Prospectus Supplement

(To Prospectus dated May 14, 2012)

\$540,000,000

E*TRADE Financial Corporation

5.375% Senior Notes due 2022

We are offering \$540 million aggregate principal amount of our 5.375% Senior Notes due 2022 (the Notes). We will pay interest on the Notes on May 15 and November 15 of each year, beginning May 15, 2015. The Notes will mature on November 15, 2022. We intend to use the net proceeds from this offering, together with our existing corporate cash, to redeem in full our 6³/₄% Senior Notes due 2016 and our 6% Senior Notes due 2017.

The Notes will be redeemable at our option in whole or in part at any time (1) before November 15, 2017, at a redemption price equal to 100% of their principal amount plus the applicable make-whole premium set forth in this prospectus supplement, and (2) on or after November 15, 2017 at the redemption prices set forth in this prospectus supplement, in each case, plus accrued and unpaid interest to, but excluding, the redemption date. In addition, prior to November 15, 2017, we may, on one or more occasions, apply funds equal to the proceeds from one or more equity offerings to redeem up to 35% of the Notes at a redemption price equal to 105.375%, plus accrued and unpaid interest to, but excluding, the redemption date. If a change of control as described in this prospectus supplement under the heading Description of the Notes Covenants Repurchase of Notes upon a Change of Control occurs, we may be required to offer to purchase the Notes from the holders. If we sell certain assets and do not reinvest the proceeds or repay certain indebtedness, we may be required to apply those proceeds to offer to purchase the Notes from the holders.

The Notes will be general unsecured senior obligations and rank equally with our unsecured senior indebtedness. The Notes will effectively rank junior to our secured indebtedness (including any debt incurred under our new senior secured revolving credit facility) to the extent of the collateral securing such indebtedness and all liabilities of our subsidiaries. The Notes will not be guaranteed by our subsidiaries. Our broker dealer and bank subsidiaries, which represent substantially all of our assets, are not subject to many of the restrictive covenants in the indenture governing the Notes. See Description of the Notes and Description of Other Indebtedness. The Notes will be issued only in registered form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

Investing in the Notes involves risks that are described in the Risk Factors section beginning on page S-11 of this prospectus supplement.

- (1) Corporate cash is the primary source of liquidity at the parent company. We define corporate cash as cash held at the parent company as well as cash held in certain subsidiaries that can distribute cash to the parent company without any regulatory approval. We believe corporate cash is a useful measure of the parent company's liquidity as it is the primary source of capital above and beyond the capital deployed in our regulated subsidiaries. Management believes that adjusting GAAP measures by excluding or including certain items is helpful to investors and analysts who may wish to use some or all of this information to analyze our current performance, prospects and valuation. Management uses non-GAAP information internally to evaluate our operating performance and in formulating our budget for future periods. - (1) Management believes that EBITDA and interest coverage are appropriate measures for evaluating our operating and liquidity performance. Management believes that adjusting GAAP measures by excluding or including certain items is helpful to investors and analysts who may wish to use some or all of this information to analyze our current performance, prospects and valuation. Management uses non-GAAP information internally to evaluate our operating performance and in formulating our budget for future periods.
- (2) EBITDA represents net income (loss) before taxes, depreciation and amortization and corporate interest expense. Management believes that EBITDA provides a useful additional measure of our performance by excluding certain non-cash charges and expenses that are not directly related to the performance of our business. The indenture governing the Notes uses a definition of Consolidated EBITDA in determining compliance with certain covenants, which reflects EBITDA taking into account certain additional adjustments to net income and other non-cash items. See Description of the Notes.
- (3) Interest coverage represents EBITDA divided by corporate interest expense. Management believes that by excluding the charges and expenses that are excluded from EBITDA, interest coverage provides a useful additional measure of our ability to continue to meet our interest obligations and our liquidity needs. The interest coverage ratio based on our most relevant GAAP metric, net income (loss) to its corporate interest expense, was 2.9 and 0.3 for the nine months ended September 30, 2014 and 2013, respectively, and 0.8, (0.6), 0.9, (0.2) and (4.6) for the years ended December 31, 2013, 2012, 2011, 2010 and 2009, respectively. The indenture governing the Notes uses a definition of Consolidated Fixed Charge Coverage Ratio in determining compliance with certain covenants. The Consolidated Fixed Charge Coverage Ratio is equal to Consolidated EBITDA (as defined in the indenture and discussed above) divided by Consolidated Fixed Charges (as defined in the indenture), which includes interest expense and certain dividends that may be paid on preferred stock. See Description of the Notes.

The Notes will rank equal in right of payment with all of our existing and future unsubordinated indebtedness, and will rank senior in right of payment to all of our existing and future subordinated indebtedness.</p> <p>The Notes will effectively rank junior to our secured indebtedness (including any amounts borrowed under the Senior Secured Revolving Credit Facility; see Description of Other Indebtedness Senior Secured Revolving Credit Facility) to the extent of the collateral securing such indebtedness.</p> <p>The Notes will not be guaranteed by any of our subsidiaries. Creditors of our subsidiaries, including trade creditors, customers, holders of debt guaranteed by these subsidiaries and preferred stockholders, if any, of our subsidiaries generally will have priority with respect to the assets and earnings of these subsidiaries over the claims of the holders of the Notes. The Notes, therefore, will be structurally subordinated to</p>

any such claims. Certain of our subsidiaries guarantee our 6³/₄% Senior Notes due 2016 (the 2016 Notes) and our 0% Class A Senior Convertible Debentures due 2019 and 0% Class B Senior Convertible Debentures due 2019 (collectively, the 2019 Convertible Debentures). As of September 30, 2014, the outstanding principal amount of guaranteed senior notes was \$477 million. As of September 30, 2014, our subsidiaries that do not guarantee our 2016 Notes or 2019 Convertible Debentures represented substantially all of our total consolidated assets and generated substantially all of our consolidated net revenues for the nine months ended September 30, 2014. See Description of Other Indebtedness Ranking, Security and Subsidiary Guarantees for more information.

We intend to redeem all outstanding 2016 Notes and 6% Senior Notes due 2017 (the 2017 Notes) with the net proceeds of this offering and existing corporate cash. See Use of Proceeds. The redemption of all outstanding 2016 Notes will reduce the amount of guaranteed notes by \$435 million to \$42 million.

As of September 30, 2014, the aggregate principal amount of consolidated indebtedness of the Company and our subsidiaries was \$7.1 billion. This amount includes \$1.8 billion aggregate principal amount of corporate debt. Also as of September 30, 2014, our subsidiaries had \$13.7 billion of indebtedness and other liabilities to which the Notes would have been structurally subordinated (including \$4.8 billion of secured indebtedness), excluding deposits, which were \$24.9 billion, and excluding the \$477 million aggregate principal amount of our 2016 Notes and 2019 Convertible Debentures, which are guaranteed by our guarantor subsidiaries.

On an as adjusted basis after giving effect to this offering and the application of the net proceeds therefrom as described under Use of Proceeds (assuming redemption of all outstanding 2016 Notes and 2017 Notes) as of September 30, 2014, we would have had approximately \$6.7 billion of consolidated indebtedness including \$1.4 billion aggregate principal amount of corporate debt, none of which would have been secured debt and \$42 million of which would have had the benefit of guarantees.

Covenants

The indenture governing the Notes will contain covenants that, among other things, limit our ability and/or the ability of our Restricted Subsidiaries and, in certain limited cases, Regulated Subsidiaries, among other things, to:

incur additional debt and issue Preferred Stock;

pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;

place limitations on distributions from Regulated Subsidiaries or Restricted Subsidiaries;

Table of Contents

issue or sell capital stock of Regulated Subsidiaries or Restricted Subsidiaries;

issue guarantees;

sell or exchange assets;

enter into transactions with shareholders and affiliates;

create liens;

engage in any business that is not a Related Business; and

effect mergers.

These covenants are subject to important exceptions and qualifications, which are described under the heading "Description of the Notes—Covenants." These exceptions and qualifications include, among other things, a variety of provisions that are intended to allow us to continue to conduct our trading and investing and balance sheet management operations in the ordinary course of business. Additionally, many of these covenants will no longer apply if we receive an investment grade rating and will not be reinstated even if our credit rating is subsequently downgraded.

Pursuant to the indenture, the following covenants apply to us and our Restricted Subsidiaries, but generally do not apply to our Regulated Subsidiaries:

limitation on indebtedness and issuances of Preferred Stock, which restricts our ability to incur additional indebtedness or to issue preferred stock;

limitation on restricted payments, which generally restricts our ability to declare certain dividends or distributions or to make certain investments;

limitation on dividends and other payment restrictions affecting Restricted Subsidiaries or Regulated Subsidiaries, which generally prohibits restrictions on the ability of certain of our subsidiaries to pay dividends or make other transfers;

limitation on the issuance and sale of capital stock of Restricted Subsidiaries or Regulated Subsidiaries, which restricts sales of capital stock of certain of our subsidiaries;

future Subsidiary Guarantees, which prohibits certain of our subsidiaries from guaranteeing our indebtedness or indebtedness of any Restricted Subsidiary unless the Notes are comparably guaranteed;

S-8

limitation on transactions with shareholders and affiliates, which generally requires transactions among our affiliated entities to be conducted on an arm's-length basis;

limitation on liens, which generally prohibits us or our Restricted Subsidiaries from granting liens unless the Notes are comparably secured; and

limitation on asset sales, which generally prohibits us and certain of our subsidiaries from selling assets or certain securities or property of significant subsidiaries.

Under certain circumstances, however, the covenants in this prospectus supplement under Limitation on Indebtedness and issuances of Preferred stock, Limitation on Restricted Payments, Limitation on Dividend and other payment restrictions affecting Restricted Subsidiaries or Regulated Subsidiaries, Limitation on the issuance and sale of Capital Stock of Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on transactions with Affiliates, and Limitation on Asset Sales may apply to our Regulated Subsidiaries, depending on the nature of the transaction in question, whether a Regulated Subsidiary is incurring any Indebtedness (as defined in the indenture) and a variety of other factors. In addition, the covenant under Limitation on lines of business, which generally prohibits us and certain of our subsidiaries from engaging in businesses unrelated to financial services, applies to us, our Restricted Subsidiaries and our Regulated Subsidiaries.

For purposes of these covenants, Regulated Subsidiaries generally include any of our subsidiaries that are regulated by foreign, federal or state banking regulators; subsidiaries of such entities the sole purpose of which is to issue trust preferred securities; registered broker-dealers; entities that conduct an insurance business and that are regulated by a state, federal or foreign insurance regulatory body; and any other subsidiary that is subject to minimum capital requirements or other similar material regulatory requirements by applicable authorities. Restricted Subsidiaries generally include any of our subsidiaries that are not Regulated Subsidiaries and that have not been designated by our board of directors as unrestricted.

As of September 30, 2014, Regulated Subsidiaries represented substantially all of our total assets and, for the nine months ended September 30, 2014, generated substantially all of our consolidated net revenues.

Change of Control

Upon the occurrence of a Change of Control, if the ratings on the Notes are decreased as a direct result of the Change of Control within 30 days of the Change of Control we will be required to make an offer to purchase all Notes at a price equal to 101% of their principal

amount, plus any accrued and unpaid interest to, but not including, the date of repurchase. See Description of the Notes Repurchase of Notes upon a Change of Control.

Absence of Public Market for the Notes

There is currently no established public trading market for the Notes. We do not intend to apply for a listing of the Notes on any securities exchange or an automated dealer quotation system. Accordingly, there can be no assurance as to the development or liquidity of any market for the Notes. The underwriters have advised us that they currently intend to make a market in the Notes. However, they are not obligated to do so, and may discontinue any market-making activities at any time without notice.

Use of Proceeds

We intend to use the net proceeds from this offering, along with existing corporate cash, to redeem all outstanding 2016 Notes and all outstanding 2017 Notes and to pay the associated redemption premiums, accrued interest and related fees and expenses. See Use of Proceeds.

Form

The Notes will be represented by one or more registered global securities registered in the name of Cede & Co., the nominee of the depository, The Depository Trust Company, or DTC. Beneficial interests in the Notes will be shown on, and transfers will be effected through, records maintained by DTC and its participants.

Risk Factors

You should carefully consider all of the information in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein. In particular, you should evaluate the information set forth under Cautionary Statement Concerning Forward-Looking Statements and Risk Factors in this prospectus supplement and under Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2013 before deciding whether to invest in the Notes. See Risk Factors beginning on page S-11 of this prospectus supplement for important information regarding us and an investment in the Notes.

RISK FACTORS

Unless the context otherwise requires, the terms we, our, us, the Company and E*TRADE appearing in Risk Factors refer to, for purposes of this prospectus supplement, E*TRADE Financial Corporation, the issuer of the Notes, and not to its subsidiaries.

Definitions for certain terms used under the heading Risks Relating to the Notes but not defined are found below in this prospectus supplement under Description of the Notes.

In considering whether to purchase the Notes, you should carefully consider all the information we have included or incorporated by reference in this prospectus supplement and the accompanying prospectus. In particular, you should carefully consider the risk factors described below, which are not exhaustive.

Risks Relating to the Notes

Our broker dealer and bank subsidiaries, which generate substantially all of our revenues and net income (if any) and own substantially all of our assets, are not subject to many of the restrictive covenants in the indenture governing the Notes.

Our broker dealer and bank subsidiaries, including E*TRADE Bank, E*TRADE Securities LLC and E*TRADE Clearing LLC, and certain other Regulated Subsidiaries (as defined in the base indenture, as supplemented by a supplemental indenture relating to the Notes (together, the indenture)) are generally not subject to many of the restrictive covenants in the indenture that place limitations on our actions, and where they are subject to covenants there are numerous exceptions and limitations. The indenture does not restrict our Regulated Subsidiaries from incurring secured or unsecured debt in certain circumstances, which would be structurally senior to the Notes. Our broker dealer, bank and other Regulated Subsidiaries are also not subject to the same restrictions relating to the sale of assets or making investments. The incurrence of debt, the sale of assets or the making of investments by our Regulated Subsidiaries may impair our ability to make payments on principal and interest on the Notes. As of September 30, 2014, our Regulated Subsidiaries represented substantially all of our total consolidated assets. In 2013 and the first nine months of 2014, our Regulated Subsidiaries generated substantially all of our consolidated net revenues. Our Regulated Subsidiaries have not guaranteed our 2016 Notes, 2017 Notes, 6³/₈% Senior Notes due 2019 (the 2019 Notes) or 2019 Convertible Debentures.

We and our Regulated Subsidiaries are subject to regulation by U.S. federal and state regulatory agencies and securities exchanges and by various non-U.S. governmental agencies or regulatory bodies, securities exchanges and central banks, each of which has been charged with the protection of the financial markets and seek to protect the interests of our broker dealer and bank clients. Specifically, E*TRADE Financial Corporation and ETB Holdings, Inc., as savings and loan holding companies, and E*TRADE Bank and E*TRADE Savings Bank, as federally chartered savings banks, are subject to extensive regulation, supervision and examination by the OCC and the Federal Reserve (including pursuant to the terms of the memoranda of understanding that E*TRADE Financial Corporation entered into with the Federal Reserve and that E*TRADE Bank entered into with the OCC) and, in the case of the savings banks, also the FDIC. Such regulation covers all banking business, including lending practices, safeguarding deposits, capital structure, recordkeeping, transactions with affiliates and conduct and qualifications of personnel. Such regulations may not serve, and you should not rely on them, to protect your interests as a holder of the Notes. Depending on these circumstances, these regulations may prevent our broker dealer or bank subsidiaries from paying dividends or other distributions to us without which we cannot make payments of interest or principal on the Notes.

Table of Contents

The Notes will not be secured and will be subject to prior claims of our secured creditors. Any future collateral securing the Notes may not provide you with meaningful protection. If a default occurs, we may not have sufficient funds to fulfill our obligations under the Notes.

The Notes will not be secured by any of our assets and will be effectively junior in right of payment to the extent of the realizable value of any collateral pledged with respect to any secured indebtedness, including any debt we incur under the Senior Secured Revolving Credit Facility. As of September 30, 2014, the parent company had no secured indebtedness outstanding and our subsidiaries had \$4.8 billion of secured indebtedness outstanding. The indenture permits us and our subsidiaries to incur additional secured debt under specified circumstances. Our assets and the assets of our subsidiaries will be subject to prior claims by our secured creditors. In the event of our bankruptcy, liquidation, reorganization, dissolution or other winding up, assets that secure debt will be available to pay obligations on the Notes only after all debt secured by those assets has been repaid in full. Holders of the Notes will participate in our remaining assets ratably with all of our unsecured creditors, including trade creditors. If we incur any additional obligations that rank equally with the Notes, including trade payables, the holders of those obligations will be entitled to share ratably with you in any proceeds distributed upon our bankruptcy, liquidation, reorganization, dissolution or other winding up. This may have the effect of reducing the amount of proceeds paid to you. If there are not sufficient assets remaining to pay all these creditors, then all or a portion of the Notes then outstanding would remain unpaid.

We depend almost entirely on the cash flow from our subsidiaries to meet our obligations. The Notes are not guaranteed by any of our subsidiaries, which means that your right to receive payment on the Notes will be structurally subordinated to the obligations of our subsidiaries, certain of which do guarantee some of our other indebtedness.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due pursuant to the Notes or to provide us with funds for our payment obligations. Our cash flow and our ability to service our debt, including the Notes, may depend in part on the earnings of our subsidiaries and on the distribution of earnings, loans or other payments to us by our subsidiaries. In addition, the ability of our subsidiaries to make any dividend, distribution, loan or other payment to us is subject to statutory or contractual restrictions; please see Our broker dealer and bank subsidiaries, which generate substantially all of our revenues and net income (if any) and own substantially all of our assets, are not subject to many of the restrictive covenants in the indenture governing the Notes. Payments to us by our subsidiaries will also be contingent upon their earnings and their business considerations. Because we depend in part on the cash flow of our subsidiaries to meet our obligations, these types of restrictions may impair our ability to make principal payments on the Notes.

Furthermore, certain of our subsidiaries guarantee our 2016 Notes and 2019 Convertible Debentures. No guarantees will be provided to the holders of the Notes. As discussed below under Use of Proceeds, upon the closing of the offering of the Notes, we intend to issue a notice of redemption for all outstanding 2016 Notes. Even after accounting for the redemption of all of the outstanding 2016 Notes, the 2019 Convertible Debentures will remain outstanding after such redemption and will continue to be guaranteed by certain of our subsidiaries. As of September 30, 2014, our subsidiaries that do not guarantee our 2016 Notes or 2019 Convertible Debentures represented substantially all of our total consolidated assets and generated substantially all of our consolidated net revenues for the nine months ended September 30, 2014. The holders of the 2016 Notes and 2019 Convertible Debentures have a direct claim against the assets of the guarantor subsidiaries, but the holders of the Notes will have no such claim.

In the event of any bankruptcy, liquidation or reorganization of a subsidiary, you will not have any claim as a creditor against that subsidiary. As a result, all indebtedness and other liabilities, including trade payables, of our subsidiaries, whether secured or unsecured, including any payment obligations under guarantees of our 2016 Notes and 2019 Convertible Debentures by our guarantor subsidiaries, must be satisfied before any of the assets of those subsidiaries would be available for distribution, upon a liquidation or otherwise, to us in order for us to meet our obligations with respect to the Notes. As of September 30, 2014 our subsidiaries had indebtedness and other

Table of Contents

liabilities of \$13.7 billion, excluding deposits, which were \$24.9 billion, and excluding the \$477 million aggregate principal amount of our 2016 Notes and 2019 Convertible Debentures, which are guaranteed by our guarantor subsidiaries. On an as adjusted basis after giving effect to this offering and the application of the net proceeds therefrom as described under Use of Proceeds (assuming redemption of all outstanding 2016 Notes and 2017 Notes), as of September 30, 2014, the aggregate principal amount of our indebtedness guaranteed by our guarantor subsidiaries would have been \$42 million, all of which would relate to the 2019 Convertible Debentures.

Federal and state statutes allow courts, under specific circumstances, to void the Notes.

Under the federal bankruptcy laws and comparable provisions of state fraudulent transfer laws, the Notes could be voided, or claims in respect of the Notes could be subordinated to all of our other debts if, among other things, we, at the time we incurred the indebtedness evidenced by the Notes:

we were insolvent or rendered insolvent by reason of such indebtedness;

we were engaged in a business or transaction for which our remaining assets constituted unreasonably small capital;

intended to incur, or believed that we would incur, debts beyond our ability to pay such debts as they mature.

In addition, any payment by us pursuant to the Notes could be voided and required to be returned to us, or to a fund for the benefit of our creditors. The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, we would be considered insolvent if:

the sum of our debts, including contingent liabilities, were greater than the fair saleable value of all of our assets;

if the present fair saleable value of our assets were less than the amount that would be required to pay our probable liability on existing debts, including contingent liabilities, as they become absolute and mature; or

we could not pay our debts as they become due.

Although we believe that we are not insolvent, do not have unreasonably small capital for the business in which we are engaged and have not incurred debts beyond our ability to pay such debts as they mature, there can be no assurance as to what standard a court would apply in making such determinations or that a court would agree with our conclusions in this regard.

Our substantial level of indebtedness could adversely affect our ability to react to changes in our business, and we may be limited in our ability to use debt to fund future capital needs.

We have a substantial amount of indebtedness. As of September 30, 2014, the total aggregate principal amount of our corporate debt was \$1.8 billion. After giving effect to this offering and the application of the net proceeds therefrom (assuming redemption of all outstanding 2016 Notes and 2017 Notes) as described under Use of Proceeds, the total aggregate principal amount of our corporate debt as of September 30, 2014 would have been \$1.4 billion. Our substantial indebtedness could have important consequences for you by adversely affecting our financial condition and thus making it more difficult for us to satisfy our obligations with respect to the Notes. Our substantial indebtedness could:

require us to dedicate a substantial portion of our cash flow from operations to payments in respect of our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures and other general corporate expenditures;

increase our vulnerability to adverse general economic or industry conditions;

S-13

Table of Contents

limit our flexibility in planning for, or reacting to, competition and/or changes in our business or our industry;

limit our ability to borrow additional funds;

restrict us from making strategic acquisitions, introducing new products or services, making capital expenditures or exploiting business opportunities;

make it more difficult for us to satisfy our obligations with respect to the Notes; and

place us at a competitive disadvantage relative to competitors that have less debt or greater financial resources.

We cannot guarantee that we will be able to generate enough cash flow from operations or that we will be able to obtain enough capital to service our debt, pay our obligations under the Notes or fund our planned capital expenditures. In addition, we may need to refinance some or all of our indebtedness on or before maturity. We cannot guarantee that we will be able to refinance our indebtedness on commercially reasonable terms or at all. We have the ability under our debt instruments, including the indenture governing the Notes, to incur substantial additional indebtedness, and any additional indebtedness we incur could exacerbate the risks described above.

We may not have sufficient funds to repurchase the Notes or any of our other securities upon a change of control.

Upon the occurrence of a change of control (which for the 2019 Convertible Debentures includes a termination of trading of our common stock, giving effect to all applicable grace and cure periods), we must offer to purchase all 2019 Convertible Debentures then outstanding, at a purchase price equal to 101% of their principal amount, plus accrued interest (if any) to the payment date. In addition, we will be required to offer to purchase the outstanding Notes, 2016 Notes and 2017 Notes (both of which we expect to redeem following this offering see Use of Proceeds), 2019 Notes and 2019 Convertible Debentures upon the occurrence of a change of control if a rating decline of the Notes, 2016 Notes, 2017 Notes, 2019 Notes or 2019 Convertible Debentures, as applicable, occurs directly as a result of a change of control and such decline occurs within a specified period of time after public notice of a change of control or the intention to effect a change of control. See Description of the Notes Repurchase of Notes upon a Change of Control and Description of Other Indebtedness for a more complete description of these repurchase obligations.

There can be no assurance that we will have sufficient funds available at the time of any change of control to repurchase the Notes or any of our other securities that might be outstanding at the time that may contain a similar requirement to be repurchased upon certain change of control events. The covenant requiring us to repurchase the Notes will, unless consents are obtained, require us to repay all indebtedness outstanding which by its terms would prohibit such note repurchase, either prior to or concurrently with such note repurchase, and may cause a cross-default under our current or future debt. Our ability to repurchase the Notes in cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time. Our failure to repurchase the Notes when required would result in an event of default with respect to the Notes. Our inability to pay for your Notes that are tendered for repurchase could result in your receiving substantially less than the principal amount of the Notes.

The Notes are a new issue of securities, and the trading market for the Notes may be limited.

The Notes are not currently, and in the future will not be, listed on any securities exchange or included in any automated quotation system. We cannot assure you that a liquid market will develop for the Notes, that you will be able to sell your Notes at a particular time or that the prices that you receive when you sell your Notes will be favorable. To the extent the Notes are traded, they may trade at a discount from their initial issue

Table of Contents

price or principal amount, depending upon many factors, including prevailing interest rates, the market for similar securities and other factors, including general economic conditions and our financial condition, performance and prospects. Any decline in trading prices, regardless of the cause, may adversely affect the liquidity and trading markets for these Notes. In addition, the condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market price of the notes.

Even if a trading market for the Notes does develop, you may not be able to sell your Notes at a particular time, if at all, or you may not be able to obtain the price you desire for your Notes. The liquidity of any market for the Notes will depend on a number of factors, including:

the number of holders of Notes;

our operating performance and financial condition;

our perceived business prospects;

our credit rating;

the market for similar securities;

the interest of securities dealers in making a market in the Notes; and

general economic conditions, including prevailing interest rates.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of these securities. We cannot assure you that the market for the Notes will be free from similar disruptions. Any such disruptions could have an adverse effect on holders of the Notes.

Certain restrictive covenants in the indenture governing the Notes will no longer be in effect if we achieve an investment grade rating from Moody's or S&P.

Most of the restrictive covenants in the indenture governing the Notes will no longer be in effect if we achieve an investment grade rating from either Moody's Investors Service, Inc. or Standard & Poor's Ratings Group. The terminated covenants will not be reinstated regardless of whether our credit rating is subsequently downgraded from investment grade status. If these restrictive covenants cease to apply, we may take actions, such as incurring additional debt, undergoing a change of control transaction or making certain dividends or distributions that would otherwise be prohibited under the indenture. Ratings are given by these rating agencies based upon analyses that include many subjective factors. We cannot assure you that we will achieve an investment grade rating, nor can we assure you that an investment grade rating, if granted, will reflect all of the factors that would be important to holders of the Notes.

The Notes may not be rated or may receive a lower rating than anticipated.

We do not intend to seek a rating on the Notes. However, if one or more rating agencies rates the Notes and assigns such Notes a rating lower than the rating expected by investors, or reduces their rating in the future, the market price of such Notes could be harmed.

Risks Relating to the Nature and Operation of Our Business

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

We operate in a rapidly changing economic, financial and regulatory environment that presents numerous risks, many of which are driven by factors that we cannot control or predict. The risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2013, which are incorporated by reference into this prospectus supplement, highlight some of these risks. You should read our Annual Report on Form 10-K, including the section entitled Risk Factors, as well as the other documents incorporated herein by reference.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the Notes will be approximately \$533 million after deducting the underwriters' discounts and commissions and expenses payable by us. We intend to use all of the net proceeds from this offering, along with existing corporate cash, to redeem the \$435 million outstanding principal amount, as of September 30, 2014, of our outstanding 2016 Notes and the \$505 million outstanding principal amount, as of September 30, 2014, of our outstanding 2017 Notes, and to pay the associated redemption premiums, accrued and unpaid interest and related fees and expenses as promptly as practicable following the completion of this offering, except that the redemption payment for the 2017 Notes will not include the regular interest due on the 2017 Notes which will be paid separately to holders of such Notes. Pending our use of our net proceeds from this offering, we intend to invest the net proceeds in a variety of capital preservation investments, including short-term, investment-grade, interest-bearing instruments and U.S. government securities. Our 2016 Notes are senior notes which bear interest at $6\frac{3}{4}\%$ per annum and mature June 1, 2016. Our 2017 Notes are senior notes which bear interest at 6% per annum and mature November 15, 2017. This prospectus supplement shall not constitute a notice of redemption with respect to the 2016 Notes or 2017 Notes.

Certain of the underwriters and their affiliates hold our 2016 Notes and our 2017 Notes and, accordingly, may receive a portion of the net proceeds of the offering in connection with the redemption or repayment of those Notes.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our consolidated ratio of earnings to fixed charges:

	Nine Months Ended September 30,			Year Ended December 31,			
	2014	2013	2013	2012	2011	2010	2009
Ratio of earnings (loss) to fixed charges	2.52	1.31	1.53	0.72	1.38	1.00	(1.12)
Excess (deficiency) of earnings (loss) to fixed charges (in millions)	\$ 378	\$ 84	\$ 191	\$ (132)	\$ 187	\$ (2)	\$ (1,827)

The ratio of earnings (loss) to fixed charges is computed by dividing fixed charges into income (loss) before income taxes, discontinued operations and the cumulative effect of accounting changes less equity in the income (loss) of investments plus fixed charges less the preference securities dividend requirement of consolidated subsidiaries. Fixed charges include, as applicable, interest expense, amortization of debt issuance costs, the estimated interest component of rent expense (calculated as one-third of net rent expense) and the preference securities dividend requirement of consolidated subsidiaries.

The indenture governing the Notes uses a definition of Consolidated Fixed Charge Coverage Ratio in determining compliance with certain covenants. The Consolidated Fixed Charge Coverage Ratio is equal to Consolidated EBITDA (as defined in the indenture), which reflects EBITDA taking into account certain additional adjustments to net income and other non-cash items, divided by Consolidated Fixed Charges (as defined in the indenture), which includes interest expense and certain dividends that may be paid on preferred stock. See Description of the Notes.

Table of Contents**CAPITALIZATION**

The following table sets forth, as of September 30, 2014, our cash and equivalents and capitalization on an actual basis and as adjusted to give effect (i) to this offering, (ii) the application of the net proceeds of this offering, after deducting the underwriters' discounts and commissions and expenses payable by us, as well as existing corporate cash, to redeem the 2016 Notes and 2017 Notes as described under "Use of Proceeds," and (iii) the receipt of the sales proceeds of a \$56 million sale-leaseback transaction completed on October 31, 2014 (the "Sale-Leaseback Transaction"). - (1) Cash and equivalents include all such assets held by us and our subsidiaries, including Regulated Subsidiaries, which must get regulatory approval to pay dividends to the parent level. Corporate cash represents cash held at the parent company as well as cash held in certain subsidiaries that can distribute cash to the parent company without any regulatory approval. We believe that corporate cash is an indicator of the liquidity at the parent company. As of September 30, 2014, corporate cash was \$610 million; see page S-5 of this prospectus supplement for a reconciliation of this non-GAAP measure to the comparable GAAP measure. After giving effect to this offering, the redemption of the 2016 Notes and 2017 Notes, the Sale-Leaseback Transaction and a \$75 million dividend paid by E*TRADE Bank to the parent company in November 2014, corporate cash would have been \$265 million as of such date.
- (2) Reflects the receipt of sales proceeds of \$56 million from the Sale-Leaseback Transaction on our office located in Alpharetta, Georgia completed on October 31, 2014. The Company recorded the sales proceeds as a financing obligation, and the related assets continue to be included in the property and equipment, net, line item on the consolidated balance sheet. See Part I Item 1. Consolidated Financial Statements (Unaudited) Note 15 Subsequent Event in our Quarterly Report filed on Form 10-Q for the quarter ended September 30, 2014.
- (3) Only the debt of E*TRADE Financial Corporation (and not any of its subsidiaries) is included in this table. As of September 30, 2014, the aggregate principal amount of consolidated indebtedness of the Company and our subsidiaries was \$7.1 billion, including the corporate debt shown in the table above. Also as of September 30, 2014, our subsidiaries had \$13.7 billion of indebtedness and other liabilities to which the Notes would have been structurally subordinated (including \$4.8 billion of secured indebtedness), excluding deposits, which were \$24.9 billion, and excluding the \$477 million aggregate principal amount of our 2016 Notes and 2019 Convertible Debentures, which are guaranteed by our guarantor subsidiaries.

- (4) Reflects the principal amounts of the 2016 Notes, 2017 Notes, 2019 Notes, 2019 Convertible Debentures and the Notes and excludes the actual and as adjusted unamortized discounts of \$11 million and \$12 million, respectively.

DESCRIPTION OF OTHER INDEBTEDNESS

Overview

As of September 30, 2014, we had outstanding corporate debt in an aggregate principal amount of \$1.8 billion, which includes the 2016 Notes, 2017 Notes, 2019 Notes and 2019 Convertible Debentures (collectively, our existing debt securities). A brief description of each series of existing debt securities and our Senior Secured Revolving Credit Facility is set forth below. These descriptions are incomplete. For a complete understanding of such existing debt securities, we urge you to read the applicable indentures governing the debt securities, which are included as exhibits to our Annual Report on Form 10-K for the year ended December 31, 2013. For the purposes of this Description of Other Indebtedness section, references to Company, we, us and our refer to E*TRADE Financial Corporation and its successors, in each case excluding its subsidiaries.

Senior Secured Revolving Credit Facility

On November 10, 2014, we entered into the \$200 million Senior Secured Revolving Credit Facility with the Lenders. JPMorgan Chase Bank, N.A. is acting as the administrative agent and collateral agent under the Senior Secured Revolving Credit Facility. Our ability to borrow under the Senior Secured Revolving Credit Facility is subject to certain conditions and there can be no assurance that we will be able to satisfy such conditions to borrowing. The offering of the Notes pursuant to this prospectus supplement is not conditioned upon the availability of the Senior Secured Revolving Credit Facility. The Senior Secured Revolving Credit Facility will be used for working capital and general corporate purposes which may include permitted acquisitions and investments.

The Senior Secured Revolving Credit Facility will mature on November 10, 2017; provided that (x) if prior to the date that is 91 days prior to the maturity date of the 2016 Notes (such 91st day, 2016 Springing Maturity Date), the 2016 Notes have not been repaid in full with cash (other than cash which represents the proceeds of indebtedness) or the proceeds of indebtedness with a maturity date at least 91 days after November 10, 2017, the maturity date shall be the 2016 Springing Maturity Date, and (y) if prior to the date that is 91 days prior to the maturity date of the 2017 Notes (such 91st day, the 2017 Springing Maturity Date), the 2017 Notes have not been repaid with cash (other than cash which represents the proceeds of indebtedness) or the proceeds of indebtedness with a maturity date at least 91 days after November 10, 2017, the maturity date shall be the 2017 Springing Maturity Date.

The obligations under the Senior Secured Revolving Credit Facility are secured by perfected first priority pledges of (i) all present and future shares of capital stock (or other ownership or profit interests) directly owned by us in our present and future domestic subsidiaries, with certain exceptions and (ii) certain indebtedness owed to us by our subsidiaries. Such collateral and the proceeds therefrom would be available to satisfy the obligations under the Senior Secured Revolving Credit Facility in full before being available to satisfy the obligations under the Notes.

The revolving loans under the Senior Secured Revolving Credit Facility will accrue interest at rates tied to our senior unsecured long-term debt ratings then in effect, plus either a base rate or LIBOR, at our option. Prepayments of revolving loans are permitted in whole or in part, with prior notice but without premium or penalty. We may request an increase in the aggregate amount of commitments under the Senior Secured Revolving Credit Facility in an aggregate amount not to exceed \$50 million. There can be no assurance we will request or receive such commitments.

The Senior Secured Revolving Credit Facility contains certain affirmative and negative covenants (subject to exceptions, materiality thresholds and baskets) including, without limitation, negative covenants that limit our and our subsidiaries ability to make dispositions of assets and changes of business, engage in mergers, acquisitions or consolidations, pay dividends or make other distributions, make stock repurchases and

redemptions of equity and other restricted payments, incur indebtedness, make loans and investments, issue stock of subsidiaries, grant liens on assets, engage in transactions with affiliates, amend documents governing material indebtedness in a manner that is materially adverse to the interests of the Lenders, change our fiscal year, make voluntary or optional payments on subordinated debt, amend organizational documents, enter into sale and leaseback transactions and enter into certain arrangements that restrict us or our subsidiaries.

The Senior Secured Revolving Credit Facility includes the following financial covenants which we are required to satisfy under the Senior Secured Revolving Credit Facility: (i) maximum total leverage ratio (the ratio of total consolidated debt for borrowed money of the parent company and its subsidiaries (excluding outstanding trust preferred securities) to consolidated EBITDA (which may be defined differently from the definition of EBITDA in the indenture governing the notes) of the parent and its subsidiaries of 4.00 to 1.00, (ii) minimum fixed charge coverage ratio (the ratio of consolidated EBITDA of the parent company and its subsidiaries to the corporate interest expense of the parent company and its subsidiaries) of 1.50 to 1.00, (iii) asset quality ratio (the ratio of non-performing assets and, without duplication real estate owned, and other repossessed assets of the parent company and its subsidiaries to total equity plus allowance for loan loss reserve of the parent company its subsidiaries (which shall be reduced by intangible equity or goodwill that is acquired after the closing date of the Senior Secured Revolving Credit Facility)) of no more than 20%, (iv) unrestricted cash held by the parent company of not less than \$100,000,000, (v) cause each of the following to be at least well capitalized under applicable regulatory capital requirements: (a) us and our subsidiaries, taken as a whole (consistent with the manner calculated by us in our most recent Quarterly Report filed on Form 10-Q), (b) us and our subsidiaries, taken as a whole (calculated in accordance with Basel III) and (c) each bank regulated subsidiary and (vi) not permit E*TRADE Clearing LLC's or E*TRADE Securities LLC's net capital to be less than the greater of (a) 5.0% of such company's aggregate debit items and (b) 150% of the minimum dollar amount specified in Rule 15c3-1(a)(ii) (which, for the avoidance of doubt is currently \$250,000). As used in this paragraph, the terms net capital and aggregate debit items are used as defined or used in Rule 15c3-1 under the Exchange Act.

Table of Contents

The holders of the 2019 Notes may convert all or any portion of the 2019 Convertible Debentures at any time prior to the close of business on the second scheduled trading day immediately preceding their maturity date, provided that no holder may convert the 2019 Convertible Debentures to the extent such conversion would result in the holder beneficially owning more than 9.9% of our outstanding common stock, or owning in excess of 24.9% of our outstanding common stock, under certain regulatory control rules. The conversion rate is subject to customary anti-dilution adjustments.

As of September 30, 2014, \$1.7 billion of the Class A 2019 Notes and \$2.3 million of the Class B 2019 Convertible Debentures had been converted into 164.2 million shares and 0.1 million shares, respectively, of our common stock, as adjusted for our 1-for-10 reverse stock split during the second quarter of 2010. Ranking, Security and Subsidiary Guarantees

Our existing debt securities are general senior obligations that rank equal in right of payment to all of our existing and future unsubordinated indebtedness and rank senior in right of payment to all of our existing and future subordinated indebtedness. The 2016 Notes and 2019 Convertible Debentures are also guaranteed by some of our subsidiaries, although they are not guaranteed by the subsidiaries through which we currently conduct substantially all of our operations. We intend to use a portion of the net proceeds from this offering, together with existing corporate cash, to redeem all outstanding 2016 Notes. See Use of Proceeds. The Notes will be structurally subordinated to our other senior notes to the extent of the guarantees described above.

Covenants

In the indentures for our existing debt securities, we have agreed to covenants that, among other things, limit our ability and/or our Restricted Subsidiaries and, in certain limited cases, Regulated Subsidiaries ability, among other things, to:

incur additional debt and issue Preferred Stock;

pay dividends, acquire shares of capital stock, make payments on subordinated debt or make investments;

place limitations on distributions from Regulated Subsidiaries or Restricted Subsidiaries;

issue or sell capital stock of certain of Regulated Subsidiaries or Restricted Subsidiaries;

issue guarantees;

sell or exchange assets;

enter into transactions with stockholders and affiliates;

enter into sale-leaseback transactions;

create liens;

engage in any business that is not a related business; and

effect mergers.

In addition, the indentures for the 2019 Convertible Debentures require us to maintain the capitalization of certain of our subsidiaries that constituted federally insured depository institutions.

Events of Default

The indentures for our existing debt securities define certain events of default, including the following:

default in the due payment of principal or interest;

failure by us to comply with the indenture provisions applicable to mergers, consolidations and transfers of all or substantially all of our assets;

defaults in the performance or breach of other covenants or agreements in the indentures or under a series of debt securities;

a cross-default with respect to any issue of indebtedness by us or certain subsidiaries having an outstanding principal amount of, in the case of the 2016 Notes and 2019 Convertible Debentures, \$20 million or more, and in the case of the 2017 Notes and 2019 Notes, \$50 million or more;

failure by us to pay any uninsured final judgment or order against us or certain subsidiaries in excess of, in the case of the 2016 Notes and 2019 Convertible Debentures, \$20 million, and in the case of the 2017 Notes and 2019 Notes, \$50 million;

certain events of bankruptcy or insolvency;

failure by certain subsidiaries to meet the minimum capital requirements imposed by the applicable regulatory authorities; and

certain other events relating to our ineligibility to hold capital stock of certain Regulated Subsidiaries and the failure to maintain registration and membership status of certain broker dealer subsidiaries under the Exchange Act.

An event of default generally gives the trustee or holders of at least 25% in aggregate principal amount of the applicable series of debt securities the right to accelerate payment of the principal and interest on such series of debt securities. Certain events of bankruptcy or insolvency result in automatic acceleration.

DESCRIPTION OF THE NOTES

The following description of the terms of the Notes offered hereby replaces the description of the general terms and provisions of the debt securities set forth in the accompanying prospectus under the caption "Description of Debt Securities."

We are issuing the Notes under a supplemental indenture to be dated on or about November 17, 2014 between us and The Bank of New York Mellon Trust Company, N.A., as trustee (the "trustee"), to an indenture dated November 14, 2012 between the us and the trustee, as amended by a first supplemental indenture dated November 14, 2012 between us and the trustee, and as may be further supplemented from time to time (collectively, the "indenture"), which will be filed with the SEC.

The following is a summary of certain of the material provisions of the indenture but does not restate the indenture in its entirety. We urge you to read the indenture because it, and not this description, defines your rights as Holders (as defined below) of the Notes. We will provide you with a copy of the indenture upon request. The terms of the Notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended. For purposes of this "Description of the Notes," the terms "Company," "we," "us" and "our" mean E*TRADE Financial Corporation and its successors under the indenture, in each case excluding its subsidiaries and the term "Holders" means the holders of the Notes.

Our broker dealer and bank regulated subsidiaries, which are Regulated Subsidiaries, are generally not subject to the restrictive covenants in the indenture which place limitations on the Company's actions, and where they are subject to covenants, there are numerous exceptions and limitations. As of September 30, 2014, Regulated Subsidiaries represented substantially all of our total consolidated assets and, for the nine months ended September 30, 2014, generated substantially all of our consolidated net revenues.

General

We are offering an aggregate principal amount of \$540 million of Notes pursuant to this prospectus supplement. Subject to the covenant described below under "Covenants - Limitation on Indebtedness and issuances of Preferred Stock," the Company may issue additional Notes (the "additional Notes") under the indenture. Any additional Notes will be treated as a single class with the Notes offered by this prospectus supplement for all purposes under the indenture, including voting. Unless otherwise specified, all references to "Notes" include any additional Notes.

Interest on the Notes will be paid in cash at a rate of 5.375% per annum and will be payable on May 15 and November 15 of each year, commencing on May 15, 2015, to the persons who were holders of record of the Notes on May 1 and November 1 of each year. Interest on the Notes will accrue from the most recent date on which interest on the Notes was paid or, if no interest has been paid, from and including the Issue Date. Interest will be computed on the basis of a 360-day year of twelve 30-day months.

The Notes will mature on November 15, 2022, unless earlier repurchased or redeemed.

The Notes will be issued in registered form, without coupons, and in denominations of \$2,000 or multiples of \$1,000 above that amount.

Optional Redemption

At any time prior to November 15, 2017, the Company may redeem all or a part of the Notes, at a redemption price equal to 100% of the principal amount of such Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, but excluding, the date of redemption, subject to the rights of record holders on the record date to receive interest due on the interest payment date.

Table of Contents

On and after November 15, 2017, the Company may redeem the Notes, in whole or in part at the redemption prices (as calculated by the Company, and expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest thereon, if any, to, but excluding, the date of such redemption, subject to the right of record holders on the record date to receive interest due on the interest payment date, if redeemed during the twelve-month period beginning on of each of the years indicated below:

Year	Percentage
2017	104.031%
2018	102.688%
2019	101.344%
2020 and thereafter	100.000%

In addition, prior to November 15, 2017, the Company may redeem, at a redemption price equal to 105.375% (such percentage equal, in each case, to 100% plus the interest rate per annum on such Notes) of the aggregate principal amount thereof, plus accrued and unpaid interest thereon, if any, to, but excluding, the date of such redemption, subject to the right of record holders to receive interest due on the interest payment date, up to 35% of the principal amount of the Notes, with the Net Cash Proceeds of one or more sales of its Capital Stock (other than Disqualified Stock); provided that at least 65% of the aggregate principal amount of the Notes originally issued on the Issue Date remains outstanding after each such redemption and notice of any such redemption is mailed or otherwise provided in accordance with the indenture within 90 days of each such sale of Capital Stock.

The Company will give not less than 10 days nor more than 90 days notice of any redemption. If less than all of the Notes are to be redeemed, selection of the Notes for redemption will be made by lot or in accordance with the procedures of the Depositary.

However, no Note of \$2,000 in principal amount or less shall be redeemed in part. If any Note is to be redeemed in part, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. A Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note; provided that the principal amount of any Note will be \$2,000 or a multiple of \$1,000 above that amount.

Notice of any redemption of Notes described herein, whether in connection with a sale of the Company's Capital Stock or otherwise, may be given prior to such redemption, and any such redemption or notice may, at the Company's discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related sale of the Company's Capital Stock. In addition, if such redemption is subject to satisfaction of one or more conditions precedent, such notice of redemption shall describe each such condition, and if applicable, shall state that, in the Company's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied (or waived by the Company in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied (or waived by the Company in its sole discretion) by the redemption date as stated in such notice, or by the redemption date as so delayed.

Ranking

The Notes will be our general senior obligations. The Notes will rank equal in right of payment with all of our existing and future unsubordinated indebtedness, and will rank senior in right of payment to all our existing and future subordinated indebtedness.

The Notes will effectively rank junior to our secured indebtedness (including without limitation debt incurred under the Credit Agreement; see Description of Other Indebtedness Senior Secured Revolving Credit Facility) to the extent of the collateral securing such indebtedness. As of the Issue Date, we expect no amount to be drawn under the Credit Agreement. The Notes will not be guaranteed by any of our subsidiaries. Creditors of

Table of Contents

our subsidiaries, including trade creditors, customers, holders of debt guaranteed by these subsidiaries and preferred stockholders, if any, of our subsidiaries generally will have priority with respect to the assets and earnings of these subsidiaries over the claims of the Holders of the Notes. The Notes, therefore, will be structurally subordinated to any such claims. Certain of our subsidiaries guarantee our 2016 Notes and 2019 Convertible Debentures. Debt incurred under the Credit Agreement is not guaranteed by any of our subsidiaries. As of September 30, 2014, our subsidiaries that do not guarantee our 2016 Notes and 2019 Convertible Debentures represented substantially all of our total consolidated assets and generated substantially all of our consolidated net revenues for the twelve months ended September 30, 2014.

We intend to redeem all outstanding 2016 Notes and 2017 Notes with the net proceeds of this offering. The redemption of all outstanding 2016 Notes would reduce the amount of guaranteed senior notes by \$435 million to an aggregate principal amount of \$42 million. As of September 30, 2014, the aggregate principal amount of consolidated indebtedness of the Company and our subsidiaries was \$7.1 billion. This amount includes \$1.8 billion aggregate principal amount of senior indebtedness. Also as of September 30, 2014, our subsidiaries had \$13.7 billion of indebtedness and other liabilities to which the notes would have been structurally subordinated (including \$4.8 billion of secured indebtedness) excluding deposits, which were \$24.9 billion, and excluding the \$477 million aggregate principal amount of our 2016 Notes and 2019 Convertible Debentures, which are guaranteed by our guarantor subsidiaries.

On an as adjusted basis after giving effect to this offering and the application of the net proceeds therefrom as described under *Use of Proceeds* (assuming redemption of all outstanding 2016 Notes and 2017 Notes) as of September 30, 2014, we would have had approximately \$6.7 billion of consolidated indebtedness including \$1.4 billion aggregate principal amount of corporate debt, none of which would have been secured debt and \$42 million of which would have had the benefit of guarantees.

Absence of FDIC Insurance and Guarantees

The Notes are not savings accounts or deposits with E*TRADE Bank or any other Subsidiary of the Company nor are they insured by the FDIC, Small Investor Protection Corporation or by the United States or any agency or fund of the United States or any other government entity. Except as described under *Covenants Future Subsidiary Guarantees*, the Notes are not obligations of, or guaranteed by any of our Subsidiaries. The Notes are not secured by our assets or those of any of our Subsidiaries.

Sinking Fund

There will be no sinking fund payments for the Notes.

Governing Law

The indenture and the Notes will be governed by, and construed in accordance with, the laws of the State of New York.

Pursuant to the indenture, the covenants under Limitation on Indebtedness and issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and other payment restrictions affecting Restricted Subsidiaries or Regulated Subsidiaries, Limitation on the issuance and sale of Capital Stock of Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on transactions with Affiliates, Limitation on Liens, Limitation on Asset Sales, apply to the Company and the Restricted Subsidiaries, but generally do not apply to Regulated Subsidiaries.

If a Change of Control occurs and triggers a Rating Decline, each Holder of Notes will have the right to require the Company to repurchase all or a part of the Holder's Notes at a price equal to 101% of their principal amount, plus any accrued interest to the date of repurchase.

Limitation on Indebtedness and issuances of Preferred Stock

(a) The Company will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness, including Disqualified Stock, and the Company will not permit any Restricted Subsidiary to issue Preferred Stock; provided that the Company or any Subsidiary Guarantor may Incur Indebtedness and any Restricted Subsidiary may Incur Acquired Indebtedness if, after giving effect to the Incurrence of such Indebtedness and the receipt and application of the proceeds therefrom, the Company's Consolidated Fixed Charge Coverage Ratio would be greater than 2.0:1.

Notwithstanding the foregoing, the Company and any Restricted Subsidiary (except as specified below) may Incur each and all of the following:

(1) Indebtedness of the Company under any Credit Facility in an aggregate principal amount at any one time outstanding (with letters of credit being deemed to have a principal amount equal to the maximum potential liability of the Company and its Restricted Subsidiaries thereunder) not to exceed the greater of (x) \$300.0 million and (y) an amount equal to the Secured Indebtedness Cap on the date on which such Indebtedness is to be incurred;

- (5) Liens to secure Indebtedness (including Hedging Obligations with respect thereto) in an aggregate amount not to exceed the greater of (x) \$300.0 million and (y) an amount equal to the Secured Indebtedness Cap on the date on which such Lien is to be incurred;
- (6) Liens (including extensions and renewals thereof) upon real or personal property acquired after the Issue Date; provided that (a) any such Lien is created solely for the purpose of securing Indebtedness Incurred, in accordance with the Limitation on Indebtedness and issuances of Preferred Stock covenant, to finance the cost (including the cost of improvement or construction and fees and expenses related to the acquisition) of the item of property or assets subject thereto and such Lien is created prior to, at the time of or within twelve months after the later of the acquisition, the completion of construction or the commencement of full operation of such property, (b) the principal amount of the Indebtedness secured by such Lien does not exceed 100% of such cost and (c) any such Lien shall not extend to or cover any property or assets other than such item of property or assets and any improvements on such item;

Limitation on Asset Sales

The Company will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless (1) the consideration received by the Company or such Restricted Subsidiary is at least equal to the fair market value of the assets sold or disposed of and (2) at least 75% of the consideration received consists of (a) cash or Temporary Cash Investments, (b) the assumption of unsubordinated Indebtedness of the Company or any Subsidiary Guarantor or Indebtedness of any other Restricted Subsidiary (in each case, other than Indebtedness owed to the Company), provided that the Company, such Subsidiary Guarantor or such Restricted Subsidiary, as the case may be, is irrevocably and unconditionally released from all liability under such Indebtedness or (c) Replacement Assets.

The Company will not, and will not permit any Restricted Subsidiary or Regulated Subsidiary to consummate any Regulated Sale unless (1) the consideration received by the Company or such Restricted Subsidiary or Regulated Subsidiary is at least equal to the fair market value of the assets sold or disposed of and (2) at least 75% of the consideration received consists of (a) cash or Temporary Cash Investments, (b) the assumption of unsubordinated Indebtedness of the Company or any Subsidiary Guarantor or Indebtedness of any other Restricted Subsidiary or Regulated Subsidiary (in each case, other than Indebtedness owed to the Company), provided that the Company, such Subsidiary Guarantor, such Restricted Subsidiary or such Regulated Subsidiary, as the case may be, is irrevocably and unconditionally released from all liability under such Indebtedness or (c) Replacement Assets.

If and to the extent that the Net Cash Proceeds received by the Company or any of its Restricted Subsidiaries or Regulated Subsidiaries (excluding the first \$300 million of Net Cash Proceeds received by the Company or any of its Restricted Subsidiaries or Regulated Subsidiaries from Asset Sales and Regulated Sales after the Issue Date) from one or more Asset Sales or Regulated Sales in any period of 12 consecutive months exceed 10% of Consolidated Net Worth (determined as of the date closest to the commencement of such 12-month period for which a consolidated balance sheet of the Company and its Subsidiaries has been filed with the SEC or provided to the trustee), then the Company shall or shall cause the relevant Restricted Subsidiary or Regulated Subsidiary to:

(1) within twelve months after the date Net Cash Proceeds so received exceed 10% of Consolidated Net Worth,

(A) apply an amount equal to such excess Net Cash Proceeds to permanently repay unsubordinated Indebtedness of the Company or Indebtedness or to redeem or repurchase Capital Stock, otherwise permitted by the indenture, of any Restricted Subsidiary or Regulated Subsidiary, in each case owing to or owned by a Person other than the Company or any Affiliate of the Company; or

(B) invest an equal amount, or the amount not so applied pursuant to clause (A) (or enter into a definitive agreement committing to so invest within 12 months after the date of such agreement), in Replacement Assets; and

(2) apply (no later than the end of the 12-month period referred to in clause (1)) such excess Net Cash Proceeds (to the extent not applied pursuant to clause (1)) as provided in the following paragraphs of this *Limitation on Asset Sales* covenant.

If and to the extent that the Net Cash Proceeds received by the Company or any of its Restricted Subsidiaries or Regulated Subsidiaries from one or more Regulated Sales in any period of 12 consecutive months exceed 10% of Consolidated Net Worth (determined as of the date closest to the commencement of such 12-month period for which a consolidated balance sheet of the Company and its Subsidiaries has been filed with the SEC or provided to the trustee), then the Company shall or shall cause the relevant Restricted Subsidiary or Regulated Subsidiary to apply (no later than the end of the 12-month period referred to in clause (1)) such excess Net Cash Proceeds (to the extent not applied pursuant to clause (1)) as provided in the following paragraphs of this *Limitation on Asset Sales* covenant.

Table of Contents

The amount of such excess Net Cash Proceeds required to be applied (or to be committed to be applied) during such 12-month period as set forth in clause (1) of the preceding sentence and not applied as so required by the end of such period shall constitute Excess Proceeds.

If, as of the first day of any calendar month, the aggregate amount of Excess Proceeds not theretofore subject to an Offer to Purchase pursuant to this Limitation on Asset Sales covenant totals at least \$50 million, the Company must commence, not later than the fifteenth Business Day of such month, and consummate an Offer to Purchase from the Holders (and if required by the terms of any Indebtedness that is pari passu with the Notes (Pari Passu Indebtedness), from the holders of such Pari Passu Indebtedness) on a pro rata basis an aggregate principal amount of Notes (and Pari Passu Indebtedness) equal to the Excess Proceeds on such date, at a purchase price equal to 100% of their principal amount, plus, in each case, accrued interest (if any) to the Payment Date.

To the extent that the aggregate amount of Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to an Offer to Purchase is less than the Excess Proceeds, the Company may use any remaining Excess Proceeds for any other purpose which is permitted by the indenture.

If the aggregate principal amount of Notes surrendered by Holders thereof and other Pari Passu Indebtedness surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the trustee shall select the Notes and Pari Passu Indebtedness to be purchased on a pro rata basis on the basis of the aggregate principal amount of tendered Notes and Pari Passu Indebtedness. Upon completion of such Offer to Purchase, the amount of Excess Proceeds shall be reset to zero.

Limitation on lines of business

The Company will not, and will not permit any Restricted Subsidiary or Regulated Subsidiary to, engage in any business other than a Related Business, except to an extent that so doing would not be material to the Company and its Restricted Subsidiaries, taken as a whole.

Repurchase of Notes upon a Change of Control

The Company must commence, within 30 days of the later of (1) the occurrence of a Change of Control, and (2) a Rating Decline, and consummate an Offer to Purchase for all Notes then outstanding, at a purchase price equal to 101% of their principal amount, plus accrued interest (if any) to the Payment Date; provided that the Company shall not be required to make an Offer to Purchase unless a Rating Decline occurs.

There can be no assurance that the Company will have sufficient funds available at the time of any Change of Control to make any debt payment (including repurchases of Notes) required by the foregoing covenant (as well as may be contained in other securities of the Company which might be outstanding at the time).

The above covenant requiring the Company to repurchase the Notes will, unless consents are obtained, require the Company to repay all Indebtedness then outstanding which by its terms would prohibit such Note repurchase, either prior to or concurrently with such Note repurchase.

The Company will not be required to make an Offer to Purchase upon the occurrence of a Change of Control, if a third party makes an offer to purchase the Notes in the manner, at the times and price and otherwise in compliance with the requirements of the indenture applicable to an Offer to Purchase for a Change of Control and purchases all Notes validly tendered and not withdrawn in such offer to purchase.

SEC reports and reports to Holders

The Company will deliver to the trustee and Holders within 30 days after the filing of the same with the Securities and Exchange Commission, quarterly and annual reports and of the information, documents and other reports, if any, which the Company is required to file with the Securities and Exchange Commission pursuant to Section 13 or 15(d) of the Exchange Act. Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Company will file with the Securities and Exchange Commission, to the extent permitted, and provide the trustee and Holders with such annual reports and such information, documents and other reports specified in Sections 13 and 15(d) of the Exchange Act, provided that the Company need not file such reports or other information if, and so long as, it would not be required to do so pursuant to Rule 12h-5 under the Exchange Act. The Company will also comply with the other provisions of the TIA, section 314(a).

Notwithstanding the foregoing, the Company will be deemed to have furnished such reports referred to above to the trustee and the Holders if the Company has filed such reports with the SEC via the EDGAR filing system and such reports are publicly available.

Effectiveness of covenants

The covenants described under Limitation on Indebtedness and issuances of Preferred Stock, Limitation on Restricted Payments, Limitation on Dividend and other payment restrictions affecting Restricted Subsidiaries or Regulated Subsidiaries, Limitation on the issuance and sale of Capital Stock of Restricted Subsidiaries or Regulated Subsidiaries, Future Subsidiary Guarantees, Limitation on transactions with Affiliates, Limitation on Asset Sales, SEC reports and reports to Holders, and Limitation on lines of business (collectively, the Terminated Covenants) no longer be in effect upon the Company attaining Investment Grade Status. The Terminated Covenants will not be reinstated regardless of whether the Company's credit rating is subsequently downgraded from Investment Grade Status.

The following events will be defined as Events of Default in the indenture:

- (a) default in the payment of principal of (or premium, if any, on) any Note when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;

- (d) the Company or any Subsidiary Guarantor defaults in the performance of or breaches any other covenant or agreement in the indenture or under the Notes (other than a default specified in clause (a), (b) or (c) above) and such default or breach continues for a period of 30 consecutive days (or, in the case of a failure to comply with its agreement to deliver reports to the trustee or Holders of the Notes as described under SEC reports and reports to Holders, 60 consecutive days) after written notice by the trustee or the Holders of 25% or more in aggregate principal amount of Notes;

created, (I) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and such Indebtedness has not been discharged in full or such acceleration has not been rescinded or annulled within 45 days of such acceleration or (II) the failure to make a principal payment at the final (but not any interim) fixed maturity and such defaulted payment shall not have been made, waived or extended;

(f) any final judgment or order (not covered by insurance), that is non-appealable, for the payment of money in excess of \$50 million in the aggregate for all such final judgments or orders against all such Persons (treating any deductibles, self-insurance or retention as not so covered) shall be rendered against the Company or any Significant Subsidiary and shall not be paid, stayed or discharged, and there shall be any period of 45 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed \$50 million during which a stay of enforcement of such final judgment or order, by reason of a pending appeal or otherwise, shall not be in effect;

(g) a court having jurisdiction in the premises enters a decree or order for (A) relief in respect of the Company or any Significant Subsidiary in an involuntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, (B) appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any Significant Subsidiary or for all or substantially all of the property and assets of the Company or any Significant Subsidiary or (C) the winding up or liquidation of the affairs of the Company or any Significant Subsidiary and, in each case, such decree or order shall remain unstayed and in effect for a period of 60 consecutive days;

(o) any Subsidiary Guarantor that is a Significant Subsidiary repudiates its obligations under its Note Guarantee or, except as permitted by the indenture, any Note Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect.

If an Event of Default (other than an Event of Default specified in clause (g) or (h) above that occurs with respect to the Company or any Subsidiary Guarantor) occurs and is continuing under the indenture, the trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Company (and to the trustee if such notice is given by the Holders), may, and the trustee at the request of such Holders shall, declare the principal of, premium, if any, and accrued interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued interest shall be immediately due and payable. In the event of a declaration of acceleration because an Event of Default set forth in clause (e) above has occurred and is continuing, such declaration of acceleration shall be automatically rescinded and annulled if the event of default triggering such Event of Default pursuant to clause (e) shall be remedied or cured by the Company or the relevant Significant Subsidiary or waived by the holders of the relevant Indebtedness within 60 days after the declaration of acceleration with respect thereto. If an Event of Default specified in clause (g) or (h) above occurs with respect to the Company, the principal of, premium, if any, and accrued interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the trustee or any Holder. The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Company and to the trustee, may waive all past defaults and rescind and annul a declaration of acceleration and its consequences if (x) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived and (y) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction. For information as to the waiver of defaults, see

Modification and Waiver.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee. However, the trustee may refuse to follow any direction that conflicts with law or the indenture, that may involve the trustee in personal liability, or that the trustee determines in good faith may be unduly prejudicial to the rights of Holders of Notes not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from Holders of Notes. A Holder may not pursue any remedy with respect to the indenture or Notes unless:

- (1) the Holder gives the trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the trustee to pursue the remedy;
- (3) such Holder or Holders offer the trustee indemnity satisfactory to the trustee against any costs, liability or expense;

Table of Contents

- (4) the trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and
- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the trustee a direction that is inconsistent with the request.

However, such limitations do not apply to the right of any Holder of a Note to receive payment of the principal of, premium, if any, or interest on, such Note or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

The trustee shall, within 90 days of the occurrence of a default, give to the Holders of the Notes notice of all uncured defaults known to it, but the trustee may withhold such notice if it, in good faith, determines that the withholding of such notice is in the best interest of such Holders, except in the case of a default in the payment of the principal of or interest on any of the Notes.

Officers of the Company must certify to the trustee, on or before a date not more than 90 days after the end of each fiscal year, that a review has been conducted of the activities of the Company and its Restricted Subsidiaries and Regulated Subsidiaries and the Company's and its Restricted Subsidiaries' and its Regulated Subsidiaries' performance under the indenture and that, to their knowledge, the Company has fulfilled all obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Company will also be obligated to notify the trustee of any default or defaults in the performance of any covenants or agreements under the indenture.

Consolidation, Merger and Sale of Assets

The Company will not consolidate with, merge with or into, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its property and assets (as an entirety or substantially an entirety in one transaction or a series of related transactions) to, any Person or permit any Person to merge with or into it unless:

- (1) it shall be the continuing Person, or the Person (if other than it) formed by such consolidation or into which it is merged or that acquired or leased such property and assets of (the Surviving Person) shall be an entity organized and validly existing under the laws of the United States of America or any jurisdiction thereof and shall expressly assume, by a supplemental indenture, executed and delivered to the trustee, all of the Company's obligations under the indenture and the Notes; provided, that if such continuing Person or Person shall not be a corporation, such entity shall organize or have a wholly-owned Subsidiary in the form of a corporation organized and validly existing under the laws of the United States or any jurisdiction thereof, and shall cause such corporation to expressly assume, as a party to the supplemental indenture referenced above, as a co-obligor, each of such continuing Person or Person's obligations under the indenture and the Notes;
- (2) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a pro forma basis the Company or the Surviving Person, as the case may be, (i) could Incur at least \$1.00 of Indebtedness under the first paragraph of the Limitation on Indebtedness and issuances of Preferred Stock covenant or (ii) the Company's or Surviving Person's Consolidated Fixed Charge Coverage Ratio would be greater than or equal to such ratio for the Company and the Restricted Subsidiaries immediately prior to such transaction;
- (4) it delivers to the trustee an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clause (3)) and Opinion of Counsel, in each case stating that such consolidation, merger or transfer and such supplemental indenture complies with this provision and that all conditions precedent provided for herein relating to such transaction have been complied with; and

Table of Contents

(5) each Subsidiary Guarantor, unless such Subsidiary Guarantor is the Person with which the Company has entered into a transaction under this Consolidation, Merger and Sale of Assets section, shall have by amendment to its Note Guarantee confirmed that its Note Guarantee shall apply to the obligations of the Company or the Surviving Person in accordance with the Notes and the indenture;

provided, however, that clause (3) above does not apply if, in the good faith determination of the Board of Directors of the Company, whose determination shall be evidenced by a Board Resolution, the principal purpose of such transaction is to change the state of organization or convert the form of organization of the Company to another form, and any such transaction shall not have as one of its purposes the evasion of the foregoing limitations.

Defeasance

Defeasance and discharge

The indenture will provide that the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 91st day after the deposit referred to below, and the provisions of the indenture will no longer be in effect with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes to replace stolen, lost or mutilated Notes, to maintain paying agencies and to hold monies for payment in trust) if, among other things:

(A) the Company has deposited with the trustee, in trust, money and/or U.S. Government Obligations that through the payment of interest and principal in respect of the Notes in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the indenture and the Notes;

(B) the Company has delivered to the trustee (1) either (x) an Opinion of Counsel to the effect that beneficial owners of the Notes will not recognize income, gain or loss for federal income tax purposes as a result of the Company's exercise of its option under this Defeasance provision and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit, defeasance and discharge had not occurred, which Opinion of Counsel must be based upon (and accompanied by a copy of) a ruling of the Internal Revenue Service to the same effect unless there has been a change in applicable federal income tax law after the Issue Date such that a ruling is no longer required or (y) a ruling directed to the trustee received from the Internal Revenue Service to the same effect as the aforementioned Opinion of Counsel and (2) an Opinion of Counsel to the effect that the defeasance trust is not required to register as an investment company under the Investment Company Act of 1940 and, after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and

(C) immediately after giving effect to such deposit on a pro forma basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default shall have occurred and be continuing on the date of such deposit or during the period ending on the 123rd day after the date of such deposit, and such deposit shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Company or any of its Subsidiaries is a party or by which the Company or any of its Subsidiaries is bound.

Defeasance of certain covenants and certain Events of Default

The indenture further will provide that its provisions will no longer be in effect with respect to clause (3) under Consolidation, Merger and Sale of Assets and all the covenants described herein under Covenants, clause (c) under Events of Default with respect to such clause (3) under Consolidation,

Table of Contents

Merger and Sale of Assets, clause (d) under Events of Default with respect to such other covenants and clauses (e) and (f) under Events of Default shall be deemed not to be Events of Default with respect to the Notes upon, among other things, the deposit with the trustee, in trust, of money and/or U.S. Government Obligations that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the indenture and the Notes, the satisfaction of the provisions described in clauses (B)(2) and (C) of the preceding paragraph and the delivery by the Company to the trustee of an Opinion of Counsel to the effect that, among other things, the beneficial owners will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance of certain covenants and Events of Default and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred.

Defeasance and certain other Events of Default

If the Company exercises its option to omit compliance with certain covenants and provisions of the indenture with respect to the Notes as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Company will remain liable for such payments, and any Subsidiary Guarantor's Note Guarantee with respect to such payments will remain in effect.

Satisfaction and Discharge

The indenture with respect to the Notes will be discharged and will cease to be of further effect as to all Notes issued thereunder when:

(1) either:

(a) all Notes that have been authenticated and delivered (other than destroyed, lost or stolen Notes that have been replaced, Notes that are paid and Notes for whose payment money or securities have theretofore been deposited in trust and thereafter repaid to the Company) have been delivered to the trustee for cancellation and the Company has paid all sums payable under the indenture with respect to the Notes; or

(b) all Notes mature within one year or are to be called for redemption within one year and the Company has irrevocably deposited with the trustee, as trust funds in trust solely for the benefit of the Holders, money or U.S. Government Obligations sufficient, without consideration of any reinvestment of interest, to pay principal, premium, if any, and accrued interest on the Notes to the date of maturity or redemption and all other sums payable under the indenture with respect to the Notes;

(2) no Default or Event of Default shall have occurred with respect to the Notes and be continuing on the date of such deposit and such deposit will not result in a breach or violation of, or constitute a default under such indenture or any other instrument to which the Company or any Subsidiary Guarantor is a party or by which the Company or any Subsidiary Guarantor is bound; and

(3) the Company has delivered irrevocable instructions to the trustee to apply the deposited money toward the payment of the Notes at their Stated Maturity or the redemption date, as applicable.

In addition, the Company must deliver an Officers' Certificate and an Opinion of Counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

(9) reduce the percentage or aggregate principal amount of outstanding Notes the consent of whose Holders is necessary for waiver of compliance with certain provisions of the indenture or for waiver of certain defaults with respect to the Notes.

No Personal Liability of Incorporators, Stockholders, Officers, Directors, or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Company in the indenture, or in any of the Notes or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee, manager, partner, equityholder or controlling person of the Company or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws.

The Trustee

Except during the continuance of a Default, the trustee will not be liable, except for the performance of such duties as are specifically set forth in the indenture. If an Event of Default has occurred and is continuing, the trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it under the indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The indenture and provisions of the TIA, incorporated by reference therein contain limitations on the rights of the trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The trustee is permitted to engage in other transactions; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

Book-Entry; Delivery and Form

The Notes initially will be represented by one or more Global Notes in registered, global form without interest coupons. The Global Notes will be deposited upon issuance with the trustee as custodian for The Depository Trust Company, also referred to as DTC, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant as described below.

Except as set forth below, the Global Notes may be transferred, in whole but not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for Notes in certificated form except in the limited circumstances described below. See Exchange of Book-Entry Notes for Certificated Notes. In addition, transfer of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change from time to time.

The Notes may be presented for registration of transfer and exchange at the offices of the registrar.

Depository Procedures

DTC has advised the Company that DTC is a limited-purpose trust company created to hold securities for its participating organizations and to facilitate the clearance and settlement of transactions in those securities between the Participants through electronic book-entry changes in accounts of the participants. The participants include securities brokers and dealers (including the initial purchasers), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as

Table of Contents

banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. Persons who are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interest and transfer of ownership interest of each actual purchaser of each security held by or on behalf of DTC are recorded on the records of the participants and the indirect participants.

DTC has also advised the Company that, pursuant to procedures established by it,

(1) upon deposit of the Global Notes, DTC will credit the accounts of participants designated by the beneficiaries with portions of the principal amount of the Global Notes; and

(2) ownership of such interests in the Global Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the participants) or by the participants and the indirect participants (with respect to other owners of beneficial interests in the Global Notes).

All interests in a Global Note may be subject to the procedures and requirements of DTC.

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons may be limited to that extent. Because DTC can act only on behalf of the participants, which in turn act on behalf of the indirect participants and certain banks, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons or entities that do not participate in the DTC system or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have Notes registered in their names, will not receive physical delivery of Notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of (and premium, if any) and interest on a Global Note registered in the name of DTC or its nominee will be payable to DTC or its nominee in its capacity as the registered holder under the indentures. Under the terms of the indenture, the Company and the trustee will treat the persons in whose names the Notes, including the Global Notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, none of the Company, the placement agents, the trustee nor any agent of the Company, the placement agents or the trustee has or will have any responsibility or liability for (1) any aspect or accuracy of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership or (2) any other matter relating to the actions and practices of DTC or any of the participants or the indirect participants.

The Company understands that DTC's current practice, upon receipt of any payment in respect of securities such as the Notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date, in amounts proportionate to their respective holdings in principal amount of beneficial interests in the relevant security as shown on the records of DTC. Payments by the participants and the indirect participants to the beneficial owners of Notes will be governed by standing instructions and customary practices and will not be the responsibility of DTC, the trustee or the Company. None of the Company nor the trustee will be liable for any delay by DTC or any of the participants in identifying the beneficial owners of the Notes, and the Company and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee as the registered owner of the Global Notes for all purposes.

Interests in the Global Notes will trade in DTC's same-day funds settlement system and secondary market trading activity in such interests will therefore settle in immediately available funds, subject in all cases to the rules and procedures of DTC and the participants.

Table of Contents

The Company understands that DTC will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants in whose account with DTC interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount at maturity of the Notes as to which such participant or participants has or have given such direction. However, if any of the events described under Exchange of Book-Entry Notes for Certificated Notes occurs, DTC reserves the right to exchange the Global Notes for Notes in certificated form and to distribute such Notes to its participants.

The information in this section concerning DTC and its book-entry system has been obtained from sources that the Company believes to be reliable, but the Company takes no responsibility for the accuracy thereof.

Although DTC has agreed to the foregoing procedures to facilitate transfers of interests in the Global Note among DTC participants, it is under no obligation to perform or to continue to perform such procedures, and such procedures may be discontinued at any time. None of the Company, the trustee nor any agent of the Company or the trustee will have any responsibility for the performance by DTC or its direct or indirect DTC participants of their obligations under the rules and procedures governing their operations.

Exchange of Book-Entry Notes for Certificated Notes

A Global Note is exchangeable for definitive Notes in registered certificated form if:

- (1) DTC (A) notifies the Company that it is unwilling or unable to continue as depository for such Notes and the Company thereupon fails to appoint a successor depository or (B) has ceased to be a clearing agency registered under the Exchange Act; or
- (2) there shall have occurred and be continuing a Default or an Event of Default with respect to the Notes.

In all the above cases, certificated Notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of DTC (in accordance with its customary procedures).

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following are the material U.S. federal income tax consequences of owning and disposing of Notes purchased in this offering at the issue price, which is the first price at which a substantial amount of the Notes is sold for money to the public (not including sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agent or wholesalers), and held as capital assets for U.S. federal income tax purposes.

This discussion does not describe all of the income tax consequences that may be relevant to you in light of your particular circumstances, including alternative minimum tax and Medicare contribution tax consequences, as well as differing tax consequences that may apply if you are, for instance:

a financial institution;

a regulated investment company;

a dealer or trader in securities that uses a mark-to-market method of tax accounting;

holding Notes as part of a straddle or integrated transaction;

a U.S. Holder (as defined below) whose functional currency is not the U.S. dollar;

a tax-exempt entity; or

a partnership for U.S. federal income tax purposes.

If you are a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and your activities. A partner of a partnership considering an investment in the Notes is urged to consult its tax adviser.

This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof (the Code), administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations, changes to any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly on a retroactive basis. This summary does not address any aspect of state, local or non-U.S. taxation, or any U.S. federal taxes other than U.S. federal income taxes (such as estate and gift taxes). You should consult your tax adviser with regard to the application of the U.S. federal tax laws to your particular situation, as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Certain Additional Amounts

There are circumstances in which we might be required to make payments on a Note that would increase the yield of the Note, as described under Description of the Notes Repurchase of Notes upon a Change of Control. We intend to take the position that the possibility of such payments does not result in the Notes being treated as contingent payment debt instruments under the applicable Treasury regulations. Our position is binding on you unless you disclose a contrary position in the manner required by the applicable Treasury regulations. However, our position is not binding on the Internal Revenue Service (IRS). If the IRS takes a contrary position, you may be required to accrue interest income based upon a comparable yield (as defined in the Treasury regulations) determined at the time of issuance of the Notes (which is not expected to differ significantly from the actual yield on the Notes), with adjustments to such accruals when any contingent payments are made. In addition, any income on the sale, exchange, retirement, redemption or other taxable disposition of a Note would be treated as interest income rather than as capital gain. You should consult your tax adviser regarding the tax consequences if the Notes were treated as contingent payment debt instruments. The remainder of this discussion assumes that the Notes are not treated as contingent payment debt instruments.

Table of Contents

Tax Consequences to U.S. Holders

This section applies to you if you are a U.S. Holder. You are a U.S. Holder if for U.S. federal income tax purposes you are a beneficial owner of a Note that is:

a citizen or individual resident of the United States;

a corporation created or organized in or under the laws of the United States, any state therein or the District of Columbia; or

an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Payments of Stated Interest

Stated interest paid on a Note will be taxable to you as ordinary interest income at the time it accrues or is received, in accordance with your method of accounting for U.S. federal income tax purposes. It is expected, and this discussion assumes, that the Notes will be issued without original issue discount for U.S. federal income tax purposes.

Sale or Other Taxable Disposition

Upon the sale, exchange, retirement, redemption or other taxable disposition of a Note, you will generally recognize taxable gain or loss equal to the difference, if any, between the amount realized on the disposition and your tax basis in the Note. Your tax basis in a Note will generally equal the cost of the Note. For these purposes, the amount realized does not include any amount attributable to accrued stated interest, which is treated as interest, as described above under *Payments of Stated Interest*.

Any gain or loss realized on the sale or other taxable disposition of a Note will generally be capital gain or loss, and will be long-term capital gain or loss if at the time of the disposition the Note has been held for more than one year. Long-term capital gains recognized by non-corporate taxpayers are subject to reduced rates. The deductibility of capital losses is subject to limitations.

Tax Consequences to Non-U.S. Holders

This section applies to you if you are a Non-U.S. Holder. You are a Non-U.S. Holder if for U.S. federal income tax purposes you are a beneficial owner of a Note that is:

a nonresident alien individual;

a foreign corporation; or

a foreign estate or trust.

You are not a Non-U.S. Holder if you are a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition, or if you are a former citizen or former resident of the United States, in either of which cases you should consult your tax adviser regarding the U.S. federal income tax consequences of owning and disposing of a Note.

Table of Contents

Payments on a Note

Subject to the discussions below under **FATCA Legislation** and **Backup Withholding and Information Reporting**, payments of principal and interest on a Note by the Company or any paying agent to you will not be subject to U.S. federal income or withholding tax, provided that, in the case of interest:

you do not own, actually or constructively, ten percent or more of the total combined voting power of all classes of stock of the Company entitled to vote;

you are not a controlled foreign corporation related, directly or indirectly, to the Company through stock ownership;

you certify on a properly executed IRS Form W-8BEN or W-8BEN-E (or other applicable form), under penalties of perjury, that you are not a United States person; and

the interest is not effectively connected with your conduct of a trade or business in the United States as described below.

If you cannot satisfy one of the first three requirements described above, and if interest on a Note is not effectively connected with your conduct of a trade or business in the United States, as described below, payments of interest on the Notes will be subject to U.S. federal withholding tax at a rate of 30%, or the rate specified by an applicable treaty.

Sale or Other Taxable Disposition of the Notes

Subject to the discussions below under **FATCA Legislation** and **Backup Withholding and Information Reporting**, you generally will not be subject to U.S. federal income or withholding tax on any gain realized on a sale, exchange, retirement, redemption or other taxable disposition of a Note, unless the gain is effectively connected with your conduct of a trade or business in the United States, as described below, although any amounts attributable to accrued interest will be treated as described above under **Payments on a Note**.

Effectively Connected Income

If interest or gain on a Note is effectively connected with your conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment or fixed base maintained by you), you will generally be taxed in the same manner as a U.S. Holder with respect to the relevant income (see **Tax Consequences to U.S. Holders** above). Effectively connected interest will be exempt from the withholding tax on interest discussed above, although you will be required to provide a properly executed IRS Form W-8ECI (or other applicable form) in order to claim an exemption from withholding. You should consult your tax adviser with respect to other U.S. tax consequences of the ownership and disposition of Notes, including the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate) if you are a corporation.

Backup Withholding and Information Reporting

If you are a U.S. Holder, information returns are required to be filed with the IRS in connection with payments on your Notes and proceeds received from a sale or other disposition (including a retirement or redemption) of the Notes unless you are an exempt recipient. You may also be subject to backup withholding on payments on your Notes unless you provide your taxpayer identification number and otherwise comply with applicable requirements of the backup withholding rules, or proof of an applicable exemption.

If you are a Non-U.S. Holder, information returns are required to be filed with the IRS in connection with payments of interest on your Notes. Unless you comply with certification procedures to establish that you are not a United States person, information returns may also be filed with the IRS in connection with the

Table of Contents

proceeds from a sale or other disposition of a Note (including a retirement or redemption). You may be subject to backup withholding on payments on your Notes, or on the proceeds from a sale or other disposition of your Notes, unless you comply with certification procedures to establish that you are not a United States person or otherwise establish an exemption. The certification procedures required to claim the exemption from withholding tax on interest, described above, will avoid backup withholding as well.

Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against your U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

FATCA Legislation

Legislation commonly referred to as FATCA imposes U.S. federal withholding of 30% on payments of interest on the Notes and, for dispositions after December 31, 2016, gross proceeds from the disposition of the Notes to foreign financial institutions (which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities (whether such foreign financial institutions or other non-U.S. entities are beneficial owners or intermediaries) unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied, or an exemption applies. If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden). Prospective investors should consult their tax advisers regarding the effects of FATCA on their investment in the Notes.

Table of Contents**UNDERWRITING**

J.P. Morgan Securities LLC is acting as representative of each of the underwriters named below. Subject to the terms and conditions set forth in the underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of Notes set forth opposite its name below.

Underwriter	Principal Amount of Notes
J.P. Morgan Securities LLC	\$ 202,500,000
Morgan Stanley & Co. LLC	\$ 202,500,000
Credit Suisse Securities (USA) LLC	\$ 67,500,000
Goldman, Sachs & Co.	\$ 67,500,000
Total	\$ 540,000,000

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the Notes sold under the underwriting agreement if any of the Notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

The underwriters are offering the Notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the Notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officers' certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act or to contribute to payments the underwriters may be required to make in respect of those liabilities.

Commissions and Discounts

Notes sold by the underwriters to the public will initially be offered at the applicable initial public offering price set forth on the cover of this prospectus supplement. Any Notes sold by the underwriters to securities dealers may be sold at a discount from the initial public offering price of up to 0.375% of the principal amount of Notes. Any such securities dealers may resell any Notes purchased from the underwriters to certain other brokers or dealers at a discount from the initial public offering price of up to 0.250% of the principal amount of Notes. If all the Notes are not sold at the initial offering prices, the underwriters may change the offering prices and the other selling terms. The offering of the Notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. The underwriters may offer and sell Notes through certain of their affiliates.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$1.5 million.

New Issues of Notes

The Notes are a new issue of securities with no established trading market. We have been advised by the underwriters that the underwriters intend to make a market in the Notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the Notes.

Table of Contents

No Sales of Similar Securities

We have agreed that we will not, for a period of 60 days after the date of this prospectus supplement, without first obtaining the prior written consent of J.P. Morgan Securities LLC, offer, sell, contract to sell or otherwise dispose of any debt securities issued or guaranteed by the Company or any of its subsidiaries, except for the Notes sold to the underwriters pursuant to the underwriting agreement.

Short Positions

In connection with the offering, the underwriters may purchase and sell Notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of Notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the Notes while the offering is in progress.

These activities by the underwriters, as well as other purchases by the underwriters for their own account, may stabilize, maintain or otherwise affect the market price of the Notes. As a result, the price of the Notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

Other Relationships

The underwriters and each of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and each of their affiliates have, from time-to-time, performed, and may in the future perform, various financial advisory, investment banking and commercial banking services for us, for which they received or will receive customary fees and expenses. In the ordinary course of their various business activities, the underwriters or their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of us or our affiliates. The underwriters or their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that it acquires, long and/or short positions in such securities and instruments.

Certain of the underwriters and their affiliates are lenders or agents under our Senior Secured Revolving Credit Facility. See Description of Other Indebtedness Senior Secured Revolving Credit Facility. Such lenders or agents will receive fees and expense reimbursement from us in connection therewith. In connection with any lender or credit relationship with us or any of our subsidiaries that any underwriter or any affiliate of an underwriter may have, certain of the underwriters or their affiliates routinely hedge and certain other of the underwriters or their affiliates may hedge their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the Notes offered hereby.

Certain of the underwriters and their affiliates hold our 2016 Notes and our 2017 Notes and, accordingly, may receive a portion of the net proceeds of the offering in connection with the redemption or repayment of those Notes.

We claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements. Statements in this prospectus that are not statements of historical facts are hereby identified as forward-looking statements for these purposes. In particular, statements that we make under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Report on 10-Q for the quarter ended March 31, 2012 relating to our overall volume trends, industry forces, margin trends, anticipated capital expenditures and our strategies are forward-looking statements. When used in this document, the words may, believe, expect, intend, anticipate, estimate, project, plan, should and similar expressions are intended to identify forward-looking statements.

These statements are based on assumptions and assessments made by our management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. Any forward-looking statements are not guarantees of our future performance and are subject to risks and uncertainties that could cause actual results, developments and business decisions to differ materially from those contemplated by such forward-looking statements. We disclaim any duty to update any forward-looking statements. Some of the factors that may cause actual results, developments and business decisions to differ materially from those contemplated by such forward-looking statements are set forth under Risk Factors and discussed under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Report on 10-Q for the quarter ended March 31, 2012, including the following:

potential increases in our provision for loan losses if the residential real estate and credit markets deteriorate beyond our expectations;

our potential inability to manage the credit risk in our loan portfolio;

our potential inability to retain our current customer assets and accounts;

our potential inability to service our substantial indebtedness and, if necessary, to raise sufficient additional capital, and the potential negative regulatory consequences that may result therefrom;

our dependence on dividends from our subsidiaries, which are subject to advance regulatory approval in the case of our most significant subsidiaries;

liabilities and costs associated with investigations and lawsuits, including those relating to our losses from mortgage loans and asset-backed securities;

our potential inability to compete effectively;

adverse changes in general economic conditions, including fluctuations in interest rates;

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

our potential inability to manage the effects of changes in interest rates;

adverse changes in governmental regulations or enforcement practices, including those that may result from the implementation and enforcement of recently enacted regulatory reform legislation;

our potential inability to fully realize our deferred tax assets and the potential loss of a significant portion of our U.S. federal and state deferred tax assets as a result of a deemed ownership change in 2009; and

other factors described elsewhere in this prospectus or in our current and future filings with the SEC.

Table of Contents

We have no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or risks. New information, future events or risks may cause the forward-looking events we discuss in this prospectus not to occur.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the securities for working capital and general corporate purposes, including, but not limited to, repayment of indebtedness, funding our operations and financing capital expenditures. We may also invest the proceeds in certificates of deposit, U.S. government securities or certain other interest-bearing securities. If we decide to use the net proceeds from a particular offering of securities for a specific purpose, we will describe that purpose in the related prospectus supplement.

We will not receive any proceeds from sales of securities offered by any selling security holders under this prospectus.

DIVIDEND POLICY

We have never declared or paid cash dividends on our common stock. The terms of our corporate debt currently prohibit the payment of dividends and will continue to prohibit the payment of dividends for the foreseeable future. E*TRADE Bank may not pay dividends to the parent company without approval from its regulators. This dividend restriction includes E*TRADE Securities LLC and E*TRADE Clearing LLC as they are subsidiaries of E*TRADE Bank.

Table of Contents**RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS**

The following table sets forth our consolidated ratio of earnings (loss) to fixed charges and preferred stock dividends:

	For the Three Months Ended March 31,	For the Year Ended December 31,				
	2012	2011	2010	2009	2008	2007
Ratio of earnings (loss) to fixed charges	1.53	1.38	(a)	(b)	(c)	(d)
Ratio of earnings (loss) to fixed charges and preferred stock dividends	1.53	1.38	(a)	(b)	(c)	(d)

The ratio of earnings (loss) to fixed charges is computed by dividing fixed charges into income (loss) before income taxes and discontinued operations less equity in the income (loss) of investments plus fixed charges less the preference securities dividend requirement of consolidated subsidiaries. Fixed charges include, as applicable, interest expense, amortization of debt issuance costs, the estimated interest component of rent expense (calculated as one-third of net rent expense) and the preference securities dividend requirement of consolidated subsidiaries.

- (a) Earnings for the year ended December 31, 2010 were inadequate to cover fixed charges. The coverage deficiency was \$2.4 million.
- (b) Earnings for the year ended December 31, 2009 were inadequate to cover fixed charges. The coverage deficiency was \$1.8 billion.
- (c) Earnings for the year ended December 31, 2008 were inadequate to cover fixed charges. The coverage deficiency was \$1.3 billion.
- (d) Earnings for the year ended December 31, 2007 were inadequate to cover fixed charges. The coverage deficiency was \$2.2 billion.

DESCRIPTION OF COMMON STOCK

As used in this section of the prospectus and under the captions Description of Preferred Stock, Description of Debt Securities, Description of Warrants, Description of Purchase Contracts and Description of Units, the terms we, us and our refer only to E*TRADE and not to any existing or future subsidiaries of E*TRADE.

The following description of our common stock is based upon our Certificate of Incorporation (Certificate of Incorporation), our Bylaws (Bylaws) and applicable provisions of law as currently in effect. We have summarized certain portions of the Certificate of Incorporation and Bylaws below. The summary is not complete. The Certificate of Incorporation is incorporated in the registration statement of which this prospectus forms a part by reference to an exhibit to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2010 and an exhibit to our Current Report on Form 8-K filed May 11, 2012. The Bylaws are incorporated in the registration statement of which this prospectus forms a part by reference to an exhibit to our Current Report on Form 8-K filed May 14, 2010 and an exhibit to our Current Report on Form 8-K filed May 11, 2012. You should read the Certificate of Incorporation and Bylaws for the provisions that are important to you.

Certain provisions of the Delaware General Corporation Law (DGCL), the Certificate of Incorporation and the Bylaws summarized in the following paragraphs may have an anti-takeover effect. This may delay, defer or prevent a tender offer or takeover attempt that a stockholder might consider in its best interests, including those attempts that might result in a premium over the market price for its shares.

General

Our authorized capital stock consists of 400,000,000 shares of common stock, \$0.01 par value per share and 1,000,000 shares of preferred stock, \$0.01 par value per share. As of May 9, 2012, we had outstanding 285,687,861 shares of our common stock. As of May 9, 2012, we had 1,513 stockholders of record.

Each holder of common stock is entitled to one vote per share held on all matters to be voted upon by the stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock are entitled to receive ratably the dividends, if any, as may be declared from time to time by our board of directors out of funds legally available for the payment of dividends. If we liquidate, dissolve or wind up our business, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding. The common stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of common stock are fully paid and non-assessable, and any shares of common stock to be issued upon completion of any offering of our common stock under this prospectus will be fully paid and non-assessable.

Anti-Takeover Effects or Provisions of Our Certificate of Incorporation, Bylaws and Delaware Law

Certificate of Incorporation and Bylaws

Our Certificate of Incorporation and Bylaws contain provisions that could discourage potential takeover attempts and make more difficult attempts by stockholders to change management.

Our Certificate of Incorporation and Bylaws currently permit the board to create new directorships and to elect new directors to serve for the full term of the class of directors in which the new directorship was created. In uncontested elections, each director must be elected to the board by the majority of the votes cast with respect to the director's election, and must submit his or her resignation to the board if he or she does not obtain the required majority. The board has the power to decide whether or not to accept the resignation, but must publicly disclose its decision and, if the resignation is rejected, its rationale within 90 days following certification of the stockholder vote. The board (or its remaining members, even though less than a quorum) is also empowered to

Table of Contents

fill vacancies on the board occurring for any reason, including a vacancy from an enlargement of the board; however, a vacancy created by the removal of a director by the stockholders or court order may be filled only by the vote of a majority of the shares at a meeting at which a quorum is present. Any director so elected according to the preceding sentence shall hold office for the remainder of the term of the class of directors in which the new directorship was created or the vacancy occurred. Our Certificate of Incorporation does not provide for cumulative voting in the election of directors.

Our Certificate of Incorporation provides that stockholders may take action only at an annual meeting or special meeting and may not take action by written consent. Special meetings of our stockholders may only be called by our Chairman of the board, our President, a majority of the number of directors constituting the full board, or the holders of not less than 10% of our outstanding voting stock.

Under the terms of our Bylaws, stockholders who intend to present business or nominate persons for election to the board at annual meetings of stockholders must provide notice to our corporate secretary no more than 150 days and no less than 120 days prior to the date of the proxy statement for the prior annual meeting, as more fully set forth in our Bylaws.

Our Certificate of Incorporation provides that, in addition to the requirements of the Delaware General Corporation Law described below, any business combination with an interested stockholder, as these terms are defined in our Certificate of Incorporation and summarized below, requires the affirmative vote of two-thirds of the outstanding voting stock, unless two-thirds of the number of directors constituting the full board approve the transaction.

A business combination is defined for purposes of this provision of our Certificate of Incorporation as:

a merger or consolidation of us or any of our subsidiaries with an interested stockholder or with a corporation that is or would become an affiliate or associate, with these terms defined for purposes of this provision of our Certificate of Incorporation as they are defined in the Exchange Act, of an interested stockholder,

any sale, lease, exchange, mortgage, pledge, transfer or other disposition to or with, or proposed by or on behalf of, an interested stockholder or any affiliate or associate of an interested stockholder involving any assets of ours or our subsidiaries that constitute 5% or more of our total assets,

the issuance or transfer by us or by any of our subsidiaries of any of our or their securities to, or proposed by or on behalf of, an interested stockholder or any affiliate or associate of an interested stockholder in exchange for cash, securities or other property that constitute 5% or more of our total assets,

the adoption of any plan or proposal for our liquidation or dissolution or any spin-off or split-up of any kind of us or any of our subsidiaries, proposed by or on behalf of an interested stockholder or an affiliate or associate of an interested stockholder, or

any reclassification, recapitalization, or merger or consolidation of us with any of our subsidiaries or any similar transaction that has the effect, directly or indirectly, of increasing the percentage of the outstanding shares of (i) any class of equity securities of us or any of our subsidiaries or (ii) any class of securities of us or any of our subsidiaries convertible into equity securities of us or any of our subsidiaries which are directly or indirectly owned by an interested stockholder or an affiliate or associate of an interested stockholder.

An interested stockholder is defined for purposes of this provision of our Certificate of Incorporation as an individual, corporation or other entity which, as of the record date for notice of the transaction or immediately prior to the transaction:

is one of our associates or affiliates and at any time within the prior two-year period was the beneficial owner, directly or indirectly, of 10% or more of our outstanding voting securities, or

Table of Contents

is, or was at any time within the prior two-year period, the beneficial owner, directly or indirectly, of 10% or more of our outstanding voting securities, or

is under circumstances described in more detail in our Certificate of Incorporation, an assignee of any of the persons described above.

A person is the beneficial owner of any voting securities which:

that person or any of its affiliates or associates, beneficially owns, directly or indirectly,

that person or any of its affiliates or associates has, directly or indirectly, the right to acquire (whether such right is exercisable immediately or subject only to the passage of time), pursuant to any agreement, arrangement or understanding or upon the exercise of conversion rights, exchange rights, warrants or options, or otherwise, or the right to vote pursuant to any agreement, arrangement or understanding, or

are beneficially owned, directly or indirectly, by any other person with which the person in question or any of its affiliates or associates has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting or disposing of any shares of capital stock.

As described below under *Description of Preferred Stock*, our board of directors has the authority to issue preferred stock in one or more series and to fix the powers, rights, designations preferences, qualifications, limitations and restrictions applicable to the preferred stock. The issuance of preferred stock may have the effect of delaying, deferring or preventing potential takeover attempts without further action by the stockholders and may adversely affect the voting and other rights of the holders of our common stock.

These provisions of our Certificate of Incorporation and Bylaws as currently in effect may deter any potential unfriendly offers or other efforts to obtain control of us that are not approved by our board of directors. Such provisions could deprive our stockholders of opportunities to realize a premium on their common stock and could make removal of incumbent directors more difficult. At the same time, these provisions may have the effect of inducing any persons seeking to control us or seeking a business combination with us to negotiate terms acceptable to our board of directors. These provisions of our Certificate of Incorporation and Bylaws can be changed or amended only by the affirmative vote of the holders of at least two-thirds of our outstanding voting stock.

Delaware Law

We are subject to the provisions of Section 203 of the Delaware General Corporation Law regulating corporate takeovers. In general, Section 203 prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

the transaction is approved by the board before the date the interested stockholder attained that status;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or after the date the business combination is approved by the board and authorized at a meeting of stockholders by at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines *business combination* to include the following:

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

any sale, lease, exchange, mortgage, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

Table of Contents

any merger or consolidation involving the corporation or any majority-owned subsidiary and the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation or by any majority-owned subsidiary of any stock of the corporation or of such subsidiary to the interested stockholder;

any transaction involving the corporation or any majority-owned subsidiary that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation or any majority-owned subsidiary.

In general, Section 203 defines interested stockholder to be any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by any of these entities or persons.

A Delaware corporation may opt out of this provision either with an express provision in its original Certificate of Incorporation or in an amendment to its Certificate of Incorporation or Bylaws approved by its stockholders. We have not opted out of this provision. Section 203 could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company, N.A.

Listing

Our common stock is listed for trading on the NASDAQ Global Select Market under the trading symbol ETFC.

DESCRIPTION OF PREFERRED STOCK

This prospectus describes certain general terms and provisions of our preferred stock. When we offer to sell a particular series of preferred stock, we will describe the specific terms of the securities in a supplement to this prospectus. The prospectus supplement will also indicate whether the general terms and provisions described in this prospectus apply to the particular series of preferred stock. The preferred stock will be issued under a certificate of designation relating to each series of preferred stock and is also subject to our Certificate of Incorporation.

Under our Certificate of Incorporation, our board of directors has the authority to:

create one or more series of preferred stock;

issue shares of preferred stock in any series up to the maximum number of shares of preferred stock authorized; and

determine the preferences, rights, privileges and restrictions of any series.

Our board may issue authorized shares of preferred stock, as well as authorized but unissued shares of common stock, without further stockholder action, unless stockholder action is required by applicable law or by the rules of a stock exchange or quotation system on which any series of our stock may be listed or quoted.

The prospectus supplement will describe the terms of any preferred stock being offered, including:

the number of shares and designation or title of the shares;

Table of Contents

any liquidation preference per share;

any date of maturity;

any redemption, repayment or sinking fund provisions;

any dividend rate or rates and the dates of payment (or the method for determining the dividend rates or dates of payment);

any voting rights;

if other than the currency of the United States, the currency or currencies including composite currencies in which the preferred stock is denominated and/or in which payments will or may be payable;

the method by which amounts in respect of the preferred stock may be calculated and any commodities, currencies or indices, or value, rate or price, relevant to such calculation;

whether the preferred stock is convertible or exchangeable and, if so, the securities or rights into which the preferred stock is convertible or exchangeable, and the terms and conditions of conversion or exchange;

the place or places where dividends and other payments on the preferred stock will be payable; and

any additional voting, dividend, liquidation, redemption and other rights, preferences, privileges, limitations and restrictions.

All shares of preferred stock offered will be fully paid and non-assessable. Any shares of preferred stock that are issued will have priority over the common stock with respect to dividend or liquidation rights or both.

Our board of directors could create and issue a series of preferred stock with rights, privileges or restrictions which effectively discriminates against a then-existing or prospective holder of preferred stock as a result of the holder beneficially owning or commencing a tender offer for a substantial amount of common stock. One of the effects of authorized but unissued and unreserved shares of capital stock may be to make it more difficult or discourage an attempt by a potential acquirer to obtain control of our company by means of a merger, tender offer, proxy contest or otherwise. The issuance of these shares of capital stock may defer or prevent a change in control of our company without any further stockholder action.

The transfer agent for each series of preferred stock will be described in the relevant prospectus supplement.

DESCRIPTION OF DEBT SECURITIES

Our debt securities, consisting of notes, debentures or other evidences of indebtedness, may be issued from time to time in one or more series pursuant to, in the case of senior debt securities, a senior indenture, and in the case of subordinated debt securities, a subordinated indenture, in each case to be entered into between us and The Bank of New York Mellon Trust Company, N.A. as trustee. The senior indenture and the subordinated indenture are referred to herein as the indentures. The terms of our debt securities will include those set forth in the applicable indenture and those made a part thereof by the Trust Indenture Act of 1939, as amended.

Because the following is only a summary of selected provisions of the indentures and the debt securities, it does not contain all information that may be important to you. This summary is not complete and is qualified in its entirety by reference to the indentures and any supplemental

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

indentures thereto or officer's certificate or board resolution related thereto. We urge you to read the indentures because the indentures, not this description, define the rights of the holders of the debt securities. The senior indenture and the subordinated indenture will be substantially in the forms included as exhibits to the registration statement of which this prospectus is a part.

Table of Contents

General

The senior debt securities will constitute unsecured and unsubordinated obligations of ours and will rank pari passu with our other unsecured and unsubordinated obligations. The subordinated debt securities will constitute our unsecured and subordinated obligations and will be junior in right of payment to our Senior Indebtedness (including senior debt securities), as described under the heading **Certain Terms of the Subordinated Debt Securities Subordination**.

We conduct most of our operations through subsidiaries. Consequently, our ability to pay our obligations, including our obligation to pay principal or interest on the debt securities, to pay the debt securities at maturity or upon redemption or to buy the debt securities may depend on our subsidiaries repaying investments and advances we have made to them, and on our subsidiaries' earnings and their distributing those earnings to us. The debt securities will be effectively subordinated to all obligations (including trade payables and preferred stock obligations) of our subsidiaries. Our subsidiaries are separate and distinct legal entities and will have no obligation, contingent or otherwise, to pay any amounts due on the debt securities or to make funds available to us to do so. Our subsidiaries' ability to pay dividends or make other payments or advances to us will depend on their operating results and will be subject to applicable laws and regulatory and contractual restrictions. The indentures will not limit our subsidiaries' ability to enter into other agreements that prohibit or restrict dividends or other payments or advances to us.

The debt securities will be our unsecured obligations. Our secured debt and other secured obligations will be effectively senior to the debt securities to the extent of the value of the assets securing such debt or other obligations.

You should look in the prospectus supplement for any additional or different terms of the debt securities being offered, including the following terms:

the debt securities' designation;

the aggregate principal amount of the debt securities;

the percentage of their principal amount (i.e. price) at which the debt securities will be issued;

the date or dates on which the debt securities will mature and the right, if any, to extend such date or dates;

the rate or rates, if any, per year, at which the debt securities will bear interest, or the method of determining such rate or rates;

the date or dates from which such interest will accrue, the interest payment dates on which such interest will be payable or the manner of determination of such interest payment dates and the record dates for the determination of holders to whom interest is payable on any interest payment date;

the right, if any, to extend the interest payment periods and the duration of that extension;

the manner of paying principal and interest and the place or places where principal and interest will be payable;

provisions for a sinking fund purchase or other analogous fund, if any;

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

the period or periods, if any, within which, the price or prices at which, and the terms and conditions upon which the debt securities may be redeemed, in whole or in part, at our option or at your option;

the period or periods, if any, within which, the price or prices at which, and the terms and conditions upon which we may otherwise be required to redeem the debt securities;

the form of the debt securities;

Table of Contents

any provisions for payment of additional amounts for taxes and any provision for redemption if we must pay such additional amounts in respect of any debt security;

the terms and conditions, if any, upon which we may have to repay the debt securities early at your option;

the currency, currencies or currency units for which you may purchase the debt securities and the currency, currencies or currency units in which principal and interest, if any, on the debt securities may be payable;

the terms and conditions upon which conversion or exchange of the debt securities may be effected, if any, including the initial conversion or exchange price or rate and any adjustments thereto and the period or periods when a conversion or exchange may be effected;

whether and upon what terms the debt securities may be defeased;

any events of default or covenants in addition to or in lieu of those set forth in the indenture;

provisions for electronic issuance of debt securities or for debt securities in uncertificated form; and

any other terms of the debt securities, including any terms which may be required by or advisable under applicable laws or regulations or advisable in connection with the marketing of the debt securities.

We may from time to time, without notice to or the consent of the holders of any series of debt securities, create and issue further debt securities of any such series ranking equally with the debt securities of such series in all respects (or in all respects other than the payment of interest accruing prior to the issue date of such further debt securities or except for the first payment of interest following the issue date of such further debt securities); provided that if such additional debt securities are not fungible with the initial debt securities of such series offered hereby for U.S. federal income tax purposes, such additional debt securities will have a separate CUSIP number.

You may present debt securities for exchange and you may present debt securities for transfer in the manner, at the places and subject to the restrictions set forth in the debt securities and the applicable prospectus supplement. We will provide you those services without charge, although you may have to pay any tax or other governmental charge payable in connection with any exchange or transfer, as set forth in the indenture.

Debt securities will bear interest at a fixed rate or a floating rate. Debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate (original issue discount securities) may be sold at a discount below their stated principal amount. Certain U.S. federal income tax considerations applicable to any such discounted debt securities or to certain debt securities issued at par which are treated as having been issued at a discount for U.S. federal income tax purposes will be described in the applicable prospectus supplement.

We may issue debt securities with the principal amount payable on any principal payment date, or the amount of interest payable on any interest payment date, to be determined by reference to one or more currency exchange rates, securities or baskets of securities, commodity prices or indices. You may receive a payment of principal on any principal payment date, or a payment of interest on any interest payment date, that is greater than or less than the amount of principal or interest otherwise payable on such dates, depending on the value on such dates of the applicable currency, security or basket of securities, commodity or index. Information as to the methods for determining the amount of principal or interest payable on any date, the currencies, securities or baskets of securities, commodities or indices to which the amount payable on such date is linked and certain tax considerations will be set forth in the applicable prospectus supplement.

Certain Terms of the Senior Debt Securities

Covenants

Unless otherwise indicated in a prospectus supplement, the senior debt securities will not contain any financial or restrictive covenants, including covenants restricting either us or any of our subsidiaries from incurring, issuing, assuming or guarantying any indebtedness secured by a lien on any of our or our subsidiaries' property or capital stock, or restricting either us or any of our subsidiaries from entering into sale and leaseback transactions.

Consolidation, Merger and Sale of Assets

Unless we indicate otherwise in a prospectus supplement, we may not consolidate with or merge into any other person, in a transaction in which we are not the surviving corporation, or convey, transfer or lease our properties and assets substantially as an entirety to any person, unless:

the successor entity, if any, is a U.S. corporation, limited liability company, partnership or trust (subject to certain exceptions provided for in the senior indenture);

the successor entity assumes our obligations on the senior debt securities and under the senior indenture;

immediately after giving effect to the transaction, no default or event of default shall have occurred and be continuing; and

certain other conditions are met.

No Protection in the Event of a Change of Control

Unless otherwise indicated in a prospectus supplement with respect to a particular series of senior debt securities, the senior debt securities will not contain any provisions which may afford holders of the senior debt securities protection in the event we have a change in control or in the event of a highly leveraged transaction (whether or not such transaction results in a change in control).

Events of Default

An event of default for any series of senior debt securities is defined under the senior indenture as being:

our default in the payment of principal or premium on the senior debt securities of such series when due and payable whether at maturity, upon acceleration, redemption, or otherwise, if that default continues for a period of five days (or such other period as may be specified for such series);

our default in the payment of interest on any senior debt securities of such series when due and payable, if that default continues for a period of 60 days (or such other period as may be specified for such series);

our default in the performance of or breach of any of our other covenants or agreements in the senior indenture applicable to senior debt securities of such series, other than a covenant breach which is specifically dealt with elsewhere in the senior indenture, and that default or breach continues for a period of 90 consecutive days after we receive written notice from the trustee or from the holders of 25% or more in aggregate principal amount of the senior debt securities of such series;

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

there occurs any other event of default provided for in such series of senior debt securities;

a court having jurisdiction enters a decree or order for:

relief in respect of us in an involuntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect;

appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of us or for all or substantially all of our property and assets; or

the winding up or liquidation of our affairs and such decree or order shall remain unstayed and in effect for a period of 60 consecutive days; or

we:

commence a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consent to the entry of an order for relief in an involuntary case under any such law;

consent to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of ours for all or substantially all of our property and assets; or

effect any general assignment for the benefit of creditors.

The default by us under any other debt, including any other series of debt securities, is not a default under the senior indenture.

If an event of default other than an event of default specified in the last two bullet points above occurs with respect to a series of senior debt securities and is continuing under the senior indenture, then, and in each and every such case, either the trustee or the holders of not less than 25% in aggregate principal amount of such series then outstanding under the senior indenture (each such series voting as a separate class) by written notice to us and to the trustee, if such notice is given by the holders, may, and the trustee at the request of such holders shall, declare the principal amount of and accrued interest, if any, on such senior debt securities to be immediately due and payable.

If an event of default specified in the last two bullet points above occurs with respect to us and is continuing, either the trustee or the holders of not less than 25% in aggregate principal amount of the senior debt securities of all series then outstanding under the senior indenture (treated as one class) may, by written notice to us and to the trustee, if such notice is given by the holders, declare the entire principal amount of and accrued interest, if any, on each series of senior debt securities then outstanding to be immediately due and payable.

Upon a declaration of acceleration, the principal amount of and accrued interest, if any, on such senior debt securities shall be immediately due and payable. Unless otherwise specified in the prospectus supplement relating to a series of senior debt securities originally issued at a discount, the amount due upon acceleration shall include only the original issue price of the senior debt securities, the amount of original issue discount accrued to the date of acceleration and accrued interest, if any.

Upon certain conditions, declarations of acceleration may be rescinded and annulled and past defaults may be waived by the holders of a majority in aggregate principal amount of all the senior debt securities of such series affected by the default, each series voting as a separate class (or of all the senior debt securities, as the case may be, voting as a single class). Furthermore, subject to various provisions in the senior indenture, the holders of at least a majority in aggregate principal amount of a series of senior debt securities, by notice to the trustee, may waive an existing default or event of default with respect to such senior debt securities and its consequences, except a default in the payment of principal of or interest on such senior debt securities or in respect of a covenant or provision of the senior indenture which cannot be modified or amended without the consent of the holders of each such senior debt security. Upon any such waiver, such default shall cease to exist, and any event of default with respect to such senior debt securities shall be deemed to have been cured, for every purpose of the senior indenture; but no such waiver shall extend to any subsequent or other default or event of default or impair any right consequent thereto. For information as to the waiver of defaults, see Modification and Waiver.

Table of Contents

The holders of at least a majority in aggregate principal amount of a series of senior debt securities may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to such senior debt securities. However, the trustee may refuse to follow any direction that conflicts with law or the senior indenture, that may involve the trustee in personal liability, or that the trustee determines in good faith may be unduly prejudicial to the rights of holders of such series of senior debt securities not joining in the giving of such direction and may take any other action it deems proper that is not inconsistent with any such direction received from holders of such series of senior debt securities. A holder may not pursue any remedy with respect to the senior indenture or any series of senior debt securities unless:

the holder gives the trustee written notice of a continuing event of default;

the holders of at least 25% in aggregate principal amount of such series of senior debt securities make a written request to the trustee to pursue the remedy in respect of such event of default;

the requesting holder or holders offer the trustee indemnity satisfactory to the trustee against any costs, liability, or expense;

the trustee does not comply with the request within 60 days after receipt of the request and the offer of indemnity; and

during such 60-day period, the holders of a majority in aggregate principal amount of such series of senior debt securities do not give the trustee a direction that is inconsistent with the request.

These limitations, however, do not apply to the right of any holder of a senior debt security to receive payment of the principal of or interest, if any, on such senior debt security, or to bring suit for the enforcement of any such payment, on or after the due date for the senior debt securities, which right shall not be impaired or affected without the consent of the holder.

The senior indenture requires certain of our officers to certify, on or before a fixed date in each year in which any senior debt security is outstanding, as to their knowledge of our compliance with all conditions and covenants under the senior indenture.

Discharge and Defeasance

The senior indenture provides that, unless the terms of any series of senior debt securities provide otherwise, we may discharge our obligations with respect to a series of senior debt securities and the senior indenture with respect to such series of senior debt securities if:

we pay or cause to be paid, as and when due and payable, the principal of and any interest on all senior debt securities of such series outstanding under the senior indenture;

all senior debt securities of such series previously authenticated and delivered with certain exceptions, have been delivered to the trustee for cancellation and we have paid all sums payable by us under the senior indenture; or

the senior debt securities of such series mature within one year or all of them are to be called for redemption within one year under arrangements satisfactory to the trustee for giving the notice of redemption, and we irrevocably deposit in trust with the trustee, as trust funds solely for the benefit of the holders of the senior debt securities of such series, for that purpose, the entire amount in cash or, in the case of any series of senior debt securities payments on which may only be made in U.S. dollars, U.S. government obligations (maturing as to principal and interest in such amounts and at such times as will insure the availability of cash), sufficient, after payment of all federal, state and local taxes or other charges and assessments in respect thereof payable by the trustee, to pay principal of and interest on the senior debt securities of such series to maturity or redemption, as the case may be, and to pay all other

sums payable by us under the senior indenture.

Table of Contents

With respect to the first and second bullet points, only our obligations to compensate and indemnify the trustee and our right to recover unclaimed money held by the trustee under the senior indenture shall survive. With respect to the third bullet point, certain rights and obligations under the senior indenture (such as our obligation to maintain an office or agency in respect of such senior debt securities, to have moneys held for payment in trust, to register the transfer or exchange of such senior debt securities, to deliver such senior debt securities for replacement or to be canceled, to compensate and indemnify the trustee and to appoint a successor trustee, and our right to recover unclaimed money held by the trustee) shall survive until such senior debt securities are no longer outstanding. Thereafter, only our obligations to compensate and indemnify the trustee and our right to recover unclaimed money held by the trustee shall survive.

Unless the terms of any series of senior debt securities provide otherwise, on the 121st day after the date of deposit of the trust funds with the trustee, we will be deemed to have paid and will be discharged from any and all obligations in respect of the series of senior debt securities provided for in the funds, and the provisions of the senior indenture will no longer be in effect with respect to such senior debt securities (legal defeasance); provided that the following conditions shall have been satisfied:

we have irrevocably deposited in trust with the trustee as trust funds solely for the benefit of the holders of the senior debt securities of such series, for payment of the principal of and interest on the senior debt securities of such series, cash in an amount or, in the case of any series of senior debt securities payments on which can only be made in U.S. dollars, U.S. government obligations (maturing as to principal and interest at such times and in such amounts as will insure the availability of cash) or a combination thereof sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the trustee), after payment of all federal, state and local taxes or other charges and assessments in respect thereof payable by the trustee, to pay and discharge the principal of and accrued interest on the senior debt securities of such series to maturity or earlier redemption, as the case may be, and any mandatory sinking fund payments on the day on which such payments are due and payable in accordance with the terms of the senior indenture and the senior debt securities of such series;

such deposit will not result in a breach or violation of, or constitute a default under, the senior indenture or any other material agreement or instrument to which we are a party or by which we are bound;

no default or event of default with respect to the senior debt securities of such series shall have occurred and be continuing on the date of such deposit;

we shall have delivered to the trustee either an officer's certificate and an opinion of counsel that the holders of the senior debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of our exercising our option under this provision of the senior indenture and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred or a ruling by the Internal Revenue Service to the same effect; and

we have delivered to the trustee an officer's certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in the senior indenture relating to the contemplated defeasance of the senior debt securities of such series have been complied with.

Subsequent to the legal defeasance above, certain rights and obligations under the senior indenture (such as our obligation to maintain an office or agency in respect of such senior debt securities, to have moneys held for payment in trust, to register the exchange of such senior debt securities, to deliver such senior debt securities for replacement or to be canceled, to compensate and indemnify the trustee and to appoint a successor trustee, and our right to recover unclaimed money held by the trustee) shall survive until such senior debt securities are no longer outstanding. After such senior debt securities are no longer outstanding, only our obligations to compensate and indemnify the trustee and our right to recover unclaimed money held by the trustee shall survive.

Modification and Waiver

We and the trustee may amend or supplement the senior indenture or the senior debt securities without the consent of any holder:

to convey, mortgage or pledge any assets as security for the senior debt securities of one or more series;

to evidence the succession of another corporation to us, and the assumption by such successor corporation of our covenants, agreements and obligations under the senior indenture;

to cure any ambiguity, defect, or inconsistency in the senior indenture or in any supplemental indenture; provided that such amendments or supplements shall not adversely affect the interests of the holders of the senior debt securities of any series in any material respect, or to conform the senior indenture or the senior debt securities to the description of senior debt securities of such series set forth in this prospectus or a prospectus supplement;

to comply with the provisions described under *Certain Covenants Consolidation, Merger and Sale of Assets* ;

to evidence and provide for the acceptance of appointment hereunder by a successor trustee, or to make such changes as shall be necessary to provide for or facilitate the administration of the trusts in the senior indenture by more than one trustee;

to provide for or add guarantors with respect to the senior debt securities of any series;

to establish the form or forms or terms of the senior debt securities as permitted by the senior indenture;

to make any change that is necessary or desirable provided that such change shall not adversely affect the interests of the holders of the senior debt securities of any series in any material respect;

to add to our covenants new covenants, restrictions, conditions or provisions for the protection of the holders, and to make the occurrence, or the occurrence and continuance, of a default in any such additional covenants, restrictions, conditions or provisions an event of default;

to make any change to the senior debt securities of any series so long as no senior debt securities of such series are outstanding; or

to make any other change that does not adversely affect the rights of any holder.

Other amendments and modifications of the senior indenture or the senior debt securities issued may be made, and our compliance with any provision of the senior indenture with respect to any series of senior debt securities may be waived, with the consent of the holders of not less than a majority of the aggregate principal amount of the outstanding senior debt securities of all series affected by the amendment or modification (voting as one class); provided, however, that each affected holder must consent to any modification, amendment or waiver that:

Edgar Filing: E TRADE FINANCIAL Corp - Form 424B5

changes the stated maturity of the principal of, or any installment of interest on, any senior debt securities of such series;

reduces the principal amount of, or premium, if any, or interest on, any senior debt securities of such series;

changes the place or currency of payment of principal of, or premium, if any, or interest on, any senior debt securities of such series;

changes the provisions for calculating the optional redemption price, including the definitions relating thereto;

Table of Contents

changes the provisions relating to the waiver of past defaults or changes or impairs the right of holders to receive payment or to institute suit for the enforcement of any payment of any senior debt securities of such series on or after the due date therefor;

reduces the above-stated percentage of outstanding senior debt securities of such series the consent of whose holders is necessary to modify or amend or to waive certain provisions of or defaults under the senior indenture;

waives a default in the payment of principal of or interest on the senior debt securities;

adversely affects the rights of such holder under any mandatory redemption or repurchase provision or any right of redemption or repurchase at the option of such holder; or

modifies any of the provisions of this paragraph, except to increase any required percentage or to provide that certain other provisions cannot be modified or waived without the consent of the holder of each senior debt security of such series affected by the modification.

It shall not be necessary for the consent of the holders under this section of the senior indenture to approve the particular form of any proposed amendment, supplement or waiver, but it shall be sufficient if such consent approves the substance thereof. After an amendment, supplement or waiver under this section of the senior indenture becomes effective, the trustee must give to the holders affected thereby certain notice briefly describing the amendment, supplement or waiver. We will mail supplemental indentures to holders upon request. Any failure by the trustee to give such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such supplemental indenture or waiver.

No Personal Liability of Incorporators, Stockholders, Officers, Directors

The senior indenture provides that no recourse shall be had under or upon any obligation, covenant, or agreement of ours in the senior indenture or any supplemental indenture, or in any of the senior debt securities or because of the creation of any indebtedness represented thereby, against any incorporator, stockholder, officer or director of ours or of any successor person thereof under any law, statute or constitutional provision or by the enforcement of any assessment or by any legal or equitable proceeding or otherwise. Each holder, by accepting the senior debt securities, waives and releases all such liability.

Concerning the Trustee

The senior indenture provides that, except during the continuance of a default, the trustee will not be liable, except for the performance of such duties as are specifically set forth in the senior indenture. If an event of default has occurred and is continuing, the trustee will exercise such rights and powers vested in it under the senior indenture and will use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

We have normal banking relationships with the trustee under the senior indenture in the ordinary course of business.

Unclaimed Funds

All funds deposited with the trustee or any paying agent for the payment of principal, interest, premium or additional amounts in respect of the senior debt securities that remain unclaimed for two years after the maturity date of such senior debt securities will be repaid to us upon our request. Thereafter, any right of any noteholder to such funds shall be enforceable only against us, and the trustee and paying agents will have no liability therefor.

Table of Contents

Governing Law

The senior indenture and the debt securities will be governed by, and construed in accordance with, the internal laws of the State of New York.

Certain Terms of the Subordinated Debt Securities

Other than the terms of the subordinated indenture and subordinated debt securities relating to subordination, or otherwise as described in the prospectus supplement relating to a particular series of subordinated debt securities, the terms of the subordinated indenture and subordinated debt securities are identical in all material respects to the terms of the senior indenture and senior debt securities. Additional or different subordination terms may be specified in the prospectus supplement applicable to a particular series.

Subordination

The indebtedness evidenced by the subordinated debt securities is subordinate to the prior payment in full of all our Senior Indebtedness, as defined in the subordinated indenture. During the continuance beyond any applicable grace period of any default in the payment of principal, premium, interest or any other payment due on any of our Senior Indebtedness, we may not make any payment of principal of, or premium, if any, or interest on the subordinated debt securities. In addition, upon any payment or distribution of our assets upon any dissolution, winding up, liquidation or reorganization, the payment of the principal of, or premium, if any, and interest on the subordinated debt securities will be subordinated to the extent provided in the subordinated indenture in right of payment to the prior payment in full of all our Senior Indebtedness. Because of this subordination, if we dissolve or otherwise liquidate, holders of our subordinated debt securities may receive less, ratably, than holders of our Senior Indebtedness. The subordination provisions do not prevent the occurrence of an event of default under the subordinated indenture.

The term **Senior Indebtedness** of a person means with respect to such person the principal of, premium, if any, interest on, and any other payment due pursuant to any of the following, whether outstanding on the date of the subordinated indenture or incurred by that person in the future:

all of the indebtedness of that person for money borrowed, including any indebtedness secured by a mortgage or other lien which is (1) given to secure all or part of the purchase price of property subject to the mortgage or lien, whether given to the vendor of that property or to another lender, or (2) existing on property at the time that person acquires it;

all of the indebtedness of that person evidenced by notes, debentures, bonds or other securities sold by that person for money;

all of the lease obligations which are capitalized on the books of that person in accordance with generally accepted accounting principles as in effect on the date of the subordinated indenture;

all indebtedness of others of the kinds described in the first two bullet points above and all lease obligations of others of the kind described in the third bullet point above that the person, in any manner, assumes or guarantees or that the person in effect guarantees through an agreement to purchase, whether that agreement is contingent or otherwise; and

all renewals, extensions or refundings of indebtedness of the kinds described in the first, second or fourth bullet point above and all renewals or extensions of leases of the kinds described in the third or fourth bullet point above;

unless, in the case of any particular indebtedness, lease, renewal, extension or refunding, the instrument or lease creating or evidencing it or the assumption or guarantee relating to it expressly provides that such indebtedness, lease, renewal, extension or refunding is not superior in right of payment to the subordinated debt securities. Our senior debt securities constitute Senior Indebtedness for purposes of the subordinated debt indenture.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase our debt or equity securities or securities of third parties or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing. Warrants may be issued independently or together with any other securities and may be attached to, or separate from, such securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent. The terms of any warrants to be issued and a description of the material provisions of the applicable warrant agreement will be set forth in the applicable prospectus supplement.

DESCRIPTION OF PURCHASE CONTRACTS

We may issue purchase contracts for the purchase or sale of:

debt or equity securities issued by us or securities of third parties, a basket of such securities, an index or indices or such securities or any combination of the above as specified in the applicable prospectus supplement;

currencies; or

commodities.

Each purchase contract will entitle the holder thereof to purchase or sell, and obligate us to sell or purchase, on specified dates, such securities, currencies or commodities at a specified purchase price, which may be based on a formula, all as set forth in the applicable prospectus supplement. We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable or, in the case of purchase contracts on underlying currencies, by delivering the underlying currencies, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, currencies or commodities and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract.

The purchase contracts may require us to make periodic payments to the holders thereof or vice versa, which payments may be deferred to the extent set forth in the applicable prospectus supplement, and those payments may be unsecured or prefunded on some basis. The purchase contracts may require the holders thereof to secure their obligations in a specified manner to be described in the applicable prospectus supplement. Alternatively, purchase contracts may require holders to satisfy their obligations thereunder when the purchase contracts are issued. Our obligation to settle such pre-paid purchase contracts on the relevant settlement date may constitute indebtedness. Accordingly, pre-paid purchase contracts will be issued under either the senior indenture or the subordinated indenture.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of one or more purchase contracts, warrants, debt securities, shares of preferred stock, shares of common stock or any combination of such securities.

Table of Contents

FORMS OF SECURITIES

Each debt security, warrant and unit will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. Certificated securities in definitive form and global securities will be issued in registered form. Definitive securities name you or your nominee as the owner of the security, and in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the trustee, registrar, paying agent or other agent, as applicable. Global securities name a depository or its nominee as the owner of the debt securities, warrants or units represented by these global securities. The depository maintains a computerized system that will reflect each investor's beneficial ownership of the securities through an account maintained by the investor with its broker/dealer, bank, trust company or other representative, as we explain more fully below.

Global Securities

We may issue the registered debt securities, warrants and units in the form of one or more fully registered global securities that will be deposited with a depository or its nominee identified in the applicable prospectus supplement and registered in the name of that depository or nominee. In those cases, one or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of the securities to be represented by registered global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a registered global security may not be transferred except as a whole by and among the depository for the registered global security, the nominees of the depository or any successors of the depository or those nominees.

If not described below, any specific terms of the depository arrangement with respect to any securities to be represented by a registered global security will be described in the prospectus supplement relating to those securities. We anticipate that the following provisions will apply to all depository arrangements.

Ownership of beneficial interests in a registered global security will be limited to persons, called participants, that have accounts with the depository or persons that may hold interests through participants. Upon the issuance of a registered global security, the depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal or face amounts of the securities beneficially owned by the participants. Any dealers, underwriters or agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a registered global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some states may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in registered global securities.

So long as the depository, or its nominee, is the registered owner of a registered global security, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the securities represented by the registered global security for all purposes under the applicable indenture, warrant agreement or unit agreement. Except as described below, owners of beneficial interests in a registered global security will not be entitled to have the securities represented by the registered global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the applicable indenture, warrant agreement or unit agreement. Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depository for that registered global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the applicable indenture, warrant agreement or unit agreement. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security

Table of Contents

desires to give or take any action that a holder is entitled to give or take under the applicable indenture, warrant agreement or unit agreement, the depositary for the registered global security would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Principal, premium, if any, and interest payments on debt securities, and any payments to holders with respect to warrants or units, represented by a registered global security registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of the registered global security. None of E*TRADE, the trustee, any warrant agent, unit agent or any other agent of E*TRADE, agent of the trustee or agent of such warrant agent or unit agent will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the depositary for any of the securities represented by a registered global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other property to holders of that registered global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that registered global security as shown on the records of the depositary. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of those participants.

If the depositary for any of these securities represented by a registered global security is at any time unwilling or unable to continue as depositary or ceases to be a clearing agency registered under the Exchange Act, and a successor depositary registered as a clearing agency under the Exchange Act is not appointed by us within 90 days, we will issue securities in definitive form in exchange for the registered global security that had been held by the depositary. Any securities issued in definitive form in exchange for a registered global security will be registered in the name or names that the depositary gives to the relevant trustee, warrant agent, unit agent or other relevant agent of ours or theirs. It is expected that the depositary's instructions will be based on directions received by the depositary from participants with respect to ownership of beneficial interests in the registered global security that had been held by the depositary.

SELLING SECURITY HOLDERS

Selling security holders, including their transferees, pledgees or donees or their successors (all of whom may be selling security holders), may from time to time offer and sell pursuant to this prospectus any or all of the securities. When we refer to the selling security holders in this prospectus, we mean the selling security holders we may name in a prospectus supplement, as well as their respective transferees, pledgees or donees or their successors.

If any securities are sold pursuant to this prospectus by any persons other than us, we will, in a prospectus supplement, name the selling security holders, indicate the nature of any relationship such holders have had with us or any of our affiliates during the three years preceding such offering, state the amount of securities of the class owned by such security holder prior to the offering and the amount to be offered for the security holder's account, and state the amount and (if one percent or more) the percentage of the class to be owned by such security holder after completion of the offering.

Table of Contents

PLAN OF DISTRIBUTION

We or selling security holders may sell the securities being offered hereby in any of the following manners or any manner specified in a prospectus supplement:

directly to purchasers;

through agents;

through underwriters; and

through dealers.

We or any selling security holder may directly solicit offers to purchase securities, or agents may be designated to solicit such offers. We will, in the prospectus supplement relating to such offering, name any agent that could be viewed as an underwriter under the Securities Act and describe any commissions that we or any selling security holder must pay. Any such agent will be acting on a best efforts basis for the period of its appointment or, if indicated in the applicable prospectus supplement, on a firm commitment basis. Agents, dealers and underwriters may be customers of, engage in transactions with, or perform services for us or any selling security holder in the ordinary course of business.

If any underwriters or agents are utilized in the sale of the securities in respect of which this prospectus is delivered, we and, if applicable, any selling security holder will enter into an underwriting agreement or other agreement with them at the time of sale to them, and we will set forth in the prospectus supplement relating to such offering the names of the underwriters or agents and the terms of the related agreement with them.

If a dealer is utilized in the sale of the securities in respect of which the prospectus is delivered, we or the selling security holder, as applicable, will sell such securities to the dealer as principal. The dealer may then resell such securities to the public at varying prices to be determined by such dealer at the time of resale.

Remarketing firms, agents, underwriters and dealers may be entitled under agreements which they may enter into with us to indemnification by us and by any selling security holder against certain civil liabilities, including liabilities under the Securities Act, and may be customers of, engage in transactions with or perform services for us or any selling security holder in the ordinary course of business.

In order to facilitate the offering of the securities, any underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the securities or any other securities the prices of which may be used to determine payments on such securities. Specifically, any underwriters may overallocate in connection with the offering, creating a short position for their own accounts. In addition, to cover overallocations or to stabilize the price of the securities or of any such other securities, the underwriters may bid for, and purchase, the securities or any such other securities in the open market. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. Any such underwriters are not required to engage in these activities and may end any of these activities at any time.

Any underwriter, agent or dealer utilized in the initial offering of securities will not confirm sales to accounts over which it exercises discretionary authority without the prior specific written approval of its customer.

The selling security holders may also transfer, devise or gift the securities by other means not described in this prospectus. Furthermore, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 or other exemptions from registration under of the Securities Act may be sold pursuant to such exemption rather than pursuant to this prospectus.
