2. BASIS OF PREPARATION

Going Concern Assumption

As at 30 September 2014, current liabilities of the Group exceeded current assets by approximately RMB203.0 billion (31 December 2013: approximately RMB243.0 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflows from operating activities;

Approximately RMB298.5 billion of revolving banking facilities and registered quota of commercial papers, promissory notes and corporate bonds of which approximately RMB182.4 billion was unutilised as at 30 September 2014; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history.

In addition, the Group believes that it has ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the unaudited condensed consolidated financial information of the Group for the nine months ended 30 September 2014 has been prepared on a going concern basis.
