. For interim accounting purposes, we recognize income taxes using an estimated annual effective tax rate.

As a result of current and expected future growth in our Dry Leasing business, we determined that the net earnings of certain foreign subsidiaries engaged in this business will be indefinitely reinvested outside of the U.S. Our effective rate for the six months ended June 30, 2014 was favorably impacted by our assertion to indefinitely reinvest these net earnings. As of June 30, 2014, our undistributed net earnings of foreign subsidiaries for which deferred taxes have not been provided were \$26.1 million, and the unrecognized deferred tax liability associated with these earnings was \$9.1 million.

We continue to evaluate our eligibility to claim ETI tax benefits and may recognize additional benefits in future periods. We are unable to reasonably estimate these benefits.

8. Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Inputs used to measure fair value are classified in the following hierarchy:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 Other inputs that are observable directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, or inactive quoted prices for identical assets or liabilities in inactive markets;

Level 3 Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability. We endeavor to utilize the best available information to measure fair value.

We maintain Cash and cash equivalents, Short-term investments and Restricted cash, which include cash on hand, demand deposits, other cash investments that are highly liquid in nature and have original maturities of three months or less at acquisition, money market funds, certificates of deposit and the current portion of debt securities. The carrying value of Cash and cash equivalents, Short-term investments and Restricted cash is based on cost, which approximates fair value.

Long-term investments consist of debt securities for which we have both the ability and the intent to hold until maturity. These investments are classified as held-to-maturity and reported at amortized cost. The fair value of our

Long-term investments is based on a discounted cash flow analysis using the contractual cash flows of the investments and a discount rate derived from unadjusted quoted interest rates for debt securities of comparable risk. Such debt securities represent investments in Pass-Through Trust Certificates related to enhanced equipment trust certificates (EETCs) issued by Atlas in 1998, 1999 and 2000. Interest on debt securities and accretion of discounts using the effective interest method are included in Interest income.

The fair value of our term loans, Ex-Im Bank guaranteed notes and EETCs are based on a discounted cash flow analysis using current borrowing rates for instruments with similar terms.

The fair value of our interest rate derivatives was based on Level 2 inputs utilized in expected cash flow models. The market inputs used included the implied forward LIBOR yield curve for the same period as the future interest rate swap settlements. These derivatives were designated as hedging instruments.

Table of Contents

The following table summarizes the carrying amount, estimated fair value and classification of our financial instruments as of:

	June 30, 2014				
	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Assets					
Cash and cash equivalents	\$ 276,404	\$ 276,404	\$ 276,404	\$	\$
Short-term investments	9,592	9,592			9,592
Restricted cash	13,215	13,215	13,215		
Long-term investments and accrued interest	129,092	178,808			178,808
	\$ 428,303	\$ 478,019	\$ 289,619	\$	\$ 188,400

EETCs	254,216	329,973			329,973
	\$ 1,704,421	\$ 1,757,893	\$	\$ 7,796	\$ 1,750,097

The following table presents the carrying value, gross unrealized gain (loss) and fair value of our long-term investments by contractual maturity as of:

	June 30, 2014			December 31, 2013		
	Carrying Value	Gross Unrealized Gain (Loss)	Fair Value	Carrying Value	Gross Unrealized Gain (Loss)	Fair Value
Debt securities						
Due after one but within five years	\$	\$	\$	\$	\$	\$
Due after five but within ten years	129,092	49,716	178,808	130,267	44,528	174,795
Total	\$ 129,092	\$ 49,716	\$ 178,808	\$ 130,267	\$ 44,528	\$ 174,795

Table of Contents**9. Segment Reporting**

We have the following four reportable segments: ACMI (which includes ACMI and CMI services), AMC Charter, Commercial Charter and Dry Leasing. We use an economic performance metric (Direct Contribution) that shows the profitability of each segment after allocation of operating and ownership costs. The following table sets forth Operating Revenue and Direct Contribution for our reportable business segments reconciled to Operating Income and Income before Income Taxes:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Operating Revenue:				
ACMI	\$ 186,720	\$ 181,957	\$ 384,861	\$ 363,127
AMC Charter	91,281	94,135	154,155	192,172
Commercial Charter	133,953	117,783	248,452	208,883
Dry Leasing	25,524	6,223	50,200	9,970
Other	3,691	3,475	6,864	6,757
Total Operating Revenue	\$ 441,169	\$ 403,573	\$ 844,532	\$ 780,909
Direct Contribution:				
ACMI	\$ 44,128	\$ 55,063	\$ 89,326	\$ 95,007
AMC Charter	15,620	12,658	25,088	25,395
Commercial Charter	(6,056)	(2,480)	(18,301)	(11,164)
Dry Leasing	8,738	2,437	16,909	3,613
Total Direct Contribution	62,430	67,678	113,022	112,851
Add back (subtract):				
Unallocated income and expenses, net	(41,136)	(36,127)	(77,135)	(71,140)
Loss on early extinguishment of debt		(994)		(994)
Special charge	(1,449)		(9,477)	
Loss (gain) on disposal of aircraft	(14,679)	399	(14,679)	422
Income before Income Taxes	5,166	30,956	11,731	41,139
Add back (subtract):				
Interest income	(4,719)	(4,978)	(9,446)	(10,154)
Interest expense	26,365	20,677	52,817	39,117
Capitalized interest	(67)	(292)	(379)	(1,694)
Loss on early extinguishment of debt		994		994
Other expense (income), net	(88)	1,104	64	1,656
Operating Income	\$ 26,657	\$ 48,461	\$ 54,787	\$ 71,058

We are exposed to a concentration of revenue to the AMC and Polar (see Note 3 for further discussion regarding Polar). No other customer accounted for 10.0% of our Total Operating Revenue. We have not experienced any credit

issues with either of these customers.

10. Legal Proceedings

Department of Justice Investigation and Related Litigation

In 2010, Old Polar entered into an agreement with the United States Department of Justice (the DOJ) to resolve issues relating to the previously disclosed DOJ investigation concerning alleged manipulation by cargo carriers of fuel surcharges and other rate components for air cargo services (the DOJ Investigation).

As a result of the DOJ Investigation, the Company and Old Polar have been named defendants, along with a number of other cargo carriers, in several class actions in the United States arising from allegations about the pricing practices of a number of air cargo carriers that have now been consolidated for pretrial purposes in the United States District Court for the Eastern District of New York. The consolidated complaint alleges, among other things, that the defendants, including the Company and Old Polar, manipulated the market price for air cargo services sold domestically and abroad through the use of surcharges, in violation of United States, state, and European Union antitrust laws. The suit seeks treble damages and injunctive relief.

In 2007, the Company and Old Polar commenced an adversary proceeding in bankruptcy court against each of the plaintiffs in this class action litigation seeking to enjoin the plaintiffs from prosecuting claims against the Company and Old Polar that arose prior to 2004, the date on which the Company and Old Polar emerged from bankruptcy. In 2007, the plaintiffs consented to the injunctive relief requested and the bankruptcy court entered an order enjoining plaintiffs from prosecuting Company claims arising prior to 2004.

Table of Contents

The court in the antitrust class actions has heard and decided a number of procedural motions. Among those was the plaintiffs' motion to join Polar Air Cargo Worldwide, Inc. as an additional defendant, which the court granted on April 13, 2011. There was substantial pretrial written discovery and document production, and a number of depositions were taken. A court hearing on whether or not to certify the case as a class action was held in October 2013 and oral arguments were held in November 2013. We are unable to reasonably predict the court's ruling or the ultimate outcome of the litigation.

The Company, Old Polar and a number of other cargo carriers have also been named as defendants in civil class action suits in the provinces of British Columbia, Ontario and Quebec, Canada that are substantially similar to the class action suits in the United States. The plaintiffs in the British Columbia case have indicated they do not intend to pursue their lawsuit against the Company and Old Polar. A court hearing on whether to certify the case as a class action is expected to be held later this year.

If the Company or Old Polar were to incur an unfavorable outcome in connection with one or more of the matters described above, such outcome is not expected to materially affect our business, financial condition, results of operations, and/or cash flows.

Brazilian Customs Claim

Old Polar was cited for two alleged customs violations in Sao Paulo, Brazil, relating to shipments of goods dating back to 1999 and 2000. Each claim asserts that goods listed on the flight manifest of two separate Old Polar scheduled service flights were not on board the aircraft upon arrival and therefore were improperly brought into Brazil. The two claims, which also seek unpaid customs duties, taxes and penalties from the date of the alleged infraction, are approximately \$8.9 million in aggregate based on June 30, 2014 exchange rates.

In both cases, we believe that the amounts claimed are substantially overstated due to a calculation error when considering the type and amount of goods allegedly missing, among other things. Furthermore, we may seek appropriate indemnity from the shipper in each claim as may be feasible. In the pending claim for one of the cases, we have received an administrative decision dismissing the claim in its entirety, which remains subject to a mandatory appeal by the Brazil customs authorities. As required to defend such claims, we have made deposits pending resolution of these matters. The balances were \$6.2 million as of June 30, 2014 and \$5.7 million as of December 31, 2013, and are included in Deposits and other assets.

We are currently defending these and other Brazilian customs claims and the ultimate disposition of these claims, either individually or in the aggregate, is not expected to materially affect our financial condition, results of operations or cash flows.

Trademark Matters

Since 2005, we have been involved in ongoing litigation in courts in Germany and the Netherlands, and before the European Union's Office for Harmonization in the Internal Market, which handles European Union trademark matters, against Atlas Transport, an unrelated and unaffiliated entity, over the use of the name "Atlas". On May 12, 2014, the parties executed a settlement agreement providing for dismissal of all pending actions and confirming our right to continue to use the "Atlas" trademark without interference. The ultimate disposition of these claims, either individually or in the aggregate, did not materially affect our financial condition, results of operations or cash flows.

Other

We have certain other contingencies incident to the ordinary course of business. Management believes that the ultimate disposition of such other contingencies is not expected to materially affect our financial condition, results of operations or cash flows.

11. Earnings Per Share

Basic earnings per share (EPS) represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period. Diluted EPS represent net income attributable to common shareholders divided by the weighted average number of common shares outstanding during the measurement period while also giving effect to all potentially dilutive common shares that were outstanding during the period. Anti-dilutive options that were out of the money for the three and six months ended June 30, 2014 and 2013 were de minimis and excluded.

Table of Contents

The calculations of basic and diluted EPS were as follows:

	For the Three Months Ended		For the Six Months Ended	
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013
Numerator:				
Net Income Attributable to Common Stockholders	\$ 29,593	\$ 20,060	\$ 37,537	\$ 40,138
Denominator:				
Basic EPS weighted average shares outstanding	25,241	25,691	25,169	26,009
Effect of dilutive stock options and restricted stock	38	25	46	67
Diluted EPS weighted average shares outstanding	25,279	25,716	25,215	26,076
EPS:				
Basic	\$ 1.17	\$ 0.78	\$ 1.49	\$ 1.54
Diluted	\$ 1.17	\$ 0.78	\$ 1.49	\$ 1.54

Diluted shares reflect the potential dilution that could occur from stock options and restricted share units using the treasury stock method. The calculation does not include restricted share units in which performance or market conditions were not satisfied of 0.4 million and 0.5 million for the three and six months ended June 30, 2014, respectively and 0.4 million and 0.5 million for the three and six months ended June 30, 2013, respectively.

12. Accumulated Other Comprehensive Income (Loss)

The following table summarizes the components of Accumulated other comprehensive income (loss):

	Interest Rate Derivatives	Foreign Currency Translation	Total
Balance as of December 31, 2013	\$ (11,375)	\$ 698	\$ (10,677)
Net change in fair value	(251)		(251)
Reclassification into earnings	1,372		1,372
Translation adjustment		171	171
Tax effect	(506)		(506)
Balance as of June 30, 2014	\$ (10,760)	\$ 869	\$ (9,891)

Interest Rate Derivatives	Foreign Currency Translation	Total
------------------------------	---------------------------------	-------

Balance as of December 31, 2012	\$ (14,618)	\$ 355	\$ (14,263)
Reclassification into earnings	1,537		1,537
Translation adjustment		(167)	(167)
Tax effect	(558)		(558)
Balance as of June 30, 2013	\$ (13,639)	\$ 188	\$ (13,451)

Interest Rate Derivatives

In December 2013, we entered into six forward-starting interest rate swaps with a total notional value of \$432.5 million to hedge the risk of changes in quarterly interest payments due to fluctuations in the forward 90-day LIBOR swap rate for debt issuances. The debt issuances were related to the financing of three Boeing 777-200LRF aircraft that we purchased in January 2014 (see Note 6).

In January 2014, we terminated all six of the forward-starting interest rate swaps in connection with the debt issuances, which converted a previously unrealized gain of \$1.1 million into a realized gain in Accumulated other comprehensive income (loss). There was no ineffectiveness associated with these hedges upon their termination.

Table of Contents

As of June 30, 2014, there was \$17.3 million of net unamortized realized loss before taxes remaining in Accumulated other comprehensive income (loss) related to terminated forward-starting interest rate swaps, which had been designated as cash flow hedges to effectively fix the interest rates on two 747-8F financings in 2011 and the three 777-200LRF financings in 2014. The net loss is amortized and reclassified into Interest expense over the remaining life of the related debt. Net realized losses reclassified into earnings were \$0.7 million and \$0.8 million for the three months ended June 30, 2014 and 2013, respectively. Net realized losses reclassified into earnings were \$1.4 million and \$1.5 million for the six months ended June 30, 2014 and 2013, respectively. Net realized losses expected to be reclassified into earnings within the next 12 months are \$2.6 million as of June 30, 2014.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our unaudited Financial Statements appearing in this report and our audited consolidated financial statements and related notes included in our 2013 Annual Report on Form 10-K.

Glossary

The following represents terms and statistics specific to our business and industry. They are used by management to evaluate and measure operations, results, productivity and efficiency.

Block Hour	The time interval between when an aircraft departs the terminal until it arrives at the destination terminal.
C Check	High-level or heavy airframe maintenance checks, which are more intensive in scope than Line Maintenance and are generally performed between 18 and 24 months depending on aircraft type.
D Check	High-level or heavy airframe maintenance checks, which are the most extensive in scope and are generally performed every six and eight years depending on aircraft type.
Heavy Maintenance	Scheduled maintenance activities, which are the most extensive in scope and are primarily based on time intervals, including, but not limited to, C Checks, D Checks and engine overhauls.
Line Maintenance	Unscheduled maintenance to rectify events occurring during normal day-to-day operations.
Non-heavy Maintenance	Discrete maintenance activities for the overhaul and repair of specific aircraft components.
Yield	The average amount a customer pays to fly one tonne of cargo one mile.

Business Overview

We are a leading global provider of outsourced aircraft and aviation operating services, operating the world's largest fleet of Boeing 747 freighters, as well as Boeing 747 and 767 passenger aircraft and Boeing 767 freighters. We also provide Boeing 777 aircraft on a Dry Lease basis. We provide unique value to our customers by giving them access to highly reliable new production freighters that deliver the lowest unit cost in the marketplace combined with outsourced aircraft operating services that we believe lead the industry in terms of quality and global scale. Our customers include airlines, express delivery providers, freight forwarders, the U.S. military and charter brokers. We provide global services with operations in Africa, Asia, Australia, Europe, the Middle East, North America and South America.

Our primary service offerings include the following:

ACMI, whereby we provide outsourced cargo and passenger aircraft operating solutions, including the provision of an aircraft, crew, maintenance and insurance, while customers assume fuel, demand and

Yield risk. The customer is responsible for fuel, landing fees, navigation fees and most other operational fees and costs;

CMI, which is part of our ACMI business segment, whereby we provide outsourced cargo and passenger aircraft operating solutions including the provision of crew, maintenance and insurance, while customers provide the aircraft and assume fuel, demand and Yield risk. The customer is responsible for fuel, landing fees, navigation fees and most other operational fees and costs;

AMC Charter, whereby we provide cargo and passenger aircraft charter services for the AMC. The AMC pays a fixed charter fee that includes fuel, insurance, landing fees, navigation fees and most other operational fees and costs;

Commercial Charter, whereby we provide cargo and passenger aircraft charters to customers, including brokers, sports teams and fans, cruise-ship operators, freight forwarders, direct shippers and airlines. The customer pays a fixed charter fee that includes fuel, insurance, landing fees, navigation fees and most other operational fees and costs; and

Table of Contents

Dry Leasing, whereby we provide cargo and passenger aircraft and engine leasing solutions. The customer operates, and is responsible for insuring and maintaining, the flight equipment.

We look to achieve our growth plans to enhance stakeholder value by:

Delivering superior service quality to our valued customers;

Aggressively managing our fleet with a focus on leading-edge aircraft;

Focusing on securing long-term customer contracts;

Driving significant and ongoing productivity improvements; and

Selectively pursuing and evaluating future acquisitions and alliances.

See Business Overview and Business Strategy in our 2013 Annual Report on Form 10-K for additional information.

Business Developments

Our ACMI results for the first half of 2014, compared to 2013, were impacted by the following events:

In January and February 2013, we began CMI flying two new 767-300ERF aircraft owned by DHL.

In April 2013, we began ACMI flying a 747-400F aircraft for Chapman Freeborn Airchartering Ltd. (Chapman Freeborn), which was the first dedicated 747-400F aircraft in its network.

In May 2013, we took delivery of a 747-8F aircraft that we placed into ACMI service with Etihad Airways (Etihad), which was the first 747-8F aircraft in its global network.

In July 2013, we began CMI flying a VIP-configured 767-200 passenger aircraft owned by MLW Air, LLC. (MLW Air). MLW Air's 767-200 is the only all-first class 767 commercial charter aircraft with worldwide operations registered with the U.S. Federal Aviation Administration.

In September 2013, we began ACMI flying a 747-400F for Astral Aviation Limited (Astral Aviation), which was the first 747-400F aircraft in its global network.

In February 2014, we began ACMI flying a 747-8F aircraft with BST Logistics (Hong Kong) Company Limited (BST Logistics), a business partner of Navitrans International Freight Forwarding Co., Ltd. Service, which was the first 747-8F aircraft in its network.

In April and early May 2014, British Airways returned three 747-8F aircraft that we had been ACMI flying in its network.

In May 2014, two of the 747-8F aircraft returned from British Airways were placed into ACMI service for DHL, replacing two 747-400F aircraft. One of those 747-400F aircraft was subsequently returned to ACMI service for DHL in June 2014.

AMC Charter Cargo Block Hours have been negatively impacted by reduced demand from the AMC during the first half of 2014. This was partially offset by incremental flying as former competitors exited the AMC Charter market.

Commercial Charter Block Hours increased during the first half of 2014, reflecting stronger demand and our redeployment of 747-8F and 747-400 aircraft from ACMI during remarketing periods.

As a result of the continuing reduction in AMC Charter cargo demand and volatility in the Commercial Charter market, we continually assess the opportunities for our 747-400 freighter aircraft and will make adjustments to our capacity as necessary. Some of these actions may involve grounding or disposing of aircraft, which could result in asset impairments or other charges in future periods.

Table of Contents

In March and July 2013, we purchased three recently-manufactured Boeing 777-200LR aircraft that are being Dry Leased by Titan to customers on a long-term basis. In January 2014, we purchased three additional recently-manufactured Boeing 777-200LR aircraft that are being Dry Leased by Titan to a customer on a long-term basis.

Results of Operations**Three Months Ended June 30, 2014 and 2013****Operating Statistics**

The following discussion should be read in conjunction with our Financial Statements and other financial information appearing and referred to elsewhere in this report.

The table below sets forth selected Operating Statistics for the three months ended June 30:

	2014	2013	Increase / (Decrease)	Percent Change
Block Hours				
ACMI	27,652	28,372	(720)	(2.5)%
AMC Charter:				
Cargo	1,167	1,891	(724)	(38.3)%
Passenger	3,165	2,675	490	18.3%
Commercial Charter	6,727	6,331	396	6.3%
Other	299	245	54	22.0%
Total Block Hours	39,010	39,514	(504)	(1.3)%
Revenue Per Block Hour				
ACMI	\$ 6,752	\$ 6,413	\$ 339	5.3%

Operating Revenue

The following table compares our Operating Revenue for the three months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Operating Revenue				
ACMI	\$ 186,720	\$ 181,957	\$ 4,763	2.6%
AMC Charter	91,281	94,135	(2,854)	(3.0)%
Commercial Charter	133,953	117,783	16,170	13.7%
Dry Leasing	25,524	6,223	19,301	NM
Other	3,691	3,475	216	6.2%
Total Operating Revenue	\$ 441,169	\$ 403,573	\$ 37,596	9.3%

NM represents year-over-year percentage changes that are not meaningful.

ACMI revenue increased \$4.8 million, or 2.6%, primarily due to higher 747-8F revenue and increased CMI flying. ACMI Revenue per Block Hour was \$6,752 for the second quarter of 2014, compared to \$6,413 in 2013, an increase of \$339 per Block Hour, or 5.3%. The increase in Revenue per Block Hour was primarily driven by the impact of higher revenue on 747-8F aircraft, partially offset by lower rates on certain CMI flying. ACMI Block Hours were

27,652 for the second quarter of 2014, compared to 28,372 in 2013, a decrease of 720 Block Hours, or 2.5%. Block Hours were impacted by the return of three 747-8F aircraft from British Airways in April and early May of 2014, partially offset by the placement of two additional 747-8F aircraft with DHL in May 2014, the start-up of ACMI 747-8F flying for BST Logistics in February 2014 and Etihad in May 2013, and the start-up of ACMI 747-400 flying for Astral Aviation in September 2013. Block Hours were also impacted by an increase in CMI flying for Boeing and the start-up of CMI 767-200 passenger aircraft flying for MLW Air during the third quarter of 2013.

AMC Charter revenue decreased \$2.9 million, or 3.0%, primarily driven by a reduction in AMC Charter Cargo Block Hours partially offset by higher AMC Passenger Block Hours and an increase in Revenue per Block Hour. AMC Charter Block Hours were 4,332 for the second quarter of 2014 compared to 4,566 in 2013, a decrease of 234 Block Hours, or 5.1%. The decrease in AMC Charter Block Hours was driven by reduced cargo demand from the AMC, partially offset by incremental passenger flying as demand increased and former competitors exited the AMC Charter market. AMC Charter Revenue per Block Hour was \$21,071 for the second quarter of 2014, compared to \$20,617 in 2013, an increase of \$455 per Block Hour, or 2.2%, primarily due to an increase in the volume of passenger flying on higher-yielding 747-400 aircraft during the second quarter of 2014 compared to 2013, partially offset by a decrease in the average pegged fuel price. For the second quarter of 2014, the AMC average pegged fuel price was \$3.35 per gallon compared to \$3.63 in 2013. The pegged fuel price is set by the AMC and the impact to revenue from changes in the pegged fuel price is generally offset by a corresponding impact to fuel expense.

Table of Contents

Commercial Charter revenue increased \$16.2 million, or 13.7%, primarily due to an increase in both Revenue per Block Hour and Block Hours. Revenue per Block Hour was \$19,913 in the second quarter of 2014, compared to \$18,604 in 2013, an increase of \$1,309 per Block Hour, or 7.0%. This increase reflects the impact of incremental cargo revenue on subcontracted Commercial Charter flights with no associated Block Hours. Commercial Charter Block Hours were 6,727 in the second quarter of 2014, compared to 6,331 in 2013, representing an increase of 396 Block Hours, or 6.3%. The increase in Block Hours was primarily due to increased demand during the second quarter of 2014.

Dry Leasing revenue increased \$19.3 million primarily due to the acquisition of three 777-200LRF aircraft in early January 2014 and two 777-200LRF aircraft in July 2013 that are being leased to customers on a long-term basis.

Operating Expenses

The following table compares our Operating Expenses for the three months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Operating Expenses				
Aircraft fuel	\$ 103,842	\$ 102,743	\$ 1,099	1.1%
Salaries, wages and benefits	77,948	72,518	5,430	7.5%
Maintenance, materials and repairs	50,386	43,477	6,909	15.9%
Aircraft rent	34,826	39,854	(5,028)	(12.6)%
Depreciation and amortization	30,381	20,371	10,010	49.1%
Navigation fees, landing fees and other rent	30,906	18,744	12,162	64.9%
Passenger and ground handling services	21,859	17,300	4,559	26.4%
Travel	18,774	13,771	5,003	36.3%
Special charge	1,449		1,449	NM
Loss (gain) on disposal of aircraft	14,679	(399)	(15,078)	NM
Other	29,462	26,733	2,729	10.2%
Total Operating Expenses	\$ 414,512	\$ 355,112		

Aircraft fuel increased \$1.1 million, or 1.1%, primarily due to increases in Commercial Charter fuel consumption and price, partially offset by reduced AMC Charter fuel consumption and price. Commercial Charter fuel consumption increased by 1.5 million gallons, or 7.1%, primarily driven by the increase in Block Hours operated. The average fuel price per gallon for the Commercial Charter business was \$3.11 for the second quarter of 2014, compared to \$3.03 in 2013, an increase of 2.6%. AMC Charter fuel consumption decreased by 0.6 million gallons, or 5.7%, primarily reflecting the decrease in Block Hours operated. The average fuel price per gallon for the AMC Charter business was \$3.35 in the second quarter of 2014, compared to \$3.63 in 2013, a decrease of 7.7%. We do not incur fuel expense in our ACMI or Dry Leasing businesses as the cost of fuel is borne by the customer.

Salaries, wages and benefits increased \$5.4 million, or 7.5%, primarily driven by an increase in ground staff costs due to key initiatives.

Maintenance, materials and repairs increased \$6.9 million, or 15.9%, primarily driven by an increase of \$6.0 million for 747-8F and 747-400 aircraft. Heavy Maintenance expense on 747-8F aircraft increased due to the number of C

Checks and other maintenance activities, and was offset by lower heavy maintenance on 747-400 aircraft due to a reduction in the number of engine overhauls, resulting from our engine acquisition program, and D Checks in 2014. Non-heavy Maintenance expense on 747-400 aircraft increased \$2.6 million primarily due to the timing of maintenance activities. Line Maintenance expense on 747-400 aircraft and 747-8F aircraft increased \$3.6 million primarily due to a higher number of repairs to rotatable parts in 2014. Heavy airframe maintenance events and engine overhauls for the three months ended June 30 were:

Heavy Maintenance Events	2014	2013	Increase / (Decrease)
747-400 C Checks	3	4	(1)
747-8 C Checks	2		2
747-400 D Checks	2	1	1
767 C Checks	1	1	
CF6-80 engine overhauls	2	4	(2)

Table of Contents

Aircraft rent decreased \$5.0 million, or 12.6%, primarily due to the early termination of operating leases for two 747-400BCFs that we permanently parked in December 2013.

Depreciation and amortization increased \$10.0 million, or 49.1%, due to additional aircraft operating in the second quarter of 2014.

Navigation fees, landing fees and other rent increased \$12.2 million, or 64.9%, primarily due to an increase in purchased capacity from subcontracting certain Commercial Charter flights. We reclassified purchased capacity from Aircraft rent to Navigation fees, landing fees and other rent and we reclassified previously reported amounts to conform to the current period's presentation.

Passenger and ground handling services increased \$4.6 million, or 26.4%, primarily due to higher rates for ground handling from Commercial Charter flying to higher cost locations.

Travel increased \$5.0 million, or 36.3%, primarily due to higher rates and increased travel related to positioning crewmembers for customer schedule and route changes.

Loss on disposal of aircraft in 2014 resulted from the trade-in of used spare engines for new engines as part of our engine acquisition program.

Non-operating Expenses (Income)

The following table compares our Non-operating Expenses (Income) for the three months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Non-operating Expenses (Income)				
Interest income	\$ (4,719)	\$ (4,978)	\$ (259)	(5.2)%
Interest expense	26,365	20,677	5,688	27.5%
Capitalized interest	(67)	(292)	(225)	(77.1)%
Loss on early extinguishment of debt		994	(994)	NM
Other expense (income), net	(88)	1,104	(1,192)	(108.0)%

Interest expense increased \$5.7 million, or 27.5%, primarily due to an increase in our average debt balances related to the financing of aircraft purchases in 2013 and early 2014.

Income taxes. Our effective income tax rates were a benefit of 461.0% for the three months ended June 30, 2014 and an expense of 32.3% for the three months ended June 30, 2013. The effective rate for the three months ended June 30, 2014 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$24.0 million related to ETI from offshore leasing of certain of our aircraft and our assertion beginning in 2013, to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S. The effective rate for the three months ended June 30, 2013 differed from the U.S. federal statutory rate primarily due to our assertion to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S.

Segments

The following table compares the Direct Contribution of our reportable segments (see Note 9 to our Financial Statements for the reconciliation to Operating income) for the three months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Direct Contribution:				
ACMI	\$ 44,128	\$ 55,063	\$ (10,935)	(19.9)%
AMC Charter	15,620	12,658	2,962	23.4%
Commercial Charter	(6,056)	(2,480)	(3,576)	(144.2)%
Dry Leasing	8,738	2,437	6,301	258.6%
Total Direct Contribution	\$ 62,430	\$ 67,678	\$ (5,248)	(7.8)%
Unallocated income and expenses, net	\$ 41,136	\$ 36,127	\$ 5,009	13.9%

Table of Contents***ACMI Segment***

ACMI Direct Contribution decreased \$10.9 million, or 19.9%, primarily due to an increase in maintenance expense, partially offset by higher 747-8F revenue and increased CMI flying during the second quarter of 2014.

AMC Charter Segment

AMC Charter Direct Contribution increased \$3.0 million, or 23.4%, primarily due to an increase in the volume of passenger flying on higher-yielding 747-400 aircraft, partially offset by a decrease in cargo flying resulting from lower AMC demand.

Commercial Charter Segment

Commercial Charter Direct Contribution decreased \$3.6 million, or 144.2%, primarily due to a decrease in market rates and increases in maintenance and crewmember travel expenses. Partially offsetting these items was stronger demand in this segment. Our Commercial Charter quarterly results are subject to seasonal and other fluctuations, and the Direct Contribution for any quarter is not necessarily indicative of the results that may be expected for the entire year.

Dry Leasing Segment

Dry Leasing Direct Contribution increased \$6.3 million, primarily due to the addition of three 777-200LRF aircraft in early January 2014 and two 777-200LRF aircraft in July 2013 that are being leased to customers on a long-term basis.

Unallocated income and expenses, net

Unallocated income and expenses increased \$5.0 million, or 13.9%, primarily driven by an increase in ground staff costs due to key initiatives.

Six Months Ended June 30, 2014 and 2013**Operating Statistics**

The following discussion should be read in conjunction with our Financial Statements and notes thereto and other financial information appearing and referred to elsewhere in this report.

The table below sets forth selected Operating Statistics for the six months ended June 30:

	2014	2013	Increase / (Decrease)	Percent Change
Block Hours

** Out-of-service aircraft are completely unencumbered.

Operating Revenue

The following table compares our Operating Revenue for the six months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Operating Revenue				
ACMI	\$ 384,861	\$ 363,127	\$ 21,734	6.0%
AMC Charter	154,155	192,172	(38,017)	(19.8)%
Commercial Charter	248,452	208,883	39,569	18.9%
Dry Leasing	50,200	9,970	40,230	NM
Other	6,864	6,757	107	1.6%
Total Operating Revenue	\$ 844,532	\$ 780,909	\$ 63,623	8.1%

ACMI revenue increased \$21.7 million, or 6.0%, primarily due to increased 747-8F and CMI flying. ACMI Revenue per Block Hour was \$6,913 for the first half of 2014, compared to \$6,431 in 2013, an increase of \$482 per Block Hour, or 7.5%. The increase in Revenue per Block Hour was primarily driven by the impact of higher rates on an increased number of 747-8F aircraft, partially offset by lower rates on certain CMI flying. ACMI Block Hours were 55,675 for the first half of 2014, compared to 56,461 in 2013, a decrease of 786 Block Hours, or 1.4%. The decrease in Block Hours was primarily driven by the return of three 747-8F aircraft from British Airways in April and early May of 2014, partially offset by the placement of two additional 747-8F aircraft with DHL in May 2014, the start-up of ACMI 747-8F flying for BST Logistics in February 2014 and Etihad in May 2013, and the start-up of ACMI 747-400 flying for Astral Aviation in September 2013 and Chapman Freeborn in April 2013. Block Hours were also impacted by an increase in CMI flying for Boeing and the start-up of CMI 767-200 passenger aircraft flying for MLW Air during the third quarter of 2013.

Table of Contents

AMC Charter revenue decreased \$38.0 million, or 19.8%, primarily driven by a reduction in both AMC Charter Cargo Block Hours and Revenue per Block Hour, partially offset by an increase in AMC Passenger Block Hours. AMC Charter Block Hours were 7,300 for the first half of 2014 compared to 9,000 in 2013, a decrease of 1,700 Block Hours, or 18.9%. The decrease in AMC Charter Block Hours was driven by reduced cargo demand from the AMC, partially offset by incremental flying as former competitors exited the AMC Charter market. AMC Charter Revenue per Block Hour was \$21,117 for the first half of 2014 compared to \$21,352 in 2013, a decrease of \$235 per Block Hour, or 1.1%, primarily due to a decrease in the average pegged fuel price, partially offset by an increase in the volume of passenger flying on higher-yielding 747-400 aircraft. For the first half of 2014, the AMC average pegged fuel price was \$3.34 per gallon compared to \$3.63 in 2013. The pegged fuel price is set by the AMC and the impact to revenue from changes in the pegged fuel price is generally offset by a corresponding impact to fuel expense.

Commercial Charter revenue increased \$39.6 million, or 18.9%, primarily due to an increase in both Block Hours and Revenue per Block Hour. Commercial Charter Block Hours were 12,373 in the first half of 2014, compared to 11,050 in 2013, representing an increase of 1,323 Block Hours, or 12.0%. The increase in Block Hours was primarily due to increased demand during the first half of 2014. Revenue per Block Hour was \$20,080 for the first half of 2014, compared to \$18,903 in 2013, an increase of \$1,177 per Block Hour, or 6.2%. This increase reflects the impact of incremental cargo revenue on subcontracted Commercial Charter flights with no associated Block Hours, partially offset by lower market rates.

Dry Leasing revenue increased \$40.2 million, primarily due to the acquisition of three 777-200LRF aircraft in early January 2014, two 777-200LRF aircraft in July 2013 and one 777-200LRF aircraft in March 2013 that are being leased to customers on a long-term basis.

Operating Expenses

The following table compares our Operating Expenses for the six months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Operating Expenses				
Aircraft fuel	\$ 185,586	\$ 196,101	\$ (10,515)	(5.4)%
Salaries, wages and benefits	150,803	145,049	5,754	4.0%
Maintenance, materials and repairs	109,432	101,846	7,586	7.4%
Aircraft rent	70,236	78,348	(8,112)	(10.4)%
Depreciation and amortization	58,536	38,179	20,357	53.3%
Navigation fees, landing fees and other rent	58,032	34,072	23,960	70.3%
Passenger and ground handling services	41,230	34,370	6,860	20.0%
Travel	36,056	28,950	7,106	24.5%
Loss (gain) on disposal of aircraft	14,679	(422)	(15,101)	NM
Special charge	9,477		9,477	NM
Other	55,678	53,358	2,320	4.3%
Total Operating Expenses	\$ 789,745	\$ 709,851		

Aircraft fuel decreased \$10.5 million, or 5.4%, primarily due to reduced AMC Charter fuel consumption and fuel price, partially offset by increases in Commercial Charter fuel consumption. AMC fuel consumption decreased by

5.2 million gallons, or 23.2%, primarily reflecting the decrease in Block Hours operated. The average fuel price per gallon for the AMC Charter business was \$3.34 for the first half of 2014, compared to \$3.63 in 2013, a decrease of 8.0%. Commercial Charter fuel consumption increased by 4.3 million gallons, or 11.9%, primarily driven by the increase in Block Hours operated. The average fuel price per gallon for the Commercial Charter business was unchanged. We do not incur fuel expense in our ACMI or Dry Leasing businesses as the cost of fuel is borne by the customer.

Salaries, wages and benefits increased \$5.8 million, or 4.0%, primarily driven by an increase in ground staff costs due to key initiatives.

Table of Contents

Maintenance, materials and repairs increased \$7.6 million, or 7.4%, primarily driven by an increase of \$8.5 million for 747-8F and 747-400 aircraft, partially offset by a decrease of \$2.0 million for 767 aircraft. Heavy Maintenance expense on 747-8F increased \$4.0 million primarily due to an increase in the number of C Checks in 2014 and other maintenance activities. Heavy maintenance on 747-400 aircraft was unchanged as the increase in the number of 747-400 D Checks were offset by a reduction in the number of engine overhauls, resulting from our engine acquisition program, and C Checks. Heavy Maintenance expense on 767 aircraft decreased approximately \$1.9 million primarily due to a decrease in the number of C Checks in 2014. Non-heavy Maintenance expense on 747-400 aircraft increased \$1.1 million due to the timing of maintenance activities. Line Maintenance expense on 747-400 aircraft and 747-8F aircraft increased \$3.4 million primarily due to more repairs to rotatable parts in 2014. Heavy airframe maintenance events and engine overhauls for the six months ended June 30 were:

Heavy Maintenance Events	2014	2013	Increase / (Decrease)
747-400 C Checks	8	10	(2)
747-8 C Checks	2		2
747-400 D Checks	5	1	4
767 C Checks	1	3	(2)
CF6-80 engine overhauls	7	11	(4)

Aircraft rent decreased \$8.1 million, or 10.4%, primarily due to the early termination of operating leases for two 747-400BCFs that we permanently parked in December 2013.

Depreciation and amortization increased \$20.4, or 53.3%, due to additional aircraft operating in the first half of 2014.

Navigation fees, landing fees and other rent increased \$24.0 million, or 70.3%, primarily due to an increase in purchased capacity from subcontracting certain Commercial Charter flights. We reclassified purchased capacity from Aircraft rent to Navigation fees, landing fees and other rent and we reclassified previously reported amounts to conform to the current period's presentation.

Passenger and ground handling services increased \$6.9 million, or 20.0%, primarily due to higher rates for ground handling from Commercial Charter flying to higher cost locations.

Travel increased \$7.1 million, or 24.5%, primarily due to higher rates and increased travel related to positioning crewmembers for customer schedule and route changes.

Special charge in 2014 represents a \$5.2 million reserve related to a GSS receivable for a loan made to its 51% U.K. shareholder, a \$3.9 million expense recorded for termination benefits for certain GSS employees and a \$0.4 million adjustment to the early termination of operating leases for two 747-400BCF aircraft that we permanently parked in December 2013 (see Note 4 to our Financial Statements).

Loss on disposal of aircraft in 2014 resulted from the trade-in of used spare engines for new engines as part of our engine acquisition program.

Non-operating Expenses (Income)

The following table compares our Non-operating Expenses (Income) for the six months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Non-operating Expenses (Income)				
Interest income	\$ (9,446)	\$ (10,154)	\$ (708)	(7.0)%
Interest expense	52,817	39,117	13,700	35.0%
Capitalized interest	(379)	(1,694)	(1,315)	(77.6)%
Loss on early extinguishment of debt		994	(994)	NM
Other expense (income), net	64	1,656	(1,592)	NM

Interest expense increased \$13.7 million, or 35.0%, primarily due to an increase in our average debt balances related to the financing of aircraft purchases in 2013 and early 2014.

Capitalized interest decreased \$1.3 million, or 77.6%, resulting from 747-8F aircraft that entered service in 2013.

Table of Contents

Income taxes. Our effective income tax rates were a benefit of 181.4% for the six months ended June 30, 2014 and an expense of 0.2% for the six months ended June 30, 2013. The effective rate for the six months ended June 30, 2014 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$24.0 million related to ETI from offshore leasing of certain of our aircraft, losses associated with GSS for which we have recognized a limited tax benefit and our assertion beginning in 2013, to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S. The effective rate for the six months ended June 30, 2013 differed from the U.S. federal statutory rate primarily due to an income tax benefit of \$14.2 million related to ETI from offshore leasing of certain of our aircraft and our assertion to indefinitely reinvest the net earnings of certain foreign subsidiaries outside the U.S.

Segments

The following table compares the Direct Contribution for our reportable segments (see Note 9 to our Financial Statements for the reconciliation to Operating income) for the six months ended June 30 (in thousands):

	2014	2013	Increase / (Decrease)	Percent Change
Direct Contribution:				
ACMI	\$ 89,326	\$ 95,007	\$ (5,681)	(6.0)%
AMC Charter	25,088	25,395	(307)	(1.2)%
Commercial Charter	(18,301)	(11,164)	(7,137)	(63.9)%
Dry Leasing	16,909	3,613	13,296	NM
Total Direct Contribution	\$ 113,022	\$ 112,851	\$ 171	0.2%
Unallocated income and expenses, net	\$ 77,135	\$ 71,140	\$ 5,995	8.4%

ACMI Segment

ACMI Direct Contribution decreased \$5.7 million, or 6.0%, primarily due to an increase in maintenance expense and lower 747-400 flying by certain ACMI customers, partially offset by higher 747-8F revenue and increased CMI flying in 2014.

AMC Charter Segment

AMC Charter Direct Contribution was relatively unchanged as an increase in the volume of passenger flying on higher-yielding 747-400 aircraft was offset by a decrease in AMC Cargo Block Hours from lower AMC demand.

Commercial Charter Segment

Commercial Charter Direct Contribution decreased \$7.1 million, or 63.9%, primarily due to a decrease in market rates and increases in maintenance and crewmember travel expenses. Partially offsetting these items was stronger demand in this segment. Our Commercial Charter quarterly results are subject to seasonal and other fluctuations, and the Direct Contribution for any quarter is not necessarily indicative of the results that may be expected for the entire year.

Dry Leasing Segment

Dry Leasing Direct Contribution increased \$13.3 million, primarily due to the addition of three 777-200LRF aircraft in early January 2014, two 777-200LRF aircraft in July 2013, and one 777-200LRF aircraft in March 2013 that are being leased to customers on a long-term basis.

Unallocated income and expenses, net

Unallocated income and expenses, net increased \$6.0 million, or 8.4%, primarily driven by an increase in ground staff costs due to key initiatives.

Reconciliation of GAAP to non-GAAP Financial Measures

To supplement our Financial Statements presented in accordance with GAAP, we present certain non-GAAP financial measures to assist in the evaluation of our business performance. These non-GAAP measures include Adjusted Net Income Attributable to Common Stockholders and adjusted diluted earnings per share (Adjusted Diluted EPS), which exclude certain items that impact year-over-year comparisons of our results. These non-GAAP measures may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP.

Table of Contents

We use these non-GAAP financial measures in assessing the performance of our ongoing operations and in planning and forecasting future periods. We believe that these adjusted measures provide meaningful information to assist investors and analysts in understanding our business results and assessing our prospects for future performance.

The following is a reconciliation of Net Income Attributable to Common Stockholders and Diluted EPS to the corresponding non-GAAP measures (in thousands, except per share data):

	For the Three Months Ended		
	June 30, 2014	June 30, 2013	Percent Change
Net Income Attributable to Common Stockholders	\$ 29,593	\$ 20,060	47.5%
After-tax impact from:			
ETI tax benefit	(24,013)		
Loss (gain) on disposal of aircraft	9,389	(254)	
Special charge (a)	658		
Accrual for legal matters	300		
Loss on early extinguishment of debt (b)		633	
Adjusted Net Income Attributable to Common Stockholders	\$ 15,927	\$ 20,439	(22.1%)
Diluted EPS	\$ 1.17	\$ 0.78	50.0%
After-tax impact from:			
ETI tax benefit	(0.95)		
Loss (gain) on disposal of aircraft	0.37	(0.01)	
Special charge (a)	0.03		
Accrual for legal matters	0.01		
Loss on early extinguishment of debt (b)		0.02	
Adjusted Diluted EPS	\$ 0.63	\$ 0.79	(20.3%)

	For the Six Months Ended		
	June 30, 2014	June 30, 2013	Percent Change
Net Income Attributable to Common Stockholders	\$ 37,537	\$ 40,138	(6.5%)
After-tax impact from:			
ETI tax benefit	(24,013)	(14,160)	
Loss (gain) on disposal of aircraft	9,389	(269)	
Special charge (a)	4,041		
Accrual for legal matters	300		
Loss on early extinguishment of debt (b)		633	
Adjusted Net Income Attributable to Common Stockholders	\$ 27,254	\$ 26,342	3.5%

Diluted EPS	\$ 1.49	\$ 1.54	(3.2%)
After-tax impact from:			
ETI tax benefit	(0.95)	(0.54)	
Loss (gain) on disposal of aircraft	0.37	(0.01)	
Special charge (a)	0.16		
Accrual for legal matters	0.01		
Loss on early extinguishment of debt (b)		0.02	
Adjusted Diluted EPS	\$ 1.08	\$ 1.01	6.9%

- a) Included in Special charge in 2014 were GSS employee termination benefits, a GSS loan reserve and an adjustment to lease termination costs for two 747-400BCFs.
- b) Loss on early extinguishment of debt was related to the financing of 747-8F aircraft.

Table of Contents

Liquidity and Capital Resources

Significant liquidity events in the first half of 2014 were as follows:

Debt Transactions

In January 2014, we entered into six separate term loans in the aggregate amount of \$432.0 million to finance the purchase of three 777-200LRF aircraft that are Dry Leased to a customer on a long-term basis.

In January 2014, we refinanced a bridge loan with an Ex-Im Bank guaranteed note in the amount of \$140.6 million secured by a mortgage on a 747-8F aircraft.

Operating Activities. Net cash provided by operating activities for the first half of 2014 was \$107.1 million, compared to \$126.6 million for the first half of 2013. The decrease primarily reflects changes in the timing of working capital.

Investing Activities. Net cash used for investing activities was \$509.4 million for the first half of 2014, consisting primarily of \$494.1 million of purchase deposit and delivery payments for flight equipment, \$10.7 million of core capital expenditures, excluding flight equipment, and a \$6.7 million increase in restricted cash. Purchase deposit and delivery payments for flight equipment are primarily related to the purchase of three 777-200LRF cargo aircraft. All Capital expenditures for the first half of 2014 were funded through working capital, except for the aircraft financed as discussed above. Net cash used for investing activities was \$346.4 million for the first half of 2013, consisting primarily of \$342.6 million of purchase deposit and delivery payments for flight equipment, which included \$1.7 million of capitalized interest and \$19.5 million of capital expenditures, excluding flight equipment, partially offset by \$9.1 million of proceeds from insurance.

Financing Activities. Net cash provided by financing activities was \$356.9 million for the first half of 2014, which primarily reflected the proceeds from debt issuance of \$572.6 million and \$8.8 million of maintenance reserves received, partially offset by \$201.0 million of payments on debt obligations, \$17.1 million of debt issuance costs and \$4.4 million of treasury stock purchases. The proceeds from debt issuance and payments of debt obligations reflect the refinancing of the \$103.6 million bridge loan with the 2014 Ex-Im Guaranteed Note. Net cash provided by financing activities was \$165.8 million for the first half of 2013, which primarily reflected the proceeds from debt issuance of \$510.8 million, a \$13.5 million refund from an accelerated share repurchase and \$1.5 million of maintenance reserves received, partially offset by \$244.6 million of payments on debt obligations, \$73.3 million related to the purchase of treasury stock and \$29.5 million related to prepayments under accelerated share repurchase transactions. We reclassified maintenance reserves received from operating activities to financing activities and reclassified previously reported amounts to conform to the current period's presentation.

We consider Cash and cash equivalents, Short-term investments, Restricted cash and Net cash provided by operating activities to be sufficient to meet our debt and lease obligations and to fund any other capital outflows during the remainder of 2014. Core capital expenditures for the remainder of 2014 are expected to be approximately \$35.2 million, which excludes flight equipment and capitalized interest.

We may access external sources of capital from time to time depending on our cash requirements, assessments of current and anticipated market conditions, and the after-tax cost of capital. To that end, we filed a shelf registration statement with the SEC in 2012 that enables us to sell a yet to be determined amount of debt and/or equity securities over the subsequent three years, depending on market conditions, our capital needs and other factors. Our access to capital markets can be adversely impacted by prevailing economic conditions and by financial, business and other factors, some of which are beyond our control. Additionally, our borrowing costs are affected by market conditions

and may be adversely impacted by a tightening in credit markets.

We do not expect to pay any significant U.S. federal income tax until 2018 or later. Our business operations are subject to income tax in several foreign jurisdictions. We do not expect to pay cash income taxes in any foreign jurisdiction for at least several years. We currently do not intend to repatriate cash from certain foreign subsidiaries that is indefinitely reinvested outside the U.S. Any repatriation of cash from these subsidiaries or certain changes in U.S. tax laws could result in additional tax expense.

Table of Contents

Contractual Obligations and Debt Agreements

See Note 6 to our Financial Statements for a description of our new debt obligations: the 2014 Term Loans and the 2014 Ex-Im Guaranteed Note. See our 2013 Annual Report on Form 10-K for a tabular disclosure of our contractual obligations as of December 31, 2013 and a description of our debt obligations and amendments thereto.

Off-Balance Sheet Arrangements

There were no material changes in our off-balance sheet arrangements during the three months ended June 30, 2014.

Recent Accounting Pronouncements

See Note 2 to our Financial Statements for a discussion of recent accounting pronouncements.

Forward-Looking Statements

This Quarterly Report on Form 10-Q (this Report), as well as other reports, releases and written and oral communications issued or made from time to time by or on behalf of AAWW, contain statements that may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Those statements are based on management's beliefs, plans, expectations and assumptions, and on information currently available to management. Generally, the words will, may, should, expect, anticipate, intend, plan, continue, seek, project, estimate and similar expressions used in this Report that do not relate to historical facts are intended to identify forward-looking statements.

The forward-looking statements in this Report are not representations or guarantees of future performance and involve certain risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include, but are not limited to, those described in our Annual Report on Form 10-K for the year ended December 31, 2013. Many of such factors are beyond AAWW's control and are difficult to predict. As a result, AAWW's future actions, financial position, results of operations and the market price for shares of AAWW's common stock could differ materially from those expressed in any forward-looking statements. Readers are therefore cautioned not to place undue reliance on forward-looking statements. AAWW does not intend to publicly update any forward-looking statements that may be made from time to time by, or on behalf of, AAWW, whether as a result of new information, future events or otherwise, except as required by law.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For additional discussion of our exposure to market risk, refer to Part II, Item 7A Quantitative and Qualitative Disclosures About Market Risk included in our 2013 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of June 30, 2014. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed,

summarized and reported within the time periods specified in the SEC's rules and forms, and is accumulated and communicated to our management, including our CEO and CFO, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the three months ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
