Risk Factors:

The Risk Factors section in the prospectus supplement is hereby amended by adding the following:

The terms of the Company's and its subsidiaries' current indebtedness contain, and the terms of their future indebtedness may contain, covenants that restrict the Company and its subsidiaries' current and future operations, which may limit the Company and its subsidiaries' ability to engage in activities that may be in our and their interest, and a failure by the Company or its subsidiaries to comply with those covenants may materially adversely affect the business, results of operations and financial condition of the Company and its subsidiaries.

The Credit Agreement contains, and any future indebtedness the Company or any of its subsidiaries may incur may contain, a number of restrictive covenants that may impose significant operating and financial restrictions on the Company's and/or its subsidiaries' ability to, among other things: (i) incur or guarantee additional debt; (ii) pay dividends and make other restricted payments and investments; (iii) create or incur certain liens; (iv) make certain loans, acquisitions, advances or investments; (v) engage in sales of assets and subsidiary stock; and (vi) transfer all or substantially all of our assets or enter into merger or consolidation transactions. The 2020 Notes contain, and the Notes will contain, restrictive covenants that, among other things, restrict the Company's ability and the ability of the Company's subsidiaries to dispose of or incur liens on the voting stock of certain subsidiaries. In addition, the Credit Agreement contains certain financial covenants applicable to us and our bank subsidiaries (of which we presently have one, Banc of California, N.A.).

The Company's and its subsidiaries' existing and future debt covenants may limit the Company's and its subsidiaries' ability to engage in activities that may be in the Company's and its subsidiaries' long-

term best interests. A failure to comply with the Company's or its subsidiaries' debt covenants could result in an event of default that, if not cured or waived, could have a material adverse effect on the business, results of operations and financial condition of the Company and its subsidiaries, on the Company's ability to pay dividends on the Preferred Stock and on the value of your investment. If the Company or any of its subsidiaries defaults under their respective indebtedness, the Company and its subsidiaries may not be able to borrow additional amounts and the applicable lenders could elect to declare all outstanding borrowings, together with accrued and unpaid interest and fees, to be due and payable, or take other remedial actions. The 2020 Notes contain, the Notes will contain and future indebtedness of the Company and its subsidiaries may contain, cross-default provisions or cross-acceleration provisions, which means that if an event of default occurs under certain material indebtedness, such event of default may trigger an event of default under the Company's or its subsidiaries' other indebtedness. If our indebtedness were to be accelerated, we cannot assure you that our assets would be sufficient to repay such indebtedness in full.
